Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I would like to express my concern regarding the proposed 7.9% rates increase for the 2026/2027 Annual Plan.

As a rural ratepayer, I already struggle to see value for the rates we are paying. Last year alone my rates increased by nearly 17%, which was already a significant financial burden. Proposing a further

7.9% increase the very next year feels unreasonable, particularly when rural communities receive very limited services in comparison to urban areas.

In areas such as Dairy Flat and other rural parts of Auckland, we fund and maintain many of our own services — including private water, septic systems, and in many cases significant property maintenance that urban properties do not face. Despite this, we continue to see substantial increases in rates without any noticeable improvement in infrastructure or services that benefit our communities.

It is also difficult to justify rural ratepayers contributing toward large urban infrastructure projects such as the City Rail Link, which provides little to no direct benefit to those of us living outside the central transport network.

I strongly urge Auckland Council to reconsider the scale of this increase and ensure that rural ratepayers are treated more fairly. At the very least, there should be stronger recognition of the limited services provided to rural communities and a more balanced approach to how rate increases are applied.

Many households are already under financial pressure due to rising living costs. Continued large increases in rates risk placing unnecessary strain on ratepayers who are already doing it tough.

I encourage Council to look at alternative ways to manage costs and ensure that rate increases remain reasonable and equitable for all Auckland residents.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I would like to express my concern regarding the proposed 7.9% rates increase for the 2026/2027 Annual Plan.

As a rural ratepayer, I already struggle to see value for the rates we are paying. Last year alone my rates increased by nearly 17%, which was already a significant financial burden. Proposing a further 7.9% increase the very next year feels unreasonable, particularly when rural communities receive very limited services in comparison to urban areas.

In areas such as Dairy Flat and other rural parts of Auckland, we fund and maintain many of our own services — including private water, septic systems, and in many cases significant property maintenance that urban properties do not face. Despite this, we continue to see substantial increases in rates without any noticeable improvement in infrastructure or services that benefit our communities.

It is also difficult to justify rural ratepayers contributing toward large urban infrastructure projects such as the City Rail Link, which provides little to no direct benefit to those of us living outside the central transport network.

I strongly urge Auckland Council to reconsider the scale of this increase and ensure that rural ratepayers are treated more fairly. At the very least, there should be stronger recognition of the limited services provided to rural communities and a more balanced approach to how rate increases are applied.

Many households are already under financial pressure due to rising living costs. Continued large increases in rates risk placing unnecessary strain on ratepayers who are already doing it tough.

I encourage Council to look at alternative ways to manage costs and ensure that rate increases remain reasonable and equitable for all Auckland residents.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

I would like to express my concern regarding the proposed 7.9% rates increase for the 2026/2027 Annual Plan.

As a rural ratepayer, I already struggle to see value for the rates we are paying. Last year alone my rates increased by 17%, which was already a significant financial burden. Proposing a further 7.9% increase the very next year feels unreasonable, particularly when rural communities receive very limited services in comparison to urban areas.

In areas such as Dairy Flat and other rural parts of Auckland, we fund and maintain many of our own services — including private water, septic systems, and in many cases significant property maintenance that urban properties do not face. Despite this, we continue to see substantial increases in rates without any noticeable improvement in infrastructure or services that benefit our communities.

It is also difficult to justify rural ratepayers contributing toward large urban infrastructure projects such as the City Rail Link, which provides little to no direct benefit to those of us living outside the central transport network.

I strongly urge Auckland Council to reconsider the scale of this increase and ensure that rural ratepayers are treated more fairly. At the very least, there should be stronger recognition of the limited services provided to rural communities and a more balanced approach to how rate increases are applied.

Many households are already under financial pressure due to rising living costs. Continued large increases in rates risk placing unnecessary strain on ratepayers who are already doing it tough.

I encourage Council to look at alternative ways to manage costs and ensure that rate increases remain reasonable and equitable for all Auckland residents.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I would like to express my concern regarding the proposed 7.9% rates increase for the 2026/2027 Annual Plan.

As a rural ratepayer, I already struggle to see value for the rates we are paying. Last year alone my rates increased by 17%, which was already a significant financial burden. Proposing a further 7.9% increase the very next year feels unreasonable, particularly when rural communities receive very limited services in comparison to urban areas.

In areas such as Dairy Flat and other rural parts of Auckland, we fund and maintain many of our own services — including private water, septic systems, and in many cases significant property maintenance that urban properties do not face. Despite this, we continue to see substantial increases in rates without any noticeable improvement in infrastructure or services that benefit our communities.

I strongly urge Auckland Council to reconsider the scale of this increase and ensure that rural ratepayers are treated more fairly. At the very least, there should be stronger recognition of the limited services provided to rural communities and a more balanced approach to how rate increases are applied.

Many households are already under financial pressure due to rising living costs. Continued large increases in rates risk placing unnecessary strain on ratepayers who are already doing it tough.

I encourage Council to look at alternative ways to manage costs and ensure that rate increases remain reasonable and equitable for all Auckland residents.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**

- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

We pay urban rates out our ways and everything is so slow to get done, always delays. We constantly have our power being turned off for updates on our roads, our footpaths are limited and get delayed being done, we have limited good playgrounds that work for both older kids and toddlers - ie., no baby swings, no shade sails, no fenced areas, no water play. Our new Riverhead wheels park is very tiny for the population and very hot during sunny days. The high school is constantly delayed. There are no council pools for such a huge and growing population. We have to go all the way to Albany or West wave which is about a 25min drive with young children, that is ridiculous and then there are

queues as long it caters to too many people. Our roads are terrible. There isn't public transport, the upgrades don't work (ie., the traffic lights at roundabout or new double yellow lines instead of median flush). North West mall area is a joke with how they've done the roads there. It's like a maze full of traffic and no turning areas to try fix it which just makes it worse. The council in partnership with other organisations need to really step up and sort it.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I hate permit parking. If there is a need for this then there isn't enough parking spaces for the general public and then you need to question why. Some people need their cars. And then there is also a need for more public transport in wider Auckland.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

There's always promises but slow on doing it. Our roundabouts constantly have overgrown weeds making it hard to see ongoing traffic. Our Huapai reserve doesn't have enough footpaths around the fields and the playground is old. There isn't community events out here. Trees get cut down by council, I.e. For footpaths but are slow to be replanted. The waterways are dirty and then cause flooding.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Better access to general facilties out Kumeu area. Playgrounds, well maintained library, waterplay, skate parks, footpaths, reserves, swimming pools, high school, transport. Just general amenities.

For flood resistance - stop approving builds on flood prone land. Do better for the roads and public transport. Why don't we use trains out Kumeu ways. Stop making a semi rural area urban, build up city / city fringe areas. Most of us move out here for the peace and green space.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

People can't afford your increases and then you gouge more by increasing the CVs on people's properties. A higher value property doesn't mean I use more services or that I am richer and can afford to pay more. It is a bad way to distribute costs.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

You need to provide toilets at Green Park. People are using the portaloos provided by the Pony Club. Provide toilets as it costs the Pony Club money to have the porta loos serviced. You need to provide a play ground in Dairy Flat. There is no play ground.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Cut costs to reduce the rates increase. Change how you charge rates. Don't penalise rural people with higher rates when we have less services, no water, no sewage, unsealed roads.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**

- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Toilets at Green Park, bus station at Rosedale.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more

welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Our rates increased last year by 43%. We collect our own waste and water. We have no public transport but pay a targeted rate to ACC for it. We asked for a train. ACC said no!! Our rates are higher than many equivalent properties in Central Auckland. Until we see some investment by ACC in our area then I am against increasing our rates for train service we will never use. Rodney is the cash cow for ACC.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Again, these changes do not affect our area.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Again, it's just window dressing none of the proposals will be completed and if they are no one checks if the work is done properly.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**

- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Muriwai Beach Regional Park. Upgrade the toilet facilities. Reopen the shop. Clean up the reserve and walking track. Install disability parking at Muriwai Beach with a seaview. Remove the disability parking from under the unstable cliff to the seaward side at Maori Bay.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is

a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Rates have been increasing too much in recent years. It is becoming unaffordable

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Residential parking permit fees are unfair, parking availability should be increased.

Refuse/bin bag replacement fee is unnecessary.

Business improvement district is not essential

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Need to curb spending to keep rates increases less than 4%. Wages are not increasing in line with the cost of living so rates increases should be kept very low.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
6	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Planning and infrastructure to ensure infrastructure is put in place for all new developments

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I do understand that the rising costs of infrastructure occur this affect on ratepayers is huge. I will not even use the Cit Rail Link, but I will be pay for it. I do not support adding more fees and charges on top of the rates increase. Even small extra costs add pressure to households and communities already struggling with rising living costs.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Local roads and public transport. I live in Warkworth and commute to work on the North Shore. I would love to use the park and ride to get to work, however, I have to take two buses - from Warkworth to Hibiscus Coast and then change to get on a bus for the city. I may as well just drive to work as the public transport option is more time consuming and probably more expensive as I own an electric car.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

because it deeply revolves around big community problems that should be looked at more (especially because of the rising prices of these things)

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I'm not sure about the proposal to increase parking permit fees since a lot of areas have high prices for parking in many areas, which increases the problem; unless there is a valid reason to increase parking then it would be okay, but knowing there are many people in auckland who cannot afford to pay raising prices is a little worrying.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Devonport-Takapuna,Hibiscus and Bays

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I think most are reasonable as they are problems that need attention, but I think some of the options need to be furthur re-looked at to see the full effects on all areas from that topic.

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Support

B. Reduced library hours over 7 days.

Do not support

C. Reduced local board funding to local organisations that deliver local events.

I don’t know

D. Reduced budget available for contestable grants.

Support

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

I don’t know

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

I don’t know

G. Reduced funding for parks volunteers.

I don’t know

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Do not support

Tell us why (please be clear which priority you are talking about)

I've put 'I don't know' for most of the option (3,5,6,7) since I think there an equal amount of pros and cons that come into conflict when making that decision, while also considering the perspectives of both sides. For example, I think in question three, while there are other things that are more improtant things/problems to fund, the funding that these events/businesses get is a big part of how they get money to keep their business going.

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I think they are reasonable

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

I have chosen support for most questions except number two. I support most of them because I believe they provide big benefits that can become even better over time, and I believe that they are problems of priority that should be focused on. I do not support statement two since I believe that there are other things in this area that should be supported on. Ofcourse statement two can be supported, but in my opinion I would put it lower in a priority list since these don't necessarily create a big impact that benefits the environment

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**

- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I would want you to prioritise flood resilience the most. This is because there is a high chance that there will come a time where Auckland could be hit by flooding, and when this happens, increased flood resilience can help prevent major damages to all areas (e.g. infrastructure, local areas, transport) DEPENDING on how well the flood resistence is developed.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

#1574

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Seems like the right areas of priority

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

They're fine, but I need to understand how the benefit flows on directly as a result rather than feeling that there is a generic increase in revenue coffers.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

I have lived here for 6 months and to be honest I have little line of sight as to what the options are. Do I need to go out of my way to understand these?

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Traffic is getting so much worse. I'm sure there'll be plenty of feedback about that. I really just want to know what is being done to improve my ability to get to work and back home because I lose so much productivity with my daily commute. The road planning in so many areas seems illogical and public transport isn't an option from Kumeu.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**

- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Transport, public areas like parks and services like libraries.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers

and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

No point in relitigating but I have never been a supporter of CRL and it will take years to regenerate the city centre after business have been decimated by the disruption. An expensive white elephant that will have limited benefit to the broader community.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I am 100% against the introduction of increased parking fees. Until such a time as we have efficient, fast, convenient and safe public transport options, all this will serve to do is further shut down our commercial centres and move people to shopping malls. I don't think that is what the public wants.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I think the board's priorities largely reflect the needs of the district. However, I have an observation and a request: management of pest plants is a major issue across the region. Most of the Rodney ward consists of lifestyle blocks or farms. In my area (Dairy Flat), where urbanisation is expected in the next 20 years, we have a huge problem with pest plants, especially with 'land bankers'. Council aims to maintain 'a stunning natural environment', which is great but must take account of private land as well as public. We need a program of education, regulation and sanction to promote and enforce the duty of care for the land we each own. It is not OK to neglect the land and leave pest plants to take over, as is the case in many blocks.

I am asking Council to educate the public regarding pest plant species (in English and Mandarin primarily). Set out expectations for responsible land ownership. Inspect properties for compliance and fine owners where appropriate. Hedge rows across the region are a weeded disgrace and serve only to propagate weed seeds to the embattled pockets of native bush we do have.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Town planning, because it is currently so bad. Auckland has a reactive shortterm approach to planning, which is why its such a mess.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I live in Helensville and locally visible spending may mostly be:

- park maintenance
- small road safety works
- environmental programmes

- community facilities.

Large infrastructure spending (billions) is mostly elsewhere.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Why am I paying for something I will never use. We get very little from Auckland Council (tiny library, nearest pool 45mins away) all I have got from my 30% rate increase last year is a red bin whoop whoop (that is sarcasm incase you don't understand)

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Doesn't affect me off you go and do it (you will anyway you always do)

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

Well some of it will benefit my area

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

As an already over taxed by the council resident of Rodney district I strongly object to funding the $235m CRL operating costs through the General Rate. This unfair rate forces rural landowners to shoulder an unfair proportion of the cost for a service we cannot access.

Under the Local Government Act, rates should reflect the distribution of benefits. I demand a reduction in the rural rating multiplier from the 2025/26 budget to ensure I am not subsidising urban infrastructure which seems to be your operating model (30% rates rise for us last year 2.9% for central Auckland we got ripped off again)

Have any of you actually been to rural Rodney are roads are awful, we ere abandoned during Gabriel by the council (you ran around West Auckland and the Shore but us nothing! 5 days no power no cell phone coverage for 10 no internet Had to get Starlink to get that working again)

We have a tiny library, no community pool (45 minutes to the nearest).

