RODNEY LOCAL BOARD		
569	I do not support the proposed change	Dogs need off leash areas
845	I support the proposed change	Dogs under control should not require a leash.
908	I do not support the proposed change	A dog under control does not leave the board walk so does not provide a risk of spreading disease. Children are a greater risk of jumping off the boardwalk. Signage highlighting the need & reason to keep dogs & children on the boardwalk or suffer a serious fine is all that is needed.
1094	I do not support the proposed change	I can't seem to find the link for the proposed dog ban for Forestry Beach in Te Arai which I think is absurd. There are no other beaches or reserves to walk dogs anywhere near Te Arai. Forestry beach is often empty and in 20+ years we've never had any issue with our dogs or other dogs. So many of our community live in this region because of the beauty of the beaches and the access we have to walk our dogs. I strongly appose the proposed ban.
1247	I do not support the proposed change	I believe that with dogs on a leash and controlled that dog owners should have same right sto enjoy the out doors Humans create more damage
1280	I do not support the proposed change	we need off leash areas kept. Aside from Kauri die-back restricted areas
1318	I support the proposed change	Currently there is a sign at Parry kauri park saying must be on a leash anyway. But it's not a council sign so it's not very noticeable. Please put some better signage. This park is a vital place to walk dogs in the shade safely on a hot day, I would hate to see it change if people can't keep them on a leash nicely.
1507	I do not support the proposed change	I feel this amendment is ineffective as currently there is a sign at the entrance to Parry Kauri Park that already shows dogs need to be on a leash. I walk there most days and so often see dogs off the leash running about on the grass area. Many people take their dogs through the bush, usually on a leash but sometimes not. This bush is one of the few with no dieback yet dogs still go through constantly. I doubt the spray station is used on dogs' feet.
1573	I do not support the proposed change	No evidence has been provided that dogs are responsible for spreading Kauri dieback
1842	I do not support the proposed change	Dogs aren't the cause of Kauri dieback disease. Sure it would help slow the progress but it isn't a solution or a cure to the issue
2143	I support the proposed change	Sensible
2421	I support the proposed change	Protecting Kauri is the priority - especially given the name of this park! If dogs might spread dieback then they belong on the boardwalk/track with everyone else.
2736	I support the proposed change	Kauri Die back absolutely needs to have consistent protocols in place that will be effective, dogs required to be on leash is just one of several required steps towards protecting our native Kauri.
2937	I support the proposed change	Common sense if the track is closed.
3526	I do not support the proposed change	Leave as is. Fines for those who don't comply

Sub #	Q4 RD-A Parry Kauri Park	Q4 RD-A Comment
3642	I support the proposed change	clearer for dog walkers
4111	I support the proposed change	Dog populations have increased and wildlife populations have decreased as a result.
4341	I support the proposed change	I personally think all dogs on lead all the times. Open up fenced dog parks where they can run & ***** in a controlled area. Not all owners are responsible & dogs attack other dogs. let alone people protecting those dogs getting attacked.
4639	Other (please explain below)	Why would dogs go down track without handler
4821	I do not support the proposed change	If dogs are under control there is no problem.
4899	I do not support the proposed change	Dogs with recall are fine
4950	I do not support the proposed change	Dogs should be allowed to be walked on all beaches, at all times provided they are on leash and controlled.
4966	I support the proposed change	I am surprised that dogs were ever allowed off the leash in this fragile eco system.
4971	I support the proposed change	I am surprised that dogs were ever allowed off leash in this fragile ecosystem.
5429	I do not support the proposed change	Dogs don't tend to jump off the board walk to run amongst the bush and native trees , too difficult to access so just let the dog trot with you off the lead , no harm done staying on board walk
5587	I support the proposed change	When using the park with my grandchildren I do not want to be approached by any dogs that are not on a lead and may not be under the direct control of the owner. This lessens the risk of my grandchildren or myself being harassed or bitten by a dog.
6076	I support the proposed change	This is an important ecological area and should not have dogs off a leash who could disturb the native flora and fauna of the site.
6197	I support the proposed change	I totally support protecting our kauri from disease and am very happy to keep my dog on-leash to prevent the spread. (The amendment as worded above implies that the dog can run free during track closures - I don't think this is what you mean.)
6496	I support the proposed change	I do support the change, but primarily because I feel that existing rules are adequate they are not sufficiently enforced by Council or respected by dog owners - hence the desirability of upgrading protections in this space
6599	I do not support the proposed change	Same as above
OUTSIDE RODNEY LOCAL BOARD		
177	Other (please explain below)	Supported for so long as the conservation need requires but no longer. Restriction should be conditional on that and require periodic pre scheduled reviews
523	I do not support the proposed change	Dogs should be allowed on all public areas under control at all times unless there is a non kauri die back conservation need

Sub #	Q4 RD-A Parry Kauri Park	Q4 RD-A Comment
607	I support the proposed change	On leash is a good solution so thst access is still possible.
947	I support the proposed change	All sensible steps must be taken to prevent kauri dieback
1358	I do not support the proposed change	Dogs should be allowed on leash in all park areas. Provision for off leash play should be made in all parks.
1379	I support the proposed change	To prevent kauri dieback I support this
1748	I do not support the proposed change	this is not a very busy track, i dont see why dogs cant be off the lead as long as they are under control
1854	Other (please explain below)	Same for all areas - we should have a section for owners and dogs to be off leash during summer.
1875	I do not support the proposed change	Dear council I am writing to urge you not to ban dogs from our beloved regional parks, beaches, and public spaces. As a vibrant part of our community, these natural areas should be open to everyone, including responsible dog owners, who are an integral part of our society. Why Dogs in Parks Matter: 1. Health and Well-being: Dogs are not only wonderful companions, but studies have shown that walking with dogs encourages more physical activity, which can help combat the rising rates of sedentary lifestyles and chronic diseases. These outings promote better mental health, lower stress levels, and a deeper connection to nature—benefits that extend to the whole family. 2. Economic Impact: Dogs help generate revenue for our parks. Local businesses benefit from dog owners spending on pet-related products, pet services, and park fees. Tourism also sees a positive impact as people often choose destinations where they can bring their dogs, boosting the local economy and increasing the sense of community. 3. Social Responsibility: Responsible dog ownership is a core part of being a good community member. Many dog owners are highly committed to respecting public spaces—cleaning up after their pets, keeping dogs on leashes when required, and ensuring their pets do not disrupt others. Banning dogs punishes those who are mindful and courteous, while the real challenge lies in enforcing responsible behaviour. Ensure you are fining and implementing consequences for those who
2086	I do not support the proposed change	Never had issues before, punishing everyone for a small handful of irresponsible owners isn't fair. The less our dogs are out in society the more harmful to their behavior moving forward

Sub #	Q4 RD-A Parry Kauri Park	Q4 RD-A Comment
2139	I do not support the proposed change	Dogs are family members it is already difficult to find activities you can do with your dog. Banning them from beaches and parks will be a step back as a society. In fact more and more people is opting for not having kids and having dogs instead. This will new proposed policy will definitively have a huge negative impact on the wellbeing of NZ dog owners. We should promote healthier, active lifestyle. What other alternatives we have as dog owners is the equivalent of banning kids in parks. that does not make sense.
2141	I support the proposed change	I have seen off leash dogs chasing birds in this park.
2184	I do not support the proposed change	Keep current policy
2185	Other (please explain below)	Please provide as many opportunities as possible for on-lead walking.
2343	I do not support the proposed change	Responsible dog owners are already highly restricted on area and times if access. Increasing those limitations is unfair and discriminating. The majority should not be penalized for the minority who are not responsible dog owners.
2488	I do not support the proposed change	It's already to minum the parks and areas that you currently can walk with your dog, and to keep a healthy and balanced dog at least the dog need to be walked once a day.
2511	I do not support the proposed change	Again i do not believe dogs are spreading kauri die back
2692	I do not support the proposed change	See previous
2713	I do not support the proposed change	We should be allowed to have access to these places as well
2871	I support the proposed change	Fair
3790		Over complicated and limiting exercise because of the bad behaviour of the minority.
3824	I support the proposed change	It is a small track and you often bump into other people so it seems right to have control of your dog
4489	I do not support the proposed change	I want less restrictions not more
4879	Other (please explain below)	No dogs would be better
5103	I do not support the proposed change	There is no reason for the change, it is an attack on dog owners
5330	I support the proposed change	Once we have saved the trees can it be changed back?
5522	I do not support the proposed change	Dogs under control have great owners, owners that have trust with their dog will only take them off leash. Stop taking places away from us, we already have a lack of options
5642	I support the proposed change	I fully support the protection of the kauri forest and believe the amended policy is justified, as it aligns with these important conservation goals.
5661	I do not support the proposed change	Responsible dog owners should be able to walk their dogs here. Stop limiting the good owners and restricting them. It is not fair on them or the dogs.

Sub #	Q4 RD-A Parry Kauri Park	Q4 RD-A Comment
5867	I do not support the proposed change	Responsible dog owners should have the right to exercise their dog/s as per they current bylaws.
5918	I do not support the proposed change	No need to change
5946	I do not support the proposed change	Target irresponsible owners when you start focusing on the problem and fixing it from the ground up all this will change for the better. Stop penalising responsible owners!
6441	I do not support the proposed change	This is good park f0r dogs off leash. Zero need for any change.
6447	I do not support the proposed change	Expand areas and times that dog owners can access with their companions
6478	I do not support the proposed change	There are very few places already where we can take our dogs; parks and waterways provide enrichment and socialization opportunities. Council should aim to increase the areas where dogs are allowed, instead of reducing them. Council is missing on the economic opportunity dogs can be.
6940	I support the proposed change	Of more importance, this protects children and other vulnerable people

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
RODNEY LOCAL BOARD			
569	I do not support the proposed change	Other (please explain below)	There are large green areas that the dogs enjoy off leash. Not near the birds. They need off leash areas
813	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	Why not allow dogs at all? What is the risk? They should be ok on a leash.
908	I do not support the proposed change	No change to current Policy (dog access) rules	Cats are a far greater risk to the birds than dogs. I have been walking most mornings & many evenings from Whisper Cove along the esplanade & have never seen a problem dog. A dog on a leash can not harm the birds unless the owner deliberately walks among them. To be fair the Council have allowed the "Boat shed houses" to be built on their nesting ground so should be removed not the dogs. It appears that dog walkers are one of the greatest users of the full esplanade & beach.
980	I do not support the proposed change	No change to current Policy (dog access) rules	These rules are already to restrictive. As I have stated why cant we Police and prosecute the irresponsible owners rather than deprive everyone from the joy of walking a dog on the beach,
1178	I don't know		Maybe making a fun off leash fenced park for dogs down their will keep everyone happy
1247	I do not support the proposed change	No change to current Policy (dog access) rules	I believe that with dogs on a leash and controlled that dog owners should have same right sto enjoy the out doors Humans create more damage
1252	I support the proposed change		I support this, however, if you don't have enough staff to manage this site, its pointless. I have never seen dog control officers in the region at all. You can make or the promises and changes but dogs can't read
1280	I don't know		Happy to keep one area (northern) restricted, but keep rest/southern area dog friendly. Southern area from boat ramp could easily be offleash
1448	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	Banning dog year round off the northern end of the beach is overly restrictive as there are fewer roosting birds during the winter and it is outside the dotterel breeding season. There is no reason that people should not be able to walk their dogs on a leash from Snells Beach to Brick Bay in the winter months as has happened the last few years. It's hard to understand what justification and credible evidence there is for the proposed ban. it is not sustainable to allow continued development at Snells Beach with an accompanying increased population and then try and turn the foreshore into a bird sanctuary. It makes more sense to police the current already quite restrictive rules and put more emphasis on protecting foreshores in other hotspot bird habitats where there is less pressure from population.

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
1487	I do not support the proposed change	No change to current Policy (dog access) rules	We have travelled the whole of NZ and visited many many dotterel safe nesting areas which we are thankful they exist. Snells Beach already has restrictions around the Dotteral population and overall the residents appear to obey the rules. Now the council want to reclaim more land for nesting areas. Why oh why do people and their lives mean less and less. There are many many aging residents who want to enjoy their twilight years at Snells beach. Stop penalising the many law abiding because of a handful who don't.
1507	I support the proposed change		Sounds like a good plan
1573	I do not support the proposed change	Other (please explain below)	We need to be able to access Brick Bay on foot and the current rules prevent it
1646	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	You allow housing development which couldnt have helped>>>I have never known a dog catch a bird. So on leash there should be no issues.
1697	I do not support the proposed change	No change to current Policy (dog access) rules	We already are kept away from the birds. People obey this. Maybe do something about the cats instead !
1722	I do not support the proposed change	No change to current Policy (dog access) rules	There is not any issue at Snells beach with the dogs exercising on the beach. They do not cause any harm. The beach is large enough for everyone to enjoy it. Cats would be the main issue for the birds, not dogs. Dogs and people have been using this beach long before the birds became an issue, is it really an issue? If the birds didn't like the people or dogs in the area they would no nest there. There are more dogs that need the room to exercise than there are places to take them, this is a bigger issue than the birds, if dogs are limited where they can be exercised this will lead to more aggressive dogs, more dogs getting out of properties and dogs with worse behaviours.
1842	I do not support the proposed change	No change to current Policy (dog access) rules	Dogs are not an issue with these birds it's cats and people that are the issue. You can't seem to control or solve the cat issue so the dogs are the ones who get restricted. I agree the birds need some help in order to thrive more but the progress has been pretty ***** good as it stands now. It's the people who are being spokesman for these birds who are escalating issues that aren't there. Next you'll be restricting us as locals from going on the beaches. Where exactly does the line get drawn?? How about deal with what the actual issues are instead of trying to make restrictions to dogs when they are clearly not the issue
1883	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	Bird breeding season is sufficient and reasonable

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
1888	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	I understand the need to keep everyone, dogs and humans, safe in public areas so why doesn't the council create more secure off-leash areas for dogs? There are plenty of spaces around Auckland that could be fenced off allowing a safe area to exercise our dogs. This is especially important now that the council is allowing housing to be very dense with no decent sized yard space at peoples homes. Surely it doesn't cost a lot to build a simple, secure fenced area with a bin for dog waste.
1921	I do not support the proposed change	No change to current Policy (dog access) rules	It is already very restrictive where you can walk dogs
2294	I do not support the proposed change	Other (please explain below)	Dogs and owners need areas on the beach to exercise them off leash. If the birds are nesting in some areas, the dogs need to be controlled but prohibiting access at all times makes no sense. Dog owners know who is promoting this ridiculous change and it only causes more conflict and may be harm if this change goes through.
2417	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	I support protecting the birds and happy for that to be dog free however I don't want to see a change to current policy re dogs being off leash during specific times. By making it on leash is not enjoyable for the dogs or owners.
2421	I support the proposed change		Would like to protect birds especially on the beach. Plenty of free dog walking south of the boat ramp so putting rules north of the ramp is fair. Also don't want dog poo on the reserves and people are far likelier to clean up if their dog is on a leash.
2445	I do not support the proposed change	No change to current Policy (dog access) rules	As at Omaha bird sanctuary, dogs are not the problem, it's cats!! I do not support this as feel dogs under control should be allowed there
2575	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	I feel this is fair for all parties involved, from my point of view this seems to be working well, why make such a dramatic change, there is so much frustration at the moment with the proposition of taking some of the walkway away, please consider the timing. Also the northern part of Snells Beach tends to be where people walk their smaller dogs away from the bigger dogs and crowded parts of Snells Beach. My dog has anxiety and very reactive, I walk him along round the Northern part because there isn't as many dogs.
2600	I do not support the proposed change	No change to current Policy (dog access) rules	If there are currently problems with off-leash dogs, then prosecute the offending owners. Too often the law-abiding owners are the ones who are always affected by these rule changes, all because some owners choose to ignore the rules. I have found from experience that when I have pointed out to offending owners that they have strayed (time/location) into a forbidden area they are happy to comply and immediately put their dog into a leash or move off the beach.

