Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

There have been very few reported issues with dog walkers having multiple dogs off leash. The "evidence" Council uses to report that Aucklanders have concern about dog walkers creating a nuisance and distress to the pubic is anecdotal and not supported by the number of reports made to Animal Control or Council. The current bylaw requires dogs to be under control while on leash and while off leash at all times. Dog owners who pay to have their dogs walked are, for the most part, responsible owners who invest quite a bit of money in their dog’s welfare and registration. When paying for dogs to be walked, they expect professional behaviour and a high level of experience from dog walkers - therefore dogs not able to be under control are on usually on a leash and those that are under control can be off leash. This is dog-dependent and putting a number on how many can be on leash and how many off leash is arbitrary at best. I have not seen any evidence base cited by the Council as to how they came up with these arbitrary numbers. Given that owners invest heavily in paying for dog walking it is also our expectation that our dog's safety is considered at all times by the walker ie; dogs in the group that are new or are not under control are on leash. Putting these arbitrary numbers in the bylaw will likely result in in dog walkers reducing numbers and thereby having to increase prices. Dog owners will then likely have to reduce the number of walks each week or stop them altogether; we invest in professional dog walkers in order to ensure our dogs health and wellbeing. This proposed change unfairly targets professional dog walkers, there are many owners who walk their dogs both on and off leash whose dogs are not under control and cause a nuisance and create distress. I walk my dog approximately 10 times a week and have never had any issue with other dogs being walked by a dog walker. All the issues I have had have been caused by dogs being walked by their owners. It is unclear how Council intends to enforce the proposed bylaw. Animal Control do not seem to have capacity to investigate or enforce the bylaw as it now and Auckland (particularly South Auckland) has a huge problem with roaming dogs causing genuine distress to the public, including responsible dog owners. Animal Control does not even seem to have capacity to address the huge problem with unregistered dogs either. This proposed change appears to be punitive towards responsible dog owners and professional dog walkers. Please address the very real safety concern responsible dog owners like myself have with roaming aggressive dogs, rather than fund this punitive bylaw that impacts responsible dog owners. Our dog registration fees should go towards issues that impact our dogs, like

keeping them safe from roaming dogs and expanding access to public places, they should not be spent on legislating against profession dog walkers, when the current bylaw already states dogs must be under control at all time on or off leash, no matter who is accompanying them.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Responsible Dog Ownership: Many dog owners who hire professional walkers are responsible and invest significantly in their dogs' welfare, including registration and immunisations. We expect exacting standards of professionalism and care from our dog walkers, including ensuring that only well-controlled dogs are off leash.

Use of Registration Fees: Dog registration fees should be allocated towards creating dog-friendly spaces and ensuring public safety, rather than targeting responsible dog walkers. Focus and finance should target those owners with dogs roaming, dogs who are unregistered, dogs who are aggressive and dogs who are poorly treated. Focusing on owners who are showing responsibility is counter productive.

I would like to see the 6 dog limit for private dog owners, but registered dog walking businesses should not be limited to these numbers nor to only having 3 dogs off leash. I would like to see these businesses licensed, with some sort of competency test to show they can handle multiple dogs off lead at a time.

For dogs to be good members of society, it is critical to have large spaces where they can go to burn off energy and interact with other dogs. Reducing the off lead area so significantly at the Botanic Gardens would be a massive blow to dog owners in the area

Instead of punishing responsible dog walking businesses, we should look to regulate WHO can walk multiple dogs. The PWDA in the UK has some standard regulation and registration requirements that are "out of the box ready" and would enable a fair approach while maintaining safety and comfort for all Aucklanders.

I do not agree with placing a limit on jumber of dogs walked, because if it is done in the right place and by responsible walkers it is safe, good for the animals, and enables small businesses to operate. A restryon number of dogs will lead to responsible walkers going out of buainess, or changing their walks to shorter and/or more expensive services, impacting the people who are able to access these services and impacting animal wellbeing.

It is councils job to find a reasoned and balanced approach to community issues, not to panic and restrict activities because of a few loud voices.

Support amendment 1.

Amendment 2a is reasonable provided events are one-two days, not ongoing for long periods.

Strongly oppose 2b - an additional and separate consultation ahould be required before changing the rulea for this area, as it provides one of the only public spaces where dog owners can sensibly walk off leash and allow socialisation of dogs. Many non dog owners also come.to this area to meet dogs or to help children become acustomed to animals without fear. A change to this, if it is decided it may be required, should involve specific consultation with the south Auckland community it impacts once any development plans are proposed.

Mostly agree with 3, but given the water bodies are predominantly in on-leash areas, there is no need to specify excluaion zones around water bodies. It is already the case that dogs are not allowed in these water bodies, further extension of the exclusion zone is unnecessary and prevents dog walkers from gaining reasonable access and enjoyment to the gardens.

