Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Quite well

   Tell us why

   It covers all the areas for which you have responsibilites thought I'm not sure what responsibilites you have been delegated from AT

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Building partnerships with local groups and mana whenua to find local ways to provide for our community,Support local volunteer groups to continue to do their work in communities.,Maintain and improve local parks, playgrounds and sports fields to better meet the needs of our growing community.

3. **Which of the following would most improve neighbourhood parks for young people? (Select up to 3 options)**

   Events and activities,Safety improvements e.g. lights,Wider play options e.g. options for over 10-year-olds

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you? (Select up to 3 options)

Work with partners and agencies to improve congestion issues,Help town centres make the most of rail connections,Other, please specify:vehicle parking on all roads, hindering flow and reducing visibility turning out of driveways.

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

1. more progress on tree planting in our reserves (not on road berms).

Maybe the local board could instigate programs for groups to adopt a local reserve and do weed control and tree planting. That would be native trees and maybe orchards neither of which require maybe only quarterly working bees to keep operational and healthy .

2. Active support for community groups running Invasive weeds collection competitions throughout the year. Say one for a different weed every 2 months with supporting educatioal events and media promotions.

3. You began running sessions for community to come together to meet, talk and get to know one another. (can't remember what they were called). These were great. Please continue to support.

Submission on Maungakiekie-Tāmaki Local Board Plan

23 July 2026

➢ Emailed to: maungakiekietamakilocalboard@aucklandcouncil.govt.nz

1. **Submitter details**

Royal Forest and Bird Protection Society of New Zealand Inc. (Forest & Bird)
Central Auckland Branch
[redacted]

2. **Trade competition declaration**

Forest & Bird would not gain an advantage in trade competition through this submission.

3. **Hearing options**

We may wish to be heard in support of this submission

Introduction

Forest & Bird is New Zealand's largest and longest-serving independent conservation organisation, with over 100,000 members and supporters. Its mission is to be a voice for nature, on land, in fresh water, and at sea, on behalf of its members and supporters. Volunteers in 44 branches throughout Aotearoa carry out community conservation projects and advocate for nature. Every branch is entirely volunteer-run. Forest & Bird has seven branches and two nationally coordinated projects in the Auckland region alone.

The Central Auckland branch covers the area from Mount Wellington, west to New Lynn, with its eastern and northern boundaries being the Hauraki Gulf and Waitematā Harbour. The branch carries out a range of activities, including but not limited to weed control, pest control, restorative planting, education events, content creation and environmental advocacy. Everyone involved in the branch is a volunteer, including the committee, trappers, and supporters.

Our Approach

This submission responds to the Maungakiekie-Tāmaki, Local Board Plan 2026. Forest & Bird's Central Auckland Branch is also submitting separately on the draft plans of other local boards within our operating area - namely Albert-Eden, Puketāpapa, Waitematā and Ōrākei and comparison across boards has been valuable to our process.
We are structuring our submission to include Objectives, Key Initiatives, and Advocacy items, just as they appear in the draft Local Board Plan, along with commentary on some items and localised specifics. We have underlined new wording for objectives and initiatives and used strike-through to signal removal of some wording in our proposed modifications.

Te hapori / Community - Communities feel a sense of belonging and are supported to thrive and live healthy lives.

We agree with all draft objectives and key initiatives under Community and would like to offer the below key initiative to integrate into the plan:

Objectives	**Key Initiatives**
Our facilities meet community need, offer good value for money and are high quality.	Invest in natural solutions that improve parks and public spaces, including native plantings, large shade trees, rain gardens, swales and daylighted streams, in local parks and open spaces, including wetlands or floodable areas in larger sites.

Advocacy

We support all the current advocacy points under Community, and would like to suggest the following additional advocacy points:

- Provide ongoing, dedicated grant funding for community environmental and restoration groups - to Governing Body.
- Enable the use of non-potable water for irrigation of council sports fields and recreation facilities - to Watercare.

Commentary

We welcome the Board's focus on connected, resilient communities and its recognition of the important role of partnerships with mana whenua and communities in achieving lasting local outcomes.

Auckland Council's Open Space, Sport and Recreation Strategy recognises that parks and open spaces can deliver multiple benefits for both people and nature. Across the Board area, community-led conservation initiatives have demonstrated that environmental restoration delivers benefits beyond biodiversity, strengthening social connections, building local stewardship and creating opportunities for people to contribute positively to their neighbourhoods. We encourage the Board to continue recognising nature as an essential part of community wellbeing and resilience, not simply as a recreational amenity. Embedding environmental considerations across Community and decision-making outcomes reinforces that climate resilience, healthy green spaces and nature-based solutions are not solely environmental issues, but fundamental to creating healthy, connected and resilient communities.

While many of our suggested additions build on initiatives currently included within this plan's Natural Environment outcome, we encourage the Board to recognise their contribution to community wellbeing and resilience by incorporating relevant initiatives within the Community outcome.

Te taiao māori / Natural environment: Our wai (water) and whenua (land) are healthy and thriving.

We agree with all draft objectives and key initiatives under Natural Environment and would like to offer the below key initiatives to integrate into the plan:

Objectives	**Key Initiatives**
Our ecosystems are respected, protected, and restored	Support responsible cat ownership through desexing and containment encouragement, working with neighbouring Local Boards on control of feral and stray cats in areas of high biodiversity value. Ensure monitoring and compliance of dog access rules keep high-value conservation areas free of dogs while providing space for responsible pet ownership elsewhere. Support the protection and enhancement of potential inanga spawning sites along the Tāmaki River, Panmure Basin and Ōmaru catchment through bank stabilisation, pest plant control, sediment control and pest animal control.
Our community is prepared for climate change and emergencies, building resilience, taking action to mitigate and adapt	Provide grants to local groups for projects or actions which will have a positive impact on community resilience (such as those maintaining or creating carbon sinks, or nature-based solutions such as restoring wetlands, creating room for streams to

Objectives	Key Initiatives
	flow naturally, protecting sand dunes and mangroves)
Work with mana whenua and other groups on waterway restoration projects	Work with mana whenua and other groups on waterway restoration projects particularly the restoration of wetlands where they exist or can be re-established. Work with Healthy Waters to provide education and support that ensures commercial and industrial sites upgrade their on-site stormwater management to prevent contamination at the source

Advocacy

We support all the current advocacy points under Natural Environment and would like to suggest the following additional advocacy points:

- Introduce stronger monitoring of activities that cause sediment runoff into the Manukau Harbour and Tāmaki River, and stronger penalties for those who knowingly cause harmful sedimentation - to Governing Body.
- Fund and prioritise weed management along the Southern Motorway and South-Eastern Highway corridors - to Waka Kotahi NZTA.
- Increased biodiversity, freshwater and coastal water quality monitoring - to Governing Body.
- Local Board and local volunteer groups to be more directly involved in setting and monitoring council-contracted ecological services - to Governing Body.
- Advocate for the reinstatement of general tree protection legislation - to Central Government
- Raise awareness of and advocate for dark sky areas and reduced light pollution - to Governing Body.
- Continued Natural Environment Targeted Rate funding to maintain and grow current investment in pest control, kauri dieback management and biodiversity restoration across Tāmaki Makaurau - to Governing Body

Commentary

The draft plan provides a strong foundation for protecting and restoring the natural environment, recognising the importance of healthy waterways, ecological restoration, climate resilience, and partnership with mana whenua and community organisations. We support the Board's commitment to improving water quality, restoring ecological corridors, implementing the Shoreline Adaptation Plan, increasing urban ngahere, and investing in community-led environmental action.

As Maungakiekie-Tāmaki continues to accommodate significant growth and urban regeneration, protecting and reconnecting remaining natural habitats will become increasingly important. Ecological corridors, wetlands and urban waterways not only support indigenous biodiversity, but also improve stormwater management, reduce flood risk and create healthier neighbourhoods. Our

proposed additions strengthen this direction by providing greater emphasis on freshwater habitat restoration, responsible pet ownership, monitoring environmental outcomes and continued investment in ecological restoration.

Delivering these outcomes will require sustained investment, effective monitoring and strong partnerships. Ongoing support through initiatives such as the Natural Environment Targeted Rate, alongside robust monitoring of biodiversity, freshwater and coastal health, will help ensure environmental improvements keep pace with redevelopment and continue to deliver measurable benefits for both people and nature.

Te taiao kua hangaia / Built environment - Our built environment supports significant growth in our community.

We agree with all draft objectives and key initiatives under Built Environment and would like to offer the below key initiative to integrate into the plan:

Objectives	Key Initiatives
We support well-planned sustainable infrastructure as our community grows.	Prioritise the retention and acquisition of open space that supports ecological connectivity as well as recreation, particularly where it borders the Tāmaki River or Manukau Harbour, as land exchanges with Tāmaki Regeneration Company and Kāinga Ora are progressed.

Advocacy

We support all the current advocacy points under Built Environment as drafted, and have no further additions to suggest.

Commentary

How growth is built matters as much to nature as how much of it happens; a well-connected, green regeneration does far less ecological harm than the same number of homes built with no thought to either. With around 10,500 homes planned through the Tāmaki Regeneration Company and a further 1,200 through Kāinga Ora at Oranga, the land exchange programme between the Board and its development partners is one of the few remaining levers for securing new open space in an already built-up area. Land retained or acquired through that programme has more long-term value where it supports ecological connectivity, linking existing reserves and maunga, rather than being assessed for recreational value alone

Conclusion

This draft plan provides a solid foundation for protecting and restoring the natural environment, with a clear commitment to climate resilience, environmental restoration and partnership with mana whenua. Our suggestions are intended to strengthen that direction through minor additions that help ensure nature continues to play a central role in creating healthy, resilient communities. Thank you for considering Forest & Bird's submission.

Submission on the Draft Maungakiekie-Tāmaki Local Board Plan 2026

Sport Auckland appreciates the opportunity to make a submission on the Draft Maungakiekie-Tāmaki Local Board Plan 2026.

Sport Auckland is a charitable trust that works closely with the Maungakiekie-Tāmaki Local Board, Auckland Council, Aktive, sports organisations and community partners across Tāmaki Makaurau. Our vision is **Active Lives, Connected Communities, Healthier Brighter Futures**. Our purpose is to empower and connect communities to engage in sport and physical activity.

We see strong alignment between Sport Auckland's strategic direction and the Local Board's priorities and advocacy initiatives. We commend the Board's commitment to fostering strong, resilient and connected communities. We commend the Local Board's plan to create a sense of belonging and for supporting thriving, healthy lives for their communities. We would welcome opportunities to work alongside the Board, local sports clubs, schools and community organisations to ensure facilities and services support the growing population in the Local Board's area.

Sport Auckland's guiding principles focus on equity, strengthening the sport and physical activity sector, partnering with local communities, and embracing diverse ways of being active. These principles align strongly with the priorities outlined in the Draft Local Board Plan, and we support the Board's ongoing leadership in creating accessible, inclusive and active communities.

We offer the following comments on specific objectives.

Te hapori - Community

Sport Auckland strongly supports the objective - *We celebrate our diverse people and everyone can access and benefit from our facilities and programmes*. This aligns strongly with our own guiding principles above. Under this objective we strongly support the initiatives:

- Deliver inclusive, high-quality events and support community led events that strengthen local connections.
- Prioritise equitable access in the design and development of community facilities, including libraries and town centres.
- Continue to provide access to inclusive, multi-use community spaces and hubs that support wellbeing, learning and connection.
- Reach our least engaged communities by going to where they already are and providing information in multiple languages. We will support engagement initiatives which meet the nuanced needs that different groups of people might have.
- Manage our community leases to ensure groups have fair access to our spaces.

