Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Generally I agree with the council recommendation for untrained, non-professional dog owners/walkers. However, the PDWA (Professional Dog Walkers Association) offers the council an opportunity to recognise the benefit responsible, professional dog walkers provide to busy working professionals that have pets.

As someone that has a busy full time job, with a dog that needs regular exercise, I have worked with Fur & Forest (a PDWA member) for the last 4 years. They are an exceptional dog walking service, that I know provides benefits for many hundreds of families across Auckland.

The council can balance their goals of providing safe spaces for the public by working with PDWA and their members to enable them to continue operating their businesses as is, while ensuring untrained, unaccredited providers and private owners are not able to do so.

By implementing the proposal, you risk removing an industry that provides benefit to thousands of Aucklanders and the pets that they love. The professional dog walking industry has exploded over recent years, that is because Aucklanders want and need this service. The answer to irresponsible operators is not to heavy handedly remove all rights for everyone. It is to ensure responsible businesses are held to account by a set of requirements.

Implementing the recommendations will likely destroy many professional ran businesses and/or make the cost untenable for the customers they serve.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Point Chevalier Beach

What local board area is this location in?

Albert-Eden

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

There is a lack of beach dog walking in the central suburbs if you live in Albert-Eden in the evenings.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Point Chev beach bans dogs in the evenings during summer period. This makes no sense, other major beaches (Takapuna, Mission Bay, Kohi etc...) allows access. In Albert-Eden there is no other beach access for dogs during summer.

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

This limit allows walkers to have full control of the dogs they are walking to ensure other users of the public space are not at risk.

Despite this, six dogs at one time still feels like a large number of dogs for one person to supervise, particularly if all six are large-sized dogs. I think this should be a factor in assessing the maximum number as six small dogs is a very different issue to six large dogs - regardless of whether they are on- or off-leash.

The proposed amendment to schedule 2 below, specifically number 16 'Big King' is needless and will greatly effect locals. The status quo must remain.

Big King is one of few "proper" walks available for dogs/owners in an off leash area. The fact it is much more than a paddock (which most other off leash areas are) means dogs can get real exercise and run around and play together. I regularly encounter families walking here with young children who specifically seek out the place because they know the dogs will be running around and playing and everyone is having an enjoyable time.

I suspect this change as been proposed by a worker or board member who has a fundamental issue with dogs. They can feel free to stay away then. Leave one of the best walks in central Auckland for dogs as it is.

Organisation (if applicable):

Local Board: Waitematā

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

People who pay to have their dog walked are not the problem. It's the stray dogs or owners who don't care while poop everywhere as seen on our security camera. Dog walkers are responsible and a vital part of our community to keep our dogs happy and owners can earn a living whilst they have their dog. If this changes then dog walking will become more expensive and people will be forced to walk their own dog after work when they are tired and that leads to people who can't be bothered picking up after their dog or enforcing manners ! It's not right!

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

There should be a licence vs a slap of a number as so many of us who have more than four dogs will be penalised. Dog walkers do a fantastic job and it will be incredibly sad for the owners who suffer and businesses who can not function with this proposed number.

Putting a limit on the amount of dogs each person can walk is not protecting the dogs or the public. Incidents happen when people don't train their dogs. One untrained dog is more dangerous than 10 trained dogs.

I largely support the proposed limit of 6 dogs (3 off leash, 3 on leash), but I think there needs to be an exemption made for professional dog walkers, whereby they need to gain an annual licence to walk a larger number. Many dog owners utilize dog walking services, and most professional dog walkers are experienced dog handlers who are capable of controlling a group of dogs. However, I do think a professional license/assessment would assist in this area as there are some cowboys in the profession.

I think this is a clunky solution to irresponsible dog owners who let their dogs off leash and don't have control/consistent recall of their dog, and don't well socialise their dog, and the proposed changes greatly affects all responsible dog owners.

Unfortunately, I think there needs to be more 'legislation' around dog ownership (for example needing to pass a basic test to get a dog ownership license) and enforcement around irresponsible dog owners (non-registered dogs etc), as opposed to clunky restriction to public parks.

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

I support the proposed change

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I think that the proposed changes are reasonable given the access rules for Auckland Botanic gardens. Particularly that there are still areas for off leash activities for dogs.

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

Tell us why

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

What do you think of this proposed change?

Muriwai Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I support the proposed change

Tell us why

I think that these changes are reasonable given that there are multiple endangered species that roost in the muriwai area.

Pākiri Regional Park

We are proposing to prohibit dogs on the associated beach (currently off-leash).

What do you think of this proposed change?

Tell us why

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

Tell us why

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

Tell us why

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Te Ārai Regional Park

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

Tell us why

Waitawa Regional Park

We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

What do you think of this proposed change?

Tell us why

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Monte Cecelia

What local board area is this location in?

Puketāpapa

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:The current dog bowl area which is already defined as an off leash area.

What is the main reason you want to change the current dog access rule?

The current off leash area inside Monte Cecelia park is ideal as an off leash area. Owner related issues mostly come from poor control by local council.

Issues include:

Poor signage indicating the off leash area.

A reduced number of bins that are not e

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

I do not necessarily want to change the dog access rule for Monte Cecelia. I want the local and Auckland councils to rectify issues as already outlined, so that it can continue to be enjoyed.

Do you have any further comments about dog access rules at Regional Parks?

I have ran into MANY instances with pack walkers where they had absolutely no control of their dogs, running up to my dog, fights breaking into their own pack (have had to help 2 walkers breaking a fight within their own pack in the Meola car park), losing their dogs (had to help a couple times someone from Fetch finding dogs that had gone missing...) I think large group of dogs should not be allowed in public spaces - it is intimidating and they are earning enough to rent some private lands in my view. I am not sure though that this 3 on 3 off would be followed I'm afraid. I think a lot would still let their 6 dogs off.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

14. Whakanewha Regional Park.

Feedback is only included for the parks chosen to respond to.

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I do not support the proposed change

Tell us why

It is already hard enough to find dog friendly beaches around! We should be allowed to go out during the day with our dogs to enjoy summer (when not too hot obviously) and not only early morning and evenings...

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Because dogs love being around other dogs. And businesses that do dog walking for people will heavily suffer and collapse under these new rules. It's ridiculous, you can't form rules from one bad incident

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

There are very experienced dog walkers out there who can manage multiple dogs and the new proposed bylaws are too restrictive. The key is they have to have the dogs under control at all times.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

My dog walker takes multiple, registered, vaccinated dogs out together and they take full responsibility for the well being of the dogs and any public that they may encounter. They pick up after the dogs. The discipline shown by the dogs under their control is excellent. My dog is fit and loves the interaction with other animals that I cannot offer in the days I work. The dog walking companies should not be penalised because of a few inconsiderate dog owners or members of the public that can easily avoid dog walking areas.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Tell us why

I have a dog that goes with a walker who has been able to consistently demonstrate an excellent knowledge of dog behaviour and psychology. Her walks are done with 1-2 of her employees and the dogs follow a structured routine of drills, walk and play. The dogs are temperament tested prior to being taken on, taken to appropriate locations and looked after in a safe manner.

There are many walkers like this and they should not be penalised for the idiocy of a few.

Dog walking should however be regulated - not just professionally but privately as well and I believe it should be three dogs max if NOT registered dog walking professional and no more than 2 off lead with any unregistered professional walker/owner.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

A trained and qualified dog walker with well behaved dogs can supervise and control more than 6 dogs. Limiting them to just 6 dogs will reduce their income and either put them out of business or make dog walking services prohibitively expensive for owners.

Instead of limiting the number of dogs, the council should be licensing dog walkers so that only trained and qualified walkers may provide dog walking services. That way you address the issue of ensuring dogs are under control at all times without destroying the dog walking industry through higher costs.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Other (please explain below)

Tell us why

I would support 6 dogs off leash with a professional dog walker that should be 'licenced' to prove they are appropriately qualified to manage 6 dogs off-leash. My dog goes with a company that takes no more than this off-leash and I am comfortable that they have assessed the dogs before they agree to this service, that the temperament of the dogs is compatable. Some owners actually request their dog not be be 'off-leash' and that's acceptable and depending on where they go, they might all be on-leash. The decision should be made by a qualified and experienced dog-walker.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Thank you for the opportunity to have a voice in such an important matter. We use a professional dog walker who undertakes structured walks and training with her packs. She is a seasoned professional and has a strong handle on all the dogs in her care. Her approach may mean more than four dogs are off leash as she trains them, which in turn helps us when we go on extended walks to ensure wildlife remains safe our dog's presence. We highly recommend professional dog walkers are an exception to this rule, that they are instead regulated and regularly (annually) tested to determine the level of competence and therefore the amount of dogs that should be in their care and off-leash.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Our dog does go on a proffesional srviuce that goes off leash in appropriate places, and this would be prevented if the poposed change occured. The current rule requires dogs to be under control. That is sufficient to ensure safety. Is there actually a probelm requiring to be fixed with this prposal - i suggest that if there is, it is because the existing rule was breached. there is no reason to change it.

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Limiting the number of dogs walked at once means that they are more under control and present less of a risk to other park and public area users.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Dogs hunt in packs. There is no way one person can control six dogs with three off leash. I don't mind six dogs as long as none of them are off leash. Three off leash sounds terrifying depending on the type of dog of course! But the incidences of them mauling other dogs that are on their own, and for people with children coming across a person with six dogs, three off leash is pretty terrifying.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I think any more than 6 dogs should be managed in a private space where they are unlikely to encounter other dogs with unknown temperment.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Support

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I don't know

Tell us why

It is unclear that there is any practical change except in wording. Appreciate this may be needed for bylaw consistency so if that is the case, I would support the change.

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

Most dog walkers are responsible. Sending dogs with pack walkers encourages them to interact with other dogs and learn how to be well socialized. They go to areas where there usually aren't other people. It would be more beneficial to enforce harsher penalties on people who are not registered business walkers or who have any issues.

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

The people who walk groups of dogs professionally provide a valuable service to the dog owners of Auckland. This proposed change would impact their ability to provide this service.

Consider making an exemption to this rule for professional dog walkers who have a licence, or pass some kind of certification. These professional dog walkers are NOT the problem you're trying to solve. Any issues that arise tend to be from private citizens who can't control their dogs, or unlicensed, unprofessional dog walkers who don't know what they're doing.

This proposed change will not make things better.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Dog walking businesses provide an essential service to dog owners who cannot always provide their dog with sufficient exercise. If these businesses were limited to walking only 6 dogs they would not have a financially viable business. From all reports it is not the dog walking businesses creating issues/responsible for attacks. Focus needs to be on unregistered dogs and their irresponsible owners.

Dogs as a pack are often unruly and intimidating to single and smaller dogs. If allowed off-leash, they must be in control and within 1-2 metres from the dog walker. Allowing dogs off-leash to roam further than that is dangerous for other dogs and wildlife. I have often had to intervene when off-leash dogs try to bite, catch or chase birds or similar whilst the walker is oblivious or distracted by other dogs.

Subject: Concerns Regarding Proposed Restrictions on Dog Walking in Auckland

To whom it may concern

My name is ***, and I have been walking dogs in the Waitemata for over 50 years—both as a child and as an adult. In 2005, I founded Auckland's first commercial dog walking service. Since then, my company has walked over a thousand individual dogs and now handles over 1,000 dog walking assignments per week, employing more than 20 walkers.

Today, we are part of a growing community of over 250 commercial dog walkers (CDWs) on the Auckland Isthmus, providing a crucial service to a diverse range of dog owners, from teachers to health professionals, builders, and more. Over the last 20 years, dog ownership in Auckland has risen from 30% to 50% of households, making the need for dog walking services even more critical. With the rise of apartment living and a shift in family structures, "fur babies" have become an essential part of many Aucklanders' lives.

The Role of Pack Walking and its Importance

Our service offers an affordable and convenient solution for dog owners who lack the time or ability to walk their dogs. Pack walking—where dogs are exercised off-leash—provides essential benefits to dogs and owners alike:

Dogs can run, play, socialise, and get much-needed exercise, improving their overall well-being.

Owners benefit from reduced stress, knowing their dogs are well-exercised and cared for.

Pack walking helps maintain a functional social fabric, supporting a variety of people, from busy professionals to retirees.

Without pack walking, many dogs would not get the exercise and socialization they need, leading to a number of negative outcomes, including:

Nuisance barking and increased aggression

Uncontrolled roaming and property damage

Dog-on-dog and dog-on-human attacks

Unhappier dogs, less satisfied owners, and more complaints from neighbors

Job losses for the majority of Auckland's CDWs

Proposed Restrictions and Their Consequences

The proposed restrictions on the number of dogs allowed for commercial walkers would severely impact our ability to provide this service. Such limitations would likely benefit only the wealthiest dog owners, leaving many others without affordable access to proper dog care. The repercussions could include:

Increased costs for dog walking services, making it unaffordable for many families.

A rise in poorly exercised dogs, leading to behavioral problems.

Higher numbers of dogs in parks at peak times, as CDWs currently walk dogs during non-peak hours to reduce congestion.

As noted in the "Key Findings On the Dog By-Law Report 2024" (p. 52), current regulations already address concerns about dogs being under control. Further restrictions on CDWs appear unnecessary and may divert attention from more pressing issues, such as unregistered or poorly trained dogs.

Focus on Responsible Ownership

The main issue facing Auckland is not commercial dog walkers but irresponsible dog owners who fail to register, train, and socialize their pets. A better approach would be to focus on:

Addressing the 16% of unregistered dogs in Auckland.

Encouraging responsible ownership, including desexing, training, and socialization.

Targeting aggressive or roaming dogs and owners who violate existing by-laws.

Health and Safety Concerns

Another issue with the proposed restrictions is the suggestion that all dogs be kept on-leash during walks. This creates a dangerous situation for dog walkers, who may experience:

Balance issues and physical strain from managing leashed and off-leashed dogs.

Increased risk of injury due to pulling, lunging, and tripping over leads.

This would contradict New Zealand’s Health and Safety Act (2015), as it would create unsafe working conditions for professional dog walkers.

The Welfare of Dogs

Dogs need the freedom to engage in species-appropriate behavior, including sniffing, running, and playing off-leash. Leashing dogs during greetings can lead to aggression, as dogs are unable to display normal canine behaviors, such as circling or sniffing each other from the rear. Tight leashes in these situations increase the risk of conflict between dogs.

Conclusion

We urge you to reconsider the proposed restrictions, which would not only harm the well-being of dogs but also negatively impact dog owners, walkers, and the wider Auckland community. Instead, focus on enforcing existing laws regarding dog control and promoting responsible ownership. This will help create a safer, more harmonious environment for both dog owners and the public.

Thank you for your attention to this matter.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

One person managing 6 dogs is too difficult to do properly, especially when there are many other dogs in the same area.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

This will impact small businesses that run dog walking services. In my experience as a dog owner the people who run these dog walking businesses are very knowledgable about dogs and behave responsibly and do have the dogs they are walking under control. Off leash pack walks are a great way of exercising and socialising dogs. These businesses often provide training to the dogs and do not take dogs or let dogs off leash that exhibit anti-social behavior. You really targetting the wrong people here. Unfortunately we have people in Auckland city who chain up their dogs in back yards and they are never walked or socialised and left outside in all weather. If you had any spine and true care for dogs and humans you would be targeting these people first with education and then with forcible uplift of the dog if the conditions do not improve. I believe with enough resource some of these dogs could be rehabilitated and rehomed but unfortunately due to negative imprinting and lack of socialising and care a number would need to be humanely euthanized. The owners should then be banned from having dogs but many of these people don't register their dogs so this is hard to check. You need to put your resource and our dog registration fees into education and dog welfare, not policing dog walking businesses in the manner this policy proposes. It makes no sense to me and you've given no rationale for it.

I have already submitted my feedback via the form as I do not support the proposal that someone can walk a max of 6 dogs with 3 of the 6 being required to be on leash.

I am a dog owner (2 dogs) and I have in the past used these dog walking services who offer off leash pack walks for exercising and socialising my dogs while I was at work and in my expericence they are run by excellent people in a responsible way.. I have already submitted the feedback.

The elephant in the room here are situations like we've had in the news this week where an elderly couple visiting from overseas were attacked in a park by a number of dogs (not sure if it was 2 or 3 dogs) who were with their owners.

The owners are now evading authorities although they did at least take the injured elderly couple to the hospital.

This is the problem that needs to be addressed - people who have dangerous dogs who have them off leash, or alternatively if not on leash then should be muzzled.

The elderly couple sustained multiple bite wounds and this was from the media reporting an unprovoked attack.

This is the issue you need to be working on.

I'm really cross at this suggested change which does not in any way address the core problems as I perceive them with dog ownership in Auckland. I actually wrote a piece for the 1News.co.nz website about dogs off leash and I suggest you read it. In essence, professional dog walkers in charge of large packs are the ones who will be affected by this law change but they are not causing the problems. I have seen pack walkers out with dogs frequently at beaches like kakamatua and their dogs stay together and play - they don't bother strangers. The dogs that do bother my dog are primarily dogs who are brought alone or in a pair/threesome to the beach to help socialise them because they have issues. They are the ones that need controlling but their owners lack the skill and accept that their dogs are creating risk for other people. This law change does not address the problem dogs, or the problem breeds (which is also an issue and will become a much bigger issue potentially as it already has in the UK)

Local Board: Waitematā

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

What a stupid idea, if I have 10 dogs I have to walk them twice because of this dumbass regulation. Like the whole point of you having parks and beaches, and the reason why NZ is wholesome is the fact that we see dogs just running freely, like do you really think dogs kill that many native birds per year and do you really think it's going to reduce just because you put a limit on the dogs. What a stupid idea. My dogs never chases after native birds, not even pigeons, if they're not interested they're just not.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Dogs require socialisation just like humans. Other than in the home, socialisation can occur in confined dog care centres or in pack walks. Our personal experience with confined dog care centres has been very negative (too many dogs under pressure in confined areas leads to poor behavioural traits and habits).

Dogs require exercise (within prescribed areas) more than is able to be achieved on lead. Limiting the number of dogs in a pack size or those that are under control off lead limits the amount of off lead socialisation that can occur and limits the amount of true exercise each dog can achieve. Dogs that haven't been properly (and safely) exercised results in dogs that are over anxious and reactive.Our experience with professional well run dog walking companies (we've used 2 over the last 4 years) has been nothing but positive for the dog, general public and owner.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?
Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.
Only provide feedback on one location at a time.
Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Auckland Domain

What local board area is this location in?

