8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Young people on the North Shore need a safe, welcoming place to play sport, especially as the community becomes more diverse and continues to grow quickly. It's essential that all kids feel comfortable, included, and able to connect with others. Parents also need a park they feel confident driving to one that is affordable, fun, and accessible for every family.

2. How often do you use the park?

Every day or most days

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

It's important to ensure council create public areas for community and this is the wellbeing of all people. As AI fast developing people have less access to outdoor or indoor space for activities and often spend time online specifically our young people. We need to create better world class facilities to our people and young people to enjoy sports.

IT makes no sense to me to rip up the golf course. To get the amount of water storage that the council is looking for, the current lakes could be made larger, with plenty of space to add more. Surely if these fill up then the golf course could just be flooded. Once the waters recede, the golf course can be brought back to life again. Courses in countries such as Denmark and Sweden sit under snow for months at a time and are played on in the summer.

I just don't see why you can not have both options, considering you are only looking to protect against the worst 1 in 100 year storms.

4. What type of golf would you most like to see provided at the park?

Other, please specify: As per my comments above.

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Outdoor sports courts (e.g. basketball, netball, pickleball)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Organised recreation - space for organised sport or clubs, Other - please specify: keep the golf course whilst redeveloping the event finder stadium

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

I would like to see some land leased, but the event finder stadium kept under council control, so that sport like Basketball are available to local teams at an affordable price.

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

Someone who has expertise in running the facility to a higher standard than the council provides.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The council has allowed so much in fill housing without upgrading the drainage/sewerage and storm water, this has contributed to excessive flooding. Our open spaces are slowly shrinking. Where do people go!

My daughter attends the Gymnastics club. I trained there too as a teenager. I remember when it opened - it was the first dedicated gymnastics space on the North Shore - and it saved us using local school gyms all the time. It is needed - and should be preserved. There are at least 2 other golf courses close to Takapuna for golfers to use.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range, Short-game practice area / putting green, Indoor golf simulators

5. What other type of recreation would you most like to see provided at the park?

Archery, Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Nature play / playground, Space to hold events (e.g. community markets, festivals or concerts)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation, Resilience - supporting flood protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

I'm glad there is plans to engineer a safer place in terms of flooding - however it's a great location for local recreation. Please maximise its appeal. Nga mihi.

I played Golf here when I was a student and later when working before I could afford to join a Golf Club.

Golf is not cheap and this course provides people the opportunity to play the game.

Flooding is Councils problem and allowing houses to be built on what was essentially a flood plane is the problem.

The Council has an obligation to provide sporting amenities for its ratepayers.

The Council wastes huge sums on environmental causes and the persecution of landowners. It needs to offer facilities which add to the health and well-being of its citizens.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Leave it. You don't use what is a special place to sort out a problem the Council created by consent given to build houses on a flood prone area. It is a short term solution to a major problem.

Climate will continue to change and the benefits of an open space is more important than enforcing ideology on the community.

It is a great little golf course and I have many great memories of playing there in the late 70s early 80s with work mates.

It afforded us the opportunity to play Golf in much the way that Chamberlain Park did.
Don't do it.

Don't take away something lots of people are happily using. Taking away the course entirely will force so many players into other courses that are already full/busy enough. You'll end up deferring people from playing or getting into the sport.

Only golf, this is only one of two public golf courses in the greater Auckland area, as such it is extremely well used by the public for golf. This area has been used for golf going back to 1931 and there are plenty of other public parks and facilities for non playing golf public to utilize. At the very least the wetland areas being created can be perhaps used as walkways but could also be built into the golf course to absorb wet weather events.

4. What type of golf would you most like to see provided at the park?

This is one of the few (if not only) affordable golf options in the area, why take this away from us? The great thing about it, is it supports players at every level of the game, from beginners, to kids, and intermediate and experienced played.

Any plans to reduce this will inhibit the growth of the game, and take away a space that is a real and affordable golf option to players at every level. Golf is becoming a very popular sport (for good reason) in Auckland, removing this space will put additional constraints on the courses nearby, where it can already be difficult to get a tee time, and only supports the sport being more 'elitist' as it could cause prices to increase elsewhere with the reduced supply of golf options.

Takapuna golf course is the only public and affordable course on the north shore.

Golf prices continue to escalate and it is important to maintain some public golf facilities that are available to a wider demographic.

There is significant demand for it and the course is extremely busy.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 12-hole beginner/intermediate golf course (approx. 36-40 par), 9-hole traditional golf course (35-36 par), Driving range

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

With small investment in the current facilities particularly the driving range this could make significant financial returns for the council and would self fund future upgrades of the facilities. The proposed lease to golf warehouse who already own/lease substantial facilities in Auckland will continue to increase their monopoly. Profits will go to private rather than back to the council

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

If the land is to be lease this should be put out to tender.

The current proposal to a very well and dominant golf company should not proceed without a fair process and opportunity for other proposals

Golf is a sport for any age. It supports movement and have many health benefits. A standard 18-hole golf course provides a variety of conditions shaping how the game is played and developing skills. The balance between short par 3's medium to long par 4's and par 5's allows experienced and novice players alike with unique playing conditions.

4. What type of golf would you most like to see provided at the park?

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

Long term leases stimulate economic growth. Commercial operators have access to external funding outside of the tax base and can possibly invest more in the short term while using the mid to medium term to offset debt.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

It is a centralized community hub for the North Shore providing amenities at affordable costs without the need for extended travel.

This golf course has been there for a very long time !

I learned to play golf there a very long time ago , and still enjoy going there for a round with my mates!!

As for the flooding in surrounding housing surely proper drainage should be put in ? Why it had not been done years ago astounds me!

Keep Takapuna public golf course for the people who can't afford to join a club, which I might say is very expensive now!

Because the golf course is a valuable green space owned by the public, it is the busiest in the country and is a valuable asset for Aucklanders as it is.

In over 45 years living on the North Shore the flooding has only happened once and there were unusual circumstances.

A alternative proposal was put forward to have both flood water retention and the 18 hole golf course yet this was rejected.

This was supported by prominent professionals yet their support was ignored.

I urge the council to keep the 18 hole golf course and allow for flood water retention when and if needed

Because there will be private operators who would keep it as a golf facility as it's a great opportunity for them to run a golf course without having to buy expensive land.
It would remove some of the burden for council to allocate funding

Play golf at the golf course, Use the golf driving range

2. How often do you use the park?

Other, please specify: Days that I'm not at work

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

Because golf at Takapuna Golf Course is very affordable. It is the only public course in Auckland or probably in New Zealand that provides a full golfing facilities again at affordable prices. Unlike other courses where they charge an arm & leg. Current management has maintain and upkeep the course to a standard where golf can be played all year round. In fact, the upkeep is even better than some of the private course in the Auckland region.

