Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),Other (please specify):

Speedway belongs at Western Springs after nearly 100 years and it is a disgrace anyone should remove it for some blow hard rich people in a planned stadium capable of holding less than half of its current fan attendance. My family are 4 generations into speedway and we want that to continue at the world acclaimed Western Springs

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Speedway to stay at the world acclaimed Western Springs Speedway site. if it were any other part of Aucklands history for near on 100 years it would be protected. My family are 4 generations in and wish to keep the speedway for generations to come.

Western Springs is the best option for open wheel speedway. It is an iconic venue that is well known both nationally and internationally. It has a great safety record because unlike Waikaraka Park, the safety fence is on the wall, which is specifically designed for midgets and sprintcars. Waikaraka is set back from the wall due to stockcar design but this is more dangerous for open wheelers.

Keep the Stadium as it is. Is an iconic venue. Known world wide. Is historic in many ways. Don't loose that for Aucklanders.

Speedway needs to stay. It is a part of auckland and was gifted as speedway. Moving to wsikatakav park OSS not an option. They are different sports. This is the only family friendly venue that has been brought up thru the generations of families. It is also the only place in Auckland you never see a cop. Leave speedway alone!

Because it is a speedway and and has to stay that way. Western Springs was gifted to Auckland to be used as Speedway. Nothing else. Speedway is an icon of Auckland and should be left at moving to Waikaraka Park. It's not an option as it is not for this class of car and I totally different sports speedway is also very family friendly and has been brought up through the generations and families. It is also the only place in Auckland where you do not see a police officer very family friendly.

Speedway needs to stay, those that live around there know they purchased by a speedway track, just like they know there is a zoo, if you don't like the noise don't live there. We have plenty of stadiums to play soccer, customize north harbor so can play all sports. DONT GET RID OF SPEEDWAY.

Western Springs Speedway is a globally recognised and respected venue for a sport in which NZ plays above its weight. It should remain as that, with other interim uses. There are plenty of football facilities elsewhere in Auckland ... As a Speedway, Western Springs should be a protected Historic gem.

Western Springs Speedway has been part of my life since I first started attending at 16 years old...Im now 62 years old! It's part of our Heritage. The initial reasons for moving Speedway was due to the so called excessive noise and traffic. How much noise and traffic will there be generated by both options 1 and 2! Speedway has been cut down to such a short time period. Why can't the racing season continue and the stadium be used for the other option of concerts etc...as it is now. Upgrade it so that both options 1 and 2 can use the stadium. Western Springs Speedway is an Institution! It is loved by thousands! Don't just think of the bottom dollar think of the Supporters and people who come from all over not just local.

Keep Speedway at Western Springs . As much as I love football , they already have the use of 2 stadiums . The venue works fine as is for a Rugby club , a concert venue and a Speedway venue .in this beautiful natural amphitheatre..

The process to remove Speedway has been flawed at best if not corrupt . Even this forms ambiguity leaves doubt in the process.

I don't think either options will do much to service anyone or effectively make use of the space. That being said, I also definitely agree that the area needs to be better made use of... The speedway thing is a bit of a dead horse that only appeals to a very small (albeit loud) few. The space should better serve the wider Auckland community without being a nuisance for the locals

Having it as it is now means it has the potential to be utilised for speedway events as well as have the capacity to be modified when needed to accommodate other uses. There is no reason to limit it's usage or potential by changing it.

As someone who deeply loves rugby, I've seen firsthand how this game can change lives. It offers people a sense of purpose, belonging, and pride. Rugby builds communities, forges lifelong friendships, and creates bonds that become like family. Friendships that go far beyond the game itself.

For 150 years, this club has stood as a pillar of that legacy, and for the past 30 years, it has called this ground home. To lose it now would not just be a blow to the club, but a disservice to the very spirit of our national game. This isn't just about a building—it's about preserving a space where futures are shaped, communities are strengthened, and Kiwi greatness is born.

We should be doing everything we can to fight for this club to remain where it belongs.

Backing ponsonby rugby club, a treasured, important club with great history and a proud women's rugby team. Also keen to keep the open atmosphere with ability to har community events and concerts still there.

It keeps Western Springs stadium rooted in the community, preserving the park's long-standing role as a space for local sports, music, and gatherings. It honours the way generations have enjoyed and used this space, maintaining its character while enhancing its value.

I like it just the way it is , I would be happy to see soccer be held there and investment flow in gradually . No local resident has moved in devoid of the knowledge that speedway runs there , to complain afterward is unbelievable. The rugby club deserves a home there too. The way the process has been influenced behind the scenes is all kinds of wrong , if every aucklander pays 50c a year we can keep it as is , Bargain ! . Sharing and developing the facility for all the things mentioned is the best option but it will likely never happen .

Option 2 helps to maintain the natural area, allows options for community based sports and entertainment. To be able to have sports grounds available that help to engage/encourage youth to be active in a central location is important. But equally important is being able to stage outdoor festivals & events / concerts as an alternative to Eden Park.

I'd also be supportive of option 3a or 3b based on keeping the natural beauty of the area intact.

Option 1 - the main reason of objection, this option reduces access to the community as its being proposed as a professional sports base, which will likely limit community sports access to the facilities/grounds. The building of stadia and hospitality facilities will ruin the natural space and amphitheater of the current stadium.

I use to play for the Ponsonby rugby club and I would hate to see it be destroyed over some rich football club who wants to build a stadium which would most likely be built without any room to grow the space as 12,000-15,000 seat stadium would soon be too small.

Option 1 is not required. Auckland does not need another large scale stadium and definitely not in this area of Auckland. It should be in the CBD.

Option 1 would also ruin the amphitheater style of the area which is a wonderful asset.

Option 2 does not seem workable - if neighbours already complain about 3 or 4 hours of speedway a few times a year, then I can't see concerts going down very well.

I would suggest leaving Western Springs as it is, for everyday Kiwi's to continue to enjoy grassroots sports like rugby and speedway.

I have chosen the Auckland Arena instead of the Western Springs Bowl because it will boosts Auckland's economy and be funded by private investors rather than ratepayers. This is better because of the huge financial strain that the economy is under and an arena will boost it to new potential.

There are enough other venues that can be invested in in the greater Auckland area. The Bowl idea merely dtracts from Eden Park, the sports stadiun detracts from existing users.

My wife and I are strongly committed to the idea of public ownership and involvement of the Western Springs facility. We do not agree that it should be captured by wealthy private individuals. They will want to ensure that they not only get their money back but also make sure of a healthy profit. This is normal for investment strategies of those with money. So our vote is for the second option.

After considering this in detail, I consider the Western Springs Bowl option offers the best outcome for the wider community, offering a greater offering for the average Aucklander rather than a privileged select group.

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I chose this option as Option One in essence corporatises the site. It has special history, is in a special location and forms part of a network of wider facilities ie MOTAT and the zoo. I feel that Optoin2 fits better in that precinct and gives it a unique identity rather than another soulless 21st century stack of square boxes with a field that can only be used by a specific set of people and effectively excludes others. Option 2 fits with Western Springs IDENTITY and makes better use of the space than the current use of it. I dont think that cost is significant over a 50 year period to ratepayers in the grand scheme of things. Option B would give the site a point of difference, an

international marketing advantage and as a bonus retain its links to the Ponsonby Rugby club which is in important for its connection to its community.

There would be benefits in having a flexible public sports / concert arena in Auckland leveraging off a natural amphitheatre setting. In this way outdoor converts can continue as before, and the Rugby Club has a local based (having previously been forced to shift from a local; school shared arrangement.. The Brookland Bowl in New Plymouth provides a model for what is being promoted here.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I chose Option 1 because it offers the best long-term vision for Auckland. It balances high-quality sports and entertainment infrastructure with strong community access, all funded through private investment. This means less cost to ratepayers and more benefit to the public. The proposed arena, training fields, and courts would make the stadium a vibrant hub for sports, concerts, and cultural events. It's a smart use of the site with minimal financial risk to the Council, and it ensures Auckland retains ownership in the long run.

