Local Board: Albert-Eden

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support most

Tell us why?

Whilst I agree with the majority of the draft plan and am enthused by the planned advocays, I would wish to see acknowledgement that population denisty intensification is something to be promoted around these town centre's. The best way to grow them as economic hubs is to ensure local businesses have a larger catchment to pull from.

2. Which of these do you believe our diverse community needs most? (Select up to 3 options)

Environmental and climate action projects to get involved in, e.g. planting, pest control.,Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.,Public spaces that feel safe.

3. What would encourage you to visit your local town centres more often?

Ease of mass transit public transport to get to and from. Safe public spaces to spend time in. Reduced traffic in the town centre, parking pushed further away.

4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important? (Select up to 3 options)

Improving walking paths and footpaths., Making the most of the City Rail Link (CRL) for our community., Better public transport (buses and trains).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support all

Tell us why?

Grateful for your focus on the things that matter. Climate action and enhancing our natural environment, improving opportunities for low-carbon travel, community cohesiveness and ways to connect at the local level, and supporting thriving town centres are what will make Albert-Eden a lovely place to live, now and into the future.

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Environmental and climate action projects to get involved in, e.g. planting, pest control., Emergency preparedness and recovery support, including supporting the Community Emergency Hub Network., Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.

3. What would encourage you to visit your local town centres more often?

Places to sit and chat; places for young people to gather and enjoy themselves; safe ways to get there by bike and other non-driving mobility options (very important for all generations of my whanau).

4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?

(Select up to 3 options)

Improving walking paths and footpaths., Looking at speed limits to ensure they are safe., Improving the cycling network.

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

The plan looks good to me - there's a lot in there, and I hope you get lots of lovely feedback from people who know the various parts of the picture best!

Looking at the transport section, I strongly support your aim for a low-carbon, safe transport system that balances people and productivity.

I would love to see us build on the recent upgrades in the Point Chevalier area, which have made this an even nicer neighbourhood for all-ages cycling and micromobility. It would be great to keep on amplifying and extending the impact of that investment! Specifically, I would support:

- safe cycling routes north of Meola Road – at least to the primary school for starters, and ideally towards Coyle Park and Point Chevalier Beach.
- a local bike hub would be a great addition to the area, as would a cool pump track!
- Albert-Eden extends a long way west-east, right across the heart of the isthmus which is inexplicably lacking in safe cycling infrastructure. I support you to advocate for, and find ways to deliver, solutions to this gap in the network, both via greenways solutions and via the delivery of the planned regional cycle network.

Another gap in the picture, thinking of young people: it's great we've now got our temporary library building; I also love the Waiorea Resource Recovery Centre. But I would love to see more options of spaces for young people in particular to hang out, learn, work on creative projects, make joyful noises with band practice, etc.

I would also love to see the Local Board exploring creative use of underused spaces for the arts more generally, e.g. empty shop-fronts could host a revolving artist-in-residence; it would also be great to have Open Studios events.

Also, thank you hugely for your ongoing support for local projects via community grants - a little goes a long way in the hands of volunteers, without whom it's hard to imagine our city growing and thriving!

I also appreciate the upgrades to parks and playgrounds, which are such important spaces for us as housing becomes more efficient. Safe and easy access to green spaces is so vital!

Thanks again for all your work on behalf of the community - it can't be easy balancing the many needs and worthy causes, in a time of rising uncertainty. Be assured that everything is connected, and everything you do for resilience, for creativity, for connection, for community, for nature, all goes into weaving a web that supports us to live good lives. Thank you!

Your feedback:

- 1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?**

Support most

Tell us why?

- 2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Environmental and climate action projects to get involved in, e.g. planting, pest control.,Emergency preparedness and recovery support, including supporting the Community Emergency Hub Network.,Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.

- 3. What would encourage you to visit your local town centres more often?**

Having them, being able to get to them. I visit several public libraries, all three are a 45+ minute walk from my house. I visit the local swimming pool. A similar distance. There are no bike paths between me and any of them, and very busy main roads to negotiate when cycling.

- 4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Looking at speed limits to ensure they are safe.,Improving the cycling network.,Better public transport (buses and trains).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

The thing that would matter to me the most is more bicycle infrastructure. I live in Greenlane and the nearest separated cycleway or shared path (with the exception of the bumpy path on Greenlane road that connects to almost nothing - I am really looking forwards to the extension to Manukau Rd!) is 6+ km away. I work in the city and commute by bicycle and there are zero bicycle paths along or near my commute, and many high traffic main roads to negotiate along the way. I am a woman in my fifties and I live with the fear and knowledge that at some point I will probably be hit by a car or have to swerve into something to avoid one. Please can we see some trials of separated bike lanes, some temporary infrastructure, more opening of paths between quiet roads so bicycles and walkers can avoid main roads?

Meanwhile there is nowhere for my mother, recovering from knee surgery, to walk to. No shops, except real estate, and car yards, no community areas, no cafes, no convenient seating for when she needs to rest. There are some very nice parks, beyond her current walking capability.

Local Board: Albert-Eden

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support most

Tell us why?

Looks comprehensive

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Free activities and events in local parks, libraries, and public spaces.,Environmental and climate action projects to get involved in, e.g. planting, pest control.,Support local groups and volunteers build skills and continue to do their work in our communities.

3. What would encourage you to visit your local town centres more often?

Pt Chevalier town centre especially the arcade is rundown and shabby. Not an appealing place to go to .Apart from going to Woolworths and pharmacy and occasionally the library I tend to shop and eat out elsewhere.

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Better public transport (buses and trains).,Better parking management (e.g. time limits, or paid parking to improve availability).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

Overall is comprehensive

A priority I believe is preservation of heritage building on site of old Carrington hospital for community space and connections. Needs greater coordinated planning around this site with potentially 15000 people to live in accomodation to be built. Green space and existing sports amenities in Pt Chevalier need to be maintained for the increase in population plus upgrade of shopping centre

Have Your Say on the Draft Albert-Eden Local Board Plan 2026

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support all

Tell us why?

Focussing on Māori, climate, and equitable outcomes reflects the ongoing needs of our community so I'm glad to see those as the chosen priorities! It is important to ensure all members of our communities are safe and supported to thrive, regardless of their age, gender, sexuality, ability, race, or background. I am grateful to see progressive, inclusive, caring, collective values put into action here.

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Free activities and events in local parks, libraries, and public spaces.,Environmental and climate action projects to get involved in, e.g. planting, pest control.,Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.

3. What would encourage you to visit your local town centres more often?

Markets, collective art activations, more murals painted, rainbow community events, small businesses rather than chain stores, more plants, more shelter from rain/sun.

4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?

(Select up to 3 options)

Improving walking paths and footpaths., Looking at speed limits to ensure they are safe., Better public transport (buses and trains).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

I support the progress of a new library and community centre hub for Point Chevalier- the team there does an incredible job with such a tough space to operate in. They deserve a fully functional library! I support the development of a civic square in Mount Albert. It is important that we have safe & accessible walking, cycling, and micro-mobility paths, including adding missing connections. I support the improvement of Chamberlain Park. I'd like to highlight this section of the community plan: Reduce barriers so everyone can be an active part of our community, especially children, young and older people, migrant communities, LGBTQ+ communities, people with physical or intellectual disabilities and transient populations. I'd love to see increased green spaces and more native manu in our area. I am grateful for the Waiōrea Community Recycling Centre and I support their mahi! I support the prioritisation of working together with tangata whenua and I would love to see more original Māori names & stories restored to locations with guidance from mana whenua. Here's my last tidbit and though it sounds silly, I do mean it; I support high-density housing but can it just not be grey? Let's showcase the bountiful beauty of our communities on our homes themselves: paint the apartments fun colours!

Chamberlain Park: I want to see Chamberlain Park opened up as a genuine local park, with walking and cycling paths woven through it and Waititiko / Meola Creek restored to health — while keeping golf viable by reconfiguring holes rather than cutting the course down to nine.

Pt Chevalier hub: Get on with a new library and community centre hub for Pt Chevalier. This has been talked about for long enough; it needs to move into delivery.

Speed limits: Set speed limits that actually match the risk on our streets — consistent, safe, and moving toward survivable speeds, particularly where people are walking and cycling alongside traffic.

Active transport: Make walking, cycling and micro-mobility genuinely safe and accessible options, not afterthoughts — including closing the missing links that currently break up the network.

Climate behaviour change: Back neighbourhood-level education and behaviour change initiatives that help reduce our climate impact — this is where a lot of the real, achievable emissions reduction happens.

Mt Albert civic square: Deliver a civic square for Mt Albert — a proper heart for the town centre that the area currently lacks.

Epsom Campus: Work closely with whoever ends up owning the Epsom Campus site to secure good urban design outcomes, meaningful open space, and quality housing — this is a rare opportunity that shouldn't be squandered.

I like the focus on cycle ways, climate change, maintaining heritage buildings such as old Carrington Hospital and working with the Sandringham community to mitigate further flooding. I am also happy with removing properties that have been given red stickers and no longer live able. We have one on our street in Kitchener Rd in Sandringham and would be lovely if this was made into a green space with natural cabbage trees (cabbage tree swamp)

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Free activities and events in local parks, libraries, and public spaces.,Environmental and climate action projects to get involved in, e.g. planting, pest control.,Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.

3. What would encourage you to visit your local town centres more often?

A good vegetable shop or local village market

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving the cycling network., Making the most of the City Rail Link (CRL) for our community., Better public transport (buses and trains).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

To provide budget in the flooding planning to increase storm water detention in the Taumata/Watea reserve. This will help mitigate flooding in the Sandringham (streets close to Mt Albert Grammar, Sandringham Village) to Rocket Park area.

As a community that is growing increasingly with multi-story dwellings removing large green permeable sections we continue to need a better storm water system.

The current draft plan fails to outline strategies around kai insecurity within Albert Eden and does not respond to Auckland Council's own stated aspirations for community wellbeing.

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Emergency preparedness and recovery support, including supporting the Community Emergency Hub Network., Support local groups and volunteers build skills and continue to do their work in our communities., Maintain and improve local parks and sport fields, to better meet community needs.

3. What would encourage you to visit your local town centres more often?

I live close to Sandringham village and it is a thriving town centre, but one that has been long neglected by the local board in terms of footpaths, crossing upgrades and amenities.

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving walking paths and footpaths.,Looking at speed limits to ensure they are safe.,Better public transport (buses and trains).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

Submission on 3-year local board plan for Albert Eden local Board.

Tēna koe,

The Albert Eden Local Board has set an ambitious vision for its rohe. Achieving these aspirations depends on many interconnected factors, but one of the most fundamental is ensuring that everyone has access to good, nutritious, affordable and culturally appropriate food.

A strong local food system is about much more than food. It supports healthier people, strengthens community connections, builds resilience to economic and climate challenges, encourages local enterprise, and contributes to thriving neighbourhoods. Investing in local food initiatives can help deliver many of the outcomes the Local Board is already seeking to achieve, including improved health and wellbeing, stronger communities, environmental sustainability and greater local resilience.

Across Albert Eden, community organisations, schools, mana whenua, growers, volunteers and local businesses are already making an important contribution to improving access to healthy food. However, increasing pressures on household budgets, climate uncertainty, population growth and rising demand for food support demonstrate the need for stronger local coordination and continued investment.

I believe the Albert Eden Local Board has an important opportunity to strengthen its existing commitments by recognising food as a strategic priority and working alongside communities to build a healthier, more resilient and more equitable local food system.

The actions below are practical, evidence-informed steps that can be implemented over the next one to three years to improve access to healthy food, strengthen community resilience, and support the long-term wellbeing of everyone who lives, works and learns in **Auckland**

How these actions support your existing commitments

These recommendations align closely with the outcomes and aspirations of both the Local Board Plan and the Auckland Plan 2050. Together, they would contribute to healthier communities, stronger neighbourhoods, environmental sustainability, climate resilience, local economic participation and greater social connectedness.

By strengthening the local food system, the Local Board can help create lasting benefits that extend well beyond food itself, improving quality of life while supporting communities to become more resilient, self-reliant and better prepared for future challenges.

Recommended Actions

1. Understand the local food system

Commit to a local food system wānanga involving Local Board members, mana whenua, community organisations and other key stakeholders.

Map existing food-related services, programmes, community assets, growing spaces, food providers and local champions across the Local Board area. Identify existing strengths, gaps and opportunities, and explore how current resources and investment could be better aligned to maximise impact, collaboration and equity.

Developing a shared understanding of the local food system will help inform future investment and strengthen collaboration across the community.

2. Strengthen community partnerships

Actively engage with the organisations, volunteers and community leaders already working to improve local food access and wellbeing.

Visit community gardens, food hubs, māra kai, food rescue organisations, cooking and nutrition programmes, schools and local initiatives. Listen to the experiences of those working on the ground and build ongoing relationships that support genuine collaboration and shared decision-making.

Promote existing initiatives through Local Board communication channels to increase community awareness, participation and support.