Golfing at Takapuna is Community Golf, it does not discriminate between genders, age, playing ability, whether you're a beginner, regular or season player. Family groups are encourage to play together. It supports general wellbeing with family members spending time together, playing and at times competing thru the handicap system. Groups from other sporting codes & businesses/corporates have and still use Takapuna Golf Course as their venue of choice when planning their corporate or golfing event days. Community also benefitted from not having to pay a yearly/monthly subscription fees, you pay as you play. Senior players pay a reduce rate and all players can choose to either play the full 18 or 9 hole golf.

Auckland already has numerous numbers of beaches, parks and walkways and cycling tracks. Sporting fields for other codes. But only one Takapuna 18 Hole Golf Course and Driving Range which in my humble opinion should be treasured.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 9-hole traditional golf course (35-36 par), Driving range, Short-game practice area / putting green

5. What other type of recreation would you most like to see provided at the park?

Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

Especially to the current operator Takapuna Golf- who has done great work in maintaining the land and providing affordable golf to the whole community. And they will continue to do so if allowed.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Golf and the driving range is popular here because it's public reasonably priced and the only one in the Takapuna Wairau, East Coast Bays area. I find the driving range to be useful in the winter months. However I also think 18 holes is taking up too much space so should be 9 hole golf course with other facilities available.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Pitch and putt golf course, Driving range, Short-game practice area / putting green

7. Which Park lease approach would you prefer?

i think it's important to keep the area council (public) owned so we can have a say in how the land is utilised. I for one don't want commercial operators erecting cell towers or commercial buildings or the like.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Surely it is possible to adapt the current golf course with a design to accommodate both a great active recreational facility and a complementary and inclusive stormwater retention facility. One would imagine the outcome would be enhancing. Unfortunately the past wetland/passive parkland efforts on the North Shore leave one in doubt.

Your feedback

1. How do you or your household currently use the park?

Play golf at the golf course, Use the golf driving range

2. How often do you use the park?

Once or twice a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

Retaining a 9 hole public and affordable golf course and driving range has to be the minimum, other uses golf related i.e. mini golf, pitch and putt, then if room non-golf i.e. Pickleball could all benefit the community.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Pitch and putt golf course, Driving range, Mini golf

5. What other type of recreation would you most like to see provided at the park?

BMX pump track / skate park / other wheeled play, Outdoor sports courts (e.g. basketball, netball, pickleball), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Connectivity - walking and cycling connections through the park that link with the wider community, Resilience - supporting flood

protection and climate adaptation,Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

2. How often do you use the park?

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

Golf is wonderful, but not for everyone. There is enough space to be an awesome location for many different park users. It is a great location, close to motorways, transport hubs, residential areas, schools. It should be balanced to cater for all.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range, Short-game practice area / putting green, Mini golf

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

It would be gutting to lose the EventFinda Stadium, and all it offers. If the council could not deliver a facility like this for some time... then I would prefer it is offered out for lease, so somebody else could. My family has been using the EventFinda Stadium for 6 years now as our kids have moved through schooling and sports. It is a brilliant, accessible, close, great parking, great facility overall. To me it is the most important part of the park and it will effect NUMEROUS schools and sport should there no longer be any provision for something like it in the new plans.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

A EventFinda stadium or similar.

Tell us Why

There is no reasonable priced golf for casual players on the northshore and the driving range is open during the evening. The driving range is always busy. It is an easily accessible location being just off the motorway and walking distance to the northern bus way. When you visit you will notice many people both young and old who are starting out in golf can be seen queuing up waiting for their turn to tee off. The training g putting green is excellent. What would you want to take an amazing asset away from the community. A lot of families use the driving range for a family outing, and you will always find Dads with their kids and bunches of teenagers trying to see who can hit the ball the furthest.

This space is very handy and green - we need to maintain the beautiful trees and green space but it would be ideal for a walking track, lovely outdoor café, have a fully fenced dog area, possibly even some outdoor covered deck areas for nature activities like yoga classes, dance, artisan markets. I think the plan should provide opportunities for those passing by as well as those who live in the area. Protect with willows and other old trees.

4. What type of golf would you most like to see provided at the park?

The council is looking to ruin a great community resource due to a once in 100 year storm - insane waste of what is a brilliant resource used by so many so close to the city.

If it needs to change, which it appears we don't have a say in, I would rather people with some basic Talent were holding the reigns and delivering something special.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Leave it as it is and find a better solution for the water.

I think that this course is iconic and one of the very few places that the public can learn and play golf. It is also a wonderful large green oasis in the middle of what is becoming a very crowded North Shore City. I strongly believe that an alternative to losing ANY of the course should be thoroughly investigated.

2. How often do you use the park?

Less than once a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

Golf appeals to and is financially accessible to few people, and there are other options available within reasonable distance. This is a large piece of green space that could be used more widely by the whole community.

4. What type of golf would you most like to see provided at the park?

Pitch and putt golf course, Driving range, Short-game practice area / putting green, Mini golf

5. What other type of recreation would you most like to see provided at the park?

BMX pump track / skate park / other wheeled play, Nature play / playground, Open space / picnic area, Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Heritage - highlighting local Māori culture, Open space - space for free play and relaxation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Community land belongs to the community

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Equity, access, and enjoyment for all should be a priority.

3. What mix of recreation uses would you like the park to provide once redeveloped?

Unsure

Tell us Why

I'm fully in support of recreational parks around Auckland, but surely the golf course brings in a lot of revenue. Therefore it would be interesting to understand how much local parks are used by families and individuals, against its revenue possibilities. Apart from Regional Parks, I notice most local parks are quite empty most of the time.

4. What type of golf would you most like to see provided at the park?

We should preserve urban green spaces as much as possible. Many high-density residential buildings have been constructed in cities, leading to a decrease in green space.

4. What type of golf would you most like to see provided at the park?

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

It is currently an affordable public facility on which to play golf.

All other such facilities in the area are either strictly limited to members and / or are prices to block those of us with limited income / monetary reserves.

Other park and wildlife facilities are available in many other local areas.

I do agree that something needs to be done about the flood plain - perhaps this can be done whilst actually improving the golfing environment?

The existing facilities are virtually being halved as it is, so I'd like to see it kept mainly for golf. There are not many other places in Auckland or even NZ for that matter, that someone like me can go & play golf unless I pay the cost of becoming a member at a club - which is beyond my financial means.

