Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

Walking multiple dogs seems to be done by commercial businesses. I don't think our public areas should be used by profit driven operators. I don't know anyone who owns 6 dogs so I don't see why I should have to manage or restrict my dog around someone's business, I don't think it should be allowed to walk more than 3 dogs at a time.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

I don't know

Tell us why

I've got no idea what this means. For genuine consultation you need to clarify what you are talking about.

Clarify rule that all dogs classified as menacing must be to neuter:

Do not support

Tell us why

All dogs should be neutered other than genuine breeders

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

I don't know

Tell us why

Again don't know what the options are. Clarify please.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

I don’t know

Tell us why

Other than farms over a certain size multiple dogs (more than 2)should not be permitted anywhere in the urban regional Auckland area.

Clarify how dog access rules are set:

I don’t know

Tell us why

No idea what “clarify” means. You cannot call this consultation if there is no clarity about the intention of the proposal.

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

I don’t know

Tell us why

What clarification is required - I think the issue is refusal to comply rather than a lack of clarity.

Clarify or correct errors in Policy Schedule 2: Dog access rules:

I don’t know

Tell us why

I need to know what the “errors” are

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

I don’t know

Tell us why

What is an “outdated landmark” makes no sense

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Do not support

Tell us why

If updating means banning on leash walking I do not support this.

Remove outdated or duplicate bylaw content:

I don’t know

Tell us why

Examples of “outdated content” ?

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

This is very poor consultation process lacking clarity - this should be redrafted and recirculated for consultation

I feel that these proposed changes are unfair on responsible dog owners. I frequently take my dog to Muriwai for an off leash run. I have never seen any issues of poor dog management while in the area north of the surf club area. There is plenty of room for those who do not want to be in the proximity of dogs on the south end of the beach.

I am tired of being treated like the worst of dog owners - we do the right things responsibility and get treated like we are bad dog owners. Put more resources in your policing the bad dog owners and leave the rest of us alone.

Having a maximum amount of Dogs per Walker is not going to make any difference to those cowboy dog walkers out there that have no idea about dog behaviour or training. The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Having a maximum amount of Dogs per Walker is not going to make any difference to those cowboy dog walkers out there that have no idea about dog behaviour or training. We need regulation in the industry with some form of license to prove you are responsible and can have control over your dogs and any situation. Dog walkers need to have some kind of minimum training to be able to offer the service

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Tell us why

I think it is nonsensical to not allow dogs to be walked on leash inside Ambury Farm. One Tree Hill is also a working farm, and dogs are allowed there. What's the difference? I live in Mangere Bridge and own a small dog. Unfortunately, in my area many dog owners do not see the need to keep their dog contained on their property, and my dog has more than once been attacked by bigger dogs when we're out for a walk. I cannot walk in my neighbourhood without being constantly on the lookout for roaming dogs, which makes walks stressful rather than enjoyable. If I could walk her in Ambury Farm I would not need to worry.

I do not support the proposed change

The proposed change is more restrictive, not less. Do Auckland Councilors just hate dogs? It's already difficult enough to find walking tracks and trails that are dog friendly in Auckland. I struggle to see a sensible reason for prohibiting on-leash dogs on walking trails.

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

I just want to be able to walk my dog at the beach on a leash, or take my dog with me to the beach on a leash when I'm having a beach day. At the moment many beaches in Auckland do not allow dogs during summer. Silly.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

I believe trained dog walkers are capable of having 15 dogs maximum with all dogs off leash if they've trained them. I have first hand seen my unruly dog get trained by a professional walker. What I propose is that the walkers have to get a license so not everyone can do it. But restricting how many when trained is excessive

What do you think of this proposed change?

Tell us why

Providing dogs are responsibly under leash, it is unnecessarily exclusionary to ban them (and by extension their owners) from Parks. Beaches are a different case, where dog excrement on them is a health risk.

3Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

Maximum of six dogs, with no more than three off-leash unless licence obtained. This provides space for professional dog walkers to continue operating as long as they meet standards of care.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

3Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#1284

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Māngere-Ōtāhuhu

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

People walking dogs are not a problem. It is the irresponsible owners who let dogs roam off their property, and dangerous breeds that are an issue.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

3Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#1762

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I do not support the proposal to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed limits of 6 leashed, 6 mixed, and 3 off leash dogs are unreasonable for several reasons:

Unreasonable Restrictions on Trained Dog Walkers: This proposal unfairly restricts professional dog walkers who are trained to handle multiple dogs safely and effectively.

Overlooks Benefits of Off-Leash Pack Walking: The proposal does not consider the benefits of off-leash pack walking, which can be highly beneficial for the dogs' socialization and exercise.

Too Broad in Scope: The proposed limits apply to all council-controlled public places, including rural and remote areas where such restrictions may be unnecessary and impractical.

Lack of Evidence-Based Justification: There is no clear evidence provided to support the need for these specific limits, making the proposal seem arbitrary and not grounded in research.

For these reasons, I believe the proposal should not go ahead as the current law already promotes safety as dogs must be under control at all times. Policy should focus on enforcing that rather than prohibiting thoes that abide

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current Policy (dog access) rules

Tell us why

I oppose the proposal to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas for the following reasons:

Significant Reduction in Dog-Friendly Areas: The proposal would result in a significant reduction in the areas where dogs can be off-leash, particularly in a largely unused section of the park. This limits the space available for dogs to exercise and play freely.

Restrictions on South Auckland Dog Owners: South Auckland dog owners already have very limited access to off-leash areas. This proposal would further restrict their options, making it difficult for them to find suitable places to exercise their dogs.

Punitive Measures Against Responsible Dog Owners: The proposal unfairly targets responsible dog owners who use the gardens to safely exercise and socialize their dogs. These changes would penalize those who follow the rules and ensure their dogs are well-behaved.

Negative Impact on Dog Wellbeing: I particularly oppose the changes that would remove dog access to the stream. Playing in the stream is a beloved pastime for many dogs and contributes significantly to their wellbeing. Removing this opportunity would have negative impacts on their physical and mental health, especially when coupled with the already limited opportunities for dogs to enjoy water activities.

For these reasons, I believe the proposal should be reconsidered to better accommodate the needs of dog owners and their pets.

The Botanic gardens are a great resource for dog owners in an area where there are very minimal options for off-leash dog walking. Also having the option to sit outside at the cafe is wonderful. It is completely unfair to take that away from dog owners for no reason. For people that don't like dogs, there are almost unlimited areas that they can be while dog

owners are confined to minimal options as it is. This will only make dog owners more desperate and less cooperative because they have no options.

3Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#1902

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Māngere-Ōtāhuhu

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

If the dog walker is a professional and well organised entity there is no issue with the number of dogs. It is the strays and the out of control dogs that need controlling - why affect the people who love their dogs enough to pay to have them walked

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

I Live in Mangere, It seems that dogs are allowed to roam and not have collars or tags. Calling animal management is a waste of time. So many dangerous dogs roam here that its unsafe to walk a dog on the streets or parks due to risk of dog being attacked and no one can be held responsible due to no registration.

No enforcement is seen and can drive around and see dozens of dogs just roaming free as owners act like they are in the islands (No offence intended, Just uneducated about keeping dogs within the property and knowing where they are.

Im on Pukaki lagoon farm and atlest once a week we spot dogs roaming in groups of 2 & n ow 3. Have to check before taking our dogs around the farm as they are not fighters and most dogs we see are pit bulls as thats the breed that is most common in this area. Makes the owners feel tough. Animal management should be patrolling & inpounding these animals. Give me a net ill get several a day. Should in force the rules so people learn. Its a joke.

Ill drive around and take some photos and send them in.

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum eight dogs, with no more than four off-leash

Tell us why

I believe that pack walks can be very enriching to a dogs life and 6 is too few total dogs for specialised dog walkers. 8 with max of 4 off leash would be more reasonable, but even up to 12 total (while still keeping max of 4 off leash at any one time) would be ideal in my opinion.

