Alternative Option Suggestion:
Introduce a licensing system for professional dog walkers, allowing them to operate with higher dog limits (e.g., up to 15 dogs) based on training, certification, and adherence to a code of conduct. Licensing would:

- Ensure high standards and safe practices among professionals.
- Provide the Council with the ability to monitor and enforce compliance.
- Allow professional walkers with proven skills to continue operating without arbitrary restrictions.

Explanation:
A licensing system is a better solution than imposing blanket limits. It recognizes the expertise of professional dog walkers and ensures safety and accountability while addressing community concerns. This approach would also allow council resources to focus
on more pressing issues like roaming and barking dogs, which make up the majority of complaints.

2. General policy and bylaw matters

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Why?

The proposed limit of six dogs (with a maximum of three off-leash) fails to address the real

issues affecting the dog community, such as owners/walkers with no control over their dogs,

and roaming dogs. Instead, it penalizes professional dog walkers who already responsibly handle multiple dogs.

Professional dog walkers play a critical role in ensuring dogs are exercised, socialized, and trained, reducing behavioural issues that might otherwise lead to complaints. Arbitrary number limits overlook the skills and training required to walk multiple dogs safely and responsibly. We need a practical, evidence-based approach that includes consultation with

industry experts, such as the Professional Dog Walkers Association (PDWA), to create effective solutions.

Alternative Option Suggestion:

Introduce a licensing system for professional dog walkers, allowing them to operate with higher dog limits (e.g., up to 15 dogs) based on training, certification, and adherence to a code of conduct. Licensing would:

- Ensure high standards and safe practices among professionals.
- Provide the Council with the ability to monitor and enforce compliance.
- Allow professional walkers with proven skills to continue operating without arbitrary restrictions.

Explanation:

A licensing system is a better solution than imposing blanket limits. It recognizes the expertise of professional dog walkers and ensures safety and accountability while addressing community concerns. This approach would also allow council resources to focus

on more pressing issues like roaming and barking dogs, which make up the majority of

complaints.

I support Ak council efforts but continue to be alarmed and extremely concerned at the increase in dog attacks by unregistered and/or wandering dogs. I believe penalties should be increased for owners of such dogs who can be identified and that they should never be able to own a dog in future. Owning a dognis a privilege and a responsibility. As stated above, I believe ALL dogs should be neutered (and microchipped) at an appropriate age (to be determined by veterinary professionals,)with the ability for an owner to apply for an exemption ONLY IF the owner wishes to breed from the dog. Such applications should be charged for and have enforceable conditions. A separate class of registration should apply.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

The beach should be treated differently to the park.

It also doesn't suit everyone to walk their dog at the hours outside 10.00am and 5.00pm.

The Summer hours should in fact be relaxed with the restrictions related to the school holidays. Most of the time outside the school holidays, the beaches are often deserted as tertiery students are working.

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Browns Bay beach only. not the grass area.

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:Beach only

What is the main reason you want to change the current dog access rule?

Season change

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Often the beach outside the school holiday period is very quiet and there are actually more people on the beach after 5.00pm either going for after work walks, or having picnic dinners.

By allowing dogs on the beach during the day, as with the winter hours, it will spread the dog walkers out during the day and not cram everyone into after 5.00pm, so it actually becomes the busiest time of the day.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#2704

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

No limit on dogs, but all dogs should be on leashes. I have seen how dogs run around on the beach and attack other dogs which are on leashes (including my dog), and their owners are nowhere in sight. This causes the situation to be very dangerous for the owners of dogs which are on leashes and tries to separate the dogs fighting. Also I have experienced many incidents where dogs ran over my kids while they were playing, as well as running into me. The owners then just tell my kids not to run around or wave any sticks around because it excites their dogs. Since when can't kids be kids on a beach just because dog owners dont want to put their dogs on leashes? I have a dog myself and I keep it on a leash at all times.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Browns Bay Beach, Longbay beach

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

I have seen how dogs run around on the beach and attack other dogs which are on leashes (including my dog), and their owners are nowhere in sight. This causes the situation to be very dangerous for the owners of dogs which are on leashes and tries to sepa

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Because most dog owners are generally inconsiderate and prioritize their dog's happiness over all the other people and kids happiness at the beach. I am disappointed to see that my kids cannot even build a sandcastle without at keast one dog trampling or peeing on it every time we take our kids to the beach.

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I have spent many years working with and training behavioral training.

I am employed by a Professional Dog Walking Company and I'm very passionate about the fulfilling purpose of walking "my" wonderful packs.

We are very selective of the dogs we take on, and find it rewarding to see their confidence and social skills grow, making them well adjusted,obedient, calm happy dogs within the pack and individually aswell. Our clients always mention how improved their dogs are in every way since joining us. I am personally commended frequently on how calm and controlled my packs are.

We have a positive impact on our clients daily lives by providing a safe walking environment for their beloved dogs. Well socialized,exercised and mentally stimulated dogs lead happy healthy lives in comparison to those whom are left alone, unsocialsed,untrained and/or roaming.

I believe mandating the number of dogs that have to remain on lead will increase the risk of injury for handlers by creating pent up energy within the restrained dogs whilst their comrades enjoy exploring, playing,swimming etc. Also public dogs often run into the pack and could cause injury also. I feel 8 dogs is perfectly manageable especially as we train our dogs to be well mannered and respectable, the impact of reducing numbers will be damaging to our company and our clients.

I feel I would be prudent for time an effort to be put into the problem of roaming, poorly exercised and uncontrolled dogs instead of punishing Pack Walkers whom are not the problem - we are an important service to the quality of many dogs lives within the community, well adjusted dogs do not cause issues but irresponsible owners do!!

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Support limiting, but don't think there should be 3 allowed off leash, unless in a controlled environment like a private land arrangement, or an organized group at a dog park, with more than one person attending.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Support better signage and making the rules more clear, publicized. Would be great to get a copy of the rules / link to rules each year when renewing dog registration.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

I would prefer all dogs required to be neutered unless the owner applies for a special breeding license.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Do you have any further comments on the proposed policy and bylaw changes?

Make laws, signage clear and easy to follow. They also need to be enforced more - a rule doesn't exist if you don't enforce it. The council being inactive makes it harder for us to be good responsible dog owners. We often face aggression and aggravation from other dog owners who flout the rules, and then act like we are the problem.

I support dog walking, on leash and off leash activities. Yet there are a few owners that ruin it for the rest of us. Is there some way the council could ask for volunteers at said beaches/parks with yellow/hot pink bibs who like neighbourhood watch support could aid the council on a rostered system. I also support consequences, fines, bans for owners not following the rules, however I've never seen a council dog worker yet. It would be great to have a website with clear processes and complaints made so dog owners and others Can with together to make NZ safer.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

No matter how well trained dogs are, when off the leash they are still capable of running away and disobeying the person in charge, especially if that person is not their owner. As the owner of a small dog, I am very wary of exercising my little dog even on a leash where someone is walking several dogs especially with when some aren't on a leash. A small dog can be hurt or even killed very quickly by a large dog running off a leash.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I fully oppose these new rules Auckland council are proposing as it is unfair to responsible dog owners and business owners that operate safely and have done for many years now with no issues. They can prove they know what they are doing and have walked my dogs with the utmost care for many years. This would affect their businesses and my dogs mental and physical wellbeing. It is an essential service that does not need to be limited. They are educated professionals that restrictions like this would not focus on the REAL problems like roaming dogs and irresponsible dog owners, NOT these professional people. I believe licensing of some sort would be more effective and fair without limiting their business they should have control of.

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

I walk big manly every night with my dog, it is a big beach with enough room for nesting birds and dogs. Better signage for birds or even barricades of some sort to protect them. Why punish the dog owners. I couldn’t tell you where the birds nest as I’ve only seen one tiny sign, have no idea which is east or west end of beach and I’m sure I’m not the only one.

There are very few off leash places for our dogs there’s no “dog parks” in our area, I am quite happy to wait till the evening in summer to walk my dog off leash if I wish. Please don’t take that option away from us. Protect the birds better with better s

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I have seen packwalkers who are unable to control all of their animals. I would support council offering qualifications to allow packwalkers to walk more dogs in the future if there is evidence that more dogs can be managed but this would have to be funded by pack walkers with no council subsidy. Currently three off leash and three on leash total feels reasonable.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Currently the dog rules here are no dogs on the beach between 10 am and 5 pm in the summer (1 December to 1 March), and off-leash in the winter and at other times.. I would like to see the summer 'no dog' rule tightened extended to between 9 am and 6pm. Orewa is one of the most popular beaches in Auckland enduring the height of summer and during the summer school holidays families are using the beach before 10am and after 5pm and many owners who walk their dogs here have them off leash and not under always under control.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

I think the way it is is fine. Dogs being allowed on the beach 10am- 5pm as long as they're on a leash is all good. Could even keep the on leash until 6pm.

It would also be nice to be able to walk through the north end to glenvar Ridge on leash so that uou van walk a loop with your dog. But I understand that people would not obey that rule and ruin it for everyone else. And the wildlife inbteh park Ned's to be protected.

As a trainer who also walks clients dogs I feel 6 dogs is plenty at once if dogs are being walked on public land. How ever I do feel if dogs are under control then their is no problem in all six being off lead. I have more issues with owners and their personal pets off lead than other walkers or trainers. I also feel if we are finally making rules on walkers doggy day cares NEED stricter rules too. I have worked in a day care and talk to others who have also and the amount of risks or bad situations that take place wouldn't happen if they went through special training as well as having smaller numbers

As a qualified trainer it's scary watching unqualified trainers giving advice and guidance to owners. Assessing a dog isn't a simple process and the person should be required to be qualified to do so.

It's no different from someone who's not qualified in medical giving medical advice.

We need to be cracking down on all avenues of animal and dog welfare. Trainers need to be qualified with at least NZ recognised quals. We don’t allow people to teach our kids who aren’t qualified teachers so should be no different. Day cares need stricter rules and more education to keep handlers and dogs safe. Owners need more education around what under control means, understand basic body language and how dogs are not allowed to run up to other dogs without permission.

I had my dog for the past 5 years at 2 different dog walking companies. Never did I have any issues and my dog is better behaved than ever before. My dog has much more patience with people and dogs and I am sure of him walking with so many other dogs and constantly getting training on his walks. I feel if there are specific dog walking companies that do not know what they are doing and get complains, those dog walker should be dealt with.

I am happy with the areas where dogs are not allowed. But unhappy with the fact that the on leash areas are becoming more. There are a HUGE number of areas where people can walk there dogs on a leash and very few places where dogs can walk off leash. No reason to change that. I am also not happy with some people that do not pick up after their dogs or don't follow the rules, but making the rules more strict will not change this. Again it will only be people like myself that will continue to follow the rules and the people that are currently not following the rules will continue to do as they please.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

If the dogs are under control, they are under control, no need for quotas.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Long Bay Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

If the dogs are on-leash what is the risk or impediment of anyone's use of the beach during the day. It is inconsequential so should not be prohibited.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

What do you think of this proposed change?

Mahurangi Regional Park (West)

Mahurangi East

Mahurangi Scott Point

Tell us why

Muriwai Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Pākiri Regional Park

We are proposing to prohibit dogs on the associated beach (currently off-leash).

What do you think of this proposed change?

Tell us why

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

Tell us why

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

Te Ārai Regional Park

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

Tell us why

Waitawa Regional Park

We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

What do you think of this proposed change?

Tell us why

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

I am a responsible dog owner, I work full time so have my dog picked up to go on pack walks by a very professional company. Not only would new laws be dangerous for the walkers, it would reduce the exercise & socialisation of dogs. They need to run, sniff, play with each other. Dogs need to run, not be kept on a lead the entire time. This would be punishing not only the dog, but the responsible dog owners. In my experience walking my dogs over the years, the aggressive dogs are the ones ON leads because they cannot act naturally around other dogs. I strongly oppose the laws being changed.

Our dog Milly is a result of backyard breeding, she was dumped at only 2 weeks old at the start of the covid lockdowns. She had a tough start in life, with no Mum to teach her how to be a dog. We tried our hardest to train her and build her confidence, but it got to the stage where we almost had to make the decision to rehome her. Instead, we engaged an amazing dog trainer. He turned not only Millys life, but also ours around.

Following her training, Milly has been attending pack walks with the awesome team at Pet Adventures. She is so excited to see her walker each week. These walks structure her week with socialisation with other dogs in a controlled environment.

These walks allow us to be responsible dog owners; our dog is not left for hours at home alone while we have to return to the office. Instead, she is exercised for a minimum of 3 hours and comes home tired and content. With the added bonus that the training we put in place is reinforced on a weekly basis.

Each dog has to complete a 48-hour assessment with the company to assess their temperament and any training needs before being allowed to join a pack walk. The dogs are then matched with the most appropriate walker and days of the week to ensure they fit in and balance the pack. This is what professional dog walking looks like.

Limiting the number of dogs that can be walked at any time does not address the perceived issues of multiple dogs being walked. The Council's data shows that just 0.7% of dog-related complaints involve multiple dogs being handled. Of this number, Auckland Council can't distinguish between professional dog walkers and regular multi-dog owners.

In addition, the current dog bylaws are almost impossible to regulate. We live in Hibiscus and Bays Local Board and are surrounded by beautiful beaches; however, we don't walk our dog on them. Too many people believe the current regulations don't apply to them. We have been rushed at by dogs with no manners, recall, or socialisation. The owners have no control over their dogs off-leash. If the council can't police the current rules in place, how will they manage these additional ones?

Limiting the number of dogs that can be walked simultaneously will negatively affect our dogs' well-being and the whole professional dog-walking industry, which undoubtedly needs to grow as more people are forced to return to the office.

Possible alternatives include:

- Licencing professionals to walk larger groups of dogs – something any reputable dog walker would agree to.

- Having different limits based on the population density in the area—we already have different bylaws by local board, so surely something could be put in place.
- Enforcing the rule ‘Dogs must be under control’, which is already in place
- Providing more education and support to the public about what owning a pet entails and how they can access training services to help them

I have already formally submitted my feedback via the Have Your Say website on the proposed changes to the number of dogs which can be walked at one time.

However, I also wanted to submit feedback on proposed access changes to Long Bay Regional Park.

Although we don't walk our dog often at Long Bay Regional Park beach in the summer, I do not support the changes to remove access to the beach during summer hours.

The North Shore of Auckland is already short of places where you can walk your dog, removing the access to Long Bay during the summer will only leave Dog Beach/St Leonards Road as a place you can walk your dog in the summer.

There is only one dog park on the shore at Sanders Reserve where you can take your dog during the day.

Last year, the local board discussed creating a dog park at Long Bay, acknowledging that there are so few places to take your dogs removing access without providing an alternative is really limiting the opportunities that responsible dog owners have to exercise their dogs during the summer months.

I would like to see a license for dog walking businesses so they are able to access the public spaces. Many provide a great service to their local community are contribute greatly to the welfare of dogs who might otherwise be locked inside during working hours.

I think a member of the general public should only be able to walk up to four dogs at a time

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Those people doing the walking with the dogs are professionals and generally have dogs in their care well controlled.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

Walking with my own dog locally and walking regularly with a group of people I have encountered large groups of a mixture of dogs with a dog walker.

On the whole as a dog lover these encounters have been fine - dogs under control & no problems with them running off but the number of dogs some walkers are in charge of is increasing so I think a maximum number of dogs at 6 would be a good number I think.

Something I have noticed when walking with a group there are some people who are scared of dogs in general or just don't like dogs of any sort and are reluctant to pass these groups.

I believe that dogs should be on a lead when exercised on our beaches most owners don't have control of there dogs . Why do we allow dogs to urinate on the beach not clean up then families bring there children to the beach.

I find most dog owners down follow the rules dogs off leads on cycle way

I have lived in Orewa for 15 years have never seen a dog ranger patrolling the beach . Have had dogs run up and been annoying hit my bike while riding

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I think it depends on the type of dogs you walk. If it was 6 rottweilers it would be different to 6 chihuahua's but i dont know whether you can differentiate with the rules.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

I support laws against dangerous or menacing dogs. I do not support any change to access to beaches regarding endangered birds nesting. We have 2-4 dotterils on beaches near us and the people who take care of them are bullying and intimidating people who pay to live in the area and enjoy walking the beaches with their dogs. All are under control off leash and this is monitored by other dog walkers and people who walk the beach for leisure. To have access restricted in any way for 2 birds who mother poorly (their chicks don't survive due to their poor skills).is an affront to every other rate paying person. We are a country of dog lovers and those who don't.t love dogs are in the minority and should not dictate the rules overall to others.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

The proposed changes, whilst a step in the right direction, need more focus on the impact of dogs on the natural environment, not just on the general public.

The public were/ still are banned from areas affected by kauri die back, surely dogs should be banned from all kauri forests.

The Proposal identifies specific areas for dog control...This should be extended to have dogs on a lead and under control in all natural forest, riparian, and estuarine areas.

Breaches of dog walking rules need to enforcing by instant fines, with increased monitoring and extension of those with authority to issue instant fines.

This is adding to the confusion on where dogs can go. Limiting the time for access to before 10am and after 5pm is sufficient. There are few areas that dogs can run off leash and this is one of them. It was not long ago this area was open all hours and it has changed making things harder. We need spaces for our dogs to run free all year round. There is never anyone in these areas without dogs before these times and so the restrictions are in fair to dog owners

Tāpapakanga Regional Park

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

All dogs must be on leash except for at designated Fenced Dog Parks

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Support

Tell us why

The Public need to be well informed & heed the rules that all dogs in all public areas must be leashed at all times & Council needs to have signs & issue infringement notices.

Designated fenced Dog Parks need to be adveretised & promoted for those wanting their dogs off leashes so they’re not a public nuisance

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

Its not only dogs that are classified as menacing are a problem. There’s so many mixed breeds & rescue dogs that have unpredictable natures

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

The Public is the best guide, however most people are abused by owners of dogs displaying agressive, unruly behaviour.

Vets, Pet Store owners, neighbours are also good judges of a dog’s character

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Support

Tell us why

Most residential properties are so small now that people should only have 1 or 2 dogs & either visit a Designated, Fenced Dog Park if they want their dogs to run around or walk their dog daily on a leash

Rural properties, lifestyle blocks & working dogs on farms should be limited to the amount of stock on hand & electrified fences to deter exit & entry should be installed

Clarify how dog access rules are set:

Support

Tell us why

Keep it simple. No restriction on Dog Access as long as they're on leash in all public areas. They only allowed to run around in designated, fenced Dog Parks

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Support

Tell us why

As long as a dog is leashed at all times apart from designated, fenced Dog Parks, & is not a menace nor barks & disturbs the peace, ie they're controlled, then they should be allowed at Council Carparks & Camp Grounds.

The owners of dogs left in hot cars should be reported & fined

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Support

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Support

Tell us why

As stated above keep it simple & straightforward. All dogs on leashes in Public areas at all times except for designated, fenced Dog Parks

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Do not support

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

All of the above & more

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Too many dogs! They are uncontrollable, noisy (barking loudly & incessantly) Owners walk & talk without watching their dogs so they are a nuisance; intimidate people especially children & other timid or small dogs & worst of all defecate without picking it up. When you ask them to please clean it up, or if they can please control their dog, they threaten & abuse

Do you have any further comments about dog access rules at Regional Parks?

There should be no further increase in dog access to the Long Bay Regional Park and Marine Reserve due to the sensitive wildlife. There are already too many dog owner breaching rules. Fines should also be increased and enforcement applied with any funds received being put back directly into Regional Park funding. Many people have requested getting access to walk their dog into Long Bay Regional Park from Glenvar Ridge Access Road, however that must not be allowed as it will further open the park to abuses of the regulations and will impact the amazing birdlife around that entrance to the park. There should be a reserve allocated as a dog park and infrastructure/facilities provided for off dogs off-leash.

You are targeting the wrong people and are jeopardising a world renown and respected pack walking industry that we have in NZ. Studies and evidence shows that Dogs are actually safer socialised and in numbers. In any of the "attacks" it has been only one dog involved. It is important for dogs to be socialised, the proposed change will make this more difficult. My suggestion would be to regulate (or licence) the pack walkers, set them up with a qualification. many of them already travel overseas every year to attend training and conferences. They are honest, hardworking business owners who go the extra mile for their dogs and the dogs' owners

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

Dog walkers cannot possibly keep their eyes on so many dogs all at once. Dog walkers tend to stand and chat to their friends whilst their dogs run around freely without supervision.

Whatever rules are introduced, they must be enforced. The council needs to have staff readily available to enforce them. On the spot fines etc

If no additional staff are available to enforce the rules, then it is easier and simpler to ban all dogs from

No More than four dogs on leash as it is likely one person won't be able to keep control if things go wrong. Off leash dogs should be 1 per person as you can't be in two places at once if the dogs go separate ways- many people do not have their dogs under control off leash

We have our dog walked by a company who have 10 dogs at a time- the dog walkers are all fully trained dog handlers, they meet each dog prior to agreeing to walk the dogs or not. They match the dogs by temperament & they always have the new dogs in a pack on a lead for several weeks before trusting them off lead. They walk in areas that are often privately owned properties that they have permission to access. The benefits of these walks for the dogs are huge- our dog has gone from being a fearful dog(having been attacked by two dogs who were allowed to roam freely off their y fenced property) to a dog who has learnt how to play happily & enjoy the company of other dogs. He used to snarl aggressively at other dogs as they walked past him due to his fear- now he is gentle & respectful of other dog. He enjoys running free off the lead as this is what dogs are meant to do. The company we use is mindful of the fact that some dogs should not be off lead, however- it is owners who should attend dog obedience classes. Our dog walkers have control over the dogs, they are aware of managing the energy of the dogs. Our dog comes home happy & exhausted & well behaved. We get photos of the group after every walk. Please don’t bring this rule-, reinforce the laws already in place- bring in tighter rules around ownership of dogs & training of owners & dogs.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

The majority of people who walk their dogs off-leash on these areas are responsible dog owners with well-trained dogs. The proposed change will severely curtail the freedoms enjoyed by many dog walkers, a lot of whom are elderly. The current hours are restrictive enough and discriminate against shift workers and result in large numbers of dogs at the beach at once because we all have to wait for the 5pm time slot.

The current rules of no dogs on the beach between 10am-5pm discriminates against anyone who does not work 9-5pm. There are large numbers of shift workers living on the coast and because of this rule in the summer months, there are lots of dogs on the beaches suddenly at 5pm. We need one beach on the coast where people can take their dogs during the hot summer months for a swim.

I do not support this proposal. The issue isn't the number of dogs its the ability of the dog walker to control their dogs. If the issue is commercial dog walkers I'd suggest putting in place a license that is required to put in place an element of regulation. I think this proposal is unfairly targeted small businesses and we should be looking at ways of supporting.

Tell us why

Responsible pack walking is vital for dogs in Auckland, given how many professionals own dogs but also want an affordable option for keeping their dogs exercised, trained, and fulfilled.

The proposed changes, as I see them, don't provide any benefits. The majority of complaints around dogs involve roaming dogs and excessive barking, neither of which will be remedied by imposing limits on dog walkers.

Adding limits to walkers will drive up prices past the point of affordability for most Aucklanders, meaning dogs will be less looked after and likely to become harder to handle.

A more reasonable solution is to create licensing for professional dog walkers so that there is more education and accountability. Limits can still apply for unlicensed walkers in my opinion (and the maximum of 6 seems reasonable in that case).

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

The reality is that dogs are better off the more time outside and of lead being socialised and having fun they are.

A limit that doesn't allow for professional dog walkers will be bad for every one and every dog.

The dog walkers may well shut down or you will get a lot more of them and they will be less trained with no incentive to be better because they cant handle more dogs regardless of their ability

The cost of dog walkers will go up and or the quality go down by nature of supply and demand

Many people wont be able to afford to send their dogs out with professionals and dont have time in their personal lives to do it everyday, that's bad for the dogs and it means when they do go out they will be worse behaved.

From what I've seen professionals are typically better controlled of 20 dogs than many owners are of 1 or 2 dogs.

Any new rule needs to allow for professionals to continue to offer their services.

Any new rule needs to be designed to solve a problem. If the problem is people arent following the rules right now making the rules stricter wont help and that shouldnt be a reason to change them. For instance a dog attacking someone is already against the rules, any dog off leash could in theory do the same thing so perhaps working out better enforcement of the current rules rather than new rules would be more effective

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Do you have any further comments on the proposed policy and bylaw changes?

Rather than providing long winded descriptions of dog rules provide them on a map, the rules as written use landmarks that unless you're already familiar with the place make understanding it difficult at best and often completely useless. A map of the park/Beach/area with the dog rules CLEARLY marked on it should be a bare minimum, ideally you would have a map of the city so people can search it by dog access policies (ie where can I take my dog off leash now)

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

It is very difficult to control more than one dog off leash. This is evident in our local area.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Currently it can be very unclear as to dog access rules especially if you are in an area you are not familiar with.

Clarify rule that all dogs classified as menacing must be to neuter:

I believe as a responsible dog owner your dog should be neutered and microchip and wear a collar with registration tag attached.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Support

Tell us why

More than 2 large dogs on a property can be problematic as they begin to form a pack. The same could be said for 3 or more small dogs.

Clarify how dog access rules are set:

Support

Tell us why

It seems that there is becoming less and less places in which a dog owner can take their dog for an off leash run. Our dog is quite timid so a dog park would not suit him at all.

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Support

Tell us why

There are few regional parks that allow dogs. Army Bay and Okoromai Bay are fantastic areas for dogs to have a good run. We usually see more mess left by picknicers in these places that any mess left by dogs. It is a large open area where people can keep their distance. Visitors who stay for the day are a bigger problem.

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Dogs love the bush as much as the beach so it would be nice to see some clearly identified areas for dog exercise.

Remove outdated or duplicate bylaw content:

Not much use to anyone if not up to date. It seems to me that the current rulings have been working really well for the last couple of years.

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

Instead of making less places for dog exercise areas we should be looking at more. There are certainly a lot more dogs around now so it doesn't make sense to cut access to parks and beaches for them. I do agree with limiting the number of dogs an individual can have

at any one time as even I, as a dog owner, find large packs of dogs very intimidating. It must be even worse for our small obedient dog.

We shouldn't be limiting the times and areas dogs can go but extending them. Dog owners generally don't take their pets out in the heat of the day so this is the sort of time it would be suitable to ban dogs. Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

I think there will be less dog owners breaking the by laws if more space was available - even if it means keeping your dog on a leash.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

More freedom for dogs. As rate payers we should be entitled to responsibly take our dogs anywhere.

I think the system currently works well and people seem to understand it. The biggest problem is uneutered and unregistered dogs. Micro chipping should be compulsory.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Shakespear Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

Tell us why

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Muriwai Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Pākiri Regional Park

We are proposing to prohibit dogs on the associated beach (currently off-leash).