Mostly golf with limited other recreation uses

Tell us Why

There are very few parks of this size on the North Shore so to start cutting it up for other activities is very short sighted. Why can't the area be retained as an 18 hole golf course and also re contoured so it can be used as a short term water holding area when excessive rain events occur. Under this type of scenario the golf courses would stay as an 18 holes golf course and during a once in 100 years flood be closed for a few weeks to dry out. This would be far more cost effective and retain the golf course.

Takapuna municipal golf course has offered golf to the average person for many decades and must stay as a key part of the north shore. Auckland lacks recreational facilities (it was voted the most boring city in the world) and with chamberlin park now being downgraded Takapuna municipal golf course is the only other public course available to the average person. Please do not turn that area into housing or such its too wet and close to the motorway. I was introduced to the wonderful game of golf at Takapuna municipal golf course back in Richard Ellis's time and i know that many a pro has served their time at that course.

You did talk about this in the presentation - so i understand that Takapuna Golf has first right of refusal - but i do think the Golf Warehouse proposal has great merit. \$20 million privately funded plan - with no public money required - to create a world-class, future-ready sports and recreation destination.

Here's what's included:

- ☒ A new 9-hole "inland links" golf course
- ☒ A new 9-hole par-3 short course, floodlit for night play
- ☒ A new 100-bay tech-enhanced driving range, powered by solar energy
- ☒ A new mini golf course and Auckland's largest practice putting green
- ☒ A new multi-purpose community clubhouse

☒ A new home for Golf NZ's entry-level participation and development programmes

☒ And 6,000m³ of much-needed additional car parking

This isn't just about golf - it's about community.

 A Shared Space for All Sports

AF Thomas Park is home to thousands of active Aucklanders every week - from golfers and families to the 500,000 people who use Eventfinda Stadium each year.

Our vision makes space for:

 Basketball and Gymnastics (facilities bursting at the seams across the Shore)

 Pickleball, Netball, and Indoor Tennis

 Pump tracks and new youth recreation areas

We're designing a space where multiple sporting communities can grow together - safely, sustainably, and side-by-side.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range, Short-game practice area / putting green, Mini golf

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Lawn bowls, Open space / picnic area, Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Nature - protecting or enhancing the natural environment for people and wildlife, Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

If golf warehouse is offering to fund \$20M with private money - i'm not clear what the ownership would be - lease? All under council control? Partnership - not clear. Love other council facilities that i utilise and am grateful for - but i still pay for them. The regional parks are free and i absolutely love them.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Upgrade / relocate the events centre.

We already have Sunnynook fields for touch etc. The netball courts and Taka rugby club; Schools should utilise their fields for the community more. Home and away games for teams at the schools instead of having to go to a central space - could help alleviate the pressure of not enough sports space

This is a popular public course so it would be great to offer a 9 hole option at least to continue to support the desires of the community. Having other options to walk/run, ideally with dogs, or cycle would be fantastic. If there are other opportunities to provide multi use opportunities such as boulder wall, exercise machines, playgrounds etc that would enhance the local area.

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

Thank you for the opportunity to provide feedback on the recreational use of A F Thomas Park.

I am not a regular golfer and therefore do not currently use the park, even though I enjoy an occasional round. As a very casual, beginner-level player, I find the current course quite intimidating and not particularly welcoming for someone like me who prefers shorter, beginner-friendly courses.

Because of this, the main way I would like to use A F Thomas Park in future is not as a traditional golf course, but as a place for everyday recreation and connection with nature.

Walking, running and cycling around the wetland

I strongly support the creation of a walkway/running/cycling loop around the wetland area.

A well-designed path here would:

Link into existing local tracks such as Smiths Bush, Tuff Crater and Onepoto Reserve, creating a connected network of safe off-road routes.

Provide a safer place to run and cycle away from traffic, which is important for families, older people and those new to exercise.

Help build public appreciation for our green spaces and wetlands, simply by making them easier to see and experience.

Create learning opportunities for the community, including school groups, to understand the ecological and environmental role that wetland areas play in flood management, biodiversity and climate resilience.

Given the park's role in the blue-green network and flood management, this kind of loop track feels like a logical and very public-facing way to showcase that investment and educate people at the same time.

Golf – but more inclusive

I also want to acknowledge the historical and personal importance of the golf course to many people on the North Shore. I understand that golf will likely continue to have some presence here, and I support that in principle.

If golf is retained, I would prefer to see it in a more accessible, beginner-friendly form – for example a shorter or modified course, (I do like the idea of a 12 hole golf course as this feels like a natural compromise), or facilities like a driving range or short-game area that feel less intimidating and easier for casual players and families to use. That would make it far more likely that people like me, who are not traditional golfers, would actually use and enjoy it.

Enclosed dog park

As a dog owner, I strongly support the inclusion of an enclosed off-leash dog area within the park.

Many people on the Shore have dogs, and currently a lot of off-leash exercise is focused on the beaches.

A securely fenced dog park would provide a safe space for dogs to exercise and socialise, which is important both for the wellbeing of the animals and for community safety.

Good dog socialisation reduces behavioural issues and makes shared public spaces more pleasant for everyone.

At the moment, I occasionally travel across the bridge to Meola Reef dog park to give my dog a proper off-lead run in a secure environment. It would be fantastic to have something similar on this side of the harbour that is easier and more sustainable to access.

Overall

In summary, I would like to see A F Thomas Park evolve into a genuinely multi-use space that:

Supports the blue-green network and celebrates the wetland through a walking/running/cycling loop.

Provides educational opportunities about ecology and flood resilience.

Retains some form of golf, but in a way that is more welcoming to beginners and casual players.

Includes a well-designed, enclosed dog park to meet the needs of the many local dog owners.
Thank you for considering my views as you plan the future of this important public space.

4. What type of golf would you most like to see provided at the park?

12-hole beginner/intermediate golf course (approx. 36-40 par)

5. What other type of recreation would you most like to see provided at the park?

Archery, Off-leash dog exercise area, Open space / picnic area, Outdoor sports courts (e.g. basketball, netball, pickleball), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Heritage - highlighting local Māori culture, Nature - protecting or enhancing the natural environment for people and wildlife, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

I support keeping the recreation land at A F Thomas Park under council ownership and control, rather than entering into broad long-term leases with independent operators.

