Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Issues with individual unruly dog owners should be taken up with those people, not blanket policies affecting the 95% of us who are responsible dog owners

I am not sure but think someone is running a little training school in Manly Park (also not sure what day on a weekend) but think it is a great idea. The inside grass of the park doesn't get used a lot. Walkers (like me) are inclined to stick to the road and footpath around the park. It is the most wonderful park, just love it.

While I understand how important dogs are to their owners I think children and families should take priority. That's why I think the beach and park access rules should be tightened and most importantly policed with fines issued to those flouting them. I feel there is not sufficient publicity about dog walking rules so maybe a lot off dog owners are unaware of them and not deliberately flouting them. This is especially important as there seems to have been a huge increase in dog ownership over the last few years with many families having more than one. A few TV and radio ads might help.

Please take into account the great increase in the number of dogs in public spaces these days. Maybe it's time that all dogs are required to be on leash in all public areas, including beaches over all holidays. Far too many uncontrolled dogs have been present on beaches even on winter weekends, much less when many people are out and about over holiday times.

People who don't own dogs rarely make formal complaints to the Council so the statement that most dog owners are responsible and considerate is not based on evidence I have experienced.

The proposal needs to also clarify the rights of people who aren't dog owners to experience public places without being harassed by dogs.

We have seen and personally experienced dogs running up to people, adults and children, unasked. Not ok, yet a frequent happening. It is not even about whether the dog is friendly or not, as some people seem to think, it's harassment. Dogs jumping up at people, not ok. Dogs running up and biting a total stranger's hand on a beach. Not ok. Free-ranging dogs urinating on beach-goers bags while they are in the water. Not ok, terrible. We now put our things in a plastic bag for protection. Dogs chasing shore birds. Dreadful.

The definition of 'control' of the dog needs to be explicit. Dogs not obeying verbal commands, is that animal 'controlled'? This is a common occurrence yet the animals are not on a leash.

It would be good to see all dog owners having to be licensed and tested about their control of their animals before being allowed to take them into public spaces.

Is it also time to consider a safety requirement that all dogs must be muzzled in public spaces except designated dog parks? If even a minority of owners continue to take uncontrolled dogs into public spaces, irrespective of the law, how is safety provided for other people, children and adults as well as for dogs on-leash?

Please consider clarifying the rights of non dog-owners to enjoyment of public spaces in the bylaw and proposal.

Penalties are currently trivial for most people. Please consider making them much greater. Comparable ones in other countries are thousands of dollars, disqualified from owning dogs etc.

Council should focus on getting tid of unruly people that make life harder for their community

Dogs are usually loved and people who make an effort to walk their dogs usually are aware of the rules around yhis

Proposed updates to the council's local park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

I agree with the rules of allowing specific times for walkers and their dogs, but I think, like all council run places, it is also necessary to give the staff the correct powers to be able to do what is necessary.

As with Totara Park, there are notices saying no stereos or generators, the notice is tiny and people ignore it repeatedly all the time, sometimes there are 4 or 5 family groups with different stereos on and generators going too, and nothing is done about it.

Current rules with varying seasons and times of day are far to confusing for most dog owners to get their heads around, I would like to see all local parks and beaches be on leash at all times, unless dog access is prohibited.

Please keep a rubbish bin at each as it makes it easier for people to pick up & dispose of dog poop.

Lack of rubbish bins has incurred more dogs pooping in public areas & either left as is or picked up in a plastic bag & leaving poop in bag there

I think dogs on a leash should be allowed anywhere but we need more dog wardens fining people for letting their dogs chase wildlife and not cleaning up after their dogs. Council would make a fortune on the Eastern Beaches alone as dogs run free all the time ignoring rules.

Dog ownership is on the rise and people are under-educated on how to raise a well behaved, socialised, animal.

Auckland needs more dog exercise areas where owners can engage, train their dogs, socialised them, and raise better dogs and be better dog owners. It takes a village to raise a dog.

We need practical leash laws so they CAN be policed. We also need the return of a dog ranger on patrol. We used to have one and it made a huge difference in safety and owner responsibility. Parks are for all of us but in our park a number of us do not feel safe due to the large number of loose dogs. We recently heard a child screaming while a loose dog aggressively barked at her and ran to see if she was ok. When the owner arrived said sorry but it was a disturbing event.

Again Council is becoming the ********** in the room. People and dogs must learn to coexist. It appears to me we can and should. How bear Council appears to think no dogs should ever be on the beach. I dont agree- we share the world and growing up playing with my dog or swimming with my dog is a wonderful and enriching way to grow up. Both dog and child learn in this way. You are acting in an ignorant manner and reducing this contact will only have negative effects as fewe and fewer people are used to animals besides themselves.

Do you have any further comments about dog access rules at local parks or beaches?

Most dog owners are respectful and are often the main users of parks and beaches and as such should be given greater access. Better dog control officers are needed to deal with the unruly dog owners and their badly behaved dogs. Punish the guilty, not the innocent.

I think there should be parks set aside (not sports grounds) in all suburbs that are for dogs off leash. They should be well signposted so people know they are off leash. I also think the summer hours need to change - the current Dec - Feb is way too short (it should include November and March) and the hours of operation also need to be extended to 6.30pm

Dog ownership has increased significantly since lockdown while people's ability to control their dogs has declined. I think it is too easy for people to own a dog and there should be bylaws that make love-struck would-be owners questrion their ability to own a dog. It's not the dog's fault it killed the dotterell chick at the end of Big Manly, it is the stuipid owner's fault.

Duck Park, Glen Eden

I have been walking my dog at Duck Park for over four years now. There are a group of owners who regularly do also. This regular meeting as being instrumental in ensuring that the local community has well adjusted, socialized dogs. The owners are all very responsible about their dog's behaviour and making sure they place dog poop in the bins across the bridge at Harold Moody Park.

Apart from in season late afternoon and evening Rugby league training and evening touch competitions the park is not used. I would like to see a designated as an off leash Park between the hours of 7am to 3pm during the time late afternoon and evening rugby league training and touch league competitions are in place an from 7am to 8pm during the summer months when there is no sports activity on the Park.

The current designation for off-leash in Glen Eden is a very small strip of ground that is

not really even suitable for one dog at a time. It is hidden out of the way and used frequently for overflow parking for the theatre and other events.

I don’t want dog owners to disappear from these areas. They can let their dogs off leash in the designated off leash areas, but just keep them on a leash in the sports designated areas.

Keep the rules as they are for Tindall beach, Manly beach. Snell beach. The rule changes are penalizing the majority of locals by a minority of local agitators making unsubstantiated observations about sea birds, with no fact to back up thier claims.

Dogs are a. Integral part of society. They need to have the opportunity to be exercised freely near where they live

Most dogs are well controlled abd more needs to be done regarding those not well controlled/ registered. Also more work for children to be safe around dogs

2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Dog walkers actually do a lot of the daily beach clean-up!

There might be the occasional poo that got missed, but there would be far more rubbish on the beaches without the dog walkers.

The local beaches already have time limitations for dogs set; to take away the next best thing (Madills) leaves us without much option.

With the existing beach time restrictions in place it only adds weight to to need to provide access to all areas of Madills Farm Reserve. With the potential for both to be comprised... together with Glover park - where does Council expect Dog Walkers to exercise their Dogs. Seemingly happy to collect annual [increasing] dog licence fees but want to restrict access to where & when they can go. Local Roads are a Health & Safety issue with the volume of traffic in Auckland and is counter to the stipulated desire to adhere to this policy.

I am a dog owner and I have had my dog attacked whilst on lead by dogs off leash at crossfields reserve and when I confronted the owners both said it's an off leash park and there is no signs to say otherwise, now I know there is but perhaps make them much bigger and at every entrance to the reserve and hand out fines to owners of dogs off leash.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

I do not believe there should be any further restrictions of any kind for dogs in local parks and beaches. The Council should focus on menacing, roaming and unregistered dogs, and not make life more difficult for responsible dog owners who have their dogs registered and are also rate payers.

I really do support the suggestion to change the number of dogs walked at any one time. I am not a dog owner, and as an adult, I find it intimidating. I can only imagine how a non-doggy 5 year must feel.

It is disappointing that such little consideration has been given to community usage and the importance of these beaches to the whole community. I hope the feedback is listened to as there is significant disappointment over this proposed rule change from dog owners and non dog owners alike.

The existing by-laws, and any new ones, need to be enforced. There is a complete lack of regard for the by-laws by some sectors of the community and they need to know they cannot get away with it.

Your signage is poor and over complicated. There is no need to go into so much detail especially about putting dogs on leads on boat ramps. No one is going to do that to cross a 3 metre boat ramp onto a beach. The signs are missing from a lot of places as well. Hopefully new rules to protect the dotterels on Big Manly and Tindalls can be in place by the end of the year for the new nesting season.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Do you have any further comments about dog access rules at local parks or beaches?

Dogs need spaces where they can exercise and socialise. The proposals restrict their access to many of the parks around Auckland, leaving very few options where dogs are allowed.

Rather than complete restriction, either no dogs or dogs on leads, I am in favour of time restrictions in some places as a compromise, like we do on beaches.

Restricting the space dog owners have when there is increasing dog numbers, will only force dogs to interact in these smaller spaces which brings about potential for conflict/incidents.

I think the Council should focus on 1) the poor dogs tied up most of the day 2) roaming dogs who attack without provocation as in the recent cases in the news - these dogs obviously need new owners 3) making desexing free 4) making all dog owners do a worthwhile dog ownership course before being allowed to own a dog in the first place - and following up on non-registered dogs.

The Council are focusing on the wrong dogs with the proposed changes

It’s one thing to change wording and rules but until you fund enforcement more and animal control, irresponsible dog owners will continue to go unchecked.

2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

We need more places to exercise our dogs freely. You want to reduce the amount of dogs per walker, remove off leash areas or prohibit dogs from places which will increase dog issues since they won't be able to get the exercise they need.

Why pay any rego if we are getting our rights taken away?

Do you have any further comments about dog access rules at local parks or beaches?

Yes - generally all beaches should have dog access all day. At least one end of each beach should be available for pets to exercise (at a minimum)and this should be a standard rule across the Auckland region.

We note that in other NZ centres (e.g Dunedin City) dogs can play on local beaches (e.g St Clair) at ANY TIME. This policy makes Auckland Council seem agressively disposed to be anti-dog. Auckland Council needs to change with the times and move to be as per the rest of the world on these rules!

Signage is insufficient, unclear and confusing on the western end of Onetangi beach at 'the 'rocky outcrop (crocodile rock)'. This signage needs to be more explicit that dogs are not allowed past the (crocodile) rocks.

Enforcement and warning of penalties are required as many dog walkers totally ignore the signs - particularly those coming off moored boats who may not / do not see the sign at crocodile rock. Another sign is required at the far west of the beach. Contact details of enforcement officers is also required so that those reporting offenders have a clear process to follow.

Stop trying to control everything! We pay so much money for councils to do stupid stuff like this which limited the freedom of our dogs. What we have at the moment is fine and if bad dog owners break the current rules, fine them. Don't punish all dog owners and all dogs by changing the rules

The council should put more focus into punishing the few that are breaking the current rules and not keeping their dogs under control, rather than punishing everyone by introducing and enforcing a multitude of new restrictions.

I would much prefer the council put effort into defining under control, certifying the dog training and walking industry and supporting good citizen dog training than enforcing more on lead rules.

The dogs rules on beaches are very fair. They give dogs and their owners a go at certain times all year round, and in summer this is limited. I think the current policy works well for dog families and non-dog families.

Please consider further restrictions. It is very unpleasant to be on a beach where dogs have pooed and where wet dogs run up to you as they are not under control. As said before, I would rather see more limits around dog access and off leash areas. Perhaps increase the dog licence charges and use this funding for dog poo clean up and creating more dog parks.

Lack of clear signage, no enforcement and few patrols.
People do not care and think they are entitled to go where they like with their dogs.
Stricter enforcement and patrols are needed.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

Why can’t we access the beach fully in summer after 8.30 or 9pm. Not just be off leash at waters edge. It’s late enough to not impact young families. We pay rates to live here too and we pay to register our dogs. Fine people higher who break the rules. Bu

Dogs will behave worse if you contain them to small backyards. People work longer hours and often both parents work now too so dogs need a chance to burn off some energy. Kept them locked up at home and you’re asking for more issues.

Dogs aren't inherently bad or dangerous - they reflect the owner. Teach the owner to control their dog, and the dog will be calm, respectful and under control, posing no risk to others.

Teach others how to appropriately respond when a dog approaches them and they are fearful; or educate them to go elsewhere - dogs are being limited in where they can go for recreation, there are significantly more dog prohibited areas than there are areas where dogs are permitted, so those who don't like dogs can go elsewhere.

Please consider these changes very carefully.

Auckland parks and beaches are for ALL Aucklanders and unfortunately non dog owners are unaware of the importance of off-leash areas for dogs to exercise and socialise. Many dog owners simply want to be out and about with their dogs and not to be forced to unsuitable areas for their dogs and own well-being.

Auckland Council could help educate people from all walks of life how to tell the difference between an aggressive and friendly playful dog. Maybe have (or increase) signage at parks on who to contact if there are any issues and signs with some helpful hints about dog behaviour for owners and non-owners alike.

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Do you have any further comments about dog access rules at local parks or beaches?

I think we need to look for ways to solve the problem which is posed by a very small portion of dog owners, which does not remove the rights of responsible dogs owners. Most other countries seem to be moving towards a more dog friendly state whereas we are having more and more restrictions placed on where we can bring dogs. I have seen a comment that these changes are to ensure "there are places where people can enjoy without dogs" but there are already extensive areas where dog access is restricted (parks/beaches etc) so do not believe we need to further limit dog access when this is already quite limited.

Have more areas onleash only between 10am-5pm all year. Dog owners are a minority they can use the park off peak, dogs prefer to be out at these times anyway.

The existing rules for dogs at parks in my local vicinity cater well for our community. Indeed at Glover Park, the dogs and owners are the predominant groups that regularly, on the daily, utilise the park. The sports fields are utilised by many different codes however I am yet to see the same connect to the park and responsibility that the dog owners of the region take in keeping it cleaned of rubbish, report graffiti, report any misbehaviour or damage at the park. I am nearly everyday cleaning up rubbish left behind by sports clubs and my fellow dog walkers are doing the same. We have a special connection because it is our communities park and I for one take the parks well-being seriously.

Please stop imposing unnecessary restrictions when one rule to restrict dog access does not fit all parks or beaches. Dogs are a very important part of many Aucklanders lives and we need to have close access that we can walk to where we can exercise dogs off lead.

In my opinion, dogs off leash around children is never ok - for the dog and the child. Both can be unpredictable. Appropriate spaces for dogs to be off leash which do not include sports grounds or playgrounds seems a logical solution.

My daughter was viciously attacked on Christmas Day by a vicious horrible dog

I had to dress my daughter for one week.

I said to the hospital it's their obligation to find the owner was

And report to the police

I was not happy seeing my child mould by this dog and the owner protected the dog

If it does it once it'll do it again and as I understand the dog is not socialised and was locked in room

You can't do that

To any animal !

What if it does it again to a small child or an elderly person it could kill them? !

I want my feedback included in your consultation please.

I don't support further restrictions or removal of areas you can take dogs now. Dogs behaviour doesnt improve being stuck at home. They start barking and escaping. We need to encourage good socialised dogs. Dog oars are ok, but very rammed and often with unknowledgeable inattentive owners.

I think 99% of problems with dogs cones from 1% of owners. So I encourage more attention on them, that 99%of people who follow the leash rules.

Having animal control education officers out, visible. Asking everyone if they have a poop bag, if they have a leash. If they know the rules in that location etc wld keep marginal owners on point and reassure non dog pp. Also in schools educating kids to not pat tied up dogs, to ask the owner, not to pat too of head etc. as I've had all that before. Abc as a dog owner, to me that's a parent issue not a dog issue (even tho my dogs submitted to being touched by strange children without me present)

More beach access for dogs.
Either one or two more beaches apart from St Leonard's that dogs are allowed year round.
Have clearer signage, and parks dogs are not allowed for those who are scared of dogs.
Conflicting rules. Signs on parks saying off leash / Council web site says the opposite.

More fenced dog areas, we once had a dog killed when it escaped from an unfenced park area and ran onto the road, such a devastating experience, I will never used unfenced areas again.

(This is not a criticism of our dog ranger). On Waiheke I feel we need dog ranger to be more visible & engaged. EX: Go to the 3 main beaches...Oneroa, Palm Beach & Onetangi on peak dog walking ti.mes.Check back at 11am (during summer hours) & see how many dogs are still on the beach.(The current rules are not being followed.)Talking to community via meetings or newsletters.. Get actively involved with educating our community. Too many loose dogs, unregistered dogs, dogs off leash in Oneroa township. Etc. The current rules are not being followed * as it is about safety of community & dogs we need to do better.

Yes, if there are identifiable issues around dog access, it is the responsibility of the council to monitor and police these and ensure compliance by the very low percentage of dog owners who do not comply

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Come on Auckland Council - half of our parks and reserves are empty during the day. Don't punish dog walkers and people wanting to exercise their dogs responsibly while also maximising these amazing spaces. Rather than blanket rules, think about what is right for each site - for the most part, as soon as schools go back these spaces are empty.

The current rules for dog access to beaches appears to be abided by and working well.

Because there are already restrictions to beach access, further restricting reserves/parks, would render little to no areas available for the majority of local responsible taxpayers.