What do you think of this proposed change?

Tell us why

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I would like to see a complete ban on off-leash at Okoromai Beach and Wet land area. Open up Army Bay with longer off-leash times.

I visit Shakespear Park 2-3 times a week. (I enjoy trail running)

I also check the many traps that are located on the outside of the predator fence, while running.

While running the tracks around Okoromai Bay I often see dogs chasing birds and owners not able to control them.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

Tell us why

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Te Ārai Regional Park

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

Tell us why

Waitawa Regional Park

We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

What do you think of this proposed change?

Tell us why

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I think that the six dogs rule is more than fair for normal owners, but professional dog walkers should be certified and licenced to walk more. We already have a responsible dog owner certification. It should not be hard to extend that for an exam for professional licences dog walkers.

Why does the council make it hard for people to find out the information in this survey? Why is there not a link for each question to the specific area being changed so that people can easily find the proposed changes. Instead they have to search online. Tell us why

I do not support the proposed limit on walking multiple dogs.

The proposed limit will only penalise responsible dog owners and will not stop irresponsible people who do not follow existing laws.

Professional dog walkers play a critical role in ensuring dogs are exercised, socialized, and trained, reducing behavioural issues that might otherwise lead to complaints. Arbitrary number limits overlook the skills and training required to walk multiple dogs safely and responsibly. We need a practical, evidence-based approach that includes consultation with industry experts, such as the Professional Dog Walkers Association (PDWA), to create effective solutions.

Auckland has a serious issue with roaming dogs and Council should focus on this, not multiple dog walkers who make up a very small percentage of reported issues.

I support a license being developed to regulate professional dog walkers as they have the skills to handle multiple dogs and provide a valuable service to me and the community. I am a first time dog owner with a boisterous dog. Having her taken out by a dog walker once a week from a pup has given her valuable structured socialization time with other dogs that I was not able to provide. She's learned to play and walk nicely with other dogs, and now walks nicely with me while out and about. Off lead I can now recall her from play, something her skilled pack walker has helped to train. Before pack walking she used to strain at the lead to get to meet others and was hard to take anywhere. Her pack walker also regularly gives me feedback on what to do next with training. Not all dogs are the same but mine is over friendly, and pack walking has been the perfect training option for her temperament. She would be a social nightmare without it.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Tell us why

Very few people can control 6 leashed dogs, or 3 leashed and 3 unleashed dogs, if things go pearshaped. On their own, without other people and dogs around, yes - but this is not the case on public land where there are other uncontrolled circumstances happening.

There should be beaches that people can visit WITH dogs during the day, during the summer. These places should be regional parks, not local suburban beaches. The dogs are currently allowed to be there, on-leash - if they aren't being kept on leash, then deal with the problem instead of banning them.

These are the sorts of beaches (regional parks) that people should be able to take their dogs to in the summer, provided they are kept under control. The existing bylaws, allowing dogs on Okoromai and Army Bay beaches during the day, provided they're on leash, is reasonable. Leave it alone. If people aren't keeping their dogs on leash, then deal with that problem, not banning the dogs.

Other (please explain below)

Tell us why

I do not support the proposed limit on walking multiple dogs.

The proposed limit will only penalise responsible dog owners and will not stop irresponsible people who do not follow existing laws.

Professional dog walkers play a critical role in ensuring dogs are exercised, socialized, and trained, reducing behavioural issues that might otherwise lead to complaints. Arbitrary number limits overlook the skills and training required to walk multiple dogs safely and responsibly. We need a practical, evidence-based approach that includes consultation with industry experts, such as the Professional Dog Walkers Association (PDWA), to create effective solutions.

Auckland has a serious issue with roaming dogs and Council should focus on this, not multiple dog walkers who make up a very small percentage of reported issues.

I support a license being developed to regulate professional dog walkers as they have the skills to handle multiple dogs and provide a valuable service to me and the community. My dog has been going on pack walks for the last 3 years with a professional, trained walker and the difference this has made not only on our dogs life, but ours is huge. We have seen a significant improvement in her behaviour and socialisation. To know that she is being exercised and getting a run around, whilst being trained is wonderful.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

I don't support the proposed limit on walking multiple dogs. I believe it will only punish responsible dog owners like myself, and won't deter irresponsible people who already disregard existing laws. Professional dog walkers are crucial for ensuring dogs get the exercise, socialization, and training they need, which in turn reduces behavioral problems. I think arbitrary limits on the number of dogs a walker can handle ignore the skill and training required for safe and responsible dog walking. I believe a practical, evidence-based approach is necessary, one that includes consulting with experts like the Professional Dog Walkers Association (PDWA). In my opinion, Auckland Council should focus on the serious problem of roaming dogs, rather than targeting multiple dog walkers who represent a very small fraction of reported issues. I support a licensing system for professional dog walkers, as they have the expertise to handle multiple dogs and provide a valuable service. My own dogs go out with a dog walker every week, and I've seen a huge improvement in their behavior and socialization. I love knowing they're well cared for and exercised on the days they go out.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Dog walkers provide a valuable service to many of us fulltime workers. They are professionals and the dogs are always under control and well behaved, not to mention well trained. There seems no legitimate reason to change the current status. This suggested change will create one of two scenarios - Reducing the pack numbers will either increase to cost of the service which is already expensive, which means i could no longer afford it, especially with the current economic squeeze we are all under. I can not walk my dog.myself for personal reasons and if he isnt walked then been shut up at home allday means he barks and then they'll be complaints about that! Secondly the Dog Walkers are running a business and if you force them into reduced numbers and therefore income you could be forcing them into closing their businesses, this is incredibly irresponsible of the Council to put these small business owners into such an untenable position.

The proposed limit will only penalise responsible dog owners and will not stop irresponsible people who do not follow existing laws.

It would also penalise professional dog walkers who are so important for ensuring dogs are exercised, socialized, and trained, reducing behavioural issues that might otherwise lead to complaints.

These number limits overlook the skills and training required to walk multiple dogs safely and responsibly. We need a practical, evidence-based approach that includes consultation with industry experts, such as the Professional Dog Walkers Association (PDWA), to create effective solutions.

Auckland has a serious issue with roaming dogs and Council should focus on this, not multiple dog walkers who make up a very small percentage of reported issues. My dog attends a pack walk with a qualified trainer/walker every week and it does wonders for his socialisation and behaviour. It's his favourite time of the week and very important for us as a family to know he is looked after and exercised on a day we are unable to take him out ourselves.

We support a license being developed to regulate professional dog walkers as they have the skills to handle multiple dogs and provide a valuable service to me and the community.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

The changes would negatively impact the current professional services I use for my dog and as a responsible dog owner I can see how much impact the professional walker and trainer has on effective control and training of my dog and the pack that she is walked with.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

I walk 3x dogs everyday. They're easy to walk on lead. We occasionally board 1 or 2 more dogs for friends. It's harder walking other dogs as well. I do see some walking 5 dogs who are being pulled out of control & drop the leads as they can't control their own 1 let alone more than 1.

I walk my 3 on leash at Hobsonville Point/ Catalina Bay early morning 6 days a week. They're easy boys. I don't like encountering off lead dogs whose owners think they don't choose to walk their dog/dogs on lead. We have to wait for them to grab their dog/dogs & pull them to the side. Or stop & wait to see if their dog actually has an owner as dog appears around a corner by itself, or is it a wandering dog stopped, staring at us. There are signs stating all dogs must be on lead. There is an off leash area & another being erected. I usually point this out to errant owners. Some choose to ignore me others argue 'their dogs are well behaved' or 'friendly' or just don't want to'.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Neutering improves hormonal tendencies to fight to prove they're top dog, improve tendencies to roam searching for mates, tendencies to dash across roads to follow a possible mate or possible rival.

It generally calms the dog to get their personality without their bad behaviours as above

As an owner of a miniature schnauzer since 1990 in nZ and UK and BREEDER I wish to be able walk my dog SAFELY.

MY DOG will always be on LEASH.

Places where my DOG is off leash is HIOME.

Two places I walk my dog in Auckland BROWNS BAY and OREWA.

I feel safe is owners walk their dog on leash!

Any dog at any time has the capacity to maul another dog.

In UK there were cases of dog Jack Russell mauling a child in a push chair.

There should be 'dogs on leash' only places.

I walkeds 5 of my own together. My trouble in UK was another dog going for mine.

14 dogs with 3 off leash - No WAY.

If a trouble existed NO WAY COULD A WALKER change tact to put the dog back on leash.

Picking up dog poop - well, I get the bag open and it drops straight in. How about teaching dog owners and walk walkers.

Safety for others without dogs walking. Come on the pic shows 2 lots of 10 dogs together. 20 dogs!!!!! How safe is that. They should not be together.

My dog that I have now is 11 years - 77 years.

I do not take her to dogs offlead fenced parks or DOL areas. The owner can NEVER GUARANTEE SAFETY FOR ANYONE.

cherio JOY. Far North.

I don't wany FNDC to follow Auckland's change. NEVER. More dogs than 4-5 always on a lead unless using the dog park .

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

Two dogs for one person is enough for them to keep the dogs under control at all times - 4 and 6 far too many

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Dogs need access to shady areas, with the ability to roam freely, unleashed in Okoromai Bay. This has always been a dog area, owners know to keep their dogs away from anyone sitting on the grass, eating by the bbqs etc. The placement of a dog poop bin has already made a difference with more owners picking up after their dogs. The on leash rule is overly restricted & not needed.

I don't believe there needs to be a ban of dogs or on leash rule above the boat ramp at Army Bay.

Kiwi were spotted there, I believe is the reason for the change, however the birds don't venture on the beach in daylight hours; this is an unnecessary ban.

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Shakespear Park

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to increased presence of wildlife (e.g. ground nesting birds). Please specify:

What is the main reason you want to change the current dog access rule?

When the new changes to the wetlands at Shakespear are completed, that will hopefully attract more birds. Allowing dogs off leads is a problem. I have personally seen supposedly under-control dogs run off and chase birds even into the water with the owner

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

I have provided evidence in my answer above.

Do you have any further comments about dog access rules at Regional Parks?

As a current regional Park, and beach user and dog owner. I think there should be a blanket rulle.

No dogs in regional parks.

Main public beaches Dog on lesh at all times.

There are too many irresponsible dog owners, now days. Regularly see dogs rushi g kids, elderly, oler dogs, toileting on public seats places children play and sit. Faeces not picked up.

Need more dog off lead areas.

Clarify rule that all dogs classified as menacing must be to neuter:

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

Tell us why

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

The number of dogs that now congregate at Okoromai with multiple owners together specifically at weekends is excessive. When they are all allowed off their leads it is a place to be avoided and even dropping down on to the beach to avoid them is not an option with them running on to the beach at all times of day, whatever the tide or the bird life is doing. If the times are changed to off lease at all hours for the March to Decmber period I will not be the only person who will no longer visit that beach and grasslands even though I live less than 200m from it.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to increased presence of wildlife (e.g. ground nesting birds). Please specify:Cross street to end of Tindals beach

What is the main reason you want to change the current dog access rule?

Dotterel protection.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

The on leash proposal will not be complied with or enforced a total ban is clearer and easier to enforce. The dog being clearly on the beach or not.

There must be greater enforcement of the current and future rules. Currently it is rare if ever any enforcement takes place. Dog owners obviously know this and brazenly ignore the rules and anyone who challenges them. What is the intention for real enforc

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

I am a professional dog walker and routinely walk & offer managed socialization for 10-15 dogs (mostly on private land) and occasionally in public when appropriate. I support licensing dog walkers to handle an appropriate number of dogs according to experience, training, competence, business structure (i.e. risk management & health & safety policy's etc).

The service I offer provides exercise, mental stimulation and appropriate fulfillment for a range of dogs. Some of whom have behavioral issues and would otherwise either not get exercised enough or possibly be a nuisance in public without the training and managed socialization services I provide. With long work hours being a common theme amongst Aucklander's having access to professional dog walkers is very important to our dog owning community.

The proposed limit will only penalise responsible dog owners and will not stop irresponsible people who do not follow existing laws.

Professional dog walkers play a critical role in ensuring dogs are exercised, socialized, and trained, reducing behavioural issues that might otherwise lead to complaints. Arbitrary number limits overlook the skills and training required to walk multiple dogs safely and responsibly. We need a practical, evidence-based approach that includes consultation with industry experts, such as the Professional Dog Walkers Association (PDWA), to create effective solutions.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

I think professional dog walkers should be licenced to walk a large group of dogs. Dog walkers companies will suffer if this limitation on the number of dogs you can walk go ahead.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

issue of dog atrack is the walker or dog owners fault. Regulation on number of dag is not the cure but limited the capacity foe trainer work properly. Please strict the dog walker rules and impose license on them for what they can do and cannot do. Punishment on the wrong doing rather put blanket rules for nhmer of dogs

Maximum four dogs, with no more than two off-leash

Tell us why

I support having 3 dogs off lead but think 6 dogs on a walk is too much and too easy to go badly for surrounding people, dogs and environment/property. Any more than 3-4 dogs are quite a serious pack (particularly if the dogs do not live with each other) the dynamic would be ever changing and never completely under control. The environment is uncontrollable

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash unless licence obtained

Tell us why

A licensing regime makes much more sense. Allow the professional dog walkers to provide the services they currently offer. They are the professionals, they have the training and skills to handle larger numbers of dogs, they understand the breeds. Licensing allows council to know who is doing what and where. It will also help eliminate any rogue dog walking operations. The current proposed dog limits will likely force these professional operations out of business...they will either have to reduce their dog numbers, charge more and disappoint existing customers OR increase there staff and charge more. The businesses won't survive as these services are already expensive as is. Moreover it's easy to forget but no less important that the service these professionals provide helps our dogs get the exercise and socialisation they need which means less anti-social potentially problematic dogs on ours streets.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I don’t believe this will have effect to gain the needed outcomes to provide safety of dogs and people. Having had my own dog attacked twice when out walking this has not been due to the number of dogs but the lack of control owners over their dogs. This rule will only affect dog walking businesses that actually take care of dogs for people who genuinely look after their animals.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I do not support the proposed limit on walking multiple dogs. The proposed limit will only penalise responsible dog owners and will not stop irresponsible people who do not follow existing laws.

Professional dog walkers play a critical role in ensuring dogs are exercised, socialised, and trained, reducing behaviour issues that might otherwise lead to complaints. Arbitrary number limits overlook the skills and training required to walk multiple dogs safely and responsibly. We need a practical, evidence-based approach that includes consultation with industry experts, such as the Professional Dog Walkers Association (PDWA), to create effective solutions.

Auckland has a serious issue with roaming dogs and Council should focus on this, not multiple dog walkers who make up a very small percentage of reported issues.

I support a license being developed to regulate professional dog walkers as they have the skills to handle multiple dogs and provide a valuable service to me and the community. My very anxious French Bulldog goes out with our dog walker every Wednesday and I have seen a massive improvement in their behaviour and socialisation. I love knowing that he is well looked after and exercised on the day he goes out. He looks forward to it every week.

I do not support the proposed change

Tell us why

The Council has not provided and nor do we believe there are any current problems in need of a solution with respect to dog access in the Army Bay and Okoromai areas adjacent to the Regional Park.

We support the prohibition of dogs in the regional park due to its predator free status. We are not aware of any breaches of this and if there had been any significant ones, as local residents, we would almost certainly be aware of them.

Feedback on current access rules and proposed changes:

Okoromai Bay area

1. The proposal to remove the current off-leash area and make the entire grassed area a time and season restriction removes any off-leash area for residents in the Army Bay suburb over the summer months between 10am-5pm.

In our view, the welfare of dogs requires them to have some opportunity to run under control off leash and to provide training. We understand that over summer people use the grass and tree area close to the beach for recreational purposes including picnics.

However, the large grass area at the western end of Okoromai Bay is never used for such purposes and in our experience is almost exclusively used by dog owners. We overlook this grass area and this is based on our own observation. Maintaining the status quo for this area would ensure it continues to be used without causing concern for recreational visitors.

Furthermore, due to the proposed loss of dog exercise areas it is recommended that some compensation is offered by making this grass area at the western end of Okoromai Bay a designated dog exercise area – which could be fenced off.

2. Error in map: There also appears to be a big error with the current and proposed map of the Okoromai Bay Area. The map shows a walking track along the northern perimeter of the large grassed area at the western end of the bay. There is no such section of the walking track. Under this proposals, dog-owners would not be able to access the yellow walking tracks.

3. We also note the newly installed water fountains provide the only opportunity for a dog to gain access to water. Leash access to the water fountains must be retained for the purpose of enabling dogs to have water. Dogs can get extremely dehydrated in summer so it is essential they be able to get access to water. This is an animal welfare issue.

Army Bay area

We have strong concerns around the proposed changes to the Army Bay area.

Access to Army Bay beach

o A key concern is that the map showing the proposed access area appears to prohibit access by dogs at all times to Army Beach – although the beach is marked on the map as being subject to the time and season rule. Currently dog owners access the beach via the boat ramp at the eastern end of the beach or by the steps next to the toilet block.

o From talking to Council officers at the Drop-in session at Whangaparaoa Library on 12 February, it appears this may be an error in the map drafting. Nevertheless, it is very important that we provide this feedback in writing.

o Further, we strongly submit that for health and safety reasons, that the current access from both points needs to be maintained due to the following reasons:

o There are four carpark areas at Army Bay.

- Carpark next to the toilet block for which people use the steps to access the beach. The toilet block also provides the opportunity for dogs and their owners to access the water faucets.
- Carpark next to the boat ramp
- Carpark across Whangaparaoa Road from toilet block (overflow carpark during summer months)
- Carpark next to the Waterfall parking area (to the east of the Army Bay beach area)

o Dog owners use all four carparks due to the level of demand for the carparks. Sometimes the carpark next to the toilet block is full, so they must use the other

carparks. Therefore access must be maintained via both the boat ramp and the steps by the toilet block area.

o If access is prohibited from the carpark next to the toilet block or the overflow carpark across Whangaparaoa Road (and only allowed via the boat ramp), then it will:

o force dog owners to walk alongside the road (as there is no footpath) and this will increase the safety risk.

o remove the ability for dogs and their owners to use the water faucet outside the toilet block. This would create an inhumane situation as dogs require water when exercising.

o If access is prohibited to the beach via the boat ramp (from the two other car parks) – and only available via the steps by the toilet block) then it would again present a health and safety risk as dog owners would be forced to walk alongside the road (due to no footpath) to access the beach.

o Proposed prohibition to eastern end of Army Bay Beach: It is noted that the current access rules show that access east of the boat ramp is subject to a time and season rule. As a regular dog walker, I should point out that there is already a sign on the righthand side of the boat ramp that prohibits dog access east of the boat ramp at all times. What is proposed in ...

Experienced professional dog walkers can judge how many dogs they are able to control.

Depending on the dogs temperment experience of the dog walker the number can very on each walker. Oweners will not risk entrusting their dogs to inexperienced walkers as Vet bills are expensive and they do not want to lose their pets.Bad or unprofessional walkers will soon be out of business. Instead of wasting time and money adding further regulations council should maybe educate the public re responsible dog ownership and how to approach dogs in public places. Children running towards a dog on a leash waving arms and shouting present a danger to themselves and may be bitten. This also applies to adults

We are proposing to clarify the current rules (no change to dog access).
What do you think of this proposed change?
I support the proposed change
Tell us why
This is a precious area and it needs to be protected as best as possible

Te Ārai Regional Park
We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.
What do you think of this proposed change?
I do not support the proposed change
Tell us why
I support North Te Arai but not of the southern beach. If restrictions were to proceed they should not be blanket and could follow other restrictions e.g. dogs can free run before 10 and after 5 and anytime in winter

Waitawa Regional Park
We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

The maximum number of dogs should relate to the size, strength & obedience of the dogs and the strength, competence and skill of the dog walker. In our AGE-FRIENDLY CITY dogs should only be allowed to be off-leash in designated areas where older and younger residents are not at risk of being knocked over. As a toddler our granddaughter was knocked off a picnic bench in Long Bay Beach Park by an exuberant off-leash dog. Sadly the incident left her fearful of animals for a long time, and it took considerable reassurance from her whānau to help her feel comfortable around dogs, cats, horses and even birds! As an advocate for older residents I'm aware that some older folk avoid walking in parks and places where uncontrolled off-leash dogs might knock them over. This limits their access to environmental spaces that enhance their wellbeing.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

It's important to recognise that walks/outings NOT taken by local residents due to anxieties they might feel in response to experiences of poor management of off-leash dogs ultimately compromises their sense of safety & security, whilst coincidentally limiting their physical activity. Tāmaki Makaurau Auckland is a member of the WHO's global network of Age-friendly cities and communities - so should have enabling age-friendly policies that are front and centre of any dog walking policy changes.

Only provide feedback on one location at a time.
Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Waiake Beach

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:North Section (Boat Ramp end)

What is the main reason you want to change the current dog access rule?

Allow a dog to cool off during the day - on leash is fine for a quick swim.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

The summer access rules apply Mon - Sun, for the entire summer, yet only for a very short time over christmas / new year are the beaches busy Mon - Friday. Allowing more On-Leash during the day beaches, with an exclusion of 20 Dec - 30 Jan is more reasonable.

Do you have any further comments about dog access rules at Regional Parks?

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

There are dog pack walkers and then there are PROFESSIONAL pack walkers . We have 2 dogs that we ourselves find difficult to walk yet, our lady sends video footage every day of her pack walks with muliple dogs and ALL ARE UNDER CONTROL. To limit her pack walks is to demise her livelihood and this is not acceptable. Plus her level of understanding of dog behaviour is above all of that of the owners and the decision makers in council/government. Council and government have a nasty habit of broad spectrum control and ********** the consequences to others. You are not focusing on the bigger issues of owners with lack of control.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Clarify rule that all dogs classified as menacing must be to neuter:

Do not support

Tell us why

I have an issue with your terminology of ‘menacing’. This term seems to be breed biased. Your imagery is also breed biased (Rottweiler). Where’s the picture of a snarling chihuahua\pomeranian? Historically, the biggest biter is the golden retriever, yet I don’t see them on the ‘menacing/nuisance list. This is because they are not a nuisance breed but, they are amazing assistance dogs, however, as always it’s stupid people doing stupid things and the dog reacts to fight or flight. I believe that All dogs should be neutered. Not just the ‘menacing’ breeds. I believe there should be more emphases on control laws on the breeding in the known problem areas. Rescues are overwhelmed with the amount of neglected, abused pups that are found daily. Your answer is simply collect the nuisance breeds and destroy them. This is obscene. Find the irresponsible breeders and

punish them not the dogs. Make the laws tougher on the breeders. Clearly the decision makers in council/government have never taken time out to understand the bully breeds and that they are in fact one of the most family friendly dogs, integrated well they are brilliant with other dogs, cats,and farm life, however, when mismanaged there can be problems but this is no different to poodles, chihuahuas and any other small snippy dog. I have witnessed more aggression from the smaller dogs than the larger breeds. We have rescued 5 dogs since being in NZ which you would class as nuisance breeds yet we are on the responsible dog owners list..... go figure!

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Do not support

Tell us why

I do not trust that your assessors would be non biased. All I heard from the council representatives yesterday was “legislations say”. “We just have to follow legislation”. Auckland council is a group of biased dog haters and I don’t trust in the slightest. I have spoken to SPCA and again if they were to come out and assess they confirmed that the bully breeds a simply destroyed and no time is given to the testing. I would want to find an independent professional behaviorist that is not connected to government.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

I don’t know

Tell us why

I believe with the amount of neglected animals in certain and very well known areas of Auckland that they should require multiple dog permits. However, these are generally the people who don’t abide by the rules now, so I don’t see how enforcing this legislation will change the current situation in the problem areas, plus no one seems to want to enter these areas to police it. Again it would only affect the the rule abiding dog owners and mostly in the pocket.

What do you think of this proposed change?

Other (please explain below)

Tell us why

For all who live in this area Okoramai is known as the ‘Dog beach’. Frequented daily and for the 21 years of living here by multiple dog owners and to the best of my knowledge never been any problems. This area is not a main tourist beach and even if it were banned as a dog beach, I would never use this beach for pleasure as it’s mud flats, Especially not when Shakespeare Park is right next door with its beautiful parkland and stunning clear

waters. I would like to see Okoramai Bay designated as a true dog beach with no time restrictions and under control off leash at all times.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Manly Beach

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

Keep current restrictions during weekends, school and public holidays and under control off leash at all other times

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

I spend most of my spare time at Manly beach and it's empty most of the time (including school holidays). At 5pm there's an influx of dogs & their owners. I propose that the current limitations are applied during weekends, school holidays, public holidays only. However, dogs allowed under control, off leash at all other times. Reducing the influx at 5pm & any potential issues that could occur due to so many dogs being there at one time.

This would allow people to spread the walks out throughout the day and stop the inhabitants that live from getting upset that there's so many dogs at one time.

Do you have any further comments about dog access rules at Regional Parks?

Do you have any further comments on the proposed policy and bylaw changes?

As stated, the times need to be more specific, places need to be more defined, especially on the beach and walkway, and someone employed to make sure people are keeping to the rules because they are not and when you point out that dogs are not meant to be running wild on the beach at a certain tome you get abuse back! I've been verbally abilused on a few occasions for pointing out the rule to people. Dog owners don't care about the rules full stop!

There isn't much point putting changes in place when people don't follow the rules anyway.... there is no such thing as "under control off-leash" how are they under control when the owner is miles up the beach etc and the dog is running round people walking and umping up on them. A dog cannot be under control when off a leash.

Tāpapakanga Regional Park

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I do not support the proposed change of limiting the number of dogs a person can walk in a council-controlled public space. The current regulations seem adequate and allow for responsible dog walking, ensuring that owners can manage their pets effectively. By limiting the number of dogs, it may create challenges for people who have well-trained dogs and can handle multiple pets at once.

Additionally, many people walk dogs as a job or for a living, and limiting the number of dogs they can walk at one time could impact their livelihood. Professional dog walkers often have experience in managing multiple dogs safely and efficiently. Imposing this restriction could make it more difficult for them to run their businesses or provide affordable and reliable services to their clients.

No change to the current rules would allow responsible dog owners and professional dog walkers to continue their routines without unnecessary restrictions, while still ensuring the safety and comfort of the public space.

I would really like to see dogs banned from Long Bay Regional Park - and an alternative off-leash area provided for dogs and their owners somewhere nearby. Long Bay id a marine reserve and we need to exclude dogs in order to support wildlife survival and restoration.

I would also like to to much more compliance by way of council officers issuing instant fines to dog owners who ignore the rules.

Finally I want to see more measures that help to exclude dogs from waterways - thereby helping to lessen erosion and protect wildlife.

I reject the proposed amendments to the bylaw and policy because they don't make sufficient efforts to protect nature from the impacts of dogs

The Auckland-wide dog rules should require that dogs be prohibited from all Kauri Forest area to prevent the spread of Kauri Dieback

The Auckland-wide dog rules should require that dogs must be on lead and under control in all natural forest, riparian, and estuarine areas unless specific provision is made to permit them.

Council should enforce instant fines for anyone breaching dog walking rules.

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

It's not fair at all, so many people from the community enjoy walking the dogs at Long Bay. Is the only place to walk dogs for some people.

Dogs are already not allowed in the grass area or the trails. It's not fair to prohibit them during the summer between 10am to 5pm.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

There should be at least part of the beach with dog access. It’s a huge beach and is not busy at all. And dogs are being ban but not fishermen? Fishermen do more harm to the wildlife then dogs. We need some space at the beach where dogs are allowed.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I am a dog owner myself and have had several different breeds and I know dogs are pack animals and are likely to stick to the majority in the event of a fight. Dogs are unpredictable and you can never truly know how they may or may not react. Reducing the number of animals in the situation reduces the risk of a tragic or fatal situation.

I also feel that, walking your own one or maybe two dogs is very different to walking 6 of someone else's dogs, you will know even less about the likely or unlikely behaviours of those dogs and therefore are taking a huge risk whilst walking 3 or more, particularly larger breeds.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

I support the proposed change

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

I feel like this is a great improvement. There is limited opportunities for dogs to be exercised in this area of Auckland and I feel this is a fair distribution of space for both people and dogs to enjoy.

I also agree with no dogs in food areas as I think this keeps everyone safe and avoids any unnecessary accidents.

Hunua Ranges Regional Park

I think this is a good improvement as these are large areas which could be respectfully enjoyed by both dogs and people. Allowing dogs on leash instead of prohibited makes it easier for dog owners to be able to enjoy the areas within the boundaries.

Only provide feedback on one location at a time.

What is the full name of the location where you want to change the dog access rules?

Hatfield's Beach

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

To respond to dogs and owners being able to access water exercise during the warmer months, with respect for families by doing so on leash during peak times

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

During the summer dogs are prohibited between 10am-5pm currently. I propose that at this particular beach, given there is a high volume of dog owners in the area and both Orewa and Waiwera (surrounding) having restrictions during summer months, this would enable access to water exercise during the warmer months with respect for people, maintaining on leash under control, would mean dogs could access the beach without potential issues. I also think this could work well as there is the option for families who do not wish to interact with dogs to choose Orewa beach, just 2 km away, that still has restrictions for dogs during these busier months.

Do you have any further comments about dog access rules at Regional Parks?

No change to current Policy (dog access) rules

The current off leash area is a valuable space to safely exercise dogs, away from the general Botanic Garden public. Limiting the space or access times gives less opportunities to safely allow dogs to run in Auckland, as there are already very few locations allowing off leash areas.

I do not support the proposed change

Tell us why

Long Bay beach is the only North Shore beach you can take dogs after 10am in summer to cool down, when it's too hot to exercise them elsewhere.

Rules should remain on leash 10am-5pm as dogs are under control and don't pose a risk to the public. A large amount of local dog owners use the space during these times and it would be a huge shame to take that away, giving less access to locals who respect and take care of Long Bay.

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I support the proposed change

Tell us why

Children, people who do not like dogs plus birds and other wildlife do not want dogs in their spaces. Green spaces where people eat and relax.

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Shakespear Regional Park

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Rules can be changed but there is not enough Wardens to enforce the rules

Dogs should not be permitted in Regional Parks. There are plenty of other places for dogs to be exercised. Wildlife should be protected.

2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

What do you think of this proposed change?

I support the proposed change

Tell us why

The proposed changes provide better protection for native species, while still allowing ample recreational opportunities for dog owners and their dogs. In particular, the new prohibition east of boatramp at Army Bay is critically important.

In our on-line submission we expressed our support for the proposed rules at Army Bay Beach and foreshore. We would like to stress the importance of having the area east of the boat ramp prohibited for dogs (as in the new proposal).

The rest of Army Bay Beach has dogs allowed, including off-leash (under control) during certain times. It is logical for this beach therefore to have an area where dogs are fully prohibited, to provide respite to avifauna. Reasons include:

- even well behaved dogs can be hard to recall when they are caught up in chasing a bird

- even if a dog does not physically catch a bird, the disturbance cis often significant and interferes with food uptake, metabolic rate, and hence survival, especially if it happens several times each day

- even just seeing a dog being walked on a leash could be too disruptive to some birds

Wildlife on Army Bay beach and foreshore that requires protection include:

- waders (e.g. oystercatchers)

- red billed gulls

- little blue penguin can not be ruled out

- any native species making their way around the fence end of the Sanctuary from time to time

Therefore, if any presence off-leash continues to be allowed on Army Bay Beach (as it is proposed), a refuge area without dogs definitely has to be included as well.

Thank you for this opportunity to provide feedback

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I am a volunteer that maintains a monitoring line and trap line on the outside of the sanctuary fence between Army Bay and Okoromai Bay that allows dogs off the leash. I have several instants of dogs off leash but not under the control of the owners The latest occurrence was at Okoromai Bay on 22 January 2025 when 2 large dogs came over to see me retrieving monitoring card while the 2 owners were in deep conversation about 100 metres away not looking for their dogs. The Little Spotted Kiwi has been found in this area by your (Auckland Council) wildlife cameras, so your suggested regulation endangers our

native symbol, which is not good PR for Auckland Council especially if a Little Spotted Kiwi is killed by a off leash dog. I recommend that dogs are kept on leash for their entire time they are in the Army Bay to Okoromai Bay area.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

What is the main reason you want to change the current dog access rule?

Auckland Council will not be responsible for killing Little Spotted Kiwis

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

In the area from Army Bay to Okoromai Bay all dogs should be on leash all the time. 22 January 2025 was the latest example of owners not controlling their dogs as 2 large dogs ran to see me retrieve a monitoring card while their 2 owners were in deep conversation a 100 meters away not knowing where their dogs were.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Dogs need off-leash time for their health and wellbeing. Not everyone can walk their dogs during the proposed off-leash times.

The proposal mentions balance, I believe the current rules at Shakespear rational park already offer that balance. The grassed areas of Okoromai Bay are not well frequented during weekday day times by non-dog owners, so it seems unreasonable to remove this fantastic facility for dogs to enjoy their off-leash time during the day, for no real benefit to the wider public.

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Dogs as long as they are controlled should be allowed to walk at any time within the current guidelines. The restrictions for summer between 10am & 5pm not being allowed to walk your dog at all are too strict, as long as they are in lead it should be allowed. The current rules in place should continue as is.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I disagree with the proposed limit of 6 dogs at any one time (with three being off-leash). This change will negatively affect professional dog walkers.

I have a dog walker who picks my dog up, takes him out for exercise/walks when I'm at work. Our dog walker is professional and has years of experience walking and training dogs. She currently walks around 10-12 dogs. Some are on a lead / harness attached to her but the majority of dogs are off lead (in off-lead forests/areas) but every single dog on the walk/off-lead has 100% recall and has built a rapport with her.

This will have such a huge impact as it will also mean there will be more and more 'cowboys' taking up dog walking with absolutely no experience. This unfairly targets responsible dog walkers and will have absolutely no impact on the real issue - roaming dogs and irresponsible dog owners.

I strongly encourage Auckland Council to have open discussions with the industry (professional trainers / walkers) to fully understand the impacts and discuss the best outcome.

Many dogs will now not get the exercise they need, especially when most of us are now back in the office full time, and this could lead to larger behavioural issues in Auckland dogs.

We pay our annual dog registration but I never see any communication from council with tips or educational material to support dog owners. There are lots of inexperienced dog owners and this is the perfect way to inform / educate people as you have a database of all dog owners in Auckland!

Our household also fosters dogs for a dog rehoming organisation and will really notice the negative impacts this will have on dogs in Auckland.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Other (please explain below)

Tell us why

Option 1A - DO NOT SUPPORT

The proposed limit of six dogs, with a minimum of three off-leash fails to address the real issues effecting the dog community, such as owners/walkers who lack control over their dogs and roaming dogs. This proposed limit unfairly penalises professional dog walkers who already handle multiple dogs responsibly.

Professional dog walkers play a critical role in ensuring dogs are exercised, socialised and trained, which helps reduce behavioural issues that might otherwise lead to complaints. Sending my dog on professional pack walks has been extremely beneficial for her learning to read other dogs, respecting the space of others and understanding acceptable behaviour when off-leash. Her training with her professional dog walkers has also helped me immensely as a first time dog owner.

Professional dog walkers train their packs to calmly sit to the side to let other dog walkers, the public (both human and dogs) and animals (such as horses) to pass safely. They are very aware of their surroundings and their packs' awareness and discipline reflect this.

When my dog goes walking with her professional dog walkers, I know she is always in a safe and well-managed situation. There is a greater risk of "friendly" uncontrolled dogs charging other dogs and people at the beach, which then results in a reactive dog and/or scared owner or member of the public.

Arbitrary number limits overlook the skills and training required to walk multiple dogs safely and responsibly. We need a practical, evidence based approach that includes consultation with industry experts, such as the Professional Dog Walkers Association (PDWA) to create effective solutions.

OPTION 1B - ALTERNATIVE OPTION SUGGESTION

Introduce a licensing system for professional dog walkers, allowing them to operate with higher dog limits (e.g. up to 15 dogs) based on training, certification, and adherence to a code of conduct. Licencing would:

- Ensure high standards and safe practices among professionals.
- Provide the Council with the ability to monitor and enforce compliance.
- Allow professional dog walkers with proven skills to continue operating without arbitrary restrictions.

Explanation:

A licensing system is a better solution than imposing blanket limits. It recognises the expertise of professional dog walkers and ensures safety and accountability while addressing community concerns. This approach would also allow council resources to focus on more pressing issues like roaming and barking dogs, which makes up the majority of complaints.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

North

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

Orewa has almost 1 dog per person

The beach is covered in dogs

And I love animals but it feels like an animal toilet

3ven with the dogs urinating everywhere

Lots of faeces not picked up or kicked into the water

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

To provide a time when there isn't dogs on the beach

It's yuck going in the water when the tide comes in and dog fasces is near the shoreline or in the water

Thanku for the amazing job you do at all locations.

You are all amazing people

So not support, also engagement and consultation for dog owners in these places has been invisible , a stand every weekend in Long Bay before 10am would have got lots of engagement of affected people and dogs, instead there has been absolutely nothing where the actual people are, too under radar, consultation should be extended and engage with communities properly,

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I do not support the proposed limit on walking multiple dogs.

The proposed limit will only penalise responsible dog owners and will not stop irresponsible people who do not follow existing laws.

Professional dog walkers play a critical role in ensuring dogs are exercised, socialized, and trained, reducing behavioural issues that might otherwise lead to complaints. Arbitrary number limits overlook the skills and training required to walk multiple dogs safely and responsibly. We need a practical, evidence-based approach that includes consultation with industry experts, such as the Professional Dog Walkers Association (PDWA), to create effective solutions.

Auckland has a serious issue with roaming dogs and Council should focus on this, not multiple dog walkers who make up a very small percentage of reported issues.

I support a license being developed to regulate professional dog walkers as they have the skills to handle multiple dogs and provide a valuable service to me and the community.

My dog goes out with a dog walker for pack walks every week and I have seen a massive improvement in their behaviour and socialisation, I love knowing that they are well looked after and exercised on the days they go out.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

It's hard for one person to control multiple dogs. I have seen people struggle and several close calls where either someone could have been hurt or dogs were fighting.

It's safer

There is no way the dogs can get up the cliffs at the eastern end of the Army Bay into the Sanctuary. It gives more space for the dogs and their walkers if they can access both ends of the beach. While I understand you want to protect wildlife, if you really are serious about widelife protection I'd recommend removing access altogether for humans and dogs in the tracks mentioned in section c of the proposed changes. People do damage too and it feels unfair to prohibit dogs when they are only part of the problem. In my experience dogs often stay very close to their owners, if so if they go off the track when off leash they are often doing as their owner allows. I'd prefer you either ban humans and dogs, or make this on-leash.

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Big Manly Beach

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

In addition - if you are serious about protecting the birds- ban all foot traffic - ie humans too from cross street to the Tindalls Bay headland

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

People walking the nesting area or even close too it stress the birds out as much as dogs. So why punish dogs and dog owners - if the desired outcome is a growth in the bird population then do the job properly and ban all foot traffic (human, dog, other) from Cross street to the Tindalls bay headland, and don't allow the use of the boat ramp on the

eastern side of the beach as I am sure cars driving around that area also poses a risk to the birds.

I also think someone needs to look at this a little more balanced and consider the incredibly positive impact that dogs have on society. They make us calm, happy, content, and provide a great source of comfort for lonely people or people with mental health issues, all of which are good for society as a whole. They are sentient beings who deserve to have a wholesome and enriched life and it does feel that taking away access to off leash areas that provide them with a means to have their needs filled will make things stressful for dog owners and dogs alike. There is a reason that the dog population of Auckland has grown - people get HUGE benefit from having pets.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Dogs contained on properties cause more issues than dogs that are walked by responsible owners. If there is not enough space to exercise dogs even more issues will occur. If dog walkers who are trained, responsible and have excellent reputations cannot make a living more dogs will be home alone all day barking and causing issues.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

6 dogs is just too many for any one to control at one time.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

Our beaches mostly during the week are empty then come times dogs can go on beach there is an influx of them.

Outside of summer all beaches should be available for dogs all times, this would spread out dogs in beach rather than them all arriving at set ti

As a diploma vet nurse I have been exposed to many different dog walkers and 99.9% of them are amazing responsible professionals! they provide joy, enrichment, training and exercise for dogs. whilst there has undeniably been a very small percentage of dog walkers with incidents this should not effect a whole industry. alot of pack walkers own many dogs of there own and use them as role models to the dogs they walk and to establish a pack system, this automatically raises the number of dogs yet increases safety.

Another concern I have is If only 3 dogs are aloud off leash you are severally limiting the experiences and services available to dogs. I also believe this restricts many average people who own dogs, as a vet nurse I know of many people who own 3 or more dogs responsibly. is this to say people with more that 3 dogs between them or people they choose to walk with socially have to pick and choose which dogs get to freely exercise?!

as a veterinary professional we are educated on the effects of desexing dogs. it is highly unusual that you only want to consider neutering but not spaying. overall I think it is a bad idea that could have effects in the dogs health if they are nurtured before they have reached a certain stage in their growth and development. there is alot to be said for the

effects of hormones on a dog's development! the neutering of a dog is also in no way a garentie that behavior would change and it is in no way a solution to a problem. a better solution is dog training which dog walkers also provide!

I think there is a terrible bias towards certain dog breeds. a personal experience is trying to seek training for my rottweiler and being turned down from public classes without even meeting my dog due to the breed. I am also deeply concerned by Auckland Council’s plan to increase on-leash and dog-free areas. These restrictions further reduce dogs' access to exercise and socialisation—key factors in preventing behavioural issues. It seems clear that dog welfare is not the Council’s priority, as these proposals not only limit safe exercise spaces but also restrict access to trained professionals who can provide it.

a key factors of animal welfare are the “5 freedoms", one of these main pillars is freedom to express natural behavior. it is natural for a dog to run freely!

I think there has been an overall lack of insight from professionals in the animal welfare, medical, training and walking community.

Dogs are still being taken into the Dotteral nesting area at the north of Waiwera BEach even thought there are signs restricting this. It is not clear where the line of restriction starts on the beach and on the foreshore. If dogs are prohibited north of

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

I have already commented above about the reason for prohibiting dogs on the beach and long The STrand north of Waiwera Road. The signs athe end of the Strand are not clear and people still takes there dogs along beach and out to Waiwera River chasing dotterals and oyster catchers that roost there.

I would also like to see a requirement that dogs must be on a leash when using the foreshore south of WaIwera Road. 50% of dog walkers do not pick up their poo and pretend they didnt see the dog do it. Dogs also run up to people and children picnicing on the forshore.

Since covid dog ownership has multiplied and dosent matter which regional park you visit many people are abusing the rules and are very 'entitled' on their attitude towards their dog

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I am writing to express my strong opposition to the proposed amendment to the Auckland Dog Bylaw, which seeks to limit the number of dogs that can be walked by a single person to six. While I appreciate the intent behind ensuring responsible dog ownership and public safety, I believe this restriction is unnecessary and could have unintended negative consequences.

Many professional dog walkers and responsible owners are fully capable of managing more than six dogs safely and effectively. Arbitrarily capping the number at six disregards their experience, training, and ability to maintain control in public spaces. Instead of imposing a blanket restriction, a more balanced approach—such as a licensing or accreditation system for professional dog walkers—would be more effective in ensuring responsible handling without penalizing those who are already managing their dogs competently.

This change could also have unintended consequences, such as an increase in unqualified and inexperienced individuals offering dog-walking services. Instead of addressing genuine concerns around dog control, the bylaw would push out responsible professionals while doing nothing to curb the real issues—roaming dogs and irresponsible ownership.

Furthermore, this change could significantly impact dog owners who rely on professional walkers, particularly those who work full-time, are elderly, or have mobility challenges. A reduced capacity for dog walking services could lead to higher costs, fewer options for owners, and ultimately, less exercise and socialisation for dogs—affecting their overall well-being.

I urge the council to reconsider this proposal and explore alternative measures that promote responsible dog walking without imposing unnecessary limitations on experienced handlers. Thank you for considering this submission.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to increased presence of wildlife (e.g. ground nesting birds). Please specify:

What is the main reason you want to change the current dog access rule?

In response to tuturiwhatu/NZ Dotterel (and torea pango/Variable Oystercatcher)nests on the beach.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

As dotterels do not always nest in the same part of the

beach, the Council's proposed option does not sufficiently reduce risk to the

dotterels. It does not prevent people from getting too

close to nests causing the birds to be flushed off and

leaving eggs vulnerable to predation and the elements. It

also does not prevent people walking their dogs directly

up to a nest. The year round option in particular causes

conflict with many dog owners.

The alternative option I support, agreed by Hibiscus Coast Forest & Bird and Dog Friends Auckland is:--

The current time and season rule (a total ban of dogs on the beaches between 10.00am and 17.00pm from December 1st to March 1st) should remain.

During bird nesting season 1st September – 31st March:

Dogs must be on a lead at all times within a zone of 200m around a marked dotterel nest.

Dogs are prohibited from entering the 50m cordoned off zone around the nest itself.

Enforcement is key to the success of these rules and to Protect rare and endangered Breeding Birds.

Regular visits by Council Enforcement staff are essential at Manley & Tindals beaches for these bylaws to be effective.

Our Dotterel minders are often put in a very difficult position by Dog owners who have no intent of complying with any of the Dog bylaws.

Signage at the entry point on the beaches needs to be simple and clear - currently way too much information trying to cover a number of topics on the signs - Simple Dogs sign with the key information that can be swapped out each season.

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Pākiri Regional Park,Shakespear Regional Park,Wenderholm Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

Proposed alternative

- Evidence based – both through scientific literature and experience gained over 4 years of observation interactions between dotterels and dogs at Big Manly.
- Developed in partnership with Dog Friends Auckland.
- An ideal pilot which has longevity and can be replicated.
- Anecdotal feedback from the community is very positive.

A clear option:

1. Dogs must be on leads within 200m of a marked dotterel nest
2. Dogs prohibited from being within a marked area of 50m around a dotterel nest.
3. All other seasonal rules apply.

- This is for the duration of when the nest is active, so from when the first egg is laid, (incubation is around 30 days) until the chicks have fledged, (average 6 weeks) to continue to provide a safe zone for them to forage.

TE REO O TE TAIAO | Giving Nature a Voice

The need to increase protection for dotterels at Big Manly

- There are less than 2500 Northern New Zealand dotterels left. (There are 24,500 NI Brown Kiwi)
- They are classified as “At Risk” and where there are conservation efforts, they are beginning to recover. Local people are excited to see them here.
- They are protected under the Wildlife Act so we have a legal as well as ethical duty to protect this taonga species.
- This is their home. As the Hibiscus Coast becomes more populated and there are also more visitors, we have significantly reduced their options for nesting sites.
- They have nowhere else to go, so we must meet the challenge of sharing our space. This will need a community based decision.

Forest & Bird
TE REO O TE TAIAO | Giving Nature a Voice

The risk & recommendations

- This year 12 eggs were laid across Big Manly-Tindalls. No chicks fledged this year (or last). Disturbance is a primary factor.
- One bird was killed at Big Manly, with the veterinary report showing crushing injuries consistent with dog attack.
- [redacted]
- There are many natural threats, some of which are increasing such as extreme weather events. Some threats we can control, such as introduced predators and human related threats eg people too close, vehicles on beaches, loose dogs.

Forest & Bird
TE REO O TE TAIAO | Giving Nature a Voice

Reducing the risk

- Flushing – dotterels leave their nest when a potential predator approaches*. This is a common shorebird responses and there is evidence* to suggest that it is a primary cause of low hatching success in birds frequently exposed to human activity. Eg dog walking.
- Research shows that they are flushed from their nests earlier and stayed off them for longer when approached by a person leading a dog compared to when the person was walking or running.*
- The average flush distance from running/walking was 64.1m, from walking with a dog the average was 93.7m.
- Experts recommend that human activity, particularly the walking of dogs is limited near nesting sites.
- Evidence suggests that our proposal outlined here will reduce the disruption of incubation.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Orewa beach - northern end

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:maybe around ardunel park

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

i understand that the estuary provides dog access but having a small section at the beach during summer would be fantastic

You can make all these changes, but you don't enforce them. I walk on Orewa Beach and there are always dogs on the beach at any time during restricted hours. Several friends have been bowled with serious injuries as owners have no control of big dogs. I've called the dog warden and the dog walkers have ignored the warden and carried on (not leaving the beach). You need to fine a few so the word gets around, otherwise you might as well get rid of the wardens.

Orewa Beach:- First the developers polluted the beach with clay run off during heavy rain in 2018, council took no action! Orewa beach has also become a dog toilet with all the new houses inland having dogs but no gardens.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash unless licence obtained

Tell us why

It is important that dogs excrement is taken care of max 1 person can look after is 4

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Dogs off leash are a pest when people are wanting to eat in the area.

Do you have any further comments about dog access rules at Regional Parks?

A large population use this area as an outdoor eating place. There are far too many uncontrolled dogs who become a pest around other people's food. Time on beach should be restricted to before 9.00 and after 6.00. Summer from 1st Nov to 31st April**Dogs off leash are very difficult for even the best dog owners to control in all o Auckland's parks there are dangers to bird life from uncontrolled dogs. This should become a priority.**

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Imposing a limit will not address the issue. Responsible pack walkers and the dogs they care for are not the problem and there is little to no evidence of multiples of dogs being walked is causing a nuisance to or distressing the public. Roaming dogs cause a far larger and more widespread issue. The proposed policy to reduce the numbers of dogs being walked simultaneously seems to be an over-reaction to pander to public who do not understand the issues at hand. Instead, licensing for dog owners and walkers who walk multiples of dogs at the same time should be introduced. This could be used to ensure that those who walk multiples of dogs are behaving responsibly and can be used to address known and evidenced issues.

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Long Bay Regional Park

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

Provide a fenced off-leash area on the grass in the park that can be accessed from both the southern and northern ends of the park (and from the beach). A good location would be the flat fields at the very northern end of the carpark (just before the gate

What is the main reason you want to change the current dog access rule?

The beach is not always a suitable location for dog walking due to weather, tides, and lots of people (and the new proposed summer restrictions). The LB Regional Park has ample space for a fenced dog exercise area that can be used at all times in all weat

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

There is nowhere on the North Shore suitable for off-leash dog exercise, training, and socialisation. The closest fenced dog parks are at Hobsonville and Pamoremo which are not viable options for regular use by East Coast Bays dog owners.

There are thousands of Dogs on the North Shore and with increased housing intensification, many owners have little or no outside space and must rely on public parks to exercise, train, and socialise their dogs. As council rules state that dogs must be under voice control when off-leash it's essential that purpose-built fenced areas be provided to

allow owners to train their dogs so they can achieve off-leash voice control. It's impossible to train a dog to be off-leash if there's no where safe and contained to train them.

While the beach at Long Bay Regional Park is a wonderful asset for dog owners, it is not fenced so is not suitable for dogs with poor recall. There are also limitations for use due to tides, weather, other beach users (including young children).

As Long Bay Regional park is already a popular destination for North Shore Dog owners, and there is plenty of flat vacant land available at the north end, it makes sense to site a properly fenced dog exercising area there with its own parking, water source, and bin. The dog park could be situated with vehicle access from Glenvar Ridge Road (as per the image attached), plus on-leash walking access from the Northern (Long Bay Village) entrance along Glenvar Ridge Road. Allowing walking access would reduce traffic congestion and encourage owners and their dogs to exercise. This proposal would not impact current park/beach users as the parking and access to the dog park is well away from the park and as long as walking dogs are strictly on leash until inside the fenced dog exercise area there would be no impact on wildlife.

Thank you for your consideration.

Do you have any further comments about dog access rules at Regional Parks?

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

I think professional dog walkers would have the ability to control their dog pack and therefore perhaps a licence system whereby they need to prove their skills would work better.

I think it is important dog owners are fully aware of these proposed changes prior to new rules being set so they have an opportunity to have a say. Promulgation to all registered dog owners should occur as these are the people that it is mostly impacting.

Need to clarify and promulgate intended access rules. Limitation of access will widely impact responsible dog owners and they should be fully aware prior to changes being passed.

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

I think there needs to be wider awareness of the impact of the changes for dog owners. It seems reasonable to send these proposed changes to all dog owners as it will impact them directly. Most dog owners are responsible and it feels that they are being punished for the small percentage of dog owners who do not look after their dogs in public spaces adequately.

I think it is a shame that there are more restrictions being put in place. I think more education around expectations would be a more positive position rather than impacting all dog owners for a small group of dog owners who are not responsible.

I support that one person should be in control of no more than 6 dogs at a time. I do not agree with 3 being off leash and 3 on leash. I think if people are able to control their dogs as small dog owners feel they can have their dogs off Lesh and when they run up aggressively to big dogs on lead and the dog reacts they blame the big dogs all dogs should follow the rules.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Along the 24.5KM coastline from Goat Island to Te Arai Point council are proposing to remove all Dog access (As part of this review Pakiri Beach adjacent to the regional park is also being proposed to move to PROHIBITED from the current OFF LEASH).