SPORT AUCKLAND

Auckland 1344

Tel (09) 623 7900
www.sportauckland.co.nz

- Champion better oversight and reporting on our spaces to ensure that they are providing benefit to the community.
- Support sports organisations with the facilities and the strategic resources they need to keep our community active. We will encourage collaborative approaches to the sharing of space.
- Investigate future community service and wellbeing initiatives and given population growth, understand gaps in how we provide services.
- Support opportunities for young people to have safe welcoming places to gather, be active, and participate locally.
- Support programmes, services and activations that meet community needs and reduce barriers for participation and access.
- Implement the Maungakiekie Tāmaki Play Plan by progressing actions and projects that expand play opportunities beyond traditional playgrounds, including playful street art, installations, natural play features and other community play events.

We commend the Board's commitment to "implement the Maungakiekie-Tāmaki Play Plan and extending play opportunities beyond traditional playgrounds. The following comments align with this approach and draw on insights and recommendations from the Neighbourhood Play System Reports (NPS) with St Pius X and Stanhope Road Schools that we have completed:

1. Eastview Reserve (St Pius X NPS): Support further activation through RST partnership, building on playground improvements to date at Eastview Reserve.

2. Play on the Way (St Pius X NPS): Add footpath stencils, rope swings and road murals near schools – aligned with "playful street art, installations" initiative.

3. Te Ao Māori (Stanhope Road NPS): Wayfinding and play assets reflecting pūrākau and whakapapa, plus public art trails – celebrating culture. (tamariki and iwi codesign)

We strongly support the objective - O*ur community is supported to lead initiatives that are important to them***.** Of note we support these initiatives under this objective being: -

- Invest in community capacity and capability through strategic partnerships.
- Work with community groups to understand their needs and ensure that the provision of services supports their goals.
- Prepare tools and processes so we can quickly support and implement community ideas as they arise.
- Create more opportunities for rangatahi /youth to design places and spaces in the local board area.
- Allocate grants with sensible criteria to make sure they are distributed fairly.

SPORT AUCKLAND
Inspiring Our Communities To Live Healthy And Active Lifestyles

Sport Auckland House
PO Box 26 599
Epsom
Auckland 1344

Tel (09) 623 7900
www.sportauckland.co.nz

Sport Auckland was very proud of the strategic partnership agreement we had with the Local Board and Auckland Council during the last two years. Our impact in building community capacity and capability shifted the needle in a positive direction and for every $1 invested by the Local Board, Sport Auckland invested $6. Should further opportunities arise under this initiative we would be more than willing to partner again, for the benefit of the community, clubs and organisations in the area.

We strongly support the objective - *Our facilities meet community need, offer good value for money and are high quality.* Under this objective we support the initiatives: -

- Invest in high quality community facilities including parks and playground upgrades, focusing on areas of greatest need including population growth and aging assets. Seeking opportunities for creating shade in our spaces.
- Seek opportunities to implement our masterplans including consideration of ongoing investments in Oranga and Waikaraka Park.
- Develop future use of Hamlin Park and facilities for Mt Wellington.
- Review best practise models to find innovative ways to cover shortfalls of money for assets and services. This could include public private partnerships or other initiatives.
- Support programmes which encourage physical activity through our Pools and Leisure centres.
- Support regular community events where people can gather, listen to music, or share food. We will seek opportunities to activate our town centres and provide space for people to connect.

Sport Auckland strongly recommends that the Local Board references the Maungakiekie-Tāmaki Sport and Recreation Facilities Plan in this Local Board Plan and calls out those high priority projects that have been identified as having the highest immediate priority for Maungakiekie-Tāmaki over the next 1-3 years.

Sport Auckland strongly support the objective *Māori identity is visible. Mana Whenua and Māori are active partners in local decisions* and all the initiatives under this objective.

We strongly support the objective that *Our ecosystems are respected, protected, and restored.* Under that objective Sport Auckland supports the following initiative:

- Investigate opportunities for community-led initiatives such as projects that help residents to grow their own food.

Te taiao kua hangaia - Built environment

Sport Auckland strongly supports the objective - *People feel safe moving in and around our town centres. Our community can access what they need to live, work and thrive.* And under this objective we support the initiatives:

- Develop playground designs which are inclusive of all ages and abilities.

SPORT AUCKLAND
Inspiring Our Communities To Live Healthy And Active Lifestyles

Sport Auckland House
PO Box 26 599
Epsom
Auckland 1344

Tel (09) 623 7900
www.sportauckland.co.nz

- Develop multi-functional parks that combine play, social spaces, informal sport, kai opportunities and community gathering areas to reflect the needs of young, diverse, multi-generational households and to respond to intensification.
- Support the design of town centres that make it easy and safe for people to move around using different modes of transport, such as walking, cycling, and public transport.

We do recommend the possibility of Community Play Trails (from the Stanhope Road Neighbourhood Play System report): Link Stanhope Road School to nearby playgrounds and reserves for safe, regular access to play. i.e. Thompson Park and Alcock & Almond Reserve.

Tūnuku -Transport

Sport Auckland strongly supports all the objectives and initiatives under the Transport section. Sport Auckland identifies tamariki and rangatahi as key active transport users – and we advocate for having safe, playful routes to school.

We do recommend the following from our Neighbourhood Play System reports: -

- At Eastview Rd/Castledine Cres Crossing (St Pius X NPS): Consider advocating for safe pedestrian crossing at this intersection.
- Ellerslie-Panmure Highway (Stanhope Road NPS): Consider flashing speed signs, improved lighting, better sight lines, traffic calming, realistic safety improvements.

Thank you again for the opportunity to provide feedback on the Draft Maungakiekie-Tāmaki Local Board Plan 2026. We appreciate the Board's continued commitment to supporting active, connected and thriving communities, and we look forward to continuing our positive partnership with the Maungakiekie-Tāmaki Local Board.

Submission on the Draft Maungakiekie-Tāmaki Local Board Plan 2026

Stet Limited 25 June 2026

STET Limited is a registered social enterprise committed to environmental restoration and conservation across New Zealand ecosystems. As a provider and active contributor to conservation initiatives within the Tāmaki catchment, we submit our feedback on the Draft Local Board Plan 2026–2029 to ensure local development does not continue to come at the structural cost of our remaining indigenous biodiversity.

Huahou / red knot in the Tāmaki Estuary. Photo by Shaun Lee.

1. Reversing Local Bird Extinctions

While the draft plan rightly acknowledges the rapid housing developments transforming our neighbourhoods, it entirely overlooks a critical ecological baseline: the local extinctions that have already occurred within our boundaries. As formalised in the provided Appendix data, the catchment has already suffered the loss of four Threatened or At Risk bird species since 2013 due to habitat degradation and poorly managed land intensification.

Species such as the huahou / red knot, ruddy turnstone, golden plover, and matuku-hurepo / Australasian bittern have effectively ceased foraging or nesting in our local reserves. The final Local Board Plan must explicitly recognise these past failures to maintain indigenous biodiversity. It is not enough to plan broad "high-quality parks" without establishing protective, low-impact land management guidelines specifically aimed at arresting this ongoing trend of localised extinctions.

Ōmaru / Point England Reserve. Photo by Shaun Lee.

2. Safeguarding Critical Habitat for Remaining Shorebirds

Our coastal margins along the Tāmaki Estuary and Panmure Basin represent highly modified yet absolutely critical habitats for several remaining Threatened and At Risk resident and non-breeding shore birds. In particular, we wish to highlight the precarious state of the taranui / Caspian tern, a species classified as Regionally Critical and Nationally Vulnerable.

Approximately 50+ pairs of tarāpunga / red-billed gulls (Regionally Vulnerable) and several breeding pairs of tara / white-fronted tern utilise structures near the Panmure Bridge and Basin. Furthermore, pairs of tōrea pango / variable oystercatchers (Regionally Vulnerable) and tūturiwhatu / Northern New Zealand dotterels (Nationally Increasing) are abandoning public spaces to roost and breed in private construction sites.

The board's current plan relies heavily on broad "waterway restoration projects" and non-binding advocacy to the Governing Body. STET Limited strongly requests that the final plan establish dedicated, enforceable spatial protections for these specific roosting and nesting populations. High-density urban growth in the surrounding areas means we must actively shield these precise nodes from shoreline encroachment and heavy public foot traffic.

3. Mitigating the Core Threats of Domestic Dogs and Wandering Cats

A glaring blind spot in the current draft text is the missing link between domestic animal management and wildlife survival. The draft plan observes that our local board area suffers from the 6th highest number of dog attacks across Auckland, yet frames this strictly as a

human safety and public safety issue. For our native wildlife, domestic dogs and wandering cats are direct, lethal pressures.

As documented in nearby ecosystems, a single predator like a stoat can decimate entire avian populations, and uncontrolled domestic pets easily crush or scatter ground-nesting birds such as the moho pererū / banded rail or pūweto / spotless crake. The board must take a cohesive approach to its animal management advocacy and local reserve bylaws. We submit that the plan should actively enforce wildlife protection zones within our shorebird habitats, mandate strict on-leash compliance in coastal reserves, and promote community education regarding containment of domestic cats during sensitive avian breeding seasons.

Anogramma leptophylla on Mangarei / Mount Wellington. Photo by Shaun Lee.

4. Preservation of Threatened Local Flora

Finally, STET Limited notes with concern that the local board plan treats vegetation primarily as a numbers game focused on expanding general tree canopy cover through the Ngahere Action Strategy. The provided species data reveals an immediate, quiet crisis among our understorey and specialized coastal flora: 52 distinct plant species within the catchment are classified as Threatened or At Risk.

Low-lying, critical native plants like the returetu / red azolla, the critically endangered Jersey fern (*Anogramma leptophylla)* on the slopes of Maungarei, and vulnerable coastal species like kōkihi / New Zealand spinach cannot simply be replaced by planting standard urban shade trees. Many of these plants are remnants of historical lava fields and sandspits that are deeply vulnerable to urban land clearing and weed invasion. The Local Board Plan must introduce specific, localised initiatives to fund understorey weed management, safeguard

remnant soil environments, and explicitly incorporate the 52 at-risk botanical species from the appendix into all upcoming local council planting and restoration work programs.

Thank you for considering our recommendations.

APPENDIX:

Threatened and At Risk species in the Tāmaki Estuary / Wai O Taiki catchment

Overview

The purpose of this report is to provide a comprehensive list of threatened and at-risk species in the Tāmaki Estuary / Wai O Taiki catchment to support informed decision-making and prioritisation for conservation efforts. No classifications or risk assessments were applied; the report solely compiles existing species records. Species were included if they were Regional or Nationally At Risk or Threatened.

The catchment hosts a diverse range of Threatened and At Risk species, providing critical habitats for their survival. The Tāmaki Estuary was designated as an Area of Significant

Conservation Value (ASCV) by the Department of Conservation prior to 2008. This designation is still reflected in the Auckland Unitary Plan today.

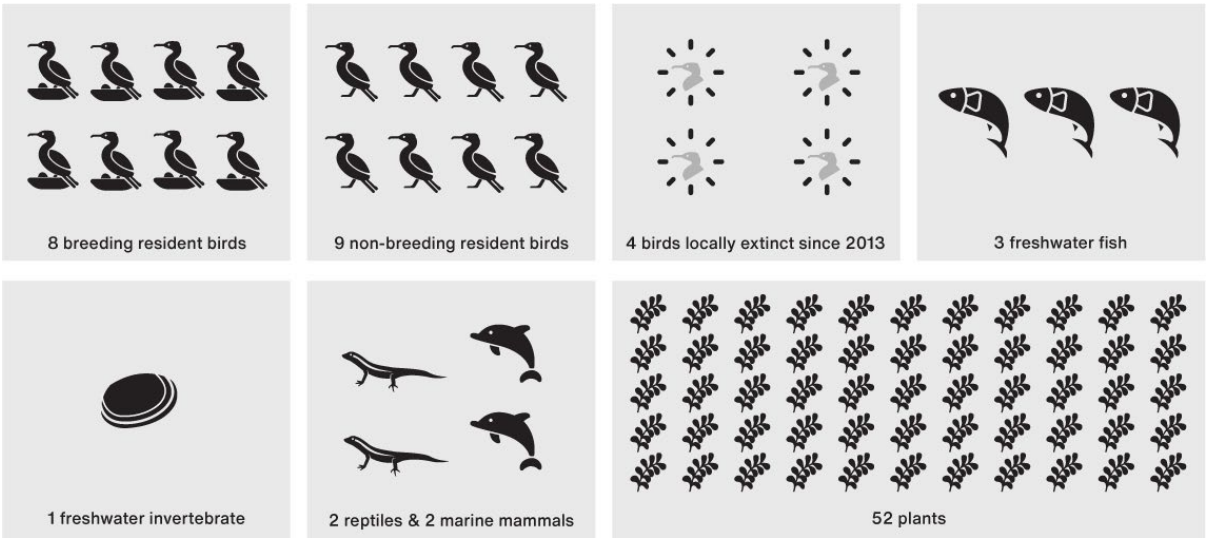

Figure 1. Graphical summary of the Threatened and At Risk species in the catchment

This report documents eight breeding resident and nine non-breeding resident bird species in these categories, with four bird species having gone locally extinct since 2013. Additionally, three Threatened and At Risk freshwater fish species, one freshwater invertebrate and two reptile and two marine mammal species are recorded in the catchment. However, plants dominate the list, with 52 plant species classified as Threatened or At Risk. Altogether, 78 species are documented across the taxa investigated in this report.

Data

Birds. Shorebird population data was sourced from the Birds New Zealand Wader Survey, with thanks to the dedicated volunteer counters: Kay Anand-Sobti, Basil Avery, Julie Chambers, David Doleman, Gillian Eller, Mark Eller, Beth Evans, Claire Hotchin, Noel Knight, Kathryn Legrove, Shaun Lee, Helen Momota, Sue Noble, Jeannie Preddey, Matt Rayner, Bruce Kendall, Rowena West, and Marty Yates.

Reptiles. Records are drawn from the *Department of Conservation Bioweb Herpetofauna database and Auckland Council's herpetofauna database* up to 2022, with specific locations kept private to protect species from poachers.

Invertebrates. Data from seven WilderLab eDNA samples were searched for 166 species of Nationally At Risk or Threatened freshwater invertebrates. Marine invertebrates have not been assessed by the department. The waicare.org.nz records for each local board area in the catchment were downloaded and searched for Nationally At Risk or Threatened freshwater invertebrates. As the records are not identified to a species level none were added to the list, however there is one record of a freshwater mussel at Macleans Stream, adjacent to flat grass area downs.

Plants. Records include wild plants only, excluding cultivated and eDNA-derived records. These come from various sources, including herbarium specimens (mainly AK), publications (primarily Auckland Botanical Society Journal articles), and unpublished records by Ben Goodwin. Other threatened plant species may exist within the catchment, but no comprehensive survey has been conducted.

Location

The study area has been defined by the catchment including the waters of the Estuary. We have restricted the Northern limit to a line between Glover Park in the west and Music Point in the east.

Motukorea / Browns Island was excluded because it is overseen by the Waiheke Local Board which is not in the Tāmaki Estuary Environmental Forum (TEEF). The motu is however managed by the Southern Regional Park | Parks & Community Facilities at Auckland Council and this decision could be reconsidered in future.

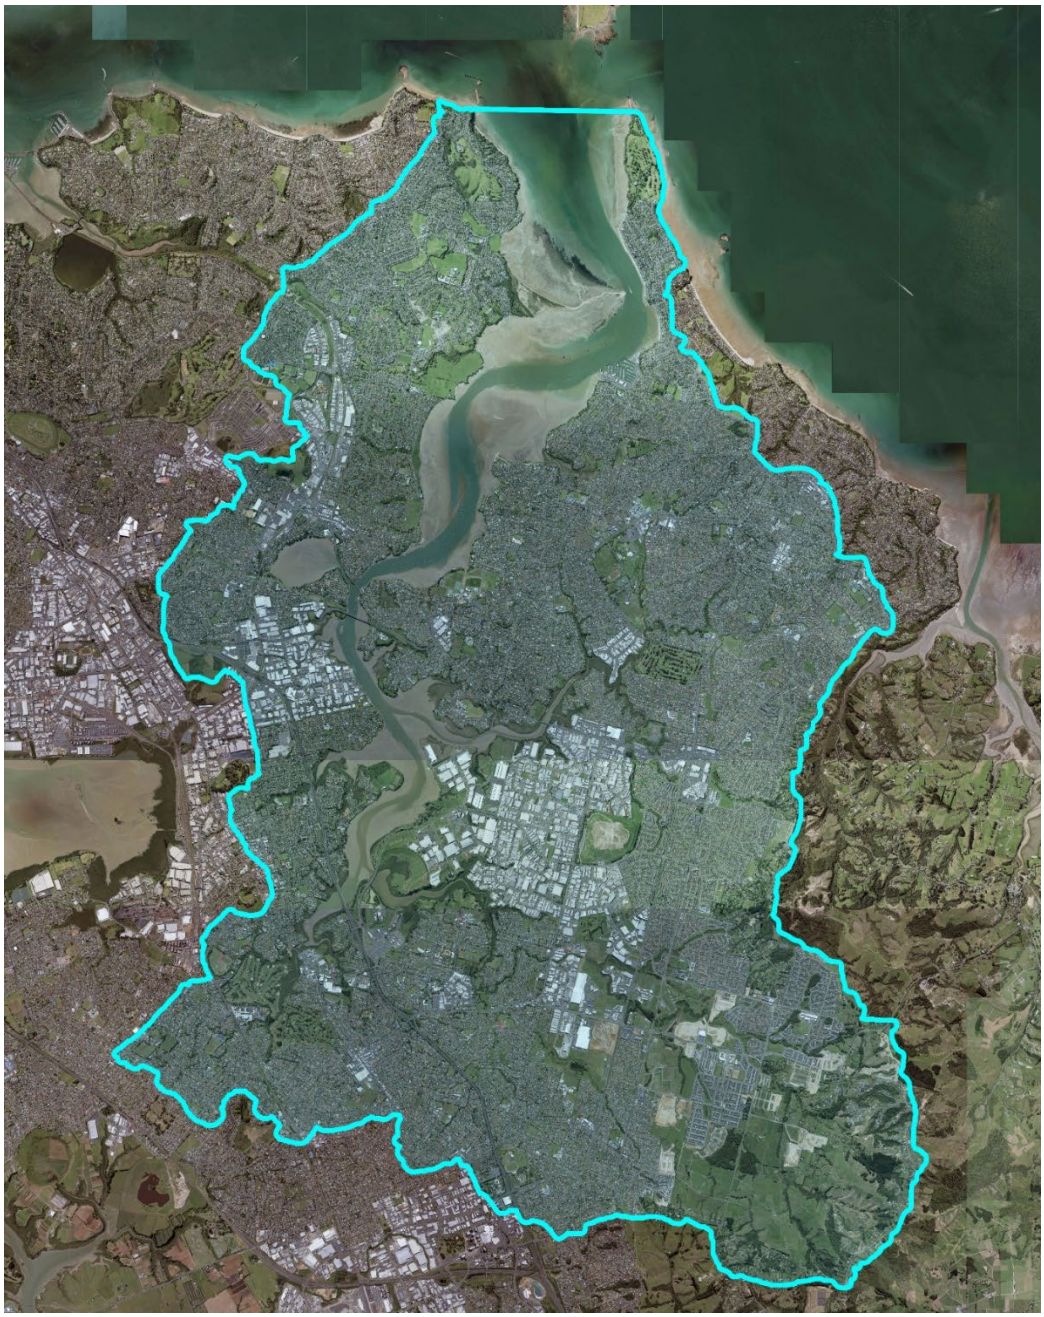

Figure 2. Map of the study area © Geomaps / Auckland Council

Fauna: Breeding resident birds

Common Name	Māori Name	Scientific name	Regional Cons. Status (2023)	National Cons. Status (2021)	Catchment Population Size (estimate)	Notes
New Zealand dabchick	Weweia	*Poliocephalus rufopectus*	Regionally Critical	Threatened – Nationally Increasing	4	DPS, DPT, Sp. A few pairs recently breeding at Stonefields (border of catchment)
Little shag	Kawaupaka	*Microcarbo melanoleucos brevirostris*	Regionally Endangered	At Risk – Relict	15-22 pairs nesting in colony above stormwater pond at Point England	CI, DPR, DPS, DPT.
Banded rail	Moho pererū	*Gallirallus philippensis assimilis*	Regionally Vulnerable	At Risk – Declining	6	CI, CR, DPS, DPT, NStr. Likely two pairs breeding at Tahuna Torea. Sightings in Pakuranga Creek.
Red-billed gull	Tarāpunga	*Chroicocephalus novaehollandiae scopulinus*	Regionally Vulnerable	At Risk – Declining	900 birds, most breeding at old Wynyard wharf.	CI, CR, DPT. 50+ Pairs breeding under Panmure Bridge a few more on nearby boats / structures.
Variable oystercatcher	Tōrea pango	*Haematopus unicolor*	Regionally Vulnerable	At Risk – Recovering	50. Mostly breeding on Motukorea	CD, CI, DE, DPS. First pair breed at Tahuna Torea on restored roost in 2023-4
White-fronted tern	Tara	*Sterna striata*	Regionally Vulnerable	At Risk – Declining	4	CD, CI, CR. Breeding on poles and boats near

						Panmure Basin.
Northern New Zealand dotterel	Tūturiwhatu	*Charadrius obscurus aquilonius*	Regionally Increasing	Threatened – Nationally Increasing	4 breeding pairs	CD, CI, INC, NStr. Some have moved from Point England to Saint Kentigerns likely due to changes in grass management.
Pied shag	Kāruhiruhi	*Phalacrocorax varius varius*	Regionally Recovering	At Risk – Recovering	40	CR, DE, DPS, DPT. Steep decline in nests at Panmure Basin

Fauna: Non-breeding resident birds

Common Name	Māori Name	Scientific name	Regional Cons. Status (2023)	National Cons. Status (2021)	Catchment Population Size (estimate)	Notes
South Island pied oystercatcher	Tōrea	*Haematopus finschi*	Regionally Declining	At Risk – Declining	350	CI, NStr. Large declines since the 1970s
Bar-tailed godwit	Kuaka	*Limosa lapponica*	Regionally Not Threatened	At Risk – Declining	200	CI, NStr, TO. Large declines since the 1970s
Banded Dotterel	Pohowera	*Anarhynchus bicinctus*	Regionally Endangered	At Risk – Declining	30	CD, CI, NStr. Small flocks sometimes associated with Wrybill.
Wrybill	Ngutu pare	*Anarhynchus frontalis*	Regionally Increasing	Threatened – Nationally Increasing	50-150	CD, NStr, RR, TL. Few counts
Shore	Tuturuatu	*Thinornis*	N/A	Threatened	1	CD, RN.

plover		*novaeseelandiae*		– Nationally Critical		Regular visitor from 2013-2020 until a stoat decimated the breeding population on Motutapu.
Caspian tern	Taranui	*Hydroprogne caspia*	Regionally Critical	Threatened – Nationally Vulnerable	2-6	CI, DPS, DPT, SO, Sp. Regularly seen foraging in the estuary and roosting at Tahuna Torea.
Reef heron	Matuku moana	*Egretta sacra sacra*	Regionally Critical	Threatened – Nationally Endangered	1	CI, DPS, DPT, NStr, Sp, SO. Three recent records[1] regular in the 1970s[2]
Royal spoonbill	Kōtuku ngutupapa	*Platalea regia*	Regionally Naturally Uncommon	At Risk – Naturally Uncommon	17	INC, NStr, SO
Spotless crake	Pūweto	*Zapornia tabuensis tabuensis*	Regionally Vulnerable	At Risk – Declining	1-2	DPS, DPT, PF, SO. Cryptic, regularly heard at Tahuna Torea but more abundant at Waiatarua Reserve.

Recently extinct birds

Three bird species recorded in the Auckland Unitary Plan (notified 30 September 2013) as frequenting the Tahuna Torea Nature Reserve no longer forage in the area.