You expect us to subsidise the city and not complain.

I challenge any of you lot to live up here and see if you think you get value for money for our rates we don't we are a cash cow for central Auckland and it needs to stop.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Flood resilience, we have a stream in our paddock that when it rains floods, the flooding is getting worse year on year because there is no maintenance of culverts or rivers (the local farmer tried to dredge the stream a few years ago and was warned by Auckland Council to stop or be prosecuted, helpful not! You really couldn't organise a drinking session in a brewery)

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):None too much money being spent on it as it is.

Annual Plan 2026-2027

#1622

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

This increase is too much. Continued wasteful spending needs to stop. My property value was inflated before the 2025/2026 rates were assessed for no reason.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

The council needs to go back to basics as these rate increases are excessive

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Core services

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.

Annual Plan 2026-2027

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

We need more investment in Rodney to cater for growth. A Recreation centre with a swimming poolr for Warkworth.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Rodney Residents both Rural and Residential have no benefit from the CRL costs or annual costs and should be excluded from paying towards this Central City Assett.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Pest and weed control needs more resources. May areas of Rodney have overwhelming issues with invasive weeds and not enought budget yo make an effective actio plan

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):We dont live in the city and rarely go there so these costs should be born by the residents in each area specically

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

As a resident of Point Wells I disagree with our locals having to fund the CRL $235M rail costs as this has no benefit to our area and should not be included in our general rates. Rates increased significantly last year and now they are proposed to increase further with this being a big component. This forces rural residents to fund and unfair portion with no benefit.

I want to see rates reduced in our area to ensure we are not funding urban infrastructure.

I have recently lost my job due to the poor economy and cannot fund further increase. I have a family to feed and this will put extreme pressure on our costs and well-being.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

This has no benefit to myself or our rural community. Rates in rural areas should be reduced.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Rates should be reducing during a cost of living crisis especially after the huge increase last year.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Speak to locals about what is important to them instead of having a blanket urban only focus. Poor form

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Better roads in the Matakana area, reduced tolls, better facilities for local family's and the community.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Why are we investing $16 million into Māori outcomes, including the ongoing Marae Infrastructure Programme, and grants to improve the capacity of mana whenua and mataawaka?

To engage in Auckland Council decision-making processes, by unvoted people, who have a hint of Māori amongst other DNA, is an expensive disaster waiting to happen?

Building of the Marae should be paid for from their billion-dollar economy.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

The Rodney Local Board is proactive, communicative, and supportive with its Ratepayers.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Co-Governance is a myth, never was, never will be, just made up from legal ignorance of misintention that is costing the community both money that could be spent on infrastructure for everyone, and splitting the community towards radicalism and **********.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I don't believe the council should own an asset that costs the ratepayers 235mil a year to run, all public transport should at least break even, user pays is a great idea.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

enabling districts to become self-sufficient is always good but putting financial burdens onto the ratepayers that make everyday living harder is not acceptable, people are struggling to pay rent/mortgages and put food on the table.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays,Rodney

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

I don't know

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I think the main comments are to hold rates for 2026, people are really struggling and whilst they have no money, they also have no love for the council spending money they do not have and only add to the burden of what the rate payers are already paying.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
6	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

improving infrastructure

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

As a resident of Matakana, in the Rodney district north of Auckland, we have experienced massive rate increases in the last round of reviews. To a point I understand this but now we are faced with an average increase of a suggested 7.9%. I already expect our specific rates to increase by a larger percentage based on where we live like they did last time. In fact our rates rose by over 50% last time so I feel strongly about this and had to write. I don't want to pay a larger proportion of the CRL bill than urban residents. This is just an unfair wealth transfer. I totally oppose the CRL contribution being gathered by the "General Rate". As we live in a semi rural area I feel the CRL rates component

is totally unfair as we will not benefit or access the train lines. Yes it might impact traffic congestion but we do not travel on the roads during peak times so will not benefit in anyway at all. Under the Local Government Act, rates should reflect the distribution of benefits. I demand a reduction in the rural rating multiplier from the 2025/26 budget to ensure I am not subsidising urban infrastructure.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

There seems to be a big miss in the wider Rodney area. Mahurangi is screaming out for a public swimming pool, when will this growing community get a new one? It has been talked about but nothing happens.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces

work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I live an hour away from Auckland. I will not be using a train, so why should I help pay for it!!!

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

We didn't have a choice in the new refuse bins, yet we had to pay!!!!

I live north of Auckland, the the other cities can pay for the changes.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027-2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Other (please specify):I don't care what they do in Auckland

Annual Plan 2026-2027

#1661

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I strongly object to the CRL being paid for by rental rates. For years, rural Rodney ratepayers had to pay a targeted rate to improve our local roads (which amounted to almost nothing in the end). It's only fair, equitable and non-hypocritical that the urban ratepayers that will benefit pay for the CRL as targeted rate.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Getting road speeds readjusted after the dumb decisions that were made a few years ago, notably the reduction from 100kmh to 60kmh on Woodcocks Road which is non sensical on an open rural road, not even the police can drive it that slowly, it should be 80kmh. The decision was made by some dumb ********** who didn't even drive on the road, and was against many submissions received, which mostly suggested 80 would be an appropriate reduction.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I live on the north shore and I object to the rise in rates to fund the city rail link. Even though my property value went down in the last valuation my rates increased by far more than 9%. I do not go to the city or south of it as using the public transport from my house is unreliable and trying to get over the bridge in a car Is a waste of time. I won't ever use the city rail link. I already have to pay tolls when I regularly drive north to my home in Omaha and am also getting charged horrendous rates of over 13% increase up there for which I get virtually nothing in return. My rates have continued to go up and far exceed inflation, but the services are getting worse. I can no longer go

for swims at my local beach. But I keep seeing council wasting money on non essential things. So why should I pay more for rates when I don't get anything more of value returned to me.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

These do not effect where I live, but how about you sort out the issues with sewerage on the North shore so our beaches aren't closed continually.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Funding for arts and design is not a necessity. You should cut this across all boards and pay down the councils debt.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

As a resident of Rodney , I strongly object to funding the $235m CRL operating costs through the General Rate. This forces rural landowners to shoulder an unfair proportion of the cost for a service we cannot access. Under the Local Government Act, rates should reflect the distribution of benefits. I demand a reduction in the rural rating multiplier from the 2025/26 budget to ensure I am not subsidising urban beautification

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I live in Rodney I strongly object to funding the $235m CRL operating costs through the General Rate. Council continues to refuse to allow a train service to run from Rodney, we should not be paying for something we can not and do not even have access to.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Rodney local board tranport target rate needs to go. I was not used for what we were told it would be, ie providing train service to Northwest. It has been used to supply things that other areas get out of general rates. We already had our rates jacked up 20% last time, only 16% of rates taken from rodney are spent here and developer contributions arnt either despite the lack of supporting infrastructure re growth forced on the area.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Local board often does not represent the wishes of residents and sucks rate payer money for little benefit.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

A huge amount of money has been spent on a small piece of track and grand stations with 0 service to Rodney even though there is a train track running through a number of Rodney towns. The North west has more traffic than the waikato express way with no service and we are expected to subsidize this white elephants over inflated costs & running costs. we do not consent.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I dont want to prioritize anything as council manipulates any multi choice to suit what they want to do, eg choosing flood resistance could result in ridiculous amounts of money being spent on flood modelling and report writing, or choosing planning could result in ridiculous costly bus ways where

it is not appropriate for them to go. Council needs to butt out of economic development and stick to CORE services including ceasing the derogation of our storm water network through negligence,

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):CORE SERVICES, CORE SERVICES CORE SERVICES, DO YOU KNOW WHAT THAT IS?

Trains to Huapai vrs busway (referred to by "Supporting Growth' as rapid transit corridor)

Trains to Huapai:

1. Rail infrastructure already exists (left photo is of existing Huapai platform);
2. Private investor prepared to supply service for 5 years at no cost to rate payers;
3. User friendly to elderly, disabled, push chairs ie level embarking;
4. Could be up and running in short time frame compared to other options;
5. Does not remove important permeable ground & amenity trees in the flood plain or increase pollution to Kumeu river;
6. Capacity to carry more passengers= traffic not using road corridor.

Bus corridor (referred to as rapid transit corridor):

1. Poor and negligent urban design, removes permeable ground in flood plain, amenity trees, public green space turning it into non permeable ugly tarseal;
2. Increased pollution to nearby Kumeu river, Kaipara river & Kaipara Harbour;
3. Costly to rate payers, a large amount of land would need to purchased, consultants, designers, report writers, flood modellers etc creating docs that may not even be based in reality, then construction costs, road cones, traffic management costs;
4. 10-30 years away;
5. Buses are harder for mobility impaired to board due to steps;
6. Businesses and homes would be destroyed in costly land buy up and probably be contested dragging it out further;
7. Huge and drawn out disruption to existing businesses and motorists when construction finally does begin.

Current Western line service:

Network once central rail link open:

Annual Plan 2026-2027

#1674

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation: N/A

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I do not support most of the proposed Annual Plan because the 7.9% rates increase is primarily driven by the $235 million annual operating cost of the City Rail Link, which rural communities like Rodney will not realistically benefit from.

I live in Warkworth, more than 50km from the nearest train station. I cannot access the rail network and will never use the CRL, yet I am being asked to contribute toward its cost through the general rate.

Last year my rates on a bare rural land property increased by 26.68%, despite the property receiving no council services and producing no income. Another large increase on top of that is extremely difficult to justify.

Because rural property values increased more than urban values in the last revaluation, rural landowners are now paying a larger share of the CRL costs despite receiving none of the benefit. This effectively shifts costs from urban rail users onto rural ratepayers.

Council has the ability to address this by reducing the rural rating multiplier (differential) so rural communities are not forced to subsidise infrastructure they cannot access.

I should not be funding a train I cannot catch.

Rural communities should not be subsidising inner-city infrastructure.

Rates should reflect benefit, and in this case there is none.

I urge council to reconsider how the CRL operating costs are funded and to adjust the rural differential so rural ratepayers only pay their fair share.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

My main concern remains the overall level of rates increases being proposed, particularly for rural communities that already receive limited services.

Introducing additional fees such as the refuse bin/bag exchange fee adds further costs to households at a time when many ratepayers are already facing significant increases in their annual rates.

More broadly, council should be cautious about introducing new charges while rates are rising significantly. The priority should be ensuring value for money and fairness across the region, particularly for rural communities that already contribute to funding major infrastructure projects they cannot access.

Given the scale of recent rates increases, council should focus on containing costs rather than introducing additional fees and charges wherever possible.

Perhaps stop employing so many consultants?

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Local boards are clearly being forced into a position where they will have to cut services or introduce targeted rates just to stay afloat, even while Auckland Council is proposing another major rates increase.

That is extremely hard for ratepayers to accept.

Communities like Rodney already receive fewer direct services than central Auckland, yet we are still being asked to pay more every year. Now local boards are effectively being told they will need to reduce services such as maintenance, community funding and local programmes to balance their budgets.

In simple terms, ratepayers are being asked to pay more and receive less.

This suggests council spending priorities are heavily weighted toward large regional projects while local services that communities actually rely on are being squeezed.

Local boards should not be put in the position of cutting services to their communities while council continues to push through large regional spending commitments.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

For many people in Rodney this comes down to basic fairness.

Last year my rates on a bare rural land property increased by 26.68%, despite the property receiving no council services and producing no income. Now council is proposing another major increase, largely to cover the $235 million annual operating cost of the City Rail Link.

I live more than 50km from the nearest train station. I will never use the CRL.

Yet under this proposal I am expected to help fund it through my rates.

That is simply not fair.

If Auckland Council chooses to fund inner-city rail infrastructure through general rates, it must also ensure rural ratepayers are not forced to subsidise services we cannot access. Reducing the rural rating multiplier is the obvious and reasonable solution.

Right now the message to rural communities is clear: pay more, receive less, and fund infrastructure you cannot use.

That approach will continue to erode trust in Auckland Council (what little there is left of it).

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):None of the above. How about some spending in rural regions

Annual Plan 2026-2027

#1689

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I do not support increased rates. The council should be working within their budget not expecting rate payers to be an on going gravy train for either unneccessary spending on the minority groups or pumping extra money into big projects in Auckland city areas. Meanwhile people in rural Rodney don't even have the basic services of useable roads. Our Roads (Dill road & northern end of Hills road) to take kids to school has been turned into a muddy narrow goat track in parts. This is not exceptable and we have put up with this for a long time. The 2 and half kms up Kaipara Hills should have been tarsealed many years ago. I believe the council needs to stop wasting money and stick

to providing the basics to current rate payers. Having a safe and driveable two lane road should be a priority.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Stop spending on non essential services until essential services are provided. It isn't an open check book and we as rate payers are sick of it being treated as such.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Fix rural roading!

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):Focus on essential services

Annual Plan 2026-2027

#1693

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

There are real issues not being addressed and most promises not being met. Then increasing the rates as high as you are and for what?

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

We pay so much and can't get rubbish collected? cancel consultants and give it for free. And then charge for permit parking??

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See other comments - more money, more debt, less real world impact

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

It is too high. There is only so much cost people can absorb and Auckland is a dying city

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027-2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Make the city habitable again... it feels like a Bombay slum

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I am vigorously opposed to a rates increase of 7.9 per cent in 2026/2027 for our property on the outskirts of Warkworth, or any other property in the Rodney district. It is stated by ACC that the "increase is mainly due to the $235 million annual cost to run and own the CRL" . I do not and will never use the City Rail. I live on a metal road with no sidewalk/path or street lighting and asking us to contribute to the CRL with another hike in our rates is ludicrous to say the least. Our rates are becoming unaffordable with our services (roads, lighting etc) well below the standard of those living in Auckland City.You say in your Annual Plan Summary that "Rates are the money Aucklanders pay

us so we can run services for Aucklanders. " SO why are those of us in Rodney on metal roads, with no foot paths and no street lights being asked to pay for services provided to those living within the Auckland City? I am not happy about how unfair this is!!!!