Especially regarding Madills: The majority of dog walkers are locals who utilise the area most days if not every day of the year. The football club members come from a wider area as can be seen by the number of cars, ie not local and not involved in the community. Football games take place on Saturday and Sunday from Easter to Labour Day, Training happens 2 or 3 times a week for short periods of 1 or 2 hours. Cricket games occur sporadically during the summer. The rest of the time the fields are utilised by many dog walkers throughout the day. Dog walkers are always careful to keep their dogs away from the areas where games or training are taking place.

Well, I played football for Eastern Suburbs for 8 years and trained 3 times a week at Madills Farm and Glover Park and played games on a saturday. My playing and training experience was never once disrupted by a dog or their doings (poo and holes etc.)

Dog owners know to keep their dogs at distance when the fields at Madills are being used for sports etc.

Also if dog owners and their dogs are made to keep to the edges of the park it becomes more dangerous as it is closer to the road. For both owners and their dogs. For example if my dog ran across the road (baddley Ave for example) I most certainly chase him and in the moment i just am so worried that I forget to really worry about myself. This could really cause serious problems for drivers and not to mention to myself and my dog. Dog owners love theior dogs so much and worrying about their dogs is a very normal thing to do. Walking your beloved dog is supposed to be relaxing and nice for both the dog and owner but if made to walk near the road it becomes stressful. This change is likely to affect the mental health of dog owners. My dog only ever has run onto the road if I am walking around the edges of the park, he has never gone beyond the little hills surrounding Madills Farm when I am walking him in the middle.

If this change goes through, there will be many disappointed local people with dogs, this is not the right thing for the community!

I would like to add that as a dog walker at Madills Farm for the last 3 years I have found it to be a very safe park to walk my dog. I have observed dog owners as friendly and responsible and their dogs are really well socilaised here (off leash) and therefore well-behaved at the park and nearer to home too. Therefore, it is a really important space for many locals and their dogs as part of their daily routine to have local access to off leash space such as Madills sports fields.

2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Don't discriminate against responsible dog owners, we have registered dogs, clean up after them and socialise our pets responsibly, playing around with bylaws won't stop those irresponsible pet owners

Please consider the broader community wellbeing and do not progress these changes. You will devastate this community where groups of people gather and socialise alongside their dogs if you do so.

Restricting dog access at Madills Farm would adversely affect the community and contradict the reserve's original purpose.

We want to encourage people to get out and using the bush walks etc as a form of exercise, away from devices and mental clarity. We don’t go there to watch dog fights and the effects of stress and cortisol on the body can truly last a long time afterwards.

All dog owners should control their dogs and look after their health which includes recreation facilities. If owners in other areas do not follow rules, manage to control or do not have well behaved dogs or respect other users of a shared facility then those areas should not set the precedent of rules to be applied to Madills Farm. By passing this BAN ALL DOGS from Madills Farm at all times you are destroying part of what makes this area a place we are proud to call home. Please DO NOT make me sell and move out of Auckland after I have been a rate payer all my life!!

Entire location

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:To allow dogs to be off leash on the beach during summer hours - rather than on a leash (from 5pm to 10am)

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

There are limited places that dogs are able to be off leash. On the beach, during summer, dogs are only able to be on the leash, unless in the water. Moreover, this "summer" time period is from March - very late in the "summer", - indeed, schools are back

Changing the off leash area rules at Monte Cecilia Park would be the biggest upset. I have signed the petition against this change as well as I believe another 700 petitioners. This is not a good proposal in the slightest

The vast list of parks with proposed changes highlights how easily residents can get confused. I understand that Local Boards have delegation over local parks, but residents do not live their lives by council electoral boundaries. The site by site variation that is possible within and between local boards creates layers of potential confusion.

Dog access rules have moved too far in favor of dog access. People should have priority not dogs. Many dog owners are unable to read simple signs and are unable to control their dogs especially when not on a leash. All dogs should be on a leash st beaches and parka.

Council should be more considerate of these changes especially for families who do not have big gardens or backyards where dogs freely roam around. Also consider the well being of dog owners because its a place where we feel stress free taking our dogs to these parks. Do dog owners complain when the kids are harassing our dogs or being a mess around us and call parents irresponsible? These dogs are members of our family too.

No dogs at parks unless on lead at all times.

Open up fenced dog parks where dogs have dog friendly enviroment & no nuisance to public. Dogs attacking dogs is not fair when responsible owners have dogs on leads. Dogs on beaches crapping everywhere & running around children is dangerous. Let alone digging up wildlife & chasing the birds. Too many risks these days with digging public

There is a fine line between letting dogs on leash and on leash on Long Bay beach during the day. Families don't feel they can complain to owners that don't control their dogs during the day and let them off leash. It would be easier to give families a dog free time to enjoy the beach during summer.

I know the council has to balance the safety and also comfort of non dog owners and dog owners in public spaces, but there are less and less places to take your dog where they can get a good run in auckland. I have moved from wellington in the last 3 years, there are less open spaces and walks that are safe for people to be with their dogs and there are no yards in houses for dogs. Our registration fees in wellington contributed to hutt city council building a dedicated dog park in wainuiomata. People travelled from all over wellington to take their dogs there myself included. it was a safe place for dogs to forrage and socialise and for dog owenrs, there was a seperate area for small dogs and large dogs with exercise obstacles hills and bushes for them to wander in that was safe and had no toxic plants. This was an excellent use of our dog registration fees and everyone benefited. Auckland has no dedicated dog exercise areas, places where dog owners and their fur babies can safely go and socialise. The rules are prohibiting more and more access, and what do my fees pay for? oh managing all the dogs and people that aren't paying dog registration fees anyway... why should i bother, i'm seeing no benefit for me and my dog by paying these fees each year other than policies to say more and more places are prohibited. I guess after these changes i will need to consider if its even worth the fees we pay each year if there is nothing in it for us.

The dog access rules are so badly communicated and not easy to understand. The communication around dog access is probably half the reason why there are issues. Why are red signs used to say yes to dogs?? Makes no sense!

Off-leash areas are important for dogs to exercise, socialise, and stay healthy. Reducing these spaces will only create overcrowding in the remaining areas, making it harder for both dogs and owners. There are plenty of places where dogs aren’t allowed, so restricting access further is unnecessary.

I think facilitated dog access at local parks and beaches should be the default, but not necessarily off-leash - that should be restricted to a few widely publicised areas.

Do you have any further comments about dog access rules at local parks or beaches?

The lack of enforcement of by-laws is a big problem. Many people flout the rules. There needs to be patrols on the beaches to ensure by-laws are followed, otherwise what is the point of them?

No but I do agree that the rules need to be changed as we have far too many instances of people being hurt by dogs or having a lucky escape. The other problem is a lot of them do not even get reported so even if your stats. for dog nuisances is not huge the problem is much bigger in the public space than what is reported. We know that people just do not report things as often they think nothing will be done anyway so they do not bother. I work in an environment where I come across this problem all the time trying to get people to report crime. So, if they won't report crime, they certainly will not report problems with dogs.

I preferred the ban of dogs on beaches at 9amm to 6pm . The extra hour at each end for the last few years was a bad move for families wanting to to enjoy our daylight saving hour in the beach WITHOUT dogs

Please review the rules with a balance of bird wellbeing nad mental health of residents with dogs in the wider Auckland area. restricting dog space results in unhappy dogs and owners, so finding a compromise which allows access is the best solution. Nesting is not year-round, the bird life is very limited, the beach is huge, so blanket bans are not in line with what NZ stands for.

In regards to Forestry beach, which I cannot find under your listings of beaches. Taking away this off leash beach for dogs will be so frustrating for dog owners in the surrounding areas, we have no where else to take our dogs any time of the year off leash. There are no dotterels on this beach, I have walked there nearly every day for 5 years. If you claim this is about protection of environment for animal welfare then how do you explain the deforestation and changes to that beach area for the rich that have happened over the last few years? This is a ridiculous proposition and will not stop people taking by there dogs there.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Would you like us all to become hermits and stay in our house!! It seems it would make you all a lot happier. Next you will have us applying for permits to leave the house with a dog!

My dogs are what keeps me sane and off antidepressents. They are a mental health assistance and should be treasured not put down on for existing like you are wanting to do.

I have to use my local sports field because I can't walk that far. I throw the ball and they run backwards and forwards for their exercise. I pick up after them because I am a responsible dog owner. Perhaps you should look to those who are not responsible instead of penalizing those that are!!!!

A section of it. Please specify:I would like to see a small section of the beaches to be zoned for dogs to be able to be on beach to get down to the water for a swim during the hot summer months, The far end of St Heliers beach could be made into a "dog swimming" area as the rock forma

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:Have a zoned section for dogs to separate them from people who do not wish to be near dogs. Also would allow families who enjoy taking their dogs out to play with their kids in summer to be able to do so.

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

As already stated - to allow dogs to be able to swim in the hot summer months and for families to enjoy having their fur babies with them on a day out.

I agree that dogs should not be off leash on parks while sports games are in session, but this is a small part of the time. Madills is not zoned as a sports facility even though it accommodates soccer and hockey games and as such I think the current rules should stand. When no actual sports games are in play - we should be able to run our dogs on the fields as the park is intented for use for the entire community including dog owners.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Entire location

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:Off leash should apply to entire maunga (excepting the crater).

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Allowing dogs to be off-leash would provide an invaluable resource for dog owners to exercise their dogs - and without impact on other walkers, and local wildlife.

Please explain your issue in more detail:

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:There are no current off leash areas for dogs to socialise and exercise locally. This field is used infrequently as a sports field it would be good to use it (or part) as a dog park. Even a set time would be good.

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

There are a number of dogs in the area who are naturally meeting here (dog walkers tend to exercise their dogs the same time each day). Which is great for their socialisation and well being. Being able to run and play on grass unleashed is incredibly enjo

I sadly, no longer go to Monte Cecilia park as I have been abused for telling an owner to put their dog on a lead in the on lead area. Many people clip their dogs on to the lead and when they think you are not looking they unclip it again. My dogs have been rushed at whilst they have been on lead in the on lead area and many a time the dog owner does not care. I vote for the park to be on lead everywhere so people and dogs can feel safe walking there again.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

It is disappointing that again responsible people with well behaved and controlled dogs are restricted from being able to exercise their dogs because there is no monitoring of people that are irresponsible and there don't seem to be any programmes in place to get aggressive unregistered dogs off the streets. People who ignore the rules now will just continue to, nothing will change, in fact more people will probably break the new rules because they are overly complicated and restrictive. How about positive education? Rewarding responsible dog owners (like the discount that is given to responsible dog owners is a great incentive).

Dog owners rely on these areas to exercise their dogs, and further restrictions only make it harder for them to find suitable spaces. This not only forces owners to travel longer distances—adding to congestion on already busy roads—but also limits opportunities for dogs to simply be dogs. Restricting access to local parks is especially an issue in summer when extreme heat makes concrete surfaces unsafe, leading owners to seek shaded parks to prevent burnt paws and heatstroke.

General feedback for Auckland Council - dog walkers need more places to walk their dogs, not less. This form is so tedious to fill out so it is hard for people to make this clear and have their say. I wish I could leave the council to actually do what's needed and yet here I am

I must say I think council is spending a huge amount of time and resources on creating new rules for dogs and their owners whereas on the whole dog owners are pretty responsible. What about focussing on cats? which create havoc on our bird population.

Hi

I had owned a dog for two years and find the limitation of places I am able to run him off leash very frustrating. I am a member of several Facebook pages about walking and tramping and it's interesting to hear from overseas visitors or foreigners living here how tight our dog access restrictions area.

I understand the concerns but it is the classic case of a few dog owners who ruin it for everyone.

I have a medium sized dog and a large back garden but nothing compares to the exercise and enjoyment he gets from running freely in large spaces with other dogs. It tires and chills him out. There needs to be more of them including beaches. I was amazed how many dogs there were on Takapuna Beach compared to the limited hours on Kohi Beach.

Please consider increasing the number and variety of offleash areas for dogs.

Point Chevalier restrictions are now very limiting for week cared for dogs.

Many times, especially in winter, when dog owners are still waking in the rain and hail, the beach is empty of everyone but dog walkers, yet the rules state on leash.

There need to be practical solutions, that meet the needs of many

To change dog rules to fit a narrative that dogs are the reason that dotterels have failed to hatch at the end of Big Manly Beach is unfair and unproven.

Having previously volunteered for Forest and Bird I am familiar with their goals and intentions, however not at the expense of limiting a wider communities access of using a public space. I have recently been aggressively waved away from an area on Big Manly beach while walking my dog on Big Manly by a volunteer wearing a Forest and Bird vest, at the time I was about 100m away and didn't appreciate this at all. This has now caused the possibility for confrontation between volunteers and dog walkers, the dotterels now becoming something that the wider community resent rather than want to protect. The dog walkers in my community are responsible and aware of where the nesting areas are, we are all adults and don't require any further rules dictating movement in public areas. I don't support the change of the current dog rules, and Forest and Bird may want to speak with volunteers about causing conflict with people who are going about their day.

These spaces need to be shared for all users....so maybe there needs to be more time allocated slots for different users - like dogs only at the beach between these times...and same for local parks - dogs have to be walked between these ours only. As a rate payer I feel I should be able to access almost all parks with a dog on leash - just restrict the times if necessary. Some people find kids more annoying than dogs!

It's really important to have off leash areas for dogs in central Auckland especially. Many people have small or no backyards and the public off leash spaces provide the dogs critical spaces to exercise and socialise.

Dogs should be allowed on all beaches at any time of day, all year round if they are controlled on a leash.

What is the reason for not allowing this.

Off leash can be left for early morning and evenings.

because during summer, there are very few beaches that a dog can go to to cool off and swim. And as a person with a disability, trying to get my dog there at the times you can take them is not possible.

I would like to see a few beaches, that give access to dog owners across the Auckland region provide sections of a beach, or even an entire small beach we're in summer dog owners can go and let their dogs cool off at any time of the day

I really love my little dog off lead park opposite the milford marina. Its a spot for a run, or a place for a dog to poop with some space. Rubbish bins at either end are just great for dog owners to pick up poop and dispose of easily. The problem with

As off leash areas are tightening, please consider increasing the areas that dogs can go. I would like more off lead fenced dog areas - the one in Paremoremo is great but boggy. I think there should be an opportunity for dogs to be on the beaches in bad weather. not sure how that one would be worded - perhaps some indication from council. Love the amount of rubbish bins along the beach at milford - very easy to find a bin so you dont have to carry a bag for a long time.

I feel it is sad that so many people who want to enjoy the beautiful beach in the weekend have to avoid going to Takapuna beach in the weekends out of fear of being knocked over by out-of-control dogs. I know this to be the case as I live in the area. The weekend mornings are the time we like to walk - when it is not too hot. I know that even local dog-walkers feel they have to avoid the beach in the weekends because of the number of out-of-control dogs.

Howick Beach, Cockle Bay Beach and Mellons Bay Beach should have OFF LEASH DOG ACCESS year round. Also, more fenced off-leash dog areas should be created in Howick (and Auckland Council) parks.

My main comment is if you are going to change the rules, make sure dog owners follow them. You need someone there to educate the dog owners. Do you currently have a leaflet for each area where an owner registers their dog with a questionaire? We want dogs to be looked after and have spaces to run around. But it must be safe for other walkers and the families etc and especially near young children. If it says no dogs off leash thats what it should mean! School is a good place to start about dog education because the kids tell their parents. In the bush in the waitakere Rangese is not really the place for dogs to be walked. 1. if a human is transmitting kauri die back isnt a dog when it runs off track and into the bush when its supposed to be on a lead? All this analysing and changing rules is not effective if the rules dont get known about nor followed

The Auckland Council is doing amazing work but cannot believe this has became a focus. Local parks are for the enjoyment of all including dog walkers. We walk our dogs mornings and evening at our local sport fields (off the leadd)and have had no issues with anyone regardless of when the fields are busy with sport or not. Don't under estimate the benefits this activity provides to our physical and mental health. "If the leads not broken don't fix it! Come on Auckland you are better than this.

Yes glover park should remain as it is. Dogs don’t ruin the sports surface! I live on Glover rd and have done so for 15 years. In this time I have had 2 dogs and met many people who know how to sensibly walk their dogs there without imposing more rules. We pay a huge amount in rates and should be allowed to use our LOCAL park fairly. We have to put up with hundreds of people coming in from outside the area to play social cricket every weekend in summer. This is not the sports teams cricket but visitors way outside Orakei come here and we are inconvenienced enough by parking over our driveways without more restrictions on when and how we can use our own local sports field and park,

Cats are more of a danger to wildlife. They are pests and I'd sooner see new rules for them before adjusting current rules for dogs

Do you have any further comments about dog access rules at local parks or beaches?

More than anything I want to see more resources put into enforcement around roaming dogs. They are a public threat. I have witnessed a dog attack in my area recently and after making many reports to Council over the years I strongly believe that the culture of dog ownership in Auckland is completely out of control and a radical approach is needed to curb this danger.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

It is a great park, dog owners are very respectful there. It is important to have off-leash areas available for dog-owners, for the sanity of the dogs and their owners. There are plenty of no-go areas for dogs and dogs on leash only.

People do have a tendency to disregard the rules so perhaps better signage or more policing of area can increase compliance

we need as many off lead areas as possible. We pay good fees for who knows what.

