1. **Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?**

Tell us why?

2. **Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Free activities and events in local parks, libraries, and public spaces.,Public spaces that feel safe.,Maintain and improve local parks and sport fields, to better meet community needs.

3. **What would encourage you to visit your local town centres more often?**

If they have free activities or things like book swaps. That would help the community come together and go to public spaces like parks or libraries.

4. **Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving walking paths and footpaths.,Looking at speed limits to ensure they are safe.,Improving the cycling network.

5. **Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?**

I believe that adding little things to parks will increase the number of people going there. Book swaps, clocks, benches, bathrooms, barbeques, bins, smooth paving, market stalls,

ramps and more. I think getting as many people outside is important so that means bikes, walking, running, scootering are all good ideas for the community.

Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.,Public spaces that feel safe.,Maintain and improve local parks and sport fields, to better meet community needs.

- 3. What would encourage you to visit your local town centres more often?**

Making them look more nice to go into such as adding some more colour to also make kids see it as fun.

- 4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving walking paths and footpaths.,Better public transport (buses and trains).,Other, please specify:Make paths larger and away from the road. More school buses. More disabled parking spots for the elderly, people with kids, this will reduce crashes.

- 5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?**

Help the people with less money by lowering prices of food, parking, etc and helping people with mental health issues, the best you can by helping them to get a therapist or something else. Make public spaces that feel safe by taking out vape shop and other R18 shops. Improve parks by cleaning them more often and adding more colour.

I feel there is too much emphasis on the Maori culture and language in your communications which are incredibly confusing trying to read in English with peppered Maori text. Please keep in English and I think there is too much cost wasted by trying to build Maori identity into public spaces which I find too polarising, there is not enough balance in recognising the hugest ever impact New Zealand ever got by the immigrants from other nations, primarily our Crown / British heritage which is to be incredibly proud of, bringing health, education, law and order and civil society that we now have in NZ.

The community activity space is too small. We hope to arrange a larger space so that various community activities won't interfere with each other due to the limited space, thus ensuring the smooth running of the event. Our community has a dance team, choir, Tai Chi team, table tennis team, mahjong team, and more.

- 4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?

I don't know

Tell us why?

- 2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Other, please specify: Less speed bumps and cushions, take out existing ones.

- 3. What would encourage you to visit your local town centres more often?**

If you would take out the speed bumps so I could get there.

- 4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Other, please specify: Do not put speed bumps in, they are an accessibility, ageist and sexist issue! Take out existing speed bumps.

- 5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?**

Speed Humps are an accessibility, ageist and sexist issue and should only be implemented with the utmost care, and after consultation with ALL road users in Auckland.

Speed humps can cause spinal injuries, they can even cause spinal fractures, especially for people riding on a bus, and these are very difficult and disabling.

They affect older people and people with neurological issues such as (recovering from) concussion, back weaknesses, the very young and those who have undergone surgery disproportionately and there are many other ways to keep our roads safe from hoons that do not punish all the other road users.

They might affect women more as they can be more delicate and can have added strain on their backs from pregnancy, giving birth, or related injuries.

Also taller or bigger people would suffer disproportionately more from the effect.

Speed humps can even make drivers less safe as continuous jolting can cause brainfog.

Anyone who has to drive across Auckland for work, might easily have to drive over more than 42 speed humps in one single commute.

Let alone professional drivers such as couriers or delivery drivers.

The humps are particularly difficult to take in small, economical, climate friendly cars, such as the hybrid Toyota Aqua. Because these cars have a short wheelbase they bounce around more. We try to conserve fuel, because of climate change and the fuel crisis, but instead these Local Board and AT measures are making this impossible and so force people into driving larger and more expensive cars.

For people with back sensitivities that get aggravated by the repetitive strain injury of continuously going over the same styled humps there is no way that they can accommodate the humps in their car at any speed. They

might have to stop in the middle of an arterial route and then sometimes also face road rage from other impatient road users behind them.

This is an issue for Occupational Safety and Health and needs to be taken on board as these are real work-related health issues.

Speed humps make it impossible to go to work, to the local supermarket, shops, doctors, community centers and the local parks. Buses use the same road so that makes no difference.

They can also make it impossible to take the train if routes to the train station have speed humps. For instance Fruitvale station is unreachable as it is surrounded by many severe bumps.

They can make a person confined to their own street and some backroads that can be reached without humps.

International safety requirements state that bumps should not be higher than 7.5-10cm.

Some Auckland speed bumps are higher than is internationally considered safe. Visitors from overseas are also remarking that the bumps in Auckland are very steep. By the same token, the sharp bumps in some petrol stations or parking areas of malls are also very bad just because they are so sharp.

There need to be bump free roads and corridors across the motu, that will be designated as and **remain** bump-free.

There need to be accessible roads and routes to supermarkets and trains and buses.

Local Boards and Auckland Transport plans should consult in a timely and simple manner, say only once a year, over all roading plans across Auckland, after notifying ALL Aucklanders.

Auckland Local Board and Council need to be inclusive to all ages and take the effect on vulnerable road users on wheels into account. This includes young babies and children in cars, people being transported in

ambulances, all professional drivers and all people with or recovering from back neck or brain injury like concussion. They should give absolute priority to alternative safety measures that are less harmful.

