Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Public place is for all users. We must ensure it is safe for our kids and senior citizens.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Auckland Botanic Gardens,Pākiri Regional Park,Shakespear Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

I support the proposed change

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

We need safe place to relax not in danger.

What do you think of this proposed change?

Tell us why

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Blockhouse bay and olympic park

What local board area is this location in?

I don't know

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

Owner of dog ignores faeces. Fierce dog running around makes my kids and even me scare.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

We want safe environments not scary environment

Do you have any further comments about dog access rules at Regional Parks?

Please control before it gets worse. Everywhere dogs roaming around scared to come out of car and go for a walk.

Tell us why

The issue stems from 1. How well trained a dog is and 2. Qualifications and knowledge of the dog handler. Would encourage an education/qualification route rather than a blanket ruling with consultation with dog behaviourists and dog walking companies. Dog walkers should have to qualify to have a large number of dogs being walked.

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Forestry Beach

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

As above

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Do you have any further comments about dog access rules at Regional Parks?

Don't let vocal minority special interest groups impact the physical and mental health of dog owners by restrictive new rules.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

For a skilled dog handler, operating a professional business, they could handle more than 8 dogs - possibly up to 12 (if they had the right mix of dogs).

Your limit of 6, for a professional, licenced walker / handler is way too low

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

I have 2 dogs and walking them together is a challenge. It shocks me that people could take more than 2 alone to walk and be able to safely recall them should they come across a small child or chase a cat/bird.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

There are not enough Council staff to enforce the existing bylaws meaning that a limit or ban will have no impact on those who already don't follow the law. Also even if the number of dogs are reduced, regardless of the number restriction, unregulated people walking a group of even six dogs still pose a risk to not being able to handle them, so instead of focusing on numbers, we need to regulate in other ways and make sure that the people who are walking groups of dogs are qualified and registered in order to address issues currently.

There is no evidence from other local councils who have limits like this that they achieve their objective (for example, Tauranga City Council has a similar limit structure and has not issued any infringement notice since this was put in place in 2018).

If this change happens then it will have a substantial impact on all dog owners in Auckland.

The proposed limits will mean that a large number of residents will not be able to access dog walkers, leading to more dogs being left at home all day and barking or roaming. Other dog minding services are simply not suitable for all dogs such as daycares, and it is important that dog owners can have access to other services that are appropriate for their dogs to fulfil their needs.

Alternative recommendations:

• All professional dog walkers must pay a yearly licence to be allowed to operate.

•All professional dog walkers must have a minimum level of qualification and experience with handling dogs.

•If professional dog walkers have reports against them that are proven with evidence, of not having control of their dogs, their licence could be revoked, and they are no longer able to walk up to a certain number of dogs in public.

•Professional dog walkers must ensure that they have enough leads for every dog that they walk.

• All dog walkers must be assessed in order to obtain a licence.

• Professional dog walkers must have public liability insurance, Terms and Conditions signed by their clients, as well as up to date health and safety protocols.

•All vehicles must be sign written and professional dog walkers must have their business displayed on them in public.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Talk to the professionals. It should be a number based on professional licence. They are trained and know what they are doing. It is the non- professional groups that are the issue. Instead of punishing the many when it is the few who are an issue makes no sense. Get professional dogs walked be licensed with conditions such as qualifications and professional memberships. This is people's livelihoods with this change you will run many operators out of business.

Dogs are a key part of families, wellbeing and health of people. The thousands of People and their in control dogs should be allowed to use public spaces. You are proposing to punish the many to control the few. We need to keep dogs on leashes and under control which means policing it. It is clear that Animal Management and regulatory officers do not have enough resources to ensure the few people who don't follow the rules are reprimanded.

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

New lynn cricket and football ground

What local board area is this location in?

Waitākere Ranges

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

Dogs should be on leash all the time in a sports park, have seen people letting dangerous bread off leash and when confronted they threaten to let their dogs on you.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Blockhouse Bay

What local board area is this location in?

Albert-Eden

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Do you have any further comments about dog access rules at Regional Parks?

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I am writing in opposition to the current proposed change to the bylaws in respect to walking multiple dogs at once. My dog is currently walked by a professional pack walking company who perform their duties with the utmost professionalism and care ensuring all dogs are well looked after and return happy. The company that I use ensures that all dogs are under control when on or off lead and all current council bylaws are followed.

I am benefitted by using the service of my pack walking company and believe changes to the bylaws would have major impacts on business and customers.

If my pack walking company had to make significant changes as a result of this proposed changes to the bylaw, this would affect me significantly.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

This will impact professional dog walkers who are very capable of walking large groups of dogs on and off leash. There should be a licence for dog walkers who can prove their competence and ability for larger pack walks. Work with the industry as they are happy to regulate things and be governed by fair rules and by laws. It's fair that untrained people should have limits, but these dog walkers shouldn't be subjected to that.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I am writing in opposition to the current proposed change to the bylaws in respect to walking multiple dogs at once. My dog is currently walked by a professional pack walking company who perform their duties with the utmost professionalism and care ensuring all dogs are well looked after and return happy. The company that I use ensures that all dogs are under control when on or off lead and all current council bylaws are followed.

I am benefitted by using the service of my pack walking company as I am not always able to walk my dog when I am at work. This is the best way for my dog to get exercise and be socialised.

If my pack walking company had to make significant changes as a result of this proposed changes to the bylaw, this would affect me by potentially not being able to afford the service.

There are people that own multiple dogs as apart of their family and it would be unfair on people who own 3plus dogs to be unable to have the park as a safe place to walk their dogs and give them the outdoor freedom they deserve as a right. Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Monte Cecilia Park

What local board area is this location in?

I don't know

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

Other - please specify:

What is the main reason you want to change the current dog access rule?

Change the rule to allow dogs under control to be off leash to allow owners and dogs to enjoy their freedom and rights

Please explain your issue in more detail:

0

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

There are multiple dog meetups that happen at monte cecilia park every day and it would be terrible to take that routine away from the dogs and owners. The space is a wonderfully big and green area that brings joy to dog and dog owners.

Do you have any further comments about dog access rules at Regional Parks?