3. Invest in local food initiatives

Increase support for proven community-led food initiatives through funding, programming and longer-term partnerships.

This could include supporting community gardens and māra kai, strengthening local food hubs, providing dedicated funding for key coordination roles, improving access to small grants, streamlining Council processes, and providing greater certainty through longer-term lease arrangements where appropriate.

Building the capability and sustainability of successful community initiatives represents a practical investment in the long-term resilience of the Local Board area.

4. Create healthier food environments

Support initiatives that enable access to nourishing food and drink for everyone.

This may include expanding access to drinking water, supporting culturally appropriate food initiatives, encouraging healthier food options at community events and Council facilities, celebrating businesses that provide healthy choices, and supporting community organisations to offer nutritious food through their programmes.

Although Local Boards have limited influence over commercial food marketing, they can play an important leadership role by creating environments that encourage healthier choices and promote community wellbeing.

5. Celebrate and grow local food leadership

Champion the stories, people and initiatives that are already strengthening the local food system.

Share local successes through community events, digital communications and neighbourhood networks. Increase public awareness of local food initiatives and encourage greater participation across the community.

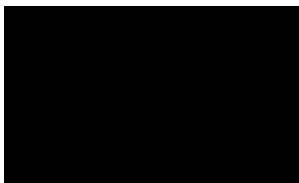

Work alongside community organisations, mana whenua, schools, growers, businesses and residents to develop a shared vision for a resilient local food system that is better prepared for future economic, environmental and social challenges.

I believe the Albert Eden Local Board has an opportunity to become a leader in creating a healthier, more resilient and more connected community through practical investment in its local food system.

Supporting better access to good, nutritious and affordable food is not simply a response to current challenges. It is an investment in healthier people, stronger communities, greater resilience, local economic development and a more sustainable future.

By working alongside local communities and building on the strengths that already exist, the Local Board can help create lasting benefits for current and future generations while delivering on its vision for a thriving Auckland.

Thank you for your consideration and for your ongoing commitment to the wellbeing of the Albert Eden community.

(Select up to 3 options)**

Environmental and climate action projects to get involved in, e.g. planting, pest control.,Support local groups and volunteers build skills and continue to do their work in our communities.,Other, please specify:Looking after our environmental restoration in the central Tamaki Makaurau isthmus is incredibly important. It is a great way for the community to come together, give back learn and be connected.

3. What would encourage you to visit your local town centres more often?

Having a more vibrant diverse community living and working in our local area than is here at the moment. It has felt like the city fringe and Dominion Road, Mt. Eden, Kingsland, Sandringham has stagnated with the restrictions to having more available housing. I bought into the Ockham Daisy Apartment in 2018 because I felt so strongly about this being the positive way forward for the area and the onset of Surface Light Rail down Dominion Road plus the City Rail Link. Unfortunately the original Light Rail plan got changed then mothballed. The repression by the existing, somewhat entitled, people who own Villas and Bungalows in this area have stopped a diversity of housing types through claiming 'special character' which really annoys me.

Younger people are lacking in our area and we need to attract them here to bring more vitality to this area.

- 4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important? (Select up to 3 options)**

Improving walking paths and footpaths.,Better public transport (buses and trains).,Other, please specify:Surface Light Rail down Dominion Road.

- 5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?**

Thank you for representing us to have a better healthier diverse vibrant community.

Support all

Tell us why?

The plan contains many positive ideas, but I would welcome more detail on how disabled communities will be represented and included in decision-making and community life.

I would also like to see greater investment in accessible walking and cycling infrastructure, including within parks such as Chamberlain Park, where there is a clear need for improved accessibility. Accessibility also means ensuring roads are safe for everyone. The recent increases to speed limits have made many disabled people feel less safe, and I believe safer speed limits should be part of an inclusive transport strategy.

Finally, I would like to see greater investment in community spaces, including a new library in Pt Chevalier and improved community centres across the area. The Epsom campus also presents an important opportunity to create more open public spaces alongside quality housing outcomes that benefit the wider community.

2. Which of these do you believe our diverse community needs most? (Select up to 3 options)

Free activities and events in local parks, libraries, and public spaces.,Environmental and climate action projects to get involved in, e.g. planting, pest control.,Ensure groups such as

children, older people, and migrant communities can participate and connect within our communities.