Many people in the local communities agree that they do not want to be continuously impacted or even suffer physically because of a minority of speeding drivers or aggressive hooners.

Electronic speed feedback signs are very effective, and with cooperation with the police can be accompanied by speed cameras where needed.

For instance, in Green Bay/Whau Local Board area

Godley Rd is the main route to the East and South for South Waitakere residents, and to the local supermarket and shops and community facilities.

AT and local government consulted with some Green Bay residents about the 7! speed 'cushions' in succession, but failed to include the nearby Titirangi and Waitakere residents, who use the road multiple times every day to drive past go to the Green Bay New World and other essential local shops and services, and to the rest of Auckland and in fact the North Island.

Now that there are 7 humps at once is just too many, what is more they are very sharp ones, and it is therefore painful and impossible to drive over them in a Toyota Aqua and in fact in many other cars.

Add on a back injury or recovery from a concussion and you can see that work and life becomes impossible for some people.

Please people, take the speed bumps out and DO NOT PUT ANY MORE IN.

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support most

Tell us why?

These general statements are a broad brush with no depth into how these statements are going to be enacted. They are so vague I could agreeing to anything.

The detail needs to be given to the reader to understand the wider implications to the rate payer.

2. Which of these do you believe our diverse community needs most? (Select up to 3 options)

Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.,Public spaces that feel safe.,Support local groups and volunteers build skills and continue to do their work in our communities.

3. What would encourage you to visit your local town centres more often?

Easy parking that is available and very cheap or free. Available public transport that is accessible, dry whilst waiting and shelter from the wind.

I live on the fringes of the Albert /Eden local area and spend more time in Onehunga.

The bus service has not serves the area in Hillsborough well. Whilst at work have had buses and trains try to attract patronage but the decongestion from moving to public transport causes me to double or more travel time. This has been an issue for many years.

- 4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important? (Select up to 3 options)**

Improving walking paths and footpaths.,Better public transport (buses and trains).

- 5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?**

The shared space between pedestrians and electric scooters is very dangerous. There seems to be an expectation for the pedestrian to move out of the way. I find myself stepping to the side to avoid the scooters and the issue of the abandonment on the footpaths is equally dangerous. We need delineation of the footpath. This would mean wider foot paths.

Parking on narrow side roads because of housing intensification has increased risks of head on collision. There is poor driving around streets along with general lack of signalling at intersections or giving way.

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support most

Tell us why?

Chamberlain park for example, we do understand the need to reprioritised parks and reserves but Chamberlain park is an asset that is utilised to its capacity. The argument that Albert Eden has the least number of reserves than any local board doesn't sits well when that Carrington development should create a reserve or a playground to cater for that growth. By cutting part of the golf course to create a ground is not creating a new reserve it's a new Playground in an existing reserve so it doesn't matter how you look at it Albert Eden do not have an additional park or reserve after all this.

Furthermore parks and reserves are district wide hence why it's accessible to anyone in NZ regardless of which city or town you reside in.

So in Summary whether the new playground is funded by development contributions from the Carrington project or any other development the best create an additional reserve or a playground to cater for that growth is the developer creating a reserve to cater for that growth rather than take part of an existing reserve to cater for that growth because it's not really creating an additional park it doesn't matter how you look at it. This is not a good deal for the rate payers, the developer can have as many houses in that development and we're not getting any more land for parks and reserves than we already got.

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.,Public spaces that feel safe.,Maintain and improve local parks and sport fields, to better meet community needs.

3. What would encourage you to visit your local town centres more often?

Accessible and better parkings

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Better parking management (e.g. time limits, or paid parking to improve availability).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

Parking - the district plans rules change regarding building apartments without the need for carpark but the rules didn't not take into account the effects on inner city residents.

Parking permits and parking meters do not solve the issues with parking in the inner city areas it's only pushing the problem to residents streets.

Albert Eden is mostly inner city Surburbs we need to be more proactive in resolving this issue.

for example, residents gets ticketed when parking in their own driveway even though it's not obstructing a footpath or inconvenience anyone, commonsense should prevail here that extra space on the road can better serve a customer that utilised restaurants and bars to bring money into the area rather than penalised the residents for it.

Times has changed, when I grew up in Ponsonby/Grey Lynn parking was never a problem not only it's not many cars but also not many apartments blocks either.

more involvement in community. To do list, advertise on TV, Radio, Newspapers, Supermarkets. People need to know where to go in Auckland in an emergency. council need

to communicate more clearly to our communities. People in Auckland don't take emergencies seriously.

PT - ways to make it better - signposting/wayfinding, more helpful bus drivers.

Love the rail network.

nearly hit by car crossing Great North Road

Don't want extra lanes for extra cars

want stronger communities

cares deeply about emergency preparedness. wants to see a council campaign.

Note this gentleman also provided a multipage print out of a document on ways to prepare for emergencies he had found on the internet. not dissimilar to the Council one which he was provided at the HYS event and went away to look over.

I live in New Lynn - I have not come across this feedback at New Lynn

My main concern is Employers and Employment agencies to eradicate AGE DISCRIMINATION. We are struggling to find jobs after our retirement age because of our age. Most of the jobs, vacancies now available are only for Islanders- Samoan, Tongan, Maori etc. People like us are discriminated because of our origins. We are active, brains are active, no medical issues. Why can't we get a job after more than 100 applications. PLEASE HELP US
