Individual Parks

This section covers the 260 local parks in the Upper Harbour Local Board area included in this plan.

Information about each park is presented on individual sheets in alphabetical order. Please note the information about individual parks needs to be read in conjunction with the park management principles and policies in Volume 1 of this plan.

The diagram below shows the different volumes and sections of this plan and how they relate to each other.

12.1 [To add]

How to read the individual park sheets

The following is a guide on how to read the content of the individual park sheets, including reference documents where more detailed information can be found.

Albany

Map extent overview

- This map illustrates parks within the area of Upper Harbour.
- Each park located on the map is numbered and this number aligns with the list of parks in the table below the map.
- The table shows parks that have an individual map page and parks without an individual map page listed in a table.

Map ID	Park name	Where to find information
01	Albany Domain	See individual map
02	Albany Lakes Reserve	See individual map
03	Albany Village Cemetery	See individual map
04	Brookfield Stream Reserve and Stanford Reserve	See individual map
05	Burnside Escarpment, Kanuka Reserve, George Pannill Reserve and Verdant Lane Reserve	See individual map
06	Bushlands Highway Strip Reserve and Pigeonwood Reserve	See individual map
07	Bushlands Park	See individual map
08	Corinthian Drive Drainage Reserve	Listed in table
09	Fernhill Escarpment and Days Bridge Esplanade Reserve	See individual map
10	Georgia Accessway	Listed in table
11	Houhere Reserve	Listed in table

Map ID	Park name	Where to find information
12	Kell Park	See individual map
13	Marquette Avenue Accessway	Listed in table
14	North Shore Domain	See individual map
15	Northwood Reserve and Brookfield Park	See individual map
16	Norton Reserve	Listed in table
17	Spencer Ridge Reserve	See individual map
18	Tawa Reserve	See individual map
19	Te Wharau Reserve	See individual map
20	The Avenue Esplanade Reserve	See individual map
21	The Landing	See individual map

An example of a table showing parks without management intentions and/or lease/licence information

List of parks without management intentions and/or lease/licence information
- to be managed according to their land status

Map ID	Park Name	Address	Land status	Values associated with park
08	Corinthian Drive Drainage Reserve	R 43 Corinthian Drive, Albany	Local purpose (drainage) reserve (Lot 3 DP 456852)	  
10	Georgia Accessway	17 Georgia Terrace, Albany	Local purpose (accessway) reserve (Lot 2 DP 201241) Local purpose (accessway) reserve (Lot 21 DP 327326)	  
11	Houhere Reserve	7 Houhere Close, Albany	Recreation reserve (Lot 354 DP 161044)	
13	Marquette Avenue Accessway	15 Marquette Avenue, Albany	Local purpose (accessway) reserve (Lot 302 DP 196382)	
16	Norton Reserve	166 Dairy Flat Highway, Albany	Local purpose (landscape protection) reserve (Lot 101 DP 175245)	  

Parks listed in table

- This table illustrates parks within Albany which do not have management issues or intentions, and/or lease or licence information recorded.
- The table shows the land status for each land parcel that makes up the park; the park must be managed according to this land status.
- Values associated with the park are illustrated as icons (for more detail about these icons refer section 12.3).

An example of an individual park sheet – Collins Park

Information about an individual park is likely to be shown over one or more pages. The **first page** includes a map of the park with basic information about the park. If two or more pages are required, the **following pages** will include text to explain park values, issues, and intentions in more detail.

Example of first page:

ADDRESS

- Physical street address derived from Auckland Council
- Some parks don't have a street number.

Collins Park

15 Greenhithe Road,
Greenhithe

PARK NAME

- Name of the park and the suburb the park is located
- In this example, Collins Park is located in Greenhithe

List of values associated with park

Heritage values

- Historic sites including archaeological sites, structures, gardens and trees

Natural values

- Park with stream running through or that is adjacent to the coast

Recreation values

- Event

Informal recreation

Play space

Organised sport and recreation

Hazards and constraints

Other hazards or constraints

Mapping features

| Recreation reserve |
| Recreation reserve |

PARK AREA (m² or ha)

- This is the approximate total area of all land parcels that make up the park. The area is in square metres (m²) if the park is under one ha in

The scale of the maps varies depending on the size and configuration of the park.

LAND STATUS

- The table below the map shows the land status for each land parcel that makes up the park.
- Numbers on the map correspond to numbers in column 1 of the table.
- The land status includes the lot number (Appellation) and Reserves Act classification or identifies that the parcel is held under the Local Government Act 2002.
- Section 9 of this plan contains a description of each Reserves Act classification.
- The classification of a reserve can be changed as per section 24 of the Reserves Act.

List of values associated with park

Heritage values

OVERVIEW OF VALUES ASSOCIATED WITH PARK

- An icon set has been developed for the management plan to illustrate when cultural, heritage, natural, recreation and other values or hazards are present in individual parks.
- The icons are a starting point to identify values or hazards that exist in each park. For some parks, more detail about park values and other information has been provided to inform management issues and intentions (see next page).
- For an explanation of all the icons used to convey park values or hazards refer to the map key in section 12.2 and the data sources for each icon in section 12.3.

Example of second page:

Collins Park

CULTURAL VALUES

- Refer to mana whenua

RECREATION VALUES

- Community events
- Play space
- Informal recreation - general
- Organised sport

NATURAL VALUES

- The presence of native fish has been identified in the stream catchment.
- Identified as a site with forest habitat and habitat connections in the Upper Harbour Pest Free and Ecological Connectivity Strategy 2021.

HERITAGE VALUES

- Recorded historic site - Old Greenhithe school building (CHI No. 12928).
- Old Greenhithe School building site is scheduled for additional protection. Historic Heritage Overlay rules should be adhered to for works in the park.

OTHER INFORMATION

- A stream runs along the eastern boundary of the park
- Designation for the northern interceptor wastewater pipeline (Watercare, 9375).
- The Lucas Creek sedimentation report 2018 identifies areas within the stream catchment where planting could help reduce sediment inputs into the marine environment.
- The Upper Harbour Urban Ngahere (Forest) Action Plan 2021 outlines steps to increase tree canopy cover in the local board area over the next 10 years.
- The Upper Harbour Wheeled Recreation Assessment 2021 identifies opportunities to improve the network of wheeled recreation facilities in the local board area.

MANAGEMENT ISSUES

No information for this section

MANAGEMENT INTENTIONS

1. Support planting activities that improve water quality in Lucas Creek.
2. Consider planting trees to improve shade, activate spaces with culturally significant planting, and increase tree cover.
3. Planting must not compromise sightlines into the park or the ability for informal recreation to take place in the open space.
4. Consider opportunities to upgrade the existing skate facility and provide a pump track.

LEASES AND LICENCES

Current and contemplated leases and licences for:

- Provision of community activities and services including community venue
- Early childhood education services.

MORE DETAIL ABOUT PARK VALUES

- The **main** values present at a park are described. The values which include cultural, heritage, natural, and recreation, are not intended to be an exhaustive list of all values, but give an indication of the most significant, unique or prominent values, which have informed management issues and intentions.

LEASES & LICENCES

- This section identifies the **types of lease and licence** activities that are contemplated within existing lease area footprints or proposed lease areas.
- It will generally reflect the lease/licence activities on the park and identify the legal description of the area where these types of lease or licence activities can occur e.g., Lot 27 DP 47622.
- In most cases, these lease or licence activities will only occupy part of the land parcel.
- If proposed future lease types/activities are contemplated, subject to satisfactory completion of all statutory processes and approvals these are identified in the **management intention** section.
- The information in this section is for information purposes only. If there are any discrepancies, the correct information is as specified in the lease or licence documents.

Collins Park

CULTURAL VALUES

- Refer to mana whenua

RECREATION VALUES

- Community events
- Play space
- Informal recreation - general
- Organised sport

NATURAL VALUES

- The presence of native fish has been identified in the stream catchment.
- Identified as a site with forest habitat and habitat connections in the Upper Harbour Pest Free and Ecological Connectivity Strategy 2021.

HERITAGE VALUES

- Recorded historic site - Old Greenhithe school building (CHI No. 12928).
- Old Greenhithe School building site is scheduled for additional protection. Historic Heritage Overlay rules should be adhered to for works in the park.

OTHER INFORMATION

- A stream runs along the eastern boundary of the park
- Designation for the northern interceptor wastewater pipeline (Watercare, 9375).
- The Lucas Creek sedimentation report 2018 identifies areas within the stream catchment where planting could help reduce sediment inputs into the marine environment.
- The Upper Harbour Urban Ngahere (Forest) Action Plan 2021 outlines steps to increase tree canopy cover in the local board area over the next 10 years.
- The Upper Harbour Wheeled Recreation Assessment 2021 identifies opportunities to improve the network of wheeled recreation facilities in the local board area.

MANAGEMENT ISSUES

No information for this section

MANAGEMENT INTENTIONS

1. Support planting activities that improve water quality in Lucas Creek.
2. Consider planting trees to improve shade, activate spaces with culturally significant planting, and increase tree cover.
3. Planting must not compromise sightlines into the park or the ability for informal recreation to take place in the open space.
4. Consider opportunities to upgrade the existing skate facility and provide a pump track.

LEASES AND LICENCES

- Current and contemplated leases and licences for:
- Provision of community activities and services including community venue
 - Early childhood education services.

OTHER INFORMATION

- *This section covers miscellaneous information specific to the park that may impact use or development such as walkway connections to surrounding streets.*
- *It also includes potential constraints on ground intrusive projects and activities and notification of potential hazards.*

MANAGEMENT ISSUES

- *This section outlines management issues specific to a park. Not all parks have specific management issues, as often issues are common to parks in general.*

MANAGEMENT INTENTIONS

- *Management intentions describe the management approach or desired outcomes for specific activities, experiences, or issues at a park.*
- *They may also signal development opportunities that may be considered in the future (subject to availability of funding through the LTP processes).*
- *Not all parks will have individual management intentions. If there are no individual management intentions for a park, then its management is directed by the classification under the Reserves Act.*
- *The general policies in Section 10 of Volume 1 apply to all parks. They set the direction for how the local board intends to manage parks to maximise the benefits to park users and minimise the impacts on values of parks. **If in conflict, the individual management intentions will take precedence over the general policies.***

12.2 [To add]

Full map legend

The map legend below illustrates the full list of icons used in the Upper Harbour Local Parks Management Plan

Values associated with park

Cultural values

-  Landscapes/areas of cultural significance to Māori
-  Wāhi tūpuna (ancestral sites) including historical pā and places where other artefacts have been found indicating Māori settlement

Heritage values

-  Historic sites including archaeological sites, structures, gardens and trees

Natural values

-  Significant ecological and biodiversity areas
-  Terrestrial and wetland ecosystems present
-  Other notable vegetation
-  Park with stream running through or that is adjacent to the coast
-  Fauna e.g. birds, skinks / lizards, fish
-  Geological and landscape features

Recreation values

-  Water access

-  Connection
-  Informal recreation
-  Community leisure and recreation facilities
-  Play space
-  Organised sport and recreation
-  Significant community partnerships
-  Event

Hazards and constraints

-  Coastal hazards
-  Closed landfill and/or identified contaminated land
-  Other hazards or constraints

Mapping features

-  Park extent
-  Other parks
- Advocacy parcels**
-  Crown Land
-  Road
-  Common Marine and Coastal Area

ADVOCACY AREAS

- *The local park management plans have identified situations where decision-making for parkland does not sit with the council. An example of an advocacy area is an unformed legal road, often maintained by council and viewed by the public as parkland, but under the control of Auckland Transport. The general policies and provisions of this plan will guide the board's position and input into future management or development of these areas where they are required. Other advocacy areas include crown land adjacent to parks and parkland within the coastal marine area.*

12.3 [To add]

Iconography to convey park values

The table below explains in more detail the symbol set that has been developed for the management plan to illustrate when cultural, heritage, natural, recreation and other values or hazards are identified in individual parks.

The table explains how each set of symbols were derived using data from technical experts and the council's GIS Viewer, GeoMaps (extracted July 2022).

This summary of park values is a guidance point when considering activities or development in local parks. Further investigation is required to determine if additional values are relevant and the location, extent, and quality of values, to help determine appropriate ways to protect them.

When cultural significance has been highlighted in relation to a park, it is important to refer to mana whenua to ensure activities and development protects cultural values.

Symbols for cultural values

Park values captured by symbols	Text to explain symbols	Examples of where the symbols are applied in this plan
Landscape/area of cultural significance to Māori 	This icon identifies a park which is situated within a wider cultural landscape of significance to Māori, and highlights parks raised by mana whenua as being important to them. Cultural landscapes may be associated with spiritual, environmental, historical and/or traditional uses and values of an area. Cultural significance may be recognised statutorily for example through the Auckland Unitary Plan which identifies sites of significance to mana whenua.	Te Onekiritea Point / Hobsonville Esplanade and Sanders Reserve
Wāhi tūpuna (ancestral sites) including historical pā and places where other artefacts have been found indicating Māori settlement	Archaeological surveys have recorded important cultural heritage in or nearby a park. These archaeological sites are recorded in the Cultural Heritage Inventory (CHI), NZ Archaeological Association (NZAA) and/or Heritage NZ Listed	Te Wharau Reserve and West Harbour Esplanade - East

	Sites and have a corresponding number for reference. Pā sites and kāinga were historically semi-permanent bases for settlement and there are many other indicators that Māori used the whenua before modern day parks were created. Parks include evidence of whare, terraces, camps, urupā, middens, hangi and kumara pits, umu and other land formations indicating early Māori occupation. Not all parks have been surveyed to determine if there are archaeological sites present. Care needs to be taken when managing this park to ensure wider cultural landscapes of significance to Māori and any unrecorded heritage is protected and respected.	
---	---	--

Symbols for heritage values

Park values captured by symbols	Text to explain symbols	Examples of where the symbols are applied in this plan
Historic site including archaeological sites, structures, gardens and trees 	This icon identifies where there are historic sites within a park including archaeological, built heritage, botanic and maritime sites, places of special interest to Māori or other reported heritage sites (such as the location of a battle or a building). There are over 16,800 locations of cultural heritage interest and over 10,600 archaeological sites in Auckland, numbers which increase annually and are recorded in the Cultural Heritage Inventory (CHI). Sites of heritage significance are also highlighted in the Historic Heritage Overlay in the Auckland Unitary Plan. When heritage is significant, a site may have a conservation plan to protect the heritage features or may benefit from development of such a plan.	Albany Domain and Limeburners Bay Historic Reserve

Symbols for natural values

Park values captured by symbols	Text to explain symbols	Examples of where the symbols are applied in this plan
Significant ecological and biodiversity areas 	Areas of significant indigenous vegetation or habitats are scheduled for protection in the Auckland Unitary Plan or Hauraki Gulf Islands District Plan according to whether they're located on land, in freshwater environments or coastal marine areas. Management plans provide an opportunity to protect and enhance significant ecological and biodiversity areas through strategies such as planting, weed and pest management. Parks located in these areas may have scenic protections under the Reserves Act 1977, and/or management intentions to guide park use to avoid damage to park ecology.	Gills Reserve and Hosking Reserve
Terrestrial and wetland ecosystems present 	All terrestrial and wetland ecosystems in Auckland have been classified according to a national ecosystem classification system. Ecosystems vary in size from small ephemeral wetlands to large tracts of forest. This icon highlights where wetland, forest, cliff, regenerating, coastal saline and dune ecosystems are present in a park. Each of these ecosystems support a variety of wildlife and have a threat status (from low concern through to collapsing). For more information refer to the report Indigenous terrestrial and wetland ecosystems of Auckland 2017.	Marina Esplanade and Unsworth Reserve
Other notable vegetation 	This refers to Kauri and other notable trees such as those planted during pioneer times, that have legal protections in the Auckland Unitary Plan or Hauraki Gulf Islands District Plan. Trees may be notable for a variety of reasons including commemorating important events, being exceptional examples of a species or critical to the survival of other species. Kauri trees are also important	Albany Heights Reserve and Sanders Reserve

	cultural taonga; healthy ngāhere (forests) with mature species like kauri enable communities living in harmony with the whenua to prosper.	
Park with stream running through or that is adjacent to the coast 	Water is of high ecological value for its ability to sustain life and important taonga for mana whenua. Many significant stream systems flow through parkland. This icon draws on catchment and hydrology data in GeoMaps. Council also conducts more detailed watercourse assessments in parts of the stream network to determine the type and health of waterways and to assist with management of these waterways. There are often constraints on development when parks are in flood plains or tidal areas.	Fernhill Escarpment and Days Bridge Esplanade Reserve
Fauna e.g., birds, skinks/lizards, and fish 	New Zealand is special in that it has so many endemic species that can't be found anywhere else in the world. This icon highlights where technical experts have identified a park with important fauna populations such as significant bird wading areas. For selected parks, fish surveys may have been conducted.	Lady Phoenix Reserve and Hooton Reserve
Geological and landscape features 	Auckland is built on a volcanic field. Its volcanoes have left behind rich volcanic soil, rock formations such as caves and fossils, and have formed lakes, hills and maunga. These features may be present in local parks and are a treasured part of the cityscape for cultural, spiritual, amenity and education and scientific reasons. This icon also draws on layers in the Auckland Unitary Plan to convey when a park has Outstanding Natural Character, Features or Landscape areas so that management of a park can recognise the need to protect these natural values.	Lucas Esplanade Reserve and Paremoremo Scenic Reserve

Symbols for recreation values

This section lists key recreational activities currently associated with parks. The impact on these recreation values needs to be considered alongside other park values when approving/determining what activities can take place on parks. The table in the Appendix further describes recreational values listed in this section.

Park values captured by symbols	Text to explain symbols	Examples of where the symbols are applied in this plan
Water access 	Auckland has about 1,800km of coastline which many local parks give people access to. Often there is infrastructure in a park to provide water access such as paths, boat ramps, carparks, pontoons or wharfs. Providing people with access to water for activities such as sailing, rowing, fishing, surf lifesaving, diving and swimming helps Aucklanders be active and provides an opportunity to experience beach, ocean, river or estuarine environments.	Christmas Beach and Rahui Reserve
Connection 	Auckland's local parks are full of walkways, trails and cycling tracks. Local parks help connect people between home and school, with their places of work and offer destinations to visit for recreation. This icon illustrates a park featured in AKL Paths, an online tool helping Aucklanders discover more than 200 paths across the region. It also includes some parks which are an important part of Auckland's visionary Greenways plans to provide a network of linked parks, open spaces, and streets across the region.	Hooton Reserve and Oteha Valley Reserve
Informal recreation 	People often tell us they love local parks because each park has its own character to enjoy. A range of equipment is provided in parks to enable people to exercise, socialise and enjoy nature including seats, picnic tables, dog exercise areas, fitness equipment and BBQs.	Most parks in Upper Harbour provide an opportunity for informal recreation such as Hobsonville Point Park

Events 	This icon conveys which parks in each local board area are a popular venue for festival and events. Events bring people together to share memorable experiences, celebrate Auckland and its people and help invigorate the economy. Many local boards have iconic local events that showcase what is unique about different parts of Auckland.	Albany Domain and Kell Park
Community leisure and recreation facilities 	Facilities in parks provide spaces where Aucklanders can connect, socialise, learn and participate in a wide range of social, cultural, art and recreational activities. Community facilities are managed as part of a network to ensure we have the right facilities and programmes in the right place at the right time. Building footprints on parks include art and culture facilities, community centres, campgrounds, backpackers, libraries, pools and leisure facilities and venues for hire.	Albany Lakes Reserve and Wainoni Park
Play space 	There are some imaginative play spaces in local parks ranging from structured playgrounds, pump tracks, learn to ride areas and skate ramps, to more unstructured play experiences like nature play, māra hūpara (Māori play elements) and youth programmes. Flat grassy spaces are also highly valued for the play opportunities they create e.g., kicking or throwing a ball about.	Many parks in Upper Harbour provide play opportunities such as Harrier Point Park
Organised sport and recreation 	Local parks help promote individual and community wellbeing through participation in organised recreation and sport, helping people be more active, more often. A lot of the infrastructure for sport and recreation is in a local park. Council has a booking system to encourage use of sports facilities, which are used throughout the year.	Caribbean Sportsfield and Greenhithe War Memorial Park
Significant community partnerships 	Volunteers do a huge amount to help protect and enhance what people value about local parks including helping to plant trees and shrubs to regenerate the ecology, and weeding to nurture the growth of these plants, and other activities such as wai care and helping to protect a park's heritage values.	A community hub is operated from Sanders House

Symbols for other information

Park values captured by symbols	Text to explain symbols	Examples of where the symbols are applied in this plan
Coastal hazards 	This park is vulnerable to coastal inundation/erosion which may impact recreation use, park assets and facilities. The protection of the park's assets and public access along the coast from these hazards is likely to be a challenge that will need to be managed appropriately.	Durbin Reserve and North Shore Domain
Closed landfill and/or identified contaminated land 	Some or all of the site may be part of a closed landfill and/or known (at the time of writing) to be affected by contamination such as from previous industrial uses like historic horticulture. Ground intrusive activities on the park may be constrained to ensure the health and safety of the public and limit environmental risks. Activities or developments may require asset owner approval before works can commence.	Kell Park and Greenhithe War Memorial Park
Other hazards or constraints 	Other hazards or constraints may be present in the park such as National Grid powerlines, wastewater disposal fields, or the park may be vulnerable to overland flooding during storm events. For more information refer to the 'other information' section on individual park sheets.	Hellyers Esplanade Reserve and Churchouse Esplanade Reserve
