LEASES AND LICENCES

- Not applicable

RECREATION VALUES

- Play space -neighbourhood
- Fitness and exercise activities
- Informal recreation - general

NATURAL VALUES

- No information for this section

HERITAGE VALUES

No information for this section

OTHER INFORMATION

- For information on the history of the park refer to the previous Massey Ward Local Reserves Management Plan 2006.
- The Upper Harbour Strategic Play Provision Assessment 2018 identifies opportunities to improve the network of play experiences in the local board area.
- The Upper Harbour Urban Ngahere (Forest) Action Plan 2021 outlines steps to increase tree canopy cover in the local board area over the next 10 years.
- Potentially contaminated land - some or all of the site may be affected by contamination. Ground intrusive activities may be constrained to ensure the health and safety of the public and limit environmental risks. Activities or developments may require asset owner approval. Contaminated land management plans may exist and should be referred to.

MANAGEMENT ISSUES

- The low-lying location of the park and the presence of overland flow paths contribute to excessive surface water and poor drainage.
- Poor drainage impacts on the use of fitness trail equipment and grounds for sports during the winter months.

MANAGEMENT INTENTIONS

1. Consider opportunities to improve park users' experience by addressing the impact of drainage issues on recreational activities.
2. Continue to provide for a range of informal recreational uses that support the needs of the local community.
3. Consider improvements to park layout and play provision as the future urban area is developed.
4. Consider planting trees to improve shade, activate spaces with culturally significant planting, and increase tree cover.
5. Planting must not compromise sightlines into the park or the ability for informal recreation to take place in the open space.

List of values associated with park

- Cultural values

Wāhi tūpuna (ancestral sites) including historical pā and places where other artefacts have been found indicating Māori settlement

Heritage values

Historic sites including archaeological sites, structures, gardens and trees

Natural values

Significant ecological and biodiversity areas

Terrestrial and wetland ecosystems present

Park with stream running through or that is adjacent to the coast

Hazards and constraints

Coastal hazards

Closed landfill and/or identified contaminated land

Other hazards or constraints

CULTURAL VALUES

- Area of cultural significance - refer to mana whenua.

RECREATION VALUES

No information for this section

NATURAL VALUES

- Significant ecological area (SEA-M2-57b) within or adjacent to the parkland.
- The following ecosystems are present within the parkland:
 - Saline: Mangrove forest and scrub, (SA1.2)

HERITAGE VALUES

No information for this section

OTHER INFORMATION

- The park is included in the Hauraki Gulf Marine Park and is subject to the Hauraki Gulf Marine Park Act 2000. It is a requirement of the Act to recognise and give effect to the purpose of the Hauraki Gulf Marine Park.
- National Grid/high-voltage powerlines go through this parkland which has implications for how park access and development is managed, to ensure the health and safety of the public. This limits the types of activities the reserve can provide e.g. kite flying
- Potentially contaminated land - some or all of the site may be affected by contamination. Ground intrusive activities may be constrained to ensure the health and safety of the public and limit environmental risks. Activities or developments may require asset owner approval. Contaminated land management plans may exist and should be referred to.
- During storm events areas of the parkland may be subject to coastal inundation that will temporarily limit the use of some areas.
- Areas of the parkland are vulnerable to coastal erosion. Over time, this can impact on recreational use, park assets and facilities. The vulnerability of the parkland to erosion is likely to be a challenge that will need to be managed appropriately.

MANAGEMENT ISSUES

No information for this section

MANAGEMENT INTENTIONS

1. Maintain natural values within the park particularly native vegetation, wildlife and associated ecosystems.
2. Activities within the park must not adversely affect or compromise the National Grid.

LEASES AND LICENCES

- Not applicable

CULTURAL VALUES

- Refer to mana whenua

RECREATION VALUES

No information for this section

NATURAL VALUES

- Identified as a site with wetland habitat and habitat connections in the Upper Harbour Pest Free and Ecological Connectivity Strategy 2021.
- Waiarohia Stream runs through areas of this parkland

HERITAGE VALUES

No information for this section

OTHER INFORMATION

- Council acquired this land from the New Zealand Transport Agency as compensation for Constellation Reserve being divested for the Northern Corridor Improvement projects.
- Council has a licence to occupy Part Section 13 SO 421598 which is owned by the New Zealand Transport Agency.
- The Whenuapai Structure Plan 2016 anticipates a local road connection through the northern portion of the park to connect to Kauri Road.
- During storm events areas of the parkland may be subject to inundation from stormwater runoff.

MANAGEMENT ISSUES

No information for this section

MANAGEMENT INTENTIONS

1. Provide for grazing to support the associated equestrian activities and services at Wainoni Park until the land is required for roading purposes, open space and recreation facilities.
2. Manage the riparian edge of Waiarohia Stream to improve in-stream ecological health.

LEASES AND LICENCES

Current and contemplated leases and licences for:

- Grazing.

List of values associated with park

- Not applicable

RECREATION VALUES

No information for this section

NATURAL VALUES

- Significant ecological area (SEA-M2-57b) within or adjacent to the parkland.
- The following ecosystems are present within the parkland:
 - Saline: Mangrove forest and scrub, (SA1.2)

HERITAGE VALUES

No information for this section

OTHER INFORMATION

- A portion of this park is unformed legal road that extends to the coast. While Auckland Council maintains this land, it is under the control of Auckland Transport. The general policies and provisions of this plan will guide the local board's position and any future input into management or development of this area where it is sought.
- The Upper Harbour Greenways / Local Paths Plan 2019 presents a vision of a complete network of shared paths linking the parks network and other amenities.
- Potentially contaminated land - some or all of the site may be affected by contamination. Ground intrusive activities may be constrained to ensure the health and safety of the public and limit environmental risks. Activities or developments may require asset owner approval. Contaminated land management plans may exist and should be referred to.
- During storm events areas of the parkland may be subject to coastal inundation that will temporarily limit the use of some areas.
- Areas of the parkland are vulnerable to coastal erosion. Over time, this can impact on recreational use, park assets and facilities. The vulnerability of the parkland to erosion is likely to be a challenge that will need to be managed appropriately.

MANAGEMENT ISSUES

- The esplanade is disconnected by an area of land in the common marine and coastal area.

MANAGEMENT INTENTIONS

1. Consider opportunities for future walking connections along the coast to support open space provision in Whenuapai and contribute to the greenways network.
2. Work with Auckland Transport over the management of unformed legal road that is utilised as parkland.

9	Lot 7 DP 41031	Local purpose (esplanade) reserve

CULTURAL VALUES

- Area of cultural significance - refer to mana whenua.
- Archaeological sites of Māori origin - Shell middens (CHI 12231, 5555, 5962).

RECREATION VALUES

Informal recreation - general

NATURAL VALUES

- Identified as a site with forest and estuarine margin habitats and habitat connections in the Upper Harbour Pest Free and Ecological Connectivity Strategy 2021.
- Significant ecological area (SEA-M2-57b, SEA_T_4726) within or adjacent to the parkland.
- The following ecosystems are present within the parkland:
 - Saline: Mangrove forest and scrub, (SA1.2)

HERITAGE VALUES

- Maritime site - Royal New Zealand Air Force DC-3 Dakota NZ 3549 aircraft (CHI No. 46), adjacent to the park.

OTHER INFORMATION

- This park is included in the Hauraki Gulf Marine Park and is subject to the Hauraki Gulf Marine Park Act 2000. It is a requirement of the Act to recognise and give effect to the purpose of the Hauraki Gulf Marine Park.
- Contains a designation for Whenuapai airbase approach lights (Minister of Defence, 4310).
- A portion of this park is unformed legal road. While Auckland Council maintains this land, it is under the control of Auckland Transport. The general policies and provisions of this plan will guide the local board's position and any future input into management or development of this area where it is sought.
- For information on the history of the park refer to the previous Waitematā Harbour Foreshore Reserves Management Plan 2007.
- Potentially contaminated land - some or all of the site may be affected by contamination. Ground intrusive activities may be constrained to ensure the health and safety of the public and limit environmental risks. Activities or developments may require asset owner approval. Contaminated land management plans may exist and should be referred to.
- During storm events areas of the parkland may be subject to coastal inundation that will temporarily limit the use of some areas.
- Areas of the parkland are vulnerable to coastal erosion. Over time, this can impact on recreational use, park assets and facilities. The vulnerability of the parkland to erosion is likely to be a challenge that will need to be managed appropriately.

MANAGEMENT ISSUES

- High risk of pathogen incursion such as kauri dieback infecting kauri and other native vegetation.

MANAGEMENT INTENTIONS

1. Maintain natural values within the park, particularly native vegetation, wildlife and associated ecosystems.
2. Support opportunities to protect the park from pathogen incursion such as kauri dieback, including track closure, track upgrades, discouraging any paths near kauri, fencing and hygiene measures.
3. Encourage pest and weed control and ensure this is undertaken in accordance with kauri dieback and/or myrtle rust prevention measures. Seek biosecurity advice where necessary.
4. Work with Auckland Transport over the management of unformed legal road that is utilised as parkland.

CULTURAL VALUES

- Area of cultural significance - refer to mana whenua

RECREATION VALUES

- Informal recreation - general
- Play space
- Community leisure and recreation

NATURAL VALUES

- Native riparian vegetation.
- Identified as a site with forest and estuarine margin habitats and habitat connections in the Upper Harbour Pest Free and Ecological Connectivity Strategy 2021.
- Significant ecological area (SEA-M2-57b) within or adjacent to the parkland.
- The following ecosystems are present within the parkland:
 - Saline: Mangrove forest and scrub, (SA1.2)

HERITAGE VALUES

- Historic structure - Whenuapai Village Hall (CHI No. 3262).
- Whenuapai Village Hall site is scheduled for additional protection. Historic Heritage Overlay rules should be adhered to for works in the park.

OTHER INFORMATION

- The main park was originally called Whenuapai Hall Reserve. It was renamed in 2010.
- Volunteers undertake ecological restoration work, including pest management and planting native vegetation.
- For information on the history of the park refer to the previous Massey Ward Local Reserves Management Plan 2006 and Waitematā Harbour Foreshore Reserves Management Plan 2007.
- The Upper Harbour Strategic Play Provision Assessment 2018 identifies opportunities to improve the network of play experiences in the local board area.
- The Upper Harbour Urban Ngahere (Forest) Action Plan 2021 outlines steps to increase tree canopy cover in the local board area over the next 10 years.

- Areas of the parkland are vulnerable to coastal erosion. Over time, this can impact on recreational use, park assets and facilities. The vulnerability of the parkland to erosion is likely to be a challenge that will need to be managed appropriately.

of the parks, particularly the native riparian vegetation which interfaces with Kotukutuku Creek.

2. Take account of the impact on views from the parks out to the harbour when planning future planting and other park development.
3. Consider opportunities to redesign and make improvements to the existing play space during renewal.
4. Consider planting trees to improve shade, activate spaces with culturally significant planting, and increase tree cover.
5. Planting must not compromise sightlines into the park or the ability for informal recreation to take place in the open space.

LEASES AND LICENCES

Current and contemplated leases and licences on the local purpose (community building) reserve land for:

- Provision of community activities and services including community venue.

MANAGEMENT ISSUES

No information for this section

MANAGEMENT INTENTIONS

1. Maintain the natural values and character