Albert-Eden

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

Too many dog owners are ignoring the rules & run their dogs off-leash on the playing fields, & near the Museum in areas where they are supposed to be on-leash.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Maximum four dogs, with no more than two off-leash unless licence obtained

Tell us why

My dog thoroughly enjoys his pack walks, they are an important weekly session for him to socialise with other dogs. I would support professional dog walkers needing a license to operate with more dogs, I do not support a blanket rule which would mean no professional dog walks can happen, and they miss the chance for vital socialising and training.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

The proposal appears to be knee jerk reaction to a small number of well publicised complaints that have been given a weight disproportionate to the harm caused by this "issue" and failed to take into account the importance of the availability of affordable dog walking services to ensure the welfare of numerous dogs in Auckland. Particularly those owned by ratepayers in full time employment. Not only is this service and the proper exercising of dogs required for the dogs'' welfare but also for the safety of those in public. Underexercised and under socialized dogs are likely to cause issues when in public spaces and that will undoubtedly increase if this proposal become law.

I have owned dogs for 25 years and held a responsible dog owners certificate for the majority of that time. I have owned both small and large dogs. Exercise is vital for a dog's wellbeing and with the rigours of my job I must use a professional dog walker. The care, control and diligence of the services I have used has been astounding (previously K9 Way and now Woofpack). They walk large packs of dogs under complete control (10 plus) screening dogs before they join, training on their outings, only allowing dogs off leash when confident of control. These types of operators need to be promoted but could not operate economically under the proposed plan. Licensing may be required not this blanket ban.

I am highly concerned by the council's approach is proposing such radical changes on the basis of a "surgery" and no apparent appropriate professional input.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

All dogs need to run and play off lead restricting numbers will stop us from delivering a service to all our customers.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

I love dogs, but I know how hard a pack can be to control. Many of the 'pack walking' groups have their own private farms/places they can go to walk their clients dogs, but many also use public/council areas. I have witnessed many of these groups using one walker for an entire pack 6+ dogs, sometimes struggling to control them. I think if anyone has six of more dogs, they need minimum two people. You simply cannot control that many dogs alone if something were to go wrong.

I live near a park where dog walkers often operate and when they have a large number of dogs off leash it makes the park less usable for other people. The dogs seem out of control and run around the park in a pack, often barking. When dogs are in a pack, pack instinct takes over and I believe it is only time before there is an accident of some kind. Even three dogs together can cause issues. Even three big dogs running around together is at times menacing.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I believe that Professional Dog handlers and Certified trainers - should have unlimited amount of dogs on lead and off lead (the professional trainers have their dogs under control . Its the average "dog walkers" who take on many dogs at once to get more money and have no idea how dogs are in packs or to control them properly off lead. These so call dog walkers are potentially going to ruin Professional handlers and Trainers businesses with this proposed new law and for customers like me who has well trained dogs that go out in a pack ranging 5-7 dog all behaved and trained this way. There has to be a type of certification that can be carried by professional dog Trainers so they can have more than the proposed limit. It would completely ruin the industry of responsible trainers bringing this law in with out lee way for them to have a Cert. The main issue is the average person does not have their dogs trained properly or spend the money doing this.

Also - de sexing and back yard breeders, not regulated dog breeding which then in turn caused masses of dogs that people don't look after properly or train how to behave in public.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

I believe there should be a different system of checks for those who are registered to walk dogs as a business. As someone who pays for my dog to receive exercise and enrichment in a group walk by a qualified dog walker, it would be very upsetting let alone costly if these number were so severely reduced. I do understand issues with dogs being out of control and believe such businesses should have to provide or participate in a program which demonstrates compliance to only taking out non-aggressive dogs and letting only manageable dogs off leash.

If I had to choose I would say 8 dogs with 4 of leash is reasonable as I have seen my skilled dog walker manage this number without incident recurrently. My dog returns happy and healthy from these walks.

There are dog walking businesses who have more than this number of dogs on a walk. My own dog goes on a walk with a very responsible walker (this is her business) and this would mean this service wasn't available to me anymore. She takes them to quarries and forests and there is no risk there. How are making allowances for dog walking business owners? It's a valuable service to busy working people who want the best for their dogs.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

The public feedback form was separated into four sections:

2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

This is a solution without a problem, and it overreaches. Dogs enjoy pack walks and, in my experience of several, the providers are extremely responsible and maintain excellent control. To implement this change would remove a rewarding and important leisure and exercise option for dogs.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

I think that the maximum dog limit should be higher for people with dog trainer accreditation (approximately 10-12 dogs) and the same people should have no restriction on the number of dogs off leash. I think the proposed rules are going to be crippling for good people with dog walking businesses (especially ones with professional training) and the actions of a few cowboys are costly to everyone.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

I have no issue with a private individual having a limit on the number of dogs they can walk at any given time. However, many dogs are walked by professional dog walking/minding services who have far greater expertise. The proposal is likely to impact them which will in turn impact all their customers of which I am one. I suggest a system that recognizes the professional dog handler v the private individual with different rules for each. The limits on the number of dogs walked in any given time should also account for the area the dogs are being walked in- eg urban v rural.

As someone who uses a very responsible dog-walker, I disagree with some dogs on/some dogs off leash idea. A good dog walker will know which dogs should be on a leash and which are fine off leash. As the make-up of the walking group is changeable how many dogs who are on/off leash will change as well. I think a limit on numbers is sensible (8) as is a licence to operate, and the dog-walker should always have control of all the dogs whether on or off leash. What I have noticed when walking my dog myself, is some walkers with large groups they cannot control. I also notice that some of these walkers are using small un-marked vehicles with many dogs unrestrained in them. The difference between good responsible walkers and not is large. A provision of the licence should ensure that the dogs can be stowed safely and have adequate air conditioning. I use a dog walker because I am a responsible owner and don't want to leave my dog at home alone while I am working. I worry that limiting packs to 6 will mean the walkers would justifiably have to increase their daily (or hourly) rates, meaning many owners would not be able to afford walkers. This scenario will lead to many more dogs at home alone, which will cause more noise nuisance and anxious dogs.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#2667

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

Dogs can be strong and can become unpredictable at times when scared etc, no single person can control so many dogs at once. 4 is more than enough dogs. I think even then you'd struggle to control them at times. Members of the public's safety should come before dog walking businesses. .

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

I don't believe the issue is present where well controlled groups of dog in the appropriate setting is causing a "nuisance" as the changes are intended to prevent. If there are issues with individuals that don't control multiple dogs then this is a lazy approach by the council to manage this en masse rather than targeting the individual

Tell us why

My dog is walked by an outstanding pack-walker (Fur and Forest) and the business and the service they provide would not be able to continue under these proposed changes. Fur and Forest have been a life-saver for us. We started when our dog was a 6 month old puppy and the way she interacts with other dogs and people now is completely transformed. She is a better-behaved dog because of her pack walks and is much easier for us to manage on a day to day basis. Stopping businesses such as Fur and Forest from operating and hindering the outstanding work they do has the potential to negatively impact so many dogs around Auckland.

They have approximately 10 dogs in the pack per day, but the pack-leader is so extremely well-trained and keeps such impressive command of all the dogs that I know both the dogs and the public are safe. My dog is okay-behaved with me, but she is an angel when she goes with the pack walker and I have complete, unwavering confidence that Fur and Forest can look after my dog, keep her safe and manage any tricky situations. They have invested a lot in their professional development, including overseas training, and this manifests in how they walks the dogs. What's more, they do not walk in everyday public spaces but take the dogs to approved forest tracks. I would encourage decision-makers to go and observe businesses such as Fur and Forest and how safely and cautiously they operate before they make blanket rules that will impact so many dog-owners and small businesses.

I support regulation, because I do not believe the common man should be able to start a business when they do not have the skills and experience to handle and control multiple dogs. But it would be a disaster if services such as Fur and Forest could not continue.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

I have had dogs all my life and frequently see dog-walkers with too many dogs. My dog was attacked at Oraki Basin last year by a dog who was part of 3 dogs off leash (with a dog-walker)along with other dogs on a leash. The dog-walker was unable to control those off leash. It is dangerous. While this was the only time my dog was attacked I've seen lots of dog-walkers with just too many to control - the new proposed limit of 6 in total with 3 off leash is still way to many. The majority of dog-walkers that I have seen are women and many simply can't control this number of dogs to ensure others who enjoy parks and walkways are safe.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

I have a dog who has been doing walks with the same dog walker for the last 7 years - she is highly experienced and capable and she has never had an incident with dogs in that whole 7 years. I trust her to walk my dog while I am at work knowing that my dog will get to socialise, and get great exercise with someone I trust. To expect her to constantly have some of the dogs that she walks on leash while some are off leash is utterly ridiculous - dogs want to play and run with each other, and trying to keep 3 leashed and change over to ensure fair amount of exercise etc. is quite frankly stupid. The walker doesn't always have 6 dogs, in fact usually less, but she is incredibly capable and to expect her to follow a rule such as this would be an incredible hinderance, not to mention it would lessen the dogs ability to get good exercise and have fun! it feels like you are punishing experienced, capable people instead and making things overly complicated and unworkable, instead of dealing with the issue of people who walk their dogs off leash but can't control them - a small portion of the dog owning and dog walking population! Why punish the many for what a few do?