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Limiting the number of dogs walked at once will restrict dog walking services to the wealthy and dogs that really need the extra exercise will miss out. All dogs should be on leads though, unless in designated off-leash areas.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Owners and dog-walkers who have absolute control over their dogs should not be penalised for the few who don't. Suggestion is to enforce the maximum eight dogs (with no more than 4 off-leash) but it should be possible for owners and dog-walkers to apply for an exemption to the rule for free if they can prove they have control over their dogs.

We should allow dogs in all public parks (even on areas with protected wildlife) as long as it's on-leash. We'd like to take our dogs on walks and hikes but there are areas that we can't because of a blanket ban of dogs. This might be the easier solution but it's not the right one.

4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

It doesn't matter how well the dogs are trained, one person cannot truly be in control of large numbers of dogs while out in public. I think the maximum number of dogs in public places should be 2 per person. In an emergency situation, a person only has two hands to hold two dogs.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

There majority of pack walkers are responsible and alot of people rely on these walkers to walk their dogs. Changing the limits will make them unaffordable and leave our dogs stuck at home alone while we have been made to return to office.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I support this as it is intimidating walking past large groups of dogs and it is difficult to create space between the large group and my own dog. In my experience large groups of dogs, especially at dog parks are often out of control.

My dogs attend a daycare for dogs and all the dogs under their care are trained and well behaved. That is because all dogs under their care are trained first to go out in public with their handler before they can go on adventures with the rest of the dogs.

All dogs should be trained before going out in public. If dogs are aggressive they shouldn't be out in public or controlled by owners

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Our local park has regular dog walkers with about 10 dogs and they're always well behaved. No need to limit the number dogs for everyone.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Many pet owners are walking their dogs off-leash on the street. This is dangerous to other pets, people, kids walking on the street. Please make it mandatory for pet owners to have their dogs always on leash when walking streets anytime during the day or night.

I happened to drive down Dundale Ave, Blockhouse Bay at 11pm and there was a German Shepherd walking off leash crossing the road, similarly, I see many dogs offleash on the streets in Blockhouse Bay, New Windsor, New Lynn. I am really scared to take my child for a walk or take my dog for a walk on leash in fear of coming across other off leash dogs

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I don't believe it is the number of dogs that is the issue. If the dog handler is properly trained and licensed, they should not have a limit on the number of dogs they have on or off leash. The problem is when dog handlers who do not have the adequate training try to handle multiple dogs - this is bound to create issues whether they have 6 dogs or 10.

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Tell us why

I've seen people walking large groups of dogs when out with my dog, they take up heaps of space and it's quite daunting. I also wonder how that person would cope in an emergency with that many dogs

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Usually, people would only exceed the number of six dogs being walked if they are professional dog minders. In this case they will most likely have the skills to manage the dogs correctly. They are providing a valuable service to the community and shouldn't have unnecessary restrictions imposed on them, as it could affect the welfare of the dogs.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Unless there is a valid reasoning behind this decision being proposed, there is no proposal behind making these changes.

There are many businesses, large and small that operate around the North Island, that support dog walking/adventures for those that have a busier than usual life and find it difficult to walk their dogs.

Given the current situation New Zealand is in, with the recession, with limitations on job vacancies, are you proposing that there are to be 1 dog walker per 3 dogs off lead in a dog walking pack? Please tell me how this suggestion is sustainable? It seems rather detrimental with the lack of government support to our current climate.

If your concern is around lack of safety for others and their animals, if dogs are not friendly, suggestion of a mussel if off-lead could be considered, however, if you are a dog owner yourself, you'd know that dogs operate in packs and understand one another and their behaviours, more often than humans do.

So, I go back to my initial question, that we seem to be failing to get answers on, what is your reasoning behind the limitation on the amount of off-lead dog per person?

If you are proposing limitations only to the off-lead areas in these parks, such as the areas of said regional parks, that I can understand that, provided it is sign written for those dog owners with fair amount of warning.

For the likes of prohibited at the cafes or designated food areas, does this suggest that if we have just walked our dog and sit down for a coffee, we are unable to sit at a table outside with our dog on a lead? Again the established rules you are portraying here, are vague and not clear at all.

All dogs should be on leads in the Gardens. It is completely weird that a place dedicated to the environment is used as a dog park. I have seen the terrible impact on the riverbanks of the Puhinui stream caused by dogs running up and down into the water. Bare roots, toppled trees and ongoing erosion. It is incompatible with the duties of the Gardens to preserve the plants and environment.

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I can't see how this is a rational change. A dog, on a lead, is not going to have a large impact on this area. However restricting people's options for exercise with their dog is deterimental to community wellbeing. This feels like pointless bureaucracy rather than a change for the good of the community.

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

I don’t know

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I think that dogs should be allowed when people are eating for convenience and profit for the cafe. I can't see why dogs should be prohibited from cultivated areas if they are on leash. That's illogical.

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott’s Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

I don’t know

Tell us why

Most of this makes sense except for the large number of tracks that are proposed for exclusion. As a dog owner it doesn't make sense for me to do double walks. I pay for the upkeep of these trails, I want to use them. A dog on a leash makes no difference at all on these trails.

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

You should be able to go to beach with your dog! What else are you supposed to do? Just never go out? A dog on a leash has neglible affect on a beach. Most dogs cannot be left at home without crying which causes social unrest and many people rely on their dogs for companionship and will be further isolated by this kind of pointless change.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Lambing season is sensible. The rest of this is complex and unweldy and penalises locals - I can't understand why you would prohibit dogs on leashes like this. Parks are for whole families - and families include pets.

Pākiri Regional Park

Penalises locals with dogs. Going from off leash to prohibited is crazy! Just make it that they need to be on a lead.

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

Stupid to prohibit dogs in a vehicle. That just makes things impossible for dog owners! They should be allowed on roads and parking areas at least.

Wenderholm Regional Park

Once again, too restrictive and too complex. Lambing season restrictions are also draconian if dogs have to be on leash. Few dogs are going go after lambs.

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Do you have any further comments about dog access rules at Regional Parks?

Council should be thinking about social wellbeing first in regard to all of its decision making and having a dog is equivalent to having any other member of a family for most dog owners. We want to encourage our communities to exercise and meet each other

Even DOC campgrounds should allow pets. Provided owners clean up. Good owners shouldn't be punished for those small fraction of owners that ruin it for others. Those are not the people that want to take their pets on holidays or to parks etc.

