Your feedback

1. How do you or your household currently use the park?

I don't use the park

2. How often do you use the park?

I don't use the park

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

My home was affected by the Auckland Anniversary floods, and from my perspective, creating a flood plain here is the most practical solution. I find it difficult when conversations focus on preserving golf access. It can feel disconnected from the realities faced by those of us directly impacted. There is a public golf course in the neighbouring suburb. This should suffice.

4. What type of golf would you most like to see provided at the park?

Short-game practice area / putting green, Mini golf

5. What other type of recreation would you most like to see provided at the park?

Nature play / playground, Open space / picnic area, Outdoor sports courts (e.g. basketball, netball, pickleball), Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation, Productive land use - using parts of the park for food growing or other resources, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Your feedback

1. How do you or your household currently use the park?

Attend events at Eventfinda Stadium

2. How often do you use the park?

Less than once a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

Such a large public space should not be solely available for the use of one activity. I currently barely use the area because it is not set up for regular public use if you are not a golfer.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Mini golf

5. What other type of recreation would you most like to see provided at the park?

BMX pump track / skate park / other wheeled play, Nature play / playground, Open space / picnic area, Space to hold events (e.g. community markets, festivals or concerts)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural

environment for people and wildlife, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

It would be great if there were cycle/walking tracks that connected with other areas of the shore.

4. What type of golf would you most like to see provided at the park?

Mini golf

5. What other type of recreation would you most like to see provided at the park?

BMX pump track / skate park / other wheeled play, Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Outdoor sports courts (e.g. basketball, netball, pickleball), Sports fields (e.g. rugby, soccer, cricket), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The events centre is something we are heavily involved in with gymnastics so would love to see that remain and the facilities upgraded. It would be great to also see community tennis courts or other recreational activity areas for use to the public so the area is accessible to everyone

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

this golf course is the only public course that is used by everyone

if you visit it any day you will find people of all ages and walks of life

to play golf elsewhere you hv to pay green fees of up to \$100 and more

we as a group feel very strongly that golf should remain as the top priority use

other sports etc can be played etc elsewhere in Auckland and the north shore

4. What type of golf would you most like to see provided at the park?

12-hole beginner/intermediate golf course (approx. 36-40 par), 9-hole traditional golf course (35-36 par), Driving range

5. What other type of recreation would you most like to see provided at the park?

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

The handing over of land to commercial operators would guarantee that free access to the park would be achieved.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

All options must be secondary to flood control, which the the main reason for the redevelopment.

Need to reduce costs to ratepayers whilst giving people more than currently offered on the land.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

You talk about connectivity to Smales Farm, the bus station and the Hospitalto do this you will need to provide pedestrian tunnels under the mway or pedestrian bridge over the mway

My reaction is the Golf course could be retained BUT reduced to a 9 hole.

Feel the safety and well being of residents & businesses in the area out weighs keeping the golf as it is at the moment.

I speaking as a residence whose property was negatively impacted by the flood

4. What type of golf would you most like to see provided at the park?

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

I love playing golf here. It's a great course and it's nice to be able to play an affordable game of golf without driving to another city.

I like the idea of the golf course being modified to allow for wetland ponds and flood events when required. It's quite smart. It would be nice for it to still be a golf course but if it was too change, other recreation options would also be ok (canoe polo would be great use of watercourses)

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 12-hole beginner/intermediate golf course (approx. 36-40 par), 9-hole traditional golf course (35-36 par), Driving range

5. What other type of recreation would you most like to see provided at the park?

Open space / picnic area, Other, please specify: Canoe polo courts like the Hawke's Bay facilities would be cool. There are already a lot of other recreational facilities around the surrounding neighborhoods and throughout the city. Auckland could do with more water sport facilities

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural environment for people and wildlife, Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

It's a great piece of land ,enjoyed by many for golfing and walking .Our kids love playing golf there.

Other option would to see it used for rugby/cricket or Touch as huge lack of grounds

4. What type of golf would you most like to see provided at the park?

Play sport at Eventfinda Stadium

2. How often do you use the park?

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

There are currently 30-40 golf courses in Auckland, depending on definition, with four on the north shore alone. Thirteen such courses, including Takapuna Golf Course are on council-owned land. These facilities are known to produce a sub-optimal return to Auckland rate-payers, making them a poor return on investment with an extremely high opportunity cost (EY/Cameron Partners, 2015). More importantly, the current land use inhibits maximisation of public amenity. Hence, making this amenity available to a wider swath of Aucklanders is desirable.

4. What type of golf would you most like to see provided at the park?

None of the above

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Nature play / playground, Open space / picnic area, Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

I'd need to see any relevant proposals to understand any possibly financial proposals. If some of the land provides an option to generate a competitive return, I'd support related feasibility studies.

2. How often do you use the park?

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

It would have to be the best golf facility in the region for all Aucklanders and provides access to the sport that is otherwise reserved for only the wealthy who can afford the exorbitant fees at private clubs.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 9-hole traditional golf course (35-36 par), Driving range, Short-game practice area / putting green

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

An empty park will be a waste.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Yes. Redesign it to preserve the golfing facility that is there whilst providing downstream flood mitigation. This can be done at a cost, but the cost should not be a hindrance to, or relegation of, public enjoyment.

Limited higher cost of development options could be leased whilst simple open space and walkways could remain council controlled due to lower costs

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The flood protection would be the key benefit, but adding a community area to offset the heavy commercial zoning nearby would be great

A huge open splash pad (similar but bigger than the 1 at Stanmore Bay Leisure Center..

We have no fun, summer water outdoor entertainment spaces except beaches that are sandy, full of strange unsafe creatures that have danger zones or rips, pollution issues, irresponsible dog owners and taking lives of the inexperienced water babies young & old. (This would serve as a place for family young & old to have safe fun & relax with a picnic & stay refreshed) Our summer weather is going to be scorching and this would give a pleasant place for all to cool down & enjoy the outdoors. It would service many age groups and local people young & old make it wheelchair friendly to service disabled & elderly (close to hospital and recthorne, sporting venues, schools etc.

Throw in a few gas/pay BBQ's dotted around for use (like the 1 at Milford Beach grass area) some big trees or shades, some good old BBQ tables, concrete built table tennis tables and wholla!! Giving teens a place to meet & (hangout safely)

A pleasant open space for all!!

That's just a dreamy idea I have 😊😄

This is the only relatively cheap walk-up-and-play golf course on the shore and as a new retiree taking up golf it is wonderful. I also walk with a friend around the perimeter mostly weekly and see no reason why the flood storage cannot go down the motorway side taking a small amount of the golf course and including better walking/cycling (and as a keen cyclist I cant see myself bothering to drive here to cycle nor ride here given the traffic) no matter what is developed. I also look at the Council record of maintaining the weed clogged drains out of sunnynook park by the bus station especially and do not look forward to walking round a mosquito and weed infested pond with duck and geese faeces everywhere. In addition I do not want to pay for maintenance on my rates; nor my kids forever here after--take the rent from the Golf course and let them manage and pay for it!!

The general costs of living will only increase and the costs of proposed developments will mean a burden on our rates forever. STOP wasting our money (now and into the future) on unnecessary developments and do a basic "canal/hole" as proposed by the Golf Course engineers and leave them to pay for it ongoing

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

see the above---I am against any proposal that leaves us, the ratepayers with an ongoing cost forever. Life in NZ is expensive enough without deliberately adding to the burden for now and the future. Dig a hole if needed but make it a canal alongside the motorway and leave the golf course to pay for its upkeep--not us!

its key that a public golf course remains. It is essential if we want to keep the growth in the sport that such facilities are accessible by those new to the sport or that dont have the money or time to make club membership possible. Even pulling this back to 9 holes will impact it but 9 holes is better than nothing thats for sure.

Your document talks of allowing the water to run its natural/historical course - which was to empty into Little Shoal Bay. Re-opening an outflow to that point would protect all investment and property created to date. With the billions of dollars being proposed to be spent over the coming decades, I believe that a better solution is available, rather than destroying the wonderful asset we currently have bought and paid for in AF Thomas Park.

The Golf Warehouse had a great plan to develop a top 9 hole golf course, a short pitch & putt course and redevelop the driving range. Funded by them. That offer should be taken up and a suitable lease provided. The balance of the land could then become a wetland with walking and cycling tracks included.

Your feedback

1. How do you or your household currently use the park?

I don't use the park

2. How often do you use the park?

I don't use the park

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

As a golf course we don't go near with our son as danger of golf balls and not much to do. This would be a great place for a more wilderness type park area to explore

4. What type of golf would you most like to see provided at the park?

Mini golf

5. What other type of recreation would you most like to see provided at the park?

BMX pump track / skate park / other wheeled play, Nature play / playground, Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural environment for people and wildlife, Resilience - supporting

flood protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Keep all land under Council control

2. How often do you use the park?

Once or twice a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

Fair to all the community

4. What type of golf would you most like to see provided at the park?

12-hole beginner/intermediate golf course (approx. 36-40 par), 9-hole traditional golf course (35-36 par), Driving range

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Nature play / playground, Off-leash dog exercise area, Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Open space - space for free play and relaxation, Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

Commercial operators are more success than the council at providing what people want efficiently.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

This park is in a neighbourhood with medium to high density housing in a desirable area. To plan for the future it should be developed to provide recreational activities not already available to the residents of the wider neighbourhood. Maintaining a cost effective golf course that everyone can use is important rather than a generic park that copies many existing facilities readily available.

4. What type of golf would you most like to see provided at the park?

12-hole beginner/intermediate golf course (approx. 36-40 par), Driving range, Short-game practice area / putting green

5. What other type of recreation would you most like to see provided at the park?

None of the above

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

A long term lease allows an operator to plan with certainty and recover capital costs.

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

This is the only public golf course on the North Shore. There are many, many other parks and recreational facilities already providing exactly the sort of 'mixed recreational activities' proposed in the approved plan - why diminish the utility of a unique recreational facility to replicate what is already available in many other existing facilities? Put the money that would go into re-purposing the existing golf course into reinvigorating those other existing facilities if there is a perception or actual need for additional resource/facilities across the community.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 12-hole beginner/intermediate golf course (approx. 36-40 par), 9-hole traditional golf course (35-36 par)

5. What other type of recreation would you most like to see provided at the park?

None of the above

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Other - please specify: The continued provision to the community of a recreational use that is otherwise not available elsewhere.