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I love that my dog can run around with lots of other dogs off-leash. She loves it. It's great exercise. Being on leash with other dogs frustrates her a lot. She has a great time when I take her to the park with a bunch of friends' dogs and they are all off-leash - more than 4. Thanks.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

My dog is walked by a professional paid dog walker, the dogs are vetted first for manners and training before they are accepted to the pack, he is much less stressed after walking with a pack " offleash" ..he finds his order in the pack,. A dog that is well exercised by them 3 days a week, and us (on leash) every morning, makes for a contented, happy dog. If all dogs in the pack had to be leashed, the costs would be prohibitive, and that would make for a BIG concentration of dogs, by owners, in parks, BEFORE and AFTER work ..when humans want to relax in them.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

My dog has been going out with a well known responsible, professional dog walking service for a number of years now. I believe that these changes will negatively impact the wellbeing of the dogs on walks such as these. This would lead to reduced exercise socialisation and potential frustration and stress at being restricted by a lead. It would be difficult for this type of dog walking service to continue as it would be hard to manage dogs both on lead and off and could lead to more unsafe behavior than currently. I strongly disagree with this change and recommend that the rules stay the same.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

This will cause reduced exercise and socialisation, Dogs on leads have less opportunity to run and play, limiting their exercise and social interaction. This will cause increased stress and frustration. Being restricted by a lead will cause increased stress and frustration for some dogs. Handling multiple dogs on lead while others are off lead can be dangerous and unsafe. You are better off charging dog owners who cannot control their Dogs. This is normally one dog owner and one Dog out of control. Not a controlled good group of Dogs that are well trained you are completely missing the issue here.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

This doesn't target the problem. Dog walkers and anyone walking multiple dogs is controlling dogs and teaching them socialization skills. These people are accountable for the safety of the animals and people in the area so as a result in control of the situation. Antisocial dogs are the issue you should be targeting and this should be the focus of controlling animal issues. You don't see these dogs in large walking groups.

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

This is bad for dogs who get pack walked. It leads to poor socialization and frustrated dogs and can lead to problems in the community if dogs can't be free as there are already enough relegations on correct dog walking procure.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

I dont think you can be prescriptive. It depends on the dogs and the walker. In some cases it may be fine to have 6 dogs off-leash. I've seen packs of dogs at our local park being walked by a professional walker, most of them being off-leash and they are all well behaved. What is the problem that these regulations are trying to fix?

This will raise the cost of dog-walking services so dogs with working parents are less likely to get the exercise they need.

My dog really enjoys being collected and heading out for walks on days we work long hours, it means not only does he get some extra exercise but he's not home all day by himself and socialising with other dogs. The company I use took time to meet out dog and put him in another group of dogs he would get a long with. I think its more ensuring the companies follow good procedures rather than these blanket rules.

We have used a dog walking service for the past three years and I can't stress enough how important this is for our dog's wellbeing. Like it or not we live in a city and people still want to have dogs in said city and this service is invaluable for keeping our dogs sane and healthy. Consider the alternative - the increase in noise complaints and behavioural issues from the general public as a result of our friends not being able to go out walking when their owners HAVE to go to work. I take animal welfare very seriously and I think this is an animal welfare issue. Interesting that the council sees this as priority when half the bins have been removed from safe dog areas resulting in litter, bags and feral crowded bins. Most of us want to do the right thing - this is not the right thing,

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

As pack animals, many dogs relish the time spent with other dogs, following and playing off-leash - and free ranging exercise in a group is valuable for them as well as for owners (like myself) who cannot commit to providing such exercise on a daily basis. In my experience of over five years with my current dog and a previous one, the walking and doggy daycare companies I have used (Fetch and Barkley Manor) provide well-trained dog-walkers and have rules of care for dogs new to the experience or needing special attention. They are always mindful of all dogs and other users of parks and beaches. I regard the proposed change as unduly restrictive and likely to cause unintended consequences, such as increased likelihood of frustrated dogs at home barking (yes, I know you can fine owners, but that is not a solution, only a further problem) increased charges, limiting availability of dog-walking for responsible dog owners who provide this as an enrichment experience in caring for their animals. Like many other dog-owners I know, I mix working from home with days at the office when I know my dog will be well-cared for and having fun for a couple of hours, then rest safely until I get home. Limiting this possibility is not a good service for me as a ratepayer.

2. General policy and bylaw matters

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

My dog goes out with a trained dog walker (Follow the Leda adventures) - I consider that limiting the number of dogs on and off lead is not necessary for professional dog walkers like Leda and her team. I would support licensing and managing dog walkers to ensure that safety standards are met but to limit businesses like Leda's where dogs are well trained and not allowed off lead until they can be trusted to behave in a pack and towards others is too draconian. I would encourage the council to look into businesses such as Leda's before making blanket rules covering dog packs.

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I do not support this. Many people across Auckland have dogs and are able to do so because dog walking services are provided that give their dogs the exercise that is needed and provide these services at a reasonable cost. If any changes are made this will increase costs making it more difficult for people to keep their dogs. If dogs aren't walked properly this could lead to behavioral issues that will cause more trouble than we're currently seeing in parks. This could also lead to more dogs being abandoned or given up for adoption. Auckland council has not thought about the unintended consequences of this type of decision. People who sign their dogs up to dog walking services actually care about their dogs welfare and know these walks are important for them. If you speak to dog walking services you'll realise they won't take on unruly dogs or dogs that disrupt the harmony of the group. Many of the issues being consulted on are not addressing the real problem, which is the need to introduce stricter regulations around the breeding and ownership of dogs. In addition, Auckland council needs to control the unruly dogs that are currently roaming around Auckland rather than wasting its time on changes like these that as mentioned above, will have many negative impact such as reduced exercise and socialization leading to increased stress and behavioral. If this proposal is taken any further me and many other local dog owners will be at the council committee meeting to protest this proposal.

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Professional dog walkers require that multiple dog walkers are off lead at the same time. Any restrictions mean more cost to consumers and needless enforcement cost for Council (ie ratepayers). If non-professional dog walkers with multiple dogs are causing problems, then simply require professional dogs walkers to be certified.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Having owned 4 big dogs over the last 40 years I believe the following proposed amendments aren't concentrating on the real issues & may even create more issues with dogs in public spaces. As a responsible owner who exercises our dog for 1-2 hours a day around the Auckland region,. My observation is that the processional dog walkers with the large packs have amazing control of their dogs. It is usually individual dogs of all sizes who haven't been trained & socialised who cause the issues. Even though our dog is walked we send him to a professional dog walking service for one day a week to give him time with other dogs of all sizes to socialise & exercise him with a pack of dogs off the leash. The walker has exceptional control when collecting & dropping off our dog. Prior to joining the dog walker pack, we & our dog had a personal visit to access our dogs suitability. On his first few walks he wore a GPS tracking collar & a long lead to ensure he behaved & was suitable for pack walks. Our dog absolutely loves his pack walks.

Please focus on irresponsible dog owners, not the professionals. If need be focus on what qualifies a professional dog walker & monitor, but please Do Not introduce these amendments. Pack walking is a r cost effective option for owners to ensure their dogs are exercised in a safe & professional way.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

with the cost of living crisis and owning dogs, i need to work to live and have less and less time to walk my dogs so i get them walked 3 times per week buy a dog adventure group. they are responsible dog handlers, provide jobs for people and take the pressure off me so I can keep working (ie paying alot of tax for the greater good). I think more dog parks should be made accessible for dog owners to exercise their pets off leash. Dogs are part of a well functioning society and are part of ones family, just like children and need more consideration.

My elderly dog is walked twice a week by a dog walking company, and she has taken on a new approach to life! On her walk days she loves being able to run around with all the other dogs, always in a controlled and calm situation with trained dog handlers supervising. To stop her from participating and interacting in this experience would be devastating! Having some dogs off leash and others held by the dog handler is ridiculous and could be dangerous and very difficult to control.

Dog walking services are essential work working pawrents. with them our does would get less exercise and socialisation as dogs on leads have less opportunity to run and play, limiting their exercise and social interaction. Being restricted by a lead can lead to increased stress and frustration for some dogs and they get lead walking from their owners all the time. .

Handling multiple dogs on lead while others are off lead can be dangerous and unsafe for the handlers and the dogs.

And ultimately Auckland Dog Owners will have to pay more to have their dog walked by a Professional Dog Walker, in smaller groups and likely most of the services will go away or be unaffordable.

Our dogs love love love their group walks. Don't take that away. These guys are not the problems, owners who don't train or monitor their dogs are.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#3067

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

As long as the dogs are registered and are kept under control by the walkers I see no reason why responsible dog owners should punished by being imposed with higher charges - pack walking dogs to socialise them has got to be a good thing for everyone - grumpy bored dogs who do not respond to commands will still be a menace in parks

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

I think the current rules should stay in place for professional dog walkers and dog walking organisations but the new restrictions put in place for individuals. Dog walking organisations provide an essential service to many of us allowing us to work interrupted to keep Auckland's economy going. If these rules were imposed they would have to raise their prices to a prohibitive level forcing them out of business and creating huge problems for the workforce that relies on their services. Truly a ridiculous idea Auckland Council.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Dog owners in urban areas need choices for dog walking service and to limit the number of dogs will limit the options for dog owners and make it a more expensive service. I have witnessed lots of dog walkers with many multiple types of dogs and they are always under control. Dog walking is a professional serivice that can regulate itself and I don't see it being a strain on council assets or public places.

The mooted change to the policy is ill considered. The dogs will have reduced exercise and socialisation which will increase poor behaviour. The change in policy should be towards those owners who do not care for their dogs properly by letting them roam without supervision.

Tell us why

This seems a sloppy and poorly justified proposal. The council has not made a case that dogs on group walks are disproportionately responsible for dog related injuries. An isolated anecdote is not evidence of a significant problem. To solve a problem requires accurate identification of the problem, and this seems to have been a vital step that has been overlooked. If supervised group walks are not the issue then restricting these cannot be part of the solution.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

The limit of 3 dogs off leash impacts responsible dog walking businesses and is not nuanced enough. Yes there are potentially some dog walkers out there not as well managed as others, and perhaps there should be some review of there being a validation process for confirming an operator is responsible. In my personal experience, my dog walkers are very knowledgeable and responsible, and they have helped my dog and many others to improve their socialistion skills which benefits more dogs and helps create calmer dogs who are well exercised. These operators shouldn't be penalised for irresponsible operators, and there are surely better ways of weeding out the badly managed ones that don't penalise the good ones who help create more good well adjusted dogs. 3 off leash is far to few, and would make their business models unsustainable, causing many dogs to be anxious, badly exercised and socialised, creating more reactive dogs. While I would be open to a limit, it would be bigger, perhaps 8, but would also depend on the operator passing some kind of assessment to confirm if they are managed well or not. Don't penalise all businesses in this area for the odd one who is poorly run. This would just create more badly raised dogs in Auckland and create a new problem.

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Our dog is high energy and greatly benefits from his 2x weekly off leash pack walks from our dog walker. They offer him a well needed change to release energy, socialise with other dogs in a safe environment and get out and about. His quality of life would be greatly diminished and it would cost us significantly more if the number of dogs off leash were limited. We see this as unnecessary.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

I believe changing this rule punishes responsible dog walking companies and would have a detrimental effect on dogs. I do think there should be regulations in the industry, like a certification process but a blanket rule that states a maximum of six dogs only with only three off lead is not the answer. Less dogs would be socialised and it would create even more problems.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

The proposed changes to dog walking policies present several significant negative implications for both dog owners and their dogs. These potential changes would not only affect the well-being of dogs but also limit the effectiveness of professional dog walking services and penalize responsible dog owners. Below are our key concerns:

Exercise and Socialization LimitationsDogs thrive when they can run freely, play, and interact with other dogs. Being confined to a lead restricts these essential activities, which are crucial for their physical health and mental stimulation. The proposal would curtail these opportunities, leading to less active and less socially adjusted dogs.

Increased Stress and FrustrationMany dogs experience heightened stress and frustration when restricted by a lead. The inability to explore and engage naturally with their environment can result in behavioral issues and elevated anxiety, negatively impacting their overall well-being.

Safety Concerns for Dog WalkersManaging multiple dogs on leads while other dogs remain off-lead can create chaotic and potentially unsafe situations. The proposal may increase the risk of accidents or altercations, putting both the dogs and their handlers at risk.

Higher Costs for Dog OwnersAuckland's dog owners may face increased expenses due to the proposed restrictions. Professional dog walkers would need to invest additional time and resources to comply with the new regulations, leading to higher fees for their services. These changes would disproportionately affect responsible dog owners who rely on professional pack walking to ensure their dogs receive adequate exercise and socialization.

These changes would negatively impact the well-being of dogs and limit the effectiveness of all pack walking services. Responsible dog owners who understand the importance of having their dogs pack walked and socialized should not be penalized by these restrictive measures.

We urge policymakers to reconsider these proposals and prioritize the health, happiness, and safety of both dogs and their owners. A balanced approach that supports responsible dog ownership while maintaining public safety is essential for the well-being of our community.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I feel the problem occurs when dogs are loose and roaming the streets. This is the problem that needs addressing. By limiting to 3 dogs of leash will affect dog walkers who run their business which in turn will affect their clients. Again it is a small number of people /dogs causing problems so everyone else gets affected.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Our dog is walked by a dog walking company. They employ trained specialists to walk the dogs. It is affordable as they walk multiple dogs at one time. If they are only able to walk a low number of dogs at one time it will become much more expensive. Dog walking is an excellent service that is provided by multiple companies, demonstrating a clear need for it. Dogs are pack animals and benefit from being walked in packs and having the opportunities for exercise and socialisation with other dogs.

Dogs are meant to socialize; we use a walking service to augment that socialization for our dog. Off leash there is more play , socialization, excersice and overall well being. Proposed change would inhibit that significantly.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

We are responsible dog owners and employ the services of a professional dog walking company to ensure our dog is well socialized and exercised. This has ensured our dog is happy, healthy, calm, well trained and socialized. Running free with his pack is a huge part of his quality of life and to do so under the supervision and guidance of trained, professional dog walkers has ensured both he, the pack and other users of the recreational spaces are all able to enjoy these areas without problem. I would be devastated to think that a change to the bylaws would put an end to this freedom for him and his pack. I would be concerned that we would see more frustrated, under-exercised and under-socialized dogs as a result. I am unclear as to why the Council feels an update of this situation is required other than it is trying to set rigid rules for all, in order to curb the bad behaviour of a minority. No doubt the same minority that also do not register their dogs, provide healthcare, train them, pick up after them or have any sort of real relationship with their dog. Our dog and all the dogs we know that use our professional dog walking service, are owned by caring, law-abiding, responsible people. People that have their dogs' best interests at heart and part of this includes giving their dogs the experience of a free run with their pack a few times a week. I would hate to see this privilege taken from my dog. Dogs on a leash are not afforded the luxury of freedom to be dogs and to play with their pack and mixing dogs on a leash with dogs off a leash is also not a solution as any dog expert will tell you, it is threatening for the dog on the leash and causes more problems than if both dogs were off leash.

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

This will impact myself, my dog and the dog walking business that I use significantly.

I use an excellent, safety conscious, well regulated dog walking company to take my large dog out for 2-3 hour periods each day whilst I am at work for sometimes 11 hours.

I already pay $200 a week, and there is no way i could afford to pay double (assuming there could be a maximum of 3 dogs only with the proposed new rules).

It would be incredibly cruel for the dog to be at home by herself for this amount of time.

She is a very large dog but is well behaved off the lead. However, on the lead, I don't think it would be safe to be walking a 2nd or 3rd dog. She also gets a little tense on the lead with dogs in close proximity but is completely comfortable with all dogs off the lead.

I honestly don't know what i am going to do if these proposed changes come in. I have used my dog walking company for years and never had any issues at all. They only ever take the dogs to isolated spots away from the public anyway.

If there are issues, which I have never seen in the media so they can't be that bad, then regulating the dog walking companies would be a much better idea. The one i use will pass with flying colours, I am sure.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Tell us why

Because dog walkers get overwhelmed and can't keep dogs under control.

Even 6 is too many. With snakes they say you need 2 people present for a 3m snake, plus 1 extra person per extra metre.

If it's 6 Chihuahuas, that's not the same as 6 Great Danes.

It needs to be clarified, and maybe it can only be 2 big dogs, 4 medium dogs, or 6 very small dogs - I'm not an expert, but this would make more sense.

I daresay it would be hard at times to control 1 untrained Great Dane.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

This goes totally against dog behaviour and how they function. If you remove the ability for dogs to socialise correctly in larger packs, the dogs will become aggressive. Dogs will not socilaise and pack behave when they are on leads so this will also contribute to poorer behaviour and aggression.

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

This potential change has several negative implications:

Reduced exercise and socialisation: Dogs on leads have less opportunity to run and play, limiting their exercise and social interaction.

Increased stress and frustration: Being restricted by a lead can lead to increased stress and frustration for some dogs.

Difficulty managing multiple dogs on lead: Handling multiple dogs on lead while others are off lead can be dangerous and unsafe.

Auckland's Dog Owners will have to pay more to have their dog walked by a Professional Dog Walker.

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

This is absolutely mind blowing that such an idea has even gotten to the public consultation phase—when Animal Management and the majority of Local Council Boards said NO.

My husband and I believe these changes would negatively impact the well-being of our furry friends and punishes responsible dog owners who understand the importance of having their dog pack walked and socialised.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

My Wife and I believe these changes would negatively impact the well-being of our dog and limit the effectiveness of all pack walking services. As well as punishing responsible dog owners who understand the importance of having their dog pack walked and socialised. If the proposed changes go ahead it can cause a lot more issues such as reduced exercise and socialisation: Dogs on leads have less opportunity to run and play, limiting their exercise and social interaction.

Increased stress and frustration: Being restricted by a leash can lead to increased stress and frustration for some dogs leading to altercations.

My dog is apart of a dog walking community, this makes my dog and all others extremely happy. If you were to take this away it would completely take away proper exercise and socialisation for dogs causing increased stress and frustration. It's more difficult to handle multiple dogs on lead than off.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

My dog walkers are excellent and have control of the dogs when off the lead. there are so many open spaces for them to enjoy I see no reason to change this policy and seems like a waste of time and money to consider this.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

I have recently had a dangerous encounter with a dog walker in my area. My dog and I were walking in a Council Park, he was on lead. A walker with 10 off lead dogs arrived. One of the dog walkers dogs attacked my dog. Because of 'pack mentality' the rest of the dogs the walker was looking after (all off lead) ran over and also tried to attack my dog. I think any number beyond 3 dogs is irresponsible handling. There is not enough people in an interaction like that to control the dogs safely. You cannot possibly and safely manage the behaviour of more than three dogs off lead at one time.

