Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?**Tell us why**

Not enough room on footpaths. High risk should there be issues with one dog in controlling the others. Serious H&S issue

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Auckland Botanic Gardens, Tāpapakanga Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

I do not support the proposed change

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current Policy (dog access) rules

Tell us why

We have to drive nearly an hour to this park as there are not enough off-leash areas already.

There is never an overwhelming amount of dogs to feel threatened by. Dogs need somewhere to exercise during the day if you live in the city and can't get to the beach in off peak hours in summer.

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

Tell us why

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

What do you think of this proposed change?

Mahurangi Regional Park (West)

Mahurangi East

Mahurangi Scott Point

Tell us why

Muriwai Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Pākiri Regional Park

We are proposing to prohibit dogs on the associated beach (currently off-leash).

What do you think of this proposed change?

Tell us why

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

Tell us why**Tāpapakanga Regional Park**

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

I don't know

Tell us why

With the addition of some clear signposts I would like off leash from along the beach and including the coastal / historical walk but on leash through the paddocks and in the car park areas. We went here on the weekend and loved it and our dog would have too but it was unclear if she was allowed at the park at all. I think off leash in the bush for dogs should be no problem. We have been on the Omana walk before and it was enjoyed by many dogs and their owners and the Tapapakanga walk only had us on it so less risk again.

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why**Te Ārai Regional Park**

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

Tell us why**Waitawa Regional Park**

We are proposing to change the eastern part of Mātaitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

What do you think of this proposed change?

Tell us why**Wenderholm Regional Park**

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Depending on foot traffic in general on associated walks I think off leash is fine. Areas clearly marked this would help too so people without pets are aware they may run into dogs

I've run a dog walking business and I believe this is so sensible....This law has been passed in the UK...

I lived in Beachlands where the dog was attacked and killed it was terrible

Even if you have control over your dogs you can't control what's around the corner

(I've met cows and sheep that have got out the fields ... people who are scared of dogs... spooked horses etc

Pack walkers are beneficial to so many dogs and their families. Create a licence for dog walkers with more than 3 dogs at a time. There are few uneducated dog walkers but many that are extremely knowledgeable and beneficial to society

I am a dog owner and I support education of dog owners. However, I also appeal to you to include education for non-dog owners, particularly those parents who take their young children to play in off-leash dog areas. It is not fair to the responsible dog owners who concentrate on controlling their dogs to have to deal with young 'out of control' children running up to their dogs or screaming excitedly around dogs when we are trying to keep the dogs calm. (By the way, well done and thank you for all your own on the policy and bylaws)

Tell us why

Having been an Animal Management Officer for nearly 5 years working with the AMO and Barking officer space I do agree with regulating the amount of dogs that can be walked off leash or on leash by a single person, however this rule though appropriate for the general public does not distinguish between this and those in a dog walking industry. I also agree that the dog walking industry needs regulation but believe that this should be done separately to these proposed changes.

I believe creating licensing for those who can walk dogs professionally and ensuring appropriate levels of training/ education in this sector would be more beneficial for the dog community as a whole. Dog walkers play a very important role in reducing the amount of barking and roaming complaints as dogs are looked after and stimulated while owners are busy/ working. Dog walkers have a very positive impact in this way. The issues occur when there are people who are untrained in this industry doing the job. I do agree with limiting the amount of dogs to a single dog walker, but this needs to be separate from the proposed general rules you are looking at enforcing.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Do not support

Tell us why

Neutering does not alter behaviour. Training alters behaviour. If a dog is entire and menacing it will also be neutered and menacing. Making dogs undergo a painful and unnecessary invasive surgical procedure is not the answer for being menacing. Responsible ownership is, would you suggest ear cropping because my dog doesn't listen? I don't think so.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

There should be nominated expert witnesses. Who are trained and knowledgeable in animal behaviour and legislation.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Do not support

Tell us why

A bit discriminatory. Just because you live in a certain area this shouldn't limit the number of dogs you can keep. Might not be ideal circumstances. But it's would discriminate against low income families.