"Birds which frequent the area include the South Island pied oystercatcher, variable oystercatcher, Caspian tern, grey teal, pied stilt, godwit, knot, turnstone, golden plover, banded dotterel, New Zealand dotterel, wrybill, black-backed gulls, red-billed gulls, caspian

terns, pied shags and little shags; white-faced heron and blue reef heron also feed on the tidal flats." — 49c Tahuna Torea SEA M1. The Proposed Auckland Unitary Plan

Australasian bittern were recorded in Chris Barfoots book about Tahuna Torea[3] but have not been recorded in the reserve since 2016[4].

A total of four species of Threatened or At Risk bird species could now be considered locally extinct:

Red knot *Calidris canutus* (Large declines since the 1970s last seen 2019)
Ruddy turnstone *Arenaria interpres*
Golden plover *Pluvialis fulva*
Australasian bittern *Botaurus poiciloptilus*

Fauna: Fish

Common Name	Māori Name	Scientific name	Regional Conservation Status (2023)	National Cons. Status (2017)	Catchment Population Size (estimate)	Notes
Longfin eel	Tuna	*Anguilla dieffenbachii*	At Risk – Regionally Declining	At Risk – Declining	Recorded in Glendowie Stream, Point England Pond[5] Pakuranga Creek[6] Angelo Stream[7]	CI, CD, DPS, DPT. Decline associated with fish passage barriers and degradation of habitat.
Īnanga	Īnanga, Matamata	*Galaxias maculatus*	At Risk – Regionally Declining	At Risk – Declining	Common in many streams in the catchment.	CI, CD, DPS, DPT, SO. Decline associated with fish passage barriers and loss of spawning habitat.

Redfin bully	Kōkopu, urutira, whero	*Gobiomorphus huttoni*	At Risk – Regionally Declining	Not Threatened	Common in many streams in the catchment.	CI, DPS, DPT

Fauna: Marine mammals

Common Name	Māori Name	Scientific name	Cons. Status	Catchment Population Size (estimate)	Notes
Orca / Killer whale	Maki	*Orcinus orca*	Nationally Critical (National 2019)	Pods of 3-6 animals visiting several times a year.	DP, S?O, DP, Sp. National population 150–200
Bottlenose dolphins	Terehu	*Tursiops truncatus*	Nationally Endangered (National 2019)	Occasional pod of 10 or so	De, PF, SO, Sp. Visiting North Island coastal sub-population of 450.

Fauna: Reptiles

Common Name	Māori Name	Scientific name	Cons. Status	Catchment Population Size (estimate)	Notes
Copper skink	Mokomoko	*Oligosoma aeneum*	At Risk – Declining (National 2021) Regionally Declining (2022)	Four individuals recorded from two locations in the last decade. Two older records at different locations.	PD. All located on the western side of the catchment.
Forest gecko	Moko pirirākau	*Mokopirirakau granulatus*	At Risk – Declining (National 2021) Regionally Declining (2022)	One 2013 record (dead)	CD, PD

There has been one unconfirmed report of a Green turtle (*Chelonia mydas)* north of the sand spit at Tahuna Torea Nature Reserve and another off Eastern Beach. The IUCN lists green turtles as Endangered (population decreasing).

Fauna: Freshwater invertebrates

Common Name	Māori Name	Scientific name	Cons. Status	Catchment Population Size (estimate)	Notes
Freshwater mussel	Kākahi	*Echyridella menziesii*	At Risk – Declining (National 2018)	One eDNA sample in just one location	eDNA Sample 540996 Murphys Bush - downstream

Flora

This colour indicates the species is dependent on a marine or freshwater habitat

Common Name	Māori Name	Scientific name	Regional Cons. Status (2022)	National Cons. Status (2023)	Notes
Ferns					
Jersey fern	-	*Anogramma leptophylla*	Threatened – Critical	Nationally Vulnerable	DPR, DPT, SO, Sp. Small patches on Maungarei / Mount Wellington. c.87% decline since 2020 (B L Goodwin unpub. data).
Pacific / red azolla	Returetu	*Azolla rubra*	At risk – Relict	Not threatened	SO
Mokimoki	Mokimoki	*Doodia mollis (syn. Blechnum molle)*	Threatened – Endangered	At Risk – Naturally Uncommon	
Rasp fern	-	*Doodia squarrosa (syn. Blechnum zeelandicum)*	Threatened – Vulnerable	At risk – Naturally Uncommon	

Woolly rock fern	-	*Cheilanthes distans*	At risk – Declining	Not threatened	SO
Rock fern	-	*Cheilanthes sieberi*	At risk – declining	Not threatened	SO
Soft fern	Pai'i'iha	*Christella dentata*	Not assessed	At Risk – Naturally Uncommon	PD, SO
Scrambling Ground-fern	-	*Hiya distans*	At risk – Declining	Not threatened	TO
Giant hypolepis	-	*Hypolepis dicksonioides*	At risk – Naturally Uncommon	At Risk – Naturally	EF, SO, Sp
		Pellaea aff. falcata (b)	Threatened – Endangered	Threatened – Critical	DPR, DPS, DPT
Hot rock fern	-	*Pellaea calidirupium*	At risk – Declining	At Risk – Naturally Uncommon	DPS, DPT, SO, Sp
King fern	Para, Mouku	*Ptisana salicina*	At risk – Declining	At Risk – Declining	SO
Gymnosperms					
New Zealand Cedar	Kawaka	*Libocedrus plumosa*	At risk – Declining	Not threatened	DPS, DPT, Sp
Dicotyledons					
Clematis	-	*Clematis foetida*	Data Deficient	Not threatened	Historic. (1922, Mt. Wellington lava field*)
Sand coprosma	Tātaraheke	*Coprosma acerosa*	Threatened – Vulnerable	At Risk – Declining	CI, PD Historic. (1863-1873 'Tamaki sandspit')
Mingimingi	Mikimiki	*Coprosma crassifolia*	Threatened – Vulnerable	Not threatened	
-	-	*Crassula colligata subsp. colligata*	At risk – Declining	Not threatened	EF, SO

New Zealand Carrot	-	*Daucus glochidiatus*	At risk – Declining	Threatened – Vulnerable	DPR, DPT, EF, SO, Sp. Historic. (1920's, Mt. Wellington lava field.)
Whau	Whau	*Entelea arborescens*	At risk – Declining	Not threatened	
Tree fuchsia	Kōtukutuku	*Fuchsia excorticata*	At risk – Declining	Not threatened	
New Zealand geranium	Matua-kūmara	*Geranium retrorsum*	At risk – Declining	Threatened - Vulnerable	DPR, DPS, DPT, SO
Swamp hypericum	-	*Hypericum pusillum*	At risk – Declining	Not threatened	SO Recorded from Murphy's Bush in 1980. Unknown if still present
Kānuka	Kānuka	*Kunzea robusta*	At risk – Declining	Not threatened	
Ramarama	Ramarama	*Lophomyrtus bullata*	Threatened - Vulnerable	Threatened - Critical	RF
Poataniwha	Poataniwha	*Melicope simplex*	Threatened - Endangered	Not threatened	
Wharangi	Wharangi	*Melicope ternata*	Threatened - Vulnerable	Not threatened	Historic. (1911, Mt. Wellington lava field.)
Crimson rātā	Akakura	*Metrosideros carminea*	At risk – Declining	At Risk – Declining	Historic. (1930, Mt. Wellington lava field.)
Pōhutukawa	Pōhutukawa	*Metrosideros excelsa*	At risk – Declining	Not threatened	NO
White rātā	Akatea	*Metrosideros perforata*	At risk - Declining	Not threatened	
Wire vine	-	*Muehlenbeckia complexa var. grandifolia*	Threatened - Vulnerable	Threatened - Vulnerable	SO
Ngaio	Ngaio	*Myoporum laetum*	At risk – Declining	Not threatened	
Thompson's oxalis	-	*Oxalis thompsoniae*	Threatened - Endangered	At Risk – Naturally Uncommon	DPS, DPT, SO, Sp

New Zealand pellitory	-	*Parietaria debilis*	At risk – Declining	Not threatened	SO
Kōpata	Kōpata	*Pelargonium inodorum*	Threatened - Endangered	At Risk – Naturally Uncommon	DPS, DPT, EF, SO, Sp
Kaikōmako	Kaikōmako	*Pennantia corymbosa*	Threatened - Endangered	Not threatened	
Cutleaf burnweed	Pukatea	*Senecio glomeratus*	At risk – Declining	Not threatened	SO
New Zealand fireweed	-	*Senecio scaberulus*	Threatened - Critical	Threatened - Critical	DPR, DPS, DPT, EF. Historic (1902, 'Ellerslie')
Poroporo	Poroporo	*Solanum aviculare var. aviculare*	Threatened - Critical	Threatened - Endangered	PF, SO Historic. (1986, East Tamaki lava fields.)
Sea blite	-	*Suaeda novae-zelandiae*	At risk – Declining	Not threatened	
New Zealand spinach	Kōkihi	*Tetragonia tetragonioides*	Threatened - Endangered	At Risk – Naturally Uncommon	EF, RR, SO, Sp
Coastal harebell	-	*Wahlenbergia vernicosa*	At risk – Declining	Not threatened	
Violet harebell	Rimuroa	*Wahlenbergia violacea*	At risk – Declining	Not threatened	
Monocotyledons					
Purua grass	-	*Bolboschoenus caldwellii*	Threatened - Critical	Not threatened	SO. Recorded from Otara Creek in 2001. Unknown if still present
Grassland sedge	-	*Carex breviculmis*	At risk – Declining	Not threatened	SO
Forest sedge	-	*Carex ochrosaccus*	At risk – Declining	Not threatened	Recorded from Murphy's Bush in 1976. Unknown if still present.
Coastal sedge	-	*Carex spinirostris*	At risk - Relict	Not threatened	

Swamp club-rush	-	*Isolepis inundata*	Threatened - Vulnerable	Not threatened	SO
Branching rush	-	*Juncus prismatocarpus*	Threatened - Vulnerable	Not threatened	SO
Common duckweed	Kārearea	*Lemna minor*	Data deficient	Not threatened	SO. Recorded from Tahuna Torea in 1985, unknown if still present.
Twig rush	-	*Machaerina tenax*	At risk – Declining	Not threatened	Recorded from Murphy's Bush in 1977. Unknown if still present.
Weak poa	-	*Poa imbecilla*	At risk – Declining	Not threatened	Historic. (1922, Mt. Wellington lava field
Seagrass	Karepō	*Zostera muelleri*		At Risk – Declining	EF, SO. c60 hectares of expanding meadows at the mouth of the estuary including subtidal patches.

Recommendations

Include fungi in future updates, if in the future marine invertebrates are assessed then they should also be added. Also consider adding Motukorea / Browns Island to the study area.

Acknowledgements

The authors would like to thank Dylan van Winkel for helping with data collection and Rowena West, Beth Evans and Kathryn Legrove for reviewing this report.

Have Your Say on the Draft Maungakiekie-Tāmaki Local Board Plan 2026

#285

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: Tamaki Estuary Protection Society

Local Board: Regional Organisation

Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Quite well

   Tell us why

   TEPS welcomes the draft Maungakiekie-Tāmaki Local Board Plan and strongly supports its commitment to improving water quality, restoring waterways, planting trees, partnering with mana whenua and community groups, and building climate resilience. We encourage the Board to include stronger, measurable commitments to protecting and restoring the Tāmaki Estuary and its freshwater catchments, recognising these as one of Auckland's most significant natural assets.

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Building partnerships with local groups and mana whenua to find local ways to provide for our community,Maintain and improve local parks, playgrounds and sports fields to better meet the needs of our growing community.,Other, please specify:Protect Biodiversity

3. **Which of the following would most improve neighbourhood parks for young people? (Select up to 3 options)**

   Shade and seating,Other, please specify:The opportunity to enjoy contact with local, native wildlife

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

Which of the following transport issues are most important to you? (Select up to 3 options)

Improve walking paths and footpaths,Work with partners and agencies to improve congestion issues,Better public transport (buses and trains)

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

Community

Support. TEPS supports community-led environmental initiatives and encourages continued funding for volunteer restoration groups, environmental education, beach clean-ups, citizen science, and community monitoring programmes that connect people with the Tāmaki Estuary.

