Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

This is a CORRECTION to my previous submission. 3A is misleading and I interpretered it included Speedway being retained. So I'm correcting to 3B to the retain Speedway.

Keep this history in Auckland and make it viable for a Speedway promoter. This unique venue and sport has been in Auckland for generations - 4 generations in my family have been involved in Speedway (in the pits, as drivers and as spectators). Speedway, Ponsonby Rugby and music concerts have used the venue in harmony for years.

Western Springs speedway has to stay where it is . I've been going to the speedway since I was 5 now 64 and still go . Have raced , crewed , made some of the best mates and friends there . Have children that want to race there and also I'd love to get back into racing or some sort of commitment to the speedway at western Springs . Springs is an iconic race track known to all around the world. From supporters , racers , visitors , Motorsports heads . Western Springs speedway has created some of the best drivers in the world. All started at Western Springs speedway one is SVG . Waikaraka Park and western Springs speedway are two totally different types of racing both need there own venues .

This is an iconic spot and I've always really enjoyed the events held here. It should continue to be enjoyed as it has been in the past.

To retain some semblance of honesty in dealing with the Motorsport rather than the behaviour we have seen so far including how this feedback has been framed and decisions predetermined... Auckland risks losing a venue that has operated for generations in pursuit on the new and shiney rather than develop already existing stadia.

Western Springs has been home to speedway for almost 100 years. Just over 19 of those years I have been attending. It is an extremely fun and thrilling event that brings friends, family and people together. It should be treated as a historic venue and then some...10s of thousands if not hundreds of thousands attend speedway each year. It is simply unacceptable trying to forcefully remove such an historic venue and should be made a heritage site.

I don't go to the speedway. But it's their home, there's no reason to change it. I do enjoy concerts there though, overseas acts love that they are playing in a volcano. Any other stadium or grandstand will ruin something that is unique to Auckland, there is no other volcanic crater stadium anywhere else in the world.

I regularly attend Speedway and have done since the 70's. It is a world renowned track and to lose such an iconic venue would be a tragedy. Most people I have spoken to about it agree wholeheartedly. Keep Western Springs Speedway going!

Western Springs is a great music venue and natural amphitheatre. It would be a huge shame to see this space filled by a billionaire's vanity project. Keep public spaces that, public. An arena such as Option 1 could be put in many different locations around the city. Auckland needs to look at development that is beneficial to many, rather than a rich few.

Because there are already many stadiums in auckland and potential for a stadium in a better suited area. The public transport at western springs is not good enough for the proposed ideas. Keep it as speedway and potentially do up to be able to host more event there

I want to see motorsports stay in Auckland. I also firmly believe that having this space for car sports is a great boon for public safety. It gives drifters and boy racers a much safer, monitored, legal option to do run abouts in cars. We already have other stadiums, work on expanding and maintaining our other stadiums. This should remain a motor sports facility. It is good for public safety and entertainment.

I do not want to see it privatised - rich just flash and cash and expect to get what they want, not taking into consideration generations of history. Take your money somewhere else!

Option 2 preferred as this offers an improvement on the current proven set up at Western Springs. Leaves the venue suitable for a wider range of activities sports/cultural/arts.

Option 1 only looks suitable or more financially viable if a sports team or more can continually fill this venue to support the facility. Unless the sponsors are bonded for the first 10 or so years, who is to say Auckland doesn't end up with another Albany or such.

I like the community based approach. Allow kids to play their rugby in a space they can see as they travel past in the car. It's something my own son aspired to do whenever we came off the motorway or travelled up the Bullock Track when he was young, knowing his 4 elder stepbrothers had played for Ponsonby Rugby. "Go ponies" was a well known rallying cry in our family. Taking that away from kids by providing a closed in arena is hitting the community at grassroots level. Moving Ponsonby Rugby would require the club to leave a solid base where kids and adults have trained, played and watched games for free for decades, forcing them to limit playing numbers and growth. When a successful rugby club - the most successful rugby club in New Zealand, is cut

off at the knees, it filters up to destroy the most successful rugby team in the world - the All Blacks, a team that brings pride and glory to New Zealand. There are currently at least 2 All Blacks who played for Ponsonby Rugby, Patrick Tuipulotu and Rieko Ioane. Auckland Council has the opportunity to keep tradition, support grass roots rugby, grow NZ pride in our city and nation, and keep the focus on the people, not on building private wealth. The added benefit of upgrading the facilities for community events is so attractive. I've attended many events at the stadium. Providing such a space brings that sense of community, getting kids off their devices and allowing them to experience the joy of being with others. The kids coming through now have lived through a Covid pandemic with lockdowns and loss of community. Option 2 is just what they and we as their guardians need. Keep the focus on grassroots and you'll bring back what really matters - people and community.

What a terribly biased public consultation survey.

I have no attachments to any of the options but the person who wrote this clearly has: option a "state of the art" & then you suddenly introduce 3b which as i understand it is to keep the survey.

The council should stop this process & hire an independent non biased person to run it

I feel Auckland, in general, is lacking world-class sporting and stadium facilities. The Auckland Arena represents an exciting departure from the 'status quo' and gives our exciting new professional team, Auckland FC, a home they can call their own amongst a key fan base. Only question is whether the stadium is big enough!

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I attend events at the stadium or its sports fields

There are three options to consider

Which option do you prefer? Select one option only.

Option 3A: Neither Option 1 or Option 2 - keep things as they are and retain current arrangements

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

The Speedway has always been at Western Springs and I dont see why it should be moved to a new venue to accomodate other options. Western SPrings has always been used for other outdoor events successfully too. It is a unique venue. We have plenty of other vneus that provide sports facilites like North Harbour Stadium whihc is totally under utilised and well served by public transport so why not redevelop this facility for soccer etc. Eden Park & Mt Smart are both suitable options for large concerts & crowds and it seems pointless to start from scrtch to build a new faiclity when the current ones are being updated.

Motorsport in Auckland has been treated poorly with closing of the Pukekohe track recently.

It now means that anyone wanting to attend a motorsport event can no longer get there by public transport as Hampton Downs is not serviced.

The Auckland Arena is very appealing - However displacing the rugby club and that history is not palatable. Is there a way to include the club and the other groups who have long-standing affiliations with the area, in an Auckland Arena proposal?

Because what Auckland does not need, is another, (what would end up being very private), space where only limited people can access. hire/usage costs would be high. Option 2 is great as it wont turn into Eden Park/Go Media Stadium, where its predominately all about sport being played there. Rich people wanting to do rich people things does not sit well with me.

Ideally, the speedway would not have left Western Springs, however it is what it is.

Having a stadium in the middle of the suburbs at all is a silly idea. Turn it into a park/basic sports fields that clubs can maintain, and spend the money on building a stadium in the CBD instead. Also, I don't think it's ethical to be blasting concerts next to a large collection of animals in confined spaces - too many times I've heard from zoo staff about their animals injuring themselves after getting scared by the noise coming from Western Springs.

Prefer the space to be more public, more cycling, trees, playgrounds, family picnic facilities, community gardens, environmental use, Maori projects, educational facilities. Please no huge infrastructure projects resulting in more traffic, massive carparks, exclusive events... more gardens (see Hamilton gardens as an example of stunning design and tourism success), leave some sports fields for community/club use.. make the area beautiful, more native trees, expansion of facilities for Pasifika festival e.g permanent hangi pits, Fales, etc.

Rugby has been tapping into the ratepayers purse for far too long. As its a BUSINESS let the pay for use of facilities on a one time basis just like everybody else. Let this land be used for EVENTS as a prominent use....letting other sports code use it on a first come first served basis.

Why do we need another inner city sports stadium / concert arena? Both Mt Eden and the Spark Arena are less than 5km away and Mt Smart is a small distance further.

There are no rail connections and very little parking at Western Springs. It is difficult enough to find parking for the Zoo or MOTAT already, and I can't see any provision for parking in the proposal.

If Auckland needs a large purpose built sports arena / concert venue, build it outside the city with good transport links and plenty of parking, such as near the airport. Use it as a catalyst to support

a rail link to the airport that is desperately needed. Get Auckland FC as the anchor team to help fund it.

Leave the Western Springs rugby field as it is for a local team and community to use, sell the surround land to help with the housing crisis and use those funds to build a rail link to the airport.

I think that so many children are playing football these days and this would provide a place in Auckland for a home for this sport which is much needed. However I think that this option would reduce the concert capacity in Auckland which I have taken into consideration, I also think that 12500 - 15000 may not be enough seats for the sports stadium also but I still think that it is a better option.

Speedway is very special to Auckland and this is the very best venue by far for it, Waikaraka Park is a joke, it does not matter how many 10s of millions of dollars that would be spent on it it will be a third rate venue and an insult to this world renown sport.

Auckland already has many sports venues and does not need another. If Eden Park refresh was not going ahead, one of these options might be viable, but as it is, it's just pouring yet more funds into the "sports" bucket. And many people, including me, never go to any sports events and have no interest whatsoever. Far preferable to spend the vast sums involved on the zoo, or museums, or art galleries, or outdoor spaces such as regional or local parks. Good to have venues for outdoor events such as large concerts, Laneways, WOMAD, Pasifika, Lantern Festival - but no need for these to be sports stadiums.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1 - With Auckland City Council rates so high as they are, my preference is to have the new facility entirely privately funded. The Council should seize this opportunity to build a great Auckland asset using third party funds.

Option 2 - I do not like Option 2 as it requires Council funds and allocates too much influence to one Auckland rugby club, Ponsonby.

Option 3 is silly - the venue cannot stay as it is.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 2 allows for a mixture of sporting and cultural events which is important for Auckland. Secondly, it is important and fitting that Ponsonby Rugby Club be able to continue its use of the facilities and it would be beneficial for Auckland to be able to see the history behind such an institution. Thirdly, it is clearly a less commercially oriented proposal than Option A.

Who are you clowns?

ASKING is NOT APPLICABLE IN THIS CONTEXT -

Why do you ask for the “say” when you are occupying the public land via illegal buslanes, bike lanes with illegal road works deliberately covering the buslanes? Prevening the law of intelectual property & access to safety in this action?

Intentionally planning designing hazard causing harm in the lives of the NZ people?

Did you ask the people if you could infect the clean environment with the illegal bike & buslanes? & with your conflict of interest access, continuing to, over occupy with calious, neglect lack of any Conscience, morals &/or regard to the FUTURE PEOPLE & the ENVIRONMENT??

Seem to be forgetting your position of COUNCIL WITH ACCESS TO the highest importance to clean healthy living of the now & forward future,

Your position of COUNCIL IS TO MANAGE THE COUNTRY To the best of your access ability

To a SAFER CLEAN HEALTHIER ENVIRONMENT st the “least”

with FORWARD STRUCTURE OF This ONLY -

Any all public lands are to have that intention ONLY”, therefore asking in this patronistic way can only be illegal!

At this level of your position is now obvious and accentuates as in highlights your disrespect for you position you are given.

What would you tell your own grand children if your blessed enough to have any”

That you deliberately CONSISTANTLY damaged & occupied their lands affecting the air, they probly are not able to breathe?? (Then)

Absolutley incompetance or purely corrupt!

Should be ashamed of yourself!

Note

This email from council is illegal context from council

Hope you have a healthy life

You horrible people!!

I support this option as it a private enterprise and will not require Rate payers financial input.

It will add value to the Auckland City.

In addition I was employed by ATEED in Economic Development and know how thoroughly Council look at all options and have come to the conclusion that option is the best.

I do feel sorry for the Ponsonby Rugby Club missing out but they were aware that their Lease would expire and have possibly made alternative arrangements.

What is your connection to Western Springs Stadium? (tick one or all that apply)

I attend events at the stadium or its sports fields

There are three options to consider

Which option do you prefer? Select one option only.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

This option relieves the council of the burden of this site, and provides a fantastic new home for AFC and the community. It's the only option that doesn't add cost to ratepayers

Because it is a new idea and privately backed. The Western Springs Bowl was great in the 1970's but it is past it's use by date. Getting Football going in this city is a great idea to encourage young people playing Soccer to further their careers internationally, sadly Rugby has also had it's day,

To support the growth of professional sports other than rugby in Auckland. Football is the fastest growing sport and is under served by modern Auckland Council facilities. Option 1 is fully funded and demonstrates a saving to rate payers over the life of the asset, rather than costing rate payers. I believe the high performance sport facilities will create significant investment and economic benefit to the region, and fill a critically lacking element within NZ sport.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I believe that both options have merit; having previously been involved in junior rugby at Ponsonby for a number of year - I can vouch for the incredible sense of community that club has created - that needs to be preserved. That said, most teams didn't like playing on the outer fields in middle of winter - Cox's Bay was the preferred venue for games - if the club were to move to Cox's Bay would they be able to re-create similar club rooms - that would be essential. But the idea of private investment upgrading the fields and creating a central venue for other sports events like Basketball and one assumes the AFL would bring a lot of people and money to the area

- and that cannot be ignored - but is a 12 - 15,000 stadium bigger enough and does it future proof the venue and the 100 year lease?

Retains rugby club connection and allows for an alternative live music venue to other stadiums.

There is already a surplus of football (rugby, league, football) sports stadiums in Auckland with North Harbour, Go Media and Eden Park. Current Auckland FC crowds exceed planned capacity.

Not interested in privatising a community / public space. I think option 1 is about rich people making money out of our public spaces, and I think it will become elitist and not very community focused if that option was taken. It's all very well being paid for privately, but at what cost in the long term to the community? I like the idea of option 2 because the backers are in the entertainment/sports area and know what's needed. Maybe they don't have millions of dollars, but I think they will have the community's needs and wants in mind.

I am a rugby fan, and a football fan. I have had family coach at Ponsonby and a son who has played football for NZ at the U20 World Cup. I genuinely believe a dedicated world class facility for the Auckland FC at Western Springs will an incredible asset for the city. The economic benefit for the city will be unbelievable because the team is so well resourced. It won't be a struggling entity like the Phoenix who struggle to attract players of quality to their club. I have missed only 2 games this season and the engagement of young kids and families is unlike anything I have seen with any other sport.. There is a real opportunity to create a legacy team/club, which is something that is dying in rugby (sadly). Rugby is my favourite game yet I have been to only 1 Blues game all season.

This is the power of the biggest game on the planet. Auckland now has a fantastic opportunity to help create a team/stadium for the generations.

The missing ingredient to a successful stadoum strategy is a boutique 12000 to 15000 seat stadium. I would support provided the stadium is also able to be used for other sporting codes eg the blues and Auckland NPC rugby teams as well as the football club

I also suggest that part of the approval for the new stadium is a requirement for better activation of the stadium Fringe and a much nicer facade/entry into the stadium and public use of the field during out of hours / off season. The stadoum. Buildings need to be sympathetic to the environment and not just a box.

Stadiums and assets need to be commercially run and provide benefits back to the council beyond just amenity - this options forces a commercial outcome and increases the ability for Auckland to host more events and concerts. It is a huge piece of Auckland so central that if it has to stay to meet several needs the whole operation needs to wash its face and not rely on rate payers to fund

Better facility for the future. Auckland FC needs a new home as do other modern sports. These are most important than club rugby. The history was great at Western Springs, but it's time to move on.

It needs to remain with speedway. There was no reason to take out speedway if you are still thinking of having loud and noisy entertainment on the site.

This is the traditional home of speedway and served a very vital facility for the people of Auckland

Auckland needs private investment into providing concert & sporting facilities. The Eden Park/Waterfront stadium debacle proves this. By following a model that has been successful internationally the Auckland Arena could finally break this deadlock as well as prove to overseas investors that NZ is serious about providing high quality venues. Additionally it provides a significant saving to the Auckland ratepayers. n

I am definitely not in favour of Option 1, because I oppose the idea of a for-profit leasehold arrangement on the land for up to 100 years. I would be open to Option 2 is best because it provides for some affordable community sport in a classy venue - but Western Springs, so close to the Zoo, is not the right place for open air concerts. In choosing Option 3B I don't want to see Speedway return... but I regret that I don't have other ideas.

I feel that this is an important Auckland taonga and once lost, we can never get it back! This is such an awesome venue for concerts and speedway. If it must be changed, I would go for Option 2 to keep the natural amphitheatre feeling and the ability to host speedway in some form or another in the future, but above all else I would like to see it unchanged. I feel the Council have not listened to the public with this regard and this will definitely reflect the next Council elections on this one matter.

The Western Springs land was given specifically to be used for speedway.

It is world renown and drivers from around the world attend every year.

It has operated for over 90 years so to have residents around the stadium complain about the noise is ridiculous for the amount of meetings there are.

Attendance by the public is strong and to have the mayor say only 12,800 people attended all last season is completely wrong - that number and mostly more attend every meeting.

It appears that certain details about the stadium were kept from the Councillors who voted against keeping the speedway where it is. The 3 Councillors who originally voted against

the motion would have changed their vote if the information was disclosed at the time.

That alone means the speedway would survive. The proposed move to Waikaraka park is

a travesty. There is no way that venue is suitable to run both speedway and stock cars.

The number of young drivers coming through is huge and to stop that would be a tragedy.

This venue is encouraging drivers of the future so why would we cut off a venue that is purpose built and well run?

This option will continue to allow excellent community presence, notably the Ponsonby Rugby Club. Ideally the AC could elicit fund raising obligations from the Club so it can expand facilities to include additional sporting codes for both men and women.

Alternatively, the AC commits capital to include additional facilities and adjusts the lease to compensate the rate payer.

The idea of the summer period being available, primarily, for concerts has real merit. Are there any limitations for number of events, as there currently are with Eden Park? If not, please accept my full support.

Option 1 will be hosting football league games during their summer/autumn season, and this is incongruous with the usual concert 'season', therefore their offer requires additional information and clarity regarding access for concerts and promoters thereof.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I feel that a community based complex, rather than a more commercially driven stadium specific to one sports code, is fairer to most Aucklanders. Over the years I have had my children regularly play rugby and cricket at Western Springs and I have also attended the odd music concert there. Part of its uniqueness is its smaller size and viewing intimacy. Yes, it needs an upgrade, and Option 2 contemplates that this will happen. What I don't think we need is a much bigger, football exclusive, fully commercial stadium, which surely will need to make a healthy profit for its backers, but potentially at the exclusion of other amateur sporting and community groups.

The images of the first proposal do not look like a great stadium design. It is open at one end and it is not clear how close to the football pitch the stadium actually is. It also has poor infrastructure as a public transport option.

Western Springs first and foremost is a speedway that then doubles as a music / events venue. It should return to its original club purpose of being a speedway and not be subject to the endless whims of the council who go against what the peoples of Auckland want.

The undercover areas and facilities are better in Option one with lower costs. I think the interests of the Ponsonby Rugby Club could still be combined in option one with playing fields and facilities made available for the club , plus the upgrade of the grass to kikuyu. I also think areas around the whole Western Springs area could be used for concerts or other events. There are areas used for the Pasifika festival which would make great outdoor festival or unique city concert areas. I am recommending an incredible & unique historical theme park idea that we experienced in France - Puy du Fou - that could be a way of using this unique central area as a way to show case Maori

history and Aoteoroa colonisation in an incredibly unique and interactive way for tourism purposes. The Puy du Fou experience is truly jaw dropping -showcasing each of the era's of French history - using actors and incredible sets - and is considered the worlds best theme park - without any tacky rides etc - using local actors and artisans - which adds significantly to the experience and employs loads of local talent supporting the economy. Puy du Fou is a bit like Cirque du Solei meets interactive history museum and uses the natural environment and incredible light shows to create wonderful night time shows -amongst many other interactive villages & themed shows. It has set up a Spanish and British versions so has experience transporting the concept to other cultures. It could be an exceptional way that the Western Springs and Motat venue could be used to really create a memorable Aoteoroa show case for tourist purposes along with the venue options suggested by the Auckland Arena. website is www.puydufou.com Check it out!

Overall the better facilities and the lower costs

The city has more than enough stadia. Ratepayers shouldnt be asked to stump up with more money to build or underwrite more stadia. Mt Smart works well for both soccer and rugby league.

The elephant in the room is Auckland / NZ cricket. Auckland needs a Basin Reserve style cricket ground. Western Springs fills that space admirably.

Eden Park is a good concert ground as is. We dont need more concert venues. Between Eden park , Spark Arena and the Town Hall there are enough.

The proposers of options 1 and 2 will want ratepayer guarantees one way or another.

Finally sort out North Harbour stadium. Close it.

I support the Auckland Arena option, providing football a home in Auckland. The purpose built facility will provide a superior viewing and entertainment experience for football. Given this option is funded privately i think the council should jump at the opportunity to provide a quality multi sports venue for little cost. I look forward to taking my son to football matches at the arena and it would enhance my experience as a football fan residing in Auckland.

I want Ponsonby Rugby Club to be able to continue to have Western Springs as their home ground and their very old and well established connection with Western Springs. My father, many, many years ago [I am 78 so that will give you a time] played for Ponsonby and so did an uncle and I grew up with automatically, of course, being a Ponsonby supporter ----even though I was a girl who didn't play rugby in those days.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

Other (please specify):

I am an Aucklander, born and bred, and over the years have attended speedway, concerts, athletics, and rugby at Western Springs. For these reasons I strongly support the status quo, option 3A, the most sensible of the options put forward. In my view there was no need for consultation - the Council could easily have made the decision to retain the status quo.

There are three options to consider

Which option do you prefer? Select one option only.

Option 3A: Neither Option 1 or Option 2 - keep things as they are and retain current arrangements

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

See above - status quo - option 3A.

Western Springs Speedway, summer festivals and concerts are part of growing up in Auckland as much as the Zoo, Motat and Eden Park. Nearby residents complaints are invalid as they knew what they were buying into. The city does not need to spend huge amounts of taxpayer money to change a venue that only a handful of grumpy people don't want.

I have made this choice as money from rate payers is too stretched they are struggling already. The 2nd option is too commercial in a suburban area.

We need to develop MountSmart stadium to full capacity with a fully closed stadium as this is an industrial/commercial area and has trains buses for easy access.

They have had concerts there as I have gone to them there. They have a second field that could be another stadium. There are options there

I have been a attendee and supporter of speedway for many years and an Auckland ratepayer for just as many. I am appalled at the decision making process used to move Speedway to an inferior position, benefitting whom exactly? This questionnaire is a case in point and makes no reference to the Speedway that has used this facility for nearly a hundred years.

The proposal one reeks of insider trading and big money interests. We do not need anymore football fields, there are plenty of options in this regard including the under utilised Eden Park.

Speedway has a place in central Auckland, for the many of competitors and fans alike.

This process needs to be more open than this, perhaps a vote at the ballot box if necessary.

I know I won’t be voting for any Mayor or councillors that promote option one.

The speedway has to stay. No other viable options have been put forward, and furthermore and far more importantly, the venue is widely regarded as one of the best in the world. That cannot be replicated anywhere else in Auckland.

Finally, it is staggering that something with a near-100 year history in Auckland is not being lauded and celebrated - instead of is being voted out by members of council in as move that is not supported by those that they represent.

Submission to Auckland Council: Opposition to Auckland FC's Proposed Takeover of Western Springs Stadium

Dear Auckland Council,

I am writing to express my strong opposition to the proposed plan to allow Auckland FC to take over the use and operation of Western Springs Stadium.

Western Springs is a vital public facility with a long history of serving diverse communities across Auckland. It is a multi-purpose venue that has hosted a wide range of events, from speedway and concerts to cultural festivals and community gatherings. To hand over exclusive or primary use of

this space to a private football club risks turning a community asset into a narrowly-focused, single-purpose venue—one that would serve the interests of a relatively small group rather than the broader Auckland public.

Auckland FC may have ambitions to grow its supporter base, but current estimates suggest their regular audience would be around 12,500 fans. In a city of over 1.6 million residents, this represents less than 1% of the population. It is simply not equitable to dedicate such a significant and historically shared public space to a private organization that serves such a small proportion of Aucklanders.

This proposal raises important questions of fairness, access, and community benefit. Western Springs is surrounded by vibrant neighborhoods and sits within an area heavily used by the public for recreation and cultural activities. Any change to its use should prioritize inclusivity, shared use, and the public good—not the commercial interests of a single sporting franchise.

I urge the council to reject the current proposal and instead commit to preserving Western Springs Stadium as a multi-purpose, publicly accessible venue that continues to serve all Aucklanders. In particular, I strongly support the continued presence of speedway at Western Springs. This iconic venue has long been home to one of the country’s most well-known motorsport events, like the world 50:lapper drawing fans competitors and tourists from across New Zealand and around the world. Speedway is not only a cherished part of Auckland’s sporting heritage—it also contributes significantly to the local economy and cultural identity. Its place at Western Springs should be protected, not displaced.

As in the Consultation Submission attached

WESTERN SPRINGS STADIUM PUBLIC CONSULTATION SUBMISSION

Western Springs Stadium is a community reserve. It is a reserve in which the community has invested and from which the community has benefited since 1875. It would be a complete betrayal of that community investment were it to be sold (or leased for 100 years which is the same thing) to a private enterprise, just as it would were the Domain, the Zoo, the Art Gallery, the Town Hall or the Library to meet the same fate.

To ease the burden of its ongoing maintenance on ratepayers, it has the capacity to return some income from private enterprise, but not at the expense of the loss of the entire reserve and any of the community uses to which it has been and is able to be put. The best outcome is one which achieves a proper balance between community and private use.