I believe that retaining dog access to Forestry Beach would be the best location and option for dog access along this coastline. It would future proof for growing needs from the local population of dog owners and for visitors with dogs. It would give dog owners somewhere they are allowed rather than ignoring the rules. The proposed area for dog access that council have put forward is miniscule and not suitable to be called a dog exercise area for now let alone for future growth.

Forestry Beach would be the best location to retain dog access along this coastline as it has the Te Arai Links golf course and 60 home subdivision alongside it. Helicopters are ferrying golfers to and from this course, often over the beach, which is open to the public and not club members only (as Tara Iti is).

Forestry Beach is only 25 mins drive from the Wayby Valley Road turnoff from SH1. With the planned extension of the Northern Motorway to go to Wellsford it will make Forestry Beach a more popular option for day trippers.

As a dog owner, if you choose to send your dog on a pack walk, you should make sure you have sent them with someone who has experience and training. Tell us why

I believe it is impossible to proficiently control large numbers of dogs that are not walked by an owner. Dogs lack of response to non owners is to be expected. It is also impossible to control a pack of dogs off leash that perhaps have never met each other and do not know the dog walker. Quite simply it is not in a dogs nature to respond well to anyone other than their owner.

I do not support the proposed change

Tell us why

As a council with an ever expanding base of dog owners you are not providing new dog areas for people to exercise their dogs. Your current dog laws are not acknowledging the worldwide movement to accepting dogs everywhere in everyday life. You are still draconian in your thinking in where dogs should be and the punishment that should befall a dog should it step out of line.

1. Dogs to be well rounded and social need interaction from a young age with other dogs. If this is allowed many issues of reactive, aggressive dogs would be overcome. However, there are very limited areas secure for dogs to learn these skills.

2. Many dogs need a great deal of exercise. Running and playing with other dogs is far more effective than 20 times round the block. More such spaces where dogs get priority are needed.

3. You ban dogs from beaches in summer from 10 to 5pm and it is an insane rule. Why, because during the week days, after school returns, the beaches are deserted during the days. Then after schools out and work finishes the beaches become busy just when dog owners are allowed to take their dogs off leash. It is daft beyond question. Whoever thought it a good idea. Dogs should be allowed to frequent beaches all day long during the week year round. I counted 4 people at Browns Bay and about 8 at Long Bay last week.

4. You want people to get out and about and be healthy but walking a dog around urban areas isn't exciting. I would like to walk to Oakura over the Long Bay hills with a dog. I would like to walk through the Waitakeres with a dog. I would like to walk Muriwai with a dog. I would like the opportunity to say let's go explore this track and know I can have the company of my dog. Dogs are banned from just about every possible place I xan think of taking them for a bush walk and from these bylaw changes you just want to squeeze digs out more and more. You words in the intro are hollow.

Why can't dogs be on any beach during weekdays anytime and restricted times on weekends, with restricted or prohibited areas for special bird breeding populations.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

All regional parks and beaches East Coast Bays to Pakiri.

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

I cannot understand why you continue to limit dogs on beaches during summer when the beaches are literally deserted once January is over.

There has to be a progressive view on the value of dogs to society and individual owners. If you don't wish to allow

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

I want the dog access rules freed up across the greater Auckland area. I want access to deserted beaches at anytime of the day. I want to decide to go on a tramp and be able to take my dog on or off leash. My taxpayer dollars helped provide all these areas and most cannot be enjoyed with our dog. We can't decide to go jump in the car and explore different areas or go for picnics to different beaches because 99% of the time our dog can't go. It's ridiculous.

Council either needs to provide far more designated anytime dog access areas or open up the only places we can run dogs freely, the beaches.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

It is doubtful that someone walking 6 dogs 3 o9f which are off leash will have control of the off leash dogs. It is illogical to permit 3 off leash and 3 on. This is trying to have a bob each way so no o0ne is offended. It is either 6 on leash or 6 off. Clearly to protect the public, like we protect birdlife in some areas, all dogs should be on leash as no owner can guarantee their dogs are under control. When will we treat our children the same as birdlife.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Maximum number of dogs per person should be 2 and on public beaches they should be on leashes when walking on beaches. Beaches are primarily for people and their families to enjoy without dogs running at them and around them and urinating and pooing on the same grounds they are lying on and children playing in. Children love playing with sticks on the beach and invariably they pick them up to do that and dogs have already urinated on.them.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

This is a reasonable number for one person to maintain control of - such as a 'professional' dog walker - more than this is dangerous for the dog walker, the dogs and other park or road users.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

I support that a person trained in dog behaviour be required to asses such dogs rather than any person such as a neighbour who may have a grievance with the owner and is claiming the dog is aggressive to get at the dog's owner.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

I don’t know

Tell us why

Depends on what you mean by multiple dogs - is that 2+ or more than 2?

Clarify how dog access rules are set:

Support

Tell us why

It is helpful for dog owners to expect the consistent rules, for instance if they take their dog with them in the car and need to let them out for exercise in a different park or beach from the one they usually go to.

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Maximum four dogs, with no more than two off-leash unless licence obtained

Tell us why

It is problematic when regular dog owners or inexperienced professional dog walkers have no control over multiple off leash dogs. These people should be limited in the number of dogs in their group.

It is less problematic when there is an experienced walker who is trained/has qualification and has full control of their off leash dogs. If these individuals were able to apply for a license and pass a test/supply their qualifications then it would give busy aucklanders a way for their dogs to be walked for a reasonable price. If these experienced walkers had small numbers they would have to increase their prices to make their business viable which would increase cost for users.

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Ambury Regional Park,Auckland Botanic Gardens,Muriwai Regional Park,Shakespear Regional Park,Wenderholm Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I support the proposed change

Tell us why

I support clarifying the existing rules.

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

I support the proposed change

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I think this is a reasonable clarification of the rules, but signage should be very clear. I think dogs should be allowed to go through the visitor centre as it's a main entrance to the gardens.

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

Tell us why

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

Other (please explain below)

Tell us why

I support the clarifications but Okoromai Bay has been spelled wrong in the proposed amendments.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

Tell us why

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Do not support

Tell us why

Council should always be transparent yet it continues to be anything but. The question itself is ambivalent. Why do you not already clearly show your goals. Why is it always so difficult to get an answer from Council. This submission process itself, why is the information on the proposed changes so difficult to find. So to your above question: Restructure the policy to more clearly show its goal, focus areas, council actions, and rules, this entire process from the outset is anything but clear. YOu make it so difficult as a way to deter people from putting through an application. In short, you should already be making policy clearer and therefore able to communicate your goals more efficiently. Dog owners are passionate people and like last time when the council tried to cut our dog allocation times, they were met with much pushback from us dog lovers.

Clarify rule that all dogs classified as menacing must be to neuter:

Do not support

Tell us why

dogs classified as menacing??? Every dog has the potential to bite....isn't that one of your advertising campaigns, so who decides what dogs are menacing as they all can be if prompted, poked and antagonised. Council least of all should have the ability to be judge and jury on that. Councils ability to rule over such matters should be left to more experienced people not the bureaucracy of the Auckland Council.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Do not support

Tell us why

There are all manner of professional Animal behaviourists out there that that carry much weight in this profession and community that no doubt the council will deem unworthy of being one of these providers. How can we trust the council to therefore give ruling on this when there is so much nepotism within the council. Giving the council the ability to rule what is menacing and what isn't is giving them biased power that can bring unwarranted damage to all manner of dog breeds. As the council has already shown us.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Do not support

Tell us why

Clarify how dog access rules are set:

Do not support

Tell us why

Once again, you should already have clarity in all that you do. Why is this a proposed change? This suggests that you currently do not clarify how dog access rules are set? There should always be public feedback to help create these access rules and it is the responsibility of the council to communicate this in such a way to ensure that all dog owners are aware of any proposed changes. Is this not the job of council to work for it's ratepayers? Why therefore was there not an email sent out to all dog owners (as you have our details with dog registration) to create an awareness around these proposed changes so that every dog owner in Auckland has the ability to have their say. Why does it always feel like the council cannot be trusted to do the right thing. For such an organisation, it's ability to communicate itself in a more efficient manner always baffles me. Communication is key.

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Do not support

Tell us why

Why do you not clarify already. Does that not therefore illustrate your lack of awareness already. The way you ask these questions demonstrate your lack of clarity - shouldn't that be a red flag to you already???/

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

I'm writing about the proposal to ban all dog walking activity at Te Arai South beach, or better known as "Forestry". While I understand the current rules are unclear and that there is now a significant level of custom and practice for ratepayers to walk their dogs off leash at Forestry, the new proposals seem at best poorly thought through, at worst almost duplicitous. I refer to your findings report below and have the following concerns and questions.

My main concern is the consultation process is not fully transparent, or fully explains in simple language the impacts of this proposal, for instance your arial maps in Appendix D, focus on the Quarry at Te Arai, but seem to miss the fact that all dogs will be banned from Forestry, again that is the main issue for users of this beach. Why wouldn't you address this issue up front, instead of burying it around fixing an incompetent oversight with the original plan i.e. you currently allow dogs at the quarry, but you can't access it without breaching the current bylaws.

My other concern is where is the evidence provided to show that the dogs are in "conflict with the wildlife and natural environment". This is where I suspect duplicitousness/nepotism. You allowed acres and acres of natural environment and destruction of wildlife habitat for multiple golf courses to be created across this coastline. I note these are private businesses for wealthy individuals. Yet locals, who have walked their dogs at this beach for years, decades even are now presumed to be at fault.

Any reasonable human who understands nature, is aware that protected birds are much more likely to fall prey to Rats, Feral Cats, Stoats, "stray golf balls" than a dog. Whilst I would never discount a rogue dog eating a protected bird, this is one of the least likely outcomes. I have been walking my dog at this beach for many years, and have never seen her, or another dog 'conflicting with wildlife or destroying the natural environment'. Its is also laughable that a dog can do damage to the "protected sand dune area", when again you only have to look from the car park at the lodges, golf holes and significant development of Te Arai Links to see real long-lasting damage to the sand

dune area.
Again, whilst I understand a desire to protect what we have, we are the ones that use the area, tidy up rubbish (Human Made), clean up after our dog and actually live there! My proposal (and one mirrored by a significant number of rate payers) is that the Council use common sense (sometimes not that common), and amend the current 'unofficial' rules around dogs at Forestry to reflect the long standing custom and practice, and allow us one of the few places on this coastline where we can walk our beloved 4 legged friends off leash.
Thank you for you time.
2024 Review Findings Report
(Conflict with wildlife and natural environment) Current rules do not specify the rules for the southern beach. The beach currently is an unofficial dog off leash area which conflicts with the protected wildlife including dotterel, variable oystercatcher, Caspian tern and blue penguin. The beach also has significant ecological value (part of a protected sand dune system) which is vulnerable to damage from dogs.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

What is the main reason you want to change the current dog access rule?

Want to continue being able to walk my dog (on a leash) on this beach. 'On a leash' is my acknowledgement that the beach can get busy in summer.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Please don't proceed with these restrictions. I can walk my dog 'urban' during the week (on a leash) but we need to be able to take her on day trips to parks farms and beaches at weekends for her health and ours. We are always careful to comply with the c

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

StanmoreBay

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:off Beach form a dog run on the grass park

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

in summer dogs arrive at 5 means family's with kids not welcome most dog owners responsible but some owners like to intimidate with out of control

its good to review the rules, I don't feel comfortable around dogs in public places especially with my little grandchildren. there is to many antisocial owners

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I do not support the proposed limit on walking multiple dogs.

The proposed limit will only penalise responsible dog owners and will not stop irresponsible people who do not follow existing laws.

Auckland has a serious issue with roaming dogs and Council should focus on this not multiple dog walkers who make up a tiny amount of reported issues. I am scared to walking my dog in my local area because of the multiple roaming and aggressive dogs I see.

I support a license being developed to regulate professional dog walkers as they have the skills to handle multiple dogs and provide a valuable service to me and the community. My dogs go out with a dog walker every week and I have seen a massive improvement in their behaviour and socialisation, I love knowing that they are well looked after and exercised on the days they go out. Having a newborn baby means my dog can get the exercise and stimulation he needs when n can’t give it to him.

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash unless licence obtained

Tell us why

No evidence provided that a single person can keep 6 dogs under control at all times.

It is very confronting to meet 6 or more dogs on a public walkway on your own or with you own dog.

Any Professional Dog walkers need to be registered and have passed a comprehensive training course and competency assessment - showing they can handle 4 dogs on-leash and 2 off-leash

- This appears to be a good guiding document:

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

My understanding is that there have been very few complaints or incidents regarding multiple dogs. Multiple dogs tend to be walked by professional dog walkers, who generally try and avoid public places where possible and ensure that all restrictions are followed and dogs are key under control at all times.

I feel this survey asks a lot of ambiguous questions.. For example, asking whether I support the changes to the access to ancestral mountains - without outlining the proposed changes in easily accessible format. Asking to cap the number of dogs a persons can walk isn’t going to solve the problem over aggressive, under trained dogs roaming the streets.

I believe in compulsory registration - that needs to be enforced! I also believe that responsible dog owners and walkers like myself would be in support of a professional dog walking licence or registration..

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I do not support the proposed limit on walking multiple dogs.

The proposed limit will only penalise responsible dog owners and will not stop irresponsible people who do not follow existing laws.

I am a dog walker who services Auckland dogs in North Shore. I have been operating since 2023 and currently walk 28 dogs every week.