Natural Environment

Strongly support, with additional recommendations.

TEPS particularly supports the objectives to:

restore waterways and ecosystems

improve water quality

work alongside mana whenua as kaitiaki

build climate resilience.

We encourage the Board to strengthen this section by committing to:

measurable improvements in freshwater and estuary water quality

protection and restoration of shorebird habitat and coastal ecosystems

expanded riparian planting and wetland restoration

support for community water quality monitoring and pollution detection

reducing sediment, litter, sewage overflows and contaminants entering the Tāmaki Estuary.

Built Environment

Support with recommendations.

As growth continues, environmental infrastructure must keep pace. TEPS encourages the Board to advocate for:

high-quality stormwater treatment

water-sensitive urban design

protection of streams and wetlands

green infrastructure that reduces flooding and improves water quality

ensuring new development does not further degrade the Tāmaki Estuary.

Economic Development

Support.

A healthy estuary contributes to a healthy local economy through recreation, tourism, biodiversity and attractive public spaces. TEPS encourages support for businesses that reduce pollution, improve environmental sustainability and participate in environmental stewardship.

Transport

Support with additional emphasis.

TEPS supports improved public transport and active transport that reduces greenhouse gas emissions. We also encourage transport projects to minimise stormwater runoff and sediment entering streams and the Tāmaki Estuary through appropriate environmental design and mitigation.

Māori Outcomes

TEPS strongly supports partnership with mana whenua and recognises the importance of Te Tiriti partnerships and the role of mana whenua as kaitiaki in protecting the health and mauri of the Tāmaki Estuary and its waterways.

Climate Outcomes

TEPS supports actions that increase climate resilience through restoration of streams, wetlands, saltmarshes and coastal habitats, recognising these ecosystems help improve biodiversity, water quality and resilience to climate change.

Equitable Outcomes

Everyone should have access to clean waterways, healthy parks and safe natural spaces. Restoring the Tāmaki Estuary benefits all communities, particularly those living closest to the catchment.

Te Kotahi a Tāmaki – Marae Collective

Submission from the TKAT - Marae Collective on the Draft Local Board Plans 2026–2029

Purpose

This submission reflects the aspirations and priorities shared by marae representatives across two regional hui facilitated by Auckland Council on 31 March 2026 and 6th July 2026 as part of the development of the Draft Local Board Plans 2026–2029 through community partnership agreement.

The first hui, held on 31 March 2026, focused on understanding the aspirations, challenges and support needs of marae across Tāmaki Makaurau. The second hui, held during the Draft Local Board Plans consultation on 6th July 2026, provided an opportunity for marae to review the draft plans, discuss local priorities and identify opportunities to strengthen partnerships between marae, local boards and Auckland Council.

Together, these discussions highlighted a shared vision for stronger partnerships, meaningful engagement, investment in marae capability, and greater recognition of marae as trusted community leaders and connectors.

Marae play a vital role in supporting whānau, preserving te ao Māori, strengthening communities and responding to local needs. They provide cultural leadership, social support, emergency response, and opportunities for whānau to connect, learn and thrive.

We welcome the opportunity to contribute to the Draft Local Board Plans and encourage all 21 Local Boards to continue strengthening their partnerships with marae over the next three years.

Our Recommendations

1. Build enduring partnerships with marae

We encourage all Local Boards to move beyond one-off consultation and establish ongoing relationships with marae throughout the work programme. Early and meaningful engagement enables better decision-making and ensures Māori voices help shape local priorities from the outset.

We also encourage more opportunities for elected members to meet directly with marae through regular hui, site visits and community-led conversations.

2. Recognise marae as trusted community partners

Whānau who may experience barriers to participation, and communities who are less likely to engage through formal consultation.

Local Boards should continue working alongside marae to reach these communities and support more inclusive engagement across Tāmaki Makaurau.

3. Invest in strong, sustainable marae

Marae require ongoing investment to continue delivering for their communities.

We encourage Local Boards to advocate for initiatives that strengthen:

- governance capability
- operational sustainability
- legal and compliance knowledge
- tikanga leadership
- community engagement capability
- emergency preparedness and resilience.

Clearer information about Council funding opportunities, criteria and application timeframes would also help marae plan more effectively.

4. Support rangatahi and whānau wellbeing

Rangatahi should remain a key priority across all Local Board Plans.

We encourage Local Boards to support initiatives that:

- strengthen cultural identity and belonging
- improve access to sport, recreation and wellbeing programmes
- provide wraparound support for tamariki and rangatahi
- create more opportunities for rangatahi leadership and participation in local decision-making.

5. Strengthen Te Tiriti partnerships

We acknowledge the distinct roles of both mana whenua and mātāwaka and encourage Local Boards to continue honouring Te Tiriti o Waitangi through meaningful partnership, early engagement and opportunities to contribute to decision-making where appropriate.

Planning processes should also recognise that whakapapa and iwi relationships extend beyond Local Board boundaries, allowing marae and iwi to contribute to multiple Local Board Plans where relevant.

6. Encourage collaboration across Tāmaki Makaurau

There is significant value in creating opportunities for marae to connect with one another, local boards and Council staff.

Regional hui, expos and networking opportunities would support collaboration, knowledge sharing and stronger relationships between Māori organisations and Auckland Council.

Summay

The Marae Collective welcomes the positive relationships that continue to develop with Auckland Council and Local Boards.

We look forward to working in partnership to ensure Local Board Plans deliver meaningful outcomes for Māori communities and reflect the aspirations of whānau across Tāmaki Makaurau.

By investing in long-term relationships, recognising marae as trusted community partners and engaging early in decision-making, Local Boards can strengthen outcomes not only for Māori, but for the wider communities they serve.

Organisation: Te Taumata Toi-a-Iwi

Local Board: Maungakiekie-Tāmaki

Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Tell us why

2. **Which of these do you believe our diverse community needs most?**
   (Select up to 3 options)

   Increasing the visibility of different languages and cultures in our local area.,Building partnerships with local groups and mana whenua to find local ways to provide for our community,Groups such as children, older people, and migrant communities can participate and connect within our communities.

3. **Which of the following would most improve neighbourhood parks for young people?**
   (Select up to 3 options)

   Events and activities

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you?
   (Select up to 3 options)

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

As the regional arts trust for Tāmaki Makaurau, Te Taumata Toi-a-Iwi appreciates the Maungakiekie-Tāmaki board support for local arts, culture and creativity through strategic funding, events, and facilities. It would be good to see this commitment to the sector reflected in the board's local plan, recognising that arts, culture and creativity while valuable to the community in their own right, also support goals such as celebrating your diverse people, helping people feel safe in the community by activating public spaces, and making your local shops and main streets 'busy, safe, vibrant and welcoming.'

We tautoko your goal of making Māori identity visible. Support for nga toi Māori can help make this a reality.

We would encourage the board to collaborate with your local arts and culture organisations and practitioners to explore opportunities for further development of arts and culture programmes and events in your area to support your wider community goals.

The Tree Council
Tiakina Rākau • est 1986

Submission – Maungakiekie-Tāmaki Local Board Plan 2026

by The Tree Council 18 July 2026

From: The Tree Council
[redacted]

Thank you for the opportunity to present The Tree Council's submission on the proposed **Maungakiekie-Tāmaki Local Board Plan 2026.**

This submission is made by The Tree Council, an independent, voluntary organisation, a non-profit incorporated charitable society which has been serving the Auckland community since 1986 in the protection of trees and as advocates for the significant benefits and services that our trees and green spaces provide.

Your draft plan states that over the next 3 years you plan to explore opportunities to increase the number of trees in the local board area in line with the Ngahere Action Strategy. This may also consider options for shade over your community assets.

The Tree Council applauds these initiatives and intentions and provides the following comment and recommendations.

Our Environment

The Tree Council comment:

- *We are delighted to see that you acknowledge that good tree coverage enhances our natural environment and contributes to better climate outcomes.*
- *We are pleased to see that you will support businesses to consider their impact on our environment and climate change and urge you to advocate for the planting of shade in industrial areas.*
- *We are delighted to see recognition of and your support for the important role mana whenua and community groups play in working to enhance biodiversity and undertake tree planting.*
- *We acknowledge your environmental work in weed management and the regeneration of your reserves and green spaces.*
- *We urge you to oppose all consents proposing to remove trees in Significant Ecological Areas and Scheduled Notable Trees on both private and public land as these are so important to retain for future generations.*
- *Where you have kauri in any of your local native bush reserves, we strongly urge you to get them tested for kauri dieback as soon as possible and if found to be positive then you should consider getting them treated with phosphite to keep them alive. Kauri dieback has an almost 100% mortality rate so all infected trees will die without treatment.*
- *We recommend you work with the Kauri Rescue Trust for the best way to approach this problem. There is an urgency as trees in which the disease has progressed too far will not survive even after treatment, so the earlier this happens the better. Kauri are carbon sinks, we need to keep these trees alive as long as possible. Kauri Rescue has already been working to treat trees in local parks, and this work can be expanded with the support of local boards.*
- *We are greatly encouraged by your commitment in your draft plan to investigate opportunities for community-led initiatives such as projects that help residents to grow their own food.*
- *The growing of fruit in suburban gardens has gone out of fashion in recent years and with intensification the space to do so will soon be unavailable to most people living in Auckland. Therefore, having the opportunity to grow fruit in public spaces (parks, reserves, streets) is something that people value highly. Public consultations on the type*

of trees desired for public planting often results in suggestions for fruit trees.

- *Having public collections of different types of fruit trees would enable educational opportunities to take place that could include for example daily care, pruning, propagation, grafting, cookery, heritage and history etc. This could involve schools as well as public workshops, adoption by community or friends' groups.*

- *The public collections on public land in local parks and streets could be localised to reflect the fact that some varieties of fruit trees are better suited to grow in specific areas of Auckland.*

- *We advocate that you reach out to the public to identify fruit trees on private land that could provide the basis for the collection via propagation &/or transplanting. Support for this project can be enhanced by working with NZ Tree Crops Association, The Tree Council and local groups in your area.*

In addition, we would like to see specific support, including financial support, for the following initiatives to protect and enhance existing tree cover:

- *Practical support and (for eg legal) advice for private landowners wishing to provide permanent protection for their trees eg via covenants &/or scheduling to enable protection of existing tree cover on private land to be optimised as most of the mature trees in Auckland are on private land with no legal protection.*

- *Grants for private landowners to maintain Scheduled Notable Trees on their property*

- *Provide permanent and visible physical labels for all Scheduled Notable Trees in the local board area to enable the public to see that this tree is legally protected and tell the stories of our natural heritage.*

- *Look for opportunities to schedule additional mature trees and encourage Council to undertake Plan Changes to the Unitary Plan to regularly add new trees to Schedule 10 (Notable Trees).*

- *Look for opportunities to raise awareness of the value of Scheduled Notable Trees by organising events to celebrate them such as guided walks, community picnics, heritage talks.*

- *We would like to see specific support, including financial support, for mana whenua, local communities and groups undertaking the following types of initiatives within the local board area:*
    - *water quality testing*
    - *monitoring of beaches*
    - *treatment of diseased kauri trees on local parks and private land*
    - *monitoring for myrtle rust*

    - *weed control*
    - *pest control*
    - *protection of rare birds eg dotterel*
    - *restoration planting*

- *Public education on issues affecting biodiversity such as:*
    - *kauri dieback, myrtle rust*
    - *weeds*
    - *animal and insect pests*
    - *other biosecurity threats*
    - *control of dogs in sensitive areas*
    - *conflicting uses eg vehicles on beaches*
    - *rules for marine reserves*

Local Board: Maungakiekie-Tāmaki

Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Quite well

   Tell us why

   Under the environment; The board needs to listen to the community that it serves and rerslove the Tamaki Path trhough the Wai-o-Taiki Nature Reserve.

