Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Dogs are pack animals and get much bolder in a pack. Forming a group of dogs is dangerous

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Long Bay Regional Park,Shakespear Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I support the proposed change

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

I support the proposed change

Tell us why

There is no place for dogs in a wetland area. Any signage needs to be easy to understand. The above examples are not. Why do you need to keep saying "under control". Aren't all dogs supposed to be under control anyway?

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Te Ārai Regional Park

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

Tell us why

Waitawa Regional Park

We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

The issue isn't the number of dogs being walked at a time its more the ability of the dog walker to control the dogs. Instead of putting an arbitrary/generic rule in place there should be a permit that commercial dog walkers should have to obtain which assesses their competence. There is a difference between a student who is walking dogs for some pocket money vs an experienced/trained dog walker that understands dog behaviour.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?
Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks
Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:
Long Bay Regional Park,Shakespear Regional Park

Ambury Regional Park
We are proposing to clarify the current rules (no change to dog access).
What do you think of this proposed change?

Tell us why

Auckland Botanic Gardens
We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.
A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park
We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).
What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I support the proposed change

Tell us why

I support this change. It allows for a period of time when people can use the beach in confidence, knowing there will be no dogs. Many people (particularly young children) fear dogs, and when dogs are allowed on a beach, even when supposed to be on-leash, there are inevitably people who will break the rules and allow their dogs to be off-leash. The rule allows for greater clarity, making it easier to abide by and enforce. The rule also allows for plenty of time for dogs to enjoy the beach too.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

What do you think of this proposed change?

Mahurangi Regional Park (West)

Mahurangi East

Mahurangi Scott Point

Tell us why

Muriwai Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Pākiri Regional Park

We are proposing to prohibit dogs on the associated beach (currently off-leash).

What do you think of this proposed change?

Tell us why

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I do not support the proposed change. There should be set times in the day when people can use these tracks knowing they will not encounter a dog. There is ample time for dogs and their owners to enjoy this space, there should also be time for those who are wary to dogs to use the space in confidence, knowing they will not encounter dogs.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

Tell us why

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Te Ārai Regional Park

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

Tell us why

Waitawa Regional Park

We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

What do you think of this proposed change?

Tell us why

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

All/general

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

I think dogs should be prohibited.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

There are too many irresponsible owners who do not control their dogs, do not care if others (particularly small children) are frightened of them, allow them to run free and approach other people and do not (or can not) call them off. More needs to be done to ensure that beaches and regional parks are safe spaces that can be enjoyed without fear.

#89

Dogs do not need to be allowed everywhere, priority should be placed on ensuring spaces are safe and can be enjoyed by people.

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

Six dogs is a lot for one person to manage, I'd support 4 dogs maximum, with 2 off leash, definitely no more. I'm also a dog owner and you can't give 4 dogs your attention at the same time and all it takes is for one to react badly to another dog / person / situation and you'd potentially lose control of all of them.

Long Bay beach is one of the only recreation spots in the area providing a large space to exercise dogs. Being able to take our dog for a walk during the day (as long as the sand isn't too hot!) along the beach on a leash is extremely valuable. As a shift working household, it's often not possible to get down to the beach during 'off peak' hours in summer, so a stroll on a leash during the day is important. I believe this policy change makes the Bays even less dog friendly than it already is.

Long Bay beach is one of very few beaches that dogs can access during the day in summer, it would be very sad to lose this. The dog owners are pretty good at always being on leash at this time. Unless the Kennedy Park stairs are going to be fixed there are no other summer beach day options for dogs in the Bays.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Shakespeare park

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

The rule of on leash at all times will be clear to all dog owners rather than confusing and dependent on area of grass/beach and time of year. Please get tye current rules enforced such as out of control dogs, and ignorant owners flouting the rules.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Shakespeare Park is amazing and predator free. In the areas we are allowed to take dogs, there are too many confusing rules depending on area you are in and time of year. Too many owners ignore the rules so we don't take our dog knowing it will be harassed by bigger, child eating dogs and their mongrel owners.

Please enforce the rules that are currently available and don't make small/medium dog owners get restricted access because of the problems large dogs and their mongrel owners create.

3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

If all 6 dogs take off together to chase something then the person holding all 6 leashes will struggle to be able to stay in control.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

I support this providing the change does not result in cutting back on the numbers even further.

The good and responsible dog owners are always hit hard with changes whereas those that don't register and don't care carry on doing whatever they like with no penalties.

No change to current Policy (dog access) rules

Tell us why

The current restrictions work well. The botanical gardens are well used by dog walkers. Cutting down the off leash area will concentrate dogs in a much smaller area and be detrimental.

The current rules work well for all.

There is no explanation as to why you feel the need to reduce access and reduces times allowed on the beach. The council has approved more residential building without consideration of who needs and would benefit from continuing with the access as it is.

Walking dogs, getting out in the fresh air with their pet is hugely beneficial to their owners health.

Dog owners are being treated as second class citizens instead of responsible tax payers and rate payers.

Tell us why

I appreciate this is an incredibly important review into current legislation, but also a contentious and potentially damaging one, particularly for those whose livelihoods will be significantly and irrevocably impacted by this adapted legislation (namely professional dog or pack walkers). I note that the Auckland Council's survey into the issue identifies people walking multiple dogs can create nuisance and distress to people, but significantly the most prominent issue facing dog management in Auckland is roaming dogs. I agree that this is an issue that needs to be looked into as part of this review, as I've witnessed this myself. But I's argue that this blanket adaptation to existing regulation is both profoundly unfair for those whose livelihoods are based in the dog walking industry, to those who rely on these professional services, and will ultimately lead to damaging and significant unintended consequences for professional dogwalkers and those who absolutely reply on these services. In addition, Auckland Council's own data doesn't accurately support this proposed legislation and the impact it will have on professional dogwalkers who, in my personal experience over the last five years, provide an incredible, professional, highly specialised service. I believe the current wording of the legislation that's being proposed does not take into account the highly skilled dog walkers, and rather creates a blanket piece of legislation that is not fit for purpose. I would, without doubt, struggle were it not for my professional dogwalker, and she has become a huge part of my dog's regular routine and ongoing training. I believe their are alternative solutions that are being seriously overlooked, such as licensing professionals to walk larger groups in the same way we do licensing dogs (or indeed other regulated careers), and aiming to fix the issues that the original Auckland Council survey identified, such as roaming dogs, out of control dogs and enforcing the rule that dogs must be under control.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I appreciate this is an incredibly important review into current legislation, but also a contentious and potentially damaging one. The proposed legislative review, while addressing some important issues, risks causing significant unintended consequences and harm, particularly to professional dog walkers and pack walkers whose livelihoods depend on this work, and of course to those that rely on these services. Auckland Council's own survey identifies people walking multiple dogs can create nuisance and distress to people, and roaming dogs as the primary problems in dog management, yet fails to articulate or consider the intricacies of these complaints. The proposed blanket restrictions will unfairly target professional dog walkers, who in my experience are highly skilled in dog training techniques, without addressing the root issues or oversight of potential legislation.

My personal experience over the last five years has been life changing, and I would, without doubt, struggle were it not for my professional dogwalker. She has become a huge part of my dog's regular routine and ongoing training, providing an incredible, professional, highly specialised service. Unfortunately, this proposal would be life changing for my dog, for me, and for my dog walker for all the wrong reasons, and unfairly target my dog walker's business and livelihood.

This approach overlooks viable and important alternatives, such as introducing licensing for professional dog walkers to ensure regulation and high standards within the industry, and focusing enforcement on solutions to fix the issues that the original Auckland Council survey identified, such as roaming dogs, out of control dogs, providing more education and support to pet owners, and enforcing the rule that dogs must be under control. These changes would address public concerns without, undoubtably, irrevocably destroying an industry that provides a vital and professional service to dog owners.

The current proposal is poorly targeted, ill-conceived and threatens to shut down successful businesses that have become integral to dog owners and their pets' wellbeing. As a result, in its current form, I do not support this proposed legislative review. Auckland Council has a duty of care to consider all the issues at play, to those included and

impacted by this blanket review, and must consider the broader consequences of this review and explore more balanced, effective solutions before moving forward with the current damaging changes.

You are targeting dog walkers who are 99% trained professionals that keep the dogs under control , they also provide a service for people who walk full time . People pay big money for this service and people who use the service care about there dogs enough to that money. It also provides enrichment and socialisation for dogs . Here you are targeting responsible dog owners !!!!

You should be targeting people who do not abet the rules with fines And restrictions not those who are responsible dog owners. There is already limited areas to take dogs in Auckland this will make it even more limited. Plus the people who break the rules don’t care about “ rules “ and will continue to disobey them even if they change . so you are just creating it harder for responsible dog owners .

Clarify rule that all dogs classified as menacing must be to neuter:

All dogs should be neutered !!!! There are too many unwanted puppies and dogs … look at the pounds and rescues. People who want to breed should apply for a license . And those should only be issues for certain purposes . E.g working / service dogs . All Pet dogs for example should have to be neutered. If you made it harder for people to get dogs then you will find that only people who ReAlly want a dog will follow the process

What do you think of this proposed change?

Tell us why

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Other (please explain below)

Tell us why

Dogs should be allowed on leash to walk all the wenderholm track . It’s stupid we can’t walk another 500mg over a hill that we are already walking on , espically considering the dog is on the leash !!! Children and people do more damage and disturb wildli

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

We should have more access to more parks for dogs on leash . If the dog is on the leash they can’t cause any damage , people on the other hand cause far more than a dog on a leash

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

I do not support the proposed change

Tell us why

We have a nervous (of other dogs but great with people) dog that we take to long bay on leash only during the 10 to 5 summer rule as there are so few dogs there at that time. If you remove this, we will not be able to take the dog to the beach at all. This is similar for other owners who use long bay beach for dogs who are unable to tolerate beaches with dogs off leash. Please do not reform this.

Dogs should not be further restricted. Allowing dog access encourages people to go to these parks and to have a healthier lifestyle. Limiting dog access would limit people's healthy lifestyles more than encourage them.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

As a professional dog trainer and dog walker myself, I handle 10-12 dogs a day. On lead I will walk in public places and then take them to private property to let them off lead to socialise.

