I believe the Waitemata Ward had a higher than normal number of students and young adults represented because of the proliferation of Universities and student accommodation in the geographic area. With many of these not remaining post covid a change to right the balance appears appropriate

More transparency on Council activities.

Closed door decisions have become the norm. Selling assets that belong to the people who have funded them and no visible positive application of the funds has become the norm. The local boards seem to be in the dark as much as the rateayers. Why was the tourist tram rail not completed so there was transport fro. Queen Street to Viaduct Harbour? How useful would this be now? Why is the land for this asset being sold? All top secret money in the invisible till? ETC

Representation review initial proposal

1. Overall, what is your opinion of the changes outlined in the representation review initial proposal?

I don't know

Tell us why

The system of wards is outdated and the many tickets councillor candidates run under seem designed to obfuscate their political stance. I think wards should be abolished and replaced with proportional representation. That way candidates would be forced to stand under honest political labels. The mayor should be elected from within the council. It's ludicrous to have a leader who may not match the majority of councillors.

Changes to wards from the 2022 elections

2A. What is your opinion of the proposed changes to the *Central Auckland wards* (maps 1.1 to 1.4)?

I don't see any community of interest between the western side of the ward and Parnell. It's so much more obviously aligned with the Eastern Bays. It's even very difficult to drive from the west of the ward to Parnell.

The local boards are just fine. The current ward-based system of electing councillors is outmoded and should be replaced by proportional representation. It is fairer and more honest and democratic.

Good to keep the basic existing structure across the area. The proposed changes should help keep communities of interest together and, improve the links where things aren't quite right at the moment.
I would prefer to see every ward represented by two councillors- a team more useful than one person.

As a resident of the Waitematā local board area, I support the changes. It is highly fortunate that it is possible to (mostly) restore alignment between wards and local boards while complying with the +/- 10% rule.

2B. What is your opinion of the proposed changes to the North Shore and Albany wards (map 1.5)?

Do not support

Tell us why

For me, -13.7% is too severe a non-compliance to be ignored, especially when North Shore and Albany wards, the two non-compliant wards, are adjacent.

As a former resident of Sunset Road, I agree that it is difficult to find natural communities of interest for adjusting the boundary. However, I feel that Target Road and Carribbean Drive form an important transport link that connects communities living either side of Sunset Road. I therefore suggest that population in Unsworth Heights should be moved to the North Shore ward. The change should be the smallest possible to ensure compliance, in order to minimize lack of alignment between local board and ward boundaries.

4. Do you have any feedback on the proposal to maintain some subdivision arrangements that are currently not compliant with the rule for fairness of representation?

My view is that it is very important to ensure equality of representation. Exceptions should be rare, when it is impossible to draw sensible boundaries that have any semblance to natural communities of interest. Such exceptions will tend to be in rural areas and when different areas are divided by either geographic features (e.g. rivers) or by train lines or motorways.

The Maungakiekie-Tāmaki Local Board has a history of very partisan elections. The same party has won all four seats of the Tāmaki subdivision since 2010, thus giving them control of

the board. However they have not always won a plurality of the vote. For these reasons, I urge bipartisan consultation with the local board to ensure fair boundaries that will fairly represent all voters. It may be worthwhile considering a restructuring of the boundaries so that each subdivision has the same number of seats (e.g. two subdivisions of 4 seats or three with 2 seats).

Tell us why

6. Do you have any other feedback about how you and your community can be better represented through local boards and the governing body?

Assuming that FPP is used, I support smaller subdivisions electing fewer members each. This is because FPP has a tendency to give one party all the seats (e.g. both subdivisions of Albert-Eden and Maungakiekie-Tāmaki, Ōrākei, Kaipātiki, Pukekohe, Papakura). When there are no subdivisions, this means the minority is left unrepresented, and no alternative points of views may be expressed at board meetings.

In particular, I think the Waitematā local board, where I live, should be split into two subdivisions. The inner suburbs of Ponsonby, Grey Lynn and Westmere are very different to the central city areas around Queen St, Grafton and Newmarket. The former are affluent, well-settled inner suburbs while the latter have a more transient, youthful and apartment-dwelling population. I suggest that SH1 should form the boundary between two subdivisions as far as that is consistent with the +/-10% rule. I acknowledge that Parnell may feel that they have few common interests with the rest of my proposed new subdivision.

Another local board that could be split into subdivisions is Upper Harbour, where I resided for 8 years. The Upper Harbour Bridge is a natural boundary between the western and eastern parts of the local board.

The ward and the board should be aligned. Having a Board that does not have a corresponding Councillor simply allows for the overlapping area to be forgotten. Parnell is Auckland's first suburb yet over the past 12 years there are plenty of examples where the ward has not been served by the Local Board.

The Erebus debacle simply would not have occurred had Parnell been aligned with Orakei. Given we had a different Local Board to Councillor, there was no oversight over the decision not to consult with the public.

Everything should stay the same until the Boards are finalised.

Support

Tell us why

Makes sense on the map.

3A. What is your opinion of the proposed changes to the Rodney Local Board subdivisions (map 2.1 and 2.2)?

Support

Tell us why

Necessary for effective management quite apart from coastal Rodney.

3B. What is your opinion of the proposed changes to the Howick Local Board subdivisions (map 3)?

I don't know

Tell us why

Not familiar with area but lots of mangrove waterways to consider.

Non-complying subdivisions

4. Do you have any feedback on the proposal to maintain some subdivision arrangements that are currently not compliant with the rule for fairness of representation?

Agree, especially given topography and infrastructural barriers mentioned.

Local board boundaries

5A. We are proposing that Saunders Reserve, currently split across Devonport-Takapuna and Upper Harbour Local Boards, will be fully in the Upper Harbour Local Board (map 4.1). What is your opinion of this proposal?

I don't know

Tell us why

Makes sense geographically and economically for light industrial area.

5B. We are proposing to move part of Kereru Reserve, currently split across Kaipātiki and Upper Harbour Local Boards, to the Upper Harbour Local Board (map 4.1). What is your opinion of this proposal?

Im disapppointed the reduction in the number of local boards is not going ahead.

I washopefulky this chnage would mean more full time local board members creating more opportunities for diverse representatives.

I am a resident of Parnell and I do not support chancing from Orakei to Waitemata. We get good engagement from our existing councillors and I believe being part of a larger Ward would diminish the level of engagement. Why are you fixing something that isn't broken, you are just wasting ratepayers money by proposing a change that doesn't really achieve anything.

6. Do you have any other feedback about how you and your community can be better represented through local boards and the governing body?

I think as population grows, unsure if current number of reps is sufficient, and might need to have more on GB and local boards to there is better representation for people.

Representation review initial proposal

1. Overall, what is your opinion of the changes outlined in the representation review initial proposal?

Support

Tell us why

I support minor changes to match local boards and maintain proportionality. That being said, there are some further tweaks I'd like to see in the future, particularly to the Waitemata and Gulf Ward where I live.

Changes to wards from the 2022 elections

2A. What is your opinion of the proposed changes to the *Central Auckland wards* (maps 1.1 to 1.4)?

Other

Tell us why

I support Parnell, Newmarket and Grafton rejoining the W&G ward, particularly as this matches the local board boundary. However, I am disappointed in the exclusion of Newton and Eden Terrace from the local board and ward, as these areas have a lot in common

geographically and culturally with the city center as city fringe suburbs. I'd like for the council to consider removing Waiheke, Aotea and the other Gulf Islands from the W&G ward (which would presumably then be renamed) to allow for the inclusion of Newton and Eden Terrace. The islands understandably have very different voting concerns than the central city, but I appreciate due to low population there is no obvious home for them. Alternative wards that might align a bit better with the island residents' concerns include North Shore and Howick (these two also have ferry connections) or even Albany, Rodney or Franklin, which all have significant populations on the Hauraki Gulf.

Warkworth is deemed a Metro Centre; to reduce representation here when the intention is significant growth is counter intuitive and does not factor in the growth forecasted within the medium term. If anything this area needs additional representation to support the population growth anticipated in a short timeframe.

My comments and interest are limited to the Waitemata Ward and Local Board. I have been a city centre resident since 1995. I believe the area remains underrepresented in the new proposal. I would support moving the Gulf Islands to the North Shore Ward which is

overrepresented in the current proposal. This would bring both the Waitemata and North Shore Wards closer to the population per counselor averages. The North Shore shares considerably more coast line with the Gulf Islands than the Waitemata city centre.

AUCKLAND COUNCIL REPRESENTATION REVIEW

The Parnell Business Association represents over 1, 121 businesses in the Parnell area. Please receive our feedback plus that of 30 businesses in our area.

Background:

Auckland Council holds local elections every three years. To ensure Auckland has fair and effective representation at these elections, they must review their representation arrangements every six years.

A representation review looks at:

- how many councillors Auckland should have
- how councillors should be elected
- if councillors should be elected from their wards or across the whole of Auckland
- the names and boundaries of wards and local boards.
- a representation review makes sure that each councillor represents a similar number of people, known as the 'fairness of representation rule' or the '+/- 10 per cent rule.'

Council can decide not to follow this rule if it would:

split communities of interest (people with shared interests)
join dissimilar communities (people who have very different interests or needs from those of neighbouring communities).

Your proposal is:

Pukekawa / Auckland Domain and the communities in Parnell, Newmarket and Grafton, currently in the Ōrākei Ward and Waitematā Local Board area, will return to the Waitematā and Gulf Ward and remain in the Waitematā Local Board area.

Our feedback is as follows:

Two local body election cycles ago, our ward area changed from Waitematā to Orākei, based on the residential growth in the inner city.

We supported this move for other reasons. Pre this taking place, we often felt that the wider CBD agenda was not in alignment with our demographics and aspirations, and our suburb was not a priority within the ward. Until very recently, Parnell has often been overlooked from a capital funding perspective from the Waitematā Local Board, (with perceived influence from the councillor to allocate funding to the central and west side of the ward).

- It is important to note that should Parnell and Newmarket go back into the Waitematā Ward, they (and the Local Board), will need to meet the needs of 6-7 business associations, including two of the largest (Heart of the City and Newmarket).
- In addition, the next Waitematā councillor will go from representing just one (but very significant) train station – the old terminus previously known as Britomart – to overseeing ***six train stations***.
    - And, as noted in a recent article "not just any six either: they include what will easily be the three busiest and most important stations in the land: Waitematā, Newmarket, and Te Waihorotiu, plus our only real underground station – the unique Karanga-ā-Hape, plus plain but hard-working Grafton, as well as the poorly sited and underused Parnell".
    - The lack of integration and access upgrade of the Parnell Station into the wider train network, (especially pre the CRL opening) is a good example of how Parnell gets 'forgotten.'
- The move also seems shortsighted in not planning for residential growth in the inner city, and these borders may need to be re-aligned again in six years?

Although it is not ideal to have the ward and Local Board boundaries not aligned, we do feel we have been well represented over the past few years, at Governing Body level, by our Ward Councillor.

Do not split communities of interest

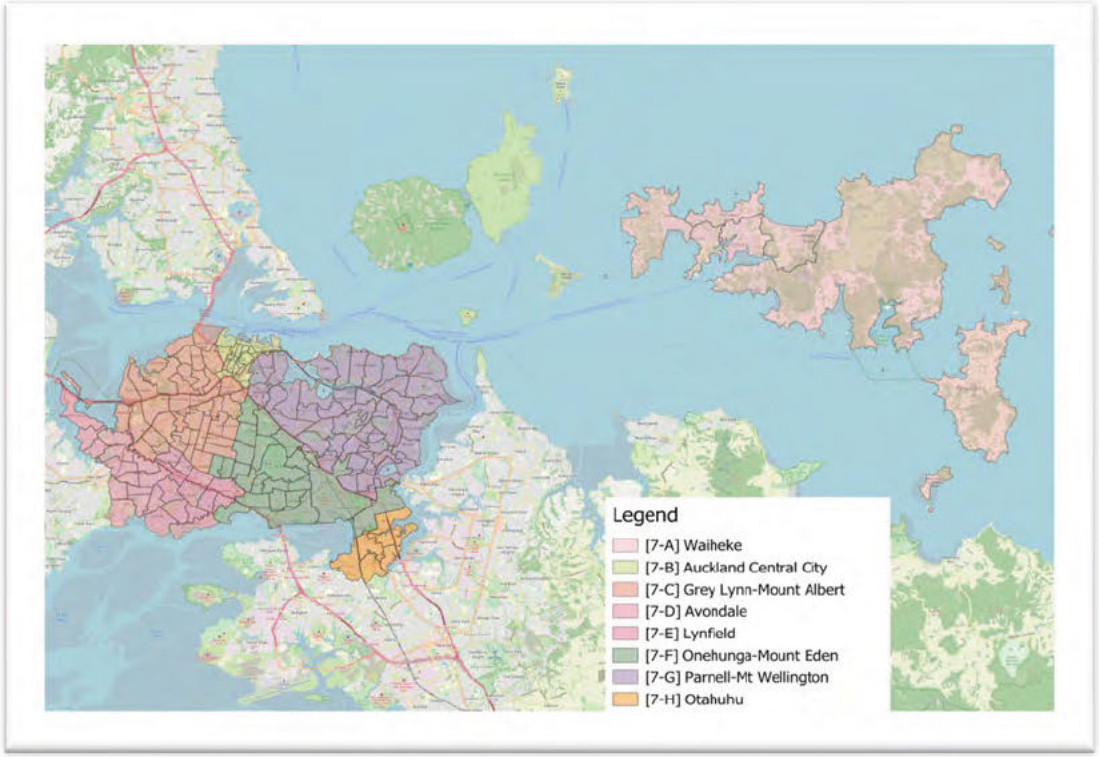

We know from our trade data that the vast majority of our consumers come from the Orākei and Epsom catchment, not Waitematā (see map showing consumer demographic card use).

As per the below figures received from Marketview for the Year ending June 24:-

- 35.1% of our support comes from the Parnell-Mt Wellington area, which includes Newmarket, and is broadly aligned with the Ōrākei ward.
- 26.8% is from the 'Rest of the Auckland Region' (external to all areas defined on the map overleaf). This can be attributed to employees in Parnell who reside all over Auckland and spend at our merchants during the day, as well as patrons travelling to destination retailers in Parnell, (galleries, home décor etc).
- ONLY 1.8% of our spend comes from the CBD
- ONLY 8.8% of our spend comes from all the areas defined as Grey Lynn/Mount Albert, which includes Ponsonby, K' Road, Uptown, Newton, Mt Eden and the balance of the city fringe.

Our 'community of interest' is clearly the eastern suburbs. We believe there is better synergy if the elected representative/s are chosen by the main demographic of this area and the areas that support us most, i.e. the communities of interest should not be split.

This extends to our parks and public spaces, (including The Domain), which we view as strategic community assets that should be under the stewardship within the community of interest.

Conclusion & Comments

We firmly oppose the proposal to move us back to the Waitematā Ward. Please see as an appendix, submissions from 30 business in Parnell in support of our view.

Comments for our businesses included the following:-

"I am writing with regards to the proposal to move Parnell back into the Waitematā Local Board area
As a Parnell business owner I am dead against this proposal and here is a couple points why
1. When we were previously with Waitematā Local Board we received very little support. To be honest I got the feeling that as a "wealthy suburb" they felt as though we didn't deserve the support as much as others. The wealth resides in the residents. I'm just another business owning trying to support my family like the next guy.
2. 90% of our clients live or work in Parnell, Remuera and Orakei and of the last 10% very few come from the Waitematā Local Board area. So obviously the Orakei ward is a much better fit.
3. One of the main reasons Waitematā Local Board area moved us out was because their population got too high and yes it has decreased since then (hence why they want us back) but what happens when their number increase again. Another move?? "

"I strongly agree that Parnell should remain in the Orakei Ward as this aligns with the likely catchment area for people visiting Parnell. Council would need to come up with a compelling argument to return Parnell to the Waitemata and Gulf Ward as we naturally align with the Orakei Ward".