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A as I live no where near these areas

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I worry that funding needed for our Rodney community is being syphoned off to support the city rail project and leaving our community the poorer for it. Not fair!

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

How about improving roads for all and we generate income from our rates too.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):Not applicable to me . LOts of focus on city cerntre improvement using our Rodney rates !!!

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I am vigorously opposed to a rates increase of 7.9 per cent in 2026/2027 for our property on the outskirts of Warkworth, or any other property in the Rodney district. It is stated by ACC that the "increase is mainly due to the $235 million annual cost to run and own the CRL" . I do not and will never use the City Rail. I live on a metal road with no sidewalk/path or street lighting and asking us to contribute to the CRL with another hike in our rates is ludicrous to say the least. Our rates are becoming unaffordable with our services (roads, lighting etc) well below the standard of those living in Auckland City.You say in your Annual Plan Summary that "Rates are the money Aucklanders pay

us so we can run services for Aucklanders. " SO why are those of us in Rodney on metal roads, with no foot paths and no street lights being asked to pay for services provided to those living within the Auckland City? You say water is one of your priorities. We supply and service our own sewerage reticulation system plus water collecting and pumping as you do not supply these services to our property. Surely it is not fair for us to then have to incur the 7.9% rates increase for services your provide to others living in the city centre including the rail system that has absolutely no bearing on our lives.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Once again, none of these apply to us

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Living in Rodney, I will not likely ever use the CRL; we never voted for it and have been lumbered with its cost, despite being nearly 70km away from it. The CRL should be a targeted rate for those establishments within a defined location near the CRL, being those locations that will benefit most from its construction and use.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Fixing the incompetent Watercare Company. They are happy to fine people large amounts for small things, and yeat dump millions of litres of sewage into the local river with no accountabliblity,

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public

spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Organisation: N/A

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

You cannot keep increasing rates, Rodney wears a disproportionate increase for a small value of services.

Get back to basics, stop creating departments to make us check septic biannually irrespective of the system type , reduce consultation ans beauracrats

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Greenway

Infrastructure maintenance is key

Emergency management is key with flood.prone areas

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**

- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Keep to the basics. Tra sport, infrastructure maintaining green assets and management flood prone areas.

Forget about events we know how to do that .

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces

work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Other (please specify):Bring Back car parks you are so not in touch with the poor tra sport service or invest in Uber which is what we use when we come occasionally into the city. Its been designed around a rail network that serves few . .

Annual Plan 2026-2027

#1734

Organisation: N/A

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

1. live in Rodney, and i receive no benefit from the CRL.

2. Unfair

that because rural property values rose by ~13% compared to urban values, I am now paying a larger proportion of the CRL bill than urban residents. This is an unfair wealth transfer.

3. The Fix: Demand that the Council reduce the rural multiplier (differential) specifically to offset the CRL costs.

"As a resident of my suber strongly object to funding the $235m CRL operating costs through the General Rate. This forces rural landowners to shoulder an unfair proportion of the cost for a service we cannot access. Under the Local Government Act, rates should reflect the distribution of benefits. I demand a reduction in the rural rating multiplier from the 2025/26 budget to ensure I am not subsidising urban infrastructure."

I feel strongly about this as there is no railway station in makarou or warkwoth to get on the train.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I think the money should be put towards sealed roads foot path and street lights

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

I live inbRodney I receive no benefit from the CRL.

2. Unfair that rural property values rose by ~13% compared to urban values, l am

now paying a larger proportion of the CRL bill than urban residents. This is an unfair wealth transfer.

3. The Fix: Demand that the Council reduce the rural multiplier (differential) specifically to offset the CRL costs

"As a resident of Rodney I strongly object to funding the $235m CRL operating costs through the General Rate. This forces rural landowners to shoulder an unfair proportion of the cost for a service we cannot access. Under the Local Government Act, rates should reflect the distribution of benefits. I demand a reduction in the rural rating multiplier from the 2025/26 budget to ensure I am not subsidising urban infrastructure."

I you feel strongly about this as I can walk to a train station

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I would like the road to be sealed and street lights put in and footpaths is my children can walk to the school bus safely like the children in the city. Unless you think there safely is not important as the children in the city?

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Footpaths and street lights safety for the children of the community

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):It's not all about the city stop wasting money

Annual Plan 2026-2027

#1739

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Unfortunately the CRL will not help with congestion heading south from Kumeu through to SH16 Motorway entrance. This is getting worse every day, with poor infrastructure in place to deal with the massive subdivisions continuing to go ahead in Waimauku, Huapai and Riverhead. Just getting from Muriwai to Westgate to get groceries can be a 40min-1hour ordeal. So having rapid transit buses leaving from NorthWest shopping centre to the city centre or trains across the city leaving from Swanson helps us in no way at all, when the congestion happens to and from

Westgate/Swanson areas out to the northwest areas of Riverhead/Kumeu/Huapai/Waimauku/Muriwai.

Why has the CRL stopped at Swanson and not continued on to Kumeu/Huapai???

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

None of these affect us directly in the rural Rodney area. The new bin collection system is working well for us but with the huge jump in rates last year of more than $30p/w after our RV was adjusted.

The storm water infrastructure put in place after Gabrielle does seemed to have helped somewhat.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

The board doesn't have direct influence over the roading infrastructure which is the crux of the problem in Northwestern MW/Riverhead/Kumeu transit corridor so that isn't helpful.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Please get a roundabout and two lane system in place from Kumeu/Taupaki roundabout through to Riverhead junction. The two lane roundabout straight into one lane to NW motorway is an absolute nightmare for all who have to use those roads at almost any time of the day!

A CRL that actually links the NW to the city would have been far more useful than what has been proposed to Swanson!!!

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

CRL to Kumeu at the very least. Better road system from Kumeu to NW motorway.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I live in Kaukapakapa Rodney District. I do not believe i should be paying towards this in my rates as we do not benefit from it at all. It is unfair and unjust.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I dont think my rates should go up at all considering there is very little practical or visible use of any of the rates paid being used in this area, other than pot holes and had failures being constantly repaired, or not at all eg: kaikatea flats road slip at dairy flat which has been ongoing for a couple of years now and very little to show for it.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Im paying year after year for services I dont use, water and sewer, and pay for my rubbish and recycling. What benefit do we get north of Auckland. Yet our rates keep going up.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Live within your budget. Stick to core services. Cut the deadweight, sort out the wate water infrustructure, and listen to the community youre there to SERVE, not continuously hike up rates that only serve yourself. Start with function over what you think is fashionable, like public toilets. They dont have to be icons.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Fix the old failing water and waste water lines. You let developers build new services that tap into your old ones and expect it all to work without any upgrades. What are you doing with all the money you get from water rates? Make roads in new subdivisions at least wide enough for a fire engine to get down. Milldale fire for example. So narrow the engine couldn't get to the fire. Less red tape. Stop trying to justify over priced permits. When there have been so many building issues even with council inspections, shows that we're certainly not paying for quality with these inspections or people are just not doing their job but keep sucking on the rate payers tit. Clean up your own back yard before constantly over pricing ours with rates hikes to cover your incompetence.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.,Other (please specify):Queen street and surrounds are the most depressing place to visit. Gone are tye vibrant shop fronts selling interesting and varied products. Now is $2 shop junk and homeless people and beggers with mobile atm machines and top of the apple phones. I remember years ago the free tram that ran up and down queen street, the movie theaters opposite the civic. You have made it that there is no reason to visit auckland cbd for any reason other than the waterfront disctrict and NEVER walk around some areas just off Queen St after dark alone. The city centre is dirty, unsafe and unwelcoming.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

My strongest comment is the affordability of all the plans. Funding of all these plans via taxes on rateable value is not equitable. In the 2025/2026 year my rates went up by 20% despite being told that the rise would be significantly lower.

Your plan says a large part of the extra cost, now and in the future, is the City Rail Link. Living in a rural area, I will not benefit from this yet am paying a large part of its cost.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**

- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

There have been proposals for a sports facility in Warkworth. But this facility is only providing sports courts. The nearest public swimming pool is in Silverdale, Warkworth needs its own pool not only for young people to learn to swim but also for the older people to use and do healthy activities.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Like the rest of us, council needs to work within its budget and stop putting up the rates every year. It is not sustainable for those living in Auckland. The GB needs to look at the total amount of Grants given each year and reduce those significantly. Look after our existing infrastructure and get reduce the overheads and focus on actual service. The rubbish suggestions are a rought, stick to the basics and get those right. The CRL is a big expensive over budget programme that adds little to no value to the majority of Aucklanders, unless you live in the CBD.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

They are just another 'tax/rate' - stop looking for revenue.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Funding should be for maintenance only and I don't believe that the LB's should even have funding. Most of these are all nice to haves, most ratepayers would prefer a reduction in rates.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Time to get real on what is happening out there. People are hurting and putting rates up and overspending on things that are not essential is creating hardship for everyone and making Auckland a better place to leave not live.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

The selection above is limited, if it was broken out into what has to be done vs what would be nice to do that would of made it easier. For example. Transport local roads and PT is important to me, but walking, cycling etc is not. Same with local parks yes important, not the rest listed.

Reducing rates - we do not get value for money.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Other (please specify):If I didn't work there, I wouldn't go there. To date none of the above has been done well, how is it going to be different going forward?

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Increasing rates above inflation hurts a large number of residents in the community

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

There is not enough planning for infrastructure and amenities that is needed because of growth. There is no plan for the Warkworth Central Business District

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Rodney ratepayers should not have to pay for the City Rail Link , which they won't use. GST should not be charged on rates. This is a tax on a tax.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**

- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Must plan better for infrastructure while protecting the environment. Sediment control on subdivisions is inadequate.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Other (please specify):The Central City will decline if you don't encourage more parking buildings

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I am a resident of Wainui/Rodney, I strongly object to funding the $235m CRL operating costs through the General Rate. This forces us rural landowners to shoulder an unfair proportion of the cost for a service we cannot and do not access. Under the Local Government Act, rates should reflect the distribution of benefits. I demand a reduction in the rural rating multiplier from the 2025/26 budget to ensure I am not subsidising urban infrastructure."

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

In Rodney we had much higher rates increases in 2025/26 than central Auckland. Given that we get no benefits from CRL in North Auckland I don't see why we should have to have high increases again to subsidise it

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Rubbish bins were introduced in Rodney this year with fees. I don't think it should be increased again in its first year.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

The increased financial support of local initiatives is essential to ensure spending is relevant to residents.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Rodney Local Board and developer contributions should be funding a public pool in Warkworth. The community is growing at a rapid rate but there is so few options for kids and teens to do there. A pool would provide a community hub and a healthy activity option.

I think its bizarre that Waitemata is considering cutting housing grants to community organisations at a time when there are increased rough sleepers throughout Auckland central

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Maintain current council pools to a better standard.

Build a pool in Warkworth

These community spaces provide options for teens to socialise in a safe space.

Ensure developers pay for the infrastructure they need to develop new areas - they are the ones that profit from these. The current system of increasing rates to existing homeowners to subsidise fixes to enable developments to go up faster than the infrastructure can handle is irresponsible.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

The council continues to increase rate costs, without any consideration of people that are on fixed incomes.

I am in the rodney area. You continue to charge me for Central rail which I won't use.

Buses come where I live, and hardy any body uses them. total waste of money. sure we need a service, but a 12 seater vehicle would be ample for my Warkworth area.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Refuse bins, REDICULOUS.

I can't even put the rubbish into my refuse bin I'd like to.

I would like to stop this service but you don't give me that option!

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

we shouldn't be paying the central rail charge

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Please stop hydraulicing costs to us. We all Live within your means, council does not

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

#1856

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

We are in total agreement with Councillor Greg Sawyers that Rodney ratepayers should NOT be further levied to pay for the City Rail Link operating costs. We as Rodney residents will never use or benefit from this rail project.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I live in Rodney and I cannot afford to fund the CRL in my rates. I cannot afford any rate increases this year after a 17.5% increase last year compared to very low %s in urban areas. I also do not have any chance of using it or benefit from it in any way. We have no footpaths, street lighting,library, absolutely nothing in the way of public transport. We get nothing from council except forced rubbish collection which is now more expensive than the private collection we had. Please take note of this. The situation with rates is getting unaffordable.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Please record my concern as a Rodney Ratepayer concerning the proposed average 7.9% rates rise. Last year the rates increase for me was 18% so a likely further increase of that magnitude is patently unfair and inequitable. My wife and I, in our 80's will have absolutely no benefit from the enormous expenditure on the new Auckland rail links. We live in distant Snells Beach!!

We are on fixed incomes - the pension so cannot afford such increases!! This is so unfair.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

We reside in Rodney/South Head and have already had a 24% increase in our rates for this year, and now you wish to add on an extra 8% for the City Rail Link that we will not use. This is terrible that yet again the Auckland Council are adding additional rates for an area that cannot take advantage of the wider city's services. Please consider not including the Rodney district in this extra cost given the amount that we have already been increased by. Perhaps the Council needs to seriously look at the expensive non-necessary projects to make better adjustments to our overall costs and rates across the city. The CRL costs should be allocated the most of the budget rate costs to the city

dwellers that live closer to it, who will reap the most benefits from using it, not rural districts who may never actually use it. Please urgently reconsider this proposed annual rate plan!

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Again targeted rates relating to that specific area should be allocated to, not to Rodney who will not reap the benefit.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

The infrastructure roading through Kumeu and roading fixes are priority out here... if it means that we lose some of the passion projects and unnecessary budget allocations then that's what I would agree to.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Carefully adjust the rates accordingly. Why are the increases based on the housing cost? This needs to change! We are currently in a downturn on house values however are still being assessed as if the house costs remain the same from 5 years ago. It really needs to change. I'm terrified of being retired with a fixed income and then being forced out of my home later on due to large and exorbitant rates increases!

