

Draft masterplan for Fergusson Domain

Feedback must be received by 11 April 2025.

A draft masterplan for Fergusson Domain has been developed to better serve the growing community, incorporating feedback from the sports club, Oranga Community Centre, and the Maungakiekie-Tāmaki Local Board. We're now seeking your input to ensure the plan meets the needs of community as well as the needs of different sports clubs.

All feedback in the consultation process will be considered by the Maungakiekie Tāmaki Local Board before they look to adopt their preferred final plan version.

Please note that a new playground is budgeted for in the next few years. Within this survey, we are seeking your views on the type of play equipment or play experiences you would like to see at Fergusson Domain in the future.

1. Overall Support for the Masterplan

The Fergusson Domain masterplan aims to make best use of the open space available and to provide for the many different users of the park.

2. Removal of the Fergusson Hall building (See 6 and 16 on the masterplan)

The Oranga community centre is going to be reconfigured to provide a 100 person bookable space. The removal of Fergusson Hall would reduce the duplication of services within Fergusson Domain and reduce maintenance costs. Its removal also provides space in which additional play facilities could be added.

Would you support the removal of the Fergusson Hall building?

- ☐ Yes ☐ No ☐ I don't know ☐ Other (please specify): _____

Tell us why:

3. Proposed Changes to the park road and carparking (See 14 on the masterplan)

The proposal shown is to open the carpark by the Tepapa Sports Club to Melville Place to allow car access. *See 14 on the plan.*

Most of the time, the park road will be closed to cars, meaning the park road can be used by walkers, runners and cyclists without concern of cars. On busy sporting event days, the bollards can be removed to allow a one way system through the park from Olea Road to Melville Place to reduce congestion and any bottle necks of car traffic while keeping pedestrians safe.
