Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Payroll for the Auckland Group is approximately $1.27 billion. It has been growing and the general basis has been a modern city and cost of living. The cost of living as an Auckland resident is out of control! 7.9% is outrageous! It should be no more than 1.5% - 2%. Why the changes? Too many improvement projects and not enough sensible projects. Water is also meant to be self funding - why are its costs within the budget? And staff salaries - 500 to 550 are paid $200,000 or more! What is this place but a room for happy bureaucrats! And that not even going after external charges, like contracts, capital and needed supplies. This has to STOP and if the budget goes through as planned

a mighty revolution will quickly follow! Auckland is supposed to REDUCE charges by becoming one entity, not looking at each other a imagining what the changes might be and then acting on it!

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The proposed changes deserve the balance of charges - BS! There is enough charges already to balance the books and make sacrifices to boot!

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden,Aotea/Great Barrier,Devonport-Takapuna,Franklin,Henderson-Massey,Hibiscus and Bays,Howick,Kaipātiki,Māngere-Ōtāhuhu,Manurewa,Maungakiekie-Tāmaki,Ōrākei,Ōtara-Papatoetoe,Papakura,Puketāpapa,Rodney,Upper Harbour,Waiheke,Waitākere Ranges,Waitematā,WhauDo not support anyDo not supportDo not supportDo not supportDo not supportRead the looking at each other comment.

Aotea/Great Barrier Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services?

A. Improvements to the library service including additional programmes.

Do not support

B. Partnering with mana whenua and community on the coordination and engagement of island fisheries management and local Ahu Moana marine projects.

Do not support

Tell us why (please be clear which priority you are talking about)

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Do not support

B. Reduced library hours over 7 days.

Do not support

C. Reduced local board funding to local organisations that deliver local events.

Do not support

D. Reduced budget available for contestable grants.

Do not support

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

Do not support

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

Do not support

G. Reduced funding for parks volunteers.

Do not support

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Do not support

Tell us why (please be clear which priority you are talking about)

Franklin Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Henderson-Massey Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Howick Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. What do you think about the proposed local board specific key areas of spend?

A. Explore ways to get the best value from our play spaces so they continue to meet the needs of children and families.

Do not support

B. Run regular seminars for community groups/organisations on the local grant's application process.

Do not support

C. Identify what type of indoor/sheltered courts are necessary to support sports play in Flat Bush.

Do not support

D. Continue advocacy of the Tāmaki estuary on water quality and coastal erosion.

Do not support

E. Continue to advocate to crime prevention organisations on behalf of the community for ongoing safety initiatives.

Do not support

F. Continue to support our volunteer groups with resources needed for ecological volunteering, such as stream clean-ups and pest plant weeding.

Do not support

Tell us why (please be clear which priority you are talking about)

Kaipātiki Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Māngere-Ōtāhuhu Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering a Local Services Targeted Rate, changes to service levels or fees, or a combination of both approaches. We could introduce a Local Services Targeted Rate of $47.11 (GST inclusive) per Separately Used or Inhabited Part per annum on all rateable properties except those categorised as zero-rated in the Māngere-Ōtāhuhu Local Board area ($0.91 cent per week) to cover the increased cost of delivering existing services. What do you think about this proposal?

Do not support

3. We could adjust some service levels, fees and charges. What do you think about the proposed changes?

A. Reduce library hours - reduce hours at our four libraries as needed, without going below the regional minimum service level of 44 hours over 6 days at each library.

Do not support

B. Reduce maintenance - Stop scheduled bollard and post-and-rail maintenance, stop scheduled maintenance for bush areas (except High Value/Ecological), change garden edging to chemical application, cease infill planting and mulching in amenity gardens and reclassify re-vegetation areas to bush areas.

Do not support

C. Reduce discretionary funding for Community Wellbeing programmes and services, Environment Management programmes and services and community grants.

Do not support

D. Increase pools and leisure fees - Increase fees and charges by $1 for "Plus" services at Moana-Nui-ā-Kiwa Pool and Leisure Centre.

Do not support

E. Charge adult visitors from outside the local board area at Moana-Nui-a-Kiwa Pool and Leisure Centre and Ōtāhuhu Pool and Leisure Centre (Toia).

Do not support

Tell us why (please be clear which priority you are talking about)

4. Overall, how do you think the local board should address the cost increases?

Manurewa Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. What do you think about the proposed key areas of additional investment?

A. Allocate up to $1.5 million of funding to support delivery of the Manurewa War Memorial Park multi-sports pavilion.

Do not support

B. Deliver a new multi-cultural initiative that responds to demands for increased ethnic engagement.

Do not support

C. Develop a civics education initiative that helps people understand the role of local boards and how they can get involved.

Do not support

Tell us why (please be clear which priority you are talking about)

Maungakiekie-Tāmaki Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. What do you think about the proposed key areas of additional investment?

A. Environmental initiatives – working alongside mana whenua on restoration projects, expanding food resilience and edible planting programmes, and reinstating deferred environmental education activities.

Do not support

B. Sport and recreation – providing one-off operational support to local sports clubs and facilities to strengthen participation and collaboration.

Do not support

C. Libraries and culture – enhancing programming for seniors and increasing investment in creative and cultural activities.

Do not support

D. Community safety and emergency readiness – exploring additional compliance officer resourcing in areas with limited coverage.

Do not support

E. Local economy - supporting business associations to continue supporting local businesses and ongoing growth, development and liven-up our town centres.

Do not support

Tell us why (please be clear which priority you are talking about)

3. What do you think of Onehunga Business Association Inc's proposal to reduce the geographic boundary of the Onehunga Business Improvement District (BID) programme, and amount of targeted rate to be collected?

Do not support

Tell us why

Ōrākei Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services?

A. Increase community-use sports fields provision either through redevelopment or expansion of our asset portfolio to address the forecasted move of Auckland Cricket into Colin Maiden Park and other demands on our sports fields.

Do not support

B. Increasing investment in restoration and pest-management programmes to grow and protect your natural environment. Our reserves and open spaces are one of the most vital resources in Ōrākei.

Do not support

C. Changing the Meadowbank Community Centre project to a self-funded community centre to capitalise on existing investment and resources.

Do not support

D. Construct a playground Remuera Library to optimise the under-used green space at the side of the building.

Do not support

Tell us why (please be clear which priority you are talking about)

Ōtara-Papatoetoe Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. Due to rising costs for utilities, maintenance, staffing and other pressures, we must address an increase in the cost of delivering existing services within its current funding. To balance the budget, we are considering a Local Services Targeted Rate, changes to service levels or fees, or a combination of both approaches. We could introduce a Local Services Targeted Rate of $1.1 million capital value based rate charged to all properties (this would be around $27 based on average value urban residential property in the Ōtara-Papatoetoe Local Board area) to cover the increased cost of delivering existing services. What do you think about this option?

Do not support

3. We could adjust some service levels, fees and charges. What do you think about the proposed changes?

A. Reduce maintenance - Stop scheduled bollard and post-and-rail maintenance, stop scheduled maintenance for bush areas (except High Value/Ecological), change garden edging to chemical application, cease infill planting and mulching in amenity gardens and reclassify re-vegetation areas to bush areas.

Do not support

B. Reduce library hours: Ōtara Library, reduction of 4 hours per week; Papatoetoe Library, reduction of 2 hours per week; Tupu Youth Library, reduction of 5 hours per week; Manukau Library, reduction to a 6-day service, close on Sundays.

Do not support

C. Reduce discretionary spending on community grants, community and/or environment projects.

Do not support

D. Increase to fees for "Plus" (spa, sauna, and steam room entry) services by $1 at Ōtara Pool and Leisure Centre and Papatoetoe Centennial Pool (PCP).

Do not support

E. Charge adult visitors from outside the local board area at Ōtara Pool and Leisure Centre and Papatoetoe Centennial Pool (PCP).

Do not support

Tell us why (please be clear which priority you are talking about)

4. Overall, how do you think the local board should address the cost increases?

Papakura Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes to service levels and fees and charges?

A. Reduce library hours on Mondays and Fridays at Sir Edmund Hillary Library.

Do not support

B. Reduce library hours on Saturdays at Sir Edmund Hillary Library.

Do not support

C. Reduce selected maintenance: Stop bollard and post-and–rail maintenance in parks, stop scheduled maintenance for bush areas (except high value/ecological).

Do not support

D. Charge a higher fee for visitors outside the Auckland region who visit Massey Park Pool.

Do not support

E. Reduce or discontinue grant funding.

Do not support

F. Reduce the numbers of public rubbish bins in public spaces such as town centres, parks and reserves.

Do not support

G. Reduce or discontinue some arts and culture activities.

Do not support

H. Reduce or discontinue some services and programmes in arts facilities and community centres.

Do not support

I. Reduce or discontinue some community development and support activities.

Do not support

J. Reduce or discontinue some environmental and water quality activities.

Do not support

K. Reduce or discontinue civic events.

Do not support

L. Reduce or discontinue sports and park activation activities.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Our rates are currently geared towards cutting down library hours, improving play ground, etc. Enough! Volunteers should be used when expenses are climbing out of control. Rationalisation should be used when this or that can't be done. We've got to make a living, raising our children, and have a happy life. The budget administrators are reversing that trend!

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):Leave it alone!

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

You can't increase rates. You have to reduce spending. Stop bringing in so many immigrants who are putting pressure on infrastructure.

We are getting to the point that we can't afford to live in our own houses unless we have a massive income. You are pushing people out of their own homes. There is a cost of living crisis- it is not time to increase rates. Lower your own wage Wayne and then you will now what it feels like when a rates

increase is proposed . Get back to basics. Stop funding drag queens and costly art installations. Save your spending for your own money rather than taking more of ours. You have a huge budget, use it wisely and stop wanting to spend what you don't have.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

********** and **********. Seriously the only thing I get from the council is rubbish picked up and occasionally the library and local community centre. We pay for our water, we pay for our own transport, we mow our own verge. Essentially we are already paying for our rubbish- the coast I so. The rates bill - how can you start charging that is **********. Soon you are going to be charging to use the road even though we already pay petrol tax and road user charges. It is never ending. We will never be able to retire. You want us to be happy with nothing - because we pay everything we earn to government (tax), council (rates) water and utilities gets list gets longer every decade.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Ōrākei

Ōrākei Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

More money taken from us.

Libraries are quiet spaces.

Community centres are not businesses.

2. What do you think about the proposed key areas of additional investment and changes to services?

A. Increase community-use sports fields provision either through redevelopment or expansion of our asset portfolio to address the forecasted move of Auckland Cricket into Colin Maiden Park and other demands on our sports fields.

Do not support

B. Increasing investment in restoration and pest-management programmes to grow and protect your natural environment. Our reserves and open spaces are one of the most vital resources in Ōrākei.

I don't know

C. Changing the Meadowbank Community Centre project to a self-funded community centre to capitalise on existing investment and resources.

Do not support

D. Construct a playground Remuera Library to optimise the under-used green space at the side of the building.

Do not support

Tell us why (please be clear which priority you are talking about)

All these things are not essential- all changes are just adding to our bill. The last Brady is suppose to be a quiet place - a playground is noisey. Community should be community not business.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Pull your belt in. Stop increasing rates. 7 % is massive. Wages haven't gone up 7 % in a long time. Everything is so much dearer and the money doesn't go as far and you just want to take a bigger cut.

You waste money on send out people to say our pool doesn't comply when you the council signed it off less then a year ago. Get some common sense and pull on your belts.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Stop in fill housing.

Stop stealing our sun and our views with never ending increases in height and density.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Annual Plan 2026-2027

#3368

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation: N/A

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

I don't know

Tell us why

I don't understand how the continued rate increases are manageable or sustainable for many Aucklanders. The baseline assumption seems to be that Council can continue to spend and simply keep pushing rates up. We have a CRL that costed $1.5b per kilometre, that's $1.5m per metre. Mind boggling. This is expected to run at an annual operating loss of $235m. There's a massive disconnect between Council aspirations and what the Auckland region can actually afford to responsibly implement.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

7.9% is a significant increase however it's the consistent annual rates increases, well above the rate of inflation, that are really hurting Auckland rate payers.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Other

B. Reduce maintenance for bollard and post-and-rail.

Other

C. Reduce community grant funding and accommodation grant funding.

Other

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Other

Tell us why (please be clear which priority you are talking about)

Other

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.,Other (please specify):The Auckland CBD is a pale shadow of its former self.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I am the owner of the property at 901/8 Ronayne St, Parnell. Auckland council evaluated my property too high. On the basis of that evaluation I pay the council rates.

Currently and for the past few years the properties at Ronayne street are being sold for less than 100.000 dollars. If I cannot sell my property even for third of the evaluation value then something is wrong. Aucklamd City Council raised value of the property just for purose of higher tax..us owners have no benefit having high valued properties that are declining in value by day.

I raised my concerns previously as well.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Ratepayers can not afford this increase. Skip this plan for another decade and restraint all cost increase. Living cost skyrocketed and no one likes it.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Ratepayers can not afford this increase. Skip this plan for another decade and restraint all cost increase. Living cost skyrocketed and no one likes it. If not, more people will leave Auckland. Auckland will be deserted and no good for any one.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Keep rates as what it is. Mayor and the council have the job to think about cost efficiency and the way not to increase cost. More productive and efficient.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

While I support water management improvements, and the City Rail Link, I would like to see a significant amount of money and time spent removing the rough sleepers and the like from the CBD.

There is a very real risk of the CBD ceasing to become somewhere appealing to go to, and if this is not resolved, the problem will escalate and we run the risk of a CBD looking like some of the scenes from cities in the US where homelessness is out of control.

I work in the city weekdays and at 5am some of the back streets are often covered with trash, from rubbish bins having been looted, Mills Lane in particular.

There's often Graffiti on the buildings I manage, urine and faeces on footpaths, and I have experienced and seen threatening behaviour more than once.

I walk past the downtown carpark daily and there are always people taking up seating across from the carpark, with sleeping bags and tents. This would be a nice spot to sit in the shade on a hot day, but there's no room, and those unwashed individuals sprawled out with their sleeping bags inhabiting the area discourage most from even walking past.

Now I realise some of them have mental health issues, but I believe the majority of them do not, and choose to live as they do. I had a conversation with one of the AT enforcement staff, and asked why they aren't offered a home to live in, and she said a lot of them are, but after placed in suitable accommodation they return to the city.

I have a friend who has a lot to do with an Apartment complex near Homeground, who estimates around 300 people are living rough in the CBD. He knows this from the amount of free breakfasts provided in the mornings to the homeless.

Unsure whether feeding people for free in the city is a good idea, as it will most certainly attract more.

Something needs to be done NOW.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

#3463

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

If we cannot afford it we just delay or cancel it!

End of story.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I do not believe in ANYTHING THAT REQUIRES MORE TAXES!

Maybe take example from the ACT PARTY SCHOOL LUNCH MAKE OVER .... DOING MORE WITH LESS!

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

I do not want any changes to the current situation

I cannot see any of my $$$ making my life any better

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

Support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

I don't know

Tell us why (please be clear which priority you are talking about)

Maybe target BACK OFFICE ACTIVITIES BEFIRE CUTTING DOWN ON MAINTENANCE.Support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

STOP INCREASING THE RATE!

And just DELAY your CAPEX if you don't have enough funds to finish project earlier. Also STOP financing useless projects/ programs and CUT BACK OFFICE COUNCIL WORKINGS IN NON-Elected agencies (aka AT) or council corporate head office.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

TAKE EXEMPLE AT SINGAPORE FOR TRAFFIC MANAGEMENT!

Make Auckland traffic fluid again, like it used to be until 2005! AT has created a total roadblock! Their PRIORITIES OF ROAD SAFETY AT ALL COST IS WRONG!

It must be ROAD FLUIDITY BALANCED!

Auckland traffic is what will kill this city! If big already too late! Stop investing in USELESS CYCLEWAYS! That not enough people use! Invest in NEW TOLL EXPRESS WAYS! Above & below ground. Look at sudney tunnels network.

Sydney has as much ore less traffic than auckland for 4 times the population!

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

#3469

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I will never use CRL why should I fund it. If public transport is not sustainable by the users who use it then it clearly is not a viable financial venture.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Isn't a core function of council the provision of certain core services, to have to pay in addition for these core services is contradictory to the base requirement of a council.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Maungakiekie-Tāmaki

Maungakiekie-Tāmaki Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

it was hard to ascertain from the question which board I belong to, perhaps use English as well as Maori in your questions and board namings

2. What do you think about the proposed key areas of additional investment?

A. Environmental initiatives – working alongside mana whenua on restoration projects, expanding food resilience and edible planting programmes, and reinstating deferred environmental education activities.

Do not support

B. Sport and recreation – providing one-off operational support to local sports clubs and facilities to strengthen participation and collaboration.

Support

C. Libraries and culture – enhancing programming for seniors and increasing investment in creative and cultural activities.

Do not support

D. Community safety and emergency readiness – exploring additional compliance officer resourcing in areas with limited coverage.

Do not support

E. Local economy - supporting business associations to continue supporting local businesses and ongoing growth, development and liven-up our town centres.

Do not support

Tell us why (please be clear which priority you are talking about)

The council needs to get back to core operations and only when affordable should council expand these core service offerings

3. What do you think of Onehunga Business Association Inc's proposal to reduce the geographic boundary of the Onehunga Business Improvement District (BID) programme, and amount of targeted rate to be collected?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

Over all it's good, good to see the emphasis on future proofing and environmental awareness.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Some inconsistency between the áreas, eg reduced funding for some south Ak area arts yet not so for Waiheke Island. Waiheke can support arts activities far easier than south Ak. Undoubted but different benefits for all communities - please pay attention to real need.

The rates i crease will be tough for some community Ed, can there be some tailoring?

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Don't do a new stadium, they don't generate new money, just redistribute it, including from other cities which doesnt help nationally. Enganche what we have.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

PARKING PERMIT INCREASE. You say one reason for the increase is that it isn't subsidised by others unintentionally.

My understanding is that it was brought in because others drove into the city suburbs, parked their cars all day then caught a short ride on public transport to their work which saved them money. Public transport would have been losing money by people not taking a longer journey. And in turn residents found it increasingly more difficult to park on their street. So really I feel residents shouldn't have to pay at all to park in their own streets, by all means have permits but they should be free, or at least the ist two permits are free and pay for more permits if required. People parking outside their business should pay for their permits. There are lots of things subsidised and not all people use it - like public transport, the new CRL (both I don't and will not use) people pay Rates based on the value of their house, doesn't matter if there is two people living in the house or 6 people using facilities. (that's a wealth tax) so I don't agree with that it isn't subsidised by others unintentionally. We have a right to park outside our house.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Submitter details:

Organisation: N/A

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

This plan does not address the wasteful spending that currently takes place through AC and AT.

It's time to get back to basic needs and forget the nice-to-haves like multi million dollar crossing and incredibly expensive concrete plinths on cycle lanes - paint is cheaper.

The spending is out of control, and rates payers are suffering at the hands of organisations with an open cheque book, and no accountability.

Rates should NOT have to rise at that amount. Get real AC, or you'll find that people will continue to exit the city.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

As above. That is an exorbitant rise in these tight economic times. In fact at any time. If the council was being run efficiently, it wouldn't be needed. Its all nice and dandy to ask for feedback - but sadly it's never taken on board.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

As per previous page.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

I don’t know

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Stop spending money on dumb things! Council should be providing the basic needs of a community - not taking text book ideas to waste money.Support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I suspect my feedback like everyone else's will be ignored.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

What you spend money on! Get AT under control. Provide good public transport, but not by putting prices up constantly. Look overseas at how cities run their public transport. You want to encourage people to use? Then make it affordable and frequent.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

here is fluffy stuff in many programs...get back to true basics.

Its also unclear why/how funding upgrades to infrastructure are paid for.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

The split between Capex (city wide capital investment) and opex (operating expenses) is unbalanced. major capital works should be carried by all users not ratepayers. Opex should get more evaluation on delivery practices and cost of delivery. Its driven seemingly by non-accountable bureaucrats feathering their own positions rather than building efficiency into delivery and backroom processes. 8% year on year increases confirm this practice is locked in....it has to be upended....and that starts at the epartment head level.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

plannung and infrastructure with investment funded over say 50-60% of its life. This is capex funding....shred by everyone who uses and/or benefits.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I support that plan but I am concerned that it leaves out further funding of the Waitakere track network. The Council closed the park to protect Kauri. and additional funding was levied to make tracks to standard, but this has not been completed. Te Kawerau o Maki have put forward an excellent plan that would increase conductivity through the park enabling access for many more people and this should be enacted. Access to the Waitakere park contributes to the well-being of Aucklanders.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitākere Ranges

Waitākere Ranges Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

More funding to develop the Waitakere ranges track network is required.

2. What do you think about the proposed key areas of additional investment?

A. Community wellbeing - continue to grow and evolve our programmes to support community wellbeing with a focus on tamariki and rangatahi, as well as older people

Support

B. Review level of community grants, including investigating a Facility Partnership Fund to support community organisations to plan, develop or upgrade community facilities

Support

C. Improve engagement with communities of need, schools and youth

Support

D. Progress an omnibus Waitākere Ranges Local Parks Management Plan

Support

E. Walking and cycling connections, particularly through parks

Support

Tell us why (please be clear which priority you are talking about)

All of these initiatives make for strong communities and will increase our overall well-being.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

If we prioritise planning and infrastructure to manage growth, then the rest of the priorities should be taken into consideration anyway. This would include flood resilience, transport, cultural centres, parks and the environment. The overall priority should be increasing the well-being of the communities and so that must include climate change resilience as well.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

too expensive

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

all too expensive

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden,Aotea/Great Barrier,Māngere-ŌtāhuhuDo not support mostDo not supportDo not supportDo not supportDo not support

Aotea/Great Barrier Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services?