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
2609	I support the proposed change		This is fine as long as dogs can continue to walk along the path and grass area. This area is clearly important for nesting birds so the rules make sense.
2614	I do not support the proposed change	Other (please explain below)	1. Dog owners understand that the birds need protection, and keeping dogs on a leash in that area would be sufficient except for NESTING season. (not right thru till 31st March-the young dotterels are already flying and its still January now) Because the 'Beach Rule' includes the intertidal areas, you have currently banned dog owners from walking their pets across the low tide area (a very long way from the nesting area) and around to the Brick Bay and Sandspit beaches in summer when the weather is perfect for this. To ban them all year round is ridiculous! No dogs on the beach during nesting for 2 hours each side of High Tide would be a reasonable compromise. Yes, the birds feed out at the water line, but they have plenty of space to move away if they are uncomfortable in the presence of a person and a dog on a lead.
2638	I support the proposed change		Auckland is extraordinarily lucky to have such a wide range of unusual and rare shorebirds in this area they need protection all year around. There needs to be sustainable dog rules to suit both changing costal environments but also changing and improving NZ wildlife needs. At Snells the shorebirds have lost a massive area of roosting in the northern part of the beach and need more protection . See previous attached showing loss of roosting area.
2668	I do not support the proposed change	No change to current Policy (dog access) rules	I understand the bird breeding aspect and that they are protected. However it is only at certain times and owners can walk around them and avoid those interactions. To still be able to use most of the beach without disturbing the wildlife.
2716	I support the proposed change		As previously mentioned dogs on leash on the path are not a problem. If council is serious about protecting the birds a trapping regime for cats ,rats ,mustelids and hedgehogs should be started.
2736	I support the proposed change		There are many other close by options for walking dogs off leash (e.g. Goodall Reserve, Martins Bay, Algies Bay etc) so this is an option that takes all animals into account.
2789	I support the proposed change		It is a start but it won't work if you don't police it. Much better to prohibit dogs from the beach altogether for all the summer.
2842	I do not support the proposed change	Other (please explain below)	There should be a. third option that dogs are allowed all year round on a leash Snells Beach north of Sunburst Reserve. The birds are adaptable to people, noise etc but they shouldn't be chased by dogs. The biggest problem are the cats that attack the nests at night.
2937	I do not support the proposed change	No change to current Policy (dog access) rules	The whole bird controversy is just local activists creating a storm in a teacup.

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
2950	I do not support the proposed change	No change to current Policy (dog access) rules	The current plan works for Snells Beach, just because so called "bird protectors" would like it amended. Do they actually walk on the beach at Snells Beach. I believe the current policy works for Snells Beach as the birds are not there all year round.
3242	I do not support the proposed change	No change to current Policy (dog access) rules	This is a ridiculous proposal which will shut off a third of the beach to dogs all year round. My dog is simply not interested in the stupid birds. Once again this is a policy that has been developed and hijacked by a few bird nutters within and outside council. They have nothing better to do with their time then pick on dogs and their owners. There is overwhelming support for the status quo from all of the people that I chat with on the beach there. There are a number of other beaches in the area where the dotterels breed quite happily and sucessfully and have none of the stupid rules that council and the bird nutters are proposing here!! It's time the "NO Culture" pushed by nutters and small minority groups was set aside
3343	I do not support the proposed change	Other (please explain below)	I don't believe any further prohibitions should be put in place.
3526	I do not support the proposed change	No change to current Policy (dog access) rules	Already limited rules Higher fines for those who don't comply
3602	I do not support the proposed change	No change to current Policy (dog access) rules	Plenty of local families including myself take their dogs for swims at Snells Beach, it's the perfect spot because it's not too deep and nice for a dog to paddle in. If they have to be on leash at all times then they can't swim properly.
3642	I support the proposed change		Because many people don't seem to worry about their dog as he is having a great time running on the beach and possibly chasing birds There is no signage near any of the playground stating no dogs. So dogs are always in the p[playgrounds or nearby.

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
3728	I do not support the proposed change		I feel that the current policy regarding dog access north of Sunburst provides sufficient protection for the shorebirds. I walk my dog almost daily on Snells Beach and never have I seen a dog running amok near the birds. Dogs are not the biggest threat to the shorebirds - it could well be argued that the weather / climate change is. The relatively small but vocal group of residents who are anti dog do not reflect the views of the wider community. If the Council was serious about protecting the shorebirds, then it should never have allowed the development at Boathouse Bay. If the Council wishes to do anything, then I would support there being focus on the actions under 3 Implementing the Policy and Bylaw. Thank you.
3810	I do not support the proposed change	No change to current Policy (dog access) rules	I am completely opposed to any change in access to this area. Currently the breeding area is well protected and all responsible dog owners respect the region. This is public land and must remain so, not for the benefit of a few local households to privatise our public beach under the guise of environmentalism!!!!
3850			The foreshore and beach north of Sunburst needs to be accessible to enable walking to Brick Bay.
3883	I do not support the proposed change	Other (please explain below)	Under control off leash anytime!!!
3916	I do not support the proposed change	No change to current Policy (dog access) rules	The birds are only on the beach during the season so why stop dog owners and dogs from walking around the coastline all year round. Do something about the cats and owners who actually kill the birds.
3928	I do not support the proposed change	No change to current Policy (dog access) rules	I am happy to protect the birds whilst they are here but that is only seasonal. Why should there be an all year round ban? This will make it impossible to walk from Sandspit to Snells beach, even in winter. When are you going to do something about the cats that kill the birds? There is photographic evidence of this
3929	I do not support the proposed change	No change to current Policy (dog access) rules	I do not see why it is necessary to change this to an all year ban on dogs on the beach when the birds are seasonal. This will mean that it is not possible to walk from Snells Beach to Sandspit at any time of the year. It has also been proven, with photographic evidence, that it is cats that kill the birds but nothing is ever done to control them. Dog owners seem to be an easy target.

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
4004	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	During the 5 years I have lived at the northern end of Snells Beach, I have helped Snells Conservation when requested to check dotterel nests during storms (think Cyclone Gabrielle), extreme high tides and assist with cat monitors. This breeding season we had 5 dotterel chicks fledge from 2 different sets of parents, which is a fantastic achievement not only due to the Snells Conservation Group but also the general public here who are passionate about our birdlife. In the years that I've been here to the best of my knowledge not one nest has been disturbed or predated by dogs - they have all been destroyed by cats (camera footage backs up this fact). It breaks my heart to walk up the drive and see a cat coming out of the covenanted bush. Yes, the owner has been approached, and he doesn't care. Somehow, as a community (both central and local) we need to address the lack of rules surrounding cats. You see them up here stalking the tui on the walkways and under the Pohutukawa. I am fully in support of a ban on dogs during the bird breeding season and have been happy to comply. Thank you for your consideration. I am in favour of dogs being on-leash year-round north of Sunburst Boat ramp but only if there is access to the actual beach for the 5 months of the winter season. In other words, maintain the status quo. Dogs on-lead north of Sunburst Boat ramp during the winter months.
4053	I support the proposed change		Protects wildlife, bird nesting sites and children from dogs.

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
4124	I do not support the proposed change	Other (please explain below)	Great idea to remove the path as I even see humans that are just as disruptive and being too inquisitive around the dottrells, however I have a dog. A small to medium dog and we really enjoy at low tide a walk off leash around to Brick Bay and up the bush track to the top of Sandpit. I want to know that I can still do that. If you set off at low tide from the boat ramp towards Brick Bay you can be 100's of meters off the beach. The reason you take a dog to a beach is so you can let them run. I am sensitive to the bird life and would never take my dog around the breeding areas. Why does it have to be all year? It feels really dogist. I would rather that we can share spaces respectfully. It's important to be out in nature for mental health and connect with it before it is gone! Staying on paths and on leash is so timid and boring and not really connecting with nature. Let the birds have their end but lets also share the beach for all to enjoy. The Southern end of Snells is all built up, with lots of families enjoying the larger playground there. I would be devastated if I could no longer let my dog off the leash at all at any time of the year on the Northern end of Snells Beach. Ripping out the path and restricting dogs at low tide north of the boat ramp is just going too far in my opinion. I am a member of Forest and Bird but i love my dog too.
4537	I support the proposed change		I run Pest Free Snells and for the last 5 years we have worked hard to reduce the risk for our shorebirds especially in the area from the Sunburst ramp to the Boat House end of the beach. Many people are keen to support protecting our birds and are compliant to existing rules but there is a need to increase the protection and while dogs and irresponsible owners are not the only 'offenders' they do cause a major problem of disturbance especially to roosting and nesting birds. It is also the case that the changing of rules and the contradiction of times in signs creates a lot of problems. One set of rules that run all year make it easier to give the message of what is allowed - where and when. If these rules are change can we have a period of checking the area by animal management until everyone is clear what they can and cannot do.
4631	I support the proposed change		This is an important shore bird roosting area, under threat from the number of dogs which use this part of the beach. Snells Beach is blessed by having these birds. It is one of the few places where the endangered New Zealand dotterel nests. Simplifies the rules whilst protecting these birds.
4639	I do not support the proposed change	Other (please explain below)	Leave it as it is. If council had listened before consent to building of whisper cove there was far more bad consequences for birds by building the development. This change won't benefit birds but will hinder people having access with dogs in that area

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
4821	I do not support the proposed change	No change to current Policy (dog access) rules	If dogs are under control there is no problem.
4832	I do not support the proposed change	No change to current Policy (dog access) rules	The proposed changes are not suited to Snells's beach. No changes are required
4858	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	Dogs should be allowed on leash from the beach North of the boat ramp in the winter (out of bird breeding months) as there are a lot less birds on the beach- with the majority of migratory birds already gone for the winter. As this change to the rule would include the intertidal zone it covers a very large area when the tide is out and prevents dog walkers from accessing the the Northern coast toward Brick Bay/Sandspit from Snells Beach at low tide.
4899	I do not support the proposed change		Limiting
4938	I support the proposed change		Unfortunately it will be ignored but it would help the wildlife and poor dog behaviour.
4950	I do not support the proposed change	Other (please explain below)	Dogs should be allowed to be walked on all beaches, at all times provided they are on leash and controlled.
4966	I support the proposed change		I support simplifying the rules to better protect the bird life at Snells Beach.
4971	I support the proposed change		I support simplifying the rules to better protect the birdlife at Snells Beach.
5165	I support the proposed change		More protection for nesting, resting, foraging and gathering birds
5345	I do not support the proposed change	No change to current Policy (dog access) rules	no need for change and dogs should not be banned from north of the boat ramp because birds don't breed all year round
5429	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	Well , while the fancy housing development with domestic cats are allowed (eye roll) a dog owner with a controlled dog are made out to be villains as per usual!!!
5496	I support the proposed change		These birds and wildlife must be protected. I have never seen a dog off leash and under control. Most dog owners cannot control their dogs. On the beach the dogs just take off, ***** everywhere and the owner is trailing behind completely oblivious. These birds stand no chance with dogs around. Dog owners in general are not aware of how much they are disturbing others let alone the helpless birds.
5587	I support the proposed change		When using the park and beach with my grandchildren I do not want to be approached by any dogs that are not on a lead and may not be under the direct control of the owner. This lessens the risk of my grandchildren or myself being harassed or bitten by a dog.
5737	I do not support the proposed change	No change to current Policy (dog access) rules	The current rules are sufficient.

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
6197	I support the proposed change		I strongly support the protection for the shorebirds.
6335	I do not support the proposed change	No change to current Policy (dog access) rules	Have issues been identified? Or is this a 'prevention'? Please only look to address issues.
6416	I do not support the proposed change	No change to current Policy (dog access) rules	There are other offenders. Cats that are belonging to the owners of the ever increasing amount of homes being built. Construction work encroaching on the beach affecting the bird life. I am a responsible dog owner and abide by the rules unfortunately you are never going to stop the minority that spoil it for the rest of us.
6496	I support the proposed change		I believe that the existing dog rules would likely be sufficient if they were properly enforced. Many of the issues that have prompted this review—such as dogs being off-leash in restricted areas, conflicts between dog owners and other beach users, and concerns about wildlife protection—seem to stem from a lack of compliance rather than a deficiency in the current regulations. If the changes were not to be passed, then the focus would need to be on: - Improved Enforcement: Increased monitoring and clear consequences for non-compliance would ensure existing rules are adhered to. - Education and Awareness: Many dog owners may be unaware (deliberately or otherwise) of the current regulations. More signage, community engagement, and education campaigns could help. - Practical Solutions: Providing designated off-leash areas and clear guidelines could encourage responsible dog ownership while still allowing fair access to beaches. The Rodney beaches are a valued resource for all, and I urge the Council (under any scenario adopted) to prioritise better enforcement.
6578	I do not support the proposed change	No change to current Policy (dog access) rules	Rules are being set by unfriendly dog people a small minority is the problem and your rules effect everyone
6682	I support the proposed change		The proposed change ensures the area remains accessible for dogs and dog owners whilst better protecting native species.

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
6829	I do not support the proposed change	No change to current Policy (dog access) rules	It is important that the birds have space but there are enough rules currently and most people with dogs are respectful There are a few local ladies who are passionate and often offensive when protecting the birds When the tide is out there is a kilometre or so distance between the shore and the waters edge. There is more than enough space for dogs to be allowed off lead and birds to be left alone Snells beach is a treasured space for dogs and community to use and enjoy We are responsible owners Absolutely no way should the space be banned from dogs, dog walking or even dogs on lead Cats rats ferrets are equally a problem in our area NO CHANGE Unless reducing limits
6974	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on SNELLS BEACH DOGS ARE ALLOWED UNDER CONTROL ON A LEASH on the beach north of Sunburst Reserve boat ramp outside of nesting season. Reason: Our proposed change is what has been in place for 5 years under a temporary rule to protect shorebirds during nesting season.
6997	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2). OUTSIDE RODNEY LOCAL BOARD			

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
177	I do not support the proposed change	Other (please explain below)	Off leash areas are required to enabled dog owners to walk while their dogs explore (within recall) and this also enabled better dog socialisation. Requiring dog owners to walk separately than their dogs impacts economic productivity (when a second walk is required) or wellbeing of residents (when a second walk for owners cannot be accommodated). Time based restrictions enable all users of an area to be accommodated.
214	I do not support the proposed change	No change to current Policy (dog access) rules	I have seen or heard of damage to nests or birds caused by dogs. It seems to be hypothetical and the rules being applied for a hypothetical reason. What you are proposing allows people to go picnic, play ball games, play music causing noise and disturbance. Yet punishes responsible dog owners who want to quietly walk their dogs.
304	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	Common Sense
389	I do not support the proposed change	Other (please explain below)	Prohibition during breeding season - rest of the time under control OFF leash
508	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	Want to protect our wildlife not just birds but our marine wildlife like seals and too many dog owners i have seen don't respect or care for our wildlife and it makes me not happy
523	I do not support the proposed change	Other (please explain below)	Dogs should be allowed on all publics areas under control at all times unless there is a non kauri die back conservation need
557	I do not support the proposed change	Other (please explain below)	Fully support prohibition of dogs in thw northern area, but also changing rhw rules for adjacent reserves goes too far and does not balance right of use and enjoyment for dog owners and walkers with the actual risk.
689	I support the proposed change		It seems like a sensible compromise
728	I support the proposed change		It's safer for the kids to use the park, especially when there's no confined areas for kids/dogs where they can't be isolated from each other.

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
783	I support the proposed change		Breeding and roosting endangered bird species I hope you're doing well. Please find attached a letter from STET Limited in support of the proposed shorebird roost at Snells Beach. Snells Beach is an important feeding and roosting area for shorebirds, including the bar-tailed godwit and South Island pied oystercatcher, both classified as At Risk – Declining and more endangered than our local kiwi. As development and human disturbance increase, these birds are losing safe spaces to rest. Unlike people and dogs, which can use most of New Zealand's land, these species rely entirely on the intertidal zone. The proposed roost would cover just 3.5% of Snells Beach, leaving 96.5% open for recreation, yet opposition—mainly from dog owners—threatens to block this essential protection. As Dr Tim Lovegrove noted, “The carrying capacity of intertidal areas for shorebirds is linked to the proximity of good high tide roosts. If roosts are degraded or lost, the numbers of shorebirds using the adjacent intertidal feeding areas may decline.” We urge you to support this conservation initiative and help ensure these birds have a future.
926	I support the proposed change		Supports other bird life
947	I do not support the proposed change	No change to current Policy (dog access) rules	I believe the present rules are strict enough
1358	I do not support the proposed change	Other (please explain below)	Dogs should be allowed on leash in all park areas. Provision for off leash play should be made in all parks.
1379	I do not support the proposed change	Other (please explain below)	I support bird protection but the rest of the season could go back to off lead.
1512	I do not support the proposed change	No change to current Policy (dog access) rules	This is ridiculous! It is hard enough to find places to walk our dog off leash, the problem is the owner NOT the dog! Maybe invest in targeting owners NOT DESEXING dogs which causes aggression in dogs in the first place and dare I say it but if a dog is aggressive in the first place why walk it off leash? My community page on Facebook is full of uneducated dog owners who cannot look after their multiple children let alone a dog!!!!
1748	I do not support the proposed change	Other (please explain below)	when you prevent cats from running around on snells beach 'off lead' then it would be appropriate to do the same with dogs.

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
1833	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	I think keeping dogs off the beach in breeding season is the most logical solution. Especially when other beaches (my local bethells for example) have managed to have sussessul shore bird hatches even in on leash areas.
1854	I don't know		Same for all areas - we should have a section for owners and dogs to be off leash during summer.
2084	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	Complicated ruling - no-one visiting will know where Sunburst boat ramp and whisper cove. Keep it simple!
2086	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	Never had issues before, punishing everyone for a small handful of irresponsible owners isn't fair. The less our dogs are out in society the more harmful to their behavior moving forward
2107	I do not support the proposed change	No change to current Policy (dog access) rules	Well trained dogs are no risk to the birds, we don't go near them, we focus on playing ball and socialising with friends and never disturb the birds. It's horrible to remove access for us when we have never caused any issue. These blanket rule proposals are so horrible and unnecessary.
2139	I do not support the proposed change	No change to current Policy (dog access) rules	Dogs are family members it is already difficult to find activities you can do with your dog. Banning them from beaches and parks will be a step back as a society. In fact more and more people is opting for not having kids and having dogs instead. This will new proposed policy will definitively have a huge negative impact on the wellbeing of NZ dog owners. We should promote healthier, active lifestyle. What other alternatives we have as dog owners is the equivalent of banning kids in parks. that does not make sense.
2183	I do not support the proposed change	No change to current Policy (dog access) rules	We share this land - with all living things. We cannot prohibit access because it might cause issue with a few biased individuals. This doesn't solve an issue it creates disconnect and segregation between demographics. Focus on educating dog owners as well as non- dog owners and simplifying regulations. If people get used to dogs everywhere, the less of an issue it will become. Dogs bring joy to peoples' lives. Stop trying to take away their rights to play. That's all they ask...we have people that treat them horrifically, people who hit them, beat them and try to kill them and yet they stay loyal to their owners and only ever ask for love and a good walk in return. Just let them be part of the community.
2184	I do not support the proposed change	No change to current Policy (dog access) rules	Keep current
2185	I do not support the proposed change	No change to current Policy (dog access) rules	Please provide as many opportunities as possible for on-lead walking.

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
2245	I do not support the proposed change	No change to current Policy (dog access) rules	Beloved area by whanau and dog owners stop trying to change it
2308	I do not support the proposed change	Other (please explain below)	You have removed the provision for dogs to be off leash at all during any season. There is a huge population of dogs and dog owners in the area who will lose the ability to exercise their dogs adequately. Dogs need space to be off leash to fully exercise and reduce behaviours associated with under exercised dogs.
2343	I do not support the proposed change	No change to current Policy (dog access) rules	Responsible dog owners are already highly restricted on area and times if access. Increasing those limitations is unfair and discriminating. The majority should not be penalized for the minority who are not responsible dog owners.
2483	I support the proposed change		Seems reasonable
2488	I do not support the proposed change	No change to current Policy (dog access) rules	It's already to minum the parks and areas that you currently can walk with your dog, and to keep a healthy and balanced dog at least the dog need to be walked once a day.
2511	I support the proposed change		Seems fair and logical
2544	I do not support the proposed change	No change to current Policy (dog access) rules	Keep it the same
2692	I do not support the proposed change	Other (please explain below)	No limits for responsible owners. Consider leashed areas to protect birds
2713	I do not support the proposed change	No change to current Policy (dog access) rules	We should be allowed to have access to these places as well
2837	I do not support the proposed change	No change to current Policy (dog access) rules	The mass urbanisation of the area has caused far more harm to wildlife than dog access has.
2871	I do not support the proposed change	No change to current Policy (dog access) rules	Fair
3033	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	Auckland has extremely limited decent off leash areas for dogs. Limiting this won't stop the irresponsible owners, it just punishes the good ones.
3194	I do not support the proposed change	No change to current Policy (dog access) rules	submission to reject snells beach anti dog law I Mason Robert Hart and my partner Poppy-May Odette Fill want Dogs to have access to the beach off lead. The community uses this location as a meet up and walking spot for dogs on an off leash by enforcing these new laws you are destroying our community and local socialisation. Do not take away a valued dog walking spot for young and old! Dog need a space to run and meet other dogs and socialise! This was the main reason we moved to snells beach! Don't destroy our community!!!