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

So you have no money to actually repurpose the golf course, and yet you're asking the community to agree to decommissioning an existing functioning facility that presumably is highly valued by a significant portion of that community and which meets a need would go unmet under your proposal. Ridiculous.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

It has been 20-odd years since I last played golf there, but it is always busy whenever I go past. If your wetlands proposal is indeed the best option for dealing with poor planning elsewhere, fine - but don't compound a poor outcome by getting rid of a unique facility in the interests of replicating what is already readily available elsewhere and for which you have no funding. Focus the budget on providing the stormwater control required with as little impact on the existing infrastructure as possible, thereby minimising the total cost of the project and retaining an important community asset.

3. What mix of recreation uses would you like the park to provide once redeveloped?

Tell us Why

I do not believe that Auckland Council should be subsidising a minority sport like golf in an urban area. Especially where the sport effectively means the land is unavailable to other residents for 90+% of the time. If people want to play golf, they can join a private club or a rural club. This land has much more valuable uses in an urban area.

4. What type of golf would you most like to see provided at the park?

Tell us Why

Some land should be leased to operator to construct and maintain expensive and specialist facilities such as badminton courts, squash courts. The bulk of the land should remain under council control to provide flexibility of future use and ensure the space remains accessible to everyone.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Connectivity should be a priority for redevelopment. Wairau is currently very poorly set up for people walking and cycling, or with disabilities. There is currently very little cycling infrastructure and the car-centric design of Wairau creates an unsafe and unpleasant environment for active modes of transport. There is a shared cycle path along Northcote road and Lake Road.

Providing north-south connectivity through the park would be a huge win for active modes and would connect Wairau valley into the Northcote cycling network.

An east-west connection into Smales Farm station would be hugely beneficial, but would require an overpass similar to that at Akoranga station.

There are already a large number of golf courses in Auckland (refer to Herald article from a few years ago), and it takes up a lot of land only for people who play golf. North Shore doesn't have many large parks for recreation that offer a mix of activities such as bbqs, picnics, sport, playgrounds etc. (like Cornwall park, The Domain), especially with intensification people need nice outdoor areas.

Mostly golf with limited other recreation uses

Tell us Why

Golf is a game for all ages and wealth. Without public courses the options are very limited and costly. Having a facility on the North Shore like this is one of the reasons we live here. We believe the shore is well catered for passive recreation but is limited in active recreation. The bush area across the way from the course is a very good example of an area to walk. The redesign of the course could include walkways and cycle areas. Even the proposed ponds could be designed to be part of the course. This may mean these areas are flooded at times.

The course and driving range are in demand and should not be closed down. The reason I voted for certain council candidates was for their support of continuation with the golf course facility.

It's been a golf course for many years. Why change it now. We need council and the golf operators to work together not separately. A joint solution is better for all.

Lease all land to commercial operators

Tell us Why

Extra revenue for the council and higher quality activities is better than just a grass lawn which we have plenty of already

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Happy that this is for the flood resilience because we can't let what happened last time happen again. More nature planting and boosting biodiversity in the park would be great too

A more technical 9 hole course with the existing driving range would maintain the historical link while providing adequate space/reward for golfers with mixed experience and time (they could always go around twice !).

Depending on the eventual use of the remaining space - it might be better for the golf course to occupy more of the "dual dry and community recreation zone" to mitigate damage to any new structures/equipment.

It was originally donated land to be a golf course and it's one of the most used golf courses in New Zealand. This is clear indication that it should remain an 18-hole golf course as it was always intended, not an easy option for the council who have neglected infrastructure upgrades but are happy to sign off multiplex townhouses, high intensive Housing and collect the development charges on each. It is disgusting to even be considering losing another recreational green space!

Golf is the activity that best fits both the spirit and the layout of A. F. Thomas Park. The course already provides a well-used, structured space for people of all ages to stay active, socialise, and enjoy the outdoors. It offers a calm, scenic environment that can't easily be recreated through other forms of recreation. The existing fairways, greens, and open tree-lined areas give the park a sense of space and continuity that would be lost if converted for other purposes. Golf also brings together a community of players, volunteers, and local businesses who value the park and look after it year-round. It encourages participation, personal challenge, and social connection in a way that casual or multi-use recreation cannot match. Keeping A. F. Thomas Park as a golf course means preserving a cherished local tradition while maintaining a green, active, and welcoming place for the community.

4. What type of golf would you most like to see provided at the park?

The Golf opportunity is better led and managed by an experienced commercial operator rather than the council (for which this is not a core business).

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

It's really important AF Thomas Park is protected as a 'gateway' golf facility - and remain an affordable way of Aucklanders playing the sport without having to commit to a more expensive, full time membership at a club.

Your feedback

1. How do you or your household currently use the park?

Attend events at Eventfinda Stadium

2. How often do you use the park?

Less than once a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

It's a well used facility and other members of my family have used it well. Golf is a popular activity and this makes it more affordable. I think a blended offer making it available for broader community use - like walking trails, open events, junior programmes would be great. Also making it as environmentally friendly as possible. It could be even more of a jewel in the shore than it is. But I am strongly in favour of it being available as an 18 hole course. I do the that could still be Integrated with local ecological needs

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 12-hole beginner/intermediate golf course (approx. 36-40 par), Pitch and putt golf course, Mini golf

5. What other type of recreation would you most like to see provided at the park?

Nature play / playground, Open space / picnic area, Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities,Connectivity - walking and cycling connections through the park that link with the wider community,Nature - protecting or enhancing the natural environment for people and wildlife,Resilience - supporting flood protection and climate adaptation,Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

When land stays in council hands, it is more accessible to everyone, once it's sold, public access is usually lost forever.

I think that golf course should be retained. A change in ground level incorporating some small lakes can provide for a suitable course retaining all the beauty so elegantly quoted in the discussion document. The flooding is not on a yearly basis so if the location is constructed to cope with potential floods then that area of the golf course would obviously be closed short term. I would suggest that you trial this idea in part. We have quite a lot of parks close by.

There are already significant recreational grounds close by :

Eventfinda stadium, Mcfetridge Park, Marlborough Park Tennis, Onewa Domain, Akoranga Reserve, Lake House Arts Centre notwithstanding the location of 4 significant colleges also close by.

I personally preferred the Shoal Bay flooding option. The wetlands concern me with regards to bugs, stagnant water, etc. If gold is removed it will be gone forever and that would be a travesty. Im a 3rd generation golfer who has used that course and I'd hate to see it lost.

Takapuna golf course allows those unable to afford the cost of membership at a regular golf club the opportunity to be involved in the sport. It is also a starter course for many wishing to try the game, especially children, without incurring large costs. I would like to see the 18 hole course retained while allowing for flood mitigation measures to be incorporated.

Golf courses take up a large space and require much effort to maintain. The community is diverse and needs are not met with simply large areas dedicated to golf. Youth activities as well as a general activities area would better serve the larger community population. Table tennis tables and Petanque courts require less outlay and maintenance and generate new sport interests. They serve all age groups from small children to seniors. This enables a mixed age group participation.

A golf course of some type requires quite a large area of land for use by a relatively small proportion of the community and requires specialist equipment. Use for other activities could be far more inclusive and open up the park to a wider range of the community. There are also alternative golfing options on the North Shore.

It is a facility that has serviced Aucklanders golfers of all ages, gender and ethnicity for approximately 90 years. Unfortunately there are no suitable alternatives that cater for inexperienced and learner golfers, other courses in the region are expensive and in most cases have extensive waiting lists for membership. The impact upon older players, who find golf provides not only exercise but companionship, will be significant. The existing PUBLIC 18-hole golf course is a critical recreational amenity for the ENTIRE north shore. There are only 2 public course in all of Auckland. Preserving the existing course in its entirety and its existing 50+ year old trees are important to save biodiversity in the area. Other recreation uses (e.g. sports pitches, etc) will require the felling of a large number of trees.

4. What type of golf would you most like to see provided at the park?

Other, please specify: 18-holes par 72 course; can be achieved by lowering the northeast portion of the course to double as stormwater retention areas when needed. A dedicated wetland is completely unnecessary, environmentally damaging, and a total waste of money!

5. What other type of recreation would you most like to see provided at the park?

None of the above

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

There are already accusations of collusion between Healthy Waters / select members of Council and a competing golf operator which has damaged Council's reputation in this controversial project; all land must remain under Council control and the process needs to be more transparent

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The currently proposed wetland needs a complete rethink. The wetland can be substantially reduced in area by reconfiguring 8 existing golf holes to sit at a lower elevation to provide a dual-use recreation / stormwater retention area. See attachment. The Eventfinda Stadium should never have been built in this high-risk location in the first place and can be demolished for new wetland areas; a new and improved facility with better access could be built at Smales Farm with critical links to public transport.

It seems like a very big space for only a few people to use. It would be good to see it used for more than one sport, perhaps putting in a mini golf course which makes it more accessible to a range of ages and families.

Takapuna golf club has been a place where every golfer on the shore has played and learnt the game. To reduce it to a 9 hole is already a slap in the face to the community that have helped keep it maintained over the last 40+ years to reduce golfing usage and more would have a further negative impact on participation. It's a place where begginees can learn the game in a low pressure environment.

The current lease holders invested very little for a long time I know as a former greenkeeper at the course. Their mindset changed slightly when these proposals were tabled as they were trying to protect their money earner.

Under Council control the course will still be a good earner and the money invested can be put back into the courses management and improvements. I still think it's wrong to reduce the course.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I was brought up in Whanganui on a 9 hole municipal golf course, (Tawhero). The greens would often get muddy and no grass around the hole because of the traffic.

Option 1 as I see it. The golf course and the facilities are high quality for a public golf course. Keep the golf course, the driving range and caterer, pro shop, all those.

lower the proposed land changes, this would raise the tee and greens areas on the proposed changes. Nothing wrong with this. When the rare flooding happens, no golf played on that 9 holes until the flooding clears.

Option 2. Make the other 9 nine holes with larger greens, and have two holes marked out with flags on each green, like the Coromandel golf club. So the players play to one of the coloured flag one 9 holes, then the other coloured flag the other 9 holes. Play would be slow as players tee off on alternate tee times, first nine tee off, then second nine players tee off and so on. I have seen this and experienced it. Too slow.

I like option 1. Lower the ground area as planned but still have it for play..

The Auckland plan will intensify housing in the general Takapuna area meaning that outdoor recreation space will become a premium. Golf courses are not readily available for walking around and do not generally support shared use; at 18 holes, there are a maximum of around 72 people on a golf course at one time v the numbers that could be in the same space otherwise.