   The board should understand the depth of feeling about heritage and places of significance - The Wai-O-Taiki Nature reserve and show how environmentally active they are by working with and addressing the sad state that previous boards have left part of this reserve.

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Building partnerships with local groups and mana whenua to find local ways to provide for our community,Maintain and improve local parks, playgrounds and sports fields to better meet the needs of our growing community.

3. **Which of the following would most improve neighbourhood parks for young people? (Select up to 3 options)**

   Other, please specify:Providing different spaces, not just paths through open areas. Nature is in abundance and the board should open its eyes to the opportunity that exisits to link diverse nature reserves with each other Tohuna Torea, Wai-O-Taiki and OPmarau Stream walkway. These diverse envinoments appear no where else in this close proximity in the Auckland area.

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you?
   (Select up to 3 options)

   Improve walking paths and footpaths,Work with partners and agencies to improve congestion issues

5. **Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?**

   The plan needs to address the wide and diverse community understanding loacal areas and working with communities. The paln will then reflect community wishes rather than council officers ideas.

Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Quite well

   Tell us why

   We are a group that the plan reflects our community's priorities

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Increasing the visibility of different languages and cultures in our local area.,Building partnerships with local groups and mana whenua to find local ways to provide for our community,Other, please specify:a youth specific space/hub/drop-in centre for young people

3. **Which of the following would most improve neighbourhood parks for young people? (Select up to 3 options)**

   Events and activities,Safety improvements e.g. lights,Shade and seating

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you? (Select up to 3 options)

   Improve walking paths and footpaths,Work with partners and agencies to improve congestion issues,Better public transport (buses and trains)

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

There is a lack of youth specific space where young people can have just for them/their enjoyment. A space for us to meet, study, play and hangout safely would be great. (different to public parks). As young people. we find the new housing developments and eye sore lol, we would prefer green spaces. In addition we think housing developments and road works could be better communicated to youth so that we understand the changes happening in our community or at least are aware

- A pity about the removal of the delightful minigolf course in wooded setting, beloved by families and groups.

- NEED for natural or manmade greenspaces. trees are the lungs of the earth. think the cycle of life.

- keep local library/community centre. local policeman (Community constable Don)

- local business very hard hit by development, compensation? Suggest acknowledgement/ lower rates.

- effective temporary traffic light system when Selywn Street/Mall Roundabout is installed. pleasent concerned staff there.

- use Onehunga Library and Community Centrea. appreciate parking especially for disabled or 2 x the time as showed disabled parking card.

- variety of local shops

Howick Community (including botany & flatbush) is growing fast. There hasn't been new development for public transport for train/light rails etc though discussed previously. To reduce congestion, mass people transport like train, or light rails are best (similar alternative). I understand it needs central government support probably best time as we have Mr Luxon representing Botany.

Improve the cycling network,Help town centres make the most of rail connections,Better public transport (buses and trains)

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

Love all the improvements for safer intersections. more cycle paths and bus lanes. Where is the greenways plan? Would love to see cycle paths from Penrose Station along Station Rd.

O'Roke Rd as a safer alternative to Gt Sth Rd. Also a cycling path connecting the Waikarakaa Pathway to Gt Sth Rd + Penrose Station: Particularly Hugo Johnston Dr. The Chruch St overbridge from Hugo Johnstone Dr to Gt Sth Rd has a shared path on the south side. Why not designate the north side path as a shared cycle path also?

Having a cycle path from Waikaraka cycleway through Hugo Johnston and O'Roeke Rd would connect up Onehunga + Mangere with Penrose station to the north & Sylvia Park Shopping Centre + Station to the East. An awesome link through an industrial truck heavy area!

Other thoughts - beach volleyball courts somewhere? Onehunga bay reserve?

- Mountain bike track at Hamlins Hill?

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

I would like to see more recognition of the voluntary work seniors contribute towards community health and wellbeing.

p.30 Local community services. Include heritage and history.

I hope to see more of and closer working with community groups to understand their needs and ensuring the provision of services supports their goals.

Having a well connected hub between Maungakiekie and Manukau Harbour using traditional routes brings Jellicoe Park and its history into focus,

The East-West link could reduce congestion expecially on the Onehunga Mall between Neilson St and the Manukau Wharf

If it needs to have 3 lanes while going under the Mangere Motorway Bridge, the EW highway could take over a little used footpath under that bridge. Cyclists and pedestrians have alternatives. The foreshore path and the motorway underpass

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

- we never get told when a road or street will be closed

- we need more communication when road works is going to happen on well housed areas.

- lowering food prices

- more places for homeless people to go

MORE STREET LIGHTS

less wifi in parks so less people on phones. (and its only even small enough for one person so waste of time energy.

Local Board: Manurewa

Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Quite well

   Tell us why

   The draft plan broadly reflects many priorities important to Ruapōtaka Marae, particularly Māori leadership, community wellbeing, rangatahi, kaitiakitanga and resilience. However, these commitments remain general and are not supported by marae-specific actions, dedicated funding, timeframes or measurable outcomes. Stronger recognition of the marae's existing role and a clear commitment to genuine partnership and shared decision-making would provide greater confidence that these priorities will be delivered.

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Free activities and events in local parks, libraries, and public spaces,Building partnerships with local groups and mana whenua to find local ways to provide for our community,Groups such as children, older people, and migrant communities can participate and connect within our communities.

3. **Which of the following would most improve neighbourhood parks for young people? (Select up to 3 options)**

   Improve walking paths and footpaths,Help town centres make the most of rail connections,Better public transport (buses and trains)

5. **Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?**

   The draft plan provides a positive overall direction, but it needs clearer commitments to implementation. From Ruapōtaka Marae's perspective, the final plan should include specific actions, funding, timeframes and measurable outcomes for working with local marae. It should recognise and resource the marae's existing role in cultural leadership, whānau wellbeing, rangatahi development, community connection, emergency response and environmental kaitiakitanga.

   Ruapōtaka Marae should be involved as a genuine partner in decisions affecting Tāmaki, particularly housing growth, transport, community facilities and local services. Better connections between the marae, Glen Innes town centre and rail station should also be prioritised. Continued engagement with Ruapōtaka Marae throughout implementation—not only during consultation—will be essential to ensure the plan delivers meaningful benefits for our community.

Improve walking paths and footpaths,Improve the cycling network,Work with partners and agencies to improve congestion issues

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

If Go Media stadium has a secure future, investment in public transport accessibility is vital.

With housing intensification, ensuring close green spaces(within developments?) are available and well cared for.

There are many areas within Onehunga which could be popular with more community members if they were clean, tidy and cared for (eg cycleway along Manukau Harbour, town centre and close by businesses)

As Onehunga is very industrial, a focus on improving their green footprint and presentation is important.

Communication such as the Onehunga Scene is valuable in communicating events within the community.

Local Board: Maungakiekie-Tāmaki

Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Not very well

   Tell us why

   Communication with Board members and decision making by the Council continues to be one of our biggest challenges. Does Council REALLY know what people want or are they giving us what they think we want. A combination of central government and Council decision making that hasn't properly allowed for local consultation has left a legacy of hurt and resentment. Finding a Councillor who will actually listen and engage is a challenge. The one I know of is called Christine Fletcher but isn't in this area.

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Free activities and events in local parks, libraries, and public spaces,Groups such as children, older people, and migrant communities can participate and connect within our communities.,Maintain and improve local parks, playgrounds and sports fields to better meet the needs of our growing community.

3. **Which of the following would most improve neighbourhood parks for young people? (Select up to 3 options)**

   Events and activities,Wider play options e.g. options for over 10-year-olds,Other, please specify:Encouraging school & community groups to work with Council projects, but give people the opportunity to make decisions about their neighbourhood so that they begin to take ownership. To much is being "given " to them from the mindset of we know what's best

for you rather then what would you actually like? I promise you, this will be cheaper in the long run because there's nothing like a practical cause to bring people together.

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you?
   (Select up to 3 options)

   Improve the cycling network,Better public transport (buses and trains),Other, please specify:Stop building judderbars! Wastes money and ruins vehicles. Use only sparingly.

5. **Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?**

   I'd like you to be much more specific regarding how you will involve the local community in developing the Panmure, Glen Innes and Onehunga town centres. Onehunga has changed numerous times over the years.

   WE have numerous ethnic communities now in this catchment. These people need actual orientation to being in NZ: our attitude to rubbish and refuse, the environment, respect, even basic language and acclimatization to the historical and political community that they're becoming a part of.

   Church communities should be honoured for the amazing cultural and service aspects they contribute to our communities and local connections acknowledged. So sad to loose our local paper. Community events are so important to build any sense of community.....bring on those cultural events in Onehunga, Panmure and GI.

Organisation: N/A

Local Board: Maungakiekie-Tāmaki

Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Not at all

   Tell us why

   This seems out of touch with the issues actually plaguing the reputation of the community. We currently have great opportunity for the community with all of the intensification going on. This plan does not leverage this opportunity. Read social media (Facebook, reddit, etc.) people do not want to move to our community. There are threads pages long as to why. This plan overlooks community concerns. We will be stuck with a ton of empty houses, instead of neighbours at this rate. There are no new fresh ideas or out of the box thinking applied here. It's the same old mentality that got us in this situation to begin with. To be honest it reads like an AI robot threw this together in one draft. We have a board with numerous members representing the region but this proposal does not reflect it.

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Building partnerships with local groups and mana whenua to find local ways to provide for our community,Groups such as children, older people, and migrant communities can participate and connect within our communities.,Other, please specify:Accountability for local organisations that make commitments in future planning that never get delivered or prioritised. Great example is Tamaki Regeneration and their plan for Boundary Reserve. It's long overdue? Why?? But you want to pump more support to this organisation that can barely manage existing projects let alone those in a 5-10 year plan.

3. **Which of the following would most improve neighbourhood parks for young people?**

(Select up to 3 options)

Events and activities,Wider play options e.g. options for over 10-year-olds,Other, please specify:Activities for older youth. Parks are great for young kids. Our parks have little activity for anyone over 13. Funding for more youth mentorship groups. Especially for older youth transitioning into a career or school. Mentorship for youth that have emancipated themselves at early ages or that come from unconventional family backgrounds. Mentorship for youth dealing with drug addiction at home or that have incarcerated family members. Mentorship for youth to build strong ties to the community for positive influence.

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you?
   (Select up to 3 options)

   Work with partners and agencies to improve congestion issues,Help town centres make the most of rail connections,Other, please specify:Public transit as a whole needs an overhaul. It doesn't run on time and not dependable for important things like doctors visits, work appointments, etc. even my Australian employer knows how unreliable transit options are. They actually don't hire staff from city fringe areas due to this because they are tried of staff being late for work due to transit issues.

5. **Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?**

   I do not support any further funding or support for kainga Ora or Tamaki Regeneration until they clean up our community and close off existing projects and catch up on their backlog of commitments made in future community plans prior to 2020. I have had the fortunate pleasure of living amongst 3 of their large developments and they are an absolute mess. When you raise concerns to TRC they are reactive and are not working in the best interest of those currently existing in the community. Private developers are doing it faster, cleaner, and with less impact to others.

   Events and activities,Safety improvements e.g. lights,Wider play options e.g. options for over 10-year-olds

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you? (Select up to 3 options)

Improve walking paths and footpaths,Work with partners and agencies to improve congestion issues,Help town centres make the most of rail connections

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

i know we need to upgrade infrastructure, especially with all the new housing coming online, but it really is exhausting dealing with a new detour, road block or street full of contractor cars every week. its really sad when it affects the local businesses for so long too for example glen innes rail upgrades and now tripoli road.

Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Not at all

   Tell us why

   Whilst it may be unfashionable to say it, NZ is a multicultural society and priorities should be universal for all residents and within the domain of the council - too much emphasis on wooly terminology and undefinable sentiment

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Maintain and improve local parks, playgrounds and sports fields to better meet the needs of our growing community.,Other, please specify:Private transport Access

3. **Which of the following would most improve neighbourhood parks for young people? (Select up to 3 options)**

   Safety improvements e.g. lights,Shade and seating,Other, please specify:Easier Access/Car Parking and More open spaces

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you? (Select up to 3 options)

   Other, please specify:Improve private transport - remove the congestion of cycleways etc

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

Based on the Summary Document

The emphasis on 3 outcomes should be reduced to one - provide the best possible outcome for all residents

Community - Reduce goals to maintain and improve community facilities for all residents including access and lighting

Natural Environment - Remove waffle and replace with a goal to maintain and improve environmental management including weed control, stormwater management and maintenance of green spaces

Built Environment - Remove the waffle and replace with an objective to maintain and improve infrastructure (and state what that is - I am not clear who is responsible for hat)

Economic Development - Not even sure what role the council should have other than removing unnecessary regulations and costs

Transport - Our local roads are increasingly hopeless - unnecessary and unwanted obstructions with chicanes, cycleways etc Don't know where the current money goes but things are getting worse - one of my pet hates is cars parked on the street which seems to have been aggravated by the council allowing infill housing with nowhere to park but on the street - agree with Penrose Station (my Local) but not because of the stadium, but because it has poor access, poor parking, poor connections to other modes etc and the council just relayed the footpath on Penrose road which I would not have thought was a priority???- It has redone the footpath in Portman 3 times?? Agree with level crossings - they should all be removed but is that Auckland Council Local Board? AT? KiwiRail????

Local Board: Maungakiekie-Tāmaki

Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Quite well

   Tell us why

   I think this is a good plan under a constrained funding environment. I believe a focus on the environment, community and moving around easily is what Maungakiekie-Tamaki needs. I do think that there could be a stronger emphasis on active transport modes and public transport.

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Free activities and events in local parks, libraries, and public spaces,Building partnerships with local groups and mana whenua to find local ways to provide for our community,Maintain and improve local parks, playgrounds and sports fields to better meet the needs of our growing community.

3. **Which of the following would most improve neighbourhood parks for young people? (Select up to 3 options)**

   Connections to public transport,Cycle and walking path connections,Shade and seating

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you?

(Select up to 3 options)

Improve walking paths and footpaths,Improve the cycling network,Better public transport (buses and trains)

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

I would like to emphasise that Penrose Station doesn't just need an upgrade for Go Media events, but also for regular everyday commuters and travellers, especially once the CRL opens.

Improve walking paths and footpaths,Work with partners and agencies to improve congestion issues,Better public transport (buses and trains)

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

Environmental improvements need emphasis. Cleaner air, water, more trees, better and safer walking/cycling access to public transport would ease traffic congestion. Promote recycling opportunities so it easier to get rid of unwanted things that are reusable. Inorganic collections are too small and not promoted anymore. The local board area is very truck and car dominated despite the railway being prominent. CRL (if it ever opens) offers big opportunity to promote rail use. Bus connections to rail need improvement and promotion. Traffic noise is very bad on main routes.

Many of the roading projects are creating new hazards. Taniwha Street in GI is now hazardous, as cars try to overtake buses due to congestion. Making cycles ways two directions in one section on one side of the road and providing more parking spaces would help alleviate the hazards.

   Connections to public transport,Safety improvements e.g. lights,Shade and seating

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you? (Select up to 3 options)

Help town centres make the most of rail connections,Better public transport (buses and trains),Other, please specify:Trains NOT buses. I will NEVER use a bus. Drivers are too rough in cornering!

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

Yes, what is it actually? The five clauses I read were saying nothing about anything. All very Airy Fairy. Like - will you open up the railway from Onehunga to the airport and beyond? Will you fix all the potholes? Will you stop all this infill with huge complexes housing Low-Life's? Will you put in a few more police stations to deal with the criminals moving into these tall monstrosities? Will you put speed bumps everywhere to stop all these wheelies in the middle of the night? etc. etc. Will you stop people cutting down trees - no wonder we have climate change - felling a tree removes even more oxygen and releases even MORE CARBON.

Local Board: Maungakiekie-Tāmaki

Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Quite well

   Tell us why

   I like that there is. A balance for users but I'd like to have seen more information on Glen Innes. The parks in GI have had some good investment but the town centre clearly needs a rethink. Some great businesses there who would benefit from better facilities. Also the bus hub is pretty small and bus parking is limited.

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Building partnerships with local groups and mana whenua to find local ways to provide for our community

3. **Which of the following would most improve neighbourhood parks for young people? (Select up to 3 options)**

   Safety improvements e.g. lights,Other, please specify:More lights in parks and brighter lights in the town centre in GI would be great.

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you? (Select up to 3 options)

Help town centres make the most of rail connections,Other, please specify:I do think walking is also important. I think it's bizarre that building sites can shut off paths and street lights and don't have to put in temporary lighting or crossings for pedestrians making it quite dangerous sometimes. They leave blockages up sometimes for several days outside their work period.

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

Glen Innes centre isn't mentioned much and yet has the capacity to benefit from wealthier neighbourhood overflow from Glen dowie, St Heliers and Kohi.

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you?
   (Select up to 3 options)

   Improve walking paths and footpaths

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

It is very weak on details, it doesn't focus on the biggest needs, the economic section is lacking real growth planning, it rides on historical data, Onehunga Penrose used to be the business hub for Auckland and has shrunk to 11% of Auckland's employment, how about a target to get this to 15% over the next 3years, how does the board do this by getting every commercial or retail building leased, incentives to get businesses to move in to our community, by attracting development by businesses by making it easier for owners and managers to operate the businesses in our area, maybe this board does or doesn't have a vision but with out the key economic growth anything they try to do will fail, prosperity is the key to success, make the goals measurable

Improve walking paths and footpaths,Help town centres make the most of rail connections,Other, please specify:Make the main EP Highway/Queens Road intersection less confusing.

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

Boundary West Reserve is kind of a wasted space. Theres boggy seepages but the stream has been piped underground. Many of the trees are exotics that have limited wildlife value. The stream connects from the actual stream in a scrubland area across Pilkington Rd that is technically "road reserve" and seems to drain areas around the container park. Footpaths, plantings, gardens, stream improvements.

Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Not at all

   Tell us why

   I'm incredibly disappointed at the current councilors for not holding the council to task to manage its resources. The 7% rates increase is a direct result of the council, and its Planners not having accountability for rate payers' money. People are doing it touch, but the council doesn't understand this. Its morally reprehensible.

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Maintain and improve local parks, playgrounds and sports fields to better meet the needs of our growing community.,Other, please specify:accountability from the council to keep rates at or under cpi % increase

3. **Which of the following would most improve neighbourhood parks for young people? (Select up to 3 options)**

   Wider play options e.g. options for over 10-year-olds,Other, please specify:fun playgrounds for children. not boring ones.

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you?

(Select up to 3 options)

Other, please specify:ensure footpaths are a high quality and free of trip hazards

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

the plan contributes towards a 7% rates increase. the board should actually resign as a result of their failure. But i doubt that level of integrity is present in the public sector.

In the private sector it would be different. and that's why the private sector always outperforms the public sector.

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you? (Select up to 3 options)

   Better public transport (buses and trains),Other, please specify:There is no point in putting in all the trains and busses if we can’t park at the train stations can’t get connections from bus to city u less getting off at Sylvia park. The busses on top end of mt wellington highway are

poor and with the ENORMOUS amount of new infill housing there is no parking not many buses unless you go to great south road or Panama . And now with the t2 lanes the traffic congestion is at its worse on the highway as well as the weaving in and out down the streets as not enough parking has been allocated to the new houses

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

We need safer streets and community. having lived in this area my enitre life the feeling of safety is now much worse. We need a community centre , i am in all areas of akld and they have more community feeling, having no community centre for everyone is a major issue, there is otahuhu town hall and panmure community centre and dunkirk even ellerslie has one but mt wellington has none except the church but we have no council community centre, yes we have sylvia psrk but as a person who lives here its not a community as it's filled with eveyone else coming there, also mt wellington countdown area is becoming more unsafe. I dont feel safe out walking on my own anymore.

Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Not very well

   Tell us why

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Free activities and events in local parks, libraries, and public spaces,Groups such as children, older people, and migrant communities can participate and connect within our communities.,Support local volunteer groups to continue to do their work in communities.

3. **Which of the following would most improve neighbourhood parks for young people? (Select up to 3 options)**

   Connections to public transport,Cycle and walking path connections,Other, please specify:Safety access e.g. more pedestrian crossings close to park entrances.

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you? (Select up to 3 options)

   Improve the cycling network,Ensure speed limits are safe,Better public transport (buses and trains)

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

Safe walking and cycling infrastructure is urgently needed. We want a Maungakiekie-Tāmaki that feels like living in an actual city, where we can walk and cycle safely, cross the road safely, access the train stations safely and commute or go to our local leisure spaces safely. This action needs to be made quickly and you are already doing great, but we need to move faster. Let's make our neighbourhoods the reference for the rest of Auckland!

Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Quite well

   Tell us why

   I read only the summary draft version, but was pleased that the natural environment is being given priority and working with nature, not against it. This is reflected in a concern for clean water/green spaces and public transport. However, the biggest problem our urban areas face is ignorance. I would like to see educational goals in these areas:

   1. People understanding how to separate their rubbish correctly, especially food scraps and recycling, and being responsible for the disposable of their landfill waste into the rubbish collection.

   2. People understanding that the old trees the pioneers planted are wonderful for the time being, but Maungakiekie will suffer later if we do not start planting new native trees now in public spaces to protect our urban areas.

   Unfortunately I am unable to attend the meeting at Onehunga Library on 4th July because of a prior engagement.

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Support local volunteer groups to continue to do their work in communities.

   Improve the cycling network,Better public transport (buses and trains),Other, please specify:This board should take an active part in objecting to the East West link, a clearly bad project for this region and Auckland as a whole.

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

With the work ahead to transfer some control over local street direction setting to local boards it's important that this is taken seriously and considered. This includes looking at improvements such as LTNs, lower speed limits or other vehicle restrictions to make for pleasant and safe communities, safe crossings, bicycling routes, and parking restrictions.

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

Yes please invest in more safe cycling paths (with barriers/planting so they are safe for children to use). Please connect schools such as Royal Oak Intermediate and Onehunha High school with better safe cycling paths (to kids in Mangere Bridge that attend these schools). Utilise the Onehunga to Mt Smart cycle paths and connect it to Otahuhu.

Please connect Onehunga to East Auckland (trucks on roads are a nightmare :( )

Please reinstate using the port near Onehunga as a public space (community hub, markets, etc).

Can we please educate or institute a ban on single use plastic bottles in our reserves and sports fields. The amount of plastic waste I pick up weekly is ridiculous especially at Marist after any training or game days. It is fantastic we have such wonderful facilities available but the waste and what gets blown and washed into our wonderful estuary is getting worse as our local population increases. Thank you.

A massive beautiful playground can be built at the Sir wolf fisher park on barrack Road Mount Wellington. It is a massive empty space that can serve the many kids well the nearest playground is Thompson Park which is old and for smaller kids 5-15 year olds would benefit greatly.

Something that I think would be highly beneficial is some more restorative/regenerative native bush planting at Ōmaru (point England) reserve. This is an area with large amounts of land already cordoned off from usage for things like dog walking as it's a protected space for our native birds, which I think is great! I firmly believe there is such great potential to continue planting more natives here and to expand on our already existing network of bush and bush walks that connect Ōmaru to Elstree Ave and further as a connecting route from the reserve to the Glen Innes centre. This feels like a great opportunity to incrementally improve what we already have and improve habitat for our impressive shorebird and migratory seabird population.

