Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#4422

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Rodney

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Te Ārai Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Old

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:Public access point

What is the main reason you want to change the current dog access rule?

Driving a dog to Leigh is a ridiculously long drive from Pakiri

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Dog access should remain

Do you have any further comments about dog access rules at Regional Parks?

The council states that their dog policy should provide a balance .The removal of 20 km of coastline for access to beaches for dogs with only the TeArai quarry is not a balance. It is a proposal that is ridiculous in the extreme,unnecessary,and will create an overcrowding and negative outcome for dog walkers and the public alike

#4422

The document provided by the Auckland Council on “Proposed updates to the dog policy and bylaw” quotes a statement of proposal to improve Policy on Dogs and Dog Management Bylaw 2019.

The first paragraph of the document states this is about “Keeping dogs a positive part of the lives of Aucklanders. Dogs provide companionship, emotional support and help foster social connections”

The second paragraph of the document states “We make rules to keep dogs a positive part of the life of Aucklanders by MAINTAINING opportunities for owners to take their dogs into public places …”

I wholeheartedly agree and support these statements and purpose of this document.

However, I STRONGLY DISAGREE with the proposal in the same policy to BAN DOGS FROM FORESTRY BEACH, TE ARAI BEACH and PAKIRI BEACH

This proposal clearly goes entirely AGAINST the Council's own stated intention and purpose of updating the policy and bylaw

Aucklanders and their dogs have for GENERATIONS, enjoyed these beaches to provide companionship, emotional support, and fostering social connections. REMOVING that right would be a travesty to the freedoms and rights of the local community and the general public of Auckland.

SPECIFICALLY, the need to keep FORESTRY BEACH available to dogs and their owners is now a CRUCIAL one.
This is due to the recent introduction of banning of dogs and their owners right to exercise them on both TeArai Beach to the NORTH and Pakari Beach to the SOUTH by the Auckland Council.
If this proposal proceeds, then nearly 20 CONTINUOUS kilometres of beach coastline will be completely banned to dogs and their owners right to enjoy them there.

The only concession being offered by the council for the prohibition of this coastline is access to the tiny Eyres Cove, disused quarry, located at TeArai carpark. It is totally inadequate and unfit for this purpose. If all the dogs from the surrounding areas were concentrated into this tiny area it would be a disaster for both dog owners and the beachgoers and families who use this popular cove over the summer months for young children to swim as it is protected from the surf. There is not adequate room to exercise a dog in this cove as it is steep and covered in shells. It is approximately 30 metres long

FORESTRY BEACH will be the last remaining bastion of freedom for dog owners along this massive stretch of coastline that was, until recently, all unrestricted to dogs.

This proposal is both draconian and unjustified in the extreme.. It does not meet the councils own stated policy of a BALANCED solution to providing access to public places. This proposal cannot be based on RESEARCH and certainly not CONSULTATION.

The sole reason stated in the proposal for banning dogs on Forestry Beach is to “Protect wildlife (including dotterels) on the coastal areas between TE ARAI and PAKIRI.”
The council has provided NO EVIDENCE that dogs WALKING THE BEACHES have negatively affected the wildlife along this piece of coastline. I and many, many others, have walked this beach regularly for years and never witnessed a negative impact from dogs on the wildlife.

FORESTRY BEACH is approximately 5 kilometres long between the only public carpark at the north end, and the Poutawa Estuary at the southern end. . There is almost no evidence of wildlife along this stretch of coastline other than a few sea birds. The dogs and the sea birds have both shared this beach for all these years without evidence of a problem in the past.

The nature of the FORESTRY BEACH coastline is that spring high tides and easterly storms push the sea hard up to the sand dunes and thereby negate the habitat for nesting birds until you reach the Poutawa Estuary at the extreme southern end.
Furthermore, the Regional Park that comprises a thin marginal strip that extends for the full length of Forestry beach, is only 200 metres wide, and borders the foreshore on one slide and the golf course development on the other. Therefore, it does not provide a significant habitat for wildlife

Additionally, the removal of hundreds of acres of trees/vegetation, and the construction of infrastructure, housing, and the golf courses directly behind the dunes along this same coastline has had a massive impact on the loss of natural habitat for wildlife and significantly increased the dune exposure to coastal erosion .
These golf courses also expose this sensitive environment to constant noise from helicopters, light pollution, and most significantly chemical spraying, being so close to the beach.
Any negative impact by walking dogs on the beach is miniscule by comparison

Forestry beach carpark and the land inland has been stripped of trees. Beyond that the new parkland is pine forest not native bush. There is also a huge fast track development plan behind the beach for sand mining, 420 new residential homes, additional golf visitor accommodation, a visitor complex , and a campground. Subsequently, wildlife habitat will be virtually non-existent inland from the beach at Forestry in the future.

We all understand the importance of protecting the Dotterels that do exist in small quantities along.this coastline. There is a massive sand dune sanctuary at the north end of TeArai beach that extends for about 4km, and there has more recently been active protection of breeding at the TeArai Stream entrance. At FORESTRY BEACH, 5km south of the public carpark, there are notices and a large, marked area for breeding at the Poutawa Stream entrance. The Dotterels are already well catered for along this coastline and certainly considered in the context of this submission.

The expanded TE ARAI REGIONAL PARK now covers hundreds of hectares over the headland between TE ARAI and FORESTRY and extends both inland and along the marginal strips behind these beaches. It is laced with coastal walkways. It is a fabulous, protected environment and proud feature of this area.
It is entirely dog free.
The dog owners are only asking TO RETAIN THEIR EXISTING RIGHTS for access to have dogs on the actual beaches, not the park land

Dogs were banned ACCESS onto the entire TE ARAI BEACH shortly after the completion of the Tara Iti golf course.
This was done in 2019 without any public or community consultation. This ban should be rescinded.
Now the council is proposing to also ban dogs from the entire Forestry beach shortly after the competition of the two golf courses at TeArai Links.
This cannot be allowed to happen. Who would actually benefit? Certainly not the local community, visitors, or the citizens of Auckland.
This proposed ban on dogs on the foreshore appears to dispropotionately support the interests of a minority of special interest groups.

In order to provide a sensible, balanced solution, rather than a total ban of dogs at FORESTRY BEACH, I recommend the following;
Dogs are required to be ON LEASH between the carpark and the high-water mark of the beach at Forestry. Then OFF LEASH
This ensures that dogs are under control and monitored by their owners at the regional park entrance to the beach.
It is simple policy that is easy to convey
Dog owners only want access to the fore shore between high and low tides, where their impact is negligible.
The sand dunes along this length of beach provides a natural barrier between the beach and the marginal strip of Regional Park
Further ON LEASH controls could be considered further south at Poutawa Estuary if it is evidenced that Dotterel breeding is in progress.
A very good example of how well this policy works is at Mangawhai Heads beach.

TE ARAI BEACH is extremely popular to locals and visitors. It is a hotspot for tourists and campers.
People WILL therefore arrive at the beach with dogs in their cars.
The unmandated dog access ban at TE ARAI BEACH should be removed,
The Ayres Quarry proposal is NOT the answer.
A solution is that TE ARAI BEACH should have the following dog policy;
Dogs are required to be ON LEASH from the carpark and remain ON LEASH on the beach.
Therefore the dogs would be ABSOLUTELY no risk to wildlife, dotterals,or the environment
Additional seasonal controls could be employed in the height of the summer season.

At PAKIRI BEACH, the proposed total banning of dogs should also be reviewed and reconsidered. There must be a more BALANCED and EQUITABLE solution for dog owners in the region.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Do you have any further comments about dog access rules at Regional Parks?

I support strongly limitations on access and control requirements in Regional Parks. We have experienced the economic and social consequences of stock attacks by dogs. I feel too for the rangers who are required to confront and educate arrogant dog owners who believe their dogs can do no wrong.

But I also believe that existing rules strike a good balance and that constantly increasing restrictions on available park lands will limit access to responsible dog owners but will not exclude the arrogant clowns who will ignore signs.

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Snells Beach Entire (North End and South end)

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

We are a dog loving community and most people here own a dog. As long as dogs are on a leash they should be permitted at all times, all seasons. Leaving dogs home, or in the car, when going to the park and beach often causes more problems than not ie dogs

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Other (please explain below)

Tell us why

Oppose the proposed limit of '6 dogs on lead & 3 dogs off-leash' at any one time. This will have a negative on the Dog Walking service we use 3 times weekly, and to us when their prices will have to go up.