I believe Western Springs Stadium should remain as the venue for Speedway Racing as it has been for many decades and where we are now having 4th generation attending. For all this time it has been a must-visit speedway event for generations of overseas competitors and supporters wneh coming down under. The reputation and ambience of the venue is unmatched anywhere in the country. It not only caters for the speedway fraternity but those tens of thousands of fans, including me, who have filled the stadium for concerts talk of the acoustics and the unrivalled ambience of the open air events that have been enjoyed over the decades. It gets used as an extension to the surrounding area of Western Springs Park for multi cultural events and is

somewhere which is central and easily accessible for locals and visitors alike. Spend some money upgrading it and let it shine on for another 4 generations.

The proposal for Speedway to move to Mount Smart area to join Stockcars is ludicrous - the facilities such as track and safety features are very different and the positioning of it out there is not at all suitable.

Western Springs seems to be working perfectly well right now without having to spend more on development. It's the traditional home of Ponsonby Rugby Club and should remain so. And it is still a mystery why speedway had to move; the only beneficiaries of this seems to be nearby residents, most of whom will have purchased knowing about the speedway, who will have received a windfall increase in house values.

option 1 , a private company spends their own money to have a decent sports facility with some other "stuff" that the community can use. If you go with this option make sure that this private company pays a suitable rent for the land that they occupy and don't give it to them for free. Options 2 a sports club gets a decent sports facility which the council basically pays for...and I ask why they should get this hand out. They are no different to the soccer club and yet they are asking for a free hand out of my money and other rate payers.. Given how unreliable Auckland weather is

you would be mad to consider that we need another open air music venue. We already have an unused facility on the north shore. Its a pity that the rugby leaque team couldn't also combine with option 1.

This will create a multi purpose facility for a vast variety of sporting organisations and make Auckland an attractive option for more events to be held here. And it is being self funded, saving the already debt laden council a massive amount of money.

Auckland FC deserve to have their own home ground after everything they have achieved and the way they have captivated the hearts of the city.

Auckland does not need another stadium, and certainly not the cost thereof. Money needs to be spent on more important things, and/or saved to keep within budget and avoid continual rates increases. STOP TRYING TO FIX THINGS THAT ARE NOT BROKEN AT VAST EXPENSE. This profligacy is not what the council was elected for.

Return speedway to WS and LEAVE THINGS ALONE.

Western Springs is the home of speedway with Auckland. Too many people have brought houses and got up in arms over speedway but set up chairs on the deck for concerts. Its history that people with there own agenda are just throwing away.

Ponsonby Rugby Club is one of NZ's oldest and finest and it needs to have a strong home base. That said, Western Springs facility clearly needs to serve more than just the needs of the rugby club which this option does. Western Springs is an awesome outdoor music facility and having a proper stadium for these types of events would be awesome while still accommodating the rugby club as well as other sporting codes who also wish to make use of the facilities.

I should note the way you have worded the options is misleading. Option one talks about a cost saving of 18.1m for ratepayers but one presumes that doesn't take the cost to zero for ratepayers?

What is the actual cost (inclusive of the 18.1m savings) for ratepayers moving forward. For option 2 you've clearly outlined the ongoing cost for ratepayers, why not for Option 1? Seems you have a pretty clear bias in your decision making already.

Auckland FC have already demonstrated that 12-15000 stadia is not enough to cope with demand so why build smaller than needed. Thus leave well alone and look elsewhere. Should also be an area where trains and buses access - this is not.

The use of private investment is a great option. The development of the outdated Western Springs is long over due. To have a purpose built stadium, that has the ability to generate constant revenue has to be a no brainer! It will also had value to Albert-Eden local area. The pertentual that one new stadium will bring the area is enormous. Once complete and AFC move in. It will be the place to be.

It represents better who we are and what our needs are. Providing facilities that have no 'strings attached' is paramount in our city, our world, where using facilities that will cost individuals a fortune to fill pockets already full, is almost obscene, especially considering individuals will need money for their own health and well-being. Climate change too will need finances from their pockets, as from council's coffers. That aside, it is the first proposal that really allows more people to enjoy the facilities at a lesser cost than others.

I think we need to make better use of what we already have rather than build more. Eden Park needs to be used for more events. And the size proposed don't make any sense. 15,000 is tiny. If they want more fans to attend the football they need bigger than that! 20,000+ at the last home game for Auckland.

Just use Eden park more

Auckland needs a proper indoor stadium for all kinds of activities. Eden Park is hopeless for just about everything, Spark is too small for big events. Auckland cannot afford to pay for a new arena, private investors if prepared to spend their own money, should be encouraged.

To keep the area open for Auckland residents to access and enjoy, maybe use a similar costing to Auckland Museum, free entry for residents, paid for others.

Essentially they all offer similar things and only one offers the option of speedway potentially returning. Outdoor music venues have rubbish acoustics compared to indoor venues plus when it is wet weather it is just miserable. I don't see any of these options being an indoor venue. I don't live in the area and haven't frequented the venue but would be open to attending events hosted there pending the cost and final design of the venue.

In isolation, maybe options 1 and 2 are appealing. But do we really need another football/rugby stadium in Auckland? Eden Park, Mt Smart, North Harbour. Compare that to international cricket grounds. One, Eden Park, and it does not see its share of the cricketing calendar as it's a horrid cricket ground. We're NZs largest city with its largest player base, and we can't host our team for more than a solitary T20. Western Springs is ideally placed as central test match quality cricket venue. It also means not needing massive grandstands to be built, but instead keeping the area picturesque. Please please please don't build another concrete jungle for a dying sport.

We do not have a permanent venue for music festivals. My only concern is our rainy weather. It could facilitate events such as those held by Andre Rieu for classical music, rock bands, visiting performing artists, and dance performances. It could facilitate cultural groups with their festival days. Christmas in the Park could move there, movies in the park could be accommodated.

Both options are a total waste of money.

There is a complete lack of purpose-built professional international cricket grounds in Auckland, but countless rugby / football / basketball courts across the city which already provide the services currently being offered in the two options. It would be great to see a design which considers what is lacking from the city, rather than doing up what was already there. The location in itself is not the easiest to get in and out from, especially via public transport - this should also be considered in the selected option. Further, consideration should also be given into the natural wetland history of the area, particularly in regards to the potential risk of flooding.

It's clearly the only financially viable option and the stadium looks sized to help Afc' women's team have a fantastic home ground for practice and matches in A league. Seems complementary to our heritage larger stadiums. Finally removes a he awful speed way droning practice noise.

The way Option 2 is worded I am worried people will knee-jerk oppose the public sector option seeing it as too costly. You don't seem to have mentioned any suggestions about how much if not all of the potential costs could be recovered over time.

It makes sense to retain an option that provides for the Ponsonby Rugby Club and keeps the facility in the hands of the public. Successfully running concerts and other events in the warmer months could surely recoup a lot of the costs and if it becomes profitable, those funds reinvested in the local and wider community.

If this becomes a major attractor, considerations for traffic management will be very important regardless of the option chosen in the end - I hope you are considering this externality in your calculations, because investment in active modes and public transport has become strained due to recent politics. Obviously, the roads aren't going to get any wider!

Speedway has been there for almost 100 years and is a family enjoyed sport. If you want another stadium use north harbour. Seems like bully tactics to shut down an amazing venue.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

i think it will be a good idea to turn it into a “hollywood bowl” because there’s nothing really going on in New Zealand besides sports (no hate tho). there’s is spark arena of course but that is mostly for indoor shows. it would be good to have an outdoor concerts/shows/festivals. for example, Laneway. i went to Laneway this year and it was great. but that’s basically the only ‘major’ event that ever happens in Auckland alone. which is kinda sad because most of the population of New Zealand is in Auckland. we need more of outdoor spaces for Music activities around here :-)

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

We already have spark arena, auckland arena has more use than just concerts as the bowl proposes. Also rugby already has a lot of investment, time to give to football.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I attended speedway in 1964. Each time, the families would have their own beanies, own food, and be happy. They would stay there in their own seating for the whole evening. Delightful to watch them being a quiet, seated, animated family. Many families, all expecting to go to the next speedway, as a normal occurrence, in the open air.