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Kumeu road network and bus/train services out here! the roads are jammed due to major housing development. And now i see that more land has been allocated in Riverhead forest - ridiculous! Stop signing off Resource Consent until the surrounding infrastructure has been fixed!!!!

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I do not support the rates increase. As a resident in Rodney local board, we have suffered a huge increase because of the changes with property values across Auckland. The increase to pay for the short-fall in CRL hits Rodney hard but we get very little benefit. We have no rail service at all, and while you say the CRL will take cars off the road - with lack of public transport and no rail, I don't imagine there will be many less cars on the road. On top of this, congestion charges are often talked about, which will again, adversely affect our area more than others. Mayor talks about people being

flexible with using roads - but when I worked in the city, to be able to get early bird parking (parking costs were a considerable percentage of my salary) I was forced to travel at 'peak' times.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

As stated above, Rodney faced significant rates increase with the changes to property values, and will not have any use of the CRL. The major regional works for West Auckland, do not include Kumeu or Helensville. We have no swimming pool nearby, Kumeu lacks community facilitites, and is hugely impacted by growth yet lack of infrastructure. The traffic in and out of Kumeu is impacting on quality of life, and yet there is no alternative. Urban regeneration seems to bypass Kumeu altogether. In fact, a large roading works through its centre is going to decimate the town, and when it comes to storm resilience - the council reported back that there was no viable plan forward. This makes paying increased rates difficult to support.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Kumeu is lacking in community facilities. The art centre has small rooms available, but relates more to arts than other type of groups. And the community centre is private hire, and is often used for large scale events and only has one smaller room that is well used. While the plan looks good on paper, it is quite a general plan, and so is difficult to ascertain exactly how/where the money is being spent. On top of this, the board portrays itself as quite divided and combative rather than collaborative.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

growth needs to happen alongside infrastructure.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):it is expensive to park and get into the city from further afield, which stops most people I know from going into the city centre.

Annual Plan 2026-2027

#1961

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

i reject Rodney funding the CRL see later submission

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

i dont agree to any increases -see submission that follows

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See later submission

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

The Proposed Rate rise of over 8 % for my property is inequitable:

Rodney, meaning , I should not be paying this increase because it is fundamentally inequitable. A largely Rural, country/coastal district with no passenger rail services limited public transport infrastructure should not be compelled to fund a muti million-dollar inner-city rail.

Rodney residents derive little or no benefit from the CRL or other transport infrastructure. I have used public transport occasionally, but it is inefficient taking 2.5 hours to get to the city and 2.5 hours to get back. Park and rides at Orewa and Albany are completely filled when I wish to travel.

Other than going to Eden Park for an event, I have no reason to use the CRL or the Rail system.

This proposal ids further inequitable when the Rodney District was hit with a substantial rates rise based on revaluations undeniably known to Auckland Council and not disclosed to the local rate payers who if they had known would likely have been more actively involved in submissions for the previous consultation .Don't plead technicalities such as not being signed off by the Valuer General – that has been refuted by the VG.AC continues to be disingenuous and you need to listen to Me and other rate payers like me !

Rodney ratepayers pay a targeted rate to maintain bus services, pay SH1 Tolls to access work medical and other commitments in the super city .

The argument that we are 1 city fails to acknowledge the unfairness of the proposal and if we are asked to contribute to an infrastructure proposal it is reasonable to expect a comparable direct benefit.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

infrastructure but fairly

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.,Other (please specify):stop preferencing cycleways and pedestian

Annual Plan 2026-2027

#2019

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

I don't know

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

The archway is an important part of our local history and serves as a memorial to those from the Albertland district who served in war.

Restoring the archway would help preserve this significant heritage structure and ensure that the service and sacrifice of those it commemorates are properly recognised.

It would also strengthen our community’s connection to its past and provide a meaningful landmark for future generations.

I encourage Auckland Council to support and prioritise the restoration of the Albertland War Memorial Archway so it can once again stand proudly as a symbol of remembrance and local heritage

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

As an individual ratepayer with a gravel road that only has a grader 2-3 times a year I feel we are being forgotten.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

My only comment is our roading plan and lack of it.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

You are missing our greatest thing in our area “roading”

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland’s longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland’s future. These plans and strategies include (but are not limited to):

- **Regional transport plans**

4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Tar seal up Rapson Road. We have been living here 28 years and in that time we have paid rates – what for? At the moment our rates are $4,000 and now increasing by $360-$400. Is that fair? Rapson Road residents including my family and I are sick of being forgotten. Please consider sealing Rapson Road please. Parks and bus lanes etc are all very well, but we pay the rates. All we want is a road – it's only 4km long. Sealed!

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.,Other (please specify):More policing in the city centre – it’s too dangerous at present.

Annual Plan 2026-2027

Organisation: N/A

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

While these are all sound and needed plans, Rodney does not benefit from much of these plans and must not be Aucklands ATM. We have chronic infrastructure issues in our own towns and rural roads that the money and increases would better serve.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Upgrades to these districts do not improve infrastructure or daily lives in Rodney . We have our own chronic sewage infrastructure issues especially in Warkworth that needs addressing, our rates should be spent on that. Increasing residential parking is unfair to women, parents with young kids, disabled and elderly who are just not safe on public transportation or having to travel on foot to access public transport especially at night.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

We urgently need our roads sealed to save them from washing away. Warkworth pumps sewage into the town river when it rains. Forget the other stuff for now. Address these key issues first

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

You cannot expect Northern rodney to pay more money- comparatively we get little for our rates and we pay big including tolling just to travel.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Rural roads waste water trapping

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

A growing city will always need additional and renewed infrastructure and services.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

No comment, not relevant to me.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

We need more focus on the specific requirements of local communities and a reasonable portion of funding to ensure we keep pace with the Central City.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Further to my response to question 3 , the Wellsford community often seem to be an after thought when it comes to addressing particular requirements... such as the completion and upgrade of the ANZAC memorial which was removed for Council works and never restored properly. This needs to be done out of respect for our old soldiers, their descendants in Wellsford and surrounding areas and acknowledgement that this town is also deserving of the same opportunities other parts of Auckland receive.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**

- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Transport particularly access through Auckland

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in

the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I don't agree with the rates increase. Find savings elsewhere. Recover CRL from ticket sales.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

General rate increase should be less than CPI.

User pays for other items.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

RLB plan must be based on prioritised requirements/plans from local associations & organisations, not individuals, in the Rodney area. Plans are supposed to represent what local associations require, not what Auckland Council or RLB determine without any consultation

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

The annual plan seems to be an update of previous years plans. AC must incorporate plans from local organisations. Wants and needs change, as does technology.

What do independent surveys say about the Management, services & performance of AC? How does AC compare to similar councils in NZ, eg. Wgtn, Hamilton, Tauranga, Christchurch?

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Upgrading stormwaters & protecting waterways and beach fronts

Ensuring infrastructure is in place before new housing developments.

Ensuring 100% of rates collected form Rodney are spent in Rodney

Developing sporting activities in Goodall Reserve, Snell Beach

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

My last rates rise was 16% despite being told it would be less than 6%. This was deceitful.

If this is another increase of 7.9%, I do not support it.

Rodney residents receive no benefit from the CRL so should not have to pay the same as CBD residents.

None of the other investments appear to have any benefit to me personally. At Sandspit we take care of our own water, sewage, and care of nature strip owned by Council. We have no public transport. Council should be paying us for doing our own thing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

An extra rubbish bin is of no value to me. Bags, as previously, are far easier to manage for many rrural residents because of long and often steep driveways. None of the CBD fees etc have any value for me.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

The biggest problem for Rodney is poor infrastructure despite huge growth in housing. That does not appear to be addressed in the priorities.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Auckland Libraries are fantastic. That is the only positive from being part of the not-so-super city

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Planning and infrastructure to manage growth

Transport

Rodney district is theoretically part of Auckland: we pay for lots of stuff we do not need or use. It is about time there was some focus on our needs instead of using us as a cash cow for the CBD.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Because another jump in rates is on offer!! And primarily to pay for a service that will never be used by the majority of rural residents who seem to be propping up this exorbitant expenditure. If you want to invest in a project as large as the CRL do not rely on non-users to fund it....it should be funded by the principle of user pys

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Residents with off-street parking can choose to avoid, or at least limit, permit fees. That choice is not available to some inner-city residents. For example, Cooper Street (Arch Hill) is one of Auckland's oldest residential streets and was largely developed without off-street parking, as private vehicles were not common at the time. This is expressly recognised in the 2025 Auckland Council Special Character Findings Report, which notes that in Arch Hill "most houses do not have off-street parking". In addition, residents are often constrained in their ability to introduce carports or garages, as much of Arch Hill is subject to the Special Character Areas Overlay under the Auckland Unitary Plan.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

The highest priority I support is that Council learns to live within their means!! Provide ONLY essential services and stop relying on ratepayers to continually fund shortfalls that are created by a total lack of disciplined spending!

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces

work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I write as a resident to submit my views on the proposed 2026/27 annual plan. I oppose the proposed 7.9 percent average residential rates increase and urge a plan that reduces wasteful Council spending while protecting essential services.

Key points

- The proposed 7.9% increase translates to about $320 extra for the average household, on top of a 30% real increase since 2022. This is well above inflation and population growth.

- I support reducing wasteful expenditure and reforming backroom costs. In particular, I agree the Council should reduce spending on corporate and backroom office functions across the Council and CCOs, and curb consultancy and professional services rather than continuing to grow them.

- I agree the Council should cancel the Food Scraps Programme, which costs $36 million per year and emits more carbon than it saves.

- I agree a freeze or reduction of payroll costs by not filling non-essential vacant roles, as this could save at least $17 million immediately.

- I agree the Council should cut Māori-specific spending, such as the $10 million/year on the 'Maori outcomes' department (Ngā Mātārae), as this is not a core local government function.

- The Ratepayers' Alliance Alternative Budget shows a feasible path: reduce new spending by $150 million (2%), delivering a cap of about 3% for residential rates through targeted savings in personnel, consulting, and vendor contracts, and prioritising statutory services over discretionary grants.

From these points, I propose:

- Implement a 3% average residential rates cap for 2026/27 by cutting non-essential staff costs, freezing vacancies, and reducing consultancy spend.

- Execute vendor consolidation and contract renegotiations to save about $30–50 million.

- Reallocate resources to essential statutory services and remove non-core programmes.

I ask that the Council present a transparent plan showing where savings will come from and how essential services will be protected, with a clear timeline for the reforms above. I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Cut your spend and use those funds to finance the above proposals??

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I write as a resident to submit my views on the proposed 2026/27 annual plan. I oppose the proposed 7.9 percent average residential rates increase and urge a plan that reduces wasteful Council spending while protecting essential services.

Key points

- The proposed 7.9% increase translates to about $320 extra for the average household, on top of a 30% real increase since 2022. This is well above inflation and population growth.

- I support reducing wasteful expenditure and reforming backroom costs. In particular, I agree the Council should reduce spending on corporate and backroom office functions across the Council and CCOs, and curb consultancy and professional services rather than continuing to grow them.

- I agree the Council should cancel the Food Scraps Programme, which costs $36 million per year and emits more carbon than it saves.

- I agree a freeze or reduction of payroll costs by not filling non-essential vacant roles, as this could save at least $17 million immediately.

- I agree the Council should cut Māori-specific spending, such as the $10 million/year on the ‘Maori outcomes’ department (Ngā Mātārae), as this is not a core local government function.

- The Ratepayers’ Alliance Alternative Budget shows a feasible path: reduce new spending by $150 million (2%), delivering a cap of about 3% for residential rates through targeted savings in personnel, consulting, and vendor contracts, and prioritising statutory services over discretionary grants.

I ask that the Council present a transparent plan showing where savings will come from and how essential services will be protected, with a clear timeline for the reforms above. I do not wish to speak to my submission at a hearing.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Planning and infrastructure so Auckland can continue to grow, can't even get a wastewater connection in our "Super City" at the moment!

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):None - enough money wasted here

- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Other

Tell us why

I do not suport a 7.9% increase to ur rates here in Rodney - Yes - The CRL project is of benefit to Auckalnd city and many suburbs - but up here in Rodney - it will not be of benefit to us the ratepayers. I visit the city centre perhpas once per year - Pblic transport is very limited from Warkworth, many bus changes. So be it - we are rural - but we already pay a targeted transport rate and we recived a heathy rate increase last yaer because of our rural rating. Not to mention we pay tolls to access SH!, and a higher petrol tax.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I am hapy with the Rodney rubbish changes from last year .

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

This document does not give any detail on the RLB plans. I would appreciate the priorities listed with space below to add comment or suggestions - a true feedback form.

As such i have created a document and have attached.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Resilience - can communities plan and mange future environmental change

Build community accord - thru community hubs, events

Those regional parks are a wonderful assett for all of Auckland - what foresight our forefarthers had.

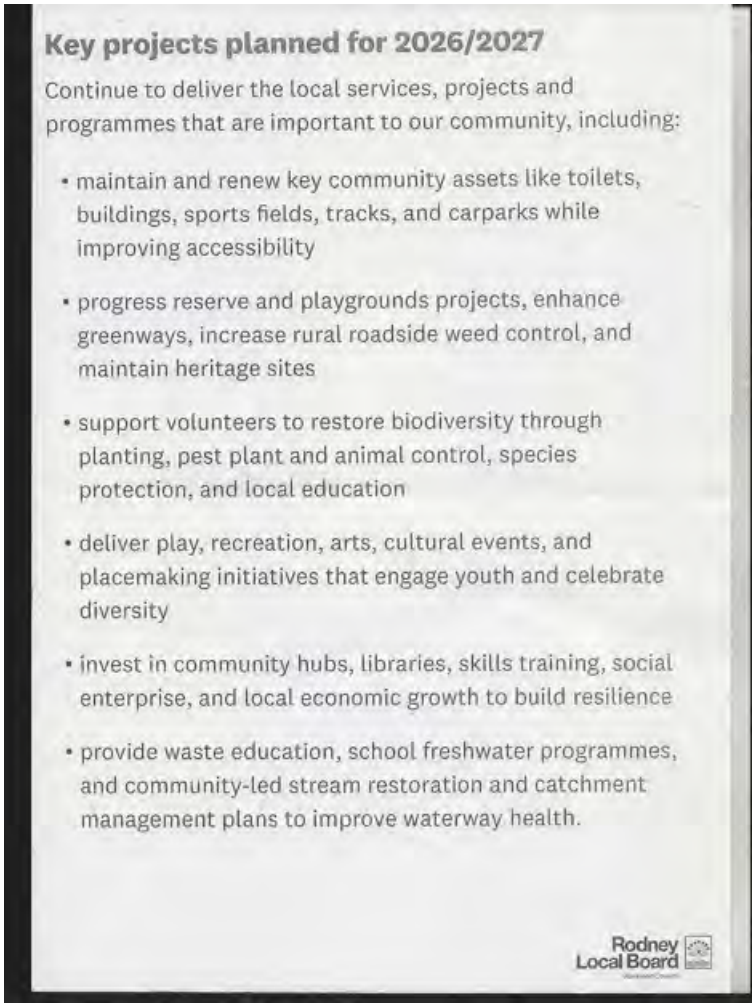

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces

work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Other (please specify):Don't visit the city centre very often - would visit art gallery, museum perhaps 1-2 times a year.but

1: Maintain and renew key community assets like toilets, buildings, sport fields, tracks and carparks while improving accessibility

- Renew the skatepark at Goodall Reserve Snells Beach. The drainage on the sports field also needs improving so that there could be junior football, rugby practice in winter and athletics in summer. An all weather path around the sports field would also be great – The provision of toilets would be appreciated – the shopping centre facilities are a bit far! Other sports options on this reserve would also be appreciated by the youth – bmx track, disc golf.
- A few more drinking fountains/ feet washing stations would be appreciated along the waterfront. Also another BBQ at the Sunburst carpark
- I have appreciated the appointment of the compliance officers this year – a good initiative. They are most approachable and take a low key / education approach to noncompliance.

2: Progress reserve and playground projects, enhance greenways, increase rural roadside weed control and maintain heritage sites.

- Provide an adult fitness station in one of our many reserves. I would champion the beachfront – as it is already part of the communities' fitness regime.
- Plant some community orchards in our area – citrus, feijoa, fruit trees, fig etc.
- Dawson Road Reserve – good to see this reserve returned to the community – and thanks to Watercare for returning it in good condition. However what is the plan for this space? Other than a smooth mowing opportunity for the maintenance crew. Could it be a dog exercise facility / agility centre? This would then free up Goodall Reserve for people. The dog park at Plimmerton is an excellent example. Or perhaps design a bmx track.

- When will the Mahurangi East Regional park be open for public access from Martins Bay?

- Greenways Plan – Puhoi to Pakiri. Please enable the completion of the cycleways plan. It would be great to be able to cycle into Warkworth from Snells Beach safely. Not an option at present! Access to the Warkworth shops, Schools, Sportsfields, Matakana offerings, local vineyards and activities for all ages.

3: Support volunteers to restore biodiversity through planting, pest plant and animal control, species protection and local educations.

- Thank you for the support you already offer to the many local groups.
- The bird population at Snells is a treasure that should be enhanced. To have so many varieties of birds visiting a populated community is special. Surely we can all accommodate each other. Please progress a resolution to the community disharmony.

4: Deliver play, recreation , arts, cultural events and place making initiatives that engage youth and celebrate diversity.

- This eastern part of RLB needs a swimming pool facility. Not just a "Learn to swim " facility – but also a fun safe place to be around water. Eg: Albany pool or Stanmore Bay. Splash pads for the tide is out all day days. It is a very long trip to those pools or to the northern arena pool. Pricey and with travel costs and travel timing on top – not an option many can afford.
- I do feel our older youth miss out on facilities here in the Warkworth subdivision. An outdoor fitness station could be welcomed. Another outdoor basketball court/ hoop area in Goodall Reserve. A trail bike track thru DOC land – Lawrie's Reserve? Disc Golf, Enhanced skateboard facility
- We have missed our AC events this year – Music in Parks, out n about etc. Please fund them – great for community building.
- Thank you for the appointment of the community engagement officers – I hope to see and experience great things in the hood this year.

5: Invest in community hubs, libraries, skills training, social enterprise and local economic growth to build resilience.

- Thank you for supporting our Mahurangi East Library and Community Centre. A wonderful asset for the Peninsula.
- I wonder if consideration could be given to retaining the empty police station for community use – eg: the community engagement team, local info and notices…. Or perhaps an art centre although it is small.
- As for an art centre – the Beachfront café is up for sale – we miss our beach coffees – but perhaps this could be an art gallery – craft centre.

6: Provide waste education, school freshwater programmes and community-led stream restoration and catchment management plans to improve waterway health

- Thank you for the support you already give these initiatives. Our beachfronts, Kawau Bay and rivers make our community a very special place in Auckland. Please continue to support these organisations. Lets us ensure we gift a sustainable healthy environment for our grandchildren.

And more:

- Please keep our housing density levels low – ensure development plans fit into the lifestyle we have in Rodney East. We don't have the infrastructure in place for high density – and that's is how we like it.
- I would be against any amalgamation of our area with Kaipara district. I am an Aucklander – a place I am proud to call home. And Rodney is the a wonderful place to live.

Annual Plan 2026-2027

#2226

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I don't support paying for running of the CLR. I may use it once to get the novelty out of the way. Rural residents should not bearing for services they never use.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

There is no information on - Introduction of a refuse bin/bag exchange fee?? We only just just got bins as part of our rates, what is this new change?

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

All initiatives are well worth while.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Feedback should be taken onboard and acted upon, not ignored like it was with the last rates increase?

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**

- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Floods and slips resilience. Stop building on flood plains and slip prone land.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Supporting

businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

We do not support the proposed rates increase in the Annual Plan 2026/2027, particularly to the extent that it is driven by the operating, interest, and depreciation costs associated with the City Rail Link (CRL).

Lack of direct benefit or use

As ratepayers in the northern part of Rodney who will not use the City Rail Link, we do not consider it fair or reasonable that we are required to fund a significant and ongoing rates increase to support it. Nor do we accept Council's assertions that the CRL will benefit all Aucklanders. The CRL is a highly centralised transport project that primarily benefits a subset of Aucklanders—particularly those who live, work, or study in the city centre or along the rail network. Many ratepayers, especially those in outer areas and rural or semi-rural locations, will see little to no practical benefit.

Questioning the claimed benefits

While the consultation document outlines significant economic, transport, and environmental benefits attributed to the CRL, these benefits are largely projected and not guaranteed. They rely on assumptions about future behaviour, patronage levels, and complementary investment across the wider transport network. For many Aucklanders, including those who rely on private vehicles or who have limited access to rail or rapid public transport, the claimed benefits are unlikely to be realised in practice.

Given the scale of the investment and its ongoing cost, it is reasonable for ratepayers to question whether the benefits are sufficiently broad, certain, and equitably distributed to justify the burden being placed on general rates.

Equity and funding mechanism

If the Council considers the CRL to be a region-wide asset that delivers long-term strategic value, then its costs should be met in a way that reflects that status. We believe CRL-related costs should be funded through the Uniform Annual General Charge (UAGC) rather than through increases to general rates.

Funding through the UAGC would apply a consistent charge across households, rather than disproportionately impacting ratepayers based on property values, particularly when many of those ratepayers will not use or benefit from the CRL. This would be a fairer and more transparent approach.

Alternatively, a targeted rate should be applied to ratepayers in those areas that will benefit most directly from the CRL.

Cost pressures and affordability

At a time when households are facing sustained cost-of-living pressures, further increases to rates—especially for projects that do not deliver direct or tangible benefits to all ratepayers—are difficult to justify. Council should continue to prioritise affordability, core services, and infrastructure that delivers clear and widespread value.

In addition, many Rodney rate payers faced a significant rates increase last year. In Omaha many increases were in excess of 30%. A likely increase this year of more than 8% will mean those

residents will see a cumulative increase of more than 40% in just 2 years. This not reasonable and certainly not in keeping with principles of natural justice.

Conclusion

For these reasons, we do not support the proposed rates increase as set out in the Annual Plan 2026/2027. We urge the Council to reconsider how CRL-related costs are funded, to place a stronger emphasis on equity and affordability, and to ensure that rate increases are clearly aligned with benefits that are experienced by the majority of Aucklanders.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

The priorities for Rodney are sensible. However, they need to be delivered on rather than talked about. Council has stated it has obligations around Pest Control, Dog Ownership / Community Safety amongst other issues. In Rodney these are not being adequately delivered on due to a lack of focus / resource in these areas.

At Omaha pest control is a major issue. The community does a lot of pest control work itself, but some things we can't do e.g. rabbits. Rabbits are out of control and destroying vegetation that protects the dunes. Council are aware of this but refuse to commit resources to rabbit control.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

We look forward to seeing some real action on the concerns raised about rates if "having our say" is to be seen as anything but a bureaucratic box-ticking exercise

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around

1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Preparing for climate change is critical. However, this does not mean simply applying flood Palin maps indiscriminately, often based on incorrect data / assumptions. Doing so greatly impacts peoples property rights and the value of their homes. A more nuanced approach is required. In addition, Council has a moral obligation to maintain its own stormwater systems.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I do not support the proposed rates increase in the Annual Plan 2026/2027, particularly to the extent that it is driven by the operating, interest, and depreciation costs associated with the City Rail Link (CRL).

Lack of direct benefit or use: As a ratepayer who will not use the City Rail Link, I do not consider it fair or reasonable that I am required to fund a significant and ongoing rates increase to support it.

The CRL is a highly centralised transport project that primarily benefits a subset of Aucklanders—particularly those who live, work, or study in the city centre or along the rail network. Many ratepayers, especially those in outer areas and rural or semi-rural locations, will see little to no practical benefit.

Questioning the claimed benefits: While the consultation document outlines significant economic, transport, and environmental benefits attributed to the CRL, these benefits are largely projected and not guaranteed. They rely on assumptions about future behaviour, patronage levels, and complementary investment across the wider transport network. For many Aucklanders, including those who rely on private vehicles or who have limited access to rail or rapid public transport, the claimed benefits are unlikely to be realised in practice.

Given the scale of the investment and its ongoing cost, it is reasonable for ratepayers to question whether the benefits are sufficiently broad, certain, and equitably distributed to justify the burden being placed on general rates.

Equity and funding mechanism: If the Council considers the CRL to be a region-wide asset that delivers long-term strategic value, then its costs should be met in a way that reflects that status. In my view, CRL-related costs should be funded through the Uniform Annual General Charge (UAGC) rather than through increases to general rates. Funding through the UAGC would apply a consistent charge across households, rather than disproportionately impacting ratepayers based on property values, particularly when many of those ratepayers will not use or benefit from the CRL. This would be a fairer and more transparent approach.

Cost pressures and affordability: At a time when households are facing sustained cost-of-living pressures, further increases to rates—especially for projects that do not deliver direct or tangible benefits to all ratepayers—are difficult to justify. Council should continue to prioritise affordability, core services, and infrastructure that delivers clear and widespread value.

Conclusion: For these reasons, I do not support the proposed rates increase as set out in the Annual Plan 2026/2027. I urge the Council to reconsider how CRL-related costs are funded, to place a stronger emphasis on equity and affordability, and to ensure that rate increases are clearly aligned with benefits that are experienced by the majority of Aucklanders.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**

Annual Plan 2026-2027

#2293

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I am not seeing the Kumeu area represented in the Blue-Green flood water programme. The Rodney Local Board are employing some contractors to tidy up tributaries, yet we see weekly pictures on our community facebook pages of the state of the Kumeu River, and we also see regular work done by businesses such as Material Impact clearing out drains free of charge to prevent flooding because Council isn't looking after it.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

As a Rodney resident I object to being charged a levy for the CRL project - we have no option to take trains to and from the city, so it seems unreasonable to charge us for this. If you extended trains to Huapai using the existing but unused tracks then perhaps the levy would be reasonable.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

I am not getting any sense that there is a serious commitment to deal with flood resilience in our area, particularly around the Kumeu river. We continue to see development planned in flood plain areas and we cannot resolve the issues we already have with flooding. Most weeks I see "Material Impact" posting drain clearing work he has done at no cost because the council isn't doing this work. Have you engaged with this guy? Council never responds to his posts.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Flood resilience work needs to be accelerated in the Kumeu River catchment, given the existing flood issues, and the planned development projects to further intensify building through these existing flood plains.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces

work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

As a resident of Rodney, our last year's rates rose over 20% and the rates are increasing this year by another $1,400!!!! I feel we are bearing an unfair load of the CRL and other city services for which we receive no benefit.

Please consider a raising the Uniform Annual General Charge (UAGC) to the maximum allowable limit so that all households are paying equally for the core services.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

I would like to see more money spent on water and waste water than cycle ways which can come later

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**

- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Waste water especially not discharging waste into Auckland beaches.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers

and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

rates increases are too high should be met through combination reduced spending and user pays for services

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

fee for bin refuse bag should only apply to those who use Council service not a blanket charge as a number of ratepayers use alternative providers

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

local board is just duplicating Council waste of money

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Ratepayers in Rodney should be exempt from funding CRL charges they do not derive any direct benefit from the service as they are no local train stations.

There are no local viable public transport options exist for them to use.

They already pay a targeted rate to maintain basic services.

Excluding Rodney would only increase the cost to the most likely users the Auckland urban base by thirteen cents a week.