3. What would encourage you to visit your local town centres more often?

More scene of community including hosting events focused towards disabled communities and making new friends

4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important? (Select up to 3 options)

Looking at speed limits to ensure they are safe.,Improving the cycling network.,Better public transport (buses and trains).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

I strongly supported for the reasons stated above

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support all

Tell us why?

The plan includes a broad range of commitments that will help make the local board area a better place to live and work in, and to commute through.

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Free activities and events in local parks, libraries, and public spaces.,Support local groups and volunteers build skills and continue to do their work in our communities.,Maintain and improve local parks and sport fields, to better meet community needs.

3. What would encourage you to visit your local town centres more often?

My local town centres of Balmoral and Mt Eden already have plenty going on. What is sometimes missing is promotion to remind people of this. Without committing any board funding, it might be good to have the various business associations better promote their areas.

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving the cycling network., Making the most of the City Rail Link (CRL) for our community., Better public transport (buses and trains).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

Some of the existing cycling infrastructure in the area either has poor way finding (for example the Dominion Road parallel paths) or has gaps in the network (which makes it hard for many cyclists to ride). It would be good if the local board worked with local cycling groups (such as Bike Kingsland and Bike Auckland) to identify some quick wins that could be implemented quickly and cheaply.

Local Board: Albert-Eden

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support all

Tell us why?

Supporting intensification is a good priority, and I mention this because I suspect you'll get some backlash there. I support it specifically!!!

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Emergency preparedness and recovery support, including supporting the Community Emergency Hub Network.,Support local groups and volunteers build skills and continue to do their work in our communities.,Maintain and improve local parks and sport fields, to better meet community needs.

3. What would encourage you to visit your local town centres more often?

More great bike parking like those Locky Docks. Less traffic noise and speed would help a lot. Wider footpaths and lots of outdoor seating at cafes and such. Good public toilets that are cleaned multiple times a day and are reliably open.

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving walking paths and footpaths., Looking at speed limits to ensure they are safe., Improving the cycling network.

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

Please give community hubs (like Gribblehirst, which is my local) heaps of money, so they can be even better!

I would like the full length of Route 9 (aka St Lukes Road, Balmoral Road etc) to have a protected cycle lane. The current provision is great for the short section between New North Road and the motorway, but the rest is almost completely hostile to bike riders (and pedestrians too, really - tragic footpaths!).

Local Board: Albert-Eden

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support all

Tell us why?

I am pleased to see LGBTQI+ community mentioned in the Draft Plan as one of the communities to be celebrated and empowered to feel they belong. It's a difficult time for many of us right now, and it's great when we see signs from our Local Board members and Councilors that our experiences matter. Also support improving inclusion and belonging for disability and migrant communities.

I support housing intensification, especially around public transport hubs. More people living around these hubs will mean more people will be able to take advantage of the CRL. And, it's awesome to see the Local Board planning ahead to ensure we have community services for the increase in people which may be enabled by PC120.

I support local board's advocacy for upgrading Dominion road, especially including safe walking, cycling, and public transport improvements. Also support safe speeds, delivery of safe cycle connections, and public transport.

Support regeneration of native bush, as well as off-leash dog parks for our area.

2. Which of these do you believe our diverse community needs most? (Select up to 3 options)

Emergency preparedness and recovery support, including supporting the Community Emergency Hub Network.,Ensure groups such as children, older people, and migrant

communities can participate and connect within our communities.,Support local groups and volunteers build skills and continue to do their work in our communities.

3. What would encourage you to visit your local town centres more often?

Safe cycle connections to the town centres. Wide, well maintained footpaths and safe crossings. Outdoor seating and quiet streets (i.e. the noise of cars going by isn't too loud). Buskers or street performances.

4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important? (Select up to 3 options)

Improving walking paths and footpaths.,Looking at speed limits to ensure they are safe.,Improving the cycling network.

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

I would like the Local Board to...

Advocate for the Upper Symmonds st and New North rd upgrade project to be delivered - it had gone through several rounds of consultation before the Connected Communities programme was canceled. It should still be funded and delivered, perhaps under a different programme.

Support Gribblehurst Community Hub to improve its accessibility (i.e. a lift). It is a key community hub for our area but is not easily accessible for everyone.

Invest in and advocate for delivery of walking and cycling routes identified in the Greenways Plan, including a safe cycleway along St Luke's rd and connecting all the way along Balmoral and Greenlane rd. Advocate for the Greenlane improvement project to include a protected cycleway.

Advocate for 'dig once' - projects being delivered together to reduce disruption and cost, eg. delivery of walking and cycling paths when delivering the Blue-Green networks.

Invest in and upgrade footpaths. Many footpaths are bumpy and broken, and will be a significant barrier for anyone using a mobility aid. I've noticed this particularly around Morningside such as along Don Croot st and Levonia st.

Advocate for safe cycle connections and secure bike parking at the Te Ara Hauāuru Northern Busway stop in Pt Chev.

Advocate for walking and cycling improvements to St Luke's Mall area, especially to improve the connection through to the Roy Clements Tree-way.

3. What would encourage you to visit your local town centres more often?

Pop-up events.

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving the cycling network.,Making the most of the City Rail Link (CRL) for our community.,Better public transport (buses and trains).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

It all looks pretty reasonable. Just wanted to also put in here that I liked the local board's response to PC120 (Scenario B+ with more FTN upzoning). Maybe advocate for more upzoning again whenever we end up doing a new spatial plan after RMA reform.

5. **Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?**

Important focus areas: Community,Transport

Most Important Focus Area: Community

Why is it Important: When you build a good community the other focus areas will follow: people will work towards a good natural and built environment, they will promote better public and active modes of transport, they will support each other's businesses and make their area better, safer and more connected.

Second Focus Area: Transport

Why is it Important: The conundrum around transport is often seen as the old chicken and egg question: what needs to be first, the demand or the infrastructure. From all over the

world and from our local experience we can clearly see that it's the infrastructure that will change behaviour. So it is important that we make walking, cycling and public transport safer, easier and reliable. On the other hand we need to make it less attractive to use private cars and safer for everybody by reducing speed limits, reducing carparks and increasing the cost of them, enforcing existing rules (like not parking on berms)....

Other Feedback: Make sure that if council plants trees, they are the right specimen for the area and look after them for at least 3 years.

Save the old public toilets in the Sandringham reserve from further dilapidation. Restore them and give them to public good use (toy library; hang-out space for kids; ...)

4. **Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**
5. **Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?**

Important focus areas: Natural Environment, Transport

Most Important Focus Area: Transport - reducing cost of public transport

Why is it Important: Public transport costs are too high. It costs as much for me to take the bus/train into town and back as to drive and park in there. It puts people (including me) off using public transport when it is so expensive. I want to use public transport, but it already takes longer and is less convenient, if it is not also saving me significant money why would I bother? Our son also takes the bus and train to school and it costs so much money now.

Second Focus Area: Natural environment

Why is it Important: Living in a city we are separated from nature. Improving nature improves the wellbeing of everyone in the city. The streams near us are so disgusting and smelly (for instance, along Roy Clements freeway). I like the extra tree planting that has been done on streets. Please continue to improve and increase the quality of nature that we can access in the city.

Other Feedback: Love the libraries, and use it all the time. Please continue.

Your feedback:

1. **Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?**

Support most

Tell us why?

Support except for the items below which need priority

2. **Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Other, please specify:

3. **What would encourage you to visit your local town centres more often?**

Put funds aside to purchase additional pocket parks and ensure walkable corridors meet international, safe, pleasant standards

4. **Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving walking paths and footpaths.,Other, please specify:Clearer division between pedestrians and cyclists

5. **Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?**

Footpaths must be for pedestrians with cyclists/scooters giving way. Guidelines +education needed. Again as the board area intensifies with increased population, more public open space need to be purchased for pocket parks, planting large trees and civic squares as well as for a wide range of community activities

WE as dog owners pay a seperate fee to the council yet none of us recieve anything in return. My recomendation would be to start implementing fenced double gated dog parks so the council shows our apopreciation of fees paid and to provide a safe environment to run our dogs around. this will then remove a lot of dogs at beaches or local parks where kids play.

Environmental and climate action projects to get involved in, e.g. planting, pest control.,Emergency preparedness and recovery support, including supporting the Community Emergency Hub Network.,Public spaces that feel safe.

3. **What would encourage you to visit your local town centres more often?**

Better advertising and relaxing/more singular or independent activities.

4. **Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving walking paths and footpaths.,Better public transport (buses and trains).,Other, please specify:Better disability access in schools and better maintenance if already available.

5. **Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?**

I stated in the conclusion of the plan that your main priorities are transport and parking, and while I understand these are important to bolster the economy, I urge you to also focus on the catchment scale intervention system and housing issues. With weather becoming more and

more erratic as climate change takes hold, food prevention/interception is more crucial than ever to this community still recovering from the prior incidents.