Even local parks should be dog friendly when not in use by people that have booked to use them. Soccer fields, rugby fields should be accessible to all. Have more bins, provide rubbish bags like Tauranga city council at the beach access points.

I believe that dogs should have greater access to all areas. They are part of people's families and yes they need to be under control but they shouldn't be excluded from areas unless there's a threat and then they need to be on a lead. It's that simple.

Have it as a specified dog access beach at all times.

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

This is an unofficial dog beach. It’s perfectly located so that when the tides out they can’t get out. No issues. Dogs should be allowed on the beach at any time without a leads on.

Do you have any further comments about dog access rules at Regional Parks?

Allow greater access for all dogs. During lambing season sure prohibit access to on a lead but general access should’ be greater for pets

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

There are many dog-walking businesses who provide socialisation for dogs as well as ensuring dogs get exercise while owners are at work. Limiting the amount of dogs on leash will impact these services negatively

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Not many people can control multiple dogs on or off leash and anyone who wants too can put an ad up and call themselves a dog walker, dangerous. So many posts of lost dogs from professionals so they need to limit the amount of dogs at one time. Six is still too many in my opinion.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

There needs to be clear consistency information that is easily accessed and understood rather than current all over the place unclear information.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

As above all information needs to be clear concise easily accessible for all. In my opinion the menacing Classification is often used incorrectly by staff which leads to more confusion and is not followed up once a dog has been labeled menacing. Breed specific labeling is also hopeless.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

More clarity around who is giving a dog a life sentence to be muzzled.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Support

Tell us why

More clarity.

Clarify how dog access rules are set:

Support

Tell us why

I'd love to understand the process those that set the dog access rules use. It often appears dog welfare is not taken into consideration at all.

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Support

Tell us why

If it means more access yes definitely support this. There should be access for dogs to be walked on far more public land than is currently available. Dog owners (at least responsible ones) want the best for their animals and more places to walk them rather than just streets would be great. We pay tax and rates but get limited to where we can be on public land because we have dogs. Ridiculous.

Remove outdated or duplicate bylaw content:

I don’t know

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

Dog owners often pay rates (if they are lucky enough to own their own home) and taxes (which Council get a chunk of) plus dog registration (for not a lot as my dog has never roamed) but are limited to access to public places because they own a dog or two. At my local area people set up and have picnics in the small designated dog area and get pissed off if my dog is there being walked on a lead. People who own dogs usually take them out and about for the welfare of the dog, their physical and mental health as well as companionship.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Blockhouse Bay Beach

What local board area is this location in?

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:As long as whatever area is chosen is accessible I don't care as long as I can take my dog for a swim (yes on leash) when I get home from work in the afternoon

What is the main reason you want to change the current dog access rule?

To have access to the beach during the day like others but be able to take my dog for his well being too. Mental and physical health.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

It is a beach close to where I live and I would like to use it during the day. I'd like to be able to take my dog for a swim too on hot days, sometimes during the day so he can cool down and enjoy the water.

Do you have any further comments about dog access rules at Regional Parks?

There should be more access to Regional parks and facilities to owners with onleash dogs.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

New Zealand is renowned for its natural beauty, and for many residents, dogs are cherished companions, often considered members of the family. Current regulations pertaining to dog ownership within Aotearoa New Zealand frequently present significant limitations for dog owners, hindering their ability to fully enjoy the country's natural environment with their canine companions.

Restrictions on dog access to numerous beaches and parks, often prohibiting even leashed dogs, pose significant challenges for dog owners and their families. These restrictions not only limit recreational opportunities for residents but also present a significant barrier to tourism, deterring visitors who wish to travel with their beloved pets.

Furthermore, the current framework often creates unnecessary obstacles for dog owners, hindering their ability to fully participate in community life and enjoy the natural beauty of Aotearoa.

I respectfully urge a review of current dog regulations with a focus on creating a more inclusive and dog-friendly environment. This may involve:

Expanding designated off-leash areas: Providing safe and controlled spaces for dogs to exercise and socialize.

Implementing clear and consistent signage: Ensuring that dog owners are well-informed about local regulations.

Promoting responsible dog ownership: Encouraging responsible dog ownership through education programs and initiatives.

By fostering a more dog-friendly environment, Aotearoa New Zealand can enhance the quality of life for its residents, boost tourism, and promote a greater sense of community for dog owners and their canine companions.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Auckland Botanic Gardens,Long Bay Regional Park,Shakespear Regional Park,Wenderholm Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

I do not support the proposed change

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Only change the off-leash area to north of the rose gardens before 10am and after 5pm (on-leash between 10am and 5pm)

Tell us why

There are already extremely limited options for taking your dog on an off-least walk in Auckland. It is not dog friendly, I have taken my 2 small well controlled dogs here many times, and never had any issues with other dogs, dog owners etc. Responsible owners are not an issue, changing the access only punishes responsible owners, the people causing issues will ignore whatever you do anyway. Reducing the hours would be acceptable as it's too hot to take your dog walking there between 10 and 5 in summer anyway.

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Once again, Auckland is actually not super dog friendly, an on leash controlled dog is not an issue. The owners not registering their dogs or following the rules will still flout them even if you make it no access from 10-5 during summer.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Walking in an off leash pack provides good socialisation resulting in happy and healthy dogs. It is irresponsible to inhibit this in our city - dog owners want to be responsible and have dogs well socialised and exercised not barking in backyards.

Dogs on leads have less opportunity to run and play, limiting their exercise and social interaction.

Also of some dogs are on and some dogs arent this can lead to increased stress and frustration for some dogs.

Handling multiple dogs on lead while others are off lead can be dangerous and unsafe.

Tell us why

I like four dogs max, 2 off leash, and a licence.

Less dogs are easier to have under your control. I think the more dogs you have off leash the less you can have control if something goes wrong. It would be difficult for one person to get control back of a pack if they are attacking someone or another animal.

Having a licence means you the person have been checked and you the person know what to do if things go wrong. Even experienced dog walkers can have accidents. My dog ran away when she was off leash from an experienced walker. My dog had walked twice weekly with this person for months, the dog walker did not have control of my dog. If they had have had a larger group more dogs could have run away.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

Dogs being able to play and walk off leash is a key part of their basic socialisation and exercise. The fundamentals of this proposed number can easily be exceeded by a single person in a day to day routine, let alone a business with professional dog walkers. For instance, I have two dogs and assist in helping to walk my neighbours dogs on occasion. All dogs are well trained, well socialised, and well behaved-yet my Saturday morning exercise would exceed your proposal of what is acceptable. My dogs for exercise, socialisation and for general adaptability partake in dog pack walks with a reputable business twice a week. In Auckland, these businesses are already highly competitive to even get on a wait list, let alone on to a regular schedule with a trained dog walker. Not to mention that the industry is so competitive, the fees mirror (and exceed that of childcare). The proposed amendments to the legislation would negatively impact the industry, and its clients for a multitude of reasons. A glimpse of these include- higher business costs/demands therefore higher more unobtainable fees for dog walkers which would result in more dogs left at home during the day, that are less socialised, more anxious and therefore would cause behavioural problems.

An additional issue with the alternative proposal of number of dogs off leash that may not have been considered is that dogs can become reactive or triggered when some are on lead and some are off lead in a pack. It alters their dynamic and creates the notion of lack of defence for the dog on leash that can cause behavioural issues and mixed dynamics in the pack.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

● I oppose the proposed limit of "6 dogs on lead and 3 off-leash" at any one time.

● this change will negatively affect professional dog walkers and the services provided by them which allows many working families to have a dog but also provide them with stimulation

●An alternative solution:

○ Licencing professionals to walk larger groups

○ Having different limits for the public versus professionals

○ A license for anyone wanting to walk more than 2 dogs

○ Having different limits based on the density of the population in an area

○ Enforcing the rule ‘dogs must be under control’ no matter the number of dogs which is already in place

○ Providing more education and support to the public about what owning a pet actually entails and how they can access training and services to support them.

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash unless licence obtained

Tell us why

The proposed limit of six dogs (with a maximum of three off-leash) fails to address the real issues affecting the dog community, such as owners/walkers with no control over their dogs, and roaming dogs. Instead, it penalizes professional dog walkers who already responsibly handle multiple dogs.

Professional dog walkers play a critical role in ensuring dogs are exercised, socialized, and trained, reducing behavioural issues that might otherwise lead to complaints. Arbitrary number limits overlook the skills and training required to walk multiple dogs safely and responsibly. We need a practical, evidence-based approach that includes consultation with industry experts, such as the Professional Dog Walkers Association (PDWA), to create effective solutions.

Introduce a licensing system for professional dog walkers, allowing them to operate with higher dog limits (e.g., up to 15 dogs) based on training, certification, and adherence to a code of conduct. Licensing would:

- Ensure high standards and safe practices among professionals.
- Provide the Council with the ability to monitor and enforce compliance.
- Allow professional walkers with proven skills to continue operating without arbitrary restrictions.

Explanation: A licensing system is a better solution than imposing blanket limits. It recognizes the expertise of professional dog walkers and ensures safety and accountability while addressing community concerns. This approach would also allow council resources to focus on more pressing issues like roaming and barking dogs, which make up the majority of complaints.

Do you have any further comments on the proposed policy and bylaw changes?

The issue in Auckland is often caused by roaming dogs (i.e dogs who have either escaped or weren't properly fenced in at their property), aggressive dogs and owners who don't have sufficient training to manage their dogs. I say this as the owner of a reactive dog who has invested thousands in professional dog trainers and walkers to support us with our dog. Any updates need to focus on the issue, rather than the limits to dog walking that you're suggesting which are arbitrary and won't solve anything. Dog walkers should be required to have a professional standard/accreditation to ensure that they are adequately trained to profit from dog walking, and owners should have some basic training that is accessible to them as part of their registration

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Dear Auckland Council,

I am writing to formally express my strong disagreement with the recent decision to reduce off-leash dog areas, including the changes affecting Monte Cecilia Park. While I understand the need for balanced public spaces, I believe this decision unfairly restricts responsible dog owners and creates unintended negative consequences for both people and animals.

Auckland already has a limited number of spaces where dogs can run freely, while there are abundant areas where people can enjoy outdoor activities without dogs. With the increasing number of dog owners in the city, reducing off-leash areas will lead to overcrowding in the remaining parks, increasing the likelihood of conflicts between dogs and people. A higher concentration of dogs in fewer locations can contribute to more incidents, despite the best efforts of responsible owners.

Additionally, many people may simply choose to ignore these new restrictions, allowing their dogs off-leash in prohibited areas. This is not due to a lack of care, but rather practicality—many owners rely on these spaces for their dogs' physical and mental well-being. A sudden reduction in off-leash areas will likely lead to more rule-breaking rather than increased safety, creating more issues for enforcement.

Furthermore, I am frustrated by the council's focus on minor issues, such as updating guidance on picking up dog feces, while ignoring the root cause of the problem. The removal of rubbish bins from parks has directly led to an increase in waste left behind. Instead of implementing more controls on dog owners, I urge the council to reinstate rubbish bins, making it easier for people to properly dispose of waste.

Another aspect of this policy that I find unfair is the disproportionate focus on dogs while cats remain unregulated. Stray and unregistered cats contribute significantly to noise, feces in public spaces, and even deceased animals left in shared areas. Many of these issues stem from unneutered and abandoned cats, yet there seems to be little effort to address this growing problem. If the goal is truly to improve public spaces, then policies should be fair across all pet ownership concerns, not just those affecting dog owners.

As a responsible dog owner, I am deeply disappointed by these changes and urge the council to reconsider the restrictions on off-leash areas. Instead of reducing spaces, we should be looking at ways to improve coexistence between dogs and the wider community. A balanced and practical approach—one that supports responsible ownership rather than punishing it—would be far more effective for everyone involved.

I appreciate your time and consideration of this matter.

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I do not support the proposed limit on walking multiple dogs for a number of reasons:

1. Auckland has a roaming dog issue - the proposed changes do nothing to address this. These owners are already not following laws, and the changes you propose won't change that.