I used to live near Cornwall Park and now live near Waitemata Golf Course, the difference in community use is striking and I believe there are sufficient Golf Courses elsewhere on the shore to allow this one to be shared with other pursuits.

Well, the ACC can't cover the costs to run it, so lease it out.

You have just commissioned a Geotech report, so why wasn't done before the election.

Go to your "Spin Dept for an answer .

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Leave it as it is.

Nile Rd was always a flood zone (many years ago), but the previous council decided to sell the land to obtain more rates & left us with this issue to resolve.

We now have an ACC who is doing what they want, not what is best for the community.

We could get 500,000 signatures & it would not sway you to change. -prove me WRONG.

Rather than transforming Takapuna Golf Course into a wetland, other viable options must be pursued, particularly the “Shoal Bay Solution” which is also a significantly less costly alternative (\$38M versus the Council’s \$154.6M plan, which would reportedly involve a \$36M contribution from the government, as per an Aug 2025 news article). This will allow a valued resource to should remain as it is continue to be enjoyed by the public while saving rate- and taxpayers’ money. Do not let a hasty knee-jerk proposal brought about by Council’s previous inaction lead to the destruction of a treasured sport and recreation venue that has benefited young and old alike for decades. Let it continue to provide an affordable option for people to be active, including those who have chronic health conditions, promoting wellness while reducing pressure on the health system.

1. How do you or your household currently use the park?

Attend events at Eventfinda Stadium

2. How often do you use the park?

Less than once a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

It is a very valuable community asset at the moment the golfing community has lots of subsidized golf courses on very valuable land that other residents can't use (though nice to look at!). I'd like to see this land freed up for other purposes.

4. What type of golf would you most like to see provided at the park?

None of the above

5. What other type of recreation would you most like to see provided at the park?

Nature play / playground, Open space / picnic area, Outdoor sports courts (e.g. basketball, netball, pickleball), Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Connectivity - walking and cycling connections through the park that link with the wider community, Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

The council should retain most of the land for public.

If it is leased it should be to community groups that are not for profit if low rent.

If commercial operators the land should be sold to them OR rented at commercial rates.

The council should consider selling some land for housing/ retirement villages to fund development of the rest immediately. Focus should be on visually looking like a park next to visible areas for all to enjoy and development on less visible parts.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The council should considering selling some of the park lands to do a great development of the rest. This would also provide additional housing in the area helping housing affordability.

This is a community green space asset that once gone will never be replaced in a time of increasing housing density.

It is an entry level very low cost Public golf course one of only 2 in Auckland.

the land is owned by the community and managed by the council.

currently its leased to the golf course operators who pay for and maintain the land and environment at no cost to council.

Pay approx. \$400,000 a year to council for the lease .

its a win win for the council got steady income and no outgoings. .

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The council wetland plan is flawed it only allows \$25000 a year to maintain AF Thomas Park ie \$500 a week.

I believe like what was done in 2018 at Sunnynook Park the park ground could be lowered and the 18 hole golf course reinstated .

18-hole beginner/intermediate golf course (approx. 54-60 par), 12-hole beginner/intermediate golf course (approx. 36-40 par), 9-hole traditional golf course (35-36 par), Driving range

5. What other type of recreation would you most like to see provided at the park?

Archery, Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Other - please specify: The golf course is one of only a few affordable options and should remain that way. As noted earlier all of these other options are already available nearby and do not need to be prioritised (with the exception of the 'resilience'.

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

The lease will get things done/built. I ticked 'some land' as Council needs to ensure the resilience is appropriately built in and needs to have some say on the cost of the golfing activities.

Mostly golf with limited other recreation uses

Tell us Why

Replacing the most utilised public golf course in the country with an expensive artificial swamp to solve a perceived and poorly defined problem is bureaucratic overreach at its worst.

The councils' ongoing failure to execute its basic duties contributed significantly to the flooding of the Wairau catchment and the devastation it caused. Failure by the council to maintain and clean drains and clear debris from the Wairau stream and its banks obviously played a major role in the flooding event attributed by the freak Tongan volcanic eruption event.

The council proposal defies common sense and logic. It fails to address the real issue which is the removal of excess water entering the Wairau catchment area. For example when the proposed golf course replacement "water holding tank" is full, excess water flowing into the catchment will still flood roads and property just as it did in the last big flood event.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), Driving range, Short-game practice area / putting green

5. What other type of recreation would you most like to see provided at the park?

None of the above

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Other - please specify: Keep Thomas Park as a golf course only and the council to butt out.

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

The council has proven it cannot be trusted to act for the benefit of the community it has been empowered by statute to serve. The council is a grossly overstaffed and underperforming bureaucracy which has lost touch with its primary mission of providing basic community services (roads, water, sewage, rubbish collection). Instead, the council acts as a self-serving financial block hole intent on plundering and abusing its rate payer community with impunity by imposing cultural Marxist ideology on its unsuspecting audience.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Leave A F Thomas Park as a public golf. Do not change anything and do not spend any more rate payer funds on this proposal.

Keep the wetlands project under council control and those commercial entities who are really concerned for the park will find the \$\$\$ to support the council costs as well.

I truly believe that the horrendous cost to human life and to dwellings and property in the Wairau Valley make it a "no brainer" to develop the wetlands ss soon as possible.

Tell us Why

I strongly support the plans to address flooding risk in the Wairua catchment and am excited by the opportunity this creates to redevelop A F Thomas Park.

As someone who grew up in Northcote/Hillcrest, attended Westlake Boys High School, and now lives in Milford, I have a personal connection to the park. In the 1990s, I often walked to school through A F Thomas Park, carefully avoiding flying golf balls along the way. This redevelopment presents a once-in-a-lifetime opportunity to create a public park that meets the needs of our changing community.

With increasing urban intensification and more people living in apartments, we must provide communal spaces where residents can walk, picnic, socialise, and let children play freely. This vision is not compatible with retaining golf in A F Thomas Park.

Between 2013 and 2020, I lived in the Netherlands, where I observed how well-designed public parks contribute to a high quality of life. Despite high population density, Dutch cities maintain excellent liveability through parks like Amsterdamse Bos and Vondelpark, which prioritise accessibility, recreation, and sustainability.

These parks offer:

Car-free environments, enhancing safety and tranquillity.

Zoned areas for sports, nature, and social activities.

Designs that support urban liveability, with features like picnic areas, playgrounds, and amphitheatres.

I believe A F Thomas Park should be redeveloped following these principles.

Key Recommendations:

Car-Free Design

The park should remain free of cars to ensure safety and preserve its natural character.

Access and Connectivity

Construct a pedestrian bridge across the motorway from Smales Farm Bus Station. This will:

Connect future apartment residents at Smales Farm to the park.

Provide a direct route for Sunnybrae and Hillcrest residents to access the bus station, Westlake Girls, and the hospital.

Enable visitors from across Auckland to reach the park via public transport.

Create a direct path from Smales Farm (via the proposed bridge) to Terrylyn Drive or Marywil Crescent.

Develop a North-South walking and cycling path parallel to the motorway, linking in the future to the Northern Pathway and Seapath.

Park Features

Include picnic areas, nature trails, playgrounds, and amphitheatres.

Make the park a destination for events such as Summer Shakespeare plays and music festivals.

Ensure paths are straight and direct North / South and East / West through the Park to support efficient movement for walkers and cyclists, alongside looped nature trails for leisure.

This redevelopment is a rare opportunity to create a vibrant, inclusive, and sustainable public space that reflects the needs of our growing and diverse community. Let's seize it.

4. What type of golf would you most like to see provided at the park?

Other, please specify: No golf or at most a driving range. Flying golf balls are not compatible with other leisure activities.

5. What other type of recreation would you most like to see provided at the park?

Nature play / playground, Open space / picnic area, Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

The Takapuna Golf Course is a public golf course and is currently available to all golf players who wish to play there without the concern of high membership fees as is the case at other gold courses

It is important that all residents who want to play can play without having huge fees.

Also the course should remain an 18 hole course and not be reduced in size.

Make allowances when there is flooding, the course would be closed to players and allow the golf course to be a part of the flood plane area.

Unsure

Tell us Why

Af Thomas park is currently leased to an independent operator who runs the 18 hole golf course and returns money to the council. They have also offered a drainage solution which would provide a proper 18 hole golf course and over-deliver on the drainage. My preference is to keep the current 18 hole golf course with their drainage solution.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The current 18 hole golf course has been there for over 90 years. It is one of only two public golf courses in Auckland and it is the most used golf course in the country. There has been no good reason given to get rid of it. There are plenty of other facilities in the area for other sports and recreation but once we get rid of the 18 hole golf course we will never get it back and generations of children will miss out on playing on a proper golf course because they can't afford a membership.

The wetlands option is also inadequate for drainage, providing minimal relief from flooding, and they have also been proven to be difficult to maintain, especially after all the existing trees have been destroyed. the area will most likely turn into a a bog.

The other options sound like they will benefit the operators only, providing an inadequate golf course designed to make money at the expense of the golfing community.

A F Thomas parks need to remain an 18 hole golf course for the sake of our community and the future of Auckland and New Zealand golf.

The housing density is squashing more and more people into smaller areas with little investment in roads, schools, hospitals and now a recreational space is being targeted all because of a cyclone in 2023. How many cyclones like Gabriel have impacted the area over the past 20 years and as this is now a concern, why was the need for a wetland not factored in when allowing the greater Wairau region to expand. The golf course is heavily used which means that many people will lose that opportunity to find relief from the rapidly growing concrete jungle which no doubt will have future social and societal behavioral impacts.

1. How do you or your household currently use the park?

Walk / run in or around the park, Attend events at Eventfinda Stadium

2. How often do you use the park?

Less than once a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

A good mix allows all people to use the site, not just a small section of the population.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range

5. What other type of recreation would you most like to see provided at the park?

Nature play / playground, Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

This is an iconic golf course and for some 50 years has been a very popular public golf course for the community to enjoy. It has always been open for the public to walk and enjoy but golf was always the prerogative of Thomas Park since its days as a private golf course known as North Shore.

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

I think it is important to retain golf courses and this is an ideal space for one. Having other sports or recreational activities would be a bonus, but not at the detriment to what has been a public golf course.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), Pitch and putt golf course, Driving range, Other, please specify: Surely there is the ability to manage the space and design a full course. Council have caused this issue through intensification, the fix or temporary band aid should not be at the cost of a golf course, which is one of the best public courses and spaces around. These kind of sports facilities should be protected at all costs, even more so that we have a growing population and we will never be able to allocate this kind of prime real estate again, once it has gone.