Option 1 is an entirely speculative private commercial proposal that involves massive building works and obliterates the ambience of the bowl that has been part of our community for so long. As a private commercial proposal, it carries a substantial speculative commercial risk:

- The cost of its construction is unknown. An estimate of between $200m and $300m is so broad as to be worthless.

- The ongoing operating costs are also unknown. To expect to achieve a sufficient commercial return from the proposed activities to avoid the need for the ongoing injection of capital is entirely speculative.

- None of the present Option 1 parties has any meaningful prior experience in New Zealand with professional sports teams (one party only has overseas experience), sports venue or commercial property management, or hospitality ventures, all of which are involved in Option 1.

- If it costs more than expected to build and/or operate, or were the present Option 1 parties to die or become unable or unwilling to continue to support the facility, the facility could be abandoned and become a massive burden on the ratepayers just to maintain let alone operate. There are no terms of any Lease that can remove that risk.

AFC itself also carries a substantial speculative commercial risk and cannot be relied upon long-term. The present level of attendance at its games cannot be guaranteed, particularly were the team's results to decline. Super Rugby, that filled Eden Park with every game in its early days, is a lesson in what may well occur with AFC.

The cost estimate of a saving of up to $18m over 50 years makes no allowance for any of those factors, or for the cost of AFC no longer using Go Media and QBE Stadiums as at present, and is misleading and deceptive. Even were it to be reasonable, however, TAU surely cannot expect to sell such an iconic public asset as Western Springs Stadium and its Outer Fields for a maximum of only $18m over 50 years.

Finally, Option 1 leaves Ponsonby Rugby without a suitable home. Ponsonby Rugby has served the Auckland community since 1874, one year longer than Western Springs Stadium itself. It cannot reasonably be left without a suitable home, or even be forced to reduce its size and aspirations sufficiently so as possibly to fit into either Cox's Bay or Victoria Park as suggested in the consultation documents.

Option 2 achieves a proper balance between community and private use.

The proposed private use involves highly experienced Promoters prepared to invest $30m in staging and other improvements for events and concerts of up to 50,000 attendees on a 30 year lease following which the staging and those improvements will return to public ownership without any risk of expensive ongoing operating costs.

The proposed community use is a multi sports community sports hub, with Ponsonby Rugby as anchor tenant, and a much needed boutique rectangular sports field with proximate grandstands for between 5000 and 8000 spectators.

Together, those uses will:

- Preserve the natural features and ambience of the bowl and surrounding area.
- Enhance their features with permanent infrastructure to make it uniquely attractive to a wide range of events and concerts, providing for up to 50,000 attendees in Auckland's version of the Hollywood Bowl.
- Provide a much needed boutique rectangular sports field with proximate grandstands.
- Provide much needed facilities for other community groups and activities.
- Remove Ponsonby Rugby's Clubroom from the present flood plain and enable it to insure its premises and its considerable memorabilia collection.
- Remedy the Club's present shortage of space and facilities.
- Enable the Club to continue to expand into wider than rugby activities, including touch, sevens, netball and basketball.
- Enable the Club to avoid needing to vacate during concert or event set up and break down by being located on the opposite side of the Stadium to the stage and having access down from Old Mill Road.
- Enable the Club to provide corporate hospitality opportunities for the Promoters, and to benefit itself from that use, again by being located on the opposite side of the Stadium to the stage.

The costs of the community use will not be any more than would need to be found in any event:

- There are funding options for the proposed multi sports community sports hub that will not require public funds, including design, build and lease back or public private partnership options.

- Were Ponsonby Rugby to need public money to be able to relocate, however, the likely cost would be similar to the Option 2 proposal, depending on the extent to which other sports and community groups are also accommodated. That cost would be far better spent at Western Springs Stadium.

- The cost of maintaining the fields will need to be met in any event. Both the Club and Auckland need more playing fields not less. Playing fields are a core Council function and responsibility. The present stock of playing fields cannot responsibly be reduced, as would occur with Option 1, without them being replaced elsewhere.

- The cost of maintaining the present building will be assisted by the fact that it is recently fully renovated following the flooding and could well be offset by revenue earned from the lease of the present Club lounge as a gym, for example.

The cost estimate of up to $107m over 50 years makes no allowance for any of those factors and is also misleading and deceptive. At its core is an estimate of over $2m annually just to maintain three playing fields and a recently renovated set of changing rooms and public toilets, which is entirely unsubstantiated and impossible to accept as accurate.

Option 3 is not a realistic option. Even were its present lease to be renewed, it would still leave Ponsonby Rugby with inadequate flood-prone and possibly uninsurable Clubrooms, unable to grow or provide for wider than rugby activities. All of the expense and effort invested to date in the present process would have been irresponsibly wasted.

Ponsonby Rugby has nowhere else it can go.

It already uses Cox's Bay Reserve to the maximum and the present Reserve Management Plan, Resource Consent requirements and definite residential opposition will mean a process that will take many years, have no guarantee of success, and, even if successful, still force the Club to downsize substantially and prevent it either growing or providing for wider than rugby sports and activities.

Victoria Park was rated a distant third in the TAU Site Relocation Assessment Study behind Cox's Bay and the Western Springs Outer Fields. There would be no space for the TAN, there is little existing and virtually no potential future parking, and the park is heavily used already for events and by the public, cricket and other codes.

, Life Member Ponsonby Rugby Club.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Dear Auckland Council,

I am writing as a concerned Auckland resident and long-time supporter of community sport to express my strong support for Option 1 – the Auckland Arena proposal for the redevelopment of Western Springs Stadium.

Auckland's Indoor Court Shortage

Auckland is facing a well-documented and deeply felt shortage of indoor basketball court space. This shortfall affects a wide range of users—from children and families participating in grassroots

sport to youth seeking structured development opportunities. The lack of accessible facilities has become a barrier to participation and growth for thousands of people across the city.

Clubs and schools regularly turn away players. Waitlists are common. Some teams train at late hours or in poor conditions simply because there are not enough venues to meet the demand. This issue is not new, but it is becoming more urgent every year.

Why I Support Option 1

Option 1 is the only proposal that delivers a realistic and meaningful solution to this infrastructure gap. By integrating purpose-built indoor courts with other sporting and community amenities, the Auckland Arena would provide:

- Safe and modern indoor spaces for community sport
- Capacity for year-round use, benefiting both structured programmes and casual users
- Increased accessibility for central and western Auckland residents
- Sustainable investment, supported by private funding without full reliance on ratepayer contributions

It also reflects forward-thinking urban planning by co-locating health, recreation, and commercial services—maximising the utility of the site and ensuring broad community benefit.

Missed Opportunity if Not Progressed

While Options 2 and 3 may deliver certain benefits, neither addresses the pressing need for indoor courts. The current situation already constrains participation and limits the physical and social benefits that sport can bring to individuals and communities. Choosing to delay or deprioritise indoor infrastructure now risks worsening the problem for future generations.

The Auckland Arena proposal is a timely and strategic response to a long-standing need. I urge the Council to adopt Option 1 and to commit to supporting the physical activity, wellbeing, and inclusion of Aucklanders by investing in facilities that are fit for purpose and designed for growth.

Thank you for the opportunity to provide feedback.

Number 1 is Speedway should stay. There are many events that can be held at Western Springs whilst retaining speedway. If Auckland is in to preserving history and creating a culture then why would you not want a sport that has been in the same location since 1929. The decision making process has been less than transparent and needs to slow down. Mayor Brown has made some good progress on financial issues but the Western Springs/Auckland FC decision is smoking with corruption. Leave the Speedway alone. If Speedway is allowed to stay until 2029 will this mean it will be more difficult to move them on? 1

There's no public transport to the site, so under no circumstances should anything of this scale be built here, or anywhere in Auckland, without a major train station and bus connections.

The fact that you are considering regularly flooding the area with up to 50,000 people - which would clog the motorway and the surrounding areas every time a game is held, is truly incompetent.

I'm writing as a 22-year-old basketball coach who works with kids and teens across central Auckland. I fully support Option 1 for the redevelopment of the Western Springs Sports Precinct. This option makes the most sense not just for the future of sport in the city, but for young coaches like me who are out there every week helping the next generation of players grow on and off the court.

Right now, finding good indoor court space is one of the biggest headaches we deal with. Schools are overbooked, some gyms are old and poorly maintained, and a lot of our trainings get bounced around different venues. That makes it hard to build consistency with the kids and harder for

coaches to plan effectively. If Option 1 goes ahead and includes proper indoor facilities, it would be a game-changer for us. We'd finally have access to quality courts that we can rely on.

This redevelopment would also help with coach retention. A lot of young coaches I know burn out because they're running all over the city, juggling odd hours, and constantly adjusting plans based on court availability. If Western Springs becomes a central hub with shared, bookable space and proper support facilities, we could plan training blocks properly. Less admin, more time coaching.

What's even more exciting is the idea of a space where different basketball programmes, clubs, and development squads can train side by side. That kind of visibility and connection is huge — not just for the kids, but for coaches too. We'd be able to collaborate, learn from each other, and create a more connected basketball community. And maybe even hold some coaching clinics and workshops without scrambling for space.

Basketball is growing fast in Auckland. It's one of the most played sports in schools now, especially with Māori, Pasifika, and migrant youth. But we're still being overlooked when it comes to proper indoor facilities. Option 1 feels like the first time someone's really thought about what our community needs. It's inclusive, it's forward-thinking, and it actually reflects the reality of sport in Auckland today.

Please back this plan — not just for now, but for all the kids we coach and the hundreds more who'll come through in the next few years. Give us the space and support we need to keep doing what we love, and to keep our communities strong, healthy, and inspired.

To Auckland Council

Over the years, I've seen basketball grow from a fringe sport into one of the most widely played and culturally diverse sports in our city. What hasn't kept pace, unfortunately, is the infrastructure to support that growth, particularly access to indoor court space. We've been making do for far too long. School gyms are booked out, facilities are ageing, and community demand continues to climb. Option 1 finally offers a chance to change that narrative.

This proposal represents a meaningful investment in community sport. It recognises that our city's future depends not only on elite venues or commercial events, but on accessible, high-

quality public facilities where people of all ages and backgrounds can come together. This would provide the space and stability needed to deliver consistent programmes, run quality training, and build long-term pathways for players.

Option 1 also allows for integrated, multi-use facilities, which is something we desperately need. Having shared amenities like meeting spaces, equipment storage, and physio support built into the precinct would make a huge difference. It’s not just about the games; it’s about the wraparound support that helps kids stay in sport and coaches stay involved.

Western Springs Speedway is a fabulous motorsport facility that has been there for nearly 100 years. I have been going since I was a toddler and still thoroughly enjoy. It draws international support and has such wonderful history. It should be preserved.

Auckland finally has a high performing, well funded, well run ,professional football team which has huge support from Aucklanders and has made a significant effort to reach to the Auckland community.For many years Auckland has not had a dedicated home of football.This proposal provides such a facility ,together with other sports, entertainment and community facilities, at minimal or no cost to Auckland rate payers. Auckland City has many other urgent and pressing infrastructure etc needs for its insufficient funds and any development of Western Springs, in the foreseeable future ,is a “nice to have.” The other proposals require significant financial

contributions by Auckland rate payers which Auckland City just cannot afford. Mr Foley has experience in stadium development and administration and I am sure that he and his fellow investors will provide an excellent facility for Aucklanders. I have visited some of the vineyards that Mr Foley has developed and owns in California. They are exceptional and provide a memorable experience to visitors. I am confident that he and his fellow investors will create something to a similar standard at Western Springs, which can be enjoyed by the increasing number of Auckland's football supporters and also by Auckland's community in general.If the proposal by Mr Foley and his fellow investors is selected, it is also most likely that the development will be completed on time and on budget!

This option is preferred due to reduction in need for public funding. This option will benefit the wider community and the provide valuable economic activity to the businesses in the surrounding area as visitors to the stadium access nearby retail and hospitality. It's a sensible solution using private investment to build facilities that will benefit community and the investors prior experience in this space is considered valuable.

The current Stadium is part of Auckland's Heritage, & is a great facility for Speedway, Concerts etc, & should be used more. We don't need outside interests high - jacking our property, etc. The Stadium, & fields just need a minimal upgrade, & to be kept for the people of Auckland.

Renew speedway lease and enhance facility for speedway, rugby and concerts. All these uses have and can work together.

We (stakeholders/fans/the people) were never consulted with before this time and should have been.

I have seen how this issue has been handled and I don't agree with it and have lost faith in the council staff and many councillors. The documentation states that the $11m upgrade approved for waikaraka park will be sufficient to enable that facility to be used for all speedway activities (ie midgets/sprint cars and stock cars/saloons) however the facilities will not be sufficient for

speedway, track will not suitable for sprint cars, spectator capacity will be insufficient. The last meeting at western springs had over 12000 spectators. There is no way waikaraka could accommodate this. The change will discourage spectators and undermine growth of the sport. A lot more investment would be required to transform waikaraka park into an equivalent facility for speedway which has not been openly discussed resulting in misinformation informing decisions.

Western springs stadium has just short of 100 years of rich motorsport history. It is unique and world famous in its present state. It should be given a national preservation order. Generations of families have enjoyed this Speedway Stadium. The current council has a clear conflict of interest with the Mayor having personal contacts with the owners of Auckland FC. Football has multiple options all over Auckland to play. Speedway does not. Western Springs was donated to the people of Auckland by the Motions family, for a speedway. It is not for this council to end this association with no consultation with the people who they are elected to represent not give it away to your new mates. To end Speedway will do massive damage to the sport. speedway does not wish to relocate to Waikaraka Park, totally unsuitable and a waste of 11 million to refurbish. why don't

Auckland FC build their nice new stadium at Waikaraka park? Auckland Council should issue a new long term lease to Speedway with a peppercorn yearly rent. Spend the 11 million budget on refurbishing this valuable asset. Finally the most important thing. For generations of families this is an irreplaceable treasure for safe family entertainment especially for the kids, they love it. To lose this Speedway Stadium would be a very sad day and a disgrace on the current council.

AKL ratepayers are already experiencing way above inflation year on year rates increases and there comes a point where we have to say no more. Option 1 is a no-brainer with private equity bearing the full cost of the whole new facility, whilst providing a state of the art stadium and home to AKL FC plus all of the additional facilities as outlined above. We have enough focus on Rugby Union in AKL we need now to get behinf AKL FC.

I made this decision for this option due to the fact that this venue helps to employ hundreds if not thousands of people every summer for festivals and concerts which give back to the city and there isn't any other venue in Auckland or possibly New Zealand with the flexibility and history for live events. It also is a great option to keep grassroots rugby at its home along with other community events like Pasfika and other large public events that are held annually at western springs stadium and outerfields

Future proofing the city by providing stadiums and arenas as sporting events bring overseas visitors + more artists from overseas with improved production. Better location for a major stadium as eden park neighbours get blocked out of their houses.

I believe a secondary stadium near central Auckland would significantly benefit the city, particularly with Auckland FC's keen interest in making it their home. Given the enthusiastic support Aucklanders have already shown for the team, a purpose-built stadium would not only foster that excitement but also bring a multitude of advantages to the area and local business.

I think that if you are considering turning this into a major stadium for either option A or B. You need to heavily update the public transport options and links towards western springs. The success of Auckland FC is partly due to the accessibility and ease of access to the venue

Western springs is quite a big drive from quite alot of places. Mount Smart is much more local to many of the fans and to get out to Western springs is much harder than getting to Mount Smart. More than half of Auckland live closer to Mount Smart and so it only makes sense to keep the fans happy and not make them drive out to Western Springs just to watch a football game

The stadium proposed is awful. I would vote for it if it was a proper football stadium with 4 enclosed stands to create a good atmosphere. Don’t make it a hybrid football/concert venue. Or better yet, Build the waterfront stadium and have the Blues and AFC share it.

Displacing a 150 year old rugby club, with rich history, is a step in the wrong direction if we want to grow sport within Auckland. Amateur and semi-professional sports organisations, particularly those with a strong history, are the crux of community sport. Ponsonby Rugby Club have expressed there is no viable option if the club would be forced to relocate. Amateur and semi-professional clubs do not have the same financial backing as professional teams, which makes it extremely difficult for Ponsonby to just leave.

Additionally, Option 1 is not a good option for those that it seeks to benefit - Auckland FC.

The bespoke 12,000-15,000 stadium is not big enough for Auckland FC, nor is it located well in terms of public transport. Mount Smart is accessible by train and bus, and has ample parking in surrounding streets. A new stadium in Western Springs is only accessible to Ponsonby.

Further, finals would be required to be played in a larger stadium, not the stadium being built. This would come as a massive disadvantage to Auckland FC, as they would essentially have no home advantage if their home legs could not be played at their home stadium. It is important that Auckland Council consider this, as the primary driver for the stadium are the owners of Auckland FC. Auckland FC have demonstrated they are able to attract and draw large crowds of over 20,000 to Mount Smart. Two things have to be considered here - what are the options in terms of area space for local vendors/food trucks etc., that the new venue could accommodate? Will there be room for a tailgate section like Mount Smart has? Will it be further confined? How are the businesses within the area going to benefit, and will they not benefit much at all if games that attract larger crowds

There is a secondary issue which largely impacts Auckland FC and not Auckland Council, however it may be considered if you are concerned with growth of Auckland FC generally. This is the fact that finals or derbies would still be played in the city of Auckland (but a different stadium) does not matter - teams create atmosphere within the stadiums/grounds they play at regularly. For example, the Manchester United women's team play at Leigh Sports Village but occasionally play "bigger" games at Old Trafford (which is home of the men's team). The women's team often do not perform as well at Old Trafford because they have not cultivated the same environment and do not enjoy the home advantage as they would have at Leigh Sports Village. This is an important consideration if Auckland FC were to move to this new stadium and want to be competitive in finals. Further information on how fan atmosphere is going to be created is important too, particularly if the stadium will be a reduced capacity to where they currently play.

I think this is exactly the kind of thing Auckland City needs. AFC brought so much joy and excitement to our lives this year and I would love to see us back that up and use the momentum to push forward into the future for New Zealand football but also for our country and communities as a whole.

take the burden away from the ratepayer and have a new stadium that includes facilities for other fast growing sports like basketball plus we still have a decent outdoor concert venue there

Among many things, I do not believe TAU has been truthful about costs and benefits; rather, I believe they are operating on their own agenda and will do whatever it takes to ram this through.

Re: Ongoing use of Western Springs Stadium

I select option 2 – Western Springs Bowl

I have serious concerns over a number of issues arising from numbers presented by, and the biased positioning taken up by, TAU and others over the costs and future use plans for Western Springs should it be passed over to the Auckland FC ownership group.

I wonder why the Mayor and TAU are so desperate to develop another stadium in Auckland when the city already has several under-utilised developed facilities. They include Eden Park, North Harbour Stadium, Go Media Stadium at Mt Smart if Auckland FC pull out, Trusts Stadium at Henderson, and there are a number of covered venues with floor areas about the size of the proposed indoor development at Western Springs. The first three are capable of hosting Auckland FC home games, and any development would be at a fraction of the cost of starting from scratch. I wonder why the club wants to leave a ground where they currently pull 20,000 fans a week – the figure was 30,000 for their home semi-final in 2025 – and develop one for 12,000 or so. Actually by sharing the facility with the Warriors, Auckland FC has made Go Media Stadium one of the best utilised in the city.

Even if the cost of the initial development is $300 million as suggested in the documents – who picks up the balance if there are cost overruns? – TAU is pushing for a 50-year lease with two 25-year extensions. In that time the whole stadium will need to be redeveloped once, if 50 years, and likely three times if the 50+25+25 option plays out. Sports stadiums globally undergo total revamps after 30 years or so, and there's no reason to think anything else would apply here. Who pays for that? At the end of the lease TAU, or its successor, takes over the ownership. What they don't mention is that this transfer is sure to come with a massive bill since the city will be obliged to buy the stadium, and it could be one in need of urgent and costly repairs. It won't happen on the current Mayor's watch or anyone in senior positions nowadays, but it will come.

Sure, the ownership group of Auckland FC are wealthy people. But here's the thing about wealthy people – they don't get wealthy, and most certainly don't stay that way, by handing out tranches of a few hundred million to any city that just happens to catch their eye. They want the money back, and with a considerable profit piled on top. Why on earth would TAU think they won the lottery and a promise to get all this development for nothing, and free of any future encumbrances?

TAU has always been reluctant to hand out long leases at Western Springs; Ponsonby Rugby Club is currently on a 15-year term. Why the sudden enthusiasm for a 50-year lease for Auckland FC? The current ownership group of Auckland FC won't be in place even 20 years from now; everybody has to die some time. What happens if the club's future ownership is not interested in keeping the franchise in Auckland and gets some too-good-to-ignore offer from the Gold Coast or somewhere, and the team ups sticks and is off? Who carries the can? And what happens if the league fails for any reason? No matter what, Auckland city will be paying for the stadium – you can bet on that.

In the document TAU and Auckland FC ownership claims some 850,000 people will use the facility annually. If they build a football stadium which can seat 12,000 (low figure in the proposal) or the

high one of 15,000, this still leaves a massive shortfall in public usage to be made up somewhere. The A league plays a 26-game regular season, so that gives Auckland FC 13 home dates. Assuming they sell every seat to every game, they will have between 156,000 and 195,000 fans through the gates. They will get extra dates if they make the playoffs, but that cannot be counted on for these purposes.

Simple maths tells you the shortfall is between 694,000 and 655,000 – a figure between three and four times what the club's main attraction would pull. Use as a concert venue is not going to make that deficit up, since the football season runs through what would be prime concert time, and the figure of 25,000 per concert was used in the proposal. I doubt the football club would be willing to send its team on the road for a month to get three concerts in – these need plenty of build-up and breakdown time, after all – and even three shows isn't going to make much of a dent in the shortfall. As well as that Eden Park or Mt Smart, with their large capacity, are far more attractive venues for a big international act, and Vector Arena more attractive for a smaller one

So that leaves a weekly usage, paid at the door by the people of Auckland, numbering some 12,000 per week for 50 weeks of the year. I don't see how basketball, even over eight courts, is going to draw that because few games would be marquee affairs. Most would be club or school games; the Breakers, after all, have an established home venue already. I don't see a couple of thousand pickleball players turning up every night, five nights a week. There simply isn't time to push such a crowd through. I do see a lot of fantasy usage numbers pulled from who knows where, which the stadium as currently proposed has no chance of achieving.

The next question is over the indoor facility, which the proposal tells us is for eight basketball courts and six padel courts. That is going to require much the same floor area as taken up by one full-sized rugby field, so this has to be planned to occupy similar space to the largest of the existing outer fields. And it will cost a significant amount of money to develop.

But there are also four high-performance training fields in the proposal, which we are told are also for public use and therefore presumption of full size cannot be dismissed as far-fetched, a high-performance sports centre (presumably indoor), hospitality establishments, outdoor space which is for entertainment, events and socialising, and a few other things besides. Just one question: Where is all this going to go?

In your mind's eye, try shoehorning all this stuff into the current Western Springs area. The match football pitch and stands will occupy at least all the present bowl. The indoor facility for court sports will take up one of the rugby fields on the outer grounds. The high-performance sports centre can, I suppose, fit in the current car park. The outdoor space will occupy much of the balance of the outer fields, but be tailored to fit into whatever space the designers can create. But where are the four training pitches going to go? Stacked up beside the Bullock Track? I hardly think so. It is simply not possible to fit this visionary arena into the available space. And we haven't even started on parking.

While not mentioned in the documents, one has to suppose some facility for parking is required (I'll assume that Ali Williams' suggestion of his own helipad has been dismissed as fatuous). Given the limited parking at Western Springs, even a multi-storey parking garage won't go far towards alleviating the problem. Access is going to be an issue; concerts draw much larger audiences, sure,

but the majority of concert-goers tend to be young people in their teens and twenties. Older folk go too, but we're talking about a crowd that has no issue with walking a mile or so.

Much of Auckland FC's initial fan base is family-oriented; I've seen them at Mt Smart often enough – Dad and Mum with the kids, many of whom are ten or younger, all decked out in their club jerseys, walking relatively short distances through Penrose's fairly empty streets. Penrose train station is close by, and Te Papapa is handy if only any use to people travelling from Onehunga. But there is ample parking on roads which are not far from the stadium.

That doesn't exist around Western Springs. I can imagine the Westmere residents will have a lot to say about their already narrow streets being choked up with cars for hours of an afternoon. Better get those tow-trucks ready. There is no handy rail station – the nearest are Morningside or Baldwin Avenue, and they're not close. Walking a ten-year-old to the train is not like a 19-year-old making the same trip. Best will in the world, I doubt 200 buses will be on hand to ferry the crowd in and out, and they still have nowhere to park up.

And one last number which doesn't stack up – TAU's claim that the cost of maintenance of the venue will be $100 million-plus over 50 years should Ponsonby Rugby Club stay there. Where they got this from is anyone's guess. It certainly wasn't substantiated – none of their always favourable figures were – by supporting evidence. I followed up on this independently and asked how much is spent on annual upkeep at present; I was told something in the region of $200,000. In other words, one tenth of the figure put into the document by TAU.

Under option 3 TAU suggest the cost would be $31 million over 50 years if a 30-year lease was signed by Ponsonby Rugby Club. This casts even more doubt on the veracity of that $100 million cost under option 2 – how could the same thing cost $70 million more if the rugby club was staying there than it would if … the rugby club stayed there? To be quite blunt about this, it smacks of dishonesty on TAU's part.

In summary, I think most of the numbers provided by the Auckland FC ownership and TAU are in the 'Best possible outcome and add 20 percent' league. I see a great number of problems justifying those figures, and very few solid answers have been provided by anyone at this stage. I cannot see one single advantage Auckland FC would gain by developing their own small stadium when they have options to use any one of three bigger, already developed ones – one of which has been a good home thus far – except the ownership group stands to make far greater profits when the time comes to sell up. I don't see who stands to gain out of the proposed development apart from the ownership group, but I can't see how it is the people of Auckland.

And neither is it the Ponsonby Rugby Club, which has been a strong part of Auckland life for more than 150 years, or the concert-goers who have used Western Springs in great numbers over many years. Ponsonby relocated to Western Springs nearly 30 years ago, and the TAU proposal is they get sent to Cox's Bay. Well, if you look at what happened in the mid-1990s you can be sure that particular piece of history will repeat. The residents didn't want Ponsonby there – it was the first option examined - despite the club's proud standing, and a substantial amount of club property was damaged by 'concerned residents'.

The fields at Cox's Bay are not sufficient for one of the two biggest rugby clubs in Auckland, which caters for 300 senior players and roughly 700 juniors. They couldn't cope with a doubled-up demand. There will be problems with obtaining an alcohol licence which, even in these more enlightened days, is still a significant factor in any sports club's income. There is insufficient parking available; on big match days crowds still number in the thousand-range and Westmere is not known for its wide boulevards.

The concert promoters who are aligned with the rugby club in making a unified proposal – CRS Records and Eccles Entertainment - are also prepared to invest a lot of their own money. The figure of $30 million or so, mentioned in the document, is an accurate one. The promoters are looking to continue to use the venue for concerts and festivals, with a capacity of 50,000 – twice what Auckland FC are proposing for their concerts, and enough to maintain the venue's attraction for acts up to and including international stars who only play to large crowds.

TAU's determination to carry out what appear to be the Mayor's wishes to get Auckland FC into Western Springs will do immense harm to a community organisation which offers involvement to all and will be benefitting a single private entity that will only offer to those with the funds to pay and pay. I am really disappointed that the Council, through TAU, has taken up such a transparently biased position and feel that there is a definite conflict of interest here, since their interest has already clearly been pegged out. In the end, carrying that plan through will cost the city a huge amount of money – but it will be somebody else's problem by then.

See these white-gloved hands? It wasn't me.

The private investment proposed would give the local area world class facilities at no cost to ratepayers, which is an absolute no-brainer! Funds saved by TAU should be utilised to provide Ponsonsby Rugby Club with a fit for purpose facility at an alternative location, such as Coxs Bay Reserve. This could be a win-win for all involved.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I love the Speedway and have been attending my entire life. The Speedway community is extremely close and this would devastate the sport and community. With current resources in Auckland, I don't believe we need a new stadium. Or if we are building a new stadium, one that would be a bigger venue that can be shared for various events and sports.

We already have enough stadiums in Auckland to host a myriad of sports aswell as the associated teams. Western Springs is already used by sports teams aswell. It’s a perfect venue for motor sports (Speedway) with its seating aswell as being a natural amphitheater for concerts. It has an incredible history with Speedway and with that in mind, I do think that Speedway needs to put more events on in the calendar. Bring back concerts aswell.

Multi-purpose, filling a number of gaps in Auckland's venue/facilities offering. Of the three options, this one will see the facility used to the greatest extent by the broadest range of people. A significant amount of private capital is being provided to develop and maintain the asset which should not be taken for granted. This is an extremely rare opportunity which should be grasped with both hands.

KEEP SPEEDWAY ALIVE - FREE UP USE FOR EDEN PARK AND MT SMART FOR CONCERTS/SPORTS GAMES ETC. Seriously, clowns - imagine moving next to a massive sporting arena and then complaining about the noise. I grew up in South Auckland with the eagle police chopper circling the neighbourhood every other night, didn't see me complaining. USE YOUR HEADS.

Mt Smart is already built and more capacity than Western Springs and has better transport commections with train and bus as well. It is also not in a residential area where you will continue to have residents complain about noise. Dumb proposal leave speedway there too

I like the idea of a private/public partnership. The lead investors appear to have the skills and money to make the project a success. I am concerned though that the venue size appears on the small side but I assume bigger matches for Auckland FC will be held at bigger venues. Of concern also are the public transport options for people not living in the area.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

The way speedway was kicked out was wrong. I've lost faith in this council. There are already several stadiums in Auckland but no other speedway track. Waikaraka park is a different type. Auckland is shuffling out all other sports apart from ball sports and it's sad.

There is no mention of Cricket in any of these proposals.

As the largest city in New Zealand, with a massive cricket fan base, it is criminal that we do not have any international test matches in Auckland. Over the last 5 years we have consistently seen every summer our second most popular sport attract sellout crowds for our International cricket matches. The fact Auckland misses out on all of these events is a shame.

Western Springs would be a perfect venue for a cricket ground.

It's embarrassing that we have cricket at Eden Park. The world laughs at us for that stadium.

Do better.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I have been going to speedway for many years as a kid where my dad took me. To me know taking my own kids. My wife even had her dad Brian Nazer race at Western Spring in a midget for years.

My neighbour Gordon rode the two wheel speedway bikes in the 50s & 60s.

This place has special mean to so many people. We really have this like this lasting so long. Why not keep it. It's a great spot in the city to be able to go to this. I would happily pay more in my rates to see this stay as a Speedway venue. Many thanks

I feel it is a waste of tax payers money. You have 3 sports stadiums in Auckland and all 3 of them are not up to international standards. Eden is a horrible stadium, hard to get too, seating is too far from the field. Mt Smart is better but again tough to get too and not being a full oval limits seating. North Habour stadium is again hard to get too and only 1 half stadium. All 3 of these are useless in my opinion having been to may stadiums around the world which are far better than these. Miney should be spent on bettering these stadiums that you already have not creating another one that will be a nightmare to get too!

Auckland FC already has a wonderful home - Go Media Stadium (aka Mt Smart), It is an excellent ground for football, has the right number of seats for our supporters and is big enough, while still feeling like a smaller venue where the sound of supporters carries well.

The proposed football stadium option (option 1) is a ridiculously designed stadium. It will be no good for football fans or the players. The players want the fans close - their support helps they rally when they're not doing well. It has also been designed for much smaller attendance than

Auckland FC is already getting. This will make it impossible for families to attend, as only those with deep pockets will be able to afford to attend the game - making it an elite sport rather than about community and family.

An enhanced bowl is a wonderful idea and we don't have anything like it in Auckland. Let's build something new and exciting, rather than just build another stadium - we already have enough of those!

It would also enable Ponsonby Rugby club to remain on it's grounds. Somthing that is important for the club

It is a vital inner Auckland venue that provides a space for large concerts and festivals attended by thousands of Auckland Rate Payers and should be developed to continue to provide for such events now and into the future. The city already has ample large sports stadiums (Eden Park, Mt Smart, North Harbour Stadium) which can and should be used for football rather then the alternative proposal put forward by the part owners of the football club who could afford to buy their own site privately rather then used land owned but the Council and rate payers of Auckland.

If you want to build an Auckland Arena then build it in a location that is more central and will attract more people. The location will definitely have an impact on how many people will want to attend an AFC game. There are no convenient public transport options or parking options for those coming from other sides of Auckland.

Improve the system of events within the city as opposed to facilitating what is already existing in this city. Nothing like Western Springs exists but so many of Option 1 do, please do not let this historic and very useful events space be victim to the cycle of gentrification. Concerts and events bring people to this city, we have the infrastructure to accomodate it.

The Auckland Arena proposal delivers a substandard stadium with limited use. It is simply too small. There is no suitable large scale live music venue in Auckland (Mt Smart Stadium is not ideal). A purpose-built live music venue will attract international artists.

Western Springs is a great venue and site for concerts and events. It is an asset with the number of people it can host.

As well having a sports field with seating will give more options for more people and groups to use facilities at a reasonable cost.

I believe this option serves the local community and wider Auckland and offers more opportunity for people to access the great Western Springs facility. Make this facility for everyone to access.

For decades large outdoor events and concerts at Western Springs have been attended and enjoyed by crowds up to 70K - 80K people. There is nowhere else in Auckland where an experience like this in a natural Amphitheatre can be held. Vector and Go Media are simply too small, and Mt Eden is limited by the number of events that can be held there. For these reasons we have not been able to host the likes of Taylor Swift and many others thereby losing out on tourism, financial and reputational upsides that benefit the whole Auckland region and further afield. A revamped western Springs stadium with continued access to surrounding areas for all is a far better outcome than handing this valuation asset over to private investors with a very different

agenda which will serve the needs of far fewer people and effectively "privatise" a public asset which should upgraded and retained for all to enjoy.

I believe Western Springs Speedway should be allowed to continue at theor venue. This is a historic and cultural institution of all Aucklanders. I have been attending regularly over the past 48 years and take my children as my dad and his father has also done . To pile in speedway with Waikaraka Park is completely absurd and will detract and suppress the sport. Each class has its own dynamics and requirements for racing as has been the case for generations. The decision to date has been undemocratic and pre conceived in nature and has pushed individuals personal agendas on the masses in a similar vein to local speed restrictions , cycle lanes and speed measures . Springs speedway is an internationally renowned event and to close it is to remove a significant part of the culture of our city for hundreds of thousands of New Zealanders .

No other suggestions, personally think Western Springs Stadium is a 'Fantastic idea' for this city and the future! Auckland FC and Auckland Rugby will benefit overall from this new stadium!

But I personally do think there's a need in changes to proposal on the stadium though. How its operationally financed and ownership structure needs change. Personally think what needs to be followed is how Manchester City Stadium was built financially and the ownership/maintenance structure.

The stadium, originally proposed as an athletics arena in Manchester's bid for the 2000 Summer Olympics, 2 years later was converted after the 2002 Commonwealth Games from a 38,000

capacity arena to a 48,000 seat football stadium at a cost to the city council of £22 million and to Manchester City of £20 million. Manchester City FC(Leaser) agreed to lease the stadium from Manchester City Council (Owner) and moved there from Maine Road in the summer of 2003. The South Stand was extended in 2015 which increased stadium capacity to approximately 55,000 seats, solely financed by Manchester City FC. How Manchester City FC(Leaser) talk to Manchester City Council (Owner) about expanding stadium was 'negotiating' the lease agreement between both parties and secured funding for expansion. Every time Manchester City FC(Leaser) wanted to make changes to interior or exterior of the stadium, they'd need to negotiate every time with Manchester City Council (Owner) of proposed funding interior or exterior of the stadium changes and be agreed by both parties. The 'Western Springs Stadium' should follow what Manchester City Council did with Manchester City FC managed to achieve!

Auckland Council needs to follow Manchester City Council! Make Auckland Council the 'full-owners' of Western Springs Stadium and be operationally/maintained by Auckland Unlimited. Auckland Council needs to be in 'full ownership' on day one, not Auckland FC! Make Auckland FC negotiate any interior or exterior changes to Auckland Council. Auckland Council will lose ownership if sharing ownership! How?! By 'outright ownership' and Auckland FC will be 'full ownership'. Auckland Council would lose shareholdings particularly over long period of time in ownership cause of Auckland FC increased club value and capital returns if Auckland Council sharing ownership.

Auckland Council needs to make Auckland FC be the (leaser) so they're not managing events, place restrictions on events or prevention of 'potential future tenants'. Also get Auckland FC to fund Western Springs Stadium regardless what they think about council being owner! If Auckland FC don't want a purposely built stadium in Auckland and can't agree with Auckland Council, that's their problem! Auckland Council needs to be boss and be 'in-charge'!

Also the design of the stadium I'd say needs some adjustments. A 'grass embarkment' on both sides of the rugby post/goal post would make it a 'natural boutique venue' following examples likes of Basin Reserve and would showcase for tourists to see what Auckland & New Zealand is about. Grass embarkment will be really good, particularly for NPC matches for Auckland Rugby.

Please keep Western Springs Stadium for Speedway! It has wonderful access for disabled people - which Waikaraka Park DOES NOT HAVE!

There are very few places in Auckland where teenage boys will go with their family - Speedway is one of those places. It is a family friendly venue, but not so family friendly that teenagers won't go there.

It is central and handy to lots of Aucklanders.

The track has been there for years - it is in a natural amphitheatre. Everyone involved, from the parking, food vendors, race officials, etc make race nights run smoothly. If it ain't broke don't fix it.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option one sounds like it would then be used by a wide range of different groups, including a focus on youth, and has less of a financial impact on ratepayers. It would be incredible for Auckland FC to have this as their home - football is an inclusive and growing sport and it would be fantastic to see it supported. Option two is far too costly for ratepayers and the use isn't very broad reaching or inclusive.

Whilst I am an Auckland fc member, the public transport links to this area are not as good as go media/Eden Park. I do like the idea of the stadium and the reduction in rate payer spend on maintenance but don’t like the location for such a stadium unless infrastructure in this area is addressed.

I support Speedway returning to Western Springs Stadium. With a long-term lease and appropriate changes to the Unitary Plan, Speedway can be a viable and sustainable part of a shared, multi-use venue alongside concerts and Ponsonby Rugby. Western Springs holds a unique place in Auckland's diverse cultural and recreational landscape, with a rich history spanning 96 years. It makes sense to continue using and investing in this existing facility.

As a ratepayer, I would prefer my contributions support a venue that has deep generational support within the community. Speedway is renowned for its family-friendly environment—an inclusive and vibrant atmosphere that should be protected and promoted for future generations.

I do not support the venue being transferred into private ownership under a 50- to 100-year lease. Auckland already has multiple stadiums catering to ball sports—why remove Speedway and lose the diversity it brings to our city? Eden Park is our national stadium, and with its strong development roadmap, it makes more sense to support and optimise its use rather than build another complex that will compete for content.

This should stay a community facility. As ratepayers we pay for it now so let's continue to do so in an upgraded way. Ponsonby Rugby club is iconic and deserves good treatments. Councils offers of other venues eg coxes bay and Victoria park do not suit the club. Western Springs should not go into private hands. This is an Auckland icon and should be used for the community, sports and concerts. Tau should not be dictating what Aucklanders want and it is a lack of vision by council that in the long term planning only current funding has been allocated.

Western springs was gifted to the people of Auckland and should never be under the control of one group for there financial gain.The history of speedway / concerts / large cultural gatherings / Ponsonby rugby should no trampled upon. The Zoo / Motat / speedway are Auckland institutions and should remain so for all New Zealanders to enjoy.

Many thanks.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Auckland Arena would be an awesome use of the venue. With Auckland FC currently on a 5 year lease at Go Media Stadium, and expected scaling down of attendance numbers, it works very well in timing and what it brings to the area. It also means, as mentioned in the proposal, mount smart can begin to host more concerts and events similar to that of western springs. Also as it is purely privately funded, it does not put pressure on the council or ratepayers compared to the other options. There are some concerns around things such as noise and transport if it is going to end up being the home of Auckland FC. If the speedway was removed due to noise, how do we know that Auckland FC games are going to be any quieter? Especially in the current proposal where the stadium does not have four stands which does not help with sound getting to residents in the

area. This is not a problem at Go Media as it is a larger complex in a fully industrial area. This also helps with things such as transport. Eden Park and Go Media Stadium both have fairly close train stations, Western Springs does not. This could end up becoming a concern with bus routes possibly not being able to handle the people going to the arena and with it being in a residential area, possibly a lack of car parks as well. This is also why Mount Smart works very well on this, local businesses can sell carparks and parking on the streets is not an issue as it's in a residential area.

Speedway don't need two venues and Auckland is short on quality stadiums. The city missed the chance to solve this with the waterfront stadium so this is the next best option I have seen. Mt Smart is fine for the warriors, rugby can keep Eden Park (although it's awful) and North Harbour is a white elephant that should be demolished.

I support the continued presence of Speedway at Western Springs Stadium. With a long-term lease and necessary updates to the Unitary Plan, it can remain a successful, long-term component of a multi-use venue shared with concerts and Ponsonby Rugby. Speedway has a long-standing legacy at Western Springs, with 96 years of history that's deeply woven into Auckland's cultural and sporting heritage. It makes sense to preserve and utilise this facility rather than replace it.

As someone who contributes through rates, I believe those funds should go toward improving venues that are already part of the community's identity. Speedway offers a welcoming, family-friendly environment, and that's something worth protecting for future generations. I do not support the idea of transferring control of this public asset to private interests for up to 100 years.

Auckland already has many stadiums focused on ball sports — we don’t need another at the cost of a globally recognised Speedway venue.

I'm in favour of Speedway continuing at Western Springs Stadium. With a secure long-term lease and suitable amendments to the Unitary Plan, Speedway can remain a viable and sustainable part of a shared venue that also accommodates concerts and Ponsonby Rugby. Western Springs Speedway has been a significant part of Auckland's cultural and recreational identity for nearly a century, and it's logical to keep using this historic site.

As a ratepayer, I'd rather see investment go into upgrading and maintaining a venue that holds deep generational meaning for the local community. Speedway is known for being a family-oriented, inclusive environment, and that spirit should be protected and passed on. I'm strongly against the idea of the stadium being handed over to private ownership for 50 to 100 years.

Auckland already has plenty of stadiums for traditional ball sports — we shouldn’t lose an internationally recognised motorsport facility to create yet another.

Auckland is decimating its cultural heritage rapidly. It is essential to keep this historic arena for the uses it's always had - residents and locals not withstanding.

I strongly support the continued use of Western Springs Stadium for Speedway. As someone who has been actively involved in the sport as a driver and car owner for over 63 years, I've witnessed firsthand its immense value. This venue holds significant historical importance and is world-renowned, representing an amazing asset that, if managed correctly, could be incredibly successful. It's crucial to acknowledge and capitalise on its unique character. The fact that we have racing in the heart of the city is something that should be cherished not contended. We must respect the sport that has thrived there for an impressive 96 years. There's no need for yet another stadium dedicated to ball sports when Western Springs Stadium currently caters to motorsport and offers a distinct and valuable alternative. To ensure the viability of speedway and

other events, the Unitary Plan requires amendments. Furthermore, I emphatically do not support the venue being passed into private ownership for periods of 50 to 100 years.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I am a third-generation supporter of Speedway at Western Springs. I would like to see Western Springs continue to be used for Speedway.

I've been going to Speedway with my family for as long as I can remember. My grandparents took my parents, and now my parents take me. It's more than just a sport to us—it's a family tradition. Some of my best memories are sitting in the stands, hearing the engines roar, and feeling the excitement with people of all ages around me. There's no other place in Auckland where you get that kind of atmosphere.

Speedway at Western Springs is part of who I am. It's something I've grown up with, and it connects me to my family and our city's history. Taking it away would be taking away something really special that can't be replaced somewhere else.

Western Springs isn't just a venue—it's a place where generations come together to share something they love. That is something that should be fostered in the world we have today. I hope you will let it continue so young people can keep being part of that.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I strongly support the continued use of Western Springs Stadium for Speedway.

The purpose-built track is world-renowned and attracts visitors from overseas. Its point of difference lies in its unique location right in the heart of the city where spectators are incredibly close to the action. This proximity creates an electric atmosphere that is rare in motorsport venues and should be celebrated. It is one of the reasons for its international following. Rather than being overlooked, this uniqueness should be embraced and promoted as a valuable asset for Auckland.

Auckland is a diverse and vibrant city. Removing Speedway from Western Springs would diminish this diversity and strip away an important aspect of our cultural and sporting landscape. With a long-term lease and appropriate amendments to the Unitary Plan (as was done for Eden Park), Speedway can continue to operate sustainably as part of a multi-use venue, coexisting with concerts and Ponsonby Rugby and other community events.

Not enough has been done to ensure Speedway's viability or fully explore its potential. The sport has a longstanding, multi-generational following, and the venue has become a cherished community hub. The family-friendly atmosphere at Western Springs is unique and irreplaceable. It cannot simply be relocated, this culture has developed organically over 96 years and is deeply embedded in Auckland's social fabric.

The success of Western Springs Speedway is not just about the racing—it's about the community that surrounds it. Families have attended events here for generations, creating a powerful intergenerational bond with the venue. Children who once sat in the grandstands with their parents are now bringing their own children, continuing a proud tradition that connects people through shared experiences and memories. This atmosphere, built over decades, is an essential part of what makes Speedway at Western Springs special, and it cannot be replicated elsewhere.

Speedway at Western Springs also plays a vital role in grassroots motorsport development, having nurtured many drivers who have gone on to achieve international success. This legacy deserves recognition and support, not displacement.

Importantly, Speedway operates under strict noise control regulations and adheres to modern environmental management practices to ensure minimal disruption to the surrounding community. These standards demonstrate that Speedway can be successfully and responsibly run in a shared urban environment.

Speedway also contributes economically to the area, supporting local businesses through increased foot traffic during events. The hospitality and accommodation sectors, in particular, benefit from the regular patronage Speedway events bring.

As a ratepayer, I would prefer my contributions to go toward maintaining and enhancing a venue that enjoys genuine community backing and encourages family time and inclusivity.

I do not support the transfer of Western Springs Stadium into private ownership for the next 50 to 100 years. Nor do I believe Auckland needs another stadium focused on ball sports at the expense of Speedway and its uniqueness. There are already multiple venues in the city that cater to those codes. Speedway should be given the opportunity to continue, thrive, and contribute to Auckland's cultural and sporting diversity as it has for the last 96 years.

Eden Park is our national stadium and has presented a well-considered roadmap for future development. It deserves our full support to remain a premium venue for major events. Introducing another stadium for ball sports and concerts would not only be redundant but would also create unnecessary competition for content with Eden Park.

Let's not erase a piece of Auckland's living heritage. Let's preserve and support Speedway at Western Springs as a vital and celebrated part of our city.

I want the status quo because it is an known and somewhat unintrusive use of the land, the lessees/users have history there, and it provides access to the local community. There are better areas for new stadiums with better transport options than an inner-city suburb. The numbers being touted by Options 1 and 2 are totally unsuitable for where Western Springs is located, and it will become another Eden Park with noise issues and objections from very close residents, poor parking and poor access for the numbers involved. I want the speedway back because moving it removed access for a lot of people. I object to Option 1 as it is the most excluding/exclusive option.

Because this will keep speedway going as it's important pf the heritage of Auckland and its a family freely event in which most people have experienced and enjoyed

By keeping speedway at this venue it ensures the future of many who are employed around this sport

It also is a place for many young people to get involved in a culture that can generate positively and give the young ones so much encouragement for there future

It's also a well known place throughout the world, effectively speedway has put Auckland on the map in several places throughout the world with the household names from all over the planet racing there, this would be a major positive for the tourism industry

I would like the speedway track to remain as is, retaining the ability for it to be used as a concert venue. As well as enjoying nights at speedway I think its a great space for large concerts, other venues do not have the same open air energy, character and history.

I have attended several speedway events over the years and my family has a connection going back 3 generations. Western Springs Speedway is an Auckland institution. I would rather my rates went towards Speedway, maintaining and improving the grounds for generations of racers to come.

Being an avid live music fan, Auckland truly needs an inner city facility that caters to this as there really isn't anywhere else that compares. Eden Park and GO Media stadiums are not suitable options with too many restrictions around the use of Eden Park problematic. On Eden Park, I think this is a classic example of a facility that is privately owned that requires public spend to keep propping it up which just doesn't work in my opinion. The fact that the bowl concept offers more options on its use including retaining Ponsonby Rugby Club along with other sports is also a plus.

I believe option 2 is a good solution for the commercial and community future of Auckland. It is an investment by the ratepayers but it also provides the opportunity for long term revenue and also repurposing options in the nearer term future. A 100 year lease to private investors takes that whole parcel of land out of Aucklanders hands for a very long time and does not provide us with options as our city grows and diversifies. The private investors will only be focused on their return on investment and not on the greater good of the communityz

Ponsonby Rugby are a community minded org and in option 1 there is no stated consideration of what happens to them. They should have first rights in staying there.

Auckland FC have been successful in locating to Mt Smart. I would imagine that this stadium would have to double in size in the future to accommodate their success. They need a stadium if 20000 not 12000.

Finally the infrastructure at that area struggles with current usage and there is no Trainline (unlike Mt Smart). This will just make Aucklands traffic worse.

The land and facilities should stay in public ownership and the council should contribute to this option to provide the community with upgraded facilities. This isn't just a nice to have . Facilities like this are what creates a cohesive, happy and healthy community.

I strongly support the continued use of Western Springs Stadium for Speedway.

I've been involved in Speedway for over 20 years, starting as a young driver and racing into my adult years. Western Springs played an essential role in my development—not just as a driver, but as a person. It provided me with the opportunity, support, and environment to learn, grow, and compete at a high level, right here in the heart of Auckland.

Western Springs isn't just a racetrack—it's a training ground, a community, and a cornerstone of New Zealand motorsport. It has produced multiple international competitors and continues to offer a pathway for young drivers. Nowhere else offers the same historical significance, support

network, and atmosphere that Western Springs Stadium does. The connection between drivers, fans, and the venue is something special, and it has been built over decades.

This is not just my story. Many of us who started young owe our skills and opportunities to this venue. It's where we go as a family, where lifelong friendships are formed, and where passion turns into purpose.

The atmosphere at Western Springs is unmatched. The crowd is close to the action, the energy is electric, and the experience is unlike any other in the country. That combination of accessibility, community support, and professional-level racing is what has made it successful and enduring for nearly a century.

To remove Speedway from Western Springs would not only end a proud tradition—it would cut off a vital pathway for the next generation of drivers. It would erase part of Auckland’s living heritage and weaken the sporting diversity of our city.

Furthermore Auckland already has several stadiums that caters for ball sports - adding another for the sake of an iconic Speedway venue seems antiproductive for a diverse Auckland.

I urge you to protect and support this iconic venue. With the right vision and backing, Speedway can continue to thrive alongside other events in a modern, shared stadium setting. Don’t let 96 years of history and community connection be discarded.

Auckland needs a new small-to-mid sized stadium for Auckland FC, Auckland NPC, Blues, etc.

This option seems a good way of getting one without Council investment, so I support it on balance.

HOWEVER it effectively involves privatising a public space for 50+25+25100 years, which is far too long. I STRONGLY urge the lease period be shortened to 20 years (a reasonable payback period for the infrastructure investment) with no right or renewal and the assets to revert to Council or

further negotiation at that point. If the shorter period requires some Council investment, so be it. We need to keep Western Springs under some Council control as a community asset for the future.

Option 2 is perfect.

This allows the community to retain the area for use, upgrades the facilities for Festivals and the small stadium is perfect for small teams, including NPC Rugby.

Option 1 is a disgrace. We cannot let a Billionaire take over this community space to simply concrete the earth. The design shows no courage or style. Auckland FC has the funds and means to build elsewhere in Auckland. The council should aid them in helping find another area that is suitable. The basketball courts should be built neat the new underground subway system to maximize movement.

We must retain the cultural heritage of Western springs for events and Music. David Bowie, Jimi Hendrix, Bob Marley...all this would be lost if we let them concrete this amazing venue. They have the money to go elsewhere.

Please do not destroy the heritage of Western Springs. Option 2 is the only one the boosts the Mana of this amazing natural bowl.

Thank you.

As tempting as it must be to the council to accept 'free money' from billionaires, it would be such a shame to concrete over Western Springs to create a stadium that will by their own admission, only attract some matches by Auckland FC, as it is likely to be too small for them even now. Is that type of facility really what is needed here? I've always enjoyed the festivals and concerts I've attended at Western Springs and believe that outdoor spaces are vital to our city, especially those as central and accessible as Western Springs. I say keep it as is.

Certainly Auckland does NOT need another 50,000 seat facility and the site does not support such a large arena No trains, no on site hospitality will be large enough as compared to Eden Park where Kingsland, Morningside and Dominion Rd all having a variety of hospitality options and in total a large capacity.

So I guess I am,

I have attended more than 30 rock and pop concerts at Western Springs Stadium over the past 40 years. I view the stadium in much the same way that a devout religious person sees their church or place of worship. Western Springs has a strong spiritual significance to several generations of music fans in Auckland and the rest of New Zealand.

The experience of sharing one's love of music with 49999 other fans in one place should be considered a divine right of passage and needs to be preserved for future generations.

To Whom It May Concern,

We are writing this submission with a deep sense of commitment and personal connection to express our unwavering support for the proposal to enhance Western Springs Stadium. This isn't just about a venue; it's about transforming a significant part of Auckland into a vibrant hub that promises immense cultural, economic, and social benefits, truly cementing our city's reputation as a dynamic global player.

This proposal, in our view, strikes a balance. It represents an exciting evolution for a renowned entertainment facility while passionately embracing the sustained growth of community sport – a synergy that we believe will unlock the full potential of this site for everyone.

Key benefits of the proposal:

Transformative Entertainment Hub:

Hollywood Bowl Style Venue: The vision of a 50,000-person capacity "Hollywood Bowl" style venue with permanent staging infrastructure excites us. This isn't just an upgrade; it's a statement that Auckland is ready to host world-class musical acts and festivals that have, at times, overlooked New Zealand due to infrastructural limitations.

Economic Impact: Beyond the lights and sound, we see the significant economic ripple effects this will create. Increased event capacity and frequency will undoubtedly boost tourism, hospitality, and related services, generating vital jobs and revenue for our region – a win-win for our local economy.

Enhanced Fan Experience: From a concert-goer's perspective, new infrastructure promises improved acoustics, better sightlines, and overall greater comfort. These are the elements that transform a good concert into an unforgettable experience.

Strengthened Community Sports Foundation:

Ponsonby Rugby Club Continuity and Growth: The proposed renewal of Ponsonby Rugby Club's lease hits particularly close to home. As a family, many of us have played rugby at Ponsonby across a 12 year period, the club has been far more than just a place to play; it has been a profound, integral part of our family's life. It's a truly family-oriented environment where we've celebrated countless milestones, shared laughter over birthdays, cheered loudly for championships, and marked emotional milestone games. Now, seeing our kids playing at junior levels, fills us with immense pride and reinforces the club's enduring importance as a community cornerstone. The exploration of expanding operations into basketball, netball, and touch will only broaden these opportunities, fostering even greater participation across diverse age groups and backgrounds.

Boutique Multi-Sport Stadium: The addition of a 5,000-8,000-seat boutique stadium is, we believe, a crucial and smart move. It addresses a real need in Auckland's sporting landscape, allowing for a broader range of community and semi-professional sporting events that don't require the scale of a larger arena. This diversified utility ensures the venue remains active and vibrant year-round, benefiting numerous sporting codes and truly serving our community.

Strategic Financial and Ownership Model:

Shared Investment: The proposed financial model, which wisely combines substantial private sector investment for concert facilities with ratepayer funding for essential community clubrooms and ongoing maintenance, strikes us as a pragmatic and fair approach. It leverages private capital for the large-scale entertainment infrastructure while ensuring our public investment directly supports invaluable community assets.

Long-Term Lease and Stability: The 30-year lease with two 10-year rights of renewal (totaling 50 years) offers the kind of long-term stability that fosters genuine investment and comprehensive

planning. This commitment ensures the sustained viability and success of the venue for decades to come.

Balanced Cost-Benefit Analysis: While the initial assessment points to an additional cost to ratepayers compared to a more minimal approach, we believe this needs to be viewed as a crucial investment. The returns – in terms of economic growth, enhanced community well-being, and Auckland's elevated global standing – are immense and often extend beyond simple quantification. Furthermore, the projected cost rightly includes the continued stadium operation and maintenance by TAU, which is an ongoing and necessary commitment regardless, ensuring the site's continued functionality.

For us, the Western Springs Stadium enhancement proposal isn't just a development plan; it's a compelling vision for the future of Auckland – a future where our city shines brighter on the international stage while simultaneously strengthening the heart of our local communities. It's a strategically sound, financially collaborative, and deeply community-centric plan that promises to deliver a vibrant, multi-purpose venue capable of hosting major international events, all while continuing to nurture the grassroots sports that are so fundamental to our identity.

We urge the adoption of this proposal. We truly believe it will profoundly enrich the lives of Aucklanders for generations and solidify our city's position as a dynamic cultural and sporting destination we can all be immensely proud of.

Ngā mihi

Option 3B, so Speedway is included in the future of Western Springs. Speedway is the most popular attraction at the facility. It has wide attraction in Auckland and is extremely well known worldwide. On a regular basis, the facility is packed with spectators during its summer season. Quite possibly, Speedway is the most profitable venture at Western Springs.

Western Springs Racing is a vital part of Auckland's history, and it deserves investment, not neglect. Rather than letting iconic venues fade away, councils and government should focus on revitalising them to attract global events and celebrate our cultural and sporting heritage. No one is asking for Western Springs to change its identity or to be taken away- we're asking for reinvestment to preserve and enhance it. With modern, state-of-the-art facilities, we can bring these spaces into the future and continue to enjoy the things we love.

Western Springs has long been associated with great events and should continue to be available to do so. It has attracted artists such as Pink Floyd, AC/DC, David Bowie and many more. And that was when Auckland was a blip on the global radar. It should be kept as a community space, it has been a space for many community groups to come together and express themselves and connect. It is one of the few outdoor spaces left in Auckland ... don't develop it. Look at how incredible the TSB Bowl is in New Plymouth ... Auckland needs more outdoor venues, not less. Yes, we have Mt Smart and the Domain but there's something special about Western Springs and its connection with people from across the City. What we don't need is another fancy stadium that has to sell overpriced tickets to a select few in order for it to turn a profit.

Ponsonby RFC have provided so many opportunities for Aucklands young people for generations. Western Springs is th home for many families in Auckland and the focal point for weekend sport for many families from Monday to Sunday.

It's also been important for Pacific communities to have public land & facilities to.celebrate culture and traditions which has formed an important identity for Auckland & NZ.

Keeping the status quo will ensure Auckalnd maintains green spaces available to its rate payers.

The impact on local roads that are currently congested on a daily basis needs to be taken into consideration.

Increased concrete areas will add to the direct stormwater run-off into local streams and ponds, increasing flood risks for neighboring properties and public roads.

That is why I'm voting to keep the existing use.

Its been western springs forever. My dad raced there iv raced there and im hoping my son races there. There's plenty other spots to make stadiums and what not, why remove and destroy what contributes towards making central auckland ehat it is. You have edan park down the road, what an absolute pointless waste of money and a space to change it.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I strongly support Western Springs Stadium continuing to be used for Speedway. I am a third-generation member of a family deeply connected to the sport, with my grandfather having been involved over the last 63 years and my father over the last 32, I now aspire to carry on that proud legacy. Western Springs is a world-renowned venue, internationally recognised and unique among Auckland's stadiums. For 96 years, the Speedway Community has been a committed custodian of this iconic space.

With numerous stadiums already dedicated to ball sports, Western Springs should remain the home of Speedway, where it can continue to coexist successfully with other community events. Changes to the unitary plan can make the promotion of Speedway events more viable.

im not a NIMBY. if you get rid of the motorsport after 96 years where do you expect it to go?

there is only one other place for it to go in auckland and the tightfisted council have put no money into those facilites either in the last 96 years.

Western Springs is an Iconic Auckland asset which has served the public (ratepayers) well for close to 100 years. There is NO need or wish by the majority of Aucklanders to change the status quo. Council's current plans to alter the use of the stadium are unwanted, unneeded, and are only in place to further the wants of a (wealthy) minority who wish to turn the Sprind's into a semi private domain with restricted access to the public. Yes, the Council May save some money by transferring the operating licence to these proposed parties, but the benefits (monetarily) are not great and come at the cost of public access & use of a facility which has served the Auckland public very well. With elections coming up very shortly, Council should take note, that many people in Auckland are unhappy with this Councils entire Stadium strategy. North harbour

stadium has been effectively abandoned, Huge amounts of ratepayers funds have been committed to Eden park - which the Council Doesn't Own or Control, : it seems the Council is intent on yet another " Grand Plan" to build another monument to serving Councillors just for the sake of Vanity. Auckland's current Stadiums have served the City well enough for years. This sudden "need" to have a bright shiny new stadium for Auckland, is more about Greed, Vanity, and keeping up with the Joneses, than it is about actual real world requirements for this City.

Leave Western Springs ALONE!

I think More Music Venues in Auckland makes a lot of sense, It is a joke some venues in Auckland can only be used around 12 times a year. This is prohibitive to city growth. Another venue would help. Also if it holds 50000 for a concert there would still be a level of sports utilization which is also beneficial for Auckland growth.

I'm not a Ponsonby local but the club has been a icon for all of New Zealand rugby for it not to be noticed or deserve the upgrade it needs this is more then just about the club and rugby it's the future and also the legacy it's provided for so many people all around Auckland some of the most respectful people I've met have come from this club it's created more then just rugby players but gentlemen who've gone and become more then footy players but leaders in other communities also this coming from a young fella out of Ponsonby so this should speak volumes.

Re: Support for the Western Springs Stadium Redevelopment Proposal

I am writing to express my strong support for the proposed transformation of Western Springs Stadium into a state-of-the-art, multi-purpose venue that combines sport, culture, and entertainment for the benefit of Auckland residents and the wider region.

The proposed development presents a rare opportunity to unlock the full community, economic, and cultural potential of this underutilised asset.

Key Benefits to Auckland Residents

☑ 1. Community Access and Inclusion

The design includes publicly accessible training fields, basketball and padel courts, and a hospitality concourse that integrates with the wider Western Springs park precinct. These features will provide year-round recreational opportunities for local families, youth, and community groups, promoting wellbeing, physical activity, and social inclusion.

☑ 2. Cultural and Entertainment Hub

With a concert capacity exceeding 25,000, the redeveloped venue will revitalise Auckland's live entertainment scene, attracting international acts and large-scale events that currently bypass the city due to venue limitations. This supports Auckland's cultural vibrancy and boosts the local economy through tourism, hospitality, and employment.

☑ 3. Sporting Excellence and Identity

The proposal includes high-performance training facilities and a modern 12,500–15,000 seat stadium that will serve as the home ground for Auckland FC. This creates a lasting identity for a new generation of football fans, while fostering pathways for elite and grassroots sports development across the region.

☑ 4. Economic Responsibility and Public Benefit

Initial assessments suggest the proposal would save ratepayers an estimated $18.1 million over 50 years, compared to alternative options like leasing to a single rugby club. The proposers have committed to fully funding construction ($200–$300 million) and taking on all maintenance and operational costs, with ownership of the infrastructure returning to Tāmaki Makaurau (TAU) at the end of the lease. This innovative public-private partnership model ensures that long-term public benefit is secured without burdening ratepayers.

☑ 5. Sustainable Legacy

By consolidating sporting and cultural infrastructure on a single site, and incorporating open-access community spaces, this proposal aligns with Auckland Council's strategic goals around sustainability, urban renewal, and inclusive growth.

Conclusion

This proposal is a smart, future-focused investment in Auckland's identity and liveability. It promotes community wellbeing, supports local and international entertainment, fosters professional sport, and reduces long-term public expenditure.

I urge the Council to endorse and support the Western Springs redevelopment, ensuring this iconic site becomes a world-class venue that benefits Aucklanders now and for generations to come.

I would like to see Western Springs retain its use as a Speedway/concert/ruby training facility instead of being used as a for profit facility closed off to the public or only used by those who can afford to use it. I don't believe rate payers should be giving up control of council owned facilities so that private originisations can make a profit by providing private use to the weathly.

As a rate payer I would like to keep the venue under the present option TAU to continue to operate and manage the venue for community uses. The Western Springs land and the outer fields must be kept under the ownership of the Auckland City Council for the people of Auckland for at least 50 years. The $31.1 million cost to the rate payers is a future investment for the people of Auckland. In that time frame there would be new ideas and opportunities to better utilize the venue as Auckland spread outward.

Western Springs is very very important to me and Auckland. I would rather see my ratepayer money spent to have speedway at Western Springs than many of the things that the Council currently spend people's money on.

I have seen how this issue has been handled, and I don't agree with the process and have lost faith in the council and many councillors.

Save Our Speedway letter

To Whom It May Concern

I wish to express my disappointment in the way the council have gone about moving Western Springs speedway from its iconic place to Waikaraka Speedway in Onehunga. I believe that we have not been able to put our case forward, even though the representatives were able to go to the meetings but were unable to speak. What was the point of going?? Councillors weren't given all the facts and there where some documents that were changed!!!

I have been going to Western Springs and many other speedway tracks throughout the world and New Zealand for 55+ years. I must admit there is nothing like Western Springs. There was a night, not that long ago that I had 4 generations at a meeting (my dad, 2 son's, grandson and myself). When I got my licence at the age of 15, I would take my special needs sister and brother. I have left my cell phone in the toilets at Western Springs a couple of times and it has been handed in both times. Just goes to show that we are an honest bunch of people. I have made so many friends in this sport.

Speedway is an awesome sport. Where can you leave your stuff, come back eventually and it still be there. On the last night of the 2024-2025 season when the stadium was packed there was not a policeman in sight.

Please reconsider the decision and listen to the public.

Many thanks

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I support Option 2

I brought up my famiily in Ponsonby and its where my family settled when they immigrated from Samoa in the 1960's so it has a lot of great ,memories for me.. Even though I have moved out of area family are still there. We still come to it for cultural festivals, concerts and rugby so it's still a

big part of daily life for my family. My kids have bought houses there so we are all rate payers. I feel strongly about this as I know it affects my children and their future with their own families.

Having a smaller arena for concerts etc with capacity of 5-8 thousand is better. Eden P

ark is already around the corner that can hold bigger numbers of spectators.

The music arena fits more in with Motat Park, Zoo, and the Western spring's Park with its open area space and natural eco system

A big enclosed stadium will block the views and also more foot and vehicle traffic daily with the proposed health care and restaurants proposed in Option 1 will destroy these natural surroundings,.

There is more high rised buildings with the surge in Apartment Living, I feel we need to keep this space as close as to what it is now by not building too much on it but let the natural grass grow and add more natural growth by Bullock Track around the park

I strongly support Option 2 because its also endorsed by the Ponsonby Rugby Club..

This club is part of NZ History and is well known all over the world. Even if you're not a rugby fan just mention Ponsonby Rugby and they know where it is, It deserves a special place as it is survived by the loyalty of the community and its players, not just Ponsonby community but the whole of Auckland.

Sometimes it's not about the money because people move but loyalty stays

Auckland's biggest football team requires an environment that can facilitate there sporting needs, Currently they have two different sporting grounds one for match's and one for training this leaves auckland as the only a league team with a disadvantage, the huge increase in interest for the team would be great for both the sport and the nation

I am a diehard Auckland FC fan and I do not think we need to move into a smaller stadium with smaller capacity. We have built a fortress at Mt Smart, the atmosphere there is greater than any stadium in Auckland and it is so much harder to travel to Western Springs than Penrose. The spirit of Auckland is at Mt Smart, please do not do this.

As an Auckland Residence and have lived here all my life I have attended concerts , speedway, firework events, markets etc it's become and still is an Auckland icon and part of My culture and my life growing up. I have so many memories with family members here and passed. In saying that can we not explore other options and be open minded to all and not just some. Remember the Bee Gees and David Bowie played here and most are not with us now. I remember Sleepy Trip the American speedway driver true icons.

Allow the venue to operate as it has, with speedway, concerts and rugby. Other community events can be added also. This entire process sticks of corruption in supporting option1 and Auckland will fork out millions for rich investors to make a profit on a public asset and leave ratepayers to pay out on deferred costs when it is sold back. This is the most versatile stadium in the country and TAU cannot manage it properly. Leave rugby and speedway there. Add other community events and get a manager that can run it such as Nick Sautner because TAU made a mess of North Harbour Stadium and are trying the same here.

1. It makes sense given Auckland FC success to have its own stadium. Warriors and the Blues have their own stadiums.

2. Football had the largest participation numbers playing the sport in 2024. Good for the sport, Auckland FC fanbase and that it also offers training turfs for use.

3. Basketball is growing too and the 8 courts will go along way to helping current competitions or tournaments like College Sport Premier League, Auckland Basketball - Super City Competition, Basketball NZ Regional and National Tournaments, Steven Adam Camps and of course the local schools, high schools and the community.

4. Events Centre has 4 courts, Bruce Pullman, 6 courts, Waitakere Trust Arena, 4 courts and by adding Auckland Arena with 8 courts will be good for the game of basketball and Auckland in bringing future tournaments or basketball camps.

5. I like that it will cater for sports, community use, concert space, expos and conferences and health care available to ensure the space is used all year round.

6. My only concern is transport, traffic congestion and car parking. No mention of how they will cater for that? Manawa Bay when it opened delayed travellers getting to the airport. Currently Sylvia Park traffic congestion getting in and out is crazy with massive delays to shoppers and the locals. Option 1 is great but where is the contingency to manage traffic congestion?? Carpark availability?

Western Springs should continue as a Speedway track. For many of us, it's a venue where we've created lifelong memories and passed down a love for speedway over generations, from grandparents, to parents and even grandchildren. Western Spring's Speedway history contributes to Auckland's cultural identity. It's known and appreciated globally. It is a unique sporting venue that other venues just cannot replicate.

Western Springs is the home of Speedway and should be reinstated with a long term lease. The venue has functioned successfully over the years with many groups of Aucklanders utilising the venue with it being the home of Speedway, Ponsonby Rugby Club, music concerts and festivals.

The speedway is an iconic place of Auckland history. Nearly 100 years it's stood as a backing for car enthusiasts and concert goers alike. It's a travesty to bulldoze a building less than a decade of a century. 5 generations of my family have enjoyed the rumble of the cars and it breaks my family's heart to know there's a chance of the 6th generation never stepping foot where their great-great grandfather, great grandfather, grandfather all stepped before them.

Western Springs is one of the greatest Speedway venues in the world. My preference is for Speedway to be a feature at the venue in the future. Speedway at Western Springs should be actively promoted as it is an iconic venue known around the world. Thank you..

Western Springs Speedway has been an institution for decades. Multiple generations have enjoyed the racing here and still do. It is still very well supported each week and I can't see why such a popular activity needs to be taken away. Surely in all of Auckland there must be another bit of land that can be developed by the powers that be with all the money to throw around. I certainly won't be going to anything there if it changes.

Leave 96yrs old Western Springs SPEEDWAY alone, it is recognised worldwide as one of the best tracks in the world. It has been and still is the most family friendly, and safe environment I would challenge anyone to say any different. Ask Auckland Police how many times they have been called to a disturbance either inside or outside the stadium during or after a speedway meeting, the answer would be zero. Western springs speedwy has to stay

Western Springs should be used as a Speedway track and should be given a long term lease. I have attended speedway as a competitor for 23 years and a spectator for over 60 years. I have introduced family and friends to Western Springs Speedway. There is no other speedway track in New Zealand with the same atmosphere. I hope that future generations will have the opportunity to race there as well.

The cost to build Auckland Arena would reduce burden on ratepayers but it comes at a risk of local/grassroot sports and community initiatives. Ratepayers are going to offset sports that benefit few wealthy individuals and not the general public. Option 2 means that ratepayers foot the bill but it’s not clear how that space is going to be activated for the benefit of the community other than that it’s going to be nicer.

Existing communities already use the space such as Ponsonby Rugby Club. The 1000 membership and their families will be decimated with no other suitable option is available in the area. Coats maybe covered now but after the leases are up for option 1, who then maintains the cost of their concrete stadium? Not to mention whether land can legally be leased at all or for that amount of time? Working with the existing environment and communities for option 2 means the area also doesn't become so congested and environmentally more friendly. Economically the surrounding communities can still realistically access the grounds in option 2. Invest in existing communities not commercial partners. Our kids and their kids will be impacted by the choices we make today.

It's simple - this is just another exercise of rich man vs poor man, where rich man has all the conveniences at the cost of the poor man not being able to fight back without getting down on their knees to push their case to remember we are here, and we want to fight back with all we have. Ponsonby Rugby's 150+ years vs AFC 1 year who have millions upon millions to back their proposal. Is this exercise going to be about opening wallets or opening up your hearts to express the greater good. Care for Auckland, not the rich man wanting to cash in.

Because better options need to be explored that will not cost the ratepayer millions and provide a positive future for the sports already at Western Springs. This entire process has been abysmal. There is a legal challenge in place and Council is still continuing. It looks like absolute corruption involving the mayor who openly displays his bias for AFC.

I chose option 2 because I love the idea of retaining the stadium for use as a music venue. I've been to a few music concerts there with great memories. With the money being spent will future proof this for many years. Also with the rugby club with a strong history being retained with a presence at Western Springs is great too.

This would be something unique to Auckland.

Council has a special responsibility to maintain history, ie allowing both western springs speedway AND Ponsonby Rugby to continue. Speedway has existed for over 90 years and Rugby has played a huge part in Auckland, along with Ponsonby Rugby. it is not in Auckland's best interest to relocate Speedway to Waikaraka Park. i believe Council is erroneous in allowing work to proceed, when it is under investigation with a Court review

FRIDAY 13 JUNE 2025

[redacted]

[redacted]

Auckland City Council

Private Bag

Auckland

RE: FUTURE USE OF WESTERN SPRINGS STADIUM: HAVE YOUR SAY

I wish to vote for OPTION 3B

I oppose the first 2 options, as I believe the Council has never properly considered the existing scenarios; either Ponsonby Rugby or Speedway.

I am now 72 and have attending speedway since I was 12 in the early 1960s.

As a past rugby referee, I have also officiated games within the stadium centre.

As we all know, Speedway has been operating at this world renowned stadium for 95 years. It is an iconic centre and stadium. Overseas drivers who have been participating at speedway meetings for many years, all say the track is completely unique and that they love racing here.

History is being thrown out the door. It tis very similar to suggesting that the Museum be demolished and all artifacts being transferred to another out of the way location.

Waikaraka Park is not an ideal venue, even with money currently being spent to redevelop it.

I believe that Council has operated illegally by starting the redevelopment of Waikaraka, before the Court hearings have been heard and considered. This is an obvious attempt to sway any decision of the Court or possible subsequent rehearing processes, by suggesting that this development has already cost ratepayers $XXX. Work should be terminated immediately until the hearing process has been finalised.

Again, I advise that I wish to vote for option, 3B. Explore other viable options that do not throw away iconic Auckland history.

Yours faithfully

[redacted]
