Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

There are three options to consider

Which option do you prefer? Select one option only.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Auckland needs a small stadium. Will suit Auckland Fc and be a huge asset to the community

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I don’t have a direct connection, but I am interested in how the space is used

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I definitely do NOT support Option #1. I do like Option #2 but in the current financial climate, do not see it as feasible. A large aspect of my preference for this is keeping the natural ampitheatre. Bowl of Brooklands in New Plymouth is a very special setting and this could capture the same feel. Also, ultimately we probably need a larger venue for music and other large scale performances, and I'm not sure that Western Springs has that capacity, and could have restrictions, like Eden Park, due to it being tightly nested in an urban setting.

I want the speedway to remain , not only because its been there 97 years , but its an icon for motor sports known worldwide .the so called future is too easy to throw away legendary places for what they called progress.. let the sports arena idea go find somewhere else just like they want speedway to do .

I would like this to remain a community resource, prioritise the arts and I do not think that another sports stadium in Auckland is the best option, particularly with an underutilised Eden Park so close.

The city needs to retain Western Springs for the music and festival concerts that have played for many years as well as the local clubs that regularly use this space - enhancing the facilities will allow many more to enjoy the Western Springs Bowl and what it will offer the community.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I made this decision because Western Springs Speedway is an historical venue of huge importance to the community even now. It regularly holds high quality, well attended motorsports events and as such, it is not only valuable in and if itself, it also serves as an indispensable part of the local grassroots motorsports scene.

Turning this unique and irreplaceable venue into yet another concert venue serves nothing more than to homogenize Aucklands community further, and so for these reasons, I choose to say that the current arrangements should be preserved.

I believe that the current stadium capacity in Auckland is more than enough to suit the current range of sports teams. Between Eden Park, Mt. Smart Stadium, North Harbour Stadium, Vector Arena, Trusts Arena, attendance has been poor at the best of times for sporting events. With the recent influx of top tier bands, musicians and artists that NZ is attracting in the post covid world, I believe Option 2 is much better suited to Aucklands needs.

A new stadium up At westgate. lots of space and traffic can be planned for. the bowl keeps the green spaces and a stadium is too big. you cant ban speedway for the noise and replace it with a stadium of noise thats poor planning.

It makes better use of the massive area than a boutique stadium for 12,000 capacity.

The venue can be used in its capacity (if needed) by going with Option 2.

I also think Option 1 is only serving certain sports and neglecting others

Auckland needs a boutique sports stadium that has fans close to the pitch especially for football, neither Mt Smart or Eden Park cater for this, would prefer the end stand is not the behemouth on the design but more of an enclosed area which will be a cacophany of noise when Auckland FC play. Would like to see capacity increased to 18,000 which would cater for most A-League games

The Speedway has International appeal - capacity spectator familly following and possibly the best speedway site in the World . The area outside the Stadium is a proven money earner for ongoing events which when marketed will decrease the need for council financing .

I feel the other options restrict the evolving needs of multiple groups that use and will use the facility as it is now. We have arenas for concerts already and using this facility for private profit under the guise of additions to council facilities is a tragedy. No private group should be able to take control and profit from public facilities in the way Option 1 and 2 propose. Option 3b allows for considered unrushed opinion and consultation on proper community use for all citizens now and in the future.Motorsport at Western Springs is a well known and historical part of Aucklands

history and it is true that not all Aucklanders agree with the facility being used for this, but this is diversity in action. We are all encouraged to think of our fellow citizens and be tolerant of activities others may enjoy and it is for this diversity I choose Option 3b as it allows a wider consideration of a greater number of Aucklanders entertainment and education needs.

I am part of generations of family who are and have been members of the Ponsonby Rugby Club.

A club with a rich history and success spanning over 150 years.

My father, relatives, myself and now my children play for Ponsonby.

Not only the memories but the friendships and relationships built at Western Springs are priceless and be held in our hearts forever.

Having the club remain at Western Springs will also give other people the same opportunities and chance to create similar memories as myself and my family.

I support the continuous use of the facility by the Ponsonby Rugby club with the additional use for concerts. Cost can be managed over time just as with other community facilities. I oppose that the stadium is handed over to private interests. The proposed development for option 1 is out of proportion with landscape and other users and will dominate. I have not seen any assessment on traffic, but I fear that option 1 will make the traffic congestion that we experience in the area a lot worse.

I lived in Western Springs for the first 25 years of my life and now in Mt Albert.

Across this time we had speedway and ponsonby rugby down the road alongside concerts and of course Pasifika. These are institutions. To see Ponsonby Rugby follow Speedway out would be a travesty.

I appreciate the need to commercialise but option one strips Aucklanders of access to a central hub accessible to a number of different groups and needs.

I chose option 2 as I think it this will suit the scale of the area. However I would also support Option 1. Both these options are for venues that are more in keeping with the area, in scale, participation and type. The one thing I am STRONGLY against is the continuation of the Speedway. That Noise Pollution from these speedway events are allowed is truly astounding.

It used to be OK to throw waste into water ways, throw rubbish in streams, push cars into rivers. We all know now that is is totally unacceptable. It is the same with noise pollution. It used to be OK, but now we know it is unacceptable, The particular type of noise coming from the speedway,

as opposed to concerts, music and cheering crowds, degrades the environment and is polluting the neighbourhood. Please do not allow the speedway to continue.

Speedway should stay at Western Springs! Its NEW ZEALAND sport history, gentrification is now affecting the area even more with this decision by a few dodge people who got called out and found to be in the wrong, gentrification got rid of so much culture and gear people in ponsonby and grey lynn and now trying to get rid lf a perfectly good stadium and speedway for new development.

Not everyhing needs to be new, not everyrhing needs to be developed, keep western springs speedway and ponsonby rugby club there!!!

The excitement this place brings to kids and adults is somethiing that can not be replaced and yeah not every speedway meet or rugby game is sell out but thats because it isnt a one time thing like music events with international artist.

KEEP WESTERN SPRINGS SPEEDWAY IN ITS FIRST AND ONLY HOME!!!!

As long as Western Springs keeps the speedway and capacity to host concerts or other events I will be happy. It simply isn't fair to set aside a cultural institution like this. It would be like moving Eden Park down to Papakura.

Auckland Arena is a great opportunity for Auckland. Auckland needs a dedicated home of football - which the Arena will provide. We need to build on the successful first season of Auckland FC and move forward to a ground to be proud of. Football is the most popular sport in the world, and the most truly global sport. As a major multi-cultural city, Auckland needs a better space for football. The Arena can provide that.

The new facility will have fields available for community use, and being artificial turf they will be playable all year round.

Auckland (especially central Auckland) needs more community football facilities. Seddon Fields is busy every night from 3.30pm-9pm, every Saturday and Sunday and often weekdays as well. Western Springs AFC is at capacity, particularly for junior players, and doesn't have room to fit all the children who want to play. There is still room for growth in women's football but this can't be met without further field capacity. New artificial turf fields would be well used by the community (particularly children). Compare that with the status quo, which is about 10 speedway meetings a year and 20 rugby games on winter Saturdays.

All this at no cost to the ratepayer!!!! The other options are for lesser facilities, to be used by fewer people, at significantly higher costs to ratepayers.

Proceeding with the Auckland Arena is an absolute no-brainer for the Council. The opportunity to get such a high class facility funded by external parties just has to be accepted.

Western Springs is more than just a venue — it's a living legacy, a spiritual home, a place where engines once roared and generations of fans felt the earth shake with the thrill of speedway racing. To let it go quietly into the night would be a loss not just for the sport, but for the very soul of motorsport in New Zealand.

A Legacy Written in Dust and Thunder

For over nine decades, Western Springs has stood as the crown jewel of New Zealand speedway. It's where legends were born, rivalries sparked, and where the community came together under the lights. The smell of methanol, the thunder of sprint cars hurtling into corners at breakneck speeds, the chorus of cheers echoing through the terraces — these are not just memories. They are part of Auckland's cultural fabric.

There is history etched into every inch of that dirt track. Families have passed their love for the sport from generation to generation, with kids growing up on hot chips and cold nights at the Springs, learning the names of the greats and dreaming of one day racing there themselves. It's not just a place — it's a rite of passage.

A Venue Built for Speed, Not Silence

Western Springs wasn't built to host silence. It was designed, shaped, and refined for the roar of high-powered machines. Its natural amphitheatre acoustics, iconic location, and intimate atmosphere create a fan experience that modern facilities simply can't replicate. Few venues anywhere in the world can claim the kind of visceral, up-close, seat-rattling energy that the Springs delivers every race night.

To relocate speedway from Western Springs is not modernization — it's cultural erasure. It's a decision that ignores the unique synergy between venue and sport, between track and tradition.

Speedway Is More Than Entertainment — It's Identity

The idea that speedway must move to make room for other interests betrays a fundamental misunderstanding of what speedway represents. This isn't just about engines and noise — it's about identity, pride, community. It's about Auckland honoring its own roots rather than replacing them in the name of progress.

Progress doesn't mean discarding history. It means learning from it, preserving it, and building on it. Western Springs has already proven itself — not just as a speedway venue, but as a cultural anchor. Other cities around the world envy what Auckland has at its fingertips: a central, iconic, emotionally resonant venue tailor-made for thrilling, family-friendly, community-rich sport.

The Fans Have Spoken

The people want Western Springs. Drivers want Western Springs. The legacy demands Western Springs. It's time for decision-makers to listen — not just to the roar of engines past, but to the thousands who continue to believe in the spirit of the Springs.

In Closing

Speedway belongs at Western Springs. Not for nostalgia's sake alone, but because it is right. Because there is still life in that track, still magic in that stadium. Let us not turn our backs on nearly a century of passion, adrenaline, and community.

Bring speedway home. Bring it back to Western Springs. Let the dirt fly, let the engines roar — because Western Springs isn't finished yet.

Option 1 seems to be too intrusive in a park setting. I'm concerned about land given over permanently to servicing hospitality and healthcare businesses. No info is given about carparking. Option 2 seems less intense, with intermittent high usage, and generally more limited use. The effect on the lakeside park, the zoo and Motat would be gentler.

Privatization of western springs will basically take the access away from ratepayers. Which is why I didn't select that.

Option 2 looks to have very inflated workings and I would love to see a breakdown of the related estimated costs after the figures have been reviewed by an independent auditor.

Option 3 looks to be the best as it still allows free access to the area for the general public. Western Spring on a sunny day is a treasure for the public and should remain like that.

Option 3B is a further waste of money as is will drag out the process even further and in turn, cost more money.

Let's end the consultation fees and all the additional costs incurred.

My choice is Option 3A. This option finalises a decision and closes the consultation aspect.

There are often traffic issues in that area and a stadium of that size will contribute to this. (Motorway access and GN Rd and surrounding streets. Also as Option 1 is privately funded I have presumed access will be as exclusive as Eden Park and not very community oriented or affordable. Option 2 is a good middle ground and I think it will be good to have the natural ampitheatre. Option 1 will impose on Western Springs Park which I think should remain as an easily accessible public space and place for nature and wildlife

I believe that a true and fair evaluation was not previously given to the community. It is disappointing that groups with only their own self interest and financial strength were able to override the normal processes of fair and open appraisal on the stadiums future. The options being considered had absolutely no consideration for the community as a whole and the history of the venue.

I strongly support and advocate for maintaining Western Springs to continue providing for the Auckland community as it has done for the last 100 years. This means Speedway and all the other

community and entertainment activities as it has done over many years. There can be absolutely no reason for the costly alternatives that clearly will not come within budget to move out speedway to Onehunga. This was a complete miscalculation by a few who did not listen or read the communities feeling on such unjustified proposed changes.

I don't think community land should be used for the exclusive use of business interests, and there are already plenty of other stadiums that Auckland FC can use - if we don't use them, then the taxpayer dollars spent to build them are wasted.

Auckland FC too popular will cause congestion to the nearby motorway by St Luke's - and Housing NZ is across the street from the field not a pretty look to lose trees around the site if you're building a stadium - noisy isn't it for the neighbourhood zoo? Have concerts, festivals and markets. I feel the area is too small and

let FC find other venue -- there's NO nearby train station there that Kingsland has got at Eden Park. Don't forget to look carefully at future transport routes- we don't need more numbers over 50,000 Just reduce to 30, 000

a former Ponsonby rugby player Dave Wong's my uncle. First Chinese rugby player. Have a look at the map of surroundings outside the area. On map.

Is the best venue for concerts although weather permitting. If we could retail the bowl but have it more all weather conditions (including incorporating the outdoor use) would keep the uniqueness & icon that makes this venue world class.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I am writing to express my deep concern regarding any proposed changes to Western Springs Stadium that would compromise its current role as a beloved venue for live music and large-scale cultural events in Aotearoa.

Western Springs is more than just a stadium — it is a cornerstone of New Zealand's music history and a vital part of our cultural identity. For decades, it has been a gathering place for people from all walks of life to celebrate music, community, and creativity. From iconic international acts like The Rolling Stones and Foo Fighters, to unforgettable local performances that have shaped our

own music landscape, the Springs has consistently served as a platform for artists and a space where memories are made.

Music events at Western Springs are more than entertainment — they are collective experiences that contribute to the cultural fabric of this country. These moments spark inspiration, support our creative industries, and generate significant economic benefit through tourism and hospitality. For many of us, our first concert, our most moving live experience, or our connection to local music happened within the gates of this stadium. To lose that would be to lose a part of ourselves.

In a time where creative spaces are increasingly under threat, it is more important than ever to protect venues like Western Springs that bring people together and uplift the voices of Aotearoa. Altering the stadium in a way that limits or ends its use for large-scale music events would be a great loss — not just for the industry, but for the generations of New Zealanders who deserve to experience the magic of live music in a place that has long been part of our cultural heartbeat.

Please consider the importance of Western Springs not just as a physical space, but as a living, breathing symbol of our nation’s love for music, storytelling, and shared celebration. Let’s ensure it remains a home for music and memory for many years to come.

Western Springs Speedway is an internationally recognized racing location, with an extremely strong fan base and a 100 year history. Onehunga does not have the same base. Also, the initial reasons given for closing Speedway (noise, event disruption to community etc) are false, given the two proposed replacements will increase the event related impact. The community and stakeholders were not fairly included in the decision making process. The community and stakeholders impacted by the removal of Springs Speedway need to be given significant weighting

and more so now as it is publicly known the Council proceeded while stalling the consultation process.

It's by far and away a great music venue. Has some of my best concert experiences there. Spark Arena only caters for smaller crowds. A city like Auckland needs something for bigger events. It's a natural amphitheatre so you don't have to pay for the sound effects.

Members of my family have attended Speedway at Western Springs since the late 1930's when Midget Car racing began there.

I would support re-development of Western Springs in some form if there was proper provisioning for the continuing future of Speedway. The proposed move to Waikaraka Park is not suitable on many levels.

Find a better home for Speedway and then let's talk about the proposals for re-development. This is a cart before the horse situation. Do the right thing by the many thousands of people who patronise Speedway at Western Springs.

I have been a resident of Western Springs since 1990 and have attended concerts, speedway and many other events (Pacifica, sports events, car shows etc) at the stadium since the mid 1980's. My son has also played with Ponsonby Rugby Club. The speedway should be allowed to continue at the site and so should the Ponsonby Rugby club. Constant Council restrictions and unrealistic demands, have been to the detriment of the facility. It is a beautiful natural amphitheatre, renown across the world, and it should stay as such.

Submission to Auckland Council on the Future Use of Western Springs Stadium

From: Auckland Basketball Services Ltd
Date: 13 June 2025
To: Auckland Council – AK Have Your Say
Re: Strong Support for Auckland Arena (Option 1) – Enabling Basketball Infrastructure Growth

Overview

Auckland Basketball Services (ABS) is a regional organisation established to support basketball in our region. ABS provides services to the three largest Basketball Associations in New Zealand – Basketball Auckland, Waitakere West Basketball and Counties Manukau Basketball. We strongly support the Auckland Arena proposal (Option 1) for the redevelopment of Western Springs Stadium into a 12,500–15,000 capacity multi-purpose venue. We believe this initiative is critical to addressing the chronic shortage of indoor courts and high-performance basketball infrastructure in Auckland and will significantly enable the growth and development of basketball at all levels in the region.

The Need for Basketball Infrastructure

Auckland currently faces a **critical shortfall in indoor basketball courts**, which limits participation, disrupts competition schedules, and prevents the delivery of consistent training and development opportunities across junior, youth, and senior levels. Multiple independent studies, including council-commissioned reports and Sport New Zealand research, have confirmed that basketball is one of the fastest-growing sports in Auckland, yet court availability has not kept pace. For example, School Sport NZ (2024) data tell us 7,668 secondary school students play organised basketball in our Auckland region. This is 28% of the total nation's secondary school basketball players. Basketball is one of the fastest growing sports for tamariki, rangatahi and older youth. Auckland cannot keep up the demand for venues to provide for their needs.

This lack of infrastructure affects not only grassroots participation but also talent development, coaching pathways, and community engagement. Schools, clubs, and social leagues all struggle to find venue access, resulting in capped team numbers and long waitlists. Investment in a high-quality venue with dedicated basketball courts would help reverse these limitations.

The inclusion of high-performance and development facilities supports not only the pathway and representative programmes across our region, it also aligns with Basketball New Zealand's strategic goals for talent development and regional representation.

The venue could serve as a regional training hub and host local, regional and national tournaments, bringing both sporting and economic benefits to Auckland.

Support for Auckland Arena (Option 1)

We endorse Option 1 as outlined in the council's consultation document for the following reasons:

- **Dedicated Indoor Basketball Courts**: This proposal includes **state-of-the-art indoor courts** accessible for community, club, and elite-level use. This aligns with our long-term vision to provide safe, inclusive, and accessible playing spaces for all Aucklanders.
- **High-Performance Facilities**: The venue would offer training hubs and development infrastructure to support representative programmes, coaching academies, and youth development pipelines. This could directly support the growth of local, regional and national-level talent.
- **Accessibility and Co-Location Benefits**: Co-locating courts alongside football, health, and commercial amenities will foster cross-sport collaboration, community vitality, and efficient year-round usage.
- **Sustainable and Scalable Solution**: With private investment and a long-term lease model, this option represents a sustainable solution that future-proofs Auckland's capacity to meet rising basketball demand.
- **Equity and Inclusion**: Providing more local court access, particularly in central and inner-west Auckland, ensures that sport is more inclusive and reduces barriers related to travel, cost, and accessibility.

Why Other Options Fall Short

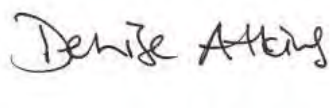

- **Option 2 (Western Springs Bowl)**, while enhancing music and festival capability, does not deliver new indoor court facilities or address the acute demand for basketball infrastructure.
- **Option 3 (Do Nothing/Explore Ideas)** prolongs the status quo, which is not a viable strategy given current unmet demand. It risks missing a generational opportunity to invest in sport and youth and community wellbeing.

