Do you have any comments about your response above? Golf courses, especially in the central Auckland isthmus such as Remuera, should be used to build intensive state rental housing for lifetime income-related rent.

Do you have any comments about the draft Auckland Golf Investment Plan or this survey?
The survey assumes that publicly owned golf courses will remain for some kind of sort or recreational use.

This ignores that the great need in inner Auckland is for dense, multi-storey, affordable rental housing.

Your feedback

1. **Firstly, we want to find out what you think of the draft Auckland Golf Investment Plan.**

The draft Auckland Golf Investment Plan aims to ensure all Aucklanders benefit from publicly owned golf land. Do you support this goal?
Support

Do you have any comments about your response above? Golf is a hobby limited to privileged and wealthy individuals who have the luxury of time and money to play golf. It is not fair that this public land is reserved only for these people. The land should be re-purposed to benefit more of the community.

Objectives

The draft plan sets regional policy for council-owned or managed golf land and has three objectives. Please tell us whether you support each objective.

2. **Increased equity, sport and recreation by opening up publicly owned golf land to all Aucklanders**
Support

3. **Increased equity and participation by providing a broad range of golf experiences that attract and retain participants and services targeted at low participation groups**
Don't support

4. **Best practice in ecosystem management and biodiversity conservation of publicly owned golf land**
Support

Do you have any comments about your responses above? The land should not retain golfing experiences. It should be better utilised that benefits the community better.

Key shift

The draft plan proposes four key shifts for golf courses on public land to benefit all Aucklanders. Please tell us whether you support each key shift.

5. **Shifting to a robust investment framework that is focused on increasing benefits to all Aucklanders**

6. **Shifting to sport and recreation for all Aucklanders**

7. **Shifting to a broad golf service offering across the network that appeals to a wider group of people**

Your feedback

1. **Firstly, we want to find out what you think of the draft Auckland Golf Investment Plan.**

The draft Auckland Golf Investment Plan aims to ensure all Aucklanders benefit from publicly owned golf land. Do you support this goal?
Support

Do you have any comments about your response above? I strongly support the plan as outlined, as it aims to keep the asset as green space AND increase the public benefit. It is so important to retain green space as Auckland grows.

Objectives

The draft plan sets regional policy for council-owned or managed golf land and has three objectives. Please tell us whether you support each objective.

2. **Increased equity, sport and recreation by opening up publicly owned golf land to all Aucklanders**
Support

3. **Increased equity and participation by providing a broad range of golf experiences that attract and retain participants and services targeted at low participation groups**
Support

4. **Best practice in ecosystem management and biodiversity conservation of publicly owned golf land**
Support

Do you have any comments about your responses above? It's nice to increase participation in golf, but essential to improve environmental and other social outcomes and greater use of this land.

Key shift

The draft plan proposes four key shifts for golf courses on public land to benefit all Aucklanders. Please tell us whether you support each key shift.

5. **Shifting to a robust investment framework that is focused on increasing benefits to all Aucklanders**
Partially support

6. **Shifting to sport and recreation for all Aucklanders**
Support

7. **Shifting to a broad golf service offering across the network that appeals to a wider group of people**

Support

8. **Shifting to best practice in ecosystem management and biodiversity conservation that meets clearly defined target**

Only said partially support the robust investment framework shift - support it as long as it doesn't mean selling off and building over this green space.

Note that sport and recreation should consider dog recreational space too.

Golf courses are environmentally not great, I would rather see public reserves in lieu of golf courses. The lawns required on golf courses are devoid of any life and therefore not desirable in any way. Their maintenance is toxic and makes no sense to me,

Do you have any comments about your response above? Golf courses cater predominantly to one demographic. These large swathes of public land should be available to everyone to enjoy the green space, and the outdoors. Or even new housing.

I think it is a huge waste of land having golf courses in prime areas of Auckland. The council should sell the land, so that we can have more housing and playgrounds and malls and shops.