Tell us why

The change from under control on leash during the day to prohibited during the summer season is unreasonable and extreme. Dog owners should be allowed enjoyment of these spaces, and keeping dog on leash and under control surely already accomodates the needa of other beach users.

Continuing to erode and restrict dog walking areas to cater to the comfort of other users only serves to increase the anxiety and fear of animals that many people grow up with. Having safe dog walking so that others (especially children) have a chance to encounter friendly dogs safely helps teach thwm there is nothing to fear and that animals deserve our care. Knee jerk reactions and reatrictions will only make it harder for non-dog owners to safely encounter dogs, and lead to more fear and harm.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Central park

What local board area is this location in?

Papakura

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:Large open grassy areas (not including play area)

What is the main reason you want to change the current dog access rule?

Allow under control off leash in the large open grasses areas outside of sports season and within time limits(e.g. before 10am and after 6pm).

Something as simple as a.place to throw a ball means heaps, and cant be done on leash, but doea not impact other users of the park. Generally these areas are empty other than dog walkers circling the perimeter. Changing to a seasonal rule would positively impact the community.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Please please stop further and further restricting dog access to public spaces. As dog ownerahip increases, reatricting access to local parks and spaces will only lead to animal harm, abandonment, dogs escaping or left to wander unsafely, and people breaking the rules (if they see they are unfair).

Council seems to respond much more forcefully when complainta are made by non dog owners, and it feels like dog owners and reaponsible walkers are not heard over these biased voices.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I am a dog walker. I currently walk 7 to 8 dogs off leash. I have worked hard with my dogs to ensure that we are not a nuisance to anyone. We walk at Totara Park, and we choose tracks where we are less likely encounter other park users. When we do see other people and dogs, we will either stay on one side of the track to allow them to pass, or move off the track completely. I often have people stop to compliment my dogs on their good behavior. I know there are many other dog walkers like myself working hard in Auckland to give their dogs the best experience possible, while using their discernment to not upset others in those spaces. If this bylaw change happens, it means I will have to reduce the numbers of dogs in my walks and raise prices for the others. And because half of them will have to be on leash, my clients will be paying more for an inferior walk. When dogs are off leash, they're able to move at a pace that is comfortable for them, and they get much more enrichment from being able to sniff around and stimulate their brains than they do from exercise alone. Some dogs can become fearful or aggressive on leash as they don't have the ability to run from danger if they feel threatened, therefore they overreact to any potential threat. But besides the impacts this bylaw change would have on me, my clients and my dogs, I truly don't believe it will solve the dog-related problems facing Aucklanders. Those who currently do not have their dogs under control will ignore this bylaw. The only ones who will be punished are those who are already doing their utmost to give Auckland dogs great quality of life without upsetting anyone else.

Thank you so much for your time, consideration, and the hard work you do.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

by limiting the number of dogs allowed you are restricting someone's livelihood. those who do this professionally know how to control the dogs in their care. I don't like the idea if more red tape however maybe a better option is that if a dog walker wants more dogs at one time they can apply for a special permit . One of the criteria being they have no record of complaints against them.

Please don't make any more restrictions to tupuna maunga and public parks. Dog owners love their dogs and most are responsible. To restrict access to dogs means restricting a loved family member, and as in our case restricts where our autistic son can go with his support animal.

I mostly agree with the proposed changes except for prohibiting dogs from the potter children's garden. When we walk as a family and enjoy a day out at the gardens we take our family pet. To then be allowed to walk most places but not be allowed in there means our family would have to be split up. Our kids have always enjoyed the children's area and this proposal would disappoint all of us. This seems unreasonable, especially if dogs can be under control at all times. This is the same as the cultivated garden areas. To split a family up would be an absolute shame. We love our sog and as he is also a support for our autistic son, to then deny our dog access when we are having a family day out is extremely disappointing.

It is a lovely walk but restricts us as we have a dog we would love to take. Our dog is a support dog for our autistic son altho not officially so therefore is currently prohibited. Heavy fines could be imposed on those owners who do not keep dogs under control

It is very restrictive when travellings around the city on where we can go and walk with our sog. If we want a day out we cannot take him a lot of places. I would love to see a relaxing of places where dogs are prohibited.