5. What other type of recreation would you most like to see provided at the park?

BMX pump track / skate park / other wheeled play, Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Outdoor sports courts (e.g. basketball, netball, pickleball)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Organised recreation - space for organised sport or clubs

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

Make the land productive through leasing. We are losing an asset to the community. Find an operator who can actually add to the community in terms of facilities, given the council won't be able to afford to give back what should be a fantastic community space.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The golf proposal given to council is a great example of how the space should be used. We don't need more dog parks, or walks, we need more sports facilities as council is currently killing them off, through pure mismanagement.

Without Taka golf course it will be much harder to play golf on the Northshore. The alternatives on the Northshore are already quite busy and more expensive e.g. Pupuke costs double the price. I'd be happy to add other recreational uses as long as we can keep the scenic aspect to the park.

There are a bunch of houses that back onto this park. It would be unfair to change their outlook to a car park or a road like one of the proposals show. I'm sure there are ways to avoid this. The park should keep its natural and scenic outlook.

Takapuna is a very accessible and affordable golf course that is needed to grow the sport in this area. I understand that 18 holes is not possible, but it is important to have a 9 hole traditional course rather than a beginner/intermediate course for players to experience real golf.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Pitch and putt golf course, Driving range

5. What other type of recreation would you most like to see provided at the park?

Other, please specify: Padel is the fastest growing sport in the world right now, NZ is a bit behind the rest of the world when it comes to this and this will be a great opportunity to introduce Padel into this area. Padel is also a financial benefit that can subsidize the golf course when it takes off in NZ.

Your feedback

1. How do you or your household currently use the park?

Play golf at the golf course, Use the golf driving range

2. How often do you use the park?

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

Golf is a growing sport, particularly for the younger generations. There is a huge lack of affordable golf courses in Auckland making the sport inaccessible for younger new players or those who cannot afford the expensive private course green fees.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), Other, please specify: No one will use a non-traditional golf course.

5. What other type of recreation would you most like to see provided at the park?

--

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Organised recreation - space for organised sport or clubs

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

--

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Anything such as golf or an events stadium would be much better served by private ownership as they could do so much more than what the council could do. Leaving some for council would leave the ability to do some community projects such as pump track, waking or cycling tracks.

The facility is highly utilised for golf and there are basically no other public golf courses on the North Shore. Having a public golf course so close to the city is a big asset for Auckland.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 9-hole traditional golf course (35-36 par), Pitch and putt golf course, Driving range

Golf Warehouse have put forward a fabulous proposal that caters to a range of sports and would be a real asset to Auckland. If there are commercial partners willing to invest in facilities of this nature then the council should be taking these opportunities and encourage more of them.

Once the course is changed into something else, it is never coming back. The amazing thing about NZ and Auckland is the accessibility to modest priced recreation facilities. Why take this away... there will be no golf courses available at this price point which will kill the game for a lot of people.

This space should be kept for mostly golf as it is one of the only courses that people have full access to get into the game and learn how to play. I learnt to play golf here and have been playing there for 15 plus years. I can honestly say without this course I would have never been able to learn the game which has opened so many doors for me and provides so much enrichment in my life. Taking away this course completely would deny so many other the opportunity to learn a game they can play for life.

Takapuna Golf Course is the only publicly accessible golf course on the North Shore and one of only two in Auckland. As a casual golfer learning the game I've loved being able to book and play for a reasonable cost when it suits. Recently I've started bringing my young son - playing at private courses is unaffordable and would not be possible to play together as a family.

It would be a real shame for the North Shore to lose access to an affordable way to play 'proper' golf. Private memberships costing thousands each year are not realistic for 90% of Aucklanders. Without a public course like Takapuna tens of thousands of people will just not have any opportunity to play golf.

Lawn bowls, Off-leash dog exercise area, Open space / picnic area, Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Heritage - highlighting local Māori culture, Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation, Resilience - supporting flood protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Commercialising or leasing the land would lock out certain segments of locals out of the area. Keeping the land in council ownership will ensure everyone in NS can benefit from it.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Let's have a 21st century park and recreation area while taking necessary precautions to prevent future natural disasters, such as we had back in 2023 in our beautiful North Shore

This is one of the very few reasonably priced PUBLIC golf courses in Auckland which has a population of just under 2 million people. It is particularly accessible price wise to the youth of all sexes who are finding this a great sport to play and socialise. Many of these youths report feeling lonely and cut off by social media. This sport gets them out, away from phones and tablets and into nature which surrounds Takapuna golf courses. I heartily support this being kept as a golf course with easy access for our young people who are struggling to get housing and don't get into the outdoors enough.

You never get these spaces back. Sport in New Zealand is part of our DNA. People travel the world to visit our golf courses, and Takapuna is part of that. Takapuna is one of the only places in Auckland where non-playing members can enjoy a game of golf. Not everyone is a member of a club, and playing at clubs is becoming increasingly difficult as membership numbers increase. Takapuna enables ordinary Kiwis to play a round of golf casually.

1. How do you or your household currently use the park?

Play golf at the golf course, Use the golf driving range

2. How often do you use the park?

Once or twice a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

There are limited opportunities for those with limited financial means to play golf in Auckland

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range, Short-game practice area / putting green

5. What other type of recreation would you most like to see provided at the park?

None of the above

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Plenty of commercial facilities for golf in Auckland. There are limited low cost public golf facilities and this should be maintained as one.

2. How often do you use the park?

Less than once a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

The existing golf course provides low cost golf and associated outdoor exercise to the public, and is well used.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 12-hole beginner/intermediate golf course (approx. 36-40 par), 9-hole traditional golf course (35-36 par)

5. What other type of recreation would you most like to see provided at the park?

None of the above

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Open space - space for free play and relaxation, Organised recreation - space for organised sport or clubs

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

The present council ownership commercial operation works well, providing no risk Council income and all investment in operations by the commercial operator. Given the success of the current use as an 18 hole golf course, the land outside the wetland area should all remain available to golf to maximise the number/length of golf holes.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Maximise the continued recreational use of this facility as a public golf course.

Minimise the wetland area and incorporate normally usable ponding areas that are only unavailable for the relatively short duration of a periodic storm event

The Takapuna Golf course has been a huge part of my family both growing up on the Nth Shore and now as a parent. I attend the course at least once a week with my children. I support the Golf Warehouse plan to invest and develop A F Thomas Park into a world class affordable and accessible golf facility. Their proposal replaces an outdated facility and delivers modern golf and pickleball facilities; and creates flood resilience and environmental restoration through wetlands and native planting while utilising private funding and providing higher council returns, ensuring no public cost.

The facilities as they stand are vital to recreational users of Auckland.

The golf course is, I would argue, one of the most utilized public recreation facilities in NZ. There are few open spaces such as this remaining within immediate city limits. Losing the course means the people will never get anything similar back - it will be lost to the generations ahead. The Event centre is an international class venue serving the public well over decades and has a long future ahead.

Alternative protection plans are available. January 2023 weather event may never happen again. Knee-jerk reactions that remove/destroy a legacy land user, a facility for all our people generations to come is so short-sighted. Explore other options, invest in the alternative flood protection options and let's save the golf course and adjacent facilities

Council can keep the land for generations to come. However have proven facility managers oversee the sports etc running the various sporting areas

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Ensure there is good design and foresight in building new facilities for future generations. It is very expensive to go back and add on/upgrade facilities.

Takapuna Golf course is great for novice golfers to learn the fundamental basics of the game before progressing to club courses.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par)

5. What other type of recreation would you most like to see provided at the park?

BMX pump track / skate park / other wheeled play, Indoor sports courts (e.g. basketball, netball, badminton, gymnastics)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Organised recreation - space for organised sport or clubs

7. Which Park lease approach would you prefer?

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

If this golf course is taken away there are very limited options for the North Shore.
Devonport, Pupuke and North Shore (out of most people price range) are the only options left.
That is very limited when compared to population size.

The current golf course isn't high quality. A smaller, maybe 9 hole high quality golf course would be better. Then adding other facilities would be great for other users

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Pitch and putt golf course, Driving range, Mini golf

5. What other type of recreation would you most like to see provided at the park?

protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

They will likely provide a higher quality product with no cost to the council.

Golf has become a very expensive sport at private golf courses, with green fees for 18-holes getting more than \$80 per person typically. Access to some golf courses on certain days is also starting to be restricted unless you are a member, with membership fees often in the thousands and often having a waiting list. The loss of this facility will significantly reduce the access for students, lower-income golfers and beginners trying to give golf a go.

There are plenty of other parks and beaches available to the public for other recreational uses, many of which have banned golf practice.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 12-hole beginner/intermediate golf course (approx. 36-40 par), 9-hole traditional golf course (35-36 par), Mini golf

5. What other type of recreation would you most like to see provided at the park?

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

In order to keep the golf green fees low, Council should retain ownership of the land. Also aren't the majority of smaller stadium, such as Event Finda, owned by Council?

Privately owned stadium, such as Eden Park, also appear to be un-economic, and regularly require government \$ contributions

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

From an earlier Watercare presentation to the residents of Milford in 2024/2025, I had understood that the AF Thomas Park stormwater retention solution wouldn't have avoided the flooding that occurred during the January 2023 storm event.

I had understood there was an alternative drainage plan, that channelled stormwater overflow alongside the northern motorway, and through 'Smiths Bush', depositing the water into Hillcrest Creek and into the harbour from there. Why is this alternative solution no longer an option?

The current proposed solution to save 150 houses, seems to come at a greater cost to the community, by the loss of such a community supported facility currently at AF Thomas Park.

There are almost no other options for learning to play golf other than paying high joining fees for golf clubs with long waiting lists. the public golf course allows many people to try golf and to play with friends and family who would not be otherwise able to due to the very high costs of joining a private golf club. A mix of golf, walking and running tracks and dog walking areas would be a great use of the land.