An alternative solution could be to lisence ALL professional dog walkers so they can walk larger groups. Different limits for the public versus professional dog walkers. A lisence for anyone wanting to walk more than 2 dogs. Different limits based on the density of the population in that area.

Enforcement that your dog must be under control at all times

More education and support to the public about what owning a pet actually entails and how they can access training in their community.

We adopted a 2 year old rescue dog from up north. As we both work fulltime, our dog gets picked up 3 times per week by a professional Dog Walker.....she has learnt SO much with them which we are grateful for, as these manners radiate through when we take her out.....we've had so many positive comments from strangers about her manners when she's out with us.....which we love.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

Having been walking for years with my dog at a local dog park and coming across these walkers, there dogs become a pack and are very intimidating and they are not always friendly, four is more than sufficient. If a fight was to break out how can they handle more than one to two at any given stage?

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

I would like to see more publicity on dog control. I have been bitten twice by dogs not on a leash while being walked on public footpaths. As an older person, it is important to keep walking for fitness. Unfortunately, I am becoming to afraid to walk daily, as a minority believe it is their right to run with dogs off leash in public areas.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum 2 dogs. From my observations, living on the beachside at Snells Beach where many dogs are walked, this is the maximum that one person can control. Many dogs are poorly trained and/or get excited when other dogs are around.

Tell us why

I Would like to see professional dog walkers licensed.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

We should be looking at requiring all dogs not specifically registered for breeding to be neutered to reduce the number of wandering and dangerous dogs. Owners and properties should be registered rather than the dogs.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

Encourage establishment of dog training facilities to require properly trained dog handlers.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Do not support

Tell us why

Dog behaviour is not affected by land designations. AAll areas should be treated the same.

Clarify how dog access rules are set:

Support

Tell us why

with community consultation more areas should be provided. RDC clearly proved that there were far fewer complaints when dog access was increased.

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Support

Tell us why

Give consideraton to confuring and inreasonable rules

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Whangateau Estuary

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

To protect rare breeding birds and prevent wading birds being constantly chased

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

As above. People with dogs constantly wandering through the bord sanctuary adds to the pressure of cat predation so no dotterel chicks have survived this season. AC will not allow locals to protect the birds from cars, dogs or people.

Submission Regarding Proposed Dog Ban at Forestry Beach

[redacted] 5:40pm

To the Auckland City Council,

I wish to express my concern regarding the proposed full closure of Forestry Beach to dogs. I am particularly interested in understanding the rationale behind this proposal, especially concerning the stated aim of environmental protection for dotterels; the specific context of the beach and the existing dog access restrictions in the wider area.

Forestry Beach is a substantial 23km in length. My experience, shared with many other dog owners, involves walking a portion of the beach, typically 3-4km, before returning to the car park. A full ban across such a large area seems disproportionate to any potential issues.

The proposed alternative location, the quarry, presents several challenges. It is a significantly smaller area and is heavily frequented by families with young children, particularly during the summer months, due to the safe swimming provided by the rock pool. In contrast, Te Arai beach is known for its dangerous surf conditions. Furthermore, the quarry car park is often congested with vehicles belonging to surfers. This makes it unsuitable as a primary dog exercise area, especially given the potential conflict between dogs, young children, and other beach users.

Currently, there are existing dog restrictions in place at several nearby locations, including the Potawa Stream area, Mangawhai Heads beach, and the Mangawhai Estuary. These restrictions are accepted and respected by dog owners, including myself. Forestry Beach remains the only substantial beach in the area where dogs and their owners can enjoy off-leash exercise, swimming, paddling, and general recreation.

One of the drivers for this proposed ban, as publicly stated by the Council, is the protection of dotterels. However, based on my four years of daily walks on Forestry Beach, there is no evidence of any significant dotterel population. This raises serious questions about the evidence base supporting the Council's assertion. I request that the Council provide clear and demonstrable evidence regarding the dotterel population on Forestry Beach, including data on their numbers, nesting sites, and habitat use. Without this evidence, the justification for a full dog ban based on dotterel protection appears unsubstantiated.

Given the size of Forestry Beach, the availability of alternative areas, the existing dog restrictions in the vicinity, the questionable link between dogs and dotterel populations on this particular beach, and the apparent lack of evidence regarding a significant dotterel presence, I believe a full ban is an overly restrictive and unjustified measure. I urge the council to provide the requested evidence regarding dotterel populations and consider alternative solutions that allow for continued responsible dog access to Forestry Beach.

Thank you for your consideration.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

As locals, we love and want to protect this beach. We care for the Sand dunes and collect rubbish after storms. Our beach is mostly empty for 10 months of the year - except for us locals and our water loving dogs.
Your alternative is not an alternative.

With a post grad in environmental science, I am all for protecting the environment, therefore I ask you to look at what is happening on the other side of those sand dunes.

I agree that we could have compromise - dogs on lead until they are on the beach and dogs on lead where the stream comes out, 5km away from where we all like to be.

Waitawa Regional Park
We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

Tell us why

The dog walking industry is out of control, currently anybody can decide to start a business as a dog walker without any experience or qualifications whatsoever and take 10-12 dogs out with one person, this creates obvious issues. Dogwalkers regularly lose dogs, there have been many instances where the public's dogs have been attacked and in some instances even killed with people also getting injured, it's also very intimidating to walk around a corner and inadvertently find yourself in the middle of 30 dogs, because the dog walkers often walk together, 3 people with 30 dogs between them. We often find ourselves needing to plan our day and walk our dogs at times around when we are most unlikely to run into a group. The industry desperately needs regulation and limiting the number of dogs is a start. I would like to see walkers licensed, having to demonstrate a level of skill before licensing and for them to be clearly identifiable by their company so any infringements can be reported, it's extremely difficult to currently do that currently when they don't wear any identification.

Dog trainers are currently an unregulated industry, just like dog walkers, anyone can decide to advertise themselves as a dog trainer and there is a wide spectrum of knowledge and skills, some have one or the other and occasionally they'll have both. My concern is that you could probably currently find anyone to support your favoured outcome if you shop around.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

I don't know

Tell us why

The last time I checked, multiple dog licenses were firstly based on property size and I think this has merit and should be a first step rather than geographical location.

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

As long as clarity doesn't mean reducing the current areas even further. It's difficult to socialise and train a well behaved dog if they aren't allowed to go anywhere or if there are so many dogs contained within such a small area that it becomes unpleasant and inter-dog issues arise because there's nowhere to go to move away

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

we have owned 3 dogs, currently have 2 and they have all since 6 months old walked with professional dog walkers. They have learned socialisation, have been well trained within a group environment and I am so grateful for the services they have provided, which has provided support for our family while we are at work/travelling etc. Responsible professional dog walkers that know what they are doing should not be unfairly punished by unqualified individuals that start dog walking services with none or very little experience. Perhaps a better solution is to license the professional dog walkers and subject them to biannual audits. So many of them do an amazing job, allowing 6 dogs and 3 off lease at any given time will severely impact their ability to earn a living.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Do not support

Tell us why

It should be all areas, not certain areas. As an owner with a Responsible dog owner licence, the intent should the same for all dog owners, if the dogs they have are not registered or microchipped then that is an issue. By stating a particular region you are effectively discriminating.

Clarify how dog access rules are set:

Support

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Do not support

Tell us why

Dog access rules are clear to those of us that are responsible dog owners. If I am taking my dogs to walk in area I haven't been before I will always look for signage about whether the dogs are allowed on or off leash. People simply don't read or chose to ignore signage, so it's not a matter of clarity it's about 'how do you make people take notice' and if they chose to ignore how will it be monitored/regulated eg an 0800 dob them in.

Clarify or correct errors in Policy Schedule 2: Dog access rules:

I don’t know

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Support

Tell us why

A big part of the issue is outdated signage. But it needs to be consistent across all regions. When the beach hours were changed a couple of years back, none of the signage was updated and you consistently were challenged by the public on whether you were allowed or not allowed. It's a bit like all the changes to speed limits on public roads - everyone is so confused because they had been use to travelling at a certain speed on that road for many years and then it changed and now you have 3 different speed limits on the same stretch of road that use to just have one. People need plain simple messaging which is consistent wherever they go in Auckland.

Update dog access rules for Tūpuna Maunga (ancestral mountains):

I suspect humans are more of an issue on our mountains than dogs.

I believe that it does not matter how trained the person or dogs are, you do not have control over the environment around you. Therefore you need less dogs to keep having maximum control.

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Let me go back, I've no particular localised concerns

What local board area is this location in?

I don't know

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

Stop worrying about everything that might happen unless dogs are causing a problem.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Do you have any further comments about dog access rules at Regional Parks?