I would ask the council to provide more details on the "on-leash" and "off-leash" areas. For example, the Brylee Drive Reserve in Conifer Grove, South Auckland. It had a board saying the "north side" is off-leash, the instruction is rather broad and is unclear where exactly the start and end point is. Often it confuses the neighbours and users of the park,

and at times it creates unpleasant encounters between 2 dogs and their owners arguing about the "on/off leash" area. I would suggest having more signs to show the "off-leash" area, so all park users know. Thank you.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Tell us why

It is ridiculous that companies feel that they can safely walk a group of dogs. I even feel that 6 dogs is a lot for one person to handle on their own, especially if they are 6 large dogs. Dogs react differently when they are in a pack and I feel that pack walkers should be regulated and the definitely support the lowering of dog numbers.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

You are restricting people's income by doing this, I have a number of friends who are dog walkers who rely on having multiple dogs on a walk to make ends meat,

Maybe concern yourselves with the shity dog owners

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

It is hard enough to try withstand holding a few dogs back on leash let alone 6. 4 is still pushing it but definitely a much more obtainable number to to control if properly trained in k9 handling. Definitely no more than 2 off leash as this would make it far to hard to try gather up multiple dogs running around

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

We have personally had both of our current dogs walked/taken care of as part of a “pack walk”. Had it not been for this type of business, we don’t think our dogs would have become as well-behaved, social, loving, obedient as they are now. This business, is trusted and walks numerous dogs at a time and she and her other handlers are 110% ALWAYS under control. These amendments would have an adverse affect on dogs as a whole, as it will put a roadblock between dogs becoming more SOCIABLE which is the real problem in Auckland/NZ.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

3 dogs are hard enough to handle off leash and unless the dog walker has total control over all the dogs they are walking anything can happen and I just don't want to see another human bitten up by a dog being walled and the dog walker didn't have control over the animal. I think that walking 3 dogs at a time will would be more convenient for other dog walkers, walking there dog.

Menacing dogs are not all the same. More like meaning owners. Menacing dogs are able to show love and give love. I have seen first hand how much a menacing dog had been a close companion to someone that has needed there company. They are loyal and able to follow directions. I have been around 3 different menacing dogs for the past 16 years and not once has either dog attacked any human, but because there breed is classed as menacing they have the reputation of looking like they will attack.

Yes. I would want this to change. Make everything clearer especially the fines for dog owners! Council should consider number of offences before fine is sent (especially minor ones e.g, dog approaching other dogs which is pretty normal but other dog owners will complained about)

Clarify rule that all dogs classified as menacing must be to neuter:

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

I have 2 key points that I wanted to improve on existing policies:

1. Reconsider warning instead of fine immediately for minor offences like dogs running to other dogs only to say hi as this can get abused by other owners especially those small dog owners. Their dogs bark too much and will get the attention of other dogs and they react negatively when other dogs approach their dogs.

Consider warning at 1st & 2nd offencd (again minor, dogs saying hi and sniffing) and fine in the 3rd instance.

2. Increase council off leash dog parks which are secured

Tell us why

Dogs have a pack mentality & a large group of them can rile each other up & it can become dangerous for small dogs, cats & young children. There are irresponsible dog walkers out there who don't have training & understand how to best manage dogs, so limiting the number of dogs being walked now puts a legal boundary in place to protect the community from the irresponsible dog walkers.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

The number of dogs off leash should be reduced as a dog owner/walker cannot fully control off leash behaviour. Hence, I am in favour of the change.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Shakespear Regional Park,Tāwharanui Regional Park,Te Ārai Regional Park,Waitawa Regional Park,Wenderholm Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

Tell us why

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Pākiri Regional Park

We are proposing to prohibit dogs on the associated beach (currently off-leash).

What do you think of this proposed change?

Tell us why

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

I support the proposed change

Tell us why

If owners can keep their dogs on leash and pick up after them, then there will be more options to take your dogs to regional parks.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

Tell us why

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

If a dog is on leash and under control, I believe they could be allowed in the regional Park. Even through there are kiwi birds, this should not be an issue if the dogs and walkers stay on tracks.

Te Ārai Regional Park

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

I support the proposed change

Tell us why

Good change to allow dogs on leash.

Waitawa Regional Park

We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

What do you think of this proposed change?

I support the proposed change

Tell us why

I agree that dogs should not be allowed on paddocks.

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I support the proposed change

Tell us why

An improved change to allow dogs in the park

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

We need stricter rules and laws on dog ownership and harsher penalties for not adhering to them. It’s beginning to be a real issue. We need to address it before it gets out of hand. It’s not only beginning to be unsafe for other animals but also for little kids and elderly.

I support the general public to have a restriction and that would be maximum of four dogs, no more than two off-leash.

However, I would support professional dog walkers to have a licence or similar that they could present to a council enforcement officer or similar when required. Professional dog walkers know and care for those they are responsible for. They have a heightened social awareness when out with dogs. The alternative with this restriction, could be dogs otherwise cared for during the day, being left at home unattended.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

six dogs are not easily controlled compared to four

if dogs are off leash people must be able to keep an eye on all as well as keeping them under control

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Other (please explain below)

Tell us why

I don't believe a person can take full control of multiple dogs, especially off leads.