Otherwise you can also be impacting the livelihood of dog walkers if you cut down their total numbers that they can walk.

3Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#2001

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Māngere-Ōtāhuhu

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Why does there need to be an arbitrary maximum number of dogs that someone can have under control? This adversely affects small dog walking businesses run by Aucklanders. Please spend our money on addressing the rampant issue of roaming dangerous dogs rather than hamstringing local businesses.

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Ambury Regional Park,Long Bay Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Too wordy - why make it more complicated the current wording i think is much clearer.

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Its basically impossible to take dogs to the beach in summer, if they are controlled and on a lead I do not see why they should be restricted from the beach.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

3Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#2221

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Māngere-Ōtāhuhu

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash unless licence obtained

Tell us why

The number of dogs on or off leash or in a pack won't directly result in improved quality of care of dogs receive, expertise in dog handling, safety and security assurances for dog owners, or improved safety to the public.

Stricter rules for compliance shouldn't be placed on those whose reputation and livelihoods rely upon their ability to maintain professional standards and high quality care. They're already motivated.

Stricter rules for compliance should be on dog owners who have proven repeatedly that they are not providing adequate care for their dogs or keeping them secure on their properties.

I agree with and have signed the petition by the Auckland Professional Dog Walkers association to adopt a regulatory approach through a licensing regime that recognises the expertise of professional dog walkers. I work for a conduct regulator. Licensing establishes standards and expectations and allows for their monitoring and enforcement. Through a licensing regime that allows for dogs to be run off leash in packs but with professional supervision, the council would also be contributing to the ensured wellbeing of dogs - something that simply ownership doesn't do. A hard stick approach of numbers won't achieve what the Council aims to achieve.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

3Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#2695

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Māngere-Ōtāhuhu

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Ambury Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I support the proposed change

Tell us why

Dogs must be to be kept away from any bird nesting areas in our park, we need to protect our endangered birds. I would include the esplanade area in this order as there are bird nesting areas here also and we have a problem with roaming, neglected dogs as well as irresponsible dog walkers who seem to think it is ok for their dog to be off a leash. I would like to see one fenced area for dogs off leads at the other end of the esplanade nearer the bridge and well away from birdlife. We also have major issues with roaming dogs threatening people and other leashed dogs in the Mangere bridge area. To make it clear to all I would specify all dogs must be on leads while walking, apart from in specific areas which are for unleashed exercise. These areas must be well enclosed so that people feel safe. Then any dogs off leads outside of these areas should be impounded or owners fined instantly if their dogs are off their leads. Mangere mountain is another area where dog owners ignore the dogs on leads signs and it can be quite threatening for walkers at times when dogs rush up to them and the owners are nowhere to be seen.

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

The problem is not the number of dogs, the problem is incompetence or irresponsible management of dogs. Strict rules on this many off leash and this many on leash is bizarre and has no application to pack mentality or how canine interact or a successful dog walker operates, all you aim to punish with this regulation are the responsible, the irresponsible won't change. The troublesome and prone to aggressive dogs stay on leash no matter how many you have in your care.

The amount of enjoyable off leash areas for responsible owners are diminishing or being "developed" constantly, we are slowly being confined to **********, muddy, no beach access etc. Offleash areas are key to socialising your dog fully with responsible training, aswell as exhibiting and interacting with non dog owners to further reduce the stigma.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Our dogs should be able to run free (controllably of course) as it's part of their everyday health + exercise. It allows them to socialise freely amongst other dogs also. Keeping them on leash just adds stress and frustration to them.

Tell us why

Our Nalah needs lots and lots of exercise, and her weekly outings with her pack provide the physical & social interactions that help with her wellbeing. Changing the rules will only add to her stress when we take her out - that's if we manage to take her out during the week (due to work comittments). And I can only imagine the cost of paying someone to walk her will increase like everything else at the moment. Boo!!!

