Examples of local parks (Question 6 aid)

To help inform your feedback on the options (Question 6), we've put together some examples of parks in different local board areas.

Pocket parks are compact (0.10 – 0.15 hectares under the draft strategy), informal recreation and socialising spaces in intensively developed residential areas.

Neighbourhood parks are larger (0.2 – 0.5 hectares under the draft strategy), informal recreation and socialising spaces that provide a range of recreation opportunities.

These are the types of parks we are referring to in Question 6 in the feedback form about the two options for how we provide open space.

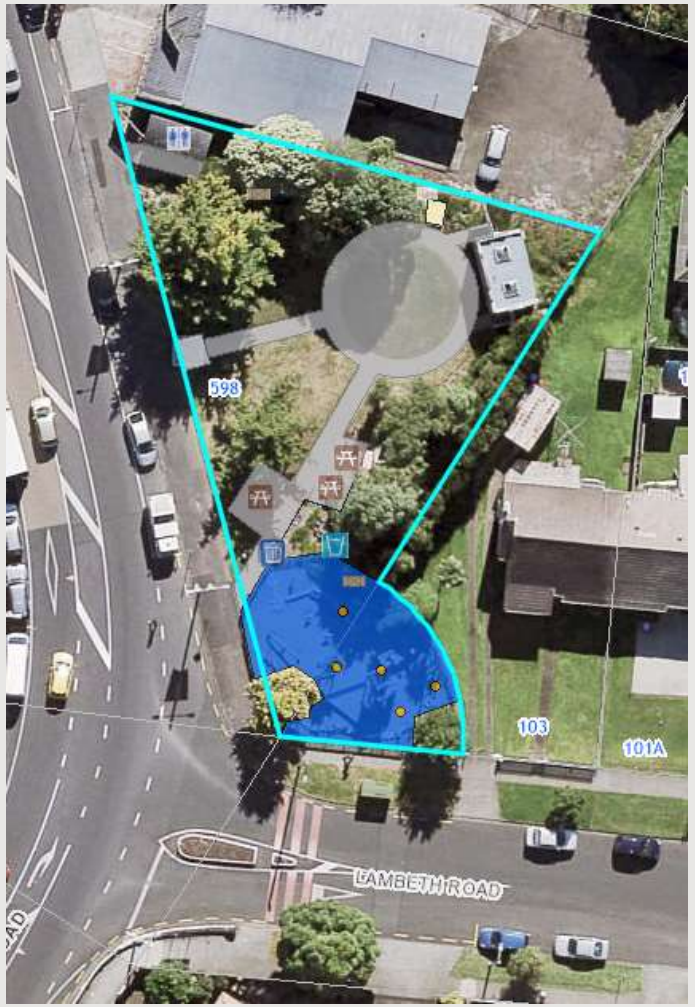

Scroll below to see some park examples for each local board area.

Albert-Eden Local Board