I would suggest an absolute maximum of three dogs on leads (preferably 2, and none off leads) with the ability for the Owner/walker to sit a test similar to "the responsible dog owner" certificate and which would test how effective that person applying is at controlling multiple dogs, then if they pass, allow extra dogs with one or two off leads. The size of the dogs should also be a consideration. I love dogs and have two myself, but know however gentle owners believe their dogs to be, there is still a slim chance something may set that dog off. I have seen numerous people not able to control just 2 large dogs on leads, let alone including any off a lead.

ALL areas (possibly excluding rural working farm dogs?) where people keep multiple dogs on a property should by law hold a license. This is a big part of being a responsible dog owner. The license should be free (or minimal cast) to ensure there is no excuse.

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

An all-out ban is very nanny state, and those who we need to follow the rules simply won't. It is just punishing people who CAN handle it and have brilliant companies running dogs off leash already. I would support people who handle more than 8 at a time needing a license, that makes more sense that banning the idea entirely.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

There are so few places for us to legally and correctly exercise our dogs. Rather than shoving dogs and dog owners into corners, why not make spaces more accesible to educate the pubilc and owners on dog ownership and correct dog behaviour. Again, a license to take dogs off-lead in areas or parks could be an idea. Owners can get a license (not some silly annual thing, for the life of the dog), to take their dog in spaces such as parks.

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

No change to current Policy (dog access) rules

There is already only a tiny corner of the Botanic Gardens that dogs are allowed in. Its a place we go to for training and educating our dogs, where else can we do this if you keep cutting our spaces out? I don't see why dogs can't be onlead in other areas, it makes access impossible to the offleash area if you prohibit dogs entirely.

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

Dog ownership in Auckland is already so, so hard. We have to pay annual fees yet can't take our dogs anywhere. My family come from Holland, England and Switzeraland and are always at amazed at the strict rules around dogs. If we are goign to pay through the nose to own our dogs, we should be able to take them out in society. What you are creating here is a soceity in which dogs and their owners are shoved into a corner, dogs are seen as a menace and a problem before being proven as such. Why not, instead, allow and encourage dogs and dog owners to be a part of our society? If not, drop the registration fees, as what are we paying for exactly???

Again, a license to take dogs off-lead in areas or parks could be an idea. Owners can get a license (not some silly annual thing, for the life of the dog), to take their dog in spaces such as parks. A collar or tag for dogs who are 'behaviour tested' could be allowed in areas, ensuring that responsbile dog ownership is encouraged.

In essence, give access or drop the registration fees!

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Do not support

Tell us why

None of these rules are addressing the real issues of our streets not being a safe place to walk our dogs on. In Papakura the streets are crawling in loose un neutered and unspayed dogs that are dangerous. We have to take our dog out of area to a park to walk it safely. These rules are just making it harder for good dog owners to exercise their dogs. We need rules to make all pit bulls have to be neutered and spayed and any dog found roaming to have to be spayed. Only registered breeders should be aloud unspayed un neutered dogs. We need more areas to exercise our dogs, not less. I am not safe on our streets in Papakura and alot of the dogs climb out of their properties because they are not being walked. There are no consequences and the same dogs are out week after week.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

All dogs should be neutered unless they have a registered breeder. It is no good after they hurt or threaten anyone. You need to help keep us safe. This law will not do it.

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

Yes we need strong laws that stop the strays running the streets and threatening and attacking our pets. We need to stop the breeding of them and neuter them all and take them from their owners if this happens repeatedly. We need to breed out pitbulls and other dangerous breeds. Please do something that really helps. Sending out your dog control officers to pick them up does not help as they just run off. And then they end up back with the owners. I am paying my dog fees but cannot exercise my dog safely in our area. We are not safe

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I think most dog walking professionals have a good control of their dogs and it would be sad to see businesses go down hill for this reason . I 100% agree with they need to be under control at all times and don't let them off if they don't have 100% recall . Some people own more then 3 dogs and to not allow them to play with each other is not fair

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Not sure on the term menacing and what it's refers to whether it's breed specific (do not agree with that) or if it's roaming dogs in general . I do believe all dogs should be neutered there should be a license to breed to put an end to countless roaming and homeless dogs . It's dangerous walking your own dogs on leash in many places in south Auckland due to roaming dogs .

Yes this needs clarification . I've been to a council palpating / working farm and on the council website it's says dogs allowed on leash only . I drove there an hour away from my house and it had signs saying strictly no dogs allowed . Very confusing . I rung and the council assured me dogs were allowed on leash but the signs said otherwise . (Puhinui reserve)

Do you have any further comments on the proposed policy and bylaw changes?

