   Play golf at the golf course,Use the golf driving range,Use the bowling club (lawn bowls),Use the archery club

2. **How often do you use the park?**
   Less than once a month

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly golf with limited other recreation uses

   Tell us Why
   Because it's not broken - why fix it. It's fine, leave it. Fix the potholes instead.

4. **What type of golf would you most like to see provided at the park?**
   18-hole beginner/intermediate golf course (approx. 54-60 par)

5. **What other type of recreation would you most like to see provided at the park?**
   Archery,Lawn bowls

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**
   Organised recreation - space for organised sport or clubs

7. **Which Park lease approach would you prefer?**
   Keep all land under Council control

Tell us Why

Because it's fine. Leave it.

   Mostly golf with limited other recreation uses

   Tell us Why
   With the wetlands development the golf course is going to be massively reduce in size as it is, it's not fair for them to give up even more land to other sports facilities. The bowls and archery clubs currently have their dedicated space on the edge of the golf course and these work well as they are.

   I would like to highlight the importance of keeping the existing archery and bowls clubs in place. Both clubs have a long and prestigious history on the North Shore.
   The archery club is growing in membership every year and is the only target archery club on the Shore. It has been, and will continue to be, a community hub for all those who love archery, hosting both local and national competitions. It is a great place to learn and develop your archery skills, and has the benefit of being an outdoor range, allowing for longer distances to be shot and the chance to be outside in the sun and fresh air.

   As a public course it provides opportunities for beginners and occasional players that they might otherwise not have. Making it 9 holes still provides that access to the game and those wishing to play 18 holes can surely play the course twice, as happens on many smaller courses around the country. As the only public course on the North Shore central area, it is a valuable golf amenity.

Your feedback

1. **How do you or your household currently use the park?**
   Use the golf driving range

2. **How often do you use the park?**
   Less than once a month

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   A balanced mix of golf and other recreation uses

   Tell us Why
   It is a centrally located, accessible reserve area (close to motorway on/off ramps) that would give many local people and visitors a large place for general recreation whilst still accommodating golf enthusiasts. I believe it would have much higher use as a shared recreational space.

4. **What type of golf would you most like to see provided at the park?**
   12-hole beginner/intermediate golf course (approx. 36-40 par),Driving range,Indoor golf simulators,Mini golf

5. **What other type of recreation would you most like to see provided at the park?**
   BMX pump track / skate park / other wheeled play,Nature play / playground,Open space / picnic area,Space to hold events (e.g. community markets, festivals or concerts),Walking / cycling tracks

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Affordability - providing low-cost or free activities,Connectivity - walking and cycling connections through the park that link with the wider community,Equity/Inclusion - a diverse range of experiences the whole community can enjoy,Nature - protecting or enhancing the natural environment for people and wildlife,Resilience - supporting flood protection and climate adaptation

7. **Which Park lease approach would you prefer?**

   Lease some land and keep some under Council control

   Tell us Why

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   A balanced mix of golf and other recreation uses

   Tell us Why
   A mix would ensure fairness for everyone

4. **What type of golf would you most like to see provided at the park?**
   Mini golf

5. **What other type of recreation would you most like to see provided at the park?**

2. **How often do you use the park?**
   I don't use the park

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Other

   Tell us Why
   The maintenance cost to retain the golf course are too high unless they have golf club fees sufficient for all costs to be covered.

4. **What type of golf would you most like to see provided at the park?**
   Pitch and putt golf course,Mini golf

5. **What other type of recreation would you most like to see provided at the park?**

   Tell us Why
   Costs effectiveness

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   Make it so most people can enjoy it, not just a few unique sports. A skate park gets more young people out of the house. All well designed skate parks are always busy and enjoyed by many.

7. **Which Park lease approach would you prefer?**
   Lease all land to commercial operators

Tell us Why

Council has more pressing financial requirements. therefore, provided a workable public facility provided by a commercial operator can work for all parties, that is the best affordable way forward for the land.

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly golf with limited other recreation uses

   Tell us Why
   There are very few public golf courses left in Auckland and I think it is highly desirable to keep this one as an 18 hole golf course. The councils way of thinking in my opinion is off kilter here it provides us all with a green space to look at as well as use.

4. **What type of golf would you most like to see provided at the park?**

7. **Which Park lease approach would you prefer?**
   Keep all land under Council control

   Tell us Why

   We as council rate payers have always had this land and we should not be giving it up.
   we also have many people that use this course and also view this course as a green area this is important when this council continues to put more and more people into our city. These green spaces are going to become less and less and we are not ever going to get them back.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   Yes we need to keep it as an 18 hole golf course

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly other recreation uses with limited golf facilities

   Tell us Why
   This is a large area of public land, with a diverse population living nearby, I think we should be maximising how much benefit we can provide to the most people possible. Golf has a limited appeal to a certain demographic, and it doesn't share space with other activities well unfortunately.

4. **What type of golf would you most like to see provided at the park?**
   Pitch and putt golf course,Driving range,Mini golf

5. **What other type of recreation would you most like to see provided at the park?**

7. **Which Park lease approach would you prefer?**

   Unsure

   Tell us Why

   Leased land is fine for the short-medium term provided there the private operator is required to consider and include the wider public appeal in its activities and is not having a detrimental effect on the surrounding environment.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Connectivity across to Smales Farm is a huge opportunity to make this a really functional community area and should be given a high priority.

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly golf with limited other recreation uses

   Tell us Why
   I am saddened by the loss of a golf course I use regularly. If it remains a golf course, I will continue to use it for many years even if it is only 9 holes. It also ensures the space is kept green without any buildings which I think is incredibly important.

4. **What type of golf would you most like to see provided at the park?**
   9-hole traditional golf course (35-36 par),Driving range,Short-game practice area / putting green

5. **What other type of recreation would you most like to see provided at the park?**
   Other, please specify: Walkers with and without dogs currently share the golf course. This could continue without special rules or facilities. The event centre is a valuable community asset and I assume this is to be retained

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Nature - protecting or enhancing the natural environment for people and wildlife,Other - please specify: Golf provided the best of nature and structured outdoor recreation.

7. **Which Park lease approach would you prefer?**

   Lease some land and keep some under Council control

   Tell us Why

   Keep the wetlands under council control. It no longer has any viable commercial value.
   The other areas for golf, eventfinda and even archery could be leased out to organizations independent from council. These do not have to be strictly commercial as a club structure may be suitable in some cases.

   Other golf courses nearby, easily accessible to all who wish to have a round of golf as a vehicle is essential to transport clubs, etc.

   Mostly golf with limited other recreation uses

   Tell us Why
   Keeping 18 hole golf course will give the golf club the best chance to remain profitable whilst maintaining the area. It is the least expensive option and reduces pressure on rates most likely required to fund any re-development of the park. As there is no funding for other activities or uses of the park, it is likely to become a dangerous, un-maintained, neglected, and waste of land. With the pressure already on Council and rate payers, you have to ask when any other alternative would realistically be delivered and assess if in fact that funding will ever be made available... I would suggest very unlikely to the extent shown in your renders. This needs to be a smart decision that provides rate payers with the best outcome for the least amount of spend.

   Off-leash dog exercise area,Outdoor sports courts (e.g. basketball, netball, pickleball),Walking / cycling tracks

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Open space - space for free play and relaxation,Organised recreation - space for organised sport or clubs,Safety - providing a safe environment for play, sport, and relaxation

7. **Which Park lease approach would you prefer?**

   Lease all land to commercial operators

   Tell us Why

   Council are already stretched with what they can manage. Why increase expenses when a better outcome for the community can be obtained whilst making a return for Council.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Please do the right thing by rate payers who are already stretched thin. Make a smart commercial decision whilst also not letting an asset wither away into an abandoned swamp most likely to attract crime and anti-social behavior.

2. **How often do you use the park?**
   I don't use the park

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly other recreation uses with limited golf facilities

   Tell us Why
   That much land in the middle of so many houses has to be available for more than mostly golfers. While a golf course offers beautiful open spaces it does not lend itself to safe casual walking. The land can provide recreational opportunity for many activities sought after by city dwellers and at the same time offer green space and flood protection.

4. **What type of golf would you most like to see provided at the park?**

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Affordability - providing low-cost or free activities,Connectivity - walking and cycling connections through the park that link with the wider community,Nature - protecting or enhancing the natural environment for people and wildlife,Open space - space for free play and relaxation,Resilience - supporting flood protection and climate adaptation

7. **Which Park lease approach would you prefer?**

   Lease some land and keep some under Council control

   Tell us Why

   It's good to find more revenue streams for Auckland City Council. This helps with the amount of rates they require from me!

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   1, My father was an avid disabled golfer and I have caddied for him at many golf courses. They are beautiful areas of green space and golfing is a very pleasant occupation. For me this land can provide so many other opportunities for people to enjoy this open space that it can no longer be used mostly for golf. 2. The climate is changing and we have to make changes so our cities function in all weather. 3. Wetlands are a win win too, good to look at, good for the environment, good for native species to live in, good for the soul and good for climate change.

   Takapuna golf course is one of only two affordable options in the whole City. It is possible to get to the course using public transport from many areas of the city. The course is reasonably easy to walk and therefore caters to a wide variety of visitors. It also serves as a green area within the city for all to enjoy. There are many green spaces in the city that can be and are used for other recreational purposes but just AF Thomas park on the North Shore for golf. It is extremely popular as demonstrated by the number of patrons using the course. Many senior citizens (including myself) use the course as there are no other options without joining a club or paying private club green fees if you are even welcome - (way too expensive for a pensioner!)

4. **What type of golf would you most like to see provided at the park?**
   Driving range,Short-game practice area / putting green,Other, please specify: I would like to see the existing 18 hole course retained as far as possible. This is clearly possible based on studies provided by non council experts.

5. **What other type of recreation would you most like to see provided at the park?**

   It is a great green space as a golf course so if any lease was to be given it should state that it remains and is maintained as a golf course.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   Please consider the existing users who are all members of the Auckland community and most are ratepayers. As previously said this is one of only two public courses in Auckland - not many for such a huge population.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Because the park maybe needed for stormwater overflow the areas that could/may get flooded can still be retained as fairways when the flooding subsides or more ponds golfers may have to hit over. The course may need to be closed for a few days a year. Council should not be allowed to take rate payers existing use rights off us.

   I suggested the radio control car track as the council removed the only public access one at Albany, but never provided a new venue. The track was used by many, young and old.

   Tell us Why
   This is a generational opportunity for a major urban ngahere park. Don't waste this opportunity to provide decent bush and park space. There are plenty of golf courses in Auckland (and closeby to AF THomas park). The council doesn't need to provide cut price golf options to the few.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   The 18 hole golf course provides an extremely good course for a very popular sport in NZ at a very fair price. No where else in the World do you have such a facility close to a major city available to the general public. Most of the golfers who play here can not afford to be members of a Private Golf club. By smart drainage engineering a lot of flood water could be diverted by a flood water path along the golf course in a southerly direction ending in Shoal Bay

4. **What type of golf would you most like to see provided at the park?**

   Affordability - providing low-cost or free activities

7. **Which Park lease approach would you prefer?**
   Keep all land under Council control

   Tell us Why
   Why fix something that already works. All we want to do is take pressure off the Wairau stream to Milford when there is a flood. By smart Engineering we can divert 50 % of the flood water along a large concrete drain between the motorway and golf course to an existing wetland by Akarana bus terminal and entering Shoal Bay

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   Retain as an 18 hole golf course, there is plenty of room to retain the course and provide for stormwater flooding protection.

   This is a public course which provides a cheaper option for those who would like to play golf.    Keep all land under Council control

   Tell us Why

   Better to keep the land in the ownership and control of ratepayers and take longer to develop facilities than to hand over control to profit driven companies that would lead to a narrower use of land by fewer people. Land should not be sold, but kept in guardianship for future generations

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Please keep in mind the use of land by wheelchair users. There are very few areas in Auckland that can be accessed and enjoyed by those who are physically disabled. It is shameful that a city the size of Auckland has so many obstacles to wheelchair users using recreational facilities. Paraplegics and tetraplegics have few opportunities to get outside.

   Less than once a month

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly golf with limited other recreation uses

   Tell us Why
   There are no other golf courses on the shore that if you want to play you don't have to join the club itsself. Its for everyone so if you want a game you can. If you have visitors they can have a game

4. **What type of golf would you most like to see provided at the park?**

   Far better and more inclusive uses of land than just golf. I wouldn't seeing a concept like stanley park in Vancouver Canada though, walking/running tracks, seperate biking mtb gravel paths, frisbee golf, tennis courts and pitch and putt (very very cheap par 2 golf course)

   I feel the Council has grossly underestimated the cost to onstage 1 of their plan let alone add additional recreational facilities so focus on keeping the core golf facilities and it a robust cost plan is developed and checks experts outside council then consider expanding the facilities at a later date. If you can get sponsorship or outside funding such as that proposed by the Golf Warehouse then even better make
   It a multi sport facility.

7. **Which Park lease approach would you prefer?**

   Lease all land to commercial operators

   Tell us Why

   My understanding is that council has only costed stage 1 excavation with no allowance for dealing with the excavates material simply stock piling it. This is short sighted and misrepresents the forecast costs. It's inevitable it will cost more and budgets blow out. Lease the land to a professional commercial organisation whom will create the best outcome

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   It's disappointing council have decline either more cost effective solutions and overridden the majority of the public's wishes. The council should therefore strongly consider the golf warehouse proposal.

   The golf course and driving range are heavily used. The course is one of only two options in Auckland for people who could not afford to play golf otherwise. However, people's homes and businesses shouldn't be threatened by future floods, which are increasingly likely due to climate change. The basketball facility is also under threat and drying it out after a flood is an expensive exercise. Furthermore, it cannot accommodate all those who want to play and I fully support the shift from rugby to basketball because of head injuries. Given that widening the Wairau Creek all the way to Milford Beach is not an option, reducing the golf course to 9 holes and retaining the driving range, in accordance with the Golf Warehouse proposal, seems a good compromise.

   Tell us Why
   Currently, the council owns the land and leases the operation of the course and driving range to a commercial operator. This appears to work well. Wholly council owned can lead to inefficiency and lack of incentive for improvement. Wholly commercially managed can lead too much emphasis on making a profit. A compromise will hopefully provide an efficient and effective service to the public.

   Because it's the only 18 hole public golf course in Auckland. I learned to play there with my father. Other sports have their own dedicated spaces. Why shouldn't golf. Rosedale park: Soccer, softball, hockey. Windsor park: rugby and cricket. Onwards domain: rugby, cricket, netball. Golf is one of the highest participants sports in ghr country which is playable by all ages and should not jbe ust for the rich on private courses.

   Golf participation has grown over 30% in new Zealand and is continuing to grow around the world while traditional NZ sports like rugby and cricket are declining. To remove the golf course will put too much pressure on other nearby courses such as Pupuke and Waitemata which are already completely booked out. I am a Pupuke member and it is extremely hard to book times to play there already. People that play Takapuna currently will not be able to play Waitemata or Pupuke as they will not get tee times. With golf tourism growing in New Zealand as a legitimate income stream, to remove this golf facility for beginner New Zealander golfers would be a terrible mistake. Predominantly golf must be retained, even if it is an 18-hole par 3 course.

   Please keep golf, there is so much pressure on local courses it is just too hard to get tee times to play in Auckland already. If golf is removed from here in favour of large sorts fields then Auckland will go down the path of other Asian countries where golf is only accessible for the wealthy, this does not benefit the diversity of people living in Auckland.

7. **Which Park lease approach would you prefer?**

Keep all land under Council control

Tell us Why

When in private hands a) costs to users would be incurred

b)locals will have no control over what is provided, so whoever has the most money will dictate what is and is not provided.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

I am looking forward to finding the park and watching what happens to such a valuable resource.

   I support the Golf Warehouse proposal which would provide for more than just golf and would not require Council funding meaning it could be completed more quickly than indicated for the other options in the consultation document. As the post on Facebook says "The proposed $20 million redevelopment of AF Thomas Park is more than just a win for golf - it's a visionary plan to create one of the Southern Hemisphere's greatest multi-sport community hubs.

   Imagine this:

   A new, elevated Eventfinda Stadium

   A world-class 9-hole course + flood-lit par-3 short course

   100-bay, 250m driving range with cutting-edge tech

   36-hole mini golf + huge putting green

   A multi-purpose clubhouse with retail & hospitality

🎯 A delivery point for Golf NZ's talent pathways and participation goals

🎾 12-court indoor pickleball centre

🚲 Pump track, extra parking, walking & cycleways"

This proposal includes several of the non-golf options included in the consultation document.

It seems Council is keen on passive recreation rather than organised activity and so it is important that the wetland area include walking tracks. It would also be great to include a cycle path alongside the motorway to link up with the bridge over the motorway.
I have played golf at Takapuna since I was 14 and I am now 68. It is one of only two effectively public courses in Auckland that offers an accessible and affordable location to play golf. If this is lost the only public course in Auckland would be Chamberlain Park.

   North Harbour gymnastics is where I have grown up 17 years of my life I went there 6 days a week. It is my family my home and contributed greatly to the person I am today the life lessons are invaluable. The floods were horrible and the gym had to shut down again after being shut for so long with covid. It disrupted my training and my routine many girls left during this hard time and rebuilding took a very long time. Providing a place that is no longer at risk of flooding is an amazing opportunity to ensure that every athlete that steps into north harbour gymnastics can have a community that grows and supports them in becoming the best versions of themselves without having to worry about the gym shutting down for periods of time and having to build itself back up again and again. NHG really is the best use of this space and a new facility will be amazing for athletes all around Auckland!

   Keep North Harbour Gymnastics alive our club has been through so much and this space is exactly what we need to become the best athletes we can and build up our family. It is the only club on the north side of the harbour bridge that facilitates competitive gymnastics at both a national and international level and gymnasts travel from as far as Omaha to train there. It is really such an important part and identity of North Auckland and many athletes young and old rely on this facility to keep them alive n sports as other Auckland facilities are too far away and don't provide as exceptional of a program

   Tell us Why
   The council needs to retain overall control to ensure there is alignment with future city plans. But the council is not qualified to deliver sporting infrastructure (as we have seen from the never ending saga of the stadia), so get some experts (independent operators) in for that. People pay to play golf now, I don't see why they wouldn't do so in the future.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   Water management is complex. In addition to changing the current usage of a piece of parkland, which will make a minimal difference, how about council stops providing permits to developers to build on land prone to flooding, and puts limits on how much concrete can cover former gardens when subdividing? Auckland is being comprehensively paved over, and the water has nowhere to go.

   There are few affordable golf courses in Auckland. Takapuna is a perfect beginner golf course for those looking to take it up. I've brought many friends to this course who aren't as experienced as well as had amazing golfing experiences here.    Takapuna golf course is the only proper affordable and open course on the shore. This is the only place for people to go to actually learn the sport. Since covid its the fastest growing sport in this area. We need it to stay open as 18 holes but also improved to have more then just 18 holes. Improved driving range. Pitch area etc. for area for familiesto gather etc. this is a massive hub for social encounters, just like the netball fields are for that sport etc.

4. **What type of golf would you most like to see provided at the park?**

   None of the above

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Affordability - providing low-cost or free activities,Other - please specify: It is the most used and popular park on the shore by far. The most used golf course in new zealand. I have met so many people because if this course. There are endless spaces for tennis, netball, basketball etc (i use them too) but nothing else on the shore for golf. You ruin this place and you ruin a huge part of northshore.

7. **Which Park lease approach would you prefer?**

   Once you get rid of this course you make it one of the endless other parks around the shore and Auckland. Not used. A heavy tax sink. Paying for toilets and playgrounds etc. you start leasing it out to private companies and it won't be long before we see another area become housing or used for something it has no need for.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Very sad and disappointed in the team that chose to ignore the vast majority of the tax paying people in the area that apposed all of this. On top of that your team chose to ignore the far superior alternative that was far cheaper on the tax payer budget, provided even greater water dispersion for the area and looked far better. This was clearly an ego choice for someone in the team and its sad to see. A legacy that will be stained with whoever made those choices :(we tried though.

   I believe there are many nearby places were people can indulge in other recreational activities that are not golf. For example, tennis can be played nearby in Milford, Takapuna, and Belmont. Pickleball can be played at Pickleball North Harbour. And Padel which is currently a popular sport can be played at Pacific Padel in takapuna, also not too far from the course. The only other recreational activities that the park could benefit from are pool and darts but even those can be found other nearby places. There are also already nearby lawn bowls areas and also basketball courts, badminton courts, and sports playing fields available in other nearby areas such as Albany.

   I am submitting this statement in opposition to Auckland Council's proposal for A F Thomas Park in Takapuna. While I acknowledge and support the need for improved flood resilience across the Wairau Catchment, the current concept is financially unsustainable, socially detrimental, and strategically premature given the Council's present financial constraints and infrastructure backlog.
   The existing 18-hole Takapuna Golf Course is a well-utilised, accessible, and valuable community facility. It is one of only two affordable public golf courses in Auckland and is fully booked most weekends. In a growing city where golf participation is increasing, particularly among youth, women, and families, removing or reducing this facility would be devastating. The course provides equitable access to recreation and serves as an important green space and buffer that already contributes to stormwater absorption without the extensive reengineering proposed in the new concept. More broadly, the current proposal prioritises engineering outcomes over genuine community use and amenity. The process so far has lacked transparency, with key stakeholders such as the Takapuna Golf Club and regular park users

feeling sidelined. Any future plan should ensure equitable access, safety, and genuine community benefit, not simply leave leftover spaces after flood infrastructure has been imposed. There are credible alternative concepts that achieve flood management objectives while retaining the existing golf course, and these must be fully and fairly assessed.

4. **What type of golf would you most like to see provided at the park?**

   18-hole beginner/intermediate golf course (approx. 54-60 par),12-hole beginner/intermediate golf course (approx. 36-40 par),9-hole traditional golf course (35-36 par),Driving range

5. **What other type of recreation would you most like to see provided at the park?**

   Lawn bowls,Outdoor sports courts (e.g. basketball, netball, pickleball),Walking / cycling tracks

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Affordability - providing low-cost or free activities,Open space - space for free play and relaxation,Resilience - supporting flood protection and climate adaptation,Safety - providing a safe environment for play, sport, and relaxation,Other - please specify: Golf course to be retained as 18-holes.

7. **Which Park lease approach would you prefer?**

   Lease some land and keep some under Council control

   Tell us Why

   There is no available funding within Council to deliver a project of this scale responsibly. Auckland Council is already struggling to maintain existing public spaces, playgrounds, and sports fields. Ratepayers are facing unprecedented rates increases, while development contributions have been raised under the justification of expanding the city's park network. It is unreasonable to pursue a capital-intensive redevelopment that will only add pressure to ratepayers who are already stretched. What the city needs is better maintenance of existing assets, and more responsible planning to ensure essential infrastructure upgrades are in place before thousands of new homes, particularly state housing, are added to this flood-prone catchment. Even if the project were to proceed, there is no clarity around ongoing maintenance or operational funding. Without a dedicated budget, the proposed open spaces risk quickly becoming depreciated assets, subject to neglect, vandalism, and higher crime. This will inevitably lead to a loss of community amenity and safety, undermining the stated goals of the project.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   In summary, the A F Thomas Park proposal is financially unjustified, operationally risky, and socially short-sighted. It should be suspended until a full funding and maintenance plan is established, and until flood management strategies are reviewed alongside realistic housing and infrastructure planning. The 18-hole Takapuna Golf Course should be retained in full, recognising its proven social, recreational, and environmental value. Council must engage

transparently with the community to achieve flood resilience without sacrificing one of Auckland's most valued and accessible public assets.

   I strongly believe the golf course should remain as it is. It's one of the few affordable, beginner friendly courses around easy to book, welcoming to newcomers, and a great way to get into the game without the usual barriers. It's consistently well-used, with the car park often full, showing just how valued it is by the community. While alternative recreational ideas might sound appealing in theory, they're unlikely to see the same level of regular use or engagement. This course already serves a clear purpose and fills a unique niche that would be hard to replace.

   It's the only public course on the North Shore in easy reach of a large amount of players to get them into the sport without joining a club or playing somewhere where learning to play golf is frowned upon and stressfull. This golf course is designed for players of all ages and abilities, has a long history and was probably in place long before most of the 150 homes your trying to protect were built, council should have thought of that before they gave consent for those homes to be built, , and due to their stupidity this will impact the course , why should the golf course pay because of council morons. Leave it as it is and find another solution and stop wasting tax payer money on this, there's bigger problems on the shore to solve - to much housing for the infrastructure as a starter.

   The number of people playing golf has grown so that local clubs, such as Helensville, are sometimes unable to accommodate any full-week playing memberships. It seems the bowls club, sport stadium and archers can all be accommodated harmoniously with a full-length nine-hole course. There should be room for walkers in the wetlands area. There are plenty of other spaces for other recreations around the shore but a lost golf course will be gone forever. There will not be an option to replace such a space in such a central location in the future.

7. **Which Park lease approach would you prefer?**
   Lease all land to commercial operators

Tell us Why

It should stay being a golf course and a commercial arrangement its the best as it has been operated successfully in the past.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Ruining the golf course is only going to be a stop gap measure for the downstream flooding and will just turn the place into a rat and mosquito infested swamp.

   I first played golf here in the mid 1970s with new friends at Teachers College

   We met many more new friends at Takapuna Golf Club. It is a friendly environment and meeting place for all people.

   50 years later I still play here and use the driving range. In that time I have played with my son, my son in law and now play regularly with my grandson

   This is an intergenerational facility and should be retained as such as a full 18 hole golf club.

   The Takapuna golf course is the only low-cost 18 hole golf course on the north shore. It is a great place to get exercise and walk the dog while enjoying time with my son who is mad about golf. We can't afford the more expensive courses. If golf is reduced it will take away a treasured community facility when average people can enjoy a few hours of peace and quiet.

   There are many other facilities for ruby, soccer, basketball and netball where people can play. While there are other golf courses in Auckland, only Takapuna and Chamberlain Park are affordable to "regular" people. At the Takapuna course you will see many more tradies than lawyers, and grandparents paying with grandkids. What other activities can a 70 year old enjoy with a 12 year old.

   Don't allow it to deteriorate like every other council asset on the Northshore (North Harbor Stadium being a case in point). Northshore has deteriorated significantly with its public amenities since the formation of the Super City - the Northshore is very much the poor cousin when it comes to the allocation of Super City wider funding and it shows.

   I think space should be made for other sports. There is a shortage of sports fields in the area with not enough training spaces for football, rugby and cricket clubs. Sports fields are also great as flood mitigation tools, they can be used as dry ponds. If they are built with sand carpet and drainage system they can contain flood water and have it drained away quickly.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   Surely building a deep canal that runs down the motorway and exits into the sea at esmonde road is the best option. It could be planted and provide a walking and cycling track from Wairau Rd to Esmonde Road and still maintain the full 18 hole course. Crazy to flood land and turn it into a swamp for the occasional heavy rain event. A deep canal could take the overflow in heavy rain and become a ‘stream’ feature when not in heavy rain reducing the water flow into Milford. Surely this is the most cost effective solution.

   Takapuna is a good affordable option for golf, very accessible and an easy walkable course. The other golf options close by have the following downfalls: Pupuke is too hard for beginners/intermediate players and a hard walk for the less-able (if people were forced to go here without Taka then pace of play and therefore enjoyment would decline). Waitemata is almost impossible to book a tee time for and not very accessible (Lake Road has horrendous traffic trying to get too and from and any potential new players heading here would increase traffic build up).

   Many years ago I played golf on a regular basis at the park. Up until my husband passed away in 2023 he played golf there. It has always been a course where beginners, casual players, those of advanced age and those with limited income can enjoy playing a sport they enjoy. It is the only one on the North Shore where this is practical, if not possible. There are plenty of other parks for walking, jogging, cycling and enjoying nature. Other sports have their own dedicated grounds.

   I believe the land should be run as it currently is, with the proviso that the land be kept and maintained as a well managed golf course for the purpose of recreational golf. I understand there is a feasible alternative to the proposed flood plain plan which would not impinge on the present 18 hole golf course

   If council does get the go ahead to proceed with the wetland option they have put forward,

   (ie the total area became wetland and little else)I would hope council appreciates that they allocate funding to maintain the area and not expect the ratepayer to have rate increases to cover this item.

   As this is one of the most used/popular public golf courses in Northshore Auckland, having a wide variety of other activities (recreation uses) overlapping one another, could lead to multiple unforeseen incidents to occur, such as a hiker/biker or any other person wandering about on the course to be struck by a "Rogue" golf ball. I know we can't stop progress and believe me when I say, it is a great park and having multiple recreational uses, could benefit people in the long run. As long as the general golfer is covered when something does indeed happen, and the proper warning signs have been put up to warn people of low flying objects with the odd chance of raining "Fores". Nonetheless, I feel that if we were to limit or reduce the quality of the golf course, this would negatively affect one of the most used spots for the general outing and possibly even negatively affect those wanting to start a career in golf.

   If you lease the land, this might end with the land being butchered. On the other hand, if the land is by council only, the land might be set for a general park for hikers, picnics and pets, which is unfair really seeing as there are plenty of places for people to take their pets and loads of hiking space in the whole of New Zealand where you could do picnics as well. Honestly, it's a Lose-Lose situation for the everyday golfer no matter which way you slice it.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   In light of the proposed reduction of the course and the potential development of future recreational facilities on this site, I kindly urge you to consider the needs of individuals with lower incomes who rely on this public course as an affordable way to enjoy golf. This is a well-loved and accessible course, and preserving it in its current form would bring joy to many members of the community.

   I have played golf for 40 years and am now introducing my 15yr old son to the game. Although I am a member at a local golf club there are challenges teaching someone how to play at a busy club.    I believe that the Council still has a mandate to provide green space recreation areas to it's rate paying residents. The idea that we should turn all of these spaces into residential or commercial property is short sighted and goes against any common sense when it comes to town planning. All great cities do this (think Central Park in New York, any number of parks in London, Albert Park in Melbourne etc etc). If we do not invest in and add further green space and recreational areas in our city we will cease to maintain our status as a great city and our future generations will suffer.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Can you prove that a flood event of the magnitude that occurred in January 2023 will be completely mitigated by turning 1/2 of Fred Thomas Park into a wetland? Housing intensification plans for the North Shore and a lack of clearance for the culverts and waterways of Milford and Wairau Valley, in my view, will mean that this will likely occur again irrespective of this attempt at appeasing the Insurance Council.

   Golf is a real estate hungry sport that only wealthy can afford. Auckland is short of indoor basketball courts that our kids desperately need. Their official season is being squeezed into 3 weekends over early / late times and travel to Tauranga or Whangarei. There are a lot more golf courses in Auckland than there are Basketball courts.

   The Takapuna golf course is a vital community asset that should not be demolished. It offers affordable access to recreation for people of all ages, including beginners and children, helping promote active and healthy lifestyles. Beyond recreation, the course provides essential green space that supports biodiversity and enhances the character of the area. The alternative plan presented by the current operator will provide natural drainage and flood protection, reducing pressure on the city's stormwater system. It also safe the council a considerable funds by not converting it into a wet land. Preserving this course means preserving both community wellbeing and environmental resilience and reduce strain on council expenses.

   Golf at Takapuna golf course was the first golf course and driving range I ever went too. It has always been the main course I play on the north shore. The affordability paired with its location has been major factors to myself and many others. I feel that by keeping golf as the main recreational sport of the park, you don't take something some important away from many golfers on the north shore and Auckland for that matter. Without a centrally located public course it will disadvantage golf as a sport as there will be less playing due to affordability and less new comers taking up the sport. I don't see many beginners and casual golfers going and spending $80-120 to play golf elsewhere on the north shore, especially given the economy and the reality that golf is an expensive sport.

   I am sure there are hundreds of thousands of adults and kids from the north shore that are in exactly the same boat and have the same feelings. Council should find away to incorporate their flood plans and water storage as features/harzards on the golf course. It would be such a shame too lose the 18 hole course because of poor infrastructure planning. Yes it may cost more to be creative but would provide the best outcome for everyone.

Keep the park mostly for golf, improve the facilities, and prevent other recreational concrete jungles. There are areas and parks like Marlborough park which could house some of these other recreational sports facilities. Why add more concrete to a park that is wanting to be used to help the flooding problems that have been created by councils poor planning. Defeats the purpose, especially if those facilities experience floods. For example if tennis courts or pickleball courts were created and it floods there would be substantial costs to repair all the damage. With the golf course keeping the majority of park with the flood-storage being added council minimises those repair costs.

4. **What type of golf would you most like to see provided at the park?**

   Driving range,Short-game practice area / putting green,Mini golf,Other, please specify: Traditional 18 hole golf course Par 66 minimum up to 69 - incorporate wetlands and stormwater works to be integrated into the golf course. Use them as water features and boundaries for the golf course. rain and stormwater gardens have become hugely successful in new development area. One because they are functional and two because they have been designed to be incorporated as garden features. Yes it might cost a bit more but it won't become a site for sore eyes In the middle of the north shore.

   Keep the majority under council to allow Takapuna Golf Course to remain the only public course on the north shore and only public 18 course in Auckland. Lease some of the land (like the driving range and club house, archery, lawn balls) to allow some specific private operators to build better recreational facilities.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Build the recreational facilities in areas where the council have allow and built areas full of concrete. Don't add more concrete to such a large and central north shore park. The simple fact is, that if council had planned the growth and development better without pour concrete everywhere we would have this problem. Keep as much of the course and kind a way to incorporate the require wetlands whilst maintaining the beauty of such a park that only helps towards climate change (another major contributing factor to why wetlands are required). Remember all you council members are replaceable and can easily be voted out, but these changes can't be made again without more wasteful spending. Do the right thing and flip the

script. Be better whilst being different and make people believe that your working in everyone's best interest and are not fleecing us to cover wasteful spending.

   Currently I don't use the park because it's exclusive to golfers, and shuts out most of the community. I grew up attending events and lessons at Eventfinda Stadium and had no idea that it backed onto this area, because it's like a blank spot to me on North Shore's map. It's such an amazing idea to open this up to everyone, and turn it into a hub for all of the community to use. I always see people using the course for golf when I drive past, so it's a shame that they would lose a convenient location for playing, but the course takes up a lot of space, doesn't honour our native environment, and shuts out most of the community.

   For the sake of timing and quality, it might be a good idea to lease some land to other operators, however the Council shouldn't give it all up. It's nice to be able to use something that we know our rates have paid for, rather than to not see or benefit from them.

   If needed, create flood zones within the golf course. I would expect flood basins for once in 100 year flood events would be easy enough to create. The issue on the motorway where the lanes flooded was easy to fix with the addition of open barriers. Im sure some simple changes to drains would also improve water runoff to the harbour - particularly as the golf course is practically next to the harbour.

Your feedback

1. **How do you or your household currently use the park?**
   Walk / run in or around the park,Attend events at Eventfinda Stadium

2. **How often do you use the park?**
   Once or twice a month

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly other recreation uses with limited golf facilities

   Tell us Why

   I am a member of Auckland Canoe Polo and we are looking a space to build our sport.
   This would be a great place to build courts similar to the courts at Mitre 10 Park in Hastings.
   Those offer easy access and refereeing and allow us to host local, national, and international competitions.

4. **What type of golf would you most like to see provided at the park?**
   None of the above

5. **What other type of recreation would you most like to see provided at the park?**
   Outdoor sports courts (e.g. basketball, netball, pickleball),Other, please specify: Canoe Polo Courts, similar to the courts at Mitre 10 Park in Hastings.

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Equity/Inclusion - a diverse range of experiences the whole community can enjoy,Nature - protecting or enhancing the natural environment for people and wildlife,Open space - space for free play and relaxation,Organised recreation - space for organised sport or clubs,Safety - providing a safe environment for play, sport, and relaxation

7. **Which Park lease approach would you prefer?**

   Keep all land under Council control

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   A balanced mix of golf and other recreation uses

   Tell us Why
   There is not enough recreation on the shore. Golf courses are over crowded so we can't miss out on another golf facility. Having the multiple golf activities will acomodate more golfers.

4. **What type of golf would you most like to see provided at the park?**
   9-hole traditional golf course (35-36 par),Pitch and putt golf course,Driving range,Short-game practice area / putting green

5. **What other type of recreation would you most like to see provided at the park?**
   Outdoor sports courts (e.g. basketball, netball, pickleball),Sports fields (e.g. rugby, soccer, cricket)

   Organised recreation - space for organised sport or clubs

7. **Which Park lease approach would you prefer?**
   Lease all land to commercial operators

   Tell us Why
   This means the company that will lease it will make an effort to make the best use of the land they can. They will invest money for the newest technology.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   Golf is booming and we need ore facilities and not less!!!

   Tell us Why

   There are so very few cheap public options ot play golf in auckladn aespecially on a casual basis. While my use nowadays is not as frequent as i would like i use to play every week with my father on this course and it was a major benefit of living in the area.

   I think the constant use of the goldf course justifies it size and usage, juust as easily as rugby (and similar) ground justify their use with just limited formal game times and irregular training sessions.

   If it must be a flood catchment area so be it, but that area will allow extra usage through walk and cycle paths allowign hte remainder of the park to be dedicated to golf.

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Other

   Tell us Why
   I'm a pickleball coach and on the committee for two pickleball clubs on the North Shore. Demand is steadily growing and a dedicated North Shore facility would make providing coaching possible during peak hours (5pm-9pm), currently it is not possible to to get a private court booking after 5pm weekdays due to a lack of facilities (any available spaces are being used by clubs or other sports) and so private coaching is not possible for many people who only have time available after work.

4. **What type of golf would you most like to see provided at the park?**

   The Takapuna Golf Course is a valuable community asset enjoyed by people from all walks of life. Its affordability makes it accessible to everyone, encouraging participation in a sport that fosters both physical activity and social connection. As one of the few remaining public 18-hole courses in Auckland, it plays an important role in providing inclusive recreational opportunities. Its convenient location, close to many North Shore suburbs, gives residents easy access to a large green space where they can relax and enjoy the outdoors — something that's increasingly vital for supporting mental health and overall wellbeing.

   Tell us Why

   Public access is protected: The course remains affordable and open to everyone.

   Community focus: Decisions can prioritise health, recreation, and environmental benefits rather than profit.
   Green space preservation: The land stays as public open space, preventing future commercial development pressure.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Please keep the golf course as an 18 hole course - it is a north shore treasure.

   Lets get to the source of the problem and actually do regular maintenance and cleaning of infrastructure on a regular basis...instead of reacting at the bottom of the cliff!and coming up with costly projects that will not attract community connection because the council won't look after it! Just look north to Tristram Ave/ Croftfield Lane - Nobody uses that wetland and the grounds are disgusting. The North Shore hasn't seen drainage cleaning, road cleaning, lawns moved or tree felling of notorious trees for such a long time it's embarrassing. Wetlands produce mosquitos and are not a place people connect. Get real!

   I have been playing for 24 years now, which has been the vast majority of my life. During this time I have seen it's popularity continue to grow, especially over the last 5 years since the Covid lockdowns reminded people of how important it is to exercise and golf provides this for many people while also allowing for a social aspect as well. Takapuna golf course has always been the stepping stone for many people allowing them to start playing golf in a relaxed and easy manner, to get out in the sun after work, to spend time with their kids on the course and a bunch of other reasons. Given the ever rising popularity of golf and considering that all courses, especially the minimal amount on the shore, are almost always fully booked up, it would be a complete shame if it were to not keep operating as a primarily golf based facility.

4. **What type of golf would you most like to see provided at the park?**

   This would allow for higher quality facilities while simultaneously not only costing the council less tax payer money, but also serving as a regular long term form of income. This money could then be streamed through in to other areas where it will be able to benefit the community even more so in a flow on effect

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   To summarize my thoughts, golf is a highly popular and ever growing sport that provides a lot of people of all ages and walks of life with both much needed exercise and socialization. It should be provided as much support as possible to continue to grow as I believe it has a great benefit on the people in our community

   Takapuna Golf Course is the last public golf course that is affordable on the shore if not all of Auckland. I have been playing this course since the age of 12 and now have my son doing the same. it is where we all learn to play golf an affordable. I just tried to book in to play Golf any where with teenage kids with jobs, and all courses are charging a minimum of $80.00 dollars to play a round of golf. Takapuna is affordable and convenient for location for all of the shore.

   Fix the flood zone and make a wetland in the middle and make a new 18 hole golf courses with Par4's and 3's have the wetland down between holes 15, 16 and 4 these would be some of the wetter parts of the course.

   Responsible developers (Golf Warehouse) are motivated to invest in this area to make it an accessible and widely appealing recreation area for North Shore residents. Having improved recreation facilities help promote fitness, social connection and an alternative to devices (especially for younger residents).

   Taka has been a public golf course for a long time. I learned to play golf there in the 1980's. I feel like it's an icon of Auckland golf, a place for player of all levels & ages to go to learn and play. Also it opens golf to all types of people, being public there's not that intimidating feeling of playing a private golf course. I would urge you to find a way to make it work. Golf is a very special sport, you learn a lot more than golf...respect, patience, appreciation, resilience.

   Golf is a hugely growing sport, yet all facilities around NZ, are the same, standard courses, standard driving ranges. Forward thinking of floodlighting par 3 courses, floodlit ranges of a huge scale, with a real social feel will make it a real golf hub, rather that something maybe a little better than others because it's new, but trying to do to much for too many sports.

1. **How do you or your household currently use the park?**
   I don't use the park

2. **How often do you use the park?**
   I don't use the park

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly other recreation uses with limited golf facilities

   Tell us Why
   Given there are many other golf options in Auckland and the North Shore and the low ratio of players to the value of the land, I would like to see the land better used for sports that do not have purpose build facilities. Pickleball being the number one. The growth in this sport has been huge.. 2 years ago the north shore had 3 schedule pickleball sessions a week. Now this number is well over 40. With demand continuing to grow many people looking to get into the sport are excluded. The appeal of the sport is wide and it is extremely accessible to beginners.

4. **What type of golf would you most like to see provided at the park?**
   None of the above

5. **What other type of recreation would you most like to see provided at the park?**
   Outdoor sports courts (e.g. basketball, netball, pickleball),Other, please specify: I find it incredible that Puckleball has been added as an outdoor sport. While it is player outdoors, given our climate in Auckland most play is indoors. I'm keen to see dedicated Pickleball courts covered and preferably indoors.

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Affordability - providing low-cost or free activities,Connectivity - walking and cycling connections through the park that link with the wider community,Organised recreation - space for organised sport or clubs,Resilience - supporting flood protection and climate adaptation,Safety - providing a safe environment for play, sport, and relaxation

7. **Which Park lease approach would you prefer?**

   Keep all land under Council control

   Tell us Why

   I would like to see the council and community based not for profit pickleball clubs/groups developing pickleball courts that can be used for low cost, keeping the barrier to entry of pickleball low. Look at the pickleball being run from the East Coast Bays Leisure Centre $6.40 per session, 8 sessions a week of 26 players plus currently, growing to 15 sessions a week from November 17. Plus 100 plus players every Thursday night at Albany Tennis Centre and around 15 sessions a week between the Y-North Shore and Netball North Harbour. The potential for more growth is huge. Players starting out are from all walks of life. Many returning to sport after long breaks away. The low barrier of entry is unique.. the nature of pickleball brings players together, great for mental health.

   Golf attracts a wide range of ages from young to old, it gets people out walking and active, reducing heath issues. Including other recreation activities like more basketball facilities (that are desperately needed), growing sports like pickle ball which is globally expanding, and areas for younger kids to have fun and be active are all important to a thriving community. Multi sport/recreation is the way to go. We need our community active, healthy, and connected.

7. **Which Park lease approach would you prefer?**

   Lease all land to commercial operators

   Tell us Why

   Leased operators will invest far more into the land making it a world class use of the area. Ideally this would generate higher returns for the council which then goes on to fund other areas of council needs. Large local investors could be a game changer for the excellence of the future facilities.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   The proposed wetland for flood control at $150m of rate payers' money is seriously flawed as a concept. retaining the area for golf and other activities is critical to the long term well being of Northshore communities.

   The operators provide an outstanding facility to the community. At any given time there would be a vast number of users and considering this goes on across winter it is hard to see other facilities being as successful in achieving these sort of numbers. Also, its one of very few course that is public, affordable and not excessively snooty with dress code etc making it a true facility for the masses.

4. **What type of golf would you most like to see provided at the park?**

   It ensures continuity of the golf course with some variations to accommodate most of council's flood management requirements. There's a lot of wasted space across that golf course which can be better used to achieve council's objectives. This option enables both activities to continue long into the future..

   Regarding the Inclusion of North Harbour Gymnastics in the Thomas Park Project.

   I am writing to express my strong support for Scenario 1 of the proposed Thomas Park Project. This option best supports the long-term needs of our local sporting community and provides the most inclusive and sustainable vision for the area's future development.

   It is essential that Gymnastics is recognised as a preferred sport and explicitly included in the Thomas Park plan. Gymnastics is one of the most widely participated foundation sports in New Zealand, supporting athletes of all ages and abilities while developing fundamental movement skills that underpin success in many other sporting codes. North Harbour Gymnastics, in particular, plays a vital role in engaging thousands of local children, families, and schools, fostering community wellbeing and lifelong physical activity.

   Furthermore, the inclusion of North Harbour Gymnastics in the Thomas Park Project provides a unique opportunity to secure a future-proof and flood-resilient home for both Eventfinda Stadium and North Harbour Gymnastics. The current facility is increasingly at risk from

flooding, which threatens both the safety of participants and the ongoing viability of the programmes offered. Relocating and integrating these facilities within the Thomas Park redevelopment ensures the continuity of high-quality sporting opportunities in a safe, accessible, and central environment for generations to come.

I strongly urge the planning team to prioritise Scenario 1 and ensure Gymnastics and Eventfinda Stadium are fully incorporated into the final Thomas Park Project plan.

Thank you for the opportunity to provide feedback on this important initiative.
Organisation/Connection: Parent, Member of North Harbour Gymnastics and Trampoline.

   Tell us Why

   The Thomas Park Project presents an important opportunity to create a truly inclusive and accessible community hub that welcomes everyone, regardless of age, ability, or background. It is vital that the design prioritises universal accessibility—ensuring safe, easy access for people with disabilities, young children, older adults, and families.

   Equally important is a strong commitment to diversity and inclusion, with facilities and programmes that reflect and celebrate the varied communities of the North Harbour region. By supporting sports like gymnastics—which attracts a wide range of participants, from preschoolers to competitive athletes, and is one of the most gender-balanced sports—Thomas Park can become a model for participation and belonging.
   Finally, safety must remain central to the project's design and operation. Flood-resilient, well-lit, and secure facilities will not only protect the investment but also foster a sense of confidence and wellbeing for all users. A space that is safe, inclusive, and accessible will strengthen community connection and ensure Thomas Park becomes a vibrant, enduring home for sport and recreation.

   Gymnastics must be included in the future planning and development of community recreation infrastructure. North Harbour Gymnastics plays a vital role in supporting participation, skill development, and elite pathways for young athletes. Its inclusion ensures continuity for thousands of local families who rely on accessible, high-quality training facilities.
   Securing a future, flood-proof home for Eventfinda Stadium and North Harbour Gymnastics is essential. Both venues are critical community assets that support not only gymnastics but also a wide range of sports, cultural, and entertainment events. Relocating or upgrading them to a safe, resilient site will protect these facilities from climate-related risks, ensure year-round operation, and safeguard future investment.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   A balanced mix of golf and other recreation uses will ensure that A F Thomas Park evolves into a truly

   inclusive and multi-purpose community asset. Retaining golf while introducing a wider range of recreational

   opportunities will maximise use of the park throughout the year and attract a more diverse group of users

   across different ages and abilities.

   In particular, it is strongly recommended that gymnastics be identified as a preferred sport to be

   incorporated within the redevelopment plan. Gymnastics provides broad benefits for youth development,

physical literacy, and community wellbeing, yet suitable facilities in the Auckland region remain limited.

7. **Which Park lease approach would you prefer?**

   Lease some land and keep some under Council control

   Tell us Why

   A mixed approach would balance community access with timely facility development. Leasing selected areas could attract private investment and accelerate delivery of quality facilities, while Council-managed land ensures affordability, inclusiveness, and long-term flexibility.
   Council-controlled areas should prioritise community and youth-oriented sports such as gymnastics, which has strong local demand but limited facilities. This balanced model would deliver both financial sustainability and equitable recreation opportunities for the wider community.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Gymnastics should be included as a preferred sport in the future recreation plan for A F Thomas Park. It's a highly popular activity with limited suitable facilities on the North Shore. Providing an indoor or covered space for gymnastics would deliver strong community benefits—supporting youth development, year-round participation, and inclusive access—while helping create a diverse and sustainable recreation network for the area.

   This is the only option that allows space for a future, flood-resilient Eventfinda Stadium. This is vital for North Harbour Gymnastics, whose future depends on having a secure facility. The current Eventfinda site is in a flood-prone area, and another major flood could render it uninsurable and unusable, impacting hundreds of families who rely on it to practice their sports such as gymnastics, basketball and cheerleading, among others.

   This option offers a smart, forward-thinking approach that allows using the wetland soil to build a higher, safer platform for a new Eventfinda stadium. Gymnastics plays an important role in our community, and protecting this space ensures local families can continue to enjoy the sport for years to come.

   This is the only option that provides secure space for a future elevated site for a new Eventfinda Stadium. This is essential for North Harbour Gymnastics, which relies on that facility to operate.    This makes the best long-term sense, as it allows using material from the wetland project to create a flood-safe foundation for a new Eventfinda Stadium building. Gymnastics is a key sport in our area, and ensuring there's a stable venue for it will benefit the community well into the future.

   Golf has a long tradition in the park and while I don't play the game, I appreciate the greenspace and the legacy. North Harbour Gymnastics has produced several high performance national and international athletes, raising both the reputation of the gym, as well as benefits to the area including people coming from other parts of the country to attend the gym. It has relationships with local schools from primary up, as part of their physical education program which adds to the schools' reputations. Participants start as young a five and develop important skills as a consequence of this sport, academical, physical, discipline. This is the perfect location because it is central, with adequate parking and is one of the most used facilities in the area for other sport. With a growing population, we must prepare for the future growth of Auckland, not just as an area on the other side of the bridge. The North Shore focus has been significantly diminished in comparison to the promises made when we because a super city.

I totally endorse the importance of sufficient potable water, wastewater management and flood protection, which past central governments appeared to have taken a laissez-faire approach to, until things break, leaving the bad news to future elected officials.

We have had some great local boards in the area and I hope they get support from Council of the larger city. I recognise Scenario one requires some compromise to golf, but they do take up a lot of space, and to be frank, while I don't know the numbers, I suspect that the driving range has a lot more users than the full 18 holes. A compromise still allows them to play their sport.

If the Events Centre parking or area was diminishes, North Harbour Gymnastics would have nowhere to go. It is also a busy centre in the way of other popular sports which enjoy a strong spectator following, which also impacts the local hospitality industry, just as other locations like Eden Park does. Ironically Eden Park was a major argument for spending NZ$5.5B on the CRL. How does that sit with Council's commitment to the sum of all other sporting locations in Auckland?
Please vote for a future that is much more than golf with option one, allowing the status quo, and perhaps growth in the event center catering for other arts, without diminishing the current organisations that use it.

   Keep all land under Council control

   Tell us Why
   Keep all land under Council Control. Once land is sold off, it risks being eventually used for more unsightly high density housing and we need to protect our greenspace and flood protection.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   Green areas are disappearing in Auckland as a consequence of highly profitable real estate development opportunities. residential growth can't be supported without adequate water, stormwater, wastewater and other facilities. We know significant weather events are going to

get worse, so the park should at the very least be self protecting, and parts of the land, including reducing the golf course to 9 holes, can be used to support other essential land uses.

   We need space for a new Eventfinda building - if Eventfinda stadium remains in its current location, which is lower than the planned wetland, it is at high risk of flooding.

   This would leave North Harbour Gymnastics and other clubs that use the space for basketball, cheerleading etc. with nowhere to go.
   With this option, the council can use soil from the new wetland to build a higher, safer platform for a new, modern Eventfinda Stadium. This secures the building from future flooding risk.

   Tell us Why

   This is the only option that secures future space for a new, flood-proof Eventfinda Stadium, which is essential to the survival of North Harbour Gymnastics. Without this provision, the current Eventfinda site—already at high flood risk—could be forced to close if further flooding occurs, leaving the club without a home. We need a practical, sustainable solution by using soil from the wetland project to raise and protect the new stadium site. Gymnastics is a vital community sport for hundreds of local families, and ensuring a safe, long-term venue is critical to its future in our region.

   Thd big flooding event showed where the water will go. We need to build resilience by listening and planning for this to happen again not build more concrete and reduce green spaces, as is currently happening

   It's currently a large green space in a noisy, heavily-developed area. It's also visible as a pleasant green space from the motorway. You must keep it green and natural. Do not pave large areas eg as basketball courts. Do not put up large buildings. I would like much of it to be available for quiet activities: walking/ picnics/ seating to view the ponds/ access for children's activities. Include a deliberate policy of encouraging wildlife: open water, wetlands, native plantings etc. Create islands in ponds for waterbirds to breed safely. Provide ramps for (flightless) ducklings to be able to get out of the ponds onto the surrounding land. (There isn't good access at some ponds on Link Drive.) Some pest control.

   My main concern is retaining Eventfinda as a basketball stadium. We are so desperately short of basketball courts in Auckland and losing this on the shore would limit how much basketball could be played. Unless an alternative venue was found the kids would lose the opportunity to play and progress through this sport as they do now.

   Recreation is important for our health - it provides social contact and fitness,

   People don't think of this but also it saves money as people who put in the effort with those sports cost the rest of us less in that health issues are much less likely ie hospital or doctor's visits etc
   A cadre of older citizens playing golf are much healthier. Younger citizens are not playing games on screen at home if they're on the golf course.

   The current golf course is very heavily used and is the only public course in the North Shore area. The proposed wetland changes were introduced as a "done deal" by council without proper public consultation. Alternative options offered by the Golf course supporters have not been properly considered by council. Other flood protection measures installed by council in the Wairau valley have not worked and it is highly likely this one wont either. One of the reasons put forward is to protect buildings in the Wairau valley from flooding, including the illegally built Pacnsave Supermarket which massive impermeable footprint greatly impacts on the flood risk. Perhaps this Supermarket, built without planning consent, should be removed and turned into a wetland, rather than impacting the many thousands of golfers who have been using Thomas Park for more than 40 years.

4. **What type of golf would you most like to see provided at the park?**
   Other, please specify: Keep existing course and reconsider options provided

5. **What other type of recreation would you most like to see provided at the park?**

   Other, please specify: Most of these options will include non permeable areas further exacerbating the SW issue. The best option is maintain an 18 hole course with a revised stormwater plan.

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Organised recreation - space for organised sport or clubs

7. **Which Park lease approach would you prefer?**

   Lease all land to commercial operators

   Tell us Why

   The previous leaseholders have done a very good job of providing a public facility, with major upgrades over the time of their tenancy. This proven model should be continued.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   The council has engaged with consultants behind the scenes, made a decision about introducing a wetland without any genuine public consultation and never genuinely considered alternatives. Based on previous storm water management projects in the Wairau valley, Link drive swamps, Sunnynook Park detention, detention tanks adjacent to golf course etc. it highly likely this latest proposal will equally fail to deliver the required impact. Council have not been transparent during the initial stages of this proposal, prior to making a decision. A peer review should be undertaken of the proposal as well as the decision making process.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Our family and thousands of other families use the eventfindef stadium and north harbour gymnastics club 5-7 days per week

   It's vital this is retained for sport entertainment expos and community events in my opinion the golf club should go or only have a small section of the new park facilities

   And turn it into a large park abd use nature to help control the flooding in the area for good! We need a nature Sinks!
   Thankyou

   If NHG Gymnastics and a new Eventfinda building are not included in this plan, Eventfinda will remain in its current location, which is lower than the planned wetland and at high risk of flooding. The future of NHG depends on having a flood proof stadium. It was severely impacted in the last floods.

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly golf with limited other recreation uses

   Tell us Why

   In Auckland City there are limited public golf courses for people to learn to play golf or play golf without paying expensive green fees on private golf courses (average $70+).
   This limits golf entry for many people and as I learned to play golf at Takapuna many years ago it started me on a life long hobby.

   Ultimately, I want to see provision for a new, flood-proof, future-proofed eventfinda stadium to continue as the home for north Harbour gymnastics. My daughter has trained with this Club coming up ten years, and the caliber of coaching and training, the community connection and facility-use and the standard of sporting enjoyment and achievement is second to none. The recent experience of the gym flooding was so hard of the gymnasts, coaches and club as a whole and I'd hate to see that happen again and for the club to not be able to continue. Please factor in this important, high-skilled sport and ensure its continued provision and its future in your plans. Thank you.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Please plan for a new, flood-proof eventfinda stadium home so north Harbour gymnastics, basketball and the many many epic events can continue to flourish.

   Leasing land has the tendency to lock out the public. Leasing is fine if the leaseholders are eventfinda /nsec, bowling club, golf

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   There's potential to keep golf & wetland (you could make a stunning golf course here: a wetland golf course) there's certainly space to put wetland into and keep the existing recreational uses.

7. **Which Park lease approach would you prefer?**

Lease some land and keep some under Council control

Tell us Why

If you use basketball as an example if they had a long term lease with rights to renew then they have the ability to plan more and grow the community base of users maybe potentially if the council was open to allowing them to buy the facilities where by freeing council funds for other projects.

   As with most council "feedback" opportunities, this one works on the basis of "This is what we are going to do - how many people will it upset? Your proposal isn't a proposal, it is a forgone conclusion. All we can get to do is haggle about the fate of the edges.
   New Zealand is a rarity in that we HAVE public golf courses and they are affordable. True, there are private courses fairly close to Thomas Park but they are expensive and out of reach for many. Your proposal is to knobble one of the best public courses in the country to protect structures from damage in rare events, damage that wouldn't be possible if previous councils had managed where it was possible to build properly.

4. **What type of golf would you most like to see provided at the park?**
   18-hole beginner/intermediate golf course (approx. 54-60 par),Driving range,Other, please specify: 18 hole course.

5. **What other type of recreation would you most like to see provided at the park?**
   Other, please specify: You can walk on a golf course

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Affordability - providing low-cost or free activities,Nature - protecting or enhancing the natural environment for people and wildlife,Other - please specify: Golf is organised & played in open spaces, and safe. You can enjoy a walk on a golf course whether you play or not.

7. **Which Park lease approach would you prefer?**

   Keep all land under Council control

   Tell us Why

   Operation of the course and the static facilities can be tendered out, the asset should remain with the council.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   There are few public areas used for golf and the courses themselves provide nice, natural areas for enjoyment - naturally equitable and not colour conscious. Golf is the 10th most popular sport in the country and much higher if you exclude team sports, only behind tennis. It deserves better treatment than what you propose!

   I learned to play golf on a course like this one. The city has a responsibility to own and operate public golf courses. Auckland City only owns two courses; Takapuna and Chamberlain Park. This is inadequate. If you go ahead with this ridiculous scheme you will deny tens of thousands of golfers but give little to others. This golf course is 90 years old - it should be given heritage status. Keep it an 18 hole golf course.

   What a travesty. All your talk about other recreational activities is just empty air. You want to wreck an asset that turns a good profit to the city, and get nothing back. This is outrageously bad government.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Regarding Takapuna Golf course: I remain in total support of leaving the course just the way it is and building a wide drainage channel parallel to the motor way to drain any flood waters that may occur.

   In the past few months I have gone from disbelieving but hopeful, to cynical, to disgusted with City Council. You duped Healthy Waters into proposing an expensive solution of unlikely workability, then disregarded the golfing community's affordable, workable, solution. Only two words can possibly describe your approach to this issue: incompetence or corruption. I cannot prove the latter and doubt any has occurred yet; it will come when someone has a chance to profit from excessive expenditure of my taxpayer dollars. As it stands, only incompetent people would believe storage of flood waters is better than draining them away.

   Having watched this process unfold has been rather sickening. I would beg you to come to your senses but I believe the cause was lost before public announcement. I tried to vote you out but wasn't in the proper electorate.

   Just use the area for Golf as it is at present with minimal change to the Course.

   The current Golf Course has served The Auckland Region well. Retain as much of the existing Golf Course as possible.

   There are many other Recreational facilities available in the Auckland Region.
   Use all necessary Financial Resources to create a large Drainage By pass to Drain all run-off stormwater From The Golf Course Out into Auckland Harbour - Discharge point could be Opposite Esmonde Road (120 metres South-west from Fred Thomas Drive / Esmonde Road intersection). Pipiline would be 2600metres Long approx (Much less if you use existing water courses for Drainage / Stormwater Run-off.

   As Auckland continues to grow the options for people interested in golf to access an affordable course where they can learn the game are reducing, Takapuna is a tremendous asset to Auckland, I learnt to play golf here 46 years ago, my kids did the same.    Golf has a limited range of users and it would be good to open the park up to a wider range of North Shore residents. A golf course has a relatively high maintenance cost and a blend with other uses would encourage voluntary involvement as experienced with Centennial Park in Campbells Bay. More bush would encourage other activities as well as support wildlife, especially birds, and help more with addressing climate change management.

   We need a venue that the kids can continue to train and compete at in their chosen sports - specifically for us, that is gymnastics and basketball. If council is unable to provide this, then a commercial operator would be the best option.

   The current course is much loved by me although I haven't used it in a little while now as I have recently returned to the country however I couldn't live without some form of golf course at this very handy location to all parts of the north shore and Rodney where I live and I think a redevelopment of golf with other recreation is definitely feasible and most suited given the size of the park and the current shape it is in with more than just golf being a great idea

   I think I am a fence sitter on privately funded ventures vs council operations here mostly because I like a mix between the two as I see having revenue generation for the council as key but having cheap and easy to access facilities provided by the council and funded through taxes as a more affordable option for me presently

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly golf with limited other recreation uses

   Tell us Why
   It is a good spot for a cheap accessible golf course that I used a lot when I started playing, there are so many other places to walk, and ride bikes that this space isn't needed for more walking. There are only 3 golf courses on the north shore with 1 being extremely expensive so without takapuna golf course it is much harder to play the sport. Golf is also growing extremely fast and removing one of the most popular courses is a terrible idea.

4. **What type of golf would you most like to see provided at the park?**
   9-hole traditional golf course (35-36 par),Driving range,Short-game practice area / putting green,Other, please specify: there should be room for a par 72 course it would be achievable with a small amount of design and is not as difficult as people think, it just needs to include lots of water hazards that are used at stormwater ponds

5. **What other type of recreation would you most like to see provided at the park?**
   Outdoor sports courts (e.g. basketball, netball, pickleball)

7. **Which Park lease approach would you prefer?**

   Lease all land to commercial operators

   Tell us Why

   council will spend too much money and not get enough done, give it to commercial operators who will have a plan and be able to work on it much faster, paying user charges is fine as long as they are reasonable and the commercial operators provide the community with what they want

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   It needs to stay as an 18 hole golf course and have other golf related activites, it would be a bad idea to use it for any other recreational use as they all already have countless numbers of places to go for walking, biking, etc.

   golf is growing, and will increase more with the aging population. it is a great health option pre serious conditions and enjoyed by the growing diverse communities. the biggest need is indoor facilities, for indoor sport and recreation. unfortunately politians and councillors have let the majority poorly down by not ensuring quality accessible infrastructure for activity. consequently the poor council decisikns have led to the major health problems and illnesses in the city making auckland one ofbthe worst cities to live .. hence all the kiwis moving to aussie.

   need to have a governamce model thay allows the services required for sport , recreation and golf to happen. council need to contribute to make up for the shambles of the past. what we dont want is people ripping the community off making off housing but not paying fornthe community infrastructure required.

   Takapuna golf course is essential to golf in Auckland. It is a cost effective, non-pretentious, option that is central.
   I also believe EventFinda stadium is crucial to the area. Events and grass roots basketball and gymnastics is commonly used. This needs to be invested in to ensure it's long term viability.

   The stadium is such an integral part of the North Shore. Basketball courts are already lacking in supply, if Eventfinda goes, so many kids will miss out on playing one of the fastest growing sports in NZ. It is also the home of Harbour Basketball, which has produced numerous NZ rep level players.

   You could explore a social investment model whereby investors pay for the building and are paid rent with returns maximised depending on how long leases are for - e.g. a long term tenant like Auckland Council could pay ongoing rent but doesn't have to cough up the initial build cost as this will be taken on by investors.

   The flooding can be mitigated by redesigning the grounds as a soak hole in the event of flooding as they do in Manhattan Beach golf courses (LA) and here by keeping it as an active golf course for the vast majority of the time.

   For the very limited times it floods, the change proposed is totally over the top.

   It’s not an easy choice as ideally any facilities should be open to all at lowest cost possible. To encourage people in the community to exercise. You want to see all kids given a chance. However, Auckland is a big city and there are many competing demands for budget. I think a mix of some facilities under council and some leases to private vendors makes sense.

   With more houses and less gardens and play space for kids we need basketball courts for our kids..They need to have space to play basketball. This will help keep them out of trouble and raise endorphins by running around and playing with other kids.Buildjng friendships and keeping them active and healthy.

   Because my husband and children play golf and my children play basketball for school and represent NH basketball so play a lot. There is already not enough courts for bball - the games can only be 20 minutes long which is too short for the kids. We should be able to offer more than that!

   A balanced mix of golf and other recreation uses

   Tell us Why
   There are limited sports facilities and recreational spaces on the shore. This redevelopment has the potential to continue to cater for hundreds of different types of users. In particular indoor spaces are in short supply. Basketball is NZs most rapidly growing sport and there are not enough courts available for the demand, particularly during competitions. Most often competitions have to be at the Pulman arena over many days meaning long travel distances. A wetland development that protects the arena from 10 yr flooding weather events is inspired, future proofed design. I like the idea of creating more recreational facilities alongside a nine hole golf course too.

7. **Which Park lease approach would you prefer?**

   Lease some land and keep some under Council control

   It is important to keep land within council control so it still provides the facilities Northshore requires. Leasing is a good option, but not all the land will be appropriate to lease for commercial purposes.

   Once or twice a week

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly other recreation uses with limited golf facilities

   Tell us Why
   All my. It's are Basketballers with big success to National Titles level. They all play at Eventfinda and I always watch. Also watch Breakers and Tuatara games . Play casual Golf at the course plus use driving range

4. **What type of golf would you most like to see provided at the park?**
   9-hole traditional golf course (35-36 par),Driving range

5. **What other type of recreation would you most like to see provided at the park?**
   Indoor sports courts (e.g. basketball, netball, badminton, gymnastics),Outdoor sports courts (e.g. basketball, netball, pickleball)

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**
   Affordability - providing low-cost or free activities,Nature - protecting or enhancing the natural environment for people and wildlife,Organised recreation - space for organised sport or clubs

7. **Which Park lease approach would you prefer?**
   Lease some land and keep some under Council control

   Tell us Why

   Minimise dept, continued access to basketball etc which already has minimal facilities for the participation number.
   Golf also need to remain for the casual weekend hacker!

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   Don’t screw things up too much!

2. **How often do you use the park?**
   Other, please specify: Use events centre for events not the actual golf course or park

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Other

   Tell us Why
   I think the main priority is to use the golf course and grounds to help flood protection which obviously is a major isssue in wairua valley,milford and surrounding areas but events centre should be retained as widely used. Way more people attend the events center than use the golf course

4. **What type of golf would you most like to see provided at the park?**

2. **How often do you use the park?**
   Every day or most days

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly other recreation uses with limited golf facilities

   Tell us Why
   Golf, whilst a great sport, still attracts limited audience, especially Youth. Other sports like Basketball at Eventfinda have thousands of users, mainly the youth. By investing more into the sports with bigger demand and wider Social reach, Auckland Council can do the right thing for the future of sports and recreation in this city.

4. **What type of golf would you most like to see provided at the park?**

   Tell us Why

   If this can help better access to more sports facilities in short term, it will add value

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Park needs expansion for the activities with high demand, to support growth of sports like basketball in our city.

   Lease some land and keep some under Council control

   Tell us Why
   A place for indoor and outdoor sport and recreation alongside Council control over the wetland would maximize the benefit for all. Health and wellbeing would be the main focus. The biggest value for money, for the space being used.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   Auckland currently lacks 73 indoor courts. We urgently need more indoor facilities. Depending on the space available, could A F Thomas Park help towards this, along side golf and wetland?

   There is a small number of people to use this golf space, as opposed to the large volume of children through to adults to use the Eventfinda stadium facilities. We currently have basketball games in so many different locations as there just isn't enough space to cater for all the teams in the primary school basketball league at Eventfinda stadium.    The ability to access this areas amenities is critical. The Eventfinder stadium particularly host significant basketball events with hundreds of people every month - this sport is struggling as it is to provide adequate space. There must be a solution for this.
   The gold course and driving range is an important public access space for leisure. While on a flood plane a shared solution would seem best,

   I would like the park to be retained as an 18-hole golf course while also functioning as a genuine mixed-use recreational environment. An 18-hole layout does not limit wider public use; many international examples show that golf and broader recreation can successfully coexist.

   A strong precedent is North Inch Golf Course in Perth, Scotland a full 18-hole public course that sits within a city park and integrates walking paths, cycling routes, dog-walking, and open park space. It demonstrates that a well designed golf course can remain fully intact while still providing diverse and accessible recreation opportunities for the wider community.
   In the same way, Takapuna Golf Course can continue to operate as an 18-hole facility a valuable and well used sporting asset while enhancing public access, nature trails, and passive recreation around and through the course where compatible. This approach preserves the park's unique green open space and landscape character while offering a balanced mix of recreational uses.

4. **What type of golf would you most like to see provided at the park?**
   18-hole beginner/intermediate golf course (approx. 54-60 par)

5. **What other type of recreation would you most like to see provided at the park?**
   Off-leash dog exercise area,Walking / cycling tracks

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**
   Affordability - providing low-cost or free activities,Connectivity - walking and cycling connections through the park that link with the wider community,Open space - space for free play and relaxation,Resilience - supporting flood protection and climate adaptation

7. **Which Park lease approach would you prefer?**

   Tell us Why

   Council acknowledges it does not currently have the funding to deliver new recreation facilities, then it is unclear why the existing lease arrangement for the public 18-hole golf course cannot simply continue. The golf course already operates successfully under a long-term lease model, with the operator funding, maintaining, and managing the facility at no direct cost to ratepayer, exactly the type of model Council is now suggesting for future facilities.

   I am also concerned that the consultation frames the choice as "wetland restoration versus retaining an 18-hole golf course," when these outcomes are not mutually exclusive. The course already provides extensive green space and could continue to coexist with ecological restoration, walking connections, and passive recreation, as seen in many international mixed use golf park examples.

   Most importantly, Council needs to be open and transparent about how it is determining the outcome. The process must clearly demonstrate that options are being assessed fairly, that community feedback is genuinely informing decisions, and that there is no pre-determined direction. At the moment, the way the options are presented makes it feel as though the removal of the 18-hole course is already assumed, rather than evaluated alongside other viable alternatives.
   I would prefer a decision making process that is genuinely evidence based, unbiased, and transparent one that properly considers retaining the 18-hole golf course under a continued lease arrangement, especially given that this model already works without requiring new ratepayer funding. This what I dont think that is happening from a Ratepayers's point of view.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   My main feedback is that A F Thomas Park has the potential to continue functioning as a high quality 18-hole public golf course while also providing improved public access, ecological enhancement, and mixed recreational use. These outcomes are not mutually exclusive, and the park can achieve multiple community benefits without removing the full course.

I also strongly encourage Council to ensure that the future planning for this park is open, transparent, and based on clear evidence rather than predetermined assumptions. The community needs confidence that all options including retaining the 18-hole course under a continued lease arrangement are being fairly assessed, especially since this model requires no new ratepayer funding and already delivers significant recreational value.

In summary, A F Thomas Park should remain an 18-hole golf course within a broader mixed-use, environmentally sensitive recreational setting, and the decision making process must clearly demonstrate fairness, transparency, and genuine consideration of community input.

   My children have the opportunity to play golf and practice only because of this location, without it we would be able to afford for them to do so. They also regularly attend sports events at the stadium and my daughter attends NHG. These activities all make for them to be active and healthy. Without this opportunity for people in North Shore the social deprivation will eventually have a greater cost.

   With a bit of thought, there is space for flood control waterways, walking paths around perimeter, cycle tracks around the golf course. Many different activities can be accommodated without loosing an 18 hole golf course and turning half of the land into a mosquito invested wetland that will only be a wetland for 6 months of the year. The cost to rate payers will be huge whilst a golf course will be maintained by the users paying to use the golf course

   A pickleball court would benefit the community by offering a safe and accessible space for people of all ages to stay active and play together.

4. **What type of golf would you most like to see provided at the park?**
   None of the above

5. **What other type of recreation would you most like to see provided at the park?**
   Indoor sports courts (e.g. basketball, netball, badminton, gymnastics),Outdoor sports courts (e.g. basketball, netball, pickleball),Other, please specify: Indoor pickleball courts too

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**
   Connectivity - walking and cycling connections through the park that link with the wider community,Equity/Inclusion - a diverse range of experiences the whole community can enjoy,Nature - protecting or enhancing the natural environment for people and

wildlife,Organised recreation - space for organised sport or clubs,Safety - providing a safe environment for play, sport, and relaxation

7. **Which Park lease approach would you prefer?**
   Keep all land under Council control

   Tell us Why

   I prefer to keep all the land under council control because it ensures the space remains publicly accessible and managed for community benefit.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   I recommend considering the addition of a pickleball court. The sport is gaining popularity across New Zealand, and having a dedicated space would support safe play, organised activities, and wider community participation.

1. **How do you or your household currently use the park?**
   Walk / run in or around the park,Play golf at the golf course,Use the golf driving range,Play sport at Eventfinda Stadium,Attend events at Eventfinda Stadium

2. **How often do you use the park?**
   Less than once a month

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly golf with limited other recreation uses

   Tell us Why

   The green space of the golf course is a welcome, aesthetically pleasing, mood-boosting part of this area which has been increasingly built up.

   Many golf courses around the have already been reduced.

   This area should have a focus with golf, basketball and gymnastics in mind to retain the good those sports offer communities for culture and well being.

4. **What type of golf would you most like to see provided at the park?**
   18-hole beginner/intermediate golf course (approx. 54-60 par),Driving range

   Archery,Indoor sports courts (e.g. basketball, netball, badminton, gymnastics),Lawn bowls

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Affordability - providing low-cost or free activities,Nature - protecting or enhancing the natural environment for people and wildlife,Open space - space for free play and relaxation,Productive land use - using parts of the park for food growing or other resources,Safety - providing a safe environment for play, sport, and relaxation

7. **Which Park lease approach would you prefer?**

   Lease some land and keep some under Council control

   Tell us Why

   It seems to be the best of both worlds/mitigates risk.

   Council can be firm with their lease agreements to protect themsleves and us all.
   Don't want another Gulf Harbour Country Club or Waiwera Thermal Resort situation.

   Why do we need to develop another golf course on the north shore? It's just a waste of Human Resources to maintain this for just few players.
   I'd rather see the majority of the space use to encourage access to as many sports as possible instead of supporting just one that is so elitist, culturally outdated and questionable on the sustainability side. Build team sport courts and skateparks instead, or playgrounds.

   Tell us Why

   Indoor sport organizations need a place to belong and has to be local and accessible.

   you take away the Gymnastics and Basketball options and you are limited with options. Both organizations are strong with high numbers of members but it needs to be affordable for families to attend so it is a balance between the two. Both organizations compete at a Regional and International level so if that is gone then there is no where else local for young people to go to sport that that is competitive.

   Every other region in Auckland has a zoned area for Gymnastics and if this goes our young people at all levels of sport lose out.
   It is a great winter sport to keep people active.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Sometimes the best option financially is not the best choice for our young people involved in sport indoors.
   Needs to be weighed up carefully

   If you want to play or practice golf, please consider a venue at the outskirts of the city. Furthermore, think of Plan 120, the high tower apartment houses structure. Shortly, you will notice 2m plus inhabitants, they will need space for recreation and green areas, and less likely for golf.

   Thank of your approach with plan 120. It is council 's responsibility to provide green area to all they plan to squeeze in. Otherwise, they have to fix that future issue, best to think and plan ahead.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Get golf gone, use the space smart and available for many. Keep infrastructure as is today (stadium, basketball, gymnastics etc.) and build upon, not instead.

7. **Which Park lease approach would you prefer?**
   Lease all land to commercial operators

   Tell us Why
   A long-term lease to independent operators would make them responsible for funding, building and managing facilities (likely with user charges). This could provide higher-quality facilities, quicker delivery, and ongoing revenue to council.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   It is disappointing that council has not worked through options that are apparently available to retain the existing layout of the golf course or alternative layouts to retain a full 18 hole course. These can still mitigate flooding and include the reconfiguration of the events center. This includes poor interaction with the existing lease holders and very poor procedural issues

   New Indoor Basketball facilities must be included. The sport is growing and the current event finder stadium is the main hub in the north shore and often hosts northern wide tournaments. The sport is already struggling to find enough courts for kids that want to play which mean that kids often have to play late into the evening to fit everyone's games.

   Currently the gymnastics club and stadium are well used by youth sport - something that should be invested in and developed. Gymnastics especially as it is the only venue for North Shore youth that has facilities such as a foam pit that are necessary in safely learning new skills. Golf there are plenty of other golf courses on the shore so it seems reasonable to sacrifice some of its space for the much needed wetlands.