Don't demonize dogs, they are a pet and a companion. They should be allowed generaly unless they are causing a problem. It is obviously easier for the Council to ban dogs from areas than enforce good behaviour. So obviously just ban dogs from all areas other than their home address and most people will be happy. That's democracy. Well done.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Registered companies with professionally trained dog walkers should be able to continue walking dogs as they are correctly trained to do so with managing dogs in numbers. People who aren't trained correctly in dog management etc shouldn't be able to do this so easy. Well trained dog walking companies follow a set of guidelines with what dogs are involved in these walks and take time to analyse all dogs before setting off on walks.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

My dog is walked by a professional 'licenced' business where multiple dogs are walked in a pack, usually at remote locations and open areas with few other people around. The dogs are always under direct control. The 'pack walk' allows my dog to be socialised with other dogs and assists with reinforcing his training, as he can relate to the other dogs when they are given commands. The dog walker has been in business many years and as far as I am aware there have been no complaints from the general public.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Te Arai Point

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:Quarry, Eyres Point

What is the main reason you want to change the current dog access rule?

Dogs in an area which is used by a lot of families will small children and the area is too small to allow dogs off leash

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Currently it is confusing for park visitors to understand where they can and can't have their dog at this area, so I would suggest dogs being prohibited from all of Te Arai Point including the quarry

Do you have any further comments about dog access rules at Regional Parks?

Don't fix it unless its broken. Why remove dogs from an area which is used by so many.

4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Don't want to walk too many at once

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Do not support

Tell us why

Why are you changing forestry beach ,banning dogs but allowing Tara iti development

Clarify rule that all dogs classified as menacing must be to neuter:

Do not support

Tell us why

Should NOT be neutered as they do not determined their offsprings behavior, the environment in which they are raised should be individually assessed

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

I am a local resident who has walked their dog off leash for years. I was involved in organising the protest at Forestry Beach and was overwhelmed with the support from locals alike. I cant understand how the council can use the conservation wildlife card when they have allowed helicopters to fly in and out of the golf course regularly, allowed thousands of trees to be removed and vegetation removed. I can hand on heart say that I have never seen a dotteral or any endangered wildlife ever on the beach.

The beach is a rural unpopulated beach predominately used by surfers and dog walkers. Some dog walkers we have met travel by car 45 mins to visit the beach. It is the last place available for numerous miles where we can walm our dogs- we do not have dog parks and all other nearby beaches have been deemed no dogs. The area council are allowing for dogs at the disused quarry is pathetically small and literally the size of a lounge.

The councils own definition is a place to foster stewardship, social connectedness and belonging for all Aucklanders to the place and each other. The beach is important to socialise our dogs, humans and for spiritual and mental wellbeing.

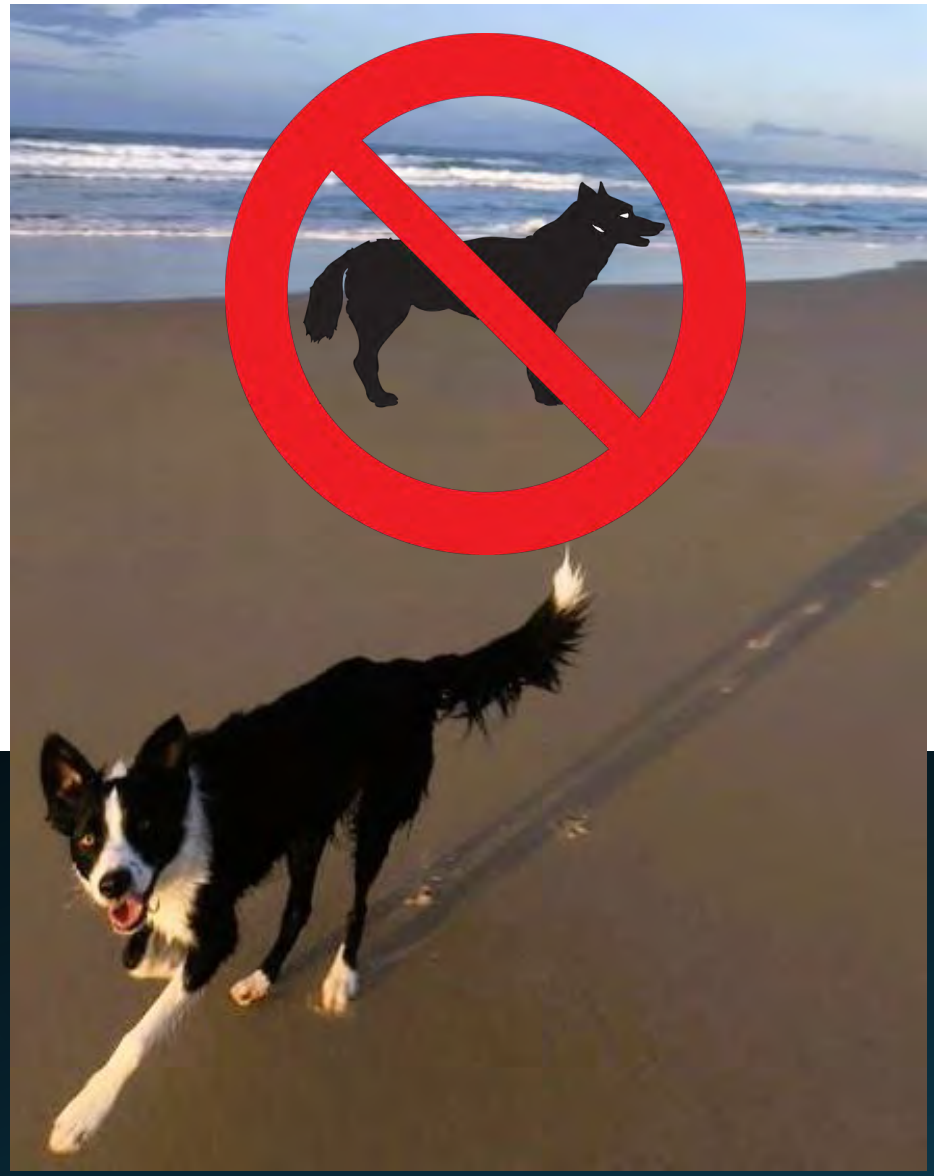

I would like to know what evidence or survey has been conducted to prove their has been a decline in wildlife conservation. The councils own vision in the 2022 management plan is to allow freedom camping at forestry beach carpark- surely this and the sprays used at the adjacent golf courses is causing more harm than a handful of dogs walking the beach.

Your own rangers have said that the dogs are allowed to cross the carpark to use the beach. This should be kept this way. It is not an overly populated beach and all owners that walk there dogs are respectful of the area and pick up after their dogs and also pick up rubbish. You are not banning horses from the beach and surely they would do as much damage to the beach. Please leave the beach as it is and was always intended to be before it became a Regional park. There are currently visible signs that dogs can be at the park （ cross the carpark area to the beach)

Do you have any further comments about dog access rules at Regional Parks?

Te Arai Dog Ban

Auckland Councils proposal to BAN dogs from Te Arai Sth

(Forestry Beach)

Overview

Auckland Council acquired Forestry Beach in 2021 as a trade off for giving approval to build 2 golf courses, a sand mine and several properties. They then combined this acquisition with the Regional Park known as Te Arai which is a beach North of Forestry beach. They then renamed it Te Arai South.

Existing use

As a consequence of making Forestry a Regional Park, the number one use of this area **(Walking dogs off leash)** is in danger of being lost forever. Hundreds of people travel to this quiet beach to walk their dogs and interact with other like-minded people. This activity has been going on for more than 20 years and it has built some lifelong friendships from people that normally wouldn't meet each other. Dogs get to socialise with other dogs making them better dogs within the general community.

Councils Regional Management plan 2022 states;

"Regional parks are ideal places to foster a strong sense of stewardship, social connectedness and belonging for all Aucklanders to the place and to each other"

The Proposal from Council

The proposal by Council appears to be based on an all of Auckland policy. The rationale for Forestry being a dog free area is for the protection of sand dunes and wildlife. There is no evidence that dogs have a negative impact on this beach or on the wildlife. The granting of permits for a golf course and the helicopters that frequent the golf course, not to mention sand mining would appear to have a greater negative affect on the surrounding area than walking dogs along a vast length of beach.

Why we need to keep our beach dog friendly

- Keeping Forestry dog friendly removes dogs from more populated beaches.
- Gives dogs open spaces for exercise and social interaction with other dogs.
- Dog owners get much needed exercise and meet like minded people.

What can Council do?

- Council can do nothing and allow dog's to be on Forestry Beach.
- Council can remove Te Arai south from the Regional park thus allowing dogs on the beach.
- Council can use its discretion, the same as it does for farmland areas within a Regional park and class this as inherited land use and allow dogs on the beach.
- Council can divide Te Arai Nth and Forrestry Beach into two different Regional parks as both have different needs.

Council are in a unique position where they can listen to the people and allow Forestry Beach to remain dog off leash friendly with no cost to Council.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Snells beach

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

Other - please specify:

What is the main reason you want to change the current dog access rule?

To prevent humans, particularly children, getting communicable disease from unwormed and unvaccinated dogs.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Dogs already swim in the sea, chase and harass birds. This happens at all times including when dogs should not be on the beach.

Do you have any further comments about dog access rules at Regional Parks?

No

Maximum eight dogs, with no more than four off-leash

Tell us why

I support dogs being allowed to be walked anywhere at anytime provided they are on leash or controlled in another manner.

I do not support the limiting of anything regarding where/where/how many dogs can be walked. Responsible dog owners are and business's are continually being charged more and given less.

I do no support any further licensing and payments required to walk our dogs.

Maximum four dogs, with no more than two off-leash

Tell us why

If more than 2 dogs are off-leash at any time, I do not think it is possible for a dog-walker to maintain absolute control over ALL dogs as well as picking up their droppings.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

What do you think of this proposed change?

Tell us why

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

Waitawa Regional Park

We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

What do you think of this proposed change?

Tell us why

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Other (please explain below)

Tell us why

I would rather see an enclosed fenced-off area for dogs to be allowed off-leash away from the main public park and beaches and waterways. The proposed changes do not NOT appear to be practical when it comes to restricting the dogs away from other areas of

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Do you have any further comments about dog access rules at Regional Parks?

Dog owners wrongly often assume that everyone is comfortable with dogs roaming freely in public spaces. Also, many dog owners use a VERY long leash and allow their animals to engage with members of the public without consideration for those who have had bad experiences with dogs previously.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Te Arai south (Forestry Beach)

What local board area is this location in?

I don't know

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Forestry Beach is a big area and goes for miles. It is not highly populated. A perfect location for owners to walk well behaved and under control dogs.

Do you have any further comments about dog access rules at Regional Parks?

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

There is no need to restrict access from dogs at these beaches There's already plenty of beaches a person could go to that are dog free and not meny dog friendly places to rake dogs to removing access will make people more likely to ignore the law instead to upholding it . Make changes like having dogs on lead at more beaches mandatory having no go zones for dogs to protect wildlife would be much better and affective then just banning dogs. More advocate and campaigning for animal traning would help all of these issues and more

Clarify rule that all dogs classified as menacing must be to neuter:

Do not support

Tell us why

This is a very uneducated topic with alot of people blaming breads and other issues when it's generally the owners fault with lack of training etc. It would be much more affective making it that dogs that show aggressive behavior have to be muzzled outside there own properties and a fine penalty to enforce this with multiple offences or similar offences have the animal taken away untill the owner has trained with skills to train aggressive animal behaviors. More advocate and campaigning for animal traning would help all of these issues and more

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

I don’t know

Tell us why

Any animal control should having the training to be able to tell if an animal is aggressive and thus be able to assess the animal on if it's aggressive. More advocate and campaigning for animal traning would help all of these issues and more

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

I don’t know

Tell us why

I agree that to meny dogs are not a good thing especially if those dogs are untrained or people are untrained in how to handle them more advocate and campaigning for animal traning would help all of these issues and more traing is important

Clarify how dog access rules are set:

Do not support

Tell us why

Changes are unnecessary more advocate and campaigning for animal traning would help all of these issues and more

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Do not support

Tell us why

Changes are unnecessary more advocate and campaigning for animal traning would help all of these issues and more

Clarify or correct errors in Policy Schedule 2: Dog access rules:

I don’t know

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

I don’t know

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Do not support

Tell us why

Changes are unnecessary more advocate and campaigning for animal traning would help all of these issues and more

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

More advocate and campaigning for animal traning would help all of these issues and more

We live in the Huapai Triangle and there's a lot of trouble with dogs being walked without being on a leash. People have been attacked and bitten. Surely there should be a lot more enforcement on this type of problem as it is not only dangerous to humans but also dangerous for native animals and birds.

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Te Arai beach

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:2 km from carpark

What is the main reason you want to change the current dog access rule?

To provide a greater area for dog access during periods when visitor numbers are lower

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

There is increasingly limited areas where dogs are permitted access with further pressure currently. Acknowledging that during peak season access could be limited to off peak season and limited to an area to protect wildlife

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Wenderholm Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).
What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.
What do you think of this proposed change?

Tell us why

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Pākiri Regional Park

We are proposing to prohibit dogs on the associated beach (currently off-leash).
What do you think of this proposed change?

Tell us why

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

Tell us why

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

Tell us why

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Te Ārai Regional Park

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

Tell us why

Waitawa Regional Park

We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

What do you think of this proposed change?

Tell us why

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

The proposed changed looks more confusing about where dogs can and can't go. It would be easier to have no dogs past the entrance gates. Signage should also be increased as well as monitoring compliance

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

all

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

Many dog owners do not respect other users and knowingly flout the rules.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

The number of dog attacks has been increasing.

Do you have any further comments about dog access rules at Regional Parks?

Regional Parks should be for all people to enjoy.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#5165

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Rodney

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

What do you think of this proposed change?
Mahurangi Regional Park (West)

Mahurangi East

Mahurangi Scott Point
Tell us why
We often see dogs in Mahurangi West, so better enforcement is needed but feel the rules would be more clear and consistent to offer protection to shore birds if dogs were prohibited from Mahurangi West Regional Park at all times

Muriwai Regional Park

We are proposing to clarify the current rules (no change to dog access).
What do you think of this proposed change?
Other (please explain below)
Tell us why
The presence of dogs at Muriwai (including Maukatia) is disturbing to both wildlife and people and needs better enforcement. We support clear and consistent rules so that dogs are not on walking tracks or beaches anywhere south of the surf tower, includin

Pākiri Regional Park

We are proposing to prohibit dogs on the associated beach (currently off-leash).
What do you think of this proposed change?

Tell us why

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other

areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

Other (please explain below)

Tell us why

The proposed rules are complicated and ambiguous. We support more clarity and more protection for endangered wildlife

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Tell us why

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Other (please explain below)

Tell us why

The current and proposed rules are inconsistent and ambiguous. They also put birds in the Waiwera side of the park at risk. 'Under control.off leash' is a contradiction. We support exclusion of dogs from the perimeter track.

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Location 1:

What is the full name of the location where you want to change the dog access rules?

Snells beach

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to increased presence of wildlife (e.g. ground nesting birds). Please specify:Greater protection where dotterels and oystercatchers nest

What is the main reason you want to change the current dog access rule?

To respond to existing wildlife (nesting, redting and roosting birds) and their anticipated increase

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

To keep these birds safe

Location 2:

What is the full name of the location where you want to change the dog access rules?

Manly/Tindalls

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Change the current rule to prohibit dogs

Tell us why

Do you want the change to apply to the entire location or a section of it?

A section of it. Please specify:Where dotterels and oyster catchers rest, nest, forage and congregate

What is the main reason you want to change the current dog access rule?

A section of it. Please specify:Because of the impacts of dogs on wildlife, ground nesting, resting, foraging and roosting birds in particular.**A section of it. Please specify:**

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Because of the real harm dogs do to these rare and threatened birds, and because 'off leash under control' is not realistic, and also because where birds nest and roosting etc changes theough time and across seasons

Location 3:

What is the full name of the location where you want to change the dog access rules?

Hot spit

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

To respond to increased presence of wildlife (e.g. ground nesting birds). Please specify:

Tell us why

Do you want the change to apply to the entire location or a section of it?

Change the current rule to prohibit dogs

What is the main reason you want to change the current dog access rule?

To respond to increased presence of wildlife (e.g. ground nesting birds). Please specify:The area us already currently dog prohibited but the area should be increased to.provide a buffer for rare and threatened birds both during nesting and post fledging

Please explain your issue in more detail:

Do you have any further comments about dog access rules at Regional Parks?

A buffer zone is needed beyond what's currently prohibited as the birds move beyond the area especially post fledging and when birds congregate ready for migration**Fund better enforcement and compliance**

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

On the whole fair and reasonable. We are good dog owners but YOU provide NOTHING for me that I can easily access my working dogs to swim, run and relax. The ‘dog’ area in Wellsford is a joke! Not secure, muddy all winter. Forestry is the ONE beach we have without having to drive for over an hour

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

My dog attends 'pack walks' in the outer parks of the shore area, and he loves them. This will effect small pack walking businesses aswell. As long as the dogs are under control (which would restrict persons amount of dogs allowed to have anyways, as if they can't control the dog it shouldn't be allowed based on current rules), I see no issue.

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Give the dogs and owners a break. When we discover new places, I've no idea what this beach or thst bay etc is where things stop and start. U look at these things all day. Visitors don't so your message gets lost.

Stop severely restricting people owning dogs in Auckland. Look at what they do down south. And learn.

Tell us why

I recognise there are issues around dog walking. Particularly with so-called professional dog walkers who use that term but are not. I want a licensing system for dog walkers so that people like Pet Adventures who offer an EXCEPTIONAL service are able to continue to offer that service with a pack of up to 15 dogs. I use them and know how professional they are - it is the cowboy operators who put this at risk, alongside the domestic dog owner who has an animal that is completely out of control without recall. This is where the menace is.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Support

Tell us why

The policy must be informed by research rather than hearsay. How many of the officials have spent time with professional dog walkers who run a very good pack with great control? I want to see policy that puts some focus on the home dog walker, the owner with the out-of-control dog that zooms around a carpark. I want to see change that focusses on people being made to be responsible and of course for licensing of pack dog walkers.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

What is needed however is a better definition of menacing. The out of control Border Collies at Muriwai are menacing, though don't carry the same heat or branding as a pitbull. But the damage an out of control Border Collie inflicts on a puppy is devastating.

That said the role of the owner needs to be considered and perhaps menacing dogs need to be euthanised.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

Informed dog behaviourists are essential.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Support

Tell us why

Alligned with this needs to be some thinking about dog breeders - particularly those who run puppy mills and pump out pups with no regard to animal welfare.

Clarify how dog access rules are set:

Support

Tell us why

Please spend some time in dog walking areas across the day. Some of us walk our dogs at 6am to avoid the morons with out of control dogs.

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Support

Tell us why

So part of this is about managing dogs in a car park. Some people get to a carpork and the doors are opened and the dogs are out of control and a menace. Maybe a leash on rule in carparks might solve this. Come to the Muriwai horse tie ups and see what happens in the car park....

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Support

Tell us why

Obviously wildlife must be protected. Bigger signs and more policing so the morons who wreck things for everyone are kept under control.

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Support

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Support

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

The broader issues for me as a dog owner who has invested a significant amount of time and cash into training my dog is one of fairness. The out of control dogs destroy the amenity value of a dog walking area. Secondly the excellent pack dog walkers like Pet Adventures who are exceptionally good will be penalised by a badly designed bylaw, but more importantly the dogs (and owners) who rely on that service for the wellbeing of their pets will also be penalised. I am happy to speak to my submission.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

I live at, Buckletons Bay, Tawharanui Peninsula. This is the local park I am concerned about. It is a small, family picnic and swimming bay. Even 2 dogs off-leash are difficult when we take our grandchildren to play there. Two calm, well trained dogs are OK, but still unpredictable,

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Submission on proposed Dog regulation changes - Auckland Council 2025

Specifically; on the following proposed change to Long Bay Regional Park, namely

"Amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited (off-leash access before 10am and after 5pm in summer and at any time in winter unchanged)"

Firstly, Long Bay Regional Park is different from all other regional parks in that:

It is urban rather than rural; and

It is used by locals more than visitors (7 days/week vs 2 days/week).

It is accepted that usage is higher on weekends and public holidays, however most days of the year the beach has plenty of space for both beach users and dog walkers. It would be silly to deprive dog owners of using this space when it is already under-utilised over 70% of the time. Yesterday (18 February 2025) my wife and I walked our dog at around 2pm and there would have been less than 30 people on the entire length of the beach.

Secondly, Long Bay Regional Park is different from all other North Shore and Hibiscus Coast beaches and reserves in that:

It is the longest beach on the North Shore;

Most if not all other urban beaches have reserve land where dogs are permitted – Long Bay is the exception. If these proposed changes were to go ahead then dog owners in Long Bay, Torbay, Albany, Fairview Heights and surrounding areas would have no access to any part of Long Bay Regional Park (beach or reserve) during summer daylight hours; and

It is the only Hauraki Gulf beach north of the Harbour Bridge where dog owners can walk their dogs between mid-morning and late afternoon during the summer period. Auckland summers are becoming wetter meaning that parks and reserves are more likely to be unusable for dog walking during the summer months.

Moreover, these differences have been accepted (and I would suggest, appreciated) by Aucklanders for many years. Long Bay has always been "different" from other beaches and regional parks and it makes no sense to standardize the rules to conform with others which are inherently different from it.

If a small minority of dogs and their owners are causing problems with other beach users, they should be approached by park rangers and directed to the appropriate signage regarding dogs on leads, bagging and disposing of "doggy-doo" and other regulations. In my opinion the number of loud boomboxes on weekends and public holidays are a much bigger problem than dogs on leashes.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Long Bay is different from other regional parks and beaches, both in its location and in its nature, and hence should not have to comform to "one size fits all" rules jist for the sake of administrative tidiness.

My dog gets walked regularly with a dog walker/trainer who takes around 10 dogs at one time and it is amazing for my dog. If the numbers were restricted then I wouldn't get as much help to exercise my very high energy dog as I work full time and rely on the walks to keep my dog calm and happy and not a niusance to my neighbours. My dog walker/trainer is amazing with all her dogs she walks and they go through training to make sure they are listening well enough to go out in public with her so she is one of the actually careful ones who does an amazing job with all the animals.

What do you think of this proposed change?

Tell us why

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

atiu creek

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:non lambing areas/seasons

What is the main reason you want to change the current dog access rule?

in non-lambing areas and seasons only

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Do you have any further comments about dog access rules at Regional Parks?

PLEASE do NOT limit our dog access to FORESTRY BEACH - its the only one we have left

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I do not support the proposed limit on walking multiple dogs.

The proposed limit will only penalise responsible dog owners and will not stop irresponsible people who do not follow existing laws.

I am a dog walker who services Auckland dogs in the West/Norwest area. I have been operating since 2023 and currently walk 30 dogs every week.

I do not support the proposed limit because:

The data does not support that people walking more than three dogs off lead are creating a problem. Incident data presented by Auckland Council showed only 0.7% of complaints related to people walking more than two dogs, meaning those walking more than three must be even less. In addition the data used to support that there is a problem and presented to council in July 2024 was based on a survey of 2,000 civically minded people and its interpretation by Council is seriously flawed and fails to show that over half of respondents had never had an issue with people walking more than two dogs. The survey also doesn't ask how many people had seen more than three dogs being walked at once. There have been more than 2,750 signatures on the Professional Dog Walkers Association petition opposing this proposed limit so more than 2,750 people don't think there is an issue when less than 1,000 respondents to the peoples panel think they saw more than two dogs being walked causing a problem.

The change unfairly targets professional dog walkers only. Auckland Council staff have said that they are not targeting professional dog walkers, but this bylaw change will only impact professional dog walkers. Professional dog walkers have not been spoken to about any nuisance issues or how to best address any issues. I think that licensing of some kind rather than a total ban would better address any issues with professional dog walkers.

The Bylaw won't be enforced. Auckland dog owners all know that Animal Management staff are stretched, and it takes days for them to respond to serious issues. Animal Management already do not proactively monitor known dog walking hotspots and this bylaw will not change this. The fact that the Waitakere Rangers Local Board had to fund a dedicated ranger to monitor and enforce rules at west coast beaches is proof of this. If Auckland Council won't enforce the bylaw then the only people who will be impacted will

be those that already follow all the rules, meaning rule breakers will continue to break the rules and issues will continue.

I support a license being developed to regulate professional dog walkers as they have the skills to handle multiple dogs and provide a valuable service to responsible dog owners in the community. A system similar to that in Wellington where walkers take a course, are observed walking dogs and face limits would fully address the current issues with Professional Dog Walkers. I also support the Wellington system where walkers with less than a year of experience are limited to walking 6 dogs and more experienced walkers can walk up to 12 dogs and I believe this would be suitable for Auckland. If Council are concerned with the cost of administering a licensing system then an association like the Professional Dog Walkers Association could assist Council with parts of the system and Council could still collect a fee.