New Zealand is blessed with great natural resources but we don't often think smart about how to use them or the global value placed on things like gold courses. Allowing wetlands drainage to co-exist with they're course makes sense. The proposal by the Golf Warehouse also seems like it gave good practical solutions and flexibility to multipurpose uses. New Zealand seldom has the bravery or wisdom to adopt plans that have a vision - be brave, don't just plant trees/wetland only for NZTA to mow it in when it suits them. Create a Community hub around the wetland. Even the options below are 1 dimensional- you have have a space that protects the environment, provides flood resilience, maintains golf and provides a community hub. Think smart and create a space that meets all of the basic criteria. If leasing means better community services then utilise that- get the best deal for rate payers and the environment.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par)

5. What other type of recreation would you most like to see provided at the park?

Do what is required to deliver a visionary/world class project to rate payers. We get you've got 3 year terms but think about providing for future generations. If the council can maintain some control/use then that may be a more equitable option for all the community to use, but don't let that stop you taking the opportunity to create something great.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Explore the golf warehouse option- work surg then to find something that benefits everyone and be brave to try to create something great

I don't use the park

2. How often do you use the park?

I don't use the park

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

The current use as a golf course restricts access for most north shore inhabitants. It makes sense to utilise the land primarily so it can form a flood protection and to use any area that can be developed into other recreation options. My view is that this will be safer for people during extreme weather incidents and will allow easy access for recreation for more people at other times.

4. What type of golf would you most like to see provided at the park?

Driving range, Short-game practice area / putting green

5. What other type of recreation would you most like to see provided at the park?

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Heritage - highlighting local Māori culture, Nature - protecting or enhancing the natural environment for people and wildlife, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

I think the emphasis should be on nature and safety. Further developments can occur over time as capital budgets and maintenance budgets allow. There's no need to rush into a development by commercialising the area.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I commend the Council for taking on the golfing community, putting local residents safety in extreme weather events first and considering how the space can be utilised for more diverse use. Good on you.

I have played a lot of golf here over the last 50 years. The facility provides a great community resource for golfers. There are not many public golf course and plenty of other facilities for other recreational use.

I now belong to Waitemata Golf course. This course floods maybe 5 or 6 times a year and on each occasion may be out of use for two or three days. This is not a major drama and doe not have a high impact on the course once the water clears. The Takapuna course could easily be reconfigured by raising the tees and greens and lowering the fairways so that it could store a large amount of stormwater which could drain over several days after a significant rain event.

Your feedback

1. How do you or your household currently use the park?

Play golf at the golf course, Use the golf driving range, Attend events at Eventfinda Stadium

2. How often do you use the park?

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

It is the only affordable golf facility on the north shore for general public esp seniors & youth. All other courses are very expensive for green fee players & have long waiting lists for membership. Takapuna is the only 18 hole alternative.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Other, please specify: Full 18 hole course

5. What other type of recreation would you most like to see provided at the park?

Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Nature - protecting or enhancing the natural environment for people and wildlife

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Golf under leased land. Flood control area and nature/bike & walking area under Council control.

2. How often do you use the park?

Once or twice a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

There are no other public courses on the shore - it allows accessibility for all to the game at reasonable cost.

It is well patronised and shortening the course will lead to people missing out on the opportunity to play golf.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par)

5. What other type of recreation would you most like to see provided at the park?

Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Connectivity - walking and cycling connections through the park that link with the wider community, Nature - protecting or

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Rate payer interests best protected under council control rather than favouring commercial interests which can exclude open access to activities, use of the resource etc.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Widen the current Wairau stream catchment to allow a better outflow of water run off so can exit to sea more effectively.

1. How do you or your household currently use the park?

Other, please specify: I use the carpark, and the grass fields at Takapuna Rugby Club.

2. How often do you use the park?

Less than once a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

By the nature of the sport, golf courses can't be used by many people at once. Each group of four needs to be 200m apart, and can't move at more than walking pace. Other recreational uses can allow many more people access to a wonderful green space. Equipment costs are another barrier for golf, being very high compared to other sports.

A compromise might be adding a disc golf facility, since disc golf fairways are much shorter, narrower, and can be combined with the flood protection area. The grass doesn't have to be pristine; trees and bushes are welcome obstacles. Discs are very cheap.

Alternatively I could see part of the park being used as a flat grass area for sports like rugby, soccer, lacrosse, AFL, cricket. The remainder could be replanted in native bush, as a complement to other pockets of native bush such as Kauri Glenn Reserve, Chelsea Estate Heritage Park or Eksdale Reserve.

4. What type of golf would you most like to see provided at the park?

Driving range, Other, please specify: 9 hole disc golf course

5. What other type of recreation would you most like to see provided at the park?

Sports fields (e.g. rugby, soccer, cricket), Walking / cycling tracks

Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Open space - space for free play and relaxation, Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

I can see the pros and cons of leasing some land. I would not want to see all of it leased to commercial operators. Since I can't tick two options, I chose the one that's furthest from my least-preferred-option.

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

As you continue to remove golf courses from the inner city, we need to go further and further away to play a simple game of golf. Good luck taking public transport to any of these, especially when you have an early tee time. Not to mention the more you remove and the more immigrants we get the longer the queues are to even join clubs let alone the cost of being a member. A course where you can pay a simple green fee on the north shore and get a game of golf in is already extremely limited and removing more affects all golfers (not only the ones who play there but ones who are on long waiting lists, need to join long waiting lists, etc).

4. What type of golf would you most like to see provided at the park?

Other, please specify: Golf

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Other - please specify: Golf.

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Because you are not going to remove the existing golf club and range.

Lets think logically for a second, any change to the park is going to take years based on all other projects undertaken by council. There is no way around this its just the fact of the matter.

IF you propose to take the golf course away and put something else there, even something simple such as an outdoor skate park or even a simple dog park, the construction, consenting, planning, funding etc will literally take years to complete. Why bother when you have a perfectly good park and golf course there as it is already.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Do not change a thing about the park.

The park is best suited for golf. Especially with the extensive redevelopment work. Golf requires less on-going input as opposed to sports fields, There is a significant demand for golf in the area well above any of the other sporting codes. There should be provision of walking/running around the course.

Overall the only feasible option is the continued delivery of golf at A F Thomas Park. It is the largest sporting code by numbers and Council should be doing it all it can to continue to support growth into the sport. By losing the 18 hole golf course, this has the potential to restrict future growth by removing an entry level course in the urban environment. All other options of recreation can be accommodated within other parks of the local parks network.

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

The 18-hole Takapuna Golf Course where I, and many people first learned to play golf. It's an icon of the North Shore and Golf communities.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 9-hole traditional golf course (35-36 par), Driving range, Short-game practice area / putting green

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Outdoor sports courts (e.g. basketball, netball, pickleball), Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks, Other, please specify: A large space for hosting venues on the North Shore.

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities,Connectivity - walking and cycling connections through the park that link with the wider community,Nature - protecting or enhancing the natural environment for people and wildlife,Resilience - supporting flood protection and climate adaptation,Other - please specify: Providing a luxury events centre for 500+ attendees. The Shore has very little left in terms of large venues.

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Agree and like the Golf Warehouse's proposal. Let other investors create amazing spaces there.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The North Shore has nothing by way of deluxe event space for 500+ pax. Event Finder isn't necessarily suited for an orchestra or acoustics, nor North Harbour Stadium. This might be a great space for such a venue. And a home venue (office) for the North Harbour Club & Charitable Trust.

Tell us Why

There are very few reasonably priced public golf courses in Auckland, especially on the North Shore. Takapuna Golf Course is very well patronised and should be retained as an 18-hole golf course

4. What type of golf would you most like to see provided at the park?

Other, please specify: I am confident a golf course reduced to a par 60 or less will be of little interest or use to the majority of golfers, To do so will create a "white Elephant" from what is currently a much used and loved full golf course

5. What other type of recreation would you most like to see provided at the park?

Other, please specify: a full size golf course

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Other - please specify: Golf

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

Providing a full size golf course is possible and should be privately funded,

The council has shown itself to be predisposed to removing the current golf course, despite the ratepayers showing a clear preference to keeping it.

I have little or no faith in the current council listening to public opinion.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The golf club has provided the council with affordable and practical alternative options, allowing the golf club to function as a full course.

To remove this popular and easily assessable golf course, due to "***** minded" council staff, is a real shame, it will be enduring stain on this council's legacy.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I would like the council to disclose WHY these wetlands are the best option for flood mitigation and WHY retention of flood water is better than creating another outlet.

AF Thomas Park should be retained as a golf course for future generations, for the golfing community to have a place to go, for it's open green space in our cramped city, for the mature trees that have taken so long to grow, for the wild life that live there, for the health of the environment, for the income it brings to council, for the maintenance costs which are covered by the golf course.

It's not broken, there's nothing to fix. Find other ways to generate money.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I'd hate to think how much of rate payers money has already been spent on looking at non-essential changes.

We have been playing golf here for years, it holds many dear memories and with so many other parts of the area changing, mainly due to some of the hideous developments that are being allowed to be built (which is a big factor in why your stormwater systems aren't coping) I feel it would be a shame to take golf away from this area. The other courses in the area are already over crowded, where are we going to go?

4. What type of golf would you most like to see provided at the park?

You're not willing to put funding forward but there are those who are.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

As I said, just take what's there already and make it better. If you're worried about flooding, upgrade the stormwater system or stop allowing people to develop sites, removing space for water to drain into the ground and often where trees have been removed to make room for building (trees absorb water)

The park in its current form provides a unique and convenient opportunity to play public golf. It is an open-space asset the lower North Shore can be very proud of and must be retained for its recreational value.

4. What type of golf would you most like to see provided at the park?

There are very few reasonably priced golf courses in the Auckland area that are accessible. Takapuna has always offered a reasonable price and good quality option for the average golfer. I appreciate non-golfers may take a different view, however there are many other recreational park options. I do agree that the flood issues should be sorted, however am not sure that a one in a hundred year flood issue should create such a change to a course that many average golfers love. However, I realise that change is going to happen regardless of feedback, so hope we will end up with a balanced mix, as appreciate the 'mostly golf' option seems already gone to people with different views. By the way, going to 9 holes will create so much demand, it will be great for whoever operates it, however will be super difficult to find a tee time. Just like every other golf course in Auckland.

Golf clubs take up a lot of space and provide for a limited number of people. There are already 2 other golf courses - Devonport and Campbells Bay near by.

There are no dedicated Pickleball courts - the fastest growing sport in the world. Pickleball only get to use courts when other sports don't use them - ie at the least popular times. The Y North shore only offers one night a week and unpopular Tim's during hte day on Mon, Tues and Fri. Netball North Harbour give priority to netball and Pickleball doesn't have guaranteed court time. They get more in summer than winter.

There is not a single Pickleball dedicated venue in Auckland let alone the Shore and there is a huge need for one.

Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation, Organised recreation - space for organised sport or clubs

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Private funds could build a purpose built Pickleball facility, but keeping some land for walking and the wetlands under Council control.

Or lease the land for sports purposes.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Place to walk dogs safely would be beneficial.

Having a children's playground would be a community asset as well.

The council should not speculate about a business model. Instead, it needs to accurately identify our funding sources while minimizing risk. We are a commercial business, and if operated correctly, we can afford to take some risks. As long as the business is managed well and allowed to make a profit, it can thrive.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

From what I see, the parking will be completely funded, not costing ratepayers anything. This, in itself, is a win for us locals. This kind of support for the council is unheard of these days.

As long as the right agreements in place a user pays approach should enable the best use of land. Ideally with a head lease with an entity like Golf Warehouse who can then determine what other support they require to enhance the area. I actually think a joint approach would work as well, but the council needs to allow freedom to get things moving

Tell us Why

I strongly oppose removing golf from AF Thomas Park (Takapuna Golf Course). This site is a vital piece of public sporting infrastructure that serves people across Auckland — young and old, families and individuals, those who cannot afford private club membership, and those who rely on bookable, pay-as-you-play golf. Removing or severely reducing the publicly accessible course will have long-lasting, inequitable effects on everyday golfers and on the region's sporting fabric.

Key points

Public access and affordability Takapuna is one of the few places in Auckland where people can play golf without club membership or large joining fees. Maintaining a course at AF Thomas Park preserves an affordable recreational option for children, seniors, families, and casual players.

Community use and growth of golf Golf participation has grown significantly since the COVID-19 period and many clubs report strong memberships. Keeping a public course at Takapuna

helps sustain that growth by providing accessible playing opportunities and pathways into the sport for newcomers and juniors.

Multi-benefit solutions exist I acknowledge the serious flood risk issues in the Wairau catchment and the council's flood resilience work. The council has proposed a design concept aiming to combine flood storage with continued golf facilities, including options such as a reduced (nine-hole) course and a driving range at AF Thomas Park. I support solutions that protect homes and critical infrastructure while retaining meaningful public golf access¹.

Local and social impacts Loss of a centrally located, bookable public golf course will disproportionately affect lower-income residents, youth programmes, and older players who rely on walk-on access and affordable green fees. It will reduce sporting diversity on the North Shore and remove a community gathering place that crosses social and age boundaries.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 12-hole beginner/intermediate golf course (approx. 36-40 par), 9-hole traditional golf course (35-36 par), Short-game practice area / putting green

5. What other type of recreation would you most like to see provided at the park?

BMX pump track / skate park / other wheeled play, Indoor sports courts (e.g. basketball, netball, badminton, gymnastics)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Safety - providing a safe environment for play, sport, and relaxation

Mostly other recreation uses with limited golf facilities

Tell us Why

As someone who lived in the Netherlands for 7 years of my life I saw first hand the benefit of public parks. They were a crucial part of everyday life and were loved by all, toddlers taking their first steps, families having picnics on long summer nights, people going for an evening stroll after work, the list goes on. In the Netherlands public parks are a key contributor to the extremely high quality of life.

The Netherlands may have a high population density but it certainly does not feel like that, public parks like the Vondelpark and the Amsterdamse Bos allow for recreation and sustainability and allow for nature to be brought directly to those living in cities and appartments. This idea is not limited to the Netherlands, take Central Park in New York. It is clear that public parks are enjoyed by people all over the world and Auckland should not be different. As there is increasing urban intensification and more people living in apartments, living in isolation and spending all day inside now is a perfect time to make a change.

4. What type of golf would you most like to see provided at the park?

Mini golf

5. What other type of recreation would you most like to see provided at the park?

Nature play / playground, Open space / picnic area, Outdoor sports courts (e.g. basketball, netball, pickleball), Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

This should be a park that all can access and enjoy. Public parks are vital for the well being of the community and with an increasingly individualist society any spaces that promote community and outdoor activities are highly important. I found that being a teenager in this area was an issue as there was a lack of things to do and places to meet with groups of people. A public park that is open to all would provide the perfect space for such activities and benefit all of the community. Additionally, such a public space should be run and funded by a group that represents the community not an independent operator that does not have the interests of the community in mind.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Some key things I would like to see from the A F Thomas Park redevelopment:

- clear and straight paths to allow for easy transport for all who use the paths
- separate nature trails for those who want to enjoy New Zealand's unique nature
- put on events in the park (e.g. music events and live performances of other kinds)
- picnic areas, amphitheatres and playgrounds and areas for sports (e.g. basketball courts)
- Construct a pedestrian bridge across the motorway from Smales Farm Bus Station (to allow for public transport access, access to the hospital and Westlake Girls and access for future apartment residents and Smales Farm)
- have a car free design (to both ensure safety and preserve the nature in the area as well as the city get away that the park should provide)

2. How often do you use the park?

Every day or most days

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

Children's sport is extremely important especially in this screen driven world they live in and crucial to NZ's future population and health.

Gymnastics provides the basics of movement for all sports and thousands of children receive their coordination strength and flexibility to not only compete in future sporting endeavours but also it establishes discipline and a healthy lifestyle which embed themselves in the child's habits for life- reducing mental and physical illness costs on society. Gymnastics must be included in the plan, as must team sport which develops healthy social behaviour in kids, and commitment/work ethic and ultimately reduces crime and increases productivity in our country. Golf is recreation but for adults and has benefit but the opportunity cost in reducing 1000's of children's gymnastics experience is huge if golf dominates and kids sports are eliminated.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par)

5. What other type of recreation would you most like to see provided at the park?

Other, please specify: Gymnastics as it is useful to the greatest number of kids

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Golf is great outdoor sport which kids should have access to to start playing golf and a smaller 9 course with a driving range and 3 par course smaller course are easily approachable options for kids. Also, my family play basketball a lot and we desperately need new facilities and a new stadium would be a great asset. My daughter also uses the gymnastics stadium and a new gymnastics centre would be a great asset also.

There is already a full 18-hole golf course in Devonport.

AF Thomas Park needs to provide for other forms of recreation (walking, running, bikes/scooters, being in the natural environment) rather than being dominated by organised sport. With increasing intensification, public open spaces will become even more important.

It's critical there is more equitable access to the park, and a wider range of options to cater for all of our community. There are also many other sporting codes (including eventfinda) which require more space in the park. We need to future proof for future generations and their recreation needs rather than locking the park up for one user group.

Your feedback

1. How do you or your household currently use the park?

I don't use the park

2. How often do you use the park?

I don't use the park

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

9 holes of golf and a bunch of other stuff like pump tracks skate parks. Golfing takes up way to much room all over the country

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par)

5. What other type of recreation would you most like to see provided at the park?

BMX pump track / skate park / other wheeled play, Nature play / playground, Outdoor sports courts (e.g. basketball, netball, pickleball), Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation, Productive land use - using parts of the park for food growing or other resources

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Organised recreation - space for organised sport or clubs

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Utilise private funding models like that suggested by Golf Warehouse to promote recreational activities, however also consider open spaces for the community.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Seriously consider the Golf Warehouse proposal for mixed use recreational use facilities

My preference is for Scenario 1.

Gymnastics is a preferred sport that must be included in the plan.

Eventfinda Stadium and North Harbour Gymnastics must have a flood-proof home.

I think a mix is a good compromise. That way the community can have a say in how some of the space is used

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I think it needs to meet the needs of the majority of the community and not just golfers. The reason for the change is because of the flooding which had a huge impact on many Milford residents, including my own family. My parents lost their home and are still dealing with council over a buy-out. If we have no rec facilities for a few years, that's fine by me. As long as we reduce the chances of flooding and loss of life and property, I'm happy

basket ball courts cafe pools

A F THOMAS PARK

Introduction

**I like how we can as community choose what to do
with this beautiful big piece of land.
My goal is to have the kids meet new kids,
exercise and have fun and socailise.**

Mini Golf

**I think it would be a good idea to
add mini golf because it's kid friendly.**

**All ages can join in as it's fun
and very easy to play.**

Flying Fox

A flying fox would be good fun for the kids. They would have fun and enjoy zooming through the trees and landing safely.

Cafe

A cafe would be a good idea so all the families can come together and talk. They can watch their kids on the playground outside with outdoor seating.

Playground

A play ground would be a good idea for exercise. The parents can watch while having fun on the swing. Children could socialise with other kids in the neighbourhood or any family from around the world.

Pool and Jacuzzis

A pool and jacuzzi would be a good idea so kids and adults could bring their togs and get some exercise. He prefers a predictable and calm environment with clear expectations. People could play sports like water polo. There will be lanes and little kids' pools.

Conclusion

A F Thomas Park should be developed as a fun park area for the whole community to enjoy.

It should include mini golf, a playground, a flying fox, a pool, jacuzzis, and a cafe.

This design would enable people to live a healthy lifestyle and socialise.

2. How often do you use the park?

Other, please specify: 6 times per year

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

The park has been a good source of recreational activity (golf) for many years. It would be sad to see it totally used up through land remediation/ wetland area. It would be good to see some golf activities ie 9 hole course plus facilities like a driving range etc and some other recreational activity areas such as basketball/ tennis courts.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range, Short-game practice area / putting green, Mini golf

Your feedback

1. How do you or your household currently use the park?

I don't use the park

2. How often do you use the park?

I don't use the park

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

I picked this option because it's including a wide range of communities not just the golfing community. The area needs more sports fields.

4. What type of golf would you most like to see provided at the park?

Pitch and putt golf course

5. What other type of recreation would you most like to see provided at the park?

Nature play / playground, Off-leash dog exercise area, Outdoor sports courts (e.g. basketball, netball, pickleball), Space to hold events (e.g. community markets, festivals or concerts), Sports fields (e.g. rugby, soccer, cricket)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Open space - space for free play and

relaxation, Organised recreation - space for organised sport or clubs, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

leasing some of the land sounds like a win win for the council, independent operators

council-getting revenue would keep the park in shape or the money could fund another project.

independent operators-with a government contract it would be a big benefit for a independent operator.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

yes I believe that a market would improve the park and bring communities together like the market at the Avondale Jockey Club.

Video submission transcript:

Hello, I'm a student from Summit Point School and I am going to share my ideas and thoughts with you about AF Thomas Park. In Milford, there is a lack of rugby and soccer fields. This is also the case in Campbells Bay, Castor Bay and Hauraki, all lacking in soccer fields. I know they are small suburbs but they still matter, this is why I propose to the council the idea of fields. I personally don't care if it stays or goes. I have used reference images like the Hobsonville Farmers Market and the Avondale Jockey Club market. The reason behind the market is because of less processed food like instant noodles, candy, pizza etc, but also to bring family together as well as community.

