If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Auckland FC has helped redefine sport in Auckland and has given sports fans a team to get behind. Moving them more central is a great way to continue that. Having a stadium of this size and quality will also be a great venue for other sporting events such as Chatham cup finals, school first XV games or women's sporting events.

This stadium makes a lot more sense than a waterfront stadium.

The bonus of being able to host concerts or high performance sports events is just another reason why this is a great idea.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

The proposed stadium is too small to support Auckland FC matches, with a capacity less than that of Mt Smart it seems odd to limit the growth of such a new and highly popular team. If the stadium's capacity was increased and it had a roof, that would be far more beneficial to both Auckland and Auckland FC. Though the lack of transport options would remain an issue either way. As such option 2 at least provides a spruced up version of what's there.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Auckland needs a stadium with a rectangular field for football or rugby and 10k to 15k seating. This will create greater spectator experiences for these codes. Also Option 1 will also cater to other sports and will be an asset that will be well used at little to no cost to rate payers.

It is the most attractive option that offers a wide variety of uses and is not relying on local rate payers dipping into their pockets.

Keep the speedway, if you're going to build a smaller 'boutique' stadium, take a page out of the Americans book, all over the country they have American football fields with these stadiums that have a 1/4 mile 'short track' around the stadium, this would satisfy the want and need for sports fields for semi professional and community use as well as all the passionate motorsport fans in the city who look forward to watching the speedway on a Saturday night.

The way the situation was handled with the speedway was honestly disgraceful and against what the people of auckland wanted. People should know, if you're going to buy a house next to a racetrack, it's going to be loud, and even at that it's only 3 or 4 weekends a year over summer. The reason of noise was a sham in the first place as the concerts generate more noise.

I'm not in favour of having a private business / football club build over and operate Western Springs. The stadium would not be accessible to all Aucklanders and will limit functionality for other events. Prefer it to stay public as a key central Auckland outdoor space and be home to the various sports , festivals and cultural events that aren't confined to 'stadium' footprints and infrastructure . I'm a big fan of AFC and their current home ground at Mt smart that has far more seating , better transport links and parking than the proposal. Auckland does need a world class stadium to showcase sports and entertainment. This isn't it.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Ideally I would like the speedway to return and things to remain as they were. Living very close to Western Dprings stadium the crowd that attenddd the speedway was amazing. It was so family oriented, so well behaved. There were young kids all the way to grand parents.

We do not need another stadium ad in option 1. The stadium at Albany is under utilised and would be a perfect option for the AFC.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Rates are already high as it is and they shouldn't be increased for people who might not even use this facility. We would be completely stupid not to take up this offer of it being privately funded, I hope decision is made with the head and not on emotions. It's stupid to consider thoughts of people who are not rate payers or have no connection to this.

We need a football designated stadium and a smaller venue in Auckland for atmosphere and 12,000 is the perfect size.

As someone who lives very close and has been to many concerts , Pacifica events and spots events over the years I feel option 2 to be the best choice and would very disappointed to see these occasions disappear. The park is more accessible to the general public as well with a great public transport system in place when large events take place. Speedway has already been taken away from the area let's not remove the Rugby, large concerts and community events .

Western Springs is currently outdated and underused - a shame for such a central area. Option 1 would rejuvenate the area and also allow it to be a better venue for concerts and sports - an update on its current functions. It would be great if the outer fields could also be rejuvenated and made into year round sports fields with better lighting, some artificial turf and better field drainage/levelling

The concept appeals to a wider and growing community with the most diverse use available. Additionally, the impact on businesses in the surrounding area would be positive and would bring along further growth.

It is very good to see that the ongoing maintenance and development costs would be covered by the ownership group.

The only additional point that should be considered is that there should be some public sector investment into public transport options to this area - ideally a train or separate bus lane allowing easy flow in and out of Grey Lynn would be ideal.

Overall, this is a move with the times and reflects current society more appropriately.

Western Springs is an iconic music venue and home of Ponsonby rugby (the most successful rugby club in NZ) and I believe the rights for both the rugby club and concert promoters should be protected. It is a shame there is not an option where all needs can be accommodated including Auckland FC? I also believe that a decision cannot be made in isolation of he broader stadium discussion and the role that a fit for purpose stadium could play hosting all of Blues / Warriors / AFC home games...a thriving stadium versus a diluted commercial opportunity with sub optimal

stadiums all competing against each other. My vote ultimately would be for a fit for purpose centrally located "football" stadium and decommissioning of both Mt Smart and Eden Park.

Firstly there is a 50,000 seat stadium just up the road what is the need for a second one just 3 kilometres away. It would be a nuisance to the community and an utter behemoth of an eye sore. It would also pose threat to devastating one of the most biodiverse ecosystems in the Central Auckland area at Western Springs park. It would be a sickening daily reminder of corporate greed that is enveloping our city.

I think a stadium that is central to Auckland is great provided the correct consents are gained and multiple use of the venue year round to make it worthwhile. A multi indoor court facility would be ideal to be built in conjunction with an arena

Western Springs has been the home of speedway for 96 years should and should stay there.

We have enough football stadiums around Auckland without using Western Springs for another one. Speedway has a rich heritage which will be lost if it is moved from the Springs.

I erg Council to give us a better deal than what we have had the last few years so we can get back on track again with a good promoter that will save our Speedway at the Springs

I live in the area (Waitematā or Albert-Eden local board),I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I don't believe that Option 1 or 2 provide the best solution for the utilisation of the stadium. I don't believe that any consideration to the locals will be provided under Option 1 and it will be driven by profits rather than community.

Future use of Western Springs Stadium

Low/no cost and provides a great asset. Community must have access though and not effectively be the privatisation of a public asset by stealth

Because the speedway has been a staple to the area for over a 100 years! It’s very nostalgic to me, my family, the community of the area and the motorsports community. Racing should continue same as it has been for the last 100+ years.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I strongly advocate for Option 2—the Western Springs Bowl proposal—as the optimal vision for Auckland's future cultural and entertainment landscape. This approach leverages the unique characteristics of Western Springs Stadium to create a dynamic, flexible, and cost-effective venue that aligns with the city's rich heritage of music and community events.

Western Springs offers a rare combination of a natural amphitheatre and expansive green space, making it an ideal location for large-scale outdoor events. By enhancing this existing

infrastructure, Option 2 preserves and amplifies Auckland's cultural identity, providing a venue that can host a diverse range of events while maintaining its community roots.

Positioning Western Springs alongside renowned international outdoor venues such as the Sydney Myer Music Bowl, HOTA Outdoor Amphitheatre, and Darwin's Amphitheatre establishes a unique summer touring circuit. This strategic alignment enhances Auckland's appeal as a destination for major international acts, fostering cultural exchange and boosting tourism. It is a point of difference offering with mana. Like the Great Hall is where the Beatles played, Western Springs is where Bowie and Marley performed, and that 'experience' to perform with such heritage is attractive for artists.

A proposed model that emphasises a "plug-and-play" infrastructure approach, offering promoters the flexibility to tailor events to their needs without the prohibitive costs associated with traditional venues, would be beneficial. This adaptability ensures that Western Springs can accommodate a wide variety of events, from large concerts to community festivals, without compromising on quality or accessibility.

By designating Western Springs as the primary site for ticketed events, Option 2 would alleviate pressure on the Domain, which I believe is worth preserving for occasional use and maintaining its status as a public space. This strategic allocation ensures that both venues can serve their intended purposes without conflict, enhancing the overall event experience for the community. It would be great to see the council connect the dots regarding public space infrastructure for ticketed events. I fear that if Option 2 is not delivered, the pressure on the Domain will increase, and the area is not fit for purposes for that level of interest, potentially compromising its original key purpose.

Auckland's central city currently lacks sufficient outdoor venues for cultural festivals, food fairs, and boutique events. While Queens Wharf has played a role in facilitating promoters' needs for weekend events and concerts with audiences exceeding 3,000, the future of that site is uncertain as the city navigates central wharves development. Option 2 can pick up this pipeline and largely deliver it, ensuring continuity and growth in Auckland's outdoor event offerings.

While Eden Park boasts a 50,000-person capacity, hosting events of this scale presents significant challenges. The venue's primary design and operational model can impose constraints on staging flexibility, audience comfort, and operational efficiency. These limitations often deter promoters from considering Eden Park for events with attendance ranging between 20,000 and 50,000. This segment represents a substantial portion of the market, encompassing mid-tier international tours, boutique festivals, and cultural events that are currently underrepresented in Auckland's offerings. If Option 2 ensures adaptable design and flexibility, it offers promoters a cost-effective and logistically favourable alternative, ensuring Auckland can attract a broader spectrum of events and audiences.

A collective approach, involving stakeholders beyond just the council family, to assess the city's event content pipeline alongside its current and future infrastructure is well overdue. Such a collaborative effort would go a long way in ratifying this options analysis and ensuring that Auckland's event landscape evolves in a cohesive and sustainable manner.

Option 2 offers a balanced, forward-thinking solution that honours Auckland's cultural heritage while embracing future possibilities. By investing in Western Springs as a premier outdoor venue,

we not only enhance the city's cultural offerings but also create a sustainable model that benefits both residents and visitors alike. I wholeheartedly support this vision and encourage its adoption as the city's path forward.

I am a massive Auckland fc fan, and having them in my area would be so much more convenient the driving all the way out to mount smart (which can sometimes take an hour). Also I would love to have more sports games in general in the area, and no doubt the arena could be used for concerts and things too to meet everyone's needs. I just think its an awesome idea :)

This option is more inclusive. It keeps all of us engaged and will enable all realistically access activities. It recognises the diverse community that enjoys the activities in this space already. It also respects the important history associated with this space. It is a mana enhancing option. It is NOT an elitist proposal, which I believe option one is. Option one would finish opportunities for ordinary people and it will erase the important heritage that we should protect and celebrate. Option two is a vanity project, rather than one that reflects the communities needs and aspirations.

I think it's an amazing opportunity for the area with little cost to the tax payer. The owners of Auckland FC have demonstrated their ability to make a real difference for the city in their first season and will continue to do so.

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Urban growth now means western spring isn't any longer suited to large capacity events. The impact on traffic movements now means residents and through traffic are impacted to the note of 45 -1 1/2hr delays in movements. The next large stadium needs to be located in the centre of all transportation feeds. The port is ideally suited to a large stadium and can facilitate large scale movements from greater surrounding suburbs. The port also provides the option for train and ferry transport reducing the need for traffic created by cars and parking requirements.

Urban growth now also means a more members of the public are now impacted by noice of the events - again this mitigated at the port.

Many grounds internationally have been returned to park area to support surrounding residents.

Maybe this is time for western springs to be returned to green space. A small area of commercial could be sold off to support the cost of a club room or community centre.

All the best.

I want ponsonby rugby to continue there. My children played rugby there and it feels very much part of the community.

I believe it should keep a community feel with concerts and events such as pasifika.

The bowl is perfect for a concert venue and with a permanent stage will be ideal.

Don’t know why speedway had to move. Speedway was a very relaxed family crowd. Very concerned about drunken football fans in the neighbourhood. They are already fighting in the stands at events.

I believe this will enhance our locally community by bringing state of the art facilities at a considerable cost that our local council could not afford otherwise. Ponsonby Rugby could be relocated to GreyLynn Park with shared clubs rooms with Rugby League to help with the upgrade and sharing the cost of maintenance.

Option 2 best serves Auckland communities as a unique music and festival venue. It is also the longstanding home of the Ponsonby Rugby Club. Option 1 may on the face of it appear as though it is cheaper / require less taxpayer funding, but as run by a private entity over the long term it runs a very real risk of costing the communities more to use. In addition, 100 years assuming both rights of renewal) is far too long. The founders for option 1 will not have the community at the centre. Option 2 provides ann excellent venue to maximise use and encourage community participation. Option 2 is also a better use of the natural environment including the natural

amphitheatre. Option 2 should be selected but if not, then option 3 should be selected in order for more work to be done before option 1 is considered.

The speedway and Ponsonby Rugby with the concerts is a winning formula that is proven to work and delivers to multiple interest/community groups in the local and wider Auckland area. Just leave it be.

Options 1 and 2 will take the space away from the community and give to private owners. This is a terrible site for an arena or bowl and will cause massive traffic issues. The council should seek further ideas as the current proposals are not fit for purpose.

I feel it is the best multi use of the stadium. It gives it purpose, it will be less noise than 50,000 seat entertainment stadium, so less complaints, and we also already have mt smart and spark arena who offer similar features, I would be excited for the ADC to play more centrally as well as it would mean I am more likely to attend a game.

I grew up in Western Springs, and have attended Speedway, concerts, rugby matches, rugby league matches there. The Auckland Zoo, Te Wai Orea, Western Springs Stadium have been important precincts. It is an important cultural hub with significant history. 96 years of Speedway, and over 30 years of history with Ponsonby Rugby should continue as is, and perhaps Government should intervene and help to support the mana whenua of this iconic space shared by hundreds of thousands of people.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 2 best reflects the natural history of Western Springs, the Ponsonby Rugby Club (which is frankly a New Zealand institution), the Pasifika festival and other festivals and Western Springs as a pre eminent venue for major concerts in New Zealand. Bob Marley, The Rolling Stones, AC/DC and David Bowie have all played at this natural amphitheatre.

This history cannot be recreated.

While I acknowledge there needs to be change from the status quo, Option 2 reflects the best chance to hold on to the past but pivot towards a future that protects the history of the environment and the natural amphitheatre, provide needed public space and keeps the Ponsonby Rugby Club in Ponsonby.

The club will surely provide further comment but the alternative homes simply do not work. Auckland FC can find an alternative home; the Ponsonby Rugby Club cannot.

Further, there are core issues with Option one as follows:

· A shareholder of Auckland FC states in a LinkedIn post that this isn't about giving Auckland FC a home of our own, it's about creating a community asset which Aucklanders can all enjoy, whether we're regularly going to games or not. Pitching this as a community asset is patently incorrect. A lease for a potential 100 year term gives exclusive possession to the Auckland FC and the ability to exclude everyone else. There are no community facilities in terms of free access available to community members. This is entirely the privatisation of a public asset with punters left with a pure pay to play scenario. To dress this up as a community project is disingenuous to the point of it being blatant fabrication of the truth.

· The shareholder goes on to state that the whole facility will be entirely privately funded so it doesn't need to cost the ratepayers a cent. Again, this is somewhat flippant with the truth. The Ponsonby Rugby Club will need an alternative home if they are kicked out by Auckland Council. While none of the homes proposed by Auckland Council work, assuming an alternative facility was found Council states the cost to relocate would be in the vicinity $30m. That would be funded by Council. Auckland FC also has its hand out for a Council contribution by way of upgrades to the roads with costs in the vicinity of $30m. That's $60m being paid out by ratepayers with no recovery of these costs from Auckland FC. And that's without even thinking about the fact we're privatising a public asset for no tangible financial benefit. There will be no positive cash flow coming to Council from Option 1.

· The shareholder goes on to state that the buildings revert to the Council at the end of the lease like this is a great deal. There is no mention anywhere of a handover condition of the asset. In a deal of this nature, the handover condition is a critical part of the deal. I haven't seen it referenced anywhere. This speaks to a lack of commercial acumen or detail and the structure of this proposal. Further, not long ago, Auckland Council bemoaned the fact that we had too many stadiums; now we mean to celebrate having another sports-focused stadium? I note there was talk of shutting down Albany because of surplus not long ago.

· The other issue is public transport. Proposed new stadiums have emphasised the need for proper public transport connections. Western Springs has none. Eden Park is right next to a train station. GO Media stadium has a station within walking distance.

· The capacity of the stadium is also an issue. Already crowd numbers exceed the planned capacity of the stadium for Option 1.