2. Dog walkers make up a small percentage of complaints. While I agree regulation is needed to control the industry and that some sort of licensing system should exist, a blanket approach like this is in no way appropriate and will likely cause more issues for Auckland dogs and the council in the long run. Many of these services are run by certified trainers who understand and work with multiple dogs on the daily. They understand how essential it is that dogs are well-trained and under control at all times. The fact that a minority are ruining this industry for all calls for better regulation, not a blanket ban. With a blanket ban you'll get more dodgy practices from people who never cared to follow the rules anyway.

3. These services, when run responsibly, provide incredible enrichment, training and create well-rounded dogs who are able to exist calmly in the public. Placing these blanket bans will mean businesses like this will no longer be able to run, and we will lose a fundamental part of training well-rounded dogs in Auckland. More dogs will be less socialised, more frustrated, and probably more likely to start roaming when they are bored - contributing to the original problem that you still aren't addressing. My dogs have attended both daycare and pack walks by certified trainers, who require that all their dogs be trained by them prior to attendance. These dogs are always under control, and usually in areas where they will not encounter other people. If they do, these dogs are trained to sit to the side and wait until any other person or dog has passed. One of my dogs was incredibly scared of other dogs as a puppy, but has grown into a confident and incredibly well-socialised dog because of his exposure to these controlled situations.

4. The issues I have had personally while walking my dogs have been from single dogs roaming or single dogs who are aggressive with careless owners. None of these issues have been with multiple dogs, nor with dog walkers. My dogs have been attacked multiple times by off lead dogs in on lead areas. These owners are already ignoring the rules, and

making these rules more strict will not help UNLESS you are enforcing them. I have never seen any enforcement of on-lead dog rules in my multiple years of dog ownership.

5. Instead encourage responsible dog ownership. Give incentives for attending certified training programs, or people who are keeping their dogs under control at all times. I have attended obedience training with my dogs since they were puppies, as well as private training to ensure that they are well-behaved and that I am a responsible dog owner. I have spent huge amounts of money on this at my own expense because I feel an obligation to be responsible, but this isn't enough to convince most people.

Stop penalising those who are doing the right thing, and instead focus on those who never intended or cared to follow the existing rules. Then you'll see meaningful change. Auckland is genuinely one of the most restrictive and un-dog friendly cities I have ever lived in. If you're not going to provide services that make living with dogs easier, don't target the companies who are merely doing that for you, if they are doing so in a responsible manner.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

There are so few areas allowing off leash and therefore all of the family including 4 pawed to enjoy the gardens. These are well frequented off leash areas with a coffee or food enjoyed on the cafe balcony with family and friends. It appears these proposed changes are knee jerk reactions to a very few poorly behaved parties. Perhaps better to legislate the removal and ban of poorly behaved parties than penalise all.

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

There are so few tracks dogs are allowed on, and to prohibit them and make the tracks for mountain bikes is unfair. It seems a reaction to a very few poorly behaved owners/dogs - Perhaps better to legislate the removal and ban of poorly behaved parties than penalise all. I don't support mountain bikers having preferential treatment over dogs and their owners who are also exercising.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum four dogs, with no more than two off-leash unless licence obtained

Tell us why

As a dog owner. I am well aware that canines become excited by sudden movement and a small child running or a darting cat will excite the most well behaved canine, resulting in a sudden pull on the leash. Three medium size dogs suddenly pulling at the leash is a recipe for disaster not only for the darting target but the dog walker themselves, unless they are built like the proverbial dunny house.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

To ensure that off leash dog areas will still be available for the majority responsible dog owners.

And as a fair and realist dog owner myself.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

The neutering of dogs, I feel should be mandatory across the board unless they are registered to a licensed breeder or registered as a security dog. Whole dogs are by nature more aggressive.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

Assessment I feel has to be based on species or mixed species that have been involved in actual documented attacks on humans, not on the breed purely because of its genetic makeup. Strong dogs do not necessitate aggressive dogs. ie, pure bred pit bull terriers are well known to be great young family pets. BUT any breed of dog that is not socialised as a pup will as an adult be apprehensive around strange humans and animals which will lead to aggressive behaviour. Owner licensing enforcement is key.

Preventing injury and trauma to human or animal life caused by a non-cared for, uncontrolled canine or feline should be a priority over the rights of a person owning an animal.

Non registered, non chipped canines and felines, should be euthanized and repeated offending owners barred from owning either. Prevent the trauma to both the pet and the potential victim.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Because it penalises responsible dog owners and does nothing to stop irresponsible dog owners who don't follow the rules

Because Auckland has a roaming dog problem not a problem with responsible dog walkers providing a valuable service to clients

It will not address any of the current issues as none of these are caused by the number of dogs being walked by dog walkers

It will severely hamper professional dog walkers from operating and remove a vital support avenue to responsible dog owners who care about their dogs wellbeing.

It could potentially limit dog friendly walking spots within Auckland even further

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash unless licence obtained

Tell us why

There are good dog walkers who work one on one with each dog before transitioning them into the packs. This means that for the general public a 4 dog maximum can be in place and for those who are trained to take more can obtain a licence to be able to conduct their business as they can

Other (please explain below)

Tell us why

Dog walkers would be negatively affected by these changes and these add an important layer to owning a dog in Auckland. Many of us are time poor and having a pack/dog walker enables our dogs to happy, socialised and excersied. Without this, these dogs are more likely to be vocal, destructive and less social with other dogs when they have the opportunity to see other people/dogs/other animals.

I am not familiar with the current rules around dog walkers but if there was a registration, or liability insurance that was required to help keep 'cowboys' at bay then that is fine. I use a pack dog walker and she has amazing skills and all of the dogs under control at any one stage. I never feel like my dog is at risk, or others dogs at risk, when she has them on one of her walks.

In my experience, I see far more dogs who are not under control who are only a one dog household. these dogs are often not trained or walked very much. When they are put into a dog park they are overwhelmed and that is where problems happen. The dogs who are able to be socalised and exerised regularly are far more polite and obedient.

moreover, I have also used 'doggie day cares' and I personally think that the pack walk model is far more favourable for dogs. My dog was overwhelemd by being put into a big room with many other dogs. All they can do there is chase each other (or play if they are suited). By being outside and able to sniff different smells and do some exercise he is much more happy and relaxed.