Many professional pack walkers in Auckland are experienced, it is a very small minority who are inexperienced. There is too many people starting to walk packs of dogs with no training, this is a huge issue. I believe there should be a licence for professional pack walkers to hold, Wellington has done an amazing job with this depending on the company allowing 10 or 12 limit per handler.

I believe that the industry really can benefit from regulation, however, these proposed rules are unlikely to have a meaningful impact on the real issues affecting the dog community. Instead, they would place unnecessary restrictions on professional dog walkers and others who care for multiple dogs responsibly and divert resources from the major problems.

People in the public see me walking and see how well behaved all my pack dogs are, it takes a lot of time and effort to get the dogs to this level and it would really upset me that people who are inexperienced has ruined the future of my business due to the lack of regulation.

I believe each business should have to apply for a yearly licence, within that process the company is to advice the council how they run their business where they mainly walk, how many dogs they walk, if the are on public or private property, send in video submissions of their work with a pack so you can see how much control they have over the dogs. You can see within a video of 5-10minutes if a handler is experienced or if they are a inexperienced with dogs. there should be two different limits: One for professional dog business with limits 10 and 12. For people who just walk dogs for extra cash, not business they should have a limit of 1-2 dogs.

Far too many people think they can walk a dog because they like dogs but sadly that's not the case, many dogs have behavioural issues which in the wrong hands without the proper caution and care it is a disaster waiting to happen.

Please get in touch with The Professional Dog Walkers Association and sit down and get top professional advice and work with them.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Browns Bay Beach

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

There is no need for a stupid limit on times a dog can be walked because of a season

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Do you have any further comments about dog access rules at Regional Parks?

6 dogs is a lot but an improvement on current state. Would like to see this reduced to max of 4 dogs per person.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Lots of non compliance by dog walkers in this area. General prohibition in this time would be easier to enforce rather than a on leash allowance

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Some dog owners seem completely unaware of their obligations to ensure their behaviour and their dogs behaviour does not negatively impact others. There should be heightened awareness of their responsibilities and enforcement of the rules / a clear pathway for breeches to be reported.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

Suggest also muzzles for dangerous dogs and a rule to say no dog off leash is allowed to approach any member of the public - adult or child - without consent. Too many times a dog runs towards you with the owner calling their name and you are frightened as you do not know the nature of that dog. Even unharmful dogs can cause harm with the owner describing them as just being 'playful'. If you did not desire that interaction with someone's animal in a public space it can be deeply distressing

For non-dog owners the increasing amount of dogs in public spaces can be intimidating and stressful, they can create a lot of noise and also urinate freely which is unhygienic and causes a strong odour. Their excrement has to be removed immediately.

A lot of dog owners are very responsible, but those that are not need to understand their responsibilities to the public and public spaces when out with their pets.

When allowed off leash they can cause many kinds of problems, from leaving waste, disturbing and intimidating people and harming wildlife. As the number of dogs grows so do the associated problems.

Can we talk about cats next please?

Many thanks

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

In my experience with and without my own dog, I do not believe one person is able to control multiple dogs. I think 3 on lead is more than enough, Doggy Day Cares exist for this scenario. One person cannot surpervise more than one dog off lead especially when monitoring their bowel movements. Have often noted owners not noticing, or choosing to ignore their dogs when multiple are off lead.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Support

Tell us why

The more clear information available the better. It is in everybody's interests to know that they feel safe in their chosen environment based on the published rules.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

Menacing dogs are a danger to everybody but in particular to young children who use the parks and reserves. The less around in public the safer we will all be.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

It would remove the ambiguity about which dogs are classified as menacing

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Support

Tell us why

Unless people need working dogs, do they really need multiple dogs in urban areas?

Clarify how dog access rules are set:

Support

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I support the proposed change

Tell us why

This is the main time families visit. They should not have to worry about unpredictable and out of control dogs. I have had to remove bags from the beach when swimming to avoid dogs peeing on them when unattended, have had dogs sniffing around food and digging nearby and generally being a nuisance.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

I do not support the proposed change

Tell us why

Too easy for dog owners to misinterpret the areas the dogs are allowed. Not sure a dog can be under control off a leash, they naturally chase after moving objects

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Do you want the change to apply to the entire location or a section of it?

To respond to changes at location (e.g. a new playground, sports field, more people). Please specify:

It should be mandatory for dog owners to receive training, there are a large number of elderly people who get a dog for protection, particularly large dogs, and then cannot keep them under control. This is something I have personally had an issue with, off lead dogs approaching my on lead dog in an area that is designated on lead and the owners either don't do anything or aren't able to control their dogs which often become aggressive

The first small parking area inside the park, that currently allows dogs, needs to be maintained as there is not enough parking spaces on Beach Road for everyone over Summer who walks their dogs.The new rules are very ambiguous and not clear.

There should also be access to a toilet block track so that dog owners who need to go to the toilet when walking their dog can do so. Otherwise the dog is left in the car.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

A dog owner cannot pull three leashed fogs towards 3 off leash dogs, potentially with all 3 in different places, if a dog fight or other trouble broke out. If there is any kind of dog fight, 6 dogs cannot be held on leash by one owner without breaking free.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Support

Tell us why

I would like to see it made clear that dog owners are rate payers too, and owning a dog is a valid and common recreational activity. 1). I would like MORE areas to be dog accessible.(not restrictjng dogs from so many areas). 2). I would like more areas added by making them ON-LEASH areas, so that owners with dogs can better coexiist with and share ateas with people and willife, rather thsn restruct dogs entirely, and therefore have more equal access to recreational areas including regionsl parks, which they currently don't have. 3). I would like more fenced off-leash recreational areas for dogs that are split into designated areas according to size e.g., have a small og separate fenced area from a medium and large dog exercise area. Plimmerton reserve in Wellington is a good example of this. 4). Let dog owners use Auckland regional park areas with dogs on leash by enforcing hefty fines of $400 if someone exercises their dog in those area off-leash. At the moment dog-ownership is discriminated against as a legitimate recreational activity because ratepayers aren't getting facilities and adequate or equal access to recreational space that are meant to be for all New Zealanders. Many recreational spaces, including most of the regional parks, are denied access to dog owners even if their pet is on leash. It is unfair use of ratepayers money to not recognise and support this activity as a recreational activity to be encouraged like any other healthy and physical exercise/hobby.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

Require vets to record puppies MALE AND FEMALE on a database that states whether the fog is neutered/spayed.

Stop the breeding of Putbulls or crosses of similar nature. Gradually as existing dogs grow old and pass away, numbers coukd be brought down if the breeding of them is stopped.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

A dog that is consistently/continuoudly reported off-lead and roaming it's neighbourhood should be considered menacing because it is not under any control of a human. Dogs repeatedly found roaming should be removed from owners. If owners coukd apply for a loan to buy a large kennel enclisure with enclosed fence attached, this might be a solution (to avoid roaming or chained dogs).

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Support

Tell us why

Advertise and educate by using adverts on the TV etc that only 2 dogs are allowed on the property for over 30 days, even if you don't own all of them. The general public doesn't know that!

Clarify how dog access rules are set:

Support

Tell us why

Make sure that, when setting rules, equal access to shared spaces is upheld. It is not currently. Make sure rule-setters understand that it is discrimination otherwise, and thst most potential reasons for excluding dogs (and therefore dog owners) from having equal access can be resolved by requiring dogs to be ON-LEASH so that is not an excuse. Neither is 'people don't obey the rules'. Those people are criminals. Most New Zealanders are not criminals and must not be treated as if they are criminals.

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Support

Tell us why

Dogs on leash should ve allowed in regional reserves. They should definitely be at least allowed in cars/vehicles. E.g. if I have exercised my dog already, and am in an air-conditioned motorhome, and want to pull into a regional park to take a half hour walk (while leaving my dog safely in an air conditioned vehicle, already exercised, and with a bowl of water(I cannot even enter the regional park to use it. I can't even enter the park

to look at it from my vehicle. I am a ratepayer, I have the right to equal access to public spaces which other ratepayers have access to, but it is bring denied to me.

I would like MORE areas to be dog accessible (not restricting dogs from so many areas). 2). I would like more dog accessible areas added by making them ON-LEASH areas, so that owners with dogs can better coexist with and share areas with people and wildlife, rather than restrict dogs entirely, and therefore give more equal access to recreational areas including regional parks, which dog-owners currently don't have. 3). I would like more fenced off-leash recreational areas for dogs that are split into designated areas according to size e.g., have a 'small dog' separate fenced area from a 'medium' and 'large dog' exercise area. Plimmerton reserve in Wellington is a good example of this. 4). Let dog owners use Auckland regional park areas with dogs on leash. Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Waiake beach

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:This beach is too small for dogs. At high tide there is no room for anyone, at mid tide people stay off the beach if they are not dog people, because the beach is flooded with dogs/dog people.

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Do you have any further comments about dog access rules at Regional Parks?

More dog access should be granted at this park

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?
Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.
Only provide feedback on one location at a time.
Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Long bay regional park

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:Specifically the cliff walk

What is the main reason you want to change the current dog access rule?

No reason to ban dogs on this track.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Stock are safe behind fences and bush. No dieback issues there. Highly popular with lots of traffic so dogs should be allowed on lead

Location 2:

What is the full name of the location where you want to change the dog access rules?

Rodney

In general, how would you like dog access at this location to change?

Change the current rule to allow dogs under control on a leash

Tell us why

Do you want the change to apply to the entire location or a section of it?

A section of it. Please specify:Specifically the bush tracks between wenderholm and waiwera

What is the main reason you want to change the current dog access rule?

A section of it. Please specify:There is almost nowhere to walk in the bush with a dog near north auckland.**A section of it. Please specify:**

What is the main reason you want to change the current dog access rule?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:The whole farm should be dogs on lead except when lambing etc

Please explain your issue in more detail:

Do you have any further comments about dog access rules at Regional Parks?