I and my circle of dog friends will sometimes help out each other with dog walking which would limit us with 5 dogs off leash at our local dog park. All dogs are are used to socialising together - we would be penalised for helping each other out on occassions of necessity - we are not group dog walkers.

Have dog walkers licensed by Auckland Council and/or be members of a professional association which takes care of regulation as well as complaints.

Why exactly there is so much time being wasted on dog walkers whihc comprise less than 1% of complaints to AC.. You should be concentrating on better management of loose dogs in certain areas along with lack of registration, horrendous welfare etc.

Please spend your ratepayers money on these areas and not on this issue. 99% of dog walkers love their “customers” and are in it for the happiness of the dogs not to make huge profits!

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Pack walks encourage good socialization skills for our dogs, walkers will have to double or triple their staff and it will be unaffordable to continue leading to even worse socialization skills and aggressive behavious

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Maximum four dogs, with no more than two off-leash unless licence obtained

Tell us why

The issue is not the dogs but the walkers. They don't know how to control the dogs well and are often to locals (like myself) who are trying to walk their local dog in a relatively small area (the reserve snd walkway along st Mary's bay). They show scant regard for us and their packs are very intimidating. They also are responsible for the dumping or presence of their dogs excrement along the path.

Have you considered giving them a specified time (eg 90 mins) outside locals peak walking times do that we know when to stay away too?

This will most likely put professional dog walking companies out of business. They in my experience act responsibly and know how to handle a pack of dogs. The issue lies with individual owners who act irresponsibly or do not have the experience. As such professional dog walkers should be exempt.

Do you have any further comments about dog access rules at Regional Parks?

Auckland is a city that has many dogs, most of whom have responsible owners. Auckland Council are ignoring how important dogs are to Aucklanders by restricting their access to many areas of Auckland. I believe council would be better to license all dog o

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Maximum four dogs, with no more than two off-leash unless licence obtained

Tell us why

I believe having registered/licensed dog walkers should have a place in Auckland Society.

There are a huge amount of pet dogs in the greater Auckland region. And many owners who work long hours and have pets require the support of paid dog walking services.

These services run by professionals who must earn certification is crucial to keep dogs well exercised, socialised which in term makes them healthier and better behaved dogs in public.

If the numbers drop too low this service will be come unsustainable for both the dog walking businesses and the dog owners, resulting in more unexercised, unsocialised dogs.

I am in agreement that a normal non registered person walking personal dogs should have no more than 4 dogs with no more than 2 offleash at any given time.

This is just another example of Government/Council overreach on a successful business model. Like anything there will be a small minority of cowboys so clamp down on them and let the legit businesses get on with it. I would have thought council should be putting all their resources into controlling unregistered dogs and feral dog owners who do not know how to control their dogs or breed out of control dogs as guard dogs. When they have this problem sorted out satisfactorily maybe they can then look at a BIT of regulation for UNRULY dog walking businesses. Get your priorities right!!!!

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

This comment is based on where I live - central Auckland, Waitemata local board area. In this area, 6 dogs is a lot of dogs! So is 4. Based on the smaller sized sections and homes and apartments where most people live in my area. Surely this needs to be considered, as a blanket one size fits all across the wider Auckland region does not make a lot of sense. Urban people do not have the space to move around and live as those living in the more rural parts of Auckland.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

This park is not suited to off-leash dogs at all. It is too popular for dogs to be given freedom to run off leash. It's dangerous to young children, the elderly and any one with limited mobility. The dogs here can be threatening.

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

I support the proposed change

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Te Arai Beach north of Te Arai Headland, to Pacific Road

What local board area is this location in?

I don't know

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

This area currently prohibits dogs as it is a Tara Iti nesting area. The nesting season for these birds is October to February, so believe dogs could have access from March to September without any disturbance.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

As stated above. I believe dog owners could have access to this area outside of the tara Iti nesting period. Living locally, it would be amazing to be able to visit this beach with our dogs.

Location 3:

What is the full name of the location where you want to change the dog access rules?

What local board area is this location in?

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

Do you have any further comments about dog access rules at Regional Parks?

Dog owners are ratepayers too. Dogs are integral parts of the lives of many families. By far, the majority of dog owners are responsible, keeping their dogs under control, cleaning up after them and ensuring they are registered. More and more the freedom

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

This is a few irresponsible dog walkers who have no idea or control of the dogs they are walking, unfortunately spoiling it for everyone. We use Fetch - a dog adventure company - and they have a full and thorough understanding of the dogs and have total control. If this ruling was to pass many dog owners would not be able to afford a freedom walk for our pooches.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I oppose the proposed limit on professional dog walkers.

These regulations address only 0.7% of dog-related complaints received by Auckland Council—complaints that include everyday pet owners, not just professional dog walkers. More significantly, they fail to tackle the real issues, which, according to the Council's own data, are excessive barking and roaming dogs. A free desexing program or even mandatory desexing for non-registered breeders would be a far more effective way to address these problems at their root.

Professional dog walkers play a crucial role in preventing these very issues by providing dogs with mental, physical, and social stimulation. Limiting access to these services will only increase the behavioural problems the Council should be working to reduce.

Despite the impact on their industry, professional dog walkers were not consulted in this decision-making process, resulting in regulations that lack understanding of effective solutions.

I oppose the cap of six dogs per handler, with only three allowed off-leash at a time. Instead, I support smart, effective regulation—such as the licensing system proposed by the Professional Dog Walkers Association.

Licensing would establish industry standards, ensure accountability, cover the cost of handling complaints through registration fees and remove unqualified dog walkers by revoking licenses.

I urge Auckland Council to work with the Professional Dog Walkers Association to develop fair regulations that actually enhance dog welfare instead of creating more problems.

I am also deeply concerned by Auckland Council's plan to increase on-leash and dog-free areas. These restrictions further reduce dogs' access to exercise and socialisation—key factors in preventing behavioural issues. It seems clear that dog welfare is not the Council's priority, as these proposals not only limit safe exercise spaces but also restrict interaction between dogs.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

I feel that the council has no right to tell a person how many dogs that they can walk.

I am sure that a person is capable of walking the amount of dogs that they feel they can, it is my choice to have a dog walker and I would be well aware of their qualifications and capability. I care for my dog and would not let someone who wasn't capable to do this.

I DO NOT need or want the council to interfere, I am a capable Adult!

I am writing to express my concerns regarding the proposed blanket by-law that would impose severe consequences on Auckland's dog walking businesses. As a long-time resident and a dedicated dog owner (with my loyal companion, Quill the Dog, by my side), I have seen firsthand how professional dog walkers provide an invaluable service to our community.

These trained professionals carefully manage multiple dogs off-lead in controlled, secluded areas, ensuring that the exercise, socialisation, and behavioural training our pets receive are of the highest standard. Such services not only contribute to the physical and mental well-being of our dogs but also play a critical role in preventing aggression and other behavioural issues.

While I support the idea of regulating pack walking, I strongly believe that a licensing or permit-based system would be far more appropriate. This approach would help maintain high professional standards without adversely affecting the economy, the welfare of our pets, or the quality of life for dog owners across Auckland.

I respectfully urge the Council to reconsider this blanket by-law and work collaboratively with the dog walking community to develop a balanced, mutually beneficial regulatory framework.

Thank you for considering my submission.

2. General policy and bylaw matters

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I oppose the proposed limit on professional dog walkers.

These regulations address only 0.7% of dog-related complaints received by Auckland Council—complaints that include everyday pet owners, not just professional dog walkers. More significantly, they fail to tackle the real issues, which, according to the Council's own data, are excessive barking and roaming dogs. A free desexing program or even mandatory desexing for non-registered breeders would be a far more effective way to address these problems at their root.

Professional dog walkers play a crucial role in preventing these very issues by providing dogs with mental, physical, and social stimulation. Limiting access to these services will only increase the behavioural problems the Council should be working to reduce.

Our dog has become a more well behaved socialised dog because of the pack walks, he's more relaxed with all different types of dog breeds, our dog walker has the dogs under strict control, far better control than I do - he comes home so we'll behaved & well socialised.

Despite the impact on their industry, professional dog walkers were not consulted in this decision-making process, resulting in regulations that lack understanding of effective solutions.

I oppose the cap of six dogs per handler, with only three allowed off-leash at a time. Instead, I support smart, effective regulation—such as the licensing system proposed by the Professional Dog Walkers Association.

Licensing would establish industry standards, ensure accountability, cover the cost of handling complaints through registration fees and remove unqualified dog walkers by revoking licenses.

I urge Auckland Council to work with the Professional Dog Walkers Association to develop fair regulations that actually enhance dog welfare instead of creating more problems.

I am also deeply concerned by Auckland Council's plan to increase on-leash and dog-free areas. These restrictions further reduce dogs' access to exercise and socialisation—key factors in preventing behavioural issues. It seems clear that dog welfare is not the Council's priority, as these proposals not only limit safe exercise spaces but also restrict access to trained professionals who can provide it.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I have 2 dogs who sometimes come to work with me, but a few times a week they go on a pack walk with 4-8 other dogs. They have a great time, go to locations where they dont disturb other public, make friends, learn good behaviour, and how to be part of a group. My 2 dogs are scent dogs, and im nervous sometimes about walking them on my own as they've disappeared on me before, but their walker never has any issues and they always come back happy...if not a little dirty / salty sometimes. We always get cute group shot of all the dogs sent while they are out walking...I think keeping a tab on the handler, dogs, location for the walks, is important, but it should be done on a case by case basis, not a blanket ruling. I've had to turn around with my dogs on leads when walking on some streets, because the owner of a single dog didnt have control, and ive felt worried for all our safety.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Clarify rule that all dogs classified as menacing must be to neuter:

I don't know

Tell us why

To be honest, i dont like menancing dogs, but often its the owners who are the problem not the dogs. Classify the breeds if you want, but you should probably make the owners register and pass tests to see if they are capable of owning and handling them.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

I dont want more than the 2 dogs i have, but again i feel like its the type of dog / owners that are the issue. 1 uncontrolled large dog, is worse for a neighbourhood than 6 wellbehaved one in a house.