Conclusion

Auckland Basketball Services strongly proposes that Auckland Council and Tātaki Auckland Unlimited support and advance Option 1 – Auckland Arena. This initiative will deliver transformational benefits for the city's basketball community and support wider goals of sport participation, community health, and facility resilience.

We are ready and willing to collaborate with other stakeholders and partners to ensure the success of this proposal and to maximise its impact for our tamariki, rangatahi, and wider basketball community.

Ngā mihi,

Denise Atkins
Chairperson
Auckland Basketball Services Ltd (https://www.absl.co.nz/)
(serving Basketball Auckland, Waitakere West Basketball Inc, and Counties Manukau Basketball Association)

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I have lived in point chevalier since 1998. I am 28 years old and have lived in the area almost my entire life. I grew up going to the speedway and going to concerts at western springs. I can remember as a child hearing the roar of the cars at the speedway every Saturday night from my mums bedroom. This venue and place is very special to me. We have already seen a historical monument be knocked down there when the 100 year old gate was removed. I personally do not wish to see more history for the area be erased. We have many sports stadiums in Auckland and for the longest time the rugby club has lived without one.

I don’t know why it can’t be left as is so everyone can enjoy the space not just sports enthusiasts.

The roads around that area at the moment can’t keep up with the traffic. If either option 1 or 2 is picked it would be extremely hard for the flow of traffic, parking, anyone that wants to go to motat etc.

We need a great awesome outdoor concert venue! Building yet another sports arena makes zero sense when we already have so many. Put Auckland FC in Eden Park or Go Media and make the Outerfields a permanent concert venue. It's so close to town! And trains! It just makes sense!

I prefer Option 2, because it's the right-sized, lightest-touch solution. It enhances what the community already loves about this natural arena that's hosted so many great gigs, while also preserving ongoing public access to the general area and retaining a home for the Ponsonby Rugby Club. Back this vision up with excellent "sponge city" drainage and landscaping, and better and more frequent public transport that can handle the biggest events, plus safe biking/ scooting connections to Great North Road and the Northwestern Path (and copious bike and scooter

parking to welcome all those who choose the congestion-free way to get there from home and from city hotels)... and we've got a winner!

Conversely, I actively oppose Option 1, because the apparent "gift" of a privately funded stadium amounts to the taking away of public space and public access for the foreseeable future – this is a false economy at any time and in any place, but especially in a growing city with a need for open public space and greenspace. Plus, quite frankly, the vibes are off; the scale and focus of Option 1 doesn't match local needs and aspirations.

Lastly, in considering any alternative /left-field suggestions that come your way, may I suggest that you always include a wider view of how people will get to and from events in this space. It's become routine to shut Great North Road to traffic to accommodate access to and for buses, and the flows of people walking and biking around the venue. Clearly the more efficient and sustainable transport modes should be prioritised in your planning, to make access as smooth as possible and avoid gridlock in the wider area. Proposals that come with giant parking buildings attached don't support a healthy vision of our city as it is and as it should be.

Western Springs is an important music venue in Tamaki. Turning it into another premium sports venue when we already have Two stadiums that struggle to be consistently full. It doesn't make sense for the area or the community. Either keep it as it is, or develop it into Aucklands very own built for purpose concert space

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

We have plenty of other sports stadiums in Tāmaki Makaurau, which are often not used to their full potential. Eden Park is extremely close to Western Springs, and Western Springs is far more valuable as a natural amphitheater and a cultural venue. Option 2 will give Auckland greater cultural capital and encourage more international and local interest in performing large scale events in Tāmaki.

Growing up around speedway and appreciating the many years it has been held here through generations in my family. It has a special place in history, the concerts here should continue as they are. Also have a connection to ponsonby rugby club which should stay as it is. Justice for the general population whom love and appreciate the history as it is, why should we suffer for the rich and powerful and have no opportunity to have the same connections with this new idea????? spend your millions elsewhere

i like option 2 but do not like that it will end up costing rate payers more than the other options, im also wary that Eden Park seems to get more and more concerts now and so even though i think Western Springs is an iconic music venue, its hard to make choices when the councils preference for a concert venue isnt widely known. I.e, in my view it would be pointless spending money on Western Springs as a concert venue if most concerts are held at Eden Park.

The city need live music and thrives on cultural experiences. An outdoor music venue that can scale and has a stage would add to the multi cultural landscape of a city and be enjoyed by thousands. A football stadium that's not big enough for the big games doesn't make sense.

Auckland Council need to pull their heads out their backsides because it's pathetic. Destroy history for their own benefit and waste rates payers dollars doing so.

Thank you for the opportunity to provide feedback on Western Springs.

I have lived in the area for over 23 years and have regularly walked around the park. I selected Option 3B because I do not want the Speedway to be moved.

Over the years, thousands of people have enjoyed the Speedway events, and I've never once had an issue with the noise, behaviour, or general activity associated with it. In fact, the Speedway has always had a symbiotic relationship with the community and has helped give Western Springs its unique identity.

I was horrified when I learned what the Council had done—it made me question whether there was another agenda at play. As it turns out, my suspicions were right.

Suddenly, we were presented with just two options:

A football club underwritten by billionaires—despite the fact that the sport already has two stadiums in Auckland.

Concert promoters who have long operated in other venues.

It appears that the Western Springs Speedway Association was unceremoniously dumped to make way for projects favoured by certain council members. I strongly disagree with how this was handled. It felt like the community was railroaded, and the process has raised serious concerns for me about accountability—especially in the context of significant rate increases.

I do not use council amenities or attend concerts. I do enjoy football, but I don't believe Western Springs should be sacrificed for such a narrow demographic—particularly when existing stadiums can accommodate matches.

What I would like to see is:

The continuation of the Western Springs Speedway as it stands.

Concerts held there when timing and logistics allow.

My current rates make it difficult to enjoy the few things I do care about, as my discretionary spending is eroded each month. If I must continue to pay for amenities I don't use, I would at least like to see my rates support the preservation of a historic and culturally significant venue like the Speedway.

Finally, I will not be voting for any representative who prioritised personal pet projects over the interests of thousands of Aucklanders.

Thank You

We were told that this was going to be developed for Test cricket - so why is this not happening? Neither option maximizes the potential of this site and both sets of promoters seem to have very narrow ideas of the potential. I urge the Council to consult more - short termism is not great for our fantastic city.

Handing it to private concerns sounds good but in the long run is is selling Counci ratepayers land to private providers. They will at alll costs want to make a profit and we will see only those that can afford it is this area.. I also love the option of combining the arts with sport . Not enough is done in Auckland to support the arts or community sport. We could throw some conditions in re Ponsonby rugby AND OTHER USES to make their activities accessible to all and also look to their responsibilities to the communities of Auckland. Once sold to private providers we lose all contro

Like everywhere else in New Zealand, Football is growing in numbers and skill level in the central West very quickly. Currently, we have no local Futsal competition, and public use of a facility like this could really help for this and other things.Most importantly, giving Auckland FC Home where they will have so much support around would be fantastic for the local community and for Auckland FC. The size of the stadium is perfect, as not every season will be as successful as 2024/2025, so in the future, the crowds will still look good in numbers

Western Springs Bowl has always had a community focus in my experience and I would love to see it stay that way. I attended my first ever concert there (David Bowie) and the natural amphitheater is ideally suited to music events. Generations of families have grown up with the Ponsonby Rugby club and return to take their own children there. The club clearly does an amazing job of getting thousands of children into sport, but it is also more than sport. It brings whole families together into a community, it is an important part of our social fabric as well the mental health wellbeing that accompanies participation in sport. We use the facilities up to 4 times a week between

trainings, game days and club celebrations, while my son is training I can go and walk around the Western Springs Lakeside giving benefit of the facilities to both of us. No other viable option has been given for relocation of the club and a club of such longstanding history and pride deserves some certainty to be able to plan for the future and continue to serve its community. The floods were devastating for the club but to be homeless would be far worse.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

(1) I am strongly opposed to privatising the use of any siginificant area of this fantastic public amenity when our city already lacks large open spaces and we are steadily increasing our population density with the construction of apartment buildings where outdoor space is almost non-existent. Option 1 locks out the vast majority of the local community, including the wonderful Ponsonby Rugby Club, so it should not proceed. (2) Western Springs Stadium is an iconic amphitheatre with a rich history of live music and lives strongly in the hearts of thousands of fans including myself. Option 2 is the best way to contionue this tradition. (3) Auckland City has a

responsibility to protect public spaces and to retain them for the use of all its citizens, not just a select few, no matter how attractive their proposal might look. Option 1 should not proceed because it hands over control of public space to narrow private interests.

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I strongly support Option 2 for the future of Western Springs Stadium.

The Ponsonby Rugby Club is an iconic institution in Auckland's sporting and cultural history. Any redevelopment of the stadium should recognise and preserve its role as a cornerstone of the local community. Option 2 provides a balanced vision that retains the character of the venue while opening it up for broader community and event use.

Importantly, I believe public facilities of this significance should remain in public hands. I do not support proposals that would transfer long-term control to private developers, as is the case with Option 1. Public investment in facilities like this should deliver ongoing benefits to Aucklanders, not be tied up in exclusive or commercial arrangements that limit access or erode community identity.

Option 2 also offers an exciting opportunity to revitalise the site as a major concert venue while still accommodating grassroots sport. This dual-purpose approach is both practical and inclusive, serving the diverse needs of Auckland's population.

Please prioritise community value and long-term public benefit in your decision.

It suits my use of the area, and also maintains existing usage as a concert/event space, and the local sports club. I feel it's an area utilised by the Auckland public and should be maintained by the council and stay under TAU ownership - please do not sell it off. The ideas of upgrading the facilities for the sports club and a permanent stage area sound exciting! There are so many international artists wanting to tour NZ that we have concerts during weekdays now. Western Springs is a unique venue to feature some of these shows.

It is a much better option for both the local area and the city as a whole! We need more of these types of venues for Tāmaki Makaurau to ever be able to entice back international music acts to our wonderful city again, rather than skipping us in favour of more shows in Australia.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1 seems very expensive in capital costs and provides a lot of infrastructure that we don't need as we already have Eden Park, Mt Smart, Spark Arena and North Harbour Stadium. It also gives away control of the facilities to an entity that wants to profit from the use of them for the next 100 years. This will end up costing the ratepayer a lot more than they have advertised. Entities that make profits for their share holders are probably not going to have Aucklanders best interests at heart. And risk not lasting 50 or 100 years. Who cleans up the maintenance bill then? Ratepayers.

Option 2 isn't my choice for the same reason as 1. We don't need a fancy venue at some considerable cost to ratepayers in a cost of living crisis when ratepayers are already being squeezed. There are other priorities that would better benefit the people of Auckland.

Option 3a is do nothing. Which perhaps could be improved on.

Option 3b is continue Ponsonby Rugby Club's lease which would be preferred as they have done a lot of good work for the community and run lots of non professional games for the community children and young men. While Rugby is not the only sport here in Auckland, it is an important one and they would perhaps find it difficult to find somewhere else in this area. Also 50 to 100 years is 2 to 4 generations. A long time. We should keep our options open for any other ideas that may come up over time. As Auckland grows there may be other needs.

Will promoted higher utilisation of Western Springs facilities. Will provide a larger array of public amenities. One important aspect for me is that a suitable facility is secured for Ponsonby Rugby Club if Option 1 is given the go-ahead. This could be re-vamped club rooms and facilities at Cox's Bay or elsewhere in the inner-west area. Ponsonby Rugby deserves to be supported and have a

suitable home and facilities. It’s does an amazing job of supporting inner-west youth from diverse backgrounds and cultures to engage in sport and community activities

I am keen to keep motorsports out for noise and other reasons. The arena option allows for an interesting sport and entertainment space while the largest concerts can find alternative venues in the city. This is also the cheapest option in terms of public funding.

Amazing space for outdoor concerts, much better than the stadium experience. Incredible history of world class shows. Loosing this as a music venue means likely loosing access to more top international artists who dont want to play stadiums. Would be an incredible loss to loose a central venue in a major city like this. We already have two perfectly good stadiums for sports, why build another and hurt the live music business in the process?

Option 2 offers a unique opportunity to elevate Western Springs into a world-class live music and cultural venue while retaining and expanding its community sporting role.

This proposal builds on the site's natural amphitheatre to create a "Hollywood Bowl"-style concert venue with capacity for up to 50,000 attendees. It enhances Auckland's ability to attract international acts and large-scale events, strengthening the city's reputation as a premier entertainment destination.

Importantly, Option 2 doesn’t compromise on community value. It allows Ponsonby Rugby Club to remain on-site and broaden its reach into sports like basketball, netball and touch, with the potential to develop a 5,000–8,000-seat boutique stadium for community and semi-professional sport.

With shared usage between concert seasons and sports activities, this option delivers year-round benefit, balancing cultural, economic, and community interests.

While it involves some public investment, the long-term return in terms of social impact, cultural capital, and civic pride makes Option 2 a forward-thinking, inclusive, and community-centred choice.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Options 1 and 2 would result in over-development of the existing site - best to keep the venue small and intimate, and in doing so keep the overall site as large a green space as is possible. Option 3a would also help retain something of the history of the site (which would be lost with Options 1 and 2). Most importantly, I feel that the motorsport/speedway community have not been properly treated in this whole debate, and that it is therefore essential that some opening be left for the possibility of speedway returning to the site - I am not convinced that Waikaraka Park is the right alternative, nor am I convinced that the speedway community actually want it as an alternative.

Western springs should never be given to a private enterprise no matter its use. We also need to consider the musical heritage the bowl holds. As a production manager and concert goer no where in Nz holds the same mana. I can also tell you international acts have often expressed how special playing WS is. We have an opportunity to build a rate payer owned destination equivalent to the Hollywood bowl in LA. Let’s not screw this up.

Like other institutions such as the Museum, Speedway has almost 100 years history at the site yet no option is being provided to reflect his history. Waikaraka Park is woefully unsuitable given the state of the facilities and $11m is not even close to bring the facilities up to standard.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1 is a great option! New facility to promote football, basketball and sports in the area. Why not aim slightly more capacity or maybe have an easy option to add extra capacity for big game.

Also I think there are omly 3 x stand, why not 4 x stand and fully enclowed the stadium?

1. The use of public land should not be privatised for the benefit of a single use whose future is unknown.

2. Auckland does not need another stadium, regardless of public or private investment, when existing infrastructure is under utilised.

3. Ponsonby Rugby Club and the entertainment entertainment industry have a long history within the area and Auckland council needs to accomodate a solution for both.

I've been going to the Springs for speedway for 30 plus years and believe it would be a travesty to lose this iconic race track which overseas drivers believe is the best venue in the world. Does Auckland not want to have such an accolade to entice more tourists to come to our city.

Western Springs is the nicest concert venue in Auckland by far, upgrading it a little is a good idea, as is incorporating community facilities. I feel this option will be of most benefit to both the local community and greater Auckland.

The Auckland Arena option could be world class but the design developed looks poor. The Arena doesn't sit well in its surroundings or enhance the existing landscape. If this reflects the ambition of the submitters, I would have concerns about the final quality of the development and whether this would be a good outcome for the community.

The Western Springs Bowl in contrast does look to enhance the existing landscape and does appear to have ambitions for a world class, high quality outcome. The opportunities for the community seem good but I'm not sure the rates burden on the whole community is fair. I wonder if there is more the submitters could do to finance this outcome.

In summary, either could be good. The Arena with a reimagined concept which integrates with and celebrates the landscape, or the bowl with an improved financial model for ratepayers.

I want to see the land and facilities remain a publicly available resource. I love Auckland FC, but my concern is that the facilities will not have casual public access for kids kicking balls and picnics etc. I'm also worried about Ponsonby Rugby Club - I have no connection to the club, but really feel for them and don't believe a viable alternative has been proposed for them. I like Option B as it keeps the green space and enhances the current use. I also disagree that we have a stadium shortage - Eden Park is just down the road and could easily accommodate a smaller capacity rectangular stadium on the outer oval if their Eden Park 2.0 plans go ahead. Eden Park's

public transport links are far superior to Western Springs. While I have said I support Option 2, I would also also support an option 3 that used the Western Springs site for test cricket as it's ridiculous that a city the size of Auckland has no test cricket venue.

This is all about community. I have lived close to the stadium for 40 years and raised a family. I have boogied to Bob Marley and David Bowie. Pushed strollers through outer field events including Pasifika and do not want this cultural icon ruined by the loss of a real Aotearoa identity to big business interests. We want to keep our back yard.

150 years of rugby history for Ponsonby, we deserve to stay. Our club have produced so many professional players, this history is rich, and deeply rooted. My family have seen 3 generations play here, starting from my late father, my generation and now my children..... I know for a fact, when we said to our children (13,10,8 and 5 who play for Ponsonby) that we needed to pray to save Ponsonby, so many questions asked, why, why cant they go somewhere else, why cant we stay this is HOME! We belong here! The sad faces, the look of worry, why... why would you want to break their little hearts? I can honestly say, why do that to them they are the future of this club give them that stable "home" they deserve... this is their HAPPY place, this is where Ponsonby

belongs..... I can honestly say that this club are producing some.of the greatest players you will ever see in the history of rugby for the whole of NZ and the world.

This club is open to any one, not just the elite...

The cost of living is high already, but Ponsonby Rugby is affordable, families can afford it, soccer on the other hand..... only a minority can afford it..... only the elite can afford it... so what about every one else?????

We pray the we stay here, we pray that our home doesnt get taken away from us.

Save our CLUB, SAVE our beloved PONSONBY

Western springs dosn't deserve to be shut off from the public and community in order to turn it into Auckland FC home ground. Concerts at an outdoor venue, specifically western springs are iconic and something you can’t recreate. Ponsonby rugby is rooted in the Auckland club scene moving this family from western springs will be detrimental for the area and the clubs members like myself.

Our area is clearly in need of a football stadium. The popularity growth is unmatched and will continue in the area. There are a number of resources available to Rugby (Eden Park) but nothing to support the future growth in football,, ponsonby rugby could share folds or Gribblehirst parks which are currently dominated by rugby/rugby league. The speedway is clearly in the wrong place with the growth of the city and an alternative is available in onehunga. Thanks hopefully the best decision for the future is made not legacy emotion.

Love attending the Speedway, gigs and festivals in the bowl & outer fields at Western Springs.

Have lived in Western Springs for over 20 years.

I would prefer option 3a or 3b. Option 2 has a few things which should be utilised.

I want to see Ponsonby Rugby club retain their lease at WS.

Send AFC to Avondale Raceway or North Harbour Stadium.

Speedway should never have left WS!

I took my now grown kids to speedway when they were younger and we have such great memories of that family tradition, especially the 50 lap meeting and the traditional Boxing Day meeting. My father used to take me when I was a kid and I'm almost 80yo now and now my adult son takes his family there. It's such a safe family friendly event. I've paid taxes and council rates here my entire life - please do NOT stop speedway at western springs. And I know if my husband were still alive he would say the same. He would also agree with me how shamefully the council has dealt with this issue. You should be ashamed.

I strongly support the return of speedway to Western Springs. My family has lived in this community for over 40 years. The speedway has been an integral part of our community and enjoyed by myself along with my four children. The sound of speedway has always been a memorable part of summer evenings. While we may not have attended every event the sound was an identifying element of Mt Albert. I understand neither the competitors or organizers wanted to leave Western Springs, and I support their return along with redevelopment of the speedway at that venue.

It's crucial that the history of our grassroots rugby clubs are honoured. It would be unconscionable to turf them out in any way. However, it's also important to the community that we grow and flex with the times and what the local economy needs. I think option 2 is the only one that covers these bases appropriately.

Speedway has been in Western springs for 96 years when I was a kid would always go as a family, went to concerts and worked selling chips and coke as a teenager. This stadium needs to be for the future generations to enjoy as a family just like we have over the past 50 years.

It's imperative that speedway remains at Western Springs. It's one of the oldest purpose built racetracks in the world still in use and the heritage it represents must not be lost

i would have preferred option 3a 3b to have been together. i feel that there is a risk of the area becoming soley for commercial gain and thus excluding a large part of not only the local population but Aucklanders in general. it is an area that should be able to be accessed by everyone not just certain groups or the .wealthy

I believe that Western Springs should be kept as the home of Speedway. I'd like to see more music concerts and festivals as we already have such as Laneway. I think art/music/speedway/sport can continue to co-exist.

Auckland already has several large sports stadiums but lacks community spaces for sport, culture and recreation and is also desperately short on great music venues. Option 2 will produce a western springs facility that caters to the needs of the Auckland public and not a privately controlled, shut off stadium that frankly Auckland does not even need. I think we are being distracted by the promise of significant private investment that produces a facility the city does not need and removes one of the best public use facilities in Auckland. Ponsonby Rugby Club has mana and adds grat value to Mt Eden when I live and the wider community, what they propose will only add to this and the addition of a great music facility is a welcome one. Please do not move

ahead with allowing private interests take away public control of an amazing asset for the city - all to save less than $1m a year.

I have included a written submission which I request that councilors read

Thank You

Submission on the Future of Western Springs Stadium

I am submitting as a long-term resident of the Western Springs area and as someone who has closely followed the history and discussion around the stadium's use for the past several decades. I have lived within 2km of the stadium for over 40 years and can see it directly from my home. I have a personal stake in its future use, and throughout the years of debate over its direction, I believe the council has consistently failed to meaningfully engage with the local community — those of us whose daily lives are directly impacted by any proposed developments.

In my view, the right option for the stadium at this time is to **maintain the status quo** while actively **exploring complementary uses** that work alongside the existing activities. I would have selected both **Options 3A and 3B** in the feedback form if that had been possible. The stadium has been treated like a political football for at least 15 years, with successive proposals from ATEED and now Tātaki Auckland Unlimited appearing every few years — often unsupportive, if not outright dismissive, of existing users.

It is clear to me that the council, through ATEED and now Tātaki, has viewed the stadium as a "problem" and has repeatedly sought to impose top-down solutions. Yet the stadium already has a long-standing history of successful and diverse use: from speedway to Ponsonby Rugby, from concerts to community events. Why these activities have consistently been treated as obstacles rather than assets is entirely beyond me. It is backward thinking.

A **mature and constructive approach** would recognise the existing uses as strengths, working to enhance and support them while incorporating complementary new activities where possible. The current "either/or" approach — excluding valued existing users to make way for a commercial arena — is unacceptable, if not immoral.

I strongly object to Tātaki's promotion of **Option 1** above other alternatives. It is **not appropriate for a council-controlled organisation to advocate handing over a public asset to a private, predominantly overseas-owned consortium** based on the vague and insubstantial reasoning that has been provided. It is particularly offensive that this would come at the direct expense of a community sports club with more than a century of local history. To compound this, no suitable replacement venue has even been proposed for Ponsonby Rugby. This situation should be unacceptable to every ratepayer in Auckland.

The public justification put forward by Tātaki in the **Stuff article (30 April 2025, "Auckland FC home base is Tātaki Auckland Unlimited's preferred option for Western Springs Stadium")** does not withstand serious scrutiny:

- **"The proposal strongly aligns with the Tātaki trust deed and council's stadium investment objectives."**
  This is vague, almost meaningless, without further explanation or measurable criteria. The public deserves more than empty platitudes.

- **"It offers a major financial and infrastructure contribution to Auckland sport, with no additional cost or ongoing reliance on ratepayer funding after one-off funding that may be required to cover displacement of Ponsonby Rugby and upgrade of Stadium Road (estimated at $13 million)."**
  Even if true, has any thorough evaluation of risks and downsides been conducted?

What happens if the consortium fails in a few years? What financial and community burden will fall back on the city?.

- **“The proponent has a strong track record in delivering large-scale stadium projects.”**
  This claim is unverifiable. From my investigation, it seems that one individual has involvement with other stadium projects overseas. This is tenuous at best and does not justify handing over a major community asset. This consortium has no local track record.

- **“The concept is innovative, with flexible community uses and improved connections to the surrounding precinct and attractions.”**
  This could equally be said of **Option 2** or a properly supported version of the current use. It’s not a compelling argument.

- **“It is expected to boost attendance and utilisation at Western Springs Stadium, while supporting access for community groups.”**
  There is no evidence for this claim. The reality is that existing users could likely deliver greater utilisation if they were supported properly by council — something that has been consistently withheld for over a decade.

- **“The development helps address a recognised gap in the fast-growing sports of football, basketball, and padel.”**
  Recognised by whom? Even if these are legitimate needs, addressing them should not come at the expense of displacing well-established community groups. Has the possibility of including some of these uses alongside the existing use even been canvassed ?

I sincerely hope that justice will ultimately prevail — that Western Springs Speedway will be returned to its rightful home, and that the actions of Tātaki in promoting this flawed proposal will be properly scrutinised by both the council and the public.

Thank you for considering my submission.

Kind regards,
[redacted]

I'm writing in strong support of future plans for Western Springs that both enhance its event potential and retain the Ponsonby Rugby Club as a key stakeholder of the grounds.

The idea of a permanent stage at Western Springs is fantastic. It makes sense to invest in infrastructure that supports the many events already taking place there, while opening the door to new opportunities in the future. The Western Springs Bowl would be a worthwhile addition to the area.

However, any proposed changes must also accommodate the Ponsonby Rugby Club. This club has been based at Western Springs for over 30 years. It's not just a tenant — it's an institution, one of the oldest rugby clubs in Auckland, and a critical part of our sporting heritage. It has produced more All Blacks than any other club, and its continued presence at Western Springs is vital to the club's own future.

Rugby is more than just a sport here – it's a cornerstone of New Zealand culture and identity. Removing Ponsonby Rugby Club from Western Springs would jeopardise the club's long-term viability and would be a deeply unfair outcome, as it would effectively leave them homeless — there is no other suitable ground or facility in Auckland that can support the club at the scale it currently operates.

In contrast, proposals that favour newer sporting groups at the expense of long-standing community clubs like Ponsonby Rugby risk undermining the stability and continuity of grassroots sport — in particular, rugby — in Auckland. It sends the message that deep roots, proven commitment, and cultural significance matter less than the appeal of something new and untested.

With regard to "the Auckland Arena" — it's a lovely idea, for another city in another country. New Zealand has a tendency to think bigger than it can sustainably support, and I worry that the proposed redevelopment of Western Springs through the Auckland Arena concept falls into this pattern. A venue with seating for 15,000–25,000, alongside indoor courts, training fields, wellness centres, and hospitality precincts sounds impressive — but it's worth asking whether Auckland has the population and event demand to realistically support such an ambitious facility.

We've seen this before with the repeated proposals for a waterfront stadium at the Viaduct. Despite the vision, funding and feasibility remain major roadblocks, and the city continues to underutilise existing venues. The risk here is that we chase the new and shiny at the cost of what already works — and in doing so, we lose community institutions like Ponsonby Rugby Club without ever achieving the high hopes promised by these large-scale developments.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

My primary concern is that there are no fireworks discharged there, it's too close to the zoo. Beyond that, I don't care for the Speedway but it works there, I don't see why it needs to move. Spending money on turning Western Springs into a decent sports stadium is futile, we've already got two half-done stadiums in North Harbour and Mt Smart. Eden Park is far more advanced and if they put a roof on it, it's always going to be a better venue in terms of transport access, size and appropriateness.

Needs to be a part of a bigger picture and I don’t like the idea of rich people getting their way by purchasing their way and us losing public property. Helipads and football stadiums. Self interest. If they have money to throw away how about something that they do not have a direct interest in.

Auckland does not need another large stadium - money should be going to help fund small-scale local venues by funding creative ventures or upholding and maintaining what little venues and gig spaces we already have. Spark arena already fulfills that niche in our current market, having another arena would have no effect other than putting more strain on the wonderful but struggling local scene we have. Support independent artists, not highly funded international acts that don't need our money

The arts and entertainment needs to be supported, and important heritage needs to be preserved.

We do not need another boutique sports stadium that will get occasional use as an entertainment/arts venue - use one of the other ones that are already struggling to fill - Eden Park for example.

With option 2 this will retain community access, the rugby club, and continue a history of putting on spectacular concerts there - Laneway Festival, and the history including David Bowie, Bob Marley, to name a couple....

It will give local and international performers another platform for their craft - what an appealing place to come if you're an international touring artist playing shows around the size of this venue.

Spaces like this is something the arts (and everyone - the arts are intrinsic to life) need more of - and to be recognised for - the contribution to GDP by the arts outweighs the public support and infrastructure it gets substantially. And it would be a fantastic, public-oriented (not billionaire-owned football club) dedicated multipurpose amphitheater at that - something Auckland currently does not have but would greatly benefit from.

Keeping things as they are means Western Springs Stadium remains in public ownership, that's the main thing. Ponsonby Rugby club extended lease is covered by rates only after 2027 estimated at $620,000 a year for 50 years. A lot can happen in a year including finding alternative funding. It is important for concerts and festivals to be managed by TAU as part of Tamaki Makaurau unique brand and identity at Western Springs Stadium. eg. ANZAC, Matariki, Waitangi

Day, AAF, Pasifika, and many other important historic celebratory dates and events in collaboration with local Iwi Ngati Whatua, Tamaki Paenga Hira.

There is a rich tapestry of history tradition and culture that Western Springs Stadium under the entrepreneurial guidance of TAU, that can be and is yet to be nurtured and developed for the benefit and wellbeing of all in this peaceful centre of the city of Auckland, Tamaki Makaurau.

I have lived 0.8 km from the Stadium for nearly 50 years. The "Bowl" option best fits use of the Venue for the future. I really do not want the Speedway to stay, because it is a noxious use: intolerable sound in particular. Option 2 Cost est is given at $1-2M per annum; bearable because housing density is already much greater than 50 years ago and recreational opportunities have not kept pace with density. <mail@ensor.co.nz> No supporting docs.

What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I feel it will provide the most benefit to the greatest number of Aucklanders. I expect it is the option which will result in the greatest number of Aucklanders to attend events or generally access the site.

I would like to see Speedway retained at Western Springs. I often attend the Speedway as spectator, and live locally. Great entertainment. I am now in my 70s, have been going for years.

No viable options to move Ponsonby Rugby club. Their contribution to the community is significant. Their history speaks for itself.

Kia ora Councillors

I have grown up in Mt Albert and now live here with my family. I attended Western Springs College and spent some years living next door to the stadium on West View Road.

I believe that Option 2, Western Springs Bowl, is the best decision for our community as it keeps Auckland's assets in community ownership and ensures community access.

My son has played junior rugby at Ponsonby Rugby Club and as a family we have been involved with the club for 7 years. The club not only provides rugby opportunities for hundreds of local children, it provides a community connections for young families. I have met countless friends through the club. Now our children are at high school, the club continues to provide us with a venue for fundraisers and other community events, always opening it's doors to use it's facilities.

Not only does the club welcome new families, it is a place for people to return to after high school or professional careers. The club is a family, with generations of members, and on any given day you will see a former All Black, children, aunties and uncles, all connecting over a game, a meal or a drink. The club is a community and venues such as these are few and far between.

Western Springs is more than just rugby, it's an iconic concert venue with lush green surroundings. Most Aucklanders will name a concert at Western Springs among one of their favourites they've ever attended in our city (alongside the St James!), and it would be a travesty to lose another venue such as this. The pictures from Bob Marley's 1979 concert are known to those (such as myself) born years later. We have stadium and arena options for concerts, but we don't have an outdoor bowl common in most cities.

With speedway moving to Waikaraka Park, we now have the opportunity to invest in Western Springs Bowl as a truly multipurpose venue, for iconic concerts, for one of Auckland's top rugby clubs, for continued community access.

By investing in Western Springs Bowl, I believe it would create a better venue for other local events such as the Pasifika Festival and the Albert-Eden Cultural Festival. It will continue to be a largely green space, fitting of the area.

I have concerns with Option 1 for two key reasons:

1) By allowing private entity control, we the community will lose access and it will still cost either ratepayers or taxpayers at some stage -- just like Eden Park. We should be keeping Auckland Stadiums in the hands of Aucklanders. If the consortium would like to build a new venue, it can be done downtown (where we truly do need a rectangular stadium) without losing the current use and history of Western Springs.

2) Auckland needs a cohesive strategy for it's stadia; allowing the area shifts a tenant (Auckland FC) of Mt Smart, and still doesn't solve any long term questions on future use -- where is the home of the Warriors? Moana Pasfika? If you've ever attended a Blues game at Eden Park, you'll know that it's soulless. It's too big for the majority of the season; while the Warriors have never won a game there. We do need a rectangular stadium downtown with public transport access that is similar to Brisbane's Suncorp Stadium in design. If private investment is to be used, it should be on an asset that will truly benefit Auckland in the long term.

Option 1 simply creates more questions than answers when we look at the long term stadia plan.

I support the Western Springs Bowl option for Aucklanders. It's for everyone and for our future.

Keeping Western Springs as it is is the only option.

Western Springs is the home of speedway and a great night out for all the family.

Also Ponsonby rugby needs a home and it’s the best place for it.

Money doesn’t need to be spent on the Stadium if rugby,speedway and concerts are to remain.

If we move speedway and Ponsonby it’s going to cost money.

It’s not broken so why try to fix it.

I’m a huge football/soccer player,fan and have been all my life but I still want Western Springs stadium to remain as it is.

Myself and my family go to speedway as it’s a great night out.

Do the right thing and leave western Springs stadium as it is.

Focusing on the performance arts aspect could bring more focus on the arts to the centre of Auckland and revive performance opportunities for nearby clubs and studios. Concert capacity could be spread out across Auckland with the power station and spark and provide a more regular central entertainment centre. Can also see it being a great space to lease to nearby WSCW and TAPAC to rehearse performances

Nz does not have an outdoor large size venue for music or sport. This would be game hanger for the nz music industry and we are already losing venues left and right. This is a unique opportunity to up the scale and allow touring large acts to bring their shows to Nz and this helps local economy and culture.

Option 1 will deliver a best in class facility for Auckland at no cost of ratepayers, whereas the other two options involve meaningful estimated costs over the projection period. It will be available year round and not just cater to football, but be open for basketball and padel. It strikes me this option will 'make the most' of the space, getting used for a wide variety of activities.

I chose keeping it as a Western Springs Bowl. Because my family owns a business that supplies workers for Events at the Western Springs Stadium.

We are local and own a dairy in Morningside.

We also have strong ties to Ponsonby Rugby Club and utilised the Clubs facilities for many years

Please keep Ponsonby Rugby Club at Western Springs.

If you change it you will upset the locals with too much congestion and traffic. It will also disturb the local wildlife at Western Springs Lake. No Arena! Only Ponsonby Rugby Club and Bowl.

We have Spark arena already and don’t see a need or demand for another arena (from a music standpoint - since Auckland is not often on the tour schedule for international touring artists), I think the bowl concept would be far more of use to touring artists, and would still keep a lot of the beauty and nature surroundings that Western Springs is known for.

Option 2 keeps the use of the stadium mostly as is (except for speedway). Western Springs is an excellent venue for concerts with its natural bowl. Way better than Mt Smart. The outer fields work well for festivals.

Option 1 does not make sense. The proposed stadium is too small to be useful and takes away the use for the public. AC would effectively be giving away Western Springs to a private for profit entity. History tells us that it will eventually not be financially viable for them, and they will

require public funds to bail them out. Football is better should be at Albany. IT would be a win for Auckland if Auckland FC spent the money upgrading Albany by adding a north stand.

My second choice would be Option 3B - i.e. keep as is with the speedway.

I feel this has being uses as a speedway etc fir several generations. I gone there as a child with family and they had Aldo frequently gone with agers. I am sick and tired of people shifting into these areas and want yo change these things. They have all being very awear that the speedway was there. Please please font let us loose this amazing area for the use it was intended for.

We need better purpose built stadia. Mount Smart is old, too hard to get to. Albany is a whit elephant. I will love being able to easily go to AFC games: it uses private money not rate payers

The stadium is a beautiful natural amphitheatre it would be a great shame to spoil the setting and outlook from the terraces with a small "bespoke 12500-15000 stadium". Large concerts would not be possible.

I voted for bowl because it is a natural amphitheatre which can provide uplifting, inclusive community events for many different people and interests. An enclosed sports facility can be built anywhere on unused land. This site should remain an unenclosed part of the greater Western Springs park area. It should be available for varied public uses, not limited to exclusive commercial membership. (I am also receptive to options 3A and 3B but strongly oppose option 1.)

Auckland doesn't have a purpose-built live music venue that can be used for anything from smaller scale events to large scale concerts and festivals.

It is really disappointing to attend music performances in buildings and stadia designed as sports arenas as the sound is never very good. Western Springs is a natural amphitheatre, and it would be a real shame not to continue to take advantage of that.

I have enjoyed outdoor concerts at Western Springs throughout my life and would really like to have this remain as an option going forward, connecting Auckland's future with highlights of its past. With upgraded, permanent infrastructure to bring these events up to a international standard, without any promoter having to factor in the cost of putting systems in place temporarily, we have a better chance of being included in the tour circuit for more diverse acts from throughout the country and the world.

A large outdoor venue is often more accessible in terms of cost to the public as well, so more people can enjoy performances, different people are brought together and a sense of community can be built in a way that indoor venues are less likely to do.

If sharing the facility with sports clubs can ensure that the venue is well used, costs are offset, more Aucklanders have a sense of ownership over it and this does not detract from its value for and use as an outdoor music venue, then I am wholeheartedly in support of that too.

Thank you for the opportunity to provide feedback. I hope your deliberations will come out in support of Option 2.

I have many years of connection to Western Springs with Speedway, Ponsonby Rugy Club and live close by in Pt Chevalier. I feel we have already plenty of stadium options but this is the only open air amphitheater in Auckland. It is unquie and special, much more important to keep than a soulless stadium.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I have lived near Western Springs, in Point Chevalier, for more than 25 years, and have watched the area evolve over that time. I strongly feel that the Western Springs Bowl proposal serves the needs of the local community in ways the Arena proposal does not. I support the idea for a multi-purpose hub for local sport and even more so the idea of a flexible home for music. I think the Bowl plan could be enhanced by the inclusion of a small indoor performance venue and perhaps meeting or function rooms, and I believe there is great potential in a relationship with Western Springs College, which has an ongoing history as a place for contemporary music to take shape

(its yearly showing in Smokefree Rockquest is significant). The Arena plan, by contrast, feels like an outside imposition on the community – and a long-term privatisation of public space, which I do not support.

I believe disestablishing an almost 100 year Auckland tradition for many people is the wrong use of the western springs stadium. This could be a multipurpose venue that includes speedway.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I am opposed to Option 1 because it effectively sees a public asset disappear into private control for up to 100 years.

I'm also not keen on Option 1 and 2 because the location is not well sited for public transport and large scale events at Western Springs Stadium have historically lead to gridlock and road closures that impact a lot of people.

I'd like to see the green space retained.

I also feel that it's important to support grass-roots sports. As more and more people live in apartments and on smaller sections, facilities like the playing fields become more and more

important for physical wellbeing and the building of community connections. The longstanding history of Ponsonby Rugby Club at this venue, and their commitment to supporting young people to be active and engaged with their community, should be supported.

I would also support Speedway continuing at the venue.

It's a good, already built amphitheatre and doesn't need loads of dough thrown at it. The extended grounds are good for festivals. Rugby and speedway can still use it too.

I am against a public facility becoming entirely privately managed for such a long period as in Option 1. I don't think the area is big enough or suitable for Option 1. I believe that it would 'take over' the area. I like the idea of Option 2, as it sounds a reasonable middle option both for the area and for the costs.

I have some concerns about what parking facilities would be available for any option. I therefore think that it would be good to keep exploring the options and to come up with something that fits in with the area rather than just looking at the commercial possibilities.

I understand that a judicial review is being sought on the exclusion of speedway from Western Springs. It would seem very sensible to wait / continue the current "holding pattern" until that has been decided.

No doubt option 1 is tempting for some. However, I am suspicious and skeptical of the big dollar proponents and do not wish to see this public place being so much under their control and no doubt for their financial being. If they have so much money to splash around, I suggest they find an alternative site that they can develop on their own.

I think speedway has had a very raw deal, with, it seems at least some misrepresentation involved. I believe any lasting solution needs to include provision for speedway at Western Springs.

I believe option 2 is best for the community as a whole. It also preserves some of the existing uses for the area and does not serve the interests of a few. I also do not believe the financial plans outlined in option one are sound and I think the ratepayers will still end up financing a facility for a privileged few

Because I believe that not only will is it a perfect place for Auckland Fc, with already having big attractions here like the Zoo, Motat ect so accessible by lots, but it will be used for more then one thing including one of the biggest growing sports in NZ or The world, a venue where concerts can be held and a nice community place.

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I am part of a cultural or community group with an interest in the area

There are three options to consider

Which option do you prefer? Select one option only.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

The stadium concept will open up more football fields for use by Western Springs Football Club. The club does not have enough space for all the kids who want to play football today, let alone when the 5,000 new dwellings going into the old Unitec site are built. I sympathise with Ponsonby Rugby Club but their fields are massively under-utilised compared to WSAFC.

We are steadily losing our identity as the Auckland out fore-fathers and mothers built.

Too many of our historical buildings, facilities and iconic venues are being traded for votes from those that have moved into the area, long after these facilities were built.

Speedway has been a central part of Auckland for decades and should be retained as a location for locals and international visitors alike.

Option 1 would be best for the future of our kids...

Key Benefits of Option 1: Western Springs as a Football Stadium + Paddle Tennis + Basketball Courts

💰 1. Major Private Investment ($200–$300 Million from local investor)

Reduces public funding burden, lowering costs for ratepayers and council.

Ensures high-quality, world-class facilities with top-tier infrastructure.

Investment from a prominent entrepreneur adds credibility, momentum, and long-term backing.

⚽ 2. Dedicated Football Stadium

Addresses urgent demand for high-performance football venues in Auckland.

Supports youth development pathways, professional clubs, and international matches.

Boosts the sport's visibility and growth, especially among underrepresented communities.

🏀🏓 3. Multi-Sport Use: Paddle Tennis & Basketball

Introduces paddle tennis, a fast-growing sport globally, attracting a new demographic.

Provides accessible, basketball courts for casual and competitive play.

Encourages diversity in sports and broader community involvement.

👧👦 4. Community and Youth Benefits

Opens opportunities for school sports programs, community leagues, and free play.

Helps combat youth disengagement by offering healthy, inclusive spaces.

Potential for social initiatives and outreach supported by private funding.

🏗️ 5. Urban Renewal and Smart Development

Revitalizes Western Springs with minimal new land use.

Leverages investment for green design, smart tech, and sustainable infrastructure.

Transforms an underutilized area into a vibrant sports and community hub.

📈 6. Economic Impact

Creates construction jobs, and long-term employment in operations and events.

Drives local business growth from increased foot traffic and visitors.

Positions Western Springs as a destination for sports tourism and major events.

The city needs a purpose-designed international and provincial cricket venue: an oval with seating capacity for up to 15,000. It is appalling in a country where cricket is the national summer game, and whose national team is world-class in all three formats, that it's biggest city has no suitable venue for fans to watch top- level matches. The other options proposed at Western Springs are already adequately accommodated elsewhere in the city. Ponsonby Rugby Club could be accommodated on the outer field with sufficient seating for those who attend club rugby matches. Eden Park is entirely unsuitable as a cricket venue because of the ground's shape.

Auckland Arena is a pragmatic option that come s with funding, Western Springs Bowl is more speculative and will require Council funding. Auckland Arena is a more appropriate solution for the neighbourhood.

At present, the site is underutilised and is not making the most of the opportunity for regular use by Auckland's so is not a good option.

I think that Auckland arena being privately funded without council investment is important. The public cannot keep funding speedway which does not turn a profit. Auckland arena will be great for sport and community and with further investment in public transport in the area will be positive for Auckland as a whole. Although it is unfortunate that western springs speedway will lose its home, I feel that it needs a more sustainable home so that it can keep running.

Auckland city does not have a venue that could provide a performance space for global artists who tend to bypass Aotearoa for this very reason.Thus diminishing revenue for the city and denying value able cultural and musical experiences for its population.

I am not in the Albert Eden local board but I do live in the Puketapapa local board area And if the new election boundary changes go ahead where I am will revert back to Mt Albert electorate.

I would like to see the area being kept open for general use for all Auckland residents especially those in the area. I do not support any idea that closes off the area for private use. Something like Lovelock Track, Trusts Arena etc where there is access to use the place for people who want to walk or jog or play. Closed off sports places like Eden Park is because they are not council owned so that is not our choice. I am referring to Western Springs outer fields which is currently available for recreational space.

Note: The speedway is loud and we do hear it on Dominion Rd when an event is going. So the sound for those closer to the speedway would be much louder. It isn't just those in the immediate area.

Currently it sounds like Option 1 will see the area closed off to general public when it isn't in use. It does sound like Option 2 may still allow access but the current area that are closed off to public like the stadium will remain closed off.

Should Auckland Council decide to go with either option 1 or 2 I am against option 1 because it appears to deny use of space when the stadium is not in use AND it also requires current users to look for new space when they have prior use.

Yes we need to ensure good use of our recreational facilities. No we do not need more spaces closed off by private operators, leaving it unavailable for use to all when it isn't in use.

I am completely opposed to the use of council land being used by commercial interests. In the Auckland Arena proposal there is no consideration given for existing use - Ponsonby Rugby will have no home and there appears to be no viable alternative venue for them. I am concerned about the impact that a large stadium will have on the site - that location is poorly served by public transport and struggles to cope with current traffic volumes when events are on. Given that this is a commercial interest, they have the ability to find and develop a suitable location. The current

community users do not have the resources to do so, in which case the council asset should be used for the community interest.

Our Fanau have lived in Western Springs Rd 38 years ago.

Before that I lived in Burnley Tce. So I have had a stadium near our homes all my life. It's been exciting and lively and a joy.

I have been to concerts at both places sine the 70s until just recently!!!

Sometimes the car noise has been a pain, but we have learnt to live with it and people come to sit on our deck to enjoy many concerts at the Springs.

It's a great venue for sports, concerts and community events (eg Pasifika).

Long live the Springs for all of Auckland, NZ and the World!!!

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I am part of a cultural or community group with an interest in the area

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I live 500m from the stadium . We have lived here for 38 years.

The eponymous park has been not just the multicultural home for our community, but a source of vibrancy and colour.

It's the beacon for our hood.

We don't want the nakau of our community to be replaced shallow commercialism of big business

I have chosen option 2 because the community would benefit more by having different sports arenas developed in the stadium.

We live in the area and I imagine option one would only bring more traffic congestion the area every time there's an event.

Option 2 seems more user-friendly and would also keep the historical Rugby club on site

I am both a speedway spectator and football fan. Been going to speedway at Springs, Waikaraka and other venues across the country since the age of 18 months. As have my parents and their parents who first took them along. Been playing and supporting football from the age of 5. Neither options 1 or 2 solve the sports stadium debate of Auckland city. Option 3b, keep open wheel speedway at Western Springs. Do not kick out ponsonby rugby club. Continue to mix in concerts and outer outer field events. The facility has not had the support from the council it's needed

since covid and the 2021 weather events, the impact of those used wrongly in the previous council decisions.

Public land should not be privatized for up to 100 years, and the 'bowl' proposal is far fetched. An independent report should outline multiple options for Council to review and then run this voting process again.

As a long time resident in the area, I have witnessed the evolution of sporting events, cultural events and music festivals held at Western Springs stadium. Seeing the speedway lose its home here was disheartening even though I've never been a direct audience member, I've always appreciated the spirit of it. And hearing the races on a Saturday evening. Being lucky enough to live within walking distance, I've never had to worry about travelling into the area when events are on, but the traffic build up is ever present whenever something is happening there. Being a local, it comes with the area code and that's OK. I have selected option 2 as I prefer the stadium be used

for what it's been used for already, with some major upgrades. Which I think option 2 reflects justifiably. We want to see arts & culture and music festivals carry on here. Sad to see the speedway go but happy to know they at least have another home site in Waikaraka. But why we would also force another community to pack up and leave in the Ponsonby Rugby Club, is beyond me. Sure basketball and football are great sports and coming up in NZ as they should, but is Western Springs the most suitable location to home these new academies? I don't think so. An all year round open stadium for basketball and football serves as an elitist community. Great for those that can afford to be part of it. But that's not for everybody. Those new establishments can be housed elsewhere. Like you've said, there are 2 other stadiums to also consider but only Western Springs has been preferred. Well I'm sorry but Western Springs is already someone else's home. And I think we should honour that legacy and build a new "Auckland Arena" in another location. I can imagine the ongoing traffic gridlock that would occur with another busy complex (for sports & healthcare & eatery facilities) built right there by the motorway where it gets busy enough just on a regular Saturday. The Auckland Arena sounds great but think we can find a better home for it. Let's keep it to festivals and Ponsonby Rugby Club please. Ngā mihi nui

Leave it as it is and allow Western Springs Speedway to return. Festivals and concerts can continue to be held out of the venue as they always have. WSS has been operating out of there for nearly 100 years and there is no other location as suitable. Concerts have been operating out of there for around 40 years. Its proven itself as an asset to Auckland and provided generations with many memories and entertainment. Changing this iconic attraction would be short sighted and against the wishes of the majority of Aucklanders.

Multi purpose spaces for events and other activity are good for a growing city . Imagine a beautiful signature location like the Hollywood bowl or like the bowl in Melbourne or even the brooklyn bowl in New Plymouth. That Auckland is proud off and that people come here for. Major sports matches like football should be kept at Eden park or Mt smart'. I don't want my rate payer money subsiding more sports grounds that can't be used by other activities.

I have lived for nearly 50 years just south of the Stadium. My opinion is that the Stadium and the outer fields should be as people-friendly as possible, as a Bowl. That is to better serve the growing population of the City. Option 2 is the most suitable version. People are living closer together now. In the past, the Stadium was run in a very inconsiderate way. Mothers could not get their babies to sleep if the speedway was operating. Having the speedway in the inner city has become most unsuitable.

I am strongly against giving control and access to such an important community resource to private interests to lease for up to 100 years. I also think that retaining as much of the natural bowl environment as possible is a better option than a huge concrete stadium. I like that the second option retains more access for community grass roots groups such as Ponsonby Rugby and is more flexibly accessible to arts groups and festivals.

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

There are three options to consider

Which option do you prefer? Select one option only.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Having lived in Wellington for years, I saw how much the city was hurt by not having a stadium this size. Watching the Nix or the Lions play in a 35k stadium with less than 10k fans was painful, there was just no atmosphere. When they put the temporary stadium on Hutt Rec, it was brilliant and showed exactly what was missing.

Auckland has the exact same gap. We desperately need a boutique stadium.

The best part is that this plan is privately funded. We get a state-of-the-art facility, and it costs the council nothing to build or maintain.

Auckland needs more community infrastructure and the fact that this comes at no cost and no operating/maintenance cost is a significant benefit to the city. My concern would be in the contracting to ensure public access and sufficient funding available from proponents for keeping the facility well maintained and if it's a very long term lease then requiring upgrades so it's fully functional and still an asset when handed over.

I would prefer a large entertainment/sports venue to be located in the CBD where there are better public transport and cycling links than there are to Western Springs Stadium. I would prefer the existing stadium and surrounding land to be used for occasional smaller festivals and concerts (as it currently is), community sport (as it currently is) and for landscaping improvements to be made so that it becomes more of a destination for the community and visitors. Western Springs park is great but too small.

I consider that Western Springs provides a unique and beautiful natural amphitheatre and any development should retain this aspect as much as possible.

I do not think Auckland City requires a development of the scale proposed in Option 1. In addition, the facilities proposed in Option 1 can better be provided elsewhere in Auckland City,

for example, Mt Smart Stadium.

I also consider that the total lease term in Option 1 is too long.

I live opposite the zoo and spend time in Western Springs park everyday. I think option 2 provides community and entertainment options in a convenient and central location while keeping the spirit alive eg. Ponsonby Rugby club and entertainment shows have been part of the history of the location. I would be very saddened if the natural amphitheatre was destroyed

St Joseph's School in Grey Lynn support Option 2 and supports a new lease to be granted to the Ponsonby Rugby Club.

Our school is based at 456 Great North Road, Grey Lynn. We've been in the local area for 141 years this year. We have been around long enough to see the many changes in the community, and the impact of Council's decisions upon the community and our families. The implicit suggestion through the proposals in this consultation that Ponsonby Rugby Club may not be based at

Western Springs in the near future is an insult to the local community which the club has served for many years, and an outrage that council would propose to take this great club out of its current home where it is easily accessible to its many users and members, and dump it at Coxes Bay -out of the way and on the other side of Westmere making it harder for our students who play for the club to get to.

The current location at Western Springs is easer for our students to walk from school down to trainings. It is also on the main bus route of Great North Road. So it is safer and well lit, and has buses going past all the time. This is critical for our students who play for the club, especially when they take the bus home as parents work late or cant drop or pick them up. To relocate the club to Westmere makes it harder to get to, particularly for young players who rely on public transport, and is a pathetic option that would harm the club operationally.

The option of turning it into a football stadium only adds to the further gentrification of the Grey Lynn / Western Springs areas. Ponsonby rugby club's membership is multi-cultural and serves families from diverse socio-economic backgrounds. It serves ALL, not just the wealthy which is what the Football stadium option purports to do. To remove the club and put in its place a stadium that would only really benefit rich footballers and associates is putting profit over people and the Auckland Councillors who voted to entertain such an option should be ashamed of themsleves! There are football clubs around the corner - Western Springs Association Football club and Central United Football club. There is no need to have more football in the area. What is needed, are equitable decisions by people in local government to not put money or profits over people, or ahead of what the local community needs.

We make this submission in support of Ponsonby Rugby club remaining where they are at Western Springs park, and on behalf of all our students who play for the club. We do not support any option that turns Western Springs into a Football stadium.

It's a no-brainer. The Auckland Arena will have superior facilities that will benefit all Aucklanders. Most importantly, it does not require any funding from the tax-payer. It would be a shocking decision if Council was to turn down $200-$300m for private investment and then spending tax-payers money on another less attractive option

I have been a member of both Ponsonby Rugby Club and Grafton Cricket Club for over 10 years. Moving both Ponsonby Rugby and Grafton Cricket to Coxs Bay and establishing an inner city sports facility all year round makes sense in so many way and if a survey was

facilities are poor for junior cricket, no parking, homeless people sleeping around the clubrooms etc. This would also free up Victoria Park for other events currently held at Western Springs. Option A makes much more sense - with Eden Park and Mt Smart we have 2 facilities capable

carried out of members of both clubs, you would find significant support. Victoria Park of hosting events in Auckland - we don't need Western Springs as well. Auckland also desperately needs new centrally located basketball facilities, so this is another reason I support Option 1

Auckland also desperately needs new centrally located basketball facilities, so this is anothe

Future use of Western Springs Stadium

Note: Attached at the start of each volume is the full feedback form. This version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Albert-Eden

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I prefer an option that involves no privatisation. it's a wonderful public park and should remain so. The $30m upgrade is good use of my ratepayer money. I am very pleased too that speedway no longer has a venue in this park.

Western Springs is an incredible location and has the venue potential to be one of the leading venues in the South Pacific. Support music and serve hours of entertainment and the community. Basketball is the fastest growing sport in NZ and needs more venues to support the growth.

I favour option 1 but wonder what are the options for a new home of Ponsonby Rugby Club? as Cox's Bay is already overloaded

Western Springs is an amazing concert venue and we have a great lack of musical venues for such a large city. It will help make Auckland a more vibrant international city.