My main concern is access and equity. When large areas of a public park are leased out, access is often tied to user charges, club membership or pay-to-enter models, which:

Put financial and social barriers in the way of many people

Risk making outdoor activities feel exclusive or elitist

Reduce opportunities for informal, drop-in use of the park by the wider community

However, if council decides that golf and archery will remain on the site, I can see a case for allowing targeted partnerships or leases limited to those specific activities, to:

Help fund, develop and manage golf and archery facilities

Improve the quality and safety of those activities for people who choose to participate

Any such arrangements should be clearly confined to the footprint needed for golf and archery, and should include expectations around reasonable pricing and community access.

Outside of those specific areas, I believe the rest of the recreation land should remain under direct council control, focused on:

Free or low-cost informal use (e.g. walking, running, cycling, dog exercise, casual play)

Flexibility to adapt the space as community needs change

Maintaining A F Thomas Park as a genuinely public, inclusive green space

In summary, I do not support a broad long-term lease model over most of the park. If golf and archery are retained, any lease should be tightly limited to those activities, with the remaining areas clearly protected as public, council-managed open space.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Thank you for having the courage to directly address flooding and the protection of wetland areas in this plan. It's not always easy to make decisions that balance recreation with environmental resilience, but it's incredibly important.

This area has always been a floodplain and wetland, and nature has a way of "sticking to the rules" whether we plan for it or not. Acknowledging that natural character and working with it, rather than against it, is a smart and responsible approach.

To me, strong communities are about living together inclusively – not just with each other, but with our environment as well. As climate change intensifies and extreme weather events become more common, protecting and restoring wetland areas will be absolutely critical, especially in low-lying parts of the city.

I really appreciate that this consultation recognises the role of wetlands in flood management, biodiversity, and long-term climate resilience, and I encourage council to keep this environmental lens at the heart of all future decisions for A F Thomas Park.

A balanced mix of golf and other recreation uses

Tell us Why

It would be ideal for the recreational activities already using this park to be able to continue as before, e.g. bowling, archery etc. Having a reduced size Golf course would enable areas of this park to be used for flood protection/reduction & perhaps the fare ways could be incorporated into the flood protection features like you see on courses overseas. If a golfer wants a longer course, 18 hole, they could easily take a casual membership or pay green fees to play the longer game. There would probably need to be consultation with the two private clubs to allow for this to happen.

4. What type of golf would you most like to see provided at the park?

This golf course has been valued for years and should not be lost for generations to come. I read that a possible solution was to tunnel under the motorway. The Transport agency should not have the final decision to decline outright, and every engineering solution should be explored, including going under the motorway if that would actually work, to save this 18-hole public golfing facility. Yes, the park could still be modified to include other activities but do not lose the golf course. It's an absolute gem and the public will be bitter to see it go because the Transport agency has zero tolerance to explore an engineered tunnel. The Government should make them take another look and make the reasons for declining open for the public to see. It's worth pushing back and exploring further before it's lost to Auckland for good!

4. What type of golf would you most like to see provided at the park?

Other, please specify: Full 18 hole 72 par. If not possible then the closest option

5. What other type of recreation would you most like to see provided at the park?

Walking / cycling tracks, Other, please specify: Walking/jogging/disability wide pathway should be incorporated into any retained golf course

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Other - please specify: Golf and wide walking/jogging/mobility track

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Get the government minister to make the Transport agency allow a sufficient engineered stormwater tunnel under the motorway. If this was another country they would find a way to design and build it so this public asset was retained forever. If it could work, then build the tunnel and keep NZ's most popular golf course

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Push back on the Transport agency and keep this golf course. It's an absolute vote winner!!

I see no reason why the golf course can not remain in full, perhaps modified to suit, and still have part of it as a suitable flood plain to retain water during flooding events.

There are plenty of other spaces for alternative recreational use.

I am not a golfer, but its one of the few so-called public courses around, so why not leave it more or less as is but with a flood zone.

Obviously, if flooded, golf would not be played in that area.

Takapuna golf course and range is the place where many people get into golf. It facilitates a wide range of golfers. The course itself is a good place to learn.

It is also an affordable facility for golf, especially if you compare to the cost of golf at North Shore golf club.

4. What type of golf would you most like to see provided at the park?

I like the proposal by the golfwarehouse, however I am concerned about the long term pricing as they would have a monopoly on the North Shore. The Takapuna golf range is more affordable than the Barry's Point golfwarehouse golf range.

Keep the driving range - easy, accessible for all skill levels, inexpensive thing for people to do. It would be great to see a proper technical pump track suitable for adults and advanced rides (there's one for the little kids at the other parks) pickleball courts, basketball courts, ultimate frisbee etc. if you have a range of options people could stay there longer and it would cater to more peoples interests

4. What type of golf would you most like to see provided at the park?

It is so expensive to take your kids to do activities or to do activities in suburban areas. It's important that this is free, privatising it only makes it cost more for the user. Keep it free, accessible for everyone.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

A rare opportunity to make this the best free park in New Zealand which promotes people being outside, connecting with nature & physically active.

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

I learned to play golf at Takapuna. Because it is a public course aimed at casual golfers (unlike Pupuke and Waitemata, which I classify as Clubs even though they are on public land) I did not feel pressure that comes with learning at a regular golf club with members who want and expect other players to (i) play at reasonable pace and with a reasonable knowledge of the game; (ii) be able to play to reasonable standard so that the course is not too often adversely affected by beginner duffed shots (iii) play in the same four as people who actually know how to play golf. I support the idea of an outdoor gym / exercise trail, and walking paths - both could be accommodated around a golf course. I also support the continued archery and bowls clubs usage of the park, and acknowledge the huge number of people who use the Events Centre, so the Events Centre needs to be future-proofed in the new plan for AF Thomas Park

4. What type of golf would you most like to see provided at the park?

5. What other type of recreation would you most like to see provided at the park?

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Connectivity - walking and cycling connections through the park that link with the wider community, Nature - protecting or enhancing the natural environment for people and wildlife, Organised recreation - space for organised sport or clubs

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Golf courses are expensive to create and maintain. The current approach to golf, with a private operator leasing the land for public-access golf course is great for enabling the public to play easily without it costing the Council huge sums.

Council needs to retain control of some of the land if it is to provide free land-use options, such as walking paths etc.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The golf course at Thomas Park is an amazing venue for getting novices into the sport and enabling those who cannot afford a regular club's subscription fees to continue to play the sport. It would be a shame to deprive such people of the opportunity to play the game by not retaining at least a proper 9 hole that encompasses proper par 4 and par 5 length holes, along with par 3 holes.

Whilst it is imperative to keep green spaces in the area, the increase in population throughout the community has exploded over the last couple of generations and therefore requires facilities that can cater for that growth. As most of the upgrades will be funded by ratepayers, used by ratepayers, and maintained by ratepayers, it should continue to operate as a public experience and enjoyed by all, not the minority.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

At times, progress is necessary, especially when it comes to a community's infrastructure; however, this should not be at the expense of the historic and unique identity of an area, such as A.F. Thomas Park. The upgrades need to enhance the surrounding homes, schools and businesses as well be a reflection the people who live there.

What should happen is the 18hole golf course remain and the land near Wairau rd North// East Corner Reinforced and re modeled to allow Water retention when needed .

It needs to be remembered that after the latest flooding many houses that were adversely affected have now been abandoned or possible future damage mitigated so they should not be a problem for the future. The water that finds its way into the creek needs to be Reinforced to ensure there is a free flow and the areas above needs to be recognized as a flood plain when needed. . This project should not supersede other city projects. There is no need to redesign the whole area . Mostly golf with limited other recreation uses

Tell us Why

Takapuna golf course represents the largest gateway into golf in New Zealand. Home for young and beginners, it remains one of the few affordable places to find passion and hone skills in Golf.

Surely there is a way to redirect water and still leave the Golf course (which is an institution in the area)?

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), Other, please specify: Full 18 hole golf course 70-72 par

5. What other type of recreation would you most like to see provided at the park?

None of the above

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Other - please specify: As stated above, it's ability to be the largest feeder into a fast growing international sport (in which NZ has had amazing champions)

7. Which Park lease approach would you prefer?

Keep all land under Council control

Your feedback

1. How do you or your household currently use the park?

I don't use the park

2. How often do you use the park?

I don't use the park

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

Appreciate that golfers have a connection to the park but the ongoing risk to the wider area is too great to ignore. Returning at least part of the park to its original purpose as a wetland will ensure future sustainability for the wider area, including the golf course.

4. What type of golf would you most like to see provided at the park?

Other, please specify: Whatever the golf users believe is best

5. What other type of recreation would you most like to see provided at the park?

BMX pump track / skate park / other wheeled play, Nature play / playground, Open space / picnic area, Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural environment for people and wildlife, Productive land use - using parts of the park for food growing or other resources, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

To appeal to a broader cross-section of the North Shore community, and to attract people from other areas to visit and enjoy the park.

4. What type of golf would you most like to see provided at the park?

Pitch and putt golf course, Mini golf

5. What other type of recreation would you most like to see provided at the park?

Nature play / playground, Open space / picnic area, Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks, Other, please specify: Arts and culture attractions. A suggestion is large outdoor feature art pieces that would make the park become known as a social leisure place to meet. Well known parks have features that inspire people to take photos, interact with diverse groups of people, and it adds a trend element to the park. The space can feature art pieces that could be provided by local artists.

basketball is one of the most popular sports in the North Shore with both boys and girls participating. There is currently not enough facilities available with teams having to play in dilapidated courts such as Transformation Academy and the old Rosmini gym. Please take this opportunity to consider an indoor sports facility that can cater to this popular sport. Eventafinda stadium is small and just not adequate anymore.

Golf is a sporting activity enjoyed by a specific portion of the population. With our growing population, our increasing housing density and increasing reduced individual residential garden size; it is important for families especially children and young adults to have access to open playing areas to enjoy individually or as a family. I think this is not the park for golf. I would like to see walking trails, lots of trees and glades to walk through, and how great would it be to install a 9-hole Frisbee/flying disc court amongst this? As far as I'm aware the north shore does not have one of these. It takes up little space, unlike a golf course, as the 'holes' can be nestled amongst the trees. I would like to see a park similar to Audrey Gale park in New Plymouth. I love this park as it has so much to do, and provides much needed shade with its large trees and glades. This is something Auckland seriously lacks. Far too often our recreational parks are just open grass areas with no places to escape the sun. Terrible for a country with such a high rate of melanoma. Audrey Gale park is restive and relaxing, but still provides plenty of things to do. See about the park here <https://www.taranaki.co.nz/visit/everything-to-see-and-do/parks-and-gardens/listing/Audrey-gale-reserve>.

4. What type of golf would you most like to see provided at the park?

Short-game practice area / putting green

5. What other type of recreation would you most like to see provided at the park?

BMX pump track / skate park / other wheeled play, Nature play / playground, Walking / cycling tracks, Other, please specify: See my above comment about a Frisbee course. Something unique that we don't have in other parks. No more courts, golf, or sports fields. We have plenty of those in the north shore already. Make this a nature filled restive reserve where people can escape the city and reconnect with nature. This is what the north shore desperately needs. The reserves like this are far fewer than in a city like Sydney. Life in Auckland is stressful. People need a restive place that is calm and quiet. Not loud with people screaming playing rugby. We have other parks for that.

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Connectivity - walking and cycling connections through the park that link with the wider community, Nature - protecting or enhancing the natural environment for people and wildlife

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

I do not want this park to be full of more sporting resources. We have plenty of parks providing that on the north shore. This park is a great opportunity to provide a nature escape in the heart of the North shore in an area where there is very little native vegetation left. It doesn't have to be all native, but trees are badly needed in this area of the city. Bring back the wildlife to the heart of the north shore they people can walk or cycle through with their kids to connect them to nature.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Please do not fill another open green space just with sports fields! The north shore has lots of these already. We don't need more grass. This is a great opportunity to make this park unique and different.

Tell us Why

Takapuna golf course is one of the most visited and used golf courses in the country for a sport that is rapidly growing it provides a cheaper and easier to play golf course for people who are new to golf or are learning rather than playing at some of the exclusive clubs that are tough to play and come at a high cost. It would be a great shame to lose this golf course that the everyday man can play on and afford pushing people out of the sport or paying high prices to enjoy a sport that gets people moving, outdoors and in nature. A golf course is a natural flood plain anyway so I believe we can have an 18 hole golf course on the park and build in requirements to have it be capable to hold a lot of water in a flood event. Please keep the 18 hole golf course so that the hundreds of thousands of people that use it every year can continue to learn and play golf in a easy to access and easier to both play and pay course than exclusive private golf clubs. Losing this course would not hurt the upper level of golfers but those that want to try it for fun or do it every week or every month that need a place to play.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 9-hole traditional golf course (35-36 par), Other, please specify: I would like to see us use as little space for the flood plain so we can get as close to a proper regulation 18 hole golf course as possible.