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
3208	I do not support the proposed change	No change to current Policy (dog access) rules	Please take into consideration: I am against the proposal to ban dogs from the northern end of Snells Beach Auckland ALL YEAR ROUND. Snells Beach is used by many including wildlife and members of the community for all recreational activities. Not being able to walk dogs along the beach at its full compasity would be a great loss and also stop those wanting to walk from Snells Beach to Brick Bay Beach at low tide. Most dog owners are well aware of the bird life on the beach and respectfully walk their dogs with them in mind. Dogs are so heavily restricted in Auckland please do not restrict them further. To protect the wildlife in this area it would be more beneficial to restrict cats. I propose banning cats in this area with the exception of indoor-only cats.
3297	I support the proposed change		Sorry incorrectly ticked this box
3303	I support the proposed change		It is important to protect threatened shorebird nesting areas. It's nice to have a dog on leash option at the other end of the beach to keep both birds, bird lovers and dog owners happy
3790	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	Over complicated and limiting exercise because of the bad behaviour of the minority.
4005	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	See my comments for Manly beach the same applies here - the birds need somewhere to breed and feed. They don't do this successfully when there are any dogs around and they need the whole length of beach, not just part
4054	I do not support the proposed change	No change to current Policy (dog access) rules	Snells beach is well used by local dog users, predation of dotterel and other sea birds nesting by dogs is unsubstantiated. Stoats, rats, hrdgehogs, blackback gulls all predated sea birds chicks and eggs. Dont penalize your community of dog walkers by limiting access. This group of local community is by far the largest user group averaged across a calender year, many who pay rates and chose to live here as the HBC for the lifestyle, which includes dog access to our beaches.
4158	I do not support the proposed change	No change to current Policy (dog access) rules	There are many retired people and you want to stop them being mobile / making it harder for them to integrate in their community?!

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
4225	I don't know		I frequent Snells Beach and the current rules seem ok, and I abide by them. However, I note the infill housing and infill humans seem to have more of an impact on the bird life at Snells Beach than the dogs. In fact, I have witnessed fenced off areas etc during bird breeding season. The dogs are not the issue (and I am not saying some dog owners are not responsible), but the issue mostly is families with screaming children, who want to take a look beyond the bird breeding areas and allow their children to disturb the birds. Horrifies me. Human beings strike again.
4227	I do not support the proposed change	Other (please explain below)	See attachment with full submission in the following file - https://hdp-au-prod-app-ak-haveyoursay-files.s3.ap-southeast-2.amazonaws.com/2317/4978/2529/Local_dog_access_rules_2025_Rodney_feedback_For_Upload.pdf
4241	I do not support the proposed change	Other (please explain below)	Hi, a quick note in regards to AC proposed changes to dog walking. 1.As a local, I would prefer access for dog walkers remain at the north end of Snells Beach and round to Brick Bay. I understand the protection of nesting birds is important, and happy for restrictions to be in place for dogs to be on leash during nesting periods.
4281	I do not support the proposed change	Other (please explain below)	On leash dogs who are under control pose little to no risk to wildlife and the environment.
4435	I support the proposed change		Northern New Zealand dotterels are classified as at risk by the Department of Conservation and are legally protected under the Wildlife Act,
4489	I do not support the proposed change	No change to current Policy (dog access) rules	I want less restrictions not more.
4590	I don't know		Cats are more of a threat than dogs
4592	I do not support the proposed change	No change to current Policy (dog access) rules	The proposed changes are adding unnecessary restrictions
4660	I support the proposed change		I strongly support further restriction of dogs at Snells Beach.
4786	I support the proposed change		Keeps the beaches clean and safe for children playing at the beach
4879	I support the proposed change		Personal safety
4921	I do not support the proposed change	Other (please explain below)	Dogs must be on a leash at all times. For wildlife safety and that of people. Not everyone likes dogs. I have seen too many dogs trying to be friendly, but sadly it is taken the wrong way
5103	I do not support the proposed change	No change to current Policy (dog access) rules	There is no reason for the change, it is an attack on dog owners

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
5235	I support the proposed change		Gives people back their freedom to walk the beach in safety
5273	I do not support the proposed change	No change to current Policy (dog access) rules	I think the current rules in place are acceptable
5310	I don't know		I cannot leave this section of the survey until I fill in a comment. I clicked in to the survey to give feedback, found my local area are not covered - but everytime I leave the page to do a different part of the survey, it brings me back here. Please ignore this survey
5385	I support the proposed change		Allowing specific times keeps the beaches cleaner for people to enjoy the beach
5391	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	Hopefully there will be an area suggested for off leash activities for dogs as there was at Whisper Cove.
5522	I do not support the proposed change	Other (please explain below)	Dogs under control have great owners, owners that have trust with their dog will only take them off leash. Stop taking places away from us, we already have a lack of options
5545	I do not support the proposed change	Other (please explain below)	I oppose the current temporary dog ban, as well as the proposed year-round dog ban, that seeks to restrict the freedoms of dog owners, particularly on the beach and in the reserves along Snells Beach. The ratepayers of Snells Beach contribute substantial funds to maintain these public spaces, and it is only reasonable that these reserves and beaches be available for enjoyment by all members of the community, including those with dogs. I could support a lesser area of the beach and reserves from Kokihi Lane to the Northern end of the beach but the area you have decided upon restricts too much of our beach and reserves.
5642	I support the proposed change		I fully support the protection of native wildlife and believe the amended policy is justified, as it aligns with these important conservation goals.
5661	I do not support the proposed change	No change to current Policy (dog access) rules	Responsible dog owners should be able to walk their dogs here. Stop limiting the good owners and restricting them. It is not fair on them or the dogs.
5867	I do not support the proposed change	No change to current Policy (dog access) rules	Responsible dog owners should have the right to exercise their dog/s as per their current bylaws.
5946	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	Target irresponsible owners when you start focusing on the problem and fixing it from the ground up all this will change for the better. Stop penalising responsible owners!
6441	I do not support the proposed change	No change to current Policy (dog access) rules	Why make it more complicated and restrictive? There is zero reason or benefit to anyone for these changes. Maybe enforcing the existing rules might be a good start

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
6444	I do not support the proposed change	No change to current Policy (dog access) rules	Lack of Supporting Evidence The justification for these restrictions lacks factual support. Misplaced Focus on Irresponsible Ownership The proposed changes appear to target issues related to irresponsible dog ownership. Impact on Community Connection Recreational spaces play a vital role in fostering social connections. This is particularly important for those without children or who live alone, as it may be one of their primary social outlets.
6447	I do not support the proposed change	Other (please explain below)	Expand areas and times that dog owners can access with their companions
6478	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	There are very few places already where we can take our dogs; parks and waterways provide enrichment and socialization opportunities. Council should aim to increase the areas where dogs are allowed, instead of reducing them. Council is missing on the economic opportunity dogs can be.
6752	I do not support the proposed change	Other (please explain below)	As dotterels and other coastal breeding birds do not always nest in the same part of the beach or the adjoining reserve open areas, this option does not sufficiently reduce risk to the breeding birds. It does not prevent people from getting too close to nests causing the birds to be flushed off and leaving eggs vulnerable to predation and the elements. It also does not prevent people walking their dogs directly up to a nest. The alternative option we support is: - A total ban of dogs on all of Snells beach during Bird Breeding season, as this is one of the larger Dotterel breeding areas in Auckland. During bird nesting season 1st September – 31st March: for the adjoining reserves - Dogs must be under control on a lead at all times. If and only if a breeding nest is clearly identified on an adjoining reserve. Dogs are prohibited from entering the 50m cordoned off zone around the nest itself.

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
6902	I support the proposed change		See attachment Summary of attachment: Support for Restriction: The association supports restricting year-round dog access to the northern end of Snells Beach to protect shorebirds. Off-Leash Areas: They propose maintaining off-leash areas on the main beach during morning and evening hours, with on-leash walking allowed on adjacent reserves, paths, and playgrounds. Compromise Position: They suggest considering on-leash access between Snells Beach and Brick Bay during low tides. Improved Facilities: Recommendations include providing dog agility courses and waste bins in Goodall Reserve. Community Impact: Highlighting the significant dog population in Snells Beach and the importance of dog walking for recreation, especially for the older population. Broader Issues: They urge Auckland Council to address other threats to shorebirds, such as cats and pests, and to promote the shorebird sanctuary as a tourist attraction
6924	I support the proposed change		See attached Summary of attachment: Support for Proposed Restrictions: Northern Beach Access: They support restricting dog access to the northern end of Snells Beach to protect endangered shorebirds. Continued Dog Access: Off-Leash Areas: They emphasize the importance of maintaining off-leash dog exercise areas on the rest of the beach, with summer restrictions. On-Leash Areas: They request that on-leash dog access be maintained on foreshore reserves, paths, and playgrounds, especially from Sunburst to Whisper Cove and Boatshed Bay. Facility Improvements: Dog Waste Bins: They request additional dog waste bins in the off-leash area of Goodall Reserve, near the helicopter pad/fire station

Sub #	Q4 RD-B-1 Snells Beach	Q4 RD-B-2	Q4 RD-B Comment
6929	I do not support the proposed change	Other (please explain below)	I oppose the current temporary dog ban and proposed year-round dog ban, restricting the freedoms of dog owners on the northern end of the beach, walkway and reserves. I could support a smaller area of the northern end of the beach from Kokihi Lane where dogs would not be on the beach from there north. It won't be long before bird advocates take over the whole beach. Ratepayers pay substantial funds to maintain our reserves and they should be used. Most of the time no one is using them, and birds are nowhere to be seen.
6971	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2).	I WISH TO SEE THE FOLLOWING CHANGE: I strongly request that on SNELLS BEACH DOGS ARE ALLOWED UNDER CONTROL ON A LEASH on the beach north of Sunburst Reserve boat ramp outside of nesting season. Reason: Our proposed change is what has been in place for 5 years under a temporary rule to protect shorebirds during nesting season.
6972	I do not support the proposed change	Apply a bird breeding season rule (Schedule 2). RODNEY LOCAL BOARD		
980	I support the proposed change	Makes sense
1247	I do not support the proposed change	I believe that with dogs on a leash and controlled that dog owners should have same right to enjoy the outdoors Humans create more damage
1280	I do not support the proposed change	we need off leash areas kept. Aside from bird nesting restricted areas
1842	I do not support the proposed change	I feel so sorry for dogs reading all these restrictions which is being proposed for them. What a sad time to be a dog. It's almost cruel
3526	I do not support the proposed change	Lease as is Higher fines for those who don't comply
4639	I do not support the proposed change	Works fine as it is
4821	I do not support the proposed change	If dogs are under control there is no problem.
4899	I do not support the proposed change	That's no good, dogs will recall are fine
4950	I do not support the proposed change	Dogs should be allowed to be walked on all beaches, at all times provided they are on leash and controlled.
5101	I do not support the proposed change	Dogs should be allowed on the beach off leash - except for bird breeding areas (seasonally) - we are already limited where we can go
5325	I support the proposed change	There are kiwi in the Baddeleys Beach reserves. Over a decade of vigilant pest trapping has created a safe habitat for the birds.

Sub #	Q4 RD-C Baddeleys	Q4 RD-C Comment
5737	I do not support the proposed change	The current policy is sufficient. Local parks are for all to enjoy and restricting responsible dog owners is unfair. Dog owners rights to enjoy the local park should not be compromised because of a minority group of greenies trying to call the shots. There are not enough green spaces for dog owners to enjoy as it is and restricting these areas to appease a minority is unfair. Most parks were obtained from developer contribution when subdivisions were created and as a ratepayer why should my rights be compromised because others don't like dogs. I don't restrict their activities, so don't restrict mine. Public Parks/Reserves and Green spaces for dog walking, exercising or just a general day out with family with off leash areas are few and far between already and fast diminishing when our population is expanding. New Zealanders love their dogs, which are part of the family unit and to start placing limitations on areas that are popular for family day trips, beach holidays or just in general taking the dog for some exercise during the day or evening is not necessary. I am very concerned that the proposed changes will set a precedent and other Public Parks/Reserves in my area will come to the same fate. Public Parks/Reserves are for all of the Public to enjoy and should not be subject to the proposed limitations. Over the years limitations have increased, for example you used to be able to take dogs to Wenderholm, but that is no longer allowed. Perhaps it is because it's classification changed to Regional Park which have greater restrictions. If Kiwi have moved into the area then they will need to adapt to humans, dogs and cats. Most dog owners are out during daylight hours and as Kiwi are nocturnal their paths should not cross. If Kiwi safety is an issue and the reason for restrictions being placed on Public Parks/Reserves, then perhaps the Kiwi should be caught and returned to the Regional Park where they do have protection.
6496	I support the proposed change	As per above - while I broadly support the proposed change it is mainly due to a lack of respect being shown by dog owners today to the current rules, which do not appear to be sufficiently enforced. We are frequent visitors to many of our local Rodney beaches and there is scant regard shown for the existing dog rules.
6578	I do not support the proposed change	Rules are being set by unfriendly dog people a small minority is the problem and your rules effect everyone
6599	I don't know	Most dogs are kiwi adverse trained in the area
OUTSIDE RODNEY LOCAL BOARD		
177	I do not support the proposed change	Off leash areas are required to enabled dog owners to walk while their dogs explore (within recall) and this also enabled better dog socialisation. Requiring dog owners to walk separately than their dogs impacts economic productivity (when a second walk is required) or wellbeing of residents (when a second walk for owners cannot be accommodated). Time based restrictions enable all users of an area to be accommodated.
523	I do not support the proposed change	Dogs should be allowed on all publics areas under control at all times unless there is a non kauri die back conservation need

Sub #	Q4 RD-C Baddeleys	Q4 RD-C Comment
607	I support the proposed change	I support on leash as a way to minimise impact on wildlife. I do not support denying dog access to beaches because of dotterals, but providing total access for dogs as long as they are on leash is a good solution.
998	I do not support the proposed change	I support clarifying current access rules, but not imposing more rules
1358	I do not support the proposed change	Dogs should be allowed on leash in all park areas. Provision for off leash play should be made in all parks.
1379	I support the proposed change	I support protecting native birds, in particular flightless birds
1854	Other (please explain below)	Same for all areas - we should have a section for owners and dogs to be off leash during summer.
2086	I do not support the proposed change	Never had issues before, punishing everyone for a small handful of irresponsible owners isn't fair. The less our dogs are out in society the more harmful to their behavior moving forward
2139	I do not support the proposed change	Dogs are family members it is already difficult to find activities you can do with your dog. Banning them from beaches and parks will be a step back as a society. In fact more and more people is opting for not having kids and having dogs instead. This will new proposed policy will definitively have a huge negative impact on the wellbeing of NZ dog owners. We should promote healthier, active lifestyle. What other alternatives we have as dog owners is the equivalent of banning kids in parks. that does not make sense.
2184	I do not support the proposed change	Really
2185	Other (please explain below)	Please provide as many opportunities as possible for on-lead walking.
2343	I do not support the proposed change	Responsible dog owners are already highly restricted on area and times if access. Increasing those limitations is unfair and discriminating. The majority should not be penalized for the minority who are not responsible dog owners.
2488	I do not support the proposed change	It's already to minum the parks and areas that you currently can walk with your dog, and to keep a healthy and balanced dog at least the dog need to be walked once a day.
2511	I support the proposed change	Seems reasonable to protect kiwi
2692	I do not support the proposed change	Penalises responsible owners
2713	I do not support the proposed change	We should be allowed to have access to these places as well
2837	I do not support the proposed change	Tawharanui is fenced and the areas in question are far away, unless actual sightings exist this is far too pre-emptive.
2871	I do not support the proposed change	There should be some allocation of off Lead for responsible dog owners
3790	I do not support the proposed change	Over complicated and limiting exercise because of the bad behaviour of the minority.
4489	I do not support the proposed change	I want less restrictions not more

Sub #	Q4 RD-C Baddeleys	Q4 RD-C Comment
4764	I do not support the proposed change	there are few options for safe off leash dog exercise areas
4879	I support the proposed change	Personal safety
5103	I do not support the proposed change	There is no reason for the change, it is an attack on dog owners
5506	I support the proposed change	Kiwis are an endangered species and as a dog owner myself having experienced my dogs being attacked by off leash dogs I'm 100% w this rule at this park
5522	I do not support the proposed change	Dogs under control have great owners, owners that have trust with their dog will only take them off leash. Stop taking places away from us, we already have a lack of options
5642	I support the proposed change	I fully support the protection of native wildlife and believe the amended policy is justified, as it aligns with these important conservation goals.
5661	I do not support the proposed change	Responsible dog owners should be able to walk their dogs here. Stop limiting the good owners and restricting them. It is not fair on them or the dogs.
5782	I support the proposed change	Dogs on a leash are under control. I do not consider dogs off a leash to be under control at any time, even if they are well-trained.
5867	I do not support the proposed change	Responsible dog owners should have the right to exercise their dog/s as per they current bylaws.
5918	I do not support the proposed change	No need
6441	I do not support the proposed change	No benefit to anyone
6447	I do not support the proposed change	Expand areas and times that dog owners can access with their companions
6478	I do not support the proposed change	There are very few places already where we can take our dogs; parks and waterways provide enrichment and socialization opportunities. Council should aim to increase the areas where dogs are allowed, instead of reducing them. Council is missing on the economic opportunity dogs can be.

RODNEY LOCAL BOARD		
1247	I do not support the proposed change	I believe that with dogs on a leash or controlled that dog owners should have same right sto enjoy the out doors Humans create more damage
1625	I do not support the proposed change	Dogs need to be off leash at times. There is no reason why a dog under control has to be leashed.
1842	I do not support the proposed change	Because a dog shouldn't have to be constantly leashed when going for a walk. A responsible owner will leash their dog if they know their dog can't do as the rules dictate and a responsible owner who walks their dog off leash just shows that their dog is also responsible. Yes there are people who can't control their dogs but that just shows they aren't very responsible or they wouldn't put their dogs in a situation they can't control. But my biggest issue is how constant leashes is going to affect dogs when they have almost nowhere convenient to them to be able to be able to walk off leash. We seem to be putting their dogs welfare of one animal over another's welfare and that doesn't seem fair to dogs
1955	I support the proposed change	its a no brainer, we must protect our natural environment and charge those that abuse it
3254	I support the proposed change	The Korora nesting sites are disturbed by dogs sniffing round and worst attacking the penguins.
3268	I support the proposed change	We are members of the Leigh Penguin Project which is an initiative of Forest and Bird. The objective of our project is to quantify and support the existing population of korora. The project extends along the Leigh coast from Ti Point to Goat Island. Current Situation For each of the last three years we have had at least two birds injured or killed.by dogs. The concentration of birds is along the coastal strip between Wonderview Rd and Cotterell St. This is the area where birds are most vulnerable to attack. Through education and communication we have a wonderfully supportive community - both amongst locals and visitors. People love our project and give it wholehearted support. However we do have an ongoing issue with unrestrained dogs. The Challenge for korora While this last season has been positive with several chicks fledging, past seasons no chicks fledged and two adults were killed by dogs. Korora also have to contend with increasing sedimentation, storms blocking their nesting sites and depleted food sources. For these reasons we request formal dog restrictions. Our Request We ask for all dogs to be on leads on the coastal track between Wonderview Rd and Cotterell St, Leigh.

Sub #	Q4 RD-D Wonderview Road Explanade	Q4 RD-D Comment
3526	I do not support the proposed change	Previous
4053	I support the proposed change	Dogs again should only be on leads.. owners have no control and penguins nesting, native birds and people safely. Homes do not want people's dogs running through their properties.
4084	I do not support the proposed change	All dog owners we have spoken to support dogs being on leash in the signposted penguin area. We all support penguins and everyone we have talked to supports leashing their dogs in the already sign posted area. This area does not include all of the track between Lax Crescent and Leigh. Further restrictions and requiring dogs to be on leash for the whole Coastal Trail is unreasonable and unfair and impacts responsible dog owners who use this area and have their dogs off leash. It is not rational or reasonable to restrict dogs to being on leash with the incorrect assumption they will harm or kill penguins in non penguin areas. I have come to this area for nearly 50 years with various dogs that I have walked unleashed and as a ratepayer in this area and Auckland City I strongly oppose any further restrictions or changes to by-laws that will require dogs to be on-leash.
4111	I support the proposed change	I have seen the sad destruction of wildlife by dogs
4123	I do not support the proposed change	I am a local resident and support of the Penguin Project and pest free Leigh. To require dogs on leads for the entire track is too restrictive and excessive. There are parts of the track which are not nesting areas and responsible dog owners can read the signs to know when to have their dogs on leads and where is safe to have them off leash. If there are concerns, may I suggest that the council invest in better signage, not a blanket restriction.
4140	I support the proposed change	They should in fact not be allowed in these areas at all
4639	I do not support the proposed change	Works fine as it is
4821	I do not support the proposed change	If dogs are under control there is no problem.
4899	I do not support the proposed change	No good
4950	I do not support the proposed change	Dogs should be allowed to be walked on all beaches, at all times provided they are on leash and controlled.
6496	I support the proposed change	As per above - while we broadly support the proposed change it is mainly due to a lack of respect being shown by dog owners today towards the current rules, which do not appear to be sufficiently enforced. We sponsor and support the penguin project at Leigh and can confirm that dogs are a significant threat to the wellbeing of the korora
6578	I do not support the proposed change	Rules are being set by unfriendly dog people a small minority is the problem and your rules effect everyone
OUTSIDE RODNEY LOCAL BOARD		

Sub #	Q4 RD-D Wonderview Road Explanade	Q4 RD-D Comment
417	I do not support the proposed change	There are plenty of places penguins can nest that dogs walking with owners can not access. I advocate for being allowed dogs under control and on leash in more of aucklands regional parks and within more areas of aucklands regional parks. Walking and hiking in Aucklands regional parks is a perfect activity for having canine companionship. There is plenty of space for everyone and when dogs are under control on leash there is little room for that to be problematic to anyone. Currently the options for getting fresh air and exercise for dog owners in Auckland are already incredibly limited. I do not support limiting this further. Again, the emphasis should be on policing and preventing bad dog ownership, not making it impossible for good dogs and owners to enjoy wholesome, healthy activities in our own neighborhoods.
523	I do not support the proposed change	Dogs should be allowed on all public areas under control at all times unless there is a non kauri die back conservation need
1358	I do not support the proposed change	Dogs should be allowed on leash in all park areas. Provision for off leash play should be made in all parks.
1854	Other (please explain below)	Same for all areas - we should have a section for owners and dogs to be off leash during summer.
2086	I do not support the proposed change	Never had issues before, punishing everyone for a small handful of irresponsible owners isn't fair. The less our dogs are out in society the more harmful to their behavior moving forward