Clarify how dog access rules are set:

Support

Tell us why

They should be evidence based and information based. They should look at what other countries have implemented and what has been successful in alleviating the issues they have identified.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

I am writing to formally oppose the proposed ban on dogs at Te Arai Regional park and in particular Forestry Beach. As a daughter of local residents and dog owner, I believe this decision is both unnecessary and unfairly targets responsible pet owners while ignoring far greater threats to the local environment. Forestry Beach is one of the few remaining places where locals can exercise their dogs freely while enjoying the outdoors. For many residents, particularly those without large private properties, it provides an essential space for physical activity, mental well-being, and community interaction. Banning dogs would disproportionately impact these individuals, stripping them of one of the last accessible areas for responsible pet recreation.

The claim that dogs pose a significant risk to wildlife and dune stability is difficult to take seriously when considering the scale of recent developments in the area.

The construction of three 18-hole golf courses, along with extensive infrastructure, has resulted in the destruction of hundreds of acres of natural habitat. These projects have had a far greater impact on the environment than local dog walkers ever could. If environmental protection is truly a priority, then efforts should be focused on regulating large-scale developments rather than punishing everyday residents who simply wish to walk their dogs. Furthermore, responsible dog ownership—including leash laws, waste disposal, and wildlife awareness—can be managed through education and enforcement rather than an outright ban. Many dog owners are already conscientious about their pets' impact on the environment and take appropriate measures to minimize any disruption.

I urge the council to reconsider this proposed ban and instead work with the local community to find a balanced approach that accommodates both environmental concerns and the needs of residents. Options such as designated off-leash hours, seasonal restrictions, or increased signage about responsible pet ownership would be far more equitable solutions than a total prohibition. Thank you for considering this submission. I hope that the council will take into account the voices of local residents and recognize the importance of Forestry Beach as a vital community space.

Tell us why

Tēnā koutou,

I am writing to formally oppose the proposed ban on dogs at Forestry Beach. As a daughter of local residents and dog owner, I believe this decision is both unnecessary and unfairly targets responsible pet owners while ignoring far greater threats to the local environment.

Forestry Beach is one of the few remaining places where locals can exercise their dogs freely while enjoying the outdoors. For many residents, particularly those without large private properties, it provides an essential space for physical activity, mental well-being, and community interaction. Banning dogs would disproportionately impact these individuals, stripping them of one of the last accessible areas for responsible pet recreation.

The claim that dogs pose a significant risk to wildlife and dune stability is difficult to take seriously when considering the scale of recent developments in the area. The construction of three 18-hole golf courses, along with extensive infrastructure, has resulted in the destruction of hundreds of acres of natural habitat. These projects have had a far greater impact on the environment than local dog walkers ever could. If environmental protection is truly a priority, then efforts should be focused on regulating large-scale developments rather than punishing everyday residents who simply wish to walk their dogs.

Furthermore, responsible dog ownership—including leash laws, waste disposal, and wildlife awareness—can be managed through education and enforcement rather than an

outright ban. Many dog owners are already conscientious about their pets' impact on the environment and take appropriate measures to minimize any disruption.

I urge the council to reconsider this proposed ban and instead work with the local community to find a balanced approach that accommodates both environmental concerns and the needs of residents. Options such as designated off-leash hours, seasonal restrictions, or increased signage about responsible pet ownership would be far more equitable solutions than a total prohibition.

Thank you for considering this submission. I hope that the council will take into account the voices of local residents and recognize the importance of Forestry Beach as a vital community space.

No change to current Policy (dog access) rules

Tell us why

Dogs are not a problem on leash in the proposed 'prohibited' areas. Dogs are part of people's family, and we should expand areas we can take our dogs, not further restrict them. Poorly behaved and out of control animals can be dealt with using current dog control laws, this change is restrictive and unnecessary.

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Unduly restrictive to dog owners - dogs need good access to a wide range of environments including walking tracks for their and their owners health and well being.

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

It is ridiculous to ban on leash dogs from the beach during the day. There is literally no justification I can think of. As long as dogowners follow the current rules there is no problem! It is unduly restrictive for dogs and their owners enjoying their local communities.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Personally I do not support these changes and the impact this could have on dog walking services; dog walking services provide much needed exercise for certain families and I believe this should be managed through professional licensing rather than sweeping changes.