Bad owners will always be bad owners but if people have a non social dog or are not confident dog owners then there are plenty of on lead areas to walk

Those of us who use off lead areas find them great social spots for human and dogs alike. Don't like off lead, go elsewhere. Too many people keep their dogs on lead and will not let them have any social interaction and end up with aggressive dogs

a social dog is a happy dog, start supporting desexing instead, license the person not the dog, good people and good dogs are the only ones who are punished by restrictive rules

If you keep taking away areas of off leash exercise for dogs you will increase the number of dog attacks as people as they won't get the exercise they need

Last year, Auckland Council received thousands of complaints about dog-related issues. But here's the reality: only 0.7% of those complaints were about professional pack walkers, while over 52% were about roaming dogs—uncontrolled, untrained, and often neglected. Yet, instead of addressing this major issue, the council is proposing bylaws that will severely restrict pack walking, a service that actually helps prevent these problems.

Take, for example, a dog named Max. When his owner first brought him to a pack walker, he was anxious, reactive, and nearly impossible to control on a leash. Within weeks of structured socialization and exercise in a well-managed group, Max transformed into a confident, obedient dog. Stories like Max's are common among pack walkers, who provide essential training, socialization, and exercise for dogs whose owners struggle to meet their needs alone.

By limiting pack walking, the council isn't protecting public safety—it's creating a future where more dogs are poorly trained, reactive, and likely to escape or become a nuisance. If the goal is responsible dog ownership, why target those who are actually contributing to it?

The importance of pack walking goes beyond just the dogs—it's a vital service that greatly impacts both the community and the business of professional dog walkers. For many busy dog owners, pack walking is more than a convenience; it's an essential part of their dog's daily routine. Dogs require socialization, exercise, and training to live happy, healthy lives. For owners who lack the time, knowledge, or physical capacity to provide this, pack walkers are a lifeline.

Removing or restricting this service would not only affect dogs' well-being but also leave owners without a reliable option for addressing their pets' needs. The ripple effect could be significant: less well-socialized dogs could result in increased behaviour issues, leading to more complaints, higher rates of abandonment, or increased demand for other, less effective services.

Professional pack walkers are skilled at managing groups of dogs. They use structured training techniques, controlled environments, and consistent leadership to ensure that dogs remain well-behaved. These are not chaotic, uncontrolled packs running wild—they are carefully curated groups that build confidence, improve recall, and reinforce obedience.

Furthermore, professional dog walking is an established business in Auckland, with many dog walkers relying on it as their livelihood. They are not just offering a service—they are providing a necessary and highly skilled service that requires training, experience, and careful management. As the industry stands today, these professionals are running legitimate businesses that contribute to the local economy and provide jobs. Restricting the ability of pack walkers to

operate would have a direct economic impact, reducing the services available to dog owners and limiting business opportunities.

A thoughtful, balanced approach to regulating pack walking—one that weeds out the cowboys but recognizes the value of skilled professionals and the needs of both dogs and owners—will help preserve this essential service for the community while ensuring that the dogs in care are safe and well looked after.

The proposed rule allowing handlers to have three dogs leashed while three remain off-leash poses significant risks, especially in situations where uncontrolled dogs from the public approach the pack. This scenario can lead to unpredictable interactions, increasing the likelihood of conflicts or injuries.

But by advocating for structured certification and assessment processes, we can promote responsible dog handling practices, mitigate potential dangers, and foster a safer environment for both dogs and the community.

Auckland Council's proposed changes include restricting the number of dogs a professional can walk at one time. On the surface, this might seem like a safety measure, but in reality, it undermines the very people who are preventing dog-related issues in our communities. There absolutely needs to be a limited set in places but I do not believe 3 on 3 off at any one time is the way to go about this.

The proposed changes to off-leash areas in Auckland not only limit the freedom of dogs but also diminish the joy they bring to both pets and their owners. Off-leash time is an essential part of a dog's well-being, allowing them to exercise, socialize, and engage in natural behaviours that are critical to their physical and mental health. For owners, these moments provide an invaluable opportunity to bond with their dogs in a way that simply isn't possible when leashed.

Auckland already has a limited number of off-leash areas, and restricting these further will only exacerbate the problem. With fewer spaces for dogs to roam freely, owners will be forced into more crowded, often less suitable environments, undermining the very purpose of off-leash parks. The joy of seeing a dog run freely and interact with others in a safe environment is a shared experience that both owners and dogs cherish. Denying this opportunity through an increase in on-leash only areas erodes not just the health of our pets but the quality of life for Auckland's dog owners as well.

By reducing the availability of off-leash areas, we are not just impacting the dogs, but also the community. We are taking away a place where people can come together, interact, and enjoy a sense of community while watching their dogs play. This is a service that contributes to a well-rounded, active lifestyle and fosters positive social interactions among dog owners. It's essential that the council takes this into account and ensures that off-leash areas are preserved, not restricted, for the benefit of both dogs and their owners. Just to touch on soldiers bay and protect the wetlands and birds, I absolutely agree these need to be protected but why make the beach on leash only? There's no protected birds in the ocean at this beach?

In conclusion, I urge the Auckland Council and Kaipatiki local board to reconsider the blanket 3 on 3 off leash rule and replace it with a licensing system for dog walkers. This approach not only allows for greater flexibility but ensures that those entrusted with the care and well-being of our dogs are properly qualified, certified, and held accountable. A well-regulated system would prioritize safety, promote responsible dog walking, and support the community as a whole, offering peace of mind to dog owners and the public alike.

The council has an opportunity to make a positive change that balances both public safety and the welfare of our pets. Instead of restricting the ability of skilled dog walkers to manage larger packs, let's focus on elevating industry standards and ensuring that those who walk our dogs are

trained and equipped to do so responsibly. I ask the council and local board to consider this alternative solution—one that truly serves the best interests of Auckland's dogs, their owners, and the community at large.

Summer hours should be 9am -5pm not 10am. Children should be able to stay safe from dogs in hours that are more sun-safe.

Further, the definition of 'playground' should be reviewed. Modern playgrounds do not always have a clearly demarcated play surface area and are more likely to blend with the environment/have grassed or astroturfed areas within the play surfaces. This creates significant confusion. A radius rule could help with this. And/or prohibiting dogs from any park that contains play equipment, for clarity and simplictiy.

A small part of most beaches to allow dogs all day, even in Summer, seems fairer to everyone. Dog owners need to responsible to ensure that their dogs are not out in the heat all day on the beach though.

Not enough fenced dog parks. All these “clarifying” and changes are great, but I don’t support more restrictions (more than there already are). Auckland has to make an effort to be more dog friendly. The amount of FENCED dog parks is laughable for the amount of dogs there are in Auckland, do we have 1 fenced park per every.. 10,000 dog? A wild guess.

Auckland has to make an effort to be more accessible for pets (ie fenced parks) and pet owners (ie ridiculous rental restrictions).

There is insufficient Animal Control presence at parks and beaches in Pt Chevalier. eg: Pt Chevalier Beach, Meola Reef, Eric Armishaw Park.

Until Animal Control starts issuing significant fines to dog owners flouting the dog regs, then nothing will change.

What local board area is this location in?

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

Do you want the change to apply to the entire location or a section of it?

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Do you have any further comments about dog access rules at local parks or beaches?

Safety has to be the first priority, both for dogs and humans with the dogs need for exersize coming second, but also space must be provided for this.

I still think the main problem is the dogs that are not under the control of their owners, i.e, dogs that roam on their own or in a pack.

Please make Auckland a more dog-friendly city. Owners should be held accountable with serious reprecussions if their dogs act up or attack other dogs/humans.

Most dogs are very friendly, so its not fair to punish all dogs just because some owners are irresponsible.

Please keep places that are favored towards dogs and their owners! So important for us to have open green places that allow free play and healthy socializing off leash. This encourages good socializing skills from puppy to adult. This is an important neccesity to foster a supportive and safe community.

Not really, however, the other thing I would like to put forward is that there is free dog licensing for dog fosterers. My girls go on pack walks and the responsible and our professional pack walker would prefer it if they had a license tag, so, should she get pulled up by authorities they can clearly sea that there are fosters in the group and no fines would get issued.

For every local park where dogs have off leash spacesthere should be equivalent local public park area that is entirely dog free and dogs are prohibited altogether. This is only fair for non dog loving rate-payers. Reality check some of us are intimidated by dogs, they do not provide an outlet for social connection, in fact the opposite is true.

There is no problem here which needs to be fixed. The dog problem in Auckland are the dogs (sometimes in packs) who roam the streets and create fear

Please consider all Aucklanders when making these changes, some of the proposed changes hugely restrict dogs in areas very popular with dog walkers. Auckland in comparison to other cities I'm familiar with already has very restrictive access for dogs and is not a very dog friendly city.

I do think dogs should be allowed on the beach during the summer months after 10am if on a lead. Mid week for example the beach is often empty. Happy for different rules at the weekend when it's busier.