The opportunity for 5km+ walks in rural/bush areas in Auckland North are virtually zero. This is a great chance to offer access to longer off road walks**More dog access everywhere. Why remove access for a large portion of the population when a few select users have an issue that only affects them as they pass by for 30 seconds out of their day**

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

maximum 2 dogs per person on or off leash. When you are out you can see plenty of people who cannot control even one dog.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Support

Tell us why

It should be more stressed that people rather than dogs will take priority.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

if dogs are menacing they should be prohibited beyond peoples homes?

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Support

Tell us why

Clarify how dog access rules are set:

Support

Tell us why

It is important to confirm the council value the safety and enjoyment of humans over dogs.

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Support

Tell us why

There should be clear enforcement and penalties for breaches. We need more dog wardens.

Clarify or correct errors in Policy Schedule 2: Dog access rules:

In my experience the majority of pack walkers are dog trainers and know how to manage dogs. our pack walker uses a private property to ensure other off lead dogs do not enter her pack. I think Pack Walkers should have to pass a exam to ensure they have the skills to handle dogs. If you are not able to handle dogs then still having 3 off lead dogs with 3 on lead dogs would still cause issues.

A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I support the proposed change

Tell us why

Some people are scared of dogs so it means they can enjoy the beach during the day.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to increased presence of wildlife (e.g. ground nesting birds). Please specify:

What is the main reason you want to change the current dog access rule?

Dotterals

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

ALot of dog owners have off leash dogs out of control and do not pay any attention to where there dogs even are. They are ignorant to the dotterals and their chicks. Also It

would be nice to have at least one beach where we can take our well trained dogs on a lead for a walk without fear of an aggressive off lead dog charging up and attacking our dogs.

I think the major issue is owners not training and socialising their dogs at the right age. The majority of issues we experience is with 1 or 2 dogs off the lead charging towards us and being aggressive to our on lead dogs. The owner has no recall or con

Tell us why

Dog body language can be so subtle and fleeting that in order to watch and act upon the individual communication of each dog, one must be vigilant. Limiting the number of dogs a dog walker (professional or otherwise) can walk at once to 6, is a step in the right direction. I suspect people that oppose this limitation will do so because they are either a dog walker whose earnings will be limited or an owner who will have to pay more for a better service: either way, I doubt objections to limiting the number of dogs being walked at once will have anything to do with the dogs welfare or the public who have to navigate their way around packs of dogs.

To encounter a large pack of dogs on leash or off, is hugely intimidating. Off leash dogs can break free from their walker and/or pull them to the ground. I would like to see a licence introduced for professional dog walkers who intend to walk 6 dogs at once (as their profession). Walking a neighbourhood dog used to be a good way for young people to earn some pocket money but walking big packs of dogs has become the norm and is so heavily monetised, these "professionals" are out in force to object to the new limits and their potential loss of income.

The new proposal is more in line with other countries who prioritise animal welfare. This is a good move for Auckland Council in 2025.

The issue is not the number of dogs walked or if they are on or off leash but whether the walker is trained in animal behaviour and registered. Anyone can take up dog walking, there are no qualifications or registration. I have seen local students on facebook as young as 12 set themselves up as a dog walker all because they have a dog. And then they take a pack out. They are not trained dog walkers and not qualified in animal behaviour. A recipe for disaster.

We have used Pet Adventures to walk our dogs. One of our dogs is reactive because she was attacked twice on the beach by off leash, supposedly in control dogs. She is non reactive and happy pack walking off leash with Pet Adventures all because Caleb and his team are experienced well trained dog walkers. It meant she could go off lead in a secure and safe situation.

We referred our daughter to Hazel from Fur and Forrest because she was trained under Caleb from Pet Adventures and had experience. That's how it should work.

Make registration a criteria, make it impossible for someone to be a dog walker or advertise their services without previously working under a registered dog walker. Make them sit a test to ensure they are qualified in animal behaviour .before they can call themselves or advertise as a dog walker. Don't restrict the walkers who are trained because they offer a good well trained service that a lot of dogs and working families need.

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I do not support the proposed change

Long Bay has great walking areas. Dogs on lead should be allowed through the park on the roadway only and along the walkways to Glenvar Ridge Road before 10am and after 5pm. I do not agree that unleashed dogs should be on this grass in this area.

There needs to be some form of control over dogs knowingly brought into the restricted areas. I have seen pitbull type dogs on the grass, unleashed.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

We strongly disagree with the proposal for "6 dogs on lead and 3 off-leash".

This proposal would make it an unviable business model for the company we use.

We have dogs to encourage empathy and compassion for our children. It is unlikely we would be able to keep them without the help of professional dog walkers. The barking alone would cause an increase in nuisance complaints, which have reduced to nil since engaging this service.

We propose areas that are currently utilized for dog walking groups to be sign posted as leash free dog areas.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Maximum of 2 dogs unless 'licenced' through specific training as, even with only 2 dogs, 'pack mentality' can emerge and, without proper understanding, there is risk to dog, handler or general public.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Support

Tell us why

Public need to understand the risks of multi-dog handling and, where appropriate, have opportunity to receive the skills needed to handle 'small packs' effectively.

Without this, more and more 'dog-walking' services will arise - often by school-age young adults looking for additional income.

Such services should be licenced and insured.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

Obligatory training for anyone wanting to own any dog that is identified as menacing.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

Assessors should be highly-skilled in the understanding of dogs and their behaviour.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Support

Tell us why

Area should be irrelevant - people can live in one area and walk/exercise their dogs in another.

2 dogs maximum without a licence / 'pack' training.

Clarify how dog access rules are set:

Support

Tell us why

Rules and regs should be transparent - as should the process for setting them.

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Support

Tell us why

Standardized rules for all areas - with appropriate variances between on-leash on highways, etc; off-leash regs (with clear responsibilities/penalties); etc.

Working dogs should be certified via an official organisation as being raised, trained and cared for according to a high-level of standards (e.g. International Guide Dog Federation; Assistance Dogs International)

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Support

Tell us why

If it's unclear, clarify; if it's wrong, correct it!

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Support

Tell us why

Reasons for supporting this should be obvious.

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Support

Tell us why

Respect for all sacred properties - ancestral mountains, cemeteries, etc.

Remove outdated or duplicate bylaw content:

Support

Tell us why

As above

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

As a professional dog walker my self, who walks in public places, I know that I am well capable of walking 10-12 dogs on lead safely and have no effect (other than admiration) on public and safety of public. Restricting us who are educated, can prove our abilities and our own policies we have in place for safety and control, is completely unnecessary and unfair. This would dramatically decrease business if not shut down business, a business I have worked hard on building and maintaining for 6 years.

I do not support prohibiting dogs on lead on beach during the day, and on leash dog is a safe and happy dog, this is the only on leash beach on the north shore during the day and provides the perfect place to fulfil your dog. On lead dogs are not a bother during the day and allow families to include the 4 legged friend on days out instead of ALWAYS being discluded because of unfair rules. Let our dogs be apart of our families and teach people how to control their dogs better.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I believe you are targeting the wrong people. The dog owners that are paying people to walk their dogs are responsible and care for their dogs. The Dog Walkers I have seen are responsible and allow dogs to be dogs, socialising while being kept under control (not necessarily on a leash). It's the wandering dogs owners that you need to target! Dog Walkers are performing a valuable service and to restrict the number of dogs will make it more expensive for owners with the possibility that they will cease it as an option for their dog .... creating more anxious unsocialised dogs!

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Too many dogwalkers (professionals) don't have their dogs under control. If all of them are off leash they can misbehave towards single walking dogs and owners as they operate in a pack. I had a very nasty experience like that. I even think that 3 off leash is too many

This is affecting all local dog walking businesses. I'm saying that - This is a targeted 'rule' as you will know in New Zealand a person cannot own more than 2 dogs per residence unless they have a kennel license.

You are putting people out of jobs and making it harder to live in NZ than it already is

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Long Bay Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

All dog owners should get allowed to access a beach with leash on after 10am and before 5pm. It is not difficult to manage and during these hours should be managed based on weather. If it a wet day and no one is on the beach, why can't the dog owner let their dog off to enjoy?

I also don't understand the logic of not allowing onleash dogs to walk in the regional park. The only stipulation is that if the dog owners do not pick up the dog poo at anytime or anywhere in the park, should have the fines increased dramatically to deter them from leaving it., and veing strickly on leash only in the park shuld be easy to manage this. Any responsible dog owners follows regulations and it seems rules are made to deter the minority again.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

To respond to changes at location (e.g. a new playground, sports field, more people). Please specify:

What is the main reason you want to change the current dog access rule?

There are Lots of dog owners in Long Bay and they should be able to walk to the beach with their dog on a leash. Driving to Torbay is a ridiculous option. There will soon be no areas for dogs to play or exercise in this area

Let them in! On leash only. Increase fines to those that don't and increase fines to dog owners not picking up after their dogs. Don't do a blanket penalty when it's the minority causing an issue.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Dogs need exercise. It is too hot on the pavement in summer to walk dogs during the day. How about some designated dog beach areas??

The suggested 10 am to 5pm prohibition of dogs is a bit harsh. Ironically, having lived nearby for over 30 years, I can say that it is the visitors from out of town who make the most mess at Shakespeare Park in summer, not the dog owners. Ask the workers who have to clean up their mess every morning. We live here and look after our beaches and parks yet we will be the ones penalized.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

There is increasing usage of pack walkers. For dog behaviour specialists that do this they manager larger numbers of dogs and qualified to do so. They use local parks and regional parks to provide experiences for our fur babies. It may be better to set regulations for dog walkers than blanket numbers and just anyone walking significant numbers of dogs. If a dog walker had to register and be certified this would demonstrate their specialisation etc

Dogs should have access to beaches all year round if they under control, on a lead and remain with their owners. There should be more fenced dog parks etc available, like in other countires. Auckland has to many restrictions on dog access when your dog if kept on a lead should be able to adventure out with you.

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

Dogs should be able to access beaches and parks under control on a lead and have safe spaces to allow off lead time. It shouldn't be limited during summer

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

There is a huge dog ownership in Rodney, almost all people are responsible and keep dogs on leads when the beach is busy etc. it shouldn't take limiting dog access to ensure this.

All regional parks unless specific sanctuary should allow access on lead at all times and specific times for off lead.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

Key points are

1) complaints against pack walkers are LOW

2) most pack walkers are safe and experienced

3) bylaw bad for small businesses who may not be able to operate

4) bad for owners who can't afford pack walks

5) bad for dogs who will miss out on walks

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

The issues with most dog incidents in public have nothing to do with the amount of dogs that people or businesses have at any one time. By limiting the number of dogs, it is only crippling responsible small business owners who have their dogs under control. There may need to be regulations brought in to license companies that walk upwards of 6 dogs at a time but creating a blanket rule will not help the current issues that are occurring, if anything it will limit the exercise and quality of life for those dogs who rely on experienced pack walkers to allow them the freedom that they may otherwise not receive.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

We have a dog and as part of our responsibility as a dog owner we have her enrolled in weekly pack walks for extra training and socialisation. These walks have aided the work that we do at home and have made a massive difference for our dog especially given her limited socialisation due to Covid. These walks are essential to a lot of dogs, their training and how they behave around other dogs. Changing these rules without proper consultation and understanding of these walks will cause more issues not less. It would make more sense to make dogs on long leads a minimum requirement on beaches where most attacks happen rather than focusing on this rule which only contributes less than 1% of poor dog behaviour reports. This change doesn't make sense. If you want to make positive change you are focussing on the wrong thing.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

As a responsible dog owner, I walk my dog on leash 100% of the time as, although he will always come back to me, I don't believe you can consider your dog under control unless they're in leash. The number of off leash dogs that run up to him whilst on lead is shocking. I wish people accepted that there is nothing wrong with walking your dog on lead

The tides as much higher here than they used to be so public access for recreation is limited. I think dog walking should be allowed anytime, tide permitting, as it would have minimal impact on other beach users

Tell us why

I'm a dog owner myself. I don't support having more than one off-leash dog at a time. If one dog approaches, the others tend to follow, and owners often struggle to control them all. I've experienced situations where my child and my dog were approached by off-leash dogs that didn't listen to their owners. It can be quite a scary experience. There were a lot of cases of kids being attacked by dogs in public - something needs to be done here.

I agree with the rule that "dogs are prohibited in all other areas of the Park" and the specified list of areas. If a dog trainer and experienced dog walker is licensed (not expensive) should be able to walk on lead in public.

Our pack walking has made a huge difference to our dog and his lead walking with me has been a massive change.

Our dog trainer and pack walker ensures each dog has one on one walks before joining a pack- and no off leash in a pack until she has trust and trained all the dogs.

What your proposing is a good thought to bad operators but the impact is unfortunately affecting the good ones and this change will force costs up, and we and other will end up not being able to continue- you need to set some standards of pack walking not just a blanket rule. The bad eggs will still abuse your rules.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

I've recently moved up from Christchurch which is far more dog friendly than here. I have been surprised with the lack of fenced off dog parks that's has the utilities like bins for dog poo and drinking fountains. Don't you think creating spaces for dogs and owners is seen as a socialy positive thing for communities? I currently live in gulf Harbour and we have an abandoned gulf course just wasting away. Wouldn't it be nice to purchase that land and create a space for dogs and the cummunity?

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

I don't know

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I feel the ratio of 6 dogs to one person is quite high, and especially having 3 off leash seems too many. 2 dogs maximum would be our family's preference

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I support the proposed change

Tell us why

I would like to note that dogs are frequently in the out of bounds area's. Long bay is such a special place being both a regional park and a marine reserve and I personally feel the whole area should be dog free. Mount Manganui's Main beach is a great example of what a dog free beach is like with dotiral birds happily nesting on the beach and Oscar the seal safely residing in the local walk around the Mount for all to see. Browns bay beach is a 5 minute drive away and would suit dog walkers much better as it is both neither a regional park or marine reserve

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

It is all good and well to clarify rules but there is little to no enforcement of these rules by the council. An example is at Orewa beach where the dogs must be off the beach by 10am -5pm. This is 100% not adhered to by many owners and when you ring the council they ask you to get the dog registration number and tell them. However, in today's society when I have tried I have been verbally assaulted and physically threatened for doing this.

Enforcement is key to adherence.

As a user of a camping ground run by the council I think there should be NO dogs allowed any time of the year in the camp ground. Reason being that the sites are small and often then are many small children around so it is only a matter of time before some get hurt.

I actually want to come away to a camp ground to free of dogs that can bark all hours of the morning and night.

All regional parks especially those protecting our wildlife should be dog free. Please give both our wild life and people who do not want to be around dogs a piece of paradise to enjoy without them.

To much wiggle room. Saying things like don’t go past that line doesn’t work with dogs or dog owners. They will give you same naive response as always if caught. Oh I didn’t know and often will ignore and return later.

Whakanewha Regional Park

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Orewa Beach and surrounding beaches

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

Most dog owners in this area follow the rules some of the time. However, any day in the summer you can easily find dogs on the beach off leash charging round out of control.

There is little to no enforcement of the rules and often the owners become agitat

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

No access at regional parks on or off leash when kids and wild life are around. If you have a dog it is your responsibility and not the communities job to cater for it.

Easy don’t have space for a dog at home = don’t have a dog.

I would like to see dogs banned from the entire Long Bay Regional Park at all times. There is confusion currently over which areas can be accessed which results in dogs being in other areas of the park and beyond the Vaughans stream. This is damaging to the wildlife in the park. Being so close to the island sanctuaries there is a good chance rare birds could use the Long Bay park if dogs were not an issue.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum eight dogs, with no more than four off-leash

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

6 is a practical number of dogs for one person

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

The current model is working and this proposed bylaw will cause harm to dogs and small businesses. An extremely small fraction of complaints to council are about multiple dogs/pack walkers. This bylaw is an overreaction to the very unfortunate behaviour of a few inexperienced and dangerous walkers who should not be in business. Don't punish other experienced, safe walkers because of a small minority.

I am an owner of two dogs who benefit immensely from a pack walker who walks 10 dogs at a time, with all dogs off leash IF those dogs have earned the privilege. Go out to Riverhead forest on any week day and you will see this replicated over and over. Safe, experienced walkers who have complete control of 10 or so dogs off lead. The dogs follow off lead, pull to the side of the track and wait for other packs, horses and bikes to pass, and enjoy their freedom because their pack walker is their leader. The number of dogs does not make a difference—if a pack walker is not an experienced leader for the dogs, limiting the number of dogs being walked will not help. It's the skill, not the number which makes a difference. Luckily, the huge majority of walkers in Auckland are safe and experienced, with total control over their dogs. They also use their judgement to make decisions about which dogs are off lead, which are walked together, and what privileges or limits the dogs require.

A huge problem in Auckland is the cruelty of dogs—working animals with huge exercise needs—spending their lives indoors. Underworked, underwalked, understimulated, these dogs become more of a nuisance for their owners and for society in general. Pack walkers help to solve this issue by ensuring many dogs get out on fulfilling adventures, saving their owners a job, and preventing dogs from having days without a walk.

The proposed bylaw will make using pack walkers too expensive for owners like me. We pay $180 a week for two dogs to go on two walks. Limiting the number of dogs our pack walker can take by 40% will HUGELY increase the prices, making this expense extortionate, all while Aucklanders are facing a cost of living crisis and small businesses are struggling to survive.

Please listen to the experienced walkers we trust to guide reasonable policy on this area — Cassie at Dog Squad, Toni at Urban Wolves, among many others. Do not let this bylaw pass.

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Pack/group walks will be disadvantaged. They are experienced dog handlers- why does it need to change

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

There are such limiting times and beaches as it is to walk our dog. During the day is much better as there are less people and dogs at that time due to people being at work/school. Why not bring the date forward to 1st Feb, as children are back at school by then. It's impossible to pick a quiet time when the hours are limited, so then "every man and his dog" comes to the beach at the same time. It's too restricting.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Tell us why

I think it is good to set a limit, especially for dog owners who may or may not have trained or completed dog training and handling. Curious, if this includes people who want to walk dogs as a job, and if there will be an exemption or a clause added to include training of handling a dog, is essential to the number of dogs one person can safely manage in public.

6 dogs are too few to have a viable business for the dog walkers. Maximum ought to be 10 dogs, all must be under control, and the dog walkers ought to be licenced. Most of the dog problems in Auckland appear to be with dog owners walking dogs off leash & not under control. Auckland Council seems to be fixing a problem with dog walkers that to me does not exist.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I honestly don't think anyone can safely control any more than six dogs at a time. If another dog/dogs came along it could create a huge fight and one person wouldn't be able to control a pack of dogs - it is crazy! Also letting 3 dogs off at a time is also asking for problems. How can one person control 3 dogs off leash and 3 dogs on leash if there was a situation of a fight with another dog/dogs? I think 3 or 4 dogs should be the maximum one person should be in control of at one time, particularly big dogs.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Maximum of 10 dogs, with no more than 5 off-leash

If an experienced and qualified dog walker can keep their dogs under control, they should not be penalised as for some people this is their only income

My thoughts to be eligible for this walkers would need to attend a class provided by council and pass an exam to show they can control that number of dogs and pay a fee for a registration certificate confirming they have been verified as "qualified" by Council

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#1324

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

I don’t know

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

The statement in the policy makes no sense.

"Council must classify a dog as menacing where:

• it has not been classified as dangerous"

This would apply to all other dogs by default.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

The proposed policy makes no mention of who can make behavioural assessments in relation to menacing dog classifications, not what qualifications they should have.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Support

Tell us why

Clarify how dog access rules are set:

Support

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Support

Tell us why

The definition of working dogs is too limited. Auckland Council only allows a handful of organisations to certify a working dog who have a waiting list that's over 3 years long and charge $20k-$40k per dog. So my autistic daughter who has a privately trained working dog to manage her emotions cannot take her dog in public spaces becuase we cant get him independently certified.

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Support

The list in the proposed schedule needs updating. There are areas listed that are no longer accessible or have names changed. Verify these places on google maps.

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

The annual dog licence fees are exorbitant, twice what is costs to licence a car, more than a coastguard membership. If licencing was more affordable, you would have more people registering their dogs and paying licences.

I thinks dogs should be allowed on Long Bay Beach any time, any day. I'm not happy with the council proposals further restricting good dog owners. I pay my dog registration fees and am a responsible dog owner and ratepayer, and feel I am not served well at all by the council dog rules. There is a lack of off leash areas for dogs in my area. The council should focus on problem dog owners, not the majority of good owners. We need a permanent off leash area in Long Bay, we have been asking council for this for years now and nothing ever happens. The council treats good dog owners as a cash cow and provides nothing in my area. Car access to Long Bay Beach via the North entrance on Glenvar Ridge Rd should also be allowed. The fact you can't drive through the park with a dog in the car is dumb.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

All parks

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:All of Auckland

What is the main reason you want to change the current dog access rule?

Dogs should be allowed on leash in all park areas. Provision for off leash play should be made in all regional parks.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Overall New Zealand's dog rules are extremely restrictive and very unfair to dogs and dog owners. Dogs on leash do not pose a danger to other users and can be significantly less disruptive to enjoyment of the park compared to some other groups e.g. noisey small children or partying adults. All areas in Auckland should have a local park with at least one fenced off leash area for dog play. Additionally dogs on leash should be allowed to accompany their owners throughout any park.

The council should provide a fenced off leash area in local parks such that there is one within 5 minutes travel of every Aucklander. Dogs on leash should be allowed to accompany their owners throughout all parks.

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Some dog walkers are well trained and this is their income. To limit how many dogs they can take out for walking / training, would either limit their income or how long the dogs will be out for. I would suggest you make dogwalkers register after completing a day course arranged by council / SPCA and if they course provider feels the dog walker knows what they are doing, let them register.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Currently there is a "blanket" rule of no more than 2 dogs (as an example). But they do not take into account how big / small your property is or if the dogs are quiet inside bound dogs or not. For my property, 2 small / medium dogs are sufficient, but it is not really big enough for 2 big dogs. Our neighbour's property if big enough for 4 big dogs.

Clarify how dog access rules are set:

I don’t know

Tell us why

I understand that on public beaches the dogs need to be on leash 10am to 5pm in Summer, however, I think it's stupid if you're limited to that time and we have a days of bad weather where nobody is on the beach but rules still prohibit dog owners of using the beach outside of that time

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

I don't understand, using Long Bay as an example, the dogs cannot be in the car from the Long Bay shops taking the quick road through Long Bay regional park. Does not make any sense to me

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Tell us why

There are too many irresponsible dog owners who do not have their dogs under control when they are off the leash - when one person has three dogs off leash they may act as a pack and attack other dogs, children or even adults, as happened recently.

HOWEVER, and this is a big however, this will ONLY be beneficial if the rules are enforced and monitored, for instance through CCTV - which will allow enforcement officers to be able to check camera footage after an incident. At the moment, we have many by-laws and regulations but where it all falls down is with the lack of enforcement. Australia has signs saying STOP it or COP it - New Zealand has signs, but nothing happens in terms of enforcement. This will need to change.

I'm not sure why you are proposing to change this, there are a lot of dog owners in this area and it currently works well as it is. It is not always possible to walk my dog before 10am or after 5pm and it's so good to be able to still take my dog to the beach even if it's on a lead. There are so many times when I walk my dog between 10am - 5pm during summer that there are hardly any people around and it's very unfair that you are proposing that I can't walk my dog during those hours, I assume, because some people don't like there being dogs at the beach while they are sunbathing etc. Please don't change it.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Because some people walk too many dogs at one time and it's unsafe for everyone if the dogs get into a pack mentality and want to go after something. The walkers often do not have control of their dogs.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

The rules should be the same across the whole of Auckland. Obviously working dogs such as farm dogs would be different (need all of them off leash...these dogs are usually well cobtrolled)

During summer the beach is packed with people. It is not nice being in the water and watching someone's dog wee on your stuff on the beach, or having a dog come up and wee on your baby's pushchair while you are walking along.. Dogs don't need to be added into the craziness that happens at Long Bay during peak summer time. Often the sand is too hot for dogs to be walking on it anyway...paved areas certainly are too hot so it dangerous for dogs too.

My dogs have enjoyed pack adventures for several years with a reputable and responsible business. There have never been any issues with any of the dogs or their handlers because of the high degree of professionalism and skill. I see this as punitive restriction that does not benefit the whole, but punishes many, because of the actions of a few. It will have a negative impact on dogs and their owners

I think dogs should not be allowed at the beach at all. Convert one of the parks to a dog park. That will be better than off leash dogs and especially those whose owners never pick up ********** at the beach. It's unsafe & unhygienic. Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

What is the main reason you want to change the current dog access rule?

Ridge park and other parks in the area are for children. We cannot have dog faces or dogs off leash in these areas

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

I'd sent some pictures of dog owners and walkers bringing dogs to the park at Westerly place & Caldera Drive, near Remuremu. The dog walkers & owner is just let their dogs ********** there without any inhibitions. Then in the evening, I see bugs and chikdreanaround the same faces.

Because anyone can say they are a dogwalker, I see this as a good regulation for the ‘ cowboys’ in the industry. I am so fed up of people setting dogs up to fail. It’s been a long time coming.

I would also like to add that if I ring up and make a complaint to the council about a dog on the road running loose, I don’t expect the council to ask ME what I would like to happen with that dog. You need to make those decisions and take that responsibility, not me!

Neutering needs to significantly reduce the registration fees. Currently you get a huge discount for large dog licence but only $10 reduction for desexing. Fees need to be significantly reduced, even if it's only for the first year, after proof of desexing

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

Busier beach meaning more off lead dog problems. Rarely are off lead dogs under control and often dogs on beach during summer days

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

The beach is small, and dogs have scared children, jumped up on people, peed on my picnic, attacked my dog, and made the beach unpleasant. It needs to be on lead at all times

Location 2:

What is the full name of the location where you want to change the dog access rules?

Entire locationBeaches are busier**Entire location**

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

We need a fenced dog park, and dogs on leash only at beaches. Too many incidents now were dogs/ kids are scared, harassed or injured. Our local flora and fauna is also being damaged

Location 3:

What is the full name of the location where you want to change the dog access rules?

Shakespear reserve

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

To respond to changes at location (e.g. a new playground, sports field, more people). Please specify:

Tell us why

Do you want the change to apply to the entire location or a section of it?

Change the current rule to prohibit dogs

What is the main reason you want to change the current dog access rule?

To respond to increased presence of wildlife (e.g. ground nesting birds). Please specify:Birds don’t just stay in the fenced area

Please explain your issue in more detail:

Do you have any further comments about dog access rules at Regional Parks?

To increase bird life

Maximum four dogs with no more than two off leash for one person, if it's a business they should get a license, that somehow tests if they understand dog behaviour.

The size and breed of dog should also be considered, as two dogs on lead and two loose already in pack mentality if a larger breed is still no match for a dog or child or person if they just one decided to attack and the others join. Six dogs is still significantly frightening on approach even if three are on lead, often dogs on lead tend to be more aggressive, lead aggression.

I feel that during school hours dogs could stay on the beaches to 11, but I feel 6pm is a better time to reintroduce them to beaches, as there are still a lot of families about at that time, especially after school, often eating.

I think it may be time to consider a different layout all together, weekends are now very different at beaches then years ago, for example there are not many people at Long Bay or other reserve during the weekdays but crowds during weekends, school terms intertwined.

It would be great to get pedestrian dog access from Long Bay Village to Long Bay Beach.

Is there a way to separate big dogs from small breeds, or is this in the too hard basket. (Like a height line on entry).

NZ has one of the highest number of dog ownership per head of capita in the world, dogs are vital to peoples lives. Smaller homes in particular in Auckland means more smaller dogs, that a lot of people are afraid to take out due to large breeds roaming off leash and their owners not keeping them under control. Consider having off lead dog parks for larger breeds, but not combined.

I have only come across this is NZ, the divide in type of dog ownership.

This is one of the last remaining local north shore beaches that allows dogs on the beach during summer. Making this change prevents families from including their dogs in their summer activities. Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I have seen an increasing number of dog biting incidents reported on community groups which is concerning. I think a limit would help with this.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Support

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

There is so much dog poo on the actual beach and the rocky headland and also along the grass

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

To reduce the amount of dog poo that ends up in the sand or in the ocean. Last week a toddler at Tindalls sat in dog poo that was in the sand

Do you have any further comments about dog access rules at Regional Parks?

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

We have a dog that likes to swim and needs exercise and due to work and school we cannot always make it to the beach very early. We cannot use any of our local beaches after 10am. Long Bay is the only one we can use without driving too far. Walking the streets is rarely an option, the pavements are busy and too hot in summer during the day. We have never once broken a dog bylaw in 5 years, our dog is on a leash unless swimming regardless of the time of day and we even clean the beach as we walk but with the proposed new rules we will have nowhere to walk our dog before evening. It seems unfair that all access to beaches are removed for dog walkers in summer, non dog owners can go to any beach any time of the day so why can't dog owners have 1 beach to use.

Mahurangi Regional Park

What do you think of this proposed change?

Tell us why

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

I agree with the rules that dogs shouldn't be allowed inside regional parks especially where wildlife can be an issue but the sand and the sea should be used by all. Why punish the majority by the actions of a few.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#1704

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I'm a dog owner and lover but I don't think proper control of over 6 dogs at a time is possible.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Support

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Long Bay Ridge Road.

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to changes at location (e.g. a new playground, sports field, more people). Please specify:With so many people now populatng Long Bay, it would be more environmentally friendly to allow them to walk their dogs down to Ling Bay beach through Glenvar Ridge Road, rather than them having to drive down to the South carpark.

What is the main reason you want to change the current dog access rule?

New road down has been built and the population has increased beyond since the current regulations were put in place.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Do you have any further comments about dog access rules at Regional Parks?

I live near by and use the beach all the time for my dog. They are already on a leash, if you're going to start changing rules maybe first focus on: people with stupid big speakers playing obnoxiously loud music, people with speak attached to the OUTSIDE of their car!! people leaving litter all over the place, people parking on the grass, people blocking off parts of the grass/ beach like they own it, people drinking and smoking. Once you've resolved all those much bigger problems, revisit well behaved dogs already on a leash!!

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

There is enough close beaches with restrictions people without dogs can go to, browns bay is used more by dog owners then any other group so lift all restrictions, make it the dog friendly beach. Understand people don't like dogs but they have other close

In general it's all about OTT the council seems to focus on easy problems to fix and ignore anything that might upset a certain demographic or may be harder even though is much more of a social nuisance

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Do you have any further comments on the proposed policy and bylaw changes?

I think the issue is not so much the rules but enforcement. I live on a property overlooking sports fields in Stanmore bay (behind the leisure Centre). Dogs are constantly on the fields on and off leash. Mostly well controlled but often I see owners fail to watch as their dogs poo on the field. Not very fair for the kids that play on those fields.

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I think the maximum allowed dogs per person should not exceed 2 except for professional dog walkers. This is because being in the vicinity of one person even having 3 larger breed dogs who are pulling can feeling very intimidating. Many people don't have full control over their dogs so limiting numbers to two in public means less chance of incident. Having more than two dogs seems excessive anyway

I think it needs to be clear which is the "south" end. Many people seem to be confused by the current rules and think that the beach is out of bounds to dogs (see the community Facebook pages). I think that dogs should be allowed on all areas in no.2 on a short lead. The only reason I think dogs should not be allowed on the beach between 10am and 5pm is because of the heat. If it's a rainy/cloudy/windy/cool day and the beach is empty during those times we should be able to walk our dogs.

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Mairangi Bay Beach

What local board area is this location in?

Devonport-Takapuna

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

A very common problem and it's very hard to fine the people who don't follow the rules. At least to have a quiet beach during peak time, cleaner and safer for children.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

I believe dogs presence in regional park shud be strictly regulated. Many posts on community pages / examples where ppl arent following guidelines n its becoming a nuisance due to waste mgmt challenges, rowdy owner behaviour, untrained and dangerous dog behaviour, impact on local nature, brids, fauna etc - please please DO Ensure adherence multiple times now also i have seen owners just conveniently by passing rules.

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.
Only provide feedback on one location at a time.
Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Orewa beach

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

Other - please specify:

What is the main reason you want to change the current dog access rule?

Allow on leash during the summer months mid week

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Orewa beach is only really busy over the Christmas period and summer weekends.. when the tide is out there is heaps of room for dogs and humans.. would be nice to go down to the beach earlier with my dog on a leash during the week while it is still warm. See photo below of low tide.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

We had a rescue dog who was taken to rural pack walks with professional dog walkers with larger groups of dogs, and it had an immense positive effect on her behaviour.

They never had any issues with their walks; they kept the dogs perfectly under control. They came and picked our dog up and dropped her off at the end of the day, which was a huge blessing.

The proposed limit would make their business model financially questionable; it is hard to see how they could make it worthwhile with such a limited amount of dogs.

I also failed to see any evidence supporting the council's proposal.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

It is extremely unfair and divides our local community by not allowing access to the beach from the dot access on Gender Ridge are. Surely a fenced pathway and leashed dogs could be allowed to beach and also use the park. Three in no shelter on the beach.

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Long Bay Regional Park

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:A path so that Long Bay residents at the new end of Long Bay can take dogs to the beach without having to drive to Beach Road.

What is the main reason you want to change the current dog access rule?

To get to the beach quicker, with dog on leash

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Long Bay is a fantastic place to live but we don't access the beach as much as we would like as when we walk, we take the dogs. To get to the beach from Luff Place, we have to drive to Beach Road to gain access to the beach. An allocated path for dog walkers to get to the beach from the Long Bay Surf Club area would make it much easier and life much more pleasant. Obviously, the dogs would be on the lead until they reached the beach and would have to stay on the path. There are a huge amount of dog owners in Long Bay and this would enhance the quality of life for residents and their dogs.

Long Bay beach is probably the only one beach where it is allowed to walk a dog between 10am and 5pm during summer time. Please leave this rule as is.

I support clarifications regarding the access rules to the beach. However, during summer time car parks near south entrance are quite often overcrowded. Allowing on-leash access via the track near Glenvar Ridge Access Road could significantly ease the tension on carparks and make access more convenient for dog owners living in Long Bay suburb. Currently they have to drive to the same car parks as residents from neighbouring suburbs.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

I use Long Bay Park and would like to know why the area north of the Vaughan stream has been excluded for dogs at all times. In summer there are frenquently bones / foods / rubbish left in the park which are tempting for dogs walking on the beach so I tend to

leash my dog for the length of the beach and then let him play at the end. He is not disturbing anyone or any birds in this area.

I believe that by holding the daytime summer by laws for dogs to be on leads between 10am and 5pm the current rules should be sufficient so that everyone can enjoy the beach together. I generally walk before these times but it's nice to have the option to still excersize if I'm running late and miss the cut off.

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

I believe that the on leash current rules allow for everyone to share the beach. If dogs are off leash then fines can be applied. As for north of Vaughan stream, I'd like to know the reason for this as the border instead of the end of the cliff area BEFORE Granny Bay. This area would be away for most people sitting on the beach. Many years ago there were birds nesting on the rocks but since the cliffs started erroding, the birds are now nesting way up high and no where near where dogs would walk. The stream moves a lot so this current rule could chop off a good chunk of the current beach. The rocks at the end are fixed and I've never seen dogs walking over these rocks to the next beach.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Long Bay Regional Park

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:The entire beach area, not cut off north of Vaughan Stream

What is the main reason you want to change the current dog access rule?

not many people sit on the beach north of Vaughan stream, before Granny Bay so this would be an ideal place for dogs to run.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

I've walked on this beach for over 25 years and see no reason why dogs should not be allowed to run on the area north of Vaughan stream as there are no nesting birds in the rocks as they nest up high in the cliffs and have done so for many years.

I would like them to remain as they are with on leash 10am to 5pm during summer but open up the area north of Vaughan stream to dogs as an area to play away from the general public. Same on leash rules would apply to this area during summer.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Many dog walking services provide an essential service to those who work full time. This rule with prevent many of them from operating effectively. Less dogs being walked = more complaints from neighbour's about barking

I do not support the proposed change

Tell us why

We, like many others, specifically purchased a house at a premium, to take advantage of easy access to a dog friendly beach. Considering the huge, ever increasing rates we pay and the lack of dedicated dog parks on the area, we vehemently oppose this rule change. Dogs on leash during the day over summer doesn't cause issues and people are very respectful of this. I also feel for shift workers who may only be able to take their dog out at this time. Given the amount of disrespect visitors show to our local beaches and parks over summer(rubbish strewn everywhere, loud music, illegal parking, illegal campsites set up), I would think some local dogs on a leash would be the least of your concerns.

I support an approach where we can keep the current rules (no limit on the number of dogs being walked) provided that the dog walker is representing a registered business specialising in dog walking or animal management, can provide evidence that they undertake training in animal management, training or behaviour and have not had any complaints upheld in court or by council. This approach finds a balance between responsible dog walkers who are passionate about animal management, training and behaviour vs those who are taking advantage of the current rules on dog walking to earn additional income.

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

All tracks on parks, doc land etc

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

Dog should be allowed everywhere humans can go as long as they are under control and mess is picked up, anytime of year and day

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Its safe for dogs and people and if they are on a lead they don’t affect the wildlife that has already moved when a human came along.

Dogs should be allowed eveywhere

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

I think the better approach is a licence for the dog walker (if not already in place) . My dog goes to a dog walker and they have taught him a lot of great social skills. My concern when I walk him is dogs with owners who can't control them, I'm unsure why trained dog walkers are being singled out

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

While I do think it's good to have more rules around people keeping dogs under control I've also sent my dog to pack walks before which would be made impossible by these new rules. Perhaps something could be brought in to allow people who do these group walks to obtain a form of licence after proving they have adequate dog experience and control and have plans in place in case something were to go wrong. That way they can remain doing their jobs but the average person still can't have too many.

My other concern is how this relates to separate people meeting up. Say I took two dogs to the beach and ran into a friend who also has two dogs are they all allowed off leash? Is it three dogs per person allowed off leash or if you walk too close together are you at risk at getting in trouble for having too many dogs off leash playing together despite two owners being present.

Lastly I would be a bit concerned about additional stress for the dog control officers who already have their hands full dealing with dogs with no owner present without adding in this as well.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Clarify rule that all dogs classified as menacing must be to neuter:

I don’t know

Tell us why

I hope that this action will also apply to dogs that fall under the definition of a menacing dog but is a small breed. Many small dog whi exhibit aggressive and dangerous tendencies are not held to the same standard as big dogs based on the premise that a small dog can’t do as much harm. This is a false assumption and I would hope that small dogs classified as menacing also get the same penalties.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

It's a shame you've not made contact with those who are extensively involved in this business. There are a few cowboys out there, but there are many high quality dog walking outfits, thst provide an exceptional service for families that would simply not be able to afford the costs increasing if they had to suddenly increase their costs statistically, dogs causing issues are not those that are part of professional walking packs. Less than 1% of your complaints are related to professional walking groups. Given the enormous costs associated with councils, of which are passed on to your rate payers, wasting our money on reviewing something that you've not had professional dog walker consultation with belies belief. If you are adamant to impose restrictions, then it should NOT include those groups who are registered professional dog walkers. Otherwise, you're simply adding to the costs of the everyday Aucklander.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

I support the proposed change

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I would like to have more context around why dogs have gone from 'under control on leash' from 10-5pm to 'prohibited' during the summer season. I don't think this is reasonable, especially considering the holiday time is only over December and January. Perhaps there could be a sign made for over the holiday season (Christmas - second week of January) and public holidays during summer if the issue that with the beach being so crowded it becomes unsafe to have dogs on the beach?