I am also open to having more limits being placed on regular dog owners. For example, do they need to have mandatory training or higher registration fees? as above, in my experience, I have seen more antisocial behaviour from one dog families than any other larger dog family. The really 'doggy' people have far more skills than the odd family who doesn't train their dog at all and not walk it properly.

There are more and more people choosing to have animals rather than children in their life and these people need proper facilities and options to walk their dogs. Reducing dog friendly options is not the answer. If there are issues around dogs who are not under control you need to focus on the owner and if they have the skills to look after the dog properly.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

The proposed change will exponentially increase the cost of these kinds of services and make it the preserve of the affluent.

It will have a negative effect on a vast number of owners who rely on these services to ensure that the exercise, social & behavioural needs of their dogs are met. By effectively removing these services the negative impact upon the wider canine community can only out-way the benefits of the proposed changes.

Rather than a blanket ban I would propose some form of professional license to ensure those undertaking these activities are fully resourced and equipped.

Cheers

I personally think the size or the dog should correlate to the maximum number of dogs allowed under control.

As a medium sized dog owner - a Swedish Vallhund - I would be comfortable with a group of 8 - 10 small to medium sized dogs but not with large dogs. Small to medium dogs have different temperaments when around similar sized friends and they play very differe tly to large dogs.

If there are large dogs then 6 is a reasonable number per handler.

Auckland provides very few locations where dogs are allowed off leash at all times. This makes it very difficult for dog owners to excersize their dogs freely, socialize them properly which ultimately helps with training and safety around humans and other dogs.

Although I agree with clearly identifying the rules and editing some to suit the needs of the community, however, I would appreciate the inclusion of areas with trees or water that accomodate dogs to freely play at any time of the day.

I support the intention but would like to see some locations favour dogs and dog owners. It is important for local borads to provide a large open, green space for everyone to socialize, play and run off leash freely. This creates a harmonious balance between all dogs and owners. If the only place to walk your dog between 10 - 5pm is on ashphalt - that is terrible for your poor dogs paws during summer!

Please provide parks and/ or open space locations that favour dogs and their owners during summer time in each local board area.

There should be a haven to easily travel to during summer day hours (10 - 5) that allow dogs to freely excersize.without burning their paws

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:Coyle Park end of the beach should be reserved for dogs to freely play abd swim**What is the main reason you want to change the current dog access rule?**Dogs love water and swimming - if there was a location that was designated, it would be safer for people with small kids or people who might be having picnics etc.**Please explain your issue in more detail:**

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I have seen dog walkers who cannot control a single dog, and pack walkers who have 12 dogs under perfect control. This proposed change is a blunt instrument which will punish good dog walkers. It will also increase costs for dog owners. I would prefer to see a system where dog walkers complete a simple registration online and have to display an ID when walking dogs. If dog owners encounter an irresponsible walker, they can then report them to Animal Management.

I regularly enjoy off-leash dog meet-ups in the gardens and the stream is a highlight. I understand there are challenges around maintaining the banks, but suggest that dog owners shouldn't be punished for this. I am not in favour of increased restrictions, we are already restricted enough in places we can go with our dogs.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I do not support the proposed limit on walking multiple dogs.

The proposed limit will only penalise responsible dog owners and will not stop irresponsible people who do not follow existing laws.

Auckland has a serious issue with roaming dogs and Council should focus on this not multiple dog walkers who make up a tiny amount of reported issues. Sadly, there are so many roaming dogs on the streets in my area- New Lynn- West Auckland. I am frightened to walk my dog in our local area- some of these dogs are scared and aggressive- I feel so sorry for the dogs and more accountability needs to be with owners. I support a license being developed to regulate professional dog walkers as they have the skills to handle multiple dogs and provide a valuable service to me and the community. My fearful and nervous dog goes out with a dog walker every week and I have seen a massive improvement in their behaviour and socialisation, I love knowing that they are well looked after and exercised on the days they go out.

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

What is the reasoning behind these numbers? They seem very random and where some people are capable walking 10 dogs off leash, some people can't even handle 1...

It makes more sense to regulate the dog-walking industry. Make people do a course if they want to make a full-time job out of it. If a dog-walking company wants to hire a new person, this person MUST complete a course and be certified to walk x-amount of dogs.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Do not support

Tell us why

Rephrasing and restructuring is not going to change people not following the rules. The rules are clear enough.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

I think that all dogs must be neutered and spayed if there is no agreement between a dog-owner and breeder. All dogs, when they reach a certain age, must be neutered if it doesn't imply any health problems.

Any wandering and roaming will be minimised and there will be a lot less puppies.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

I think a dog behaviourist should be the only person who can provide an assessment on whether a dog should be classified as menacing. And I think people should be allowed a second opinion.

A dog doesn't bite without a cause whether that's another dog, a child or being bored and roaming (It will see the entire neighbourhood as its home and will thus protect it). Other factors should be looked at too, e.g. how is the dog being looked after, does it get regular walks, has it had incidents before, etc.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Support

Tell us why

I'm assuming that all of Auckland needs to apply for a license (for more than 2 dogs) at the moment if it's not a working dog. So from that perspective, I say for some neighbourhoods, it should probably even be for a license for more than 1 dog. The amount of roaming dogs in South Auckland far outweighs the rest of the city and so I don't think everyone should be punished for the few that can't look after a dog.

Clarify how dog access rules are set:

Support

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Support

Tell us why

As long as the rules don't change, I support this. Though I think it's clear enough in most cases.

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Do not support

Tell us why

It's clear enough as it is and this gives the Council the chance to change exisiting access for dogs, either on-leash or off.

The whole debate about this dog business came about because of roaming dogs and dog walkers. Let's keep the focus on that.

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Support

Tell us why

As long as that's the only thing the Council will change....

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Do not support

Tell us why

It'll be different for every Iwi to say whether they agree with dogs on their mountains or not. This will confuse people even more. As long as people are respectful when walking their dog on a mount, I see no problem. Maybe there should be more monitoring instead.

Remove outdated or duplicate bylaw content:

Do not support

Tell us why

I think it might be good to have the same information repeated. Some people skim through the information, so repetition is good.

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

I think the focus should stay on where the problems are: roaming dogs, overpopulated shelters, not being able to rehome a lot of dogs (and thus put them to sleep), and an unregulated dog-walking industry.

I think the signs are clear enough as they are, as long as they match DOC signs and the council website (sometimes that information is not consistent).

3. Dog access rules at Regional Parks

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I like the colours but the rest of the information is too confusing (there is too much of it). People will need to read everything and they won't. It needs to be clear and concise.

I would keep the same information the same but highlight 'prohibited' in red and 'under control on a leash' in orange as the new suggestion.

I will copy this feedback for the rest of the parks as I've had a read through all the parks and changes and I share this sentiment for all parks.

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

I do think mentioning WHEN lamb season is, is a good addition. The other information, e.i. street names is overkill.

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

I would keep the same information the same but highlight 'prohibited' in red and 'under control on a leash' in orange as the new suggestion. All the extra street names becomes too much to read and too confusing. People will want a quick overview of the places they can visit and not have to check every street name.

I will copy this feedback for the rest of the parks as I've had a read through all the parks and changes and I share this sentiment for all parks.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

I think the information is the clear as it is. The only one that makes the most sense is Mahurangi East. The information about lambing season is good to add as well.

Muriwai Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I support the proposed change

Tell us why

Too much unnecessary information: on the Park, beach and foreshore areas on the seaward side of Waitea Road, including Gannet Colony, Ōtakamiro Point, Ōtakamiro Point Track and Maukatia (Māori Bay) Track, Flat Rock and Maukatia (Māori Bay).

Pākiri Regional Park

We are proposing to prohibit dogs on the associated beach (currently off-leash).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

What is the reasoning for prohibiting dogs all-year round? If it's for bird safety, I agree. If it's for people, I do not. In that case a seasonal summer ban is more appropriate.

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

I do not support the proposed change

Too much confusing information. No need for all of this. It's clear enough as it is.

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Too much confusing information. People won't bother to read all of this when it's pretty clear as it is.

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

It's very clear as it is.

Te Ārai Regional Park

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Too much confusing information. There is only 1 place dogs are allowed. Why mention so many different places??

Waitawa Regional Park

What do you think of this proposed change?

I do not support the proposed change

Tell us why

It's a lot more limiting and no need for it. Add the information about lambing season, but leave out everything else. It's too confusing.

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Too confusing. Too many details. People won't read all of this.

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Same as before. Too confusing. Too many details and street names. People want a quick overview.

Do you have any further comments about dog access rules at Regional Parks?

The colours and listing lambing season are good information to add. All the street names in most of the new suggestions confuse people too much. They won't bother to read everything. I would want a quick overview of where I can and can't take my dog.

Would highly support regulation/licencing for commercial dog walkers/trainers.

I use a dog walker to help socialize my reactive dog. He takes up to 10 dogs at a time and my dog's behaviour has improved greatly. They will sometimes walk through urban areas as a group (Albany/Westgate) to get used to noises and fast movements eg. Buses, cars, pedestrians. Safety is always the top priority.

Would also suggest dogs in walking/training packs to be grouped with similarly sized dogs. Perhaps by weight class, or typical size of breed.

Dear Auckland Council,

I am writing to voice my concern and dissatisfaction with the recent decision to remove off-leash dog areas, particularly the changes affecting Monte Cecilia Park. While I understand the importance of shared public spaces, this decision unfairly limits dog owners while providing little benefit to the broader community.

Auckland already lacks a sufficient number of off-leash areas for dogs, while there are ample spaces available for people without pets. With the steady rise in dog ownership, cutting back on designated off-leash areas will only cause overcrowding in the remaining spaces, increasing the risk of conflicts and safety concerns. A higher concentration of dogs in limited areas will inevitably lead to more incidents, despite the efforts of responsible owners.

Moreover, many dog owners may feel forced to disregard these new restrictions, not out of defiance, but necessity—these spaces are vital for their dogs' well-being. Reducing off-leash areas will likely lead to more non-compliance, making enforcement more challenging and ineffective.

Additionally, I am frustrated by the council's focus on revising guidelines for picking up dog feces when a much larger issue remains unaddressed. The removal of rubbish bins from parks has directly contributed to increased waste left behind. Rather than imposing

more restrictions on dog owners, a more practical solution would be to reinstate rubbish bins, making it easier for owners to dispose of waste properly.

It is also disappointing to see that dogs are facing increased regulation, while cats remain largely unregulated despite contributing to noise pollution, waste, and even abandoned or deceased animals in public areas. Many of these issues stem from unneutered and stray cats, yet little effort is being made to address this growing concern. If the goal is to maintain clean and safe public spaces, regulations should be applied fairly across all pet owners.

As a dedicated and responsible dog owner, I am frustrated by these changes and strongly urge the council to reconsider the decision to limit off-leash areas. Instead of reducing spaces, a better approach would be to find ways to improve coexistence between dog owners and the wider community. Supporting responsible ownership rather than restricting it would be a more effective and equitable solution for everyone involved.

Thank you for your time and consideration.

I don't think this is a numbers game. I think it's a licensing issue.

There are a number of trained professionals looking after a huge group of dogs that would have nothing without these people. And when I say nothing, I mean dogs that have been raised by people with the best intentions, but no real clue.

So these innocent dogs are saved by people who work with reactive dogs, and give these family members of ours, an outlet to go and be free, and be around other dogs without reacting, because they are with walkers and trainers that know what they are doing.

Then they get to come happy, content, and just simply be loved.

Personally, if I walk my dog, she is reactive, so I can't take her to a park. There are so many roaming dogs in my neighbourhood, so walking her around here is very stressful.

And she feels that stress, and she gets told off, and it's not the fun she deserves.

When my trainer walks our girl, she has perfect behaviour. She is non-reactive. She doesn't even go for the cat! Her behaviour is so great, and this gives her the perfect outlet to exercise well, and safely.

Proper training and licensing is the best way forward. And this training should be for all types of dogs, and use all techniques available.