Another area I would like to add to is Economic development. I firmly believe that the addition of a cafe in Glen Innes would be great for local business as I have noticed a gap in the offerings in our local area for that, and I think it would be very successful with commuters if it was in a good location for the train station. As far as I'm aware the fastest way to get a coffee right now is from McDonald's and I think this is a great niche for a locally owned business, as that's somewhere I would like to spend my money. Anything that could be done to support this sort of local business ownership and growth would be great!

Stop parking limits near the bus stations. People use to drive to stations and then catch train, if you set limits, then people will just use their cars and drive. No one wants a fine for parking their car and catching bus.

Local Board: Maungakiekie-Tāmaki

Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Quite well

   Tell us why

   The plan considers how our area especially Tamaki is growing and changing. The major housing developments, improvements to parks, open spaces, supporting community and sports groups, caring for the environment, better transport infrastructure and services, are responding to future changes in our community.

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Free activities and events in local parks, libraries, and public spaces,Groups such as children, older people, and migrant communities can participate and connect within our communities.,Maintain and improve local parks, playgrounds and sports fields to better meet the needs of our growing community.

Local Board: Maungakiekie-Tāmaki

Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Not very well

   Tell us why

   The plan gets some practical things right - parks and open spaces, support for sports and community groups, community safety, and acknowledgment that budgets are tight. But overall it follows Auckland Council's standard framework - Maori, climate, and equity outcomes as cross-cutting themes - more than the priorities many ratepaying families would put first: keeping rates down, maintaining core infrastructure, and letting communities (including churches and volunteer groups) lead without heavy council direction.

   Transport leans toward active transport and public transport, while many residents' main concerns are congestion, parking from density, and reliable car access. I support sensible investment in parks, safety, and local facilities, but would prefer a narrower focus and more fiscal restraint. On balance, the plan partly reflects local needs but not the priorities I would expect from my community.

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Building partnerships with local groups and mana whenua to find local ways to provide for our community,Support local volunteer groups to continue to do their work in communities.,Maintain and improve local parks, playgrounds and sports fields to better meet the needs of our growing community.

3. **Which of the following would most improve neighbourhood parks for young people?**

(Select up to 3 options)

Safety improvements e.g. lights,Shade and seating,Wider play options e.g. options for over 10-year-olds

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you?
   (Select up to 3 options)

   Improve walking paths and footpaths,Work with partners and agencies to improve congestion issues

5. **Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?**

   Support parks, sports fields, safety, and core infrastructure. Prefer fiscal restraint over more events and activations. Growth is putting pressure on parking and congestion - address impacts on existing residents. Recognize churches and volunteer groups, not only council programmes. Transport should prioritize congestion and safe roads, not just cycling and public transport. Less Auckland-wide ideological framing; more value for ratepaying families.

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Free activities and events in local parks, libraries, and public spaces,Maintain and improve local parks, playgrounds and sports fields to better meet the needs of our growing community.,Other, please specify:Give the future a place to play and get together. Everybody of all ages are usually out exploring on a beautiful day so make these places interesting and fun for all.

3. **Which of the following would most improve neighbourhood parks for young people? (Select up to 3 options)**

   Safety improvements e.g. lights,Shade and seating,Wider play options e.g. options for over 10-year-olds

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you? (Select up to 3 options)

Improve walking paths and footpaths,Help town centres make the most of rail connections,Other, please specify:Remove the speed humps along Oranga Ave. These are actually really dangerous if not kept up to date with paint markings and the signs coming down the road are placed in wrong place for the warning ahead. The speed hump on Oranga Ave by Olea Road needs to be removed it is a hazard for all buses, having to slow for the pedestrian crossing and cars fly over it as it's not visible. You can't see them when driving and the x5 down Waitangi Road is a major joke! No street needs 5 humps. The road is so uneven.

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

Fix the Royal Oak Roundabout back to the way it was before. Since things were changed, the cars coming down Campbell Road on right lane, now pull out past the stop line blocking the left hand cars seeing. There will be another major accident if it isn't changed. That part of the intersection was pushed out further so those drivers now think that is where they should be sitting. So frustrating with people tooting us not to go but we in left lane cannot see past the vehicles.

   Improve walking paths and footpaths,Help town centres make the most of rail connections,Better public transport (buses and trains)

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

There is no provision for cutting hedges back to boundaries and grass that is overtaking footpaths. Look at older established areas like North Onehunga. Encountered in Alfred, Mt Smart, Grey Streets. Even AT has built a bus stop on footpath without cutting back more than half a metre to a boundary fence.

Local Board: Maungakiekie-Tāmaki

Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Quite well

   Tell us why

   The plan addresses a lot of my key concerns, including prioritising improvement of the Onehunga railway (this really ought to be the next addition to the CRL given it is our closest station to the airport), improving cycleways, and increasing tree cover. I'd like to see a greater focus on improving the alternative transport routes for non-freight vehicles along our most congested roads. If we could move more people who are working or living in the area on public transport (in a reasonably priced and quick way)our roads would be freer for the crucial freight that moves through our local board.

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Free activities and events in local parks, libraries, and public spaces,Maintain and improve local parks, playgrounds and sports fields to better meet the needs of our growing community.,Other, please specify:Improved accessibility (supporting our locals with different abilities!)

3. **Which of the following would most improve neighbourhood parks for young people? (Select up to 3 options)**

   Connections to public transport,Cycle and walking path connections,Events and activities

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you?
   (Select up to 3 options)

   Help town centres make the most of rail connections,Better public transport (buses and trains),Other, please specify:Dual walking and cycling paths/greenways that connect our areas and provide safe options for people to get active and go to work in different ways

5. **Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?**

   I'd love to see improved public transport to facilities such as pools. With the current cost of living pressures and the rising fuel prices, it is becoming increasingly hard for people to drive places.

Improve walking paths and footpaths,Better public transport (buses and trains),Other, please specify:Roading in neighbourhood area and intersection safety

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

I am pleased to see increased investment being directed towards Glen Innes, Penrose, and Mt Wellington. As the population in the Maungakiekie-Tāmaki area continues to grow, significant pressure is being placed on existing infrastructure and local services.

One area of concern is the impact of urban intensification on residential streets. While increased housing development is important, many local roads have become increasingly narrow, making it difficult for residents to drive, manoeuvre, and find adequate parking. In some locations, visibility when exiting driveways and side streets has also been reduced, creating safety concerns for residents and road users.

Traffic congestion has become another growing challenge. With the addition of major developments such as IKEA and the increasing number of apartment and housing projects along Mt Wellington Highway, travelling through the area and accessing the motorway network has become progressively more difficult.

While growth and investment bring many benefits to our community, it is essential that infrastructure, transport networks, and local services keep pace with development. I encourage the Board to investigate the changing needs of the Maungakiekie-Tāmaki area and advocate for improvements that will better support residents, enhance safety, and ensure Council services are responsive to the community's evolving needs.

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

the waikaraka park sports field surfaces are badly under maintained with little work undertaken in the last 10 years despite the large and growing use. A lot more use is in demand from residents but currently without improvements we cannot cater for -extra lighting and field improvements would make cater for a lot more people and make this a jewell in auckland for recreation

   Improve the cycling network,Help town centres make the most of rail connections,Better public transport (buses and trains)

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

While I appreciate that Auckland has upzoned a lot of areas, I would still personally like to see the current plan go further. I'd love to see the upzoning of all areas to allow for 2-3 storey apartments to help relieve pressure on us younger professionals, we are still lacking a lot of options for where to live in Onehunga (and Auckland more broadly)

5. **Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?**

I hope with the plan, they will take green, avoid flooding and car park into consideration. With new homes being build, think about green, carpark flooding, privacy of living (distance between houses but also neighbours). Sunlight that goes in the house. Bike lines that goes into each other & dont stop as you dont know where to go (same for walking paths)

Some footpaths are in a shocking state.

Cycling network doesn't help mums with buggies, older people, those without a bike or who can't ride a bike

Less inbuilt housing without careful consideration of infrastructure. Council approvals don't take into consideration street parking. On some streets there is literally no available parking once apartment blocks go in. It makes those streets extremely unsafe for everyone as visibility is limited

Your feedback:

1. **Overall, how well does the draft Maungakiekie-Tāmaki Local Board Plan reflect the priorities of your community?**

   Not very well

   Tell us why

   1. first you need to know the powers of the local committee

   2. then you need to know how much budget we have

   3. only then can we discuss what we can do for community residents

2. **Which of these do you believe our diverse community needs most? (Select up to 3 options)**

   Free activities and events in local parks, libraries, and public spaces,Increasing the visibility of different languages and cultures in our local area.,Building partnerships with local groups and mana whenua to find local ways to provide for our community

3. **Which of the following would most improve neighbourhood parks for young people? (Select up to 3 options)**

   Connections to public transport,Events and activities,Wi-Fi connection

4. **Local board decision making for transport is changing. Local Boards will decide on some things and advocate for others.**

   Which of the following transport issues are most important to you? (Select up to 3 options)

Improve walking paths and footpaths,Help town centres make the most of rail connections,Better public transport (buses and trains)

5. **Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?**

5. Do you have any other feedback on the draft Maungakiekie-Tāmaki Local Board Plan 2026?

Community

- Upgrade to Panmure Lagoon leisure centre. Increase OPEX for more intensive/frequent cleaning.

- Integrated sports facility at Dunkirk Road including a community café

- Support more arts initiatives (of different cultures) to activate the Panmure town centre shops

- Upgrade the “Welcome to Panmure” signs at approx. 466 Ellerslie-Panmure Highway and 112 Jellicoe Road which are both very faded and peeling. Better to put larger “Welcome to Panmure” signage and have detailed information along main pedestrian routes?

- Re-instate the iconic Panmure roundabout sign

- Add Kainga Ora and Tamaki Regeneration Company to the list as agencies to work with to reduce dog attacks. Dog Control Officers from Auckland Council have stated that many roaming dogs come from these tenancies.

- Run a community programme about responsible dog ownership delivered through schools, libraries and marae etc

Natural Environment

- More frequent rubbish bin collections outside the diary/takeaways at Hobson Rd Shops

- Increased native planting, shade, nature play and seating areas in Hobson Reserve (16 Hobson Drive, Panmure).

Built Environment

- Continue to prioritise and advocate for Panmure Unlock projects

- Continue to prioritise and advocate for park upgrades, transport improvement and town centre improvements as part of the TRC Masterplan.

- Advocate to Vector to underground powerlines in Glen Innes, Pt England and Panmure to help increase tree cover.

Economy

- Advocate for a new destination café at Dunkirk Reserve in order to maximise amazing views and cater for increased cycle touring traffic and community events.

Transport

- A protected cycleway along Pilkington Rd (from the Apirana/Tripoli roundabout to the Panmure town centre/train station was identified as a key route in the Auckland Cycling Network and allocated for funding under the Urban Cycleways funding (2014). However after the funding was cancelled in 2018, this section of cycleway has since slipped off the radar. Considering the completion of the Te Ara Ki Uta Ki Tai Stage 4 (due to open 2026), as well as the “Links to Glen Innes” (completed 2026) and the AMETI Eastern Busway cycleways (some completed), the Pilkington Rd cycleway is now a vital missing link. When completed it would provide a continuous protected cycleway all the way from Botany, through Panmure, to the Auckland CBD to the inner west and western cycle routes! How amazing is that. Combined with CRL connectivity options, Panmure could then become an attractive weekend cycle adventure for people in the central city/west to explore the Tamaki River, Maungarei and Panmure Lagoon, (especially with a new community café along the Tamaki River at Dunkirk Reserve and local art activities), increasing the local weekend economy. It would also provide a safe commuting option for people in Panmure/Pakuranga to cycle to the CBD. Advocate to NZTA and AT to have the final section of the Pilkington Road cycle route prioritised.

https://www.nzta.govt.nz/assets/Walking-Cycling-and-Public-Transport/docs/urban-cycleways/Auckland-urban-cycleways-map.pdf

- A protected cycleway between Onehunga/Waikaraka Park and the cycleway at the Panmure Lagoon, it could create a large continuous loop around the entire Auckland isthmus which would increase the efficiency and economy in the town centres that it passes through.