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum eight dogs, with no more than four off-leash

Tell us why

Because the dog walkers will generally always have over 6 dogs and their job to command and control the dogs will be made more difficult with three on a lead.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Do not support

Tell us why

Because the rule change will generally be in the human's favour - not the dog's favour! The places where the dogs can go is getting smaller and smaller. More and more houses are going in and there are fewer places to walk the dogs and now you are potentially tightening the rules further. Beaches and parks are for humans and dogs alike!

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

Who is going to decide whether a dog is menacing or not? One person complains because they don't understand dog behaviour and then the dog has to be neutered?

However, I do support neutering and desexing for all dogs as there are far too many unwanted puppies and dogs already. My problem is with 'Who' is going to have the power to decide if a dog is menacing or not.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

It needs to be more than one assessment by a qualified person - not a complaining member of the public

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Do not support

Tell us why

You should be able to have more than two dogs on a residential property anyway.
Why should some areas of Auckland be able to have multiple dogs & other areas can't?

No change to current Policy (dog access) rules

Tell us why

Because the two rules in place are easy to understand and work.

Keep it simple! stop complicating things

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

Because alot of people want to walk their dogs between 10am - 5pm - and they should be able to! Already they are banned from the park - leave them alone! They can be walked on lead between 10am - 5pm and people can also enjoy themselves on the beach!

One person cannot be guaranteed (as the walker, not owner) to control 3 dogs off leash if they get into an altercation or potentially negative situation with other dogs (on or off leash) or people who do not relate well to dogs. This seems sensible. However, I do not agree with banning dogs from the cafe area or food areas. If a dog is under control on leash and not disturbing other patrons then they should be allowed to sit by the owners feet while the owner has a meal or a coffee. If a dog is a disturbance then that specific dog could be banned by the cafe operator. Most dogs are very well behaved on leash in cafe settings.

It is a pleasure to be able to walk with your dog in a beautiful setting. If there are kiwi or young animals in the area then the dog should remain on leash. Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

IN MY VIEW DOGSD REALLY NEED TO BE ON A LEACH AT ALL TIMES WHEN OUT OPF THEIR PROPERTY.

ESPECIALLY ON THE BEACH.

THERE ARE EXCERISE PARKS FOR DOGS TO HAVE THEIR EXCERISE.

OI AS A SENIOR CITIZEN WOULD LIKE TO HAVE A MORING BEACH WALK WITHOUT BEING SCARED OF SOME OF THE BIG DOGS THAT ARE CLEARLY NOT IN CONTROL BY THEIR HANDLER.

MY HUSBAND (87YR OLD)HAS BEEN BUMPED AND NEARLY FALLING HAD HE NOT HELD ON TO ME BY THESE DOGS RUNNING WILDLY AFTER OTHER DOGS ON THE BEACH AND BEING VERBALLY ABUSED BY THE HANDLER AS HE PUT HIS WALKING STICK OUT TO PROTECT HIMSELF.

AS AN ELDERLY PERSON YOU SHOULD BE SAFE AND FEEL SAFE WHEN GOING FOR A WALK ON ANY BEACH AROUND AUCKLAND,

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

ARKLES BAY BEACH

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

AS THE OWNERS OR DOG HANDLERS TO NOT ALWAYS HAVE CONTROL OF THEIR DOGS

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

DOGS ON THIS BEACH SHOULD BE ON A LEACH AT ALL TIMES THEY ARE ALLOWED ON THE BEACH. A LOT OF SENIORS GO FOR WALKS ON THIS BEACH AND DOGS RUN WILD OUT OF CONTROL. MY HUSBAND NEARLY GOT FLOORED BY A BIG DOG RUSHING TO ANOTHER DOG OFF THE LEACH AND IF I HAD NOT HELD ON TO HIM HE WOULD HAVE FALLEN AT HIS AGE OF 87YR NOT A GOOD IDEA TO FALL.

AND ON TOP OF THAT THE YOUNG OWNER OF THE DOG VERBALLY ABUSED HIM AND SAID HE WAS GOING TO F**** HIM UP YOU OLD, MAN," AS HE HELD OUT HIS WALKING STICK TO PROTECT HIMSELF, THE DOG OWNER THOUGHT HE HIT THE DOG BUT HE JUST TRIED TO PROTECT HIMSELF HE DID NOT TOUCH THE DOG AS IT JUST CONTINUED TO CHASE THE OTHER DOG. IF HE HAD HIT THE DOG IT WOULD HAVE COME BACK TO ATTACK HIM.

WE FEEL THAT ALL BEACHES SHOULD HAVE DOGS AT ALL TIMES ON A LEACH. IF THEY WANT TO EXERCISE THEIR DOG, THERE ARE SPECIAL DOG PARKS FOR THEM TO DO SO.

AS AN ELDERLY PERSON YOU HAVE A RIGHT TO FEEL SAFE WHEN YOU GO FOR A WALK ON ANY BEACH IN AUCKLAND.

WE FEEL THAT WHEN A DOG LEAVES ITS HOME, IT SHOULD BE ON A LEACH. THAT WAY PEOPLE YOUNG AND OLD WILL FEEL SAFE WHEN OUT WALKING ANYWHERE.

DOG EXERCISE PARKS ARE MADE AVAILABLE FOR THESE DOGS THAT NEED TO EXERCISE .

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Auckland Region

What local board area is this location in?

I don't know

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

Other - please specify:

What is the main reason you want to change the current dog access rule?

More compliance and enforcement, which I know is hard with staffing levels. And no-one wants a kill joy, but educating dog owners about the park/beach walkway isn't just there's but for everyone.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Do you have any further comments about dog access rules at Regional Parks?

For dog walkers I believe we should take into consideration that they are small business owners and qualified to walk more dogs together than the average person.

Perhaps specifications need to be outlined to ensure there are no unforeseen consequences on these small business owners and people can still access this vital service at a reasonable price.

Limiting qualified dog walkers to knly 6 dogs may lead to unsustainable business practices and ultimately lead to them nonlinear providing this service

What is the full name of the location where you want to change the dog access rules?

North of Long Bay

What local board area is this location in?

Upper Harbour

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

Dogs in the area would not disturb anyone. Beautiful recreational area close to beach and suburbs!

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

I find it a great mistake to prohibit dog access in any place if a dog I on a leash. What is the problem? So many people in Nz has dogs and are kept away from being out together in the countryside!

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash unless licence obtained

Tell us why

Introduce a dog walker licence. Be a licensed, qualified dog walker to walk more than 2 dogs.

Regulate and build a proper framework for industry that's booming rather than banning it outright. Dog walkers have a responsibility and people have a right to use their services much like a nanny.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Do you have any further comments on the proposed policy and bylaw changes?

Let's not restrict dog owners rights and access to beaches and parks for a small minority of liberal Karen's. Focus on equitable distribution of rate payer money to build critical infrastructure for the local area rates are paid.

Tell Wayne this is a waste of rate payers money.

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

My dog has been going out with a dog walking company for the last year twice a week. They take 10 dogs per handler, the dogs are under control and have a great time.

All the handlers are fully trained and from the first time my dog met the handler he listened to her and followed her instructions, due to her skills.

My dog has learnt so much from being with them, including totally ignoring the ducks walking up Hythe Terrace, socialising well with all types of dogs and people. I get photos everytime they go out and the dogs are happy and controlled.

For one instance of an untrained dog walker this is a total over reaction. Most people moved their dogs from that dog walker per newspaper articles, so the public controlled the situation by removing their dogs from a badly run business, so heavy handed rules are not necessary.

Auckland Council should consult with the dog walkers about what they can do and how many dogs they can handle effectively and not just arbitrarily decide what they think is correct.

There are so many issues such as dogs roaming the streets in some areas, dogs being chained up 24/7, dogs barking all day because they are left outside alone. These are the issues that cause injuries and dog attacks, not the dog walkers, please can you bring these matters to Auckland Councils attention and get them to rethink their unnecessary and unfair new rules regarding dog walkers.

2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

There should be a complete ban on all dogs on Long Bay beach. We see blatant disregard to current bylaws daily as it is, and a lot of unsafe interactions between dogs and public. It is one of Aucklands most popular beaches for swimmers, and permitting dogs on the beach (regardless of the season or time of day) introduces unnecessary risk, especially considering there's plenty of alternatives nearby for dog walkers. Not to mention issues regarding sand and water quality because of owners not cleaning up properly, the threat dogs pose to nesting shore birds, erosion and damage to sand dunes, as well as the beach being a marine reserve. It is baffling that dogs are permitted on such a pristine, special and popular beach.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I would like to keep the rules as they are (summer). Dogs should be allowed on the beach between 10.00am and 5 pm on lead. As dog owners, such as myself, need to exercise their dogs after 10.00 a.m.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Long Bay

What local board area is this location in?

I don't know

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:nothern part of the beach beyond the stream

What is the main reason you want to change the current dog access rule?

the Northen part of the beach is off limits for dogs because of nesting birds. There are no nesting birds in that area.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

The area does not have nesting birds on it - therefore dogs should be able to walk a little further at the top end of Long Bay.

Do you have any further comments about dog access rules at Regional Parks?

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

It's nice to be at Long Bay during summer without the nuisance of dogs while swimming and using the beach and park. More and more dog owners are ignoring the rules about being on a leash between 10-5 so prohibiting them during those hours would be great. It's actually better for the dogs as well to not be on the beach during that time. It's usually the hottest part of the day, they should be at home somewhere cool and shady.

Dog walking companies (who have great control over large packs of dogs) bring so much help to family's who otherwise would have badly behaved barking dogs at home alone all day during the working week. By stripping these companies of being able to walk and train large amounts of dogs with control, we would collectively suffer the consequence of loud, and undertrained dogs stuck in homes during the day. Dog walkers are an asset to the community. I have two dogs myself and utilise their services often.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Other (please explain below)

Tell us why

I very much support the explicit direction about access/car parking; I see too many people bringing their dogs across the parkland at present. I also regularly see people walking their dogs north of Vaughan stream in summer months, which is against current rules. However, I oppose outright banning dogs between 10am and 5pm and would rather see better enforcement of existing rules. Any responsible dog owner wouldn't have their pet on the beach between those hours during summer anyway as it is far too hot.