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

This would be hugely detrimental to the number of licensed dog walkers who do a great job walking a pack of dogs off leash. They are well under control and trains them to be better at socialising and getting on with other dogs. Roaming dogs are more of a problem. The dogs out with reputable dog walking companies are excellent at controlling the dogs. For dog owners these companies provide amazing opportunities for dogs and stops them being nuisance dogs in the neighbourhoodl

3Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#3126

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Māngere-Ōtāhuhu

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash unless licence obtained

Tell us why

Dog walkers who want their dogs off-leash should have to obtain a licence to prove they are responsible and know how to control their dogs.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash unless licence obtained

Tell us why

The proposed rule is a blanket rule applied to everyone and history has always told us that one size NEVER fits all. The purpose of this change in your own statement of proposal even says that it's targeted at simply owners - there hasn't been any consultation or consideration of profession and qualified dog walkers

I understand there are people who cannot control multiple dogs off leash and that's where we run into issues, however there are legitimate professional services who run off leash socialisation and training walks to improve dog behaviour overall. Without being able to run as they do, the dogs who need the service will miss out and behave worse in public. My dog is an absolute example; we got her from the Council animal shelter years ago, and she has always been difficult to manage in public. After seeking the professional help of these professional dog walkers, she is a dream to manage in public with me. Surely that's the kind of behaviour the council wants to support. There are absolutely some walkers who shouldn't be allowed to walk multiple dogs off lead - I can even pass on their "business" name if you really wanted! But their bad management shouldn't directly affect the business and livelihood of qualified walkers.

What do you think of this proposed change?

Tell us why

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this

Location 1:

What is the full name of the location where you want to change the dog access rules?

Mangere bridge esplanade

What local board area is this location in?

Māngere-Ōtāhuhu

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

Dogs not under control in public areas

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

There have been many cases within the community of dog attacks on other dogs on lead, and I believe that restriction to the time available to access may mitigate this.

Professional and qualified dog walkers are integral to the lives of some families to provide socialisation and care for their dogs. Responsible and caring dog owners will be punished further if dog walking is financially not profitable and therefore disestablished. Instead of making this rules there should just be harsher punishments for unqualified dog walkers

Submitter details:

Organisation (if applicable):

Local Board: Māngere-Ōtāhuhu

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Because of other bylaws which limit individual ownership to 2 dogs, I'm assuming the ones walking multiple dogs are professional walkers ... who are providing a community service and helping wellbeing of dogs. As professional dogwalkers they can easily be 'registered' and monitored ... the proposed policy is heavy handed and misses the issues ... Mangaed dog walking are not causeing the roaming dog risk

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

sorry like all policy it is not easy to find where it impacts on me the community person, dog owner and local place based being.

Yes it is a great idea to clarify, simplify etc but most people dont have time to find the small print and cross relate with unitary plan or whatever. So it will get ignored until someones 'caught'

Also it does no address core issues around public safety and animal wellbeing ... I assume the real purpose of so many words and rules.

Clarify rule that all dogs classified as menacing must be to neuter:

I don’t know

Tell us why

Its the owners who are menacing ...

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

Yes but surely a menacing dog is known by its behaviour and its ownership ...

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Rather than imposing arbitrary limits on the number of dogs a person can walk, Auckland Council should implement a licensing system for professional dog walkers. This would ensure that only trained, experienced individuals manage multiple dogs while maintaining public safety and responsible dog handling.

A licensing system would:

- Ensure safety and accountability by requiring dog walkers to demonstrate competency in handling multiple dogs, reducing risks to the public.

- Provide better regulation by allowing trained professionals to continue working without unnecessary restrictions while ensuring high standards of safety and management.

- Support the industry by protecting the livelihoods of professional dog walkers, who play a crucial role in helping busy dog owners. Many owners rely on these services, as they cannot take their dogs to work or provide sufficient daily exercise themselves. Professional walkers help maintain dogs' health, well-being, and socialisation, benefiting both the animals and the broader community.

Number of dogs walked:

- The proposed change—limiting the maximum number of dogs (both on-leash and off-leash) to six, with only three allowed off-leash at any time—could have significant negative consequences for both professional dog walkers and everyday dog owners.