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Because you are enforcing the current rules. You are not even bothering to put any signs that states the current rules !! So the current dog owners just do whatever they feel like doing and Joe Public loses the quiet enjoyment of the beach.

There has been a huge increase in dogs for some reason. Walking around the streets, fine, but beaches and reserves should be largely banned and very limited otherwise.

I don't think the rules need to change but signage needs to be clear and unambiguous, and the existing rules need to be enforced by Animal Control staff (including the issuing of fines for repeat offenders), rather than depending on concerned residents "telling off" dog owners who ignore the rules

On Aotea we have dog bylaws that describe beach areas where the dogs must be on leash, may not go through or can be off leash. Medlands Beach is an example of one and is an important site for nesting shorebirds, especially dotterels and oyster catchers. Unfortunately the rules are frequently flouted/ignored and there is no consequence. Although a fine can be issued this virtually never happens in favour of a softly softly approach and education of the dog owner. For some people this never works and for these people I would like to see the bylaws enforced and fines applied. The word would quickly get out that ignoring the rules has consequences and would bring behavioural change.

Address the root cause of the issues, those that don't adhere to current rules and or act as responsible dog owner. No changes here attempt to address the actual issues, instead you are proposing to penalise the responsible dog owners and restrict our life styles in the process.

Rooseville Park which is suggested as an off lead park, is not safe for smaller dogs , there have been many dog attacks in this park from the same un responsible dogs owners who are causing the issues at the local fields etc. I for one have been the victim of such an attack on my dog, the resulting vets bills totaling over $5000 to save his life.

Sort the un responsible dogs owners out, spend money on that not on restricting the rest of us.

People could instead report problematic dogs via a hotline and they could attend on a case by case basis.

Karekare residents (and dogs) deserve an off-leash area on part of their beach. It's healthy for the dogs and healthy for the owners as their dogs would be happier.

Victor eaves park. I thought there was a special piece of grass for dogs at this park but they are left to run anywhere off lead. Again no one enforces the rules. The dogs do their poop on the main green with the path going round it and used for cricket and children's games and don't pick up their dog mess. A child fell over and got covered in poop, disgusting the dog obviously had diarrhea. The dog green if there us one should be fenced and kept away from young children. Again someone needs to reinforce the rules otherwise there is no point inaking them.

Local parks (unless they have a designated off leash area) and beaches should be on leash at all times, so that non-responsible owners don’t have their dogs off leash to potentially attack or harass other dogs or people using the park/beach.

Because we specifically live in Karekare to be close to the beach and have our dog controlled off leash and able to swim and run and be free, as a local we are aware of the birds and respect the wildlife and work hard to stay away from nesting areas. It c

As a long term resident of Karekare and a dog registered license owner I take huge care and responsibility for the area and my dog. I don’t mind having the dog ranger there if they actually used some discretion and took note of uncontrolled and misbehaving dogs but they are purposely coming in the early morning and going for responsible locals just trying to do what is right by there dog and exercise it.

I would prefer to see the Auckland Council Animal Management spend there time and resources on dogs and animals that are been mistreated and abused not on people that are just trying to walk there dogs at the local beach.

Firstly, we want to state that our feedback is solely in regard to the ecological and biodiversity related topics affected by the dog bylaw and access rule changes, not other forms of feedback relating to logistics, dog behavior as we are not experts in this area. The value of the PFK network is we have site specific local knowledge of the native biodiversity value and sensitivities that can help inform a better access rule policy.

We love dogs, we have dogs ourselves and understand how important it is to have places to walk them, however our stance is on providing a voice for our native ecosystems and special taonga within them which are at risk of activities in the wrong place at the wrong time. We believe there is plenty of room for all to be satisfied and both dog walkers and environmental protection can exist in tandem.

We are generally in support of the access rule changes for Kaipātiki as they demonstrate a reflection on greater environmental protection of critically sensitive ecosystems. However, we do have some specific suggestions for additions which have been missed, which we will detail in this submission.

We are encouraged to see the consideration of kauri dieback in these access changes. We support the proposed changes that require dogs to stay on leash in kauri reserves, which brings us up to compliance with the National PA Pest Management Plan.

The pathogen that causes kauri dieback is spread via the movement of soil. This can be via anything that touches the ground, including dogs' paws. People rarely clean their dogs paws before and after walks, so having dogs that run off track into the bush has been identified as a major vector risk. One study in the US that looked at another soil based pathogen found that dogs paws were more effective at moving the pathogen than shoes. It doesn't make sense to invest in track upgrades and mitigation measures, while allowing dogs to run off leash and off track.

Once kauri dieback is introduced into an area, it can survive in the soil for an unknown amount of time (at least 8 years and counting!). We have no cure, so once a tree is infected it will likely die. These trees have been around since the Jurassic, can live for thousands of years, and support an entire ecosystem of other species. This means we need to do all we can to protect them and we need to set the public up for success.

Another point we agree on is that access rule signage and education are critical in the areas excluded/altered for ecological reasoning and request this is prioritized to help dog walkers understand and do the right thing.

One point in the Amended bylaw, page 5 – Item 11 around dog faeces. A breach of this is at a criminal level at Kauri Point Domain. It's outrageous and a major human health hazard as well as ecological hazard. Please if you consider enforcement or ambassadors, this is your spot.

There is one need that has not been provided for in either the bylaw or the amended access rules, and this is more site or habitat specific. The entry of dogs to swim in forested streams is causing significant erosion, destabilization of banks and sedimentation of this kind of habitat. This is a regular bugbear of many volunteer groups who are working hard to protect stream fauna and flora. This level of detail isn't likely to be able to be included in either of these two pieces of documentation and so we suggest this is a subject to address as part of your signage and educational component of dog rules. This could be a complementary project for the near future with the roll out of the eventually approved rules.

The proposed policy reducing the number of dogs walked at once down to 6 we have little comment on. For environmental protection the need is mostly around the restriction of off-leash dogs in certain key ecological sites that is the key issue – which is partly addressed by the access rule changes, and our requested improvements around stream habitat protection. Technically reducing the numbers will consequently to a degree also reduce the negative environmental impact. We are also in favor of the implementation of some sort of professional dog walker registry or licensing, as this would reduce the impacts of uncontrolled dogs from certain pack walkers. We would like to see this involve a measure of environmental knowledge or competency to reduce environmental damage.

For those who may complain of the reducing number of off-leash spaces, we would like to re-iterate that there are already 160 off-leash reserves listed in the proposed policy (minus those subject to the current proposed changes) which provide plenty of opportunities for walkers. The degradation of increasingly rare and extremely high value habitat should not be allowed in this circumstance. We see the impact of contaminated wetlands, destroyed vegetation, eroded streamside and clouded streams where native fish suffocate. We want to avoid taonga like kauri or the banded rail or spotless crake disappearing entirely, instead we want them to have a chance at flourishing in key areas. If birds abandon their eggs to go cold due to disturbance or their stomachs go empty because their only low-tide feeding habitat is continually interrupted by packs of dogs playing in the mangroves, or if kauri trees die due to dogs trampling their roots – we are failing in our duty to preserve and protect one of many unique aspects of Kaipātiki's natural heritage.

There are many other areas where dog walkers and their dogs can have a fantastic time without compromising the native ecology, and we thank you for the opportunity to propose amendments to the bylaw and dog access rules.

Local parks & beaches should allow dog owners to walk their dogs off leach if under control. To make dogs only have access for walks in their neighbourhood on a leash does not make for well socialised animals. Most dog owners come across other locals on a daily basis and the dogs exercise and play with each other. This must remain the norm. A few intolerant people who cannot be bothered with dogs disagree, they can walk somewhere else and leave us to happily walk our dogs in peace.

I strongly support more off-leash dog access to parks and beaches, as long as dogs are well under control.

Currently winter hours on North Shore areas is 10am-2pm for no dogs on the beach. This would be better to be 1pm - 5pm. Dog walkers tend to walk their dogs in the morning, having more time to do this would be useful. On a sunny winters day you are more likely to get families with young children coming to the beach in the afternoon, not in the morning.

Currently there is no option for dogs and their owners to enjoy Karekare beach off lead. The beach is vast and the area that includes union bay, ending at paratahi island is a good natural boundary. By allowing this area off lead we can keep the native species nesting either side of the boundary safer. The animal control officer then has an area they can refer dog walkers to also. Currently, locals are feeling the early morning visits from animal control are unnecessary and stressful. They are exercising with their dogs on a vast stretch of beach away from dotterel and penguin nesting sites and still being subjected to fines. It is a rural community with many active conservation minded members. We would like to see a balanced approach for all.

I think there is more of an issue with roaming dogs than there is with people who responsibly walk their dogs in off lead parks and beaches. Roaming dogs is where Auckland Council should focus it's attention not on removing off leash areas of parks that are being used responsibly by responsible owners.