A smaller stadium in the heart of the city that better accommodates crowd sizes appropriate for sports teams like the Blues, AFC, the Warriors etc. Eden Park is too big outside of the All Blacks.

Multi faceted usage. Time to encourage and provide facilities for a wider range of sports, especially including indoor activities and the ever growing enthusiasm for basket ball & pedal ball. plus still retaining the ability to hold concerts and local festivities. Great combination of usage and privately funded so no more cost to tax payer. All year round usage and added benefit of health centre is unique and badly needed, Ponsonby rugby club could easliy be homed elsewhere as is the racing!

Vote to keep it run as a multi-use facility including speedway. Our family have been coming to western springs speedway for a few years since moving to Auckland and it's a very cool sport to watch and Western springs is a perfect venue for it, with the size and geography (natural amphitheatre seating at the back along the hill) making for great viewing.

It's a no brainer. A fully privately funded quality redevelopment, with most of the development providing facilities available to the community other than the main stadium is a wonderful opportunity for Auckland. If the councillors don't want Option 1, then leave it as it is. Option 2 seems to be an attempt by Ponsonby rugby to rip off rate payers to get a gold plated little stadium and club rooms for themselves. I do not want 1 cent of my hard earned money going on that option.

Neither option satisfies all comunity needs that are possible at this site. The Mowbray Williams project suggests capital exploitation and hence a limitation for all to use the site. Auckland City should prioritise community areas as major resources for overall public use.

Quite simply, if you look at it logically, option 1 is the only sensible option that will generate a positive return on investment for the city. Sell the whole site to AFC and invest the millions earned into improving public transport infrastructure (every last dollar). How many new ferries and buses could the city get for $100 million? Spend the remaining $200 million on building two new ferry terminals (browns bay and mission bay) and reap the rewards for generations to come.

Auckland council ratepayers are increasingly stretched just covering the basics. Renewing aging infrastructure and improving the city for all citizens and visitors should be the priority spend. If there is a willing private equity group who will fund this work let's take advantage of that. Eden Park should be used more for large scale live concerts rather than building a nearby alternative.

I do not think that option 1 is sustainable. Council will inevitably be faced with a white elephant as soon as things get hard. I also have zero faith that these billionaires will deliver what they are selling to the community here. It feels like we need to have an actual plan for all of our venues, including north harbour stadium, before we embark on another massive build here. While I prefer option two, and I am flagging that since option 3 is pointless for your purposes here, I also do not think that rugby should be given the lease. If rate payers are paying for it, we shouldn't railroad ourselves into one code. It should be multipurpose, or a shorter term, in order to ensure that we

arent investing in an amazing facility for a sport that is (and is likely to continue) to decline in Auckland. I also think that High Performance Sport, who are also actively seeking a venue, should be included in discussions here as another potential funding partner. To summarise, option 2, but needs a lot more thinking.

The suggested use of space seems straight forward, giving the community a place to go and have fun, whether it be the various courts, fields and facilities along with a new stadium for sporting events, which can also be used for other festivals and music events in future. Additionally to this, the new high performance training facility will help New Zealander current and future athletes excel in their chosen sport and represent our country.

Also that the whole upgrade is privately funded seems like a no brainer (Lets not go into Auckland's last stadium submission/upgrade) including all maintenance and running costs.

Why should all of Auckland taxpayers have to pay for the partially funded upgrade, considering that part of it includes the Ponsonby rugby club upgrade, which is one club in all of Auckland, I personally support the club, as used to be a member back in my playing days but as a community and looking towards to the future I cant seem to justify this over the Auckland Arena Proposal, which seems far better for Auckland, and New Zealand and has many more opportunities for the future in my opinion.

I have a 5 year old son who is incredibly invested in football, it's provided a great way to get to know our wider community and having Auckland FC start up has only enhanced this as we've attended games with others from the football community. Having their own venue would be special for a team already creating an incredible culture/community in Auckland. The venue sounds incredible to facilitate a mix of upcoming sporting requirements. The private investment makes sense for Aucklanders.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

1. Grant Speedway a Long-Term Lease

Speedway has been a proud and integral part of Auckland's cultural and sporting identity for generations. To ensure its viability and continued contribution to the city's vibrant community life, a long-term lease at Western Springs Stadium must be granted. Security of tenure will provide the stability needed for Speedway to invest, improve, and plan for the future, fostering a healthy and sustainable operation.

2. Enable Commercially Successful Operating Conditions

Speedway must be allowed to operate under commercially viable conditions. This includes fair scheduling, access to modern facilities, and support for promotional activities. The venue's potential to generate revenue, attract visitors, and create jobs should not be undermined by unnecessary limitations or bureaucratic constraints. Supporting a business model that allows speedway to thrive is in Auckland's broader economic interest.

3. Change the Unitary Plan – Like You Did for Eden Park Concerts

Just as the Council and planning authorities amended the Unitary Plan to allow concerts at Eden Park, similar flexibility should be extended to Western Springs to support speedway. This precedent clearly shows that the plan can evolve to reflect community needs and public interest. Adjustments that recognize the unique cultural, historical, and economic role of speedway are both fair and necessary.

4. Speedway and Stadium Multi-Use Can Work – It Already Has

Speedway has historically coexisted with other uses at Western Springs, including concerts and rugby. With proper scheduling, sound management, and shared investment in infrastructure, these uses can complement rather than conflict with one another. Multi-use facilities are not only efficient but reflect the diverse interests of our city's residents.

5. The Public Was Not Consulted – That Must Change

Decisions around Western Springs and the future of speedway were made with little to no meaningful consultation with fans, stakeholders, and the broader Auckland community. This is unacceptable. Public venues exist to serve the people, and any decisions affecting their future should be made transparently, with genuine public input.

6. Prioritize Ratepayer Funds Where They Matter – Speedway Is Worth It

Many Aucklanders feel disconnected from how their rates are spent. Supporting an iconic, community-driven, family-friendly motorsport like speedway is a far better use of ratepayer funds than many current council expenditures. Investing in speedway means investing in tradition, local business, youth development, and regional tourism.

7. Trust Has Been Eroded – It's Time to Rebuild It

The way this issue has been handled has eroded public trust. Council staff and elected officials have made decisions behind closed doors, dismissing the voices of the very people they serve. Many of us no longer feel represented, and this situation is a clear example of why.

8. We Are Not Alone – Most Aucklanders Want This

This is not a fringe opinion. Across the city, there is strong and widespread support for keeping speedway at Western Springs. It's part of our identity. From multi-generational families who've attended races for decades, to young fans just discovering the sport – the community wants this, and their voice deserves to be heard and respected.

Conclusion

Speedway at Western Springs is not just a sport – it's part of Auckland's heritage and future. Granting a long-term lease, updating the Unitary Plan, and creating commercially supportive

conditions are not radical asks; they are common-sense steps to preserve a beloved institution. Let’s choose inclusion over exclusion, consultation over silence, and progress over abandonment.

Western Spings remains the only inner city speedway left in the world. It's absolutely unique and for over 90 years tens and tens of thousands of spectators volunteers crews and drivers have enjoyed its unique atmosphere. Move the location and absolutely you will reduce numbers. Waikaraka is terrible location ; parking is bad ; it's miserably cold beside the inlet ; high tide and the water table means it takes a tiny amount of rain to stop racing and most of all it's totally unsuitable for the type of cars raced at Weatern Spings . You wouldn't move opera to a garage where the acoustics would be wrong for the activity and that's exactly what's you'd be doing moving Speedway to a track better suited for other types of racing vehicles

I would prefer to retain the Speedway at Western Springs and to see it specifically included under Option 2. If the Speedway was a heritage building, Auckland Council would go out of its way to protect it. Because the Speedway is a heritage event in an iconic venue, Council does not appear to care about it. The Mayor at the time, Phil Goff, promised that a custom venue would be built for the Speedway by the time the lease come to its end. Clearly what was promised is not the case any longer. The Speedway should be retained at Western Springs. Waikaraka Park is not a banked stadium and is therefore not suitable for speedway. Stock cars do not require a banked stadium.

Bring back the speedway! As a kid I enjoyed so many years going to the speedway with my family. It was fun, easy, cheap, a weekly event for the whole family. Parking was easy and cheap. It's sad and disappointing that a privileged few are denying the middle masses of years of enjoyable evenings with family. Such a shame if it's not returned. People who moved into the area should accept that's what came with the area.

SUBMISSION ON THE FUTURE USE OF WESTERN SPRINGS STADIUM

I support Option 2 for the future use of Western Springs Stadium because it is the option which best promotes arts, culture, events and sport to continue to bring people together in Auckland.

Western Springs is already thriving

Western Springs is a wonderful community venue which has been the home of Ponsonby Rugby Club, Western Springs Speedway, Pasifika and amazing concerts for many years.

The Future use of Western Springs Stadium Consultation Document ("Consultation Document") notes that 178,554 attended Western Springs Stadium over the year April 2024 – 25. At the same time the Consultation Document describes Western Springs as "relatively underutilised in recent years". These two statements do not reconcile – no evidence is offered of what Western Springs is being considered relative to, nor does the Consultation Document adequately acknowledge that any recent underutilisation of Western Springs is due to the flooding suffered during the Auckland flood event in January 2023. That event is also the cause of recent high maintenance costs, which must be ameliorated with the recent upgrades and remediation.

From my perspective, as a parent of two children involved at Ponsonby Rugby Club, Western Springs is an incredible hub that is thriving with activity every week. Ponsonby Rugby in particular brings generations of people from all over Auckland together, because they want their children to be involved in a healthy rugby club with proven success in nurturing kids through junior rugby with care and inclusivity. I do not consider that Option 1 offers the same kind of public community benefits that Option 2 would enhance. Instead, Option 1 would:

- Result in the effective privatisation of one of Auckland's most historically significant public assets. A 100 year lease for private sector investment in commercial activity is effective sale; and
- Provide facilities for fee paying individuals for the benefit of private, commercial interests, as opposed to creating a community facility for shared use by community groups who operate, on a volunteer basis, for the benefit of the community.

Auckland F.C are thriving at Go Media Mt Smart Stadium

It has been fantastic to see Auckland F.C prosper in their first season. It has also been wonderful to see Go Media Stadium being filled to capacity by multiple tenants. Auckland F.C averaged the highest attendances across the A League (approx. 18,000 per game). Fans, players, and TAU have spoken about the electric atmosphere at this stadium and it was recently voted 2024-2025 A-League Men Stadium of the Season for atmosphere. Why would Auckland F.C and Council risk changing this formula and the optimisation of stadia in Auckland, by proposing a move to a privately owned, smaller stadium? Especially in the context of the redevelopment of Eden Park as our national stadium, we should be celebrating the success of the current revitalisation of the Auckland Stadium network (including Moana Pasifika at North Harbour). We do not need to build another stadium to upset this long-awaited success when it finally appears that our existing stadia are emerging from underutilisation.

Option 1 is speculative

The details provided in relation to Option 1 are so vague and speculative as to be meaningless. This is a symptom of a poorly run decision-making process in respect of Western Springs. First, the views of Speedway at Western Springs were unfairly represented to Governing Body, and now the Ponsonby Rugby Club looks to be treated the same way. The Consultation Document suggests that Auckland Council and TAU have been working with Ponsonby Rugby Club to explore alternative options should the club's lease not be extended beyond 2027. However, nowhere in the Consultation Document is an alternative proposed. How then, can the public give an informed opinion on this consultation, or Governing Body make an informed decision? If TAU's concern was to make Western Springs more "commercial", it should have first agreed a relocation plan with Ponsonby Rugby Club for a well-suited facility, then asked for expressions of interest

from commercially motivated parties competing on an even playing field. TAU should also have asked for significantly greater investment in due diligence for the purposes of the expression of interest process. The figures cited in Option 1 are entirely speculative at this point in all aspects of cost and attendance.

Conclusion

Ponsonby Rugby Club and CRS Records / Eccles Entertainment already know and optimise Western Springs for the benefit of the local community. I support Option 2 as the only option which continues to provide a fit-for-purpose base for diverse community interests. Please do not sacrifice the long-term investment of these established community interests to private commercial development. We understand that there is a drive to provide new sports with facilities; these should not come at the expense of one of the oldest and still most successful rugby clubs in Auckland and New Zealand.

Personally, I am hugely disappointed in Auckland Council's treatment of Western Springs Speedway and would, as a secondary option, also support Option 3B in order to investigate a proposal that is able to maintain Speedway alongside other Ponsonby Rugby Club and music and cultural festivities at Western Springs Stadium.

Yours sincerely

Parent, Ponsonby Rugby Club

The option that provides the most variety to the public sector. It mixes both sporting and music/festival options of use. It will be good to promote the space for artists to preform, they might be more enticed to preform in tāmaki makaurau given the current restrictions on Mt Smart Stadium and how many concerts they can hold per year.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I want speedway to remain at Western Springs, in a beautiful venue that makes the most of the natural amphitheatre, rather than being moved under deceptive processes, to a wholly unsuitable venue in Onehunga.

Speedway is a popular family sport, particularly well attended over the summer holiday period (see attached photos) with, I believe, an average attendance across the season of 5000 people per meeting - often the best attended sports event in Auckland on the day.

Waikaraka Park will not accommodate these numbers which threatens the viability of the port, has completely insufficient parking and requires considerable expenditure to try to meet the needs of the sport.

The $11 million dollars being spent at Waikaraka Park is purely for outstanding maintenance and remedial works, and is not being spent to make the venue suitable for the relocation of Western Springs speedway - this would require around an additional $20 million to create a venue that already exists at Western Springs.

This relocation is not supported by the speedway community and is being misleadingly promoted as an acceptable and complete solution.

The alternate options are not suitable for the following reasons -

Option 1 - makes no use of the natural environment and the location offers no specific benefit (ie; this facility could be located anywhere). Additionally a new stadium would duplicate already existing facilities that could accommodate AFC.

Option 2 - requires too large a sum of public monies to create.

In summary, what is proposed is to spend a lot of money to relocate speedway to recreate a venue that already exists, to allow the construction of a new facility that duplicates under utilised facilities that exist already (Auckland sports grounds and stadiums).

Thank you.

I'm voting for Option 1 because it's a great chance to grow football in New Zealand. Rugby already has plenty of spaces, but football is huge worldwide and still pretty amateur here — this would give the sport a real boost. Plus, it's privately funded, so it doesn't put extra pressure on ratepayers. It also includes community facilities and turns Western Springs into a proper venue for sports, concerts, and more. Feels like a win for everyone.

Why would we even consider a stadium here. Have we not learnt from Eden Park that a Stadium in the middle of suburbia is a terrible idea.

Get rid of North Harbour, Eden park and Mt Smart and fund the build of a proper stadium in downtown with all the transport links, parking, hospitality etc.

Where is the vision, time to pull finger and get it done.

The Auckland Arena proposal represents a transformational opportunity for the city — one that blends community use, cultural identity, and economic responsibility into a world-class venue. heres is why:

1. A Vibrant Community Asset- With basketball and padel courts, training fields, and open access to the wider park precinct, this proposal prioritises inclusivity and local use. It will serve as a recreational and social hub for families, youth, and community groups, not just elite sport.

2. Home-Grown Identity-As the future home ground of Auckland FC, the arena creates a central base for football fans and strengthens the city's professional sporting identity, while also building a strong foundation for talent development with on-site high-performance training facilities.

3. A Cultural and Entertainment Powerhouse-With the ability to host concerts of 25,000+ capacity, the venue would attract international acts and large-scale events, supporting Auckland's status as a vibrant cultural capital and driving foot traffic into the city.

4. Significant Long-Term Savings for Ratepayers+ the financial structure is a smart one: $200–$300 million in private investment, zero public operational or maintenance burden, and ownership of all infrastructure returning to TAU at the end of the lease. Compared to current alternatives, this model could save the public over $18 million across 50 years.

5. Sustainable and Future-Focused Development- The proposal delivers a long-term, scalable solution that makes better use of a key central location. It replaces piecemeal planning with a future-proofed facility that Aucklanders can grow into for generations to come.

6. A Major Drawcard for Domestic and International Tourists - A state-of-the-art arena in a central, iconic location like Western Springs would add a compelling new destination to Auckland's visitor offering. With the ability to host international concerts, major sporting fixtures, and cultural festivals, the Auckland Arena would attract tourists year-round — boosting hospitality, transport, and local businesses. It enhances the city's reputation as a vibrant, world-class destination, encouraging longer stays and repeat visits.

In summary, Auckland Arena offers a rare balance of cultural enrichment, community benefit, sporting excellence, and financial prudence. It's an opportunity for Auckland to invest in its future with confidence and ambition.

> Financially the best proposal for Auckland rate payers.

> Given terms of lease, there will need to be good checks and balances to ensure, should Auckland Arena goes ahead, they do remain a constructive stakeholder within the Waitemata-Albert-Eden, and wider Auckland ecosystem.

> Addresses indoor court shortage in city isthmus.

> It would be useful to understand TAU's position on where capacity for large concerts would be shifted to within the central city (Domain??)

Auckland needs a venue that is accessible to all. As a ratepayer I am happy to support the councils investment for option 2. This option is also important to ensure continued free public access to the outer fields. This option ensures we get a worlds class concert venue and the Ponsonby RC have a training ground.

I fully agree Western Springs Stadium is in need of a renovation.

I support development of the venue to include infrastructure for concerts and more sports but the agreement needs to include space for Speedway to continue. There are examples of this being possible (Chilli Bowl in Indiana).

There also needs to be provisions in place for adequate parking and traffic management for large scale events.

If there is a possibility of retaining speedway at western springs that is the option I support. Having been bought up going to speedway every Saturday to my family racing there and now taking my daughter and watching her friends race has been an amazing experience. There are not many family friendly events in Auckland that are not rugby or league related.

Music venues at the heart of Auckland are necessary to bring in large revenue streams and entertainment for the city.

Gives more opportunity for small food truck businesses.

Brings growing interest in the tourism sector having more entertainment available to visitors and residents.

Western Springs has been at the heart of Auckland entertainment and events, being so close to the CBD, Motat and the Zoo.

There is a need for mulit-functional spaces as time goes on, a pure music/events venue even with private investment I can see the future need for public sector funds to keep it afloat as it won't be utilised as high a % as an arena that can do sports/music etc.

Western Springs is already a purpose-built event arena/ stadium space, and its a no-brainer that it stays in the Auckland ratepayers hands for events , and not giveing to billionaires who will then make it out of the reach of aucklanders

Speedway and racing is a big part of NZ culture. The racing industry is being dominated by big spenders. We need to make racing accessible and safe by having areas to race. This will help prevent boy racers stay off the roads and on tracks. The area can still be used for festivals, markets, sport and music as these are all great ways to bring kiwis together:)

I believe we need a landmark concert arena to attract big name performers to Nz and currently Eden Park does not cater for this.

Western Springs speedway is world famous and an Auckland summer tradition for nearly 100 years. I started going to speedway in 1974, i went with my grandfather and father. I now go with my father and my kids. It has always been a wonderful family focused venue and a world class show renowned around the world. Don't ruin an Auckland International motor racing icon. Currently this council is looking like a resident who buys close to the venue and then complains about the noise. It was here long before you and it should remain long after you are gone.

Western Springs IS speedway - it's the better venue for speedway in so many ways, compared to Waikaraka Park, it's managed much more professionally, has more of a local, regional, national and international reputations (and reach!), and $11M is nowhere near enough to bring Waikaraka anywhere close to that reputation or level.

Speedway needs to stay at Western Springs in some capacity. In terms of how this would be funded - I'm sure there are more commercial (or private) sponsorship opportunities around that could be explored, but also Council and Govt should see this as an opportunity to invest a little marketing funding, the more promotion this venue / Speedway gets, the more international racers, drivers and events this will attract - the international midget drivers that come over from the US

and UK ALWAYS draw a massive crowd, almost sell out crowds, so with a small investment from Council/Govt, this would greatly increase the ability to attract these kind of events, more often, and bring in more revenue to sustain the maintenance. Sponsorship should probably cover just any upgrades (in terms of increasing capacity or upgrading buildings etc) - functional maintenance (waste/water/power etc) should be a partnership agreement between council and the organisations that use the facilities.

Funding can also be recovered from this venue by reducing the restrictions of the number of nights of noise / reducing the time restriction - to allow for international concerts and festivals that aren't quite big enough for Eden Park. The more concerts and events at Western Springs, the better for Eden Park, and vice-versa! It's all about exposure, and if one band or act is playing one venue, the other can be highlighted as options - someone just needs to work on the proper marketing of the venue! Marketing is going to be the key, and it absolutely can be done.

I grew up going to western springs as a child catching the bus from blockhouse Bay to watch speedway and later in my life attending concerts there.

Speedway should remain at this venue. If it was a historic house you wouldn't move it.

It's a historic event and venue so why move it.

If there were more concerts there I would attend them there it a great venue for music and speedway.

My family play for Birkenhead United Football Club which has a close relationship with Auckland United as do many other Auckland clubs. Having something central to all clubs is important for all clubs. Also being a season ticket holder to Auckland FC and being from the north shore is so inconvenient. Being near to Auckland's future transport infrastructure is critical.

I choose option 2 as we have a few stadiums around the city already and we don't have many open air concert spaces left. It's also such a great venue for outdoor concerts as well as having increased options for the ponsonby rugby club and the other sports in the area. I also think that the hollywood style bowl will work well with the area and blend in well with the surrounding areas.

Firstly, Auckland does not need another stadium as North Harbour is under used.

Secondly, it's been a mostly public apace for its life, so why take away the ability of community groups to use it?

It's a natural ampitheatre that is a huge cost saving right there. By putting is event infastructure it lowers the cost of delivering events. I put the PolyFest into the Manukau Sports Bowl 35 years ago still going strong, pity they didn't build the earthern stages I suggested.

As someone who had recently lived in the area for 8 years, I agree that the space could be improved. I'm sure almost everyone agrees that moving the race track is a good idea - no one will miss the sound of it when they're trying to relax in the evenings!

While I can see and appreciate the financial appeal of Option 1 for Council, I think that leasing the stadium to a private owners with private interests for up to 100 years is too long.

If Auckland Arena causes issues to the local community, then Council would have no power in addressing these issues for at least 50 years before the renewal happens.

Even if it did have power, it would have a poor bargaining position considering it would have allowed private investors to swoop in and "save" Council from the financial burden of fixing Western Springs.

In economics, one of the first concepts you learn is that there is no such thing as free lunch. Whatever is being saved in public funding now will be reaped in some way by the investors. I believe that this will be in the form of a social cost to the community over this period, which would affect at least two generations.

I think Option 2 sounds more reasonable and realistic. While the costs are not ideal, it is a far better option when thinking about the power that the community will have over this space now and in the future.

I am writing in support of Western Springs Speedway to be able to continue at the stadium. Not only is it the home of open wheel racing but it is also home to Ponsonby Rugby and other sporting entities that would loose their home. For these people that want to come in and build a multi-purpose venue for sports are not supporting the one sport that has been there for over 90years, that is an icon of New Zealand. You ask any Australian or American Motorsport fan about New Zealand Speedway and they will be able to tell you about Western Springs. It is years and years of history that you are wanting to throw away. 4 generations of my family have been at Western

Springs Speedway and you are wanting to throw that away for people who don't live in the area or support ALL sports. They just want to show off how much money they have for a facility that we already have many of within NZ or even Auckland itself. Why was North Harbour Stadium built for rugby if it is just going to be left to go to ruins? When I was in high school it was made out to be the next big thing and NZ rugby would always have a home there and there was massive plans to use it for a multitude of sports but this also never happened.

I am a parent of a driver, but prior to that have been attending Western Springs for 30 plus years to watch Speedway and Attend Concerts.

I have chosen Option 3b because the WSSA's proposal has been proven to be the most fiscally responsible option for the Auckland Council and its ratepayers.

The straightforward 30-year lease proposal is a transparent approach that offers stability and a clear path forward without burdening the ratepayers.

We have always had short leases and operated under an umbrella of fear that it would not be renewed. No promoter or operator is keen to take this short-term approach on - the longer lease would give promoters confidence.

We believe that the stadium should continue to be multipurpose for rugby and concerts as well as speedway and not just for one sport.

I think the process of decision making has been rushed, flawed and peppered with misinformation. At the meeting this week, a lot of the councilors mentioned they had been misled, and they were hearing information from us for the first time.

We have not had the opportunity or time to speak, and the democratic process has not been followed. A letter in support of speedway moving away from the Springs was also presented that was fraudulent.

Waikaraka Park is not safe for open wheel cars and does not have the crowd capacity so sponsors will be reluctant to invest.

Western Springs is the ONLY open wheel track in Auckland.

Thank you.

Auckland Council's own review of Council-Controlled Organisations identified that the city already has too many stadia within its network. Given this, I question the need for an additional stadium at Western Springs.

Over the past three years, decisions about stadia have appeared ad hoc and disconnected from a broader strategy. Every decision about one venue has implications for others—causing duplication, internal competition, and content displacement. A clear and comprehensive stadia strategy must be developed before any new proposals proceed.

Before any decisions are made, Auckland Council and TAU should complete the Stadium Investment Plan and continue the agreed development of Eden Park as New Zealand's national stadium, along with Stage 2 of the North Harbour Stadium upgrade. These major strategic pieces should guide future decisions on the stadium network, including Western Springs.

Western Springs has been hosting families for more than 90 years as a location for speedway - it's the last of its type and its history must be respected and retained . There's like like this left in the world. Councillors will destroy its unique atmosphere moving the sport to another location; would you move cricket from Lords ; tennis from Wimbleton - the location matters ; don't destroy something unique

Option 2 would open up Auckland, and by direct consequence, New Zealand to far more international talent to perform at, especially for new large scale festivals to operate in besides Listen In, who in recent years have faced many issues, including budget and talent. In the last few years New Zealand has popped up on the map for countless large mainstream music artists to come and perform to and it brings a lot of business and money into Auckland from both Aucklanders and New Zealanders who travel to Auckland purely for large artists when they come to perform.

The current stadium is unique as it provides and outdoor amphitheatre feel like no other in Auckland. We already have stadium like option 1 being Mount smart and mt Eden and qbe stadium . Western springs provides the unique feel to these three so I am all in favour of keeping it that way but enhancing that by giving it a birthday and an upgrade .

Speedway has been part of my family's life over 3 generations. We travel across country to attend. Western springs has always been the pinnacle of racing both national and international. It's history and reputation speaks for itself not only for auckland but the whole of New Zealand. Instead of trying to shut it down why not support it. Go and experience it.

I choose Option 2.

Option 2 presents Auckland with a unique opportunity to improve and upgrade an iconic local venue to expand our cultural standing, offering more and broader event opportunities for Auckland's events calendar - this is necessary as the likes of Eden Park are under a ridiculous strangle-hold on limited annual operating days.

Option 2 facilitates the expansion of Ponsonby Rugby club, it can also serve to augment festivals in Western Springs Park such as Pasifika.

Western Springs' natural topography is celebrated Auckland wide as unique in the region, this should be enhanced as it has the potential to bring massive amounts of local and international visitors to our city.

A similarly amazing venue, Tanaranki's Bowl of Brooklands in Pukekura Park exists as an inspirational precedent. It has allowed many huge local and international events to be held close to the city of New Plymouth, bringing significant benefits to the cultural and financial standing of the city and region. Hosting the likes of WOMAD, it has put New Plymouth on the map as a world class cultural destination.

This should inspire a sensitive approach to this unique asset.

We hear a lot of public grandstanding about cultural sensitivity and the preciousness of our natural environment, often to the detriment of Auckland's growth potential.

Yet Auckland City has a long history of under-appreciating the historic value of contemporary cultural and artistic facilities.

We're renowned for allowing the ripping down of historic architecture and theatres, then allowing (or even promoting!) the remaking over the top of them with poorly executed, bland developments - token hollow facsimiles that serve exclusive interests and extinguish contemporary cultural value in the name of progress. The empty lots being used as carparks in our CBD are testament to this lack of vision.

This is not progress for our city.

Option 1 falls into this category.

This 'grand scheme' developer-centric approach stifles the locations' celebrated natural qualities and replaces them with an uninspiring, vacuous, grey proposal; devoid of any character and interest that sadly is all too prevalent in our city.

The presented views of Option 1 also do it no favours - it genuinely looks gargantuan, cheap and sad.

There are evaluations of costs saving which seem to be very attractive to Auckland City Council by all appearances here, as is the desire to wash the hands of any construction CAP-EX, operational or maintenance obligations.

But I suggest the cost of divesting from such a unique gem (unpolished, admittedly) cannot be measured.

And there appears to be no indications of attracting visitors numbers.

This is a huge consideration as Option 2 has the absolute potential to attract thousands of visitors per year and actually make money for the city!

I believe Ponsonby Rugby Club should remain at Western Springs as they have been a long term occupier who have provided much to the community. I also believe Western Springs has also provided a good central venue for concerts over many years. So it would be worthwhile upgrading the stage facility's to help facility concert and other similar events without huge investment.

I also think that preserving this green open space with public access would be beneficial at a time when open spaces are in short supply. So in summary, keep the current arrangement with enhancement. Western Springs has shown its huge benefits to the community over many years. Let's keep it that way.

As for the speedway, it was sad to see it go, but maybe it is best to amalgamate it with the other car racing activities at Waikaraka Park.

Ponsonby Rugby is such a massive club full of history and with no genuine back up venue to cater for a Club of this size together it will make it hard for them to keep the Club united as one.

As part of this proposal, I would like to express my strong commitment to keeping the rugby club at its current location. This decision is rooted not only in practical considerations but also in a deep appreciation for the unique historical, cultural, and community value the grounds hold.

The club's current location is more than just a venue; it is a cornerstone of local heritage. It has been home to generations of players and supporters, and its long-standing presence has significantly contributed to the rich history of the sport in this region. Maintaining this continuity is essential to preserving the club's identity and legacy.

Equally important is the club's role as a vibrant hub for the community. Over the years, it has provided a welcoming space for families, local schools, and grassroots initiatives, fostering a sense of belonging and pride. The familiarity and accessibility of the current site enhance community engagement and inclusivity, which could be diminished by relocation.

On a personal level, I have had the privilege of attending numerous cultural events and concerts at these grounds, which further underscores their multifunctional value beyond sport. These experiences have reinforced my belief that the club’s current setting supports a broader cultural mission and continues to serve as a gathering place for diverse members of the public.

In conclusion, retaining the rugby club at its present location is a choice that honors its past, supports its present community, and secures its future as a cherished institution.

Western Springs was donated to the city of Auckland to use as it has been for almost 100 years as a world renown & iconic, Speedway, sporting and concert venue. It is for all of the people not just an elite few or those with a specific sporting allegiance. Keeping it as it is honours the land donation to the city and continues Western Springs being accessible to all.

Many Auckland families have been enjoying Western Springs Speedway, Zoo, Motat, and Park for generations. It has only been in recent times since property prices around the stadium have increased considerably that there have been complaints about Speedway. They bought in the area with full knowledge of the small number of events over the summer period. I would rather have these family friendly fans in my neighbourhood than boozed up football fans. I would suggest that the Council get out of Eden Park buy back Carlaw Park and build a 30,000 seat Rugby and Soccer Stadium which would be close to bars and restaurants in the CBD and be a much cheaper option long term than the waterfront stadium suggested by some developers, that has huge maintenance

costs for the rate payers. For larger than 30,000 seat events develope Albany Stadium. Leave Western Springs as is. This land was donated to the Council for specific purposes!

As a music and cultural event location, Western Springs is a national treasure and impossible to replace. It's current form is part of its charm. We don't need another sports stadium that is controlled by the private sector and would result in the corporatisation of a much-loved public space.

I belive that Option 1 is too niche. It also surprises me that why would they be looking for a smaller capacity stadium- certainly based on recent attendance numbers for Auckland Fc. Also, I have concerns about the stadium being available, or suitable for other outdoor events, which could attract larger crowds. This is why my preference is for Option 2. It would be great for Auckland to have a concert bowl, a permanent structure, that would attract artists and events here. While Eden Park can play some role in this space, it is limited in the number of events per annum, and other events. Auckland FC seemed to go well with Go Media this season. I

As a regular concert-goer, I believe this is the best and only option to elevate Auckland (and indeed NZ) into a world class destination for touring artists. It will bring much-needed revenue into the city as a whole, as ensure Auckland as a first choice consideration for musical acts for generations to come.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Because Auckland doesn't have a purpose built outdoor arena for concerts. I have attended concerts at Mt Smart stadium and Eden Park and neither are great for concerts as they were built to house sports. Eden Park should be the sort's stadium.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

1. Every stadium that is for a rectangular sporting arena should have four sides to it. Missing an end really destroys the opportunity for a 'behind the goal' experience. Stadium should be tight to the field.

2. for football explore use and upgrade of North Harbour Stadium.

3.Auckland FC could make that their home ground?! Western Springs in also not a train line stop?! Auckland FC focus on the stadium public funds go towards making better connections. Improve

public connections from bus stop at Albany to the stadium- broader footpath, tree lined covered with easy access to food and beverage facilities long the way.

4. Western Spring could remain in public ownership for speed way, concerts.

5. No more funding from public purse for privately held Eden Park.

Is Option 1 being put forward by Tataki Auckland Unlimited, or Auckland FC?

It can be hard to discern any independence between the two.

The Consultation Document is biased in favour of TAU's preferred Option 1, which is a flawed basis for obtaining public views and making council decisions.

The costs presented in the Consultation Document are inaccurate and purposefully misleading

Following the discourse of recent Council governing body meetings, it was clear that the information presented to councillors on the decision affecting Western Springs Speedway's future at Western Springs was incorrect, deceptive and misleading. For example, in a council meeting prior to the decision to move Western Springs Speedway from Western Springs to Waikaraka park TAU stated that it was costing Auckland Council $1.2 million to maintain the speedway at Western Springs. When challenged on this figure it became apparent that the $1.2 million wasn't operating costs as they had been presented but rather inflated lost opportunity cost from not hosting concerts at Western Springs during the Speedway season (What these supposed concerts were, what effort TAU had invested to entice them, and just how the 1.2 million projected profit figure was arrived at were simply ignored).

I consider that the information presented in the Consultation Document is similarly deficient.

Firstly, how can the costs published in the Consultation Document not be broken down or further explained, either in the Consultation Document or the supporting 'Online information session'?

In the table on page 4 under the heading 'Overview of Options', the box entitled 'How much will it cost or save the public?' states in relation to Option 2: "Requires a mix of upfront private sector investment (30 million), and council capital investment (circa $18-$20 million). Estimated $106.7 million additional public cost over 50 years compared to the existing arrangements."

$106.7 million additional public cost? It is not clear if this figure is meant to include the 18-20 million initial capital investment referred to. Let's assume it does. Is TAU really trying to suggest it will cost council in the order of $1,734,000 a year in maintenance costs were Option 2 to be chosen? That is certainly the impression the reader gets when reading the consultation document. Remember that figure is essentially for the upkeep of a brand new premises and a training ground.

All the figures in the Consultation Document should be challenged in the same way. In the same 'Overview of options' table on page 4 in relation to Option 3, it states: "Current arrangements have an estimated $31.1 million public cost if a new 30-year lease was signed with Ponsonby rugby". Really? How? Over a million dollars a year to maintain the current clubrooms (recently completely refurbished following the January 2023 floods) and playing field?

One is left to assume (and only if one takes the time to apply critical thinking) that the consultation document in support of Option 1:

- Lumps exaggerated and imaginary opportunity costs into the figures used to express current council expenses at Western Springs Stadium.
- Overstates maintenance costs associated were the status quo, or some variation of, to continue.
- Lacks the level of detail required for the public to correctly analyse the different proposals.
- Is written to mislead and deceive.

The Consultation Document fails to present relevant considerations for both Option 1 and Option 2

In relation to Option 2 the Consultation Document states that it will “likely draw content away from Eden Park, Go Media Stadium, and North Harbour Stadium. This may negatively affect those venues’ commercial models...” Yet, in relation to Option 1 there is no mention of the significant loss to Council earnings if AFC were to leave Go Media Stadium. These must be known figures.

The Consultation Document should present how much Auckland Council benefitted from AFC’s games at Go Media Stadium this year. This is true lost income if Option 1 was selected, with revenue from AFC instead flowing to private interests. One can only assume this information didn’t fit the desired narrative so the figures were left out. I consider this critical information for the public to make an informed decision. Further, how much will the council lose in lost income were AFC to stop leasing North Harbour Stadium, as it currently does, for its training venue. A very real, known figure that should be presented for ratepayers understanding.

I also query how Option 1 would impact Go Media’s viability. It surely detracts from the stadium’s appeal for naming rights sponsorship and media advertising in and around the stadium. It would also be a hit to businesses in the vicinity (both existing and potential) to capitalize on a well utilised stadium throughout the year.

The Consultation document also fails to present significant infrastructure costs associated with Option 1

The Consultation Document states that: “The council and TAU are assessing impacts on the transport and stormwater networks”. In the natural wetland environment of Western Springs, which flooded as recently as the 2023 Auckland flooding event, how can TAU be considering Option 1 without knowing these costs? These are likely to be highly significant, and given Option 1 has clearly not done any due diligence or costing in this respect, these costs are highly likely to end up being born by ratepayers. This is completely opposite to the hyperbole presented of ‘no costs to ratepayers’ under Option 1.

The Consultation Document fails to offer an alternative for the community interests at Western Springs Stadium

There is NO viable alternative presented for accommodating Ponsonby Rugby’s premises

and activities.

There is a fleeting reference to the feasibility of Cox's Bay being considered for Ponsonby Rugby Club. There are several obvious problems with this approach:

• There is a severe (and seemingly unsolvable) shortage of parking at Cox's Bay Reserve.

• There is not enough space for a clubroom facility.

• Cox's Bay is too closely encircled by houses (that will strongly oppose the club going there) to make it viable.

• Ponsonby Rugby Club and local schools also already use the playing fields at Cox's Bay to capacity on any given Saturday and throughout the week. It cannot accommodate the entire club.

• The loss of the use of the playing fields at Western Springs (both inside the stadium and the outer fields) would severely damage the clubs ability to operate and thrive.

In the ever evolving sales pitch in support of Option 1, Victoria Park has now been mentioned as a possible solution. Victoria Park presents even more problems for the viability of the club. It too suffers from a severe lack of parking, a lack of playing fields (already well utilised by Auckland ratepayers), and a location which would prove very challenging for the club to operate.

Option 2 offers the best use of publicly owned land with benefits accruing to the community

Option 2 would create a permanent stage with wide use appeal - music, dance, performance, festival, all year-round from schools, dance studios, church groups and other community groups.

Option 2 should see other interested groups put the publicly owned land to use.

Option 1 would remove community access in favour of benefits accruing to commercial interests

Auckland Arena are trying to portray themselves as a facility for the community, when its true purpose is being the home of Auckland FC. If the backers of Option 1 were serious about being a facility for the community surely they could accommodate a very long-standing, healthy, successful, effectively run, well supported club (Ponsonby Rugby) which happens to already be on the same site and requires a rectangular grassed sports field. The seasons of the A-league and Auckland Club Rugby are almost completely independent of each other.

The discussion document touts Auckland Arena as a possible home to some of the fastest growing sports in the country- Padel listed as one of them. Fastest growing- yes, because until Julian Brown and Troy Flavell bought the rights to bring it to New Zealand it didn't exist here. This is yet another for-profit venture trying to be passed off as for the community.

https://thepadelpaper.com/pacific-padel-new-zealand-julian-brown/

If it was deemed Aucklanders really did want Padel courts, under option 2 or option 3 there is space at Western Springs where Pacific Padel could install some of their courts, for the public benefit, covering their costs but not banking profits off the use of public land. There is space and willingness for these types of solutions to further utilise the public space.

Conclusion

What is before the Council is more than just competing development proposals. It is a decision about who Auckland's public spaces are for - its communities or private interests.

The consultation document is deeply flawed. It presents misleading figures, omits critical information, and favours Option 1 without proper justification. The public cannot make an informed decision based on incomplete or biased data.

If Auckland wants to stay a city that stands by its communities, respects its history and keeps public spaces working for the public, then this consultation process needs to be better. What’s been put forward isn’t good enough!

Option 2 offers a compelling and community-driven vision for this space - one that honours its legacy, sustains its existing users, and opens the door to broader cultural and recreational use. It builds on what’s already working, rather than erasing it for the benefit of private enterprise.

I support Option 2, Western Springs Bowl. It enables Ponsonby Rugby Club, one of the healthiest amateur sports clubs in the country, to continue performing its great service to both community-building and character-building in our young people. An entity, a culture, a formula that could lay a very strong foundation for other sports groups to join and benefit from.

Option 2 supports a shared-use, community-focused plan. One Auckland can really benefit from and be proud of.

Paul Williams

Auckland resident

Former player, current volunteer junior coach, son and nephew of former players and life members, father and uncle to current playing members at Ponsonby Rugby Club

Options 1: Public-private partnership are almost always heavily weighted in favour of the 'private' party which is inequitable for ratepayers. However Option 2 is very expensive for rate payers. I feel there must be a happy medium that hasn't yet been identified.

What is your connection to Western Springs Stadium? (tick one or all that apply)

I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I am part of a cultural or community group with an interest in the area

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I am an Auckland rate payer who has attended events at Western Springs throughout my whole life and the grounds are a special place for me and my family. Instances of events at Western Springs that have been threaded into my families lives and mine include:

1. My late Dad participated in motorcycle displays at Western Springs before I was born. We have a large photo of once such instance still proudly hanging framed on our wall.

2. I attended many Speedway events at Western Springs with my parents and siblings as a child and I have fond memories of meeting some of the star drivers of the time and watching the racing. I still remember as a 5-year-old being excited to go to the speedway meetings which were family events and I have many fond memories of safely exploring the pits with my father inspecting the cars. In between races I enjoyed bouncing on the bouncy castles and rolling down the spectator hills with other kids.

3. My parents once surprised me by driving to Western Springs to attend the Moscow Circus. The circus tent was set up in the lower car park grounds.

4.I have attended many concerts at Western Springs. Guns N Roses, Pearl Jam, Eminem, Foo Fighters etc. I have had friends attend Six Sixty which were the first NZ band to sell out Western Springs with 50,000 tickets. My parents and their friends recounted memories of Pink Floyd, Led Zepplin and Bob Marley concerts at Western Springs with high regard for the venue.

5. After attending more than one Big Day Out music festival at Mt Smart I had the privilege of attending the last Big Day Out that was held at Western Springs. The main stage in the natural Amphitheatre, the second stage in the lower car park and smaller stages on the grounds near the lake made for a very pleasant experience. In my opinion from an attendee perspective Western Springs was a superior venue for this type of music festival.

6. I have raced speedway cars at tracks all over the country and Western Springs was considered as the premier track. My brother was given an opportunity to race an F2 Midget and then received a drive for a Midget thanks to the owner. This owner was able to fund the racing due to sponsorship made possible by the crowds that Western Springs (in particular) attracts. My Dad then became a Midget owner to support my brother and I have spent many, many hours working on the car and attending races at Western Springs. This was a big ambition for my father and something that means a lot to my family. My father has passed away but my family still maintains a car for Western Springs and this is an important tradition for the family.

7. While on holiday in America with my wife we attended a World of Outlaws race in Pennsylvania, USA and came across a famous sprint car driver at a merchandise hut. He immediately recognised my kiwi accent and began talking to me about times at Western Springs Speedway. It was a great experience to have one of the best drivers of the past, (whom which I had posters of hanging on my childhood bedroom walls) single me out by my accent while on the other side of the world. When you watch some of the premier speedway events of the world and big exposure events like Nascar and Indycar you often see drivers doing well who we have seen racing in New Zealand at Western Springs. Coming here seems to be a tradition for up-and-coming racers who follow in the footsteps of historical racers of the past and get increased seat time running here, in what is the off season on the other side of the world.

My whole extended family attended the last meeting of the season just gone and there were so many people that we could only get seats high up on the “retaining wall” banks. The vibe of the crowd was one of a great atmosphere.

It was seeing my daughter playing on the bouncy castle with her cousin, doing cartwheels down the hill with a friend from school and eating a snow cone while watching the Midget feature, that I got a pang of sorrow thinking that this could possibly be the last generation to experience this here as the previous generations had before them.

I would like to see Western Springs stadium be managed in such a way that Speedway and music events can be entrenched into the future of the stadium for current and future generations to continue to enjoy. This would then allow for continued building onto the established history of the place.

The large natural amphitheatre allows for great viewing and acoustics for outdoor events and this natural feature would be completely wasted on option 1.

Option 2 would perhaps satisfy the music side of history and benefit to Auckland and NZ citizens – however, this would be at the expense of Speedway which has been the heart of the stadium to date and 97 years of history should not be ignored. Some of the character of the stadium is due to the speedway activity. There is no absolute reason why music and speedway cannot both be accommodated by the stadium. To fail to accommodate both would be short sighted and insulting to the history of the place.

Option 3A sounds attractive on the face of it if it were to keep things as they have been over most of the last century. However, it is to keep things as they are right now... I am afraid there are problems with the current management structure of this stadium. There are constraints that need to be relaxed/modified and some innovative thinking to allow the maximum use of the stadium for outdoor events (alongside Speedway).

Option 3B is what I have chosen to support in the context that the system to run the place is upgraded to entrench Speedway and large outdoor music events and have rules changed to support this to be done in a viable way.

It may not be the path of least resistance but I feel it is worth developing the place to efficiently run Speedway events, large outdoor events (not limited to concerts) and sports events in symbiosis with each other and the local community.

Many thanks for reading.

Ben Cossey

Option 1 seems like less of an operation in terms of infrustructure, which means preservering/upgrading what is already there without adding to the intensity of movement of people etc that this area already suffers from.

also sellfishly - I'd love a stadium built especially for AUckland FC in mind. Don't really like Rugby.

Western Springs speedway is one of the most iconic speedways of its king. Speedway has worked alongside all the other users of the stadium for its entire existence at Western Springs. The family friendly speedway environment will not transfer to other areas of Auckland. There is an entire industry that create lively hoods and employment, should the demise of western spring speedway at western springs occur it will unduly effect the people and families that rely on it.

Generations of drivers have been entertaining not just Aucklanders but people from around the world bringing huge exposure at not cost to the Auckland ratepayer.Western Springs Speedway promotes the best and largest speedway events in New Zealand and competitors alike aspire to race on the hallowed grounds. Taking speedway away to build a $300m stadium does not make

sense. There will be no return on the new built stadium and will then require further money to up keep.

Keep speedway at western springs, and help it work with the other tenants and users so it can thrive for years to form.

The valuable open space at Western Springs Stadium is something that should not be put into almost solely benefiting a private entity (Option 1, Auckland FC) but should instead maximise focus on community use, as well as being one of the only amphitheater/large scale venues in New Zealand with a wider spread of economic benefits when used as a concert venue, more than halving venue capacity as well as the style of venue going from open amphitheater to closed stadium, of which there are already similar stadia in Auckland which are under utilised for concert & community purposes. However during this current economic climate, asking rate-payers and/or finding other funding sources for Option 2 seems like too tough of an ask as we have other

community groups much more in need of resources rather than sinking money into yet another venue to be under utilised that needs considerable investment. It (Option 2) needs a wider scope & more detail of a plan for community use than what has been provided such as more flexible usage between Ponsonby Rugby Club, Concert promoters and TAU/Council. Option 3B, Neither Option 1 or 2 should proceed & explore other ideas, is my preferred choice.

The speedway should come back to western springs. Option one would lock people out of using the existing facilities and forced the PRC club to move.

This is a great facility for speedway, being running for nearly 100 years. Need to keep this going for Auckland. Thought Auckland Council would be proud of such a long standing facility and want to keep it running not close it.