The relief to Rodney would be substantial and would not penalise them for infrastructure it neither uses or meaningfully benefits from.

Excluding Rodney from a 7.9 % to 8.4% increase is responsible governance.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Basic services nice to haves are not a priority and can be funded through user pays

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Wellsford Memorial Gates upgrade needed to be of Significance to those who gave their lives for country and what it stands for today.

I would like to see the original restored or similar to the honour of these citizens.

The archway is an important part of our local history and serves as a memorial to those from the Wellsford district who served in war.

The archway has lost much of its original presence and dignity.

Restoring the archway would help preserve this significant heritage structure and ensure that the service and sacrifice of those it commemorates are properly recognised.

It would also strengthen our community's connection to its past and provide a meaningful landmark for future generations.

I encourage Auckland Council to support and prioritise the restoration of the Wellsford War Memorial Archway so it can once again stand proudly as a symbol of remembrance and local heritage

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

Wellsford – the Beginnings

With very few roads in the district—most of which were little more than mud tracks—the prospect of progress looked promising when five hundred workers were brought in to construct the railway in 1907. This sparked a surge in business activity, which further accelerated with the opening of the Wellsford Railway Station in 1909. Meanwhile, the small settlement of Whakapirau, located to the west of Wellsford along Whakapirau Creek, was slowly overshadowed as Wellsford grew. After an early period of expansion, Wellsford faced hard times between 1910 and 1912, turning it into a near ghost town. However, the 1930s brought a resurgence, as the town began to emerge from its slump. Businesses flourished, the population swelled to 200, and living conditions improved. New infrastructure, including road-making machinery, telephones, motor lorries, a post office, electric power, and a flood of motor cars, transformed the village. Over the next 30 years, Wellsford grew to a population of 1,431, with 356 dwellings.

1915

The Returned Soldier's Association was founded in Auckland, and shortly after, it was renamed the "Returned Services Association." The closest branch for the Lower North was located in Helensville at the Kaipara RSA. In 1929, a Rodney Branch was established in Warkworth, followed by the formation of a sub-branch in Wellsford after World War II. The local community rallied to support the dedicated efforts of the Patriotic Society branch, raising funds and sending care packages to district men serving overseas.

1918

The Wellsford Queen Carnival, held on March 27, 1918, raised funds to support the comfort, farewell, and reception of soldiers, as well as to fund activities aimed at preserving and boosting morale.

1919

Robert Langley Brunton, a contractor in the log milling business, was based in Point Chevalier. In 1919, he purchased the Turley property adjacent to Memorial Park when it became available and chose to settle on what became known as "Alice Scott's Triangle." The property's boundary stretched from the south side of the Anglican Church directly across to connect with the rear sections facing Rodney Street. This land did not include the Memorial Park Domain, the Anglican Church, or the site of the Farmers Trading Company at the corner of Rodney Street and Port Albert Roads. Brunton used the property to graze and house his bullock teams, which he employed to transport logs to milling camps both to the north and south, even making journeys as far as the King Country.

1920

Not long after the Brunton family moved in the land that is now known as Memorial Park was bought by the Farmer's Union at the request of its local shareholders who purchased the existing store, residence and land from Annie Wilson for £700.

1929

A site for the Anglican Church was sold to the Anglican Trust Board for £50.

1930

The Wellsford A & P Society faced challenges with its original site next to the Public Hall, which proved too restrictive. Although 22 acres of Section 28, near the Oxidation Ponds, had been gazetted and vested in the A &

#2324

ALBERTLAND heritage

P Society, it was not an ideal location. In 1930, with the assistance of the local Member of Parliament for Kaipara, the Rt. Hon. J.G. Coates, the society purchased the current Memorial Park site for £158. However, in 1953, the Society relocated once again to Centennial Park. Memorial Park then became a public recreation ground and was later gazetted under the Reserves and Domains Act as Wellsford Park Domain, with the Rodney County Council serving as the Domain Board.

A site was sold to the Lodge Wellsford for £30

Fundraising begins in earnest to erect the Memorial Gates

1936

Request from Wellsford War Memorial Committee to erect Arch at the entrance to the Society's grounds

WELLSFORD NOTES

(Own Correspondent.)

WAR MEMORIAL.

Steps are being taken to erect a War Memorial in Wellsford, and the committee have been engaged in collecting funds for this purpose. At the last sale of the North Auckland Farmers' Co-op. Ltd., a large number of cattle and pigs that had been donaied were sold; and in several cases were resold on behalf of the buyers as a gift to the fund. It has not yet been decided what form the memorial will take as there is a great difference of opinion as to what would be most suitable for the purpose.

Figure 1 Papers Past, Rodney Times, 4 December 1935

ANNUAL MEETING
Wellsford A. & P. Society

There was only a small attendance of members at the annual meeting of the Wellsford Agricultural and Pastoral Society held in the Public Hall on Friday evening, 24th ult. The president, Mr E. R. Becroft, was in the chair. In moving the adoption of the annual report and balance sheet, Mr Becroft stated that he was glad to report that the Society had had a very successful Show and that the finances were in a sound position. The nett profit on the Show amounted to £27 9s 4d. The Society now has assets shown to a value of £786 15s, including cash in bank amounting to £81 7s 3d. In concluding his report the president thanked the committee and all those who worked to make a success of the show.

Considerable discussion took place over a request from the Wellsford War Memorial committee to erect a "War Memorial Arch" at the entrance to the Society's grounds. The request was granted after a number of suggestions had been made to improve the entrance and gates.

Five new members were admitted, whilst the resignations of several members who have left the district were accepted with regret.

The election of officers resulted in the following being appointed:—Patron, Mr J. G. Barclay, M.P.; president, Mr E. R. Becroft; vice-presidents, Messrs W. R. Grant and J. Pool; executive committee, the president, vice-presidents and Messrs F. Reid, G. Z. Grant, E. Jacques and C. O. Grant; auditor, Mr A. H. Grant. The general committee was revised and three new members added to replace some who now take no active part in the work of the Society. A number of suggested improvements to the grounds, buildings, and Show arrangements were discussed and will be finalised when the schedule is being revised.

1937

Commencement of the erection of the Wellsford War Memorial to take the form of an archway and gates to the entrance of the Wellsford A & P Society. The newly constructed gates were officially opened by the Rt. Hon. J. G. Coates on 27th April 1937

WAR MEMORIAL.

A commencement has been made with the erection of the Wellsford War Memorial. It is to take the form of an archway and gates at the entrance to the grounds of the Wellsford A. & P. Society. A large amount of earthwork was necessary to make a suitable grade owing to the widening of the road at this point. The A. & P. Society is meeting part of the cost of the earthwork, while the County Council has widened the road along the frontage of the Show grounds, and metalled it to form a parking area for use on sale days

UNVEILING CEREMONY**New Zealand Herald, Volume LXXIV, Issue 22713, 27 April 1937, Page 10**

WELLSFORD WAR MEMORIAL

[FROM OUR OWN CORRESPONDENT]
WELLSFORD, Monday

The unveiling of the Wellsford War Memorial took place on Anzac Day. The ceremony was combined with an Anzac Day service held in the show hall. The memorial is an Arch of Remembrance at the entrance to the Wellsford show and sports ground. It is constructed of Auckland bluestone with ornamental gates.

There was a very large attendance, including a parade of about 70 members of the Rodney Returned Soldiers' Association.

The ceremony was performed by the Rt. Hon. J. G. Coates as member of Parliament for Kaipara. Mr. Coates, as a life member of the New Zealand Returned Soldiers' Association, was also present at the parade of returned soldiers. Mr. Coates congratulated the committee and the people of the Wellsford district in providing an everlasting indication that the men who died in the Great War were not forgotten.

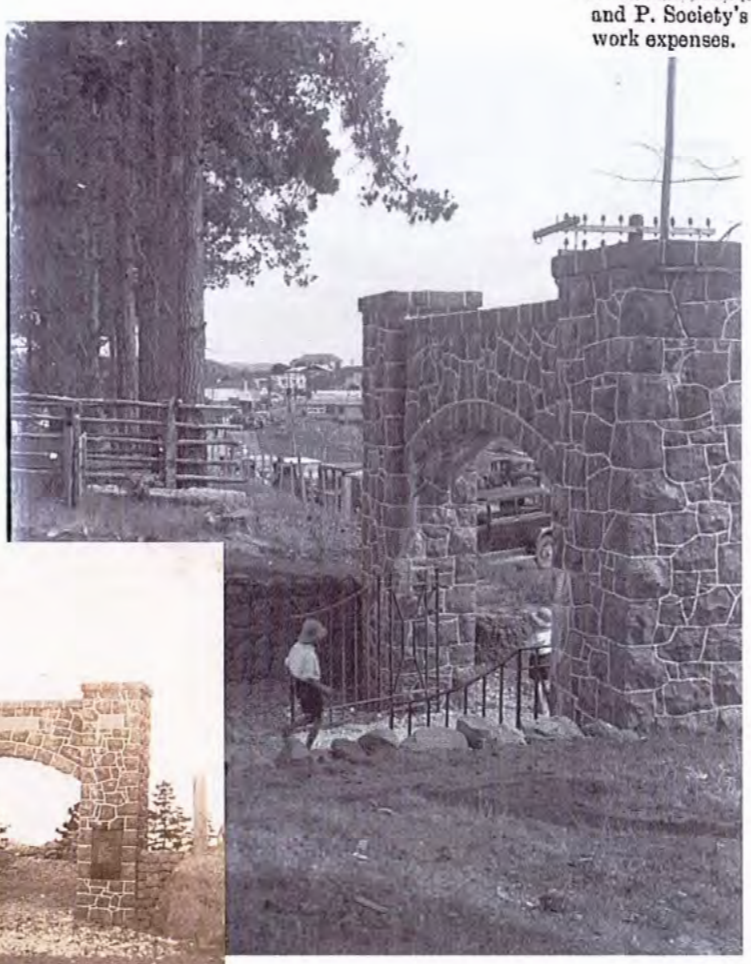

The chairman of the Memorial Committee, Mr. R. H. Culpan, thanked everyone who had helped to accomplish the building of the arch.

Figure 4 Papers Past, Rodney & Otamatea Times, 28 April 1937, Page 7

At a special meeting of the Wellsford A & P Society on Saturday 17th April discussion was tabled about the use of the sports ground. There was also a deputation from the War Memorial Committee to discuss the question of cost and payment of the earthwork carried out at the entrance to the showgrounds.

MEMORIAL GATES.

A deputation from the War Memorial Committee waited upon the meeting to discuss the question of cost and payment of the earthwork carried out at the entrance to the show grounds. After hearing a statement of the position it was decided to make a payment of £15 to the War Memorial Committee as the A. and P. Society's share of the earthwork expenses.

(Our Own Correspondent.)

WAR MEMORIAL

UNVEILING CEREMONY.

There was a very large attendance of the public when the ceremony of unveiling the Wellsford War Memorial was performed on the morning of Anzac Day. The ceremony was combined with an Anzac Day service and owing to the bad weather the service was held in the Show Hall adjacent to the memorial. The memorial is an Arch of Remembrance at the entrance to the Show and sports grounds. It is constructed of Auckland blue stone with ornamental gates. A feature of the attendance was the parade of about 70 members of the Rodney Returned Soldiers' Association, who came from all parts of the County as a mark of respect to their fallen comrades.

The unveiling ceremony was performed by the Rt. Hon. J. G. Coates, M.C., P.C., Member of Parliament for Kaipara. Mr Coates, as a life member of the N.Z.R.S.A., was also present in the parade of returned soldiers. The service opened with the National Anthem, followed by a short period of silence after which the hymn "Lead, Kindly Light" was sung. A short prayer by Mr Trafford was followed by the reading of the New Testament lesson by Mr J. Ward.

Mr Coates in his address congratulated the memorial committee and the people of the Wellsford district in providing a tangible and everlasting indication that the men who passed away at the Great War are not forgotten, and showed that even though nearly 20 years had elapsed the men who gave their lives were still remembered. He often wondered what the present generation think about the War and of the men who served there. The soldiers had all hoped that it would be the last war, but events in the world today show that we are not living in peace but on the edge of a volcano.

He referred to the great responsibility that citizenship of the British Empire involved, and considered that the great majority of people in the British Empire were strongly in favour of the present constitution and system of Government. The pioneers in coming to this country brought into being our country and we should all take our part in the responsibility of our citizenship. The present international situation was one calling for the deepest consideration by the people of our Dominion. The many wars and warlike actions since 1918 were referred to in detail and showed that the League of Nations had been unable to stop war.

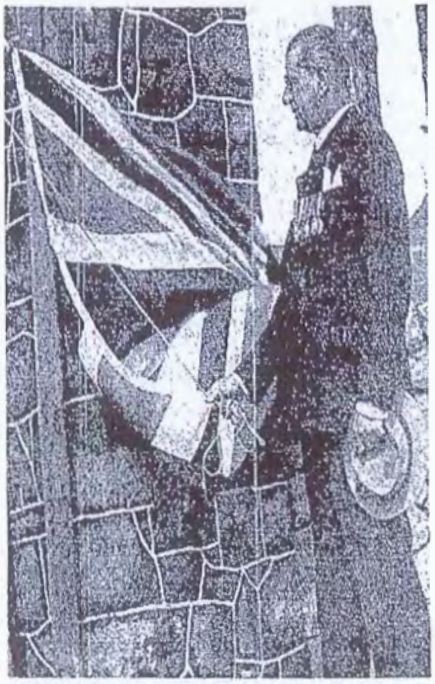

He was glad to see so many returned soldiers present and was proud to have been associated with the "Diggers" in France, and considered that the biggest thing in men's lives was when they served their country. He was struck with the cheerfulness under trying circumstances of badly wounded men, but all Diggers' hearts were sad when they thought of the mates who did not come back. One of the finest things in the war was the feeling of comradeship, and he appealed for assistance for those who are suffering from the effects of the war, and stated that it was difficult in many cases to assist the deserving as they would not ask for help. In conclusion, Mr Coates said he could not do better than read Abraham Lincoln's speech at Gettysbury. Mr Coates then performed the unveiling ceremony, after which the hymn "Abide with Me" was sung.

The well-known lament, "Flowers of the Forest" was played by Pipe-Major Williamson, and the numerous wreaths were laid. In addition to private wreaths, there were beautiful emblems from the Rodney R.S.A., Wellsford Women's Institute, North Albertland Women's Institute, Masonic Lodge, Golf Club and Football Club. The Roll of Honour was read, followed by the playing of the Last Post.

The chairman of the memorial committee, Mr R. H. Culpan, thanked everyone who had helped to accomplish the building of the fine Memorial Arch to the men of

WELLSFORD

There was a large attendance of the public at the morning service held at the monument, Wellsford, in addition to the parade of strong units of the Home Guard, Independent Mounted Rifles and ex servicemen. The principal speaker was Capt. H. M. Rushworth, who delivered a very interesting address. A number of beautiful floral tributes were placed on the memorial by representatives of the Rodney Returned Soldiers' Association and other local organisations.

Figure 7 Papers Past, Rodney & Otamatea Times 30 April 1941

WELLSFORD

There was a record attendance at the Wellsford Public Hall for the Anzac Day Service held in the morning, the hall being filled. About 40 ex-servicemen paraded, including a number from other parts of the County. The service opened with [illegible], after which the hymn, "Lead, Kindly Light," was sung. The prayer for peace was given by the Rev. Rushworth, while the Scripture Lesson (Psalm 91) was read by the Rev. W. C. Jenkin. The hymn, "Abide With Me," was sung, after which Mr G. N. Morris, S.M., of Whangarei, gave a very fine address. The playing of the Lament, "Flowers of the Forest" by Piper Finlayson was followed by the laying of the various official wreaths on the platform, and these were taken to the memorial gates at the Showground after the service. The reading of the Roll Call was followed by a few words of thanks by the chairman, Mr R. H. Culpan, to all those who had helped with the service. The hymn, "O God Our Help in Ages Past," was followed by the Benediction, and the service closed with the National Anthem.

RE-UNION AT WELLSFORD

Over 50 members of the Rodney Returned Services Association were present at the annual re-union held in the Public Hall at Wellsford recently. The function which was presided over by Mr Jack Davies, took the form of a smoke social.

The evening's programme comprised the usual toast list which was duly honoured, supplemented by vocal numbers contributed by Mr F Reid, Mr I. P. Mowat and the Warkworth male quartette. In addition lusty community singing, led by Mr F. Reid, contributed to the night's enjoyment.

During the evening an impressive address was given by Capt. D. McCathie, and a presentation made to the secretary, Mr Jno. Singleton in recognition of the splendid service he is rendering the Association.

Excerpts from Wellsford Advertiser Magazine – fundraising for the Wellsford War Memorial Library building - October 1953

THE WELLSFORD & DISTRICT WAR MEMORIAL

When the Wellsford and District War Memorial is erected before the end of this year, it will be the realisation of work of several organisations and committees, dating back to 1945.

The proposal to have a War Memorial was first instituted by the Wellsford Community Centre in 1945 and a competition was held for plans and designs of a suitable Memorial to be placed on the Wellsford Hall property.

Mr. Scott Johnson's plans of a Library, R.S.A. Club-room and caretaker's residence was adjudged the winner.

The Community Centre then arranged a meeting with representatives of various organisations.

From this meeting it was resolved to hold a public meeting in July, 1946.

The Public Meeting took the first step towards the financial aspect of the structure, and resolved to go ahead with the raising of £6,000 per medium of a Queen Carnival and a house-to-house collection. It was decided that if insufficient funds were received, another Public Meeting would be held.

An executive committee of Messrs. C. O. Grant (Chairman), Dr. H. Morrison (Secretary), H. P. Lovell, G. A. Poole, L. C. Dow, E. L. Farr, and W. Smith, was elected.

The Carnival resulted in £1,549/12/1 being raised, which was well short of the target.

Consequently another public meeting was held in February, 1947, when it was proposed that the Hospital Association be given the use of the War Memorial funds for 12 months, as a bargaining item in obtaining a Hospital.

A further meeting with the Hospital Association was held in February, 1948, at which it was considered that it did not appear that there was any further use in the Hospital Association having an option on the War Memorial funds.

Six months later the Hospital Association was approached with a suggestion of amalgamating funds with the Memorial committee, but the offer was declined.

In March, 1948, another public meeting was held when it was decided that in view of the money available a modified plan of a Shrine, Library and reading room be prepared.

The meeting estimated the cost of the structure at £3,000. A committee comprising Mr. H. Parsons (Chairman), the late Mr. J. Singleton and Messrs. Earle Smith, H. Lovell, W. Smith, R. Wallace, and J. Wilcox were elected. Later Mesdames Sellars, Robertson and Mr. C. Gregory were added to the committee.

The committee was instructed to send the prepared plans to Wellington in order to apply for a subsidy. The plans were lost somewhere in Wellington and another set had to be sent.

In February, 1949, no reply from Wellington had been received, and the committee again met the Hall Trustees re land for Memorial —part of which was being taken by the Public Works Department for a road.

In August, 1950, the Memorial Committee approached the Rodney County Council, who generously offered them sufficient land next to the Rest Room.

1954

In December 1954 the library transferred to its new quarters in the War Memorial building. This was a pleasant, modern library, light and airy and centrally situated and built on a piece of land made available to the Rodney County Council for the residents of Wellsford through the good offices of the late Rt. Hon. J.G. Coates. The land was originally intended for the erection of a War Memorial Arch for World War I, however the Arch was eventually built at the entrance to the showgrounds, in Port Albert Road and now known as Memorial Park. The Memorial library also housed the District's Roll of Honour in its anteroom with a second roll of honour on the pillars of the War Memorial Gates.

THE WELLSFORD & DISTRICT WAR MEMORIAL (Cont.)

On 10th April, 1951, word was received that the subsidy was granted and architect's plans and specifications were required for the building (which was now estimated to cost £4,460). These had to be sent to Wellington for approval.

Slight alterations were required on their return before application was made to the Building Controller for a permit.

To meet the extra cost of the Memorial, it was necessary for the committee to find at least another £600.

The County Council quite rightly could not call for tenders or sign a contract until the necessary money was in hand.

Twenty public-spirited people in the district guaranteed the £600 until such time as a house-to-house canvass could be made. The appeal resulted in £721 being collected.

This summary of events is considerably condensed, but from it the reader may judge the work involved in order that the Wellsford District heroes may be fittingly honoured and remembered.

1957

After the crumbling of the gates built in 1937 the gates were pulled down with promises of them being rebuilt.

Wellsford Memorial Gates To Be Rebuilt

STAFF REPORTER

WARKWORTH, Fri.—Wellsford's war memorial gates at the entrance to the war memorial domain have been pulled down and are to be rebuilt.

An increased grant of £50 to do the work will be made by the Rodney County Council, which will also give every assistance in having the gates rebuilt.

The gates, which were erected after World War I, were constructed of stone and without any reinforcing in the foundations.

Recently, the foundations of the 40-ton structure subsided and leant forward at an angle towards the roadway.

They had been tied together and held up with wire rope.

A working-bee under the direction of the county engineer (Mr H. W. Elliffe) pulled the gates down this week.

A report on a meeting with the war memorial committee was made by the council chairman (Mr T. O. L. Jenkins), who said the committee agreed to the removal of the gates as the council could not guarantee their satisfactory repair.

It was said that £200 would be needed to rebuild them, and this would require further supplies of stone.

The committee has £80 in hand and the council will apply for a grant of £50 towards the work.

The remainder will be found by the committee.

Only comment was from Cr J. J. Granville, who said he was amazed that the gates had stood so long.

Call at Henry Wilson's and see the Shortie Pyjamas and Matador Pyjamas, showing in Krinkle Non-Iron Cottons. These come in plain gay colours or floral designs, trimmed broderie anglaise or ric-rac braid. Obtainable in sizes S.S.W., S.W. and W. Moderately priced at only 30/6 and 32/11 pair. d

Figure 10 Papers Past, Northern Advocate, 18 October 1957, Page 2

1961

The Wellsford Jaycees (Inc) consisted of young men with young families due to their constitution which insisted that there be a continual loss and renewal of members so membership would lapse once attaining the age of 40. This group of men achieved a huge amount in 1961, raising $4400 for the kindergarten, painting the Plunket rooms, creating a stormwater disposal scheme and constructing a fine access pathway across Memorial Park Domain.

2013

The new Wellsford Memorial Library was built in 2013 and the Roll of Honour boards were moved once again.

2024

In an attempt to drum up local support to re-instate the grand memorial gates this article was published in the Mahurangi Matters after the Anzac Dawn Service.

Figure 11 War Memorial Gates Photo taken 2024

History of the **WELLSFORD MEMORIAL GATES** Past and Present

Taken from Website Heritage Et Al Blog Spot

By AkL - June 22, 2015

In December 1954 the **Wellsford public library** was moved into the town's new war memorial building on the Great North Road. A memorial shrine was set up in the foyer, where a wooden tablet was displayed listing 21 names from the First World War and 23 names from the Second World War.

Although small in size, the library served the community well for almost sixty years. In 2013 a new and much grander library building was erected beside the former showgrounds (now known as War Memorial Park). The new **Wellsford War Memorial Library** (Te Whare Pukapuka O Wakapirau he Tohu Whakamaharatanga ki Ngā Pakanga) was opened with a dawn blessing on 17 June 2013 followed by a community celebration five days later.

On 25 April 1937 Gordon Coates, MP for Kaipara, himself a decorated war hero, had unveiled the Wellsford First World War memorial at the entrance to the showgrounds. The memorial consisted of a bluestone arch of remembrance and ornamental iron gates. A granite tablet on one pillar listed the names of nine of the district's fallen. Another tablet was added after the Second World War with a further 17 names.

As part of the new library project, the war memorial pillars (the memorial gates had been rebuilt without the arch in 1958) were re-positioned on the plaza in front of the library. The roll of honour from the old library was also transferred to the new library.

History – Arch of Remembrance forgotten

Rose Reid

May 14, 2024 9:00am

What do you think?
Do these two pillars adequately pay tribute to the brave men who fought and sacrificed for our country, or is it time to restore this memorial to its former grandeur, ensuring their sacrifice is properly commemorated?

In the solemn stillness of this year's Anzac Service, held at Wellsford's Memorial Gates, a diverse assembly of young and old braved the crisp, wintry dawn to honour our brave soldiers. Amidst the solemnity, my own thoughts were drawn to a memory – a photograph taken at the grand inauguration of the original Wellsford Memorial Gates, known then as the Arch of Remembrance, back in 1937.

In that distant era, the arch stood tall and proud, its stature commanding respect and remembrance.

Now, amidst the echoes of history, I found myself contemplating the fate that befell our beloved arch. What forces conspired to reduce this symbol of sacrifice to a mere fragment of what it once was? What untold tales lie within its weathered stones, murmuring of days long gone and the valor of those who once marched beneath its shadow?

In December 1935, the Wellsford War Memorial Committee began their mission to honour the fallen, rallying locals to donate livestock – cattle and pigs – which were sold at the nearby saleyards. By August the following year, the committee was granted permission from the Wellsford Agricultural and Pastoral Society to build the arch at the showgrounds entrance.

As the project progressed and earthworks shaped the land, excitement rose culminating in a bustling working bee to pave the entranceway with metal in readiness for the unveiling and Anzac Day service on Sunday, 25 April, 1937. In the presence of 70 members of the Rodney Returned Soldiers Association, J. G. Coates, Member of Parliament for Kaipara, commended the committee and the people of Wellsford for their enduring tribute. He emphasised that their efforts served as a timeless reminder that the fallen heroes of the Great War would never be forgotten. The Memorial Committee chairman, R. H. Culpan, also expressed his heartfelt gratitude to all who contributed to the construction of the arch, hoping also that it would be an everlasting monument, and a record to future generations of the sacrifice of those who died.

For two decades, returned soldiers and their families gathered at the arch to pay homage to the fallen until in 1957, the monument's foundation, crafted from the finest blue stone sourced from an Auckland quarry, began to sink and lean toward the roadway, due to lack of reinforcement. Faced with no other option, a working bee was organised and the gates were dismantled under the direction of Rodney County Council engineer H. W. Elliffe. The estimated £200 needed for reconstruction posed a challenge. Despite having £80 on hand, the War Memorial Committee vowed to secure the remaining £70, with council also pledging to seek a £50 grant for the endeavour. By 1958, the memorial was reconstructed in a different location, but without the iconic arch, marking a significant transformation in its legacy.

In 2013, many of our community were present at the unveiling of our new Wellsford Memorial Library located in Memorial Park. As part of the library project, changes to the entranceway saw the memorial moved once again to its present location and the construction of two smaller pillars, made from the original blue stone.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The proposed rate of 7.9% increase for all the city is iniquitous for those of us who live in the Rodney district, particularly those in the Warkworth district. As it is intended to pay for the running costs of the CRL, there will be no benefit for Rodney as we have no direct connections to the rail system nearby. Unless you are a Gold Card holder it will cost to connect by bus to the links in the south.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

These are all necessary tasks given the lack of investment in the past

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

There needs to be ore funding for vital community services, reserves and local roading improvements to accommodate the expected growth. In particular funding is urgently required to provide a real Town Centre Plan for Warkworth (as per the requests made by the Mahurangi Community Planning Group who are underway with such a project with strong community support). Similar ones will need to be done for Kumeu, Wellsford, and maybe Helensville

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

No I have focused on the very real issues currently facing the Warkworth district, which require urgent funding now and in the next 2-3 years. Infrastructure is needed now to meet the development planned from the Private Plan Changes approved and underway

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Spatial Plans that really deal with detailed design and analysis of character, with integrated implementation of the necessary infrastructure and community facilities - ahead of the building and occupation of houses. Also providing roqding that will serve the growth proposed again in advance.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces

work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The proposed 7.9% rates increase is primarily driven by CRL costs, which are geographically concentrated and deliver limited direct benefit to Rodney residents. The majority of these costs relate to interest and depreciation, not improved services.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

Mostly maintenance of key assets rather than building new assets

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

The proposed rates increase places an inequitable burden on ratepayers, particularly those in areas such as Rodney who receive limited benefit from the primary driver of cost increases.

