

The future of Jordan Park

Feedback must be received by 10 June 2026.

We want to improve Jordan Park.

For a long time, Jordan Park has been an empty patch of grass used as a parking space. With rapid growth in population and high-density housing, many residents in Onehunga do not have access to their own private outdoor space.

As more people move into the area, Jordan Park has become an important shared space. For many people in this busy neighbourhood, the park acts as a shared 'backyard' and supports health and wellbeing.

During the Auckland Anniversary Weekend floods in 2023, Jordan Park also played an important part in protecting the area from flooding by soaking up excess rainwater. We want the park to maintain this function while redesigning it to offer more to the community.

We want to:

- make the park safer and easier to access with a new, wide path that connects Cameron Street directly to the park
- clear overgrown plants, bushes and paths to make it easier for people to see and be seen, so the park feels safer and more open
- remove parking access within Jordan Avenue to keep the area as a green space and safer for visitors
- improve drainage at the park so it continues to protect the neighbourhood from flooding while staying usable for everyday activities and play
- make better use of natural shade from tree cover by adding areas for picnics and barbecues under the trees.

We want your feedback to help us understand what matters most to you and how you think Jordan Park can best serve the community.

We strongly encourage you to read the proposed approach and accompanying information before answering any of the following questions.

We encourage you to give feedback online at [akhaveyoursay.nz](https://www.akhaveyoursay.nz) or you can:
