Retain the speedway at the springs due to its long history and money it brings into the area. We travel from Taranaki to watch the speedway and spend money not just atthe speedway but accomodation, restaurant's etc.

The venue has operated for excess of 90 years without probable concerns to the safety of patrons. Why kill off something that has been in operation for so long that also attracts visitors to the area from Australia and America that compete in the sports currently performed at the venue.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I don’t have a direct connection, but I am interested in how the space is used

There are three options to consider

Which option do you prefer? Select one option only.

Option 3A: Neither Option 1 or Option 2 - keep things as they are and retain current arrangements

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Because options 1 and 2 are terrible ideas. Auckland Fc should stay at Mt Smart where they can get a 25.000 seated crowd, until a waterfront stadium is built. Cmon Council - get on board

We love our speedway at western springs and wish it to continue for many years to come

Moving open wheel to waikaraka would almost see the death of open wheel and international speedway in Auckland

This needs to stay as a speedway circuit as the family who gifted it intended to be. The attendance at speedway events speaks volumes for how many people love and enjoy it. There are so many other options in surrounding areas for any other proposals that have been brought upon the speedway track. Western springs speedway is internationally recognized and puts our drivers and teams in the spotlight, everyone recognizes the history of the place worldwide, so for that to be taken away from us is devastating.

As much as I would love a personalised home for Auckland fc. They have enough funding to look at other options.

We need to put community before commercial and I believe ponsonby rugby club would struggle to organise and fund a new set up.

I still believe some money needs to be spend to create more offerings and better usability for the community

Leave it as a speedway. There is no other close facilities for it. The options you have are already catered for in the CBD WE DONT NEED ANOTHER. Anyone who has complained about the noise need to be put under a no b!tching clause. They know it exists so if it was a concern they should have chosen somewhere else to live. All the special interests that aren't rubgy or same old same old are being lost for greed. We have enough of the generic facilities. Give it back to speedway or at least make it the priority activity of it.

I honestly would pick Option 2 or option 3a. That seems to coincide with the vibe of the area. We don’t need more state of the art sports facilities. We already have those, and they just need updating instead of having money wasted. An open air bowl event has potential to be amazing. But seriously the area should look in to hosting more markets and small festivals during the year.

The speedway is part of of Auckland and heritage and attracts both local and international tourists and visitors to Auckland that helps boost local economy every summer. Me and my family will no longer make Auckland a destination for speedway if western springs in it current state ceases to exist. Do not support the move to waikaraka park and promoter Bruce Robertson and the underhanded dealings of the Auckland council.

It’s is more cost effective. Also having been to music events at the bowl it does not have enough surrounding infrastructure to cater to a venue as large as the one proposed in option 1. There are too many residential homes and main streets surrounding for it to be used as a large spirts venue. Option 2 is not only more cost effective, it offers solutions to infrastructure regarding large crowds for music events and other events and still allows the ponsonby rugby club to operate and use it as their home ground whilst allowing for other events.

In the long term the revenue generated from this space will be retained by TAU or AC where as with option 1 profits will continue to be transferred over to private investors, who have the option to lease this space for a much longer time span, potentially 100 years. Additionally, option 2 leads to an increased capacity for concerts while retaining space for Football as well as the local rugby club

I don't believe the space should be controlled by solely private investors - I am sceptical of the estimated savings purported in Option A and while the costs may seem higher in Option B having both a mix of private and public funding means the rate payers and public can have more say than something controlled by solely private investors - costs are always underestimated and will blow out regardless - but it is important for the community to have some level of control.

Western springs speedway has a worldwide following, has brought many star drivers from America (nascar,indycar and many other forms) to race at our events, showcasing NZ to the US. Many other drivers from other countries have raced here and done the same. They not only race at the speedway, but during the week, they show case nz cities and scenery off to the world. Always a good atmosphere on a Saturday night, bring many families and friends together. Speedway is a unique form of motorsport in the world, please don't take this away from everyone. Great venue to

have concerts as well, it's already multipurpose and Auckland has plenty of other stadiums in the region.

I would like to see Speedway stay at Western Springs. My family and I have been going to speedway for more than 50 years and it is very important to us and I feel it is very important to Auckland as well. Speedway can be part of a multi-use situation with concerts and other sports at the stadium. I also feel this issue has been handled poorly and people have not been allowed to have their say

I have been going to Speedway at Western Springs since I was a child and like thousands of other Aucklanders, I want it to stay there. The stadium has successfully held both concerts and speedway in the past and there is a clear possibility for a multi-use situation in the future, without any loss

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Speedway at Western Springs has been ongoing for over a century. It is not just a part of Auckland history, but New Zealand's. The speedway has earned a strong reputation internationally as well as being an amzing venue for racing and has attracted star drivers from the United States and Australia to come to our shores to race against New Zealand's best. Without Western Springs, our country loses a major part of our sporting heritage and the world loses a major another internationally recognized racing venue

Speedway needs a long term lease to continue to deliver the quality motorsport it offers

Speedway needs a commercially sound operating lease

Change the Western Springs Unitary plan to help speedway like the council did for concerts at Eden Park

Speedway has always worked with other stakeholders like rugby and concerts, this should continue

The fans and competitors were never consulted before this process, we should have been

Stop wasting council money on cycleways and other vanity projects and spend it on Speedway that has hundreds of thousands of fans attend every season...a lot more that any corner dairy ever sees

The council have handled this whole process terribly, some would say criminally, I have lost faith in the council and do not agree with the process

All Aucklanders I talk to agree with me and want Speedway to stay at Western Springs

Western Springs Speedway is one of the most historic and iconic speedways in the entire world. It belongs to be treated as exactly that and continue to operate as a racetrack for fans and race teams. I travel from the USA to come to participate at Western Springs like many have before me for decades. Every time I fly over, the entire stadium is buzzing and the arena is packed with fans who love speedway. There is no place like it in the world, not just in NZ. And there will be no way to replace something like the Springs. If you lose the Springs, I'm afraid the entire sport won't be far behind it in New Zealand. The Springs, and Speedway, are a massive part of the New Zealand culture and deserves to be protected.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Speedway should stay at Western Springs it's been there for nearly 100 years and deserves heritage status.

There is families that have been going there for generations I personally have been going there for years and now live out of the area but travel up to watch Speedway and stay the night.

I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I don’t have a direct connection, but I am interested in how the space is used

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I have been going to this venue for concerts & speedway for decades, nothing should change here, please give Speedway a long-term lease along with

better commercially successful operating conditions.

If you can change the WS Stadium Unitary Plan to help speedway like you did at Eden Park to help concerts then this should happen as Speedway can be part of a multi-use situation with concerts and rugby at the stadium as it has for decades before, this should remain.

fans & the general public were never consulted before council made decisions & this time you need to take this into serious concideration.

I'd rather see my ratepayer money spent to have speedway at Western Springs Stadium than a lot of the things the Council currently spend the people's money on.

After hearing how this issue has been handled very badly the public needs to be heard & in my opinion most Aucklanders I know want the same as me.

Speedway has to stay at Western Springs long term.

A solution that allows Ponsonby Rugby to remain with possible upgrades to facilities and perhaps a field size that is standard to allow senior games to be held would be the best solution.

I'm writing in strong support of Option 2, which proposes upgrading Western Springs Stadium into a multi-use venue focused on concerts, festivals, and cultural events, while also preserving its winter use for community sport through a much-needed upgrade to Ponsonby Rugby Club.

Western Springs is already one of Auckland's most iconic venues. With its natural amphitheatre, central location, and long-standing history of hosting major music events, it has all the ingredients to become a world-class cultural destination with the right investment.

In contrast, Option 1 of converting the stadium into a football-specific venue ignores the broader needs of Aucklanders. There are already three purpose-built sports stadiums that support

football and other codes: Go Media, North Harbour, and Eden Park. In addition, Auckland is home to multiple high-performance football facilities, including OFC's headquarters in St Johns and numerous upgraded community fields.

What's more, Eden Park, often held up as ann alternative concert venue in recent years is not fit for purpose when it comes to live music. It's a stadium designed for sport, with rigid infrastructure and significant disruption to surrounding residents. Despite being only minutes away from Western Springs, it doesn't offer the same atmosphere, layout, or cultural connection. And contrary to claims made in the media, Western Springs can already host more people than Eden Park for concerts, a fact that should not be overlooked.

Option 2 offers a genuine win-win:

An upgraded, centrally located concert and festival venue that already works and could thrive with the right support. Continued community use in winter through an improved facility for Ponsonby Rugby Club. A boost to the live events industry, which employs thousands and contributes significantly to Auckland's economy and identity. A vibrant space that reflects Auckland's cultural heartbeat and supports creative expression for future generations.

Let's back the option that delivers for the city's people, culture, and future. Please choose Option 2!!

I have only ever attended this venue through the incredible concerts & festivals that have taken place at Western Springs since I was a kid. My parents attended iconic concerts in the 80s-90s there too. There is a community and culture to the space that the arts have created. I also believe this is the ultimate venue of choice for music artists who wish to perform summer/outdoor shows at. Without this space to be used for live music, there is no other venue of this large scale in Auckland that is outdoors, and I do believe that will change international artists choice to perform summer shows in NZ/Auckland and in effect impact the economy of the area. I think it would be an absolute win to have this space continue to support the music industry and rugby in NZ.

I have attended dozens of music events at western springs along with the other main large capacity venues in Auckland. Western Springs is a superior venue for sound quality and accessibility. It would be a huge loss for music to have this outdoor venue option removed for concerts and festivals.

Let me be absolutely clear: if Speedway is moved from Western Springs, it will sound the death knell for this form of motorsport in Auckland.

The Council spends ratepayer money “manufacturing” cultural events in an effort to make Auckland “the most liveable city.” Yet, ironically, it seems determined to discard a genuine cultural and sporting institution with over 95 years of heritage — Western Springs Speedway — like yesterday’s rubbish.

Shame on the Council for its dismissive and, frankly, corrupt approach toward Speedway, and for being so intent on destroying a vital piece of Auckland’s cultural fabric.

Hundreds of thousands of fans — including people like my 14-year-old son and my 82-year-old father who sold ice creams in the stands back in 1959 and still attends to this very day — will be devastated if it does not remain at it current location.

As for those suggesting a merger with Waikaraka Park: that's like proposing Rugby and Rugby League should merge because both use a similar ball on a grass field. The sports are different, the venues are different, and the experience is not interchangeable.

The only "winners" in this scenario are a handful of vocal Westmere residents who chose to buy near the Speedway, fully aware of its existence. We cannot let NIMBYism destroy something so uniquely Auckland.

Overseas drivers consistently comment, "There's no other race track like it in the world." Western Springs is not just a venue — it's irreplaceable.

Please, do your job as a council and let Speedway stay at its rightful home: Western Springs.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I think it would be a waste to move the springs as a speedway track. Always an amazing vibe and wouldn’t be the same elsewhere where. Keep things as is while exploring other options!

You auckland council people are idiots, wanting ANOTHER stadium when you currently have how many already across the entire area? You all bag on about supporting cultures and retaining the upkeep of heritage, and here you are wanting to destroy both of these! Makes absolutely no sense. You all just go off and make decisions that effect thousands of people and give no s___, do you you? None of you have the right to call yourselves the people person for that council. ********** you all !

It's difficult to see why Auckland needs another relatively open 12-15k seat stadium. We already have Mt Smart and Albany (which has poor utilisation).

The proposed design doesn't look very intimate, so the atmosphere would be poor. However, a closed in design would underutilise the space and natural amphitheater of Western Springs. If doing a closed in design, surely there's another location that could be used.

Either leave it as is or convert to a boutique cricket arena that would make full use of natural amphitheater. This would also not restrict music events.

It would be tragic to see Western Springs wasted.

The draw of speedway to this area has been vital over the last 100 years. Don't just go for the private sector as they too will get backlash from residents. Keep it as it is, speedway was there before any of the residents, and long should it stay there.

Speedway has been a huge part of the local landscape for a hundred years and still provides so much for ratepayers and fans alike. It is short-sighted by the council to even think it is reasonable to tear this asset away from the people that own it - the ratepayers of Auckland. Leave it alone and utilize the popularity of speedway. The crowd numbers dont lie!

I agree that better use could be made for the space and moving speedway on isn't a bad idea. Both options are half arsed versions of what they could be. The Auckland FC venue is poorly thought out, its not large enough, has a poor design and has terrible public transport links. AFC are better off staying at Mt Smart. Aucklands design and decision making around Stadia has been dreadful over the years, let's not have another bad outcome. Option 2 looks better but perhaps not thought out well enough. Auckland needs a Venus to host the biggest music and cultural events. Eden Park could do this, if Auckland Council stopped kowtowing to local resident NIMBYism. Better long

term thinking needed with proper transport links otherwise we are just going to have another car fest.

50k seat concerts are infrequent and can be catered to at eden park. Why duplicate that with another venue in the same area?

However given sports patronage of blues, Auckland FC, warriors etc.. , eden park is too big. Need a venue closer to city that can cater to these events and support community sport and player pathways.

Speedway is my preferred event for western springs.

I suggest opening it up to other communities for their events and even have some more music festivals there.

I don’t agree with the option 1 as the soccer has sell out crowds at mt smart, so that would be reducing the attendance of people wanting to attend the Auckland football.

Speedway is why I go to springs

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I want speedway to stay at its home at western springs.

The only reason I visit the area is the speedway this means I spend money in Auckland

No open wheel speedway at western springs no need to go to Auckland.

Speedway at western spring is something my family has done for 40 years.

My dad raced there, my brother currently races there and I have sponsored several cars that race there.

If this was to close it would be the end of my family enjoying what we have enjoyed every year for as long as Ive been alive.

Boxing Day at springs is the best way to spend Christmas with friends family enjoying the racing.

I have given drivers money for putting on a great show over the last few years as a way of thanking them for the high quality racing they put on.

Closing springs speedway will effectively kill open wheel racing in Auckland and will cost Auckland millions of dollars in lost revenue because people won't have open wheel racing to go to watch. Waikaraka park is for stock cars and western springs is for open wheel racing.

Keep the speedway and rugby fields as is - There isn’t much more space for speedway anywhere else, and having family within that area of sport, it is having a durastic effect on their season as they have to travel abroad and fork out thousands on thousands just to participate because the speedway is shutting down. The rugby fields are also good especially to keep rugby going, being the national sport of nz

The space is not conducive to community atmosphere. It is really only used by a few people unless a major concert comes to town in which case the new facility can cater for that.

A high performance centre and true community facilities such as basketball courts, football grounds and conference rooms Provide benefit to every single person in the community not just rugby players or motorsport enthusiast.

The fact this is being funded privately is a significant bonus as I believe we will all benefit from these facilities.

Auckland is long overdue for a good high performance sports Centre. What more could we ask for, a free sports ground privately funded, that the whole community can use and enjoy, and something for future generations to attend and be a part of. I also note that the existing facilities can be easily moved and accommodated elsewhere so nobody will miss out. We should not panda to the tall poppy in those resistant to change. this will be an area that everybody wants to go to.

Speedway is an institution in Auckland and has generations of families who are involved. We need to keep western springs speedway for years to come to give families a community and events to go to together for the few meetings it has every summer. Additionally we can keep speedway, concerts and rugby happening and collaboratively working together in the community.

Music is culture and New Zealand needs a large music venue, capable of holding 40,000+ crowds for concerts and festivals promoting both local and International acts. We don't need another sports stadium, we have plenty, but we sadly lack and large capacity music venue.

It makes far more sense to maintain an upgraded music venue as well as supporting the Ponsonby Rugby Club's ongoing use of the site rather than lease it to profit incentivised business people with little thought for the local Auckland community.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

There are already enough stadiums in the Auckland. I also do not agree with the rate payer cost estimate for these facilities. Times are tight and people are struggling yet council goes boldly ahead like the funds are unlimited. Rates increase at a much higher rate than inflation. My income has not increased in 4 years.

The space is special and unique the way it is, but could expand with a few improvements. It would be a terrible shame for Western Springs stadium to be ruined by option 1. There are plenty of built stadiums but few natural amphitheatres. The best concert I ever attended was here because of the natural atmosphere, clean air, beautiful sunset and then the moonlight. Newer built stadiums have a gross and clunky feel to them, plus the sound quality is atrocious at places like Sky Stadium and Spark Arena. Western Springs is the best we have.

I selected the third option because Western Springs Speedway has been a part of my entire life. It does not harm the surrounding neighbours, the organisers follow all guidelines and it has been a tradition for 96 years. What double standards, why does Eden Park get to remain how it is but Speedway fans can't enjoy what they love. And to any council members or member (Len Brown you corrupt old got) who want it gone because of their own self righteous agenda should not be in their position. There are more people who want the space to remain a place for Speedway than there are not. Whoever decided to stop Speedway from being able to take place there in my option is a **********.

Because it has been a huge part of all of ours growing up, enjoying motorsports and other things at the venue including controlled fireworks displays. Let’s not take absolutely everything away from the younger generation that made us what we are today. Don’t keep dumbing down everything for a few to get their way by stopping their little feet. It was there a ********** of a lot longer than any residents there now do if it was there before why did they buy a house by it??

I think it is absolutely ludicrous that you're even trying to take it away or change it.

I grew up in the area I grew up for 50 years going to the speedways and concerts they're having the best time of my life with my family who had a takeaway bar in Mount Albert and enjoying the people that came from the speedways and concerts at night to buy food it was the most amazing upbringing to enjoy and still enjoy going to the speedway until you got stopped at my brother used to race midgets and taking that option away from people is absolutely disgusting and wrong that should just be left as it is so the people of this country can enjoy the speedway like we all used to and enjoy concerts and events that happen there Stop trying to change things when they're not broken

Cause these club gave so much to the community and player.

When I came from México to live there, the club open the door and help me grow as a person and player.

It's a place full of memories and it's s shame to loose these part of the history of Auckland and new Zealand.

These place has the heart, memories of thousands of people that we are ready to take action and save what is right for the community and rugby history.

Retain the stadium in current (as at March 31 2025) configuration with the Speedway track remaining in use as a Speedway, and the sports oval available for sport and concerts

Speedway has been a loyal tenant of the Western Springs stadium since the stadium opened in 1929.

Western Springs Speedway is iconic, and known world wide– attracting many overseas visitors, as well as a multitude of out of towners to the city of Auckland.

I have personally travelled from Christchurch at the very least 50 times simply to attend events at Western Springs Speedway.

It is NOT something that can be replicated at any other venue.

The natural amphitheatre creates an atmosphere like no where else...and I have made 20 trips to the USA, and another 6 to Australia to witness Speedway racing. I have visited 20 tracks in New Zealand NOTHING gets close to the Springs.

Western Springs Speedway creates the most family friendly environment– its inter generational– three, sometimes four generations of families attend Speedway at the Springs. Why destroy that. Again– it can't be replicated! It is NOT something that can be transferred to another venue.

Western Springs Speedway IS the hub of open wheel racing in Australasia. There are many people who garner a livelihood from the industry of speedway racing that the Springs has not only created, but also retained. It puts cinner on peoples tables and furnishes dreams for youngsters, while also entertaining thousands of people. It IS the central part of life for many.

I have a long involvement with the sport. I have been inducted in the NZ Speedway Hall of Fame. Various Promoters have flown me up from Christchurch to be on the commentary/ broadcast team at the Springs on no less than 12 occasions....and you know I hear it regularly from drivers out side of Auckland that 'their dream' is to race at Western Springs. I have NEVER heard a South Island Stockcar driver say that their dream has been to race at Waikaraka Park.

I have attended Waikaraka Park on several occasions. It is a soul-less setting...difficult to get to...even worse for parking (You spend more time at the race event worrying that your car will still be where you left it in Industrial Onehunga, than enjoying the event). NOTHING will change Waikaraka Park.

In closing I ask "why try to fix what isn't broken? Speedway, as per my opening statement has been a loyal tenant at the stadium for 96 years. It can co-exist with other sports. Its tried...its true...Its not a 'fad'. It is the best option for open wheel Speedway to continue (to exist) in Auckland.

For 96 years families have lived the dream by attending Western Springs Speedway. Its not a 'pipe dream' catering for the elite.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

In 1970 Ponsonby Rugby Club came to play rugby against my club in San Francisco. In 2025 I was able to visit Ponsonby Rugby Clubhouse and pitch and have lunch with Sir Bryan Williams and his wife Lady Lesley in their home, 55 years after our match. My San Francisco Rugby Club, the Bay Area Touring Side (BATS) jersey and a few other American jerseys are hanging in the clubhouse among many other significant club jerseys. To have a club that has celebrated 150 years in existence is something most rugby clubs in America can't achieve. So save your history because it's something that is so meaningful to people from other parts of the world to visit! You make take your history for granted, but as a Californian member of the Association of Rugby Historians and

Statisticians I must show my support for saving and expanding the beautiful grounds of Ponsonby Rugby Club. We are remembered by the items we leave behind and the stories the tell of our past endeavors as inspiration for future generations!

Don't lose sight on the importance of rugby, culture, and community! That is a treasure that can never be replaced!

I agree with everything being proposed in Option 2- It provides a chance to enhance and retain an iconic patch of Auckland City. For EVERYONE to enjoy. I like the sensibilitites, values and ambition of this option (2). I am an ex Aucklaner I often travel to Auckland for live music shows. I have seen: Elton John YBR concert in 1975, Rod Stewart, Willy Nelson, Fleetwood Mac, U2 and many other concerts at Western Springs. Please please keep it and enhance it a premium music venue. Sport ISNT EVERYTHING and Option 1 strikes me as an opportunistic lazy money spinning option for the billioniare row in Auckland. Auckland must lead the way in NZ for premier entertainment venues and Western Springs needs to be developed with this in mind. Not some elitist sport phallic symbol.

I chose option 3A because Ponsonby rugby club has made an impact on many peoples lives, ponsonby rugby club has developed world class players, such as reiko ioane, Patrick tuipolotu and many more. Ponsoby rugby club has built a foundation for young players and senior players to develop there skills in rugby, it has brought communities together to grow a friendship with one another. So please keep ponsonby rugby club at western springs park because it’s made a big impact in many peoples lives

Long standing community hubs like Ponsonby Rugby club hold great value to the people who are connected to them. They are more than just locations and venues for sporting, they are part of the communities roots and help people stay connected. I don’t believe that any changes should be made to the western springs park area. It’s holds great history and importance to those of us who have grown up there.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I am writing to express my strong support for the continuation of Speedway at Western Springs. This iconic venue is not merely a racetrack; it is a world-famous institution with a rich history spanning 96 years, deeply woven into the cultural fabric of Auckland and New Zealand.

The legacy of Speedway at Western Springs is unparalleled. For generations, it has provided thrilling entertainment, fostered a passionate community, and served as a significant contributor to the local economy. Its long-standing presence and global recognition speak volumes about its unique value, a value that extends far beyond simple commercial considerations.

It is deeply concerning to hear of suggestions and alleged "back-handed deals" by promoters and councillors that could lead to the demise of Speedway at Western Springs. Such actions, if true, undermine the public trust and disregard the immense historical and community significance of this venue. The decisions regarding Western Springs should be made with transparency, integrity, and a genuine commitment to the long-term benefit of the community and the sport itself.

Historically, the promoters involved with Western Springs Speedway have demonstrated a consistent dedication to the speedway community and the enduring success of the sport at this specific location. This long-standing commitment has built the institution we know today. Any recent shifts in approach that appear to prioritize personal financial gain or external agendas, particularly those linked to other venues such as Waikaraka, are a cause for serious alarm and should be thoroughly scrutinised. The focus must remain on what is best for Western Springs Speedway, its heritage, and its dedicated fanbase.

The potential loss of Speedway at Western Springs would be an irreplaceable blow. It would not only erase nearly a century of sporting heritage but also dismantle a vibrant community and deny future generations the opportunity to experience this unique and beloved event.

I urge you to consider the profound historical, cultural, and community value of Speedway at Western Springs. I respectfully request that all efforts be made to ensure its continued operation at its rightful home, preserving this cherished institution for many years to come.

Thank you for your time and consideration of this crucial matter

- Speedway can be successful with a long term lease and commercially viable operating conditions.

- It is possible to change the WS Stadium Unitary plan for speedway like they did for concerts at Eden Park.

- Speedway can be part of a multi-use situation with concerts and have worked with rugby at the stadium

- We (stakeholders/fans/the people) were never consulted with before this time and should have been

- Western Springs Stadium is important to me and Auckland. I would rather see my ratepayer money spent to have speedway at WS than many of the things the Council currently spend the people's money on

- I have seen how this issue has been handled and I do not agree with the process and have lost faith in the Council staff and many concillors.

- Most Aucklanders I know want the same as me

As Western Springs Speedway is an historic track and should be treated as a historic site for all people , i see no need for new sports facilities as we have enough already , and not enough in motorsport facilities that could keep illegal racing off the streets , there are no new ideas that should be preposed apart from preserving motorsport history and this historic track for all fans and fans to be.

I am appalled at the way this issue has been handled by the Auckland council. We the people were not consulted about this decision and should have been. This very large community has lost faith in the council and many council staff. I do not agree with what the council has done during this process. Western springs has a long and important history of 96 YEARS. It should stay open and very importantly, CAN stay open with a long term lease.

In my opinion a pooling of resources of multiple groups is required. To build towards this we must decline such proposals that only act to further fragment our City and minimise the potential benefits of a cohesive and collective approach. Granted difficult I'm sure, however the benefit and efforts would be worth it not only for Auckland, but for NZ.

Such an approach would see the pooling of resources and a collective effort that would involve:

NZ Rugby, NZ Cricket, NZ Tennis, NZ Football, NZ Basketball, NZ Netball and other national bodies and the associated Auckland associations for the same sports.

Involve private investment with a Private, Public Partnership... Central and Auckland Council for operating and or build contribution / subsidy... to promote private investment for them to also make a return.

Build a Water front rectangular stadium and Tennis Centre.

Develop Victoria park as Oval for Cricket, Aussie Rules and even athletics.

Contribute, Eden Park North Harbour and or other lands for developer.

Why central? Because there is existing transportation infrastructure, commerce and hospitality. Also no zoning restrictions for residents (such as Eden park).

It would also promote and support for staff of business to be in CBD and near areas.

Western Springs, Eden Park, North Harbour and Colin Maiden are all hamstrung by no easy mass transit options, and no near hospitality or accommodation... which is already in place in CBD.

Keep western springs for rugby and Speedway.

Change Victoria Park into an international cricket venue somewhere in the size realm of the WACA and the Gabba 25-42,000. Retain Eden Park or build a new rugby ground near spark arena as previously proposed.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I consider the Option 1 - Auckland Arena to be the preferred option as it will totally overhaul and enhance the existing facility providing excellent facilities for a wide range of sports and social events at no additional cost to ratepayers of Auckland. Is there any possibility of including facilities for Ponsonby Rugby Club on the site?

Look a viable year round use of the grounds - additional public facilities such as basketball/padel seem rational and appropriate for the community - moving forward - would like to see pickleball as well as padel as this would provide greater flexibility moving forward - gym and pool would also be good - keeping 'as is' would be a lost opportunity and a burden for tax/ratepayers. Option 2 would serve music industry but other options are available and amount of 50k concerns is not sustainable.

I wish Western Springs to remain as a speedway venue for the foreseeable future. It is culturally important to the fabric of Auckland. I raced and participated at the venue through the 1970s and 80s. I took my children there and now I take my grandchildren to speedway. They enjoy the cultural and community benefits of the complex and learn about motorsport.

Option 2 feels more inclusive to community needs. Dual purpose use maximises value: the proposal allows Western Springs Stadium to serve both as a major concert venue and a community sports facility. This dual use-model ensures the site is active year-round, ratehr than being underutilised during off-seasons. Significant private investment: the plan includes $30 million in private sector investment for concert infrastructure. This reduces the financial burden on ratepayers while still delivering high quality upgrades. Community benefits: Ponsonby Rugby Club retains its lease and can expand into other sports like basketball, netball, and touch. a 5000-

8000 seat boutique stadium would support semi-professional and community-level sport, enhancing local engagement. Long-term vision with flexibility: The 50 year lease structure (30 years and two 10-year renewals) provides long term stability for planning and investment, Seasonal leasing (concerts in summer, rugby in winter) ensures efficient use of space. Cultural and economic impact: A "Hollywood Bowl" style venue could attract international acts and festivals, boosting tourism and local business. Enhancing the outer fields and infrastructure supports larger, more diverse events. Cost-benefit balance: While the total cost to ratepayers could be $48-$107 million over 50 years, this includes upgrading clubrooms, ongoing maintenance, broader community access. Compared to a status quo option with no upgrades, this investment offers greater long-term returns in terms of usage, revenue, and community value.

Public transport to and from the current Western Springs area is not ideal for hosting large functions on a weekly basis. Also, the stadium as in option 1 is too small. Given the current numbers attending AFC games. Currently Go Media / Mt Smart is extremely popular with Warriors , AFC and Live music fans as there is good public transport to the venu. Let Ponsonby Rugby uterlise Western Springs.

SUBMISSION TO AUCKLAND COUNCIL
WESTERN SPRINGS STADIUM

Thank you for the opportunity to submit on this issue. In the first instance may I give a little bit of information about myself.

I urge you to review it, not that the issue is about me, but I'm surely representative of thousands of people who have passed through the sporting history of this city and had the benefit and privilege of being able to play on Council and Ratepayer funded sporting grounds.

Raised in Mt Albert, as a youngster I played Rugby League for Mt Albert at Fowlds Park and Hendon Avenue. Whilst attending Avondale College, played rugby for the school in the morning and league for the club in the afternoon. Lucky enough in 1959 to be selected in the New Zealand Rugby League School Boys team and then Avondale College 1st Rugby XV. On finishing school, was urged by school master, Geoff Sinclair to join Ponsonby Rugby Club to further my playing career. This I did and never regretted. Played in the clubs under 21 (3rd grade) until selected for the senior team. Having to give up playing at an early age due to health issues, I turned my attention to coaching and later managing senior teams and administrative duties.

Ponsonby Rugby although quite famous had struggled to exist around the 1960's and 70's, probably because of Urbanisation and the tendency for people to move to the suburbs where they worked, played and supported local clubs. When I started to coach, Ponsonby had no children's teams and very few grade teams, so I set about trying to form a couple of children's teams by encouraging existing members to direct children, grandchildren, nephews and cousins to support our inner-city club which was dying. A little bit of success here and eventually we were able to put two children's teams into the Auckland competition. Had great help from existing senior players such as Robert Scanlan, son of former boxing champion, Tuna, to achieve this. I mention this as the Scanlans, like many others, were a family now based in West Auckland but were happy to put effort back into the city club, like many have since.

At this time Ponsonby had its headquarters in Blake Street and were lucky enough to share grounds with Ponsonby Rugby League which were leased from the Education Board. With a return to inner city living both rugby and league clubs had to surrender this privilege and make way for a new school to be built.

Auckland Council came to the rescue and was able to allocate playing fields to a now growing rugby club, at Coxes Bay. With the clubs social and training assets still at Blake Street this was not ideal but certainly kept the club alive. Playing at Coxes Bay also proved to be problematic and my recollection is that there was massive opposition from residents in Coxes Bay culminating in the Council moving the club to Western Springs. Undoubtably the Club's official submission will detail this phase of the club's existence in more detail. It alarms me to now read that the Council, as one of its solutions to house Ponsonby Rugby, proposes to relocate the club back to Coxes Bay. Has the aforementioned opposition now disappeared? I don't think so. There is also mention of utilising Victoria Park. The club could not survive another split operation.

Why does the Mowbray Empire backed by billionaire Bill Foley want to build a 12,500 seat complex at Western Springs, when their Auckland Football Club, in its first year, is attracting crowds in excess of 20,000? Are they expecting their club to go the same way as the Auckland based NZ Knights did a few years ago, whose demise led to the formation of the Phoenix, based in Wellington. One would hope not, but are Foley and Mowbray hoping to secure some cheap land to broaden their already extensive global empires, on the back of AFC whilst AFC is riding high?

To this extent, no one at Ponsonby Rugby is going to make a cent out of being domiciled at Western Springs. Current committee and members are charged with continuing to run the 150-year-old club for the children and youth of the Ponsonby, Freemans Bay, Grey Lynn, Point Chevalier and Westmere areas. Where will Foley, Mowbray and AFC be in 150 years? 150 being the number of years Ponsonby has catered for the youth of these suburbs and further afield.

Like Ponsonby and as a ratepayer I would expect Auckland Council to accept, as they have in the past, the financial responsibility of providing sporting facilities for the youth and children of the vast suburban area mentioned in the paragraph above.

I don't envy you the task of this balancing act but remind you, not everything can be governed by a balance sheet. The youth and children of today and tomorrow need to be catered for.

When Ponsonby lost the use of the school grounds at Blake/Clarence streets they survived utilising their indoor training facility until the Council was able to make grounds available at Coxes Bay and then Western Springs. Under the initiative of the late Lindsay Colling and others, a similar indoor facility was established at Western Springs. This was with the support of Councillors at the time. This indoor facility is utilised twelve months of the year and is a God send in Auckland's fickle weather. Not only does it cater for other sports and activities but allows preservation of fields during adverse weather. Loss of this amenity would be huge and costly to relocate elsewhere, if in fact the Council allowed it.

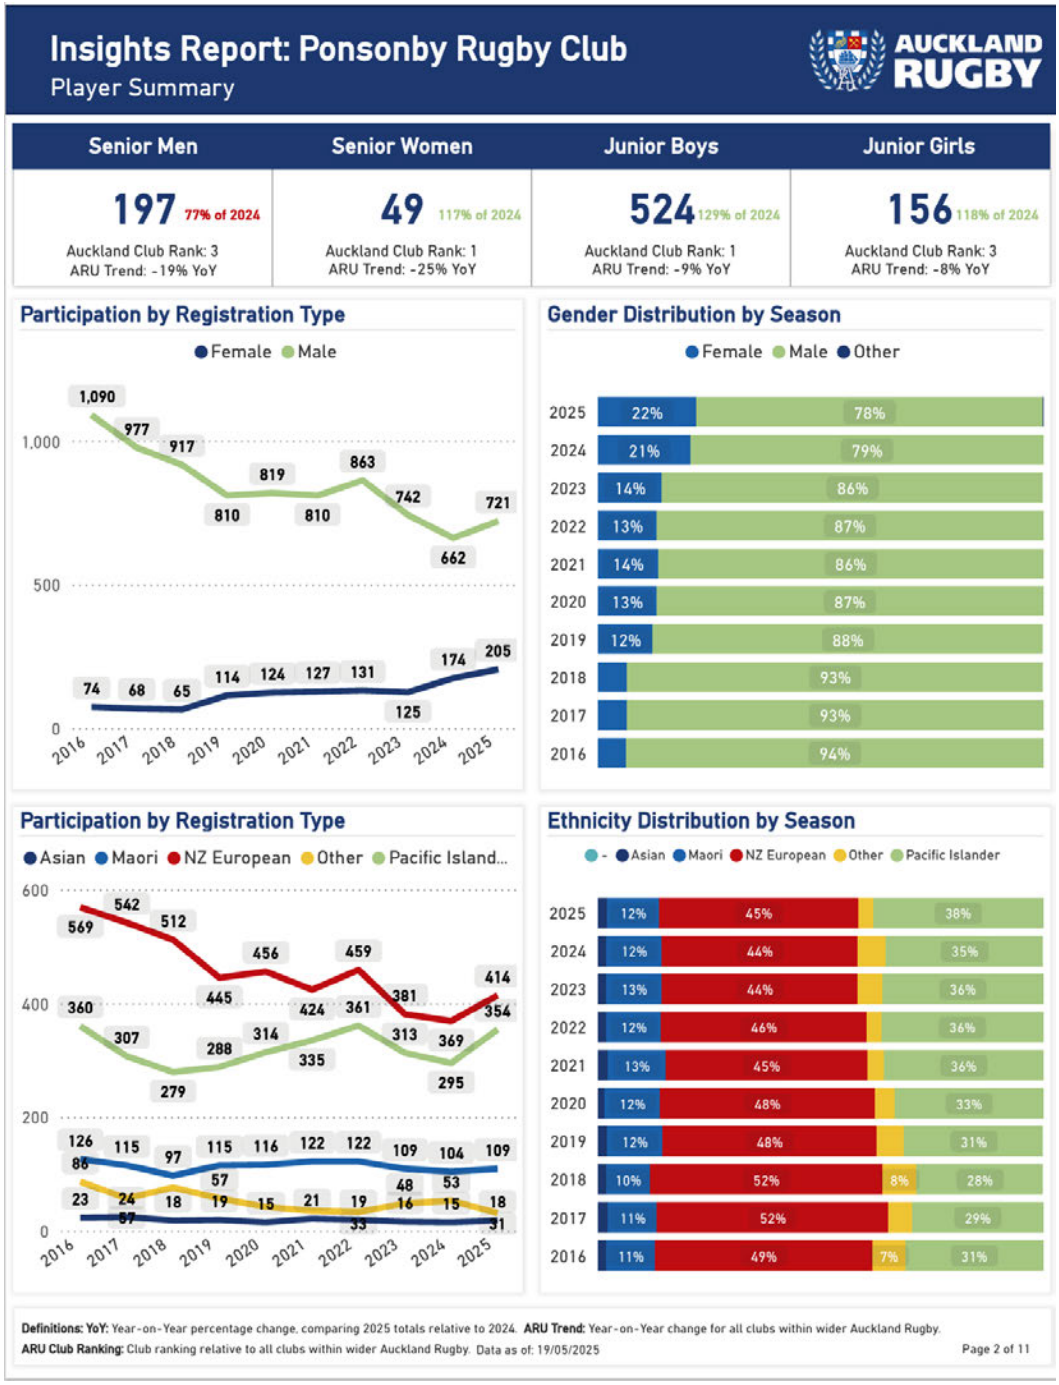

A following graphic gives an indication as to the size of the club. It does not include coaches and managers registered with the Club and Auckland Rugby Football Union. Add to these numbers, parents, immediate and extended family, friends, supporters, old & past members and you start to get an indication of the size and influence of the Ponsonby Rugby Club. It is significant and far reaching.

Ponsonby Rugby Club has produced 48 All Blacks, more than any other club in New Zealand. This includes legendary figures like Dave Gallaher. The club has also had 21 All Blacks who were chosen for New Zealand while with other clubs during their careers, including such players as the late Keith Murdoch and Life Members Keith Nelson and the late Lin Colling.

The number of All Blacks produced is significant but the other players, coaches, managers and support for them is far greater and there is no reason, with the right facilities this phenomenal record should not continue.

The following extract of a report from the Auckland Rugby Football Union shows the strength of the club by playing numbers and ethnicity. Ranking number 1 and 3 over the reported categories.

As mentioned earlier in this submission, these figures don't include the support teams, families, friends and supporters that make up these teams.

If required, the full “Insights Report” on Ponsonby Rugby compiled by Auckland Rugby can be supplied.

Thank you for considering my submission and if you feel that any of the points need clarifying or expanding on, I would be more than willing to appear at any hearing.

I support option 3 Reasons being: This facility has been a speedway facility for 99 years and is on land that was donated for that purpose. Auckland has numerous stadia for sports and entertainment purposes We do not need another one for the same purposes. It is unknown how much support there is for Waikaraka Park. Would that money be better spent at Western Springs? Have the speedway contenders been consulted and do they have suggestions for the future? I realise that there is a cost involved but no matter which option is chosen there is a cost. As the consultation document comments it is a hub with other activities in the area. I appreciate the opportunity to be involved

I made my choice because I have been attending speedway meetings since I was 9 years old, I am now coming up to 70 years old. It has been part of our summer saturday nights at the Springs. Even in the winter we say to each other what are we going to do on Saturday nights now that the racing season is over for another year. So I wish speedway to stay at the springs.

I wish speedway to stay at Western Springs as it has been the home of speedway for 96 years and hopeful with all the support it will remain. I have been attending since I was 14 years old and have seen all the great drivers over the years. Speedway at Waikaraka is not an option I will not attend as I hate the place.

Appears to be self funding for the most part. The group behind option 1 have previous experience in this type of development so one assumes it will be done only once and done right! It is also not for enormous crowds (thinking of zoo here and its residents). The only downside as far as I can see is Ponsonby Rugby Club having to find new premises.

One thing you do not seam to have considered is, that under the present arrangement events are restricted due to noise, so how can you say either of these options will get more live concerts? The present arrangement would be more profitable if noise restrictions allowed more events. Option 1, I may go for this if it retains everything totally 100% in New Zealand control, NO overseas interest.

If the fist hook are resolved!

a You state the stadium will revert to Auckland after the lease expires, all well and good, but after a possible 100 years, it will likely only be fit for demolition or an expensive re[pair / upgrade.

b What will the cost to the users be under private management Option 2, Looks the better option for use by the people of Auckland, but would prefer to see Auckland Council get a percentage of the gate as well as a lease payment. Option 3, Keep it in its existing state, this would have been better if Speedway had remained, but I think could be viable if, as said above, the noise restrictions were reviewed to allow more live event. In General; I am sick of seeing New Zealand being sold down the river to Overseas persons. I don't believe we need venues to a World Class standard, we need them to a New Zealand standard and values. We need to retain New Zealand's individual character instead of making it a carbon copy of other countries, such that you cannot tell which country you are in.

It is possible to retain some speedway (changing the Unitary Plan similar to Eden Park's change) and use the site for concerts, festivals and cultural events. Speedway would need a long-term lease built in.

If this option cannot be accepted, then my second choice would be Option 2.

Under no circumstance would I ever support Option 1 which selectively advantages a small wealthy and entitled section of our Community while actively excluding the majority of residents.

I would like to see only Option3 considered as the others close out Public from freely being there !As follows via media... Option 3 – Neither option: Keep things as they are, or explore other ideas Under this option, existing arrangements could be retained. This includes extending the lease with Ponsonby Rugby Club, which currently runs until 2027. TAU could continue to manage the venue for concerts and festivals. Other ideas for the venue could also be explored under this option. This could include speedway returning to Western Springs Stadium in some form. The estimated cost to the ratepayer of the existing arrangement if the lease with Ponsonby Rugby Club was extended is $31.1 million spread over a 50-year lease period.

Option 1 is a rich-pricks option... It shuts community use out and underscores an elitism. It's not what a vibrant community needs. Option 2 provides an upgraded music/concert facility and maintains community sports facilities for all to use. Option 3 leaves the door open for the rich-pricks option 1... The Auckland Football team have had a fabulous first year... with average crowd attendance approaching 20,000 per game. Why on earth would they be supporting a 12,000 seat stadium???? It's a ground they wouldn't use. The club is being used as a trojan horse by its rich-********** owners to get a community facility to use to enrich their already healthy bank accounts. So, Option 2 please.

I am a long time competitor and supporter of speedway remaining at this historic venue. It has been the home of speedway for over 96 years. The AC and TAU owe it to the speedway community and the Auckland ratepayers to explore further options that include speedway.

Submission to Auckland Council – Future Use of Western Springs Stadium

[redacted]

Date: 29 May 2025
To: Auckland Council – AK Have Your Say
Re: Submission in Support of Auckland Arena (Option 1) – Addressing Auckland's Indoor Sports Infrastructure Deficit

Introduction

1. I refer to the Consultation Document issued by Auckland City Council, dated 19 May to 15 June 2025, which seeks public feedback on the future use of Western Springs Stadium, presenting three distinct options for consideration.
2. This submission unequivocally supports the Auckland Arena proposal, referred to herein as "Option 1", as the preferred strategy for the redevelopment of Western Springs Stadium. In my considered opinion, Option 1 constitutes a strategically astute and forward-thinking investment that directly mitigates Auckland's well-documented and critical deficiency in indoor sporting facilities—particularly for basketball—while concurrently delivering sustained environmental, economic, and social advantages to the region.
3. I respectfully submit that Option 1 is fully consonant with Auckland Council's statutory and policy obligations to foster community wellbeing, enhance economic vitality, and advance sustainable urban development. Accordingly, I strongly urge the Council to adopt Option 1 as the most prudent and beneficial course of action for the future of Western Springs Stadium and the broader Auckland community.

Auckland's Indoor Sports Infrastructure Deficit

4. Auckland faces a significant and persistent shortfall in indoor court facilities, a constraint that materially restricts the accessibility and growth of basketball—a sport marked by substantial participation increases across diverse demographics. This deficit constitutes a substantive impediment to community engagement and athletic advancement, particularly in the central and western suburbs where existing infrastructure is demonstrably inadequate.
5. The consequences of this shortfall are threefold:

    a. **Restricted Participation Opportunities:** Local clubs and educational institutions are forced to impose enrolment limits and maintain waiting lists due to insufficient court space, thereby curtailing access to organised sport for youth and community members.

b. **Impeded Talent Cultivation:** The absence of purpose-built venues for training and competition undermines Auckland's capacity to nurture emerging athletes to national or professional levels.
c. **Disparities in Access:** The infrastructure gap disproportionately affects underserved communities, exacerbating inequities and hindering efforts to leverage sport as a vehicle for social cohesion.

6. I contend that Option 1 provides a direct and effective remedy to these deficiencies by delivering purpose-designed indoor facilities, thereby fulfilling a critical need within Auckland's sporting ecosystem.

Merits of Option 1: Auckland Arena

7. Option 1 offers a comprehensive and sustainable solution, underpinned by four key pillars of public benefit:

(a) Targeted Sports Infrastructure

1. The Auckland Arena will provide high-performance basketball courts capable of supporting both grassroots participation and elite competition. Its tailored design will enable structured training programs, coaching initiatives, and regional tournaments, significantly enhancing Auckland's sporting capacity.
2. Specific benefits include:

- **Elevating Competitive Standards:** With a capacity of 12,500 to 15,000 seats, the arena is equipped to host regional, national, and international tournaments, positioning Auckland as a preeminent basketball hub and showcasing local talent.
- **Fostering Talent Development:** Modern facilities will empower youth programs, schools, and clubs with the resources necessary to cultivate future athletes of distinction.
- **Broadening Participation:** The provision of indoor courts will alleviate current capacity constraints, dismantling barriers to engagement and expanding access, particularly for younger demographics.

(b) Economic Contribution and Event Hosting

3. The arena's substantial seating capacity enables it to accommodate major sporting and entertainment events, generating economic uplift through increased activity in hospitality, retail, and tourism sectors. This aligns with Auckland's strategic objectives for economic resilience and regional prominence.

(c) Environmental Sustainability

4. Option 1 incorporates advanced sustainability measures, including solar energy generation, water reuse systems, natural ventilation, and energy-efficient construction materials. These features reflect a commitment to environmental stewardship and accord with Auckland Council's climate resilience and green infrastructure priorities.
5. The arena's design ensures:

    - **Minimized Ecological Impact:** Sustainable technologies reduce the venue's environmental footprint, supporting long-term ecological goals.
    - **Versatile Utilization**: Its adaptable configuration accommodates diverse functions—ranging from sports to cultural events—maximizing year-round value.
    - **Future Adaptability**: The scalable structure allows for technological upgrades or expanded uses, ensuring enduring relevance.

(d) Community Engagement and Inclusion

6. Beyond its sporting purpose, the arena will function as a multipurpose community asset, hosting health, education, and cultural initiatives. Its accessible design prioritizes inclusivity for all Aucklanders, irrespective of age, background, or ability.
7. Community benefits include:

    - **A Social Nexus:** The venue will support school events, cultural gatherings, and fitness programs, fostering a vibrant hub for interaction.
    - **Youth Empowerment:** Superior facilities in a central location will enable after-school programs, leadership training, and social initiatives, enhancing youth development.
    - **Local Enhancement:** By attracting diverse audiences, the arena will stimulate commerce, create employment opportunities, and elevate Auckland's status as an inclusive metropolis.

8. Furthermore, the arena's modular architecture ensures its capacity to evolve with community needs, safeguarding its utility and value over time.

Deficiencies of Alternative Options

9. In contrast, the alternative options fail to adequately address Auckland's indoor infrastructure needs and deliver limited public benefit:
10. Option 2 (Western Springs Bowl): While potentially enhancing the venue's suitability for music and festivals, this option does not respond to the pressing demand for indoor sports facilities. It represents a narrowly scoped investment with minimal year-round utility, falling short of resolving the identified deficit.

11. Option 3 (Do Nothing/Alternative Investigation): Maintaining the status quo or postponing action constitutes an unacceptable deferral of responsibility. Such an approach perpetuates existing inequities and undermines the wellbeing and aspirations of Auckland's communities, particularly its youth.

Conclusion

12. Option 1—Auckland Arena—stands as a strategic, sustainable, and socially beneficial investment in Auckland's future. It directly remedies a critical infrastructure shortfall, secures long-term economic and environmental advantages, and strengthens the region's social fabric.
13. I respectfully urge Auckland Council and Tātaki Auckland Unlimited to adopt Option 1 without delay. Its implementation will affirm a resolute commitment to equity, community wellbeing, and progressive urban development, delivering tangible benefits to Aucklanders for generations to come.

Yours faithfully,

[redacted]

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I chose Option 2 as I support the natural ampitheatre as a large scale concert venue. I also think it provides a better mix of uses/activities and AFC is fine at Mt Smart where access by car or public transport is way easier. I think Ponsonby Rugby's HQ should remain at WSS which is the home of Ponsonby Rugby. I think Option 1 is not in keeping with the surrounding environment which includes prized natural features like the Springs.

I have attended numerous events at Western Springs over the years. This place is world renowned as a "must go" or bucket list destination for speedway enthusiasts. I have met many overseas visitors at the venue and they all praise the "Springs atmosphere". It would be a travesty to lose it, not only for the sport, but for future generations to miss out on Australasia's premiere speedway facility.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Although I now reside in Remuera I have had the great fortune to live both in Grey Lynn and Los Angeles, and the Western Springs Bowl seems to me to be the only imaginative, culturally appropriate, community-oriented and aspirational option on the table. It is likely the best use of this very special space imaginable. It is a true taonga! Not only did I attend my first major rock concert here as a 14 year old (Dire Straits, 1981) I have in more recent years enjoyed the Pasifika Festival in the adjacent park, Big Day Out and smaller concerts and festivals in the outer fields. I particularly loved how the Western Springs stadium could be expanded to the adjoining reserve and even parts of MOTAT. In Los Angeles, I attended concerts at The Greek Theatre and The

Hollywood Bowl, two ampitheatre style venues nestled in nature, so I can see exactly why the group proposing The Western Springs Bowl have been inspired in this direction. There's a lot of cleverness here - the flexibility to accommodate crowds from 5,000 to 50,000 as well as being able to rotate summer events (concerts and cultural gatherings) with winter ones (Ponsonby Rugby Club training and sporting fixtures) providing year-round use to the widest varieties of communities and special-interest groups both locally and in the wider Auckland region. On a spiritual level, it seems to me that there is a wairua or energy here that is one of community embrace. Somehow, holding events and games that are so integrated in the surrounding natural beauty add an elemental 'heart' and grandeur to proceedings, which is exactly the charm offered by the L.A venues referenced. And the importance of retaining the outer fields for public use cannot be overstated. I believe it would be a shame to over-engineer this beautiful site, divorce it from nature and the neighbourhood as a whole, and restrict it from the broadest possible usage which unfortunately, is what the Auckland Arena proposal seems to promise. Western Springs Bowl all the way! Thank you.

Option 1 requires a high degree of privatisation for the proposers to make their ROI. Current concerts are already intrusive enough (I have been refused entry to Western Springs by security staff 7 days in advance of a concert). I see their community goals as being incompatible with their commercial objectives. Where is the Ponsonby Rugby Club in this scenario? What is the cost to the ratepayer?

Option 2 - expected private investment of $30m over 50 years reeks of low confidence in their plan (cf 200-300m of option 1). Option 3A - how much does the Ponsonby Rugby Club pay for lease? Does ratepayer cover Ponsonby Rugby Club's lease? If so does ratepayer cover other rugby clubs? Not clear from info provided. Option 3B - come up with a plan that keeps Ponsonby Rugby Club at Springs for 50 years (misleading. $ input from NZ Rugby Union), keep the springs family friendly with well maintained state of civic pride park , maintain the springs paths and borders, keep the lake clean, grow healthy tuna, ducks and swans, add smaller child parks to the area to complement the big one, get a JV with concert promoters to create robust popup concerts and cultural experiences. And ALWAYS ALWAYS BEAUTIFY WESTERN SPRINGS.

Dear Auckland Council Team,

I am writing to express my strong support for Option 2 regarding the future use and development of Western Springs Stadium and the Outer Fields.

Western Springs is a unique natural amphitheatre with deep cultural, musical, and community significance. For over 50 years, it has hosted iconic concerts and festivals that not only create lifelong memories for New Zealanders but also bring in substantial economic benefits to Auckland through tourism, local employment, hospitality, and event production.

I believe that the space should remain publicly accessible and be enhanced with modest, functional upgrades like a permanent stage and improved facilities without losing its core identity.

A balanced, multi-purpose venue that includes support for both the Ponsonby Rugby Club and live events reflects Auckland’s diversity and history far more than a private, concrete stadium for exclusive use.

Granting up to a 100-year lease to private investors for an elite sports facility risks locking out the general public and dismantling the vibrant cultural footprint of Western Springs.

This is not just a space, it's a taonga. One that should be preserved, enhanced, and shared by the people, for the people.

Please accept this message as my formal support for Option 2 in the consultation process.

I support the proposal for Option 2 - to preserve Western Springs as a unique, natural environment with an upgrade to a "Hollywood-style" Bowl and landscaping of the surrounding areas, with potential to create fsmaller concert spaces.

As a resident of 20 years in Western Springs I have enjoyed this beautiful environment at many events and so have my children, from an early age.

I totally reject and do not support Option 1 - a costly concrete stadium that strips not only the natural heritage but the historical heritage enjoyed by so many.

I submit that The speedway should stay were I has been for nearly 100 years option 3b Forget the decisions have been made so far on some very questionable facts proven now to be False.

What Auckland needs plenty of is soul things that Make up city ! Many thousands of people go to the restricted meetings designed to make the speedway uneconomic. Speedway is culture in Auckland everyone can recall an event at the speedway. It has created many businesses , sending speedway to another track and says ‘’ well its a track so perfect “ It’s asking people to play Cricket on a Golf course. Having the speedway where it is means it close to everywhere. It adds to the life of the city. Dont hamstring the speedway with only 12 meetings everyone can see what the game was here. Let many hundred of thousands of fans have a little fun at the springs. Leave western springs speedway at western springs

I am born and have lived all my life in Grey Lynn. To see people trying to change our beautiful Western Springs. We have Ponsonby Rugby Club that ha sbeen there for years and the open field used for rugby games and touch games for years. The sound of the car racing has now gone which is sad. We want to keep the beauty and the use of the area for our children and people of the area and from other areas. We do not need updated areas for soccer fans only and from the outside opinions of our beautiful space.

Western Springs stadium is part of NZ's cultural identity. Events held there have shaped Auckland's cultural landscape and created intergenerational memories that unite people. The stadium and adjoining fields have deep ties to the local sporting life, especially rugby league and union. Events such as Pasifika Festival reduce social isolation, foster spirit and unity. Its location enables ease of access for the public in outer fields. The land is a living legacy, one that binds past, present and future.

It’s vital Auckland Council invest in the Western Springs as a community venue, it is an iconic venue, civic pride and enhances Auckland’s reputation nationally and internationally. As a social infrastructure it maintains open and flexible spaces for public gatherings. I object to Option 1 as it will mean a potential loss of valuable green space and cultural heritage in an already densely developed urban area. It is adjacent to a significant green asset Western Springs Park, the Zoo, the MOTAT. The other issue is that there is not a train station or city rail link and that is what is needed if you want this multi-million Auckland venue. Please accept from support for Option 2.

Re Have Your Say on Western Springs — attachment **# 15079**

Submission by [redacted]

My Choice: Option 3B

1) I believe that Option 1 should **not** be chosen by the Council because:
-The Council should not pass the effective control of Western Springs to private interests for potentially 100 years. This means this group can determine what activities can use the bulk of the facilities & can determine how much they charge for the use. This potentially effectively locks out the public of Auckland, through Council from determining future alternative use for potentially 100 years.
-While the current proposers of Option1 may have the best of intentions & financial resources what guarantees for the future?
-I understand that the core interest of the promoters of Option 1 is professional football (soccer). Their Auckland based team, that while I wish them every success, has only recently been established & has yet to prove longevity. Will they still be around in 50 years?
-Like any private investors the operators will be looking for a return on their investment. This can only increase the cost of use to other outside organisations.
-If the Option 1 does not last the test of time & the Council has to foreclose does the council inherit a 'white elephant'? What has Eden Park cost the Council for the last 20 years. The Council for a number of years has been telling us we have too many underutilised stadiums.

2) -I believe Open Wheel Speedway should be returned to Western Springs & Ponsonby Rugby Club should also remain at Western Springs.
-I have been attending Western Springs Speedway with my family since the early 1960's & Waikaraka Park Stock Car & Saloon Cars on occasion since the early 1970's & so believe I am in a position to make the comparison of the 2 facilities as a spectator & close associate of a number of race participants in both camps.
I offer the following comments re Western Springs Vs Waikaraka Park:
-How will the 'merge' work?
-Both facilities already run a full programme of events & vehicle classes at 2 separate facilities.
-Last year Waikaraka ran 18 meetings & 2 practices running 8 classes (typically only 5 classes each night) & Western Springs 10 meetings & 1 practice running 5 classes. The vehicle classes do not overlap between the 2 venues.
- Waikaraka is permitted to run 35 events within a 12-month period. Speedway is clearly a summer activity & so realistically only 26 meetings are available assuming. Running during the work week is not realistic as almost all drivers & crews would not be able to take time off work.
-If 28 events were attempted to be run at 1 venue during the season from the last weekend in October to the 1st weekend in April plus say 2 extra meetings over the Xmas/ New Year period this would amount to 26 meetings. Western Springs meetings have already been forced by Council cut back from 15 to 10 meetings previously. Are the Auckland Stock & Salon Car Club (ASSCC), current holders of the Waikaraka lease, going to be prepared to lose 2 of their meetings & are the local Waikaraka residence going to accept meetings every weekend plus 2 extras at Xmas/New Year?
-The alternative would be to run less classes. Who would decide which classes to drop? Many of the classes enable teens to progress their driving skills in an affordable way & for those who cannot afford to run in the top classes to gain experience & gain exposure to the possibility of obtaining sponsorship to progress into the top classes. Speedway is very much a participant sport as well as attracting spectators.
-Palmerston North with a population of 76,000 & Napier/Hastings of 115,000 each support a speedway track but Auckland Council expect Auckland population of 1.8million to be able to 'fit' into only 1 track?
-Parking – Waikaraka Park is already a 'nightmare' for parking & I understand because the pits area, which is already too small for ASSCC currently, is to being extended & so reducing the on-site parking further. Currently if you expect to arrive at the park three quarters of an hour before racing starts

parking is 'pot luck' you can expect to allow a good 20-minute walk. Whilst it is an industrial area many of these properties are restricting parking with tow away.
Western Springs, on the other hand, while it can take a while to depart from the grounds is perfectly situated. Most meetings the park will be full or close to it.
-Seating- Western Springs bleachers are perfect for viewing choices around the track & for family groups as they can either sit as a group over a couple of levels or in a row. This choice is perfect for a family picnic dinner option. A meeting with friends & family. For our family, with us all having busy lives, speedway at Western Springs is perfect for regular family gatherings during summer.
Children are able to move around & are not confined to just sitting in 1 grandstand seat.
-Whereas at Waikaraka the old concrete stadium was replaced with a section of second-hand scaffold with fixed seating that I would describe as seating for children. Once seated you are squashed in shoulder to shoulder with your knees touching the seat in from of you. As the seats do not fold up people have great difficulty getting past to get in & out. There certainly is no room for a dinner bag or the like.
The only other option is to sit over the other side of the track on the sloping grass bund -much of which is too close to the track meaning you regularly get showered from dirt & mud from the track.
-**Seating Capacity**- It is claimed that the seating capacity at Waikaraka is 4,600. All I can say is that is wishful thinking. ASSCC claim they intend to increase the seating capability to 8,000 but no funding has been made available & no time frame set.
- Attendance numbers-TAU presented to Council average attendances but as far as I know have refused to provide any further detail arguing commercial sensitivity. I question the accuracy of these numbers. Have these numbers been audited for accuracy? TAU state that 12,104 people attended the last night of speedway. This represents 60% of the stated stadium capacity. You only need to have been there or look at photos to know there is serious doubt over the 12,104 number. Speedway is very much a participants sport as well as spectators. Do the numbers include the drivers & teams & their families? What about season ticket holders in previous seasons? Average attendance for a whole season means little for planning purposes. Surely planning should allow for the highest numbers reasonably expected within a season. During the international series & national events for example I would estimate the numbers to be in the 9,000 range & minor meetings around 5,000. There are going to be a lot of open wheel speedway fans being disappointed when there is standing room only at Waikaraka
-Financials-What revenue was generated at Western Springs? By my reckoning 2024/25 would have generated in the region of close to $2m gate take alone if the TAU attendance numbers above were accurate. What % of this goes to the Council for rent & maintenance directly attributed to speedway?
-Stadium positioning – Western Springs is situated in a bowl & is somewhat protected from the southerly & westerly winds which is good for evening events whereas Waikaraka is on the edge of the Manukau Harbour & is a cold hole & typically unpleasant by comparison.

-The Council's plan to move Auckland Open Wheel Speedway was flawed on many counts & will probably be its death knell in Auckland. The devil is in the detail which appears to be glossed over by TAU & Council in making the decision.

Western Springs speedway and fields are a major part of the local and wider Auckland community. The speedway brings a diverse number of whanau and people together regardless of their age, ethnicity, socioeconomic circumstances and beliefs. It unifies people and provides happiness, fun and a great speedway competition. It is central and easy to get to . Concerts are fun in the current setup too.

The Ponsonby Rugby Club has been an integral member of our community for 151 years. Given the unbroken length of commitment to the community, 151 years Rugby Club and 96 years for the stadium, it is a

and implemented. Option 2 section of sporting for the Ponsonby no brainer that Option 2 be adopted. Option 2 is a more balanced proposal providing for a greater cross and recreational community activities. Option 1 makes no provision t]r offers to, provide for re-housing the Ponsonby Rugby Club, This contemptuous and high handed attitude (which appears to be

supported by Auckland Council) is offensive to the community and on that basis Option 1 should not be considered .

Live music festivals and Ponsonby Rugby something for everyone as it has been for so many decades. A true community facility. As part of a Pacific family who lived above the springs for 97 years and continue to live across Grey Lynn and Ponsonby who strongly support Ponsonby Rugby and its current location. It is a famous club and known throughout the rugby world - it also marks the history of the Pacifica navigation and first place of settlement in Tamaki Makaurau / Aotearoa/ NZ

Keep things as they are. Include speedway which goes back so far and is great family entertainment. I plead with you to please keep the speedway running at Western Springs. It is a brilliant and safe night out connecting family and friends with a huge legacy.

It would be very sad and a great shame to lose it.

It's a great atmosphere at the speedway. Real family entertainment and the right place for it. Will be the end if held at Waikaraka Park for Western Springs cars.

Hello,

I've had a look at the situation and can now see why you want speedway out of there. It doesn't actually matter if Western Springs remains a little bit under utilised or not to me it doesn't. The place is and has always been perfect for the speedway application. If the Ponsonby Rugby Club want to build a new stadium get another bit of land somewhere else and don't rob speedway of its traditional perfect setting.

The speedway situation is working well as it is but I can see that it could be re-developed for rugby etc. So what is the solution here? Well I'll tell you. You have all of that land out by Colin Dale Park etc. doing nothing. The land is designated for motorsport so get on and do it. You could have every form of motorsport out there in an amazing complex used every day (maximum utilisation)

using all of that land and using it well. Motorway on and off ramps etc for traffic easement, not far from town. Re-make Western Springs out there (an open situation as it is now and not a dust swirling covered in disaster). Drag racing, circuit racing (like Hampton Downs), jet boat and everything else. Associated motorsport business park. You can do this and everyone will be happy. Let speedway stay there until the new one is built and then let the rugby club take over. Is all very simple. No Rocket Science here just common sense.

Talofa lava,

I am writing to express my support for Option 2 - Western Springs Bowl as the best option for the future of Western Springs stadium. After reviewing the consultation document and considering the various options presented, I have also spoken to Ponsonby Rugby Club management I believe that Option 2 offers the most benefits and aligns with the long-term vision for the stadium and more importantly this is the better option in maintaining one of longest standing Rugby Clubs in NZ in it's home at Western Springs.

We cannot afford to lose an important part of our Rugby history. The have produced more All Blacks that many of the rugby clubs across Auckland and across the country! They are at home at

Western Springs and we as a community need to include them at the forefront with the decisions when deciding on the future of Western Springs.

Options 2 allows Ponsonby Rugby Club to become a more mutli-usable venue for the community while the site is developed into a unique concert venue provided by the amphitheatre. And with the permanent concert infastructure will attract concerts and festivals it gives community accessibility to such a greater venue. Options 2 has a lot more focus on Western Springs community, offering an event-based entertainment and sporting hub. And with the upgrade to the rugby club it provides a better service and gathering space to community, to corporate.

In conclusion, Option 2 presents a more balanced and forward thinking approach and option to the future of Western Springs stadium. It offers genuine significant benefits in terms of community engagement, accessibility, environmental sustainability but also economic growth. I strongly urge the decision makers to consider Option 2 as the preferred choice for the redevelopment of Western Springs Stadium, the Home of Ponsonby Rugby.

Thank you for considering my submission.

I support option 3b.

Auckland City Council has an obligation to cater for all spotting needs thst does include open wheel speedway. One of the best speedway tracks internationally known. Providing entertainment and on going business income from many enjoying a home grown sport. Attracts international drivers while fostering and developing local and NZ wide talent who can competitively compete with some of the best in the world. Historically has a right to remain and its presence can collectively be retained within a venue that can provide enjoyment for concert goers, rugby players and speedway competitors and fans.

Option 3b is the only one that makes sense and while the council has jumped the gun and paid out 12 million to the sport already, they will save the millions required to relocate the rugby club while

maintaining a healthy income basis for the Western Springs and Auckland area as it has fine for the psst 96 years.

Ponsonby Rugby Club and Speedway must both remain at the stadium.

They are both part of Auckland's heritage.

To whom it may concern:

I am writing as a local resident of Western Springs to express concern about the current direction and scope of the proposals for the Western Springs Stadium site.

While I fully acknowledge that a project of this scale could be a genuine opportunity to energise and revitalise the area, that potential will only be realised if key considerations are properly addressed. Without them, the risks - to both the local community and the Council's reputation are significant.

Key risks and concerns include:

1. Infrastructure and transport pressure

None of the current options provide a clear, costed strategy for managing the expected increase of up to one million annual visitors. With Auckland Transport facing funding challenges, failing to address congestion, parking, and public transport could cause serious disruption and community frustration.

2. Community integration and long-term value

For a proposal positioned as transformational, there is little focus on how it will benefit or involve the local community. There are no defined commitments to local job creation, social uplift, or integration with the area's existing housing and social & educational infrastructure. That's a missed opportunity to deliver meaningful long-term value.

3. Transparency and public confidence

From my perspective, the current consultation lacks sufficient clarity and balance to support a truly informed public response. Key issues such as transport impact, social outcomes, and community benefit have not been prominently addressed. This risks undermining public confidence in the process and the outcome.

This development has the potential to become a positive legacy project but only if it's approached with a genuine commitment to community needs, infrastructure realities, and transparent decision-making.

Thank you for your time and consideration. I'd welcome the opportunity to discuss this further.

Auckland needs an alternative to eden park for cricket. A proper oval rather than playing in a stadium that is designed for a rectangle field.
