

Have your say on Auckland's future transport projects

Feedback must be received by **Sunday 14 May 2023**.

Auckland Council and the Government are working together on an integrated transport plan for Auckland.

The plan aims to future-proof Auckland with a high quality, connected transport system of cars, buses, trains, ferries, cyclists, pedestrians, freight and passenger rail, and light rail. This includes immediate and pressing needs, as well as long-term city-shaping initiatives.

To help us agree on priorities for the plan, we want to hear what you think on the following:

- Guiding principles that will help decide how transport funding is allocated
- How we prioritise different objectives
- Types of projects that you would like to see funded as a priority.

We will analyse your feedback and share it with the mayor and transport minister. We know Aucklanders have been asked to submit on other major plans and projects recently such as Annual Budget 2023/2024, an additional Waitemata Harbour crossing, light rail and the Regional Public Transport Plan. Insights from these other consultations will also be used to help shape discussions.

We encourage you to give feedback online at akhaveyoursay.nz/futuretransport, or you can:
