Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

do not support any

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Devonport-Takapuna,Hibiscus and Bays,Upper Harbour

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Support

B. Reduced library hours over 7 days.

Support

C. Reduced local board funding to local organisations that deliver local events.

Do not support

D. Reduced budget available for contestable grants.

Support

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

Support

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

Support

G. Reduced funding for parks volunteers.

Support

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Support

Tell us why (please be clear which priority you are talking about)

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Upper Harbour Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes to service levels and fees and charges?

A. Reduce maintenance activities may include stopping scheduled work on bollards, post-and-rails, and low-value bush areas, ceasing amenity garden infill planting and mulching, and reclassifying re-vegetation areas as bush.

Support

B. Reduce grants funding.

Support

C. Reduce funding across all programmes and projects including environmental outcomes, events and activations, cycling initiatives and community outcomes.

Do not support

D. Increase the fees and charges for Albany Stadium Pool: Option 1: Increase casual swim and swim plus fees by $1 (Fees will range from $5.00 - $11.40)

Support

E. Increase the fees and charges for Albany Stadium Pool: Option 2: Increase spectator fee and supervising adult fee by $1 (Fees will become $2)

Do not support

F. Increase the fees and charges for Albany Stadium Pool: Option 3: Increase spectator fee and supervising adult fee by $4 (Fees will become $5)

Do not support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

The cost increase for rates sucks, but we a comprehensive rail net work and we need to invest in that now.

It would have cost a lot of money in the 90's too, so we didnt do it. What a lost opportunity. Lets make sure we dont look back on 2020s with the same lense amd invest in Aucklands public transport.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

All good things to support but would like to see more plants in our urban centers. Too many have been cut down for urban intensification and we are not replacing them.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

The outcomes of option 3 will be achieved if option 2 and option 1 are well executed. Enable people to care about the environment and involve them and they will care about their community.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

A unitry plan that sees us return to 2004 tree canopy across auckland... before we subdivided auckland we had an amazing urban environment that would be flood resilient now but we cut down the trees and havent replaced them. Easy fix. Make developers do it.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Other (please specify):Support for transient people. You closed the public toilets and have not reopened enough, private business must now cater to this essential city need. If they dont they clean feces off their steps.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I have absolutely no use for CRL as i live in Army Bay and will never use this service. We didn't ask for this and want our rates to be used in Rodney. After last years 17% increase i refuse to pay this much and will move out of this region if this goes ahead. You are bleeding is dry.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

As i live in Rodney I don't care about these changes

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Out of the major projects proposed none actually benefit the community of Whangaparaoa. A skate park and pump track is nonsense spending. Where are the increased public facilities?? Why should we have run down old facilities. We dont even have a decent community hall.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

None of these proposals are of any value to this community. Hibiscus Bays is avery different kettle of fish compare To East Coast Bays and if we had councillors who cared about this community you would know that.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I refuse to pay such high increased rates to accommodate a service i will never use. Take a targeted rate to the cronies in Auckland Central

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Roads not cycle ways and speed bumps. Actually being able to get from point a to b in an efficient manner

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):As i dont live there i dint care and refuse to fund it

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

We never wanted the City rail Link. It is a waste of money.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Auckland Transport

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

Our Local Board does a very good job.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

We pay enough money to Council without increasing more charges.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Looking after our green open spaces. Urgent to do this with the heavy intensification of housing currently happening.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

#62

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

My rates increase is, once again too high, (average the 7.9% claimed) yet offers no tangible improvement to services for which I have realistically any chance of benefit. My rates increase in the past year was in excess of 20%, yet also offered very little if any tangible benefit to my local population and priorities.

Specifically:

Spending on transport maintenance / improvement for my area is markedly absent. e.g. Gulf Harbour Ferry services are proposed to be cut yet again, and there is no reference to improving service reliability, which is key to improving revenue for this vital service.

Bus services will be next to useless on the single lane and only road to my area. Buses will be exactly the same traffic lane as all other vehicles, yet ferry services are frequently cut at short notice meaning travellers cannot rely on using them. The cynicism of this by Council and Auckland Transport is transparent to all.

In contrast, I will gain nothing from CRL, yet I am paying for it. Penlink is to be tolled, by "user pays" , so why not CRL?

Finally, the Waste management changes introduced last year simply are over kill for our household. We are now paying for weekly bin collections when previously a sack every 2-3 weeks was perfectly adequate and much cheaper.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The Waste management changes introduced last year simply are overkill for our household. We are now paying for weekly bin collections when previously a sack every 2-3 weeks was perfectly adequate and much cheaper.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I trust their judgement on local priorities even though they do not really focus on my particular area this year in terms of facilities. I approve of the conservation and ecological efforts.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Please continue to support the efforts of the Gulf Harbour Community in addressing the appalling situation at the Gulf Harbour Country Club. The "Green Space" which was a key feature of the Masterplan for the area and the Covenants which are enshrined thereby are vitally important to the area.

I congratulate Auckland Council in their declared and active resistance to the current owner's plans for housing on this site as it would be totally disastrous for the whole Whangaparaoa peninsula in so many ways; transport, water and sewerage management, public services, personal and community wellbeing and public safety.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Resilience: Proactively managing risk in terms of drain and culvert clearing (ahead of time).

Sea Wall protections.

Water supply and drainage maintenance

Pothole and pavement maintenance

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I object to being charged rates based on my property value. Just because we worked hard, saved, did not take holidays etc so we could afford a nice home in retirement does not mean we have endless funds to constantly pay rate increases It is a very unfair rate system.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

People do not have the money to pay for all these 'extras'. Keep to the absolute essentials until the economy improves.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Keep to the absolute essentials based on user pays.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

I don’t know

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

I support initiatives which are "user pays' rather than all of us pay whether we use a particular facility or not.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I refer to my original comment ..... I object to being charged rates based on my property value. Just because we worked hard, saved, did not take holidays etc so we could afford a nice home in retirement does not mean we have endless funds to constantly pay rate increases.

Also, regarding Tūpuna Maunga Authority Operational Plan 2026/2027, certain authorities should not have power over the Auckland Council to carry out directives at the rate payer's expense.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Control urban and suburban housing growth, The current service infrastructure cannot constantly take the current growth rate.

It is one thing to increase housing, but without an adequate transport system people need cars to get around Auckland. But new housing areas discourage cars, no parking etc.

For instance, to get from Orewa to across Auckland requires at least 2 or 3 busses, or 2 busses and a train, You spend most of the day travelling and the interconnection organizing is a militarily operation. Hence a car is essential.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting

businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

because we pay watercare for example line fees and water used , council should not be seeking funding from ratepayers. No to rates going up. Brown is there on promise that rates will be kept to cost of living. I fwe got a better turn out at elections he would not be there

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

what do you mean about swapping bins and bag packs. if this is rubbish bins , majority would be damaged by contaractors so council should be charging them. council hires the contractors therefore are the client not us so dont expect us to chase it up with the contractors

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

like central government ,auckland city council expecttoo much from local boards with less income. Auckland city council also relieson voluntters to much with no support from its council arms.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Other

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Other

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

1/. a must as to much contamination from developers and neighbours of our streams/water ways

2/. not all use the courts so this should include upgrading existing public facilities such as waiake Public toilets which has more people using them than the Oteha Valley rd(hooton resrve)courts

3/. council encouraging built up town centers so developers should be planning more green areas and those buildings should pay for maintenace

4/. this has been included first and to be honest it does not seem to change , i feel less welcome here now than I have ever been,have resided in Bays for over 40 years

5/. totally agree it should be paying for itself not subsidized by council.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

i do not see any cutbacks in the heiracy of council and its stand alone identies such as watercare and auckland transport. Why do we need elected council members when we should treat it as a city . Current system does not work as our board(for want of a word) maybe councillors but we are better to have people responsible with the knowledge to run the departments of the council. Time council looked at its own structure ie does it work ? No

too much we will put rates up whether everyone benefits or not ie North Shore and CRL. yes user pay no council subsidies

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

saving money and making user pays. cyclists pay nothing for all these cycle tracksfor example. supplied with special facilites -lock up at park and ride whilst council trying to make park and ride carparks metered. I am fingering cycling as a example but there are lots of areas the council needs to have a dam good look at the structuring and who should pay the costs

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces

work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):do much focus on auckland central. i have no need with costs of events there to even bother going there

Annual Plan 2026-2027

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

People using the rail link should pay for it, not us that will never use it

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Do not support this,

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Auckland transport should mandate buses stop at busy stops on time and do not whizz past 15 minutes early and then we have to drive our cars. especially on Whangaparaoa road which needs speed control from the last circle towards heading towards Army bay, the constant stream of traffic racing to Shakespear is crazy

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Speed management at Fisherman's rock reserve,

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods., Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow, Other (please specify):There is no ferry from gulf harbour on the weekends so no one goes to the city

Annual Plan 2026-2027

#105

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I have bore water, and my water rates are exorbitant as it is. For one person it is ridiculous that I'm paying nearly $100 just for waste water. Where as my previous house with four adults, The water rates were hardly $60 a month, and that was mains supply and waste water.

Too much of the rates go to things that I would never use.

For example. City trains, I live in Rodney. Therefore, should not have to pay for those, and if I use them, it is user pays. Which is very unlikely in my situation.

Multiple cultural activities that are not Aotearoa applicable. I don't mind Maori or European festivals, as I am descended from both.

Personally, I don't think I should be paying for other cultures, we should be celebrating our own more.

I am sure other cultures are more than willing to pay for their festivals.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

South Auckland business district have nothing to do with Rodney. I should not be having to pay for them.

Parking is expensive enough, it does not need to increase. In fact it should decrease, and then you would get more people going to places. Which in turn increases revenue, because people spend money there.

When it comes to refuse, I think we should all be supplied a large bin, at the same cost, and if you choose to go smaller you pay less. No increase for those of us who cannot afford a bigger bin. Thankfully, I live in a small cluster of houses, and we share refuse bins if we have too much one week.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

As above.

My rates should pertain to my area only,

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Nil.

However, on a completely different note.

Most of your documents are bilingual.

You should actually send them out separately.

Some people are highly offended by having them mixed, it is almost degrading one another. I'm mixing them.

I don't mind receiving both languages, as they are both part of my heritage.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Fixing flood issues. In Stanmore Bay, we were promised the world, we got absolutely nothing.

The community got together and fixed so many of the issues themselves.

Yes, the council did fix D'oly culvert, but they did not bother clearing the stream all the way to the ocean. Absolutely no point.

Fixing roads in a timely manner.

Taking Control over whomever is in charge of bus drivers. So many of them are exceptionally dangerous drivers.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

#131

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Auckland is a growing city and if we expect to access quality services then we need to expect to pay more for them. No one likes an increase in rates but it is reasonable if that money is fed back into City wide services.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The charge for the small scraps bin is a complete waste of money. We never use it for its intended purpose and in bad weather they are blown all over the roads. I have noticed few houses use them in our region. We would have preferred to have the choice to decide on what rubbish company we dealt with.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

I find this local board combination to be quite at odds.The Hibiscus Coast and Whangaparaoa areas seem to gain little from the local board. The entire Rodney region seems to be very low on the list of considerations. It would be good to see money spent improving conditions and availability at the Stanmore Leisure centre for example. Also the rail link is of no benefit to anybody in our region. It would be better to have ferry sailings 7 days a week. I imagine very few coasties will ever use the train yet we are being made to pay for it. It would be great to have access to an outdoor pool as there are so many do not swim warnings now that the sea is not always accessible.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

The Hibiscus Coast is a conventional NZ suburban area and it should remain that way. People choose to live in this region because it does not have a lot of high density housing and it should remain like that. We are not treated as 'inner city' and we should celebrate that difference. Overcrowding would ruin the vibe of the Coast let alone add so many problems in terms of traffic and an increased population.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I like the notion that the Council are trying to run Auckland as a business and have a reasonable financial plan and concepts of diversification and improvement. As long as we do not become swayed by absurd projects such as yet another stadium I support the proposed plan from the Council. Sometimes, as they say, less is more and in this sense Auckland ratepayers should not be asked to pay for unnecessary trimmings that might only be of benefit to the few and not the many. Auckland is extremely spread out in terms of regional areas and all are quite different and require quite different approaches. This is key for the Council to consider.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Our environmental areas are really important along with improved access around our city. W

We are certainly sick of road cones ! I do not agree with the Council buying out properties caught up in flood zones who have chosen NOT to have insurance. Even as ratepayers we all still have our own responsibilities, be it covering your assets, looking after your local environment or simply watching out for your neighbours.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors, Other (please specify):Make it easier to come to the city from the Rodney region

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

1. Rate increases are a key reason for the cost of living crisis. A rate rise higher than the rate of inflation can not be justified.

2. While I appreciate public transport is important, I would suggest that those who use it agree to pay a higher council rate and carry a card allowing for discounted travel because they contribute via their rates bill. For those of us who never use public transport we should not be rated for the service. If we then decide to use it we would pay a higher fee.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

In order to reduce the continuing rise to our rates bill some of the nice to have options need to be discontinued until overall costs are reduced.

I don’t know how we can afford to offer grants when many of us are struggling with the cost of living.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Other

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Users should pay for facilities.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Because I am opposed to rate increases higher than the official inflation rate I want to see all non essential services put on hold, all all non essential departments closed.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I want council to get back to providing core services , roads, freshwater, storm water, sewerage systems, maintain parks. Maintain libraries but not upgrade current library buildings or extend the network. If other communities services need to be halted in order to keep rate rises at or below the rate of inflation, so be it..

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

N/A

Annual Plan 2026-2027

#168

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I agree that is it warranted, however we shouldn't be reducing or discontinuing environmental initiatives to simply keep rates down, this often leads to greater costs in the future.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

The environment, it is integral to how we live, we don't want to live in a degraded environment where we cannot swim at out beaches or enjoy our forests.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I believe the rates increase is too high as I live on a disability benefit. However I do see the transport benefits at least for those close to the city centre.

There is nothing in this annual plan that directly affects the area where I live, but future plans will.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

There is nothing that directly affects the Gulf harbour area this year. We have managed to get Auckland transport to undertake multiple road safety improvements including a new zebra crossing to go in for Gulf Harbour school shortly. We are still pushing to have a safe zebra crossing installed at two points at the junction of Pinecrest Drive and Gulf Harbour Drive, where a young boy was knocked off his bike this year and a crossing is desperately needed.

Now that Auckland transport seems to have gone against their own rules of saying crossings need to be raised up, seeing as they’re installing one normal zebra crossing at Gulf Harbour School there should be no issues installing the one at Pinecrest Drive. We are also still requesting a zebra crossing in Fairway Bay close to the kindergarten. We feel this crossing needs to be installed before the significant traffic buildup when Hoppers start building their new marina, certainly with the vast increase in traffic once it’s built.

So we would like you to continue pressing Auckland transport to install these two crossings. However if they fail to do so, as per our presentation to the board last August, we are still requesting that the board consider allocating a small amount of money from the capital fund as soon as possible to create those two crossings. If they were both done we feel that would give the entire village all the safer crossings that the residents want, especially for their children.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

There is no mention of the Gulf Harbour Ferry this year. However we want it to be known that as Gulf Harbour residents, we strongly object to the results of the Whangaparaoa transport study commissioned by Auckland transport.. The report has totally manipulated results to fit with the desires of Auckland transport and Fullers. Despite showing the vast number of people, especially retired or not working, who use the 10:30 am ferry to the city, coming back well before rush-hour on such as the 2:45 pm. The number of users shows that to be virtually equal in number to the early morning rush-hour ferries.

The creators of the report also put pressure on the numbers using the ferries, knowing full well the decrease is due to the unreliability and the last minute cancellations from Fullers. These risk peoples jobs and cause family chaos and has forced many people to return to their cars.

You need to make absolutely certain in 2028 that the contract is taken away from Fullers and given to one of the multiple companies that want to operate it with modern ferries as well as the reliability and respect we had from Discovery 360.

Everyone who lives here has told you again, and again that we do not want buses and have no intention of travelling on them. The journey is ridiculously long and stressful, without comfortable seating, without toilets, let alone the beautiful scenery, or a cafe.

You now say you going to introduce even more buses at seven or eight minutes frequency. How utterly ridiculous. Can you not see the thousands of buses running around continuously empty. The few occasions I've had to use one I am normally the only one person on it or sometimes two or three. All we need is the half hourly buses we've currently got, along with a couple more at morning and evening rush hour is full.

Why oh why do you want to spend millions of dollars on empty buses driving around that nobody wants ?

If you truly insist there isn't the money for the full ferry service and the buses, that's because we've told you we don't want or need the buses. Put that money into getting a decent ferry operator and sticking to the existing timetable that works for everyone. The patronage would increase dramatically if there was a reliable operate again, without breakdowns, and one who's not allowed to cancel the ferries and divert them to inner-city routes. Also, to have weekend ferries is vital for people both in the city and on the peninsula to go on full day trips out to the other one.

The sea is empty. There are no traffic lights, there are no traffic jams. The rest of the world fully utilises the sea having thousands of ferries with multiple commuter stops. Yet you fail to see that.

Also introducing ferries at somewhere such as Browns Bay or Takapuna to the city. The uptake would be massive out of choice. You could take thousands of cars and buses off the roads.

We don't want buses, and we won't use buses, people always switch back to their cars when the ferry is not available.

Everyone wants to use the ferry. We want a better service, a reliable service. We want to guarantee the full timetable that we have now as well as having weekend services.

Now that you, Auckland Council are taking back control over the planning and contracting of the services. You need to overrule a lot of the rubbish that has come out in the Whangaparaoa transport study and sit down and listen to all the people who have had their jobs and family situations wrecked by unreliable ferries not turning up.

Give us reliable ferries and the patronage will rocket up and get many cars off the road. All the figures and desires are written there in the report and somehow the report has managed to disregard everything, other than saying the new operator in 2028 must be reliable.

Contracts MUST have penalty clauses for failing to deliver upon them, which is why the Gulf Harbour contract needs to be an individual contract on its own.

Get rid of the buses, we don't need them or want them, it's just a waste of money clogging up the roads with traffic.

Use that money to improve the quality and regularity of the ferry, as well as weekend services. That's where we want and need the money to be spent. We do not want to use the roads to come into the city in any way. We want better ferries.

Start planning now to put this into action in 2028.

Also totally forget about the useless bus station near Stanmore Bay. All you are going to do is cause more traffic jams both at that point, and where Penlink meets the motorway. Again, no one wants this bus station, the existing buses, frequency and routes are perfectly satisfactory.

We want that money spent on better ferry services and facilities.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Gulf Harbour ferry.

Full reasons and details and comments on previous page.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

We had a 17% increase in rates last year which we are already struggling with.

Living in Whangaparāoa we will never use the CRL.

The UAGC should be maxed rather than the council property values

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Prioritizing public transport is really smart and important. The CRL is great, we need to see more public transport and carbon-free travel options across Tamaki Makaurau. Thank you also for the amazing community facilities and environmental services across the city.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

It would be great if the revenue from higher parking fees could be directly linked to public transport/low carbon alternatives- eg, cheaper bus fares, new cycle ways, etc.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

New and improved sports facilities are great but the area desperately needs more alternatives to car travel. Congestion is already picking up. Can we have more cycleways and lanes so that families can safely make bike trips for short journeys, instead of taking the car? More buses? Please can you consider making Clyde Rd in Browns Bay pedestrian only?

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

I don’t know

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

I don’t know

Tell us why (please be clear which priority you are talking about)

I don't know what "community safety and placemaking" means exactly. Nor do I know what fees you are planning to change at the leisure centres. Otherwise, I reiterate that there is a desperate, critical need to move our society towards a low carbon future and the best way that you can make a difference to that is through measures to reduce car journeys. So, please, more cycleways, more frequent buses, more car-free zones.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

The libraries are amazing! And please do what you can to reduce car journeys....cutting carbon emissions from driving is so important for the health of our planet and our beautiful local area. Developing better cycleways and busses will help us reduce short car trips. Thank you!

Question 5: Looking further ahead / shaping Auckland’s longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland’s future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland’s spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

More public transport, more low carbon and no carbon transport options. Please prioritize strategies to help Auckland reduce carbon emissions on the whole, through transport, housing and environment. Thank you

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by

making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Safer town centres: there are too many pedestrian crossings and raised pedestrian crossings. Also too many traffic lights. No added value for pedestrians or local residents.

Increase of fees in pools and leisure centres: these places cater to medium/low income families and the fees should not increase. It is already difficult for a family with 2 adults and 3 kids to go to a public pool, increase will make it more inaccessible.

Cost saving proposition: I would like to see some of the free events stop, the music in the parks and movies in the parks are not needed.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Public transport - cheaper fees.

Continue maintaining walking paths and reserve areas / pathways.

Clean water.

Stop: garden beds / berms with flowers that require lots of maintenance and renewal every couple of months.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Auckland Council recently updated LIMs in the Wade Heads neighbourhood (presumably others) to include information about geographic risks associated with landslides. This was done without any consultation or advice provided to local home owners. The Council has effective means to communicate with rate payers (as per this missive), so it is disingenuous at best, that the Council should make changes to documentation, which has profound impacts to our properties (this resulted in a sale and purchase agreement being forfeited) without a skerrick of communication to those affected.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Tell us why (please be clear which priority you are talking about)

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Devonport-Takapuna

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Do not support

B. Reduced library hours over 7 days.

Support

C. Reduced local board funding to local organisations that deliver local events.

Support

D. Reduced budget available for contestable grants.

Support

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

Support

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

Do not support

G. Reduced funding for parks volunteers.

Do not support

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Do not support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

The CRL has crippled the CBD and led to numerous businesses having to close. Construction vegan pre-Covid, and subsequently people's work patterns have changed. The CRL will not get anywhere close to the patronage that was initially expected. Why should I have to pay for it? I'll never use it.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
6	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Forget transport, I'm sick of road cones and roadworks adding 15-20 minutes to my daily commute.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I would like us to get the basic infrastructure fixed before unnecessary spending on luxuries. Ie fix the sewerage systems properly - we are sick of the persistent sewerage smells that plaque low lying properties in Waiake over the last 3 - 5 years. If you approve infill housing you need to improve the water infrastructure first.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Fine

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

I would like to see waste water and sewerage infrastructure fixed before anything else. Our streams,and beaches are being destroyed by both sewerage and silt. Fix these before our beaches are degraded further. The local stream restoration has done nothing to improve this because it has simply removed vegetation to put in other vegetation, nothing has been done to prevent the huge amounts of silt washing down our streams and into our beaches and harbour. Stop wasting money on ineffectual projects and restrict spending to effective solutions that hold back silt at stream edges. Stop wasting money on monitoring and fix the edges that are collapsing in with every storm event- ask locals to tell you where this is happening.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Fix our water and sewerage systems especially where they are degrading our beaches and harbour.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Address the sewerage stench that comes out of the sewer system in Waiake plaguing our homes, reserves and beaches.

Address silt and land that is being allowed to slip into our streams - this is destroying our streams and ruining our beaches.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

population too small for rail link

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

no to residential parking fees

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

too much emphasis on climte initiatives

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

better employment of rate payer funds

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

too much maori to understand . what the ********** is tupuna maunga

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

planning and infrastructure because it is currently non existent

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Where do you people think your rates dollars come from??? Every dollar you spend, is a dollar that somebody earnt (post tax!) whilst trying to make a living and support their families in this city. Continuing to take more, well above the rate of anyone's wages going up is cruel and irresponsible and you are putting a lot of people that are already struggling in even more challenging and vulnerable positions.

Auckland Council needs to substantially cut costs further and live within its means. If that means Auckland can't have everything that each individual wants, then so be it. We've all been doing it tough the last few years and its about time Council appreciated that fact and stopped piling on by asking for more and more money from its rate payers.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Only those owning a house get targeted to pay for all these upgrades what about all others who use all the facilities but rent or get subsidized housing?

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Why did we waste so many billions on cycle lanes which is clear to all of us never used not one bicycle- east tamaki and airport upgrades i never see any cyclists using these no ROI.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

No cycle lanes being built thank goodness

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Most are needed for basic functioning of the local board.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Other

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

The welcoming and supportive priority. That should happen without council getting involved. Not your concern.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Not happy that the council keeps increasing rates faster than inflation. Council needs to limit it's increase of rates to inflation. If the city rail is truly needed it should be more self funding.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Infrastructure to keep city functioning. Because that's the role of council. Not all the other miscellaneous activities council seems to want to do

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

#345

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

We need those things, and they must be paid for. A rates increase is the obvious solution.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I don't know enough to have a reliable opinion. To some extent, I believe that the Council knows better than I where the priorities are for spending, so if you say that a Waitakere Rural Sewage Scheme is super important, who am I to disagree?

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

The only one I'm unsure of is the increase in fees for public pools. This seems rather a shame, as it will have the greatest impact on those who need the pool most.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

I don't know

Tell us why (please be clear which priority you are talking about)

These are all sensible goals, so it would be hard to disagree with them. Of course, the devil is in the details of the implementation and finance.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Transport. The AT system is now vastly improved from what it was a few years ago, but more can always be done. Parking, for example, at NX stations is abysmal, and the stated solution (catching feeder buses) is totally impractical. Great in theory, lousy in practice.

Preventing destruction of the foreshore by harvesting kai is also very important. Indeed, I'd love to see the entire Hauraki Gulf protected as a Marine Reserve, but I know that's unlikely to happen.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

never listen to the real public opinion

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Stop Food scraps system. It's waste of time and money.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

those plans are so unrelated to me except protection of our beaches from outsiders and safe community

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Those "Do not support" are only for some particular people's advantages.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Should have very strict rules and changes the law about breaking the rules of sea life around those banned areas. Fisheries NZ should visit the banned area more often and arrest those poachers.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

should working together with the NZTA to improve the road system. Far too many houses are builds but nothing has changed with the road system.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

I don't know

Tell us why

Rather than increase rates at such high levels beyond inflation!!

I would rather a wage freeze for ALL Council staff/members being paid beyond the living wage.

With a 7.9% reduction in salaries for those those earning over 200NZD p/a

Then consider being realistic and in line with inflation with rate hikes

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Rather than increase rates at such high levels beyond inflation!!

Freeze for ALL Council staff/members wages for those being paid beyond the living wage.

Make a 7.9% reduction in the salaries of all those those earning over 200NZD p/a

Then consider being realistic and in line with inflation with rate hikes for home owners

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Other

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Other

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Other

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

An ole saying 'Cut your cloth accordingly' Do not keeping making it bigger!

Begin with Freezing ALL Council staff wages for those being paid beyond the living wage.

Then reduce the salaries by 7.9% of ALL those earning over 200NZD p/a

&

Then consider being realistic and in line with inflation with rate hikes for home-owners.

Focusing on no increase as a result of salaries tweaks, with a few years of settling in with what has already occurred, work already carried out. Give residents a chance to catch up. There is no point in making things pretty if ordinary people cannot afford to live in the region.

Focus SOLELY on what is NEEDED to sustain & protect ie Point 1. Let everyone breathe.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

An old saying 'Cut your cloth accordingly' Do not keep making it bigger!

Begin with Freezing ALL Council staff wages for those being paid beyond the living wage.

Then reduce the salaries by 7.9% of ALL those earning over 200NZD p/a

&

Then consider being realistic and aligning with inflation and rate hikes for homeowners.

Focusing on no increase as a result of salary tweaks, with a few years of settling in with what has already occurred, and work already carried out.

Give residents a chance to catch up.

There is no point in making things pretty if ordinary people cannot afford to live in the region.

Focus SOLELY on what is NEEDED to sustain & protect, i.e., Point 1.

Let everyone breathe.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Environmental resilience as a sustainable must

Economic Development is pointless without a healthy base

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Other (please specify):Business's chose to be in the CBD, Rates should not their foundations. The City is not cohesive, it's an octopus & thus can not be 'better connected' through increasing rates for all. So many have no wish to go near the CBD thus it's not a focus for probably over 1 million of the regions residents, ought not to claim a substantial 5 of the incoming rates

Annual Plan 2026-2027

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Rates increase is too high. I only got 2% salary increase per year for the past 3-4 years, but rates are increasing 3-4 times as fast, This is not sustanable.

Headcount should be reduced since with AI less people can achieve more in the same time. Please be more innovative.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

In general acceptable.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Most things ok, but do we really need to many pump tracks? I hardly ever see children on them. Many kids seem to prefer to create their own tracks in parks/reserves

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Sounds all good as long as money is spent wisely

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

More focus on efficiency, use new technologies such as AI, have performance measures for employees

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Less growth - quality before quantity, i.e., focus on attracting highly skilled people and tech jobs, which generate more revenue for the council.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

All are important, and interrelated. A forced rating like this is pretty meaningless.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Once again I do not think you are doing what the majority of the people of this city would like you to do and that is go back to the basics. Look at your spending and cut your cloth accordingly. Why are there Auckland Council staff members still working from home. Their work being delivered on a Sunday evening by courier paid for by us while buildings that we have paid for sit empty. Wasteful spending that is not addressed. It just makes us rate payers so angry and resentful especially when you send this out to us and ask for more money. Far out you don't know what it means to live within

your means or keep to a budget. Get rid of some staff and cut some costs guys. Don't come to us for more money each year when you don't look keep yourselves accountable.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

At this stage I don't think you are giving us any choice. You have taken this away from us. If I had a choice again I would never vote for as I did last time. What a disappointment.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I don't know what Tupuna Maunga Authority Operation Plan is.

If it's rates and other items why didn't you say that.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Parks and our environment.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

#455

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Organisation: N/A

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I want money spent on practical necessary things, not on sponsoring events, concerts, cycle ways, unprofitable types of public transport etc.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Okay with.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

Funding for local boards should be determined by population and land area.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

I don't feel it's ratepayers that should be funding outdoor courts etc. Save the money, reducing the pressure on taxpayers, or spend it on something productive like taking care of public spaces.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I do not support Tūpuna Maunga Authority Operational Plan 2026/2027.

Co-governance is undemocratic and racist. No race deserves special privileges over another, and such unjust actions seeds and grows resentment. The Tupuna Maunga Authority represents few. Roughly 200,000 Maori live in Auckland, a city with a population of 1.7 million, according to the 2023 census. Around 85 percent of Maori living here are from outside the city with many ambivalent about tribal affiliation.

The unilateral closures of the summits by the Tupuna Maunga Authority raises two questions:

Why do leaders of a secular city promote the primitive religion of animism on everyone?

Why, in a society in which rights are based on citizenship and not ethnicity, has a special race-based administration of Auckland's volcanic cones been established?

The whole sorry saga goes to show the downside of giving control of a public resource to misguided people because of their ancestry. The road closures to the various peaks is unacceptable. Racism is unacceptable.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**

- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Prioritise all things infrastructure. Roads. Water pipes. Storm water. Rubbish collection. Keeping reserves and parks maintained etc.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.,Other (please specify):Get rid of the waste of money cycle lanes and improve traffic flow. Remove people begging and intimidating others. They choose to do this as a lifestyle and it ruins the streets. And why is Maori identify and culture listed as an option over other identity and cultures? It is racist to have that as an option and not, say Chinese, South African, Philippine, European etc also listed as options. Different races should not be treated differently. All races should be treated equally.

Annual Plan 2026-2027

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

The cost of living is very high and 7.9 percent increase in rates makes significant impact on household expense management.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

It doesn't mention changes in fees means increasing or decreasing.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Please consider addition of more playground equipments in Long Bay Regional park such as, sliding gym for people who come for morning walk.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. Submitter details:

Organisation: N/A

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

CRL has been a massive waste of money that doesn't offer a lot extra

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

No impact on me

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Nothing happening around my area

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

I don't know

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

I don't know

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Infrastructure due to increased housing density alot of infrastructure is under pressure

Walking tracks and parks due to the bays having some amazing nature that we should preserve

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Other (please specify):Making it easier for cars to navigate. The city centre has died a lot since cars have less access

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Rates are already way too expensive.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Stop passing on expenses to hard working people.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

I can’t see the options

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

I don't know

Tell us why (please be clear which priority you are talking about)

Good idea to invest and improve outpaces for people to enjoy. Don't put up fees yet again at council gyms and services

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Recreation spaces - so young people and families can enjoy

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Please stop wasting money on excessive costs to contractors and internal bureaucracy. Use the money saved on unnecessary spending to fund what is required. Do not increase rates in excess of inflation.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Do not increase parking costs. I do not know the details of the other suggestions so do not have an opinion.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I believe that rates are already too high and an annual increase of 7.9% will be too much for most residents that do not see the results of those charges as public transportation still does not deliver good service for some.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I'm against the refusal fee. It should be included in the rates. I'm also against introducing parking permit fees in specific areas that are not busy.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

I do not support changes in fees in leisure centres unless the fees are lowered.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I support the targeted areas of support and regrowth. I am disappointed that all of Auckland pays for CRL when it delivers no benefit to me and my area.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I don't understand the bin/bag exchange fee - we are targeting people for trying to do the right thing and use the bin sizes properly?

I am disappointed that CRL is increasing my rates when I get no value out of it. I have also heard rumours of being charged to cross the Harbour Bridge which is absolutely ridiculous, and while you say the city centre provides 21% of income - that means 79% comes from other regions that cannot use CRL, and then cannot get into the CBD due to the tolls. This means that the CBD will generate less, as people try to find jobs outside the CBD and move away from utilising the Harbour Bridge. Toll roads should be for financing the existing project and NOT for future projects, as I have no faith that it will be used in for it's "intended" purpose of a second harbour crossing.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

I think that the items chosen are needed and it is good to have an increase in useful community areas.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Other

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Other

Tell us why (please be clear which priority you are talking about)

For point 3 - what specifically are you referring to in increased support and placemaking? What is placemaking? Lowering the speed limit is not helpful in these instances. However, the crime rate in the area is going up due to rehoming Kaiinga Ora tenants. This includes bus stabbings and burglary in the area, as well as arson when business owners are being threatened by the gangs that are moving in. I would support increased police presence and timely help. The halfway houses located by the cafes cause the area to become more unsafe.

For point 5 - I would want to promote useage of these spaces and making it affordable for families as I think learning to swim is incredibly important for everyone in NZ. If the fees go up, we risk causing people to forgo using these spaces.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Overall, I like the fact that Auckland council is investing in public recreational areas and parks. I think that we should be trying to get people out onto public transport through positive means (frequent, reliable buses) rather than negative means (tolls and increasing prices). I am disappointed that we are all paying for CRL when it is poorly budgeted, managed and has destroyed businesses around the CBD, making the CBD less desirable to visit. I would like to propose trams for regional areas (ie along the Northern Bays, or Orewa to Albany, Howick to Flatbush etc). Trams in all European cities function incredibly well for moving people, are easy to use and provide better public transport than underground trains. Trains should be used for large distances, ie Auckland to Hamilton, Auckland to Tauranga, rather than within a small city like Auckland.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Trams for public transport, parks and outdoor spaces for people to use (concrete table tennis tables, kids slides etc) where people can just walk easily and spend time outside

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

#555

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I live in Waiwera.

We already had a massive rates increase last year of nearly 12%

We get no public transport, our loose metal road is poorly maintained and in constant disrepair.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

No of these affects me

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Just fix our road, that should be your priority right now

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Keeping our roads in good condition should be the main priority. Everything else comes after this.

The rates increase is way over the top.

Stop building bike lanes and speed humps, there’s a huge saving right there.

Question 5: Looking further ahead / shaping Auckland’s longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland’s future. These plans and strategies include (but are not limited to):

- **Regional transport plans**

- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I ticked transport as my number 1.

I'm referring to roads first, then public transport.

Very little or nothing for bikeways.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

We.dont have an tax income issue we have a spending issue. We have witnessed so many completely useless road surface seal projects around neighborhoods over perfectly good roads and millions of dollars wasted each and every day. Saying we are frustrated is an understatement.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

No. 100% not supporting.

Cut spending, trim and govt workforce size, stop wasteful and needless projects and cut consultation fees. We have had enough for massive rate increases over pointless projects or high promised and under deliveries.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Enough is enough. Focus on trimming wastes first!

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

So disappointed but not surprised how things are run here. Endless consultations, studies and fees, useless and pointless projects to keep everyone (govt employees) fakely busy but not adding any real value to the communities. We need to absolutely stop budget growing year after year and headcount growing election after election.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Cut waste before any further new projects.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

We live in Whangaparaoa and pay for services that we do not have provided for in our area

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Again why am I paying for services far beyond my local area, far north Auckland residents deserve government that can do FAR better

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Stop wasting money and ask the local people what they need

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Your increasing rates for services which do not make change for our area are disgraceful

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Reducing rates where Auckland council are not meeting the needs of the local community - we collect our water and paying to maintain and service it to drinking standards ourselves, we do not have sufficient public transport i.e. ferry service is disgraceful, buses are expensive / require many transfers / are unsafe / there is no parking at local bus stations / buses do not service our needs, motorway north Auckland is insufficient at best - there isn't even basic street lighting on the motorway or back roads (motorway is closed more than it is open at night)

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Other (please specify):better access to and from north auckland

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Providing funding to local boards and then not having a say is crazy. You mob just waste money and its completely a stab in a back for us rate payers.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

None of this impacts my local area so why do I have to have the increase. Get rid of all the stupid Maori ********** and local Iwi consults.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Introducing fees for the kids to swim. Way to stop people going!!

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Other

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

what the ********** is number 4? This is so silly to waste money on. Make the Hibiscus Coast somewhere people are proud of and the rest will follow. Just a joke of a policy

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Stop all the Māori words. They make no sense, they are annoying as ********** and waste more rate payers money. If everyone in Auckland was honest and you offered a decrease of $1 per year on rates if it meant scrapping Māori from all your documents and marketing then the majority would agree. Cut the PC ********** and just fix our fucken city. There is way too many of you clowns in office there.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Just focus on the important **********, water treatment, coastal protection, local parks. Stop with the pointless spending on cultural **********

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

#663

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

All sounds very sensible

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

I love our beautiful bays and the lovely community - these plans all support that.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Keep up the good work :-)

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Make it an easy place to live where things work well.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Cut rates by sweeping dismissal of higher paid council staff.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I have a compost bin, why do I have to pay for food collection bin I do not use. As a single person household only using rubbish and recycling bins once a month why do I not get a rebate.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

The local board has done nothing to preserve the Browns Bay area largely restricted by the Auckland City Council dictating planning regulations which might suit Hobson Street but are inappropriate for Browns Bay. Bring back East Coast Bays Council and cancel local board.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Do not discharge any sewage into the sea before worrying about clean rivers etc. Present facilities are adequate.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Stop using Te Reo

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Stop building in Auckland. Force development outside Auckland.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I support the Water. Our sewerage systems are failing and we keep populating housing without the infrastructure. Its been devastating to see beach's, food sources unable to be used due to sewerage overspills into the ocean.

I do not support Transport plans. City Rail Link will only be useful for a very select few. I live no where near any connections so i dont believe i should be paying more rates all ready to something that i will never use and only benefits a small minority

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I wish they would look to allow shared spaces to be used by dogs as well. A lot of areas are off limits for dogs

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Rodney being lumped into Auckland feels unfair. A lot of it is on public transport and we have no trains out this way or bus lanes out this way.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.

Annual Plan 2026-2027

Organisation: N/A

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

CPI is running at 3 %, where do you think the other 5% you are proposing should come from, I haven't had an 8% pay rise. so You are taking a larger share of my wallet mostly for projects that will not deliver any significant benefit anyone north of the bridge or outside of central or South Auckland, you need to cut your cloth or target rates to those areas benefiting, this is an appalling increase and disgraceful proposal, you are elected to serve ALL the people of the region equally.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

You claim to want to make things more efficient, there was a perfectly good refuse system based on user pays, you are now increasing refuse costs more than the commercial operators were charging. Why? if a commercial company could offer it and still make a profit, you are supposed to be non profit making so why would it cost more?

You can have no justification for the rise other than to profit from ratepayers or to cover up inefficient spending?

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Trouble is you have clearly stated it is mostly a maintenance allowance, I would love to see a table that shows how much rates are collected in each ward vs how much goes back in to those local boards.

I completely get that it can't be 1:1 but the ratio must be significantly deficient for our area, the one major thing benefitting us is Penlink BUT that is getting tolled so we are paying extra for it anyway?

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Leisure centre fees are already more expensive than private commercial operators so where is the benefit?

If you can't complete commercially then don't try.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

It is an absolute outrage to sting us with a more than double CPi increase and not provide any meaningful benefits to our are for that. Until you can provide a rail link outside of the city centre and south Auckland then you should not expect those areas to fund this white elephant.

Alternatively play fair and remove the Toll from Penlink so we are delivering an equally improved transport option or cap the ferry charges from Gulf Harbour and Waiheke like other ratepayers fayres are capped.

In summary, this is an appalling outrage of an increase and set of priorities, you should be ashamed of yourselves as you are certainly not serving the whole of the Auckland community fairly and evenly with this plan, just the chosen few.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Get realistic about public transport, this day dream that you don't need parking at transport hubs is ridiculous, using feeder services literally doubles my city journey time, using my own transport

gives me flexibility pre and post core commute for shopping or leisure activity and saves 35 to 40% on the journey time.

If there was sufficient parking at a hub I would gladly use the core transport services, focus on realistic real world user requirements for public transport, not some utopian vision that we will all walk to a bus stop near our house and accept the terrible journey times and experience.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

#721

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

The council business plan is flawed...Propwrty taxes/ rates and taxes are base on increased property value.

Property value has fallen therefore on this basis property taxes should fall in line with perceived value.

Furthermore the present system in actual fact is an unrealised Capital gains tax.Propeety owners do not have more money in their hands if their propery value increases yet they are paying higher

taxes for this reason.Completly unsustainable. Senior people are being firced out of their homes since they cannot afford the extortive rates.

Property sovereignty is in danger,as we know if a property owner cannot or fails to pay the rates their property can be sold to meet the outstanding rates..

The council/corporation is out of step with the current economy orchestrated by central government/taxes and central banks/ interest rates which have resulted in Aucklanders and New Zealanders migrating to friendlier places to live.Sadly the economy is shrinking and there is too much pressure on households and business alike.

peter nettmann BA Law,B Juris,,Bus Makt.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Work within present budget.No escalation.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden,Aotea/Great Barrier,Devonport-Takapuna,Franklin,Henderson-Massey,Hibiscus and Bays,Howick,Kaipātiki,Māngere-Ōtāhuhu,Manurewa,Maungakiekie-Tāmaki,Ōrākei,Ōtara-Papatoetoe,Papakura,Puketāpapa,Rodney,Upper Harbour,Waiheke,Waitākere Ranges,Waitematā,Whau

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Do not support

B. Investigating how to respond to future growth expected in our area.

Do not support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Do not support

Tell us why

Extra fees will collapse business .

Aotea/Great Barrier Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services?

A. Improvements to the library service including additional programmes.

Do not support

B. Partnering with mana whenua and community on the coordination and engagement of island fisheries management and local Ahu Moana marine projects.

Do not support

Tell us why (please be clear which priority you are talking about)

Stop dividing people , Has never worked. Work as a unit.Division causes problems especially along colour line.Stop doing it.Learn from other examples on the world, and please refrain from adding token Te reo wordsin sentences when few understand or even speak the language.

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Do not support

B. Reduced library hours over 7 days.

Other

C. Reduced local board funding to local organisations that deliver local events.

Other

D. Reduced budget available for contestable grants.

Other

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

Support

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

Support

G. Reduced funding for parks volunteers.

Support

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Support

Tell us why (please be clear which priority you are talking about)

Too many pet projects tax payers are paying.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Listen to the people dont do your own thing.Sooner or later residents will withhold payment and you folk will have a real problem.

I trust you will take note of what has been mentioned.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The CRL has no benefit to most Auckland's, yet we're being lumbered with a massive rates hike. The CRL should be user-pays.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Disagree with all.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Stop wasting money. Get rid of Auckland Transport. Stop funding vanity projects and nice to haves when core infrastructure - roads for example - are in desperate need of repair and expansion. Focus on making Auckland a livable city again, and this starts with creating wider motorways and arterials.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

The plan fails to address the huge traffic from the North Shore every day in and out

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

OK

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Commutes to Auckland are not tenable!

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

As of early 2025, New York City implemented a $9 daily congestion pricing fee for most passenger vehicles entering Manhattan below 60th Street during peak hours (typically 5 a.m. to 9 p.m. weekdays, 9 a.m. to 9 p.m. weekends). This fee aims to reduce traffic, with lower charges ($2.25) during off-peak, overnight hours. Why isn't such a fee implemented for Auckland? It is all very well to have enhanced train service to the south, But what about to the north? Traffic to and from Auckland at all times in untenable and NOT addressed.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Traffic on route 1.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I have a rain water tank to supply my house, it'll be close to $20,000 just to get connected to council supply which is highly unaffordable, I do not have a need for public transport either and will never use it. Increasing my rates, burning holes in my pockets "to pay" for things I get nothing out of and no return on. Its daylight robbery!

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Horrible. You think we are all rich and have neverending money and all you do is increase increase increase yet our salaries have stayed the same year after year after year. Less food, less electricity, less savings, less everything so you can just pocket more and more money which we never see. Stop with the increases!!!!!!!!!! Im working myself to the bone and can hardly afford anything and all you want is more!

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

I use none of that. Again paying for everyone else while I run poor and work work work just to saty afloat

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

I don’t know

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Old disabled access, sure, how could I not support that.

Sea and soil, sure, it all seems pretty healthy as is and i see no issue. Everything else I do not care about.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Stop with the increases on ********** everything except our salaries. How do you think we are meant to survive. You creating a depressed poverty society so that the politicians and shareholders can remodel their mansions and beach houses. We don't want all this and never asked for any of it, you can word it all fancy like and make pretty documents about it all you want, it does not change the burning hole in our pockets. Increase people's take home pay first, tax the rich, create a middle class again then talk about "improvements".

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Lower the watercare connection cost to a household. I am on rain water and cannot afford to get water connected my house, my tank is currently empty. Yet I pay high tax, rates, fuel tax etc etc etc and I do not have access to water, I need $20,000 just to get connected, like how when electricity, insurance, rates etc goes up and up. Water access is a human right, but only if you have $20,000, nevermind the 1000s i pay in tax every week!

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):I stay out of the city at all costs, concrete jungle. No thanks.

Annual Plan 2026-2027

#753

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

The is a distinct lack of infrastructure for the hibiscus coast area. In particular recreational facilities in and and around Silverdale, Mill water, Orewa and Mill Dale. Young people need healthy outlets to avoid becoming entangled in anti social behaviours. You have spent enough in Central and South Auckland, our kids matter too !!

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Again, I have no problem with the rate rise, just the fact you are neglecting everything north of the bridge.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays,Rodney

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Whilst the Pen link is vital to the future of the Hibiscus Coast, this will increase housing with the infrastructure to support everyday local needs.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Point 4 is too vague.... Simply building houses and roads does not support the holistic needs of its population.

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Limited focus on Recreational facilities beyond parks. What about a swimming pool for Mill water, Mill Dale or Orewa? Sports halls?

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Beyond making it sound like a whinge.... It would be nice of the council to think about people's needs beyond the city limits. Hibiscus coast is facing the biggest changes and infrastructure is simply not keep up.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**

- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Sport and Recreational facilities.... This reduces crime, positively impacts well-being and keeps Aucklanders happy, healthy and connected.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is

a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.,Other (please specify):Again too much focus is on the City Centre ????

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Most of it involves capital expenditure on Central & South Auckland. Not much for North Shore, as per usual

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Bin Bag Exchange Fee . Go back to Pay As You Go for rubbish. Scrap Food Waste Charge.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

As this involves raising money everything is Auckland, Not Tamaki Makaurau, Also as per usual most of the money is being spent in South and central Auckland, Only crumbs for North Shore.

Goos there is no attempt to add to the Eden Park sinking fund

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Transport, City Rail is still behind schedule and is still costing money on things that do not apply to North Shore and other areas with no rail link. Next it will be surcharges on the harbour bridge to cover more delays. Casper Weinberge'rs Law of 2 and a Half applies to everything Auckland council touches

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):Never Go to City Centre. Nothing there that can not be found at Sylvia Park, NW Motorway or Albany Shopping Centres. Attractions are not advertised and I don't speak Maori

- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Reasonable

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The rubbish collection fee is diabolical, sneaky and dishonest. We used to use Northland waste to pick uip our rubbish then the council decided to triple the Northland Waste charge, give us a new bin then sublet the contract back to Northland Waste.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Not enough specifics

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Other

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Other

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Nowhere do you mention cleaning the footpaths. Thanks to Council bungling (they call it sand restoration) the footpaths of Orewa have not been properly cleaned of sand and silt for fifteen years. They are an absolute embarrassment and difficult for any wheeled disability vehicle or pram to negotiate. We used to have criminals who have been let off jail sentences and sentenced to community service sweepin, weeding and cleaning.....where are they now?????

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

If the council cleaned out the street gutters and drains on Hibiscus Coast Highway and Centrway Road we would not have such bad flooding!!!!

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Other (please specify):Stop street sleepers

Annual Plan 2026-2027

#798

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Another huge rates increase is crippling to rate payers. Please cut the waste in the council spending staring with excessive management salaries and non-value add cultural nonsense. Last year my rates went up almost 20%!!! I live on a postage stamp. The CRL is a wasteful white elephant that cost far too much already.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Please cut the waste in the council spending staring with excessive management salaries and non-value add cultural nonsense. AT wastes enough money on traffic cones, no need to fund them anymore.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Please cut the waste in the council spending staring with excessive management salaries and non-value add cultural nonsense.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Please cut the waste in the council spending staring with excessive management salaries and non-value add cultural nonsense.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Please cut the waste in the council spending staring with excessive management salaries and non-value add cultural nonsense.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

My houses are on the Whangaparaoa peninsular. There is no City Rail Link connection to here so why am I getting hefty rates rise for something I will never use?

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

I don't know

Tell us why (please be clear which priority you are talking about)

Fee's for pools should be user pays, not a rate payer charge.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I do not support the rate increase as we are facing the cost-of-living rising, loss of employment etc. We are trying to survive during this hard time and the council still propose the rate increase even few hundred increment in the year which I think every dollar is important for every family.

Apparently, CRL project is over budget. My question is why Aucklander should suffer this due to the lack of governing. CRL project just built two new stations and renovated an existing station

which still just placed in CBD. I can't see any huge benefit to the Aucklander as the coverage of the train is still limited. Please consider to improve other transportations as well to cope with the annual plan.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I do not support the rate increase as we are facing the cost-of-living rising, loss of employment etc. We are trying to survive during this hard time and the council still propose the rate increase even few hundred increment in the year which I think every dollar is important for every family.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Do not support

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I do not support any rate / fee increment at this hard time.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
6	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Spend on road maintenance, water, sewage. That is it.

Stop wasting on speed bumps, raised pedestrian crossings and cycle ways.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

there should be no fee for exchanging refuse bins.

A fee will encourage roadside dumping.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Already answered in my initial comments.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Other

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Increasing fees is an excuse to waste by funding feel good projects.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Stop multiple blocks of flats replacing individual houses.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

#856

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

This mayor and his policies are lame. Why do 95% of people north of the Harbour Bridge need to pay for the running of a rail service that offers us nothing? Why is this local government still spending our money on wasteful projects? Nearly all these projects are south of the bridge, but much of the rate rises come to those in the north.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Debt and more debt. Nothing that the Auckland council does comes in under budget. Private money and developers need to pay a bigger share, or the user pays.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

It is fine as it is.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Stop spending our money on rubbish projects. Which one of you muppets comes up with these ideas? It is insane how you come up with ideas to waste cash.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Tūpuna Maunga Authority should be shut down.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Spending less

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.,Other (please specify):

Annual Plan 2026-2027

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

The 7.9% increase is ridiculous. You have already increased last year similar or more amount and I do not get an increase of 8% to cover the cost. I also did not get an 8% increase last year to cover so effectively I'm getting poorer year after year. And this is not just for council fees. School fees, electricity, water, health insurance. This is ludicrous. No wonder Auckland and NZ overall are loosing more citizen than gaining. I'm all for upgrades but you cannot expect us alone to be slapped with so much increases and still also want to charge for a habour crossing. All these should have

been saved and planned for long ago. Take a pay cut all you then we can talk about increasing fees again.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Again more fees, for basically not great service. Maybe if you government and council employees including you Mr Brown take n pay cut we could actually afford the stuff we need too. As well using the funds appropriately and invest/save for the infrastructure upgrades needed.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I strongly oppose the proposed 7.9% rates increase, particularly where it is being used to fund the City Rail Link.

I live on the Whangaparāoa Peninsula and will realistically never use the CRL. It is a central-city transport project that offers little to no practical benefit for residents on the Hibiscus Coast. Expecting outer communities to fund major CBD infrastructure through substantial rates increases is unfair and disconnected from the realities faced by ratepayers in our area.

At the same time, local residents are already facing increased transport costs due to the tolled Penlink project. Once completed, we will be paying weekly tolls simply to access and leave the peninsula. This effectively means our community is being asked to pay twice — first through tolls for our own essential transport link, and again through higher rates to fund infrastructure we are unlikely to use.

With the current cost-of-living pressures, a near 8% rates increase is excessive and unjustified for communities receiving minimal benefit. Auckland Council should reconsider both the scale of the increase and the fairness of requiring outer suburban ratepayers to subsidise large inner-city projects.

I urge the council to reject or significantly reduce this increase.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Support the bin/bag fee

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

There is much of a benefit of CRL to wider auckland folks, there are 1.6M people living in Auckland the CRL is benefiting less than 100K. It doesn't make sense for 90% of population to pay for the benefits of 10% people. There wasn't any need for CRL and the whole planning was done very badly and no one took the accountability when costs kept on rising.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Where is the support or help for the northern regio

No rail links no better transport

No support for local issues like Orewa sea wall or Maygrove lake

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The rate increases especially for beneficiaries and elderly is beyond cost of living rises

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

No great changes nor help

The North does not get support from Any part of our council

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Again our facilities in North hibiscus coast do not have reduced fees like south Auckland

This are is full of elderly and young families who are not earning high wages

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Rates increasing beyond of cost of living

Not Enough support for Hibiscus Coast local matters like Sea Wall Surf Club and Maygrove Lake

Our 80 year olds are having to climb into lake to remove weed and clean up where council should be helping

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Local park areas being maintained properly

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):The City Centre is having too much help when outer areas need support and better transport links it not just about central southern and west Auckland the north deserves a lot more attention

Annual Plan 2026-2027

#903

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Increasing rates in the current environment feels unfair, as it places additional pressure on homeowners who are already struggling with higher mortgage interest rates and the rising cost of living. Asking people to pay more tax on properties they already own can be very difficult, especially when the rateable value used for rates does not always reflect the true market value of the property.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I believe increasing rates again is unfair, especially at a time when many households are already under financial pressure. A key concern is that councils appear to have spent significant taxpayer money on initiatives that many residents feel are not a priority, such as large infrastructure projects like the proposed cycle path on the bridge. When spending is perceived as inefficient or misaligned with community needs, raising rates to recover those costs can feel unfair to taxpayers.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I believe there should be a much more careful approach to managing public spending, with a strong focus on reducing waste before increasing costs for residents. Rather than raising rates, councils should ensure that existing funds are used efficiently and that projects are properly planned and executed.

For example, many of Auckland's roads are in very poor condition. In some cases, roads that were repaired or resurfaced only a year ago are already deteriorating again. This suggests that work may not always be carried out to the proper standard, while costs remain very high due to government contracting processes. Improving oversight, accountability, and quality of work would help ensure taxpayers receive better value for the money already being spent.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Just more rate hikes and waste ahead. Auckland is now more expensive than living in London and has worse traffic.

More houses meaning more rates yet you can't manage money.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I think there needs to be more cuts and councillors need to stop wasting money. Why don't you get rid of local boards to save money - what do they do that justifies them being there other than suck more money from the council bank accounts with wages as well as expenses which I am sure are claimed.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Upper Harbour

Upper Harbour Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes to service levels and fees and charges?

A. Reduce maintenance activities may include stopping scheduled work on bollards, post-and-rails, and low-value bush areas, ceasing amenity garden infill planting and mulching, and reclassifying re-vegetation areas as bush.

Do not support

B. Reduce grants funding.

Support

C. Reduce funding across all programmes and projects including environmental outcomes, events and activations, cycling initiatives and community outcomes.

Support

D. Increase the fees and charges for Albany Stadium Pool: Option 1: Increase casual swim and swim plus fees by $1 (Fees will range from $5.00 - $11.40)

Do not support

E. Increase the fees and charges for Albany Stadium Pool: Option 2: Increase spectator fee and supervising adult fee by $1 (Fees will become $2)

Do not support

F. Increase the fees and charges for Albany Stadium Pool: Option 3: Increase spectator fee and supervising adult fee by $4 (Fees will become $5)

Do not support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

You need to balance the budget so rates are at the level of inflation or below.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
6	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Public transport that works - buses cancelled and cost for kids going to school is too high.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I am not going to get any use out of the CRL, i live outside the city and hardly go into it.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The only service i would be using would be the bins.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I don't know enough about it but i need to trust the people we voted in to do a great job.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

To get a fully functioning Council. You need to cut out all your PC compliance cost that constantly cripple the functioning of 90% of any projects your trying to install.

Things are taking far to much resources to achieve the simplest of jobs. Other councils throughout NZ have far less Income with better infrastructure. Allowing more generating income from in influx of people building high density housing only to have them sitting empty. seem very counter productive.

I can go on and on but your organisation is the most inefficient run organisation that needs serious looking at. Not trying to keep increase Rates.

