

Downtown Car Park redevelopment

The redevelopment of the Downtown Car Park will expand the thriving Commercial Bay precinct.

Led by Precinct Properties in partnership with Ngāti Whātua Ōrākei, and working alongside Auckland Council, this project will turn a former through-route into a vibrant, connected, mixed-use destination.

This six-year project will bring thousands of people into the city centre, increasing the momentum for a more people-centred, connected downtown.

We are planning our improvements alongside this redevelopment so that public transport, streets, public spaces and infrastructure work together with private development and maximise the opportunities it will bring.

The Downtown Car Park will remain in use until development commences.

Driving and parking will continue to be options for people visiting downtown. There are approximately 12,000 parking spaces in the downtown area and around 50,000 on and off-street parking spaces in the city centre.