- While the intention behind these changes may be to improve safety and reduce incidents, it's important to note that group dog walking accounts for only 0.7% of all dog-related issues.

- I have selected "other" as the other option of the proposed limit of eight dogs per walker, with only four allowed off-leash at any time, raises concerns about what qualifies as "off-leash." Clear definitions are necessary to ensure practical and fair enforcement.

For example, a professional dog walker handling ten well-managed dogs—four fully off-leash and one or two on long lines—could still maintain safety and control. Long lines provide dogs with more freedom while allowing the walker to maintain control, acting as a middle ground between fully off-leash and on-leash walking.

Rather than imposing rigid restrictions, a dog walking license should assess a professional's ability to manage multiple dogs in different settings. This approach would prioritise safety while allowing flexibility based on a walker's experience and skill level.

Allowing more access for dogs in camping grounds is essential for creating an inclusive experience for families who consider their pets part of the family. Dogs need opportunities to explore and exercise, and camping provides the perfect environment for this. Expanding access also benefits campground owners by attracting more visitors and increasing revenue. For dog owners, being able to bring their pets on vacation reduces stress, promotes responsible ownership, and enhances the overall outdoor experience for everyone. To ensure safety and respect for other campers, clear rules around leashing dogs while in the campground, especially in high-traffic areas, can maintain control while still offering freedom in designated pet-friendly zones.

In Australia there are campground specific rules. E.g., Each campground may have additional rules, such as restrictions on the number of dogs per campsite, noise regulations (e.g., keeping dogs quiet to avoid disturbing others), and restrictions on

certain breeds deemed more aggressive. Some campgrounds also require proof of vaccination for dogs, particularly in areas with a high concentration of pets. It's also common for dogs to be prohibited from entering certain facilities like kitchens, swimming pools, and amenities blocks.

I agree with some changes to dog access and off-leash areas; however, I do think there needs to be more consideration for dog owners and dog areas.

Where limited dog access to waterways - there needs to be some sort of addition for dogs where access is taken away e.g., Installing dog-friendly drinking fountains and splash areas to ensure dogs stay hydrated and cool, especially if access to lakes, rivers, or other natural water sources is restricted.

Where dog access may be limited there needs to be an increase of the number of trees, shaded shelters, and resting areas to provide comfort for both dogs and owners, particularly during warmer months.

Simply having access before 10am and after 5pm is not practical in all settings. Encouraging a similar approach to Byron Bay, Australia, where specific sections of beaches are designated for dogs. This would allow dog owners to enjoy the beach without affecting those who prefer dog-free spaces. Clear signage and proper management can help balance the needs of all beach users.

Allowing dogs access to public spaces like parks and beaches is vital for their socialisation. Dogs need to interact with other dogs and people to develop good behavior and reduce anxiety or aggression. Restricting these spaces can hinder their social development, leading to potential behavioral issues in the future.

As previously mentioned, encouraging a similar approach to Byron Bay, Australia, where specific sections of beaches are designated for dogs. This would allow dog owners to enjoy the beach without affecting those who prefer dog-free spaces. Clear signage and proper management can help balance the needs of all beach users.

Long Beach is an area where there are many family, and is a good place for peopel to go with their dogs. Prohibiting dogs from parks and beaches doesn't seem to be the solution. Instead, implementing more patrols and consequences for failing to follow leash rules would be a more effective approach. This would ensure that dog owners are held accountable for their pets' behaviour while still allowing responsible owners and their dogs to enjoy public spaces. By focusing on enforcement of existing rules rather than blanket bans, we can maintain the balance between allowing dog access and ensuring safety for all park and beach users.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Pack walking is not the problem. It is good for the dogs and having some one and some off leash will increase risks for those dogs on leash - as is basic dog psychiatry. Untrained dogs being walked by their owners are a much bigger problem. Owners paying for a pack walk tend to have their dogs best interest at heart and the dogs are better trained and less agressive

The industry needs regulation to avoid people who are not experienced with dogs starting businesses in this field. Further, whilst it will increase the cost of the service, it would enable professional walkers to have more time with each of the dogs in their care.

Given NZ is so far behind in providing service animals for conditions other than blindness, by creating rules that ban all dogs from extra areas, you take away the ability for those of who actually do train our dogs, dogs that have passed the good manners tests, compete etc from being able to go on hikes and other enrichment activities that enhance the lives of both human and dog. That is an essential part of the connection between the two. This seems to be punishing the good dog guardians because of the actions of the bad ones.

Having lost a dog because two off leash dogs ran into her, damaged her knee, she subsequently needed surgery, which led to her anxiety and she consequently escaped from our fenced house and was picked up by someone and not returned,l, I completely understand the need for more structured play spaces for dogs off leash. I only let my current dog off leash in a private park or at home. But on leash areas should remain available for people to enjoy with their companions. P

Maximum of 2 dogs on/off lead as appropriate. As an owner of 2 dogs i never want to be confronted by more than 2 dogs with 1 person when I am out walking. Dogs are only friendly until they're not and if I do not recognise the person or dogs approaching, I always assume that the dogs are not friendly and give them a wide berth. I do not think anyone is skilled enough or strong enough to manage numerous dogs in every possible scenario that may eventuate and other people and dogs will be put at risk.

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Because dangerous dog should be put in a different category and vote a new law to wear muzzle when out of their house

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Hi there,

I would like to suggest a by law that exists in many other countries,

That is where A class dangerous dogs must wear muzzles in Public spaces. Pitbulls, American mastiff; these dangerous dog types.

We have had many encounters with these types of dogs that have nearly resulted in attacks, and just recently a friend's dog died because the owner lost control of their on leash pitbull.

1 person cannot control more than 6 10kg + dogs at one time. Some dog walkers are only 60 - 100kg themselves are are walking the equivalent of 100 - 300kg worth of dogs. if the dos decided to go there is no way they can possibly hold or restrain them.

3 dogs off leash are more than enough to try to keep control off unless they are highly trained working dogs.

Large groups of dogs are intimidating and cause aggressive behaviour (through fear) when other dogs come across them.

Regularly see people still taking their dogs down the Watercare Coastal walkway despite being prohibited and small signs. A number of them let their dogs of the lead if 'no one is around'. There is a regular number of dead birds and dog poo littering the area.

Need much larger signs and regularly policing as this leads to the bird colony which are protected./ Roaming dogs are often down there attacking birds and then they come up to the farm and attack the sheep, people and horses.

Its one thing to make a law but another to actually enforce it. The Botanical gardens state that no wheeled vehicles (exception are mobility and prams) are allowed in the park ie bicycles, scooters, tricycles, skateboards, and yet these are all regularly in the gardens and no one enforces it. The staff refuse to enforce this rule (we have asked and reported it multiple times) and stop people so I can't see them doing anything about the change in the dog rules and people will continue to. The issues in the gardens is the walkway between the leash free area at the bottom and the walkway to Totara Park which is supposed to be leashed only and people refuse to put their dogs back on leashes. Not a safe area to walk anymore as you are likely to get attacked by the dog and the owner if you say anything. If you are going to bother to change the rules then policing and much greater fines need to be put in place. Cameras would also be beneficial; to keep people safe.

Any park or reserve that has sports facilities, schools, kindys, childcare, wetland areas should be leashed only art all times. Majority of Dog owners do not bother to follow the rules and let their dogs run free through the whole park, pooing on sports g

Dogs should only be allowed off leash in very clearly defined areas, preferably areas that have boundaries, fences etc to enclose them.

Ambiguity in the rules and the lack of enforcement is creating huge problems for those who own dogs and follow the rule

I believe each professional dog walker should require a license that ensures they meet high standards of experience, competency, and proven ability to control any packs they walk. Creating robust licensing metrics helps regulate an industry that does have professionals able to manage more vs Randoms who do whatever without concern for the dogs or public safety.

I believe a maximum of 10 on leash & 8 off leash for licensed professional dog walkers and anyone unlicensed 4 on leash & 2 off leash.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

The change is stupid! There are a lot of well controlled dog walkers.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

I do not support the changes! I support keeping the status quo. These new changes will add to pent up frustration for dogs that are kept at home all day and need to be let out for a long run. The proposed changes are ill thought out!!

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Ambury Regional Park

Organisation (if applicable):

Local Board: Māngere-Ōtāhuhu

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I do not see reports of dog walking packs attacking people or causing harm I as a dog owner would rather the professional who do this kind of service do not have their business destroyed I would rather dogs are walked that tied up all day

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Support

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Dogs should be controlled. Off the leash should be limited to 1 dog per person. That way if a dog runs away, the owner can catch them and bring them back.

On the leash is different as they can be controlled more easily. 4 max should be the norm with only one off the leash.

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Dogs are social and the greater majority of people who have dogs are responsible. Parks are for All people including our dogs not just sports,

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Do not support

Tell us why

Better advertising of the rules is required. Not a change.

Clarify rule that all dogs classified as menacing must be to neuter:

Do not support

Tell us why

Overreach into the private lives. The people making menacing dog ruling are NOT suitably qualified in dog behaviour

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

Dog behaviour specialists, and those with knowledge to rehabilitate dogs, should be making assessments not judges, vets, or general pound workers.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Do not support

Tell us why

The maximum dog limits should be readvertised, and any breaches followed up. There are many reasons for times over limit, including visitors who also own dogs.

Clarify how dog access rules are set:

Support

Tell us why

There needs to be greater transparency and accountability. Community input from more than the squeaky wheels needs to be heard and not ignored

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Do not support

Tell us why

Overreach by council. Better signage and a functioning website is required. Most signage is positioned too low and on too small signs across Auckland region.

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Support

Tell us why

Correction only, not used as an opportunity to change covertly

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Support

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Support

Tell us why

The maunga should still be accessible to dogs under control. Enforcement of the rules around picking up feaces needs to occur

Remove outdated or duplicate bylaw content:

Support

Tell us why

Specifically outdated and duplicated. As above not to be used as an opportunity for covert change

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

This is a classic over reaction to a perceived problem. The pack walking should be addressed through a licensing scheme and a requirement for appropriate training to be

evidenced, not just pack sizes. The current proposals are NOT targeted to the problem. But widely indiscriminate to All dog owners

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this

Location 1:

What is the full name of the location where you want to change the dog access rules?

Tūtaki reserve

What local board area is this location in?

Albert-Eden

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:The flat section by the stage should be off leash under control, from 1am to 2pm, and on weekends unless an event is advertised

What is the main reason you want to change the current dog access rule?

As above

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

The park is under utilised during most days, and weekend, unless specific events are held

Location 2:

What is the full name of the location where you want to change the dog access rules?

Mangere Bridge foreshore / footpaths along kiwi esplanade

What local board area is this location in?

Māngere-Ōtāhuhu

In general, how would you like dog access at this location to change?

Change the current rule to allow dogs under control on a leash

Tell us why

Do you want the change to apply to the entire location or a section of it?

Entire location

What is the main reason you want to change the current dog access rule?

Entire locationMany dogs are allowed off leash during the nesting season at the Western end, and the road/footpath is too narrow for dogs to be off leash.**Entire location**

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

As above.

Location 3:

What is the full name of the location where you want to change the dog access rules?

Boardwalked tracks. Cascade walks

What local board area is this location in?

Waitākere Ranges

In general, how would you like dog access at this location to change?

To respond to increased presence of wildlife (e.g. ground nesting birds). Please specify:

Tell us why

Do you want the change to apply to the entire location or a section of it?

Change the current rule to allow dogs under control on a leash

What is the main reason you want to change the current dog access rule?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:The track has been board walked and the trees protected, it's an appropriate area to allow dogs on leash.

Please explain your issue in more detail:

Do you have any further comments about dog access rules at Regional Parks?

This was a good dog walking loop, and with kāuri dieback was stopped. The track route has been changed and the track protected and upgraded. Dogs should be able to use again on leash**Generally dogs should be allowed on leash and in specific areas off leash, where risk to wildlife and farm animals is low. Definitely not off leash where animals are farmed, like One tree hill.**

3Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Local Board: Māngere-Ōtāhuhu

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Do not support

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

I support this but how would council enforce this? How would council classified 'menacing dog'. It's always the owners' problem, the dogs are innocent. Obviously it's already been a failure in the current system as so many impounded dogs each day. What new measures and controls would be put in place and how would you measure success? There are so many 'underground' and unregistered breeders as well

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

Who would be the suitable person to conduct such assessment? Would council invest on this? We shouldn't classify the dog is menacing per breed types. e.g. A chihuahua can be menacing if they aren't trained properly, they are indeed a small breed but can cause more detrimental damage than bigger breeds if triggered.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Support

Tell us why

Clarify how dog access rules are set:

Do not support

Tell us why

There aren't many places for dogs to roaming freely already without any restriction. Instead of imposing all these rules in place and restrict the freedom of dogs, why not put more resource and shut down the unlicensed breeder or impose huge fines for owners that have been constantly breach the law. Set up a line for reporting unsafe and roaming dogs only.

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Do not support

Tell us why

What resources would council put in place? Can council enforcing this properly without bias? Would council only do their job properly towards the year end as they need to 'meet quota' for their performance? Just like the police keep issuing speeding tickets at year-end, what a joke.

Clarify or correct errors in Policy Schedule 2: Dog access rules:

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

All Public Reserves should be available for responsible dogs and their owners

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

It’s absurd that responsible dog owners have been singled out.We do not have large areas to exercise our dogs.

We are responsible dog owners who need these open public spaces to exercise our very friendly dogs.

2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I have a shy and gentle natured dog, we are always on lead. If we were approached by more than 3 dogs off lead, this would be overwhelming for her and myself, especially if I was put in to the position to protect my girl as well as myself. Also, not everyone who walks with their dogs off lead has proper control. Additionally, more than 6 dogs on lead is in my opinion excessive.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Support

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Do not support

Tell us why

If dogs are classified as menacing based on breed alone, the neutering of these dogs is discriminatory and discounts work of responsible owners who love and care for these breeds. No dog should be neutered based on breed alone. This is barbaric. However, if a dog is declared as menacing based on behaviour, regardless of breed, I may vote differently on this matter.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

A person who is qualified such as an animal behaviour expert is the obvious choice to ensure these decisions have animal welfare at the forefront. Someone who is able to provide a professional, unbiased assessment of a dogs behaviour is the most appropriate

person for the job. This ensures we are targeting behaviours and not targeting breeds based on appearance.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Do not support

Tell us why

I think all areas should have the same limit of dogs except with special permissions ex farm/working dogs. This is to foster the wellbeing of animals and to prevent “puppy farm” breeding practices. I feel this policy could further marginalise already vulnerable neighbourhoods ex: 4 dogs allowed in Ponsonby, but not in South Auckland. Therefore I think everyone should adhere to the same limits unless above working or farm dogs.

Clarify how dog access rules are set:

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Do not support

Tell us why

My dog and I frequently walk Mangere Mountain (Te Pane-o-Mataaho) and Mount Eden (Maungawhau), due to Ambury Park and Coastal walkways in our area, it is one of the only places locally we can be at one with nature. Our walking community is respectful of the mana/tapu within our Maunga and it is a great way for us to all say hello and connect with each other (4 legged neighbours included). If there are any changes required regarding dog walking on our maunga I would rather it come from local iwi than from council. Additionally, I think the people setting fires to our maunga need to be addressed before our dogs.

NZ already have very limited access for dogs to public parks, beaches, etc. Compared to other countries. This is not fair for dog owners and especially for our dogs as they need this for their physical health and socialising with other dogs too. Aucklanders are paying dog registration every year and i believed this is part for rhe access to the public spaces. This is not fair for us who are following these rules. Dogs are important in each family's lives it helps the family's needs.

Submitter details:

Organisation (if applicable):

Local Board: Māngere-Ōtāhuhu

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3