Thanks

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Efficiencies

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Other

Tell us why (please be clear which priority you are talking about)

Get your money from better run council and then you can achieve everything

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Listen to people don't pick and choose the demographic

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Future proofing,

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Submitter details:

Organisation: N/A

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

As a business in Silverdale who received a 22% rates increase this year, to be planning another 10% next year is just robbery.

You have to cut your costs an services.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

You need to give people the opportunity to opt out of compulsory rubbish collection and the food scrap bin collection.

Both services were forced on Rodney ratepayers.

The bins were manufactured in Australia and shipped to n.z. so no local businesses benefited from the contract.

What is wrong with you idiots.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Get rid of them.

AK council does not listen to them anyway and there only job is deciding on the local Santa parade date.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Yes

All the councilor s and the mayor need to vote against the plan and send it back for reconsideration.

There should be no rates increase over the inflation rate

Council needs to cut costs and reduce staff

We don't need all signs changed to maori.

We don't need movies in parks.

We don't even need Auckland unlimited-sack them all and close it down.

Council is there to look after water-parks-roading - sewage-stormwater

Not to provide day care centre's, pensioner housing, and movie events with bean bags!

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Water, sewage, parks, transport

And amazingly in 2026 there is not even a direct bus service to the airport!!!!!

Bring back the airport bus from downtown asap

Question 6: City centre

Auckland’s City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland’s economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):The above choices are a good example of the ********** that council should not be involved in other than transport.

Annual Plan 2026-2027

#963

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Rural properties were hit with much larger than average rate rises last year and the impact of these increases will be further magnified with another substantial increase this year. This is particularly u fair given that the reason for rises is the CRL which the majority of rural ratepayers so t take advantage of. After so many years of neglect, Rodney was promised $120m over 10 years for road sealing (with a goal to have 1/3 of total unsealed roads completed in that time) but this seems to have disappeared. The current 24-27 unsealed roads plan shows only ONE! Small section of unsealed road due to receive new seal in 3 years!!!! This is unacceptable .

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

. After so many years of neglect, Rodney was promised $120m over 10 years for road sealing (with a goal to have 1/3 of total unsealed roads completed in that time) but this seems to have disappeared. The current 24-27 unsealed roads plan shows only ONE! Small section of unsealed road due to receive new seal in 3 years!!!! This is unacceptable .

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Sealing unsealed roads in Rodney. This has been neglected for far too long.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Rate increases are way too high for the average Aucklander. The rates are not sustainable for families whose normal annual increases are single digits. I agree on having savings so we don't rely on rates going forward but I cannot see how rates will decrease going forward with the high costs to own and pay of interest for CRL

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I don't have any comments on this

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

The infrastructure maintenance is extremely poor. The Orewa bathrooms need to be upgraded. Our beaches are washing away as we are not putting in proper sea walls to protect erosion. There is no investment in any services in the area where I live although our rates are so high.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Community safety is integral. Our communities don't feel safe. We are not doing enough to keep pur community and our businesses safe. Why are we not doing more to keep our communities safe?

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Rates are too high. We need to look at wasteful spending and cutting this. Rate payers cannot continously pay higher rates. It also feels investment in transportation is only focused in the city centre and South of Auckland with very little been planned for the Northern suburbs of Auckland. We should be able to select projects we want to fund with our money. You are also proposing a toll to use the Auckland Bridge on top of our increases rates. Could we have a refund or negotiate decreases in rates if Auckland Council does not deliver on their promises to us?

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Infrastructure improvement in all areas as there is a huge amount of growth and increase in housing but very little investment in any infrastructure. The current infrastructure does not support this growth. We need better roads, schools to be built, hospitals to be build and proper recreational facilities. Bathrooms that are cleaned and operational at local parks and beaches not out of order. Kids playgrounds that are well maintained and that we improve and upgrade every few years.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

My rates will increase by nearly $600 and a new total of nearly $7000 a year!

Struggling to pay for this in the middle of cost of living crisis and poor Nz economy. Would be different if salaries would keep up with the proposed increase but I doubt this is the case for most people.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Better use of rates payers money instead of increased or additional fees. I think a lot of money is wasted in my opinion and the core infrastructure is not up to a good standard.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Helping local boards respond to the needs of their communities. This is utterly vague and wishy washy

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The council is an immense waste of money and is a woke bunch of bureaucrats who do nothing. You are hated by most normal people. How about you start REDUCING costs for once. Total clowns

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

You do nothing to Help Long bay - we have been asking for CCTV cameras for years, vaughns road is still closed - as mentioned you are despised clowns

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Virtue signally sh&t - sort the basics, roads, waste, parking not pandery bullsh*t

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

You are hated by most people - stick to the basics, stop the woke ********** and start reducing costs you bunch of clowns

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
6	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Sort the basics fixing the broken transport and roads, parking, drainage, rubbish collection etc not inclusive murals

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Annual Plan 2026-2027

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The proposed CRL is a transport solution that ONLY serves a small centralized area of Auckland. We have one of the most redundant public transport systems in the world. It by no means even comes close to serving Auckland as a whole. This isn't an opinion, it's a fact.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

These are acceptable

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Upper Harbour

Upper Harbour Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Reasonable demands

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes to service levels and fees and charges?

A. Reduce maintenance activities may include stopping scheduled work on bollards, post-and-rails, and low-value bush areas, ceasing amenity garden infill planting and mulching, and reclassifying re-vegetation areas as bush.

Support

B. Reduce grants funding.

Support

C. Reduce funding across all programmes and projects including environmental outcomes, events and activations, cycling initiatives and community outcomes.

Support

D. Increase the fees and charges for Albany Stadium Pool: Option 1: Increase casual swim and swim plus fees by $1 (Fees will range from $5.00 - $11.40)

Do not support

E. Increase the fees and charges for Albany Stadium Pool: Option 2: Increase spectator fee and supervising adult fee by $1 (Fees will become $2)

Do not support

F. Increase the fees and charges for Albany Stadium Pool: Option 3: Increase spectator fee and supervising adult fee by $4 (Fees will become $5)

Do not support

Tell us why (please be clear which priority you are talking about)

Reducing spending on non essentials is fine, adding a consigliere fee to a spectator ascendancy is misguided and should be applied elsewhere

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Here's a strong, clear, ratepayer-focused statement you can use to challenge the **bin collection fee increases**, while still acknowledging your support for the sewage upgrade and choosing not to comment on the car permit proposal.

Response on Bin Collection Fees and Council Charges

I am extremely concerned about the proposed increase to bin collection fees. Waste collection is a core public service that should be funded through our existing rates, not treated as an additional revenue stream. Charging more for basic rubbish services signals poor financial management and a lack of accountability for how current rates are being used.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

"Residents are already facing rising costs across the board, and the council’s repeated requests for more money give the impression that you believe ratepayers have endless resources. Money does not “grow on trees

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A**0000000000000001**

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

00000

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

and many households are already stretched. Instead of introducing new fees, the council should be demonstrating responsible budgeting, reducing inefficiencies, and prioritising essential services within the rates we already pay.

I do support the planned sewage upgrade, as this is critical infrastructure that benefits the wider community and addresses long-term environmental and health needs. However, when it comes to the proposed car permit changes, I have no comment at this stage.

The council needs to stop shifting costs onto residents and start showing better financial discipline. Essential services like bin collection should be covered by our rates, not turned into yet another charge on rate payers.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

4

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Transport safety, cctv on buses and build another bridge crossing.Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

AT operates like a private company, stop them wasting money. Cut back in your Operational expenses. Stop hitting ratepayers. I didnt ask for the rail link, it does nothing for me on the shore. I shouldn't have to pay for it.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

User pays, if itd Whitaker area those in that area should pay, not everyone. Likewise Kingsland and onehunga, ive never even been to these places.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

There is a complete lack of specifics here, stop allowing local board to provide fluff buzzwords ans get specific. I'd say none of this relates to where I live but can't tell so neither support nor disagree. Get some detail.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**

- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

Local boards are best placed to know what needs are the most urgent and to support the local boards is important to implement the necessary maintenance or improvements. Investment in water and how that is managed is very important given the amount of flooding that we are seeing year after year. Investment in Transport is very important as the cost of living affects everyone.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Refuse exchange fee - unable to comment

Changes to BID programmes - the supporting documentation is unclear about the how the changes will impact so can't comment

Waitakere Sewerage Scheme - unable to comment

Increased parking permit fees - disagree about increase - poor planning and management in the decades past by council and developers on how to better manage traffic and parking in these areas should mean that those living there are penalised - residents whether they are ratepayers or tenants should be able to park there - ideally with no fee but an increase of $44 per year seems excessive - if you want people to live close to the city and jobs, you need to make it affordable for them to do so - poor management by councils of past should not penalise people living there

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

The key projects planned seem to have a high level of focus on recreational facilities in the area - my main concern is that once these projects are completed that they don't become white elephants and the youth actually use these recreational facilities and it is all not a waste of money - similar to all the cycle lanes and ways which do not seem to be used by cyclists etc that much - I often see on Quay Street that cyclists not using the two-way cycle lane but ride on the other side of the road - when driving around the city I don't see many cyclists using the special cycle lanes but actually keep riding on the road

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Other

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Other

Tell us why (please be clear which priority you are talking about)

I understand the reasoning for community to access a range of recreational opportunities but I am concerned that they become white elephants and no one uses the facilities - I guess time will tell if it is money well spent

I am concerned about the increase in fees for pools and leisure centres for the retired residents who probably use them more than others - it is not like the pension is adjusted adequately enough to counter the cost of living so I am concern that the older residents will not be able to enjoy these facilities

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I just hope that any changes that are made after consultation show that it is money well spent

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

The inner city is a mess - there are so many shops that are closed - there are a lot of homeless people - we need to set up much better housing and wrap around support for those people - it seems to be waste to see so many empty buildings and also buildings that have been left half demolished

etc. We need more housing so perhaps we could encourage better use of those buildings to provide housing for those who need it and at the same time house the wrap around support services. A mix of better housing and business in the inner city to make it a vibrant and attractive area to visit especially around the Aotea Centre area where I do like to go to shows etc but the area itself is a dump.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Other (please specify):I think all the improvements suggested should be implemented

Annual Plan 2026-2027

#1085

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Rates rises are too high.