Clarify how dog access rules are set:

I don’t know

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

I dont want to necessarily suppose changing the rules, but it would be great if someone made the rules a little clearer. Its nice for the humans and dogs to do new walks/adventures, but sometimes hours of research is needed to work out the rules.

Clarify or correct errors in Policy Schedule 2: Dog access rules:

There are so many amazing areas to explore, totally fine to keep some places sacred.

Remove outdated or duplicate bylaw content:

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

I think i've expressed my main points. Overall, test the humans not the dogs. Let someone from the council experience a walk or 2 with various groups of dogs and see how well they handle the walks. There are walkers who say things like "ah, i love your do

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I am reaching out to share my concerns about the proposed changes to the dog walking regulations, particularly the plan to limit the number of dogs per walker. While I understand the importance of effective dog management, restricting the number of dogs does not address the underlying issues that could potentially arise. The focus should not be on the number of dogs per walker, but rather on the experience, skill, and training of the walker to ensure they can handle the dogs safely and responsibly.

Tell us why

There is no way that someone walking multiple dogs can exercise appropriate control over any dogs off leash. At all times a dog owner needs to be able to supervise and potentially intervene for the safety of the dogs off leash, wildlife and members of the public. Maximum walking of 6 on leash dogs is what I would prefer for safety of everyone.

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

As long as the person is able to control their dogs, there should not be a limit.

This will improve welfare of each dog because if a person has a large amount of dogs they will still be able to take them for a walk- if there was a limit, some dogs would get less walk time than others. This also applies to people who use dog-walking as a job, so they will be able to walk their clients dogs together (as long as the dogs are able to be controlled and do well with other dogs). Also if people have many dogs for reasons such as rescue or fostering, this is better for the welfare of the dogs being able to participate in a family and having regular walks and opportunities for training and interaction with people to increase socialisation and therefore improve ability for adoption

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Dogs are not just pets they are part of a family. They are social animals that need exercise and social interaction. Limiting the number of dogs a person can walk at any one time will significantly increase the cost of this service provided to people who own dogs but need to work or are elderly or disabled and unable to provide dogs the exercise they need. Further dogs need to be able to have off leash time to run, sniff and explore. Again, the limits you are proposing will increase the cost and make this service unattainable. Impacting the wellbeing of the dogs and causing extreme stress for their owners. How many issues have been reported regarding dog walkers that is suggesting a change is needed? I understand dog walkers are recommending licensing which would potentially drive income for the council and preserve this service at today's cost for those dog owners who are unable to provide the daily exercis dogs need.

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Dogs are not just pets, they are family members and a way of life. Limiting the access areas will dramatically impact the wellbeing of the dogs and their owners. In a society impacted by obesity why would the council make it more difficult for people to exercise with their dogs? Why in a society where we are wanting to get people out of their vehicles would you force people into cars so they can drive their dogs to outdoor areas to walk their dogs. Look around the world and you will see sophisticated societies increasing access to dogs not reducing. Do not impact the social interaction of the dogs, the exercise and fresh air opportunities of their owners. The parks and open areas need to be for all New Zealanders not just those without a dog as part of their family. The areas and hours they can be walked are already restricted enough. We should be increasing access not reducing.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

I think based on the number of people who utilise dog walk/pack walk services. It would be better to regulate the occupation so it meets a standard rather than making blanket restrictions that will have massive impacts on the businesses and customers of the services they provide

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

The number of dogs does not matter if:

1. A professional walker has experience, and integrity to the rules in public spaces and the safety of the community.

2. If a pack walker is in an 'off leash dog area' and 3 dogs have to be on lead, this inhibits those 3 dogs from meeting other off leash dogs in a unrestricted manner, and being able to innately socialize.

If numbers are limited, the service will become too expensive and less accessible. When the community have around two thirds of households owning dogs and cats, quality affordable services must be available. Having unexercised dogs in our community is not safe, which is why we have roaming and over-population issues which need to be addressed ASAP.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I am a professtional dog trainer here in Auckland and my clients rely heavily on dog walkers to give their dog off leash time in a balanced pack and the restriction on walking a maximum of six dogs, with only three allowed off-leash at a time, unfairly affects professional dog walkers and responsible multi-dog households. Many professionals safely manage multiple dogs at once, and imposing this restriction could impact their livelihoods. Instead, requiring professional dog walkers to obtain a permit or demonstrate competence could be a more reasonable solution.

I support the majority of these proposed changes but would like to see dogs allowed on leash on Muriwai beach south of the surf tower - perhaps contained to within the flags - we often walk northwards until we encounter the horses and vehicles on the nort

Pākiri Regional Park

We are proposing to prohibit dogs on the associated beach (currently off-leash).

Making a blanket ban is unreasonable - what are the reasons for the blanket ban? More physical involvement from dog management educating and talking to the few less desirable owners would be a preferred option.

The proposal to remove dogs from a very long beach that most people other than dog owners and surfers don't even know about makes no sense at all. In the last nine years we have often been on the beach by ourselves or with only a handful of other dog walk

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

The rule change won't stop bad actors, just penalize everyone.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Tell us why

I think this rule penalises those with actual training in dog management but does not address the rogue dog walkers out there. Our dog walker is an obedience trainer. The dogs he has are always on lead or have leashes attached. They are trained in absolute recall and their safety and human safety are paramount. However the rogue dog walkers have zero control on or off lead! This is where regulation needs to be improved - you should not be able to operate a business if you have no training! This training should meet minimum standards as dictated by council and a license issued as such to all those dog walkers. The rules you propose will not stop those dogs being out of control in our parks. I say this as a dog owner and one whose dog goes on highly regulated and controlled pack walks.

2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I support there being al limit in general, but the off-leash limit seems too low. Also, worth considering economic/logistical impacts on business and dog owners. If this limits dog walking service providers, the impact on dog owners could mean costs increase as services become more limited.

2. General policy and bylaw matters

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

I would support a maximum of 8 dogs, but it makes no sense to keep some on the leash. Dogs are more happy and relaxed when off the leash in a group, and easier to manage. For a dog walker, they would have to focus a lot on the on-leash dogs which would make their job more difficult. I would put more focus on the quality of the dog walkers (maybe some form of certification) to ensure they are trained and supported.

Our dog has recently begun pack walks, the positive difference it has made to his confidence is astounding. The pack walker we use requires a multiple night home stay with a dog before beginning on pack walks so she and the dog can bond, and work on training. she uses tools like long lines, carriers for tired dogs, and will never remove a leash unless she is 100% confident in the dogs recall. The care she takes with them is incredible, and we trust her work completely. She works on essential training, and is open to working on things we have been struggling with, every dog she walks are relaxed, non reactive, but confident dogs. It is incredibly valuable to us having this service, having a dog of a breed that naturally is inclined to bark and approach - we can see a huge difference. It is currently an accessible service to us, by limiting the number of dogs we know this incredible tool would become inaccessible to most people potentially including us, as pricing would need to be raised with the limited number of dogs.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

One rule for all doesn't reflect the fact there are likely competent professionals and cowboys. Our dog goes on guided walks with Follow the Leda. The number of dogs her team takes creates cost efficiencies. But the key issue is that her and her team are dog whisperers. They have upmost control of the dogs on and off leash. Thay can control the number of dogs they walk.

Tell us why

Six dogs are enough for one person to control. I would prefer the limit being smaller, such as four, with two off-leash dogs only.

If several people are walking dogs in the same place at the same time, with only three people, with the proposal, this could mean nine off-leash dogs interacting with each other and with other people in the area.

Being confronted with three off-leash dogs at one time is traumatic for some people and is enough to stop them from ever going to certain parks and other public open space areas.

A visit to a regional park should be a peaceful occasion, and the fewer dogs present, the better. Dogs are noisy, make a mess and threaten people who are scared of them.

The recommended 6/3 rule makes sense. In a public space, the dog-walker attempting to control other

peoples dogs would be easily out of control otherwise. We have a labrador and often grab the neighbours

enroute to the park to also give it a run. For just two you need to be focused, 3 ought to be the limit for

off leash

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Too restricting. Dogs need to run and allowing this also brings a lot of people to the park, creating a

strong community vibe at the local parks AND providing exercise and mental well-being to people as

well as the dogs. Most dogs do not get the exercise needed on a lead. Still important, however, to

have rules in place to ensure threatening dogs are restricted (as agreed on above).

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Tell us why

Objection to the Limit on the Number of Dogs Per Walker:

The proposal to limit the number of dogs a person may walk to six, with a maximum of three off-leash at any one time, is restrictive and unnecessary for responsible owners and professional dog walkers.

Many dog owners have more than three dogs who are well-trained and socialised, and they should not be penalised for handling multiple dogs responsibly.