Auckland has a serious issue with roaming dogs and Council should focus on this and not multiple dog walkers who make up a tiny amount of reported issues. A licensing regime is the only way forward and Council should proceed with licensing not the proposed universal limits.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Because it works. Why change something that works already. Just making it more restrictive for those that are doing that already. If it was a problem they wouldn't do it I would hope.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Dog owners will always be the minority due simply to the number of people in the Auckland region and the practicalities of having a dog. Dog owners themselves are not sufficiently consulted.

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Do not support

Tell us why

Clarification doesn't mean changing access permissions. Dogs need many different forms of exercise as well as places where there owners relax also I.e not simply designated dog parks. There should be more places such as beaches where dogs are allowed. Penalties should be applied to owners whose dogs cause actual harm as opposed to a blanket rule which impacts upon the majority of owners

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Forestry beach has had dog access rules and slowly Auckland Council has been removing access to other beaches. Reducing access results in concentration of dogs which creates far wider problems.

Work with the dog industry professionals around a licensing system rather than a blanket rule. PDWA NZ have the best professional in the industry to help make an educated decision on this. A blanket rule will just punish everyone including personal owners who have more than 6 dogs and skilled professionals who have put years of practice and study into doing what they do well and safely. A blanket rule for public and professionals seems unjustified as well. It's like saying electricians can no longer do 80% of their job alongside the public.

Public walkers and professional walkers do not hold the same skill set or knowledge as those who have studied and worked professionally for years.

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

Dogs on leash are safe to the public and apply no nuisance. dogs in summer need the option to cool off in the sea and this can be done safely on leash.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Auckland needs to allow dogs to go in more public places not less. The more we confine and limit them the more they are left at home to cause a nuisance, build up pent up energy's which comes out with barking and destruction behaviour causing far more issues than on leash dogs in public. Go anywhere in Europe and see how calm and well behaved the dogs are because you can take them anywhere so they are out with there owners all the time and they are well behaved because they are getting a healthy steady release of energy. Confining dogs at home is a huge issue in New Zealand, it's old fashion and times need to change.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

a person can only handle the most 6 dogs whether on leash or not

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

SUBMISSION FOR AUCKLAND CITY COUNCIL DOG WALKING RULES

When setting regulations for dog walkers, careful consideration needs to be given to factors that influence outcomes such as the number of years of experience and the location where the dogs are walked.

As a pack walker with over seven years of walking dogs, conducting over 3000 pack walks in that time, I feel qualified enough to suggest ideas and standards for commercial dog walkers. I have grown my business Doggy Bush Break from scratch, currently have a good clientele base with a waiting list and won a business award in 2023.

It takes a very special person with a very special set of skills to be able to handle a pack of dogs.

A blanket rule covering dog walkers will not work if the person has had zero experience or proper training. It also penalises the experienced, long established, experienced dog walkers who often have more control of their packs than some dog owners.

I would suggest a monitoring or licencing system instead. I have seen dog walkers that can't handle six dogs because of their lack of inexperience meaning they have no concept of safety of the pack in public spaces, animals and the environment because of their inability to assess their environment or the animals correctly. I have also seen owners who cannot control their dog/s around my pack while my pack will be calm and focussed on me.

I can safely walk up to 14 dogs on the leash and can control all the dogs off leash because the packs have been together for years. Almost half of my dogs have been with me for over 4 years. They all know the routine, what's expected of them and know how to behave when with me. They are trained to come back straight away. I can call 'leash' and they will come and stand waiting to be clicked on. All in under a minute. I have trained them extremely well. It's an important part of the business. I train the dogs to be calm and balanced. And to focus on me.

However, in saying this, I have some packs that I purposely keep small in numbers because of their high energy. An experienced pack walker knows the limits of the pack and knows the dogs and their personalities and the environments where it is safe and appropriate to walk different groups. All packs must have the same level of balance,

responsiveness and calmness regardless of the numbers. All dogs must always be under complete control and safety always comes first.

Benefits of pack walks for dogs:

The proposed rules will adversely impact dogs and their health and welfare in Auckland. Commercial dog walking businesses provide an important and needed service in the region.

Socialisation

This includes the environment, not just with other dogs. I have a lead dog who works with every pack, and she is vital in my business as she keeps the pack in line. Dogs learn many different play techniques which helps them to interact properly with other dogs while out with their owners. Many of my clients are at work during the day and their dogs weekly pack walk is often their highlight of the week.

Exercise & Mental Stimulation

Many dogs require more exercise and mental stimulation over and above their daily walks, and the pack situation provides this.

Leash training

Training how to walk and behave on a leash – no dogs are to walk in front of my knee. The pack trains the newbies. This in turn transfers over to the owners.

Environment training

How to remain calm and have self-control in the many situations that are presented while on the walks. I have had horses, rabbits, ********** pheasants, birds, cats and people throw balls and sticks in front of the pack while on the leash. I often have more control over the pack than owners that cannot control their own dog.

Educating the public

Teaching children how to approach dogs. So many children will run up to the pack (and the parents will just let them). I train people as well. The dogs under my care have learned to be calm while I talk with people I meet.

Recall training

One of the most important commands a dog owner needs.

Everything I do is training, training, training. And this in turn creates a more balanced and calmer dog for their owners.

Costs of running a dog walking business

I drive over 750kms per week to cover the Matakana Coast area and there are many expenses in running the business such as liability insurance, vehicle insurance, vehicle maintenance, petrol, leashes, collars and equipment, ACC levies, accounting fees etc. This list goes on.

If pack walkers were limited to only six dogs, (with my lead dog who works with every pack) that leaves only five client dogs, and it means the business would not be financially viable. Hiring a worker to be able to have my whole pack stay together in their current numbers would cost over $50,000 per year. Again, making the business not financially viable.

Raising the fees for my clients to cover the expenses would mean dog walking would become a luxury item for many respon...

Summary of Attachment:

Experience and Training:
Emphasizes the importance of experience and proper training for dog walkers.
Suggests a monitoring or licensing system instead of blanket rules.
Pack Control:
Highlights the ability to control large packs of dogs due to experience.
Stresses the importance of knowing each dog's personality and the environment.
Benefits of Pack Walks:
Socialization with other dogs and the environment.
Provides exercise and mental stimulation.
Leash and recall training.
Business Viability:
Discusses the costs of running a dog walking business.
Argues that limiting pack sizes would make the business financially unviable.
Safety Procedures:
Recommends safety collars and continuous monitoring.
Emphasizes the importance of collecting dog waste and respecting the environment.
Conclusion:
Requests a six-month adjustment period for new rules.
Advocates for a licensing system to ensure quality and safety.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Because more than 6 dogs is virtually impossible to control and pack walkers with large numbers of dogs are problematic in many areas

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Overall, council seems to be proposing sweeping changes that go directly against the Policy on Dogs 2019, notably:

- The objectives of the current dog policy to “keep dogs as a positive part of the life of Aucklanders by: maintaining opportunities for owners to take their dogs into public places”

- A core principal of the poilcy to “Recognise dog owners as legitimate users of public places and that dog access is essential for dog welfare” S1(a)

- A requirement to consider all “practicable alternatives” AND that ‘displaced dog owners, and their dogs have access to other places as part of the same decision’ S6

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

I do not support the proposed change to the overall objective of the policy, from being very supportive of dogs as a part of our society, to dogs being viewed as more of a nuisance to be accommodated.

The current (2019) Policy and by law state one of the key objectives of the policy is to “maintain opportunities for owners to take their dogs to public places”.

The proposal is to change this wording and uses language that refers to dogs as a ‘danger and distress, a nuisance, cause damage’ and that there is an expected or “inherrent conflict between dog owners” and members of the public. This is the exact opposite of what I experience as a dog owner and the interactions my dog and I have with members of the public.

I feel that the proposed changes are based on the negative actions of a few bad dog owners, rather than the everyday positive impact of dogs experienced by the majority who are responsible dog owners.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

all the professionals I have seen walking dogs appear to be handling those dogs in a manner that makes no sense to make any proposal to limit the number of animals being walked. We want postively socialised dogs that do not cause a nuisance - to achieve this, dogs need to be social. people and dog friendly, achieved by having them out and about with other dogs and people. We want dogs not to be causing a nuisance at their place of residence - achieved through stimulation and exercise. These are achieved for some dogs, bu pet walkers, being taken out and about (stimulation) , being with other animals (socialisation) and exercise (walking , running and playing with a number of other dogs) . Put limits on this and there will be animals who will miss out on this opportunity.

Why do we need to have a vote on removing outdated information - if nothing has changed? Update the landmark if its moved, or if you are EXPANDING an area to use... however other than that, I cannot see any reason anything might be "outdated" .

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

This set limit would greatly impact the livelihoods of many responsible and capable Dog handling professionals in our region. Many of these professionals have operated under the current rules without issue our incident in shared spaces. An irresponsible person in charge of two out of control dogs is more hazardous to the public than a responsible dog walker with a well trained group of 10.

If an effort was made to properly hold those who break the existing rules accountable we would see that the majority of those cases are members of the public with one or two dogs. The large majority of professionals walking large packs are the most responsible and respectful users of shared spaces as they hold themselves to a higher standard of care. I believe the supposed changes unfairly target professional dog walkers as they are more visible public users and not due to any wrongdoing.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Our experience with dog trainers and walkers over the years, is that they have control of the pack of dogs they walk/exercise.

We have seen first hand on many occasions the pack being instructed to move to one side, sit and wait for walkers/cyclists/horse to walk past, packs of 12+ all off leash.

We would not allow our dogs to go out with a pack walker that was not experienced and that we trusted implicitly, as the ramifications of one of our dogs behaving badly would fall onto us and would potentially be fatal for one of our dogs, we would not risk this.

The enrichment provided by dog walkers/trainers cannot be understated, we have rescue dogs and they have grown in confidence and it has helped with anxiety and fear behaviours by being part of a well led pack.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Lived by long bay for many years and never had an issue with my dog vs other dogs or my dog vs people whether morning, midday or evening. All dogs I have seen at the beach while walking mine have always been under control by their owners. Never seen any trouble even when the beach is packed out. Don't think the dates should be until March 1, they should be Dec to start of Feb maximum.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Other (please explain below)

Tell us why

The Auckland City Council is currently proposing a bylaw that would limit the number of dogs a person can walk at one time to six, with a maximum of three dogs off-lead. While this may seem like a measure to improve public safety, it is unlikely to address the real problem of irresponsible dog ownership. The individuals who are already failing to keep their dogs under control will likely continue to do so, regardless of this restriction. On the other hand, professional dog walkers, who are providing an essential service for both dogs and their owners, would be severely impacted by these limitations.

- **Impact on professional dog walkers:** The proposed bylaw would significantly affect businesses that specialize in dog walking, putting additional strain on their ability to operate effectively and provide for their clients' needs.

- **Ineffective solution for irresponsible behavior:** This measure does little to curb the actions of irresponsible dog owners or “cowboy” dog walkers who flout existing rules. Instead, it risks punishing those who are already walking their dogs responsibly.

- **Wellington’s approach:** In contrast, Wellington has implemented a more thoughtful approach by requiring professional dog walkers to pass a test and undergo an assessment by an animal control officer before being licensed to walk a set number of dogs. This system ensures that only qualified professionals are walking multiple dogs, reducing risks while supporting responsible practices.

Rather than imposing blanket restrictions that could hinder responsible dog walkers, the focus should be on targeted solutions that prevent harm and ensure public safety without negatively impacting those who are doing the right thing.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I don’t believe that it is the amount of dogs being walked that is the problem, it is whether the person can handle them safely and respect the public and the areas they are in. We have many more issues with roaming dogs, and just generally having off leash, out of control dogs in on leash only areas. In my experience, the average dog owner is usually more likely to be irresponsible with their dogs. I have personally had many off leash dogs rush over to my dogs when I’m minding my own business, with seemingly no owner in sight

There is not enough detail - rules should be different for certified/accredited dog walkers to those of general dog owners. I am aware of a number of professional dog walkers who have the ability to control a number of dogs (8-10) better than individuals walking there dogs along the beach or other public spaces !

Please don’t let these professionals be disadvantaged by the actions of others

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Do you have any further comments on the proposed policy and bylaw changes?

I would like to see at least a six-month adjustment period and for very serious consideration to be given to the requirement for a license to operate a commercial dog walking business, rather than a blanket set of rules.

It is imperative that any rules changes do not impact on those professional dog walkers as generally they are not the ones breaking the existing rules so it would be unfair to have them negatively impacted by a new blanket set of rules and regulations.

Long Bay beach is used by an enormous catchment of dog owners, from Riverhead, Coatesville, Albany, Northcross to Torbay (a huge family-home-oriented suburb). If all local dogs are funnelled into two narrow slots, which would mostly be the after 5pm slot, I fear that the beach will change from a wonderful dog walking place to a place clogged with dogs forced into close quarters to one another and with all the people who come after work for a swim. This seems to be asking for trouble.

Dog owners treasure this unique beach, where the canine family member does not have to be left at home during family outings to the beach. This is why it is a peaceful, happy place, where people can chat with other owners. Older people, who have worked hard all their lives and often foregone dog ownership can use their days in a healthy way by driving to the beach for a walk with their beloved pets. Many of these folk are widows and widowers with small dogs. Not everyone is healthy enough to jump out of bed and get to the beach first thing in the morning and if we honour our elderly, surely we can allow them to have one beach where they can go at a time convenient to them. Many people have chosen to live near Long Bay in their golden years for precisely that reason.

The very lovely park is already off-limits to those with a dog in the family, which is quite heartbreaking enough, when other beach reserves are open to leashed dogs. How harsh and unfeeling this proposal is! It really says that the developers crowding the suburb have all the wins, locals lose. Locals know to stay home in the crowded summer weekends, so they already lose out. This beach is a long, long beach and dog owners also know to avoid high tide, when there is less space for dogs on leashes. Long Bay dogs and their owners are ok. “Why fix it if it ain’t broke?” Funnel funds to policing the hundreds of portable speakers that are coming to blight the bay.

Other (please explain below)

Tell us why

When setting regulations for dog walkers, careful consideration needs to be given to factors that influence outcomes such as the number of years of experience and the location where the dogs are walked. A blanket rule covering dog walkers will not work if the person has had zero experience or proper training. It also penalises the experienced, long established, experienced dog walkers who often have more control of their packs than some dog owners.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

My dog has a weekly walk with a professional dog walker so that she can learn dog-socialisation skills. I pay for this service precisely because there is a group of dogs (not a limited number). The dog walker is absolutely professional in the standard of behaviour she expects from all the dogs in her charge and she trains them to behave accordingly. They are not allowed off leash until they demonstrate that they have learned the required behaviour.

Rather than the draconian limits on the size of the pack, as proposed, I suggest we develop a registration and licensing system.

I understand that dogs can be a problem, and that occasionally humans are hurt by them. This is always a very sad event. But, as you know, it doesn't mean that all dogs are bad, and you are clearly aware that owning dogs brings significant benefits to humans. You also know that a single dog can be as much of a problem as a dog that is being walked as part of a pack by a dog-walking service provider.

My dog attends a weekly afternoon walk/run with a group of dogs, precisely because I want her to learn appropriate dog socialisation skills. There is no other way that I can summon a group of dogs to give my dog the experience of being one of a pack. And, even if I could, I know I don't have the ability to control a group of dogs. But I do know how to control my dog.

The dog-walker who provides this service is professional, an excellent trainer, committed to the care and welfare of the dogs in her charge. These professional dog walkers provide an essential service for dogs and their owners. They provide longer walks/runs, plus training, plus socialisation, and other benefits that are not only good for the dog but also for the owner and the community - because the dog is better trained, better behaved, happier, less likely to display anger or aggression.

The proposed limits to the numbers of dogs being walked by such dog-walkers is likely to kill their businesses. Why do this? Why risk removing an important service provider? The proposed limits are unrealistic and uneconomic for these businesses. We all understand that there is an issue to be addressed, but I suggest you work with the commercial dog-walkers to develop a system that supports and encourages the competent providers and has a mechanism to help improve the less competent or remove them from providing

such a service. Without a registration system in place I realise that you don't know how to contact dog-walking providers. I imagine that most of the good ones will have submitted to your survey, so there is your starting point. After all it is in their interests that we have a system that works for them as well as for the general public.

Wellington City Council has specific requirements for commercial dog walkers - they must be registered with the council and hold a licence, renewable annually. In the Auckland Council area we have a Responsible Dog Owner scheme where a Dog Control Officer visits each applicant and assesses them for the status of being Responsible. Surely this can be extended to provide a registration/licensing system for commercial dog walkers - there can't be as many of them as there are individual dog owners.

Please abandon the idea of pack limits, especially the very restricted numbers that are currently proposed, and instead please seriously consult on and develop a registration/licensing system for commercial dog-walkers.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

There needs to either be no change, or a special licence for professional pack walkers to carry on with their business. Our dog goes once a week with Nicki at doggy bush break on his pack walk. This is something we need to continue as it has been so beneficial to his training, especially as he was a puppy during covid lockdown so did not get all of the socialization and experiences he needed. His pack is always the same dogs and they are very well behaved together and look after each other. Nicki business would not be viable with a group of only 6 dogs.

