

1 Help shape the future of **Lloyd Morgan Lions Club Park**

What's happening

The Henderson-Massey Local Board together with Parks & Community Facilities are working on a concept plan to guide the future use and development of Lloyd Morgan Lions Club Park.

Lloyd Morgan Lions Club Park is a large recreation reserve in Te Atatū South. The area for the current proposal is the site adjacent to Edmonton Road, which is a 5500 m2 green space defined by St Johns West Ambulance Station, the Te Atatū South Community Centre and Edmonton Road, as shown on the adjacent plan. It features significant asphalt areas for car parking, some large specimen trees and a central, currently underused lawn area. The site lacks formal pedestrian connections. The topography is relatively flat and grassed. The following design elements are proposed:

- Upgraded footpath network and improved pedestrian connectivity
- Establishing a village green with picnic lawns, a spillout / hangout space, play elements and increased amenity
- Amenity planting and street furniture, including seating walls and picnic sets for events
- Proposed urban play including a basket swing, trampolines, climbing elements and nature play
- Proposed picnic plaza and lawn, including a stage and seating walls
- Provision for improved street appeal, including festoon lights, furniture, resurfacing and asphalt painting

The following boards contain a list of elements that could be included within the reserve. We want to know which of these elements you would most like to see in the development. This is your opportunity to have your say on the proposed plans, and to choose your preference for the proposed amenities and facilities. We want your feedback to ensure we get it right.

To provide feedback, you can either:

- **Fill in an online feedback form** at [akhaveyoursay.nz](https://www.akhaveyoursay.nz)
- **Scan or photograph** your completed form and email to communityconsultation@aucklandcouncil.govt.nz

Have your say on our plan for the development of Lloyd Morgan Lions Club Park...

EXISTING SITE PLAN

EXISTING SITE PHOTOS (BELOW)

Underutilised lawn space

Minimal seating opportunities

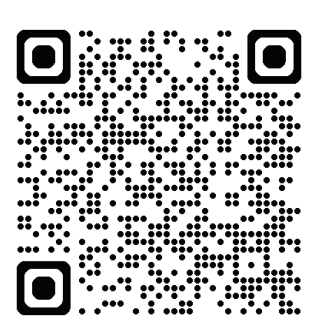

Lack of pedestrian access to the park, the space is dominated by cars

Obscured view of park from Edmonton Road

Lack of boundary treatment between St John's and park

Proposed Concept Plan

This plan shows the proposed concept and park layout.

The current proposal includes urban play elements, improved seating and circulation to create a 'village green' for events and everyday use. Refer to Page 3 for more information on play and the proposed design elements.

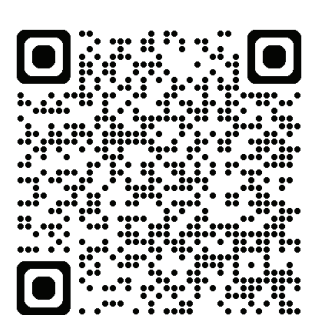

Design elements

PLAY

- ① **Jumping** (trampolines)
- ② **Swinging** (basket swing)
- ③ **Climbing** (climbing cubes)
- ④ **Nature play** (various nature play elements)

PARK AMENITIES

- ⑤ **Village green** (including seating wall and lawn)
- ⑥ **Stage** (for events such as Night Markets)
- ⑦ **Spill out space** (providing seating and gathering opportunities during events, including overhead lighting)
- ⑧ **Picnic lawn** (providing safe grassed areas with passive surveillance and specimen trees for shade)
- ⑨ **Path connections** (accessible connections to surrounding street network, formed entry points, suitable for walking/cycling, concrete surface)
- ⑩ New **pedestrian entrance** from Edmonton Road
- ⑪ **Surface treatment** for carpark areas for traffic calming, including pram crossings and paint
- **Park furniture** (including seats, benches, picnic tables, cycle racks, bollards etc) - ACROSS SITE
- **Planting** (clumps of native specimen trees to provide shade, amenity planting of low growing natives, ornamental accents around entrances) - ACROSS SITE