I do not the proposed limit because:

1. The data does not support that people walking more than three dogs off lead are creating a problem. Incident data presented by Auckland Council showed only 0.7% of complaints related to people walking more than two dogs, meaning those walking more than three must be even less. In addition the data used to support that there is a problem and presented to council in July 2024 was based on a survey of 2,000 civically minded people and its interpretation by Council is seriously flawed and fails to show that over half of respondents had never had an issue with people walking more than two dogs. The survey also doesn't ask how many people had seen more than three dogs being walked at once. There have been more than 2,750 signatures on the Professional Dog Walkers Association petition opposing this proposed limit so more than 2,750 people don't think there is an issue when less than 1,000 respondents to the peoples panel think they saw more than two dogs being walked causing a problem.

2. The change unfairly targets professional dog walkers only. Auckland Council staff have said that they are not targeting professional dog walkers, but this bylaw change will only impact professional dog walkers. Professional dog walkers have not been spoken to about any nuisance issues or how to best address any issues. I think that licensing of some kind rather than a total ban would better address any issues with professional dog walkers.

3. The Bylaw won't be enforced. Auckland dog owners all know that Animal Management staff are stretched, and it takes days for them to respond to serious issues. Animal Management already do not proactively monitor known dog walking hotspots and this bylaw will not change this. The fact that the Waitakere Rangers Local Board had to fund a dedicated ranger to monitor and enforce rules at west coast beaches is proof of this. If Auckland Council won't enforce the bylaw then the only people who will be

impacted will be those that already follow all the rules, meaning rule breakers will continue to break the rules and issues will continue.

I support a license being developed to regulate professional dog walkers as they have the skills to handle multiple dogs and provide a valuable service to responsible dog owners in the community. A system similar to that in Wellington where walkers take a course, are observed walking dogs and face limits would fully address the current issues with Professional Dog Walkers. I also support the Wellington system where walkers with less than a year of experience are limited to walking 6 dogs and more experienced walkers can walk up to 12 dogs and I believe this would be suitable for Auckland. If Council are concerned with the cost of administering a licensing system then an association like the Professional Dog Walkers Association could assist Council with parts of the system and Council could still collect a fee.

Auckland has a serious issue with roaming dogs and Council should focus on this and not multiple dog walkers who make up a tiny amount of reported issues. A licensing regime is the only way forward and Council should proceed with licensing not the proposed universal limits.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of this proposed change?

Other (please explain below)

Tell us why

The amended policy as proposed for Army and Okoromai Bays is definitely an improvement on the current situation.

However I would suggest that given the high and varied public use and the wildlife present it should go further and that the entire Shakespear Regional Park area including both Army Bay and Okoromai Bay Beaches should ideally be off limits to dogs at all times. Or at least Okoromai Bay and its beach. There are sufficient alternative areas more suitable for dog exercising nearby that this would not be a significant inconvenience.

Given that such an approach is likely to be contentious, a possible compromise could be that dogs are only allowed in the park and on the beaches “under control on-leash” at all times, at least for Okoromai Bay. A further compromise could be to have the more flexible rules, as proposed in the amendment, for Army Bay.

It is my experience that “dogs under control off-leash” is a fanciful notion in an environment such as Shakespear Regional Park.

At Okoromai Bay alone I have been harassed by dogs running free on numerous occasions and have seen the same happening to other park users of all ages, particularly when food is present. Dogs routinely venture onto private properties adjacent to the park.

I have also seen dogs chasing, either of their own will or after being encouraged to do so, shore birds on the beach or pukekos on the grassed areas.

But of greater concern is that after having seen a Pateke, an endangered species, in the creek on the western boundary of the park, about 20 m north of the footbridge near the beach, I then saw 2 dogs bounding up the creek towards where I had seen the bird. This alone should be reason enough for there to be no dogs allowed in the Okoromai Bay area, period.

In fairness, some dogs at Okoromai Bay are under a semblance of control and a number are exercised on-leash, even under the present rules. The latter suggests that since responsible dog owners have recognised the situation and are already following what I have proposed, making it compulsory for all dogs is not unreasonable as to some extent it is already happening.

Maybe it is true that the minority of dog owners that can spoil it for the majority, but that is neither mine nor that Pateke’s problem.

To summarise, the changes I would like to see to the amended policy as proposed for Army and Okoromai Bays, as options in order of decreasing preference, are as follows:

1) Dogs are prohibited from the entire Shakespear Regional Park area, including both Army Bay and Okoromai Bay beaches. This is the simplest and most logical approach.

2) Dogs are prohibited from the Okoromai Bay area and beach, but allowed at Army Bay and its beach as proposed in the amended policy.

3) Dogs are allowed in the Okoromai Bay and Army Bay areas as proposed in the amended policy but only “under control on-leash” at all times they are not prohibited at both bays.

4) Dogs are allowed in the Okoromai Bay and Army Bay areas as proposed in the amended policy but only “under control on-leash” at all times they are not prohibited at Okoromai Bay.

Do you have any further comments on the proposed policy and bylaw changes?

I only have one message. Dogs should be ON LEASH at all times in public places

As population increases in both people and dogs walking on beaches has become HAZARDOUS and very UNENJOYABLE.Fiddling and clarifiying rules does not address the issue.Dogs should be ON LEASH on all beaches and public spaces

Every day walking beaches you are faced with 2-6 dogs chasing each other

totally uncontrolled and unaware of people.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

I've had bad experiences at Long Bay Beach where dog walkers with multiple off leash dogs
can't or don't control their dogs. When I ask them to put their dog(s) on a leash so I can get
away from it, they refuse and use words to the effect that it's an off leash dog exercise area
and if I don't like it I should not go to Long Bay Beach. Part of the problem is that the judgement of “You must always have your dog 'under control'" is up to the dog owner. There needs to be a bylaw that states "If a member of the public requests a dog owner to leash their dog, the dog owner (controller) are legally obliged to leash their dog"
'1. Limit individual dog walkers to four dogs per person. With only one of those dogs allowed off leash at a time.

2. General policy and bylaw matters

What do you think of this proposed change?

I support the proposed change

Tell us why

Long Bay beach is one of the most intensively used public recreational spaces it's too crowdedwith people particularly children to have dogs as well.

Dogs often exhibit the following problematic behaviors:

Frightening people by running up to them particularly children and trying to lick their face, sniff

their genitals and/or their anus.

Try to perform simulated sex acts on someone's leg.

Urinating on someone's leg and/or feet.

Urinating on peoples clothes and towels while their swimming.

Jumping up on people and scratching them with their toe nails.

If a man did these behaviors he would be put in prison, but because it's a dog we're supposed

to just put up with it.

Dogs also try to eat your food or run off with your ball and puncture it.

The worst aspect of Long Bay beach and surrounding parkland is the off-leash dogs and their inconsiderate owners.

As a long term local resident in Torbay I have had a lot of unpleasant experiences with off leash dogs and passive aggressive behaviour and/ or abuse from their owners if I ask them to control their dog or inform them their dog is not allowed in the area where they are e.g. North of Vaughans Stream.

As a member of the public who has regularly been harassed, intimidated and assaulted by off-leash dogs it's difficult to identify the owner and dog because the only identification is on the dog's collar (if it's registered). So when you're confronted with a menacing dog and often a bullying and/or abusive dog owner's behaviour you can't go to the dog's collar to get it's ID number. So unless you follow the owner to their vehicle or residence it's pointless laying a complaint because you can't identify them.

Enforcement -Therefore we need enforcement officers dealing with bylaw breaches on the spot. – In the more than forty years I have lived in the area and regularly visited Long Bay Regional Park I have never even once seen a Dog Ranger. There seems to be an attitude that it's the Long Bay Park Rangers job to enforce the dog rules in Regional Parks. When I've spoken to Park Rangers about dog control they basically said they just "educate" dog owners about the dog rules. The only enforcement action they can take is to give a dog owner a trespass notice. I'm not aware of any dog owners being given a trespass notice from Long Bay Park. I suspect that's because of the complexity of such an action. A lot of dog owners appear to have contempt for the dog control bylaws because they know there's very little enforcement so they don't need to obey the rules.

Suggested solutions -

I suggest/request the following changes to the existing bylaws -

1. Limit individual dog walkers to four dogs per person. With only one of those dogs allowed off leash at a time.

2. Enforcement – Auckland Council needs to Direct Dog Control Officers to regularly visit (at random times because dog owners get to know what times they visit) Long Bay Regional Park particularly the northern end of Long Bay beach where dogs are not permitted access beyond Vaughans Stream. Direct the dog rangers to actually give out on the spot infringement notice fines rather than just "education".

Otherwise dog rangers become a laughing stock by dog owners who laugh about how many warnings they've had. If anyone parks too long in a council parking space there's no "warning" they get a fine. Why should dog bylaws be any different!

3. Currently the Auckland Dog Rules state "You must always have your dog 'under control', including by using verbal commands when off-leash. If in doubt, put your dog on a leash, even in an off-leash area."

Part of the current problem is that the judgement of "under control" is up to the dog owner. If the road rules said you can drive at any speed as long as your vehicle is "under control", there would be a lot of carnage on the roads!

There needs to be a bylaw that states "If a member of the public requests a dog owner to leash their dog, the dog owner or (controller) are legally obliged to leash their dog".

4. Place vandal proof “No Dogs” signs where at appropriate entry points to Long Bay Regional Park. Including a vandal proof one at the end of Piri Piri Point Road.

Dogs are not permitted in this part of the Regional Park. There used to be a “No Dogs” sign there attached to the gate but it was a flimsy plastic sign like the temporary signs real estate agents use. It was easily removed by a vandal. I regularly see dog owners walking their dogs off leash from the Piri Piri Point Drive road end down to the coastline and along the beaches. The dogs chase the protected native birds and also harass the grazing stock animals in the Regional Park fields.

5. Long Bay Beach. I strongly support the proposal for dogs to be prohibited from Long Bay Beach south of Vaughan Stream between 10am and 5 pm from 1 December to 1 March.

For the following reasons:

Long Bay beach is one of the most intensively used public recreational spaces, it's too crowded with people, particularly children, to have dogs as well.

Dogs often exhibit the following problematic behaviours:

Frightening people by running up to them particularly children and trying to lick their face, sniff their genitals and/or their anus.

Try to perform simulated sex acts on someone's leg.

Urinating on someone's leg and/or feet.

Urinating on peoples clothes and towels.

Jumping up on people and scratching them with their toe nails.

If a man did these behaviours he would be put in prison, but because it's a dog we're supposed to just put up with it!

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#6975

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

Tell us why

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

What do you think of this proposed change?

Mahurangi Regional Park (West)

Mahurangi East

Mahurangi Scott Point

Pākiri Regional Park

We are proposing to prohibit dogs on the associated beach (currently off-leash).

What do you think of this proposed change?

Tell us why

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

Tell us why

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Te Ārai Regional Park

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

Tell us why

Waitawa Regional Park

We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

What do you think of this proposed change?

Tell us why

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Do you have any further comments about dog access rules at Regional Parks?

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#6992

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#7012

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#7073

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#7096

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

Tell us why

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#7118

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

Tell us why

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

What do you think of this proposed change?

Mahurangi Regional Park (West)

Mahurangi East

Mahurangi Scott Point

Tell us why

Muriwai Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Pākiri Regional Park

We are proposing to prohibit dogs on the associated beach (currently off-leash).

What do you think of this proposed change?

Tell us why

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

Tell us why

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Te Ārai Regional Park

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

Tell us why

Waitawa Regional Park

We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

What do you think of this proposed change?

Tell us why

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

What do you think of this proposed change?

Tell us why

Pākiri Regional Park

We are proposing to prohibit dogs on the associated beach (currently off-leash).

What do you think of this proposed change?

Tell us why

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Te Ārai Regional Park

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

Tell us why

Waitawa Regional Park

We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#7145

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#7157

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

Tell us why

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Te Ārai Regional Park

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

Tell us why

Waitawa Regional Park

We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

Tell us why

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

Tell us why

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

What do you think of this proposed change?

Mahurangi Regional Park (West)

Mahurangi East

Mahurangi Scott Point

Pākiri Regional Park

We are proposing to prohibit dogs on the associated beach (currently off-leash).

What do you think of this proposed change?

Tell us why

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

Tell us why

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Te Ārai Regional Park

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

Tell us why

Waitawa Regional Park

We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

What do you think of this proposed change?

Tell us why

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Do you have any further comments about dog access rules at Regional Parks?

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#7197

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Submitter details:

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Ambury Regional Park

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#7234

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

Tell us why

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

What do you think of this proposed change?

Mahurangi Regional Park (West)

Mahurangi East

Mahurangi Scott Point

Tell us why

Muriwai Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Pākiri Regional Park

We are proposing to prohibit dogs on the associated beach (currently off-leash).

What do you think of this proposed change?

Tell us why

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

Tell us why

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Te Ārai Regional Park

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

Tell us why

Waitawa Regional Park

We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

What do you think of this proposed change?

Tell us why

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on ARMY BAY beach and foreshore areas east of the boat ramp that DOGS ARE ALLOWED according to the time and season rule for the rest of ARMY BAY.

Reason: The cliffs to the east of the boat ramp provide a natural access barrier to the Sanctuary beyond the perimeter fencing. There is no need to ban dogs from this area to keep them out of the sanctuary area.

I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on OKOROMAI BAY beach east of the TREELINE EMBANKMENT DOGS ARE ALLOWED according to the time and season rule for the rest of Okoromai Bay.

Reason: The proposal isn't fixing a known issue, but a 'possible' risk of dogs straying into the open Sanctuary.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:
