Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Yes, I support this

   Tell us why

Because it best.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Not sure

   Tell us why

Because this topic is boring, the beach is for fishing.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Seen lot of accidents when down at the beach. A complete ban should not happen, but some restrictions should be in place.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Tell us why

Transport - advocacy

   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

I believe that Karioitahi beach is a great community space for people, but vehicles and people using them are not considerate of walkers, runners and people enjoying the beach. Proper control would make the beach safer for all.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Sports are expensive as it is, we do not need extra fees.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Auckland Council (Auckland wide regional funding),Central government (national funding)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Yes, I support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

No

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

South-east link bus services (Papakura train station/Clevedon/Pine Harbour Ferry/Botany),More and bigger ferries on Pine Harbour ferry route (city to Beachlands)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath, kerb and channel on Third View Avenue, Beachlands, between Bell Road and Shelly Bay Road,Footpath, kerb and channel on Bell Road, Beachlands, between First View and Third View,Footpath on Beachlands Road (east of Shelly Bay Road to new subdivision)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

A “Kai Franklin space” re-purposing the small hall as a bookable commercial kitchen and food innovation space,Māra kai (food) gardens to compliment the Kai Franklin space and celebrate Pukekohe’s food production story

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Possibly willing, but I would need more information first

Tell us why

11. Do you have any other feedback on the draft Franklin local board plan?

Have Your Say on the Draft Franklin Local Board Plan 2026

#729

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

   There is strong emphasis on youth, which is vital for the future wellbeing of our area.

   I think it is good that you are seeking input from the public.

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Auckland Council (Auckland wide regional funding)

   Tell us why

   The local board doesn't have enough money.

The Government has too many other calls on its funding and we will be low in their order of priorities.

Auckland City has a good understanding of our needs and we have representatives on it who work hard to ensure we get our share

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

A beach is a beach and should not be classed as a road.

Calling it a road encourages use by people in cars, which is dangerous for beachgoers and damaging to wildlife.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Clubs and sporting organisations struggle to raise enough money to fund their activities as it is. Asking them to pay to book and use fields is unreasonable.

We want to encourage young people to engage in healthy sports. Let us not put financial barriers in their way.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

South-east link bus services (Papakura train station/Clevedon/Pine Harbour Ferry/Botany),More and bigger ferries on Pine Harbour ferry route (city to Beachlands)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath on Beachlands Road (Section 1 - 1340m both sides/Sunkist Bay Road),Footpath on Beachlands Road (Section 2 – 212m in front of Beachlands Domain),Footpath on Beachlands Road (east of Shelly Bay Road to new subdivision)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

A “Kai Franklin space” re-purposing the small hall as a bookable commercial kitchen and food innovation space,Māra kai (food) gardens to compliment the Kai Franklin space and celebrate Pukekohe’s food production story

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

I live in Beachlands

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

1. We need a High School in Beachlands. The local board should do all they can to encourage this as soon as possible.

2. It would be good to have town water supply in Beachlands-Maraetai.

3. With future housing developments, please make the roads wider. The new developments near Woolworths have ridiculously narrow roads which are both inconvenient and hazadous.

4. Please do not remove rubbish bins from beaches and other public places. Yes, there is a cost in maintaining them, but they are very necessary, especially in the summer when many people come to enjoy the beaches and outdoors.

5. A direct bus service from Beachlands-Maraetai to Howick would be much appreciated.

#732

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

   Why are community and mana whenua two separate groups. We need to move forward as one people with a shared vision. The Iwi gravy train needs to stop. Millions of dollars are spent with nothing tangible to show for it. Spurious cultural reports for example.

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Auckland Council (Auckland wide regional funding),Central government (national funding)

   Tell us why

   Council should focus on core services until the rates increases are under control.

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

No

Tell us why

Because NZ is going woke. There are plenty of other beaches you can't drive on. Let's leave a couple you can drive on.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

At the end of the day the ratepayers will pay either way. Through rates or sports club fees. We need to keep kids in sports so it needs to be affordable.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Whitford village bypass,Feasibility study into ferry services on Manukau Harbour

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath, kerb and channel on Karaka Road, Beachlands ,Footpath, kerb and channel on Third View Avenue, Beachlands, between Bell Road and Shelly Bay Road,Footpath on Beachlands Road (east of Shelly Bay Road to new subdivision)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

New spaces for families and children (e.g. parent’s space, play area),Creating a new bookable meeting space above the café in the foyer of Franklin: The Centre

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Don't like in Waiuku.

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

All questions should have a 'Tell us what you think' option. In regards to rubbish bins the local board needs to use common sense. Beaches with shops should have bins. If I buy takeaways or iceblocks I am not going to want to take the rubbish home. Maybe the businesses should have to provide and empty the bins. Also, fly tipping is a huge problem. It should be free to dump residential rubbish. We also don't need anymore raised crossings. The money should be spent improving traffic bottlenecks like the Whitford bypass. I generally think our local board are doing a great job. The council just needs to stop the wasteful spending. Less consultants and more money spent on people who actually do the work. The Maraetai seawall for example should be given to the Auckland Stone Mason's to design and build. They don't need a consultant to tell them how to do it. The Maraetai waterfront is a disgrace and needs urgent attention.

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

   I strongly support partnering with community organisations and resident associations. Local groups are often best placed to understand local needs and help build connected communities.

   I would encourage the Board to also ensure community groups are consulted before responsibility for public assets or maintenance obligations is transferred to them. Community-led partnerships work best when responsibilities, funding and expectations are transparent from the outset.

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

Auckland Council (Auckland wide regional funding),Central government (national funding)

Tell us why

Biodiversity research benefits the whole region and should generally be funded at a regional or national level rather than from limited local board budgets. Local board funding should prioritise practical environmental outcomes such as restoration, pest control, tree planting and water quality improvements, while still using good scientific information generated through wider funding programmes.

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

Yes, I support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

The management of Karioitahi Beach should be reviewed through a full public consultation. The current road status creates tensions between recreation, environmental protection and vehicle access. Any review should balance cultural values, public safety, recreation and environmental outcomes while ensuring ongoing public access where appropriate.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

I don’t know

Tell us why

It is reasonable to investigate contributions from organisations that have exclusive or regular use of publicly funded facilities, provided any charging structure is fair, transparent and proportionate. Care should be taken not to discourage community sport or disadvantage smaller volunteer clubs.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Improvements to intersection of State Highway 22 and Blackbridge Road, Karaka,Mill Road improvements (Papakura to Ramarama)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath on Kitchener Road, Pukekohe, between Green Lane and Willis Avenue,Improvements to Ward St footpath in vicinity of Pukekohe Cemetery to align with the Pukekohe Cemetery Memorial project

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

New spaces for families and children (e.g. parent's space, play area)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

While I don't live in Waiuku, hard water clearly affects residents' quality of life and household costs. Any contribution should only proceed if there is strong local support and a transparent assessment of costs, benefits and alternatives.

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Franklin is growing rapidly and the Local Board has recognised the importance of ensuring growth delivers quality communities rather than simply more housing.

I encourage the Board to strengthen its advocacy around lifecycle asset management in new developments. Streetscape assets—including berm landscaping, rain gardens and public planting—should be designed with equal consideration for safety, mature size, maintenance costs and long-term ownership responsibilities.

The ongoing berm issues in Paerata Rise illustrate why this is important. Landscaping that may have appeared appropriate when installed has, in some locations, resulted in oversized planting, reduced visibility at intersections and driveways, uncertainty over maintenance responsibilities, and avoidable costs for residents and public agencies. Regardless of how responsibility is ultimately allocated, these issues highlight the need for better planning and stronger oversight during the design and approval process, rather than relying on communities to resolve problems after developments are completed.

Future developments should require:

* appropriate species selection that considers mature size, sightlines and long-term maintenance;

* clear ownership and maintenance responsibilities before public assets are handed over;

* whole-of-life costing and maintenance planning as part of development approval;

* periodic review of streetscape assets where safety, maintenance or operational issues emerge after occupation.

I also encourage the Board to advocate for a review of lessons learned from completed growth areas, including Paerata Rise, so those lessons can inform future developments across Franklin rather than being repeated.

By embedding these principles into future developments, Franklin can continue to grow while delivering attractive, functional and sustainable public spaces that remain safe, practical and affordable to maintain for both Council and local communities.

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, definitely

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

   Supporting partnerships with community and volunteer-led organisations is important to ensure local needs are provided for and development plans are aligned to communities character, desires and well-being. I do want to know about how successful partnerships will be identified and empowered and volunteer-led organisations supported, as volunteer programmes do not incur no cost and funds are highly contested and shrinking, while demand is increasing. I would like to know how we can ensure all voices in the community are represented and how developers will held accountable for ensuring the other priorities identified (such as, transport, employment, community spaces) are provided in a way desired by community, that are sustainable, and do not put more pressure on existing resources. I would like to know there is broad oversight of developments that ensures quality of life locally including access so that Franklin becomes a desirable place to live and visit. I note that not communities are included in the advocacy section of the draft plan and would add

Clarks Beach to the list of community facilities as a high growth area with a high potential as a quality destination with currently limited access and facilities to support this growth.

Natural environment

3. Who do you think should fund biodiversity research? (Select up to 2 options)

The local board (local funding),Auckland Council (Auckland wide regional funding)

Tell us why

The environment is of benefit to the whole country and not caring for it costs the whole country, so each council should be allocated funding to support their region. However, each region has a clearer understanding of its needs than central government. In addition, a lot of work is carried out by local volunteer groups, which still cost money to run, manage and resource. Local funding provides a closer view, understanding of local needs and can support local groups achieve great local outcomes as a passion for place is usually ones own community.

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

I understand the beach can be misused, however, I think it is a shame to prohibit all vehicles at all times because of this. There should definitely be a moderate speed level and key considerations highlighted before access. Those that do not adhere to the rules should face fines, loss of right to access and impoundment of vehicle if acting dangerously towards others.

In addition, removing bins at beaches may encourage some people to take their rubbish home, however, those disrespecting the beaches will increase and those cleaning up local beaches may be discouraged. One bin at the entry may assist or if local organisations are present nearby, they could be incentivised to take a guardianship role for it's care.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

The response options to not allow for a mixed model. Some clubs intensively dominate the use of fields and could make a maintenance contribution towards their booked use. Facilities, such as goals etc. should be provided by council as these can be used for casual recreation and encourage more active lifestyles. If these are removed our society will likely become more obese, and youth more disenfranchised and destructive. Sports clubs have little money as it is, relying on volunteers (who are burnt out and getting harder to find due to working to meet high living costs), so even a contribution needs to be minimal and inline with what a club can sustain.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

More lanes on Hingaia and Linwood Roads, Karaka,Feasibility study into ferry services on Manukau Harbour

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath from bus stop on Kitchener Rd, Pukekohe, to Pukekohe Hospital,Pedestrian safety improvement at intersection of Valley Rd and East Street, Pukekohe

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Enhancing rooms used by the RSA so they can also be used for other appropriate groups too,Repurposing and upgrading the upstairs Town Hall projector room into a bookable meeting room

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

If the water is curretly drinkable, while long-term investment may be required, it is not as much of a priority for me to contribute to while embracing the current challenges cst of living crisis (as I am sure many would agree). While it may be desirable and it's due to lack of care, theer may be more pressing factors to address.

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Yes. This is a much watered down version of the draft plan I had hoped to comment upon and many of the priorities have now been set and options removed. There are too few options particularly in the area of transport. I support a possible ferry, however, restricting this option to a feasibility study is limiting as I believe feasibility has been identified and possibly even completed and supplied to council. I do support better roading access in and around Karaka, Drury and Pukekohe to support the high growth in these areas. I also support more local employment options and recreational facilities to reduce the need to travel, supported by alternative means of transport within and around areas including walkways and the bus to Drury.

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   No, not really

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Not quite on the right track

   Tell us why

   Work out what is happening at coalface .

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Auckland Council (Auckland wide regional funding),Central government (national funding)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Creates too much risk at moment

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Bus services from Clarks Beach/Waiau Pa, Kingseat and Karaka to link to the new Ngaakaroa train station in Drury (instead of Papakura via Hingaia Road),Feasibility study into ferry services on Manukau Harbour

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Māra kai (food) gardens to compliment the Kai Franklin space and celebrate Pukekohe's food production story,New spaces for families and children (e.g. parent's space, play area)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Level of response as sought here dictating two responses is indicative of we know best approach . Again get out of offices and see what is happening.

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Auckland Council (Auckland wide regional funding),Central government (national funding)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

No

Tell us why

Leave the vehicle access by permit and have clearly defined trafic lanes with enforcement.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Mill Road improvements (Papakura to Ramarama),Bus services from Clarks Beach/Waiau Pa, Kingseat and Karaka to link to the new Ngaakaroa train station in Drury (instead of Papakura via Hingaia Road)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath, kerb and channel on Ronald Avenue, Hill Road, Beach Road, Fleet Street in Glenbrook Beach,Improvements to Ward St footpath in vicinity of Pukekohe Cemetery to align with the Pukekohe Cemetery Memorial project,Pedestrian crossing at intersection of Jutland Road, Princes Street West, and Taikaranga St, Pukekohe

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Other feedback

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

   More green spaces, better housing instead of cheaper looking product, invest in roading, traffic structure so communities can move , and be safe

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Auckland Council (Auckland wide regional funding),Central government (national funding)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

I don't know

Tell us why

I suppose it depends on what you want them to pay for and why. How much do they contribute , can the club afford the cost or will it mean the club closes. All contributing factors.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

More lanes on Hingaia and Linwood Roads, Karaka,Improvements to intersection of State Highway 22 and Blackbridge Road, Karaka

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath, kerb and channel on Ronald Avenue, Hill Road, Beach Road, Fleet Street in Glenbrook Beach

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Enhancing environmental outcomes and improving safety and accessibility in the carpark

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

I don’t know enough to about it. To comment

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Improve the roads, improve the traffic flow, stop thinking everyone will use public transport as that concept is clearly not working. . Think about the sub division infrastructure you have in place and how it looks now (new) and what it will look like in Years to come.

Keep more often spaces that communities can enjoy

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   No, not at all

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   No, we need a different approach

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Central government (national funding)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

This should not be a yes/no question! Yes, private clubs could contribute to maintenance and upkeep, but how is that fair when the public can use them for free. I don't think this is a black / white issue.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Pukekohe arterial roads,Feasibility study into ferry services on Manukau Harbour

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath from bus stop on Kitchener Rd, Pukekohe, to Pukekohe Hospital,Pedestrian safety improvement at intersection of Valley Rd and East Street, Pukekohe,Pedestrian refuge in vicinity of Sandspit Rd on King Street, Waiuku

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

New spaces for families and children (e.g. parent’s space, play area)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Possibly willing, but I would need more information first

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Have Your Say on the Draft Franklin Local Board Plan 2026

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Not quite on the right track

   Tell us why

   Community spaces in Beachlands Maraetai need to be maintained and created to respond to Beachlands South development

   Community hub for Beachlands Maraetai to be modern, fit for purpose, future proofed and resilient in the event of emergency

   Beachlands Maraetai needs more and better resilience planning - 11,000 people could be cut-off in an emergency

   Welcome FLB desire to help to develop and support a community led group in Beachlands Maraetai

   FLB to recognise that Howick and East Tāmaki are Beachlands/Maraetai/Whitford nearest service centres and not Papakura - they are closer and quicker to get to, have arts and sports

facilities, have specialist medical services, specialist retailers and services. We are school zoned for Howick so it is natural and convenient that we use their services regularly.

Does FLB recognise that the Community Delivery Partnerships programme focuses on fewer groups and there is a disincentive for new groups and activities to develop or be able to grow sufficiently to be able to apply in future funding rounds, especially if the groups receiving funding are not willing to share?

Natural environment

3. Who do you think should fund biodiversity research? (Select up to 2 options)

Other, please specify:

Tell us why

Effective funding frameworks rely on complementary contributions rather than a single source

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

As more higher density housing is developed in south and east Auckland our open spaces will come under more pressure - the current problems (safety and environmental impacts) experienced at Kariotahi Beach will be further exacerbated.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

With the caveat that charges are for matches and tournaments only - practice sessions are not charged.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Whitford village bypass,More and bigger ferries on Pine Harbour ferry route (city to Beachlands)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath, kerb and channel on Karaka Road, Beachlands ,Footpath on Beachlands Road (Section 2 – 212m in front of Beachlands Domain),Footpath on Beachlands Road (east of Shelly Bay Road to new subdivision)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

New spaces for families and children (e.g. parent's space, play area),New quiet rooms and a collaborative space within the library

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Not a resident of Waiuku - there are other pressing water issues around Franklin, especially Beachlands/Maraetai and Whitford.

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Te Puru Park needs a plan and continued funding

Beachlands Maraetai has benefited from additional children's playgrounds but older children and the adult population need recreational facilities eg adult fitness equipment to be added to current and any future playground facilities - Te Puru Park would be a great start

Ring fencing of any funds raised as a result of sales of sections, reserves or Council assets to remain within Beachlands Maraetai. The community needs to directly benefit if they are to lose these assets

FLB's current focus and spend of $650k on economic development completely ignores and disregards a majority of the Wairoa ward which makes up 30% of the total population of Franklin. The Kai Franklin commercial kitchen is realistically only accessible to a third of the total Franklin population, what is being provided for the economic development of the other 70% of the Franklin population? Future expensive initiatives like this have to better address the needs of everyone.

Tourism - FLB to directly partner with East Auckland Tourism to support and build on their recent successes to help FLB's aspirations for regional economic development, tourism and major events

Support delivery of procurement information workshops so that local suppliers can benefit from Council contracted services

Encourage and enable local groups and businesses to provide pest control services

Support film studio and services at Ardmore to help develop Franklin as a filming location - there is already plenty of filming happening in and around the Pohutukawa Coast (adverts, tv shows and films) and we need to see the benefit of it

Light industrial areas across Wairoa ward to provide local employment

Prioritise Pine Harbour as the gateway to Franklin

Pine Harbour ferry: services at capacity, ferry reliability constantly affected by mechanical problems, parking at capacity, and there os a desperate need for cover and bike parking facilities (future proof this with double decker bike parks)

Wider asphalt shoulders along Beachlands Maraetai Road to provide safety for drifting drivers to regain control, space for cyclists and pedestrians, improve incident management for emergency services and tow truck - will also help Beachlands Maraetai to avoid being cut off in the event of an emergency/accident

Convert roundabouts to double lane to reduce pinch points

Bus service Beachlands Maraetai to Howick and Manukau as our local service centre, hospitals and medical clinics

Pohutukawa Coast Trails aspirational plan - with all the development happening please can FLB ensure paths and trails are established and connected. How can developers be held to account to plan and provide pathways and access between the communities of Beachlands Maraetai and Beachlands South so that the latter does not end up isolated from local community facilities?

Concern about Watercare's ability to cope with waste water capacity at Okaroro Drive and waste water provision fro Beachlands South and other local developments eg Whitford Manor and Carlton Crescent, Maraetai.

There is a focus on bore-sourced drinking water in Waiuku, where is the focus on bore-sourced drinking water in Beachlands which is also creating negative impacts on end-users, not only Legionnaire's Disease scares, but also the additional costs of treating excessive iron in the water and replacing damaged plumbing and appliances - the impact is very easily seen and demonstrated by how much bottled water is sold in Woolworths Beachlands.

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

   There needs to be more facilities available for local use in Beachlands, i.e. land and or land and buildings for new community support groups such as the new 'Menzshed'.

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Auckland Council (Auckland wide regional funding)

   Tell us why

   Biodiversity is a requirement across all local boards.

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Not sure

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Clubs and sporting needs to be encouraged for long term fitness benefits and to reduce the drag on the health system. ANything we can do to encourage and make it easy to join and participate should be endorsed.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Whitford village bypass,More and bigger ferries on Pine Harbour ferry route (city to Beachlands)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath, kerb and channel on Third View Avenue, Beachlands, between Bell Road and Shelly Bay Road,Footpath, kerb and channel on Bell Road, Beachlands, between First View and Third View

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

A Pine Harbour ferry terminal needs to be constructed to provide protection from inclement weather. With the service growing so much in the last year since weekend sailings have commenced more ferry patrons are left suffering the environmental elements especially in winter. Effective lighting needs to also be in place for access to both the car parks and bus stops.

   I don't know

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Yes, I support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

The place isn't safe for pedestrians. You often have to watch and honestly I don't feel comfortable just laying down at the beach. You never know if the driver is fully paying attention. Not to mention kids can't run freely. Feels like Karioitahi is getting worse every year. Lots of rubbish and dog poop you can find there.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Pukekohe arterial roads,Improvements to intersection of State Highway 22 and Blackbridge Road, Karaka

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath on Kitchener Road, Pukekohe, between Green Lane and Willis Avenue,Footpath from bus stop on Kitchener Rd, Pukekohe, to Pukekohe Hospital,Improvements to Ward St footpath in vicinity of Pukekohe Cemetery to align with the Pukekohe Cemetery Memorial project

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

New spaces for families and children (e.g. parent's space, play area),Creating a new bookable meeting space above the café in the foyer of Franklin: The Centre

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

This should be something that council should look at without charging the community. We already pay a lot of taxes to get services to be provided

Charging more for something that is expected from the council is absurd

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Yes, definitely on the right track

   Tell us why

   Community groups are active but need leadership

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Auckland Council (Auckland wide regional funding),Central government (national funding)

   Tell us why

   This a bigger project than local and therefore funding needs to be spread wider

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

Yes, I support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

It is used by multiple groups of people all with different needs and the current uses are not always compatible

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

It is good to have people using the parks and getting exercise

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Repurposing and upgrading the upstairs Town Hall projector room into a bookable meeting room,Creating a new bookable meeting space above the café in the foyer of Franklin: The Centre

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

This submission is lodged to provide input into the Franklin Local Board Plan 2026. I was raised at Clarks Beach and have been a lifetime resident in the Franklin area and with my hobby being the study of bird life I have taken a keen interest in the bird population trends since 1964. I have participated in the Birds New Zealand biannual bird counts since that time, and these have reflected the changing populations in both the Manukau Harbour and the Firth of Thames.

Recently on behalf of the Pukorokoro Miranda Naturalist Trust and the Department of Conservation I prepared an application to nominate the Manukau Harbour as a Flyway Network site for recognition by the East Asian Australasian Flyway Network. During the consultations for this application, I became aware of the large number of small community groups working around the harbour on pest control or planting activities to enhance some aspects of the harbour and its fringes. Most of these small groups are working in isolation, often with very little leadership or guidance and I am heartened by the statements made in the Local Board Plan where it was stated that small amounts of Council finance can lead to huge gains in community outcomes. I believe that this is a worthwhile goal that the local board should fully adopt as a major outcome of their local plan.

This is clearly reticulated in the section headed Our Plan on page 17 as one of the key initiatives and I would strongly support that as a way forward.

Possibly willing, but I would need more information first

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Transport: I find it appalling there isn't mention of road maintenance/resurfacing - the roads in Papakura are best described as "abysmal" (Ward St, Harris St, Jutland Rd, Victoria St W - to name a few). Harris St services schools, sports fields, a supermarket, the fire station - an odd choice of roading to literally run into the ground. And Jutland Rd has lovely new footpaths, but I think the road itself has been dug up 3 times in the past 2 years for various works, and still the road surface is a patchwork quilt of torn up asphalt and pot holes. I love a good footpath, I walk regularly to the shops, but I have zero appetite for seeing the Franklin Paths Programme extended to 2037 if we can't find the funds to maintain the core roading infrastructure of our suburbs. (Feedback on road maintenance was my sole motivation for completing this submission - if there is one piece of feedback to take into consideration it's proper maintenance of our road surfaces.)

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

   I support the emphasis on sport, active recreation, play and bringing communities together. However, the plan should place greater emphasis on the physical facilities that enable these activities, particularly well-planned playgrounds, usable green space and free outdoor fitness facilities. This will become increasingly important as Franklin accommodates more intensive housing and more residents have limited private outdoor space.

Natural environment

3. **Who do you think should fund biodiversity research?**

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Supporting Franklin businesses through Council procurement

Playground People is a Franklin-based business and local employer. We support the plan's proposal to help local suppliers engage with Auckland Council procurement opportunities, including through procurement information workshops. However, helping businesses understand the procurement system is only part of what is required.

The final plan should include a stronger commitment to ensuring that suitably qualified local businesses are made aware of relevant Council projects and given a genuine opportunity to participate from an early stage. This should apply not only to projects directly managed by the Franklin Local Board, but also to Council and Council-controlled organisation projects delivered within Franklin.

This does not mean work should automatically be awarded to a local supplier. Council must retain fair and competitive procurement processes. However, local capability should be actively identified and considered before key decisions, designs or supplier selections have already been made.

The plan recognises that many Franklin residents must travel outside the area for employment. Auckland Council can help address this by sourcing more of the products and services used within Franklin from capable local businesses. This keeps more employment and economic activity within the area.

Local procurement can also provide whole-of-life value through reduced travel and transport costs, faster response times, easier access to replacement parts and maintenance, local knowledge and greater accountability after a project has been completed. Procurement decisions should therefore consider whole-of-life value and local economic outcomes, rather than focusing primarily on the initial purchase price.

I support the proposed advocacy to the Governing Body concerning sustainable procurement, but recommend that the final plan include measurable actions such as early notification of relevant opportunities, market-engagement sessions and reporting on the involvement of Franklin-based suppliers in Council projects delivered within the local board area.

Better planning of playgrounds and open space.

Playgrounds should be planned as a connected network rather than as a series of individual projects considered in isolation.

Clarks Beach Recreation Reserve is a good example of a substantial community playground that can serve as a destination and focal point for a growing community. In contrast, Pukekohe West has three medium-sized playgrounds within approximately one kilometre of each other. A more strategic approach might have delivered one larger and more varied community playground supported by two smaller neighbourhood playgrounds. This could have provided

greater play value, a wider range of challenge and activities, and a clearer hierarchy of neighbourhood and community facilities.

Anselmi Ridge illustrates a different concern. It contains relatively intensive housing but has only one small, ageing playground, while much of the available green space consists of gullies and drainage areas. These spaces may provide environmental and visual value but they do not necessarily provide usable, accessible recreation space for children and families.

As Franklin accommodates more intensive housing, residents will increasingly have smaller sections or no meaningful backyard. The provision of usable parks, playgrounds and informal recreation spaces therefore needs to increase alongside housing density. These facilities should not be treated as optional additions after development has occurred.

I recommend that the final plan provide for a strategic review of playground and open-space provision across Franklin. This should identify gaps, duplication, the condition and remaining life of existing playgrounds, accessibility, the needs of different age groups, population growth and opportunities to develop larger community or destination playgrounds where appropriate. The board should also advocate for stronger requirements and earlier planning for usable green space and recreation facilities within new developments.

Outdoor fitness and equitable access to recreation

The plan should place greater emphasis on free outdoor fitness opportunities, particularly in lower socio-economic communities where cost and other barriers can reduce participation in gyms, organised sport and formal recreation programmes.

The outdoor fitness facility at Hingaia Park in Karaka demonstrates how gym-quality equipment can be made freely available in a public park. Facilities of this kind provide flexible exercise opportunities for adults, older people and young people who may not otherwise be able to afford a gym membership or participate in organised sport.

I recommend identifying communities with limited access to affordable recreation and progressively providing outdoor fitness equipment, walking circuits, informal exercise areas and similar facilities in those locations. Investment should be guided by equity, accessibility, population need and the availability of other recreation options, rather than simply distributing facilities evenly across the local board area.

Franklin funding and Bruce Pulman Park

As an additional personal view, I do not support Franklin Local Board funding being allocated to the development or operation of Bruce Pulman Park while sport and recreation organisations and facilities located within Franklin have significant unmet needs.

Bruce Pulman Park is located in the Papakura Local Board area. I acknowledge that Franklin residents use the facility and that growth around Drury may increase this use. However, cross-boundary use by itself does not justify diverting Franklin's limited local funding away from Franklin-based facilities.

If Bruce Pulman Park performs a regional or sub-regional role, its development should be funded through regional Auckland Council budgets, the Papakura Local Board, developer contributions, external funding and appropriate user charges. Franklin funding should be prioritised for facilities within Franklin unless there is a clearly demonstrated benefit to Franklin residents that exceeds the benefit achievable by investing the same money locally.

I therefore recommend amending the plan's reference to partnership investment in Bruce Pulman Park to make clear that Franklin Local Board funding will not be committed without a transparent business case, evidence of direct benefit to Franklin communities, consideration of alternative investments within Franklin and public consultation.

This approach would ensure that Franklin ratepayers are not subsidising a facility outside the local board area while local clubs and recreation facilities remain underfunded.

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

I support the draft plan, especially the continued investment in the Franklin Paths Programme. It is important that we take a strategic approach to ensure major developments across Franklin are accessible by walking and cycling through an integrated active transport network .

This means providing safe, separated paths (not just painted lanes on a 80km/h road) and ensuring our communities are connected by reliable walking and cycling routes. Building this network now will help Franklin prepare for future growth and give people safer, more practical transport choices.

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Yes, I support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Unruly users and speeding vehicles on the beach need to be stopped as these are a danger to others on the beach

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

More lanes on Hingaia and Linwood Roads, Karaka,Mill Road improvements (Papakura to Ramarama)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

New quiet rooms and a collaborative space within the library,Enhancing environmental outcomes and improving safety and accessibility in the carpark

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Possibly willing, but I would need more information first

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   No, not really

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

   More detailed than the other sections. Overall good content and still with obvious omissions.

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Other, please specify:

   Tell us why

   Developer as rezoning has created substantial windfall gains for them.

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Enforce the road rules on the beach as you would with any road. Quit the public debate and enforce the law with current policies.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Whitford village bypass,Mill Road improvements (Papakura to Ramarama)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

New footpath on Cherrie Road Beachlands to link First, Second and Third View Ave to enable pedestrian access to both bus stops and the ferry.

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Yes, definitely on the right track

   Tell us why

   kaitiakitanga

   support communities to support whats good,

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   The local board (local funding),Auckland Council (Auckland wide regional funding)

   Tell us why

   local funding for local problems. eg Franklin bats vs "Barn Cats" which were being promoted by SPCA funded organisations

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

Yes, I support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

families are avoiding going to Kariotahi as its too scary making sandcastles next to utes and motorcycles. More work needed.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Keep sports available by not loading up costs on sporting clubs.

Franklin needs to empower healthy transport options to get to sports fields by reducing the amount of overallocated carparking.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Bus services from Clarks Beach/Waiau Pa, Kingseat and Karaka to link to the new Ngaakaroa train station in Drury (instead of Papakura via Hingaia Road),Feasibility study into ferry services on Manukau Harbour

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Repurposing and upgrading the upstairs Town Hall projector room into a bookable meeting room,Creating a new bookable meeting space above the café in the foyer of Franklin: The Centre

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Does the water meet standards ? - if not watercare need to address this. They have just spent $500M on wastewater - why is FLB covering these costs.