You should be opening up areas in local parks and beaches for dogs off leash and on-leash. You should also be opening up the Waitakere Ranges for walking/hiking and for dogs. It's a disgrace the tracks are still closed under unsubstantiated science and voodoo spiritual beliefs.

One area not really addressed is actually providing more off leash areas for dogs. This will provide more controlled areas where dogs can be (whether walking packs or individuals)

It’s important to have a balance as I do know people who are terrified of dogs, so they should have places they can go to feel safe too.

Restrict dogs on beaches to on-leash only, and strictly enforce this rule.

Any dog is a danger to native birds/wildlife. Owners are often irresponsible and cannot control their dogs.

Enforce the rules, conduct random checks, seize dogs and fine irresponsible owners.

Owning a dog is not a birth right.

I am horrified at the collective reduction in off leash access across Auckland, at a time of increased dog ownership. The council should be supporting increased safe spaces not reducing. The issues that have escalated with roaming and dangerous dogs is not addressed by these changes, rather with force and increase in the volume of dogs in smaller spaces - any roaming or dangerous dogs will put these family pets and responsible dog owners at risk further, with concentrating spaces they can go, rather than keeping dispersed throughout the communities. This feels like a really unsafe decision across the board.

No, except the council's restrictive pets on transport policies prevent people from using public transport to get to the beach. This means we have to drive. Which means congestion and parking drama. When are we going to get a workable public transport policy for animals so we can take them in the morning and not get restricted by the peak hour public transport cutoff (and again in the evening)!

Having an active medium size dog, I personally find it challenging not to have an off leash area in Karekare as she needs a space to run free.

However, finding the right balance for everyone and to protect our shorebirds is hard.

I find dogs annoying on beaches. Owners often don't have alot of control of their dogs when they are off leash. You never know if the dog is aggressive or friendly

It's demonstrable that rules on their own don't and won't solve problems with dog behaviour in public parks and beaches. Compliance must be policed.

I think dogs access should be increased in summer months so dogs are allowed in parks and beaches (or at least some parks and beaches) on-leash at weekends between 10am and 6pm. I see no reason why they have to be left at home if their owner goes for a picnic on the beach or a walk if they are on-leash and under control. The current rules are too restrictive.

We have done this expensive exercise many times, each time looking for further control. Perhaps it's time to allocate these resources to the problematic dog owners and stop penalising those working well together.

In general - the controlled access for owners with their own dogs is enjoyed and respected.

Irrespective of any Council ruling - there will always be a tiny minority who disregard largely all rules. That can't be controlled at any time. It's very difficult to fix 'stupid'.

Yes we need greater access for walking Dogs in Auckland not less as I believe there has been a large uptick in dog ownership growth in Auckland. Lets face it these bylaws are in response to complaints of supposed (and in some cases warranted) intimidating dog behavior. To remediate problems of aggressive or out of control dogs as a first step would be to have Auckland council sponsored programmes for dog obedience and a greater drive to ensure all dogs are licensed even as far as, that it is illegal to own a dog in Auckland City if it is unlicensed. The new proposed by laws are in general not attacking the root cause of any dog problems. Simply placing a sticking plaster over the cause and listening to a biased small, blinkered, dare I say uninformed group who aren't prepared to tolerate a section of the population, is the wrong approach to the overall problem.

As a RDO I'd just like to continue taking my dog to parks and beaches. We pay for things in our rates that we don't use and being able to take our dog places is much appreciated. We are happy with the current rules and times at our local beach and would hate for that to change. It's also great having local dog parks where the dogs can run off lead and the public feel safe.

Much bigger, simpler and clearer signage is needed as many of the sign are small, difficult to see and have overgrown plants covering them. They need to be 'in your face' not hidden or little symbols on the toip of another sign.

Something as simple s as

'Stop! Your dog must be on a leash from here' in a stop sign type of sign at the entrance to all walkways.

Another simple idea (and relatively unobtrusive plus cheap) would be to use templates and spray on the footpath /walkways similar to the cycle lane ways the rules. Then no one can 'claim' they didn't know and enforcement and fining should be easier

On a leash at all times. And forbid "nasty" dog breeds, such as Pitbull, mastiff etc. I like some of them, but they can be very very scary to others. I will always give a wide bearth, or leave the path, or cross the road if one is there

I reiterate that I believe this review is a waste of time and money. Responsible dog owners are tired of being punished for the actions of irresponsible dog owners whose dogs often aren't registered anyway. I'm tired of completing submissions every couple of years because council decides to relitigate rules when they keep promising us that the current review will align everything and there will be no more need for sufficient changes. Auckland needs to be a more dog-friendly city, we are light-years behind most overseas cities and getting left behind. Disappointing.

Dogs encourage people to get out and walk and run in their local areas. This improves the physical and mental health of people and encourages socialisation within the local community. Off lead dog parks encourage responsible dog owners to meet and get to know each other. Dogs socialise better when off lead. Allowing off lead dog times before 9am and after 5pm in close by local parks enables working people to exercise themselves and their dogs on a daily basis. This reduces the demand for large scale dog walkers.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Do you have any further comments about dog access rules at local parks or beaches?

The dog exercise area in Cape Hill, Pukekohe is under utilised (never see anyone using it). A lot of people don't know it is there. It is also adjacent to a busy road and has no fencing that that could be the reason why people don't use it.

When these changes go live (or even prior) would like to see Animal Contral officers on site educating people on the new changes, especially at Colin Lawrie fields both in the morning and later afternoon/early evening in particular.

My biggest concern, as stated earlier, HOW IS THIS GOING TO BE ENFORCED on an ongoing basis?

At ALL parks and beaches there is often signs of dog droppings regardless of current rules. A greater enforcement of existing and proposed rules should be applied. I have observed that even when some dog owners pick up and bag dog droppings, then they often chuck the bag into vegetation. Again, greater enforcement is badly needed.

I think the council is making it difficult for dog owners. Dogs are family too.
We pay huge rates to Auckland council and always clean up after our dog.

can you just leave well enough alone. it is if every year or 2 the same topic comes up and a group are paid rate payers money to try and change things again. cant you focus on some of the bigger problems we face in Auckland rather than upsetting a good proportion of the ratepayers who own dogs.

I think dogs should roam freely on beaches as they always have we have protected areas where we need them currently already there is simply no need to add more. Especially as it will inconvenience many people in the local communities

I am very concerned that the council is viewing Big King reserve as an alternative to Monte Celia Park for off leash dog access. I think Monte Celia is a much safer park, I have never seen dogs roaming around whereas I have at Big King. I have also felt safe on my own at Monte Celia Park. There are also parts of the Big King park where I definitely wouldn't want to walk alone as a woman on my own! There are sooo few safe places in Auckland that dog owners can walk their dogs off lead.

Restricting dog related activity in local parks should be counter-balanced by offering other more suitable public spaces for off-leash exercise. Stop making us continually fight to preserve what we have! It fosters resentment.

I think it is really important to remember that dogs need a safe space to run and exercise in. Monte Cecilia is ideal for this. It is easily accessible to a lot of people and I've never personally had an issue with dogs and/or people.

I fully support the restrictions in place at beaches in particular summer hours, and along areas where there may be nesting birds.

I think the rules are clear enough as they are, with the exception of lamb and bird breeding season. I think those seasons should be listed so people are aware and will hopefully stop taking their dog their for the time being.

I think it's important to also listen to dog owners, not only the ones who make the complaints and try to force the council to change the rules.

The main issue for me is that it's about roaming and not-desexed dogs as well as unregulated dog-walking businesses.

I think others will make the main points on objections to the proposal. I want to stress the additional point facing runners who run along the coast, linking beach to beach around the headlands.

For those of us who run reasonable distances (6-10km) with our dogs, the ban will block the only off-road running route. running dogs along roads is dangerous and will upset everyone. There are very few off-lead dog areas so to cut one up into small sections is removing the option to run somewhere i.e. to run a route. The alternative (if your proposal goes ahead) would be to run around in circles on half of either Manly or Tindalls beaches which is not what runners do. Running with dogs on leads is tricky, awkward and dangerous even on the rocks, so we need to be able to run with our dogs running along side.

No off leash areas on beaches, foreshore, sports fields, playgrounds. And a lot of these places, dogs should be prohibited to allow people and children use of the areas without the nuisance of being chased by dogs or standing in their feces. I have had I tell a lot of owners to pick up their dogs mess.

At present on Big Manly and Tindalls Beaches at least, the existing By-Laws are not adequately enforced. If Council wishes to have effective by-laws, and especially make changes, then people need to believe they mean something.

There is no/minimal presence by compliance officers and people know this and think they can do what they want, there are dogs on the beaches outside of the seasonally restricted times and many with no control.

Signage is poor at all beaches, poorly positioned and too small.

Enforcement over the busy summer period is essential for the comfort of beach users and for dotterel protection, yet animal management officers were all stood down and on leave.

Unfortunately this can really spoil things for responsible dog owners.

There is also huge potential to communicate messages via dog registrations, including around shorebird protection, this is a missed opportunity that would be relatively simple to address.

Dogs should be allowed anywhere on-lead, and there should be more off-lead areas. The dogs are not the problem, and restricting where they can go will do more harm than good. Instead of restricting dog access, we should be requiring owners to hold a licence to own a dog, and be required to attend training classes once they have the dog/puppy. I understand prohibiting in areas during lambing and calving season, but even so, if the owner has a licence and attended training, the owner would have no problems on-lead.

Dogs and pets are important for many people's mental health, including companionship and helping alleviate loneliness.

They are a part of our culture and dociety. Rather than restricting dogs, I believe children and people shoukd be educated in dogs behaviour, and what to do and not do around animals. Normalize having a dog. Not encouraging fears.

Reducing off leash areas does not make it safer for anyone. All it does is push dog owners into unsafe situations, increases congestion in remaining off leash areas, reduces the exercise dogs get, and discourages families from spending time with the whole family, which includes their pets.

The same comment goes as the one for madills and glover park. Dogs and people should be allowed to use the space together, dogs need an open space to socialise and burn off energy. Removing this space, and essentially giving them a tiny little section full of wild grass is cruel and abusive to dogs.

There are not enough large areas for dog off leash exercise currently in the eastern Auckland areas of St Heliers and Glendowie and Kohimarama, so I feel strongly that they should not be further restricted. The Madills Farm area is not solely intended as a sports ground but to serve as a space for enjoyment for all.

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Do you have any further comments about dog access rules at local parks or beaches?

It is recommended that clear warning signs be placed at each entrance, requiring those who bring dogs into the park to use a leash, otherwise they will be fined, in order to protect the safety of other users.

There are obviously entitled dog owners who spoil it for responsible dog owners and there is no changing that.. you get that in all walks of life .. unless you are going to police dog areas more vigilantly which would be a ridiculous cost.

More bins are needed. Seaside park in Otahuhu has i believe 4 bins to cover the whole area. This makes use of bins for dog waste difficult and doesn't take in to consideration the spe ial needs of those with disabilities access to bins (2 of the bins are on top of the verges which you need to step up on to and then walk to the bins). I cannot walk long distances without many breaks and I require assistance to get myself up on the verge 1-2 foot high so I can get to the bins. It is embarrassing to ask for help, i have even been turned down by people who don't want to be near the dog poo. It also encourages littering and I find keeping my dog under control while I shuffle to the bin difficult.. especially if they discover someone 's litter like KFC etc. I know this was done as a cost saving initiative but it has isolated many people and leaves our parks looking worse.

This area is not often used by beach goers.

It would be a user friendly leashfree location, esp at low tide.

Dogs can enjoy the water without impacting on swimmers.

This area is often devoid of or, has very few beach visitors.

There is a severe lack of

enforcement of the existing by-law.

If resourcing (with officers) is an issue in terms of regular/ongoing presence, I suggest an occasional "blitz". i.e. officers ticket a lot of offenders on one day and the word will get around.

Officer attendance and visibility is definitely required because most offenders won't read the signs. It is too hard for members of the public to try and patrol it themselves as the dog owners (with their dogs inappropriately off-leash) will be belligerent and ignore someone with no authority. Perhaps do it on a rotational basis i.e. visit certain areas on different weeks.

Yes, the Council's animal regulatory team would do so much more good if they were to rectify the tragic circumstances in which so many Auckland dogs have to live: confined to kennels, chained up, neglected and abused. While I realise this is a not a central government issue, there is so much more that could be done at a local level.

Council needs to be mindful of penalizing locals and not addressing the wider issue of unregistered, unleashed and unsocialized dogs that visit our beaches all year round. Often these dogs come with freedom campers who overstay their welcome and cause damage in the vicinity to nesting birds.

Every year there seems to be more RULES - please it is out of control. Someone in council must be continually paid full time to do just that. Stop and spend the money on upkeep of roads, water. One grumpy person spoils it all for others.

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Do you have any further comments about dog access rules at local parks or beaches?

The current proposals do not strike a balance between dog owners and those who don't own dogs. THey are far too restrictive on dog owners and unfairly penalise responsible dog owners when there are other measures the Council could take to address problems.

I just think the times for off leash need to be a bit tighter and enforced. Some bins and bags for the ********** like there used to be would be great. Of a morning there may be 50 dogs on the beach. That's a lot of ********** in bins all day.

I'm not anti dog at all, I just think sometimes dog owners could be a bit more respectful of other users of public spaces.

I believe that well-regulated off-lead access to parks and beaches is essential for the physical and mental well-being of dogs. Exercise, socialisation, and outdoor activity contribute significantly to dogs' overall health, and our parks and beaches provide invaluable spaces for this.

I support maintaining and, where possible, enhancing dog-friendly access across our community. I encourage the Council to work collaboratively with dog owners to promote responsible pet ownership, such as ensuring dogs are well-trained, supervised, and cleaned up after, rather than imposing overly restrictive regulations that could impact the welfare of pets and the enjoyment of their owners.

Balancing the needs of all park and beach users is important, and I believe current rules generally achieve this without unnecessary restrictions on dog owners.

Thank you for the opportunity to provide feedback.

Please do not make it impossible to use these public spaces for dogs and their owners. It is very important to allow fair access to these spaces. Dogs are good for people and communities. There is an anti dog vibe from council already.

Yes, please consider changes to dog access rules at Kohimarama & St Heliers Beaches and on the GI-Orakei Shared Path (Te Ara Ki Uta Ki Tai) that I submitted separately.

We are fed up with unwelcome encounters with off-leash dogs on the shared path and at these beaches during summer when dogs are supposed to be either on-leash or prohibited.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

There are alot of dog owners in Auckland and with a push to return to office work I think its improtant to support small business' such as dog walkers, rather than restrict them. I think there could be some unintended consequences that come from over-regulating these thing's.

I completely understand that there is a large portion of the population that do not want to interact with dogs while enjoying our green space's, but it seems wasteful and un-necessary to restrict access to these area's at time's where they sit empty.

I am also concerned by the increased number of animal management interactions, where they seem to be enforcing vauge rules such as being onleash in the vicinity of a playgroud, just to follow the rules to the letter of the law, rather than applying common sense and actually mitigating a risk.

Not everyone is a dog lover and many dogs when off leash are out of control and rush at people and jump up on them. I for one, hate this and don't like have to put up with this from dogs when I am in a public area.

We are a backwards nation with our dogs. You need harsher penalties for bad owners not more restrictions for good ones. I don’t even have footpath for my dogs to walk on as we are on a dreadful, poorly maintained metal road. I don’t know what I pay rates for??

Dogs should only be allowed on beaches on a leash. Owners often cannot control their off leash dogs, they conveniently look the other way when the dog poops, they let their dogs charge up to other people and then defend the lack of control with " It won't bite you. It is just socialising" Owners often do not think the seasonal/time rules apply them them. Auckland beaches should be able to be enjoyed by people, especially the elderly and children, without the fear of being knocked over or bitten.

Do you have any further comments about dog access rules at local parks or beaches?

There are already substantially more beaches that DO NOT allow dogs and yet dogs are a huge part of many Aucklanders families. To further reduce dog access to public spaces means that with even less dog friendly spaces, it will increase the number of people and dogs in what remains of dog friendly spaces, therefore increasing the risk of unsavoury incidents and interactions due to overcrowding of people and dogs. Why should those who have dogs as part of their family be excluded from enjoying nature and the beach with their dogs as if they are somehow lesser members of society. The people who are irresponsible dog owners are not likely to abide by the new rules because they don't abide by the current rules. So further reducing dog access is. It going to solve the existing issues. More funding should be put into animal management and changing the laws so there is more ability to police and prosecute rule breaking and irresponsible dog owners. More time should be spent on reducing the roaming dogs issues in Auckland and in NZ. There should be much higher penalties for rule breaking dog owners, and harsher punishments for animal abusers.

Dogs as much as part of a family as children are to many NZ's. Responsible dogs owners and dogs should not be penalised or banned from being able to enjoy free out door spaces. Cats do more harm to local wild life than most domestic dog would. More needs to be done about targeting those that are irresponsible and don't deserve to have a dog by their side.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Dog access is extremely limited all across Auckland. It is very hard to have a day out in the summer that includes your dog. Very difficult to understand where the money goes from responsible dog owners for our dog registration

Dogs should be on a lead near nesting birds, on the street around children's areas, etc. Otherwise they should be allowed to be off lead if the person is responsible

Enforce existing bylaws regarding summer dog walking on Kohimarama and St Heliers beaches. Many dog walkers ignore the rules because of Council's fear of confrontation.