The proposed restriction disproportionately affects professional dog walkers, who provide an important service for those unable to walk their dogs themselves.

Instead of a blanket restriction, the council should consider a licensing or competency-based system that allows experienced dog owners and professionals to walk more dogs where they can demonstrate control.

Requested Amendment:

Introduce a licensing or accreditation system for those who wish to walk more than six dogs or have more than three off-leash at one time.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of this proposed change?

Tell us why

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?
Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.
Only provide feedback on one location at a time.
Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

A qualified dog walker who has their dogs under control doesn't cause issues.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Maximum four dogs, with no more than two off-leash unless licence obtained

Tell us why

The lack of regulation in the pack dog walking industry is dangerous. I see very young people walking 5+ dogs and being pulled over by them or letting them off leash and losing all control of them. I've had one dog follow me for over an hour and I had to wait in the carpark for the pack walker to return and take the dog. They didn't notice it was even missing.

I would support the proposal as is, if there's a license required.

I think dog walkers should be able to apply for licences for more dogs on and off leash, because there are some who do a wonderful job of ensuring that they have control of their pack and this is an important service for dog owners in Auckland.

Really there should be consultation with the dog care industry for this legislation.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

I believe strongly that dog walkers should be licenced and that these rules should be set in conversation with the licencing body.

The issue of off leash dogs does not come from highly skilled dog handlers, of which there are numerous operating safely and effectively in Auckland.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

I believe there should be no restriction to the numbers walked or allowed off lead but that the professional dog walkers should be licensed themselves. There are many wonderful and knowledgeable walkers who manage large packs in a more rural setting and do an amazing job at keeping larger numbers calm. These professionals should in my view be licensed to operate as they are currently. They play a crucial role in preventing issues such as roaming and barking dogs. Please do not limit access to these services as they provide mental and social stimulation as well as physical. Dog walking has brought huge benefits to my 4 year old and also 14 year old Labradors. I was unable to walk the younger dog last year following surgery and the dog walkers provided an invaluable service. My 14 year old dog is unable to walk much but joins a 'senior pack' which helps both me and her and we would be truly disadvantaged if the service could no longer be provided. Our walkers are able to effectively control a much larger number than 6 and could not possibly provide the same quality of service if such a limit were imposed. The dogs all learn most effectively good calm behaviour and are always under effective control. On the other hand I have seen single individuals with one dog cause problems.off lead. I support instead smart effective regulation such as that proposed by the Professional Dog Walkers Association.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

Would prefer to see the dog walking industry regulated and/or some sort of licensing regime introduced to ensure that dog walkers have the adequate skills and are held responsible for negligence or misconduct.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

I do not like the idea of a blanket prescription. I do not have a problem with some sort of restriction being put in place for private dog owners but I do not think that the same rules should apply to professional dog walking companies especially in regional park areas. I would much prefer to see regulation and/or licensing to ensure dog walkers have the necessary skills and are held responsible for negligence or misconduct. The dog walking industry definitely requires regulation and this debate is a perfect opportunity to put that in place.

However all that will be achieved by putting blanket prescriptions in

place is more expense for dog owners who want their dogs exercised and more dogs receiving insufficient exercise

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Maximum four dogs, with no more than two off-leash unless licence obtained

Tell us why

Professional dog walkers (and farmers and dog trainers) with experience of dogs and training can manage far more than three dogs off leash safely. Professional dogwalkers provide an important service to dogs and their owners. Dogs that have proper exercise and opportunities to socialise and play are happier, more healthy and less aggressive and many owners need the support of professional dog walkers at least some days a week. There are very few complaints about professional dogwalkers and these complaints are generally minor in nature. The license system is a sensible one to provide council some leverage, the community more reassurance and ensure all dogwalkers meet a certain standard. Dogwalkers invest in their business and are acutely aware of the need to walk the dogs in the care safely and without incident because the future viability of their business depends upon it.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

I would like dog walking for larger groups of dogs, 6+, to require a license, but I would like the license cost to not be onerous.

I do support GPS tracking of dogs when they are walked offleash in unfenced areas : it must be extremely traumatic for owners to lose their dogs in these circumstances.

Reasoning:

given the post-Covid return to work, many dogs are spending more time at home alone. Dog walkers generally assist with this, providing exercise and socialisation, making for better behaved dogs. many dog walkers have good control of their packs. There are a few professional dog-walkers that do not have good standards and there are many people who think walking dogs is an easy way to make some cash.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Dogs are an important component of many Aucklanders lives. We pay a lot of money in rates and some more in dog license fees.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash unless licence obtained

Tell us why

In my opinion:No more than one off-leash dog is allowed unless it is specially trained, such as a police dog.

Because a dog can only be under control when it is on a leash, which is essential for public safety.

Thank you.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Other (please explain below)

Tell us why

I do not support the proposed limit on walking multiple dogs.

The proposed limit will only penalise responsible dog owners and will not stop irresponsible people who do not follow existing laws. There are more pressing issues such as roaming dogs that the council should focus on not multiple dog walkers who make up a tiny amount of reported issues. Our dog was attacked when he was 1 in the local park by an aggressive roaming dog which resulted in surgery and a large vet bill. It was infact our dog walker that helped to calm him, take him daily to the park to get his confidence back and show him the park was a safe place.

I support a license being developed to regulate professional dog walkers as they have the skills to handle multiple dogs and provide a valuable service to our family and the community. Our dog goes out 3 days a week with a walker and has done so for 4 years. The walker has done extensive training and as an anxious dog the change in behaviour and social skills in this time is incredible. Knowing he is well looked after, loved and exercised (he is a large dog) on these days is invaluable and allows us to focus on work without worrying he is home alone.

My dog absolutely loves his pack walks with his friends and I believe if he was on leash while 3 of his friends were off leash at his favourite parks, it would actually cause psychological distress in the pack. He and many others find so much joy in being in a pack of 6 off leash and are very well behaved and safe. Please do not go ahead with these proposed changes

Pack walks by trained dog handlers are important businesses: for the owners, the dogs they take, and owners of those dogs. Limiting the number of dogs will make them not viable and causes harm to a much needed industry in Auckland. I support the monitoring / putting in place regulations for the industry - in collaboration with the experts in that industry. Noting I am not myself in this industry but i and many I know use dog walking services who are extremely well trained and skilled people. You should work with the experts in this industry to appropriately manage it.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

A license for professional walkers would be much more helpful

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

A license is a better solution than a limit.

A licensing system would allow us to hold bad practitioners accountable by revoking their license if necessary, while still allowing good professionals to thrive. It's a fairer approach that benefits everyone, and it's a system that can be funded by the industry itself.

Tell us why

I do not support the proposed limit on walking multiple dogs.

The proposed limit will only penalise responsible dog owners and will not stop irresponsible people who do not follow existing laws. The council should be focusing on issues such as roaming dogs not penalising multiple dog walkers who make up a tiny amount of reported issues. At the local park when a roaming dog approaches your dog it's stressful, often these roamers have aggressive tendencies and you're left trying to work out how to safely get out of the situation without your dog getting attacked.

I support a license being developed to regulate professional dog walkers as they have the skills to handle multiple dogs and provide a valuable service to me and the community. My dog has been with the same dog walker 3 days a week for 4 years. The training they have done for him both socially and behavioural has been incredible. They care deeply about the dogs as well. Without the walker I would be required to work from home 100% of the time, I couldn't leave the dog by himself for more than 15mins and if I did he would indefinitely be barking and crying.

Tell us why

The proposed changes do not address the real issues at hand. Responsible dog owners use professional dog walkers to ensure their dogs are well exercised and looked after.

Looking at the council data, it appears that the recommended solution has completely missed the point and does not address the real issues at hand. Firstly only 0.7% of complaints that the council receive are dog related.

How do these changes address the real issue in Auckland? Excessive barking and roaming dogs. Data shows 34% of complaints are related to roaming dogs, none of the solutions above address the problem, in fact these by laws will create new problems for the council.

Professional dog walkers play a critical role providing, physical and social interaction for dogs. If adequate research had been completed by Auckland City Council, it is unlikely that the by laws would be put forward in their current form.

At 0.7% of complaints, it is quite shocking that rate payer money has been spent on this proposal.

Look at a licensing programme for professional Dog Walkers.

Fund a desexing programme to reduce the number of dogs roaming the streets (note these dogs are walking freely, a by law will not change this.)

There are a lot of people who either work full time or cannot physically meet dogs exercise needs. Responsible dog owners use the services of professional dog walkers.

It is very clear that the real issues have not been addressed, in fact Auckland City Council is creating a bigger problem as well looked after dogs are not going to be able to have access to a service, that keeps them healthy and well looked after.

Owners of dogs and professional dog walkers are not the people responsible for the mistreatment and abandonment of dogs. The opposite in fact. Talk to Professional Dog Walkers, PDWA, SPCA. Really understand this industry before making sweeping changes that do not address fundamental issues and impact dogs lives and responsible professionals businesses. If the research was completed well, this proposal would look significantly different.

How will the by laws above be policed/monitored, is the Auckland Council going to put on a lot of new staff to monitor this? If there is available funding for a by law, put that money into getting roaming/stray/unmanaged dogs off the street.

The licencing system has been proposed by the PDWA, create this instead of a by-law.

Unfortunately the council is creating an animal welfare issue not preventing one.

I do not support a proposal that does not address the real issues in Auckland City.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

2A. What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:
