Golf courses in Auckland have been protected by elitist councilors who have acted in the interests of a selected few rather than the population of Auckland - they should be ashamed

1. **Firstly, we want to find out what you think of the draft Auckland Golf Investment Plan.**

The draft Auckland Golf Investment Plan aims to ensure all Aucklanders benefit from publicly owned golf land. Do you support this goal?
Partially support

Do you have any comments about your response above? I support most golf courses being opened up. But maybe 5 (central, west, east, north, south) should be kept exclusively for golf. It is unsafe to have people walking on a golf course. And the exclusive courses should be enhanced. And cost assessible. And no silly golf etiquette. Pitch and putt courses are fun and easier for kids etc to enjoy.

And these courses absolutely cannot be developed. They have to be kept as open spaces. And I think we have enough soccer fields already.

Make all of the Auckland golf courses open to the public. Remeura golf for example is very much members only.

The land cannot be developed for private use.

I only support any changes if they are allowing greater use for all rather than investment or commercial purposes.

The public courses - Chamberlin, Takapuna ETC need to be enhanced. Entry to private courses for visitors such as Akarana and Remuera needs to be encouraged and the costs need to come down.

We have enough sports fields

Don't support

Do you have any comments about your response above? I have no trust in the actions, or the wording of any documents from Auckland Council. The real agenda is not for the benefit of ALL people. I've seen how you've treated the citizens that you are supposed to be representing when we don't agree with plans, but you go ahead with it regardless - Western Springs and Tupuna Maunga Authority are prime example. So no I won't agree with so called "plans" until trust is restored! So called "plans' are already predetermined anyway, so this is all fake and flawed "consultation".

Your "best practice" in ecosystem management has been appalling. Cutting down mature trees and not protecting green spaces appears to be what is on the Councils agenda. Smoke and mirrors with all the wording above and I am not fooled!

Now we have a few questions about you and golf. Which, if any, of the following golf formats do you play?

Mini golf

I have never been able to afford to play golf. I live near two golf courses but the cost of membership fees and playing fees on top is prohibitive.

Do you have any comments about your response above? Looks logical and sensible. BUT Not clear how existing tree covers will be protected. By definition most trees on golf courses are mature but exotics. Council seems to have a clear felling Uber plan to get rid of them all everywhere and replace with very slow growing natives. Net results are a loss of green canopy.

Do you have any comments about your response above? In a land-constrained city, it makes sense to ensure everyone has access to large greenspaces- keeping these behind an effective paywall is a misuse of public land. Also agree with making more accessible- many, myself included, wouldn't consider going to play golf because I don't think it's €œfor me€ i.e. there are cultural and gender-based perceptions of who golfers are, and therefore what I can do

The draft Auckland Golf Investment Plan aims to ensure all Aucklanders benefit from publicly owned golf land. Do you support this goal?

Do you have any comments about your response above? Depends on what you mean by "benefit". A golf course is primarily for those who play the sport and they have a right to respect from those who have wider choices. This means that those who share the space need to understand how best to do so. We no longer allow pitch invasions at Eden Park; the same thing applies on a golf course.

Do you have any comments about your responses above? Again, what does "opening up" mean? Publicly owned courses are already open to the public; there is no point in opening up to, say, touch rugby if it means you can't play golf on a golf course. Pitch 'n Putt and driving ranges just don't cut it. However,

It does appear that this will edge out existing participants - the tone of the proposal is tinged with jealousy - so it is hard to see how the sport will benefit. The progression is the same as with cricket (ODIs and T20s now dominating in Auckland) and rugby (little interest outside the "Super" leagues in Auckland). However, players in those sports still need to come from the grass roots - the same roots as are being systematically eroded by professionalism. Be very careful this isn't a step towards golf going the same way, because if so we might as well admit the truth and start using the public courses for housing right now. I'm not convinced that is not the real agenda here.

Golf courses are available to all NZers. I see people running on them, waking on them, I see people arching people playboy them. Are you going to takeaway other areas that not all NZers use.