There would be such a huge amount of dogs that people would give up on if they didn't have pack walk outlets where they all get to be the good dogs they know they can be, and not on short lead stressed out with their owners.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Other (please explain below)

Tell us why

I do not support the proposed change to the dog policy and bylaw, as I know that it will not achieve what is wanted and it will negatively impact multiple groups of people, making it harder for them to manage dog-ownership.

The proposed change, limiting the number of dogs to six per person with only three off-leash at a time will be detrimental to the dog walking industry, and those who rely on it. Not being able to walk as many dogs at a time will cause the price of these services to skyrocket, and the availability will shrink. It will also effect multi-dog households if only three of their dogs can be exercised off-leash at once.

With dog walking being harder to access this will leave many dogs who rely on these pack walks to be left under-exercised and not fulfilled. Both of these problems are well-known to cause dogs to show more destructive and nuisance behavior. This will only increase the amount of dog related issues in our community.

The current dog bylaws state that you can walk as many dogs as you'd like, as long as they are all under-control. The fact that new laws are being proposed, indicates that dogs are not all under-control. Putting new, harsher laws in place will only impact and be followed by those already abiding by the current laws, and the people who weren't before aren't going to start now. I believe that the solution to this problem is making mandatory licenses before someone is allowed to walk large groups of dogs, and starting to enforce the laws we currently have in place.

There are truly passionate and 'Professional Dog Walkers' currently collecting and taking multiple dogs on real adventures, working to modify their insecurities and behavior and ensuring each and every dog is content. These dog walkers really care for and understand the needs and behaviours of ALL the dogs they are responsible for. They are totally trustworthy, trained and passionate for the welfare of the dogs in their care.

Unfortunately, there are others - who basically DON'T GIVE A **********' - pick up, numerous dogs, drive to an 'exercise point' allow the dogs a few moments of unsupervised exercise and then pile them back into a van and return them back home - Dollar Driven, and totally insensitive to any care and responsibility,

Council need to respect the integrity of the Trained, Passionate and Professional Dog Walkers by 'weeding out' the 'cowboys' and facilitating a certification/registration and even training as a professional dog handler and walker.

Limiting the Number of Dogs Walked at One Time

I support the proposal to limit the number of dogs a person can walk at one time. However, we suggest that dogs should be registered if they are being walked together as a pack of six or more. This registration will help ensure that responsible ownership is maintained and facilitate better management of dogs in public spaces.

2. Changing Dog Access Rules at Regional and Local Parks

It is essential that the dog policy aligns with the environmental and ecosystem policies of regional and local parks. We propose that access rules be developed with input from ecologists and community stakeholders to ensure that both dog owners and the natural environment can coexist harmoniously. This might include designated areas where dogs are allowed to roam freely while protecting sensitive ecosystems.

Public Education on Safe Interactions

I strongly believe that there needs to be public education on how children can interact safely with dogs in public spaces. Programs and materials should be developed to teach children and caregivers about approaching dogs, understanding dog behavior, and

recognizing when a dog may feel threatened or uncomfortable. This education can help foster safer environments for both children and dogs, reducing the likelihood of incidents.

5. Recognizing Dogs as Part of Auckland's Cultural Lifestyle

Dogs are an integral part of Auckland's cultural lifestyle, contributing to the well-being of our communities. We believe that responsible dog owners should be supported by dog-centric policies that prioritize safety while fostering an inclusive environment. Clear signage in hospitality venues to allow dogs will not only benefit dog owners but also enhance the vibrancy of local cafes, restaurants, and shops. Promoting dog-friendly spaces encourages social interaction and community engagement.

6. Conclusion

In summary, we advocate for dog policies that balance the needs of dog owners with the safety and enjoyment of all Auckland citizens. By implementing responsible regulations, providing clear communication, and promoting public education, we can create a positive environment for both pets and people.

Thank you for considering my input on these important proposals. I look forward to the continued development of dog policies that enhance our community while ensuring the safety and enjoyment of all.

as a responsible dog owner I believe there is no need for any male dog to be entire if it is not specifically for breathing purposes. I believe the fines and penalties for dangerous dogs should be far more than it currently is and both the dogs and owners should be seized and put down rather than the dogs

The member of the public locates identifies and unregistered and entire dog that may or may not be menacing there should be enforcement to get that animal registered and also those owners. I've seen several cases locally where Normal dogs have been turned into vicious bastards by stupid owners who should never have been allowed a dog that should be clear and simple for these to be removed by animal management Again either the owner and the dog or the owner

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

We have dealt with dog walkers in the past, and sometimes dealing with off leash out of control dogs, not responding to the walker.

This change sets a reasonable limit on the number of dogs a person can walk at a time.

2. General policy and bylaw matters

It makes me very sad to think pack walks might not exist, my little girl is so excited to go and spend time free with other great animals. She gets to spend time twice a week with dog friends of all breeds, gets plenty of exercise and stimulation and comes home satisfied and very happy from being able to go out with the highly skilled knowledgeable trainers.

We got our girl before Covid 19 existed. But something I've noticed is a lot more people adopted dogs during the working from home era and now aren't able to give the dogs their needed exercise and outside stimulation due to working situations, these dog Walker's and trainers can fulfil these dogs needs under controlled supervision with other dogs.

Also Our dog suffered a little during this period with lack of socialising, and these outings are her free time to be her dog self.

I do think these professionals need to be licenced so that not just anyone can decide that's what they want to do for an income without training and proper guidelines, and give the hard working people with passion for the animals a bad wrap.

The trained professionals we have met are looking after dogs that would have nothing without these people, they get to go out on an outing with other dogs with someone who can control their reactive tendencies and come happy and exercised physically and mentally fulfilled.

On a lead in our neighbourhood she is reactive when passing other dogs, Also there are a lot of off leash animals in our parks roaming free, so walking her around here is very stressful.

she feels that stress, and she gets told off, and it isn't fun for her or us.

It's not about how many dogs are the issue, It's whether people have control of the dogs under their watch.

I can manage my 2 dogs that I own with one being reactive. My professional dog trainer/walker can handle my reactive dog with a pack of 10 others, my dog is well behaved around new dogs under her watch, highlighting the difference between amateur and experienced. Given the lack of licensing round dog walkers we should be considering this as a solution, like we do other professions.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3