The majority of these costs relate to interest and depreciation, not improved services.

At the same time, local service levels are being reduced, meaning ratepayers are paying more for less.

Council's savings programme is immaterial relative to total expenditure, indicating insufficient cost discipline.

Significant discretionary spending remains in areas such as events, urban regeneration, and non-core programmes, which should be reprioritised before increasing rates.

A more equitable approach would involve targeted funding mechanisms for CRL rather than broad-based rate increases.

At a time when households are under financial pressure, Council must demonstrate discipline in spending, fairness in funding, and accountability in decision-making.

This proposal does not meet those standards and should be reconsidered.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around

3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I'm really worried that the 7.9% rates rise will be MUCH HIGHER. Last year it was supposed to be 6%-ish and my rates increase was 34%!!!!!!!!

The truth needs to be told from the start. How much will the rise depend on the GV on my house? LAST YEAR WAS COMPLETELY FALSE IN THE ASSUMPTIONS MADE. I did this same consultation based on the low % figure AND it was INCORRECT!!!!

PLEASE CHANGE HOW THE RATES ARE CACULATED ASAP, average-value residential property is disingenuous!!

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

DO NOT INCREASE THE RATES BY ANY AMOUNT.

I'm not interested in other areas of Auckland. Just my area - Rodney. Please do not increase my rates for things you want to do in Onehunga etc

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Rates increases of 7.9 is totally unpalatable given the state of the economy and essentially a recession. This in top of many past years of increases well above CPI is just shockingly bad. It make it abundantly clear that centralised super council do not work and just adds cost. I would vote for massive de-centralisation and get back to small borough councils (that we had in the 80s) that actually do maintenance and construction vs outsourcing to private contractors (who are milking taxpayers),

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Not a lot. Mostly ineffective. The economic realities for taxpayers don't stack up.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I strongly support the reinstatement of the Wellsford War Memorial Arch to its former grandeur as part of the Memorial Park upgrade. Built by the community in 1937, this significant monument honours the many brave men and women from our district who served our country in times of conflict and sacrifice.

Regrettably, when the structure began to deteriorate some twenty years later, commitments to rebuild it as it once stood were never fulfilled. Today, only two small pillars remain outside the Wellsford Memorial Library - a sad and diminished reminder of a once-proud landmark of remembrance.

The memorial stands on Council land, and as a volunteer at the nearby Albertland Heritage Museum, I witness each year the laying of a wreath by Auckland Council during the Anzac Dawn Service.

This ceremony continues to attract strong communityattendance, demonstrating that remembrance remains deeply embedded in the identity and values of Wellsford. Our community has not forgotten, however, our memorial landscape no longer reflects the significance of that sacrifice.

With thoughtful planning, Wellsford Memorial Park has the potential to become a dignified, welcoming space where residents and visitors alike can gather to relax, reflect,

commemorate, and connect. Reinstating the arch would restore a focal point worthy of the service it represents while strengthening the cultural, historical, and social fabric of the town.

This project presents a rare and valuable opportunity for a genuine partnership between community and Council. A community-led restoration, supported by Council, would not only rebuild an important heritage structure but also transform the wider park into a meaningful and functional public space for the district.

Reconstructing the War Memorial Arch would not only honour past generations, it would also benefit present needs, and leave legacy for our future generations. It would restore a powerful symbol of remembrance and help create a place that truly becomes the beating heart of Wellsford.

I am supportive of the initiative of the Albertland Heritage Museum and the Wellsford War Memorial Archway Project to engage community support for the restoration of this monument.

To Tatou Taone: To Tatou Hitori: To Tatou Whanau

(Our Town: Our History: Our People)

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**

- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Economic Development - Auckland and NZ in general needs to get back to earning export dollars, and increasing productivity in general. Everything else should take a back seat - as economic prosperity pays for everything else.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre,

both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Waitākere Rural Sewerage Scheme: I am in support as allowing owners to dictate when the septic tank needs to be empty allows for larger or smaller households greater flexibility and to manage cost.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

Our local board works hard for our community and is supportive of local needs. I would like to see the Memorial park redevelopment include reinstating the War Memorial gate and arch as a reflection of the respect the district gives ANZAC commemorations and the descendants of those who went to war. I would like the use of the Memorial courtyard to have no restriction going forward to be used on this special day and a redesign reflecting what the community wants it to look like and who it represents including the front area of the Wellsford Heritage Museum and a user-friendly access.

I am in support of removing the Te Arai drainage targeted rate

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Annual Plan 2026-2027

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

Support all but want to see more. A big gap is in housing and shelter area. Supported rental housing/emergency housing needed. Provision of pensioner housing for the future elders who don't wish to leave area (away from healthy connections) (a good example is Drake Village) more pockets of housing like that.

Appreciate that free communal areas are valued through investment. Support of volunteering an important tool to keep areas up to standard for use.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I was hit with a 22% rates increase last year. An additional 7.9% on top of that is unacceptable. I receive very few services as I live rurally. The rates I pay do not reflect the services I get. The UAGC needs to be set higher to relieve pressure on those of us whose valuations went up but still live in the same house with the same access (or not) to services. This is what will rate me and others like me out of our homes as we get older. We were also misled, there was no mention anywhere in last year's consultation material that the variation in rates increases could be anywhere near as high as 20% plus.

I also object to paying an increase to support the CRL when it is not something I am every likely to use and does not benefit the majority of Rodney.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I would like to see the local board renew efforts to gain investment into a public pool in Warkworth, either by Council or as a PPP. The town is rapidly growing and services thousands of residents from the wider area - Leigh to Kaipara Hills; Puhoi to Wellsford. If the sports facilities funding policy is based on a smaller catchment then it needs looking at. All of these residents already travel to Warkworth for school, groceries, doctors and professional services, so should be considered when calculating the population necessary to support a public pool.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Organisation: N/A

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

As a rural ratepayer I do not see why I should be facing another big rate rise to cover the cost of the CRL. Rural ratepayers received a massive and unfair rate increase in 2025 - another increase is insulting.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

As a Rural Ratepayer in Rodney district, none of these proposed changes have any impact on me and my district. We are paying for something we have no benefit from. We are already paying for a refuse bin we barely need.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

Just ridiculous - plan takes too long to download or even open as a PDF on my rural internet connection. How are we meant to read long documents if we can't easily access them. Fake consultation!

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Rates increase is just outrageous after our 30% rate rise in 2025. Rates rise with a gun to our heads - no consultation, no understanding of rural incomes. Rates rise was totally out of proportion with our property and services we receive. And you are proposing another increase. Just totally unbelievable.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

The environment. We need to look after our natural environment as much as possible - this planet is the only one we have got and cannot be replaced. More development and more roads will just degrade the environment - growth needs to be restrained and planned carefully.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces

work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

we need more investment in transport for the north shore, trains and bus options to extend to rodney areas this will unlock the benefits for more people to be introduced to CRL

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

there shouldnt be any fees for not collecting a bin as this will encourage more dumping

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Devonport-Takapuna,Hibiscus and Bays,Rodney

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

need more public transport options for north shore and rodney, lets unlock these areas

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Support

B. Reduced library hours over 7 days.

Support

C. Reduced local board funding to local organisations that deliver local events.

Support

D. Reduced budget available for contestable grants.

Support

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

Do not support

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

Do not support

G. Reduced funding for parks volunteers.

Do not support

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Do not support

Tell us why (please be clear which priority you are talking about)

budget cuts where they matter and focus this funding into public transport for the north shore and rodney area's

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

we dont need new courts or facilities lets keep the lights going and focus on public transport options, unlock the area for future growth, support capex spend on safety

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**

- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

focus on supporting growth for the city

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Other (please specify):more connections for transport options from the north shore to the city, like rail

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Whenever I need a park outside my house, I can't get one. Whenever I don't need a park there are plenty.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I strongly support the rebuilding of the Wellsford Memorial Arch as part of the memorial park upgrade, We need to honour our past generations and these who fought for us

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#2527

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Support the reinstatement of Wellsford war memorial arch as it once stood up until 1957 its important history

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I strongly support the reinstatement of the Wellsford War Memorial Arch to its former grandeur as part of the Memorial Park upgrade. Built by the community in 1937, this significant monument honours the many brave men and women from our district who served our country in times of conflict and sacrifice.

Regrettably, when the structure began to deteriorate some twenty years later, commitments to rebuild it as it once stood were never fulfilled. Today, only two small pillars remain outside the Wellsford Memorial Library - a sad and diminished reminder of a once-proud landmark of remembrance.

The memorial stands on Council land, and as a volunteer at the nearby Albertland Heritage Museum, I witness each year the laying of a wreath by Auckland Council during the Anzac Dawn Service. This ceremony continues to attract strong community attendance, demonstrating that remembrance remains deeply embedded in the identity and values of Wellsford. Our community has not forgotten, however, our memorial landscape no longer reflects the significance of that sacrifice.

With thoughtful planning, Wellsford Memorial Park has the potential to become a dignified,

welcoming space where residents and visitors alike can gather to relax, reflect, commemorate, and connect. Reinstating the arch would restore a focal point worthy of the service it represents while strengthening the cultural, historical, and social fabric of the town.

This project presents a rare and valuable opportunity for a genuine partnership between community and Council. A community-led restoration, supported by Council, would not only rebuild an important heritage structure but also transform the wider park into a meaningful and functional public space for the district.

Reconstructing the War Memorial Arch would not only honour past generations, it would also benefit present needs, and leave legacy for our future generations. It would restore a powerful symbol of remembrance and help create a place that truly becomes the 'beating heart of Wellsford.'

I am supportive of the initiative of the Albertland Heritage Museum and the Wellsford War Memorial Archway Project to engage community support for the restoration of this monument.

To Tatou Taone: To Tatou Hitori: To Tatou Whanau

(Our Town: Our History: Our People)

Question 6: City centre

Auckland’s City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland’s economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The rates increase is too much on top of huge rates increase for 2026. I also don't believe that the average of 7.9% would be applied fairly. It wasn't for 2026

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

i don't agre with increased residential parking permit fees

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Yes -

Better Outcomes for Dogs in Pounds

Improve transparency by publishing monthly pound statistics (impounds, reunited with guardians, adoptions, transfers, euthanasia)

Increase efforts to reunite dogs with guardians, including longer holding periods and stronger contact attempts

Build formal partnerships with rescues and community groups

Remove temperament testing - use foster-based assessments instead

Provide support options (e.g. payment plans) to help families reclaim their dogs

Ban Public Fireworks Displays

Fireworks cause significant distress and harm to companion animals, wildlife, and farmed animals

They also impact birds, marine life, and urban wildlife

Councils should ban public displays of fireworks and invest in animal and environmentally friendly alternatives like light shows

Humane Cat Management (No “War on Cats”)

Support compassionate, science-based approaches:

Trap-Neuter-Return (TNR)

Desexing and microchipping programmes

Community education

Avoid lethal control programmes targeting cats

Sustainable and Ethical Wildlife Management

Prioritise humane and ethical methods

Ban poisons and traps

Invest in non-lethal and innovative approaches

Ensure biodiversity policies consider animal welfare

Develop long-term management plans (not repeated reactive killing)

Protect Wildlife and Biodiversity

Protect habitats for animals and birds

Reduce pollution and habitat destruction

Ensure developments and events minimise harm to animals

Remove practices like recreational duck shooting from supported activities

Recognise Animals in Council Decision-Making

Include animal welfare across:

Parks and recreation

Events

Urban planning

Environmental management

Civil Defence

Ensure emergency planning includes animals

Recognise the importance of keeping families and their animals together during disasters

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

#2580

Local Board: Rodney

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

The City Rail links do not benefit the community of Omaha and Rodney. We should not be funding this through increased rates - this is extremely unfair and unjust.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

They do not impact me given where I live, so should not directly impact me as a rates payer.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Nothing in the plan is of use to our residential area of Rodney.

The Mayor was elected to reduce the operating cost of council so our rates should be going down not up.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Nothing is of use or interest to Rodney residents.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Realistic services and improvements.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Rates increases should be eliminated. We are all struggling with a tanking economy, and reduced income. We cannot afford to go into the city and certainly don't wish to use the railway to travel into south Auckland, so why should we be forced to pay for it?

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
6	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Road maintenance. the country roads are in disrepair.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

How as a resident of Omaha north of Auckland will the CRL in any way benefit us? We never go into the city because its either impossible or ridiculously expensive to park.I do not believe our massive rates increase are justified at all and should be reduced back to a lower level. In our lifetime we will never us the CRL. Our last rates rise was 25%, 7.9% would be acceptable and welcome, that would mean a 17.1% refund.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Again, they will have zero impact on improving our quality of life in Omaha. Maybe work on trying to establish a reliable power supply to Omaha. It isn't acceptable to have a power cut when everyone is preparing dinner on New Years Eve. Once you establish the reliable supply please let me know so I can sell our back-up generator.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Concentrate your rate increases on areas that will benefit from them.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**

- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Get Auckland moving, make sure we have a stable power supply and reinvest the revenue you gather in all Aucklanders (including Rodney) and not just the center of Auckland. It's sad to see the demise of the city center. It used to thrive, Queen St used to bustle, now you can hardly drive up it!

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre,

both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.