Hard water ? what about nitrate levels. etc

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

I like living in Franklin - its amazing. I think we can do better with what we have.

I have attached a longer submission document including my asks/recommendations for the future i'd like to see for the coming generations who will live here.

ADDITIONAL DOCUMENT – ADDENDUM TO SUBMISSION ON THE FRANKLIN LOCAL BOARD PLAN 2026

TO: Franklin Local Board
FROM: [Your Full Name]
DATE: [Date of Submission]
SUBJECT: Addendum Submission – Active Transport (Franklin Paths Programme) and Franklin Tree Programme

---

1. PURPOSE OF THIS DOCUMENT

This document serves as an addendum to my earlier submission on the Franklin Local Board Plan 2026. It provides additional detail and specific recommendations relating to two critical areas that I believe require stronger emphasis and clearer action within the final Plan:

1. **Active Transport – Franklin Paths Programme** – expanding both its timeframe and its ambition.
2. **Franklin Tree Programme** – protecting existing mature trees and planting for future generations.
3. **Destination Tourism -** Linking the “Blue highway” ferry services with heartland ride style trails for a tourism package alternative (and superior to) the Hauraki rail tail.

These recommendations are made with a view to strengthening the Plan's environmental, transport, tourism, and economic development outcomes.

---

2. ACTIVE TRANSPORT – FRANKLIN PATHS PROGRAMME

The Franklin Paths Programme is a commendable initiative that has already delivered tangible benefits across the ward. However, I respectfully submit that the Programme's current scope and timeframe are insufficient to meet the scale of opportunity and need facing Franklin over the coming decade.

2.1. Extend the Franklin Paths Programme until 2037

The draft Plan currently schedules the existing Programme for completion by 2034 and notes that the Board may "test community appetite for extending" it to 2037. I urge the Board to move beyond testing appetite and to **commit now** to extending the Programme to 2037.

Rationale:

- The current Programme is already delivering high community value and is supported by a targeted rate that residents have demonstrated willingness to pay.
- Extending to 2037 provides certainty for long-term planning, enables efficient project sequencing, and avoids the cost and disruption of restarting a lapsed programme.
- Many of the additional path connections identified but not yet scheduled are in areas of significant growth (e.g. Beachlands, Drury, Karaka) where demand will only increase.

My ask/Recommendation:
The Board should formally extend the Franklin Paths Programme to 2037 and refresh the project pipeline to include priority connections identified through community engagement and growth planning.

2.2. Link Patumahoe - Pukekohe via the Kiwirail rail corridor

I strongly support the inclusion of the **Patumahoe–Pukekohe link via the KiwiRail corridor** within the Franklin Paths Programme. This initiative, championed by **Franklin Active Trails**, has already secured **Stage 1 approval from KiwiRail** for access negotiations.

Background & Current Problem:
Currently, there are **no safe, quiet road options** for walking or cycling between Patumahoe and Pukekohe. The only viable route is via **Gun Club Road**, which is:

- Unsafe for pedestrians and cyclists due to high vehicle speeds and narrow road shoulders.
- A significant barrier to active mode travel between these two growing communities.
- Deterring residents from choosing walking or cycling as a viable transport option.

The Opportunity – KiwiRail Corridor:
The KiwiRail Mission Bush line corridor offers an **excellent, safe, and direct connection** from Patumahoe to several parts of Pukekohe and potentially Paerata. It opens up options for:

- A trail connection all the way to Waiuku.
- A link connecting Patumahoe to Clarks Beach.
- Integration with the wider Heartland Rides and Blue Highway Adventure Trail networks.

Current Status:

- **Stage 1 approval** for access to the corridor has been granted by KiwiRail.
- The Franklin Local Board has previously been requested to nominate a representative to work with Franklin Active Trails to progress this access request.
- The Board has noted the importance of aligning the Paths Programme with the **KiwiRail Corridor access** opportunity.

My ask/Recommendation:
The Board should:

1. **Formally incorporate the Patumahoe–Pukekohe KiwiRail corridor link** into the Franklin Paths Programme as a priority project.
2. **Provide active support** to Franklin Active Trails in progressing access and development of this corridor.
3. **Allocate appropriate resources** within the Paths Programme budget to deliver this link as a matter of urgency, given that Stage 1 approval is already in place and the route offers an immediate, low-cost solution to a longstanding connectivity gap.
4. **Recognise this corridor** as a foundational piece of the broader Heartland Rides and Blue Highway networks.
5. **Link Clarks Beach - Patumahoe - Pukekohe / Waiuku Active Trails network**

2.3. Extend Ambitions to "Heartland Rides" Linking Communities and Connecting Greenways Plans

I recommend that the Board expand the ambition of the Franklin Paths Programme beyond local commuter and recreational paths to encompass a network of **Heartland Rides** – longer-distance, destination-quality cycle trails that link Franklin's communities, town centres, and natural assets.

The Challenge – Fragmented Greenways Plans:
Franklin currently has a range of **Greenways Plans** and local pathway initiatives developed by various community groups and councils. However, these plans remain **fragmented and disconnected** – individual trails and routes that do not yet form a coherent, integrated network. Without a unifying framework, these valuable plans risk remaining unrealised or delivering only localised benefits.

The Solution – Heartland Rides as the Connective Framework:
The Heartland Rides concept provides the **overarching vision** needed to stitch these Greenways Plans together into a single, coherent network. Rather than a collection of standalone paths, Franklin would have an **integrated, connected system** that:

- Links Greenways corridors into continuous long-distance routes.
- Provides clear signage, wayfinding, and visitor infrastructure across the entire network.
- Creates a unified identity that can be marketed and promoted as a single destination product.
- Ensures that investment in one segment delivers benefit to the whole network.

Expert Support – Jonathan Kennett:
I strongly recommend that the Board engage **Jonathan Kennett** – a nationally recognised expert on regional pathways and cycle trail development – to lead or inform the design and integration of the Heartland Rides network. Jonathan's expertise has been instrumental in the success of other New Zealand trails, and his involvement would ensure that Franklin's network is designed to best-practice standards, maximising tourism, economic, and community outcomes.

Rationale:

- Heartland Rides would position Franklin as a premier cycling destination, attracting domestic and international visitors.
- Such trails would connect villages, townships, and rural communities that are currently isolated from one another, fostering social cohesion and economic activity.
- The draft Plan already references a "destination cycle path" in my earlier points – this should be formally embedded as a flagship Heartland Ride.
- By connecting Greenways Plans into a Heartland Rides network, the Board can deliver a **whole-of-Franklin** active transport and tourism strategy rather than piecemeal projects.

My ask/Recommendation:
The Board should:

1. **Adopt Heartland Rides as a formal extension** of the Franklin Paths Programme, with a specific focus on creating long-distance recreational and touring routes.
2. **Commission the design and integration of Greenways Plans** into a cohesive Heartland Rides network.
3. **Engage Jonathan Kennett** as an expert advisor to guide the network design and ensure alignment with national best practice.
4. Prioritise routes that link:
    - Pukekohe to Waiuku (via the KiwiRail corridor and beyond)
    - Waiuku to Port Waikato
    - Beachlands, Maraetai, and Clevedon to Papakura and the wider Auckland cycle network
    - Train stations to townships and coastal communities
    - The Taihiki Waterway and other Greenways corridors into the broader network

---

2.4. Add Heartland Rides to Tourism and Economic Development Opportunities

I recommend that the Board explicitly list Heartland Rides within the **Economic Development** section of the Plan as a tourism and business development opportunity.

Rationale:

- Cycle tourism is a growing sector in New Zealand, with demonstrated economic benefits for accommodation, hospitality, retail, and service providers along trail routes.
- Heartland Rides would showcase Franklin's natural environment – its coastlines, rolling hills, forests, and farmland – to a wider audience.
- The draft Plan already identifies tourism promotion (via Tātaki) and food/beverage production as priorities; Heartland Rides provide a natural platform to connect these.

My ask/Recommendation:
Add Heartland Rides to the list of initiatives under the Economic Development section, with actions including:

- Partnering with Tātaki to promote Franklin's Heartland Rides as a signature New Zealand cycling experience.
- Working with local business associations and hospitality providers to develop trail-side services and visitor experiences.
- Integrating Heartland Rides into regional tourism marketing strategies.

2.5. Connect New Train Stations with Safe, Separated Cycleways – Don't Wait for Four-Laning or Arterial Projects

I am deeply concerned that the draft Plan's transport priorities link active transport improvements to major roading projects with excessively long timelines. **Franklin cannot afford to wait.**

Rationale:

- The new train stations at Drury, Paerata, and Pukekohe are being delivered now – but the cycleways connecting communities to these stations are not.
- Waiting for four-laning or arterial road projects (which may take decades) means missing the opportunity to establish cycling as a viable mode of access to public transport from day one.
- Safe, separated cycleways are the most cost-effective way to extend the catchment area of train stations, reducing car dependency and parking demand.
- Young people, elderly residents, and those without access to cars are being locked out of public transport by unsafe or non-existent cycling connections.

My ask/Recommendation:
The Board should:

1. **Prioritise and deliver safe, separated cycleways to new train stations now**, using the Franklin Paths Programme and developer contributions, rather than waiting for roading projects.
2. Advocate for **cycleway connections to be a mandatory condition of resource consent** for all new development and station precinct planning.
3. Include specific connections in the Franklin Paths Programme extension, such as:
    - Drury Station to Karaka, Kingseat, and Patumahoe
    - Paerata Station to Pukekohe and surrounding rural communities
    - Pukekohe Station to the town centre, hospital, and Waiuku via the KiwiRail corridor (as a priority project)

---

3. THE BLUE HIGHWAY ADVENTURE TRAIL – A MAJOR FLAGSHIP ASK

I submit that the **Blue Highway Adventure Trail** should be elevated to a **major flagship initiative** within the Franklin Local Board Plan. This is not merely a transport or recreation project – it is a transformative economic development, tourism, and connectivity opportunity for Franklin and beyond.

3.1. The Vision

A multi-modal tourism and transport corridor combining ferry services, cycle trails, and community connections along Franklin's western and southern coastline:

Auckland Airport / City Centre → Onehunga Wharf (ferry) → Awhitu Peninsula → Clarks Beach → Taihiki Waterway (17km trail) → Patumahoe → Waiuku → Awaroa → Port Waikato → Waikato River Crossing → Raglan → Raglan Harbour Crossing → Kawhia → Hot Water Beach

3.2. Reasons to Support – A Transformative Opportunity

3.2.1. Destination Tourism Product – Proven Economic Model

The Hauraki Rail Trail generates approximately **$33 million per year** in visitor expenditure for the Thames-Coromandel region, with relatively low ongoing investment. The Blue Highway Adventure Trail has the potential to match or exceed this, offering:

- A uniquely New Zealand experience combining harbour ferries, coastal cycling, and inland waterways.
- Direct access from Auckland Airport – international visitors can begin their adventure within an hour of landing.
- A multi-day touring product that will drive overnight stays, hospitality spending, and retail activity across Franklin's villages and townships.
- Opportunity for Iwi to tell the stories of these paths that were once key trading routes. Huge potential for cultural experiences, storytelling and commerce

3.2.2. Unexplored Country – This is New!

Franklin's western coastline and the Taihiki Waterway are among the most under-explored and under-promoted landscapes in the Auckland region. The Blue Highway Adventure Trail would:

- Open up previously inaccessible or overlooked areas to visitors.
- Position Franklin as a destination in its own right, rather than a corridor to elsewhere.
- Offer a point of difference from other New Zealand cycle trails – combining water and land travel in a way no other trail does.

3.2.3. Needs Packaging – The Sunset Coast is Achievable Today

The physical infrastructure already largely exists or is within reach:

- Ferry services along the Manukau Harbour and Waikato River are commercially viable and achievable with modest support. This is a when, not if problem.
- The Waikato River crossing and Raglan Harbour crossing are feasible with existing or easily deployable water transport. Private Airbnb operators are provisioning this currently.
- The cycle trail segments can be delivered progressively through the Franklin Paths Programme and Heartland Rides extension, including the Patumahoe–Pukekohe KiwiRail corridor.
- What is missing is **vision, coordination, and packaging** – the Board can provide this leadership. The tourists are there - please support this destination tourism product

3.2.4. The Taihiki Waterway Trail – A Hidden Gem

The Taihiki Waterway is one of Franklin's best-kept secrets – a tranquil, sheltered inland waterway offering approximately **17 kilometres of public access** from Clarks Beach to Patumahoe. This trail:

- Provides a safe, scenic, and flat cycling and walking route away from busy roads.
- Links the Manukau Harbour ferry network to the inland Heartland Rides network.
- Offers unparalleled opportunities for birdwatching, kayaking, and nature-based tourism.
- Connects Clarks Beach, Waiau Pa, and Patumahoe communities, fostering local economic activity.
- This trail has operated for a thousand years up until the last hundred - its a reopening.
- Sections of the trail are already in place, landowners are looking to get onboard with lodgings, food and entertainment. This needs project management and delivery.

3.2.5. Key Problem – Public Access on Council-Owned Onehunga Wharf Needs Resolving

A critical missing link in the Blue Highway Adventure Trail is **public access at Onehunga Wharf**, which is council-owned but currently has restricted or unclear public use arrangements.

- Resolving this is essential to enable ferry services to connect Auckland Airport/City to the Awhitu Peninsula.
- I urge the Board to **advocate strongly and urgently** to the Governing Body and relevant council departments to:
    - Secure public access rights at Onehunga Wharf.
    - Invest in wharf upgrades to accommodate passenger ferry services.
    - Integrate Onehunga Wharf into the wider Blue Highway network as a gateway to Franklin.

3.3. Benefits to Franklin

The Blue Highway Adventure Trail would deliver transformative benefits across multiple areas of the draft Plan:

Area	Benefit
Economic Development	New tourism revenue, hospitality and retail growth, employment in trail and ferry operations, increased spending in townships.
Transport	Low-carbon alternative to roading, connects communities, reduces car dependency, leverages existing ferry infrastructure.
Tourism	Signature destination product attracting domestic and international visitors, differentiates Franklin from other regions.
Community	Connects isolated communities, fosters social cohesion, provides recreation opportunities for residents.
Environment	Promotes low-impact travel, supports conservation messaging, integrates with environmental restoration programmes as visitor experiences.

3.4. Recommendation

The Board should:

1. **Adopt the Blue Highway Adventure Trail as a flagship initiative** within the final Local Board Plan, with dedicated resourcing and a project lead.
2. **Include the Trail as a specific advocacy item** to central government, Tātaki, Auckland Transport, and the Governing Body.
3. **Work with commercial ferry operators, iwi, and community organisations** to develop a feasibility study and business case within the first year of the Plan.
4. **Advocate urgently for resolution of public access at Onehunga Wharf** to unlock the Manukau Harbour ferry connection.
5. **Integrate the Taihiki Waterway trail** into the Franklin Paths Programme extension as a priority segment.
6. **Package the Trail as a single cohesive product** for domestic and international tourism marketing through Tātaki and regional tourism organisations.

---

4. FRANKLIN TREE PROGRAMME – PROTECT WHAT WE HAVE, PLANT FOR FUTURE GENERATIONS

I am alarmed by the accelerating loss of Franklin's mature, heritage-aged trees and the absence of a comprehensive tree management plan. This is an urgent environmental, cultural, and economic issue that requires immediate action.

4.1. Address the Rapid Loss of Our Old Trees

Franklin is losing its old trees at an unacceptable rate – through development clearance, disease, neglect, and a lack of protective policy. Each loss represents:

- The destruction of complex ecosystems that support native birds, bats (pekapeka), and invertebrates.
- The loss of carbon sequestration capacity that cannot be replaced by saplings within our lifetime.
- The erosion of Franklin's rural and village character, which is a key driver of tourism and liveability.
- The loss of cultural and historical connections to the land.

Rationale:

- The draft Plan references the need for "real protections for our older trees" but does not commit to a specific tree management plan or protective framework.
- Auckland Council's Unitary Plan tree protections are limited and often fail to prevent the loss of significant trees on private land.
- Mana whenua values around taonga species and the mauri of whenua are directly undermined by the loss of old-growth trees.

4.2. Plant More for the Next Generations – But Not at the Expense of Protection

While protection of existing trees is the highest priority, I support ambitious and strategic new planting for future generations.

Rationale:

- The draft Plan already commits to re-forestation through the Franklin Ngaihere Plan – this is welcome but should be accelerated.
- Planting must be done strategically – using appropriate, eco-sourced species – and must be accompanied by long-term maintenance to ensure survival.
- New planting should not be used as a justification for removing old trees (the "plant two for every one removed" approach is insufficient and misleading).

4.3. Address the Opportunity Costs to Franklin (Bats, Ecology, Tourism)

The loss of old trees has cascading opportunity costs that the Board must quantify and address.

Bats (Pekapeka-tou-roa):

- Franklin is home to nationally critical populations of long-tailed bats, which rely on mature trees with hollows for roosting.
- The draft Plan references bats in the Natural Environment section but does not link tree loss to bat habitat destruction.
- Each old tree lost reduces bat habitat and pushes this taonga species closer to extinction.

Ecology:

- Old trees support complex ecosystems – epiphytes, fungi, insects, birds, and bats – that cannot be replaced by new planting.
- The cumulative loss of old trees undermines the ecological health of Franklin's reserves, rural areas, and urban margins.

Tourism:

- Franklin's landscape character – its rolling hills, mature trees, and coastal vistas – is a key driver of tourism.
- The loss of old trees diminishes this character and reduces the attractiveness of Franklin as a visitor destination.
- This is a direct economic cost to the hospitality, accommodation, and retail sectors.

My ask/Recommendation:
The Board should:

1. **Develop and adopt a Franklin Tree Management Plan** within the first year of the Plan's term, including:
    - A register of significant trees (public and private) with heritage or ecological value.
    - Clear protection mechanisms, including resource consent requirements for removal.
    - Enforcement provisions with meaningful penalties for non-compliance.
2. **Advocate to the Governing Body** for stronger region-wide tree protection provisions in the Unitary Plan.
3. **Work with mana whenua** to identify and protect trees of cultural significance.
4. **Significantly increase investment in tree planting** through the Ngaihere Plan, with a target of [X,000] trees per year across Franklin.
5. **Prioritise planting on berms, parks, reserves, and along path/cycleway corridors** to create green networks that also provide shade, biodiversity corridors, and amenity.
6. **Partner with community groups, landcare organisations, and schools** to deliver planting programmes that build community ownership and stewardship.
7. **Commission a study** to quantify the ecological and economic value of Franklin's mature trees, including their contribution to bat habitat, biodiversity, and tourism.
8. **Use this evidence** to strengthen advocacy for stronger tree protection at regional and national levels.
9. **Report annually** on tree loss, planting, and survival rates – ensuring transparency and accountability.

---

5. SUMMARY OF RECOMMENDATIONS

For ease of reference, I summarise the key recommendations as follows:

Area	Recommendation
Franklin Paths Programme	Extend to 2037 with a refreshed project pipeline.

Patumahoe–Pukekohe KiwiRail Link	Incorporate this priority project into the Paths Programme; support Franklin Active Trails in progressing access, as Stage 1 approval is already in place.
Heartland Rides & Greenways	Adopt Heartland Rides as an extension of the Paths Programme; integrate Greenways Plans into a coherent network; engage Jonathan Kennett as expert advisor.
Tourism & Economic Development	Add Heartland Rides to the Economic Development section as a tourism and business opportunity.
Blue Highway Adventure Trail (FLAGSHIP)	Adopt as a major flagship initiative; develop feasibility study and business case; package as a cohesive tourism product.
Taihiki Waterway Trail	Prioritise the 17km Taihiki Waterway trail connecting Clarks Beach to Patumahoe within the Paths Programme.
Onehunga Wharf Access	Advocate urgently for public access resolution at council-owned Onehunga Wharf to unlock the Manukau Harbour connection.
Station Cycleways	Deliver safe, separated cycleways to new train stations now – do not wait for roading projects.
Franklin Tree Programme	Adopt a Tree Management Plan with protection mechanisms; significantly increase planting; report annually; commission an ecological/economic value study.

---

6. CONCLUSION

Thank you for the opportunity to provide this addendum. I am passionate about Franklin's future and believe that bold action on active transport, the Blue Highway Adventure Trail, and tree protection will deliver enduring benefits for our environment, our communities, and our economy.

I remain available to elaborate on any of the above points, either in writing or through direct presentation to the Board.

Have Your Say on the Draft Franklin Local Board Plan 2026

New quiet rooms and a collaborative space within the library

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

I fully support the Franklin Paths Programme - especially for bike trails.

I would fully support the Locky Dock bike parks being installed in Pukekohe town square - these are excellent locks for bikes and the ability to recharge an e-bike is definitely needed.

I would LOVE to see a shared path that connects Pukekohe to the Southern motorway. I would also fully support a shared path being created that follows the shoreline so riders can ride down the Southern motorway pathway then out to Waiuku on a newly created shoreline pathway - and in the future all the way up the Awhitu Peninsula to be able to camp at the Regional Park for a night or two.

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   No, not really

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Not quite on the right track

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Central government (national funding)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

No

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Whitford village bypass,More and bigger ferries on Pine Harbour ferry route (city to Beachlands)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath, kerb and channel on Karaka Road, Beachlands ,Footpath on Beachlands Road (Section 2 – 212m in front of Beachlands Domain),Footpath on Beachlands Road (east of Shelly Bay Road to new subdivision)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

New quiet rooms and a collaborative space within the library

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Other feedback

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, definitely

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Auckland Council (Auckland wide regional funding)

   Tell us why

   It would benefit the wider Auckland area (visitors from other parts of Auckland), but not necessarily the rest of the country (less likely). So it could be funded from a wider pool of resources

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

Equipment would typically be used by the clubs and members, otherwise they are more likely to be damaged if they are publicly available to all. Unless the facility is also staffed by Auckland Council / local board, then it could be better controlled

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

More lanes on Hingaia and Linwood Roads, Karaka,Improvements to intersection of State Highway 22 and Blackbridge Road, Karaka

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Small missing section of footpath on Blake Road, Pukekohe at intersection with Rowles Rd,Pedestrian safety improvement at intersection of Valley Rd and East Street, Pukekohe

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

New quiet rooms and a collaborative space within the library,Enhancing environmental outcomes and improving safety and accessibility in the carpark

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Possibly willing, but I would need more information first

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Have Your Say on the Draft Franklin Local Board Plan 2026

#774

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

   The goal of connecting the youth/young and new residents seems great. However, I do have some comments:

   1: The youth need a way to get to places around the area, so adding more crosswalks and perhaps light controlled cross walks would be suitable

   2: Safety is also a priority, so adding CCTV to public places (If CCTV is not already at public places) would be a good idea.

   3: The young may be unable to drive, so they might use a scooter or cycle. However, the road can feel dangerous, and the sidewalk can often be narrow and busy, so bike lanes, specifically around schools, residential areas, places of high-risk e.g. traffic lights, roundabouts would make sense.

4: If there would be new places of art and recreation, or updates to such places, I think some advertising or spreading awareness would have more people connect with each other.

Natural environment

3. Who do you think should fund biodiversity research? (Select up to 2 options)

Central government (national funding)

Tell us why

Local funding can be used for more important things (in my opinion) such as making it safer to get to school and back or making it easier to go to places without a car. And biodiversity research seems like a national thing, so I think the government should pay.

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

If cars can be on the beach, I think perhaps having a lower speed limit at the beach when it's busy and some warning/caution signs would be suitable. And that the people on the beach have the right of way. Also about removing trash bins, I think if they are removed, that eco friendly bags should be available to get at the beach for picking/bringing trash.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

They should still be managed by the council, but the parking near the area can be a paid parking zone or there should be a fee for large clubs.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Pukekohe arterial roads,Improvements to intersection of State Highway 22 and Blackbridge Road, Karaka

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath from bus stop on Kitchener Rd, Pukekohe, to Pukekohe Hospital,Improvements to Ward St footpath in vicinity of Pukekohe Cemetery to align with the Pukekohe Cemetery Memorial project,Bus shelter opposite Tamaoho School on Taikaranga Street, Pukekohe

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

New spaces for families and children (e.g. parent's space, play area),New quiet rooms and a collaborative space within the library

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

I don't live in Waiuku so I wouldn't care much.

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

I think adding bicycle lanes in the transport part of the plan would be a good idea. Specifically, maybe around: All schools in Pukekohe (e.g. Pukekohe High School.), Pukekohe Train Station, Franklin Hospital, Pukekohe Town Centre, Pukekohe Library, streets around the centre of Pukekohe (check image), Harris Street, Wellington Street and Helvetia Road.

   No, I do not support this

   Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Not sure

Tell us why

Most people bring food, toys, clothes etc. to the beach, sometimes leaving wrappers and their rubbish or forgetting things - we absolutely need a place to put this rubbish, as everyone knows how terrible garbage is for the sea & its inhabitants. Let's not make it more difficult for people to throw things away.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

Not much opinion/knowledge, but it sounds like a good idea

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   No, not at all

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   No, we need a different approach

   Tell us why

   More evidence needed to prove involvement of said populations.

   "Community organisation's sustain themselves" no, Community organisation's thrive with support from governing bodies and councils.

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   The local board (local funding)

   Tell us why

Local council has better access to engage with the community and vice versa. Local community have "an ear on the ground" and better connection in this way.

Learning Local history through the involvement of Iwi will teach how they've looked after the land for generations, what worked in the past and what hasn't

For example, the water plant discharging into Te Puru Stream should be top priority when it comes to water quality and any sich related research, funded by local council with Iwi engagement and consultation at the forefront.

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

- Public safety concerns

- Use of public resources when accidents happen requiring sometimes specialized assistance and equipment. This is costly

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Local sports clubs are already struggling to provide low cost options for health and physical activity. Research tells us one of the top barriers to participating in sport is cost. If sports clubs have to pay this, it will have a direct impact on participant fees further increasing the barriers to play and be well.

If any group is to be considered being charged we should look at the NGOs using the space like Te Puru Community Centre who has access and human resources to apply for funding to

cover these costs. As they are a service to the community it seems best fit they absorb these fees.

If Auckland Council is not going to.support the public with free use of parks then return it to local Iwi to manage. In particular, Te Puru Park and recreation grounds.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

More and bigger ferries on Pine Harbour ferry route (city to Beachlands)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath, kerb and channel on Karaka Road, Beachlands ,Footpath, kerb and channel on Third View Avenue, Beachlands, between Bell Road and Shelly Bay Road,Footpath, kerb and channel on Bell Road, Beachlands, between First View and Third View

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

A “Kai Franklin space” re-purposing the small hall as a bookable commercial kitchen and food innovation space,Māra kai (food) gardens to compliment the Kai Franklin space and celebrate Pukekohe’s food production story

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

I don't live in Karaka. We have the same issues in Beachlands. Why not consider this for us?

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

More public involvement in the drafting of future plans. For example, if you're going to make changes that influence sports groups perhaps consult them first as I believe this would never have made it to the table otherwise. Do.better

Have Your Say on the Draft Franklin Local Board Plan 2026

#782

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

   The Franklin Local Board covers a massive and geographically diverse area, with many distinct communities. Working closely with established community groups is therefore a sensible and practical approach.

   However, it is one thing to support community-led delivery in principle and another to implement it successfully. The plan itself acknowledges that this approach relies on volunteerism, which is under pressure from competing time commitments and an ageing volunteer workforce.

   The proposed Community Delivery Partnerships programme is a positive initiative, and I welcome the commitment to provide Council resources and board funding. However, the plan does not yet explain how much funding will be available, how organisations will be selected

and supported, what responsibilities will remain with Council, or how results will be measured and reported.

Community-led delivery should complement Council services rather than become a means of transferring responsibilities to volunteers without adequate funding, resources and practical assistance. Partnerships should have clear expectations, transparent funding arrangements and measurable outcomes showing that they are delivering genuine community benefit.

The overall direction is sound, but the final plan would benefit from more detailed implementation, funding and accountability arrangements.

Natural environment

3. Who do you think should fund biodiversity research? (Select up to 2 options)

Auckland Council (Auckland wide regional funding),Central government (national funding)

Tell us why

Biodiversity research should normally be funded regionally or nationally because its findings often benefit multiple communities and agencies. Local board funding may be appropriate where research is specifically required to understand a distinct Franklin ecosystem, species population or proposed local project, and where the results will directly guide local investment or management.

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

I support further investigation and wider community consultation, but this should not be interpreted as support for a predetermined ban on vehicles. There are legitimate safety and environmental concerns, but vehicle access also has recreational and practical value. Any review should examine actual incident data, environmental impacts, enforcement effectiveness and the views of local residents, regular beach users and responsible drivers before recommending changes.

Hunter Hawker should lead this given safeguarding Karioitahi Beach is something he is passionate about as I've seen at local board meetings.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

It is reasonable for clubs and sporting organisations that book a field for their exclusive use to make a fair contribution towards maintenance. Clubs should also help fund equipment that is mainly used for their own sport.

However, fees should be affordable and should not stop children, small clubs or low-income communities from taking part. Casual public use of sports fields should remain free. The council should consider reduced fees or exemptions where a club cannot reasonably afford the full cost.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Pukekohe arterial roads,Feasibility study into ferry services on Manukau Harbour

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pedestrian safety improvement at intersection of Valley Rd and East Street, Pukekohe,Pedestrian refuge in vicinity of Sandspit Rd on King Street, Waiuku

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Māra kai (food) gardens to compliment the Kai Franklin space and celebrate Pukekohe’s food production story,New quiet rooms and a collaborative space within the library

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Possibly willing, but I would need more information first

Tell us why

I would contribute as a Waiuku resident. I'm on tank water, so it wouldn't affect me that much. But I've seen a lot of complaints in the Waiuku grapevine about it. I think you definitely want to survey people who aren't on tank water. Everyone on tank water is going to say no, so

you want to survey those who are actually on mains water. And obviously, I'd need more information on the project's viability. I've got to see the costing. I'm that sort of guy who likes to see costing, project scope, and all that stuff before I'd like to contribute.

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Rubbish collection at beaches is a core council service. It should not even be up for discussion.

For the priorities in questions seven, eight and nine, the feedback will naturally reflect where people live. Franklin covers such a large area that residents are likely to support the projects closest to them. That is not selfish. It is simply because people understand the issues they see in their own communities. I live in Waiuku, so I have little knowledge of the issues affecting Beachlands.

For example, question seven asks about a feasibility study for a ferry service. I live at Orua Bay, so naturally I am interested in that idea. However, that is a personal preference and does not necessarily mean it should be the highest priority. The bus service would probably provide the most equitable benefit.

The same applies to question ten about Waiuku water. The council should survey people who actually use the town water supply, rather than including residents who rely on tank water.

Best of luck with the plan. I know the Franklin Local Board has a very difficult job covering a massive area with limited funding relative to its size.

