Our rates are going up.. it's proposing we have more people representing us. Could the ratios be adjusted so that there are (say) 1 person representing 20k people - or even 50k people therefore we need a lot less people than what we have even today. Definitely keep the distinction of rural vs city but group in a way that makes sense to achieve this. Perhaps - at least- pilot this with much higher ratios in an area to assess if we really lose anything in doing this.

Close down local boards entirely. They are a waste of time and money and achieve nothing that the main Council representatives and service organisations can't achieve more cost effectively.

The clients of Parnell and Newmarket business mostly come from the Orakei Ward. There is no sense in moving these backwards by moving them back to Waitemata as this Ward does not represent the businesses and people of Parnell and Newmarket

I believe the Orakei Ward should stay the same for the central wards. It is very important to a significant community of interest impacted by the flow of stormwater and untreated wastewater in and around Hobson Bay and surrounds. that the entire area be under the remit of one councillor. The upgrading, and proper maintenance of the required infrastructure needs to be coordinated and with working with a number of local boards the issues are complex enough. The source and outlet of the water needs to be under the same ward, we have to work with the land. Making changes to the Orakei ward with be detrimental and costly. It is also a better fit for the people living in around Parnell, Newmarket and Grafton to be with the Orakei ward than further west and the CBD.

We believe that the Orakei Ward should stay the same so to support the implementation of a solution to better upgrade and maintain for the water infrastructure around Hobson Bay . We are part of a strong community of interest developed over a large number of years and this community actively supports the Councils commitment to resolve these issues. It is important for the whole of Hobson Bay to stay in one ward and also for the source and outlet to be in the same ward, IN recent times have had some high profile disasters as well as long standing damage and this dangerous situation needs to be addressed as smartly as possibly. Making this change will not assist, in fact it will make solutions more tricky.

The Orakei Ward should say the same for the central wards because the area being included in the Waitemata and gulf wards is part of the water catchment for Hobson Bay . It is very important to a significant community of interest impacted by the dangerously high flow and volume of stormwater and untreated wastewater into Hobson Bay.

Since the Ellerslie Residents Association was founded around 10 years ago, the Ōrākei Local Board has consistently been proactive in engaging with the ERA and other representatives of our community such as the Ellerslie Business Association. The main hurdle to action has been lack of available funds.

Please therefore *take action to increase Local Board discretionary funding* in future years, as it goes directly to benefiting local communities.

8 August 2024

Dear Sir/Madam,

The Ellerslie Residents Association **supports the proposal to move the suburb of Ellerslie into the Ōrākei Ward area.**

When Ellerslie was moved into the Maungakiekie-Tāmaki Ward some years ago, it created a situation where it was not immediately clear to many residents who their Councillor was, who their Local Board was, etc. This meant that many residents were **unsure who to talk to** about issues or ideas they had, making engagement with the Council more difficult.

Few parts of Auckland facing this issue made understanding of the situation even less likely to improve.

Ellerslie being in both the Ōrākei Ward and Local Board areas would eliminate this issue and streamline engagement with the Council. We therefore **support the proposal.**

Finally, the Representation Review also asks for other feedback about better representation through local boards and the governing body. Since the ERA was founded around 10 years ago, the Ōrākei Local Board has consistently been proactive in engaging with the ERA and other representatives of our community such as the Ellerslie Business Association. The main hurdle to action has been lack of available funds. Please therefore **take action to increase Local Board discretionary funding in future years**, as it goes directly to benefiting local communities.

Yours faithfully

Chair, Ellerslie Residents Association

The Orakei Ward should stay the same as for the central wards.

It is very important to a significant community of interest impacted by the dangerously high flow and volume of stormwater and untreated wastewater in and around Hobson Bay and surrounds, that the entire area be under the remit of one councilor.

It is NOT only a numbers of people issue. The upgrading, and proper maintenance of the required infrastructure in the area is complex. The source and outlet of the waste and storm

water needs to be under the same ward, we have to work with the land and the bay. Making changes to the Orakei ward will be detrimental and costly.

It is also a better fit for the people living in around Parnell, Newmarket and Grafton to be with the Orakei ward than further west.

The changes suggested are intended to make the numbers of people covered by wards fairer but with the geography of Hobson Bay area and with poor water quality and infrastructure it is vital to our community of interest that we keep the bay together-this must override numbers of people- life changing projects such as the Newmarket Gully Project will be harder to implement with ward boundaries splitting Hobson Bay.

I am referring to the Waitemata/Orakei council representation changes. I understand the need to keep population numbers in balance. This is a very reasonable thing to expect in a democracy. However there may be other equally important considerations. In my opinion water flows is one of those things.

I am concerned that the responsibility for the waterways which run from Mt Hobson, under Middleton Rd, through Newmarket Park and down to Hobson Bay will fall between the cracks.

Orakei, once entirely responsible for these waterways, will, under the new proposals, be responsible for only a small part of these waterways. Will the fact that two councillors share responsibility for these waterways be better for the work going forward, dealing with the unmanageable volume of stormwater and untreated wastewater that flows into Hobson Bay and then to the Waitemata? Or will the fact that the largest slice of these waterways, those going into Hobson Bay, are on the fringe of a very demanding Waitemata councillor's territory mean that these waterways are pushed to the back burner? I don't know the answer. What I do know is that in Orakei's councillor Desley Simpson we have had someone who is knowledgeable, hardworking and passionate about the state of our water, salt and fresh. I just want to be sure that there is no disruption to any current plans for the Newmarket Gully Project. Perhaps those plans may be advanced. Thank you for the opportunity to have a say.