Do you have comments on any of the above proposed changes?**Do you have any further comments on the proposed policy and bylaw changes?**

The biggest concern is the proposed change to the overall objective of the policy, from being very supportive of dogs as a part of our society, to being viewed as more of a 'nuisance'.

If these changes go through, I see this as the thin end of a wedge that will drive a continuous degradation of how dogs are perceived in the eyes of Policymakers in New Zealand.

The current (2019) Policy and by law state one of the key objectives of the policy to "maintain opportunities for owners to take their dogs to public places".

The proposal is to change this wording to a bunch of very negative words about dogs that assumes they are a 'danger and distress, a nuisance, cause damage' and that there is an expected or "inherent conflict between dog owners" and the rest of society!

Other than the obvious impacts on the health of dogs and their owners (!) these are big changes that do not meet the criteria of the Dog Policy 2019.

Much of what has been suggested as 'findings' is merely a statement of what is happening already, and in many cases completely wrong interpretation of councils own survey.

Most of what has been cited as 'structural change' and 'significant risk' are in fact minor changes, if any, or low-impact issues (by councils own findings).

The way the policy works is that Council and Dog Management are supposed to manage the low impact issues from irresponsible dog owners through better education and direct intervention, not massive changes to access. The policy is NOT designed to enable mass changes to dog access without significant reasons and due consideration to alternatives and/ or providing other places – neither of which are present in the proposal.

In short, these are 'issues' that could and should be managed with a few good signs and better management of irresponsible dog owners, not sweeping dog access changes for the vast majority of responsible dog owners!

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

There are enough restraints on dog owners already. Please do not make it harder to give our animals a fulfilled life

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

I support the maximum of 6 leashed, however I do not support up to 3 unleashed. A person only has 2 hands in to restrain and control of an unleashed dog in emergency situations. Off lead should only be used in private fenced areas not open public spaces. It does not matter how well trained the unleashed dog is, there are multiple unpredictable situations a well trained unleashed dog has resulted badly.

In 2021, I was part of a collaborative effort between Wellington City Council, Animal Control and a group of leading industry professionals. Together, we created local standards that are fair and pay respect to public safety, wildlife and most importantly our beloved pups.

This collaborative approach has created strong positive relationships between all parties and has worked.

The standards require accountability from walkers and take into consideration that the number of dogs a person can safely manage varies greatly from person to person; with some struggling with one and others safely handling upwards of ten.

I welcomed these long awaited industry standards and I urge Auckland Council to consider the success of the Wellington Commercial Dog Walking Licence.

Thank you for your Consideration.

Tell us why

I support responsible professional dog walkers, and believe that the proposed numbers are too restrictive. This will have a negative impact on the ability for dogs to access competent walkers to support meeting their needs, as well as unfairly making it challenging for professionals to earn a sustainable income through their craft. I support a 12 dog maximum limit in line with the Canine Industry Standards Associations guidelines, with the potential for a licensing system or competency assessment to support responsible handlers. I'd also support encouraging education for all potential walkers through a mentorship program.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Tell us why

I am an accredited professional dog walker and hold a licence with Wellington City Council., and walk up to 12 dogs at a time safely and under control. I participated in the workshops with council to shape the licence. I understand innately the challenges from both council and dog walkers.

As we resolved with them, a limit does not determine ability to control or to keep safe the dogs in a handler's care, and does not resolve the issue of on or off leash dogs causing a nuisance to others, taking up paths, or having dogs off leash in on leash areas. This happens whether one dog is being walked or several, by both dog owners and dog walkers.

The relevant issues which need to be considered are:

- Better education and knowledge of responsibilities under the dog control act for both dog owners and dog walkers ie understand fully control includes not allowing dogs to approach, harass, intimidate, bully others either on or off leash and doesn't just mean dogs aren't allowed to roam or be aggressive
- Better education on dog body language ie what bullying and intimidation look like, what a 'no thank you' signal looks like well-before a reaction, and 'they're just being friendly' is more often than not a dog with poor social skills
- The entitled attitudes when lack of control is highlighted
- The lack of consequence, fines and regular checks from Animal Control to ensure dogs are under control - more and more rules get put in place but few are actually enforced
- Dog walkers without health & safety plans, risk mitigation, liability insurance or common sense
- Dog walkers with limited experience taking out too many dogs too quickly beyond their own safe limits (which can reduce when new dogs who need training are introduced)
- Dog walkers not investing time to assess dogs first, match to existing pack members, introduce them slowly, teach them basics, keep them on leash until they have the skills, and/or taking on unsuitable dogs
- Dog walkers not learning from their mistakes or those of others
- Dog walkers without consideration for the public using the same spaces
- Dog owners walking dogs on narrow paths on the full extent of longlines or flexi leads

- Dog walkers or dog owners who do not teach loose leash walking or neutrality, so multiple dogs leashed together then becomes a hazard or liability
- Dog walkers who will still choose to operate contrary to the rules

There are many dog walkers, particularly in the Auckland region, who take the time to provide a structured environment where dogs can be fully supported to get past behavioural issues, refine their social skills, learn to act appropriately around everyday distractions, and meet the needs of dogs in households where they may otherwise not get met due to family, work, life commitments. The service is invaluable to dog owners who need help to get ahead with their dog or keep them fulfilled, which reduces the possibility of barking complaints, roaming or reactive dogs, and subsequent impacts on Animal Control. In Wellington, it is acknowledged structured dog walking also adds to the vibrancy of its public spaces. There are however far too many dog walkers who regularly have dogs go missing, who cause nuisance to others, attack dogs, who don't have basic business practices and who take more dogs than they can or should handle.

What is lacking in Auckland is regulation of the industry or of dog owners, where evidence of ability, knowledge and basics is required. In Wellington, dog walkers complete a course, undergo in-field assessment on whether we can sufficiently control multiple dogs in our care, provide health & safety and lost dog protocols, and evidence of public liability insurance. If we receive complaints, we may lose the licence. In an ideal world, this would also include dog owners with multiple dogs. I believe Auckland needs a solution such as this, not limits.

However, there are still many dog walkers who operate without a WCC licence (or Greater Wellington Concession), without consequence.

As far as the idea of some on and some off leash dogs without a licence in place, in practice, this dilutes the benefits pack walking provides, and may cause more issues for inexperienced dog owners or walkers. Those who can control multiple dogs are presented with a challenge of rotating which dogs are off leash at any one time, limits the time spent on fulfilling basic needs like sniffing and playing, or to gain necessary social skills and learning with their peers. Without education and training, those who can't walk multiple dogs on a loose leash and/or around distractions may struggle with the on leash dogs having tantrums, spinning, lunging, reacting while their friends or household members get to be free, and to then control all dogs around other off leash dogs while those behaviours are happening.

While dogs in smaller packs may still benefit, it becomes unsustainable when you factor in standard operational costs such as insurance, fuel,...

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Because it penalises good dog owners and does nothing to stop bad dog owners who don't follow the rules.

Because Auckland has a roaming dog problem not a problem with responsible dog walkers.

It will not address any issues as none of these are caused by the number of dogs walkers.

It will stop responsible professional dog walkers from operating and support responsible dog owners who care for their dogs.

I do not support the proposed limit on walking multiple dogs.

The proposed limit will only penalise responsible dog owners and will not stop irresponsible people who do not follow existing laws.

Auckland has a serious issue with roaming dogs and Council should focus on this not multiple dog walkers who make up a tiny amount of reported issues. I am a professional dog walker, and i have issues with roaming dogs, we are not the problem (although like most industries there is a small number of people operating as walkers that shouldn't be, and misrepresenting our industry.

I support a license being developed to regulate professional dog walkers as they have the skills to handle multiple dogs and provide a valuable service to me and the community. I am a walker, and although i never take more than maximum of 6 - i have seen and know w=of others that walk more confidently, capably and safely.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.