5. What other type of recreation would you most like to see provided at the park?

None of the above

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Nature - protecting or enhancing the natural environment for people and wildlife, Organised recreation - space for organised sport or clubs, Other - please specify: 18 hole golf course

7. Which Park lease approach would you prefer?

Unsure

Tell us Why

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Please do your best to keep an 18 hole golf course for new and intermediate golfers to use that is affordable and one of the most used in the entire country, please do not sacrifice it for planning for one in a hundred flooding events, thank you for your consideration.

I am in my late seventies and since I was ten years old this has been a golf course with basketball courts across the road along with rugby fields. When the motorway went through the original golf club moved and the council purchased the land running a public golf club etc. Since it has been so successful over the years and accepted by local residents around the course why not continue the success even if in a slightly different format?

Lease all land to commercial operators

Tell us Why

Since changes need to be made funding is required and one should do it properly and make the necessary changes professionally first time. Council is not in a position to do this, and part leases hardly ever work for the best result of investments.
Lease all the land to an organisation financial enough to produce a result which will work for the next 50 plus years.

Takapuna Golf course is well used by our community as a golf course and is a great place for friends and families to play golf together in a beautiful cost effective environment. It is easily accessible and well used.

The Eventfinder stadium is also well utilised and needs upgrading for Basketball, Gymnastics and other community shows and events. It was out of use for quite some time after the floods and needs to be more resilient to heavy rain and flooding

Your feedback

1. How do you or your household currently use the park?

Play golf at the golf course, Play sport at Eventfinda Stadium, Attend events at Eventfinda Stadium, Other, please specify: Past events 85 year old . But want it for my grandchildren and great grandchildren

2. How often do you use the park?

Other, please specify: Many times on my life, once or twice a week golf ,watching the basketball,

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

As our population increases the golf course will be in even bigger demand. It is UNREPLACEABLE

WE WILL NEVER GET ANOTHER GOLF COURSE SO CENTRAL TO THE NORTHSHORE . Too many recreational sites in jeopardy. LEAVE OUR HEROTAGE ALONE. DIG BIGGER STORMWATER DRAINS, KEEP THEM CLEAR AND WIDER. DO NOT TAKE THE EASY OPTION OF A LAKE. Look to england with its controlled waterways. Fabulous locks and water varieties.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), Other, please specify: Thw wlrau creek made into controlled waterway with locks and playground for boats etc

5. What other type of recreation would you most like to see provided at the park?

None of the above

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Lose control of our parks and recreational grounds and the council Will not have done their job properly. You work for the people of the north shore.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

KEEP IT A PARK . THE A. F. THOMAS PARK.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

AF Thomas park needs a sustainable, environmental approach to cater to as wide a section of Aucklanders as possible. Catering to just golf outdoors with an indoor arena that is flood prone should not be a long term plan.

Mostly other recreation uses with limited golf facilities

Tell us Why

Golf takes up a lot of land, usable only in good weather, for those with the disposable income to purchase the high cost equipment and available time to spend hours at play. It also makes the neighbouring areas unsafe for families to occupy unless expensive, high fencing is installed to catch stray balls. I support the A.F. Thomas Park project to future-proof more widely accessible community recreation, including gymnastics. There needs to be provision for an elevated, flood-resilient space, created from the wetland earthworks, to establish a raised platform suitable for future development. This approach will reduce cost and environmental impact, protect community infrastructure from future events, and provides employment and opportunity for inclusive, all weather, exercise.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Around the world, the most successful destination parks all share the same core ingredients: they are multi-use, accessible, and designed for everyone. If Auckland wants to create a Cornwall Park-scale destination that also delivers blue-green infrastructure, the features that communities consistently love and use every single day are things like a large walking and cycling loop, nature and wetland edges with boardwalks and seating, a multi-age destination playground, water park/pad play area casual sports courts, shaded seating and picnic areas, a fenced off leash dog exercise zone, event-capable lawns, and a café or kiosk. These elements are popular because they are inclusive, adaptable and used by people of all ages and abilities.

A golf course, by contrast, would limit the space to one specialised activity used by a relatively small portion of the community. Golfers already have several established courses nearby, but there is nowhere else on the North Shore with the scale and potential to offer the kinds of multi-use recreation opportunities that thousands of people would enjoy every week. Destination parks succeed when they offer variety: pump tracks, outdoor gym equipment, community gardens, rongoa plants and learning spaces, viewing platforms, art installations, safe evening lighting, and signature features such as water, views, a central lawn and a standout playground piece. A Maori designed playground? These are the things that make a park iconic, memorable, and welcoming.

AF Thomas Park is a once-in-a-generation opportunity to create a truly inclusive, future-focused space that combines flood-resilient blue-green design with recreation that serves the whole community. By prioritising multi-use features over single-use ones, Auckland can ensure the park becomes a daily hub for walkers, families, teens, seniors, dog-owners, nature-lovers and event-goers — not just one group. This approach will deliver the greatest long-term benefit, the highest daily use, and a landmark park Aucklanders will be proud of for decades to come.

The options for golf seem to be diminishing so keeping some options available especially the driving range would help to serve the golfers. Having additional options such as walking paths and pickleball courts would help to meet the needs of other recreation users.

Tell us Why

I appreciate the opportunity to share feedback on the proposed park development. While I understand the interest in creating more space for golf, I feel that dedicating such a large area solely to this one activity is not the best use of the space for the wider community. The park has the potential to serve families, children, and residents of all ages with a variety of recreational options, rather than being limited to a single-purpose facility. A more inclusive design would allow the park to become a place where the whole community can gather, be active, and enjoy the outdoors together. I encourage the council to consider a balanced approach that reflects the diverse needs of local residents.

We can improve other recreational activities to balance other people's likings for the wider community. Allowing other activities expands growth and sustainability for other audiences to "lure" them in to create a better environmental future. Other environmental pressures deepen the risk like flooding at Wairau so ecological catchments integrated at the site would improve the anthropogenic outcome of the park, increasing the ecocentric and improving the technocentric parts of the park.

I feel like giving other commercial industries to work with the mana whenua is important as we can the growth and redevelopment of the area more justifiable and more clearly. But we need to create the trust so that the kaitiakitanga of the environment is still intact therefore the balance where the council also holds a root of the land, keeps the grounds going into full blown chaos. The balance between leasing some land and keep some of it under control by council means that the balance in the agreement is very much concrete but just been laid so the fluidity is there but once jt has hardened, cracks will soon appear and the adaptations for surrounding communities will benefit so much more.

There are only two public golf courses for all of Auckland. For many senior citizens this is their primary fitness activity and the need for this golf course is vindicated by the incredibly large numbers of users. Other sports activities would not be used as intensively and also require much smaller spaces and there are more options as to where they can be located. If the golf course goes there will never be another opportunity to have a sufficiently large space anywhere in Auckland to replace it.

Presumably the flood control areas need to be under council control. The remainder should be leased to a golf club operator.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Why are you considering building a new sports stadium on a raised platform if the point of removing the existing golf course is to eliminate the possibility of future flooding. If this wetland is not going to solve the problem then the money should be spent on something that will reduce the problem such as eliminating the current choke points in the Wairarapa estuary area.

Your feedback

1. How do you or your household currently use the park?

Play golf at the golf course, Use the golf driving range

2. How often do you use the park?

Once or twice a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

The golf course is a really good asset to enable entry to golf, Auckland doesn't have many accessible golf courses and Takapuna is well used.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par)

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities

7. Which Park lease approach would you prefer?

Unsure

Tell us Why

--

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Would like golf remaining as there isn't a resource like this elsewhere in Auckland

I don't use the park

2. How often do you use the park?

I don't use the park

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

Golf takes up a lot of space and while public golf courses are good to have available, they don't need to be in prime real estate locations, they can be in more semi-rural areas on the periphery of the urban area on land that is not suitable to be developed, or regenerated into native bush (e.g., due to soil type, exposure to weather, etc.).

4. What type of golf would you most like to see provided at the park?

Pitch and putt golf course, Short-game practice area / putting green

5. What other type of recreation would you most like to see provided at the park?

Open space / picnic area, Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural environment for people and wildlife, Productive land use - using parts of the park for food growing or other resources, Resilience - supporting flood protection and climate adaptation, Other - please specify: Aesthetics - having a large area of green space adjacent to industrial/retail/residential land use areas; it looks nice from the motorway.

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Once it's sold or even leased it will be difficult to get it back under public control, so keep it, and develop it slowly as funds become available; and the Council could apply for UN/international and national funding to develop the vision faster as a special-case green urban project.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

When we get rail to the North Shore a corridor of land in the park running alongside the west side of motorway could become useful as a right-of-way and/or staging and/or stabling and logistics area for the railway.

Once or twice a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

It is important that part of the park be used for golf as it is used by a large percentage of north shore community including others from central suburbs as well. It is good for both seniors and youth as there are not any public golf courses left .

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), Pitch and putt golf course, Driving range, Short-game practice area / putting green

Archery, Nature play / playground, Open space / picnic area, Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities,Connectivity - walking and cycling connections through the park that link with the wider community,Equity/Inclusion - a diverse range of experiences the whole community can enjoy,Nature - protecting or enhancing the natural environment for people and wildlife,Open space - space for free play and relaxation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

We need to lease some land for commercial use like golf course and the council need not be financially responsible. Keep the council to the basics and we don't need anymore increase of council rates with extra recreation cost .

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Please KEEP some areas for golfing .

There's already plenty of covered courts (Eventfinda, Netball North Harbor, WBHS & WGHS) in the area. AF Thomas park should focus on being a welcoming open space that is safe to enjoy. Could be more sports and activities focused similar to Becroft Park, or could be more nature focused like Onepoto Domain.

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

I think the current mix of uses caters to a wide variety of people in the area and the addition of cycling and walking trakz would mean it was used by even more people of different ages.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range, Short-game practice area / putting green

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

This approach would enable the different projects at the park to be completed faster, but still mean the Council can earn money from some of the facilities and the lease.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I think it would be a terrible shame to not replace the existing Eventfinder stadium and gymnastics centre with a flood resistant new building. If there were to be another flooding event they would most likely have to shut down. There are currently no other gymnastics centres of this size in the area which caters for children from age 2 to in their 20's. The closest would be in Mt Roskill which is not practical for some gymnasts to travel to. Going north there are no gyms of this size so it would be a terrible loss to the children and teenagers in the area.

Like wise the events space holds many sporting events that could not fit into other venues and the area has struggled to fit in all the children wanting to basketball.

If a new flood resistant building were to be built to house all these indoor sports and events, possibly on a larger scale, the growing population in the area would greatly benefit from both the recreational activities and employment.

Takapuna golf club has been the starting point for many kids (including several of my grandkids) to give the sport a go then decide if they want, or can afford, to join a club. It is an amazing facility and great to see so many young ones out there rather than on devices. It is expensive to join a golf club and this course gives so many the chance to enjoy the sport.

4. What type of golf would you most like to see provided at the park?

Other, please specify: I would prefer it to remain as is with earthworks designed to hold water during flooding then revert to golf. Many other parks on the North Shore serve this purpose.

Because once the land passes into private hands there are no guarantees it won't be developed. The more infill housing we see on the North shore the more vital it is to retain every bit of open recreational land we have

The North Shore needs a public golf course as it has been for many years providing the opportunity for people young and old to learn and enjoy playing golf. Chamberlain Park is not adequate to cater for the Auckland public golfing requirement. I learned to play golf here from 1969 aged 10 playing with friends in the school holidays and with my Dad and brother on Sunday afternoons. I went on to become a member at Pupuke and North Shore but playing at 'Taka' ignited my passion and I have continued playing there regularly throughout my life. I believe Fred Thomas would have wanted it to be retained as a full golf course. My father John Foote was on the Takapuna Council with Fred and they reestablished the Takapuna Cricket Club together after the war. The 'Onewa Domain area' should continue as a hub of core/traditional NZ sporting activities. It should remain as an 18 hole course, albeit shortened if necessary.

If no suggested plan is available or enough funding is ready, the park is good as is. Otherwise under current economic, there will be too much cost and time to build a new creation, while don't know if the plan could be better off.

Golf plays a vital role in my mental and physical wellbeing. The Takapuna course is where I stay active, spend meaningful time with friends and family, and feel truly connected to my community.

It also contributes far beyond personal health. Many international visitors come to New Zealand specifically to play golf and to enjoy the breathtaking natural landscapes that surround our courses. Few sports offer such a direct way to experience the beauty of Aotearoa.

That's why places like the Takapuna course must be protected. They enrich our wellbeing, strengthen our communities, and support an important part of our tourism industry. To lose them would be to lose something uniquely New Zealand.

Under the management of the City Council, the project land can be developed and utilized in a more coordinated way to meet diverse usage needs. Effective communication among departments can be achieved, ensuring proper management of contracts and consideration of the needs of different community groups. From a technical perspective, this approach allows for greater efficiency. Moreover, as this is a long-term development project, it should involve continuous participation, management, and supervision by the City Council.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Safety should be a fundamental design principle, preventing accidents during park activities and creating environments that deter criminal behavior.