Dogs should be allowed to go anywhere controlled and on lead in America they are allowed in stores and shopping malls, public transport , cafes . We need to be a more dog friendly country . We need to keep on top of roaming dogs . By that I don't mean killing all the roaming dogs but maybe welfare checks on repeat offenders for roaming and desexing every roaming dog that gets picked up . I don't believe there is an issue with the amount

of dogs being walked at once I think if a space says off lead then dogs can be controlled off lead and if it says on lead then people just need to adhere to the rules . I do believe pack walking dogs can be dangerous but I also believe the a person can know 10 dogs and have full control of them.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

This will severely impact the business that provide these services and would mean additional cost in order to facilitate these services.

I think that under normal circumstances implementing a rule that gives specific areas that can be used for multiple dog off leash activities and more importantly there being an incident response process with the appropriate accountabilities for the dog walking company. Having these in place will put more onus on the walking companies to understand the nature of the dogs using their service and then deal with them appropriately.

I also believe that there needs to be accountability on the public as well, going to a dog off leash area and then complaining about off leash dogs is unacceptable and should be dealt with that way.

Do you have any further comments on the proposed policy and bylaw changes?

I believe that there should not be access restrictions given to dogs seeing as that there are no restrictions or accountabilities for cat owners. The reference to seabirds as a reason for restriction when there are no restrictions for local residents cats is not only biased but also doesn't make sense from a danger to the wildlife perspective.

Allowing dogs in all areas but potentially restriction on / off lead would be a lot better that an outright restriction in certain areas. Again if you can publish the numbers of dog interference with wildlife vs domestic / feral cat I think that the focus should be put elsewhere.

Dogs should be allowed in all areas and areas should only be designated by on/off leash and these should be enforced to achieve the same results.

I think that there is an inherent issue with complaints that either stem from -

1. Owners not following the rules - this would be helped by more enforcement and accountability

2. The public not being aware of the rules - The amount of issues with the public who go to off leash areas and then are upset with dogs being of leash is significant. I

believe that better training provided to dog owners AS WELL AS the general public on how to interact with dogs would be a much better use of resources than restrictions.

And finally I find it truly annoying that there are more restrictions on dog access to PUBLIC areas where there is still a refusal to apply any bylaws that restrict or put accountability on owners to PRIVATE property for cats.

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

It will wreck dog walking industry i use their services but with Low numbers of dogs prices will significantly increae and this assist with less barking complaints

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

This is probably the main off leash dog park in south Auckland, and you want to restrict it even more!! Dogs are such an important part of people's lives yet you're making it harder for people and their dogs to get enjoyment and enrichment time together outdoors! Put kids on a leash, they do more damage!

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Understand not wanting dogs around livestock but no reason to restrict them from lower unfarmed areas.

Please keep as many dog friendly as possible. It is already very limiting to find somewhere to exercise your dogs.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

I am a dog owner, and I strongly support the practice of keeping dogs on a leash at all times when they are outside of non off - leash areas. I have witnessed on numerous occasions that unleashed dogs have scared people walking on the pavement or attempted to engage in confrontations with leashed dogs. If dogs are in areas where off - leash activity is not permitted, owners should always put them on a leash. Additionally, dog owners must be responsible for their pets, such as cleaning up after them.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

I think that one person cannot truly manage six dogs who may all behave differently and have differing needs. And if they cannot manage then other dogs/children could be at risk.

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current Policy (dog access) rules

Tell us why

I don't believe that there is any need to change the current rules which already restrict dogs from the cafe, Potter Children's Garden, cultivated areas and around food concessions. The new rules makes the off-leash area much smaller than it currently is. If dog owners do not have appropriate places to take their dogs they will be forced into other areas such as local parks and playgrounds which will not be good for anyone.

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current Policy (dog access) rules

Tell us why

Unless the council is to build fences around water bodies there is no way to keep a dog out of them in the off leash areas. Being able to change the rules to On Leash at all times on a whim just reduces the options for off leash exercise.

Hunua Ranges Regional Park

3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

We rely weekly on a professional dog walker to take our dog for a walk. This will eliminate their ability to work, or significantly drive up the price of dog walking services. If you are to change the limits, you MUST allow for professional dog walkers to get exemptions or permits to exceed this limit.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

Controlling multiple dogs is really challenging. I believe any dog walker should be limited to 4 dogs at one time to mitigate risks of unpredictable behavior. I believe no more than 2 dogs should be off leash as the behavior of more than one dog can change in a an instant and most dog owners do not have adequate recall for their pets.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

I do not believe neutering a menacing dog will not change the dogs behavior or influence the owner in managing the dog any better.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

This sounds like it may far too complicated & costly for most families to manage. Ideally simplify things without complicating them further.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Do not support

Tell us why

There should not be any discrepancy between areas as to a 'multiple dog license'.

Simply make a rule for all areas; with an exception for working, dog rescue or training/service or registered dog breeders.

I do not believe taking dog friendly areas away will help the many responsible dog owners.

Most areas should be changed to on-leash rather than 'no dog areas'.

If dogs are on-leash almost all instance of risk to environment, animal or human is removed.

I understand it is easy to say all dogs are bad and they should be restricted from certain areas. However, by doing this you are excluding the responsible dog owners taking in the beautiful regional parks in our surrounding areas. Most dog owners exercising or taking in these sights will be happy to access if they can with a leash. That is what I would like to happen, remain the areas as dog friendly but the dogs must be on-leash.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#4162

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

In these tough economic times, small businesses such as dog walkers which are very popular in Auckland will not make much business if they have limitations on the number of dogs to be walked at once. These are experts in dog handling and behaviour and should not be limited to the number of dogs

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

This is our local dog park, the area for off lead is already quite small. Everywhere is on lead anyway, so why change it. The Cafe will lose business if it tries to impose prohibiting dogs. If council wants to proceed with this, they need to show some statistics how currently dogs are a threat to society

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Botanic gardens

What local board area is this location in?

Manurewa

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:The current rules are fine as it is. With the current offlead area

What is the main reason you want to change the current dog access rule?

We as aucklanders are already so limited on where we can take our beloved pets with so many current restrictions. We pay so much taxes, rates and dog registrations and we are still so restricted. Stop trying to control every aspect of our lives.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Well. The council need to provide evidence and reasons why they want to restrict dogs more than what they have already. How are dogs creating the problems?

I think these rules the council is trying to impose is ridiculous. We as dog owners are already so limited in what we can and cannot do. Council needs to stop controlling every aspect of our lives. We pay so much taxes, rates and dog registration, we should be entitled to some freedom. I there are some irresponsible dog owners who don't follow the current rules, instead of creating a blanket rule affect all dog owners good or bad. Council should just impost fines for the irresponsible owners.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Dogs being on or off leash doesn't actually change whether or not they are "under control" - many dog owners do not have true control of their dogs even when they are on leash - want proof? Visit the Botanical Gardens and see how many dogs are barking and pulling on the leash while the owners struggle to keep them from running off.

No change to current Policy (dog access) rules

Tell us why

The Auckland Botanical Gardens is one of very few locations in South Auckland (south of Manukau) that dog owners can go to give their dog good exercise. The off leash area (current) is a fantastic area for dogs to socialise. Amendments for future development should be held until such a time as the area is actually developed - until then, you're changing the bylaw for no significant purpose or reason.

Visiting the Gardens is a family affair, and dogs formulate part of the family. Visiting the Gardens is an experience made better by spending time with friends and family and includes getting food and drinks at the cafe and other popular areas. Dogs should be under control and on a leash in these areas, and should not be permitted inside (current rules), but the proposal above would see me excluded from going to the cafe for some hot chips and a drink with friends, just because I have my dog with me. Excluding people from certain areas because they have a dog is not fair on responsible dog owners.

A dog under control and on a leash should not pose any risk to others, so should not be excluded from areas such as the children's garden. The issue here really is that you're proposing a very heavy handed approach to the issue that dog owners do not have their dogs properly under control. Perhaps education and working with local vet clinics would be a better approach to ensuring the perceived safety of others and educating owners on what it means to have a dog under control on a leash.

I think everyone should have to prove that they can and will look after a dog or dogs. Small spaces shouldn't be allowed to have dogs unless they can prove walking them and being good dog people

Clarify how dog access rules are set:

Support

Tell us why

Dogs should have access to parks, beaches and public places with good people who look after them. Restrictions on this prevent dogs lining good lives and will cause further aggression when they can't run and sniff and be dogs

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Support

Tell us why

Again dogs should have access to all these things so long as they are with good safe people who look after the dogs and keep them and people around them safe

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Support

Tell us why

Policy should allow good dog people to take dogs out in the community. If they aren't good people they shouldn't be allowed to keep dogs and this should be enforced. Council and spca are not good at looking after dogs or enforcement of rules for bad people with dogs

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Support

Tell us why

I agree to remove outdated information so long as they aren't removing things that are positive for dogs and people. I.e. more access to the community under control not further restrictions

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Support

Tell us why

Dogs should have access to spaces to walk and run in the community as long as they are under control and with their human

Do you have any further comments on the proposed policy and bylaw changes?

I would again like to support an update of the Animal Welfare Act that is outdated and not for for purpose. We need mandatory desexing of all dogs and regulations around breeding. No one should be breeding dogs for money. Also banning of life chaining of dogs and enforcement for people who abuse, neglect, starve, fight or centrally don't look after dogs. These people should have these animals removed and shouldn't be able to continue to get more. It would also be nice to see registration fees being used to look after and support animals and hold people to account if they don't.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

No change to current Policy (dog access) rules

Tell us why

Look how complex you are making it - the off leash area at all times provides a great dog exercise area at the lower end of the gardens in Summer and Winter. Restricting times makes it unsafe and inaccessible for most and reducing the area does not provide a sufficient area to actively walk/run with your dog off leash. Dogs of medium/large size especially do not get sufficient exercise with owners just walking on leash especially those that have medical conditions like myself with arthritis. Off leash areas creates happier dogs, encourages dog socialising and networking for dog owners. Reducing off

leash areas will reduce dog exercising - running after a ball or stick, being dogs. Instead of being confined to a boring leash walk. I also suspect it may lead to more dogs escaping and taking themselves off for a walk - increasing a problem you already have with wandering dogs. Let's stop wasting tax payers money and time trying to fix something thing that is not broken - I imagine fulled by non dog owners. The government with their Covid lockdown created more dog owners, we should be creating more specific off leash areas, not reducing them.

The off leash area is one of the only larger parks in south Auckland where dogs are allowed off lead. It’s a great way to exercise our dogs, allow them to socialise with other dogs. By reducing the space or limiting the off leash hours you’re actively driving people away from the park. There are many people who have walked there dogs at the gardens for years who will no longer be able to and be forced to find somewhere else further away.

We frequent the Auckland Botanic Gardens on a very regular basis, at least once a week with our own dogs and meeting up with other responsible dog owners. We walk the entire gardens and at times enjoy the off leash section.

You have a choice whether you want to go to the off leash area and when there if you want your dog to remain on or off leash.

But that is the key thing, you have a choice!

We have never had any concerns during our walks.

The gardens are unique in having the off leash area for the dogs to enjoy and it is in an area of the gardens that are just fields of grass only. If you were visiting the Botanic Gardens to see the lovely plants and landscaping, then this area would not be one you would want to visit anyway. If it weren't for the dog off leash area here, then I would think this area of the gardens would be pretty empty.

You could improve the signage to make it clearer for all that this is an off leash dog area so if people don't want to be exposed to this they can avoid this area.

The dogs love going into the streams nearby the off leash area, especially on hot summer's days to help them cool off.

Why would you want dogs to be further restricted and overheat?

The Botanic Gardens are known in dog circles for being a great safe place to take your dogs and there is no reason to restrict dogs access any further.

They aren't' causing problems as it is.

The only dogs that could be an issue are stray dogs that are there without their humans from local areas and implementing these restrictive changes will not affect this.

There are many issues with humans using the Auckland Botanic Gardens including stealing plants and littering. There is a lot of rubbish we find on our walks through the gardens that have been left by people, including coffee cups and drinks, food bags etc.

However there are no restrictions placed on humans, so why should dogs be singled out.

We would be happy to encourage all our dog groups, followers and trainers to boycott the Botanic Gardens if these restrictive and unnecessary proposals come into force.

Totally unacceptable.

Leave things as they are and sign post better.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

I don't beleive the number of dogs being walked by one person is a problem. Generally the worst problem are unaccompanied dogs that are not under the control of their owner. They are the ones that attack unprovoked. These sort of owners are the ones that need to be censured. Dog walkers generally have good control of their dogs and are not a problem.

Tell us why

Supporting the proposed option provides the minimum needs to prevent further erosion of stream banks. The Puhinui Regeneration strategy was signed by Council with Iwi to protect and improve the water quality. Council contravene this agreement if they don't provide decent safeguards to prevent dogs entering the waterways.

Signage already exists that clearly advises dog owners to keep dogs on lead and out of the water and this is ignored and consequently there is terrible erosion of the stream banks.

The site should not have off leash and move to being an on leash dog only site.

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to new threats to the environment (e.g. kauri dieback or damage to stream banks). Please specify:

What is the main reason you want to change the current dog access rule?

Erosion of stream banks due to dogs in waterways

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Growing erosion issues of the stream, poor dog owner management. I know that some dog owners won't take their dog to the Gardens because of the risks in the off leash area.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current Policy (dog access) rules

Tell us why

The Auckland Botanic Gardens is a popular, staple area for dogs in South Auckland. Dogs should be allowed on-lead through the gardens, and the dog park should remain off-lead as it is. Sectioning it off, like many beaches have done, e.g. not allowed at the east end, is too difficult and unfair

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

I think setting times that dogs are allowed on beaches would be a great idea , people that do not have dogs or are scared of dogs would know when to avoid going to the beach . Or assigning a particular part of the beach for dogs to be able to join their families swimming would be amazing

Please explain your issue in more detail:
Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

As much as I understand how having dogs at certain parks may be off putting for people who may be scared of dogs .

Dogs must be able to exercise, I'm not saying they have to be off lead at all places, but purely allowing dogs to be able to come with their families to parks . ..

Or assign certain parts of the parks where dogs can play and exercise

Forestry , allowing certain tracks for dogs , so they don't encounter horses etc

As far as pack walkers, I'm definitely in agreement with the changes .

The entire proposal is ridiculous because it's targeting the wrong people and a non-existent problem. The people who take their dogs to the Botanic Gardens (and similar parks) are responsible dog owners and there is no good reason to change the current policy in these areas. The real dog issues - namely, stray dogs and dog attacks - are happening in South Auckland OUTSIDE of parks, on the street, where useless owners (i.e., not the people being targeted by these proposed policy changes) allow their dogs to 'roam', often entire/un-neutered & on heat, creating more stray dogs, and attacking other dogs, pets, and humans. It baffles the mind why resources are being wasted on making life

more difficult for already-responsible dog owners when these people (myself, friends, and family) and their dogs are not causing a significant problem.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Separating onleash dogs and offleash dogs seems to make things unclear. What about dogs on longlines that are not held by the walker? If we set the maximum number, we could just set one number whether they are offleash or onleash. I support the idea of setting the maximum number. Considering the need to transport the dogs in a car or van safely, six or so would be a good number.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

I would like a dog swimming pond or something to be developed if dogs are going to be prohibited around and in all waterbodies. A place like the dog swimming pond in Waiatarua Reserve.

I would like the area where dogs are around near the cafe to be expanded. It is such a popular dog friendly cafe that I would like dogs and their owners to have more space.

I would like dogs to be allowed in cultivated garden areas on leash.

The proposed changes do restrict off lead access further in Auckland without any alternative - this will result in people releasing their dogs off lead regardless of the bylaws and resulting in more issues. If public safety/comfort is the priority, fenced areas for offlead exercise MUST be built for each suburb so options are available for all people and their dogs.

Clearer and more frequent signage is also needed to clarify what the rules are for parks etc.

Access to environmentally sensitive areas needs to be opened to muzzle and on lead dogs as they cannot then be harmful to wildlife.

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

6 dogs is too many. 6 dogs would be very hard to control if they all start pulling at once. Also if you're picking up after one dog, how do you control the other 5? Maximum of 4 dogs gives a better chance of controlling them all, and no more than 2 dogs off lead will help maintain control of all dogs being walked.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Do not support

Tell us why

Responsible dog owners are already aware of the rules and Council policy. It is irresponsible dog owners who cause most of the problems. Restructuring the policy is not going to change this.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

There should be severe consequences for dog owners with menacing dogs not complying with this rule.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

Need to make sure that whoever provides the behavioural assessment is appropriately qualified to do so. Also, need to obtain proof that the owner of the menacing dog has actually been to an assessor.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Do not support

Tell us why

The Council should not be making a blanket decision based on area alone.

Clarify how dog access rules are set:

Support

Tell us why

Council definitely need to clarify this. The proposed changes severely increasing restrictions around dog access areas seem excessive and unnecessary given the increase in Auckland's dog population. Please provide the rationale behind the proposed.

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Support

Tell us why

Proper signage displayed in all areas clarifying dog access is far more helpful than people reading through the huge amount of documentation in the Auckland dog policy relating to this topic.

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Support

Tell us why

Clarification is essential. People may not understand that there are errors in the policy document, and it is hard to follow a policy correctly when there are errors in it.

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

I don’t know

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Do not support

Tell us why

Dogs should be allowed on ancestral mountains, like any member of the public, provided they are on leash to prevent damage to the area.

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

With the increase in dog ownership in Auckland, it makes no sense to further restrict or decrease dog access areas. This would not foster social connections or allow dogs to be a positive part of the life of Aucklanders. I would like to see dog access areas increased rather than decreased.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

many this change penalizes responsible dog owners. You should focus changes to better address the issues of roaming and out of control dogs and bad dog owners

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

clarity would be good but also allowing more feedback from people and less rigidity around sine things

just that rather them putting in more restrictions for good dog owners focus on harsher penalties for bad owners who do not contain or control their dogs, ie not responsible maybe if dogs are reported/impounded more owner do course on responsible dog ownership to educate them further

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

I do not support the proposed change

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current Policy (dog access) rules

Tell us why

dogs need space to run and be exercised, the council id restricting this further and further. This lack of ability to socialize and properly exercise dogs is contributing to the issue with dogs in the community. This area is a large park that can be utilized for everyone including dog owners. This space is needed for dogs as there is no other spaces in the area for dogs to be freely exercised.

There is already ALOT of space for people to walk and enjoy without dogs being off leash - there should be consideration given to dogs and their owners too. We too pay rates and fees for our dogs. This is a very used area due to the lack of other places to utilize.

I also believe that dogs should continue to be allowed on lease in other parts of the park. families visit with pets and can't have them in vehicles. Focus should be on people controlling their dogs, not punishing

Re: The waterways. Dogs need to cool down during summer- this is ideal. If to be restricted then create another option eg. large pond/pool in dog area.

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott’s Habitat and from single-use mountain bike tracks (currently on-leash).