"We support Parnell remaining in the Orākei Ward for the reasons outlined in your email newsletter. Thank you"

"It makes sense, for a number of reasons, including the geographical connection, the similar and connected community that Newmarket and Parnell stay in the Orakei Ward".

"Please leave this arrangement alone!
It works and we have worked as a community to support this alignment
Functioning well and healthily! "

"There is no point in changing the Ward away from the Orakei Ward as this is the most relevant Ward for the Parnell businesses".

"Parnell's focus is primarily suburban as opposed to the urban focus of Auckland Central".

"Living in East Auckland I have a greater affinity to this area.
Going back to Waitemata would appear a backward step."

"Completely happy to stay in the Orakei Board where people of our community understand our specific needs as individuals and as businesses. We are better represented by locals.

"It makes sense to leave Parnell and Newmarket in the Orakei ward".

"As usual some bureaucrat with no empathy or understating of community making a broad brush stroke decision. how on earth can Waitemata be geographically aligned with Parnell?"

"With the inclusion of Parnell and Newmarket you are proposing the Councillor from the Waitemata Ward represent all of the largest BID's in Auckland.. This is unreasonable as the expectation is the Councillor will be able to effectively represent all the BID's. The real impact is the BIDs will not receive the level of support as they currently receive. Accordingly, the status quo should remain."

"We get far better representation, and support from the Orakei Ward than we ever got when we were part of Waitemata. Hence, I feel we are better off where we are now. We are not part of the CBD, or the Gulf".

"Absolutely vital and correct that Parnell remains in the Orakei Ward"

Tāmaki Paenga Hira Auckland War Memorial Museum ('Auckland Museum') is located within Pukekawa / Auckland Domain, an area affected by the proposal to amend the Ōrākei Ward and Waitematā and Gulf Ward boundaries. Our submission focuses solely on this part of the representation review proposal.

The Museum does not support the proposal to amend these ward boundaries as it has been arbitrarily made to fit the fair representation rule (+/- 10% of population) and will result in the

division of communities of interest. We ask that the status quo arrangements remain as they more effectively provide for communities of interest, including effective representation for Pukekawa / Auckland Domain and the Museum at Council's Ward level.

Communities of interest in the affected areas

The communities of Parnell, Newmarket and Grafton have stronger connections to inner East Auckland than they do to the communities of the Waitematā and Gulf Wards. This is true along the three dimensions of communities of interest – perceptual, functional and political.

Perceptually, these areas' identities are far more similar to Remuera, Orakei and Kohimarama (parts of the Ōrakei Ward) than they are to the Central Business District, the inner West suburbs, and the rural Waiheke Island and Aotea / Great Barrier – all constituent communities of Waitematā and Gulf. This is true in terms of residential density, demographics such as age structure, and social and economic factors such as income.

Functionally, Grafton Gully, the Auckland Motorway, and Stanley Street constitute major geographic barriers between the inner East areas and the CBD; while public transport and arterial roads link these areas, the terrain effectively divides the areas to the extent that they have developed as distinct destinations. Newmarket and Parnell are foci of local shopping and business for inner East Auckland residents (although both do draw people from across Auckland as destinations). Community infrastructure in these areas, such as the Parnell Library, also effectively serves inner East Auckland residents, including those from Newmarket and Remuera, more so than does infrastructure in the CBD and other parts of the Waitemata and Gulf Ward.

There are various political arrangements that also differentiate the inner East from the CBD and other parts of the Waitemata and Gulf Ward. For example, Parnell and Newmarket form part of the Epsom general electorate, not Auckland Central, which comprises much of the Waitematā and Gulf Wards.

The Museum has been well served by the status quo arrangements since 2019 – being represented by the Ōrakei Ward councillor whilst remaining within the Waitematā Local Board area. We are of the view that decision-making regarding the Domain and the Museum has been more effective with this split representation, with a renewed focus on investing in necessary infrastructure in the Domain, and certainly more effective than the pre-2019 representation arrangements. We ask that this arrangement continues and that this part of the representation review proposal is not continued.

2A. What is your opinion of the proposed changes to the *Central Auckland wards* (maps 1.1 to 1.4)?

Do not support

Tell us why

We know from our trade data that the vast majority of our consumers, many of our property and business owners, and of course residents, come from the Ōrākei and Epsom Primary Trade Area (PTA), not Waitematā (see map of Newmarket's catchment below). This is precisely why our NEWMARKET. magazine (of 50,000 issues) heavily targets this area.

There is a better democratic alignment when the elected representative/s are chosen by the majority demographic of the part of the city who reside in that locality, and have shared

community interests. Using councils own reasoning, these communities of interest should not be split.

Under the previous local body boundary review, our Ward (elected councillor) area changed from Waitematā to Ōrākei, we strongly supported this positive boundary change for the reasons stated above. And the positive experience and support we have had since this change was made has been unprecedented. The Parnell Business Association shares this view as well.

Further, at a future review, changes to the Local Board boundary should be implemented and Newmarket, Parnell and the Domain etc should shift to the Ōrākei Local Board Area. Again, this is with the alignment of communities of interest in mind. Important to note that the Waitematā Local Board currently has 7 large BIDs within their boundary. Ōrākei, however, has a handful of smaller BIDs. It makes logical sense to align the Board and Ward boundaries to Ōrākei as a fairer distribution of population and alignment of the representation of communities of interest.

With the opening of the CRL, inner city populations will increase significantly as they cluster more and more around transport nodes residentially, as happens in most cities around the world with modern transport systems. This fact seems to have escaped the scope of this review.

Therefore, we emphatically oppose the proposal to move Newmarket, Parnell and the Domain back to the Waitematā Ward. Our community's interests are best served by the Ōrākei Ward.

We have collected 127 other submissions from across the Newmarket area, who also oppose this change. These are 127 individual submissions, and should be received as such. Feedback was gathered by a form hosted on our website (see appendix) 59 responses, and printed forms, 68 responses, also attached.

AUCKLAND COUNCIL REPRESENTATION REVIEW

To Auckland Council Representation Review Panel,

The Newmarket Business Association (NBA) represents over 3,000 property owners and businesses, who between them employ around 21,000 employees within the Newmarket precinct. Through the Business Improvement District (BID) programme, we work on behalf of the private sector, and in partnership with Auckland Council, its CCOs, and the Waitematā Local Board. Our combined rateable commercial property portfolio is valued at around $4bn. Our role, with a single-minded focus on the Newmarket precinct, is to improve the business environment of the area, promote innovation, safety, prosperity and employment as well as attract new businesses, consumers and visitors.

Background of this Submission:

Auckland Council holds local elections every three years. To ensure Auckland has fair and effective representation at these elections, they must review their representation arrangements every six years.

A representation review looks at:

- How many councillors Auckland should have.
- How councillors should be elected.
- If councillors should be elected from their wards or across the whole of Auckland.
- The names and boundaries of wards and local boards.

A representation review makes sure that each councillor represents a similar number of people, known as the 'fairness of representation rule' or the '+/- 10 per cent rule.'

Council can decide not to follow this rule if it would:

- ***Split communities of interest*** (people with shared interests).

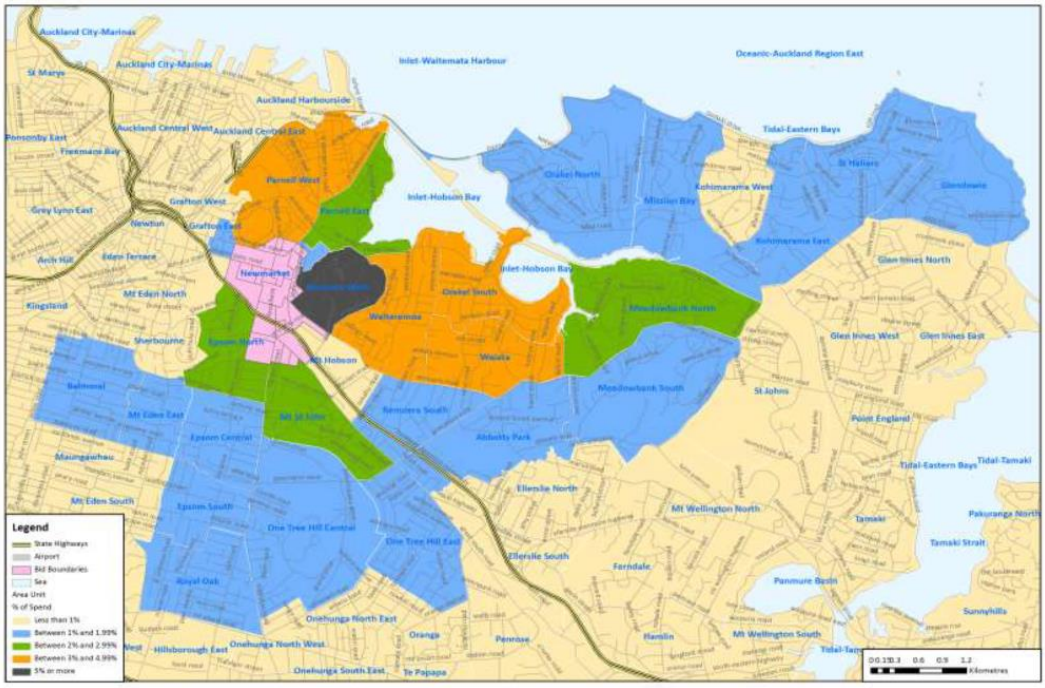

- Join dissimilar communities (people who have very different interests or needs from those of neighbouring communities).

Our feedback on the Representation Review focuses on one proposed change, that:

> *Pukekawa / Auckland Domain and the communities in Parnell, Newmarket and Grafton, currently in the Ōrākei Ward and Waitematā Local Board area, will return to the Waitematā and Gulf Ward and remain in the Waitematā Local Board area.*

Our Feedback on this proposed change:

We know from our trade data that the vast majority of our consumers, many of our property and business owners, and of course residents, come from the Ōrākei and Epsom Primary Trade Area (PTA), not Waitematā (see map of Newmarket's catchment below). This is precisely why our NEWMARKET. magazine (of 50,000 issues) heavily targets this area.

Newmarket Catchment (Data Source: MarketView)

There is a better democratic alignment when the elected representative/s are chosen by the majority demographic of the part of the city who reside in that locality, and have shared community interests. *Using councils own reasoning, these communities of interest should not be split*.

Under the previous local body boundary review, our Ward (elected councillor) area changed from Waitematā to Ōrākei, we strongly supported this positive boundary change for the reasons stated above. And the positive experience and support we have had since this change was made has been unprecedented. The Parnell Business Association shares this view as well.

Further, at a future review, changes to the Local Board boundary should be implemented and Newmarket, Parnell and the Domain etc should shift to the Ōrākei Local Board Area. Again, this is with the alignment of communities of interest in mind. Important to note that the Waitematā Local Board currently has 7 large BIDs within their boundary. Ōrākei, however, has a handful of smaller BIDs. It makes logical sense to align the Board and Ward boundaries to Ōrākei as a fairer distribution of population and alignment of the representation of communities of interest.

With the opening of the CRL, inner city populations will increase significantly as they cluster more and more around transport nodes residentially, as happens in most cities around the world with modern transport systems. This fact seems to have escaped the scope of this review.

Therefore, we <u>emphatically</u> oppose the proposal to move Newmarket, Parnell and the Domain back to the Waitematā Ward. Our community's interests are best served by the Ōrākei Ward.

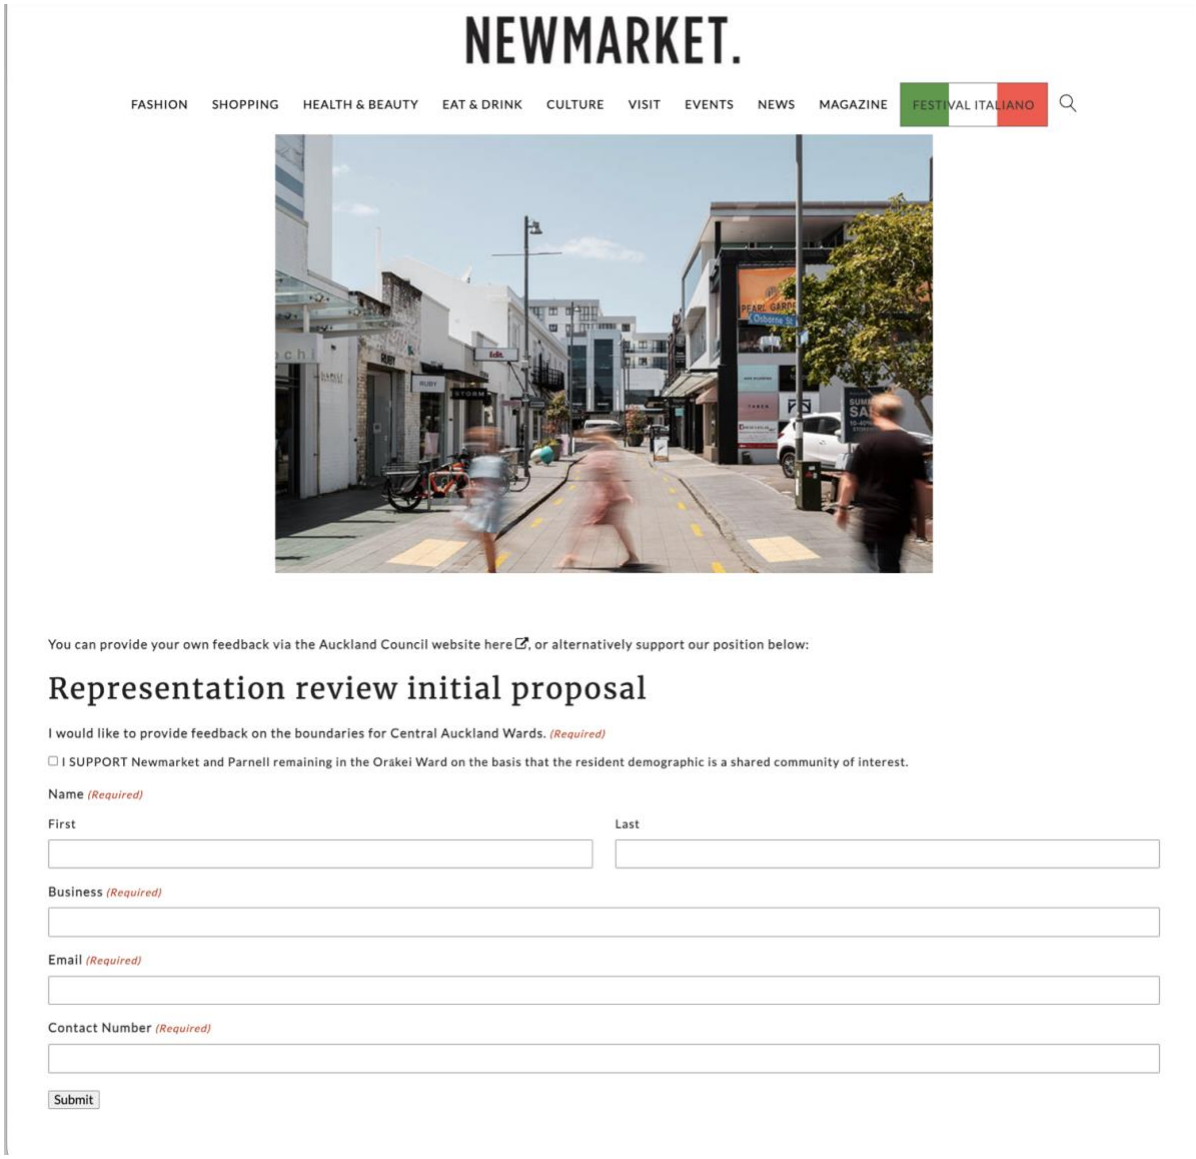

We have collected 127 other submissions from across the Newmarket area, who also oppose this change. These are *127 individual submissions*, and should be received as such. Feedback was gathered by a form hosted on our website (see appendix) 59 responses, and printed forms, 68 responses, also attached.

Yours faithfully,