A. Improvements to the library service including additional programmes.

Do not support

B. Partnering with mana whenua and community on the coordination and engagement of island fisheries management and local Ahu Moana marine projects.

Do not support

Tell us why (please be clear which priority you are talking about)

Māngere-Ōtāhuhu Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering a Local Services Targeted Rate, changes to service levels or fees, or a combination of both approaches. We could introduce a Local Services Targeted Rate of $47.11 (GST inclusive) per Separately Used or Inhabited Part per annum on all rateable properties except those categorised as zero-rated in the Māngere-Ōtāhuhu Local Board area ($0.91 cent per week) to cover the increased cost of delivering existing services. What do you think about this proposal?

Do not support

3. We could adjust some service levels, fees and charges. What do you think about the proposed changes?

A. Reduce library hours - reduce hours at our four libraries as needed, without going below the regional minimum service level of 44 hours over 6 days at each library.

Support

B. Reduce maintenance - Stop scheduled bollard and post-and-rail maintenance, stop scheduled maintenance for bush areas (except High Value/Ecological), change garden edging to chemical application, cease infill planting and mulching in amenity gardens and reclassify re-vegetation areas to bush areas.

Support

C. Reduce discretionary funding for Community Wellbeing programmes and services, Environment Management programmes and services and community grants.

Support

D. Increase pools and leisure fees - Increase fees and charges by $1 for "Plus" services at Moana-Nui-ā-Kiwa Pool and Leisure Centre.

Support

E. Charge adult visitors from outside the local board area at Moana-Nui-a-Kiwa Pool and Leisure Centre and Ōtāhuhu Pool and Leisure Centre (Toia).

Support

Tell us why (please be clear which priority you are talking about)

4. Overall, how do you think the local board should address the cost increases?

Reduce current service levels and/or increase fees and charges for those services

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Increased rates year after year are unsustainable . Best to Reduce services , more user pays for services , less general rates rises . Wayne Brown campaigned on reduced increases , is he a liar then ??

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

stop prioritizing cycle lanes ... Cyclist make up a tiny proportion of transport and the numbers are increasing only marginally

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Do not increase the price of the residential parking permit. Improve your system and streamline processing for each permit so that it's not necessary to raise prices.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

These issues need to be supported if Auckland wants to be considered an inclusive, democratic, and culturally diverse city.Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Reducing service hours and increasing fees are items that are felt most by lower income residents. Libraries, pools, community grants are most important in these populations.Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

As a single person on a pension to keep increasing my rates is totally unfair an unaffordable. As a single person I o not use m any of the services and produce a small amount of waste. I also do not agree with the foo scrap waste as it attracts rats We already have enough rats)and smells in summer.> I have neighbors who have full time wage earners plus children and I am single but expected to pay the same rates. That is totally unfair. Plus this feed back form is in pale grey and hard to see. Who ever designed this clearly has no concept of clear transparency.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

No to refuge bag charges. This just adds more waste to go into the landfill.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Support

B. Reduce maintenance for bollard and post-and-rail.

I don’t know

C. Reduce community grant funding and accommodation grant funding.

Support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Support

Tell us why (please be clear which priority you are talking about)

Support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

This survey is ike pork belly bills used in the USA. Clumping together issues rather than as single option choices to vote on. . Therefore it's hard to answer. No more bike lanes, nor OTT expensive raised crossings. The cost of these are atronomical. Funny how Wellington can o them for 75% less costs!!! How about bobble hazzard on the road sefaces to slow traffic own. why is it roads get fixed wiht new layouts etc (the job takes ages) then its all dug up to put in new rainages etc, Curren street is prime example. Why can't the council plan to do all the works needed all in ONE GO. Prioritze planniing an coorination of projects.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.,Other (please specify):stop over charging for parking.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

The increase in rates are too high. It should be between 1 to 3 percent.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

These cost should not be extra. It should be covered by the property rates.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Maungakiekie-Tāmaki,Waitākere Ranges

Maungakiekie-Tāmaki Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

I don't have extra money to pay for all these cost. The cost of living is already so high.

2. What do you think about the proposed key areas of additional investment?

A. Environmental initiatives – working alongside mana whenua on restoration projects, expanding food resilience and edible planting programmes, and reinstating deferred environmental education activities.

Do not support

B. Sport and recreation – providing one-off operational support to local sports clubs and facilities to strengthen participation and collaboration.

Do not support

C. Libraries and culture – enhancing programming for seniors and increasing investment in creative and cultural activities.

Do not support

D. Community safety and emergency readiness – exploring additional compliance officer resourcing in areas with limited coverage.

Support

E. Local economy - supporting business associations to continue supporting local businesses and ongoing growth, development and liven-up our town centres.

Do not support

Tell us why (please be clear which priority you are talking about)

There's a lot of crime in Auckland. We need law and order.

3. What do you think of Onehunga Business Association Inc's proposal to reduce the geographic boundary of the Onehunga Business Improvement District (BID) programme, and amount of targeted rate to be collected?

Do not support

Tell us why

Again, all these are extra cost on top of the property rates that I'm already paying.

Waitākere Ranges Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

I do not want to pay for all these. Ask for funding from the central government.

2. What do you think about the proposed key areas of additional investment?

A. Community wellbeing - continue to grow and evolve our programmes to support community wellbeing with a focus on tamariki and rangatahi, as well as older people

Do not support

B. Review level of community grants, including investigating a Facility Partnership Fund to support community organisations to plan, develop or upgrade community facilities

Do not support

C. Improve engagement with communities of need, schools and youth

Do not support

D. Progress an omnibus Waitākere Ranges Local Parks Management Plan

Do not support

E. Walking and cycling connections, particularly through parks

Do not support

Tell us why (please be clear which priority you are talking about)

I do not want to pay for all these. Go ask for funding from the central government.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Stop increasing the rates. 7.9 percent increase is **********.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Cut back on your spending, the people of Auckland can't abosrb all these cost increases.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Other (please specify):more frequent bus and trains

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I'd like Council to prioritise working with Government, stakeholders and communities to prevent over development happening before the necessary infrastructure is in place. For example, intensive housing in Matakana / Warkworth leading to wastewater pollution, and greenfields development leading to traffic congestion.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Submitter details:

Organisation: N/A

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

A thorough and comprehensive plan. Thank you.

Would like to see some effort to reduce the interest costs of CRL.

Would like to see some containment of expenditure on future transport plans, particularly a 2nd harbour crossing, and City/Airport connectivity. A strong preference for supporting the public transport infrastructure we have already invested in.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Re Residential parking permit fees, when simply recovering the cost of the administering the permit, is begs the question whether it's worth looking at other ways to do this.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Flood resilience, waste management and environment is a critical function of Council and are tremendously expensive to fix when they go wrong. Can the local parks and community/recreation services could be enlisted to assist with community education in these areas. Urban planning certainly should be highly engaged in these concerns.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Other (please specify):Promote existing rail transport to airport via Puhinui

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The level of increase in rates is unacceptable and should be kept to inflation rate. To achieve this Council staff should be smaller, particularly at higher levels of management. If council occupied buildings can be amalgamated that should happen. There needs to be more efficiency. Adopt AI to take over those tasks that can be done this way.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Not quite sure how this will be implemented but I clearly do not want to be charged more for Introduction of a refuse bin/bag exchange fee

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I am appalled by the idea of increasing the residential parking permit. We live in a family household where we have to park on the road as we have a heritage villa without car park space. I did not want the fees in the first place, as we have enough rates and its frankly absurd to pay to park outisde your own house. If a decision has been made already that would be digusting. There should be discounts for families with more than 2 cars, and discounts for people without a driveway. For those with driveways/carports they should be charged the increased amount as it will not affect them the same, but increasing them for people who did not want the charges, and who barely see any benefit of paying to park on our own road, this is ridiculous. Also, from Thursday/Friday and Saturday the road is worst than ever and I can rarely find a park, so I am paying for nothing. It seems Auckland council only work on Mon - Wed and even then the service is not great. I would prefer to remove the scheme all together as there was not much benefit.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Other (please specify):Making it impossible to park in the city has destroyed businesses. This should be obvious. Public transport is dirty and dangerous, you cannot even drive down queen street so how on earth can people get there.

The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Yes I agree with the increase in residential parking permit fees. The parking has improved immensely since the introduction of these permits. BUT I don't expect it to carry on increasing on a yearly basis.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

Didn't seem to include key projects etc?

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

Support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Libraries - how much would actually be saved? If considerable, then I'd support this change.

Maintenance - never delay maintenance, it means double maintenance the following year. Support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Transport - we need to make public transport free or at minimal cost to encourage people to take it. Continue the cycle lanes and finish off half-finished routes.

Environment - protect our heritage areas. Auckland's urban design is abysmal and the new townhouse areas look like shanty towns. Save what we have left of our well looked after heritage areas.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Organisation: N/A

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

I don't know

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

It is unfair to increase residential fees. I pay annual street parking fees, even though I live in a house with a driveway.

I have been ticketed by AT for parking in my driveway, because it is too short - a small portion (less than a foot) of the car hangs over the footpath but does not obstruct prams or wheelchair access.

As a renter, I have no control over the driveway length.

Meanwhile, people working at nearby businesses, who do not have residential parking permits, park on my street, often leaving me to park miles away. Or, risk a fine from parking in my own driveway.

Also meanwhile, many neighbours continue to park on the portion of footpath between driveway and street.

AT should properly ticket the non-parking-permit holders before racking up annual fees we have absolutely no way of avoiding.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Position: I strongly oppose the proposal to increase the residential parking permit fee from $70 to $114.

Reasons for Opposition:

1. Historical Inequity (Pre-1900 Housing): Many residents in Parnell East, including myself, live in heritage dwellings built before 1900. These properties were constructed without garages or off-street parking. We do not park on the street by choice, but by necessity. Increasing this fee effectively penalises residents for the historical character of their neighbourhood—a character the Council otherwise seeks to preserve.

2. Deterrence vs. Revenue: The primary purpose of the Parnell East Residential Parking Zone (RPZ) was to deter city commuters from using residential streets as park and rides. Residents should not be financially burdened to solve a congestion problem caused by non-residents. The introduction of the permits has certainly been effective and it is more noticeable during the working day that there are less cars parked in the area.

3. Revenue from Infringements: Auckland Transport already generates significant revenue from parking infringements within these permit zones. It is reasonable to expect that the fines collected from non-compliant commuters should offset the administrative costs of the permit scheme, rather than placing the full processing cost on residents.

4. Efficiency Concerns: A 62% increase is excessive. Instead of passing on a $114 processing cost, Auckland Transport should focus on modernising and automating its technology to reduce overheads and lower the administrative burden for residents.

Summary: This increase is an unfair heritage tax on residents who have no alternative parking options. The scheme should remain subsidised as it performs a public service by managing commuter congestion.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Other

Tell us why

The mayor has proposed a focus for the coming year is transport reform. After years of frustration, Auckland Council is taking back control of transport in Auckland. Auckland Transport will become a public transport service provider only, with the rest brought into the council which should make decisions simpler and faster, and increase accountability. This will be a welcome change. We agree and endorse the notion that transport planning should sit alongside land-use planning, and delivery must be practical, cost-effective, and focused on the whole network, not silos.

We further agree with progressing the next phase of CCO reform, including a more commercial approach to urban regeneration, better property management, and stronger economic development. Auckland's city centre is critical to our region's success, contributing a significant share of our GDP. You have said you will work with central government on new funding tools for visitor attraction and economic development, including exploring a bed night visitor levy for major events and destination marketing. We have always believed that attracting visitors and securing, promoting and delivering major festivals and events, is vital to developing Auckland's economy and we need a funding mechanism to secure that. You have said you will facilitate international and domestic events, including musicals, concerts and exhibitions.

We would like to reiterate the importance of events on the trade in town centres such as Parnell. Our hospitality providers report a definite uptake in days pre and post a large concert, especially if it is held in Spark Arena or Eden Park, and to a far lesser extent if it takes place at Mount Smart. It is harder to measure a definite uptake in trade from waterside events such as Moana Auckland, potentially due to the amount of hospitality near the event, but we still support their importance as contributing to a vital exciting city. In addition, strategically planning and investing in town centres, infrastructure and community amenities to enable sustainable development and support vibrant, connected neighbourhoods is of great importance to us.

You have noted an overall rates increase of 7.9 per cent is planned (for the average value residential property), whereas the estimated annual increase for the average business ratepayer is 9.84%. This would effectively mean that most of the ratepayers in Parnell would experience in excess of a 10% increase. Although you have justified the increase, it is still a sizeable percentage, which will be passed from ratepayers to tenants. The past two years have been very lacklustre in terms of retail and hospitality spend, with many businesses teetering on the edge. This also needs to be assessed together with the current geopolitical volatility that will exacerbate the outcome.

See attachment for full submission.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**

- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

The Waitematā Local Board have stated their key priorities for the Annual Plan 2026-2027.

We recognise that the board, like households across Auckland, is facing increased costs to deliver existing services, and that there is an estimated budget gap of around $1m. However, reductions to streetscape services—particularly in and around our town centre— have a direct impact on amenity, place quality, and the visitor experience. We also wish to highlight persistent issues with tree pits that we have raised over the past eight years. Responsibility for maintaining the hard assets around the base of certain street trees remains unclear between Auckland Council and Auckland Transport, resulting in inconsistent outcomes and delays. We expect the proposed integration of Auckland Transport into Council to help resolve this through clearer accountability. More broadly, we observe limited forward planning for the renewal costs associated with ageing infrastructure, including the management of mature street trees and the repair of footpaths. We encourage the Local Board to ensure long-term programmes and funding pathways are in place for these essential maintenance items.

See attachment for full submission

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

B. Reduce maintenance for bollard and post-and-rail.

C. Reduce community grant funding and accommodation grant funding.

D. Increase fees for adult swim fees at council pools by up to $3.

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

We support the reduction of library hours, including the earlier closing time at Parnell Library(5.30pm), as a practical response to current budget constraints.

We also acknowledge Council's focus on achieving additional savings; however, there remains opportunities to reduce operational inefficiencies. For example, following repairs, marketing and tenant procurement for the building at Heard Park, the premises remain unoccupied more than two years later. This type of delay increases holding and delivery costs and suggests further efficiencies are still available.

Finally, we request continued advocacy for the safety improvements and renewal works proposed for St Georges Bay Road until the project is delivered. After many years of effort to progress this work, the project was scheduled for January 2025 but deferred due to NZTA / The Strand optimisation. It was then rescheduled for January/early February 2026 and deferred again. A meeting with Auckland Transport and affected landowners to discuss midyear options was subsequently cancelled and postponed, and we are now seeking a meeting in April.

Parnell Station Precinct: Our key advocacy project for the Waitematā Local Board is the Parnell station precinct. See attachment for further detail.

See attachment for full submission.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

SUBMISSION TO AUCKLAND COUNCIL ANNUAL PLAN 2026/2027

Email to: akhaveyoursay@aucklandcouncil.govt.nz
Copied to: [redacted]

Introduction

The Parnell Business Association represents more than 1,100 businesses and an area with a capital value exceeding $2.2 billion. We work to strengthen Parnell's business environment by advocating for effective local services and settings that support innovation, investment, employment, and increased customer and visitor activity.

We share this common goal with the Auckland Council group to promote Auckland's economic prosperity.

Proposed Annual Plan 2026/27

The mayor has proposed a focus for the coming year is transport reform. After years of frustration, Auckland Council is taking back control of transport in Auckland. Auckland Transport will become a public transport service provider only, with the rest brought into the council which should make decisions simpler and faster, and increase accountability.

This will be a welcome change. We agree and endorse the notion that transport planning should sit alongside land-use planning, and delivery must be practical, cost-effective, and focused on the whole network, not silos.

We further agree with progressing the next phase of CCO reform, including a more commercial approach to urban regeneration, better property management, and stronger economic development. Auckland's city centre is critical to our region's success, contributing a significant share of our GDP.

You have said you will work with central government on new funding tools for visitor attraction and economic development, including exploring a bed night visitor levy for major events and destination marketing. We have always believed that attracting visitors and securing, promoting and delivering major festivals and events, is vital to developing Auckland's economy and we need a funding mechanism to secure that. You have said you will facilitate international and domestic events, including musicals, concerts and exhibitions.

We would like to reiterate the importance of events on the trade in town centres such as Parnell. Our hospitality providers report a definite uptake in days pre and post a large concert,

especially if it is held in Spark Arena or Eden Park, and to a far lesser extent if it takes place at Mount Smart. It is harder to measure a definite uptake in trade from waterside events such as Moana Auckland, potentially due to the amount of hospitality near the event, but we still support their importance as contributing to a vital exciting city.

In addition, strategically planning and investing in town centres, infrastructure and community amenities to enable sustainable development and support vibrant, connected neighbourhoods is of great importance to us.

Rates

You have noted an overall rates increase of 7.9 per cent is planned (for the average value residential property), whereas the estimated annual increase for the average business ratepayer is 9.84%. This would effectively mean that most of the ratepayers in Parnell would experience in excess of a 10% increase.

Although you have justified the increase, it is still a sizeable percentage, which will be passed from ratepayers to tenants. The past two years have been very lacklustre in terms of retail and hospitality spend, with many businesses teetering on the edge.

This also needs to be assessed together with the current geopolitical volatility that will exacerbate the outcome.

Local Board Priorities – Waitematā Local Board

The Waitematā Local Board have stated their key priorities for the Annual Plan 2026-2027.
We recognise that the board, like households across Auckland, is facing increased costs to deliver existing services, and that there is an estimated budget gap of around $1m.
However, reductions to streetscape services—particularly in and around our town centre—have a direct impact on amenity, place quality, and the visitor experience.

We also wish to highlight persistent issues with tree pits that we have raised over the past eight years. Responsibility for maintaining the hard assets around the base of certain street trees remains unclear between Auckland Council and Auckland Transport, resulting in inconsistent outcomes and delays. We expect the proposed integration of Auckland Transport into Council to help resolve this through clearer accountability.

More broadly, we observe limited forward planning for the renewal costs associated with ageing infrastructure, including the management of mature street trees and the repair of footpaths. We encourage the Local Board to ensure long-term programmes and funding pathways are in place for these essential maintenance items.

We support the reduction of library hours, including the earlier closing time at Parnell Library (5.30pm), as a practical response to current budget constraints.

We also acknowledge Council's focus on achieving additional savings; however, there remains opportunities to reduce operational inefficiencies. For example, following repairs, marketing and tenant procurement for the building at Heard Park, the premises remain unoccupied more than two years later. This type of delay increases holding and delivery costs and suggests further efficiencies are still available.

Finally, we request continued advocacy for the safety improvements and renewal works proposed for St Georges Bay Road until the project is delivered. After many years of effort to progress this work, the project was scheduled for January 2025 but deferred due to NZTA / The Strand optimisation. It was then rescheduled for January/early February 2026 and deferred again. A meeting with Auckland Transport and affected landowners to discuss mid-year options was subsequently cancelled and postponed, and we are now seeking a meeting in April.

Parnell Station Precinct

Our key advocacy project for the Waitematā Local Board is the Parnell station precinct.

The Parnell Business Association funded a CPTED Report as part of our Crime Prevention Fund Grant, based on an assessment of three, street-based routes between Parnell Road and Parnell Rail Station as well as two rail underpasses that connect Parnell Rail Station with Auckland Domain.

(The walking connection between the station and Auckland Museum, was not included as part of this report, but should still be noted that this is an important connection, which does not currently work, for many of the same reasons as set out below).

The CPTED assessment of the impact of Pedestrians & Streets was as follows;
The current street network and condition of the pedestrian environment between Parnell Road and Parnell Station (on the routes covered in the report) do not currently support convenient, safe and high amenity connections between Parnell Road and the rail station due to: slope, narrow footpath widths, poor maintenance (broken paving), lack of signage, indirect routes and a lack of activity to attract pedestrians/foot traffic.

1. We need advocacy from the WLB to work with KiwiRail, Auckland Council/Transport, Mana Whenua and key property owners on a co-ordinated Development Framework for the rail station precinct to optimise outcomes for Parnell town centre and the rail station, in terms of rail user experience, access alternatives to the northbound platforms and ensuring positive outcomes for visitors, vibrancy of Parnell town centre. We believe that Auckland Transport/Auckland Council need to exercise their easement rights over the Summerset property and improve the walkway down to Parnell Station, even while the property is in private hands. Since Summerset withdrew their plans for this site in 2022, all AT plans for the easement improvements were put on hold. The property has been up for sale, but the truth is this could still take many years to conclude.

The proposal for the Waipapa cycleway should be part of the Development Framework. This is a long held aspiration that is part of The Parnell Plan.

2. In the short term we need the advocacy of the WLB for council to maintain the overgrown vegetation on the walkway down to the station, as well as the bottom of the Ngahere steps and around the underpass. And for AT to address lighting concerns and uneven surfaces for pedestrians.

3. Even though there has been recent wayfinding implemented near the station, the CPTED Report still found this lacking. We need advocacy from the WLB to further review signage to the rail station with Auckland Council/Transport to ensure it is visible in daylight and evening time conditions, particularly for first time visitors. This includes signage on the rail site and at the top of Ngahere Terrace;

4. We need the WLB to work with Auckland Council/ Transport on safety and visibility measures for the steep Ngahere Terrace connection. Repair uneven footpath surfaces, including kerbs and utilities in footpath that are currently trip hazards, and deal with overgrown vegetation;

The Parnell Business Association, via Community Facilities, are already trying to address short term concerns where possible, such as potholes and uneven pathways.

We have reached out to council compliance to address the properties on Cheshire Street that pose a danger to pedestrians.

We are working with the Quest Hotel and other adjoining landowners to address the alleyways between the hotel and adjacent properties, as they are a favourite getaway for perpetrators.

We are investigating the option of a large mural to address the tagging on the back of the apartments facing the station.

In conclusion, with the City Rail Link opening this year, we encourage the board to continue advocating and partnering with relevant agencies and landowners to maximise the social, economic and cultural opportunities associated with the city fringe residents, businesses and visitors. Parnell Station has the potential to be a key link for employees and visitors; however, current access, amenity and safety conditions mean it is not yet achieving that potential.

Kind Regards

[redacted]

*Please note that from 7 April 2026, Adriana Avendano Christie will be the GM of the Parnell Business Association, as should be included in all future correspondence – adriana@parnell.net.nz

Annual Plan 2026-2027

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

No significant connection to our region.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Expansion of playground facilities for children to play

Installation of exercise facilities in the park

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

doesn't exist.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Transportation is the top priority for community development.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I do not support the Mayor's showboating - making it seem like he is the solution to everything. There's a lot of important work here, being made possible by a lot of people. And decision making better be about supporting Aucklanders not the Mayor's goddamned ego.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

The city centre is a mess. So much council money was put into improvement infrastructure focused around businesses (Look at Queen St) but those business haven't invested back into the city. Empty shops and office buildings, developers abandoning projects - Council has utterly failed to attract private sector money - which was what the substantial council spend to improve Queen St and other areas was about.

And now you propose to reduce things like community funding. When will the local board realise that Council should be focusing on the people who live and work in the city centre, not on business interest? There should be more support and investment for communities. Improve the sidewalks on Hobson and Nelson as an example. Encourage more community activation for the thousands of people who live in the city centre. It is the most densely populated part of NZ - and yet completely ignored by our so called elected representatives who pander to business interests - who have also failed to match the public investment in improving commercial areas.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

I don’t know

Tell us why (please be clear which priority you are talking about)

Communities should be THE priority. Business interests are failing the city centre - so stop calling it a CBD and start acknowledging that it is a place for people to live in.Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland’s longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland’s future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland’s spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Community should be most important - but there should also be encouraging community commerce in the mix - Your economic development and events thinking skewers heavily towards big events, tourism and creative??? What about markets - What about local community festivals? You need to stop hoping for big business investment (that's repeatedly failing to show up) and encourage and support local commercial activity.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

There is a massive issue with all the little boatyards closing. This is an issue that impacts on 'natural environment'; 'community'; and 'economic and cultural development'. Auckland is the city of sails, and we have a sturdy tradition of boating being something that middle class / working families can build their social and sporting community life around. Making it logistically and physically impossible to maintain the condition of yachts impacts on the environment, and on our culture and sporting community in major ways. The boat yards are a regional asset and resource, not a local one, and should not be able to be closed by local boards.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I have been unable to find specific info on the refuse bin/bag fees, or the residential parking permit areas... I'm sure it is there somewhere, but it is clearly buried sufficiently that it is inaccessible. I can only assume that I'm not the only person having this issue.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-EdenSupport allSupportSupportSupportOtherI think that many small/ new businesses start on the edges of a business centre, and in the industrial zones, because that is where they can survive/ thrive. They have created a revival of the area, and added value both economically and culturally. Adding an increase in the zone area, and increasing the rates at the same time, risks putting to much stress on small businesses, stripping away the awesome process that was happening. I think a more gradual and nuanced approach is needed.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I wish to reiterate:

There is a massive issue with all the little boatyards closing. This is an issue that impacts on 'natural environment'; 'community'; and 'economic and cultural development'. Auckland is the city of sails, and we have a sturdy tradition of boating being something that middle class / working families can build their social and sporting community life around. Making it logistically and physically impossible to maintain the condition of yachts impacts on the environment, and on our culture and sporting community in major ways. The boat yards are a regional asset and resource, not a local one, and should not be able to be closed by local boards.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

The intersection of environmental restoration and weather/ flood resilience... Looking after our waterways, and building a sponge city. This is only going to become more important as the weather becomes more extreme. If we don't get ahead of the game, we will always be mopping up the last (several) disasters, always trying to rebuild.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Lots of resources are being pumped into the revitalisation of the city centre, and as a resident i am grateful. But the success of this initiative is influenced heavily by the quality of the design work. I was thoroughly impressed with Jasmax's 'Te Ha Noa' work on Victoria street upgrade. It's the first bit of public design I've liked in decades.

On the other hand, the work that LandLAB has done for the city is awful and drags down the investment that is being put into the city's infrastructure. A couple of stand out thoughts are the K rd over bridge, which is dystopian and blocks the views to two of our most beautiful scenes; the harbour and mt eden. Another is the recent upgrade to Mercury lane.

I would love to see the designers who worked on with Jasmax on the Victoria st upgrade, have the scope of their projects extended to other areas of the inner city.

Thanks

Frey McCahon-Jones

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.,Other (please specify):Public spaces, if designed well. If they aren't, then they actually are a net negative

Annual Plan 2026-2027

#3938

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Proposed residential rate increase exceeds CPI....max increase should be less than 2%

A special rate is required from the CBD to contribute to the CRL to which they will benefit enormously

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

A special rate is required from the CBD to contribute to the CRL to which they will benefit enormously

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Need to reduce rate increaSE to CPI.....NEED TO BE LESS THAN 2%

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Support

Tell us why (please be clear which priority you are talking about)

Stick to the basics....need to keep rates increase to less than 2% Support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Need to keep expenditure to keep rates less than 2%

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):The CBD rates need to increase to pay for 50% of the CRL running cost

Annual Plan 2026-2027

#3962

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Expenditure on ONLY THE ESSENTIALS is not noted as policy and is therefore rendering this council bureaucrat centric useless.

There is NO indication of ANY cost control or restraint.

There are far too many nice to haves and not enough we will no longer waste ratepayers money on non-essential spending.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Rates increases at 7,9% are simply not (ever) acceptable!

7.9% rates increase and councils absolute refusal to understand or accept that their rapacious and never ending rates increases at multiples of the rate of inflation has been THE REASON that central government has moved to help ratepayers by restricting annual excessive rates increases - in particular, those above the central rate of inflation.

What is wrong with the myopic bureaucrats within Auckland Council that this handbrake would inevitably applied because of the inability to restrain excessive and unconstrained wasteful spending?

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Any HINT of Co-Governance must be eliminated.

End of story.

We must immediately stop wasting ratepayers money on unused, unnecessary and unneeded cycleways.

The deliberate damage done to Meola Rd, K Rd, Great North Road and Ponsonby Rd has RUINED our neighbourhoods, cost a fortune and achieved nothing but deliberate congestion - all orchestrated by Auckland Transport. They are a disgrace and any proposed “improvements”

planned in Waitemata must be immediately stopped and the money relocated into more appropriate spending such as our Library.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

I don’t know

C. Reduce community grant funding and accommodation grant funding.

Support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Support

Tell us why (please be clear which priority you are talking about)

Councils only excel at wasting OUR MONEY!Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

A rates increase greater than inflation should NEVER (ever) be considered or accepted by ANY council.

It is time for genuine restraint and a REDUCTION in spending and Councils must stop using ANY excuse to spend every single ratepayers dollar - but should return any unspent monies to central council.

Question 5: Looking further ahead / shaping Auckland’s longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland’s future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Removal of cycle lanes on main thoroughfares- new cycleways to be part of shared, existing footpaths... snd not deliberately congesting our main road (the most outrageously stupid example being Meola Rd , now one of AKL's slowest and most congested roads - thanks to AT's hideously expensive IMPROVEMENTS

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.,Other (please specify):Provide more affordable parking in the CBD!

Annual Plan 2026-2027

#3969

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I think that you can actually be a bit more aggressive with rate increases, despite the general anti outcry.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

My view would be that you should roll these into rates and just increase them more. It would get a bit more boo hoo (and perhaps be a bit unfair for the refuse bin/bag exchange fee for those who don't use it), but it would make it admin wise easier.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

I'm sympathetic to the fact that we're running at a bit of a loss / are fiscally constrained here. I'd like it if one could find alternative cost savings / increasing fares (like the adult swim price) rather than cutting services (i.e., everything else proposed).

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Again, increasing services I'm against. Increasing prices so that you can offset that, I'm okay wiht.Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Again, you can be more aggressive with those increases.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Resilience (water), public transit resilience (rail).

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Organisation: N/A

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Transport and Water- yes I understand how the yearly costs are needed. I do not agree that an increase in our rates should go to helping local boards respond to the needs of their communities. They are doing this already - so there should not be a need to increase, just like how Auckland Council staff are not getting any pay rise (in fact it is the opposite).

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I do not agree with this -that all Aucklanders should pay for changes within a specific suburb. If the fees are only charged to residents of the specific suburb impacted by the changes, then it is best to articulate this in the Annual Plan report.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Climate change and impact of CO2 emissions on our environment and health!

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I agree that completing the CRL and other public transport initiatives are a key focus for Council spending now. I am pleased to see projects such as the Leys Institute building and Central Interceptor noted as key projects.

I am not supportive of investment in future stadiums - these will be of no benefit if we do not make our city more resilient to climate change impacts.

I note further implementation of Council changes to staff structures. I think Auckland Council underestimates the cost of the impact this has on staff and the loss of experience, skills and institutional knowledge that these restructures cause. We want a livable city, we also want people to be safe and well in their work for the city.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Residential parking permits increase from $70 to $114 per year. While I understand that this has not increased since the introduction in 2013, the permit was only introduced in my area in the last few years. Why did AT not gradually increase this rather than in one big hit now? Could the increase be phased in over two years? I read that this increase will be full cost recovery. There is a paragraph which suggests it could have been more. We also considered the option of increasing the parking permit fee beyond basic cost recovery, to better reflect the benefits received by permit holders. Permit holders receive advantages - for example, in some areas, non permit holders must pay for casual parking, while permit holders do not. In high demand areas, having a permit also gives residents convenient and more secure access to parking, similar to paying for a parking space in the city centre. These advantages provide permit holders with cost savings. However, in most other parts of Auckland, residents can park free of charge, outside their properties. Parking outside my house is not a privilege - as it and most houses on the street were build around 1914 there is no off street parking for several houses including mine, as the street is higher that the property with a 2 metre drop. It is impossible to provide off-street parking. As a good citizen of the world and environment I use walking and public transport when I can, so the car will spend most of the time on the street. Paying more than cost recovery would be outrageous, The permits were introduced because commuters were parking on these streets. Encourage fewer cars and more public transport to address this rather than punishing people in these areas. Summary - residential parking permit increases should be no more than cost recovery, and could the increase be phased in over two years.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Support

Tell us why (please be clear which priority you are talking about)

Reducing library hours at Central City, Little Leys, Grey Lynn and Parnell libraries. I note that this will mean all the small libraries in the area will not be available for people dropping in after work, and the Central Library only until 7. Couldn't they all have one later night? I would also like to raise the issue of the Central Library being both a community library for the board area, but also a significant regional and national asset in terms of the research and heritage services. Cutting hours for this building impacts this - and the building is more expensive to run because of these. Council should consider a different model for the Central library funding which acknowledges this tension. Libraries' operational funding is mostly staffing - so this will mean reducing hours worked, or even redundancy for some people. I hope that the need to reduce staff numbers is not being used to compensate for the pay equity increase librarians were awarded last year. Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I support the Tūpuna Maunga Authority Operational Plan 2026/2027

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Adaptation to climate change, and furthermore - fostering changes in the way we use our city to reduce climate change

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

#3994

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation: N/A

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

We are a growing city, we must continue to invest in Auckland and make it an even better place

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

We need far less mowing and more attention to fostering environments for birds and other pollinators.

The closing of little leys at 5pm is a reasonable cost reduction.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Less Mowing and more environmental management activities can go hand in hand for both beauty, bees and flood resilience in our area. Community grant funding should be maintained particularly for groups which encourage volunteer efforts to mitigate climate change, could help out with tree, stream management etc This bundle needs to be kept intact as part of a resilience package for Waitemata.Support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Keep investing

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Bundles of activity which support making space for water, including community led responses to flooding and managing local flood resilience. Eg street volunteers to manage storm water grilles - needs money for facilitation but residents can do a lot more if someone motivates them

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I think the CRL is a really important link for Auckland and I look forward to using it. We need to be the city that offers top transport options as long as it can run with consistency unlike the current rail service.

Building better wastewater pipes or at least upgrading them is essential for improving water quality not just for human water activities but supporting our marine life. I think it is disgraceful that so many Auckland beaches cannot be swum at.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Feel very unsure about these extra charges for refuse bins/bags, I think the key is suggesting the alternatives such as composting and using the food scraps bins and maybe progressively bring the fees in.

Also unsure about residential parking fee increases, I bike to work or catch the inconsistent train so this would not affect me directly. However people need to be shown safe alternatives to travelling by car if you are hoping to discourage parking. There are no bike lanes on my way to work between Parnell and Ellerslie and there would be very few people wjho would attempt that commute when you are in the traffic.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Ōrākei

Ōrākei Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

Recreation areas need to be maintained or upgraded so they can be used all year round and have the greatest use made of them.

I like the idea of a playground at the Remuera Library, it is in a beautiful location and makes use of the space outside, encouraging more interaction.

2. What do you think about the proposed key areas of additional investment and changes to services?

A. Increase community-use sports fields provision either through redevelopment or expansion of our asset portfolio to address the forecasted move of Auckland Cricket into Colin Maiden Park and other demands on our sports fields.

Support

B. Increasing investment in restoration and pest-management programmes to grow and protect your natural environment. Our reserves and open spaces are one of the most vital resources in Ōrākei.

Support

C. Changing the Meadowbank Community Centre project to a self-funded community centre to capitalise on existing investment and resources.

Support

D. Construct a playground Remuera Library to optimise the under-used green space at the side of the building.

Support

Tell us why (please be clear which priority you are talking about)

I answered this above

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I love living in Auckland and feel it still has plenty of potential to fill, thanks for providing a platform for feedback.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Create a city where there is less dependence on cars.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

Focus on public transport, water and local communities.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Not sure about supporting the BID program areas.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Not happy about increasing as adult swim fees and reducing non-critical maintenance. Low fees for activities are crucial for making sure that those with no money don't miss out. Failing to remove eg old posters will result in a depressing shodiness on the streets.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

I don’t know

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

See previous response.Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I think the plan has the priories right. My main concerns are addressing climate issues e.g. getting people on to public transport and taking care of those struggling financially by eg ensuring access to libraries, beautiful parks and community activities.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Accessible public transport (climate change is the biggest threat, long term). People - communities, parks, libraries (life has got to be with living for residents, regardless of financial status).

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Home owners always get charged

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

As above

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

$3 is very reasonable. Although is that $3 MORE? Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**

- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The increase of the parking permit fo $114 from $70 is crazy. That represents more than a 60% increase and only for one area. If you made it $120 per household or $80 per car, then that would easier to swallow, but $114 is just plain mismanagement of proper cost tracking and scalping.

Try reducing the amount AT cars driving around pinging people for parkingfines in Parnell Rise will save money. Fuel cost reduces, maintenace and assets on the Balance Sheet.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

I don’t know

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

#4213

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I support the focus on transport, water and community need, but I am concerned that the 7.9% rate increase may be too high for many households.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I support some change but increase fees like parking and water charge may add financial pressure on residents

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

the prioprity are importanr for community development.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

B. Reduce maintenance for bollard and post-and-rail.

C. Reduce community grant funding and accommodation grant funding.

D. Increase fees for adult swim fees at council pools by up to $3.

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

the plan good overall.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Transport and food resilience are most important to improve daily life and safety

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Other

Tell us why

Newmarket Business Association supports the overall direction of Auckland Council's Annual Plan 2026/2027, particularly its focus on infrastructure investment, resilience, and financial

management.

However, we urge Auckland Council to strengthen its approach by:

- Reducing the cost burden on businesses

- Ensuring infrastructure investment delivers clear economic value

- Maintaining city centre recovery but also prioritising metropolitan town centre vitality and streetscape aesthetic

- Embedding a stronger focus on economic growth and productivity.

Our businesses are at the very heart of our culture and are an essential element of the region's success. The Annual Plan must ensure that businesses are not only supported but enabled to grow, invest, and contribute to a thriving and globally competitive city.

See attachment for full submission and recommendations.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Newmarket Business Association supports the overall direction of Auckland Council's Annual Plan 2026/2027, particularly its focus on infrastructure investment, resilience, and financial management.

However, we urge Auckland Council to strengthen its approach by:

- Reducing the cost burden on businesses

- Ensuring infrastructure investment delivers clear economic value

- Maintaining city centre recovery but also prioritising metropolitan town centre vitality and streetscape aesthetic

- Embedding a stronger focus on economic growth and productivity.

Our businesses are at the very heart of our culture and are an essential element of the region's success. The Annual Plan must ensure that businesses are not only supported but enabled to grow, invest, and contribute to a thriving and globally competitive city.

See attachment for full submission and recommendations.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

The Waitematā Local Board have stated their key priorities for the Annual Plan 2026-2027. We acknowledge the fiscal constraint under which they are operating. We completed our Annual Presentation to the Local Board recently, and provided our key areas in need of their support and advocacy. It should be noted a few of these areas have been on our priority list for almost 10 years.

The projects we are seeking Waitematā Local Board's advocacy and support for are:

- Funding support for the construction of outdoor dining pergolas for the Davis Crescent /Lumsden Green hospitality strip

- Advocacy and CAPEX support for streetscape upgrades of Kent & York Streets

- Advocacy to support the creation of a cycleway through dis-used Parnell railway tunnel, and support to secure easement on land on the Parnell side of the tunnel

- Advocacy to help with the establishment of a northern accessway to Newmarket Station on Broadway.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

B. Reduce maintenance for bollard and post-and-rail.

C. Reduce community grant funding and accommodation grant funding.

D. Increase fees for adult swim fees at council pools by up to $3.

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan Feedback
Auckland Council

Via Email: [redacted]

ANNUAL PLAN – OUR SUBMISSION

Introduction
The Newmarket Business Association (NBA) represents over 3,000 property owners and businesses, who between them employ around 21,000 employees within the Newmarket precinct. Through the Business Improvement District (BID) programme, we work on behalf of the private sector, and in partnership with Auckland Council, its CCOs, and the Waitematā Local Board. Our ratable commercial property portfolio is valued at around $6.5B. Our role, with a single-minded focus on the Newmarket precinct, is to improve the business environment of the area, promote innovation, safety, prosperity and employment as well as attract new businesses, consumers and visitors.

We welcome the opportunity to provide feedback on the Annual Plan 2026/2027, which continues delivery of the Long-term Plan 2024–2034. The Plan focuses on maintaining financial discipline while progressing major infrastructure and service investments.

We support the Council's commitment to value for money, infrastructure delivery, and resilience, but emphasise that economic growth, business sustainability, and city centre vitality must be more explicitly prioritised.

Overall Position
We acknowledge that the Annual Plan is largely a continuation of agreed Long-term Plan priorities, including:

- Significant investment in transport and water infrastructure
- Continued focus on financial and physical resilience
- Delivery of major projects such as the City Rail Link (CRL).

We also recognise the scale of planned investment:

- $3.9 billion in capital investment
- $5.3 billion in essential services and operations.

However, from a business perspective, the Plan does not yet sufficiently address:

- The cumulative cost pressures on businesses
- The need for stronger economic development outcomes
- The importance of supporting Auckland's city centre and commercial hubs.

Rates and Cost Pressures on Business

The proposed 7.9% average residential rates increase reflects commitments in the Long-term Plan and is driven in part by the operating costs of major infrastructure such as CRL.

While the consultation document focuses on residential impacts, businesses are also significantly affected through:

- General rates
- Targeted rates
- User charges and fees.

In the current environment of unpredictable consumer confidence and demand, rising operating costs and ongoing economic uncertainty, further increases in rates and charges are a real risk to business viability, and discouragement to investors and may slow economic recovery

Our Feedback:

- Limit additional financial burdens on businesses wherever possible
- Provide clear breakdowns of business rates contributions and benefits
- Consider targeted relief or phased increases for vulnerable sectors.

Infrastructure Investment and Delivery

We strongly support continued investment in:

- Transport networks
- Water infrastructure and resilience
- Growth-enabling infrastructure.

These are essential to Auckland's productivity and long-term economic success. The expected opening of the City Rail Link is particularly significant and will reshape access to the city centre and wider region.

Infrastructure investment is positive, but the key issue for businesses is delivery and impact:

- Construction disruption affects foot traffic and revenue as we have seen with CRL
- Delays increase uncertainty and cost
- Poor coordination and lack of development response harms local business clusters.

Our Feedback:

- Strengthen project delivery management, accountability and transparency
- Implement properly resourced development response impact mitigation plans for major works
- Prioritise projects that deliver clear economic and productivity benefits to Auckland as a whole.

City Centre and Economic Growth
The consultation document identifies the city centre as the economic heart of Auckland, generating around 20% of the region's economic output.

We support the focus on:
- Improving public spaces
- Maximising value from transport investment
- Supporting the city centre as a place to live, work, and visit.

However, we are concerned that:
- City centre is the only focus of the council at the cost of other metropolitan town centres such as Newmarket
- Retail and hospitality face reduced demand and changing patterns
- Safety, accessibility, and activation remain ongoing issues

Our Feedback:
- Increase investment in safety and cleanliness, this is a real reputational risk to the city centre, and by association, the rest of Auckland
- Partner more closely with business associations and BID programmes across the Auckland region.

Economic Development and Productivity
The Plan includes a focus on economic and cultural development, but this remains relatively high-level.
Auckland faces key challenges including:
- Productivity constraints
- Infrastructure gaps
- Competition from other global cities.

There is a need for:
- A clearer economic development strategy
- Alignment between infrastructure investment and business growth areas
- Stronger support for:
    - Innovation
    - Skills
    - Investment attraction

Our Feedback:
- Embed measurable economic outcomes in the Annual Plan
- Develop a clearer pro-growth narrative and strategy
- Ensure council decision-making considers economic impact alongside cost
- Focus on attracting more major international events and artists.

Local Investment and Town Centres

We support investment in:

- Local boards
- Community infrastructure
- Improvements to town centres

Enhancing town centres is critical to:

- Supporting local economies
- Encouraging foot traffic and spending
- Creating vibrant, safe environments

The Plan recognises the need to improve town centres so they attract more people and are more accessible.

Business Perspective

- Local investment should prioritise metropolitan town centres and economic hubs like Newmarket
- Funding decisions should consider economic contribution and growth potential.

Our Feedback:

- Increase investment in business districts and growth areas
- Take a more holistic view of Auckland, looking beyond simply the city centre
- Ensure local projects are aligned with economic outcomes.

Financial Discipline and Value for Money

We support the Council's emphasis on:

- Efficiency
- Cost control
- Delivering value for money.

However, for businesses, value for money must be demonstrated through:

- Tangible improvements in infrastructure and services
- Reduced inefficiencies and duplication
- Better outcomes for economic activity.

Our Feedback:

- Increase transparency on spending outcomes and performance
- Identify and implement cost savings that reduce pressure on rates
- Focus on core services that enable economic growth.

Our Priorities for Waitematā Local Board

The Waitematā Local Board have stated their key priorities for the Annual Plan 2026-2027. We acknowledge the fiscal constraint under which they are operating. We completed our Annual Presentation to the Local Board recently, and provided our key areas in need of their support and advocacy. It should be noted a few of these areas have been on our priority list for almost 10 years.

The projects we are seeking Waitematā Local Board's advocacy and support for are:

- Funding support for the construction of outdoor dining pergolas for the Davis Crescent / Lumsden Green hospitality strip
- Advocacy and CAPEX support for streetscape upgrades of Kent & York Streets
- Advocacy to support the creation of a cycleway through dis-used Parnell railway tunnel, and support to secure easement on land on the Parnell side of the tunnel
- Advocacy to help with the establishment of a northern accessway to Newmarket Station on Broadway.

Conclusion

Newmarket Business Association supports the overall direction of Auckland Council's Annual Plan 2026/2027, particularly its focus on infrastructure investment, resilience, and financial management.

However, we urge Auckland Council to strengthen its approach by:

- Reducing the cost burden on businesses
- Ensuring infrastructure investment delivers clear economic value
- Maintaining city centre recovery but also prioritising metropolitan town centre vitality and streetscape aesthetic
- Embedding a stronger focus on economic growth and productivity.

Our businesses are at the very heart of our culture and are an essential element of the region's success. The Annual Plan must ensure that businesses are not only supported but enabled to grow, invest, and contribute to a thriving and globally competitive city.

Best regards

Annual Plan 2026-2027

#4293

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Other

Tell us why

The Annual Plan should prioritise:

1. Rejection of PC120

2. Water and flood resilience (critical infrastructure)

3. Transport efficiency and optimisation

4. City centre performance and accessibility

5. Locally grounded, infrastructure-aligned planning decisions

A focused approach will better support Auckland's growth, resilience, and long-term

financial sustainability.

See attachment for full submission.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The Annual Plan should prioritise:

1. Rejection of PC120

2. Water and flood resilience (critical infrastructure)

3. Transport efficiency and optimisation

4. City centre performance and accessibility

5. Locally grounded, infrastructure-aligned planning decisions

A focused approach will better support Auckland's growth, resilience, and long-term

financial sustainability.

See attachment for full submission.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Submission on Annual Plan 2026/2027 – Auckland Council

Submitter: [redacted]
Location: St Marys Bay, Auckland

---

1. Overview

This submission supports a disciplined prioritisation of investment toward core infrastructure and economic productivity. In particular, transport, water, and the performance of the city centre should be treated as first-order priorities, supported by locally responsive planning.

Auckland's city centre contributes approximately one fifth of regional economic output. Its performance is therefore directly linked to broader fiscal sustainability and growth. Investment decisions in this Annual Plan should reflect that reality.

Plan Change 120 should be abandoned. It is a poor substitute for the existing Auckland Unitary Plan, which was a structured, professionally developed framework subject to full public scrutiny and therefore reflective of Aucklanders' views.

By contrast, PC120 is based on an unsound premise: that Auckland must immediately provide capacity for approximately 1.6 million additional dwellings over an undefined timeframe. This scale is neither clearly justified nor aligned with infrastructure capacity. Its enactment would weaken planning discipline and risk a decline in urban quality, with outcomes increasingly driven by ad hoc development rather than coherent design.

---

2. Transport

Position: Increase priority.

Transport investment should focus on network efficiency, reliability, and mode integration rather than expansion alone.

- Congestion imposes measurable productivity costs across the region.
- Public transport uptake is highly sensitive to reliability, travel time, and cost.
- Cycling and micro-mobility infrastructure provide relatively low-cost capacity gains in constrained corridors.

Recommended focus:

- Optimise existing assets before committing to major new capital works.
- Improve frequency and reliability on core public transport routes.
- Ensure capital works are planned within a long term transport plan.
- Remove network bottlenecks that constrain both freight and commuter movement.

3. Water and Flood Resilience

Position: Highest priority.

Recent severe weather events demonstrate that stormwater and flood resilience are critical infrastructure, not discretionary expenditure.

- Flood damage imposes significant direct and indirect economic costs.
- Population growth increases pressure on ageing water infrastructure.

Recommended focus:

- Separate the combined storm water and waste water systems in the inner city suburbs.
- Accelerate investment in stormwater capacity and flood mitigation.
- Prioritise maintenance and renewal of existing water assets.
- Align land use planning with realistic infrastructure capacity.

---

4. City Centre Vitality

Position: Increase priority.

The city centre is a strategic economic asset and requires active management to remain viable.

- It generates a disproportionate share of employment, education, and visitor activity.
- Declining accessibility or amenity has flow-on effects for regional productivity.

Recommended focus:

- Improve accessibility (particularly public transport and parking turnover).
- Enhance safety, cleanliness, and public realm usability.
- Ensure major transport investments deliver tangible improvements in movement and access.
- Ensure the character of inner city suburbs is preserved.

---

5. Local Issues – St Marys Bay and Plan Change 120

Position: Require reassessment and improved process.

Local planning changes must be grounded in infrastructure reality, transparent methodology, and community engagement.

Key concerns:

- Infrastructure capacity (transport, water, stormwater) is not clearly aligned with proposed intensification.
- Walkable catchment assumptions do not reflect actual topography or accessibility constraints (e.g. steep terrain such as Jacob's Ladder).
- Community input processes require greater transparency and accuracy of representation.

Recommended actions:

- Reassess intensification assumptions against verified infrastructure capacity.
- Apply realistic accessibility modelling that reflects physical constraints.
- Improve consultation processes to ensure submissions are accurately captured and reflected.

---

6. Funding Discipline

Across all categories, prioritisation should be guided by:

- Asset performance and renewal before expansion.
- Measurable economic return and service outcomes.
- Affordability within ratepayer constraints.

---

7. Conclusion

The Annual Plan should prioritise:

1. Rejection of PC120
2. Water and flood resilience (critical infrastructure)
3. Transport efficiency and optimisation
4. City centre performance and accessibility
5. Locally grounded, infrastructure-aligned planning decisions

A focused approach will better support Auckland's growth, resilience, and long-term financial sustainability.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I support the CRL, Leys Library restoration, water projects, transport electrification. I do not agree with reduced funding for Waitemata and some other local boards. I do not agree with no spending on affordable housing or council to resume building affordable housing. I do not agree with selling $106mof assets.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I urge a small further increase in the general residential rate and business rate.I support proposed increases in the Natural Environment Targeted Rate, Climate Action Targeted Rate, Water Quality Targeted Rate.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I oppose and do not agree with cuts in hours for the Leys, Parnell Library.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

B. Reduce maintenance for bollard and post-and-rail.

C. Reduce community grant funding and accommodation grant funding.

D. Increase fees for adult swim fees at council pools by up to $3.

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I agree with the Tupuna maunga Authority Operational Plan

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Cultural activities and development, fund performing arts. Asset renewal, clean up streams an harbour.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I'm not supportive of the same increases in costs being applied in Waitemata and in South Auckland Boards. Take swimming pool costs, for instance. I would think there are a lot more houses in Waitemata that have their own pools than there are in Otara-Papatoetoe. So the increases in costs for local amenities impact differently on the different communities. Also given the communities' average hosuehold incomes.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The additional costs seem reasonable and justifiable.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I can support most of the proposed costs changes but I have concerns about reduced community grant funding (reduced by how much? and across the board or targetted?). Also I a really concerned about the reduced hours for the Central Library. I don't think the Central Library should have weekend hours cut. For a lot of students, living in town, the university libraries are packed and the Central Library is an important haven for work.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

I don’t know

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Support

Tell us why (please be clear which priority you are talking about)

I mentioned the lack of specificity in what community grants might be reduced in my previous answer. And I explained why I do not support the reduction of hours at the Central Library Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

There seems to be a proposal to increase a lot of spending in Rodney. I realise it's a large board area but it looks a bit disproportionate given the population base.

By the same token, I support plans for expenditure in Puketapapa, but given the density of population there these days, it would be good to see even more resources being allocated to developing parks for communal use. A lot of people in Mt Roskill have no outdoor space at their homes. They're bang up against their neighbours because of decades on infilling.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Other (please specify):Arts events please. My support for events and city life does NOT mean a support for big stadiums on the waterfront. It means fidning ways to create laneway spaces that are not just restaurants but also galleries and performance spaces for the Festival of the Arts

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I would also like to see the council sort out flooding in WEstern park, that has contributed to flooding in Freemans Bay, It would be great if work with Ngati Whatua to unveil the stream that runs there...

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

We pay a separate rubbish collection feee as part of BC so can't really comment

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

As my previous comment, I would like work down on Western Park's flooding and the impact there.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

I don’t know

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

I think the pools are quite expensive as they are now and it needs to be available to everyone for their healthDo not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I support the workign with kainga ora for housing that is good. I support work on public transport . I didn't see much as about bike lanes/paths but fully support more being spent, including the completion of the whau cycle way ,,,, the opening of the new part off the NZ motroway path is outstanding. Public transport is our future.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Fllod resilience. Where I live has been heavily impacting by flooding and our expenses have doubled, making it extremely difficult to live here.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

The city's economy needs to grow for example, city's traffic construction needs to be updated, and city's water resources need to be better invested... ... I believe these initiatives are important to the development of our Auckland city.

As a ordianary citizen of Auckland, I hope our city will be bright in the near future: having a advanced transportation environment, and clean water resource thus our city will be able to attract more tourists from all over the world to promote the economic development of our city.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Well, on the whole I would like to say support it because if these new charging items or new charging levys could or can bring more opportunities for our city urban development, then I agree it worth to do that.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

For a local body community, well , the principal is same that is to hope to be able to offer a better service to the local people .

Of course in the service of the people better at the same time we also need consider do a good balance approach that is on the one hand it can be increased government revenue and on the other hand it also can reduce some financial expenditure as much as possible.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Here the priority to consider is a a sense of a "rhythm". This sense of rhythm actually refers to it can increase the government's fiscal revenue as much as possible, and also at same time it can reduce some of financial expenses. Then, of course I mean the " rhythm" fast or slow well. it all means reasonable to so.

I am not very supportive on reducing funding for environmental management activities because I believe this has lost a sense of rationality. Because of the protection and management of the environment of our city is vital to our city.Support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

The economy of developing our city is becoming more important at this time. The importance of that in fact, I do not need to say more here because if a city's economy does not develop then any other city development projects will be a waterless source.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting

businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

#4362

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

As an occasional cyclist, I'm amazed how encouraging it is to have effective and *linked* bike paths. More please.

Despite happy memories I'm not among those who think putting large sums into a problematic building like the Leys Institute is the best use of funds.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

As a Ponsonby resident I'm directly affected by the increase in residential parking permit fees, and I support it.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

I don’t know

D. Increase fees for adult swim fees at council pools by up to $3.

I don’t know

E. Reduce funding for environmental management activities.

I don’t know

Tell us why (please be clear which priority you are talking about)

Cuts are difficult, but reducing library hours and mowing seem the least painful to me. Reducing maintenance has longer term consequences for the quality of our built environment so I'm wary of that.Support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I'm very much in favour of the plan changes supporting intensification, especially around public transport nodes.

Question 5: Looking further ahead / shaping Auckland’s longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland’s future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland’s spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland’s economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

It doesn't account for cost of living pressure. The plan spreads costs across everyone but not everyone can absorb the increases equally. People on tight budgets feel it much more sharply than those on higher incomes.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I am concerned about the proposed 7.9% rates increase. This is above wage growth for most people.

With the rising cost of living - fuel, food, electricity and water, I am already struggling financially. This increase feels too high and poorly timed, and I simply cannot afford it.

While I understand the need for investment, the impact on households like mine is immediate and significant.

I urge the council to reduce the increase, phase it more gradually, and provide better support for those experiencing financial hardship.

Please take into account the real pressure many Aucklanders are under when making your final decision.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

I don't know

B. Reduce maintenance for bollard and post-and-rail.

I don't know

C. Reduce community grant funding and accommodation grant funding.

I don't know

D. Increase fees for adult swim fees at council pools by up to $3.

I don't know

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

I don't know

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Safety

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Organisation: N/A

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Auckland has deferred the necessary level of investment in public transport and waste infrastructure for too long and it's reassuring to see Council focussing on this now. However, as a city that NZ needs to be thriving, the non-infrastructure needs of the city also need investment and attention. This includes parks, arts & culture and other community building activity,

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

It is not stated whether the library closing hours are based on usage data or are solely cost-cutting. I use our local library a lot and there are always a lot of people there. I don't want to see access to community facilities decline in our local board area.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

I don't know

Tell us why (please be clear which priority you are talking about)

When Council is focussed on hard infrastructure spending, our local boards need to be even more alert to reducing community services in our area, not less.Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

All of these are vital for a thriving Auckland - and they're interconnected. I'd like to see Council better connected with itself for delivering these activities, instead of operating in silos as it seems to in many instances now. It has been reassuring to see Council asserting Auckland's needs with Central Government. This is another area where a connected-up approach is needed.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

I support all of these. I support The City Rail Link, The Eastern Bus Way, Ley's Library and the electrification of the bus fleet in Tāmaki Makaurau. The bus lanes and the cycle ways need to be fast tracked in light of the geopolitical situation which could see the restriction of petrol.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I support increasing fees for parking so as to discourage parking however, there needs to be a very efficient train and bus service available.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-EdenSupport allA priority for me is having swimmable beaches. I support the Herne Bay Collector Tunnel.• I care about flood risk in our community of Grey Lynn. I support Advance the Making

Space for Water programme that aims to reduce, avoid and raise awareness of flood risks. I support planting more trees and giving out incentives to maintain and protect mature trees. I would also like to lower speed limits around where I live in Grey Lynn on main roads and to have a safer, cleaner, and less polluted living environment in Grey Lynn. This would include more pedestrian crossing, bile lanes and extended bus lanes. This is important considering the geopolitical situation at the moment.

I also support continuing the $500m water and wastewater renewals programme to replace ageing pipes and treatment plant infrastructure across Auckland.

I also support expanding the network of resource recovery facilities around the region, including Community Recycling Centres that receive, collect, repair and refurbish unwanted

items from the public. I use presently the Waiōrea Community Recycling Centre which is excellent!SupportSupportSupportSupportArt events will help to unify the community and make it safer.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I support action on mitigating the effects of Climate change urgently, including ways to mitigate flooding. The 2023 floods hit our suburb in Grey Lynn particularly badly! Our basement was completely flooded but other neighboring houses in Hakanoa Street were totally submerged! Grey

Lynn Park, became a lake, The Return of Opoutukeha. Streets need to be more family friendly and the cutting down of the urban trees stopped. Our planet is getting hotter and we are pretending it isn't happening! We also need to be less dependent or not at all on fossil fuels for the good of future generations in Ōpoutūkeha, Tāmaki Makaurau.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Manage Stormwater and protect communities from flooding - this includes removal of houses to make space for water that allows other taller housing to be built (a water-sensitive approach). This is a threat which will be looming larger and we all need to protect the community for the future. People will lose a lot and lives will be damaged irreparably if this action isn't taken now.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Rising costs amid petrol crisis

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Live in the area so not keen on a charge for rubbish bags and bins, especially when it's already changed in West side

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Grey Lynn has a beautiful park - it needs upkeep, however the area in Cockburn St flooded, so you can't reduce the funding for environmental management activitiesDo not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

6	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Activities around the waterfront

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

The Central City Library should be moved from the Waitematā Local Board's asset to a regional asset. Four out of six of the building's floors are used for regional assets and the vast majority of its customers are from other local board areas. Parnell Library should also close on weekdays at 5:00pm to bring it in line with the other community libraries in the area. That should allow the Central City Library to remain open at its current hours (assuming it is not shifted to becoming a regional asset, as it should be).

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Other

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Support

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Electric railway service should be extended to Helensville in the short term with an ultimate goal of extending it to Wellsford. There should also be an effort to extend a railway branch line to the airport from Puhinui Station similar to the short Manukau branch line. Rail replacement buses should be on call at any time for when Southern and Eastern Lines are shut down as there are no direct alternatives for public transport between South Auckland and the City Centre when the lines shut down suddenly.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Other (please specify):A new Central City Library

Annual Plan 2026-2027

#4466

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Homeowners seem to pay a lot

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Homeowners always seem to be penalised

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

A lot of seniors rely on Grey Lynn libraryDo not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

You still spend whatever you want and just increase rates. I want Council to do less. Much less. And CRL is just insane for a city our size.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Unhappy. I will vote out every councillor I can who supports this plan. I just can't keep paying more every year.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Shorter library hours for smaller libraries seems fine. Washing of signs? - when the ********** has this happened.? Non-essential tree work? Like what? I've stopped asking for more trees, the contractors no longer plant under power lines, you can't stop pruning unless Vector is going to pay, I don't get it. The loss of significant trees is actually one of the worst things about Council in recent years.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

3. And 4. This punishes the poorest and least powerful groups in our community.

5. Depends - weed control is still important. Would like to see some smarter rubbish catchers in waterways.Support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Intensification plan is still a joke. The Mayor thinking only rich people own old houses and that the fact he just doesn't give a ********** will wreck the city. I grew up in a cheap house in the western suburbs. There are many thousands of crappy, old homes in those suburbs that should be knocked down before we destroy suburbs like Kingsland, Mt Albert and Grey Lynn. Thankfully Auckland Transport is about to be destroyed so Council can have policies that encourage inner city living.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

start saving the beautiful old buildings - another 2 story villa demolished on Ponsonby Rd this month. Clearly no one in Council cares.

Protect more trees - bring back stricter rules.

Remove some of the stupider and dangerous speed control bumps - putting them just before an intersection is insane and dangerous for motorcyclists.

Re-zone all those cold, cheap houses in the 1960's suburbs so decent houses get built there.

Build multi-story car parks near train stations.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Other (please specify):Stop penalising inner city residents who, shockingly, may want to actually own a car.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Strongly support all, particularly increasing parking fees

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

I don’t support reducing library opening hours. Closing earlier would make it hard for working people to access these spaces.

I do support minor increases in “user pays” type fees e.g. swim charges

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

Support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Support theCRL launch and delivery to the max. It's gonna be a game-changer.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

This submission is on behalf of the Grey Lynn Residents' Association. The GLRA is an Incorporated Society that represents the people of Grey Lynn, with membership open to all. We do advocacy & activism work to make Grey Lynn the most liveable suburb in the world. The Waitematā Local Board (WLB) has been charged with making cost cuts to meet their allocated budget for 2026/27. To meet the budget there have been proposals to trim current service levels and increase fees and charges, which are laid out in the Supporting Information for Consultation Document. The WLB has consulted with the GLRA over these proposals and we will address each of these here.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Other

E. Reduce funding for environmental management activities.

Support

Tell us why (please be clear which priority you are talking about)

1) Reduction of Library Hours

The proposal is to reduce the Central City Library hours by 3 hours per week, e.g. closing on weekdays at 7pm. To reduce the Little Leys Library hours by 5 hours per week, e.g. closing on weekdays at 5pm. To reduce the Grey Lynn Library hours by 2.5 per week, e.g. closing on weekdays at 5pm- Parnell Library hours by 2.5 hours per week, e.g. closing on weekdays at 5.30pm.

The GLRA understands that this proposal was arrived at with consultation from Library Managers.

The GLRA supports this proposal, with the proviso that this the final reduction in hours for these facilities, to ensure that the public have access to these, and that staff can continue to earn a sustainable income.

2. Reduce Non-critical Maintenance (including bollards and post-and-rail maintenance, and cleaning of plaques and signs)

The GLRA supports this proposal

3. Reduce Community Grant Funding

The GLRA does not support this proposal.

Community Groups are also incredibly important at uniting people and for the wellbeing of our community. This is particularly important in these times where more people in our community are experiencing economic hardship.

The grants in this area are not particularly large, given the size of the WLB's overall budget, but these small grants are the life blood of these groups.

It is also noted that the Local Board does have the discretion to grant less that the applicant applies.

Reduce Accommodation Grant Funding To Community Groups (to help meet the costs associated with their premises)

The GLRA does not support this proposal.

In these straitened times the membership of Community Groups is already feeling economic pressure and that to reduce this accommodation grant funding could overly limit their activities.

A reduction in financial support would be particularly egregious for a Community Group like Wingspan Trust, which exists to provide affordable counselling services to our community.

4. Increase Adult Swim Fees At Council Pools By Up To $3

The GLRA supports this proposal, with the proviso that the increase does not apply to people who have a Community Services Card to ensure that economic hardship does not reduce people's abilities to access these facilities; and it would be better to increase fees further for the general public to ensure that people with CSCs have their costs fixed for the next year.

5. Reduce funding for environmental management activities.

(We assume that the specific sections we address here are the ones referred to under this point)

Review and Reduce Mowing Specifications (on steep slopes and in some parks, and review traffic management plans for mowing and street garden maintenance)

The GLRA supports this proposal

Delay Non-Essential Tree Work

The GLRA supports this proposal

Support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I was going to upload our submission as outlined above. But your website is not taking supporting documents.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around

	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

As the board has not met to discuss this I will not prioritise these, and to do so seems facile, when most are equally important.

The GLRA does prioritise community consultation on planning for more intensification of housing, facilitating the growth of public transport and non-car travel, and maintaining top public community services

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#4529

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

I don't know

Tell us why

The overall plan continues the current emphasis on roads and fossil fuels and does not do enough to prevent contributing to climate change and biodiversity loss. A much bolder approach is needed.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I support charging for residential parking ideally reflecting the actual cost of providing the public road space and maintaining it.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I would like to see a greater portion spent on environmental goals so that a greater effort can go into invasive weed control.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

C. Reduce community grant funding and accommodation grant funding.

D. Increase fees for adult swim fees at council pools by up to $3.

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

The environment needs more not less funding.Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Please change the emphasis in transport to provide a low coast on road connected cycleway system by reallocating road space. Away from parking and driving to cycling and other active modes. Be braver in overcoming irrational shop keeper fears so cycleways continue through shops and intersections instead of vanishing where there is perceived resistance..

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Other (please specify):Improve te taiao in the CBD

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The residential parking permit will add an additional cost to people living in the Central area without any real benefit for residents

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

It seems cost cutting only

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Other

B. Reduce maintenance for bollard and post-and-rail.

I don’t know

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Other

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

While I am supportive of the main proposed projects, there are a lot of hidden or not much detailed additional expenses that refers to another document not clearly linked. I believe all the changes should be detailed in one document for people to be aware and provide feedback. A lot of houses are being built and will be built in the central areas, but no parking is provided, especially in apartment blocks and the council is also increasing cost for residentials. How is the council going to fix this? It can't always be on the middle class to pay more for a disservice we didn't cause. Also, it would be great to have details on how long you are expecting the rates to be around 7.9% because of the CRL.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Progress the construction of the Eastern Busway, so people can rely more on public transport rather than private cars.

Support City Rail Link go-live to encourage people to use it and understand benefits.

Bring the second

northern half of

the 16.2km Central

Interceptor wastewater tunnel into service, increasing conveyance capacity and reducing

wet-weather overflows Into inland waterways.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

You guys couldn't organise a **********-up in a brewery. All you know how to do is spend, spend, spend other peoples money. We have to budget on our measly 2% pay increase but no limits for you! Learn how to set a realistic budget and stick to it, instead of finding more & more of sucking it out of the pockets of hard working ratepayers!

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

It is totally wrong that you are putting such large increases on already struggling businesses. And charging people to park outside their own houses on roads they have already paid for via rates, taxes and fuel tax is anathema. It shows the desperation of an organisation which cannot control it's own largess.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden,Aotea/Great Barrier,Devonport-Takapuna,Franklin,Henderson-Massey,Hibiscus and Bays,Howick,Kaipātiki,Māngere-Ōtāhuhu,Manurewa,Maungakiekie-Tāmaki,Ōrākei,Ōtara-Papatoetoe,Papakura,Puketāpapa,Rodney,Upper Harbour,Waiheke,Waitākere Ranges,Waitematā,WhauDo not support anyLocal board members are just parasites sucking off the ratepayers tit. They provide no useful function (that is noticeable to any local resident or business) but strut around as if they are someone important (which they are not!) while providing another layer of uneccessary expense for all. Do not supportDo not supportDo not supportDo not supportYet another money grab for no benefit to the local residents or business owners. The increased funds will be sucked into the pockets of the so-called "representatives" who will squander it on useless projects of no merit to the locals.

Aotea/Great Barrier Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See above - they are all the same!

2. What do you think about the proposed key areas of additional investment and changes to services?

A. Improvements to the library service including additional programmes.

Support

B. Partnering with mana whenua and community on the coordination and engagement of island fisheries management and local Ahu Moana marine projects.

Do not support

Tell us why (please be clear which priority you are talking about)

We are all supposed to be New Zealanders, yet one group continuously get preferential treatment over the rest, whilst contributing the least. This has to stop as it only creates division which, ultimately, will lead to the downfall of this country.

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See above - they are all the same!

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Do not support

B. Reduced library hours over 7 days.

Do not support

C. Reduced local board funding to local organisations that deliver local events.

Support

D. Reduced budget available for contestable grants.

Support

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

Do not support

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

Do not support

G. Reduced funding for parks volunteers.

Support

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Do not support

Tell us why (please be clear which priority you are talking about)

This covers most of the above. Costs are rising for everyone, not just Council. Council needs to make better budgets and reduce the bloated, overpaid bureaucracy that is dragging it down. Get rid of unnecessary levels of overpaid management, consultants, panels and advisors and get back to basics.

Franklin Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See above - they are all the same!

Henderson-Massey Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See above - they are all the same!

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See above - they are all the same!

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Costs of extra services should be born by the user, NOT the ratepayer. There has been a move, of late, where the cost is being increasingly born by the ratepayer and NOT the user. Ratepayers are like everybody else, they generally have limited income but are expected to cover the cost of everything non-ratepayers have the pleasure of enjoying. Ratepayers DO NOT have bottomless pockets.

Howick Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See above - they are all the same!

2. What do you think about the proposed local board specific key areas of spend?

A. Explore ways to get the best value from our play spaces so they continue to meet the needs of children and families.

Support

B. Run regular seminars for community groups/organisations on the local grant's application process.

Do not support

C. Identify what type of indoor/sheltered courts are necessary to support sports play in Flat Bush.

Do not support

D. Continue advocacy of the Tāmaki estuary on water quality and coastal erosion.

Do not support

E. Continue to advocate to crime prevention organisations on behalf of the community for ongoing safety initiatives.

Support

F. Continue to support our volunteer groups with resources needed for ecological volunteering, such as stream clean-ups and pest plant weeding.

Do not support

Tell us why (please be clear which priority you are talking about)

See above - they are all the same! Why should it always fall on the ratepayer to fund groups, organisations and facilities that end up getting liitle, or no return from the end user?

Kaipātiki Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See above - they are all the same!

Māngere-Ōtāhuhu Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See above - they are all the same!

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering a Local Services Targeted Rate, changes to service levels or fees, or a combination of both approaches. We could introduce a Local Services Targeted Rate of $47.11 (GST inclusive) per Separately Used or Inhabited Part per annum on all rateable properties except those categorised as zero-rated in the Māngere-Ōtāhuhu Local Board area ($0.91 cent per week) to cover the increased cost of delivering existing services. What do you think about this proposal?

Do not support

3. We could adjust some service levels, fees and charges. What do you think about the proposed changes?

A. Reduce library hours - reduce hours at our four libraries as needed, without going below the regional minimum service level of 44 hours over 6 days at each library.

Do not support

B. Reduce maintenance - Stop scheduled bollard and post-and-rail maintenance, stop scheduled maintenance for bush areas (except High Value/Ecological), change garden edging to chemical application, cease infill planting and mulching in amenity gardens and reclassify re-vegetation areas to bush areas.

Do not support

C. Reduce discretionary funding for Community Wellbeing programmes and services, Environment Management programmes and services and community grants.

Support

D. Increase pools and leisure fees - Increase fees and charges by $1 for "Plus" services at Moana-Nui-ā-Kiwa Pool and Leisure Centre.

Do not support

E. Charge adult visitors from outside the local board area at Moana-Nui-a-Kiwa Pool and Leisure Centre and Ōtāhuhu Pool and Leisure Centre (Toia).

Do not support

Tell us why (please be clear which priority you are talking about)

Interestingly, South Auckland has a large number of rental properties. By adding extra charges you are simply putting pressure on Landlords to increase their Rents, adding to the pressure on the Tenants. Control your spending, rather than just find ways to spend more. Why, if the CPI is only 3.1%, should rates be going up 8-10-15%? None of the options provided in your next "Choice" (#4) is acceptable as they all require an increase in fees & charges.

4. Overall, how do you think the local board should address the cost increases?

Manurewa Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See above - they are all the same!

2. What do you think about the proposed key areas of additional investment?

A. Allocate up to $1.5 million of funding to support delivery of the Manurewa War Memorial Park multi-sports pavilion.

Do not support

B. Deliver a new multi-cultural initiative that responds to demands for increased ethnic engagement.

Do not support

C. Develop a civics education initiative that helps people understand the role of local boards and how they can get involved.

Do not support

Tell us why (please be clear which priority you are talking about)

All the above does is promote racial division by putting one group above all others. Auckland is a multicultural city from many different racial & ethnic backgrounds, but one group only, seems to be getting preferential treatment. Treat everyone the same and integrate them, don't cause separation.

Maungakiekie-Tāmaki Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See above - they are all the same!

2. What do you think about the proposed key areas of additional investment?

A. Environmental initiatives – working alongside mana whenua on restoration projects, expanding food resilience and edible planting programmes, and reinstating deferred environmental education activities.

Do not support

B. Sport and recreation – providing one-off operational support to local sports clubs and facilities to strengthen participation and collaboration.

Support

C. Libraries and culture – enhancing programming for seniors and increasing investment in creative and cultural activities.

Do not support

D. Community safety and emergency readiness – exploring additional compliance officer resourcing in areas with limited coverage.

Do not support

E. Local economy - supporting business associations to continue supporting local businesses and ongoing growth, development and liven-up our town centres.

Do not support

Tell us why (please be clear which priority you are talking about)

See above - they are all the same!

3. What do you think of Onehunga Business Association Inc's proposal to reduce the geographic boundary of the Onehunga Business Improvement District (BID) programme, and amount of targeted rate to be collected?

Support

Tell us why

BID Programs do nothing for the local communities and are just a means of Council raising more funds at the expense of struggling businesses. They should be completely disbanded as they are a complete waste of time, money & resources for local businesses and communities.

Ōrākei Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See above - they are all the same!

2. What do you think about the proposed key areas of additional investment and changes to services?

A. Increase community-use sports fields provision either through redevelopment or expansion of our asset portfolio to address the forecasted move of Auckland Cricket into Colin Maiden Park and other demands on our sports fields.

Support

B. Increasing investment in restoration and pest-management programmes to grow and protect your natural environment. Our reserves and open spaces are one of the most vital resources in Ōrākei.

Do not support

C. Changing the Meadowbank Community Centre project to a self-funded community centre to capitalise on existing investment and resources.

Support

D. Construct a playground Remuera Library to optimise the under-used green space at the side of the building.

Do not support

Tell us why (please be clear which priority you are talking about)

The expression "if they build it, they will come" is an oft used mantra to justify the sorts of projects mentioned above. There will be a large amount of expenditure with little, or no reward. Complete waste of time, effort & money.

Ōtara-Papatoetoe Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See above - they are all the same!

2. Due to rising costs for utilities, maintenance, staffing and other pressures, we must address an increase in the cost of delivering existing services within its current funding. To balance the budget, we are considering a Local Services Targeted Rate, changes to service levels or fees, or a combination of both approaches. We could introduce a Local Services Targeted Rate of $1.1 million capital value based rate charged to all properties (this would be around $27 based on average value urban residential property in the Ōtara-Papatoetoe Local Board area) to cover the increased cost of delivering existing services. What do you think about this option?

Do not support

3. We could adjust some service levels, fees and charges. What do you think about the proposed changes?

A. Reduce maintenance - Stop scheduled bollard and post-and-rail maintenance, stop scheduled maintenance for bush areas (except High Value/Ecological), change garden edging to chemical application, cease infill planting and mulching in amenity gardens and reclassify re-vegetation areas to bush areas.

Do not support

B. Reduce library hours: Ōtara Library, reduction of 4 hours per week; Papatoetoe Library, reduction of 2 hours per week; Tupu Youth Library, reduction of 5 hours per week; Manukau Library, reduction to a 6-day service, close on Sundays.

Do not support

C. Reduce discretionary spending on community grants, community and/or environment projects.

Support

D. Increase to fees for "Plus" (spa, sauna, and steam room entry) services by $1 at Ōtara Pool and Leisure Centre and Papatoetoe Centennial Pool (PCP).

Do not support

E. Charge adult visitors from outside the local board area at Ōtara Pool and Leisure Centre and Papatoetoe Centennial Pool (PCP).

Do not support

Tell us why (please be clear which priority you are talking about)

I imagine that many of your envisaged $1.1m properties in the area were purchased back in the day for "cents on the dollar" and the majority of owners would now be pensioners? Paper Value does not equal Cash Value, so you propose punishing Owners who have done the right thing, bought

wisely, paid taxes and rates all their lives and now, because you can't manage your own finances you do a cash grab on them. Shameful! #4 Below - None of the options are acceptable.

4. Overall, how do you think the local board should address the cost increases?

Papakura Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See above - they are all the same!

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes to service levels and fees and charges?

A. Reduce library hours on Mondays and Fridays at Sir Edmund Hillary Library.

Do not support

B. Reduce library hours on Saturdays at Sir Edmund Hillary Library.

Do not support

C. Reduce selected maintenance: Stop bollard and post-and–rail maintenance in parks, stop scheduled maintenance for bush areas (except high value/ecological).

Do not support

D. Charge a higher fee for visitors outside the Auckland region who visit Massey Park Pool.

Do not support

E. Reduce or discontinue grant funding.

Support

F. Reduce the numbers of public rubbish bins in public spaces such as town centres, parks and reserves.

Do not support

G. Reduce or discontinue some arts and culture activities.

Support

H. Reduce or discontinue some services and programmes in arts facilities and community centres.

Support

I. Reduce or discontinue some community development and support activities.

Support

J. Reduce or discontinue some environmental and water quality activities.

Support

K. Reduce or discontinue civic events.

Support

L. Reduce or discontinue sports and park activation activities.

Upper Harbour Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See above - they are all the same!

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes to service levels and fees and charges?

A. Reduce maintenance activities may include stopping scheduled work on bollards, post-and-rails, and low-value bush areas, ceasing amenity garden infill planting and mulching, and reclassifying re-vegetation areas as bush.

Support

B. Reduce grants funding.

Support

C. Reduce funding across all programmes and projects including environmental outcomes, events and activations, cycling initiatives and community outcomes.

Support

D. Increase the fees and charges for Albany Stadium Pool: Option 1: Increase casual swim and swim plus fees by $1 (Fees will range from $5.00 - $11.40)

Do not support

E. Increase the fees and charges for Albany Stadium Pool: Option 2: Increase spectator fee and supervising adult fee by $1 (Fees will become $2)

Do not support

F. Increase the fees and charges for Albany Stadium Pool: Option 3: Increase spectator fee and supervising adult fee by $4 (Fees will become $5)

Do not support

Tell us why (please be clear which priority you are talking about)

If your proposed rates increase of between 8-15% cannot cover these costs then you are all incompetent and should not be in the job. Charging extra fees on top shows how incapable you are of doing the job you are elected to do. Do not support mostSee above - they are all the same!

Waitākere Ranges Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See above - they are all the same!

2. What do you think about the proposed key areas of additional investment?

A. Community wellbeing - continue to grow and evolve our programmes to support community wellbeing with a focus on tamariki and rangatahi, as well as older people

Do not support

B. Review level of community grants, including investigating a Facility Partnership Fund to support community organisations to plan, develop or upgrade community facilities

Do not support

C. Improve engagement with communities of need, schools and youth

Do not support

D. Progress an omnibus Waitākere Ranges Local Parks Management Plan

Support

E. Walking and cycling connections, particularly through parks

Do not support

Tell us why (please be clear which priority you are talking about)

See above - they are all the same!

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See above - they are all the same!

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

Support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Support

Tell us why (please be clear which priority you are talking about)

Concentrate on core services, not nice by not essential services. Council (Ratepayers) should NOT be responsible for covering everyone's costs; let the end-user bear the brunt of the cost; if they can't, or won't, then the service is redundant. Like everyone else, Ratepayers do not have bottomless pockets and should not be expected to cover everyone else's expenses.

Whau Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

See above - they are all the same!

2. What do you think about the proposed key areas of additional investment?

A. Design and build a new destination playground at Avondale Central Reserve.

Do not support

B. Promote community identity and diversity by funding a coordinator for Welcoming Communities, supporting the PAN African Hub, and refreshing the Whau Ethnic Peoples Plan.

Do not support

C. Engage and respond to youth needs, and co-design initiatives to address opportunities and gaps.

Do not support

D. Improve water quality and flood resilience of Whau streams and rivers through collaboration with volunteers, local schools, community hubs, organisations, and neighbouring local boards.

Support

E. Prioritise projects identified through the Whau Sport and Recreation Facilities Plan and leverage partnerships to provide a local facility network for the community.

Support

F. Develop a Local Parks Management Plan to guide decisions on managing use, development, and protection of all 146 parks, reserves and open space within the Whau.

Do not support

Tell us why (please be clear which priority you are talking about)

See above - they are all the same!

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Establishing the Super City was meant to reduce duplication and costs - it has achieved the exact opposite; the are more than double the number of staff and 10 times the budget. Council needs to get back to the basics and provide core services only that benefit everyone, equally, not put one group before all others, as is clearly the case. Ratepayers are not bottomless money-pits and should not be treated as such by Council. Reduce your bloated bureaucracy, multi-layered management, consultants, advisors and other money-sucking leeches and simply provide the basics. Created realistic budgets and control your spending, like we, the Ratepayers have to do with our limited incomes. Then, you might get on top of the job and make it work for everyone.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Focus on basic services and cut the **********.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

We have made a submission below which covers our key comments and recommendations

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

Q6: What improvements do you think we should prioritise in the city centre?

GREY LYNN BUSINESS ASSOCIATION

Submission to Auckland Council Annual Plan 2026/2027

From: Grey Lynn Business Association (GLBA)
To: Auckland Council
Date: 27th March 2026

Introduction.

Grey Lynn Business Association (GLBA) welcome the opportunity to provide feedback by way of a written Submission on the Auckland Council Annual Plan 2026/2027.

GLBA represents the businesses across Grey Lynn, including those in its 5 main precincts, and those throughout the streets in its designated area. We are proud to have been successful as a new BID in 2025, and our strategy reflects the commitment to improve the business environment and enable growth. We are committed to supporting Grey Lynn as a vibrant destination in Auckland and our aim is to protect and enhance the viability of our member businesses and enable them to thrive.

GLBA appreciates the chance to respond to specific areas of the Auckland Council Annual Plan as a voice and advocate for said members interests.

Our overall position.

GLBA in the main, supports the Annual Plan 2026/2027, as robust, with well-considered priorities. We comment below where items may specifically relate to our member businesses and potentially impact them.

Our comments have been restricted to 5 key areas, and are summarised in key points in the Conclusion :

- Commercial Rating and its relevance to our position as a BID
- Waitemata Local Board
- Transport Reform
- Mayoral Proposal
- Auckland Climate Plan

Comments on the Annual Plan 2026/2027

1. Business Property Rating Changes

Whilst our BID rate does not increase for commercial properties in the Grey Lynn BID in 2026/2027, the business properties are impacted by multiple proposed changes (for the most part, increases). Like our community and those in residential situations, recent years have been tough for many. Reduction in services indicated by the Local Board combined along with the increases indicated in the Annual Plan 2026/2027 may be 'the last straw for some' businesses.

GLBA are too new to assess the true impact of change on our businesses. We are working on insights to assess the impact of issues such as increased overheads and for some reduced revenue. We expect to be able to respond in more informed way in coming years.

GLBA support only modest rises, best set in line with inflation which is a fair measure.

2. Waitemata Local Board

Community facilities and parks are vital to the fabric of Grey Lynn. A key destination to the west of the CBD we enjoy a number, all respected and well frequented.

GLBA support the need to find savings and believe the review to the Grey Lynn Library hours sensible, though suggest there may be value in opening 30 minutes later in addition to closing 30 minutes earlier on weekdays.

Whilst it may be necessary to reduce non-urgent work, this must not be at the expense of safety or result in crime.

3. Transport Reform

GLBA support the completion of the CRL and its associated multi-modal transport corridors, for which Grey Lynn has one. Its cost and impact on some rates are staggering to many residents and businesses alike, and this cost to them will need to align with expectation and improved outcomes.

Reform of AT and devolving its influence is welcomed, however this new structure must be viable financially and operationally. It will remain under intense public scrutiny. Auckland Council has work ahead of it to build trust and tangible outcomes for it constituents and all of those travelling daily. There remain too many annoyed Aucklanders who deserve a better return from the Council and transport initiatives.

Grey Lynn welcomes this reform, provided the outcome outweighs the expense.

4. Mayoral Proposal

GLBA celebrate your 'better, faster, cheaper 'expectations of council, along with your quest to deliver smarter services (refer transport above).

We also support your plan to drive a sense of place with economical and notable amenities such as 'Browny's Pool'. GLBA as they develop and deliver their Identity and own sense of place in 2026 are enthusiastic to identify a similar low-cost destination and amenity within Grey Lynn and potential to define our suburb.

5. Auckland Climate Plan

Grey Lynn supports the intent to improve climate resilience and protect the environment. A suburb anchored by a highly utilised park, our community treasures green spaces as they enhance the quality of life, increase social interaction and add value to a healthy community.

Giving consideration to recent weather-related events and their impact on businesses in our district, mitigating the impact of future events must remain a priority, both for the wellbeing and productivity of said businesses, and to maintain a cohesive community. It is important to ensure future development, changes to the Unitary Plan and the suburbs' growth are planned in consultation with the businesses, given the changing nature of our climate and frequency of events.

Lastly, Grey Lynn has evolved on a 'green' philosophy. Whilst potentially now more sophisticated a suburb, that premise remains. GLBA wish to make an impact and contribute to that philosophy, though without spreading ourselves too thinly. Potentially we can contribute through a walkable and Bikeable suburb , Placemaking or planting etc and Waste Minimisation or Recycling Initiatives, the latter of which could well align with our burgeoning hospitality sector.

In conclusion

The above underpins, GLBA's position on the Auckland City Annual Plan. We summarise the key points below

1. GLBA support modest commercial rate rises, in line with inflation at most.
2. GLBA support the proposed reduction in hours and recommend going further by opening 30 minutes later Monday to Friday.
3. GLBA agree a reduction in non-urgent work is feasible, while ensuring safety and no rise in crime.
4. Grey Lynn welcomes your multi-modal transport reform provided the outcome outweighs the expense to ratepayers
5. Identify low-cost amenities for Grey Lynn which define our suburbs, as with Browny's Pool in the Viaduct

6. Grey Lynn looks forward to environmental and climate initiatives and plans that will improve resilience mitigate issues and meet simple and doable environmental and waste mitigation goals.

We thank you for the opportunity to make this submission. GLBA would welcome dialogue with Auckland Council about our above recommendations and how some might be supported and suitably integrated into our strategic planning process.

Overall, we support money spent well as you deliver a thriving Grey Lynn and a better Auckland.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

All have been a long time in the making. City Centre Programme is No.1. Leys Institute used to be a key centre for the local community, Olympic Pools always have to be strengthened, and upgrading sports fields always benefits the community.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Libraries are key community engagement centres. They provide a place to gather and connect.

Reduced funding for environmental management activities does not fit with the modern age and climate change situation.

Increase fees for adult swims at Council Pools - would discourage increased use.Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

As a senior citizen, I find the rate increases certainly add an expense that is difficult to cover.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

The development of safer, walkable environments is now underway in Tamaki Makaurau. Encouraging communities to gather and explore the Gulf is important, as it provides an understanding of the unique geography of the tity.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

More funding for cycling and public transport!

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Support increasing residential parking permits. I think they should be increased even further.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

I support using a targeted rate to make up the shortfall. Do no want services cut.Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Fine with rates increases! Bring on CRL!

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

More cycling and public transport. More funding for things like investigating and delivering rapid transit like light rail. Rapidly do cycleways to address fuel crisis, along with more public transport. Build more housing/development closer to City Centre, and prevent development in greenfields.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Other (please specify):Support improving transport however, driving east west should only be allowed on Mayoral Drive, and Customs Street, as Access for Everyone plans. It shouldn't be on any other streets. Also ban cars off Queen Street.

Annual Plan 2026-2027

#4675

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Auckland city needs to look and act like a major international place to live and visit.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Residential Parking: to allow more intercity parking this should only be allocated to one per dwelling and that the dwelling has no off street parking. Not issues to commercial signed vehicles until after 5pm. Discount (or no increase)!for gold card holders. Vehicles should be ticketed for parking inconsiderately ie: parking in the middle of a two car space.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Making central city safe and vital!

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

A proposed 7.9% rates increase is significant, particularly in the current economic climate where many households are already under pressure.

In particular, I have concerns about how the costs of the City Rail Link are being allocated. The CRL is a region-wide transport asset that benefits people travelling from across Auckland. It does not feel equitable for local ratepayers to effectively carry the ongoing cost of maintaining infrastructure that serves the entire city.

Given this, I would like to see clearer consideration of how these costs are shared more fairly, as well as greater transparency around what alternatives have been explored to reduce the burden on ratepayers.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I am all for a better city, and investing in the future for a better city but the overall package of increases should not outpace what Aucklanders can reasonably afford!

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Wayne Brown's average 7.9% rate increase proposal illustrates how out of touch he and Auckland Council is with stakeholders.

Auckland Council is making a large impact on inflation and mortgage rates.

For a more realistic budget refer to the Auckland Ratepayers' Alliance March Briefing Paper: An Alternative Budget for Auckland Council.

Auckland Council yet again has proposed a budget that is anti-business with the gap between residential and business rates growing.

Programme need to be cut. For example the food scraps collection that according to the Council costs $35m should be cut.

The Business Improvement Districts are mostly a complete waste of money and very poorly supervised by Auckland Council staff. That would save about another $25m.

However this consultation is a cynical gesture by Auckland Council. Suggestions and complaints will be ignored yet again

The heart of the problem is poor governance by the governing body with many councillors having become institutionalized and very poor leadership by senior staff.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Adjust rates accordingly:

Substantially increase uniform charges in order to reduce the general rates - given the costs created by lower value properties Council's current rate schemes inappropriately favours lower value properties.

All Business Improvement Districts should be abolished.

Food scrap collections should end.

Residential ratepayers should have a much larger average rate increase than businesses.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Cut the Business Improvement Districts. They are a waste of money. Cut Council staff.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Support

Tell us why (please be clear which priority you are talking about)

Cut Council staff that service local boards. Rationalise and reduce local board activities.Support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

CRL is going to cost a lot more than you think.

Council is a staff dominated, poorly governed, cost-plus operator that is accountable to nobody. Time for a massive round of programme reduction and staff reduction to reduce rates.

Be responsible.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Council should not be subsidising property owners on flood plains. These owners should bear the risks and rewards of property ownership. All economic development and events should be cancelled - these are of little benefit and simply reflect hobbies and biases that councillors and staff have. There is little reward to ratepayers for economic development and events undertaken by the Council. Transport has always been the number 1 issue in Auckland for obvious reasons - residents have been very patient with Auckland Transport as it has manged the roads - time is up on that. CRL is going to be a financial disaster and a Royal Commission of Inquiry should be held to understand how it proceeded.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):Avove is wrong. Economic heart of the city is Onehunga, Penrose, Tamaki, East Tamaki

#4679

Briefing **Paper**

Briefing Paper : An Alternative Budget for Auckland Council

March 2026

Auckland Ratepayers' Alliance

Foreword

Mayor Wayne Brown is proposing the Super City's largest rates increase of 7.9 percent, equating to $237 million dollars or $388 per household. This will bring the rates burden imposed on Aucklanders this year to over $3.2 billion dollars, an average of $5,423 per household, not counting Watercare household charges.

Aucklanders who are already being squeezed by the cost-of-living challenge over the next few weeks will be bombarded by Council PR material calling on them to 'Have Your Say'. As happens every year, thousands of responsible-minded Aucklanders will take the time to fill out the online forms or even write their own submissions. It will make no meaningful difference. The outcome is pre-determined. As usual Aucklanders will have their say, but the Council will have its way.

Auckland Council has been setting rates well above the rate of inflation (currently 3.1 percent) for years now. There is always a headlined reason – an excuse, a pretext. Back in 2019/20 it was the drought, then Covid 19, then the floods, followed by 'the recovery'. This year, according to the Mayor, it's all due to the City Rail Link (CRL). Years behind deadline and with costs blown-out by at least $2 billion - even now it still doesn't have an opening date. But by continually hyping excuses for well-above-inflation rates increases, the council is not being straight with the public – nor, for that matter, straight with itself.

In other words, the Council is in denial about its systemic cost management problem. This is essentially twofold. Despite most of Council's traditional core functions e.g. roads, rubbish, even park maintenance, being outsourced to private corporates, Council is demonstrably unable or unwilling to extract value for money from its contractors.

Compounding this is that despite just about everything you can think of being outsourced, council generates its own and considerably expensive overheads, as detailed out in this report. At the same time, while being unable or unwilling to control these costs, led by Mayor Wayne Brown, the Council is stubbornly opposing government legislation to cap rates.

In essence the problem Aucklanders are facing is simply this: Auckland Council does not have a revenue problem; it has an expenditure problem.

Mike Lee
Auckland councillor for the Waitematā and Gulf Islands ward

Introduction

In 2010, when local councils in Auckland were forced to amalgamate by the Government, the new 'Super City' promised to cut costs and deliver better services.

But the rates bill for an average value residential property has soared by 85 percent since then - more than double inflation (34 percent) and nearly four times the rate of population growth (22 percent).[1] Fifteen years on, polling shows 53 percent of Aucklanders believe the Super City has failed, and only 18 percent feel they have any influence over Council decisions.[2]

In 2025, the typical Auckland household paid around $4,000 in rates. With Mayor Wayne Brown's proposed 7.9 percent increase, the average Auckland residential ratepayer must find another $320 at a time when many are struggling to afford the basics.

The Auckland Ratepayers' Alliance acknowledges that rates may need to go up to cover the costs of the City Rail Link. But after 15 years of rate increases well above inflation, it is time for ratepayers to stand up and say enough is enough. Auckland Council must live within its means.

A breakdown of the 7.9 percent

According to council officers, a 1 percent rates increase is equivalent to approximately $30 million. Therefore, the proposed 7.9 percent increase represents around $237 million of additional funds taken from ratepayers.

As a result of public pressure from the Auckland Ratepayers' Alliance, the Chair of Auckland Council's Budget and Performance Committee, Councillor Greg Sayers, has published the following breakdown of the 7.9 percent increase:[3]

- 2 percent or ($60 million) to pay for maintaining existing assets and services.
- 1.5 percent or ($45 million) is to pay for maintaining new assets as Auckland grows.
- 4.4 percent or ($132 million) is to pay for CRL operating costs, including interest and depreciation.

These numbers clearly disprove Mayor Wayne Brown's claim that the 7.9 percent is "entirely to run the CRL".[4]

Council spending is out of control

Auckland Council claims that year-on-year rates rises above inflation are necessary to pay for core services and infrastructure. However, analysis of council group expenditure over the decade from 2013 to 2023 shows that two-thirds of the growth in operating costs came instead from direct operating expenditure.

Direct operating expenditure excludes depreciation and financing costs associated with infrastructure. Instead, it largely reflects growth in administrative overheads, including salaries and wages. These costs grew by 78 percentetween 2013 and 2023 compared to a cumulative Consumer Price Index. inflation rate of 29 percent.

Auckland Council's 2026 payroll of $1.3 billion, plus the $590 million spent on consultants and contractors, accounts for nearly half of the approximately $4 billion direct operating expenditure. A further $510 million in costs is reported as 'other expenses', which includes items such as catering, entertainment, office supplies, car parking, and management fees.

Where the money is going

The Council's own service and activity profiles show just how large the administrative overheads have become.

Auckland Transport's backroom office functions cost $218.7 million annually, including $88.8 million in employee benefits (including salaries) and nearly $22 million in consultancy and professional services.

Planning and Resource Consents cost $118.6 million, including $78.3 million in employee benefits and $10.9 million in consultancy.

Group Strategy, Transformation and Partnerships costs $110.6 million per year. Technology Services costs $83.7 million. The Council's Property function – which manages internal property strategy, administration and portfolio oversight – costs $70.9 million per year. Governance and Engagement costs another $46.3 million.

These are not roads, water pipes, or public transport services. They are internal administrative and support costs.

Across just eighteen corporate and business support functions, direct expenditure for the current financial year is $868.4 million, an average of $1,423 per household. Even a modest reset of this cost base would comfortably deliver the savings required to reduce the proposed rates increase.
A breakdown of direct expenditure is in Appendix I.

The pathway to 3 percent

Auckland Council must reduce its cost base and bring rates down to the level of inflation. This year Wayne Brown is proposing to increase Council operating expenditure by $319 million on top of the nearly $7 billion the Council spent last year.

That is simply unacceptable when households and businesses are struggling with the rates burden from last year. The solution is simple: reduce Council spending by a modest $150 million (or just 2 percent) and cap the average residential rates increase at 3 percent.

While Auckland Council recently proclaimed $415 million savings during Wayne Brown's first term, there has been no overall reduction in total Council Group expenditure. These savings have just been offset by other spending.

The Auckland Ratepayers' Alliance is proposing a net reduction of direct operating expenditure across corporate and business support functions.

These savings were identified by reviewing the operating budgets of each department and see Appendix targeting: [5]

- Consultancy and professional services
- Outsourced works
- Other expenditure on activities
- Non-statutory grants.

The proposals are weighted according to the scale of each portfolio and the degree of discretion within its spending. Care was taken to avoid reductions that could affect infrastructure delivery or frontline services.

While there are many ways the savings could be distributed, this demonstrates that a $150 million reduction is possible without cutting core services.

5 The methodology and calculations behind our savings plan are set out in a model prepared by the Auckland Ratepayers' Alliance.

This model compiles departmental expenditure data from Auckland Council's Service and Activity Profiles, before applying risk-weighted assumptions across spending categories such as consultancy and professional services, outsources works, and non-statutory grants.

The model details the risk-scoring, efficiency assumptions, and allocation of savings across departments. A copy is available upon request.

Ratepayers' Alternative Budget

Department / Function	2026 Budget (direct opex)	Proposed Saving	How the Saving Could Be Delivered
AT Business Support	$218.8 million	$30m	Reduce consultancy and professional services; reduce externally supplied goods and services; streamline support functions and management structures; implement process automation to reduce manual administrative activity.
Technology Services	$83.7 million	$15m	Reduce outsourced ICT services; optimise software and service contracts; defer non-essential programme activity; accelerate automation of internal processes.
Property	$70.9 million	$12m	Reduce externally supplied professional services; reduce other expenditure on activities; streamline portfolio management processes; implement digital systems to reduce administrative overhead.
Governance and Engagement	$46.3 million	$6m	Reduce outsourced works and externally supplied services; streamline governance support processes; digitise engagement and reporting workflows.
Group Treasury	$34.5 million	$5m	Reduce reliance on external advisory services; renegotiate outsourced services; streamline financial reporting and compliance processes through automation.
Financial Advisory	$11 million	$2m	Consolidate advisory functions; reduce external professional services; implement digital tools to streamline financial modelling and reporting tasks.
Financial Strategy	$5.7 million	$1m	Reduce externally commissioned advisory services; streamline planning and forecasting processes using digital reporting tools.
Group Strategy, Transformation & Partnerships	$110.6 million	$12m	Reduce discretionary (non-statutory) grants; reduce consultancy; defer non-essential programme activity; streamline programme reporting and coordination.
Policy	$24.5 million	$4m	Reduce externally commissioned research and consultancy; streamline policy programme activity; use digital analytical tools.
Chief Sustainability Office	$6.4 million	$2m	Reduce consultancy and professional services; defer non-statutory initiatives; streamline reporting processes.

Communications & Marketing	$13.4 million	$3m	Reduce agency and consultancy contracts; consolidate campaign activity; utilise digital content tools.
Economic Development Office	$28.8 million	$6m	Reduce consultancy and outsourced works; defer non-essential programme activity; streamline programme management processes.
Legal Services	$20.1 million	$5m	Reduce external legal consultancy; renegotiate panel arrangements; streamline case management processes using digital systems.
Auckland Urban Development Office	$54.2 million	$10m	Reduce consultancy and professional services; defer non-essential programme activity; streamline project and programme support functions.
Planning and Resource Consents	$118.6 million	$8m	Reduce reliance on external consultants; improve digital processing systems; streamline administrative support while maintaining statutory performance standards.
Ngā Mātāre (Māori Outcomes)	$10.6 million	$2m	Reduce discretionary grants and sponsorship; reduce consultancy; streamline programme support and reporting processes.
Data Services	$7.2 million	$1m	Consolidate data platforms; reduce external analytics consultancy; streamline support activity through automation.
TAU Business Support	$4.5 million	$1m	Reduce discretionary operating expenditure; streamline support functions; adopt digital workflows.
Cross-portfolio efficiency target	$228 million	$15m	Apply a 5 percent efficiency requirement across all externally supplied goods and services and other discretionary operating expenditure.
Total Proposed Savings		**$150m**	

For the 2026/27 annual budget, councillors should adopt the following immediate measures to reduce operating expenditure by $150 million and reduce the average residential rates rise to 3 percent

- Direct the Chief Executive to implement organisational changes to reduce personnel costs for all corporate and business support services, in compliance with employment obligations.
- A hiring freeze on vacant non-essential roles and a policy of no workforce growth in the 2027 financial year.
- A significant reduction in consultancy and professional services spending, including a value for money assessment of all contract renewals and new contracts.
- Clear efficiency targets across all corporate and business support services, delivered by contract renegotiation, vendor consolidation, and overhead reduction.

These measures would not involve any cuts to infrastructure or frontline services. Rather, they would be focused on reducing administrative overheads.

Conclusion

Under the Super City structure, rates for the typical Auckland household have increased by 85 percent, while the Council's direct operating expenditure has grown much faster than both inflation and population.

Wayne Brown's proposed 7.9 percent average residential rates increase is not simply about maintaining infrastructure. It reflects a cost structure that has expanded well beyond what ratepayers are willing to pay for.

The Ratepayers' Alliance has set out a credible pathway to reducing the average residential rates increase to 3 percentin the 2027 financial year. Our plan does not cut infrastructure, does not close facilities, does not reduce frontline services, and does not rely on asset sales.

We are simply asking Auckland Council to do what their ratepayers are already doing and live within its means. The proposed $150 million reduction in spending represents just 2 percent of the Council Group's total operating expenditure.

The savings can be delivered by reducing payroll growth, streamlining management structures, holding external contractors to account, and finally calling time on the revolving door of consultants.

Appendix I: Service & Activity Profiles – How much Auckland Council is wasting

The following information comes from Auckland Council's Service and Activity Profiles (now available online). The document was provided to councillors as part of the annual budget process and was obtained by the Auckland Ratepayers' Alliance under the Local Government Official Information and Meetings Act 1987.

The profiles contain a high-level breakdown of operating expenditure for individual Council departments and Council-Controlled Organisations. We have selected 18 profiles that reveal how much Auckland Council is spending on activities outside of core services and infrastructure.

The total spend across these functions for the 2025/26 financial year is $868.4 million. We have excluded depreciation and financing costs.

Ngā Mātāre $000

Organisation: N/A

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

The Te Whau pathway project should be funded as it delivers successfully on many of Council's objectives.

Including but not limited to:

connecting communities

providing safe travel modes

supporting wellbeing

restoring the river health

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

It's important to fund & run the CRL properly as we need good, reliable & frequent public transport. No one likes rate rises, but NOT raising rates would be a disaster. Our aging infrastructure needs replacing & maintenance. Not glamorous but essential, and since central government has stupidly put the water costs back onto ratepayers, here we are. The Great North Rd cycleway improvements are excellent and need to be extended to include Ponsonby Road to join up Franklin Road, the NW cycleway AND the CRL Karange-Hape network. The Te Whau Pathway is another excellent piece of infrastructure, recently completed, that is of huge benefit to Tamaki Makaurau. We need more of

this vision with safe active transport corridors to connect & complete the network. Pleased to see the beloved Leys Institute Library with a comletion schedule.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I think we, the holders of parking permits, should pay the cost of administering the scheme. However, I think Council should employ more enforcement officers, as lawbreaking and rule-breaking by drivers is rampant and could add to Council's funds, as well as making the footpaths safer for everyone.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Do NOT want library hours cut. Do not want deferred maintenance. Happy to have less mowing as 'wilderness areas'increase biodiversity. Cleaning of plaques & signs of graffiti should be maintained, as once maintenance slips, graffiti becomes more entrenched and endemic.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Libraries are essential community hubs, so they should not have their hours reduced. Environmental management in a climate crisis should be prioritised and not reduced. Community funding should stay in place.Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Protect significant trees. Encourage good, non-leaking intensification by having a series of pre-approved designs on a fast-track approval system - much like the State House plans, but intensive builds. Encourage good design & 5-6 star-rated homes by incentivising approvals & compliance.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Active transport - walking & cycling, the environment, and climate change mitigation. We need to look after our environment as a priority.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I support the City Rail Link and investment in water, transport and communities, but also feel for residents dealing with the rising cost of living.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I support charging residents to change from a smaller to a larger refuse bin/bag, to discourage waste and incentivise composting and recycling.

I support increasing residential parking permit fees, particularly in areas around the CBD to incentivise taking public transport.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

I don’t know

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Support

Tell us why (please be clear which priority you are talking about)

I do not support reduced library hours across any Waitematā libraries. Libraries provide essential services to many community members. Beyond access to books and other items, they are community hubs, offering activities for children and adults, a place for students to study, helping people to access information and services, assisting seniors and others with digital literacy, and offering computing and printing services (vital for those who cannot access them elsewhere). Libraries also provide a warm and dry place for our rough sleeping and otherwise vulnerable whānau to stay safe and be connected to services should they ask. Reducing hours would mean people are less able to access these services after work hours. It will impact students, who use the library to study after university (with access to different material/services to those accessible at a uni library). It also puts rough sleepers at greater risk, particularly during the winter months when it gets dark earlier.

I do not support reducing community grant funding, as community groups will have to rely more on other grants, which are already highly competitive.

I support reducing non-critical city maintenance, mowing/gardening work, and delaying non-essential tree work. These are largely superficial services that do not impact in a significant way on people's daily lives.Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Increasing sustainable transport options to reduce carbon emissions.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

I don't know

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

I don’t know

C. Reduce community grant funding and accommodation grant funding.

I don’t know

D. Increase fees for adult swim fees at council pools by up to $3.

I don’t know

E. Reduce funding for environmental management activities.

I don’t know

Tell us why (please be clear which priority you are talking about)

Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

It's important to me that the council continues to fund safe cycle paths. Me and my girlfriend use cycling as our main mode of transport. I rode on the recently opened Te Whau pathway today and it was so busy; lots of families and kids out enjoying nature and the outdoors. It was really great to see. It's also important to me because it's a safe alternative to driving and everyone deserves to be safe no matter what mode of transport they choose. I'd love to see the rest of this pathway funded to connect more schools and communities.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I think this is too high for many.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I think in certain circumstances a new bin should be free. Generally damage is not due to the person but damage over time or contractor handling, you shouldn't pay for that.

Residential parking fees should be different rates in different suburbs eg. Nearer the city, more expensive.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Waitemata should be focusing on core activities, not sinking money into inappropriate assets like leys. I want my rates to go to value for money community wide activities

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

I don’t know

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Library is a core council activity and should be appropriately funded. Working people should not be disadvantaged by hours. Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

It's all important, so any funding must be for cost effective projects for far reaching impact, niche projects benefitting a few or money sinks like leys need to be abandoned

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

CRL cost has been too high and now we are burdened at ratepayers with increased annual running costs. We can't seem to build large infrastructure projects on time and on budget.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

AT is still an organisation completely disconnected from what the majority of Aucklanders want. We see incredible waste with cycle ways, roadside parking being removed and ridiculous and unnecessary projects e.g. bus stops that block a 2 lane road on Garnett Rd and Pt Chevalier Rd.. It truly defies logic why they slow down traffic by stopping a bus in the middle of a two way road. Appalling design and wasteful spending and continuing theme of anti-cars despite cars being the predominant source of private transportation for many years.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Small budget, reducing library hours is acceptable.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Support

Tell us why (please be clear which priority you are talking about)

Support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Submitter details:

Organisation: N/A

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Cognisance must be taken of the war in Iran. The war is projected to go on for some time and impact not just fuel costs but all other cists. There will be pressures on prices. The Annual Plan has to be reviewed with this in mind and not be continued on a businesscas usual basis. Essential services and maintenae should continue but non-essentials should be reviewed and costs cut. People may have difficulty paying rates. Council must keep in mind that rates are taken by force and so with that there is a responsibility to not unduly levy rates in difficult times.

The Annual Plan was drafted prior to the war and did not anticipate it. It should be reviewed, and cuts made.

Council should not orovide subsidies but it should reduce spend especially in any non core expenses.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

Support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

I do not support Grey Lynn Library closing at 5pm. If hours are to be reduced then I orefer the cut be in the morning. opening later.

I prefer staff hours cut rather thab the building is

closed. Grey Lynn could operate with less staff.

I oppose reducing hours at Central Library.

Libraries are an essential services.

I support stopping Community Grant funding and Accommodation Grant funding. Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Stop cutting exotic trees down on the Maunga. Stop funding it. It is not necessary for safety. It is not essential and should not be funded at this time if ever. Also then it will not be necessary to fund the Court case to continue the felling. There are cost inplications as there may be slips. This work should be deferred and can be reviewed after the war.

All non-essential work and non core service work should be revewed with the aim of deferring it until after the war. Maintenace and essential services should continue.

The Annual Plan has to go back to the drawing board , and be reissued with Rates Cuts, in view of the war.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**

- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):stop all these unnecessary expenses at this time

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Get Auckland really moving by, invest more in extending rail network to airport and Auckland suburbs.

Sewerage continues to spill into Hobson Bay due to outdated sewerage system. It needs urgent attention. Stormwater and sewerage still not fully seperate

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The increase in rates is justified if wisely used to bring out rail transport and water infrastructure fully up to date

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Concerned that delays of post + rail + bollard maintenance will lead to neglected looking city

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

B. Reduce maintenance for bollard and post-and-rail.

C. Reduce community grant funding and accommodation grant funding.

D. Increase fees for adult swim fees at council pools by up to $3.

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

A plea to not cut down anymore of the exotic trees on the Maunga. They create wildlife shelter, beauty and character

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Visionary town planning will ensure Auckland is a desirable place to live. However, each of the areas listed above contribute to making sure Auckland thrives

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

#5099

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

We must improve our infrastructure at all levels to not only survive right now but if we want Auckland to thrive in the future. Past councils (and governments) have not invested anywhere near enough in doing continutal upgrades and development of our infastructure needs to keep Auckland safe at all levels. The shame is that we are now having to dig deep during unprecented world issues that cause a multitude of disruption and price increases (that never seem to go down). And for me personally, I am on a very fixed income so large increases affect me.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

No to any fees for collecting rubbish. There is a very important sanity reason to ensure everyone has access to rubbish collection so no excuses for hoarding rubbish or fly tipping as they do overseas and creating huge dangerous situations along with potential health issues. Surely this is a basic tenent of rates.

No to any fees let alone increase for Permit Parking. We now have huge apartment blocks popping up everywhere and some of these are not providing parking for residents. This means there will be people needing to park on our roads. I believe that aparments should have mandatory parking.

I am alarmed that then residents have to buy another permit to allow people to come and visit them. If this is a must, then One Permit must be allowed to be used for any registration number, not listed just to one registration number. Different people visit and this is particularly important for social needs by us humans and even more so for many elderly people.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

B. Reduce maintenance for bollard and post-and-rail.

C. Reduce community grant funding and accommodation grant funding.

D. Increase fees for adult swim fees at council pools by up to $3.

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

-We must ensure Auckland is able to withstand the future climate issues that are affecting the whole world. Make sure our infastructure is able to cope and provide safety and certainty for the future as well so. For me, I believe this is the single most important thing facing Auckland right now. Flood management improvments and ensuring we have clean and swimable beaches

-Second concern being how we grow our city and I fear the current unfettered allowance of intensification is too extreme and seemingly intent on ruining our historical suburbs and creating uniniting and unhealthy living apartments. This so often blocking out health sunlight and fresh air as they allow these building to be built right to property edges. Do you want to live in an apartment that looks out to a conrete wall of another building and you never get sunlight into your own space?

-Auckland Transport has single handedly made Auckland streets (certainly the inner city and suburbs) less safe than they originally were. This is at the end of my own street and along major arterial roads (where fire, police and ambulance vehicles need to use for our safety) where they have taken away soft corners and pushed then out into the road and made them sharp corners thereby reducing the actual width of the road where two vehicles must pass. This is now very narrow and thereby very dangerous especially if turning left into a downward road, you have a blind spot of the left front of a car and any movement to the right (so you don't run over the high curb) will see you cross over the centre line where a car could be coming up. How is that safer?

-Please ensure that Aucklanders will have safe roads and access for us all. Along with our Emergency Services, our buses, our trades people, our transportation of goods etc. And that Auckland being an ithimus is geographically challenged and that impacts us all greatly. We are not

Amsterdamm or even London with tons of bridges across their rivers (we have a harbour) so car usage is not going to magically disappear. Car manufactures have shown that by moving into electrification for starters. Perhaps a more fitting approach woud be to ask them to make smaller vechicles and that would improve our situation as well by using less fuel (petrol or electricity and taking us less space on roads.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Other

Tell us why

We note reference to the expected annual operating costs associated with the CRL of some $235m and also that this is the primary reason for the proposed 7.9% rates increase.

However, it is our view that this funding should come from a $235m reduction in Auckland Transport's budget, rather than from ratepayers across Auckland.

Water – Total Budget $2,380,000.00

CCRG are generally supportive of this budget and the financial separation of Watercare.

Built Environment - $2,220,000.00

CCRG support this expenditure and the wise decisions around a more compact city with well-connected centres, supported by quality transport corridors.

Natural Environment - $828,000.00

CCRG support all efforts to protect our Kauri forests and marine pests such as Caulerpa seaweed.

We would also like to see resource recovery centres in the city centre and every suburb. It is our view that Auckland should have no recycling materials going to waste.

Community- $1,334,000.00

Our focus within this budget would be on extensive changes to the dog management regime.

CCRG members increasingly see more aggressive dogs in the city centre and owners using our public spaces as dog toilets.

See attachment for full submission.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

We note reference to the expected annual operating costs associated with the CRL of some $235m and also that this is the primary reason for the proposed 7.9% rates increase.

However, it is our view that this funding should come from a $235m reduction in Auckland Transport's budget, rather than from ratepayers across Auckland.

Water – Total Budget $2,380,000.00

CCRG are generally supportive of this budget and the financial separation of Watercare.

Built Environment - $2,220,000.00

CCRG support this expenditure and the wise decisions around a more compact city with well-connected centres, supported by quality transport corridors.

Natural Environment - $828,000.00

CCRG support all efforts to protect our Kauri forests and marine pests such as Caulerpa seaweed.

We would also like to see resource recovery centres in the city centre and every suburb. It is our view that Auckland should have no recycling materials going to waste.

Community- $1,334,000.00

Our focus within this budget would be on extensive changes to the dog management regime.

CCRG members increasingly see more aggressive dogs in the city centre and owners using our public spaces as dog toilets.

See attachment for full submission.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

CCRG recommend a major focus on reviving the Aotea Precinct in preparation for the opening of the CRL later this year.

This is Auckland's Arts and Cultural Precinct but is has been devastated as the major area for the CRL development.

We would support more funding going into this area for the next two years, to return the precinct to its former status as Auckland's key entertainment precinct.

CCRG support the funding proposals for this activity and particularly the $16m for Maori Outcomes.

We do not support expenditure incurred by Port of Auckland as this should come from their own income source.

See attachment for full submission.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Auckland Council Annual Plan 2025/2026
Submission from City Centre Residents Group.

……..

General Comment

CCRG are very supportive of the work Council has done over the past few years to bring Eke Panuku, and Auckland Transport back into the Council family structure.
We believe this should always have been the arrangement, as it is not possible for a Local Authority in New Zealand to manage costs and budgets if they do not control the entities spending those funds.

Transport – Total Budget $3,302,000.00

We note reference to the expected annual operating costs associated with the CRL of some $235m and also that this is the primary reason for the proposed 7.9% rates increase. However, it is our view that this funding should come from a $235m reduction in Auckland Transport's budget, rather than from ratepayers across Auckland.
The entire purpose of the CRL is to reduce traffic in our city centre, and across Auckland suburbs generally, so every feasible incentive needs to be applied to that outcome.
We understand the need for quality transport across Auckland, but we also understand the need for a range of Council adopted plans/processes that can be applied to the majority of transport projects. Our understanding of current practises is that most transport projects are purpose designed when a collection of standard approved designs is all that is needed.
Auckland has low seismic activity risk and does not have major rivers or huge mountains so most roads/streets can be developed/maintained with a range of previously adopted plans.
Maximising the use of the CRL producing standard plans for most traffic projects will easily save $235m in unnecessary funding support to Auckland Transport.

Water – Total Budget $2,380,000.00

CCRG are generally supportive of this budget and the financial separation of Watercare.

Built Environment - $2,220,000.00

CCRG support this expenditure and the wise decisions around a more compact city with well-connected centres, supported by quality transport corridors.

Natural Environment - $828,000.00

CCRG support all efforts to protect our Kauri forests and marine pests such as Caulerpa seaweed.
We would also like to see resource recovery centres in the city centre and every suburb. It is our view that Auckland should have no recycling materials going to waste.

Community- $1,334,000.00

Our focus within this budget would be on extensive changes to the dog management regime.
CCRG members increasingly see more aggressive dogs in the city centre and owners using our public spaces as dog toilets. These are the spaces where young children play and they should not be subject to any danger from doges – either from aggression or dog droppings.

City centre businesses and residents are also paying very large amounts of money for community safety etc., but it appears to us that this only relates to wardens walking. They do not appear to be able to stop bad behaviour and/or arrest anyone for non-compliance. We think this needs to change so that the very large amounts of money funding this activity produces results from the funding provided.

Economic and Cultural Development - $287,000.00

CCRG recommend a major focus on reviving the Aotea Precinct in preparation for the opening of the CRL later this year.
This is Auckland's Arts and Cultural Precinct but is has been devastated as the major area for the CRL development.
We would support more funding going into this area for the next two years, to return the precinct to its former status as Auckland's key entertainment precinct.

Well Managed Local Government - $966,000.00

CCRG support the funding proposals for this activity and particularly the $16m for Maori Outcomes.
We do not support expenditure incurred by Port of Auckland as this should come from their own income source.
Inadequate information is provided as to what is being sold and what is being purchased re assets like land and buildings.
These are of key importance to Auckland businesses and residents, and more details should be provided in every Annual Plan related to proposed asset sales/purchases.
There is no information as to why council should be paying for any costs incurred by Port of Auckland.
We would appreciate further information on this expenditure please.

Question 6 – City Centre

CCRG supports the statement in this section but question where the funding source is for the Safety aspects.
We are concerned to ensure that all costs associated with the provision of health, education and welfare are met by central government. Council rates, based on property value are not, and should never be, the source of funding for these activities.
New Zealand governments, of whatever political make-up, collect enough in taxes to fund the above, and if they don't have enough then they need to increase the tax rate, not dump expenditure on local government.

The City Centre Residents Group appreciates the opportunity to contribute our feedback on Councils 2025/2026 Annual Plan.

Annual Plan 2026-2027

#5130

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: Heart of the City

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Other

Tell us why

Auckland's city centre matters. It plays a major role in the region's economy and Council's revenue, and getting it right benefits everyone. As CRL comes online, it's more important than ever that investment and policy decisions actually translate into a city centre people want to come to, spend time in, and do business in.

Heart of the City supports a practical, evidence-led approach that focuses on what works: safe streets, sensible access, strong day-to-day operations and a healthy business environment.

Just as importantly, the businesses and property owners who fund the City Centre Targeted Rate should have a clear say in how it is used and be able to see the results it delivers.

A busy, welcoming and economically strong city centre doesn't happen by accident - it's built through smart decisions, good basics and a focus on real outcomes. Keeping that focus will give Auckland the best chance of making the most of its investment and setting the city centre up for long-term success.

See attachment for full submission.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Auckland's city centre matters. It plays a major role in the region's economy and Council's revenue, and getting it right benefits everyone. As CRL comes online, it's more important than ever that investment and policy decisions actually translate into a city centre people want to come to, spend time in, and do business in.

Heart of the City supports a practical, evidence-led approach that focuses on what works: safe streets, sensible access, strong day-to-day operations and a healthy business environment.

Just as importantly, the businesses and property owners who fund the City Centre Targeted Rate should have a clear say in how it is used and be able to see the results it delivers.

Keeping that focus will give Auckland the best chance of making the most of its investment and setting the city centre up for long-term success.

See attachment for full submission.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

The Waitematā Local Board priorities in the consultation material do not reference business needs at all, despite covering the area with Auckland's highest concentration of businesses.

The board's plan does not acknowledge economic importance of business and property stakeholders.

This misalignment risks undermining CRL benefits, as core business needs including cleanliness, safety and accessibility are left unaddressed.

The local board needs to adopt a more business-friendly approach, explicitly incorporating the needs of employers, property owners, hospitality operators, and retailers in the city centre.

We strongly support a focused CCMP refresh. As Auckland enters the CRL era, the CCMP needs a reset. A city centre cannot thrive on urban design vision alone.

Changes should include:

1.

Re-centre commerce as a strategic objective. The CCMP describes the city centre as Auckland's cultural and civic heart, but it underplays its role as the region's economic engine. A refreshed CCMP must explicitly prioritise business prosperity, commercial activity, and economic resilience.

2.

Governance must be appropriate to the ratepayer base and highly commercially aware. CCMP is governed across multiple teams, CCOs and programmes, slowing decision-making. A city centre that depends on rapid activation and responsive operations needs a single, accountable, business-literate governance model.

See attachment for full submission.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

B. Reduce maintenance for bollard and post-and-rail.

C. Reduce community grant funding and accommodation grant funding.

D. Increase fees for adult swim fees at council pools by up to $3.

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Commercial property reporting shows that CBD retail vacancy has risen from 2% in 2019 to 11%, while office vacancy has increased from 5% in 2019 to 15% in recent years. Pedestrian counts are lagging around 20% below 2019 levels, and consumer spending also around 20% below 2019 levels. These figures show a dramatic underperformance and versus other urban centres and New Zealand as a whole. This is not a sustainable situation, and it must be turned around.

Heart of the City supports a pragmatic, evidence-based approach to city centre planning, management and investment. Safety, antisocial behaviour, cleanliness, lighting, vandalism and the condition of basic amenities directly affect whether people choose to enter the city centre, how long they stay, and how often they return. These factors are not separate from economic performance; they are inputs into it.

Heart of the City calls for balanced and sensible multi-modal access, appropriate for the size and realities of Auckland. Key principles including Multi-modal optimisation. Public transport, walking, cycling and vehicle access should be planned as complementary systems, not competing ones. The goal should be maximising total arrivals and participation in the city centre, rather than reducing any single mode in isolation.

See attachment for full submission.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):See Heart of the City full submission in attachment

SUBMISSION & RESPONSE TO AUCKLAND COUNCIL ANNUAL PLAN 2026/2027 PROPOSAL

27 March 2026

akhaveyoursay@aucklandcouncil.govt.nz

To Whom it May Concern,

This document serves as our response to the Draft Annual Plan 2026/27, currently open for feedback.

The four documents we have referenced in considering this submission are:

- Annual Plan 2026/2027 – Consultation Document
- Annual Plan 2026/2027 – Supporting Information
- Staff advice to support the Mayoral Proposal (Annual Plan 2026/27)
- Draft Mayoral Proposal: Annual Plan 2026/27

Table of Contents

1. Executive Summary 2
2. The City Centre Remains Crucial to Auckland's Economic Health 3
3. Ongoing Monitoring Should Inform City Centre Decisions 3
4. Balanced Accessibility Underpins City Centre Success 5
5. Transparency and Value for the City Centre Targeted Rate 5

7. Local Board Priorities — Waitematā Local Board (City Centre) 9
8. Refresh the City Centre Masterplan (CCMP) 9
9. Recognition of Business as the "Keystone Species" of the city centre 10
11. Conclusion 11

1. Executive Summary

Heart of the City represents the interests of businesses and property owners operating in Auckland's city centre which has New Zealand's largest concentration of employment, commercial activity and public investment. The city centre plays a central role in Auckland's economic performance. Its success is therefore critical not only to businesses and workers, but also to residents and other stakeholders, as well as the long-term financial sustainability and the wellbeing of the wider region.

The city centre has not yet returned to pre-pandemic levels of activity. Pedestrian volumes, visitation and commercial occupancy remain subdued and businesses continue to face pressure from reduced footfall, safety concerns and constrained access. As Auckland enters the 'CRL era', there is an important window to convert major public investment into real economic uplift. These benefits will not materialise automatically. They depend on a city centre that is safe, accessible, operationally functional and economically attractive.

Heart of the City supports the Council's emphasis on economic growth, a vibrant city centre and value-for-money delivery. This submission advocates for a pragmatic, evidence-led approach to city centre planning and investment and one that focuses on outcomes rather than assumptions. Where policies and initiatives materially affect access, safety, visitation and business viability, they should be continually assessed against transparent performance indicators, and refined where results lag.

The submission highlights the importance of:

- Recognising the city centre as an interconnected economic, social and cultural system, where vibrancy is driven by people arriving, staying, spending and investing.
- Ensuring balanced, sensible multi-modal access that supports customers, workers, servicing, trades, emergency vehicles, visitors and people with mobility impairments.
- Prioritising safety, cleanliness and basic city operations as a fast and cost-effective way to lift confidence and increase activity.
- Using targeted-rate funding transparently and accountably, with clear reporting on economic and safety outcomes.
- Refreshing the City Centre Masterplan so it evolves from a primarily placemaking-led vision into a true city centre strategy that embeds economic performance, access and governance at its core.

Central to this submission is the recognition that business activity is the foundation of a thriving city centre. Businesses generate employment, activate streets, fund buildings, support events, make public transport viable and underpin Council's revenue base. Strengthening the city centre economy is therefore not in conflict with wider objectives such as placemaking, culture or sustainability. Rather, it is what enables them.

Heart of the City submits that focusing on economic vitality, accessibility and operational excellence is the most efficient and effective investment Council can make in the city centre. Doing so will

maximise the return on existing infrastructure investment, accelerate recovery, and ensure Auckland's city centre can fulfil its role as the region's economic and cultural heart in the years ahead.

2. The City Centre Remains Crucial to Auckland's Economic Health

Auckland's city centre is the region's largest concentration of employment, economic activity and commercial value, and continues to make a disproportionate contribution to Auckland Council's general rates and delivers the City Centre Targeted Rate revenue. The city centre supports approximately 150,000 jobs and around 15% of all Auckland jobs are located within the city centre, making it the region's single largest employment precinct.

Ensuring the City Centre performs well is therefore essential not only for city centre businesses and workers, but for Auckland's wider financial sustainability.

Commercial property reporting shows that CBD retail vacancy has risen from 2% in 2019 to 11%, while office vacancy has increased from 5% in 2019 to 15% in recent years. Pedestrian counts are lagging around 20% below 2019 levels, and consumer spending also around 20% below 2019 levels. These figures show a dramatic underperformance and versus other urban centres and New Zealand as a whole. This is not a sustainable situation, and it must be turned around.

3. Ongoing Monitoring Should Inform City Centre Decisions

Heart of the City supports a pragmatic, evidence-based approach to city centre planning, management and investment.

Given the scale of public investment and policy change affecting the city centre, major decisions particularly those relating to access, street layouts, transport priorities and public space management should be guided by business feedback and clear economic performance signals.

Where changes materially affect how people, goods and services move through the city centre, outcomes should be regularly reviewed against transparent, measurable indicators that reflect how the city centre is actually performing.

GDP is a poor measure of outcomes in the city centre. GDP can rise even while foot traffic falls, shops close, or streets feel empty. Major contributors (finance, tech, professional services) may generate high GDP without bringing people into the city centre in meaningful ways. Work done remotely still counts toward GDP, even if workers never come into town. GDP is useful for national and regional productivity analysis, but it is not a good proxy for city centre economic health.

Instead, indicators should focus on whether policies are increasing usage, commercial activity and confidence, including:

- Pedestrian activity and overall visitation levels
- Time-of-day and day-of-week dwell patterns
- Retail, hospitality and visitor spending trends
- Commercial vacancy and occupancy by precinct and sector
- Employment levels and business sentiment
- Office utilisation and return-to-work patterns

Tracking these metrics consistently over time provides an objective basis for assessing whether access changes, street upgrades and transport priorities are supporting recovery and long-term economic vitality, or whether adjustments are required.

Alongside these core economic indicators, monitoring must also include operational and behavioural "hygiene factors" that strongly influence economic outcomes. Safety, antisocial behaviour, cleanliness, lighting, vandalism and the condition of basic amenities directly affect whether people choose to enter the city centre, how long they stay, and how often they return. These factors are not separate from economic performance; they are inputs into it.

In particular, antisocial behaviour has a measurable impact on economic metrics. Elevated levels of visible disorder reduce dwell time, suppress discretionary visits, limit extended trading hours and affect staff availability. These impacts show up in lower foot traffic, reduced hospitality turnover and weaker utilisation of public spaces both in and outside of 'peak' daytime hours. For this reason, perceptions of safety and antisocial behaviour trends should be monitored alongside spending, visitation and occupancy data, rather than treated solely as social issues.

A balanced monitoring framework would therefore integrate:

- Economic activity indicators (footfall, spend, vacancy, employment)
- Behavioural indicators (time-of-day usage, repeat visitation)
- Safety and amenity indicators (crime data, antisocial behaviour reporting, business surveys)
- Operational performance (cleanliness, lighting, maintenance response times)
- Business sentiment and lived-experience insights
  (regular business surveys, frontline operator feedback, staff safety perceptions, trading-hour impacts, servicing and access difficulties, and investment confidence)

Importantly, monitoring must be coupled with a willingness to adapt policies and operational response. Reviewing outcomes is not opposition to change; it is good governance. In a complex and recovering city centre, particularly as Auckland transitions into the CRL era, adaptive management is essential to maximising the return on public investment.

By grounding major city centre decisions in a balanced set of economic and operational indicators rather than relying on philosophy and design intent alone. Council can ensure that its actions support a city centre that is active, safe, commercially resilient and genuinely vibrant.

4. Balanced Accessibility Underpins City Centre Success

A successful city centre depends on a carefully balanced mix of accessibility options. Improvements to public transport, walking and cycling are important but must be complemented by practical provision for service vehicles, deliveries, emergency access, trades, short-stay visits and people with limited mobility.

Traffic monitoring indicates that vehicle volumes on some central corridors, including Queen Street, have declined significantly with movements reducing between 30-45% at measurement locations across the City Centre over the last decade, following access changes. A determined 'mode-shift' approach from Auckland Transport resulted in less vehicle movements but have not successfully converted vehicle users to other modes. There are less people coming into the city centre with counts still lagging -20% versus 2019 levels.

Heart of the City calls for balanced and sensible multi-modal access, appropriate for the size and realities of Auckland. Key principles including:

- Multi-modal optimisation. Public transport, walking, cycling and vehicle access should be planned as complementary systems, not competing ones. The goal should be maximising total arrivals and participation in the city centre, rather than reducing any single mode in isolation.
- Legibility and ease of navigation - The city centre street network must remain intuitive for infrequent visitors, event attendees, convention delegates and tourists. Over-complex access rules, frequent detours and fragmented circulation undermine confidence and deter discretionary visits.
- Loading zones and servicing access are functional and well-located.
- Drop-off access and short-stay parking are available for older people and those with mobility impairments.
- Emergency vehicle access is unimpeded.
- Full removal of AVO from upper Queen Street – now that almost all bus routes have been relocated to Albert Street.

5. Transparency and Value for the City Centre Targeted Rate

The City Centre Targeted Rate is a significant investment by property owners and businesses and plays a key role in supporting the city centre's recovery and long-term competitiveness. Transparent reporting on how this investment translates into improved outcomes helps build confidence and shared ownership of the city's direction.

Regular, publicly accessible reporting on retail spending trends, vacancy rates, pedestrian activity, safety indicators and localised 'neighbourhood' performance would strengthen understanding of what is working well and where further focus may be needed.

Targeted-rate funding should be demonstrably aligned with improving economic performance, safety, accessibility and vibrancy and adjusted where evidence shows outcomes are falling short.

Heart of the City submits that those who fund the City Centre Targeted Rate should have the decisive voice in how it is prioritised and spent.

Strengthening the connection between ratepayer contribution, governance input and demonstrated outcomes will build confidence, support better decisions, and ensure the targeted rate delivers maximum value for both the city centre and the wider Auckland economy.

6. Feedback on City Centre Priorities Survey (page 39 of Consultation Document)

While the listed themes on page 39 of the main consultation document cover many important elements of a successful city centre, they are framed in a highly prescriptive and implicitly affirmative way. Each item assumes both the direction of policy and the desired outcome, without first testing whether proposed approaches are delivering the intended economic, social or accessibility results.

The headings read less like consultation prompts and more like pre-determined policy positions, encouraging respondents to agree with broad aspirations rather than enabling meaningful feedback on trade-offs, sequencing, performance or unintended consequences. This risks narrowing the feedback received and limits the ability to identify areas where current approaches may need adjustment.

Several statements also embed implicit assumptions - for example, that improved connectivity, events, or street upgrades will automatically translate into increased visitation or business success - without explicitly asking whether this is occurring in practice.

We suggest that as part of further engagement on the Annual Plan and the CCMP refresh - to properly undertake genuine consultation and evidence-led decision-making, these themes could be reframed as outcome-focused and evaluative questions, rather than prescriptive statements. This would invite more useful feedback from businesses and other stakeholders.

Several issues critical to city centre performance are either absent or insufficiently explicit. For example;

1." Supporting Businesses'

Original wording: "*Supporting businesses – help businesses succeed by making them easier to access and attract more visitors to the city with well-designed streets and public spaces."*

It is framed as a policy position, not a consultation question. The wording describes what *it thinks* will help businesses succeed, rather than asking whether this approach is working or what they want or need. It encourages agreement with the aspiration (in itself lacking requisite detail) rather than inviting challenge, prioritisation, or alternative views. Respondents are steered toward endorsing the statement, rather than providing insight into trade-offs, gaps, or unintended impacts.

Suggested Reframed Consultation Questions:

"Supporting businesses. How well do current city centre conditions support business viability and economic activity? What factors most influence whether people choose to visit, spend time and trade in the city centre, and where do you think current approaches need adjustment?"

3. Events and City Life – Less Ad-Hoc Activation, More Sustained Activity

Original wording: *"Events and city life – attract people to the city centre through events, culture and a strong sense of place."*

Events, culture and place-based experiences play an important role in attracting people, but their success should be measured by their ability to generate sustained vibrancy, not just a one-off 'sugar hit' of momentary activity.

A more effective framing would focus on:

- Whether events increase visitation outside peak hours and days
- How well events support hospitality, retail, accommodation and visitor services
- The extent to which activations encourage repeat visits and longer stays

City life is strongest where cultural activity and commercial activity reinforce each other, creating momentum rather than one-off uplift.

Suggested Reframed Consultation Question:

"Events and city life . What types of events, cultural activities or place-based initiatives most successfully bring people into the city centre and keep them coming back to your business? What makes the biggest difference to vibrancy in practice?"

4. Streets and Public Spaces – Enabling Use, Not Just Design

Well-designed streets and public spaces contribute to vibrancy only when they are actively used, well-maintained and integrated into daily city life.

A city centre lens would ask:

- Do our public spaces encourage people to stay, spend time and return?
- Are our streets designed and managed to support front-door trading and activation?
- Is post-construction maintenance sufficient to protect long-term value?

Public realm investment delivers the greatest benefit when it strengthens surrounding activity and economic confidence.

A successful city centre is one where access, safety, events, streets and cultural life work together to support sustained activity, economic participation and confidence. Reframing priorities around how they increase usage, visitation and economic vitality would strengthen both the consultation process and the outcomes it seeks to achieve.

Suggested Reframed Consultation Question:

"Streets and public spaces - How well do current streets, parks and public spaces support everyday use, activity and vibrancy in the city centre? What is working well, what isn't, and where do you think changes would make the biggest difference?".

Priorities

Our position on the top 4 priorities with regards to the 'improvements' outlined on page 39 of the main consultation document to be prioritised are:

1. **Safety**. (The number one barrier alongside accessibility, stopping people coming to the city centre).
2. **Streets & public spaces** (Get the basics right. Fund construction disruption for impacted businesses, post-construction aftercare, uplift cleaning/lighting standards. Avoid unnecessary spending and disruption on projects with little to no economic benefit and provide meaningful support for businesses when works do occur).
3. **Supporting businesses** (Business is the keystone species that ensure viability of the city centre. Look after businesses and that enables vibrancy to return, and all other objectives will click into place).
4. **Getting around the city centre**. (Accessibility is the number one barrier alongside safety, stopping people coming to the city centre. We call for sensible, multi-modal access that is grounded in pragmatism).

7. Local Board Priorities — Waitematā Local Board (City Centre)

The Waitematā Local Board priorities in the consultation material do not reference business needs at all, despite covering the area with Auckland's highest concentration of businesses.

The board's plan does not acknowledge economic importance of business and property stakeholders.

This misalignment risks undermining CRL benefits, as core business needs including cleanliness, safety and accessibility are left unaddressed.

The local board needs to adopt a more business-friendly approach, explicitly incorporating the needs of employers, property owners, hospitality operators, and retailers in the city centre.

8. Refresh the City Centre Masterplan (CCMP)

We strongly support a focused CCMP refresh. As Auckland enters the CRL era, the CCMP needs a reset. A city centre cannot thrive on urban design vision alone.

The CCMP sets a broad 20-year vision and emphasises transformational moves, public-realm upgrades, cultural identity and placemaking, but it does not adequately reflect the commercial realities or economic importance of a functioning CBD.

For the CCMP to serve its purpose, it must integrate business needs into its core, not as secondary considerations: reliable servicing and logistics, safe and clean streets, intuitive cross-city access, and governance that supports fast, business-friendly operational decisions.

Without embedding these commercial fundamentals into the masterplan, the city centre cannot fully realise the benefits of major investments like the CRL, nor can it deliver the economic, social and cultural outcomes the CCMP seeks. The CCMP must evolve from a primarily placemaking-led document into a true CBD strategy, one that places commerce at the centre of its vision and delivery.

Changes should include:

1. Re-centre commerce as a strategic objective.
   The CCMP describes the city centre as Auckland's cultural and civic heart, but it underplays its role as the region's *economic engine*. A refreshed CCMP must explicitly prioritise business prosperity, commercial activity, and economic resilience.

2. Governance must be appropriate to the ratepayer base and highly commercially aware.
   CCMP is governed across multiple teams, CCOs and programmes, slowing decision-making. A city centre that depends on rapid activation and responsive operations needs a single, accountable, business-literate governance model.

Some A4E elements are not serving the CBD well:

1. Traffic-cell system restricts essential commercial movement.
   Deliveries, tradespeople, logistics and short-trip business travel are hindered by fragmented access and forced detours.

2. Kerbside access and servicing not sufficiently provided for.
   Hospitality, retail, construction and events require reliable loading and unloading window. A4E does not provide the flexibility required for a high-volume commercial environment.

3. Navigation is confusing for visitors and customers.
   Reduced permeability may suit some placemaking goals but undermines the CBD's accessibility for occasional users, event attendees, and convention visitors.

To support a thriving central city in the CRL era, Auckland must update A4E's circulation model and re-prioritise business-enabling street operations, so the city centre is as functional as it is pedestrian-friendly.

We support 'back to basics' as a powerful core of the CCMP strategy. Safety, Cleanliness, lighting, litter control, loading and servicing, working public toilets and all basic functionality are market 'hygiene factors' which cannot be neglected. They determine whether workers return more days, students linger, visitors recommend the city, and investors commit.

Prioritising these basics in 2026/27 and beyond is the fastest path to converting CRL access into economic uplift.

9. Recognition of Business as the "Keystone Species" of the city centre

In ecological systems, a keystone species is one whose presence and performance disproportionately shape the health, stability and productivity of the entire ecosystem. Weaken it, and the system unravels - diversity shrinks, and the environment becomes less resilient. Strengthen it, and everything around it thrives.

The same dynamic applies to Auckland's city centre. Business activity underpins the entire city-centre ecosystem.

City-centre businesses across retail, hospitality, offices, education, entertainment, visitor services and property, keep the urban environment "alive":

- They generate footfall that fills streets, supports safety through passive surveillance, and sustains public life.

- They fund and maintain buildings, invest in upgrades, and activate ground floors that transform streets from empty corridors into destinations.

- They underwrite events, hospitality and cultural activity

- They create and sustain the critical mass needed for high-frequency public transport, placemaking and public-realm investment to make sense.

When the business base weakens, the whole ecosystem suffers.

The needs of business and property must be front and centre of any revised CCMP and city centre governance. A thriving business environment strengthens all other CCMP goals. Put simply, business vitality is the engine that makes the CCMP vision viable. Strengthen the keystone, and you strengthen the whole system.

This is the most cost-effective economic development strategy the Council has.
It multiplies benefits across every part of the region and aligns with the Council's emphasis on economic growth, a more vibrant city centre, and value-for-money delivery.

11. Conclusion

Auckland's city centre matters. It plays a major role in the region's economy and Council's revenue, and getting it right benefits everyone. As CRL comes online, it's more important than ever that investment and policy decisions actually translate into a city centre people want to come to, spend time in, and do business in.

Heart of the City supports a practical, evidence-led approach that focuses on what works: safe streets, sensible access, strong day-to-day operations and a healthy business environment.

Just as importantly, the businesses and property owners who fund the City Centre Targeted Rate should have a clear say in how it is used and be able to see the results it delivers.

A busy, welcoming and economically strong city centre doesn't happen by accident - it's built through smart decisions, good basics and a focus on real outcomes. Keeping that focus will give Auckland the best chance of making the most of its investment and setting the city centre up for long-term success.

Annual Plan 2026-2027

#5141

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: Friends of the Earth New Zealand

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Our concerns primarily focus on the failure of the annual plan to ensure the full restoration of the educational and community role of the Leys institute building

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

B. Reduce maintenance for bollard and post-and-rail.

C. Reduce community grant funding and accommodation grant funding.

D. Increase fees for adult swim fees at council pools by up to $3.

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

The annual plan does not give assurance that the community and educational role of the Leys institute library complex will be guaranteed in spite of widespread community need and support

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around

3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

We want the council to commit formally to complete the restoration and seismic strengthening of the Leys Library complex so that it can again resume its important role in education and community development.

The Leys is hardly mentioned in the Annual Plan even though it was a priority project of the Waitematā Local Board for the 6 years since its forced closure.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Other (please specify):Education on environmental degradation ways. that we can live less damage lifestyles

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

: Increasing the penalties on car owners (eg reduced car-parking spaces and increased costs of car-parking) before most public transport issues are addressed is excessively harsh and anger-making. Kiwis are already the worst drivers in the world, don't make our roads less safe, especially as your rules for e-scooters have already made city and suburb footpaths unsafe for pedestrians.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

B. Reduce maintenance for bollard and post-and-rail.

C. Reduce community grant funding and accommodation grant funding.

D. Increase fees for adult swim fees at council pools by up to $3.

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

You say The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

I say: An interest-free loan from central government needs to be explored.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#5182

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I agree that transport is a high priortiy as well as community and envriomental factors. hwoever I think that cultural events should reieve more funding and support. But transport is okey priority especially public transport, trains, buses

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I think the general increase in rates by 7.9% is good. This is because these rates fund public services and benefit us all, in the grant scheme the increase is not so large

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

I think libraries should be open longer to be accesible for as many as possible, and that community grants should be increase and not reduced. Community's should be uplifted and supported not removed.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

B. Reduce maintenance for bollard and post-and-rail.

C. Reduce community grant funding and accommodation grant funding.

D. Increase fees for adult swim fees at council pools by up to $3.

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I wan tto see an incrase in public transport connecting the city. To go out West/Sotuh/East you first have to go into the city and then catch trains/buses from there. Living in grey lynn I want to access to sotuh auckalnd directly rather than through the city

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Other

Tell us why

I love Auckland, and I want to see our city lead the way in protecting what makes New Zealand special: our connection to the natural world. I am asking the Council to include the protection of our Night Sky as a key priority in the 2026/2027 plan. It is a vital natural asset and part of our cultural heritage. Please can you make sure we don't lose the stars to unnecessary light pollution or satellite interference, and actively lobby the Central Government to protect New Zealand's airspace from being used as a 'flag of convenience' for corporations like SpaceX. Efficiency is only valuable if it doesn't destroy the environment we rely on for our collective well-being and

identity...Protecting our sky isn't just for astronomers; it's for our local birds, our health, and for our children to grow up with a sense of wonder. Let's keep the night sky of New Zealand a part of our shared heritage.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The proposed increase to residential parking permits by close to 2x the current rates seems exesive and unjustified. I live in a densly populated area that sees a lot of different vehicles park on the streets I need daily. The sum received by these vehicles should cover any proposed service fee. There is also no certainty of getting a park in these areas making this price increase unjustified, if I am paying an annual fee to park locally I expect to get one, accepting that it may take extra time. It took me 45 minutes the other day and several laps of the area.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Cut staff. Too many government workers.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#5318

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

The pools get overcrowded with people who care to hang out because its free/too cheap. Raise price more. People who value the resource will still payDo not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#5343

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

I don’t know

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

Support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

We love Basque Park and appreciate how beautiful it is maintained, Thankyou

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

I don’t know

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

I don’t know

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#5398

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Do a targeted rate to fend off all of these instead of cutting things

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#5409

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Local Board: Waitematā

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

Support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Community grants/funding keep communities alive and happy. $3. is too much, keep single digits

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

I don’t know

E. Reduce funding for environmental management activities.

Tell us why (please be clear which priority you are talking about)

Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Increased targeted rate

climate change action

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around

	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I support most proposed ideas; however, I do not agree that an increase in average valued residential properties should be in place.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Due to the inflation in NZ. I do not believe the public transport fee should increase. As it already costs too much for students and uni students.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

It is important to create a strong community, and these things are the base.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

More pest management spending/general environment work

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Environmental work, the environment is irreplaceable

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Living in city centre is already expensive. Rent keeps increasing and students must share apartments to manage costs. When rates increase landlords will raise rent again.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Parking in city is already very expensive and difficult to find. Many students who own cars struggle with parking availability.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Rail projects like CRL may improve city transport long term but currently many disruptions and delays are happening.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

I don’t know

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Support

Tell us why (please be clear which priority you are talking about)

The priority should be on making the city centre safe. If the funding from environmental management activities can be reduced and diverted elsewhere, I support thisDo not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Council should improve communication about projects so residents know what benefits to expect.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Reliable trains and better night transport services.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.