I think the change to summer prohibited between 10am and 5pm is unnecessary - unless maybe it is on weekends and public holidays - that would be acceptable as there are a lot more people then. However, to make this a blanket rule for everyday in summer is unfair. Its only the same locals down there with dogs - most of whom are walking off peak anyway. But this seems to be too blanketed a rule for everyday.

Beaches are family friendly areas, that all members of the community including beloved dogs should be able to access. Beaches remain a safe environment for dog walking away from busy roads. The current hours allow all members of the community to walk their dogs that fit into their busy work-home life. With the current policy, it allows for dogs to remind under control and therefore reducing any threat to others in the shared area. There are plenty of beaches that have restrictions, if others would like dog free areas they have nearby options.

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Long Bay Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Dogs and dog owners need exercise and areas to walk their dogs. Prohibiting dogs from 10am-5pm in Summer is draconian, unfair and heavy handed so delete this proposed change please.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Long Bay

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

Long Bay Beach

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Do you have any further comments about dog access rules at Regional Parks?

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#2498

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Still too high at six but better than now. Large packs of dogs, even on leads, are intimidating.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

This will impact many in our community. Leashed dogs regularly walked by local dog owners pose no problems for beach goers. Shift workers, parents, dog walkers amongst many others will be negatively impacted by this proposed change. From my observations and experience as a resident and dog owner in this community, there are many, many days during summer weeks from 10am-5pm where there are not many people using the beach. To restrict dog owners from walking leashed dogs seems over arching. Givne the majority of dog owners wouldn't walk their dogs on the beach during hot hours a fairer restricted access would be from 11:30am - 3pm, which would help protect dogs being walked in the hottest hours. Please don't make this change. As a near daily dog walker at Long Bay beach, there are frequently days when we go to the beach and there is barely a soul there. This rule could be fairer if it was just restricted during super busy times such as the Dec 20 - Jan 20 when the beach is a bit more popular.

Responsible dog owners are being unfairly restricted from areas that make no sense to restrict dogs from. Especially access from the Long Bay end through the walking tracks. This would actually end up seeing less dogs on the beach.

Greater enforcement focus on unregistered dogs would solve the problems I assume you are trying to solve. Even having exemptions allowing Responsible Owners (identified by a different dog registration tag) to access the current areas that are restricted w

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I do not support restricting dog access at Long Bay Beach during summer.

To improve current approach to dog management you need more enforcement of current rules, not more rules and restrictions.

You say you are doing this to minimise the risk to people at busy times. How much risk is involved with dogs being walked on a lead? It's a cop out excuse to reduce dog access to Long Bay Beach. The problem here isn't dogs being walked on a lead at busy times. It's people breaking the rules. But you won't enforce the rules? It seems you just want to keep the anti-dog crowd happy by making more restrictions instead of managing the rules you've already put in place. You owe this to dog owners as our access to public places has been reduced already.

You say you are further restricting the times dogs are allowed on Long Bay Beach to balance the use of public space to meet the needs of dogs and people... where else can we take our dogs to the beach in summer on the North Shore that has good access and is safe for people and dogs? People can go to any other beach on the shore. Should we leave our dogs at home to bark for 6-8 hours or tske them with us as part of the family? Dogs can only go to Long Bay, particularly at high tide, no other beach. Churchill is not accessible at hightide nor is it safe with crumbling cliffside (refer to dog walkers death some years back from falling rocks). It's also not accessible for elderly dogs or people with reduced mobility who can still manage a flat beach at Long Bay. Churchill access is sprayed with chemicals (without signage) so you don't know when it's safe to walk your dog down there.

We quite frequently see dogs in the Long Bay Reserve. Just a few days ago, near the playground, a family had set up their picnic and spent hours in the Reserve with their puppy. The signs clearly say no dogs in the Reserve. These people don't care about the rules. It doesn't matter how many rules you make, how many restrictions you put on good dog owners or how many signs you put up. These people will do what they want anyway because no one is enforcing the rules and the punishment is not even a slap on the wrist. In my 18 years of dog ownership I have seen a ranger once talking to dog owners at Long Bay and the ranger didn't even know the dog rules. None of the other beaches have any form of policing of the rules. We wouldn't have these issues if there was an animal control officer who patrolled the beaches. I would like to see our dog registration go towards that.

Start punishing and fining people who break the rules, stop making new rules as they won't affect those who are breaking the rules anyway.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Dogs are part of the family and should be allowed to join in on family time at the beach or park. There are so many restrictions that instead of joining the family and learning to be part of society, dogs are left at home for hours and hours on end and end up being neurotic, bark and become a noise nuisance to their neighbours. Let's normalise dogs being part of the family. Currently dogs are taken to this area and it's not enforced anyway. Good dog owners and their dogs are missing out because we follow the rules.

Manage the dog access rules you currently have by enforcement measures and fines not by making more rules (you are unable to manage/enforce) that punish good dog owners and their dogs.

It is better to consider the families having child(ren) and dog(s) at the same time. Although protecting others who are afraid of dogs is a need, disallowing dogs access won't help further. With good instructions, dogs and their owners can behave better. I don't think the problem is regarding the number of dogs but more the qualifications of the walker.

As an owner of 2 dogs who use these services weekly I use walkers who have proven to be in complete control of large groups of dogs and trust my babies with them completely. I also see the general public who do not have control of 1 dog.

This blanket proposal is penalising the capable who help people and families who are working hard to get through life. The responsible walkers who help me are invaluable!

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Shakespeare regional park

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:To have a space to exercise our dogs safely and help take congestion off the beaches

What is the main reason you want to change the current dog access rule?

Safe areas can be made that don’t impact the environment but allow dog owners to enjoy the park with their dogs.

More park access will relieve congestion on busy beaches

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Please allow dog access

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

This has got out of control in our parks and at the beaches. We've seen up to 40 dogs at Monte Cecilia park with one dog walking business and the dogs were absolutely out of control. We've also seen aggressive dogs at the beach with walkers that are roaming around like a pack. These walkers take the money but do not have the animals under control.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

We are dog owners and we support the summer rules that mean our dog has to be walked early or late. But, people need to respect those hours for dogs, and accept that they will be running around on the beach during those hours. It would be great to have more doggy beaches in AKL that can be used outside those hours, but for more stringent rules about dog behaviour at them to be established as lots of the dog parks and beaches are over run with dogs that are out of control.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

The proposed limit fails to address the issue it is trying to address. Such as owners with no control over their dogs or dangerous dogs roaming in the community. It does however directly impact the livelihood of professional dog walkers who responsibly handle dogs.

Professional dog walkers play an important role in the community by ensuring dogs are excercised, socialised and provide on going positive training. The families that employee these professionals are also addressing the needs of their family dog and rely on the service they provide.

Applying arbitrary limits overlooks the skill and training required to walk multiple dogs safely.

An evidence based approach in consultation with the Professional Dog Walkers Association is needed to create practical solutions.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Dog owners in this area are responsible and respectful of others. New Zealand already has many severe restrictions on where dogs can go. I understand and support that this is needed to protect our fragile flora and fauna. Having a dog on the beach, on lead, still maintains control of the animal when there are more people around. It does however, further penalise dog owners with the options they have on where to exercise their pet. It would be useful to have evidence to back up the restriction, that people taking dogs on the beach, on lead, are causing a nuisance to others.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Alternative Option Suggestion:
Introduce a licensing system for professional dog walkers, allowing them to operate with higher dog limits (e.g., up to 15 dogs) based on training, certification, and adherence to a code of conduct. Licensing would:

- Ensure high standards and safe practices among professionals.
- Provide the Council with the ability to monitor and enforce compliance.
- Allow professional walkers with proven skills to continue operating without arbitrary restrictions.

Explanation:
A licensing system is a better solution than imposing blanket limits. It recognizes the expertise of professional dog walkers and ensures safety and accountability while addressing community concerns. This approach would also allow council resources to focus
on more pressing issues like roaming and barking dogs, which make up the majority of complaints.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

The proposed limit of six dogs (with a maximum of three off-leash) fails to address the real
issues affecting the dog community, such as owners/walkers with no control over their dogs,
and roaming dogs. Instead, it penalizes professional dog walkers who already responsibly handle multiple dogs.

Professional dog walkers play a critical role in ensuring dogs are exercised, socialized, and trained, reducing behavioural issues that might otherwise lead to complaints. Arbitrary number limits overlook the skills and training required to walk multiple dogs safely and responsibly. We need a practical, evidence-based approach that includes consultation with
industry experts, such as the Professional Dog Walkers Association (PDWA), to create effective solutions.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Auckland Botanic Gardens,Long Bay Regional Park,Muriwai Regional Park,Pākiri Regional Park,Shakespear Regional Park,Tāwharanui Regional Park,Te Ārai Regional Park,Wenderholm Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

I support the proposed change

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Long Bay represents one of the last places that people can walk their dog in summer during normal daylight hours. The current regulations require dogs to be on lead during this time and so do not represent any threat of disruption to others using the beach during this time

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

What do you think of this proposed change?

Mahurangi Regional Park (West)

Mahurangi East

Mahurangi Scott Point

Dogs reuire adequate exercise and for some active breeds, this can only be done off lead. Muriwai represents one of the last areas where this is possible in Auckland

Pākiri Regional Park
We are proposing to prohibit dogs on the associated beach (currently off-leash).
What do you think of this proposed change?
I do not support the proposed change
Tell us why
Pakiri is a large, and mostly uninhabited beach. Existing bylaws are adequate and allow dog owners an opportunity to exercise active dogs

Shakespear Regional Park
We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).
What do you think of this proposed change?
I don’t know

Te Ārai Regional Park
We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.
What do you think of this proposed change?

I do not support the proposed change

Tell us why

Waitawa Regional Park

We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

What do you think of this proposed change?

Tell us why

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I support the proposed change

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3