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, definitely

   Tell us why

   LIke to hear that the local board is getting on with finishing trails around sandspit and improve parking and the use of our beautiful Karioitahi Beach that is getting abused at the moment.

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Yes, definitely on the right track

   Tell us why

   Yes you do support our town. Events put on by WBDA encouraging young and new residents into our CBD to shop.

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   The local board (local funding),Auckland Council (Auckland wide regional funding)

   Tell us why

We pay our rates to Auckland Council so I dont see why the improvements to environment we live in should be funded by Auckland council and Local Board.

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

What about some sort of recycling stations at beaches. Taking bins away will only leave our beaches in a bigger mess.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

It's totally abused because is one of the last remaining beaches in Auckland to drive on. It's not the locals so much that abuse it but visitors. Something like a gate lock system to go on beach with permit could work so people can still enjoy a drive on beach and perhaps camera.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

I don’t know

Tell us why

This is tricky because is the money being charged to clubs for field hire going to be passed on to struggling families who want their children to play sports but find it too expensive and then their children end up on the streets, making trouble.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

More lanes on Hingaia and Linwood Roads, Karaka,Feasibility study into ferry services on Manukau Harbour

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath from bus stop on Kitchener Rd, Pukekohe, to Pukekohe Hospital,Footpath, kerb and channel on Ronald Avenue, Hill Road, Beach Road, Fleet Street in Glenbrook Beach,Pedestrian refuge in vicinity of Sandspit Rd on King Street, Waiuku

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Māra kai (food) gardens to compliment the Kai Franklin space and celebrate Pukekohe's food production story,New spaces for families and children (e.g. parent's space, play area)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Possibly willing, but I would need more information first

Tell us why

We have just had a water rates increase on our water bills with no improvement in water quality. The cost to replace hot water cylinders and appliances because of hard water could be outweiged with contribution to hard water treatment.

Other feedback

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

Sports clubs or organisations should contribute equally toward the sports fields owned by Council. They use the fields so why not contribute.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Tell us why

Karioitahi Beach

5. **Do you think we should re-consider how Karioitahi Beach is managed?**

Tell us why

Managing the cost of sports field maintenance

6. **Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?**

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

Because paying for membership of a club should help contribute to cost of equipment. What are fees for if not for this.

Transport - advocacy

7. **Which of the following transport projects are most important to you? (Select up to 2 options)**

Transport – local projects

8. **What do you think is most important to do in the next three years? (Select up to 3 options)**

Pukekohe Community Civic Hub priorities

9. **Which of the following would you like us to prioritise next? (Select up to 2 options)**

Water in Waiuku

10. **How willing would you be to contribute to the cost of a hardwater treatment system?**

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

Clubs that want to book fields should pay a deposit and anything that gets stuffed up from them using it gets fixed using the deposit. Make the deposit high enough that they make a profit fro any old equipment that needs replacing e.g. wear and tear.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Because if we have to rent it then that could be harder for people who don't have much money to spend.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

There can be others wanting to use the same field so its fair that the one who books it should have to pay so there is no conflict.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

I feel t should still be funded by the government however there should be an option to contribute or buy gear from the board.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

   Tell us why

I don't support removing some bins because if there are less bins they will overflow even more and some people don't care about the environment and try to over-stuff them, and rubbish will go everywhere.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

   Tell us why

I don't support this because if they were to remove bins, this will not prevent people from throwing their litter in the bin with fewer bins. I think they will be overflowing because the average person would likely not tqke their scraps/litter home. This idea is pointless in my opinion as the people will still put rubbish in bins despite what people say.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

   Tell us why

I don't because our beaches might get covered in rubbish and the beaches in New Zealand would end up dirty.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

   I think all consideration should be fair and reasonable to all groups

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Central government (national funding)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

No, I do not support this

Tell us why

Because when school bins were removed there was rubbish everywhere. Definitely need bins. Education is a factor too. It's not locals leaving rubbish its visitors who don't know better.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Not sure

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Whitford village bypass,More and bigger ferries on Pine Harbour ferry route (city to Beachlands)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath, kerb and channel on Karaka Road, Beachlands ,Footpath, kerb and channel on Third View Avenue, Beachlands, between Bell Road and Shelly Bay Road,Footpath, kerb and channel on Bell Road, Beachlands, between First View and Third View

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

I feel very much included in the Te Puru centre through Mahjong and community events because of this I would like to see Te Puru become a community partner so it keeps growing and continuing the great work like Matariki. Neighbours recognised this event and we all feel like family in this area..

Te Puru needs upgrades to the facilitis becuase the popularity and growth in numbers means bigger demand.

I have read online that funding is becoming limited. Te Puru needs funding to be increased not decreased, When I started Mahjong, numbers were low but these but they are three times bigger now. My neighbours children play Saturday sport the teams have increased. Te Puru supports such a large age group all equally important and they make everyone feel inclusive which is where young and old both feel welcome to be members.

Transport is vital. The school road to Maraetai to Te Puru is vital BUT it needs to be added to the agenda. A shuttle bus would also be great if large buses can't stop at the Te Puru Centre.

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Important for Te Puru to be a community Partner ro continue to provide opportunities for our community activities, educational recreation for our residents.

Built environment: It is a community hub that is rapidly reaching capacity with the growth in Beachlands south, we need money to meet the needs of our new residents. Te Puru is an aging facility and needs funding for upgrades and maintenance.

Te Puru provides great job opportunities for the young staff (20 staff) so more funding would be appreciated.

Maraetai school pathway to Te Puru means greater access and safer for young children young adults and seniors. Less congestion in the carpark.

A bus stop would be a further asset next (next to Te Puru) to enable independent travel to the site.

Operational funding - Te Puru provides an excellent resource for residents in the area. A great meeting place. Soclal education, health and well being. we would be lost without it. They need more operational funding.

Indoor Facilites - I enjoy pickle ball classes. They are well attended and a bonus to be local. Great community cohesiveness, connection and support.

I Would like to see Te Puru become a community partner, With incrased housing and therefore more people in the area, it would be great to have funding for its expansion. Please look into making a bus stop outside Te Puru available ASPA. As a retiree it is an important place for my weekly social needs.

5. Do you think we should re-consider how Karioitahi Beach is managed?

No

Tell us why

I personally dont think its that bad and many people enjoy driving along the beach.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Safety. Families, children/student frequent often. This would help keep the community safe.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

It gives people more opportunities.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   I don't know

   Tell us why

   I have been supported to run a group called Wooly Blessing at Waiuku Library. In 4yrs we have grown from 5 people to 40

   Currently - knitting for our local community through this is more Council than local board driven. We are a mix of old Waiuku + those new to the district

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Auckland Council (Auckland wide regional funding),Central government (national funding)

   Tell us why

Am ok with local board doing this as long as there are no more cost involved by way of extra tax etc

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

Having no rubbish bin is likely to create more rubblish been left behind - Not everyone has something to take rubbish away in. If this was removed, there would have to be a massive (costly) campaign to inform the general public

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

No

Tell us why

The rules are there, that is what needs to be managed

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

This is why we pay rate. It means fair access to all and not just those who can "afford" it. Children's sports etc would suffer most. Most groups have a lot of volunteer support, payment would be an extra burden.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Feasibility study into ferry services on Manukau Harbour

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pedestrian refuge in vicinity of Sandspit Rd on King Street, Waiuku

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next?
(Select up to 2 options)

Enhancing environmental outcomes and improving safety and accessibility in the carpark

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

This should come out of our rates, which are already extortionate. We seem to support every man, his dog except Waiuku for anything important

Not willing to contribute

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Yes we would like toilets down Hamilton Estate. As its a sports field. And people are doing 1, 2, 3 in the community garden.

BBQ - as living down in Hamilton Estate the fields are great to come down with the family and have a lovely afternoon so BBQ, rubbish bins and tables, shade sails and toilets would be fantastic.

Playgrounds - where is the shade over the playgrounds. Please think of little kids when building a playground. Maybe a little stop and go track for the little ones where the skate park is. And a little kids playground.

Recovering sports centre/Rugby Park. Hot and cold bath, spas, saunas/indoor pools. Swimming pools (diving board/pools), swimming lessons for kids. We need to create jobs for our beautiful country town. Lets put Waiuku on the map!

We need to think about 10 years ahead. We shouldn't have to spend time and money to other towns. We are Waiuku and we are a apart of Franklin.

Having a sports centre/water slides for the kids creates jobs for our community. Getting people off the winz benefit, young kids leaving school. We need jobs here in our own town. So let's create jobs. And keep our money in our town.

We would love a follow up on outcome. Lets see a brighter thriving community. For young and old. In our beactiful growing country town Waiuku. Contact details provided.

   Not quite on the right track

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research? (Select up to 2 options)**

   Central government (national funding)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

No

Tell us why

Changing Karioitahi beach road status is just making it hard - impossible for the large portion of the community who safely use it!

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

#906

To put public toilets and BBQ stations in at Hamilton Estate in Waiuku

Have Your Say on the Draft Franklin Local Board Plan 2026

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Yes, definitely on the right track

   Tell us why

   So long as it is all followed through as stated above. 'Power of the people'.

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Auckland Council (Auckland wide regional funding),Central government (national funding)

   Tell us why

   Little people already have enough struggles with money. Government need to look after it own people first.

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

Enough rubbish is already left on the beach as it is.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

There is always room for making a better compromise that works better for all.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Because as general public already pay high amount for general living and then on top high taxes and GST> Stop rinsing the little people. It's public land or council property. Its just like landlord and tenant. Landlord responsibility for what it costs. Tenant maintain.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Bus services from Clarks Beach/Waiau Pa, Kingseat and Karaka to link to the new Ngaakaroa train station in Drury (instead of Papakura via Hingaia Road),Feasibility study into ferry services on Manukau Harbour

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pedestrian refuge in vicinity of Sandspit Rd on King Street, Waiuku

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Māra kai (food) gardens to compliment the Kai Franklin space and celebrate Pukekohe's food production story

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

The water should already be clean, fresh, drinkable clean fresh water which comes free from our earth should already be supplied to the people of this country. Government pockets lots of money and you want us to pay to have what we deserve to already have.

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Park - with shade sails, interactive playground. Public BBQ and seating and shelter, Public pizza oven.

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   No, we need a different approach

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   I don't know

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

Tell us why

It's unnecessary as, there is already a problem. Need more rubbish bins

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

No

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Public toilets at Hamilton Estate, also BBQ areas and maybe hotpools

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

   Tell us why

If you remove the bins people will leave their rubbish on the beach and native birds and wildlife will be in danger. If people put their rubbish in their care and then throw it away you will have to empty their rubbish bins more often.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Yes, I support this

   Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Should not need to obtain a permit to collect seafood.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

A “Kai Franklin space” re-purposing the small hall as a bookable commercial kitchen and food innovation space,Māra kai (food) gardens to compliment the Kai Franklin space and celebrate Pukekohe’s food production story

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Public toilet (at) Hamilton Estate Reserve. People have been observed urinating/faeces in our kai community gardens adjacent to Hamilton Estate Reserve. Barbecue area/facility and also a Pizza Oven would be well utilised specially with the gardens fresh ingredients to contribute to this and promoting quality family time and healthy living on a budget during these hard financial times. To add to the Whiteside Pools heated underwater panels, swimming lessons for pre-schoolers. Assist with sports injuries, shift workers, elderly Hydrowater programmes. Aquarobics providing job openings. Sauna/Steamhouse. promotes health and wellbeing, employment, save travelling putting money back into the Waiuku Community. We have a swimming pool already but these added will be great and help locals save money travelling to Pukekohe and Papakura.

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

   Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Māra kai (food) gardens to compliment the Kai Franklin space and celebrate Pukekohe's food production story,Enhancing environmental outcomes and improving safety and accessibility in the carpark

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

#952

Carpark, toilet, BBQs x 2 for Hamilton Estate Reserve. I love taking y family there but parking is a major problem and at times unsafe. Most reserves have access to a toilet block at the reserve but there is none at Hamilton Estate Reserve.

Need a carpark down at Hamilton Estate Reserve and access to a public toilet. Heated swiming pool. It isa waste having a pool that only opens at summer time. Be nice to have a BBQ area at the community hall at Hamilton Estate like at Sandspit beach or maybe a pizza oven or both. would be great.

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

   Tell us why

If we remove rubbish bins from beaches then there will be more pollution in the ocean?

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

No

Tell us why

The beach is well managed and doesn't need anything else.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

I think that the NZ government should pay for all of the sports equipment and they can also do some fundraisers.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Yes, I support this

   Tell us why

New Zealand is beautiful but if we litter we destroy that beauty.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

People safety requires common sense if you cant hear, see, or any other physical disabilities so you need to be supervised.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Public places should be maintained by the people.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Yes, I support this

   Tell us why

This might encourage some people to leave their rubbish instead of taking it home, which will make littering worse.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

Because they're using the Auckland Council's property so they should be able to fund their own equipment.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Not sure

   Tell us why

Because it would be good to not have rubbish bins around beaches. It would also be good to have some rubbish bins for those who may not be able to take their rubbish to a dump or whatever.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Not sure

Tell us why

Because the beach is clean but constantly falling away so may be it would be good to reconsider.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Because otherwise club fees would go up and thats expensive because they already cost a lot.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

   Tell us why

Because all the rubbish will end up it the sea.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Because it is good for people to know.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

Because they are the ones using them.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

   Tell us why

Well yes, the bins are getting overflowed but, thats because people put rubbish in the bins! Get bigger bins maybe and more. Sadly without bins the litter would most likely increase since bins around give people motivation to not litter.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Yes, I support this

   Tell us why

Because it reduces of the overflowing in our trash cans and maybe how some litter could fall in the ocean which is dangerous for our sea animals and difficult to pick up.

Karioitahi Beach

5. **Do you think we should re-consider how Karioitahi Beach is managed?**

Tell us why

Managing the cost of sports field maintenance

6. **Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?**

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Not sure

Tell us why

I don't understand

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

I believe democracy is a massive part of NZ, and if we conduct a vote on this serious matter, it would be wonderful. Personally, I disagree with the fact 'Karioitahi beach is classified as a road', because it could have a serious impact on kids who play on the beach.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Karioitahi beach is a sense of freedom for some, but loud and crowded for other. Personally I love Karioitahi, we sometimes go and light a fire and eat dinner and roast marshmellows, but sometimes many motorbikes will zoom past - disturbing our peace. So I think that people on motorbikes (or if others with fast cars) should be respectful towards others and maybe be permitted a certain time or sport to drive at Karioitahi.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Cars and other vehicles, as I've seen, seemingly destroy the environment of the beach. They are also disruptive, especially to wildlife. Also, drivers on the beach don';t exactly care about others in the area. They speed. I think animals though are fine (e.g. horses and dogs) as they don't cause much damage.

Managing the cost of sports field maintenance

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   I don't know

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

Tell us why

Because some selfish people will not take their rubbish home and leave it laying around.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

South-east link bus services (Papakura train station/Clevedon/Pine Harbour Ferry/Botany),More and bigger ferries on Pine Harbour ferry route (city to Beachlands)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath, kerb and channel on Karaka Road, Beachlands ,Footpath, kerb and channel on Bell Road, Beachlands, between First View and Third View,Footpath on Beachlands Road (Section 2 – 212m in front of Beachlands Domain)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

We live in a community where the facilities are used extensively and often, however, they (Te Puru Centre in particular) cannot get enough funding to keep the hall maintained, let alone provide new and suitable equipment to carry out the main purpose of the venue. Surely the health and wellbeing of a community is vital to everyone and to the benefit of our local community. Please consider the positive outcomes if extra funding could be provided, through the operational funding budget.

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

   Tell us why

having rubbish bins at beaches is absolutely crucial - so much rubbish will litter the environment if we don't have access to bins. People tend to leave rubbish behind if bins are not available.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

I think Council funding for sports fields/assets is a basic community service encouraging community involvement without incurring costs that prevent active participation.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

South-east link bus services (Papakura train station/Clevedon/Pine Harbour Ferry/Botany),More and bigger ferries on Pine Harbour ferry route (city to Beachlands)

See attached pages. Operational funding to Te Puru to manage is absolutely necessary to successfully run this major worthwhile facility.

FEEDBACK FOR DRAFT PLAN 2026
BEACHLANDS / MARAETAI AREA
In addition to the 'Have Your Say Draft Plan Franklin 2026'

Prepared by:

[redacted]

Community Partnership

1. I believe the Te Puru Community Centre (TeP) should become a full Community Partner, able to further/continue/expand supporting all local residents and activities eg sport, art, educational, training, social, health, leadership, events etc.
2. TeP has all the local knowledge and skills to determine needs/support for targeted groups, events etc. TeP is much more than a community facility, it is a hub where young and old, locals and visitors, can come together to learn, support, connect and be active. A focal point for our rapidly growing area that needs to expand its infrastructure to keep up with demand and growth in population.

Operational Grant

1. An Operational Grant is desperately needed/increased to upgrade the facilities and improve the regular maintenance required. Often there are safety issues eg roof leaks onto the stadium floor.

Community

1. TeP is the only indoor sport and recreation in the area and has a long local history of community involvement. It's a building that was first proposed/fundraised/started/partly completed by locals - (with later Council/ASB/Govt financial support). It is crucial to the pride, cohesiveness and well-being of the area, to continue/increase this investment in its expansion and maintenance. It makes good financial sense to support an already established, successful facility where everyone can feel included.
2. The new changes at Beachlands Memorial Hall have reduced some of the local programmes that operate there now, meaning TeP is the only major local provider of services available – this will stretch their operating costs and ongoing maintenance.

Economic Development

TeP is in a great position to expand its education and employment courses eg sport, focus groups, volunteering, developing employment skills re coaching, youth leadership, working

with children in School Holiday programmes etc. It also encourages employment in the area.

Transport

1. Having excellent recreation and community programmes available locally is an absolute necessity – it is too far away from other suburbs and services. Travel and cost would be a major barrier and limit participation.
2. I support the building of a pathway from Maraetai School Rd to Te Puru Park. It would encourage adults and children to walk safely to the centre and reduce traffic congestion in the parking areas.
3. I also strongly support the reduction of the speed limit around Te Puru Park and the creation of a bus stop on the road, so 'oldies' and children can access the centre independently without driving.
4. Whitford By-Pass. I support this plan especially with a double lane for future growth. It would be a good option for when the Clevedon-Maraetai Coast Rd is closed.

Natural Environment

I support having a water fountain installed at Te Puru Park, especially for the sporting groups and events that use the park.

Have Your Say on the Draft Franklin Local Board Plan 2026

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

   There should be an overarching plan for the whole of NZ. If communities are advised of plants/flora/fauna that need extra protection in their area they can then help implement that process.

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

Not sure

Tell us why

I would advocate 'pack it in- pack it out' but living near a beach I constantly see rubbish left behind! Education is needed first.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

We need to protect what we have.

Love the horses on the beach - vehicles not so much.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Tell us why

Perhaps senior and professional clubs could contribute. Junior/school age shoudl stay free - lets encourage more play.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

South-east link bus services (Papakura train station/Clevedon/Pine Harbour Ferry/Botany),More and bigger ferries on Pine Harbour ferry route (city to Beachlands)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath, kerb and channel on Karaka Road, Beachlands ,Footpath, kerb and channel on Third View Avenue, Beachlands, between Bell Road and Shelly Bay Road,Footpath, kerb and channel on Bell Road, Beachlands, between First View and Third View

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

A bus shelter at Platts-Mills park adjacent to creek and coast guards. There is no protection for college students and other patrons in bad weather or blazing sun in summer.

A bus stop at Te Puru.

I consider all options have value!

Please fund Te Puru.

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Auckland Council (Auckland wide regional funding)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

Tell us why

Increase in litter harms wildlife, increase illegal dumping and burdens the community.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Road status should be changed. Safety issues for pedestrians sharing space with vehicles. environmental erosion - damages dune and ecosystem and disrupts nesting birds. Emergency response strain.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

More and bigger ferries on Pine Harbour ferry route (city to Beachlands)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Not part of Waiuku community.

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Upgrade the Maraetai beachfront to reduce regular flooding. Improve stormwater management and drainage, raise and strengthen sections of the beachfront to improve resilience, provide safe accessible access to the beach. Improve pedestrian safety. Wonderful for all age groups. Friendships, exercise classes keeping us fit. We are very proud of Te Puru.

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   No, not really

   Tell us why

   Needs more effort and funding.

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Not quite on the right track

   Tell us why

   Need more effort in all areas and funding

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Auckland Council (Auckland wide regional funding),Central government (national funding)

   Tell us why

   We pay enough rates that a portion should be used.

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

If you live in these areas you would know how important rubbish bins are. This service should be covered by our rates in our area. Taking them away is a cop out.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

We pay rates for a reason and this is one of them.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Whitford village bypass

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath, kerb and channel on Third View Avenue, Beachlands, between Bell Road and Shelly Bay Road,Footpath, kerb and channel on Bell Road, Beachlands, between First View and Third View,Footpath on Beachlands Road (Section 2 – 212m in front of Beachlands Domain)

Te Puru provides so much to keep all ages active. I believe Te Puru would be a valuable communtiy partner to continue providing sports and education recreation. Te Puru is a

community hub that is actually reaching capacity. With all the growth in Beachlands South, we need funding to meet the needs of our growing community especially being the only indoor facility. It also provides job opportunities, particularly for the younger ones in the Beachlands/Maraetai area so more funding would be appreciated.

In regards to a transport option a footpath option from Maraetai School Road to Te Puru Park and also a bus stop would be ideal. Te Puru means so much for everybody in the surrounding community so I would personally like to see Te Puru receive not just support but operational funding in addition to what they receive. I enjoy the exercise class so any funding to improve the indoor space as the class has grown so much would also be appreciated.

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

   Te Puru is essential to the Maraetai/Beachlands area, caters for all activities from preschool to retirees.

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

   Te Puru is not only essential for fitness in all ages but a great place to meet and make lasting relationships.

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Auckland Council (Auckland wide regional funding)

   Tell us why

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

By taking rubbish bins away will not necessarily make people take their rubbish home. I have seen it left behind - becomes a health hazard.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Our sporting facilities will become untenable to a lot of clubs as financially they are already struggling to keep their heads above water.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Te Puru Community Centre is crucial to the Maraetai/Beachlands community. It unite all ages in friendship and fitness. With out community growing at a fast rate, the centre needs to keep up with the demand.

On a final note the Beachlands Hall (Wakelin Rd) needs to remain the same. Used by many organisations. Would be a shame to see any alterations take place.

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Yes, definitely on the right track

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   The local board (local funding),Auckland Council (Auckland wide regional funding)

   Tell us why

   Best to have local board and AC funding as they have local knowledge and feedback. Who can held to account in elections!

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

No, I do not support this

Tell us why

Franklins beaches service many suburbs who otherwise dont have access to local beaches, unlike us fortunate residents!! Only going to increase. Look at the big picture, spend the money and have clean attractive beaches we can be proud of!!

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Vehicles should be on public beaches. Service vehicles only.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Anything to encourage youth to participate in healthy exercise and sport. Get them off their devices!!

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Whitford village bypass,More and bigger ferries on Pine Harbour ferry route (city to Beachlands)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath, kerb and channel on Bell Road, Beachlands, between First View and Third View,Footpath on Beachlands Road (Section 1 - 1340m both sides/Sunkist Bay Road),Footpath on Beachlands Road (Section 2 – 212m in front of Beachlands Domain)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, definitely

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Yes, definitely on the right track

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Central government (national funding)

   Tell us why

   An study should be done on a national basis and shared.

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

No, I do not support this

Tell us why

People will only leave or hide their rubbish.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Young people ie children should be encouraged to engaged in sport. Money, 'affordability' should not be a prohibiting factor.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Whitford village bypass

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath, kerb and channel on Karaka Road, Beachlands

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Beachland bore water has the same issues.

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Development of productive land should be halted. Rate on such land should be adjusted to allow continual production.

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   The local board (local funding),Auckland Council (Auckland wide regional funding)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

Tell us why

In summer excess rubbish is left by bins along Maraetai Beach. I think we will have rubbish just left if bins were removed.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Even if costs are passed on directly to sporting organisations, this will definitely be passed onto their members. This may be the difference between sport being unaffordable for some families.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Whitford village bypass,More and bigger ferries on Pine Harbour ferry route (city to Beachlands)

Transport – local projects

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

As a local resident, I believe Te Puru Community Centre is one of our community's most valuable assets. With our population growing rapidly, the current ageing facility is no longer fit for purpose and cannot operate on a financially sustainable basis without ongoing operational funding. I encourage the Franklin Local Board to support Te Puru's Sport and Recreation Facilities Investment Fund application so planning can begin for a modern, future-based community facility that meets the needs of our growing community. I also ask the Board to advocate for the continuation and increase of Auckland Council's sports and recreation facilities operating grant beyond 2027 as this funding is essential to maintaining affordable community access while we work towards a long-term, sustainable solution. Finally, I support investment in community-led initiatives and would like to see Te Puru Community Centre included as a key community partner in delivering local programmes and outcomes for our growing community.

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

   The plan is a good start, but I would like to see greater support for community health and wellbeing.

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

   I support the proposed community priorities and encourage continued investment in the community led sports and recreation programmes.

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Auckland Council (Auckland wide regional funding),Central government (national funding)

   Tell us why

Biodiversity benefits everyone, so it should be funded regionally and nationally rather than from limited local board budget.

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

Yes, I support this

Tell us why

It encouraged people to not litter

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Not sure

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

This would reduce pressure on local funding while keeping community facilities well maintained.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

New spaces for families and children (e.g. parent's space, play area),Enhancing environmental outcomes and improving safety and accessibility in the carpark

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

This is outside my local area, so I believe the decision should be made by the community directly affected.

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

I would like to see greater support for community health and wellbeing programmes. Te Puru Community Centre provides valuable indoor program that help keep our community active, connected and build independence especially our old residents. Continued investment in these programmes will support the growing needs of our community.

11. Do you have any other feedback on the draft Franklin local board plan?

I'm an 81 year old, who lives just a short distance from Te Puru stadium. This place is a life lineand I can comfortably walk to the three exercise classes each week. I can also play mahjong and rummicals there as well as portake in social engagements. The stadium is a very large building to maintain and it would be advantageous if they could receive more funding for maintenance and repairs. For people unable to drive a bus top at the entrance to Te Puru or close by would be such a help for children also who attend classes and holiday programmes. I improve you to listen to these suggestions.

Most Important Focus Area: Community

Why is it Important: As a retiree, I appreciate close access to facilities like shops, a library, community halls, and medical facilities. There are many in this community that are unable/unwilling to drive further afield especially on country roads and at night.

Second Focus Area: Natural Environment

Why is it Important: Without good water quality we are vulnerable to disease and illness and very few can afford to purchase water on a regular basis. We choose to live in this area because of its green surroundings and beach access. We need good pest control to allow people to enjoy the natural surroundings and get exercise in safety.

Other Feedback: I am against the removal of rubbish bins near our beaches. This does not work without extensive publicity, education and enforcement. This may make the books look good initially, but it costs more in the long run with extra clean ups in the area as people discard rubbish in other parts of the town. This is especially important in Beachlands-Maraetai which attracts thousands of visitors from other parts of Auckland who have no incentive to look after these areas as they do not live here. Please continue to expand and fund recreation areas for the growing population. We need more community spaces for small group meetings and activities. A purpose-built Community hub in Beachlands would be great where people can access information and hire services such as a sewing machine, 3D printer, ordinary printer etc. Develop and support more small businesses to provide local employment, less commuters. Develop more tourism to the Coast.

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Important focus areas: Economic Development,Transport

Most Important Focus Area: Economic development

Why is it Important: Local business and employment opportunities particularly for our youth

Second Focus Area: Transport

Why is it Important: Enable our country dwellers to more readily access work, Education and services without having to move from the area

Other Feedback: Transport or ferry option between Clarks Beach and Onehunga would further open up access to employment and work opportunities without further burdening the 1 lane drive to southern motorway.

Really like the support behind Franklin Careers expo for our young people. Could this be broadened to ensure our youth have a wider option of career paths within the district. Is there an option for a Technical College in our district being considered?

Designated agricultural zones that cannot be sold or developed for high intensity housing to realise the full potential of Franklins produce and food industry.

I believe the idea of removing rubbish bins from recreational areas particularly those that are known to have high visitation from outside of Franklin is not advantageous. Keep them to protect our natural areas.

As population continues to grow some of the needed transport projects need a contingency plan more evident. Ie Hingaia bridge much needed but what is the plan for alternatives if this project proceeds? No clear diversion or alternative route for those coming from Waiuku/clarks Beach/Kingseat etc.

Homelessness continues to be a growing concern in our area, consideration of safe areas or spaces for those sleeping rough or in cars etc while ensuring access to basic facilities is not mentioned in the plan.

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Franklin

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

   There is other work necessary in this area

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research? (Select up to 2 options)**

   Auckland Council (Auckland wide regional funding)

   Tell us why

   If it is Auckland wide, then all should fund

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

Not sure

Tell us why

People may just leave their rubbish at the beach hoping the ocean washes it away. I like bins being available. Is it possible to get larger bins and empty less frequently and less costly

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Yes reconsider management of this beach.Is it possible to limit vehicle access to a specific part of the beach. Eg. For launching boats only. Etc

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

Do not push any more costs onto ratepayers. The increases in rates are though

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Pukekohe arterial roads,Mill Road improvements (Papakura to Ramarama)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath on Monument Rd, Clevedon to connect showgrounds with existing footpath network,Footpath from bus stop on Kitchener Rd, Pukekohe, to Pukekohe Hospital,Improvements to Ward St footpath in vicinity of Pukekohe Cemetery to align with the Pukekohe Cemetery Memorial project

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Enhancing rooms used by the RSA so they can also be used for other appropriate groups too,New quiet rooms and a collaborative space within the library

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

If a treatment system is put in place, it should be paid for by a targeted rate. Ie you benefit, you pay. It is possible for households to purchase a water softener and have it installed

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Arterial roads are essential to Pukekohe to reduce traffic in the inner area; allow trucks, tankers, etc to bypass the urban/town area, which will reduce transport costs and make the township more people friendly

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Central government (national funding)

   Tell us why

   Small community. Government should help

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

I think it's important to have some car use for people using it for activities. There should be policing or something more perm though. I've nearly been hit by cars so many times. Doing skids etc. maybe give cars a diff entrance. Or rocks added beach so cars can't drive where people sit.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

I don’t know

Tell us why

Mix of funding

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Feasibility study into ferry services on Manukau Harbour

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pedestrian crossing at intersection of Jutland Road, Princes Street West, and Taikaranga St, Pukekohe,Pedestrian refuge in vicinity of Sandspit Rd on King Street, Waiuku

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

New spaces for families and children (e.g. parent’s space, play area),Enhancing environmental outcomes and improving safety and accessibility in the carpark

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Possibly willing, but I would need more information first

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Need more public transport. So many houses going in and traffic getting beyond bad

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

   Tell us why

Because people will litter more.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   No, we need a different approach

   Tell us why

   Help out the non-profitable organisations like what Grace and Helen do at the community hall down at the Hamilton Estate Reserve.

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

No, I do not support this

Tell us why

I aways encourage my family and mates to clean up after themselves. Leave it how you found it - Tidy and clean.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Why do we need to apply for road access to the beach. We are only going to gather kai not speedway racing.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Least these fullas can do.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Māra kai (food) gardens to compliment the Kai Franklin space and celebrate Pukekohe's food production story,Enhancing environmental outcomes and improving safety and accessibility in the carpark

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Carpark at the Hamilton Estate Reserve be safer for everybody. There is no carpark - plenty of room. Hamilton Estate Reserve community all promotes and supports family quality time. The put on a lot of events so come on boss, a carpark toilet, BBQs, pizza ovens would be awesome.

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

How about helping at Hamilton Estate Reserve. Council, what about a decent or actually a carpark there? This little community hall does a lot of great things and is the first to help everybody. Would be great to see Auckland Council show them what a great job they do. give funding to this well deserved organisation.

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Marama Hou Ministries is a big help to all walks in our community based down at the community hall at Hamilton Estate Reserve where there is no carpark,yet play a big part in our community. A place for the whole family with a garden full of vegetables that anybody can help themselves. They encourage family quality time. A BBQ would be an excellent addition and/or a pizza oven. A public toilet as they only have a toilet in the building. There is a park and kids play rugby league there. Help them.

Have Your Say on the Draft Franklin Local Board Plan 2026

Organisation: N/A

Local Board: I don't know

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   No, not really

   Tell us why

   Waiuku community would benefit if there was a toilet at the Hamilton Estate Reserve. They have a community garden and is open to all. They have insufficient parking which could really do with this.

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Not quite on the right track

   Tell us why

   Community centre down at Hamilton Estate Reserve does so much for our town but lack of funding holds them back. They give so much support to everybody and have family days quite often. Would be great to have help there - a pizza oven - all ingredients are located in their gardens. Carparks a real problem and no toilet at a reserve???

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

Tell us why

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

We are trying to get people to take care of the environment. No rubbish bins promotes littering. We would like to keep 'be a tidy kiwi' but no bins at a beach - what are you thinking?

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

To set my contiki I require road access on the beach permit. It's a beach, not a thoroughfare.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pedestrian refuge in vicinity of Sandspit Rd on King Street, Waiuku

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Māra kai (food) gardens to compliment the Kai Franklin space and celebrate Pukekohe's food production story,Enhancing environmental outcomes and improving safety and accessibility in the carpark

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Yes, Whiteside pool in Waiuku would be so much better if heated. Wate of a pool when it is only opened in summer. Heated pool would benefit the whole community from young - elderly. A covered pool would be even better where it could be controlled much better, creating jobs, healing for sports injuries and my grandparents. fitness programmes, leaving to swim and being covered would be better maintained.

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Hamilton Estate Reserve needs to have a carpark. At the moment we park on the road which is particularly busy as there is no carpark at all and is a reserve where there is also a community garden. Very unsafe. A public would be great as I have witnessed a couple of times people urinating around by the garden area due to no toilet.

Māra kai (food) gardens to compliment the Kai Franklin space and celebrate Pukekohe's food production story,Enhancing environmental outcomes and improving safety and accessibility in the carpark

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Whiteside pool heated swimming, that way pool can be used all year round. Swimming lessons, acquaerobics, sports injuries, sauna, steam house under cover there too would be well maintained, more controlled, provide employment opportunities for mana whenua for our iwi.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   N/A

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

   Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Should not need a road acdess permit, case we are locals.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Bus services from Clarks Beach/Waiau Pa, Kingseat and Karaka to link to the new Ngaakaroa train station in Drury (instead of Papakura via Hingaia Road),Feasibility study into ferry services on Manukau Harbour

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath, kerb and channel on Ronald Avenue, Hill Road, Beach Road, Fleet Street in Glenbrook Beach,Pedestrian refuge in vicinity of Sandspit Rd on King Street, Waiuku

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Māra kai (food) gardens to compliment the Kai Franklin space and celebrate Pukekohe's food production story,Enhancing environmental outcomes and improving safety and accessibility in the carpark

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Carpark needed down by the Hamilton Estate Reserve. Public toilet also needed at the Hamiton Estate Reserve. Heated, covered pool, saves travelling to Pukekohe or Papakura. This will help teach our children in Waiuku how to swim, water safety, help with sports injuries, the elderly, water acquaerobics. Having this heated and covered would create jobs for locals in the Waiuku community, health and wellbeing, therapeutic and fitness.

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, definitely

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Tell us why

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

   Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

No

Tell us why

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Feasibility study into ferry services on Manukau Harbour

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

A “Kai Franklin space” re-purposing the small hall as a bookable commercial kitchen and food innovation space,Māra kai (food) gardens to compliment the Kai Franklin space and celebrate Pukekohe’s food production story

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

We need a public toilet at Hamilton Estate Park and a BBQ and pizza oven. We need a indoor heated pools and rec centre in Waiuku. This will create jobs and better health options.

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

There has been steady progress to kerb & channel and add footpaths progressively in the Beachlands / Maraetai area.

However there is one footpath that we would like to see prioritised which is the footpath from the Northern end of Campbell Rd to Omana Beach Rd.

Currently the Campbell Rd Rd footpath simply ends and pedestrians, walkers, families, kids on bikes, Mother's with prams, elderly, need to walk onto Omana Beach Rd to get down to the Pohutukawa Coastal Walkway.

Omana Beach Rd is a relatively busy road in weekends, holidays and summer season with vehicles exiting Maraetai Drive at 60 kph and turning into Omana Beach Rd to either turn left up to Omana Regional Park or continue ahead around the coastal road to Omana Esplanade picnic area, playground and boat launching ramp. So this short section of Omana Beach Rd is busy when people are also trying to navigate their way to the coastal walkway. From a safety standpoint it's not ideal to say the least.

Could this area please be given some priority in future footpath planning.

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Papakura

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

   Building strong community connections through arts, sport, recreation, culture, and local history helps create a sense of belonging. Supporting community organisations is also important, particularly those that provide opportunities for children, young people, and new residents to become involved. However there is way to much internal conflict going on for everyone to come together as one.

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Central government (national funding),Other, please specify:

   Tell us why

Local funding should focus on practical environmental improvements such as planting trees, restoring waterways, and controlling pests. Biodiversity research is valuable but is generally better funded through national agencies, universities, or environmental organisations with dedicated expertise.

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

It is worth reviewing how the beach is managed to balance public access, safety, and environmental protection. Many families use the beach, and ensuring children and pedestrians can safely enjoy it alongside vehicles should be carefully considered. Any changes should involve thorough community consultation.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

However only - A reasonable contribution from clubs that regularly book fields could help maintain facilities without placing the full cost on ratepayers. Any fees should be affordable and not discourage participation, especially for junior and community sport.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Improvements to intersection of State Highway 22 and Blackbridge Road, Karaka,Mill Road improvements (Papakura to Ramarama)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

New spaces for families and children (e.g. parent's space, play area),New quiet rooms and a collaborative space within the library

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Possibly willing, but I would need more information first

Tell us why

If the treatment system provides long-term benefits for residents by reducing damage to appliances and improving water quality, I would consider contributing. However, there should be clear information about the costs, expected benefits, and whether there are more affordable alternatives.

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Franklin is growing quickly, and planning needs to keep up with that growth. Continued investment in parks, playgrounds, libraries, community facilities, transport, and environmental protection is important to maintain the quality of life that makes Franklin such a great place for families. I also encourage the board to continue supporting initiatives that strengthen community connections and create safe, welcoming spaces for children and young people. Iregularly use local parks, libraries, playgrounds, and community spaces with children, giving you a practical perspective on how valuable these facilities are for early learning and community wellbeing. On Question 1 I want to add - I think the plan covers many of the priorities that matter to Franklin's growing communities. As more families move into the area, it's important that community spaces, recreation, environmental protection, and transport keep pace with growth. I would also like to see continued investment in services and facilities that support young families and children.

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

   No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

A beach should be a safe and environmentally natural place for everyone to enjoy. Motor vehicle thrashing around, spilling oil and threatening beach goers should not be allowed. It's an unnecessary hobby that causes concern for families, pets and wildlife. Those who drive on the beach do not do so to "follow the law" they do it because it is not policed and take advantage.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Everyone uses the sports fields.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Pukekohe arterial roads,Mill Road improvements (Papakura to Ramarama)

Organisation: N/A

Local Board: Papakura

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   No, not really

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Not quite on the right track

   Tell us why

   Community is a group of people who share something in common but maintain their individuality. That is those living in the franklin community share being franklinites and coming together to make it the best place to live. Sharing respect for each other and each other's belief's, financial status, education and religion. This needs to be a united front and not give one group more say due to their background or history, or potential gains.

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Central government (national funding),Other, please specify:

   Tell us why

It's a nationwide thing so needs the backing from the Govt alongside specialist companies that can focus on it. It is a want for a community but when the economy is tight and people are hurting, there are more important things that local board should be considering funding.

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

It definitely is a road and should remain that way. Where we are failing is at the road entrance where the signage isn't adequate and a bunch of muppets do dumb stuff. It should be 1.5km either side of entrance that the speed limit is 15kph and if there are people walking/swimming etc further down the beach it should be 30kpm driving past them.

Any reckless driving or dumping of rubbish should be fined at a minimum $500. We need to encourage everyone to respect the beach and enforce it but not restrict the right for those to access it with their vehicles to go surfing, fishing, etc.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Rates are already high. Our spend should focus on roading, infrastructure, waste and recreation (parks and sportsgrounds). Everything else is can be scrapped. a

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Improvements to intersection of State Highway 22 and Blackbridge Road, Karaka,Mill Road improvements (Papakura to Ramarama)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath from bus stop on Kitchener Rd, Pukekohe, to Pukekohe Hospital,Pedestrian safety improvement at intersection of Valley Rd and East Street, Pukekohe

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Enhancing rooms used by the RSA so they can also be used for other appropriate groups too,A “Kai Franklin space” re-purposing the small hall as a bookable commercial kitchen and food innovation space

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Water should never have been privatized and should be funded by rates and nothing else. Just because the previous generation wanted to line their back pockets, doesn't mean the future generations should be paying for their mistakes.

11. Do you have any other feedback on the draft Franklin local board plan?

We have a few ideas around our area - Auranga.

- We would like to see lighting along Victoria St in front of the football club. Someone was hit there the other day and it was totally needless.

- We would also like to see Orange Traffic bollards down the middle of Victoria St as drivers are crossing into oncoming traffic just to avoid speed bumps, causing head on collisions.

- We would like to see a walking/cycling bridge crossing over the estuary from Tributary Parade to the football club, it would open up access for all the young families to enjoy the football grounds. We have attached a markup below. I have also added a concrete path that circles the perimeter. This would be great for walking!

- It would also be great if there was a way to get from Auranga to Karaka. A bridge crossing over from Kahui Parade to a path on the other side leading to Parkmore Drive or Clover Avenue.

Thank you

In Auranga:

Extend bus number 376 to go along Bremner Road to allow school kids to have this option if they miss the school bus. Currently if they are waiting for a school bus along Bremner Rd and miss it, they have to walk all the way to Auranga Drive.

Well lit playgrounds and walkways at Auranga to deter loiterring and tagging.

Local shops inside the subdivision.

Franklin board to limit approval of townhouses, duplexes and government housing within Auranga.

Immediate collection of illegal dumping being reported.

Standardise carpark requirements in new builds and include street parking on future plans.

Fast track developments like addition of secondary schools, supermarkets, shopping centres etc.

Possibility of direct on/off ramp from bremner/ngakoroa bridge to ease congestion on victoria st

Safer walkway along jesmond road

Regular checks on illegally parked cars on footpath blocking the walkway.

More police patrolling specially during school holidays when crime rates seem to be more.

Bring in lime scooter/beam again.

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Papakura

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

   I support the focus on empowering community organisations, iwi and volunteers to lead local initiatives. Communities are often best placed to understand and respond to local needs, and community-led delivery can often provide better value for money than creating additional council-led services or facilities.

   I also support continued partnership approaches with neighbouring local boards where facilities, programmes or services can be shared rather than duplicated.

   My main concern is that the plan places significant emphasis on events and activities as a way of building community connection. While these have value, I believe stronger and more lasting connections are often created through volunteering, environmental restoration projects, sports participation, emergency preparedness initiatives and other activities where people work together towards a shared outcome.

I would also encourage the board to maintain a strong focus on making best use of existing assets before creating new ones. Given the financial pressures facing Auckland, investment should prioritise multi-purpose facilities, community partnerships and practical solutions that are affordable to operate and maintain over the long term.

Natural environment

3. Who do you think should fund biodiversity research? (Select up to 2 options)

Auckland Council (Auckland wide regional funding),Central government (national funding)

Tell us why

Biodiversity research provides benefits well beyond a single local board area and should therefore primarily be funded at a regional or national level. Good information is essential for making informed investment decisions and ensuring environmental funding is targeted where it will achieve the greatest outcomes.

Local board funding is limited and should generally be focused on delivering practical, on-the-ground outcomes such as pest control, restoration activities, water quality improvements and community-led environmental projects. Research has value, but it should not come at the expense of local environmental action.

Where local research is required, priority should be given to projects that directly inform management decisions, support catchment planning, reduce future costs, or improve environmental resilience.

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

Not sure

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Karioitahi Beach is a unique community asset and vehicle access is an important part of how many people responsibly enjoy the beach. I would not support measures that effectively remove vehicle access for responsible users, as this would represent a significant loss of recreational opportunity and local identity.

However, I do support reviewing how the beach is managed to address safety concerns, environmental impacts and the behaviour of a small minority of users whose actions create risks for others and damage the reputation of responsible beach users.

Before considering restrictions on access, I would encourage the board to investigate practical management options such as improved signage, designated driving areas, seasonal controls during sensitive periods, stronger enforcement of existing rules, community-led stewardship programmes and partnerships with local volunteer groups.

The goal should be to manage behaviour rather than remove access. Responsible users should not lose access because of the actions of a few individuals.

Similar to surf lifesaving models, there may be an opportunity to support local volunteer beach guardians or stewardship groups who can help educate users, promote safe behaviour and act as the eyes and ears of the community. This would need a level of safety management for those participating in this and possibly some behavior management and anger management training as I am sure the situations could escalate quickly.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

I support investigating fair contributions from organised users of publicly funded sports facilities. Ratepayers already contribute significantly towards the provision, maintenance and renewal of these assets, and it is reasonable that organisations receiving exclusive or structured use of facilities contribute towards the costs associated with that use.

Any charging approach should be proportionate and recognise the important role that sports clubs play in supporting community wellbeing, youth development and volunteer participation. The goal should not be to create barriers to participation, but to ensure facilities remain financially sustainable and well maintained.

I would support a user-contribution model where organised users contribute towards field maintenance and code-specific assets, while casual public access remains available and affordable.

Given ongoing pressure on local board budgets, I believe it is reasonable to explore approaches that reduce the burden on general ratepayers while preserving strong community sporting opportunities.

Transport - advocacy

7. Which of the following transport projects are most important to you?

(Select up to 2 options)

South-east link bus services (Papakura train station/Clevedon/Pine Harbour Ferry/Botany),Bus services from Clarks Beach/Waiau Pa, Kingseat and Karaka to link to the new Ngaakaroa train station in Drury (instead of Papakura via Hingaia Road)

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next?
(Select up to 2 options)

Enhancing rooms used by the RSA so they can also be used for other appropriate groups too,Enhancing environmental outcomes and improving safety and accessibility in the carpark

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

As I am a homeowner in a neighbouring local board area rather than a Waiuku resident, I do not feel I am best placed to determine whether local residents should contribute towards the cost of this project. My thoughts, for what they are worth, would be that before any funding decision is made, I think there should be a clear understanding of:

the scale and extent of the problem

the ongoing costs and benefits of treatment

who receives the primary benefit

whether alternative solutions exist

how costs would be allocated.

In principle, I generally support beneficiary-pays approaches where a specific community receives a direct and measurable benefit, provided the costs and benefits are transparent and represent good value for money. I would also expect Watercare and other relevant agencies to fully assess the issue before seeking additional contributions from residents or ratepayers.

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

As a homeowner in a neighbouring local board area, I have an interest in seeing Franklin succeed as many of the challenges and opportunities do not stop at local board boundaries. Overall, I think the draft plan does a reasonable job of identifying many of the issues facing Franklin, particularly growth pressures, service accessibility, environmental challenges and community connection.

I support the plan's recognition that resources are limited and that greater use needs to be made of partnerships, community-led delivery models, shared facilities and collaboration with neighbouring local boards. Given ongoing financial pressures, I agree that making better use of existing assets and investing in multi-purpose facilities will often provide better value for ratepayers than continually building new facilities.

I also support the continued focus on joint initiatives with neighbouring local boards. Residents do not experience local board boundaries in their daily lives, and there appear to be further opportunities to work together on environmental restoration, recreation planning, growth-related infrastructure, transport and economic development. These collaborations should be expanded rather than reduced.

My main concern is that the plan focuses heavily on individual projects and programmes but gives much less attention to the strategic connection between growth, flood resilience, water quality, transport, open space planning and community resilience. These are not separate issues. They are closely linked and should be planned for in a more integrated manner.

In particular, I was surprised by the limited emphasis on flood resilience, integrated catchment management and nature-based solutions. Given Franklin's existing and future flooding risks, particularly within growth areas and catchments such as Whangapouri Stream, I would have expected stronger reference to catchment-scale planning, Blue-Green Networks, floodplain restoration, stream restoration, and opportunities arising from programmes such as Making Space for Water.

My concern is that without stronger strategic direction in this area, Franklin risks being overlooked for future resilience and adaptation investment despite having significant need. Catchment-based approaches can simultaneously improve flood management, water quality, biodiversity, climate resilience and community wellbeing while often representing better long-term value for ratepayers than repeated recovery and infrastructure costs following future flood events.

I also believe the environmental section could be strengthened by moving away from a collection of individual restoration projects towards more integrated catchment-based programmes with measurable outcomes. Priority should be given to initiatives that leverage volunteers, attract co-funding, support mana whenua aspirations and deliver meaningful environmental and resilience outcomes at scale.

Finally, while I support efforts to build stronger communities, I would encourage greater emphasis on activities that bring people together through shared action rather than

attendance. Volunteering, environmental restoration, sports, local stewardship and emergency preparedness activities often create stronger and more enduring community connections than events alone.

Overall, I believe the draft plan is moving in the right direction, but it would be considerably strengthened by placing greater emphasis on flood resilience, catchment management, growth sequencing, infrastructure planning and long-term resilience outcomes. These are likely to be among Franklin's defining challenges over the coming decades and deserve a more prominent place within the plan.

Local Board: Papakura

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

   Needs more Information. An idea of shared space for raganatahi (youth), for employment and professional development programs.

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

   Central government (national funding)

   Tell us why

Rubbish bins at beaches

4. **What is your opinion on removing rubbish bins at some beaches in Franklin?**

Yes, I support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Speak with local Iwi

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

No, use of sport fields and sport field assets should continue to be owned and managed by Auckland Council and funded by the local board

Tell us why

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Improvements to intersection of State Highway 22 and Blackbridge Road, Karaka,Mill Road improvements (Papakura to Ramarama)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Small missing section of footpath on Blake Road, Pukekohe at intersection with Rowles Rd,Footpath from bus stop on Kitchener Rd, Pukekohe, to Pukekohe Hospital,Bus shelter opposite Tamaoho School on Taikaranga Street, Pukekohe

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Māra kai (food) gardens to compliment the Kai Franklin space and celebrate Pukekohe's food production story,New quiet rooms and a collaborative space within the library

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Living in Auranga,

Would like to see the newly developed homes equipped with more parking and wider streets.

A recreation centre that is close in vicinity is needed for a growing community.

More cultural awareness- Iwi lead programs and activities.

Submitter details:

Organisation: N/A

Local Board: Papakura

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Mostly on the right track

   Tell us why

   The proposed community priorities are generally on the right track, particularly the focus on bringing together new and established communities, supporting local organisations, and encouraging participation by young people and new residents.

   However, the plan could place greater emphasis on practical support for community groups, including funding, access to affordable community facilities, volunteer development, and reducing barriers to participation. As Franklin continues to grow, it is important that infrastructure and community spaces keep pace with population growth so that local organisations can effectively connect and support residents.

   I also encourage the Local Board to strengthen partnerships with local businesses, schools, community organisations, and iwi to ensure community initiatives are sustainable and

responsive to local needs. Maintaining a strong sense of community identity while accommodating growth should remain a key focus.

Natural environment

3. Who do you think should fund biodiversity research? (Select up to 2 options)

Auckland Council (Auckland wide regional funding),Central government (national funding)

Tell us why

Biodiversity research is important for understanding and protecting Franklin's natural environment. However, limited local board funding should be prioritised for practical on the ground environmental outcomes such as planting, pest control, habitat restoration, and community conservation projects. Biodiversity research provides benefits beyond Franklin and should primarily be funded through Auckland Council's regional budgets and central government environmental programmes.

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

No, I do not support this

Tell us why

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

Yes, I support a review of how Karioitahi Beach is managed. The current situation, where vehicles have unrestricted access to the beach because it is legally classified as a road, creates significant safety concerns for pedestrians, families, children, horse riders, and other recreational users.

Vehicle access also brings a range of nuisances, including excessive speed, noise, litter, damage to the beach environment and dunes, and conflicts between different users of the beach. The beach should be a safe place for recreation and enjoyment of the natural environment, without people having to be constantly aware of moving vehicles.

I encourage the Local Board to investigate options such as restricting vehicle access to certain areas or times, improving enforcement of speed limits and bylaws, and reviewing whether the current road status remains appropriate. Any future management approach should prioritise public safety, environmental protection, and the enjoyment of the beach by the wider community.

There have been too many near misses and ongoing concerns about irresponsible driving on the beach. The convenience of vehicle access for a minority of users should not outweigh the safety and enjoyment of the majority who use the beach for walking, swimming, fishing, and recreation.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

Yes, I support investigating reasonable contributions from sports clubs and sporting organisations that regularly use publicly funded sports fields and facilities.

Local ratepayers should not bear the entire cost of maintaining fields, practice nets, and other sports assets when these facilities are used extensively by organised groups. A fair user pays contribution could help offset maintenance costs, improve facilities, and ensure that limited local board funding remains available for other community priorities.

However, any fees should be reasonable and proportionate, recognising the valuable role that local sports clubs play in promoting health, youth development, and community wellbeing. Consideration should also be given to the financial capacity of volunteer run and community based clubs to ensure participation remains affordable.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Pukekohe arterial roads,Improvements to intersection of State Highway 22 and Blackbridge Road, Karaka

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath from bus stop on Kitchener Rd, Pukekohe, to Pukekohe Hospital,Pedestrian refuge in vicinity of Sandspit Rd on King Street, Waiuku

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Māra kai (food) gardens to compliment the Kai Franklin space and celebrate Pukekohe's food production story,Enhancing environmental outcomes and improving safety and accessibility in the carpark

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

While hard water may be causing issues for some residents, a $5 million infrastructure project is a significant investment and should be funded through existing water, council, or central government funding mechanisms rather than requiring additional contributions from local households.

Residents are already facing increasing rates, utility costs, and cost-of-living pressures. Before asking the community to contribute financially, there should be clear evidence that the benefits justify the cost and that all alternative funding sources have been fully explored.

If hard water treatment is considered necessary for public health, infrastructure resilience, or service delivery standards, it should be treated as a core utility investment and funded accordingly, rather than through additional charges on local residents.

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

An issue that deserves greater attention in the Local Board Plan is the poor state of many local roads throughout Franklin. Despite continued growth in the area, road surfaces, pothole repairs, drainage issues, road markings, and general road maintenance are often inadequate and do not meet the needs of residents.

Franklin residents rely heavily on road transport for commuting, business, farming, and accessing essential services. The condition of local roads impacts safety, vehicle maintenance costs, travel times, and the overall quality of life for the community.

I encourage the Local Board to advocate strongly for increased investment in road maintenance and upgrades across Franklin. As the population continues to grow, transport infrastructure must keep pace to ensure safe and reliable roads for all users. Investing in basic infrastructure such as roads should remain a priority before introducing additional projects or asking residents to contribute further to new initiatives.

Submitter details:

Organisation: N/A

Local Board: Papakura

Your feedback:

Overall plan

1. **Do you think this plan matches what our community needs and hopes for over the next three years?**

   Yes, a little

   Tell us why

   Most of the big topics are covered, including those that relate to the big change in Drury/Karaka. I wonder though if the plan is bold or focussed enough on the population change that is coming as this will have the biggest impact on Franklin and how people currently live no matter where in Franklin you live (unless you never leave home!).

Community-led activities and programmes

2. **Do you think we are on the right track with our proposed 'Community' priorities?**

   Yes, definitely on the right track

   Tell us why

   I think there needs to be a focus on newer communities who might need a bit more hands on support to get organised and to connect with one another and with Council services. You can't expect strangers who have no shared history to immediately come together to advocate for services and activities so there is a danger that greedfield development communities like Drury/Auranga, Drury South, Beachlands etc miss out. Council needs to step in to help.

Natural environment

3. **Who do you think should fund biodiversity research?**
   (Select up to 2 options)

Auckland Council (Auckland wide regional funding),Central government (national funding)

Tell us why

I feel like biodiversity research is of national and regional significance and local board funding should be focussed on delivering programmes that response to that research at the local level, and in a way that engages local communities.

Rubbish bins at beaches

4. What is your opinion on removing rubbish bins at some beaches in Franklin?

Yes, I support this

Tell us why

I support removing the hug number of bins at beaches as these are a blight on the landscape. Have some litter disposal sites at beach community entrances and exits. I don't think the number of bins is making a difference to peoples appalling littering behaviour so they could certainly be reduced.

Karioitahi Beach

5. Do you think we should re-consider how Karioitahi Beach is managed?

Yes

Tell us why

I do not go to Karioitahi beach because it feels chaotic and unsafe. As an older person I would not choose this place to visit and enjoy as it is not super accessible and does not feel safe. This will only get worse as more people move into the area.

Managing the cost of sports field maintenance

6. Do you think that we should investigate what we can do to seek a contribution from those who book publicly funded fields for private use e.g. sports clubs or sporting organisations?

Yes, clubs or regional sporting organisations should pay to book/use a field and fund their own equipment

Tell us why

I don't see why some sports codes have to pay to use council funded facilities and others do no. If you require exclusive use of a council park, when this means excluding passive public use e.g. for walking the dog, playing with kids etc. A booking fee for use of sportfields seems entirely fair when netball, baskteball etc all have to pay for the use of their facilities.

Transport - advocacy

7. Which of the following transport projects are most important to you? (Select up to 2 options)

Improvements to intersection of State Highway 22 and Blackbridge Road, Karaka,South-east link bus services (Papakura train station/Clevedon/Pine Harbour Ferry/Botany)

Transport – local projects

8. What do you think is most important to do in the next three years? (Select up to 3 options)

Footpath on Monument Rd, Clevedon to connect showgrounds with existing footpath network,Footpath from bus stop on Kitchener Rd, Pukekohe, to Pukekohe Hospital,Improvements to Ward St footpath in vicinity of Pukekohe Cemetery to align with the Pukekohe Cemetery Memorial project

Pukekohe Community Civic Hub priorities

9. Which of the following would you like us to prioritise next? (Select up to 2 options)

Enhancing rooms used by the RSA so they can also be used for other appropriate groups too,Enhancing environmental outcomes and improving safety and accessibility in the carpark

Water in Waiuku

10. How willing would you be to contribute to the cost of a hardwater treatment system?

Not willing to contribute

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Waste dumping in the Auranga area is a significant problem. This includes builder /deveoper waste as well as people travelling into the area to dump mattresses etc. These people are purposely dumping on undeveloped land which is a gap in service from Auckland Council in terms of addressing. This leads to more waste and dumping. something needs to be done to address dumping behaviour.

Bus services into Brenmber road and Jesmond Road needs to be accelerated as this would allow residents of the Karaka Lifestyle estate to access buses and ultimately trains.

There is nothing for young people over 10 years in Auranga to do and the nature of housing means that they can't do uch at home. This is a poor beahviour issues waiting to happen. More needs to be planned to cater to these young peoples needs e.g. connecting to transport networks and nearby facilities, using Drury Sports Park for engaging spaces (not just for boys and sport but for girls too), and maybne even developing indoors spaces at drury that could host community activities.

Public transport connections to the east are also important for connecting communities across Franklin i,e. ways to get to beachlands and clevedon other than by car so communities can enjoy eastern beaches, parks etc.

Possibly willing, but I would need more information first

Tell us why

Other feedback

11. Do you have any other feedback on the draft Franklin local board plan?

Franklin Local Board is supporting Ardmore Business Fast Track, which is very positive for Franklin residents for business and job opportunities. However, I would like to see Franklin Local Board not just simply supporting the idea of Ardmore Business Park but also ensures appropriate and reliable infrastructures are being provided to support this development. Ardmore Business Park is over 500 hectares in area which is the biggest business park in Auckland, but right now the developer is proposing to just using rain water for its water supply and this is simply not appropriate for business parks of this size and magnitude. The potential risk of a widespread fire happening in a business park is higher than that of residential area given the nature of flammable materials in the warehouses. Simply relying on rain water gathered from the roofs of the warehouses and running on private utility net work operated by profit steering private companies would have massive reliability and safety issues, there might not be enough water to put out fire when the water source is simply just rain water and also water is being provided by a private company would have the risk of not being in operation in the long term, perpetuity of its operation can not be ensured and guaranteed. I strongly suggest Franklin Local Board to advocate for the Ardmore Business Park to be connected to Council's water and wastewater networks as Council is not a profit maximising organisation and the safety of workers and reliability of water supply and wastewater discharge and the perpetuity of its network operations can be guaranteed as compared to on a private network relying on rain water.

I fully support the advocacy of Franklin Local Board for additional lanes and increased bridge capacity on Hingaia and Linwood Roads to be funded through the Auckland Regional Land Transport Plan. There is currently two fast track projects, one at Clarks Beach and the other at Kingseat for massive housing. It is vital to have additional lanes in Linwood Road in order to cater for this potential planned growth.

I support the continuation of the operation of bus services from Clarks Beach to Waiau Pa to Karaka to Papakura Station in addition to exploring additional bus routes to Ngaakaroa Station.

I fully support an investigation into the feasibility for a ferry service that unlocks the Manukau Harbour's blue highway potential with the ferry services covering areas in the South-West (Waiuku, Glenbrook, Clarks Beach, Karaka) to Auckland Airport precinct as a transport and employment hub.