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Under the management of the City Council, the project land can be developed and utilized in a more coordinated way to meet diverse usage needs. Effective communication among departments can be achieved, ensuring proper management of contracts and consideration of the needs of different community groups. From a technical perspective, this approach allows for greater efficiency. Moreover, as this is a long-term development project, it should involve continuous participation, management, and supervision by the City Council.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The park's layout and design should emphasize safety, ensuring events proceed without accidents and reducing vulnerabilities to criminal activity.

1. How do you or your household currently use the park?

Walk / run in or around the park, Attend events at Eventfinda Stadium

2. How often do you use the park?

Every day or most days

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

Under the leadership of the City Council, golf has become a much-loved and affordable sport. It should be preserved, as it is especially popular among both seniors and young people, while also promoting a balanced development of other sports activities.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par)

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Nature play / playground, Off-leash dog exercise area, Outdoor sports courts (e.g. basketball, netball, pickleball), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Heritage - highlighting local Māori culture, Nature - protecting or enhancing the natural environment for people and wildlife, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Golf is a popular and well-loved sport in New Zealand. It is affordable and has become an essential part of many residents' lives. A suitable amount of land should be reserved for golf, as it is vital to the sport's continued development. At the same time, more land should be allocated for other community recreational activities—especially those enjoyed by both seniors and young people—to promote balanced development across all groups.

2. How often do you use the park?

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

Golf is an affordable and beloved community sport that deserves preservation and expansion. Its appeal spans generations, from seniors to youth, making it valuable for promoting diverse sports programmes and balanced community development.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par)

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Nature play / playground, Open space / picnic area, Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Heritage - highlighting local Māori culture, Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

During the implementation of the project, it should be carried out under the management of the City Council to coordinate various usage needs. Effective communication among departments and proper contract management should be ensured, while also addressing the needs of different community groups. From a technical perspective, greater efficiency should be achieved. Moreover, as this is a long-term development process, it should involve the City Council's full participation, management, and supervision throughout.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Park design should thoroughly consider safety aspects to ensure accident-free events and reduce the likelihood of criminal incidents.

Golf is a sport widely loved by the community and is affordably priced. It should be preserved with a greater number of programmes, as it is popular among both seniors and young people. Expanding the diversity of sports activities would further promote balanced development.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par)

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Nature play / playground, Off-leash dog exercise area, Open space / picnic area, Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Open space - space for free play and relaxation,

Resilience - supporting flood protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Under the management of the City Council, the project land can be developed and utilized in a more coordinated way to meet diverse usage needs. Effective communication among departments can be achieved, ensuring proper management of contracts and consideration of the needs of different community groups. From a technical perspective, this approach allows for greater efficiency. Moreover, as this is a long-term development project, it should involve continuous participation, management, and supervision by the City Council.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Comprehensive safety planning in park design is essential to prevent accidents during activities and minimize risks associated with criminal behavior.

Golf is a popular sport among people from all walks of life, and New Zealand enjoys unique natural advantages for its development. It is also affordable and has become an essential part of many residents' daily lives. Retaining an appropriate amount of land for golf is therefore crucial. At the same time, other community recreational activities—especially those enjoyed by young people and seniors—can be further developed through this project, gaining access to suitable venues and supporting facilities. This approach will help achieve balanced development and promote health and wellbeing across all community groups.

1. How do you or your household currently use the park?

Walk / run in or around the park, Attend events at Eventfinda Stadium

2. How often do you use the park?

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

Golf is a popular and well-loved sport in New Zealand. It is affordable and has become an essential part of many residents' lives. A suitable amount of land should be reserved for golf, as it is vital to the sport's continued development. At the same time, more land should be allocated for other community recreational activities—especially those enjoyed by both seniors and young people—to promote balanced development across all groups.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par)

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Walking / cycling tracks, Nature play / playground, Off-leash dog exercise area, Open space / picnic area

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Heritage - highlighting local Māori culture, Nature - protecting or enhancing the natural environment for people and wildlife, Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Under the leadership of the City Council, the evaluation and management of sports activities can be effectively carried out, with the introduction of more innovative and distinctive sports programmes.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Strengthen safety education to prevent and reduce crime.

Under the management of the City Council, the project land can be developed and utilized in a more coordinated way to meet diverse usage needs. Effective communication among departments can be achieved, ensuring proper management of contracts and consideration of the needs of different community groups. From a technical perspective, this approach allows for greater efficiency. Moreover, as this is a long-term development project, it should involve continuous participation, management, and supervision by the City Council.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

In the design of the park, full consideration should be given to the safety of all activities to prevent accidents during events, as well as to reduce the risk of criminal activities.

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

Golf is a very popular and affordable sport and should be partly retained. At the same time, other activities such as table tennis should also be promoted more widely within the community.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par)

5. What other type of recreation would you most like to see provided at the park?

Nature play / playground, Off-leash dog exercise area, Open space / picnic area, Walking / cycling tracks, Outdoor sports courts (e.g. basketball, netball, pickleball)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Golf is a popular and well-loved sport in New Zealand. It is affordable and has become an essential part of many residents' lives. A suitable amount of land should be reserved for golf, as it is vital to the sport's continued development. At the same time, more land should be allocated for other community recreational activities—especially those enjoyed by both seniors and young people—to promote balanced development across all groups.

2. How often do you use the park?

I don't use the park

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

I think it would enable a greater number of people to use it and that could be beneficial as it won't just be golf it will be a range of activities.

4. What type of golf would you most like to see provided at the park?

12-hole beginner/intermediate golf course (approx. 36-40 par); Indoor golf simulators; Driving range

5. What other type of recreation would you most like to see provided at the park?

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Because the facilities will likely be 'better' as they will be less modest and more elaborate from independent people, and the council might take longer as well which would mean that people would not be able use them for longer.

Less than once a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

If you're talking about the park as a whole (wetlands and the golf course) then the wetlands should be used by others to do many different activities, while the golf course part should be kept as a golf course as it's already been setup for that. If you're talking about the half of the park that's not the wetlands, I believe it should be kept mostly for golf because that's what most people would be using that part for. If you're talking solely about the wetlands, I believe it should be kept mostly for activities that are not for golf as that's what the other half of the park would be kept for.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par);12-hole beginner/intermediate golf course (approx. 36-40 par);Pitch and putt golf course;Driving range

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

I think it's important for the community to have some say over what happens, but if it's just the council doing the entire park, then the facilities might not be as good as if parts were leased. By leasing, the council would also gather revenue and would be able to put some of that revenue to maintaining the parts of the park that are not leased.