If Auckland FC was required to actually have public realm open and available to the community for free and fully share its facilities with a Ponsonby Rugby Club as a co-tenant, then (subject to the serious issues outlined above being resolved) I could consider Option 1 further.

The Hurricanes and the Wellington Phoenix have proved that a professional rugby and a professional football team can coexist. It seems odd that a professional football team in Auckland cannot coexist with a rugby club.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Given the rich tapestry of history at Western Springs, the prestigious Ponsonby Rugby Club, the vibrant Pasifika Festival and Laneways among others, it would be a great shame to lose New Zealand's own natural amphitheater space and surrounding green area to an effective concrete jungle. This iconic venue, graced by legends like Bob Marley, The Rolling Stones, AC/DC, and David Bowie (and our own Six60 and Lorde), is irreplaceable in its charm and legacy.

I firmly opt and maintain that we can embrace the future while cherishing the past with Option 2. This option assures that the cherished green space of Western Springs is preserved and the Ponsonby Rugby Club remains firmly rooted in its original home (and thus continues to spawn

future All Blacks and Black Ferns), ensuring the club's indispensable role within the community continues without disruption.

Option 1, however, carries significant drawbacks. Characterized as a "community asset," it surprisingly offers no free public access and instead prioritises exclusive possession by Auckland FC for up to a century. Moreover, the proposed plan places a burden of approximately $60 million on taxpayers, despite claims of private funding. Ratepayers are expected to cover relocation costs for Ponsonby Rugby Club and infrastructure upgrades without any financial returns from Auckland FC's arrangement. Further, the transition of facilities back to the council lacks transparency and foresight, missing out on essential commercial details.

Let’s champion the solution that aligns with our collective values and aspirations. Opt for a future that respects the past while forging innovative pathways. There are spaces existing for FC (and if they are that set on a bespoke set up, they could easily create this themselves on private land), but there is no viable alternative to protect Ponsonby Rugby. And that would be a great, great shame.

I completely agree that the this space should be used by the local Rugby club and the other community uses supported by this option. While I have never played, or had children playing for the ponies, they are an integral part of the community. I also support the use of the space for entertainment and potential even test cricket, given the natural of the space. While I acknowledge the cost of this, I see supporting the local community is main driver here. I have live for over 35 years in this part of the city (Grey Lynn/Ponsonby).

I believe the greatest good for the greatest number is to ensure the Springs stays in public hands with private partnerships fronting for the musical staging element, but also recognising the huge contribution Ponsonby Rugby Club makes in wellbeing and inclusion of the entire community. With heritage and history it benefits hundreds of young people - many of whom go on to other avenues as well as high achievements in sport. The dual nature of music in summer and rugby/sports in winter, plus the removal of the club-house threat from the flood plain, is an excellent outcome. Musically the bowl has been a standout since the 70's, and retaining and

improving the access to that for concerts like Womad and others, while providing fiscal return to the city, and not damaging the area but keeping it in public hands with having full access, is prudent, judicious,and exemplary.

Option 1 is untenable for many reasons, not least of which is locking away a magnificent public asset of green space into private lockout ownership for 99 years that sets a precedent that could see the city in serious trouble. There are no terms of any lease that could ameliorate the risks of failure, which could be brought about in numerous scenarios, I.e. financial difficulty, or the death of an aged speculator, or the failure of the team and subsequent reduction of spectators, as experience shows only too well. Should the public parks be sold to the highest bidder, the question can be asked where do you stop? The Art gallery? Museum, the Domain? The cost of construction is also unknown with estimates of 200 or 300 million, so broad as to pointless. Therefore the greatest benefit to the community and to Auckland City lies in option 2.

What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I'm an AFC season ticket holder and live in Ponsonby. While I'd love to walk to AFC matches and want more basketball courts nearby for my kids, we have other suitable stadiums to host football. North Harbour could be a viable option for development too. Western Springs bowl + indoor basketball courts would be a winner.

Option 2 is pragmatic balance of enhancements without spending too much money. Option A sounds like over development and I don't think it takes into account development of other infrastructure service that would need to happen to support the vision- undertaking those other developments would cost ratepayers more than the backers of Option A claim, while not undertaking those broader developments would makes the main proposed development not fully usable,

I chose Option 2 because I prefer to support a local longstanding sports club and I believe Option 1 is an exclusive option that will build an imposing structure that will also result in higher prices for events that may be unaffordable for many. I also am skeptical that Option 1 won't ultimately tap back into rate payer funding in-spite of the group saying they'll fund it.

Recently joined Ponsonby RFC. Having played rugby for years this is by far the most welcoming, community based team I have ever been involved with, with a big emphasis on culture. I feel very proud and lucky to be a member of the team, and have always felt a huge sense of pride in playing at such an amazing home park, Western Springs. The facilities including the clubhouse and outer fields have been pivotal in the continued success of Aucklands most successful club as well as being a provider for events and a hub for the community.

Western Springs needs an up grade which either option 1 or 2 would provide. However, my preference for option 2, despite the cost to rate payers, is because it would keep WS in public hands and give greater opportunities for community groups to access the site. Also I'm concerned whether option 1 might have an impact on WS Lakeside.

It's an iconic and historic music and sports venue. The public can access the outer fields. It could easily be developed into a world class bowl venue. Giving it to billionaires for 100 years, and letting them destroy the amphitheatre to build a concrete sports stadium would be criminally negligent. The city cannot give away our assets like that.

I have lived in Western Springs directly across the road from the outer Outer fields.

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I have been living across the road from The Outer fields for 24 years and have observed and experienced the many events and changes around the Western Springs Stadium area. When we arrived here, Speedway was wild and uncontrolled, the noise was chaotic as the cars had their mufflers removed and raged on until midnight, we had to go out to survive. Then, noise control and limited hours calmed the mayhem. Great concerts have been part of the Stadium's history, I saw Bowie, Grace Jonesline ups of New Zealand music...such history. Currently, the Springs shares events, Saturday rugby games, music, Laneways, and Pasifika. Locals walk dogs, practise golf, and picnic under the trees. The stadium is our Colosseum, the raked oval shape perfect for

concerts or theatre, these options can been further developed. The potential to create a cultural space is limitless. The area has been home to concerts and rugby not to mention the residents who live around and close to these events. Home is important to the community, the use of the commons must be allowed.

Large events are well managed currently, and we do not need a larger operation that will spoil what is already working. Option 3 would bring MORE disruption during building, the Watercare inceptor has been in progress and will be another year until completion, it is noisy and has disrupted walking paths and access to areas.Any major build will be intolerable for the residents and the surroundings. Option 2 is a good resolution, providing a set stage would decrease the need to reinstall staging for each music event, which would cause fewer disruptions. The individuals involved in Option 2 are locals and have experience in the area and site. It makes sense to repurpose what we have , a new build is excessive. Option 3 has included a gym, do we need more gyms in the area??? The area is well catered with fitness businesses and gyms.

I would like to speak to this if there is an opportunity.

A purpose built football stadium would be awesome. Auckland doesnt have that on a big scale. One that can also be used to host music and smaller rugby games would be cool too. Much needed in my opinion

Community facilities should remain open to all. With option 1 most of the space would get used by private commercial enterprises. Option 2 strikes a better balance between commercial and public use. It also allows for Ponsonby Rugby club to remain where it is, which given the lack of alternative ground options is important. For example a move to Coxes bay would cause significant issues and make the space less usable for local residents as well. Rugby is open to all ages and encourages community and wellbeing, whereas the Auckland FC is a professional club which is focused on profit. This does not seem a good use of council owned land. Auckland FC also has

other options for grounds and would be better focusing on developing/upgrading one of these rather which already have infrastructure in place rathe than building another new stadium.

In addition I have significant concerns about parking and traffic congestion in the local area if there were regular football games played. For festivals and concerts people more frequently take public transports so this is likely to be less of an issue. Finally building a large stadium on top of a flood plain also does not seem sensible from an environmental perspective. Better to retain the natural bowl that exists.

I also question the costs used in the consultation document. The way it is stated implies significant savings for option 1 but doesn't factor into the costs of having to develop alternative facilities for Ponsonby RC. Nor do the costing include environmental impacts or impacts on the local residents.

I believe the people behind both proposals have a pecuniary interest in what they are proposing they want the land to build on and make money from. I believe Council should put it out to international tender with the stipulation thwat the proposal is at zero cost to ratepayers. local area traffic management should be a key consideration .

Speedway should be retained at the current site. It is a globally iconic location with many years of history. I found it disgusting the council would vote to remove it purely for monetary reasons. The history, culture, and identity of the city is being destroyed.

Dear Western Springs Stadium Team

I think you are going to run into legal difficulties if you proceed as you are.

One of your justifications for the selection of Option 1 as the Council's Preferred Option are the savings to ratepayers relative to the other options.

Only Option 1 requires 'access' works for which you have confirmed there is no design and therefore no costings.

Without knowing the cost of the 'access' works you cannot know whether there will be any savings arising from Option 1 relative to the other options.

The statement in the consultation document that sets out the significant savings associated with Option 1 is therefore misleading

If the true costs of Option 1 were known you might receive very different feedback to your consultation.

Given this is a procedural error on the part of the Council any decision made by the Council will be vulnerable to judicial review from an aggrieved party.

The promoters of Option 1 will have prepared extensive drawings to support their bid for Western Springs Stadium. This provides enough information for your engineers to preliminary design the access works from which budget costings can be determined. This is a major intersection and the suggestion that the 'access' works and 'displacement' costs can be funded from the $13M in the 10-year budget is again guesswork and misleading.

It is entirely conceivable that the cost of the Option 1 'access' works could cost ratepayers significantly more than Options 2&3.

The consultation needs to be paused while costings are prepared and then extended.

I believe not utilising the existing bowl structure for more concerts and events would be a waste of the incredible space that Western Springs already has. Given that speedway infrastructure is no longer a factor to consider, I think it would be in the best interests for both the culture and economy of Auckland to fully develop concert infrastructure at Western Springs to make it a truly attractive destination for international performers, as well as maintaining the outer fields to better supplement festivals and potentially other sports events. There are existing stadiums which are already well-equipped to handle larger sports activities, and that's not to say those

couldn't happen at Western Springs anyway, but to not pursue option 2 would be a missed opportunity for a venue with such prestige and facilities that only need some more infrastructural support, rather than a complete overhaul

I would like to express my strong support for the proposal to transform Western Springs Stadium into a world-class, multi-purpose venue that brings together sport, culture, and entertainment for the benefit of all Aucklanders.

This redevelopment presents an exciting opportunity to unlock the full potential of this iconic site. With a 12,500–15,000-seat stadium, high-performance training facilities, and community-accessible amenities such as basketball courts, padel courts, and open training fields, the design strikes a powerful balance between elite sport and everyday public use. The venue's concert

capability and its role as the home ground for Auckland FC add further cultural and economic value to the city.

The proposed leasing arrangement—where TAU retains ownership of the site while private investors fund and maintain the development—offers significant long-term financial benefits. With private investment of $200–$300 million and a commitment to cover all maintenance, this project could ease the burden on ratepayers and reduce public funding requirements by more than $18 million over 50 years.

This is a forward-thinking, community-enhancing proposal that reflects Auckland's ambition to be a vibrant, globally connected city. I fully support its progression and urge decision-makers to prioritise it in the best interest of the city's future.

Vital part of life for residents

Vital part of inner-city life for many thousands of people. The notion that locals are opposed to the speedway is totally dishonest.

I want western springs to stay. The crowd that we get there attracts good sponsors that keep me racing. Racing at alternative stadiums WILL NOT pull crowds equalling less sponsorship which may end my racing.

Ponsonby Rugby Club provides affordable rugby for all ages as well as other activities and any proposal which does not cater for them will not have my vote.

Proposal 1 is driven by Auckland FC's need to have a permanent stadium and one which they control. As a result community access will be at a premium and at a cost which will be prohibitive for may in the local community.

Additionally the $106million in extra costs is over 50 years so $2million per year on average, a drop in the ocean for the council. Auckland Council must define a whole of Auckland stadium strategy & how these options fit into that strategy. it is clearly the council's duty to select the best option for Aucklanders and not the one which, apparently saves them money.

This provides a broader range of options for use across many different organisations. It also doesn't require as much public funding as option two. A purely entertainment venue is unrealistic given the low number of major overseas stadium acts coming here these days - they go to Australia instead. Lets make something that works for a wide range of the community.

The Bowl is a unique concert venue which provides an amazing experience.

Allowing a community club to remain is essential, especially given the numbers they provide.

The alternative option at Coxs Bay does not serve the club or community due to the congestion, lack of parking.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I am part of a cultural or community group

There are three options to consider

Which option do you prefer? Select one option only.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

New Zealand as a whole needs more investment if we are to attract economic growth, this is a no brainer. Ponsonby rugby should move to cox's bay which also needs investment

Keep things as they are. Ponsonby Rugby and speedway deserve to stay there. There is already enough traffic in the area, the amount of discourse building a new stadium would cause the area is too significant.

My wife and I are long term residents and users of the facility-the park/walking/concerts. We do not want it to be taken over as a soccer ground/performance sport facility. It currently meets many cultural needs- Pacifica etc and is a fantastic open space. We aren't opposed to speedway remaining. We support the space being available for multiple uses; option 1 does not provide for that. There is little parking or public transport which the "Auckland Stadium" requires. If this about council spend, then leave it as it is for the ratepayers and locals.

There are so many stadiums; there is talk of closing North Harbour, a similar size. There's also Vector, Mt Smart, Manukau, Eden Park.

Speedway also has a long tradition there and apparently it is a world renowned venue and not too intrusive if current restrictions or similar remain.

Move the Port and put a stadium (big) there where all the necessary infrastructure is being completed currently.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I generally think development is a good thing when done right (and I'm ok with either option 1 or 2). My main concern is that any stadium that is built should not affect the outlook of the houses that sit on Old Mill Road (I.e. the hight of the stadium should not go above the hight of that natural amphitheater / the natural amphitheater should somehow be incorporated into the plan as it's such a cool feature. Also, if proceed with option 1, be great for the stadium to still be able to host concerts.

I dont think Auckland needs another football stadium.Mt Smart has worked very well for AFC.Western Spring Ampitheater type atmosphere is un matched.The proposed ne stadium looks terrible and is a concrete jungle in the midst of our beautiful park.Ponsonby Rugby is famous and deserves its homw.I would have like speedway to remain after uch rich history but Wayne seems to have put paid to that.Keep it for Western Springs Bowl

I do not support a public facility going into private hands for 50. or up to 100 years - essentially 3 generations - by which time all notion of it having been a well used public space will have been lost. The argument that it COULD reduce public funding by $18.1 million over 50 years equates actually to only .36m per - a sum not worth loosing a public space for.

Also, any private consortium will want to make a profit from its investment, which may prevent some users from being able to afford to use the space.

Noise and parking problems in the area will probably increase.

Finally, Auckland already has a number of under-utilised sporting venues. Adding one more will only make this situation worse.

Keep Western Springs in public control.

Western Springs is home to Ponsonby Rugby Club, has a long history and one of the original rugby clubs in New Zealand. There are no equivalent facilities in the area so cancelling the lease and selling the ground would be the end of the Club as it needs to be resisted in the area. There is also a need for the venue in terms of other attractions. It is close to town and transport infrastructure and ideal for big events. The Ponsonby Rugby Club should have its lease renewed.

The natural amphitheatre is perfect for all music events. I spent my youth going to this venue for many overseas music concerts . Auckland is lacking a similar natural venue. Think Hollywood bowl & Melbourne's Sidney Myers music bowl. Wonderful natural outdoor music venues. It can also double as home to Ponsonby rugby club. A win win situation. This would be my choice and I hope it is the choice of Aucklanders.

I have attended concerts and festivals at Western Springs since 1978 ... Bob Marley , David Bowie (2x) Boz Scaggs, U2 and The Rolling Stones ,to name but a few . I have never attended Speedway but as a nearby resident have had no problem whatsoever with them being there . I can see no point whatsoever in turning it into a smallish football venue for a new club which attracted over 20,000 to its most recent game . This makes it woefully undersized for this purpose and cuts out all the fabulous musical events it's so reknowned for . It's wonderful to have a central entertainment venue which is well served by local bars and eateries and is easily accessible . If a

Hollywood Bowl style development t proves too expensive leave it as it is ... if it ain't broke don't try to fix it !

I grew up living behind the speedway and have fond memories going there growing up. It's a travesty to throw away 96 years of history. It's an Auckland icon that cannot be replaced and Waikaraka Park does not even slightly compare to it. Auckland Council is ruining the lives of so many people in the Speedway community. I'm heartbroken.

I fully support keeping Western Springs as a concert venue for Auckland - it's hosted so many amazing acts and events over the years, it's the perfect outdoor venue for our city. Keeping the area as green as possible is important to me. Feels like with relatively small investment Auckland City could enhance the space and create a community friendly venue for the city to enjoy for years to come.

worried for Ponsonby Rugby which is a local historical institution. Lived in the area all my life and have enjoyed every event e.g concerts, speedway, cultural events, local rugby. However my rates have also increased over time and I am invested in the area and do not want to move. Council if reducing rates means we sell off to investors, will this mean local jobs, will profits be reinvested back into the local surrounding community. Will this put more pressure on the zoo and the lake. Look after Ponsonby Rugby for the future.

I chose the option based on the belief that every great city deserves an iconic music venue — a space that not only hosts world-class performances but also becomes part of the city's cultural identity. Western Springs Stadium has long held a special place in Auckland's history as a live music destination, and it has the potential to once again be a vibrant hub for major concerts and cultural events.

Music brings people together, supports the local economy, and showcases our city to the world. With thoughtful investment and planning, Western Springs can continue to be a landmark venue that reflects Auckland's diverse creative energy and strengthens its reputation as a global city.

For future use, I'd suggest exploring a multi-purpose redevelopment that supports both major events and community use — such as open-air festivals, night markets, or cultural showcases. Improved access, noise management, and modern infrastructure could help ensure the space remains sustainable and inclusive for generations to come.

Leave things as they are. The home of speedway has been at Western Springs since 1929 and is still a popular destination for speedway fans. International drivers have praised the destination. The proposed move to Waikaraka Park will be a retrograde move. I have been to both and, even with the proposed improvements, it will never be as ideal a venue as Western Springs not to mention a lot more inconvenient for fans. The proposed improvement funds would be better spent at Western Springs.

Also Ponsonby Rugby Club is well established there and does not want to shift and the venue is ideal for concerts and has been for many years.

Don't destroy long established and loved venues for the sake of $$$$$$ and learn how to run stadiums properly. AFC train at North Harbour Stadium so why can't they use that as their home ground as well.

Enhanced status quo with better facilities for concerts and Ponsonby Rugby, minimal additional opex ($1-2m per year over 50years). Concerts and rugby have a long history there, we don't want the newly-arrived nimbies to chase them out the way they did with the speedway. Do not support privatised use of Western Springs with AFC proposal, sincerely doubt that there will be 'no cost to ratepayer' over the long term - we've been promised that with so many sports stadia or arenas in the past and it always reverts to council/ratepayers to rescue the supposedly private venture. AFC

can continue to use Mt Smart which already has considerable ratepayer investment and is a much larger capacity than the proposed new stadium.

Option 2 is much more in keeping with the existing natural environments and historic recreational uses around the Western Springs lake area. Option 2 also allows a greater capacity for many more people to enjoy the facility

I object to public space being privatised to benefit a tiny number of powerful interests. Also, the idea of a large concerted bowl woukd be visually unattractive. A small scale boutique ground could be integrated into the present envirinment, along with the possible return of speedway.

I chose option 2 because I do not want to see the addition of development and concrete at WS. What I want to see is a beautiful and modern music, event venue that retains the grass and trees, is world class and continues as the iconic venue it has always been (albeit upgraded, tidied up and modernized), complete with a fantastic and permanent digital sign out the front. If WS becomes a world class outdoor venue, big artists will come .. complete with the spending power of hundreds of thousands of spectators (ie) an economic windfall for the city.

I have been to so many concerts at Western Springs since the early eighties and have always valued it as an amazing natural amphitheater and treasured the outdoor space. In more recent years I've enjoyed the events that have combined performance spaces on the Outer fields as well. Loved attending the recent Pasifka here too. I believe in should be keep as a multi purpose out door public space where, as many different performance, cultural and community sporting events are held. I would like to see it receive a bit of additional landscaping perhaps some more larger trees and shade options and a general upgrade but certainly think it would be a great lost to have

it as an elite sport and performance space. It's pretty wonderful how it is with a bit of additional love showered on it. Also in these times of Climate change I believe in sponge cities which means keeping as much permeable green space as possible in our public areas. .

I think that this venue has long been accessible by the community, and there are local groups who have a strong connection to the area, and we would risk losing the community access to the space with option 1. Although there is a bigger cost ultimately for Aucklanders, by leasing the land to the group from option 1 for up to 100 years or more feels like it is selling land to private rich listers for their benefit. We risk losing great local facilities and a space that is open and accessible to all types of people in favour of allowing rich listers to dictate the direction of the city. I prefer option

2 as it develops the space into something more modern but also keep the community at the fore front, and is beneficial to a wider range of people and groups.

Western Springs is the best live music venue in the country. I have joined older family members in attending many memorable shows there in the past and hope to continue to do so. An upgrade of current facilities, including in the outer fields,, would be the best use of this fabulous location. Have also enjoyed Pasifika and other cultural events. Sport is already well served by other locations and Auckland.

Preserve and further develop Western Springs because a permanent stage will allow it ti continue to be a brilliant concert venue. Also, clubroom facilities for Ponsonby Rugby to use during the season means it serves both sport and music. Auckland community will benefit from this option in many ways.

Western Springs as a venue has huge character and really serves the local and wider community as a concert venue but also sports fields and events. It is a local community asset as well as a concert venue rare for its freshness and openness. I respect AFC and what it achieves but this is not the right place to lose such a great public asset. Thank you.

The Western Springs Arena is such a unique space and the areas occupied by Speedway and Ponsonby Rugby are their "homes" with much tradition, memories and happiness associated with them. Ponsonby Rugby in particular proves a home at Western Springs for many families and children who meet , play and socialize there. What will happen to Ponsonby Rugby if the Lease is not renewed. Will this proud and successful club disappear with a major loss to community sport? What happens to their investment?

Option 2 is the better option as it allows for the continued public access of the Western Springs stadium for various events, and gives a shorter timeframe for the lease. The option 1 lease excludes other public usage for potentially 100 years, and give one private business group an exclusive property right at the expense of all Aucklanders. A football stadium with 15000 seats capacity is currently too small for what is being proposed under option 1, and unlikely to meet the future growth needs of that sport over the potential 100 years of the lease.

I think it is important the stadium remains in public hands. I have been going to the stadium for 50 years, to speedway initially and in later years concerts of all varieties. My family are involved with Ponsonby Rugby, I have been to many functions at the clubrooms there,and watched many Saturday afternoon games at the stadium.

Proposal 2 seems to me to be the best use of the stadium.

Auckland needs a permanent spot for football, and it is private sector investment. However, better connectivity will be needed from council to make it accessible to get there via public transport

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

The Western Springs Bowl is the most community friendly option. It means that the Ponsonby Rugby Club can continue its long association with Western Springs . There is also no other suitable venue for it to continue.

Option 2 would use the amazing stadium bowl for concerts and other events instead of closing it all off as in Option 1.

Option 2 would mean there will be more community use whereas Option 1 would close it off for private events.

I would not want a community venue and asset to be given to a private company especially with overseas finance.

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

The newly proposed ideas for Western Springs Stadium may sound ambitious on paper, but in reality, they are fundamentally flawed — particularly when it comes to accessibility and practicality for Auckland FC and its growing supporter base.

One of the most glaring issues is the lack of reliable and efficient transport options from surrounding suburbs to Western Springs. For a city that struggles with congestion and has a public transport system already under pressure, expecting thousands of fans to descend on an area with poor connectivity is not just unrealistic — it's irresponsible. There is no nearby train station, limited bus capacity, and minimal provision for event-day shuttles or park-and-ride solutions. In short, the stadium is hard to get to, and the proposal does little to address that.

Even more baffling is the mismatch between the stadium's size and the proven demand for Auckland FC events. With regular season match attendance well exceeding 20,000 and even higher numbers during the finals series, why are we even entertaining the idea of a venue that isn't fit for purpose? A club with that kind of support deserves — and needs — a stadium that reflects the scale of its community backing. Investing in a stadium that can't accommodate the numbers we already know will turn up isn't just shortsighted — it's wasteful.

Instead of forcing a flawed plan at Western Springs, I believe there should be more support and backing for upgrading Mount Smart Stadium. It's already a proven venue with better infrastructure, and it makes far more sense to share resources with the NZ Warriors, who are also based there. Mount Smart has the capacity and transport links that Western Springs lacks, and it could be further developed into a vibrant sports and entertainment hub. Imagine a modernized precinct with bars, restaurants, and public gathering spaces — not just a stadium, but a destination.

Auckland has an opportunity to make a smart, future-focused investment in its sporting infrastructure. Western Springs, as proposed, isn't it. Until serious thought is given to accessibility, capacity, and community impact, the proposal should be set aside. Let's focus instead on strengthening what we already have and building something truly worthy of the city's sporting future.

I would like support the vibrant music scene in Auckland while also retaining the natural structure of the venue and surrounding area. I think that it's important that we continue to fund what benefits the community at large (especially marginalised or low socioeconomic members of our community - e.g. artists and non-professional sports players NOT professional footballers and billionaires)

I'd like Auckland to have world class sporting facilities on par with other large cities such as Melbourne and Sydney, and with the potential downsizing of North Harbour another medium sized stadium and facility would benefit the cities sporting landscape. Plus I am a fan of Auckland Fc and having a purpose built football stadium would be very nice

Auckland need new arena for hosting art music and performance and by involving private sector cost will be minimize for rate payer and private sector can still earn their profit at the same time by managing it so it's a win win solution.

Please see the attached word document.

Thank you for the opportunity to give feedback on the new proposals for development of Western Springs Stadium and the outer fields.

My partner and I have lived adjacent to the park (Bullock Track) for around 25 years and have never had the opportunity to consult on this facility for the whole time. As you can imagine the activities in this park, which have esculated over this period, directly affect our lives as it has for all residential properties surrounding the stadium and the greater community that is within ear-shot or parking distance of the venue.

The main thing I'm wanting to ask about is how the proposals tabled for development will impact the surrounding area. Your documents state that the current visitor numbers to the park is 178,000 / year. Option 1 proposal estimates 850,000, roughly 4 times the current amount, Option 2 is 2-3 times.

This equates to a huge amount more traffic, parking, pollution, noise, building work and general disruption in an area already choking on all the above.

What will be your plan for this?

The second question is the status of the outer fields. This community green space has got to be saved in it's present form and not turned into yet another parking lot. The two main proposals mention a vague intension to colonise this space, can we get more information on this? Is there a Council plan or covenant that must be adhered to?

Can we get information on how many concerts there will be per year in the outer fields? Every one of these concert days is totally disruptive to our lives, my vote will be directly influenced by this issue.

Thanks for reading this, I hope I can learn more before I cast my vote.

[redacted].

I have been to many events at Western Springs, and they are well below expectations and do not provide the experience I am looking for. I do not typically use the area any longer. I think change is needed and it should be toward a more purpose built facility. Equally, Mt Smart is not ideal for fans and is outdated and sub-standard facility, although has been a success this year for Auckland FC and its fans, of which I am one.

Please re-look at the Speedway and keep it at Western Springs. I live very close to Western Springs and I have big concerns about the other options and that traffic management hasn't been well thought out. I don't want people parking on footpaths and throwing their rubbish everywhere each weekend because they can't find adequate parking at the venue. The Bullet Track already has poor congestion and Options 1 and 2 will only make this worse. Thanks

Western Springs Stadium is an absolute asset to the people of Auckland as it is. Option A sounds great but my feeling is that it may become an exclusive club for people who can afford it and not ideal for the Community in general. Option B sounds good as well but it doesn't sound like it's going to significantly change the arena. Just keep it as is because the space is so flexible you can do a multitude of different events by importing all that's needed and cleaning up when the event has concluded. A bit like what happens at the moment. Sometimes it seems like we have to

change things just for the sake of it. A few years ago there was a proposal to cut Chamberlain Park in half and add extra playing fields. This sounds similar but in my opinion the options A and B are unnecessary.

I don't see a need for another heavily constructed area requiring resources. The beauty of the place is the natural amphitheatre. It is a shame to destroy that with lots of buildings.

Western Springs should remain in public ownership and as a space to allow a range of community recreational uses. This is particularly important given the likely increased density in the two local board areas. Coxs Bay park should not be used as the replacement sports fields as it currently is already well used for formal and informal sports.

I live in Herne Bay and want to see better facilities that can be used 365 days per year. The current arrangement is not suitable for the future of our community needs. Ponsonby Rugby originally was at Coxs Bay and it is a good re-location facility with upgrades. Speedway is a niche sport that does not have relevance for our area. Prime council land in an ever increasing population in the surrounding area should be put to better use to taxpayers in the immediate area.

I want to reduce costs for big artists to be able to perform in Auckland and so we can get more people to come here! Also I think the natural amphitheater space is so unique to Auckland and needs to be amplified, not destroyed. So few of those in the world.

I support the longstanding part this wonderful community facility offers the local ánd the wider community. It is inclusive and offers diverse sports and community groups a secure place from which they can grow. It takes time to build this kind of iconic iconic facility within a community. The rich memories which carry from one generation to the next is something money cannot by. Most importantly it is not run as a business aiming for financial gain....for whom? It is aiming to support the building of a rich culture through sports and cultural events. In a world preoccupied with putting profits before human values this facility needs to stay in service of the public good.

Please give it your sincere reflexion and consideration.

Auckland and Aucklanders benefit enormously when we have urban amenities that are accessible to a wide range of people for a wide range of purposes. Allowing a large scale stadium development at Western Springs will close off this space from other beneficial uses and remove the natural amenity benefits of the amphitheatre as it is today. Western Springs is a special place in Auckland but converting it into another stadium will lose all of that and reduce access for the wider public. Option 2 has a good balance of upgrading facilities while retaining wide public access and natural amenity value.

it is a unique & iconic space, a taonga for the whole community (local/ wider) to enjoy & Ponsonby RFC along with others with a long history/ connection with the space have been its guardians/ custodians. Green spaces are few & far between, iconic spaces like this are even under more scrutiny plus pressure from a variety of interest groups so...its about awhi/ supporting the current guardians/ custodians (who have a proven track record) as opposed to allowing new unproven interest groups to impose their new fad of the day.

Would have voted for option 1 if Auckland AFC

Would have voted for option 1 if Auckland FC would be prepared to share their facilities with Ponsonby Rugby Club but to the best of my understanding I don't think they are. Option 2 preserves location of a premier rugby club where I don't see any other viable options currently tabled. And the chance to develop a larger capacity venue if 50,000 for entertainment and concerts.

If all parties cooperated, maybe there is a better option than what I'd tabled, but it seems this is not an option. Thank you.

These are very biased options and I think Auckland Council can do better. The process should have started with public consultation first.. Not proposals from private sector. Speedway seemed extraordinarily popular. Loved Laneway. I'm opposed to Auckland FC making a home there. The type of anti social behaviour with football is absolutely not okay. We do not want police escorts for the opposition in our neighbourhood.

Ponsonby rugby club has a long history there and few alternative venues.

I am doubtful that the option 1 proposal would evolve as indicated. I cannot see it being the commercial success without alienating much of the local community. The Auckland football attendance numbers already exceed what is being proposed here.

I am completely behind the idea to preserve and further develop Western Springs as a concert venue. It should be preserved as a permanent home for Ponsonby Rugby improving facilities. I believe the existing landscaping should be retained and developed to extend the tree line and maximise the existing natural amphitheatre and retain the green space, rather than a concrete monster.

I am strongly opposed to Option 1 as believe that to progress it would be tantamount to privatising public space. It would also significantly reduce the visual amenity of open green space that the park in it current form provides to the wider neighbourhood. I note in the Consultation document it is described as only "broadly complimentary" to the existing network of facilities. There is no evidence presented that Auckland urgently needs such a development.

I support Option 2 as it broadly provides continuity with the past and utilises the natural features of the site.

Currently Tataki Auckland Unlimited have installed a temporary perimeter fence on our boundary with the park. I am opposed to any decision being made before a permanent fence is installed and the temporary solution removed.

Whatever option is decided upon it is important to me that the boundary fence and park grounds near it are well maintained. For decades I, as have my neighbours, have had to deal with noxious growth (eg convolvulus)coming into my property from an unmaintained park. I expect any future agreement between Tataki Unlimited and a leaseholder to ensure that the whole site is maintained and that neighbours aren't having to deal with unmanaged growth.

I am not opposed to Option 3a or Option 3b, particularly at a time of financial constraint.

I chose Option 1 as I have more confidence in this option coming to fruition in terms of funding already secured, prior owner experience with stadium, and most importantly with Option 1 there is no council or public funds (increased rates or fundraising) required to create the complex. I also like the idea of the stadium complex being busy and used year round by a variety of groups - not just in rugby season or for one day concert events through the summer. Our area is in desperate need of basketball courts and with basketball the fastest growing sport in NZ a large basketball facility would be a great addition to the community for our young people.

I am supporting the Western Springs Bowl alternative for three reasons.

1. It preserves the character of Western Springs as a community oriented space for sport and music as opposed to a corporate stadium which replaces the outer fields with a carpark.

2. Whilst the corporate version is no cost the Ponsonby Rugby version is low cost.

3. Ponsonby Rugby has 48 junior teams and nine senior teams. The Auckland Arena team has said there is no place for them in their corporate plan, which is only about their one soccer team.

4. The Western Springs Bowl concept maintains Western Springs as a public community asset. The Arena idea means it would become a corporate space for up to 100 years

The proposed dedicated football facility that will deliver huge benefits for both the community and the professional game in Auckland at no cost to the Rate Payer.

Demand is growing rapidly, particularly among juniors and women and girls, and the need for more quality playing spaces, especially artificial turf fields, is urgent.

Option 1 directly supports grassroots football by increasing our access to fields, creating a new hub for community sport, and providing a clear development pathway through a new Centre of Excellence.

I am against Option 1. It effectively privatises a precious public space, removing future community options for a full century.

Option 1 also makes no sense as a home ground for AFC. Mt Smart has proved to be a successful home ground for AFC. It is “right-sized” already and has room to expand. The proposed 12,000 seat stadium of option 1 is neither here nor there, and makes no sense.

I support Option 2, as the most flexible way to deliver high value to the community at a modest price over 50 years. In particular, many people really value music and cultural events, and this will enhance Auckland’s ability to host large events in a way that option 1 does not.

Western Srings.

Factors against option 1,

Location / Traffic Impacts

Badly located, only vehicle access is from Stadium Road across from St Lukes Motorway off-ramp, this will create Traffic Congestion/ Parking problems in surrounding area. Already occurs when other events take place.

Have personally witnessed an 1 hour traffic jam of cars trying to exit Western springs stadium/Stadium Road after a Ponsonby Premiers final played there.

Encroachment on existing venues, eg Zoo & Motat.

Has a forecast been done to calculate what increased vehicle numbers will do to congestion in the area?

Will the potential operators be contributing to costs of traffic management, parking enforcement for residents?

Will the council consider changing parking in surrounding areas to residents only?

Transfer of asset to private management.

I get that councils are broke, after years of mismanagement & ballooning costs associated with delivering the necessary amenities needed to improve the liveability for Aucklanders, but does this give the 20 councillors the choice to hand over an asset into private management for the next 50-100 years, and wipe their hands with what they perceive as a financial liability.

The proposal set out in option 1, doesn’t seem to have a dedicated purpose, 15 k capacity is both too small for an A League Stadium, too big for anything else?

It comes across as an ill-thought-out project, by people with more money than sense, and definitely no regard for those established in the area already.

I absolutely oppose the idea of the Arena. The space should remain accessible to the range of users it currently is and not essentially privatized for the use of a private soccer team and an indoor arena when we have several underutilized facilities of that sort in Auckland already.

I'm a massive football and Auckland FC season ticket holder fan. As much as I love the idea of having our home ground round the corner from where I live, it's not the right fit. Firstly, the capacity of the stadium is not remotely large enough to include the incredible number of fans we bring to our games. It's also less easy for the away fans to get to. Parking around the area is terrible and there are not good enough public transport links in the area to cater for such a large influx of fans. Secondly, the Ponsonby Rugby club is historic and should not be turfed out for a sub-par football stadium. It also acts as a great location for festivals and other events such as the

speedway. For these reasons I would prefer for it to remain as is for use by the Rugby club, speedway and festivals etc, or be developed for enhancement to (some of) these uses rather than the football. I might add, Mount Smart, is a great venue for football with a good atmosphere thanks to the way the seats are arranged close to the pitch, and also has good public transport connections.

We've seen several large international artists who have previously come to NZ skip out on Auckland in the last two years to perform at larger capacity venues in Australia. These are artists with huge fanbases who are willing to fly across the country and stay in Auckland to see them - alongside fans from Australian and Asian countries who either want to already visit New Zealand or want to attend multiple shows. This will help with both Auckland and the wider nation's economy. It'll also be so great for the arts and creative culture already present in central Auckland!!

I am writing in strong support of option 2 & the proposed enhancements to Western Springs Stadium, which seek to establish the venue as a world-class hub for live music, entertainment, and community sport. This proposal presents a rare opportunity to honour the venue's legacy while ensuring its future relevance and value to Tāmaki Makaurau Auckland.

Supporting a World-Class Music Venue

Western Springs has long held a special place in Auckland's music and cultural history. The proposal to evolve the site into a "Hollywood Bowl"-style venue with a 50,000-person capacity and permanent staging infrastructure is a forward-thinking response to the growing demand for large-scale, high-quality live entertainment. As Auckland continues to grow as an international

city, it is vital that we have a flagship outdoor venue that can attract major artists and events, compete globally, and provide economic stimulus to the city.

Importantly, this plan respects and builds upon the site's natural amphitheatre, rather than replacing it. Enhancing the outer fields and upgrading infrastructure will ensure a seamless, well-serviced experience for both audiences and artists, with benefits cascading into local hospitality, transport, and tourism sectors.

Strengthening Community Sport and Multipurpose Use

At the same time, this proposal thoughtfully preserves and strengthens Western Springs' role as a community sports facility. By renewing and expanding Ponsonby Rugby Club's lease – and enabling its growth across multiple codes like netball, basketball, and touch – the proposal provides a unique dual-purpose model that benefits grassroots sport and local families. The inclusion of a 5,000–8,000-seat boutique stadium offers exciting new possibilities for semi-professional and community sport, event hosting, and local school and club use.

This multi-use design is not only efficient, but inclusive – reflecting the needs of a diverse and growing city.

Sound Long-Term Investment

The proposed ownership and leasing structure – with TAU retaining site ownership and issuing a 30+10+10-year lease – is a balanced, responsible approach that allows for long-term development without sacrificing public control. The combination of $30 million in private investment and $18–$20 million in targeted public funding reflects a fair partnership between public and private interests.

While the estimated additional ratepayer cost of $48–$107 million over 50 years may initially seem significant, it is crucial to recognise what this investment delivers: a modern, revenue-generating concert venue, an upgraded community sports facility, and a revitalised cultural asset for the region. This is an investment in infrastructure, identity, and future economic return.

Conclusion

This option offers Auckland the best of both worlds: a reinvigorated Western Springs capable of hosting iconic concerts and festivals, and a thriving base for community and semi-professional sport. It protects public ownership, balances interests, and delivers long-term cultural and economic benefit.

I urge decision-makers to move forward with this option, and to ensure that Western Springs continues to serve and inspire generations of Aucklanders to come.

Auckland needs a good quality stadium of the size proposed for both sports and concerts. The proposal removes both capital and ongoing costs from the council balance sheet and profit and loss, whilst providing sporting facilities to rate payers.

I think it would be disgusting to build a large stadium at western springs. It is a natural Amphitheatre and does not require or need that. it would also significantly decrease the capacity. Auckland already has spark arena for a 15 thousand people venue, we do not need another similar sized venue. Ideally, I would want the speedway back, but out of the options available, keeping western springs a music venue is the best choice. Keeping Ponsonby rugby club there is also very important to me, as someone who grew up playing rugby at western springs. I live within earshot of western springs and the noise from either the speedway or concerts etc has never once

bothered me, it is a unique and lovely benefit to living in the area. Please do not do option one - it is a terrible idea and everyone local who I have spoken to is opposed. thanks for reading :)

My name is Alisa Xayalith, I'm the front woman and songwriter of band The Naked and Famous. Western Springs has been an incredibly valuable space to bring family and music lovers to events and festivals put on by NZ's top music promoters and artists. I myself have benefitted from enjoying performing in this green space, there are not a lot of spaces like it in NZ to host incredible art and music. I feel strongly about Option 2 and it would be a shame to lose such a crown jewel inside the busy city of Auckland.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Recorded Music NZ represents 4,670 recording artists and 3,665 rights holders in Aotearoa through licensing, advocacy and promotion. We produce the Aotearoa Music Awards and Official Aotearoa Music Charts.

Recorded Music is a key player in the music ecosystem in New Zealand and supports the protection of Western Springs as a large-capacity natural music venue. Western Springs Stadium (and Outerfields) is already a unique, iconic venue for a wide range of activities, and it's our strong view that utilising the natural landscape in an enhanced way to further establish the space as a multipurpose outdoor venue in central Tāmaki Makaurau is not only important for our artists and other stakeholders, but that it would prove an important cultural asset on the whole.

The stadium in its existing form has to date successfully hosted some of the biggest concerts to come through Auckland, including international acts like Bob Marley and Post Malone, festivals like Big Day Out and Laneway, and local act Six60's record-breaking 2019 concert. We are excited at the prospect of a permanent soundstage at the site, as well as the expansion and improvement of the existing community sport facilities.

Rather than fully privatise what is an important community hub, we support the imperatives of Option 2, to protect it as a community and cultural asset and build on what it already provides to Aucklanders. This proposal is for a low-impact development that will also be less disruptive for residents in the area than the proposed Option 1, while increasing the cultural cache of the area and city and contributing to the economy of both.

Because it's a community area ALREADY,the Ponsonby Rugby club is a stalwart and part of that community....that GREEN space in the city,is an option for public to access,any time they want to wander over there have a meeting,have a game or a picnic.. in the height of CLIMATE CHANGE options..keep the area clean GREEN AND READY for whatever the locals choose to use it .

We have Eden Park ARENA.... also in the CENTRAL Auckland space.....which cannot fill an Auckland,or AUCKLAND BLUE'S RUGBY 🏉 SPACE...EVER ..in recent years....so the ARENA.. can be used for All Blacks, Auckland FC test matches and PINK ROCK CONCERTS or the like on any

given other times..My point is...if exclusive Eden Park can't fill up, EXACTLY . SERIOUSLY..... WHY... DOES AUCKLAND need ANOTHER ARENA

Local Rugby...and. especially TEENAGE GIRLS SPORTS are slowly becoming obsolete...with many not opting for a healthy outdoors sport....due to the obsession with phones generation....so a venue such as Ponsonby Rugby club is a SURE winner venue and family friendly SOCCER,RUGBY,SEVENS,and touch Rugby for corporate games and functions are best suited to the historical place ...

ANOTHER point is on Facebook there is an account which shows early AUCKLAND...Queen STREET ,and the surrounding areas at the turn of the 2Oth century.....and ALL l can think of is why did Auckland Councils of the 1970s,80s and 90s Destroy such beautiful buildings, architecture and unique Auckland features.....

WE'RE DOING IT AGAIN IN 2025!!!!!!!!!

With the older generations living longer.. due to OUTDOOR exercise...mind you .. surely we owe it to the phone obsession generations to put the phone down ,hook up with some friends or walk/run alone or walk the dog outside to increase CARDIO VASCULAR body strength and endurance?????It's a No Brainer..... why build a building and then as circulate used air in air conditioner systems... we've got to be more smarter for the future....not see our outdoorsy KIWI LIFESTYLE taken over by more RATES soaring with another bloody building!!!

What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board),I don't have a direct connection, but I am interested in how the space is used

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

The Ponsonby Rugby Club has a proud long local history & sensitivity to the needs of the wider local community. It is more likely to benefit from Option 2 than Option 1 which is based on a very successful football club which regularly draws very big crowds & is likely to need a bigger home ground to meet its expanding needs and supporters.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

With footballs growth we need more purpose build facilities. Go Media stadium is a compromise and with the scaffolding stand I believe unsafe. All professional clubs around the world have their own grounds which enhances the club performance as well as the supporters experience. I also love that basketball and music concerts are being included. Finally anti private investment that the city receives (as the expense of public spending) should be fully embraced.

I believe Western Springs should be kept for concerts, festivals and rugby. This is a significantly more cost effective proposal.

I don't believe there is anything wrong with Western Springs Stadium the way that it is now. It has been an iconic venue for sports and cultural events for decades. I do not agree with the speedway not being able to use the stadium any longer. I do not agree with millions of dollars of ratepayers' money being spent on a new stadium or concert venue. This is unnecessary and inappropriate in the current economic climate.

As a company that hosts an annual event at Western Springs Stadium, we strongly support the proposed enhancements to this iconic venue. The plan to develop Western Springs into a premier entertainment destination, with a 50,000-capacity amphitheatre and upgraded permanent concert infrastructure, aligns perfectly with the growing demand for large-scale live music and festival experiences in Auckland. The proposed evolution of the venue will not only elevate the quality and scale of events we can present but also enhance the visitor experience through improved facilities and infrastructure. This will attract world-class artists and festivals, generating significant economic activity and cultural vibrancy for the city.

I really wish to see western springs used as a concert venue and stay as the home of speedway. It's awesome to have such a vibrant opportunity to use the venue for more than just another sports venue and be more inclusive. Please for the love of god keep the speedway at western springs. Moving it out of the city will kill the vibe and loose all its history. Auckland doesn't need another dead single use sports stadium. We already have to many.

I'd like to see the Ponsonby Rugby club continued in its current location. My son plays rugby for the Ponies and we love that the home grounds are within the community. We often attend events and prize givings at the clubrooms and enjoy the rich heritage it offers. Rugby is an important sport for the community.

A 100 year lease of public land is much too long a time period. There is NO public transport to this part of town so any large events will snarl up the entire motorway system.

This is being rushed and the consultation is trying to answer questions that have not yet been asked or properly debated.

Due to the unmitigated success of Auckland FC this season, I would love to see them with a permanent home not sharing a ground as they currently do. I don't believe that 12-15,000 is big enough as they have sold out Mt Smart 4 times this season with crowds in excess of 25,000.

Contary to what the backers of option 1 are saying I think they will turn the facility into strictly a Auckland FC training & academy facility.Not sure why they need a 12,000 seat stadium when they are getting 20k + a game At Go Media stadium.

I believe option 2 will give best use to All the community.
