Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I don't have a direct connection, but I am interested in how the space is used

There are three options to consider

Which option do you prefer? Select one option only.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Better use of current space and an update in facilities

I believe Auckland Arena will prove to be a massive investment for Auckland, as the venue will host Auckland Fc games. Auckland Fc's current stadium- Go Media Stadium, is used as a multipurpose stadium, meaning not just Auckland Fc preform there. Auckland Fc's current home stadium can cause chaos around the area on match days, meaning that a new stadium in a less crowded area could prove well.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Western springs speedway has a strong history with Auckland and is unique in its location to Motorsport fans in Auckland. After the closing of the Pukekohe race track, the next closest venue for offical events is Hampton Downs - more than an hour from central isthmus in good traffic. Seeing the speedway gone will be a big shame, and moving to Waikaraka park is not a fair compromise due to its far smaller track size. I have no doubt if the suburbs creep toward Hampton Downs that it too will be put under pressure for closure. The cycle repeats.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

The speedway needs to stay. It's always been there and people have built around it. They knew what they were getting into, and the noise level that comes with it. There is history tied to those grounds and we don't need another speedway to be closed to just become a smaller, more expensive sporting arena.

I choose option 1 - Auckland Arena. It's been a great season for football in Auckland and for a NZ team. Having an Arena more central and dedicated to the development and entertainment for the sport would be fantastic to see.

The significance of sport in New Zealand and specifically Auckland cannot be forgotten!!! It will attract constant attention and fill up every fortnight, as opposed to the bowl option which will be used significantly less frequently. Furthermore, I believe the Auckland fc Stadium will develop a strong culture and connection among fans, players, the club and locals in a positive manner! Something I think Auckland could certainly do with more of.

I do not believe Auckland needs another stadium when Go Media and Eden Park are close by and well connected through transport. I think that as Auckland cements itself as the go-to for concerts in NZ there should be infrastructure built in rather than being built and unbuilt for every event - e.g. Lorde concert in 2023 being soon after Laneway was scheduled.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Leave it how it is... building a small capacity stadium and expecting to draw small crowds is an absolute waste of time. If the event is popular it will sell out in no time leaving hundreds if not a few thousand people disappointed at being unable to attend not only that but the lack of trains, busses and public parking in that area makes it an unvaiable proposal.

With Auckland FC needing a new home the proposed stadium doesn't meet the regular attendance, I think there should be a rectangle shape with all 4 sides having a stand, but one of the end stands having the middle of it cut out for entertainment and the stand being 10 meters above ground level so younger fans can still enjoy it as well the the stand being 10 to 20 meters away.

Because I believe is the best option. Football is the number one sport in the world and is growing in NZ. Also, Auckland FC had a good number of supporters during the whole season and I believe that having some other facilities like pádel court, basketball, etc will be great too for the area

New Zealand does not have the music scene, nor the ability to be hosting international artists on a regular basis that constitutes are music only or "Hollywood Bowl Style" venue.

Money needs to be invested in local talent, small venues of 1000-2000 people. This is not the place for it. I want option 1 as it has a community sporting element to it and love the idea of locals being able to use the basketball courts and facilities.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board)

There are three options to consider

Which option do you prefer? Select one option only.

Option 3A: Neither Option 1 or Option 2 - keep things as they are and retain current arrangements

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Traffic on a normal day during peak hours is already bad around Western Springs area. Turning this into something bigger would just add to the already congested roads as well as crappy motorway on/off ramps.

Cheaper for ratepayers (sport should largely fund itself), and football/soccer is a safer sport than rugby that is more likely to grow and connects us to the international community. I like rugby but it's seems to be dwindling, and concusses people a lot

Western Springs is underutilised, and we are lacking a fit-for-purpose venue for football. It also seems like this is economically the smart choice. I would also like to see some accommodations made for test cricket, if possible, as Auckland currently lacks a suitable ground for this.

Retaining the grounds for Speedway and the Ponsonby Rugby club, home for them coming up 100 years. As for the soccer, bigger grounds are needed (please take note of the crowds drawn to the current games. Western Springs just won't do. You'll make the soccer an cost prohibitive for most people with ticket prices out of reach. How does a club survive without gates sales unless you have millionaires. My suggestion for soccer is North Harbour stadium. Please, please do what is right for everyone, by making use of what er have.

The decision-making process so far appears to have been less than ideal. It is true that speedway at Western Springs is an anachronism, but anachronistic features are what make cities of the world interesting. Many alterations have been made to the practices and patterns of Speedway in order to accommodate the concerns of the local community and as a result, a workable arrangement is in place. Speedway has been at Western Springs for a very long time; let's just accept that it's an oddity and let it run.

More options for a greater number of people in the community with varied interests. Traffic management for a 50,000 stadium would be chaos and the noise would be too loud. We have Eden park and Spark arena already. Keeping as is doesn't serve the community which has grown exponentially since Western Springs Stadium was built.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Because it's a natural concert amphitheatre that can continue to host world class performance artists. The secondary, smaller capacity stage option is an important addition. Some of fondest "big artist" concert memories are attached to this space.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Keep it at mt smart, don't change what isn't broken. Mt smart has great public transport for games and events. Iss don't need to spend money on a new stadium when we already have one that does what we need.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I have chosen option B. I am a regular attendee of speedway at Western Springs stadium. I also attend rugby from time to time to watch Ponsonby Rugby. I strongly believe if speedway were provided suitable operating conditions, the council would benefit from a good income stream. I have also been very disappointed with the way the council have handled the whole issue of Western Springs. The public have not been consulted and when members have attended council meetings when the Springs have been discussed, they have been shut down and not allowed to speak. Speedway and Ponsonby Rugby can co-exist along with concerts at Western Springs.

I live on Warwick St western springs and have witnessed over the last 20 years and have been disappointed that Ponsonby rugby and the speed way operators have never spent any of there time to even try to clean up the outside facility's. Not even a wash the building working bee .They rely on hand outs from Auckland council to continually pay and maintain basic tenant responsibility's .They don't deserve another chance they are continuing complaining about Auckland council not doing enough .

Both Option 1 & 2 have some good ideas e.g. planning for building with input from investors and rate payers for the future (leaving such things costs more) but making Western Springs into 'a bespoke' or 'boutique' venue will limit the people in both numbers, cultures, limited finances (pensioners/beneficiaries). Look for a more conducive plan for the long term would be better.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

The expectation is that this option will create further investment which will turn the precinct into a more pleasant place to visit. I do wonder how spectators will get to large events (i.e. soccer games)

I think it's a fantastic asset for the city at no direct rate payer cost. Sports are integral to the well being of our community in so many ways. Football has incredibly high participation numbers and needs facilities to further support and encourage growth. It's a very positive option.

I am writing to formally submit my concerns regarding proposals to develop new stadium facilities at the Western Springs precinct. While I recognize the drive to create community assets, I believe that proposed developments risk undermining the cultural, economic, and community values that make Auckland unique.

Redundancy of New Facilities

A 50,000 capacity stadium in this location is redundant given our existing infrastructure, most notably Eden Park—a venue that has long served as the national stadium and hosted major sporting and cultural events. Building another large-scale venue only intensifies this misalignment and diverts resources from optimizing our current facilities.

Questionable Commercial Viability and Public Land Concerns

The 12,500 seat stadium proposal appears to be driven by a select group of local billionaires who, rather than pursuing projects solely for public benefit, seem poised to convert publicly owned land into a concrete monument to private profit. The proposed stadium would be immediately undersized for it's intended purpose of hosting Auckland FC matches, which have regularly hosted crowds of over 13,000 this year. If their commercial proposition were truly viable, these developers would likely pursue such ventures on privately owned sites. The reliance on public land suggests that the financial calculus does not add up, calling into question the prudence of such a development.

A Call for a Multi-Use, Community-Centric Alternative

Rather than investing in another large-scale outdoor stadium, or an immediately unfit for purpose smaller concrete stadium, I propose that the Council consider a mixed-use, flexible precinct model that preserves green space and celebrates Auckland’s cultural and sporting heritage. For instance, an partially-covered, multi-use venue could be designed to host a range of events—from sports like test cricket on grass terraces (a nod to New Zealand’s historic sporting traditions), Ponsonby rugby and Auckland FC games, to outdoor music festivals and community gatherings. Such a proposal would not only respect the current capacity and usage patterns of our existing facilities but also provide a vibrant cultural hub that embraces the arts and community life, at little cost to the ratepayer, where development could be incremental and funded through the activities paying for use of the space (for example, Ponsonby Rugby initially).

Preserving Auckland’s Cultural and Musical Heritage

Auckland’s identity is strongly tied to its musical and cultural scenes, which have thrived in Western Springs. The privately funded proposal risks commodifying public land into an expensive, closed, and ugly commercialized project while simultaneously neglecting the opportunity to foster more meaningful community and cultural experiences. By adopting a mixed-use approach that includes open-air venues and community spaces, we can ensure that public investments yield benefits that are both culturally enriching and sustainable. Imagine spaces for people to play chess, and kids playgrounds.

Conclusion

In summary, the proposed 12,500 capacity stadium complex for the Western Springs precinct appears to be an ugly, exclusionary, and financially unsound venture that favors private interests over long-term public benefit. The 50,000 open-air option is wholly redundant of Eden Parks capacity and amenities,, and could lock up spaces that could be used more flexibly. I urge the Council to reconsider this approach in favor of a redevelopment strategy that leverages existing assets (i.e. open, green spaces), integrates diverse cultural and sporting needs, and prioritizes community value. Let us invest in a future that maintains our rich heritage and provides genuine, accessible benefits for all Aucklanders.

Please see images attached to support this third option proposal.

Thank you for your consideration.

Western Springs Stadium is a heritage venue and should remain the home of New Zealand's oldest motor racing circuit and oldest rugby club. They have coexisted happily for many years, while still allowing the venue to be used for outdoor concerts, music festivals, cultural festivals etc. if a new venue is required for football, basketball etc, redevelop Avondale Racecourse.

the club has been in the rugby community for so long, the club itself has built a family through connections of the same interest. if anything, the club is home for some people, the breeding grounds for future rugby stars. it would be heart breaking to lose the club. through every setback, especially last year without being able to use the fields, the players have stayed because of their loyalty.

I value Western Springs as it is. I don't love speedway, but for the 35 years of living in the neighbourhood, I see how the speedway community have flocked there at every opportunity, with very little marketing.

It is too far away from transport hubs to allow public transport to make up for no parking. That will be a huge issue for traffic management for any regular events, and that motorway system is easily clogged up.

We have lived with the intrusive noise of the Speedway every summer since 1988, The loudest voices for Speedway don't seem to live close to the stadium so dont care how it effects the true locals. It really is time that it was moved to a less residential area. Option 2 seems to be a good option for the local community.

Why change the purpose? They've already killed the speedway, why kill the rest for the sake of someone elses self-importance.

This has been & is the most important & influential outdoor venue in NZ. With the addition of the Outer Fields, it continues to be so.

Eden Park is not always available.

Mt Smart aint all that its cracked up to be.

Make Western Springs to be as great as the MCG - which is an amazing venue for concerts.

I would prefer this not to go on a private lease and be kept for the majority of the time as a community space, 50k capacity would allow the area to be used as a great entertainment center.

Western Springs runs on community. That community and the current custodians of the facilities have maintained its character and something special to this date. People now see the value, but those who have been part of it see its worth. The intangibles, the blessing the soul.

Well done to Western Springs - maintain its heart.

Something had to change, but especially option 1 feels like a bad idea. If it was a covered stadium it would be different, but we already have multiple open stadiums that are bigger and closer to public transport. This is not adding anything and we lose the open bowl. So it's kind of Rothwell worst of all worlds.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I have been a Grey Lynn resident, schooled at St Josephs, Marist Vermont St and St Pauls College, worked as a kid at great public events selling drinks and refreshments during concerts as far back as Joe Cocker in 1974, world championship speedway where I met NZ's and the world's greatest speedway riders and drivers like Ivan Mauger, Barry Briggs, Barry Butterworth, Olly Olsen, Sleepy Tripp, AJ Foit, I watched & enjoyed many concerts frm Fleetwood Mac, Peter Frampton, Boz Scaggs, Bowie, Elton John, Rod Stewart, Bob Marley, Stevie Wonder and more. I witnessed Muhummad Ali and his Boxing All Stars. I hv played and coached rugby for Ponsonby. Coached my

two sons teams frm U6-U13. Brought the NSW Country U16 team to play my MAGS U16s on tge no.1. I have trained the St Pauls College 1st XV up in the Tan Shed. Organised a 40 yr Reunion for the Ponsonby Puritans Presidents Grade. I ran a Tag Football Masters comp for 3 years. My son plays U21s now for Ponies. My association with this iconic venue is deep. It is a public venue and it needs to stay at the service of the public not rich people who seek to appropriate this public site paid for by rate and taxpayer money for decades. The loss of speedway was shameful. I would like to see the outer fields once and for all upgraded so they're no longer swamp smelling quagmires in winter. I think Ponsonby Rugby Club and clubrooms should be moved to the outerfields with led flood lights erected on a designated no1. The alternative could be to move the club to Coxs Bay and convert the Pavilion to clubrooms. Though I understand there is asbestos in that building?? They should have been moved there after they left Blake Street. WSprings Stadium should become a Sports and Concert bowl venue with an athletic track round the no 1 field. Teams like Auckland Cricket, Auckland NPC and Rugby League, rep Soccer events should be played there with either a minimal fee or free entry. Avondale Racecourse could be a venue for AFC. Demolish the grandstand and convert the whole carpark/market area into clubrooms training facility and a no.1 ground with lights fit for night tv coverage. Move the wkd market to an organised area near or on the fields with better parking so not to clog up ash st but also maintain a large portion of the outer fields for public use amateur soccer and rugby games.

Community ie the place we live, people we live with and the environment that hosts us

Speedway and the sports fields have been used by community groups for many years. Speedway is a fixture of the Auckland motorsport scene. I am saying this as someone who has very little interest in cars or rugby or watching sport of any sort at all. But... other people do enjoy speedway, being part of it or just watching it. Speedway is a reasonably low cost night out for people who may be local or travel to the event.

Rugby has been played again by the local community and others from further a field. From what I have heard the other options are not viable, even if they are painted as so by people who have vested interest.

History

Just because something has been around for ages we should not change it. No, that is wrong, but we do not need to chop-down and smash-up everything because it it old. History is part of our past and future and we do owe our ancestors a duty of care to keep those things that are working going, albeit with practical modernisations.

Traffic

Among other factors, it is the wrong place to have a massive Super Bowl as it will cause traffic mayhem with the proximity to the on-ramps to the Southern, Northwestern, and Eastern Links, and to the CBD. This type of massive facility should be further out of the city, not on the outskirts of the city, but on public transport routes.

Massive Monument

If bodies want to create a massive monument, why do they not put money into a hospital or a school or a environmental hub. It will not be an investment that will return cold-hard-cash to their pockets, but instead it will be an investment in people, one that will provide the warm-feeling of helping society - the one we all live in.

Thank you for reading my explanation. I hope it has made you think.

The area does need work but doesn't have the transport options to sustain large scale potentially weekend frequency events. The bowl option allows for some upgrade to facilities and provides a good-sized concert venue with a more reasonable cadence of events.

Tēnā koutou,

I chose option 2 because it is the best option for the wider community. Multiple different sport and cultural groups have a home at Western Springs. Summer touch, Pasifika fest, Ponsonby rugby club, and multiple festival and concert goers all regularly use Western Springs, just to name a few. Genuine connection is becoming rare for many in our modern world, and option 2 would allow these groups, and more, to continue to come together and boost the wellbeing of their community.

Western Springs has a unique geography that makes it a natural amphitheatre, and the venue has hosted many iconic concerts over decades. The Auckland music and arts scene has been in steady decline since 2020, but upgrading the venue's concert infrastructure would put Auckland back on the map for international acts. Option 2 not only does this, but it allows for the outer fields to still be used for larger festivals and for the above mentioned community groups.

Option 1 would not only be too small for Auckland FC, it would irreparably alter the natural landscape, ruining an iconic music venue, and putting a vital community space behind a paywall.

One suggestion is that Auckland FC could occasionally use the Western Springs Bowl for games, and sell $5 ‘hill tickets’ and get 50,000 people to the game.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I do no want to see quasi privatisation of our public spaces, even if it is capped at 100 years via lease arrangement. Also, I want Ponsonby Rugby to continue to be based at Western Springs because they are a long-time community club.

The Hollywood Bowl style of entertainment precinct would be great because this would build on the existing venue layout and the history of holding great concerts.

I live within walking distance of Western Springs, so I would like to see it improved as described in Option 2

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I think this option gives greater community access to the facilities as outlined in the consultation document. There is obviously an additional annual cost by the figures in the document just over two million per year based on figures in the consultation document, it still gives greater public access than option one. While option 3 is leave alone and do nothing will not progress the ongoing development needed over the next few years.

Auckland FC need a home that is uniquely theirs. Creating a state of the art sports facility not only serves Auckland FC, but the wider community servicing a range of sports. This central location will be phenomenal centre of excellence, driving more youth engagement and potentially higher calibre sports people.

Look forward to being in the Port at our new home.

As a ratepayer, I believe the Auckland Arena proposal is the best among other options. Not only Auckland Arena proposal provide better facilities than the current ones, but the fact that these facilities require no additional funding from the Auckland Council is a major benefit. Moreover, football is a major participation sport in Auckland amongst age groups. Whilst there are many Council grounds for weekend games, there are very limited international-quality grounds to hold international youth football tournaments. I hope Auckland Arena can help fill this void.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I like the widening of the scope for other growing sports, as well as preserving & extending concert facilities. I also strongly support the idea of private sector investment to boost this opportunity and reduce rate payer costs. I think the proposed facilities and multi-use aspects (health etc) broaden the usage and exposure. It is also good to have some decentralization of cultural facilities and inject more life into the suburbs. This option feels like a growth option with a real long-term vision, not just a stand-by / tweak it option.

Auckland is a great city but lack of international events, most of the artists skipped NZ and people has to fly oversea (waste of money and time)to see them. Ii is time to put NZ on the map.

Plus with this new Auckland team, and football growing a lot, stadiums and arenas will be necessary.

The proposed developments would be far superior to anything suggested and increase use at the venue, not reduce. Some users would need to transfer to alternative sites.

We currently have enough stadia for all of Auckland and arguably, too many not being utilised enough which costs ratepayers significantly in upkeep and subsidies.

Let’s look to a modern build, maintained and offering multiple options and no cost to ratepayers. Auckland FC will be a welcome addition to the location and provide a significant opportunity for supporters from across the Motu to make this their home for years to

come.

Western Springs has a proud history of hosting iconic concerts which I would like to see continued. Ponsonby Rugby also has a long term association with the venue. Retaining council control for such an historically important asset is vital.

I don't support what appears to be the effective privatisation of the area into a football/soccer stadium for Auckland FC. Plus, the club already sells out larger venues.

I would like the speedway to remain in place due to its rich history and how much support the greater community ultimately has for this speedway facility. It is such a unique offering that is even held in high regard by international drivers and teams. It will be an absolute tragedy to remove the speedway. Please leave it alone!

Western Springs has always been a legendary spot for concerts going back to Howard Morrison and Johnny Devlin headlining showcases there in the 1960s. More recently it has been well used by Laneway, which I have attended. I believe having a great concert venue close to the central city and transport hubs is important. Mt Smart is too far out and this has caused problems in the past. Eden Park is too limited in only being justifiably used for very large events, whereas Western Springs is more flexible in use.

Auckland FC's capacity of 12,500 to 15,000 is insufficient. Mt. Smart Stadium can hold 25,000 spectators, yet it was still inadequate for several matches this past season. Furthermore, the idea of not having seating behind one of the goalposts is absurd - it's not a proper football stadium; it's a joke.

There are a number of factors why option 1 is the best option:

1. The current site is under-utilised

2. Football is the fastest growing sport in New Zealand (and the world)

3. Auckland FC needs a proper home stadium dedicated to football and not a re-purposed rugby league stadium. This will also allow football to be played in the winter and avoid clashes with Warriors games.

4. This involves the least capital expenditure or on-going maintenance cost for the Council and rate-payers.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

As a parent whose children have played for Ponsonby Rugby for many years, this club and this space hold deep personal and community value for us. Western Springs isn't just a stadium - it's where we gather, where our kids grow up on the field, and where families like mine connect through sport and shared experiences.

We also regularly attend events like Pasifika at Western Springs, so we see firsthand how powerful this space is as a hub for culture, music, and community. The proposal to evolve the stadium into

a ‘Hollywood Bowl’-style venue while preserving and expanding the community and sports use - especially for Ponsonby Rugby and other sports like basketball, netball, and touch - is exciting.

It’s a chance to future-proof this treasured space, create more opportunities for youth and community engagement, and ensure that both culture and sport can thrive side-by-side. I want my kids - and their kids - to continue playing and growing here, in a facility that reflects the heart of Auckland: vibrant, diverse, and forward-looking.

As a former coach at Ponsonby Rugby and someone who has served on the board, I've seen firsthand the impact this club and Western Springs have on our community. It's more than just sport - it's about mentorship, leadership, belonging, and creating a pathway for young people to thrive.

This proposal is an opportunity to strengthen that legacy. Expanding the facilities and upgrading the infrastructure would not only support the growth of Ponsonby Rugby but also open doors for

other sports and wider community use. That kind of multi-sport, multi-use environment reflects where sport and community are heading - more inclusive, more connected, and better resourced.

Being able to retain rugby's presence while elevating Western Springs into a world-class entertainment and event venue just makes sense. It's about honouring the past, investing in the future, and ensuring that both grassroots sport and the broader Auckland community benefit for generations to come.

I grew up in Pt Chev and my son is also growing up here in Pt Chev, it would be such a shame to remove the speedway as it is such a highlight in my memory's when my father use to take me as a child, I would certainly be attending the speedway with my son when he can in 1-2years. I also played rugby for ponsonby and I would love my son to enjoy it too,

We already have many large stadiums and venues, which, let's be real here, are empty a lot of the time. I also feel it would be a waste of tax money. Re do the seating on the banks which you have neglected to repair in the last few years, so it can be used as all three, rugby grounds, speedway and for concerts

Western Springs has a storied history as a concert venue, able to hold large-scale events such as David Bowie's Serious Moonlight tour (a landmark event for the city). In my opinion, it's the best venue of its kind for this scale of events in the country. It also works exceptionally well for festivals, such as ACL a few years ago. Option 2 would allow this to continue and make use of the natural amphitheatre that's already there. I also support it continuing as a home for Ponsonby Rugby and other community groups.

I don't support Option 1 as it would be intrusive on the landscape and remove the opportunity for these large-scale events. Also, I don't support privatisation of this public space, even on a lease

basis. When private developments fall over (as they sometimes do, with constructions cost overruns and the like), who bails them out? I'd argue that the risk there's a real risk to ratepayers in Option 1. The private investors would stand to gain the benefits, but their risk is limited to their investment. Ultimately the council would be left to carry the can if they fall over.

My Father took me to Western Springs in the 1960s. I went through the 70s and 80s. Missed the 90s but have taken all 4 of my children to speedway through the 2000s. I want that to continue, perhaps take grandchildren. Council has strangled speedway for a long time now. Keep it and give it a decent go.

I am part of the whānau that have been associated with the Ponsonby Rugby Club since time immemorial and also have used their facilities for grassroot community events and activities. The second option supports the shared-use, community-focused plan and keeps the club at Western Springs.

Auckland FC has other viable stadium options and this would be the perfect opportunity for them to revitalise and enhance the North Harbour Stadium and increase usage there.

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I support keeping the amazing natural amphitheatre that is Western Springs. The smaller proposed stadium is great for smaller concerts and supports our New Zealand artists in particular. I support the stadium being accessible to the community thus keeping it in the community as Option 2 provides. As an aside, the coach of AFC, has already said the proposed Auckland Arena is too small for their club and fans. AFC has two options Mt Smart and North Harbour Stadium where they can draw a much larger crowd and support existing stadiums.

I prefer Option 2 as it'd be good to preserve Western Springs stadium as is, but with the addition of a permanent stage..great music venue..and this, along with the outer fields are great for music festivals.

Option 1 - the design is really awful!!!!..and I don't approve of the idea that a private organisation gets exclusive rights on what happens here

Option 3B - I don't mind if some $$'s from rates are spent developing further options. However before this happens, the should be a clear Vision and parameters on what is required from a future proposal

Because Auckland does not need another sports facility. It has Eden Park very close by, which is supported by good public transport system links with both train and bus.

There is not adequate public transport to feed into Western Springs stadium if it is going to be used on a regular basis for major sporting events. It will merely add to Auckland's already overly congested roads.

For Auckland to become a vibrant city of culture, one that not only brings in visitors but also serves the needs of locals, it needs to have a facility that will add value to the cultural landscape. Another dedicated sports stadium will not do this. Auckland already has Mt Smart Stadium, Eden Park, North Harbour Stadium and Victoria Park, all used for sports. It is time to have some balance.

It was an easy decision to exclude option 1 - the area is traditional wetlands; a concrete dense development is not at all ideal for multiple reasons, but mainly for the flood risk to the surroundings.

Option 2 feels more in keeping with what has worked well for several decades and honours the nearby community.

Western Springs is an iconic part of Auckland's cultural and sporting landscape. Growing up in Ōwairaka Mount Albert I spent years playing after school games of pick-up football next to the Bullock Track, and saw unforgettable performances like Pearl Jam fill the natural amphitheatre with grunge rock anthems. I was never a fan of the speedway, but even the drone of the stockcars is part of the legacy of Western Springs.

The Council should look to enhance this historic legacy rather than pave it over with new stadium. The proposal for a 'Western Springs Bowl' maintains a significant Auckland cultural site and home for the storied Ponsonby Rugby Club.

I think creating an enviroment for the celebration of live music is a far greater contributor to the community than creating another stadium.

It's important to keep current aesthetic with an upgrade. We don't need a big sterile eyesore. Open air concerts/events are a way of life

To me the location has a very special shape which is ideal for music concerts. I have been to Western Springs to watch bands and it's great for standing and sitting while attending. Not many countries can offer a beautiful set up like this and we should preserve it and make the most of it.

I do think more trees that grow large should be planted there where possible to provide lots of shade, since our summers get so hot these days.

Option 1 provides the best utilisation of the area for the most people while supporting minority and growth sports... and at the lowest cost for rate payers. Option 2 and 3 sound nice but I expect will result in lower utilisation by fewer people and at higher cost.

I have lived in this area all my ,life and consider it well managed.

My family and I have enjoyed the speedway and many concerts in the springs each year. we also like the existing character of the area, I believe a large stadium would be too much for the existing infrastructure is too far from existing transport huibs and dont we have eden park just a few kilometers away?

A proper outdoor music venue in auckland would be amazing. Eden park has pretty bad sound and is only allowed a couple gigs per year. Mt Smart is awful to get in and out of. And the cultural value of having the ponies at their home outweighs some dollar benefits of a small auckland Fc stadium.

destroying western springs stadium would be destroying a cultural cornerstone of our entire city. it would be devastating to our community. it is older than almost every person in this city, and is built around the naturally occurring amphitheatre, creating a unique large-capacity outdoor venue & grounds without majorly disturbing the natural environment around the area. a completely new stadium and the construction that comes with it could irreversibly alter the surrounding western springs eco system. and destroying the existing stadium to build a brand new stadium would take away history and culture from our neighbourhood & city. my entire family, across three

generations, have very treasured memories of concerts, sports events, festivals, and speedway meets. please please please choose to conserve and improve the existing stadium; aucklanders don’t want or need another modern, generic, ultra-expensive-to-build mid-sized stadium!!!

I do not want to see the park industrialised (fully commercialise for what is effective two lifetimes worth of time / 100 years), but improving the amenities makes a lot of sense. Its current functions are both additional to the community (where else do we do those particular things locally? we cannot. Whereas soccer can be anywhere - especially at the grade/level being proposed). This is a community place - it needs to stay a community place - supported by the community/funds but also with some reasonable investment for a reasonable return for private-sector supporters of that community vision. Option two meets that.

Western springs stadium and the outer fields are fine the way the are. The speedway has been around for decades and still pulls decent crowds. The area can be used for concerts (like when eminem used it) and other festivals. Don't fix what ain't broken. It is already a great use of space. We don't need to keep throwing money at things to make them more modern and trendy. I'm a few years you'll need to upgrade again. Just leave it alone because it's fine as is. The community is happy with the space and we don't need some rich listers thinking they can own everything.

I support option 2. As a resident of the area for over 30 years I have attended concerts, speedway and sports events at this venue and support it remains as a multi use area for all of the residents of Auckland to enjoy. I don't believe that we need a large building built and managed by private investors on this site. The natural landscapes of Western Springs deserve to be maintained and utilised in a way that is sympathetic to the environment and the local residents. I'm sure the giraffes (et al.) next door also do not want to suffer the sounds of construction for a year! Thank you.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I strongly support Option 2 for the future of Western Springs Stadium, as it represents a more transparent, accountable, and inclusive direction for this iconic public space. Unlike Option 1, which appears to be driven by a small group of high-wealth individuals with private or related-party interests, Option 2 prioritises the broader needs and values of Aucklanders and New Zealanders.

Western Springs is not just a commercial asset — it's a cultural and community taonga. Option 2 allows for a more open and democratic process to shape the future of the stadium in a way that

reflects public benefit, sustainability, and long-term civic use. It ensures that decisions about its redevelopment are not made behind closed doors, but rather through robust engagement with mana whenua, local communities, and key stakeholders across the city.

I have serious concerns about the motivations behind Option 1. Its backers, who include high-net-worth individuals and business interests, have a track record of pursuing outcomes that benefit a narrow circle rather than the wider public. Entrusting the future of such a significant public site to those who may prioritise commercial gain over community access risks turning a public asset into a private playground.

Option 2 offers a more balanced and principled path forward. It protects the public's right to influence outcomes, ensures transparency in decision-making, and avoids the risk of Aucklanders losing control of an important civic space under the guise of private investment.

For these reasons, I urge Auckland Council to adopt Option 2 and put the interests of the many ahead of the few.

Outdoor concerts and the ongoing use by the rugby club are the priority. Good idea to have Auckland FC at this ground but Option 1 with a 12-15000 capacity stadium wont cut it as AFC have easily 20000 + at all of their games (29000 at semi final at Mt Smart recently). Suggest Albany stadium is upgraded to be the home of Auckland FC

Western Springs is the home of speedway in Auckland, I don’t think we can discount 100 years of history.

I am an Auckland FC season ticket holderfan, and would prefer the team either stay at Mt Smart, or find/build a new purpose built stadium that doesn’t encroach on another sports history & legacy.

With such a significant initial investment from the private sector I would be concerned that the stadium would be used for purposes suited to investor interests in favour of public interest: i would prefer that it was preserved as a natural amphitheater and can continue to host events for Tāmaki Makaurau.

Option 2 appears to be respectful of the unique qualities of the site and continues and enhances the recreational amenity of a much loved community asset. I believe it will cater to a broad spectrum of Auckland citizens and attract and accommodate a diverse spectrum and scale of events. The first proposal strikes me as heavy handed occuation of the space, with limited flexibility for diversity of use. The private ownership and 100 year lease is troubling. The billionaire class from whence the money will be drawn have shown a complete lack of empathy for

other citizens rights when those citizens form obstacles to their abilities to make further billions. It is gift horse into whose mouth some careful viewing needs to be carried out.

Please be very careful of what sovereignties we may stand to lose and what repercussions we as ratepayers may be exposed to in any agreement with these big money people.

Option 1 is a gift of private open-space land to a billionaire for the purposes of pursuing a private for-profit enterprise. It would run-roughshod over the historic Ponsonby Rugby Club (of great cultural significance to the area and - in particular - the cities Polynesian communities). Its design is quite ugly (it does not respect the natural amphitheatre which is unique in Auckland. Transport links are not developed to cater for regular soccer games (and the proposed carparks are an eye-sore). Auckland FC fans are a bunch of arriviste middle-class tossers who are too scared to walk openly in South Auckland.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

The proposal aims to enhance Western Springs Stadium as a premier entertainment venue, while maintaining its status as a renowned music and community sports facility. This would deliver a 'Hollywood Bowl' style live music concert and festival venue, with 50,000-person capacity and new permanent staging infrastructure. This would be an evolution of the existing natural amphitheatre and would also be complemented with updated concert infrastructure for Western Springs' outer fields.

This proposal would see Ponsonby Rugby Club renew its current lease and explore options to expand its operations across other sports such as basketball, netball and touch. The installation of the new facilities would create an opportunity for a 5,000-8,000-seat boutique stadium, allowing the facility to deliver a broad range of community and semi-professional sport.

The proposal is for TAU to retain ownership of the site and issue a lease for an initial term of 30 years, plus two rights of renewal lasting 10-years each (to total 50 years). It would be leased to the concert promoter from October to April, and to Ponsonby Rugby Club during the rugby season.

Initial assessment by TAU suggests that $30 million in private sector investment for new concert facilities, combined with $18-$20 million in ratepayer funding for community clubrooms and continued stadium operation and maintenance by TAU, could result in an additional cost to ratepayers of $48-$107 million over 50 years – compared to a scenario involving a 30-year lease to Ponsonby Rugby Club with two 10-year renewals and no clubroom upgrades.

I believe that Western Springs should remain a public facility and not be largely privatised.

Ponsonby Rugby Club is an Auckland institution and they do a fantastic job developing our youth through team sports, namely rugby and netball. The proposals do not adequately deal with options for Ponsonby Rugby Club. Coxs Bay is too small and previous attempts to relocate PRC there have failed.

The ability to continue having larger concerts in the Bowl is very important, as it is an iconic space and to lose it to a smaller stadium built within the bowl does not make sense and would be a travesty. Public events which use the bowl and the Outer Fields are a wonderful aspect of Auckland community life, and must continue.

If Auckland Council want to become involved in a PPP to create a homeground for AFC, it should happen elsewhere without displacing the already existing homeground for rugby.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

To the Auckland Council

I have chosen Option 3B – explore other ideas because I am very concerned over the decision to remove Western Springs Speedway from its long standing home. For 96 years Western Springs Stadium has been an iconic part of Auckland's sporting history, hosting world class Speedway competitions and welcoming talented international drivers both emerging and established who challenge New Zealand's best and provide exciting affordable world class entertainment for people of all ages. Western Springs Speedway is more than just a venue – it is a living testament to our city's rich motorsport heritage.

This decision to remove Speedway from Western Springs not only disregards its historical significance but also threatens the vibrant community it has nurtured for decades. Speedway at Western Springs is a multi-generational experience, bringing families together through shared passion and tradition.

I strongly urge the Auckland Council to reconsider this decision to remove Speedway from Western Springs Stadium and to explore ways to continue to have Speedway an integral part of Western Springs Stadium's events.

Live events bring a huge amount of money and culture to this city. we CAN have a dedicated music venue. we DESERVE a dedicated concert venue. we already have too many multipurpose venues that do a poor job of many of those purposes. build it and they will come. western springs also has a historical link to concerts in the past. this is just a continuation of that heritage

What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Eden Park as a Multi-Use Facility:

Eden Park is already an established venue that successfully hosts both major sporting events and concerts. Repurposing or extending the use of an existing facility seems more efficient than investing in new development, particularly when space and funding are limited. It’s worth questioning whether we've truly exhausted all opportunities with Eden Park before looking elsewhere.

Viability of a Concert Bowl at Western Springs:

Turning Western Springs into a full-time event venue sounds appealing, but there are big question marks around year-round viability. The reality is that New Zealand doesn't always make the cut for large international tours — especially now that the Big Day Out and similar festivals are no longer running. If major artists are bypassing a 50,000-seat venue like Eden Park, what's the incentive for them to perform at a similarly sized concert bowl at Western Springs? Without consistent, high-profile events, it's hard to see how a new bowl could be financially sustainable.

Long-Term Use of Existing Stadiums:

While the community elements of the first proposal are appealing — particularly anything that supports local sport and recreation — it's hard to ignore the existing infrastructure we already have. Auckland FC has a home at Mt Smart Stadium, which has seen significant public investment over the years. The same can be said for Eden Park and North Harbour Stadium. If we continue building new venues without a clear plan for the old ones, we risk creating a network of underutilised, high-cost facilities scattered across the city.

Rather than diluting use across even more venues, perhaps the smarter move is to double down on activating and upgrading what we already have — keeping costs contained and ensuring these spaces remain vibrant, well-used assets for both elite and grassroots sport.

Exploring Alternative Sporting Codes and Year-Round Use:

Have alternative sporting codes been seriously considered as part of this proposal? There's a growing demand — especially among younger demographics — for facilities that support alternative sports like urban mountain biking, skateboarding (indoor and outdoor), BMX, parkour, and roller skating. Auckland lacks dedicated, year-round venues for these activities, particularly ones that are weatherproof and accessible to all communities.

Creating an indoor facility for alternative sports could meet a real need, support active lifestyles, and bring vibrancy to the precinct outside of traditional rugby or football seasons. It would also broaden the appeal of the area and help future-proof it for changing sporting and recreation trends.

Thank you!

Primarily for the basketball court facilities. It is an absolute disgrace that there is no Auckland Central multi-court facilities for kids to play the fastest growing sport for boys and girls. Auckland Basketball needs a base of operations and a location to host primary school-intermediate and secondary sport. This was needed 10 years ago and now it is essential.

The council must support this option over the others to provide this facility for Auckland.

Western Springs is a one a kind venue in New Zealand - and is unique part of Auckland. There are no other parks, sports ground or entertainment venue which has the character of Western Springs the natural amphitheatre and park surrounds.

Tajking Option 2 seems to be the only realistic option that keeps the rugby club and the natural amphitheatre in use to the fullest capacity.

Option 1 risks loosing the bits of Western Springs that cannot be replicated elsewhere.

Ponsonby Rugby Club who has had it's home at Springs for a loing period of time has decades of history, many teams, and a real link directly to the community. The rugby club effectively provides rugby teams for the local primary and intermediate schools, as well as senior teams. If the rugby club moved to Cox's Bay it would suffer a serious loss of amenity in not having it's own proper site.

For large music events, it would be impossible to replicate the atmosphere and capacity of Western Springs. I've been to big concerts at Western Springs, Eden Park, Spark Arena and other venues internationally. Nothing matches Western Springs.

You cannot replicate what is at Western Springs, and once it's gone we will never get it back.

It might be able to be enhanced but cutting the park from the ampithetre (Option 1) is not the solution

Keep Speedway at Western Springs and give the Speedway Association the opportunity for a long-term lease which enables Speedway, Ponsonby Rugby Club and Concerts. If a proposal from the Speedway Association requires any additional council funding (which it might not), I support this being funded from general rates.
