Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

You take far too much of our money and deliver far too little as it is. Get rid of the consultants first and foremost and leave us alone.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Against all of it.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

You know why by now

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Other

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Same

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Cut your own staff back to pay for it.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
6	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Cutting costs for ratepayers

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Other (please specify):The maori one has to be a joke, right?

- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

I don't know

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Retain sewerage pump out in rates no one will opt in for an expensive thing so best to include it with rates I also don't understand why you the council even charge for it? We are rural and have a reduced burden on the land and get no benefit

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitākere Ranges

Waitākere Ranges Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed key areas of additional investment?

A. Community wellbeing - continue to grow and evolve our programmes to support community wellbeing with a focus on tamariki and rangatahi, as well as older people

I don't know

B. Review level of community grants, including investigating a Facility Partnership Fund to support community organisations to plan, develop or upgrade community facilities

C. Improve engagement with communities of need, schools and youth

D. Progress an omnibus Waitākere Ranges Local Parks Management Plan

E. Walking and cycling connections, particularly through parks

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Stop increasing rates do you think our salaries are increasing??????

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Raise them all.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Māngere-Ōtāhuhu

Māngere-Ōtāhuhu Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering a Local Services Targeted Rate, changes to service levels or fees, or a combination of both approaches. We could introduce a Local Services Targeted Rate of $47.11 (GST inclusive) per Separately Used or Inhabited Part per annum on all rateable properties except those categorised as zero-rated in the Māngere-Ōtāhuhu Local Board area ($0.91 cent per week) to cover the increased cost of delivering existing services. What do you think about this proposal?

Support

3. We could adjust some service levels, fees and charges. What do you think about the proposed changes?

A. Reduce library hours - reduce hours at our four libraries as needed, without going below the regional minimum service level of 44 hours over 6 days at each library.

Support

B. Reduce maintenance - Stop scheduled bollard and post-and-rail maintenance, stop scheduled maintenance for bush areas (except High Value/Ecological), change garden edging

to chemical application, cease infill planting and mulching in amenity gardens and reclassify re-vegetation areas to bush areas.

Support

C. Reduce discretionary funding for Community Wellbeing programmes and services, Environment Management programmes and services and community grants.

Support

D. Increase pools and leisure fees - Increase fees and charges by $1 for "Plus" services at Moana-Nui-ā-Kiwa Pool and Leisure Centre.

Support

E. Charge adult visitors from outside the local board area at Moana-Nui-a-Kiwa Pool and Leisure Centre and Ōtāhuhu Pool and Leisure Centre (Toia).

Support

Tell us why (please be clear which priority you are talking about)

4. Overall, how do you think the local board should address the cost increases?

Reduce current service levels and/or increase fees and charges for those services

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

You yourselves are causing the problem! Roads are being congested because you people keep giving consent to newly built homes without appropriate parking area! Where are they parking? In the road!! Roads that were supposedly used to accommodate traffic, not for parking purposes which causes a lot of traffic to roads which we are paying for!! Use your brains for its purpose and don't just sit on it!!!

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**

Spend the money on more relevant stuff!

Maungakiekie-Tāmaki Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed key areas of additional investment?

A. Environmental initiatives – working alongside mana whenua on restoration projects, expanding food resilience and edible planting programmes, and reinstating deferred environmental education activities.

I don’t know

B. Sport and recreation – providing one-off operational support to local sports clubs and facilities to strengthen participation and collaboration.

I don’t know

C. Libraries and culture – enhancing programming for seniors and increasing investment in creative and cultural activities.

D. Community safety and emergency readiness – exploring additional compliance officer resourcing in areas with limited coverage.

E. Local economy - supporting business associations to continue supporting local businesses and ongoing growth, development and liven-up our town centres.

Tell us why (please be clear which priority you are talking about)

3. What do you think of Onehunga Business Association Inc's proposal to reduce the geographic boundary of the Onehunga Business Improvement District (BID) programme, and amount of targeted rate to be collected?

I don't know

Tell us why

Ōrākei Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services?

A. Increase community-use sports fields provision either through redevelopment or expansion of our asset portfolio to address the forecasted move of Auckland Cricket into Colin Maiden Park and other demands on our sports fields.

Do not support

B. Increasing investment in restoration and pest-management programmes to grow and protect your natural environment. Our reserves and open spaces are one of the most vital resources in Ōrākei.

Do not support

C. Changing the Meadowbank Community Centre project to a self-funded community centre to capitalise on existing investment and resources.

Do not support

D. Construct a playground Remuera Library to optimise the under-used green space at the side of the building.

Do not support

Tell us why (please be clear which priority you are talking about)

Ōtara-Papatoetoe Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. Due to rising costs for utilities, maintenance, staffing and other pressures, we must address an increase in the cost of delivering existing services within its current funding. To balance the budget, we are considering a Local Services Targeted Rate, changes to service levels or fees, or a combination of both approaches. We could introduce a Local Services Targeted Rate of $1.1 million capital value based rate charged to all properties (this would be around $27 based on average value urban residential property in the Ōtara-Papatoetoe Local Board area) to cover the increased cost of delivering existing services. What do you think about this option?

Do not support

3. We could adjust some service levels, fees and charges. What do you think about the proposed changes?

A. Reduce maintenance - Stop scheduled bollard and post-and-rail maintenance, stop scheduled maintenance for bush areas (except High Value/Ecological), change garden edging to chemical application, cease infill planting and mulching in amenity gardens and reclassify re-vegetation areas to bush areas.

Do not support

B. Reduce library hours: Ōtara Library, reduction of 4 hours per week; Papatoetoe Library, reduction of 2 hours per week; Tupu Youth Library, reduction of 5 hours per week; Manukau Library, reduction to a 6-day service, close on Sundays.

Support

C. Reduce discretionary spending on community grants, community and/or environment projects.

Support

D. Increase to fees for "Plus" (spa, sauna, and steam room entry) services by $1 at Ōtara Pool and Leisure Centre and Papatoetoe Centennial Pool (PCP).

Do not support

E. Charge adult visitors from outside the local board area at Ōtara Pool and Leisure Centre and Papatoetoe Centennial Pool (PCP).

Support

Tell us why (please be clear which priority you are talking about)

4. Overall, how do you think the local board should address the cost increases?

I don't know

Papakura Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes to service levels and fees and charges?

A. Reduce library hours on Mondays and Fridays at Sir Edmund Hillary Library.

I don't know

B. Reduce library hours on Saturdays at Sir Edmund Hillary Library.

I don't know

C. Reduce selected maintenance: Stop bollard and post-and–rail maintenance in parks, stop scheduled maintenance for bush areas (except high value/ecological).

I don't know

D. Charge a higher fee for visitors outside the Auckland region who visit Massey Park Pool.

I don’t know

E. Reduce or discontinue grant funding.

I don’t know

F. Reduce the numbers of public rubbish bins in public spaces such as town centres, parks and reserves.

I don’t know

G. Reduce or discontinue some arts and culture activities.

I don’t know

H. Reduce or discontinue some services and programmes in arts facilities and community centres.

Do not support

I. Reduce or discontinue some community development and support activities.

Do not support

J. Reduce or discontinue some environmental and water quality activities.

Do not support

K. Reduce or discontinue civic events.

Do not support

L. Reduce or discontinue sports and park activation activities.

Do not support

Whau Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed key areas of additional investment?

A. Design and build a new destination playground at Avondale Central Reserve.

I don’t know

B. Promote community identity and diversity by funding a coordinator for Welcoming Communities, supporting the PAN African Hub, and refreshing the Whau Ethnic Peoples Plan.

I don’t know

C. Engage and respond to youth needs, and co-design initiatives to address opportunities and gaps.

D. Improve water quality and flood resilience of Whau streams and rivers through collaboration with volunteers, local schools, community hubs, organisations, and neighbouring local boards.

E. Prioritise projects identified through the Whau Sport and Recreation Facilities Plan and leverage partnerships to provide a local facility network for the community.

F. Develop a Local Parks Management Plan to guide decisions on managing use, development, and protection of all 146 parks, reserves and open space within the Whau.

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Traffic!!!

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

they're good

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Henderson-Massey

Henderson-Massey Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

The rates increase is way too high relative to inflation at 3.1%. You are pocketing way too much at 7.9%.

Māngere-Ōtāhuhu Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

The rates increase is way too high relative to inflation at 3.1%. You are pocketing way too much at 7.9%.

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing

services. To address this, we are considering a Local Services Targeted Rate, changes to service levels or fees, or a combination of both approaches. We could introduce a Local Services Targeted Rate of $47.11 (GST inclusive) per Separately Used or Inhabited Part per annum on all rateable properties except those categorised as zero-rated in the Māngere-Ōtāhuhu Local Board area ($0.91 cent per week) to cover the increased cost of delivering existing services. What do you think about this proposal?

Do not support

3. We could adjust some service levels, fees and charges. What do you think about the proposed changes?

A. Reduce library hours - reduce hours at our four libraries as needed, without going below the regional minimum service level of 44 hours over 6 days at each library.

Do not support

B. Reduce maintenance - Stop scheduled bollard and post-and-rail maintenance, stop scheduled maintenance for bush areas (except High Value/Ecological), change garden edging to chemical application, cease infill planting and mulching in amenity gardens and reclassify re-vegetation areas to bush areas.

Do not support

C. Reduce discretionary funding for Community Wellbeing programmes and services, Environment Management programmes and services and community grants.

Do not support

D. Increase pools and leisure fees - Increase fees and charges by $1 for "Plus" services at Moana-Nui-ā-Kiwa Pool and Leisure Centre.

Do not support

E. Charge adult visitors from outside the local board area at Moana-Nui-a-Kiwa Pool and Leisure Centre and Ōtāhuhu Pool and Leisure Centre (Toia).

Do not support

Tell us why (please be clear which priority you are talking about)

The rates increase is way too high relative to inflation at 3.1%. You are pocketing way too much at 7.9%.

4. Overall, how do you think the local board should address the cost increases?

I don't know

Manurewa Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

The rates increase is way too high relative to inflation at 3.1%. You are pocketing way too much at 7.9%.

2. What do you think about the proposed key areas of additional investment?

A. Allocate up to $1.5 million of funding to support delivery of the Manurewa War Memorial Park multi-sports pavilion.

Do not support

B. Deliver a new multi-cultural initiative that responds to demands for increased ethnic engagement.

Do not support

C. Develop a civics education initiative that helps people understand the role of local boards and how they can get involved.

Do not support

Tell us why (please be clear which priority you are talking about)

The rates increase is way too high relative to inflation at 3.1%. You are pocketing way too much at 7.9%.

Maungakiekie-Tāmaki Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

The rates increase is way too high relative to inflation at 3.1%. You are pocketing way too much at 7.9%.

2. What do you think about the proposed key areas of additional investment?

A. Environmental initiatives – working alongside mana whenua on restoration projects, expanding food resilience and edible planting programmes, and reinstating deferred environmental education activities.

Do not support

B. Sport and recreation – providing one-off operational support to local sports clubs and facilities to strengthen participation and collaboration.

Do not support

C. Libraries and culture – enhancing programming for seniors and increasing investment in creative and cultural activities.

Do not support

D. Community safety and emergency readiness – exploring additional compliance officer resourcing in areas with limited coverage.

Do not support

E. Local economy - supporting business associations to continue supporting local businesses and ongoing growth, development and liven-up our town centres.

Do not support

Tell us why (please be clear which priority you are talking about)

The rates increase is way too high relative to inflation at 3.1%. You are pocketing way too much at 7.9%.

3. What do you think of Onehunga Business Association Inc's proposal to reduce the geographic boundary of the Onehunga Business Improvement District (BID) programme, and amount of targeted rate to be collected?

Do not support

Tell us why

The rates increase is way too high relative to inflation at 3.1%. You are pocketing way too much at 7.9%.

Ōrākei Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

The rates increase is way too high relative to inflation at 3.1%. You are pocketing way too much at 7.9%.

2. What do you think about the proposed key areas of additional investment and changes to services?

A. Increase community-use sports fields provision either through redevelopment or expansion of our asset portfolio to address the forecasted move of Auckland Cricket into Colin Maiden Park and other demands on our sports fields.

Do not support

B. Increasing investment in restoration and pest-management programmes to grow and protect your natural environment. Our reserves and open spaces are one of the most vital resources in Ōrākei.

Do not support

C. Changing the Meadowbank Community Centre project to a self-funded community centre to capitalise on existing investment and resources.

Do not support

D. Construct a playground Remuera Library to optimise the under-used green space at the side of the building.

Do not support

Tell us why (please be clear which priority you are talking about)

The rates increase is way too high relative to inflation at 3.1%. You are pocketing way too much at 7.9%.

Ōtara-Papatoetoe Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

The rates increase is way too high relative to inflation at 3.1%. You are pocketing way too much at 7.9%.

2. Due to rising costs for utilities, maintenance, staffing and other pressures, we must address an increase in the cost of delivering existing services within its current funding. To balance the budget, we are considering a Local Services Targeted Rate, changes to service levels or fees, or a combination of both approaches. We could introduce a Local Services Targeted Rate of $1.1 million capital value based rate charged to all properties (this would be around $27 based on average value urban residential property in the Ōtara-Papatoetoe Local Board area) to cover the increased cost of delivering existing services. What do you think about this option?

Do not support

3. We could adjust some service levels, fees and charges. What do you think about the proposed changes?

A. Reduce maintenance - Stop scheduled bollard and post-and-rail maintenance, stop scheduled maintenance for bush areas (except High Value/Ecological), change garden edging to chemical application, cease infill planting and mulching in amenity gardens and reclassify re-vegetation areas to bush areas.

Do not support

B. Reduce library hours: Ōtara Library, reduction of 4 hours per week; Papatoetoe Library, reduction of 2 hours per week; Tupu Youth Library, reduction of 5 hours per week; Manukau Library, reduction to a 6-day service, close on Sundays.

Do not support

C. Reduce discretionary spending on community grants, community and/or environment projects.

Do not support

D. Increase to fees for "Plus" (spa, sauna, and steam room entry) services by $1 at Ōtara Pool and Leisure Centre and Papatoetoe Centennial Pool (PCP).

Do not support

E. Charge adult visitors from outside the local board area at Ōtara Pool and Leisure Centre and Papatoetoe Centennial Pool (PCP).

Do not support

Tell us why (please be clear which priority you are talking about)

The rates increase is way too high relative to inflation at 3.1%. You are pocketing way too much at 7.9%.

4. Overall, how do you think the local board should address the cost increases?

I don't know

Papakura Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

The rates increase is way too high relative to inflation at 3.1%. You are pocketing way too much at 7.9%.

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes to service levels and fees and charges?

A. Reduce library hours on Mondays and Fridays at Sir Edmund Hillary Library.

Do not support

B. Reduce library hours on Saturdays at Sir Edmund Hillary Library.

Do not support

C. Reduce selected maintenance: Stop bollard and post-and–rail maintenance in parks, stop scheduled maintenance for bush areas (except high value/ecological).

Do not support

D. Charge a higher fee for visitors outside the Auckland region who visit Massey Park Pool.

Do not support

E. Reduce or discontinue grant funding.

Do not support

The rates increase is way too high relative to inflation at 3.1%. You are pocketing way too much at 7.9%.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

The rates increase is way too high relative to inflation at 3.1%. You are pocketing way too much at 7.9%.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Growing Auckland is how we'll prosper.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

#656

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Its just spend spend spend with no direction, no thought for who is having to pay for it, prior work does not support any suitable outcome

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Terrible

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

RodneyDo not support any

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I don't support to increase the rate and spend on City Rail Link. This project is not economic and cost efficient. It does not benefit all Aucklanders. If you want to raise money to pay interest and depreciation, get the money from those people who live or work in the central Auckland that might benefit from the project.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays,Upper Harbour

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Upper Harbour Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes to service levels and fees and charges?

A. Reduce maintenance activities may include stopping scheduled work on bollards, post-and-rails, and low-value bush areas, ceasing amenity garden infill planting and mulching, and reclassifying re-vegetation areas as bush.

Do not support

B. Reduce grants funding.

Support

C. Reduce funding across all programmes and projects including environmental outcomes, events and activations, cycling initiatives and community outcomes.

Support

D. Increase the fees and charges for Albany Stadium Pool: Option 1: Increase casual swim and swim plus fees by $1 (Fees will range from $5.00 - $11.40)

Support

E. Increase the fees and charges for Albany Stadium Pool: Option 2: Increase spectator fee and supervising adult fee by $1 (Fees will become $2)

Support

F. Increase the fees and charges for Albany Stadium Pool: Option 3: Increase spectator fee and supervising adult fee by $4 (Fees will become $5)

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

#840

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Not enough information, the devil is in the details

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The increase in 7.9 percent in rates again is further proof that the council in under performing because of the incompetent staff that council are not willing to performance manage.

These additional changes only satisfy a few of the councilors but don't really address the core issues.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Much of how people think and feel about the performance is reflected by a lack of interest in the council elections.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027-2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Stop using administrative controls - the only way forward if to use engineering controls to manage change and risks. Council need to move away from the #8 concept (cheap and cheerful) and focus on resilience and scenarios planning.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Rates are currently based 200,000 above wha I could sell my home for. Despite building 28 new homes on the road no improvements have been made such as street lights, parking and my rates for a townhouse are currently the same as my neighbour who has 3 bedrooms and a sleep out. Get a grip.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Again, no money for the people. It's crazy

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

It's absolute insanity that you keep asking for money and doing nothing but making peoples lives harder.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Just improve what's there, one thing at a time. Do one thing well and move on. Sort the street lights for safety, we had four cars broken into in one night on one road. No changes.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):Make it easier to get there, remove the crazy one way systems and offer parking

Annual Plan 2026-2027

#931

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Rates change is too much. CRL not needed and roads that are perfectly fine and constantly being fixed.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Find the money for these elsewhere, fine all the cars parking illegally, fine the rubbish dumpers, fine all the cyclists riding without helmets and those on foot paths.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Money being spent on facilities which are perfectly fine is a waste of money.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Do not increase rates. The land that was purchased to increase the botanical gardens shows how irresponsible the council is with spending

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Annual Plan 2026-2027

#1033

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I do not think it is a good use of the taxpayer money given all the inefficiencies in the council. Instead of working to future proofing the waterway to reduce the risk of flooding, council is putting more properties and lives at risk and at the time of rising cost of living, increase of rates will be more burdensome to the ratepayers.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Increase of rates will be more burdensome to the ratepayers - council needs to be more efficient like any other corporate organisation and not just rely on hiking up the rates to fuel the inefficiencies

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Devonport-Takapuna,Hibiscus and Bays

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Increase of rates will be more burdensome to the ratepayers. - not sure why is there increase in rates while a heaps of reduction in services as below

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Do not support

B. Reduced library hours over 7 days.

Support

C. Reduced local board funding to local organisations that deliver local events.

Do not support

D. Reduced budget available for contestable grants.

I don’t know

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

Do not support

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

Do not support

G. Reduced funding for parks volunteers.

Do not support

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Do not support

Tell us why (please be clear which priority you are talking about)

not sure why is there increase in rates while a heaps of reduction in services

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

not sure why is there increase in rates while a heaps of reduction in services

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Increase in rates will be burdensome

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Council needs to do better - the residents are on a very tight budget so council should also learn how to be more efficient with the funding and not keep increasing the rates while reducing the services.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Flood resilience - instead of publishing the flood plains/ path view learn like other countries to mitigate those risk.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Mr Brown promised to reduce rates when he wanted us to vote him as Auckland Mayor,but since his 1st duty, he started to increase the rates, and now 7.9 % increase, too much!will not vote him next time

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Should reduce to 3% instead of 7.9%

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Henderson-Massey

Henderson-Massey Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Annual Plan 2026-2027

#1144

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Stop putting more pressure on Aucklanders! We have already paid so much tax!

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Spend money wisely please! You are damaging our economic. Stop charging more fees from people!

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I do not support the proposed 7.9% rates increase in the 2026/2027 Annual Plan.

Many households are already under significant financial pressure due to rising living costs, mortgages, and insurance. A nearly 8% increase in rates is unreasonable and places an unfair burden on ratepayers.

It is also concerning that much of the increase is driven by the interest and depreciation costs of the City Rail Link, rather than direct improvements to essential services that residents experience day to day.

Before increasing rates at this level, the council should focus more on better financial management, spending discipline, and prioritising essential services.

Ratepayers should not be expected to absorb large cost increases without stronger efforts from the council to control spending.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

Ratepayers should not be expected to absorb large cost increases without stronger efforts from the council to control spending.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I do not support the proposed 7.9% rates increase in the 2026/2027 Annual Plan.

Many households are already under significant financial pressure due to rising living costs, mortgages, and insurance. A nearly 8% increase in rates is unreasonable and places an unfair burden on ratepayers.

It is also concerning that much of the increase is driven by the interest and depreciation costs of the City Rail Link, rather than direct improvements to essential services that residents experience day to day.

Before increasing rates at this level, the council should focus more on better financial management, spending discipline, and prioritising essential services.

Ratepayers should not be expected to absorb large cost increases without stronger efforts from the council to control spending.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#1327

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I support the priority in pubic transport and getting the CRL operating

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Agree with these user pay fee increases. However believe the Waitakere Rural Sewerage scheme needs to be simplified to save rates and left with the land owner to deal with. Our system is so small it only needs cleaning every 5 yrs. Its up to the landowner to produce simple engineer reports to meet compliance. Not Council

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Concerned over the quarry faces on the Maunga and slips onto houses. Funds need to be set aside for monitoring etc.

Not enough funding put aside for purchase of public land especially in dealing with PC 120 adn the land required for "walkable catchments"

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

A Regional Park is needed in the rapid south growth area of Auckland.

Parks are not only environment but part of overall infrastructure. E.g. flood control areas, agriculture/horticulture protection areas etc

More funding needed to implement the Open Space Strategy

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):Do not support extra funding. Businesses should pay more

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

I think the council should focus on water and transport as they are important part of the community's wellbeing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I think AT should keep residential parking permit to a reasonable amount, even if they do increase it.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Devonport-Takapuna

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Do not support

B. Reduced library hours over 7 days.

Do not support

C. Reduced local board funding to local organisations that deliver local events.

Do not support

D. Reduced budget available for contestable grants.

Do not support

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

Do not support

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

Do not support

G. Reduced funding for parks volunteers.

Do not support

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Do not support

Tell us why (please be clear which priority you are talking about)

I think Library hours should be increased as a priority, and even though certain fees might be reduced, I think it is important to maintain certain public spaces and make it avaliable for the public even with reduced fees.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Increasing library hours and upgrading the general quality of public spaces and ensuring safety in a variety of ways.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

I don't know

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Devonport-Takapuna

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

I don’t know

B. Reduced library hours over 7 days.

Do not support

C. Reduced local board funding to local organisations that deliver local events.

Do not support

D. Reduced budget available for contestable grants.

I don’t know

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

Do not support

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

Do not support

G. Reduced funding for parks volunteers.

Do not support

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Do not support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

You guys are making everything expensive for no reason at all. Use the taxes we pay for this, don't make us pay more for your stupid ideas.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Ōtara-Papatoetoe

Ōtara-Papatoetoe Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. Due to rising costs for utilities, maintenance, staffing and other pressures, we must address an increase in the cost of delivering existing services within its current funding. To balance the budget, we are considering a Local Services Targeted Rate, changes to service levels or fees, or a combination of both approaches. We could introduce a Local Services Targeted Rate of $1.1 million capital value based rate charged to all properties (this would be around $27 based on average value urban residential property in the Ōtara-Papatoetoe Local Board area) to cover the increased cost of delivering existing services. What do you think about this option?

Do not support

3. We could adjust some service levels, fees and charges. What do you think about the proposed changes?

A. Reduce maintenance - Stop scheduled bollard and post-and-rail maintenance, stop scheduled maintenance for bush areas (except High Value/Ecological), change garden edging to chemical application, cease infill planting and mulching in amenity gardens and reclassify re-vegetation areas to bush areas.

Support

B. Reduce library hours: Ōtara Library, reduction of 4 hours per week; Papatoetoe Library, reduction of 2 hours per week; Tupu Youth Library, reduction of 5 hours per week; Manukau Library, reduction to a 6-day service, close on Sundays.

Support

C. Reduce discretionary spending on community grants, community and/or environment projects.

Support

D. Increase to fees for "Plus" (spa, sauna, and steam room entry) services by $1 at Ōtara Pool and Leisure Centre and Papatoetoe Centennial Pool (PCP).

Do not support

E. Charge adult visitors from outside the local board area at Ōtara Pool and Leisure Centre and Papatoetoe Centennial Pool (PCP).

Do not support

Tell us why (please be clear which priority you are talking about)

4. Overall, how do you think the local board should address the cost increases?

Reduce current service levels and/or increase fees and charges for those services

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

The 7.9 cent increase in tax is preposterous, hardworking citizens should not have to pay for what many people don't even use, instead, you should increase the prices of the tickets.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I don't think you should increase the taxes, instead, you should increase the salaries of the working class.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Taxes are too high and the mortgage rates are too high.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

It's a lot of money already with everything, including the amount that rates etc increase at this point of time, but I do believe that Auckland Council is the right hands for our city and that we're doing a lot better than other countries. I like the overall concept of this text's opinion but I can't seem to fully grasp the idea of this. Obviously this is just opinion so I am not Auckland's only voice, and I do believe that this Is probably well thought out, but I believe it is important how high the rates are, and this kind of seems a bit risky. Thank you for your hard work

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I believe some affect us a lot more than others. As well as all of them being important, I think that some have higher urgencies than others.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Other (please specify):Having better/or more focused on financial stability and/or housing placement (having less buildings being turned from one with grass to 4 with less privacy, grass, etc)

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#1586

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

City rail link cost is astronomical! We have no plans to use it and do not agree with yet another rates increase to fund something irrelevant to us. The annual running cost of the city rail link is unacceptable and unmaintainable within current rates - this is the problem the council has created - the council should be fixing the problem rather than passing the buck to rate layers yet again, unacceptable!

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The Waitakere sewerage scheme changes are costly to ratepayers without any additional benefit. Paying to certify and for ratepayers to organise everything separately defeats the purpose.

Keeping septic clean outs arranged by the council, keeps the process regular and no additional admin related in terms of certificates and checks. Adding fees for council check and adding cost for ratepayers to arrange septic clean outs to happen each separately make zero sense.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitākere Ranges

Waitākere Ranges Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Keep to the basics. Facilities that are usable for ratepayers.

The council do not need to fund multiple community events to service 1% of ratepayers.

2. What do you think about the proposed key areas of additional investment?

A. Community wellbeing - continue to grow and evolve our programmes to support community wellbeing with a focus on tamariki and rangatahi, as well as older people

I don’t know

B. Review level of community grants, including investigating a Facility Partnership Fund to support community organisations to plan, develop or upgrade community facilities

I don’t know

C. Improve engagement with communities of need, schools and youth

Do not support

D. Progress an omnibus Waitākere Ranges Local Parks Management Plan

I don't know

E. Walking and cycling connections, particularly through parks

Support

Tell us why (please be clear which priority you are talking about)

Very vague key areas.

Being able to walk/bike through parks is a basic need that should be supported. Playing fields with drainage is a basic need to be able to use the facilities - this should be supported.

Get the basics right. Less funding for vague "arts" projects.

Support communities that have had houses red stickered, demolished, and now the properties are being left to go to rot - engage the community to plan useful ideas for this council land to be of benefit to the community

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Reduce our rates, they have increased too much and it is not sustainable.

Rate payments may need to be paid per person living in a property rather than linked to the property itself - this is the way in cities overseas, and makes sense in terms of the services councils provide are for the people, not related to a houses value.

The changes to rubbish collection seem to be rubbish! We have gone from user pays with rubbish tags and putting our bin out once/month, to a flat council charge so we put the bin out each week. It doesn't seem like a forwards move. Not well planned or executed.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

The essentials - stormwater, sports fields, public toilets, water fountains and rec areas, For council to arrange septic clean outs every 3 years. For red stickered properties to be transformed into useful public spaces - in collaboration with local communities.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Other (please specify):The relevance to where the economic hub is is very irrelevant to many rate payers who have no desire to travel into the city no matter how much ratepayers money is sunk into the CBD. Auckland is a huge place, please focus on the whole of Auckland and less on the CBD

Annual Plan 2026-2027

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Increase in rates for a service (City Rail) that will be inconvenient for those who have disabilities... where do we park (buses are not accessible) to get to city rail stations, particularly inner city stations! Cuts to other disability services inc. but not limited to Total mobility subsidies + taking away more and more mobility parks.

I also do not support reductions to local events, community grants, local organisations, or arts services in and around the city. Our community needs fair funding to protect participation, wellbeing, and affordable access to local services

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

As a resident of rural Warkworth I strongly object to the funding the 235 million CRL operating cost through the General rate. This approach forces rural land owners to be an unfair share of the cost for a service that we cannot access.

Under the local government at rate should reflect how the benefit benefits of a service distributed. In this case the benefits of the CRL are primarily urban yet rural residence are being required to contribute disproportionately.

I therefore request that the rural rating multiplied be reduced in the 2025 2026 budget to ensure that rural rate payers are not subsidising infrastructure from which they receive little or no benefit.

As retirees we should not be required to pay additional cost for service we cannot and will not use this proposal places unreasonable financial burden on on us and adds the already increasing cost-of-living and extortion rates increase this year already. It should be a user pay system.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Again forcing cost on elderly who don't need to pay the same rubbish cost imposed as a family of five. Everybody is quite capable of providing their own bins or own rubbish bags for what they use you were trying to charge another tax on people who don't have the same quantity of rubbish that some people do it's and an increasing cost on elderly people who are on set income incomes and set pensions it's disgusting. It should be a user pay systems the more you use the more you pay it's illegal to think that you can force the same cost on everybody everybody does not use everything to the same degree.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

RodneySupport most

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#1696

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Other

Tell us why

Council needs to do what council needs to do but I am so over Maori Tribal elites being given discriminatory powers. What is happening in Gore currently will not happen in Auckland. Maori are well represented by Council in whole, giving priority and decision making based on Race or Tribal heritage is not equality, it is the definition of Racism

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

If painting the streets with geometric patterns is your idea of improving Onehunga and Kingsland, please dont. It was a waste of money in Mt Roskill shops, It would be a needless exercise in anywhere else.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Just do the maintenance, stop creating pointless and wasteful "art" installations, mostly anything but art. Stop giving money to cultural groups and gender celebration groups, there is only two and they don't need specific celebrating, and for Gods sake no more speedbumps and traffic "calming" manipulation engineering. And we are heartily sick of those traffic manipulation companies, the coneheads, that seem to have a mandate to do whatever they want.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):Auckland centre is a dive, a bottleneck for traffic, so many one way streets, its almost impossible to move around, its full of tourists and rough sleepers, it has no draw at all. Giving streets Maori names is an even bigger turn-off, its a waste of my rates.The City Centre I used to frequent died a long time ago, malls have superseded it for shopping, its a place to pass through as quickly as possible. Dont waste my money on it.

Q3: Which local board(s) would you like to provide feedback on?

Whau

Whau Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment?

A. Design and build a new destination playground at Avondale Central Reserve.

B. Promote community identity and diversity by funding a coordinator for Welcoming Communities, supporting the PAN African Hub, and refreshing the Whau Ethnic Peoples Plan.

Support

C. Engage and respond to youth needs, and co-design initiatives to address opportunities and gaps.

Support

D. Improve water quality and flood resilience of Whau streams and rivers through collaboration with volunteers, local schools, community hubs, organisations, and neighbouring local boards.

Support

E. Prioritise projects identified through the Whau Sport and Recreation Facilities Plan and leverage partnerships to provide a local facility network for the community.

Support

F. Develop a Local Parks Management Plan to guide decisions on managing use, development, and protection of all 146 parks, reserves and open space within the Whau.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Submission: Support for the Continued Development and Completion of Te Whau Pathway

I am writing to express my strong support for the ongoing development and full completion of Te Whau Pathway. This project is an important piece of community infrastructure that delivers environmental, cultural, social, and transport benefits for our region.

Connecting Harbours, Connecting Communities

Te Whau Pathway provides a rare opportunity to create a continuous link between the Waitematā and Manukau harbours. This connection is not only symbolic — it strengthens relationships between neighbourhoods, supports active transport, and enhances the way people move across the west of Tāmaki Makaurau. The sections already completed demonstrate the value and potential of this project, and it is essential that we continue building on this progress.

A Pathway Worth Completing

The pathway has already proven itself as a well-used and well-loved community asset. Completing the full route will unlock its full potential, providing a safe, accessible, and enjoyable corridor for walking, cycling, commuting, and recreation. This is an investment that will continue to deliver benefits for decades.

Wellbeing Through Nature

Access to natural environments is vital for both mental and physical wellbeing. Te Whau Pathway encourages people to spend time outdoors, engage with their local environment, and enjoy the unique landscapes of the Whau River. This contributes to healthier lifestyles and stronger community connections.

Restoring the Mana of the Whau River

The pathway also plays an important role in restoring the mana of the Whau River. By bringing people closer to the awa, it fosters a sense of guardianship and respect. Increased visibility and community engagement support ongoing environmental restoration and protection efforts.

Accessible and Future-Focused Transport

Te Whau Pathway makes it easier for people to walk or cycle to where they need to go. It supports low-emission transport choices, reduces reliance on cars, and contributes to a more resilient and sustainable transport network. Importantly, the pathway is designed to be accessible for wheelchair users and people of all abilities, ensuring that everyone can benefit from this public space.

Conclusion

For all these reasons, I strongly support the continued investment in and completion of Te Whau Pathway. It is a project that connects our harbours, our communities, and our future. I urge the council to prioritise and protect funding for this important piece of infrastructure.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

I would suggest improving safety management in the western area, as sometimes young people loiter around, making it less safe at night. Also, Lake Duck is quite dirty, and it's a place that attracts tourists from all over the world. Although I understand the need to reduce services due to costs, it's important to still manage key tourist spots well. One possible solution could be to involve volunteers in the management to reduce costs. In addition, I recommend enhancing education, providing more youth activities, and improving community cooperation to ensure safety.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Although it impacts me, I want to support it because City services rely on support from everyone, and I am willing to take on this responsibility. I hope that the annual increase will eventually stop, and that the economy will improve.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Henderson-Massey,Manurewa,Puketāpapa

Henderson-Massey Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

Manurewa Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment?

A. Allocate up to $1.5 million of funding to support delivery of the Manurewa War Memorial Park multi-sports pavilion.

Support

B. Deliver a new multi-cultural initiative that responds to demands for increased ethnic engagement.

Support

C. Develop a civics education initiative that helps people understand the role of local boards and how they can get involved.

Support

Tell us why (please be clear which priority you are talking about)

I would suggest improving safety management in the western area, as sometimes young people loiter around, making it less safe at night. Also, Lake Duck is quite dirty, and it's a place that attracts tourists from all over the world. Although I understand the need to reduce services due to costs, it’s important to still manage key tourist spots well. One possible solution could be to involve volunteers in the management to reduce costs. In addition, I recommend enhancing education, providing more youth activities, and improving community cooperation to ensure safety.I don't knowI have no time to read all but the summary.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Although the rete increase impacts me, I want to support it because City services rely on support from everyone, and I am willing to take on this responsibility. I hope that the annual increase will eventually stop one day when the economy will improve.

Question 5: Looking further ahead / shaping Auckland’s longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland’s future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland’s spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Prejudicing cross lease properties and rorting them off.

Not taking into account the major shortfalls already found in East Auckland and not doing anything about them. Most of this DOES NOT apply o the residents of East Auckland.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Howick

Howick Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed local board specific key areas of spend?

A. Explore ways to get the best value from our play spaces so they continue to meet the needs of children and families.

Do not support

B. Run regular seminars for community groups/organisations on the local grant's application process.

Support

C. Identify what type of indoor/sheltered courts are necessary to support sports play in Flat Bush.

Do not support

D. Continue advocacy of the Tāmaki estuary on water quality and coastal erosion.

Support

E. Continue to advocate to crime prevention organisations on behalf of the community for ongoing safety initiatives.

Support

F. Continue to support our volunteer groups with resources needed for ecological volunteering, such as stream clean-ups and pest plant weeding.

Support

Tell us why (please be clear which priority you are talking about)

Some of their projects are NICE to have but not a necessity.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Poor tender practices re road subcontractors and NOT holding them accountable for their shoddy workmanship associated with road maintenance. .

Upgrading stormwater systems . Not taking into account the topography and land contours associated with the suburbs and their runoff. .

Promoting densification in areas where there are already existing problems and making them worse.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Annual Plan 2026-2027

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Annual Plan 2026-2027

#1790

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Don't increase our costs to live

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Stupid. Don't increase.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Stupid. Don't increase.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Stupid. Don't increase.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

There is a living crisis in our country and has gotten much worst with this government in power. I disagree with the amount our rate payers have to pay towards their rate bills as it is at the moment. 1.5% is more realistic. Hello affordable. If central government gave to our Auckland local council it would not be so high rates.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I disagree with the hours for libraries being reduced and outsiders having to pay to use our Otahuhu pools. Keep our garden spaces the same with the maintains as well.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Programmes that help with our communities to grow. Free events for our children and families to come together and connect as a whole. Due to the lack of support from central government it has had a very bad affect on our city, Auckland City is the heart of our country, disappointing to see the cuts we are asked to choose from.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I think its not fair that rate payers have to pay for inefficiencies in running the Council. The CRL should be users pay. Why should everyone be burdened who do not even have access to decent public transport network. Further if the employees and Contractors to maintain our open space etc are paid inflation adjustment to their salaries and contract price rates payments end up forking 3 times inflation year on year. With automation and use of AI there should have been reduction is rates however its going the other way.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Increase in rate % is not justified beyond inflation/CPI adjustments

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I think the Local Board structure adds to delays/red tap and costs. Why cant we one flat governance structure with smaller team/group of councilors focusing on each geographical area in the Auckland region. Time has come I feel to relook at the entire Auckland council governance model and restructure for minimum governance and maximum delivery of services to Rate payers efficiently

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Increase in rates should not be the only way of funding council activities. Want our Mayor and his team to focus on making Auckland the Engine of Economic growth by hosting more international business seminars/sporting events/conferences/festivals etc. We are not talking only Rugby as an example there are other sports. We should work closely with Growing Economies. Economic growth of the city ensures visitors and other users of Auckland infrastructure will contribute their share. Further we can look at making Auckland the Financial capital of Global south like Singapore. We need people to head Auckland Council having Vision and global exposure. Planned economic growth will address all the issues we currently face for funds.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

THE CRL IS FINE BUT IT IS JUST THE BEGINNING. WE NEED TO GET OUT OF THE INNER SUBURBS AND PROVIDE EFFICIENT RAIL SERVICES THROUGHOUT THE AUCKLAND AREA. FOR GOODNESS SAKE - CITIES LIKE LONDON HAVE HAD COMPREHENSIVE UNDERGROUND AND NORMAL RAIL FOR OVER 100 YEARS.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

UNFORTUNATELY THE CHANGES ARE NECESSARY

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Howick

Howick Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

THEY ARE ALL WORTHWHILE

2. What do you think about the proposed local board specific key areas of spend?

A. Explore ways to get the best value from our play spaces so they continue to meet the needs of children and families.

Support

B. Run regular seminars for community groups/organisations on the local grant's application process.

Support

C. Identify what type of indoor/sheltered courts are necessary to support sports play in Flat Bush.

Support

D. Continue advocacy of the Tāmaki estuary on water quality and coastal erosion.

Support

E. Continue to advocate to crime prevention organisations on behalf of the community for ongoing safety initiatives.

Support

F. Continue to support our volunteer groups with resources needed for ecological volunteering, such as stream clean-ups and pest plant weeding.

Support

Tell us why (please be clear which priority you are talking about)

ALL GOOD

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

MORE RAIL. THE REASONS ARE OBVIOUS

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#1846

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Kiaora, I have a proposal to plant orchards in all parks - just a few trees in small parks and more fruit trees in bigger parks that don't interfere with views of the parks and don't compromise the play areas in the parks. Also only natives or fruit trees should be planted on berms. This will help people who can't afford food. Also we have to have continuous cycleways around Auckland, light rail to the airport to and from the city or Mt Eden fast train station in Mt Eden Rd, or Dominion Rd. There should be freight trains from and to west from the east and south, rather than more motorways. Buses need to need to replaced by electric buses or trams at a faster rate . Sport and Art and Theatre and Music venues need to continued for the well being of people.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

To the Council. I am coming forward about Mental Health this year. I have simply had enough of the silent treatment of Mental Health here in this country. This is a area that has not been properly addressed and why I am going to say that Mental Health does belong to all NZ and why the laws around Mental Health need urgent changes because of the coming election this year. We need NZ mental health bought forward and brought to the table and say that Mental Health is a Societal issue now and so Mental Health needs laws to suit all of NZ. I am also going to pass a petition for NZ this next coming weeks to see if people are wanting changes in the Mental Health system to suit the system rather than treat Mental Health as a individual issue. Mental Health has been swept under the carpet and has done so much damage to families or if not most NZers today. Mental Health does affect everyone so let's bring this on the table and change the laws to suit society this year. Enough is Enough.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Im sure a lot of Aucklanders have emailed and share the same thoughts; these increases are outrages! Especially when NO ONES income is increasing your robbing homeowners blind to cover unnecessary projects! It's disgusting. Stop taking food away from families!!! Stop the rising rates!!!!!! People are having enough and are selling and moving overseas because YOU the council continue to try and make this country unliveable. We don't need to hear your views on ow you think your improving Auckland because it's all **********! STOP THE RISING RATES INCREASES!!! THEY SHOULD BE CAPPED!

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

To the Auckland Council Governing Body,

I am writing to formally oppose the current "mow-on-complaint" policy. This model is based on an outdated suburban ideal and is failing intensified areas like Avondale, Sandringham, and Te Atatū for the following reasons:

•Social and Cultural Blindness: The policy assumes all residents know they are expected to maintain public land. Many people new to New Zealand are unaware of this local expectation, and the Council provides no proactive education or support.

•The Rental/Multi-Unit Gap: In high-density developments and rentals, tenants often lack the equipment or the incentive to maintain the Council's land. Landlords frequently ignore these areas, leading to permanent neglect.

•Development Site Negligence: Construction sites often sit idle for years. When the Council eventually responds to a complaint, they perform a "one-off" cut and then remove the site from their radar. There is no ongoing monitoring of these repeat offenders.

•Unfair Burden on Ratepayers: Residents should not have to act as unpaid council inspectors, repeatedly reporting the same properties.

Request for Action: I request that the Council reinstitute scheduled, proactive monitoring for intensified and high-development suburbs. We need a "High-Density Maintenance Schedule" that ensures these streets are checked and maintained by the Council every three months, rather than relying on a broken complaint-based system.

Auckland’s rapid intensification is creating a significant communication gap. As we move towards high-density living, many new residents are unaware of the specific bylaws and "unwritten rules" that maintain our safety and local environment. Relying on "goodwill" or assuming people will search the Council website for technical bylaws is no longer a viable strategy for a growing city.

My Suggestions:

The Council should develop and distribute a "Practical Welcome Pack" for all new residents and Body Corporates. This guide should use clear, simple language to cover essential local responsibilities, including:

Responsible Dog Ownership: Clarity on leashing rules in shared urban spaces, managing persistent barking in high-density areas, and waste removal.

Environmental Safety: Explicitly stating that backyard burning or lighting fires to dispose of rubbish is strictly prohibited in urban Auckland.

Public Land Maintenance: Clarifying that while the Council owns the road verges (berms), residents are currently expected to mow them. What happens if they don't.

Noise and Nuisance:

Basic expectations for living in close proximity to others to reduce the burden on Council compliance teams.

Proposed Distribution Strategy:

To ensure this reaches the right people without significant new costs, the Council should:

Solicitor Trigger: Send the pack automatically when a Notice of Sale is received following a property purchase.

Body Corporate Mandate: Require Body Corporate managers in high-density zones to provide the pack to all new tenants and owners.

Rates Integration: Include the guide (or a prominent digital link) in quarterly rates notices.

Community Hubs: Provide physical copies to local Libraries and Citizens Advice Bureau branches for new arrivals.

Why this matters:

Proactive education is more cost-effective than reactive enforcement. By providing a "Welcome Pack," the Council can prevent issues like illegal burning, neglected berms, and animal nuisances before they become a burden on the community and the Council budget.

Current Council communication is passive and reactive; it relies on residents already knowing where to look for rules. There is no proactive, effective means of ensuring that new residents—particularly in high-density areas—understand the practical expectations of living in Auckland before issues arise.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Stop Rate rises.

Get rid of all Speed Humps on public roads.

Get rid of any fees and staff related to Global Warming.

Otherwise, thank you Mayor Brown.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Rates in our area are extremely high in return for what Auckland City Council provides. We have own sewage system which costs around $800 dollars to maintain. We collect our own Drinking water from our roof, with only water on our property coming from the shy. We do not have foot paths in our road and only 3 street lights. Last year you introduced refuse collections in the rates, which was double what we paid for the service to local a Contractor. The Contractor is the same one that you now use. Every time Auckland City Council does something, it becomes more expensive for the rate payers as economies of scale get distorted. Big scale never leads to efficiencies. People in our

community consider, we are subsiding other communities in the city whose incomes are probably double what ours are. Rates should be based on a mix of the number of people and the size of the dwelling and not on land size. ie a 5 bedroom house should be rated at the same rate all over the city, irrespective of the number of people living in the home. Therefore if one person chooses to live in a 5 bedroom house, he pays the same as a house with 5 people living in it.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

1. Hobsonville Point had roads built in the new development that removed parking anywhere on the streets.

2. Next, it seems that Auckland Transport are sending out people on a Saturday (ouch for the cost of this to ratepayers of single to double time, and knock on the people's doors and say their cars are parked excessively over the footpath. Auckland Council is encouraging scrutineers of people living their to send our car registrations into the council to prosecute us.

3. However, in relation to point number 2, it seems that the people who arrive (they are Auckland Transport) say they can prosecute us, but they are not policemen. They say they do not have to tell us who phoned them - so suddenly after living here for nearly 9 years and where I had no control over the driveway lengths or sizes, because I was parked over the pathway (everyone was) but mine exceeded 6 inches further length than the other cars who were also over and a person snitched on me, the AT sent a worker who would be paid a lot of taxpayer's money to come to me but then did not have to tell me who complaints.

4. As you can imagine this will have significant concerns as even policeman who stop a driver have to either give their number and name as a person must know who has made this complaint. It seems to me that whilst this is a troubling thing for people and councils we also need to recognise that people do have rights and they must be helped carefully and not just old 'someone (who?) range us at AT and complained about the front of the car being over the footpath. We do not have prior laws within the neighbourhood about this, I was only a few inches further than all other cars.

5. We cannot have people floating about telling us we will get fine unless the council works with Hobsonville Point and extend all the car driveways as Hob Pt needs to be treated differently as it was designed more recently and we must work within that framework.

6. I have not found council workers who are on committees very helpful as they do not do much to help.

7. It is important that AT and Council do not send out workers on a Saturday unless it is about blocking driveways and my car certainly did not do that.

8. We need this to be sensibly managed as people are getting very annoy.

9. The common law must be consulted regarding this unmangeable and untimely 'sending of AT staff to fine people'. Only the legal side of a prohibition can be given.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around

	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#1894

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I support the proposed changes to rates, fees and charges outlined in the Annual Plan. I understand that adjustments such as the refuse bin/bag exchange fee, changes to Business Improvement District programme areas, the Waitākere Rural Sewerage Scheme, and Auckland Transport's proposal regarding residential parking permit fees are part of managing services effectively and ensuring the council can continue to meet the needs of Auckland's growing communities.

While changes to fees and charges can impact residents, I recognise that they are sometimes necessary to maintain services, improve infrastructure, and support the long-term sustainability of council operations.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Māngere-Ōtāhuhu

Māngere-Ōtāhuhu Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

Introducing a Local Services Targeted Rate of $47.11 per year is reasonable if it helps maintain and improve essential local services that directly benefit our community. This small contribution per property can help ensure that Ōtāhuhu continues to have well-maintained facilities, reliable local services, and support for community programs that strengthen and empower residents, Like community centers Otahuhu Town hall and otahuhu Budgeting and Otahuhu youth Center

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering a Local Services Targeted Rate, changes to service levels or fees, or a combination of both approaches. We could introduce a Local Services Targeted Rate of $47.11 (GST inclusive) per Separately Used or Inhabited Part per annum on all rateable properties except those categorised as zero-rated in the Māngere-Ōtāhuhu Local Board area ($0.91 cent per week) to cover the increased cost of delivering existing services. What do you think about this proposal?

Support

3. We could adjust some service levels, fees and charges. What do you think about the proposed changes?

A. Reduce library hours - reduce hours at our four libraries as needed, without going below the regional minimum service level of 44 hours over 6 days at each library.

Do not support

B. Reduce maintenance - Stop scheduled bollard and post-and-rail maintenance, stop scheduled maintenance for bush areas (except High Value/Ecological), change garden edging to chemical application, cease infill planting and mulching in amenity gardens and reclassify re-vegetation areas to bush areas.

Do not support

C. Reduce discretionary funding for Community Wellbeing programmes and services, Environment Management programmes and services and community grants.

Do not support

D. Increase pools and leisure fees - Increase fees and charges by $1 for "Plus" services at Moana-Nui-ā-Kiwa Pool and Leisure Centre.

Do not support

E. Charge adult visitors from outside the local board area at Moana-Nui-a-Kiwa Pool and Leisure Centre and Ōtāhuhu Pool and Leisure Centre (Toia).

Do not support

Tell us why (please be clear which priority you are talking about)

I do not support the proposed changes to service levels, fees, and charges.

Why: Increasing fees or introducing new charges for local services could make it harder for residents, especially those already struggling, to access community spaces and programs. If people have to pay more, fewer will use the halls, parks, and other free community facilities, which could lead to isolation and reduce the social connection that makes Ōtāhuhu strong. Community spaces are essential for bringing people together, supporting families, and empowering residents, so keeping them accessible and free should remain a top priority.

Overall: The Local Board should address cost increases by finding ways to manage budgets efficiently without passing the full burden onto residents. This could include targeted support,

careful prioritisation of services, and exploring alternative funding options that protect free and essential community spaces for everyone to use.

4. Overall, how do you think the local board should address the cost increases?

I don't know

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Yes, I strongly support continuing services at the Ōtāhuhu Town Hall, Ōtāhuhu Budgeting Services, and Ōtāhuhu Youth Centre. These facilities are vital for our community and play a key role in supporting current and future generations.

As a refugee living in Ōtāhuhu, I rely on these free classes and community services. They provide connection, learning, and support for my family and children. If these doors were closed, it would be very difficult for us, and could negatively affect our mental health and wellbeing.

I urge the council and Local Board to continue funding and protecting these community spaces, so that everyone in Ōtāhuhu has access to essential services and opportunities to grow and thrive.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Yes, I strongly support continuing services at the Ōtāhuhu Town Hall, Ōtāhuhu Budgeting Services, and Ōtāhuhu Youth Centre. These facilities are vital for our community and play a key role in supporting current and future generations.

As a refugee living in Ōtāhuhu, I rely on these free classes and community services. They provide connection, learning, and support for my family and children. If these doors were closed, it would be very difficult for us, and could negatively affect our mental health and wellbeing.

I urge the council and Local Board to continue funding and protecting these community spaces, so that everyone in Ōtāhuhu has access to essential services and opportunities to grow and thrive.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in

the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Support what the Local Board is doing to try and save money by reducing non essential services.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I strongly object to the proposed increase in the cost of residential parking permits.

To begin with, I find it difficult to understand why residents are required to pay to park on their own street at all. Increasing the fee further, particularly in the context of the current service provided, seems unreasonable.

The permit system is also poorly managed in practice. There is often a gap between the expiry of an existing permit and the time it takes for a new permit to be issued. During this period, residents are left vulnerable to receiving a fine through no fault of their own. This is an avoidable administrative issue that should be addressed before any consideration is given to increasing costs.

In addition, enforcement of the existing rules appears to be inconsistent. Workers from a nearby nail salon regularly park on my street for the entire day, simply moving their vehicles a few spaces every two hours. This practice clearly undermines the intent of the time restrictions. Several neighbours and I have reported the relevant number plates to Auckland Transport on multiple occasions, yet no action appears to have been taken. This has been occurring for months. It is a real challenge getting a park on the street on which I live and which I have paid for, on occasion I have had to park on another street.

Given these ongoing issues, I struggle to see any justification for increasing the cost of the permit. Residents are being asked to pay more for a system that is poorly administered and inadequately enforced.

For these reasons, I strongly oppose the proposed increase and urge Auckland Transport to focus first on improving the administration and enforcement of the current system before considering any rise in fees.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I support the cutting of non essential services in order to save money. I do not support the increase in price for adult swimming. Swimming & Exercise should remain accessible to all and is hugely important for the community.

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Support

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Support

Tell us why (please be clear which priority you are talking about)

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Re the increase in residential parking permit fees: I believe it is important to remember that you are asking people to pay money to park their car outside their house. Many people don't have the option of parking off street. There is a compelling case to say that each property should be entitled to at least 1 free annual parking permit. So I fundamentally disagree with the proposed change.

Secondly, I'm astounded that it costs $114 to process each permit. With the use of AI technology I don't see why this couldn't be substantially reduced. Please put your focus into REDUCING costs instead of constantly increasing everything.

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#1960

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Please focus on supply better service

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Devonport-Takapuna

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Support

B. Reduced library hours over 7 days.

C. Reduced local board funding to local organisations that deliver local events.

D. Reduced budget available for contestable grants.

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

G. Reduced funding for parks volunteers.

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Support

Tell us why (please be clear which priority you are talking about)

do not waste money on something not important

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I do not support the proposed increase to $114 on the basis presented.

While I understand the principle of cost recovery, the proposal appears to accept the current cost structure as fixed and reasonable, rather than something that should be actively challenged. Stating that it “costs $114 to process each permit” raises a more fundamental concern: why is a simple, repeatable administrative process costing that much in the first place?

Residential parking permits are a highly standardised service. It is difficult to understand why, in 2026, this process has not been materially automated or simplified to reduce staff time and overheads. Passing the full cost on to residents without demonstrating any serious effort to reduce that cost risks normalising inefficiency rather than addressing it.

In particular:

There is no evidence provided that Auckland Transport has explored automation, self-service, or process redesign to lower unit costs.

The cost breakdown (staff time, technology, building overheads) is presented as a given, rather than something within AT’s control.

Residents are effectively being asked to fund internal inefficiencies, rather than pay a fair price for an efficiently delivered service.

If the true cost is genuinely $114, then the more appropriate response would be to first demonstrate:

What steps have been taken to reduce processing costs over time

Why automation or digital-first approaches cannot materially lower the cost

How AT’s cost to serve compares to similar services elsewhere

Until that analysis is made transparent, increasing the fee feels premature and unfair. Cost recovery should not come at the expense of accountability for how those costs are incurred.

I would encourage Council to require Auckland Transport to address efficiency and automation opportunities before approving any increase in fees.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I don't see any prioritising or actions around reducing waste efficiently i.e. education on recycling and implementing smart recycling strategies at the collection end to minimise contamination and enable effective recycling and investing in initiatives to improve recycle options. I don't agree that a growing population is a good thing when our infrastructure and resources are unable to cope, and then heritage buildings and trees are devalued to make way for more housing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I don't think its fair, I pay more to live close to the city, therefore I pay greater rates to the council. When I moved there I could park outside my house for free, like you do in any suburb, now i have to pay to park outside my own house. For two car parks this new price is a considerable uplift. I really do feel like it should be covered by my rates.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

we can't afford

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**

- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

stop hitting us with 9 percent rate rises

we can't afford it

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):stop hitting us with 9 percent rate rises we can't afford

Annual Plan 2026-2027

#1999

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

I don't know

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

increase residential parking permit fees in specific areas.

You ALREADY charge me 70 dollars a year to park in my OWN DRIVEWAY. I DO NOT PARK ON THE STREET. I PARK IN MY DRIVEWAY. If I do not have one of your 70 dollar permits, you fine me 70 DOLLARS MUTLIPLE TIMES A WEEK WITH YOUR AUTOMATIC CAR CAMERAS, which arrive in the mail 2 WEEKS LATE, so I dont even know they are piling up until i have received 2 of them in a day, and the rest all come even after Ive paid, and they DONT GET WAIVED! And now you want $114 to match the "processing cost"?? How did you calculate $114 to read a PDF of proof of address and update an entry in a database? How about you fix that instead? How about you let me park in my own drive way for free? How about you let fines go back to an agents discretion instead of them being picked up by cameras? You knew they turned a blind eye, and you only want that sweet fine money.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I don't think it is fair that we pay to park outside our own home while most other areas do not have this charge. So strongly disagree with any residential parking permit fee.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

I don't know

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Parking permit fees - I am an owner-occupier and have been for over 20 years. If would be very efficient (for me and AT) for me to renew my permit by simply certifying thst my circumstances haven't changed.

Unlike a new application involving multiple tenants etc. my application should be capable of "rubber stamping" within probably a couple of minutes at a fraction of even the current cost being charged.

Therefore I suggest you have two discrete categories - new applications, and renewals of current permit holders.,at differentisl rates.- that would save a huge amount of admin at AT and for long term residents like me, and end up with a more equitable costing regime.

That will save a huge

Question 3: Local board priorities

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

I don't know

Tell us why

In this digital age, the council processing cost for a permit is unbelievable. How does it cost so much for this??

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

In this digital age, the council processing cost for a permit is unbelievable. How does it cost so much for this??

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

In this digital age, the council processing cost for a permit is unbelievable. How does it cost so much for this??

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

In this digital age, the council processing cost for a permit is unbelievable. How does it cost so much for this??

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I do not agree with the Auckland Transport Proposal to increase the residential parking permit fees in specific areas. The cost of living is continually rising, fuel prices have shot up, rent is increasing, and groceries are getting ridiculously expensive. The email I received from Auckland Transport stated "We propose to increase the price from $70 to $114 annually so that it isn't subsidised by others unintentionally." I strongly believe this statement completely ignores and overlooks the economic disparities that exist in our communities. $114 may not sound like a lot to some, but to others that is a week's worth of groceries or a half a tank of petrol to get themselves to work.

Everything is becoming more and more expensive and increasing permit fees and introducing fees to things where none previously existed does nothing to help the economic crisis that everyday people are facing.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

The last council rates increase was already a burden to our family's finances. Remove the compost bin and make it optional - we did not want it. Deduct the cost from the rates. It invites cockroaches and other insects in our house. Even with an increase in minimum wage, another increase in rates will be too much for us ordinary people.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

No more increase. We need money to buy food for our kids, pay the water and electric bills and buy petrol. It is pain to take the bus. From Ellerslie to Sylvia Park, it will take 10-15 mins waiting for the bus then 30 minutes travel time. When it only take 5 minutes when we take the car. Our time is important as well. So we need to buy petrol

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden,Howick,Māngere-Ōtāhuhu,Maungakiekie-TāmakiDo not support mostSupportSupportDo not supportDo not support

Howick Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed local board specific key areas of spend?

A. Explore ways to get the best value from our play spaces so they continue to meet the needs of children and families.

Support

B. Run regular seminars for community groups/organisations on the local grant's application process.

Support

C. Identify what type of indoor/sheltered courts are necessary to support sports play in Flat Bush.

Support

D. Continue advocacy of the Tāmaki estuary on water quality and coastal erosion.

Support

E. Continue to advocate to crime prevention organisations on behalf of the community for ongoing safety initiatives.

Support

F. Continue to support our volunteer groups with resources needed for ecological volunteering, such as stream clean-ups and pest plant weeding.

Support

Tell us why (please be clear which priority you are talking about)

Māngere-Ōtāhuhu Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering a Local Services Targeted Rate, changes to service levels or fees, or a combination of both approaches. We could introduce a Local Services Targeted Rate of $47.11 (GST inclusive) per Separately Used or Inhabited Part per annum on all rateable properties except those categorised as zero-rated in the Māngere-Ōtāhuhu Local Board area ($0.91 cent per week) to cover the increased cost of delivering existing services. What do you think about this proposal?

Do not support

3. We could adjust some service levels, fees and charges. What do you think about the proposed changes?

A. Reduce library hours - reduce hours at our four libraries as needed, without going below the regional minimum service level of 44 hours over 6 days at each library.

Do not support

B. Reduce maintenance - Stop scheduled bollard and post-and-rail maintenance, stop scheduled maintenance for bush areas (except High Value/Ecological), change garden edging to chemical application, cease infill planting and mulching in amenity gardens and reclassify re-vegetation areas to bush areas.

Support

C. Reduce discretionary funding for Community Wellbeing programmes and services, Environment Management programmes and services and community grants.

Do not support

D. Increase pools and leisure fees - Increase fees and charges by $1 for "Plus" services at Moana-Nui-ā-Kiwa Pool and Leisure Centre.

Support

E. Charge adult visitors from outside the local board area at Moana-Nui-a-Kiwa Pool and Leisure Centre and Ōtāhuhu Pool and Leisure Centre (Toia).

Support

Tell us why (please be clear which priority you are talking about)

4. Overall, how do you think the local board should address the cost increases?

Reduce current service levels and/or increase fees and charges for those services

Maungakiekie-Tāmaki Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed key areas of additional investment?

A. Environmental initiatives – working alongside mana whenua on restoration projects, expanding food resilience and edible planting programmes, and reinstating deferred environmental education activities.

Support

B. Sport and recreation – providing one-off operational support to local sports clubs and facilities to strengthen participation and collaboration.

Do not support

C. Libraries and culture – enhancing programming for seniors and increasing investment in creative and cultural activities.

Do not support

D. Community safety and emergency readiness – exploring additional compliance officer resourcing in areas with limited coverage.

Support

E. Local economy - supporting business associations to continue supporting local businesses and ongoing growth, development and liven-up our town centres.

Support

Tell us why (please be clear which priority you are talking about)

3. What do you think of Onehunga Business Association Inc's proposal to reduce the geographic boundary of the Onehunga Business Improvement District (BID) programme, and amount of targeted rate to be collected?

Support

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Keep or decrease the current rates. I understand that we need money to finance the projects, but when families are hungry and cornered, they might commit crimes. Create jobs for our local communities, run seminars on how to start a business with low start up. If possible, help them connect to agencies that might help with their start-up. The council might need to tighten the budget for now, but once the program materialised and the families in the communities have decent-paying jobs or are running their family businesses, it will be easier to ask the public for financial support.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The parking fee needs to be lower, or removed. It should not cost that match to check a little paperwork, especially with all the fine got from having the zones

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

C. Reduce community grant funding and accommodation grant funding.

Support

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around

5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.

Annual Plan 2026-2027

#2200

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

This is bare-faced treachery! Why should North Shore ratepayers be expected to fund the CRL when we have never had (and may never share) any of the benefits that rail can bring to Auckland city.

The proposal is totally unthinkable and absolutely iniquitous!!!

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

The inner city rail link needs to be user pays. You can not have all of Auckland pay for the maintenance of this inner city rail link when only 20% are going to ever use it. Make the people who are going to use the rail link the ones who pay for the maintenance, if there aren't going to be enough users paying to use the rail link then it's a bad investment and needs to be closed down. Brute-forcing infrastructure is no way to run a city

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I still see discretionary spending dominating the budget, with little or no fiscally responsible management of Council spending being apparent in the plan. I liken this to Council spending being like a slow-moving train without brakes rolling downhill.

Ratepayers are not an endless source of funds.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I do not support the proposed annual plan at all — in fact, I am completely opposed to it.

The plan relies on rates increases that directly contradict central government's clear policy to cap rises, and Mayor Brown's "fairer funding approach" still does not go far enough to protect ordinary ratepayers. It is unacceptable that some local boards continue to siphon funding from others, then

complain they cannot maintain the assets they took. This must stop, and those boards should be required to repay what they took.

Auckland Council has ignored the hard-won lessons from transparency champions like the late Penny Bright. There is still no proper public visibility of exactly where our rates are going.

Worst of all, the plan uses general rates to fund the City Rail Link (CRL). My area has already seen public transport services worsen because of the project, yet the Council claims we will “benefit”. The only people who actually benefit are property speculators in the west and central city. The original business case wildly overstated passenger numbers, which have now been heavily downgraded — and no one has been held accountable. I should not be forced to pay for something that gives me no benefit and actually leaves me worse off.

On top of that, the proposed $50 public transport fare cap is simply a tax on responsible ratepayers who have carefully chosen where they live and work to reduce their need for public transport in the first place. I do not understand why thousands of school children are being transported across the entire city to attend schools when they could receive an equally good education in their own neighbourhoods. Surely it would be far easier, cheaper, and place far less demand on the transport network if children went to local schools instead of crossing Auckland every day.

Finally, replacing professional directors on the Auckland Transport board with politicians who flip-flop according to the latest social-media trend is just rearranging deck chairs on the Titanic. It guarantees worse, not better, decisions.

This plan fails ratepayers on every level. I urge the Council to reject all rates increases, fund the CRL only through targeted rates (not general rates), restore real transparency, stop — and reverse — all cross-subsidising between local boards, and scrap the $50 fare cap.

I will not support this plan in its current form.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**

- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Maungakiekie-Tāmaki

Maungakiekie-Tāmaki Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Rates are too high - if existing contracts are getting more expensive, cut the levels of service, instead of increasing rates.

2. What do you think about the proposed key areas of additional investment?

A. Environmental initiatives – working alongside mana whenua on restoration projects, expanding food resilience and edible planting programmes, and reinstating deferred environmental education activities.

Do not support

B. Sport and recreation – providing one-off operational support to local sports clubs and facilities to strengthen participation and collaboration.

Do not support

C. Libraries and culture – enhancing programming for seniors and increasing investment in creative and cultural activities.

Do not support

D. Community safety and emergency readiness – exploring additional compliance officer resourcing in areas with limited coverage.

Do not support

E. Local economy - supporting business associations to continue supporting local businesses and ongoing growth, development and liven-up our town centres.

Do not support

Tell us why (please be clear which priority you are talking about)

Why should I be paying for any of this when there is no benefit to me? We need to go to the model of “user-pays”.

3. What do you think of Onehunga Business Association Inc’s proposal to reduce the geographic boundary of the Onehunga Business Improvement District (BID) programme, and amount of targeted rate to be collected?

Other

Tell us why

As long I’m not paying for this - I don’t care.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland’s longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland’s future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland’s spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Cutting rates

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Don't support, making poor poorer. Stop wasting money on bike lanes or moving bus stops. Focus on maintaining what is there and get developers to install infrastructure. All developments need parking, disabled, parents need easy accessible parking to homes. Stop the stupidity of AT and balance the books without exorbitant rate rises.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Manurewa

Manurewa Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

Focus on the basics, if you live in Manurewa you need a car and somewhere to park. Why do we have mass development on main roads with no or very limited parking and stupid bus lanes so no road parking. Zero consideration of disabled or parents of young. Focus of our neighbourhoods being liable or they will become ghettos

2. What do you think about the proposed key areas of additional investment?

A. Allocate up to $1.5 million of funding to support delivery of the Manurewa War Memorial Park multi-sports pavilion.

Other

B. Deliver a new multi-cultural initiative that responds to demands for increased ethnic engagement.

Do not support

C. Develop a civics education initiative that helps people understand the role of local boards and how they can get involved.

I don’t know

Tell us why (please be clear which priority you are talking about)

Do any of these ideas fix the basics, make our neighbourhoods easy to live in - parking, rubbish collection, poor area so inorganic collection is a must. Roads for our neighbourhoods not for some loony green AT person who is so out of touch with the issues most of us face.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Make the neighbourhood easy to live, encourage thriving local communities then business will come. Tourism is not the answer to Auckland rate payers issues- it puts money into pockets that have no commitment to our city.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):Auckland cvd represents the flaws of AT. Focus on making it easy to live in your local community (central city) the rest will come. Build proper housing for the less fortunate. Otherwise they end up homeless and causing issues. Look at your plan, is this city for all ir only the rich or nutty greenie. Poor, disabled, younger and old make the community strong.

Annual Plan 2026-2027

#2315

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

I don't know

Tell us why

Proposed increase abit high

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Māngere-Ōtāhuhu

Māngere-Ōtāhuhu Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering a Local Services Targeted Rate, changes to service levels or fees, or a combination of both approaches. We could introduce a Local Services Targeted Rate of $47.11 (GST inclusive) per Separately Used or Inhabited Part per annum on all rateable properties except those categorised as zero-rated in the Māngere-Ōtāhuhu Local Board area ($0.91 cent per week) to cover the increased cost of delivering existing services. What do you think about this proposal?

Support

3. We could adjust some service levels, fees and charges. What do you think about the proposed changes?

A. Reduce library hours - reduce hours at our four libraries as needed, without going below the regional minimum service level of 44 hours over 6 days at each library.

Support

B. Reduce maintenance - Stop scheduled bollard and post-and-rail maintenance, stop scheduled maintenance for bush areas (except High Value/Ecological), change garden edging to chemical application, cease infill planting and mulching in amenity gardens and reclassify re-vegetation areas to bush areas.

Support

C. Reduce discretionary funding for Community Wellbeing programmes and services, Environment Management programmes and services and community grants.

Support

D. Increase pools and leisure fees - Increase fees and charges by $1 for "Plus" services at Moana-Nui-ā-Kiwa Pool and Leisure Centre.

I don't know

E. Charge adult visitors from outside the local board area at Moana-Nui-a-Kiwa Pool and Leisure Centre and Ōtāhuhu Pool and Leisure Centre (Toia).

Support

Tell us why (please be clear which priority you are talking about)

4. Overall, how do you think the local board should address the cost increases?

A combination of a Local Service Targeted Rate and reductions to current service levels and/or increases to fees and charges

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

In a huge cost of living crisis I do not think there should be any rate increases.

Councils need to stop stoking inflation and start tp do more with less, primarily by focusing on core business and eliminating nice to haves like festivals and parades and big christmas trees etc. They need to aperate independently and fund raise themselves.

Surprisingly I am horrified by the effect on businesses. Presumably as so many have gone under the 31% policy means an increased bill divided by less businesses. Whereas it is opposite for dwellings, there are more all the time.

Our business rental tenant was not even hoping to make a profit for the first 6 years. They will be facing an 11% increase. See below:

Total current rates (2025/2026)$10,675

Changes to general rates and regionally applied targeted rates$861

Other changes$313

Total new rates 2026/2027$11,849

Total estimated rates change from current rates$1,173

And with the fuel price all their other input costs will go up while stretched households will purchase less making their income go down. Then surprise, more businesses will fold, vacant properties will increase and communities will have less amenities and more unemployed citizens who cant afford to spend at a business and cost the country more in welfare payments.

My recommendation is no rates increase for businesses at this time and making up the shortfall from the nice to have festivals etc which businesses which are doing ok may then choose to sponsor for advertising purposes... like Coca Cola Chrisrtmas in the park which should be solely funded by Coca Cola and/ or volunteers.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**

- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

They are all important but

In a huge cost of living crisis I do not think there should be any rate increases.

Councils need to stop stoking inflation and start tp do more with less, primarily by focusing on core business and eliminating nice to haves like festivals and parades and big christmas trees etc. They need to aperate independently and fund raise themselves.

Surprisingly I am horrified by the effect on businesses. Presumably as so many have gone under the 31% policy means an increased bill divided by less businesses. Whereas it is opposite for dwellings, there are more all the time.

Our business rental tenant was not even hoping to make a profit for the first 6 years. They will be facing an 11% increase. See below:

Total current rates (2025/2026)$10,675

Changes to general rates and regionally applied targeted rates$861

Other changes$313

Total new rates 2026/2027$11,849

Total estimated rates change from current rates$1,173

And with the fuel price all their other input costs will go up while stretched households will purchase less making their income go down. Then surprise, more businesses will fold, vacant properties will increase and communities will have less amenities and more unemployed citizens who cant afford to spend at a business and cost the country more in welfare payments.

My recommendation is no rates increase for businesses at this time and making up the shortfall from the nice to have festivals etc which businesses which are doing ok may then choose to sponsor for advertising purposes... like Coca Cola Chrisrtmas in the park which should be solely funded by Coca Cola and/ or volunteers.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):cheaper connections. All these amenities are only really mainly enjoyed and affodable for those who live there already

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

This submission is provided from a commercial perspective within the traffic management and road marking sector, covering both operational delivery and product supply.

A key issue observed is a disconnect between design, specification, and practical delivery, which is contributing to increased costs and reduced efficiency across the network.

The primary cost drivers are labour, compliance requirements, and time on site, rather than highly visible elements such as traffic management devices.

There is an opportunity to improve value for money through more proportionate, outcome-focused standards and better alignment between planning and delivery.

A full submission outlining these points in detail is attached.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Please refer to the attached submission, which outlines industry-specific considerations relating to delivery efficiency, cost drivers, and opportunities to improve system performance.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and BaysI don't knowI don't knowI don't knowI don't knowI don't knowI don't know

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

From a delivery and industry perspective, the most important priority should be improving the efficiency and alignment of core infrastructure delivery—particularly transport network maintenance, road marking, and traffic management activities.

A key issue is the disconnect between design, specification, and practical implementation. Addressing this would have a direct impact on cost, efficiency, and the level of disruption experienced by road users.

Priority should be given to:

Maintenance and renewal of the existing road network

Delivery of road marking and traffic management in a way that is proportionate to risk and site conditions

Improving planning and coordination of works to reduce unnecessary complexity and duplication

The primary cost drivers in this space are labour, compliance requirements, and time on site. Ensuring that standards and specifications are aligned with real-world conditions would significantly improve efficiency and value for money.

There is also an opportunity to better incorporate contractor and supplier input into planning and design stages. This would help ensure that projects are practical to deliver and avoid unnecessary cost escalation.

Overall, the focus should be on achieving better outcomes from existing investment by improving how works are specified, coordinated, and delivered, rather than increasing complexity within the system.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.,Other (please specify):From a delivery and operational perspective, improvements in the city centre should prioritise functionality, access, and efficiency. Given the scale of recent investment—particularly in transport infrastructure such as the City Rail Link—the focus should now be on maximising the value of that investment. This means ensuring that people, goods, and services can move through the city centre efficiently and reliably. Priority should be given to improving transport

access, reducing unnecessary constraints on movement, and ensuring that the network functions effectively for all users, including service vehicles and contractors. Safety is also critical, particularly in terms of how the city centre operates day to day. Practical, well-functioning environments encourage greater use and support economic activity. From a delivery perspective, it is important that design and layout decisions do not introduce unnecessary complexity or constraints that increase the cost and difficulty of maintaining and operating the network. While amenity and public space improvements have a role, these should be secondary to ensuring that the city centre operates efficiently as a place to work, do business, and access services. Overall, the priority should be on achieving measurable improvements in how the city centre functions, rather than focusing primarily on aesthetic or design-led outcomes.

Submission – Industry Perspective (Traffic Management & Road Marking Sector)

[redacted] on behalf of Harding Traffic Ltd / Proline Plastics Ltd / Roadsigns & Traffic Control Equipment Ltd / Ross Roadmarkers Ltd

This submission is provided from a commercial perspective within the traffic management and road marking sector, covering both operational delivery and the manufacture and supply of traffic management products.

This dual position provides direct visibility of how current standards, specifications, and planning decisions translate into real-world delivery, cost, and efficiency across the network.

1. Delivery Efficiency and Cost Drivers

A consistent issue observed is a disconnect between design intent, specification requirements, and practical delivery.

In many cases, traffic management and road marking requirements increase the complexity of delivery without a clearly proportional improvement in outcomes.

This results in:

- Increased labour and delivery time
- More complex setup and pack-down requirements
- Greater disruption to road users

These factors are the primary drivers of cost and ultimately flow through into higher contract pricing and ongoing maintenance expenditure.

2. Misalignment Between Perception and Actual Costs

Public and stakeholder focus is often directed toward highly visible elements of traffic management, particularly road cones.

However, while these elements are the most visible, they represent a relatively minor component of total cost.

The dominant cost drivers are:

- Labour and crew requirements
- Traffic management planning and compliance
- Time on site and operational constraints

Focusing on visible components risks misidentifying the real sources of inefficiency and cost within the system.

3. Specification and Proportionality

There is evidence that, in some cases, requirements are more prescriptive than necessary relative to the level of risk involved.

This can lead to:

- Over-allocation of resources
- Reduced flexibility in delivery
- Increased time and cost without equivalent benefit

While safety must remain paramount, there is an opportunity to ensure that specifications are proportionate, outcome-focused, and adaptable to actual site conditions.

4. Commercial Perspective and System Impact

This submission reflects a position across both service delivery and product supply within the sector.

As a result, certain aspects of the current system—particularly increased complexity and higher levels of specification—can be commercially beneficial from a supply perspective.

However, these same factors contribute to inefficiencies, increased delivery costs, and reduced value for money at a system level.

Improving alignment between design, specification, and practical delivery may reduce demand in some areas of supply, but would result in a more efficient and sustainable delivery model overall.

This submission is therefore made on the basis of improving system performance, rather than maintaining current levels of activity or demand.

5. Opportunities for Improvement

There is a clear opportunity to improve efficiency and outcomes through:

- Reviewing traffic management and road marking standards to ensure they are proportionate and outcome-focused
- Incorporating contractor and supplier input earlier in the design and planning stages
- Allowing flexibility where equivalent safety outcomes can be demonstrated
- Focusing on total system cost and delivery efficiency, rather than individual visible components

---

Closing

The objective is not to reduce standards, but to ensure they are applied in a way that is practical, efficient, and delivers measurable value.

A stronger focus on proportionality, alignment, and real-world delivery outcomes would improve both cost efficiency and overall network performance.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

rate increases are too stark

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

the residential parking permit increase is too high, i have a permit and still can't even park directly outside my house because we'll get fined as the residential parking area is down the road. this is oakland's road which does not have adequate signage. the fines are so high and constantly administered.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-EdenDo not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Devonport-Takapuna

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Support

B. Reduced library hours over 7 days.

Do not support

C. Reduced local board funding to local organisations that deliver local events.

Do not support

D. Reduced budget available for contestable grants.

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

Do not support

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

Support

G. Reduced funding for parks volunteers.

Do not support

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Do not support

Tell us why (please be clear which priority you are talking about)

Re: reducing funding on environment and community related resources. I've decided to give my feedback on the local board due to the fact that I greatly enjoy the very nice neighbourhood of Takapuna extending to Devonport and the intersection of nature and urban life in all of these suburbs. I frequently take the Takapuna - Devonport cycleway as well as cycle around Milford and along Lake Rd so I deeply appreciate the work that's been done to support those cycleways. However, certain cycleways and paths within our network have deteriorated and are unsafe at the moment. For example, the Milford - Takapuna coastal walk is very unsafe but offers very beautiful views of which I think many will enjoy walking through a secure path. I am a young person but I frequently see elderly people passing through this walkway so I think it's a treasured area of our locality but it needs to be spruced up and I urge Auckland Council and our local board to prioritise this if possible.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Māngere-Ōtāhuhu

Māngere-Ōtāhuhu Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering a Local Services Targeted Rate, changes to service levels or fees, or a combination of both approaches. We could introduce a Local Services Targeted Rate of $47.11 (GST inclusive) per Separately Used or Inhabited Part per annum on all rateable properties except those categorised as zero-rated in the Māngere-Ōtāhuhu Local Board area ($0.91 cent per week) to cover the increased cost of delivering existing services. What do you think about this proposal?

Do not support

3. We could adjust some service levels, fees and charges. What do you think about the proposed changes?

A. Reduce library hours - reduce hours at our four libraries as needed, without going below the regional minimum service level of 44 hours over 6 days at each library.

Support

B. Reduce maintenance - Stop scheduled bollard and post-and-rail maintenance, stop scheduled maintenance for bush areas (except High Value/Ecological), change garden edging to chemical application, cease infill planting and mulching in amenity gardens and reclassify re-vegetation areas to bush areas.

Support

C. Reduce discretionary funding for Community Wellbeing programmes and services, Environment Management programmes and services and community grants.

Do not support

D. Increase pools and leisure fees - Increase fees and charges by $1 for "Plus" services at Moana-Nui-ā-Kiwa Pool and Leisure Centre.

Support

E. Charge adult visitors from outside the local board area at Moana-Nui-a-Kiwa Pool and Leisure Centre and Ōtāhuhu Pool and Leisure Centre (Toia).

Support

Tell us why (please be clear which priority you are talking about)

Community wellbeing programmes improves participation, productivity and health outcomes for our people so it doesn't make sense to reduce this.

4. Overall, how do you think the local board should address the cost increases?

Introduce a Local Service Targeted Rate

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Thank you for the survey but please show that it's being used

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Wellsford's War Memorial Archway has lost much of its original presence and dignity, and needs restoring. Restoring the archway would help preserve this significant heritage structure and ensure that the service and sacrifice of those it commemorates are properly recognised.

I would like to see Auckland Council support and prioritise the restoration of the Albertland War Memorial Archway so it can remain a proud symbol of remembrance and local heritage.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

The War Memorial Archway is an important part of Wellsford's local history and serves as a memorial to those from the Albertland district who served in war. The archway has lost much of its original presence and dignity, and needs restoring

I encourage Auckland Council to support and prioritise the restoration of the Albertland War Memorial Archway so it can once again stand proudly as a symbol of remembrance and local heritage.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#2382

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The burden is already heavy due to rising living costs and prices.

The benefits of development lie in the future, yet the tax burden is being incurred now.

It feels like development profits are going only to certain regions and social classes.

Living stability (prices, housing, livelihood) must be prioritized so that dissatisfaction among taxpayers will decrease.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Livelihood stability (prices, housing, and livelihood) must be prioritized so that dissatisfaction among tax-paying citizens will decrease.

It feels like they are unilaterally pushing through a predetermined direction and notifying the public just to achieve results within their term.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Ōrākei

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

While tax and development issues are significant, the most urgent matter right now is responding to the collapse of the medical system.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Q1: What do you think of the proposed annual plan?

I don't know

Tell us why

JUST INFORM SBOUT RECYCLED ITEMS ARE MIX WITH PLASTICS

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Māngere-Ōtāhuhu

Māngere-Ōtāhuhu Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering a Local Services Targeted Rate, changes to service levels or fees, or a combination of both approaches. We could introduce a Local Services Targeted Rate of $47.11 (GST inclusive) per Separately Used or Inhabited Part per annum on all rateable properties except those categorised as zero-rated in the Māngere-Ōtāhuhu Local Board area ($0.91 cent per week) to cover the increased cost of delivering existing services. What do you think about this proposal?

I don't know

3. We could adjust some service levels, fees and charges. What do you think about the proposed changes?

A. Reduce library hours - reduce hours at our four libraries as needed, without going below the regional minimum service level of 44 hours over 6 days at each library.

I don’t know

B. Reduce maintenance - Stop scheduled bollard and post-and-rail maintenance, stop scheduled maintenance for bush areas (except High Value/Ecological), change garden edging to chemical application, cease infill planting and mulching in amenity gardens and reclassify re-vegetation areas to bush areas.

I don't know

C. Reduce discretionary funding for Community Wellbeing programmes and services, Environment Management programmes and services and community grants.

I don't know

D. Increase pools and leisure fees - Increase fees and charges by $1 for "Plus" services at Moana-Nui-ā-Kiwa Pool and Leisure Centre.

I don't know

E. Charge adult visitors from outside the local board area at Moana-Nui-a-Kiwa Pool and Leisure Centre and Ōtāhuhu Pool and Leisure Centre (Toia).

I don't know

Tell us why (please be clear which priority you are talking about)

4. Overall, how do you think the local board should address the cost increases?

I don't know

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

BIN ARE NOT USED PROPLEY

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Not happy with changes made along Great North Rd, Grey Lynn, unable to park on sides of the road. Waste of tax payer money. Could have made public transport cheaper instead

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Please make public transport cheaper. A much better alternative that encourages people to use their own vehicles/pay extra fees for parking.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Cheaper public transport options.

Good job on getting more houses built but seems like infrastructure is an afterthought e.g. sewage issues, internet cuts, power cuts etc.

Consider number of people arriving from overseas. Health and safety, jobs of Kiwis is more important than money coming in from foreign deals etc that increase number of people arriving in NZ definitely help where we can, but priority should always be kiwi citizens/residents.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

The poorer areas, or else they will get poorer and less attractive to live in...crime may increase in these areas...affects all of Auckland.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The majority of CRL's expenses should be covered by ticket prices and property taxes along the route, with the remainder subsidized by Auckland residents and the government.

None of the government projects were completed on schedule, yet no one took responsibility. Therefore, I will not support any government projects that exceed budget.

I strongly urge the government to open up the bidding process to more construction companies and eliminate those that lack the necessary capabilities.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The government has conducted numerous investigations and consultations, but these problems have not been resolved. A global bidding process is proposed to bring in capable companies, advanced technologies, and better financial solutions.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Don't think it is in the best interests of the average Aucklander. Combined the proposed rates increases with the current high cost of living and fuel prices, and live will become a marter of survival, not enjiyment.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Everything is too much!!! People on Super will hsve serious problems.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Howick

Howick Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Too much to ask in this period of near-recession.

2. What do you think about the proposed local board specific key areas of spend?

A. Explore ways to get the best value from our play spaces so they continue to meet the needs of children and families.

Do not support

B. Run regular seminars for community groups/organisations on the local grant's application process.

Do not support

C. Identify what type of indoor/sheltered courts are necessary to support sports play in Flat Bush.

Do not support

D. Continue advocacy of the Tāmaki estuary on water quality and coastal erosion.

Support

E. Continue to advocate to crime prevention organisations on behalf of the community for ongoing safety initiatives.

Support

F. Continue to support our volunteer groups with resources needed for ecological volunteering, such as stream clean-ups and pest plant weeding.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

I don’t know

B. Reduce maintenance for bollard and post-and-rail.

I don’t know

C. Reduce community grant funding and accommodation grant funding.

I don’t know

D. Increase fees for adult swim fees at council pools by up to $3.

Do not support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

I don’t know

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Fund the whau bike way

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#2457

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I support the general direction of adhering to the long-term plan, but I do not support the use of special local tax on local services in the Mangray-Otahuhu region to make up for the operating capital gap. At the same time, I asked the city council to prioritise committees facing the most serious service cuts when allocating the new NZ$15 million local committee funds to ensure that the "fairer funding" model does not lead to a decline in environmental maintenance or reduced library access.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Why does land tax increase every year? The economy is bad, tax revenue is low. Instead of thinking about how to improve the economy, all they do is raise land taxes.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Housing prices haven't risen, wages haven't risen, but land taxes have increased so drastically! This is terrible! This is exploiting ordinary people's hard-earned money! If this continues, more people will choose to leave to avoid being exploited!

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Maungakiekie-Tāmaki

Maungakiekie-Tāmaki Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment?

A. Environmental initiatives – working alongside mana whenua on restoration projects, expanding food resilience and edible planting programmes, and reinstating deferred environmental education activities.

Support

B. Sport and recreation – providing one-off operational support to local sports clubs and facilities to strengthen participation and collaboration.

Support

C. Libraries and culture – enhancing programming for seniors and increasing investment in creative and cultural activities.

Support

D. Community safety and emergency readiness – exploring additional compliance officer resourcing in areas with limited coverage.

Support

E. Local economy - supporting business associations to continue supporting local businesses and ongoing growth, development and liven-up our town centres.

Support

Tell us why (please be clear which priority you are talking about)

3. What do you think of Onehunga Business Association Inc's proposal to reduce the geographic boundary of the Onehunga Business Improvement District (BID) programme, and amount of targeted rate to be collected?

Support

Tell us why

because we love supporting local areas

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Rates are too high already

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Bin tags were a nightmare in west auckland. Getting stolen ans smelly bins left on the footpath

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Whau

Whau Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed key areas of additional investment?

A. Design and build a new destination playground at Avondale Central Reserve.

B. Promote community identity and diversity by funding a coordinator for Welcoming Communities, supporting the PAN African Hub, and refreshing the Whau Ethnic Peoples Plan.

Support

C. Engage and respond to youth needs, and co-design initiatives to address opportunities and gaps.

Support

D. Improve water quality and flood resilience of Whau streams and rivers through collaboration with volunteers, local schools, community hubs, organisations, and neighbouring local boards.

Support

E. Prioritise projects identified through the Whau Sport and Recreation Facilities Plan and leverage partnerships to provide a local facility network for the community.

Support

F. Develop a Local Parks Management Plan to guide decisions on managing use, development, and protection of all 146 parks, reserves and open space within the Whau.

Support

Tell us why (please be clear which priority you are talking about)

Water quality especially needs improvement

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I haven't seen any particular positives in any of the changes in recent years - most of it had more negative impact with finances.

I don't use the city link and think it is not useful for people living out of the city - the minimal use I get out of it doesn't justify me paying for it by increased rates. Especially I live outside of the city to avoid it.

Punishment for homeowners who worked hard, saved and now being punished with unjustified increases again.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Again charging for something in areas that have no connection to us.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodneyl don't know

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Maungakiekie-Tāmaki

Maungakiekie-Tāmaki Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed key areas of additional investment?

A. Environmental initiatives – working alongside mana whenua on restoration projects, expanding food resilience and edible planting programmes, and reinstating deferred environmental education activities.

Support

B. Sport and recreation – providing one-off operational support to local sports clubs and facilities to strengthen participation and collaboration.

Support

C. Libraries and culture – enhancing programming for seniors and increasing investment in creative and cultural activities.

Support

D. Community safety and emergency readiness – exploring additional compliance officer resourcing in areas with limited coverage.

Support

E. Local economy - supporting business associations to continue supporting local businesses and ongoing growth, development and liven-up our town centres.

I don’t know

Tell us why (please be clear which priority you are talking about)

3. What do you think of Onehunga Business Association Inc’s proposal to reduce the geographic boundary of the Onehunga Business Improvement District (BID) programme, and amount of targeted rate to be collected?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland’s longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland’s future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland’s spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#2690

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

We think Option A worked fine before and should save some of Councils time and Hopefully some costs for Ratepayers

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I am writing to provide feedback on the proposed increase in the residential parking permit fee from $70 to $114 per year.

I do not support this increase. While I understand there may be administrative costs associated with processing permits, a rise of over 60% is a significant jump and places additional financial pressure on residents who already face increasing living costs. Residential parking permits are an important service for people living in areas with limited parking availability, and such a steep increase feels disproportionate.

For many residents, these permits are not a convenience but a necessity due to limited off-street parking options. Increasing the fee to this extent may unfairly impact those who rely on street parking in their own neighbourhoods.

I encourage the council to reconsider the scale of this increase and explore alternative options, such as a smaller staged adjustment or efficiency improvements that could reduce administrative costs without placing the burden entirely on residents.

Thank you for the opportunity to provide feedback, and I hope the council carefully considers the concerns of residents before making a final decision.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

It is far too expensive for pensioners as it is.

I believe ratepayers should get 1 free park outside their house.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Just checking what would cost $114.00 to process a parking permit? If it is really “staff time”, “technology” and “building overheads” – then that shows exactly where to trim.

Sounds like the process needs to be streamlined, using AI agents to have everything pre-checked – this should be a very economical process: AI agents can read, parse, and verify PDF documents, and so many online databases to confirm most of the records, and collate data ahead of time – unless your staff are charged at over $300/hour, which would seem very high?

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland’s longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland’s future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland’s spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I pay for a parking permit each year as I have no parking on my property, only off street parking. I am a home owner so pay rates, which increase yearly heavily - I have to pay for a parking permit as my street is close to the city so people like to park in it, then bus into town ... by having a parking permit, it gives me some assurance of always being able to get a park in my street, which doesn't always happen being a busy popular street to park in.

Having an increase to the parking permit, would be another expense on already paying for expenses in the street, like council rates

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

My initial thought is how have you concluded it cost $114 to process a permit application.

Given it's an online process means a form is completed. Given AI capability I would expect that's something a computer can do.

Companies are accepting hand written orders (dimensions for glass) that they scan and the printer then enters the order into the companies system. 98% success rate.

Council needs to look at enhancing its service like this to reduce council spending on unnecessary admin. And use money else where or let the tax payer save.

Question 3: Local board priorities

- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I just received this email stating the cost for residential parking permitting is going to be raised to $114 from $70. This is absolutely shameful.

This appears to be yet another blatant example of the Auckland Council being incredibly poorly run and managed. We are at a time when technology is at an incredible level. This application process should be handled by an AI agent to reduce administrative head count in the offices (along with many other roles). This will result in lower wage bills to the council, less desk space /footprint.

In the worst case, IF a human is required, I would anticipate this job to review the application would take no more than 5 minutes. If the applicant reviewing agent earns $32-34 per hour this comes to $2.80 nzd. Also the default should be that the user should be deemed to be submitting a truthful application and the human element only needing to double check the AI agent's work and look into applications that appear suspicious for further review (Also It would be far easier for an AI agent to detect fraudulent applications).

No way this should cost this much. How about raising fines for those breaking the rules and lowering costs of those that pay rates and clearly fund this whole program?

We need to do this better.

Question 3: Local board priorities

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I do not agree with the proposed increase to residential parking permits from $70 to $114 per year.

New Zealand is currently experiencing a cost-of-living crisis, and many households are already struggling to afford everyday expenses such as rent, food, fuel, and utilities. Increasing the cost of residential parking at this time places additional financial pressure on residents who are simply trying to park near their own homes.

While I understand the need to cover processing costs, this increase feels unreasonable given the current economic situation. Many people do not have the option of off-street parking, and residential permits are not a luxury — they are a necessity.

I strongly ask the council to reconsider this proposal or look at alternative ways to reduce costs without passing the full burden onto residents.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I write with regard to the proposal to increase the cost of resident parking permits from $70 to $114.

The fact that it costs $114 to process each permit is a concern in itself, however, on the basis that performing this task more cost effectively is not possible, I can only comment on the actual cost itself.

Personally, I find the resident parking permit extremely helpful and I certainly understand that other ratepayers should not be subsidising my permit, so on that basis I support the increase in the annual fee.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#2734

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I am writing to strongly object to the proposed increase in residential parking permit fees from $70 to $114 per year.

The current cost is already unreasonable. Residents should not have to pay to park on the street they live on and already contribute to through rates and taxes. Increasing this cost even further feels excessive and unjustified.

In our household alone, we have five drivers and five vehicles. At the current rate, we are already paying $570 per year just to park on our own street. Under the proposed increase, this will rise significantly, placing an even greater financial strain on us. This is not a small or insignificant cost—it is a substantial and ongoing expense for something that should be a basic right for residents.

We live off Ponsonby Road, where parking is already extremely limited. Ongoing roadworks and nearby construction regularly result in workers occupying most of the available spaces. Despite paying for permits, we are often forced to park on surrounding streets and walk home.

To make matters worse, the permit system does not effectively protect resident parking. Non-residents continue to park in the area and simply move their vehicles within the time limits or leave before enforcement applies. This completely undermines the purpose of the permits, leaving residents paying for a system that does not work.

If Auckland Transport is unable to ensure that permit holders can reliably access parking near their homes, then increasing the cost is not justifiable. It is unreasonable to expect residents to pay more for a service that is already failing to deliver its intended benefit.

I strongly urge you to reconsider this proposal. At a minimum, any increase should only be considered once the system is improved to genuinely prioritise and protect parking for residents.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I think that the link you have supplied is incorrect. That link takes me to a points based feedback on the annual plan. Nothing about the parking permit referred to in this email.

I think the proposal is scandalous. If a digital process is costing you $114 per permit there are clearly huge inefficiencies in your systems. You should be treating the root cause of these inefficiencies and improving your process. Rather than charge me more to cover your lack of efficiency in your processes.

I think someone has got their reporting or their cost allocation process wrong somewhere.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Providing feedback should be straightforward and the council process is not acceptable for this particular question as householders can only make one submission, and there is a lot of detail buried in the plan, including this issue, which is no doubt the plan.

I do not support the proposed price increase for residential permits.

Householders in residential suburbs such as this should not have to pay further punitive costs for parking relating their own home. We already pay indirect costs via our rates bills for parking relating to our areas. Auckland Transport receives returns from visitor parking meters and local businesses which should be in part apportioned to subsidise mandated permitting in areas with parking controls for residents.

Question 3: Local board priorities

- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I'd like to express my concerns with regard the price increase for residential parking. You are already forcing us to pay in our own street and now you want to even increase the price? This is obscene. Stop stealing from us. You're not providing any service at all. How come you are entitled to make us pay even more for absolutely nothing?

You say "so that it isn’t subsidised by others unintentionally. This reflects the full cost of processing each permit, including staff time, technology and building overhead"

It is ridiculous that you sell this to as to stop third parties. You are the one who should be stopped. Our money should go to food, not parking in our own street. You know what would effectively reduce the costs of processing the fees etc, no fees at all.

Ridiculous strategy. Insulting I may say.

You do not have my support.

Question 3: Local board priorities

- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

There is not a field to discuss parking increase proposal in the link provided.

Are you able to provide a breakdown of the $114 to process a permit?

It seems very high, considering it's simply verifying address and processing a payment. For a mid level salary of an admin person, that likely 3 hours work.

It appears that your processes may need a review for efficencies before you look at increasing prices.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Thank you for the opportunity to provide feedback on the proposed increase to residential parking permit costs.

While I understand the intention to align the permit fee with the full processing cost, I do not support this increase. Framing the current pricing as a “subsidy” overlooks the broader role that residential parking plays in supporting people who live in high-density or infrastructure-limited areas. For many residents, these permits are not optional but essential.

In my case, my residence does not have any off-street parking available, which leaves me with no alternative but to rely on on-street parking and the permit system. This means I am effectively required to absorb the full proposed cost, rather than having a choice in the matter. For residents in similar situations, this increase is not simply a pricing adjustment but an unavoidable expense.

Additionally, since moving into my current address on Hepburn St in February last year, there have been multiple recurring roadworks on my street. At various times, this has meant that despite having paid for a residential permit, I have not been able to park on my own street and have had to find parking further away or resort to parking on the berm, which puts me at risk of being fined.

Because the permit system operates on a fixed annual renewal date rather than a 12-month period from the time of registration, I have also had to pay for the permit twice within a relatively short timeframe, totalling $140. This structure does not reflect fair use and adds further financial pressure, particularly when access to the permitted parking is inconsistent due to roadworks.

Increasing the fee from $70 to $114 represents a significant jump and risks disproportionately affecting those already navigating high living costs. Passing the full administrative cost directly onto residents assumes individuals should bear the entirety of system expenses, rather than recognising this as part of wider urban infrastructure that benefits the city as a whole.

The proposal also does not appear to explore alternative solutions, such as improving operational efficiencies, introducing tiered pricing, adjusting the permit to a true 12-month period from purchase, or applying flexibility in situations where roadworks disrupt access. A sudden move to full cost recovery feels abrupt and lacks consideration of affordability and equity.

I would encourage Auckland Council to reconsider this approach and explore more balanced options that acknowledge both cost recovery and the lived realities of residents.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around

	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I think you need to look at why it costs $114 to process a simple application, it should be a fraction of that, it would never be acceptable int he commercial world. The issue isnt the application its the inefficient systems and practices at AT.

Im prove your system and reduce the cost, park is just a money grab and its getting worse.

For example - why do you charge by the day at Matiatia carpark on Waiheke? $6.50 whether it's 2 hrs or 23 hrs, thats not right.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I am strongly opposed to any fee rise .

We have no choice about parking on the street as we have no off street parking.

It is ridiculous that we are charged to park outside our own houses.

More so because clearly either too many permits have been issued or the requirement for no off street parking in residential houses is being ignored by AT when permits are issued.. The street is full every evening so that despite having paid for a permit often there is nowhere to park. There are residents parking on the street who clearly have off street parking and should not have been given a permit . There are minimal fines for non residents parking without paying.

We have repeatedly requested resident only parking areas in our small narrow one way street.

Because of the nearby restaurants in Parnell Road there are always roaming residents trying to take our spaces in the evening just when we get home from work..

In addition , as we have no off street parking, if we have a vehicle that needs wof or rego updated, we cannot park it off street and your draconian inspectors will attach a ticket to to it and charge a huge fine : which is ridiculous and unfair.

The whole situation is poorly designed, poorly administered, and too expensive.

There should be resident only in the entire street, no permit fee and strict controls on who qualifies.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Are we not suffering enough financially?? We are first home buyers, have lived in the house for 10 years, but only recently purchased it 12 months ago and the rates are crippling us. We appreciate all the work that needs to be done, but honestly, you are pricing us out of our home.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Submission on Auckland Council's Annual Plan 2026/2027

1. Summary

1.1. Property Council New Zealand ("Property Council") welcomes the opportunity to submit a response to Auckland Council on their Annual Plan 2026/2027 ("Annual Plan").

1.2. The Annual Plan gives direction for the annual budget in Tāmaki Makaurau Auckland. Property Council supports the annual plan and encourages Auckland Council to work alongside the development community to utilise City Rail Link investment opportunities and strategic infrastructure delivery and sequencing. We do not support the proposed increase in the business rating differential as this is inconsistent with Auckland Council's previous commitment to progressively reduce the differential rates burden over time.

2. Recommendations

2.1. At a high level, Property Council recommends Auckland Council:

- When the Long-term Plan is reviewed in 2027, recommits to reducing the business differential, as previously promised and commits to a timeline for doing so;
- Amend the 2026–2027 Annual Plan to align with the Long-Term Plan forecast and limit the average business rates increase to 8.22 per cent;
- Investigate alternative funding and financing tools;
- Provide clear and transparent reporting on the outcomes delivered through the City Centre Targeted Rate to date, alongside defined performance measures and expected delivery timeframes for future initiatives funded by the rate;
- Have closer collaboration with the development sector to unlock mixed-use development around CRL stations; and
- Work alongside the development sector to provide greater certainty around infrastructure sequencing, so the sector has the confidence to invest in growth areas and align development with the timely provision and efficient use of infrastructure.

3. Introduction

3.1. Property Council is the leading not-for-profit advocate for New Zealand's most significant industry, property. Our organisational purpose is, "Together, shaping cities where communities thrive."

3.2. The property sector shapes New Zealand's social, economic, and environmental fabric. Property Council advocates for the creation and retention of a well-designed,

functional, and sustainable built environment, to contribute to the overall prosperity and well-being of New Zealand. We aim to unlock opportunities for growth, urban development, and productivity to improve New Zealand's prosperity.

3.3. Property is Auckland's largest industry. There is around $997.8 billion in property assets across Auckland, with property providing a direct contribution to GDP of $13 billion and employment for 87,080 Auckland residents.

3.4. We connect property professionals and represent the interests of 388 Auckland based member companies across the private, public, and charitable sectors.

3.5. This document provides Property Council's feedback on Auckland Council's Draft Annual Plan 2026/2027. Comments and recommendations are provided on issues relevant to Property Council's members. Reflecting the diversity of our membership, Property Council members may wish to comment in greater detail on issues specific to their business. Accordingly, we support individual members providing separate submissions addressing those matters.

4. Rates

4.1. Property Council does not support the average business rates increase at 9.84 per cent which deviates from the Long-Term Plan forecasted increase of 8.22 per cent, in order to maintain the business sector's fixed 31 per cent share of general rates and targeted rates. Property Council reiterates its longstanding position that the business rating differential should be abolished and must be progressively reduced in accordance with the Long-Term Differential Strategy previously adopted by Auckland Council, in 2024.

4.2. The Long-Term Differential Strategy was developed to address historic inequities in Auckland's rating system and to ensure a fairer distribution of the rates burden between residential and business ratepayers. Reversing that trajectory places a disproportionate burden on the property and business sector at a time when Auckland's economy remains fragile.

4.3. Property Council recommends that when the Long-term Plan is reviewed in 2027, Auckland Council recommits to reducing the business differential, as previously promised and commits to a timeline for doing so.

4.4. We recommend the 2026–2027 Annual Plan aligns with the Long-Term Plan forecast and limits the average business rates increase to 8.22 per cent. Maintaining consistency with the Long-Term Plan will provide greater certainty for businesses while supporting the longer-term objective of gradually reducing the business differential.

Alternative funding and financing

4.5. Property Council advocates for all local government authorities throughout New Zealand to investigate alternative funding and financing mechanisms. We support the use of transparent user-pays models like private-public partnerships, special purpose

vehicles, targeted rates, infrastructure funding and financing levies and asset recycling. Our approach is also consistent with the recommendation of the New Zealand Productivity Commission that local government should adopt a more transparent approach to rating tools and other funding sources.[1] We recommend that Auckland Council investigate alternative funding and financing tools.

5. City centre

5.1. Property Council continues to support investment in Auckland's city centre through the City Centre Targeted Rate. However, it remains unclear what outcomes the targeted rate seeks to achieve, the progress on these outcomes and demonstrable value for money.

5.2. The cumulative impact of the city centre targeted rate, when combined with general rate increases and differential changes is placing significant pressure on city centre property owners. Business owners need transparency and certainty of how their funds are being spent to revitalise the city centre.

5.3. We recommend that Auckland's Annual Plan provide clear and transparent reporting on the outcomes delivered through the City Centre Targeted Rate to date, alongside defined performance measures and expected delivery timeframes for future initiatives funded by the rate. Property Council would welcome the opportunity to hear from the City Centre Targeted Rate Group about their proposed strategy.

City Centre investment and CRL

5.4. Auckland Council are asking submitters what improvements should be prioritised in the city centre: Better connections; Events and city life; Getting around; Māori identity and culture; Safety; Streets and public spaces; Supporting businesses; Other.

5.5. From a Property Council perspective, city centre investment should prioritise initiatives that strengthen economic activity, connectivity and business confidence in the CBD.

5.6. We support prioritising better connections, events and city life, and supporting businesses, alongside continued investment in streets, public spaces and safety. With the opening of the City Rail Link ("CRL") in 2026, Auckland Council should focus on improving connections between stations, surrounding precincts and key commercial areas while supporting events and activation that increases foot traffic and economic activity. Safety should also be a key consideration in supporting this activation ensuring people want to come and utilise public spaces.

5.7. We also note the importance of intensification around key transport nodes as proposed through Auckland Unitary Plan Change 120 ("PC120") and support the intent to enable greater development capacity in these locations. We encourage Auckland Council to

[1] https://www.productivity.govt.nz/inquiries/local-government-funding-and-financing/

maintain this focus in forthcoming PC120 material, ensuring the opportunities created by the CRL are fully leveraged. We recommend closer collaboration with the development sector to unlock mixed-use development around CRL stations. Intensification including retail, hospitality and housing will help maximise the return on this significant infrastructure investment and support a vibrant, economically productive city centre.

6. Local boards

6.1. Property Council continues to support Auckland Council's Fairer Funding model for local boards, which allocates funding based primarily on population, levels of deprivation, and land area. Aligning funding more closely with population encourages intensification in locations where infrastructure and amenities already exist, particularly around key transport nodes and metropolitan centres.

6.2. Property Council welcomes Auckland Council's continued commitment to the Fairer Funding Model and alignment with national housing and urban growth objectives.

7. Shaping Auckland's longer-term future

7.1. Auckland Council are asking submitters to rank what areas are most important to them over the long-term, to help form discussions for next year's Long-Term Plan, spatial plans, etc: Economic development and events; Local parks, community and recreation services; Planning and infrastructure to manage growth; Regional parks and environment; Transport; Flood resilience.

7.2. From a Property Council perspective, the priorities that most strongly support Auckland's long-term prosperity are economic development and events, planning and infrastructure to manage growth, and flood resilience.

7.3. Property Council supports a strong focus on economic development and events as a catalyst for investment, productivity and city vitality. A thriving city centre that is open for business, supported by major events and an active hospitality and retail environment, helps attract talent, tourism and business investment to the region.

7.4. Equally important is ensuring Auckland's planning system and infrastructure investment settings enable growth rather than constrain it. Property Council supports smarter spatial planning that aligns land use with transport and infrastructure delivery, while removing unnecessary regulatory barriers and reducing consenting time that delays development. This aligns with our own regional priority of *driving Auckland's growth by accelerating the delivery of smart, integrated property, transport and infrastructure for connected, sustainable communities, starting with the city centre.* Spatial planning and long-term planning should prioritise efficiencies in processes and delivery.

7.5. Achieving this will also require a broader funding and financing toolkit for councils, alongside stronger collaboration with the development sector to anticipate where

growth will occur to ensure infrastructure is delivered efficiently and affordably. Existing infrastructure capacity should be utilised and Auckland Council could encourage intensification around CRL growth through cost reductions in development costs.

7.6. Property Council also notes the importance of a resilient, sustainable city and supports flood and climate change resilience. The built environment and property sector will be one of the most impacted sectors in the near decades and we want to work alongside Auckland Council to encourage adaptative and resilient infrastructure and development outcomes. We support Auckland Council's step towards recognising this risk in PC120 but further encourage collaboration with the private sector to understand how innovative and effective design can promote flood and climate change resilience.

7.7. Property Council recommends Auckland Council work alongside the development sector to provide greater certainty around infrastructure sequencing, so the sector has the confidence to invest in growth areas and align development with the timely provision and efficient use of infrastructure.

8. Conclusion

8.1. Property Council supports the Annual Plan and encourages Auckland Council to work closely with the development sector to maximise the investment of the City Rail Link and enhance city vibrancy. We oppose the failure to reduce the business differential in line with Auckland's long term differential strategy and would like to see a recommitment to this strategy in Auckland next Long-Term Plan.

8.2. For any further enquiries, please do not hesitate to contact [redacted] Advocacy Advisor, via email: [redacted] or phone: [redacted]

Yours Sincerely,

[redacted]

Annual Plan 2026-2027

#2772

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

to ambitious - calm down and do a lot less fancy street scapes - reduce rates. Get rid of a lot of wasted Security gaurds who do nothing but harrase a few skate boarders once in a while while dont seem to actually doing anything for real safety

Reduce the standards of street upgrades - you just have too much money and so sseem to design around that will flash chairs, fountains, over the top.

Also ffs - name stuff back to English - Whats my fin ward.. Some maori name I dont even know what my ward is.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

OMG the Waste Managment in Auckland is Corruption and SOMEONE THERE KNOWS IT! Billions of rates into just collecting a few bags of rubbish - some contractors scamming millions in contracts its OVER THE TOP! chill out make 1 rubbish service minium and get a council owned dump.. no more complex waste if you cant do it make it all user pays no more crazy waste mangament fees for every poor soul getting rid of a few apple cores and baked bean cans.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

I think NZ needs to suffer more to learn. Council seem to laugh with their stolen money and spend like drunken sailors. Its evil

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Other

B. Reduce maintenance for bollard and post-and-rail.

Support

C. Reduce community grant funding and accommodation grant funding.

Support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Support

Tell us why (please be clear which priority you are talking about)

I dont have much faith sorry you will really all learn. Other

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

My dump fault for owning property.. Stupid me.. I should just buy a boat and live in that

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

stupid questions .

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

#2807

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I do not support the proposed rates increase.

The cost of living is already very high, with significant pressure from housing costs and fuel prices. Many households, including those with relatively high incomes, are already highly leveraged and under financial strain. However, there is little direct relief provided in areas like fuel or daily living expenses.

Rates are already at a high level, and continuing to increase them will further burden residents and reduce overall affordability and quality of life. At a time when many people are finding it increasingly difficult to manage their expenses, I believe the council should prioritise cost control and efficiency, rather than passing additional costs onto ratepayers.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I do not support several of the proposed changes to rates, fees, and charges.

The introduction of a refuse bin/bag exchange fee will further increase the cost of essential services for households that are already under financial pressure. Similarly, the proposed increases to residential parking permit fees in certain areas add a significant burden for residents who rely on their vehicles for work and daily life. Changes to BID programme areas and the Waitākere Rural Sewerage Scheme may affect specific communities, but overall these additional charges risk disproportionately impacting residents without providing tangible benefits or relief.

At a time when the cost of living is already very high, adding more fees and charges only makes day-to-day life harder. I encourage the council to reconsider these increases and focus on controlling costs rather than passing them on to ratepayers.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Ōrākei

Ōrākei Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services?

A. Increase community-use sports fields provision either through redevelopment or expansion of our asset portfolio to address the forecasted move of Auckland Cricket into Colin Maiden Park and other demands on our sports fields.

Do not support

B. Increasing investment in restoration and pest-management programmes to grow and protect your natural environment. Our reserves and open spaces are one of the most vital resources in Ōrākei.

I don't know

C. Changing the Meadowbank Community Centre project to a self-funded community centre to capitalise on existing investment and resources.

Do not support

D. Construct a playground Remuera Library to optimise the under-used green space at the side of the building.

Do not support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Overall, I am concerned about the significant increases in rates, fees, and charges proposed in the Annual Plan 2026/2027. Many households are already under financial pressure due to high housing costs, fuel prices, and living expenses. The proposed 7.9% rates increase, along with additional fees such as refuse bin/bag exchanges and parking permit increases, will further strain residents without providing clear relief or benefits.

Regarding the Tūpuna Maunga Authority Operational Plan, while I appreciate the importance of protecting and managing these culturally significant sites, I would like to understand how operational costs are being prioritised and whether there are opportunities to manage spending efficiently without further burdening ratepayers.

In general, I encourage the council to focus on cost control and efficiency, ensuring that essential services are delivered effectively while keeping rates and fees at a sustainable level for the community.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

My priority for the council should be to focus on services and investments that directly affect residents' day-to-day quality of life, particularly:

Transport: Investing in efficient, reliable public transport and safe active transport options to reduce commuting costs and improve accessibility.

Water services: Ensuring clean, reliable water supply and effective wastewater management.

Affordable living: While rates are needed for essential services, the council should consider ways to manage costs and avoid placing excessive financial burden on residents, especially through fees or charges that disproportionately affect households already under pressure.

Community support: Local board initiatives that help communities respond to local needs, especially for essential services, recreation, and social support.

Overall, I want the council to prioritise cost-effective, essential services that provide real benefits to residents, rather than expanding charges or rates in ways that make daily life more expensive.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

we can not afford rates increases

you are liars and we will vote you out

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**

- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

we can not afford rates increases

you are liars and we will vote you out

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):we can not afford rates increases you are liars and we will vote you out

Annual Plan 2026-2027

#2817

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Stop wasting tax payers money

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Stop spending money you don't have and stay in your budget, I am not seeing and cost cutting measures

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

Great to see a holistic approach to all areas, including much-needed investment in infrastructure, transport and water

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