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Lower north shore need a area for big commercials including a big shopping mall like Albany to meet the requirement. For example, We need 2nd Kmart on the north shore so we don't' need to drive to Albany all the way.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

North Shore should have a central hall and square for any activities.

I don't use the park

3. What mix of recreation uses would you like the park to provide once redeveloped?

Other

Tell us Why

Zero golf - let this land be used for recreation for ALL residents. There are 3 golf clubs on the North Shore which is ample for those who wish to play golf, but there aren't many places for walking off road, in nature, close to transport hub. It would be truly fabulous if there was a bike trail around the perimeter as well so that children could become confident on bikes before hitting the roads.

4. What type of golf would you most like to see provided at the park?

None of the above

5. What other type of recreation would you most like to see provided at the park?

Nature play / playground, Open space / picnic area, Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Nature - protecting or enhancing the natural environment for people and wildlife, Resilience - supporting flood protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

The minute you lease land it is necessary to pay a dividend - let this be a truly community owned facility available for everyone. Do we need to provide recreational facilities - surely nature itself could be the drawcard.

There will be space when the detention basin is empty that could be used for other sports. Because this area may be unavailable for significant periods, it would be awkward to include this into a lease for the golf course.

There may be other recreational uses which could tolerate intermittent access to the area.

4. What type of golf would you most like to see provided at the park?

12-hole beginner/intermediate golf course (approx. 36-40 par), Driving range

5. What other type of recreation would you most like to see provided at the park?

Archery, Lawn bowls, Open space / picnic area, Other, please specify: Events that could be held in a new Eventfinda stadium

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Open space - space for free play and relaxation, Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation, Other - please specify: There should be NO off leash dog areas.

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

A lease to the golf club would be appropriate. They need special topographic features for their greens and fairways, The Council is not well set up to manage and maintain the golfing area or to manage the activities of a golf club.

The same may apply to a bowling club and the area they would use. They need an enclosed area for security of their greens against vandalism.

Other areas should be available for various uses and could be under Council control.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

There needs to be a building equivalent to the current EventFinda building somewhere on the park site. This should provide for a range of indoor sports and community exhibitions. Part of it needs to be able to accommodate at least 250 people who meet for presentations of various sorts, and it needs adjacent morning tea facilities. It is preferred that this space be at ground level to facilitate access especially for older and disabled people. Adequate parking would be required.

1. How do you or your household currently use the park?

Walk / run in or around the park, Play sport at Eventfinda Stadium, Attend events at Eventfinda Stadium, Use the bowling club (lawn bowls)

2. How often do you use the park?

Every day or most days

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

It's the most efficient use of land

4. What type of golf would you most like to see provided at the park?

Pitch and putt golf course, Mini golf

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Lawn bowls, Off-leash dog exercise area, Open space / picnic area, Space to hold events (e.g. community markets, festivals or concerts)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Council don't have the money. Pickle ball courts for instance are very popular in other areas but prob can't be developed if there's no monies available. Hate to see spaces left unused as they can't afford to develop them into usable spaces.

Mostly golf with limited other recreation uses

Tell us Why

Having a flat easy to intermediate public golf course is an asset the whole community can use. Kids can play golf, old people, and anything in between. Having driving range is great as a short, fun, social option, and having the putting practice areas and potentially more virtual golf type options would be awesome. The eventfinda recreation centre is critically important and needs to ideally need larger as we have a significant shortage of indie sport space. The basketball, gymnastics, and all the various sports, activities and events that can be held there are crucial. If the flooding solution (which doesn't seem good enough to me) is not going to protect the stadium from flooding then it should be rebuilt and built bigger (like the originally intended plans to expand out the back) We don't need more sports fields there as there are plenty already in the wider precinct at onewa domain. Adding a playground would be great. Archery facility is great. We don't use the bowls currently but if it's well used then that should also stay

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), Driving range, Short-game practice area / putting green, Indoor golf simulators

5. What other type of recreation would you most like to see provided at the park?

Archery, Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Lawn bowls, Nature play / playground, Off-leash dog exercise area

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Organised recreation - space for organised sport or clubs, Safety - providing a safe environment for play, sport, and relaxation, Other - please specify: Keeping the amazing trees at the park. Having a finding solution that's actually going to work and not just be a sponge pot for the sewerage overflow that comes from council sewerage facilities when it rains. Funnelling the water out of the area rather than retaining it in this park. Taking on board the historical knowledge of other local people not just Maori

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Public private partnerships are an effective funding mechanism. The whole benefit of a "public" golf course is that it is accessible for the wider community so a council/public element is importantly to reduce fees and increase accessibility. If a better and cheaper flood solution was chosen then the money could be better spent!!!!

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

As above, I believe the flooding solution is NOT the best option. The fact it won't even protect the stadium from flooding shows it's just going to maintain the area in the water rather than diverting it out to the sea. It's expensive . And it will be ugly. (If the examples in Wairau Rd by Denny's and at the end by Tristram and at the end of Barry's pt rd are anything to go by. Many people are not attracted to go walking through these ugly areas. While having a connection where people can walk or bike from the netball/rugby/cricket/athletics side through to the archery/gym/basketball etc side would be helpful, this doesn't need to be an expensive raised pathway through marshlands. But more a strip of flat land with a simple path that is accessible for the public.

My view is to reconsider the flooding solution you've currently decided on (while you still have time, before anything is started) and have a solution that diverts the water right away. Then you could have the funding to add a simple connection pathway and look at how a larger/flood-protected indoor sports centre can be enhance/ developed. You can then keep the well used golf and indoor facilities as a focus. They are core community facilities serving thousands of people .

Would love a 9 hole to maintain the green and it's vital to keep event Finda. It is such a well used facility. Our family is there up to 3x per week. I don't see a need to change event Finda but think it should be kept.

The gold course is currently green. Using the golf course and changing it into flood plain space seems ludicrous and in direct contrast to the crazy number of resource consents issued for little box houses right beside each other.

the North Shore event centre has been the home of Basketball not only on the North Shore but also the country. This facility is perfected located being close to the motorway.

North Harbour has the most active and registered basketball members in the country and is still growing and wont be slowing down as basketball becomes the most popular sport in Secondary schools. This country should be building more facilities like this and i think the 4 courts should triple to 12 courts!

I think the park, as it is is perfect. An 18 hole public golf course and a multi- use stadium..Adults and families alike use both facilities and it's perfect. The problem was moreover the allowance by government that caused the buildup of commercial buildings in a known flood zone.

A golf course helps protect flood plains.

Eventfinda Stadium is such a great venue. Both my kids play basketball there, for school and club, and they did gymnastics there when they were younger. We regularly attend events there such as netball and basketball games as well as expos and other events that we wouldn't go to if they were held over the other side of the bridge.

Other, please specify: My family don't play golf so I don't care which type of golf is there

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Nature play / playground, Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

--

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

It would be great to see eventfinda upgraded. Pullman arena in Takanini is a great example.

Your feedback

1. How do you or your household currently use the park?

I don't use the park

2. How often do you use the park?

I don't use the park

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

A good portion of the land could be revegetated as a NZ native biodiversity park with a few footpaths within, also a raised viewing stand overlooking the future wetland. The majority of the land should also be decompacted to allow water infiltration. Additional or extra car parking must NOT be done as part of redevelopment. There's enough carparks. It's important not to turn the city into a series of large carparks, which is happening in other places.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range

5. What other type of recreation would you most like to see provided at the park?

Lawn bowls, Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Nature - protecting or enhancing the natural environment for people and wildlife, Productive land use - using parts of the park for food growing or other resources, Resilience - supporting flood protection and climate adaptation, Other - please specify: Don't transform the area into a mass of impervious surfaces, or a series of mini concrete jungle like most redevelopments

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Because those holders of private leases would push to alter their lease land to become car centric, involving more impervious surfaces, thus defeating the objectives of the flood mitigation exercise. With Council staff changes over the years, Council would more than likely cave in to such demands from leaseholders. Councils rarely take a strong position on environmental issues in Auckland City.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

1. Carparks and extending carparks is within the Park is not recreational use. Advise your Planners.

2. A pedestrian link (or overpass) from the Busway at Smales Bus Station may work very well. This pathway could also incorporate a viewing platform over the future wetland.

3. To prevent an unattractive disaster zone, Council should be very proactive about pest species ie removal of feral pigeons, mynahs, rodents, magpies, possums, mustelids, wasp nests and hornets etc

The concept that the golf warehouse sounds great with a range of activities.

The north shore needs more indoor stadiums for sports such as basketball, pickleball, badminton. They can also be used for events/tournaments and top level games. Eventfinda stadium needs to be at least double the size with the growing number of children/adolescence playing basketball

Commercial operators will provide better facilities as they have the funds to deliver where council doesn't and they will maintain the area better than council does.

Council should provide the flood plain area and hopefully they will maintain it, however they don't have a good track record to date.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The current course is very special in providing an easy and relatively low cost entry to golf for people of all ages. Suggestions that there are other courses that could take up the extra demand if the course totally closed are incorrect. Most golf courses in Auckland have significant waiting lists and also do not provide for the more informal style of golf that Takapuna currently provides.

Private operators with a good track record, and who are able to contribute to development costs, will deliver recreation opportunities more rapidly than the Council and will limit the need for the Council to provide funding. Council will also, with some activities, be able to gain income from recreational leases. Some specific areas such as the wetland and possible perimeter tracks would still need to be managed by the Council.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

A F Thomas Park provides a golf course that meets the recreational needs for a diverse range of socio-economic, age and nationality groupings. It has a long history of providing this service and while it is clear that flood protection is required (and an 18 hole golf course is not a possibility) a range of golfing opportunities can still be provided with a well thought out plan.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Takapuna golf course is well-managed and maintained better than most golf courses in Auckland. It's being patronised by all auckland golfers, young and old. It's very affordable and easy to book a round. Waitemata golf club does not accept new members, while Pupuke is to hilly for senior golfers like me.

It is an opportunity to put in place some new facilities that all the public can enjoy. There should be free things. Eg frisbee golf. Bush walks. Places to fly a kite. Place to ride a mountain bike. The stadium could be used for indoor sports. Pickle ball, netball etc. Can we do something on the water. Row a boat or kayak mix it up. Support the smaller sports and help them grow. The golf warehouse suggestion is great. But I would like to ensure as many sports as possible be if it from this new park. I would use the golfing facilities but not as much as I might use cycle tracks and walks and other fun things you could design. Good luck. Martin

Tell us Why

Golf is a sport rising in popularity - and has been a staple of New Zealand. Fresh air, exercise, mental health (clarity, resilience) and mobility - it provides so much to those who enjoy it. If you get rid of Takapuna, where do you expect everyone to go? Every local club has a waiting list, and you can't get tee slots if you aren't a member. Seriously consider the ramifications of eradicating what is a facility that provides such positive experiences to the community.

I understand the need to make arrangements to suit flooding conditions (I work in businesses that were absolutely decimated by the floods in Wairau so know all too well the effects), and I think we can find a fair and reasonable balance here to protect the sport, continue to provide a green space for local birdlife and the community and encourage future community engagement at this all too valuable resource.

4. What type of golf would you most like to see provided at the park?

Its currently a high quality golf facility with both driving range and club golf with excellent access to motorway links and transport. Other facilities nearby do not offer these benefits. 3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

I believe a 9 hole golf course plus driving range to be adequate. More importantly i would like to see bike and walking trails through the park including providing bike transit from north to south linking Wairau Rd to Northcote Rd.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range, Indoor golf simulators, Mini golf

5. What other type of recreation would you most like to see provided at the park?

Nature play / playground, Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Commercial activities should be allowed a lease to facilitate their investment. General public use space should be under Council control.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Less than once a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

I'm a member at Tikapuna Golf Club and have used the facilities for a number of years. This is a fantastic facility for beginners and intermediate golfers and is unlike anything else in Auckland. It is affordable and well located.

I appreciate that the area was badly affected during the Gabriel flooding, mainly areas that are commercial in the Wairau Park area and the substation on the corner of the Gulf Range. These commercial properties chose to build in Wairau Valley against the Wairau Stream and did so at their own risk of flooding. The decisions being made now by the council are motivated by these commercial operations. The concept of building storage ponds to hold back flood waters like Gabriel is nonsense. Flooding will happen regardless unless it is properly channelled out to sea. The idea of a culvert running from the Wairau Stream onto Little Shoal Bay seemed like an obvious course for excess water flow. Draining the area, not storing the water, is necessary. The rest homes you mention include Lady Ellen, which council have approved to be building in a floodplain.

The entire Park is self-funded and well maintained and an asset to the Takapuna area. If Council takes this on, you will create a burden for ratepayers that is entirely unnecessary.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), Short-game practice area / putting green

5. What other type of recreation would you most like to see provided at the park?

--

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Other - please specify: Leave it alone.

7. Which Park lease approach would you prefer?

Unsure

Tell us Why

It is inevitable that if the Council takes on this area under its responsibility, that it will become unaffordable and require leases for commercial operations that will benefit those commercial operations, not the broader public. Leaving the Golf Course under its current management, we'll see the area maintained and well-utilised well into the future.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I believe that golfers can accept flooding in this area from time to time, and that such flooding is inevitable. In fact, only a golf course can survive this sort of weather event without being too adversely affected.

Scenario 1 works well. The scenarios including courts omits the fact there are multiple courts for basketball, netball, tennis in the near vicinity at 44 Northcote Road, so perhaps those should be re-purposed or expanded by using/removing some of the carpark on that side? Watercare should be sacked for the failure of investment in the city's storm drain system. And if NZTA are unhappy about the risk, get them to pay for it?

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 12-hole beginner/intermediate golf course (approx. 36-40 par), Driving range, Short-game practice area / putting green

5. What other type of recreation would you most like to see provided at the park?

Walking / cycling tracks, Other, please specify: Art Park - there isn't one in Auckland how about being a bit more visionary?

Nature - protecting or enhancing the natural environment for people and wildlife, Other - please specify:

Watercare could budget for it, its their failure that's causing the re-think of use of the park.

Frankly if you cant pay for it, why not just leave it as is, there wont be another Anniversary Day flood for over another 100 years.

"There is currently no funding set aside for new recreation facilities in A F Thomas Park. Any new recreation options may need to be delivered over time, as funding becomes available".

Or as we have had on the North Shore for years, a small special rate which we an opt into like the rubbish bag labels we had for the last 12 years after Auckland Council was created. Well how about a 20 year delivery of it?

Whatever you do dont ask for consultation research report from the same company who did the Auckland stadium review for Tataki, which saw the North Shore stadium being under threat, most of the these companies who prepare research for large fees paid by the ratepayers are biased towards a 'for profit' business model which is not what a public service is there for. Your job is to serve the public as is stated in the words 'public service' not give businesses our assets.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Yes you presented three scenarios on the haveyoursay page for the proposals but they are not referenced in the questionnaire. How does that help?

i.e You could have asked -

Do you support scenario 1, 2 or 3 or other? Easy as.

Golf is an amazing games played by gods and people. It is a beautiful game that requires fostering and treasuring. It is an equaliser of people, low cost and unpretentious when played in communities. It saves money on ACC with lower injuries and fatalities than football, MMA and Bridge. I employee you to consider retaining golf at the heart of this scheme.

Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation, Safety - providing a safe environment for play, sport, and relaxation, Other - please specify: Golf. You have to pay a bit to maintain the facilities obviously

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Lease some land can 1) increase use as people will be drawn to the area 2) off set the costs of development of the public facilities

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Golf courses can be allowed to flood. That happens all the time I. Chamberlain Park and Remeura clubs are both low lying. Storm water retention in large rain events is not inconsistent with a golf course. We are land constrained. It's not binary. Think creatively.

I do not agree with the proposal to use part of the existing golf course as a "wetland" for flood resilience. The creation of a wetland will only bring vermin, pollution from bird droppings (native and introduced) birds. I am also concerned as to the maintenance of the wetland as previously demonstrated at the Croftfield Lane "wetland" that became infested with weeds and was unusable for flood resilience. The creation of this wetland will create a costly maintenance burden on ratepayers now and into the future and is totally unnecessary.

The revised plan by Takapuna Golf club is more acceptable but the question has to be asked why is additional recreation being created when there are many facilities in the immediate locale.

4. What type of golf would you most like to see provided at the park?

The golf course currently generates revenue for the council with little or no maintenance burden. By removing this source of income the council is placing more financial burden on ratepayers already stretched budgets.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I do not believe the financial cost associated with providing a recreational area is justified. I believe this project has an element of "greenwashing" where the ratepayer is again hit with the costs both now and in the future.

It would be great to make this park linking between the netball centre and rugby fields on the other side of the Northcote road with the Eventrite and Archery club on the other side. It should have a variety of sports facilities for the surrounding suburb residents, and making it a sports central for the Northshore,

Please also consider the traffic in this area. It is already busy after school and when there is an event.

Council need to retain the ability to future repurpose when necessary and protect the environment. Instead of taking an one off payment from some buyers, council can lease some of the land to commercial sports, adventure, outdoor activity providers. This enable the park to be self sufficient.

First of all...

1. You funding for this project
2. Our RATES will be funding this project
3. Auckland Council is almost at its borrowing limit
4. We cannot afford to proceed with a project that will have ZERO effect on the flooding in the Wairau Valley/Milford area if during the next major rain event if the tide is in....
5. Currently the golf course is providing REVENUE to the council... it has the highest number of players over the course of a year of any course in NZ!
6. This will cost ratepayers at least \$500,000,000 over the next 10 years...
7. No rainfall for 3 months over the summer period and the so called wetlands will be a mosquito infested pit...

8. The council has done no clearing of the debris and silt in the Milford estuary since the last event!!!

9. Why isn't there a plan to build a levy earth wall around the perimeter of the golf course where needed with a sluice gate that can be activated to prevent water entering the Wairau Creek until the weathers passed??

This will allow the current golf course to completely flood and store 100 times the water volume of the proposed wetlands!

Provides a balance between the benefits of having Council run areas for community access as well as funding and facilities provided by commercial operators.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Auckland is in need of more wetlands, not more golf courses. Turning the land into wetlands will provide flood resilience and decrease the risk of flooding for many families.

Tell us Why

This will ensure that the Park is used by the widest cross-section of the community, Golf is only one recreational activity amongst many enjoyed by the Community, If the Council is serious about providing the greatest benefit for the most people then it should select this option as it would allow space for a broad range of sports, recreational activity and events,

4. What type of golf would you most like to see provided at the park?

Driving range, Short-game practice area / putting green, Indoor golf simulators, Mini golf

5. What other type of recreation would you most like to see provided at the park?

Open space / picnic area, Outdoor sports courts (e.g. basketball, netball, pickleball), Space to hold events (e.g. community markets, festivals or concerts), Sports fields (e.g. rugby, soccer, cricket), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Heritage - highlighting local Māori culture, Open space - space for free play and relaxation, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Leasing some the land will allow for more rapid development of the land and broaden the range of uses for the land, A mix of council-owned and leased means some of the access to the park could be free to users while others would pay for access to the facilities they use,

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Yes. Please makes sure that the flood resilience part of the the Park is given top priority and work accelerated. The recreational use of the land is important but the whole point of the project is to reduce flood risk and this needs to be done without any delay,

This is the only public golf course on the North Shore.

Pickle Ball is a growing sport world wide.

Leaving the area just for walking and wetland is a lost opportunity for young people to engage in sport

4. What type of golf would you most like to see provided at the park?

Tell us Why

The Golf Warehouse owners have created a fantastic solution for the use of the land. I support their vision of combining sport with a viable climate resilience area

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Please do not waste this opportunity to create both a golfing and flooding solution. Young people who have the opportunity to engage in a sport such as golf at low cost become healthier more productive adults

I am 76 years old and golf is my regular exercise whether in the course itself or using the driving range.

Takapuna public golf course is the only affordable course on the North Shore and membership at Pupuke and Waitemata people of my age and situation is beyond my means.

The closure of the Takapuna course will effectively end my life long passion of playing golf a situation I am sure will be the same for many others if my age who play there.

I feel the alternative solution to the "flooding put forward by the golf course lessees has been disregarded by council without a reasonable consideration.

Council had made its mind up from the outset and ***** would have to freeze over before it would consider any other option. Its reasoning was based on the why it wouldn't work rather than looking at if it could work.

I doubt the current preferred council option will have the perceived benefits to all of the flood prone areas that council is claiming it will have.

Don't get me onto the cost of the council option as I can foresee the poor rate payer having to meet the considerable future shortfall.