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Pakiri beach

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to changes at location (e.g. a new playground, sports field, more people).
Please specify:

What is the main reason you want to change the current dog access rule?

Walking dogs on the beach should not impact wildlife.

It is the irresponsible dog owners who ruin it for the rest of us ‘responsible’ dog owners. How about more random checks from dog control officers to impound feral, roaming dogs

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

there is no issue that needs addressing.

Birds don’t nest on the beach where dogs are walked.

If there is any evidence of dogs disturbing wildlife, have that area as on-leash. But running your dog along a beach is one of the best things in the world. Why we live here!

Do you have any further comments about dog access rules at Regional Parks?

Getting on top of areas that have issues, is paramount. I have witnessed irresponsible dog owners walking menacing dogs at Muriwai, not picking up after them; they spoil it for everyone else.

More random checks from dog control officers at beaches please. And, response when there is any evidence of issues. Dogs that have attacked humans or livestock, must be put down

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Dog walking by our trainer is a very important part of our dogs life. They are a responsible and qualified trainer with full control of as many dogs as they have at the time

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

In general there are very limited options to take dogs to regional locations particularly for walks on leads. Overseas there is greater accessibility for dogs in general. It would improve our dog experience to be able to take her on leash to more bush walk locational.g in the Waitākere ranges.

Do you have any further comments about dog access rules at Regional Parks?

The same as the previous page. Greater on leash access

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

It is rare for a person to have full control of 6 off leash dogs , and asking for trouble. Look at the amount of dogs that have got lost in Riverhead forest by dog walkers walking multiple dogs. Simple- less dogs hopefully more control

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Concern: People are allowing their dogs to roam freely over dunes in Long Bay and Muriwai, potentially causing damage to the environment and disturbing wildlife.

Supporting Points:

- Long Bay and Muriwai are ecologically sensitive areas, home to native plants, birds, and marine life.
- Uncontrolled dogs can disrupt nesting seabirds, including protected species such as the New Zealand dotterel and fairy tern.
- Dune ecosystems are fragile, and dog activity can lead to erosion, loss of vegetation, and habitat destruction.
- While some restrictions exist, enforcement appears to be inconsistent, leading to continued violations by irresponsible dog owners.

Suggested Action:

- Stronger enforcement: Rangers or animal control officers should actively patrol these areas and issue fines for violations.
- Clearer signage and education: More visible signs should be placed at all entry points, explicitly stating dog restrictions and penalties for non-compliance.
- Community reporting system: Allow local residents and visitors to report dogs roaming in restricted areas via a dedicated phone line or app.

Restricting Dog Ownership to a Maximum of Two Dogs in Urban Areas

Concern: In cities, households should be restricted to owning a maximum of two dogs to reduce nuisances such as excessive barking, attacks, and irresponsible ownership.

Supporting Points:

- Some cities, such as Brisbane and parts of the US, have implemented two-dog limits in urban areas to control population and prevent excessive noise or aggression.
- Larger numbers of dogs increase the risk of pack behavior, making aggression more difficult to control.
- Multi-dog households often fail to provide adequate training and socialisation, leading to an increase in nuisance complaints.
- Stricter regulations can prevent illegal backyard breeding and reduce the burden on animal shelters.

Suggested Action:

- Modify the Dog Control Bylaw to limit households in urban areas to two dogs unless they apply for a special permit.
- Require inspections and permits for any households wanting to own more than two dogs.
- Enforce stricter penalties for households that exceed the limit without approval.

Mandatory Euthanasia of Breeds Deemed Dangerous

Concern: All breeds classified as dangerous should be euthanised to reduce the risk of attacks on humans and other animals.

Supporting Points:

- Some breeds have a higher predisposition to aggression and cause the majority of fatal and severe dog attacks.
- Breed-specific legislation (BSL) is already in place in some countries, banning or heavily restricting ownership of certain breeds (e.g., pit bulls, Rottweilers, Dogo Argentinos).
- The argument that “it’s the owner, not the breed” is often used, but genetics play a significant role in temperament and aggression.
- Allowing these breeds to exist in public spaces poses an ongoing risk to people and pets.

Suggested Action:

- Phase out ownership of breeds that have been classified as dangerous by banning breeding and importation.
- Automatically euthanise any banned breed found in pounds or caught roaming unregistered.
- Introduce compulsory microchipping and tracking of existing dangerous breeds to ensure compliance with safety measures.

Euthanasia of Dogs with Multiple Aggression Complaints

Concern: Any dog with more than two recorded complaints of aggression should be automatically euthanised to prevent serious incidents.

Supporting Points:

- Many severe attacks come from dogs with a history of previous complaints that were ignored.
- Current policies often allow aggressive dogs to remain in homes despite multiple warnings.
- Owners frequently disregard requirements for muzzles or confinement, leading to repeated incidents.
- Removing dangerous animals from the community reduces the risk of injury and liability.

Suggested Action:

- Mandate euthanasia after two confirmed aggression complaints (biting, attacking other animals, serious intimidation).
- Create a national database of aggressive dogs to prevent owners from relocating problem animals.
- Implement stricter fines and legal consequences for owners who fail to manage aggressive dogs.

Euthanising Dogs in Pounds After Four Months

Concern: Any dog that remains in a pound for more than four months should be euthanised to prevent overcrowding and unnecessary resource consumption.

Supporting Points:

- Pounds are not long-term shelters and do not have the resources to house dogs indefinitely.
- Long stays lead to deteriorating mental health in dogs, making them less adoptable.
- Many of these dogs will never find homes, and prolonging their stay is both costly and inhumane.
- Reducing pound numbers allows staff to focus on more adoptable animals.

Suggested Action:

- Introduce a strict four-month limit on pound stays, after which dogs are euthanised unless a rescue organisation steps in.
- Increase funding for adoption programs to improve rehoming rates before euthanasia is required.
- Encourage foster programs to take in long-term dogs rather than keeping them in kennels indefinitely.

Automatic Euthanasia of Crossbred Dogs from Banned Breeds

Concern: Any dog in a pound that is a crossbreed of a banned breed should be automatically euthanised to prevent dangerous animals from re-entering the community.

Supporting Points:

- Crossbreeding banned breeds undermines breed-specific legislation and reintroduces genetic aggression risks.

- Identifying banned-breed traits in crossbreeds is often difficult, making enforcement challenging.
- Many attacks involve mixed-breed dogs with genetic ties to known aggressive breeds.

Suggested Action:

- Mandate genetic testing for any dog suspected of being a banned breed mix.
- Enforce automatic euthanasia for any dog with genetic ties to restricted breeds.
- Prevent adoption of such dogs from shelters and pounds to stop reintroduction into communities.

Dogs Roaming Over Dunes at Long Bay and Muriwai

Concern: People are allowing their dogs to roam freely over dunes in Long Bay and Muriwai, potentially causing damage to the environment and disturbing wildlife.

Supporting Points:

- Long Bay and Muriwai are ecologically sensitive areas, home to native plants, birds, and marine life.
- Uncontrolled dogs can disrupt nesting seabirds, including protected species such as the New Zealand dotterel and fairy tern.
- Dune ecosystems are fragile, and dog activity can lead to erosion, loss of vegetation, and habitat destruction.

- Community reporting system: Allow local residents and visitors to report dogs roaming in restricted areas via a dedicated phone line or app.

Enforcement by Rangers – Fining Owners Who Violate Rules

Concern: There are not enough rangers or enforcement officers ensuring dog owners comply with regulations. Many people ignore leash rules and other restrictions without consequences.

Supporting Points:

- Current enforcement relies heavily on self-regulation and public complaints, which is ineffective.
- Without a visible presence of rangers or enforcement officers, many dog owners continue to break the rules.
- Councils often claim a lack of resources for active enforcement, leaving parks and sensitive areas vulnerable to misuse.
- Other cities (e.g., Sydney, London) have successfully introduced on-the-spot fines for off-leash dogs in restricted areas, encouraging compliance.

Suggested Action:

- Increase ranger presence in high-risk areas (beaches, parks, reserves) during peak times, such as weekends and summer months.
- Introduce on-the-spot fines for dog owners who violate leash and environmental restrictions.

- Expand the role of park rangers to include dog management enforcement rather than relying solely on animal control officers.
- Require owners to attend educational workshops if they are caught violating the rules multiple times.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3