Rate rises should be capped, and tied in with inflation. No higher.

Council with private funding should be allowed for major investment.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Again, tie increase to inflation.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Increase to high, not value for money.

Concentrate on water, roads waste.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**

- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Improve hospital and care services, for a growing grey population. remove all alcohol licenses within 500 metres of all schools. ensure all parks have dog under leads signage.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

N/A

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Many people are living on fixed incomes. Times are tough with the cost of living crisis and there is no spare money for such large increases in the rates. With the threat of WW111 imminent the cost of living is sure to rise again. The average person/family can not afford such increases to rates. Besides many of us will seldom if ever use the new rail line.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Whatever is going to be changed/ done needs to be within the current budgets - same reasoning as last question I answered. People/ families cannot afford rates rises in these economic conditions.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Other

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Tell us why (please be clear which priority you are talking about)

These are all good points but need to be addressed without extra costs.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Just as the everyday people have to live within their means/ income so does the council.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

N/A

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Personally, I feel rate increases need to stop and be capped as proposed. Unfortunately, people making decisions are not always in the real world, they don't feel the state of the economy and how difficult it is for the average person paying these increase's in rate payments.

I feel we need to look at more cost effective way in provididng services.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Other

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Other

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

I would like to see our local community police actively enforce penalties on young drivers that that hoon though streets -. Tougher penalties.

I was at Mount Maunganui last week, with tourests off the cruise liners walker though the

The Mount shops, what they ever thought of us as a country. Hoons racing up and down the main street at ridiculous speeds. Why is this tolerated in this country, when in other countries this is unheard of.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I feel councils need to give thought to planning of building infrastructure and how it impacts

on areas, thinking more of the long term effect

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I do not live in an area that will have anything to do with the CRL, but yet am forced to pay for it through my rates bill which is the main reason why rates are going to be increased.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I do not live in an area that will see any benefit from these projects.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

At least these things will impact/benefit my local community.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Do not support the majority of our rates increase covering the CRL.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Infrastructure planning around new developments needs to be better. Cannot build a new subdivision in the middle of nowhere with no links to other suburbs e.g Ara Hills in Orewa.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help

businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I do not agree with another increase in rates.

We pay more rates than we ever have and are getting less services.

The parks in our area are not looked after well slot of the rubbish bins are been taken away.

You are allowing high density housing which is poorly built allowing limited parking which is clogging up our local streets and ruining communities.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Do not agree with residential parking fees.

Just make new developments have to have sufficient parking NOT ONE CAR park.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

You are increasing our Rates yet reducing all our community services. What are we paying rates for then??

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

CRL could have be substituted for light rail at much less cost and disruption

Rates advertised By AC as average is misleading and misrepresenting

My rates 2025-6 increased by approx 14% but advertised as 5.8%?

AT money wasting e.g. speed bumps continues... hopefully this will change when taken in house

NGOs most always spend their budget-hence the incentive to spend on "nice to haves"

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

7.9% is unacceptable

Look for other cost savings e.g. recyled bins collected 3 weekly

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Look harder for savings in AC expenditure e.g. council salaries

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Congestion charging

Toll roads to facilitate better transport links

?? why is Penlink not 2 lanes each way and tolled? The time / petrol savings by avoiding going via Silverdale has not been explained to "hand wringers" complaining of small charges!!

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces

work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Happy with these, but would like to go further and see commitments for rail connections to North Shore and Auckland Airport.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Happy with all of these.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Rail connection to North Shore.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

It's absolutely a rip off!

Optimise council operation and review your project execution and contractors.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Does not make sense at all. You should have proposed having less staff and managers, reduce mayor's salary for all tax payers benefit.

Won't support any changes if had a choice!

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

I don't know

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

It all makes sense in pushing Auckland forward.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

All changes make sense and seem fair.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

They seem sensible

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

All recommendations seem fair and make sense.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Wastewater management, and the quality of drinking water and seawater.

For our health and in protecting our waterways and overall environment.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

People won't be able to afford the rates

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I want to be able to only pay for the rubbish I use not have it included in my rates.

None of the proposed areas benefit me why should I have to pay for them

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Please do not increase rates as a single mum I can barely afford them as it is

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Our rates in Whangaparaoa are extortionate enough as it is, yet we constantly get a stench of sewage in our sinks etc. The ferry is often cancelled as it seems its required back in the city due to faults on older ferries.. People often stranded. Without much warning. When we use the busses, we pay.. but do not agree to pay for something we never use as it is not local to us or benefit us. It should be the users that pay, end of.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Think you ar just out to rob the working people all the time.. then services are **********. And already too expensive

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Already un affordable for some.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Think the council need to address their constant over spending and enforcing hard working people to pay for it , whilst those unemployed dont have to pay a penny

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Flood resilience in prone areas.. before tourism influx.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Its a joke. You hiked up my rates in 2025 and I live rural. I have no access to the crl and services such as public transport(bus) in my area. I am on septic tanks for waste and rain tanks for water for my home. You require me to keep my services on my property up to date (septic tank access and Inspections which i have to send to you along with maintaining the access road to my property which is the only access route) and that idiot brown says that because i live rural im privileged and should be paying high rates because what i work hard. How about instead of paying you senior tram huge salaries and wasting g funds on projects we dont need or consultation s that add zero value you

spend it on fixing the things already in place. We were one of many affected in the 2023 floods when we lived in the city and the waste water/rain water infrastructure wasnt up to scratch them and still isnt.

You knew crl was going to be blown way over budget but expecting those rate payers to cover up your failings in cost is horrid. Thos win the city that can use it and who have access to your full array of services should be covering the cost not us rural rate payers who have no access to these things.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

The rates increase is another example of how poorly wayne brown is running Auckland. Wonder what email he will send out this time round without thinking.....

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

None because you dont seem to care about us rural rate payers only those in the city

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):Looking after those outside the city. Auckland cbd has become a joke

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

We dont have trains on the North Shore/Hibiscus Coast and upwards. To have an increase in rates based on a service we cannot access isn't equitable. We pay for this service and yet pay more also because we have to travel by bus or mostly by car to get to work since the service isn't accessible to us.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Not applicable

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I think A T needs to apply user pay on new motorways , bridges.....

I live in Orewa and use SH1 almost daily. I would much rather pay than sit in cues

and delaying my travel with sometimes 40 to 60 minutes to the city.

As long as alternative routes are available for drivers who do not wish to apply

user pay, then I cannot see why it is not applied.

Building roads for the future is to be planned simultaneously with building developments.

The bridge and roading under construction at present from Stanmore Bay is inadequate looking at the housing development planned for the Peninsula and then hoking the very same traffic up to SH1 which is already clogged up 24/7!!!!

Very bad planning!!!

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

One would hope that an 8% rate hike would cover the refuse.

Infrastructure like sewerage is a must again with the population increase .

Residential parking fees.....local streets are clogged with cars.....maybe residential parking

fees have to come.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

I don't know

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Do not support rates or building 0lams.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I think the proposed rates increase is outrageously high especially after the recent increases and bin charges. I do not support an increase of over 3.5% rates increase. Since this is mostly due to the CRL which you state will have large economic advantages, add the tax onto businesses instead as they are the ones who will benefit from it. Or acd the cost to the user of the service, not to us all.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I think we need a new hospital or 24 hr emergency healthcare facility on the Coast

I am hopeful that the new Red Beach pump track is as good as the Matakana new one.

There's far too much development and not enough infrastructure being well planned on the Coast. Gulf Harbour ferry should run at weekends to keep less traffic on roads and kids should be free.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Other

Tell us why (please be clear which priority you are talking about)

5) We don't have a decent pool facility on the Coast for kids. Stanmore Bay is far too cold and boring. Albany is great, but we only go because kids are free. A good outdoor pool facility like Parnell pools is needed.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

The build environment - no town planning or infrastructure plan should be allowed to be submitted without a 50-100 year ahead consideration. People widely complain about the problems caused by a total lack of insight and planning completed by the Council who only want to squash houses in with no yards, no room for emergency services, no medical centres or hospitals or schools. The 1 is not able to sustaon the cars for all the houses and yet you built bus station parking far too small with no fore thought. The traffic will soon emulate yhe SH1 and as a bottleneck the city with choke. You can't just keep building houses without thinking seriously about major infrastructure options for north Auckland.

You say you wish to make the city a place for tourists to visit but I've seen no evidence of making the city a tourist destination. So muvj money could be brought to the area if this is well planned and considered as a long term plan. I look forward to seeing what ideas you come up with and hope they are more innovative than current.

Question 5: Looking further ahead / shaping Auckland’s longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
6	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Other (please specify):Bring more touriat attractions to the city rather than it being a corporate location.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

The proposals including the CRL and especially the sewerage upgrades are sound and much needed. Of course they will cost money so I support the increased rates to fund these proposals

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Appropriate

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

I think they are important for ensuring the Bays are a great place to live

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

These are essential - especially those relating to our environment. In view of the current economic situation it seems logical to increase or align the fees across our leisure centres

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

The environment and flood planning - both go together really. Without adequate and appropriate planning for climate change/flood planning we won't have a liveable environment

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Increasing rates are not good becuase it's just extra cost of living and they don't do much. They are already receiving a lot of money so there is no reason for an increase in this.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

If the are changing things in Waitākere and Onehungawhy would we have to pay for those changes?

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

going to HIT me in my wallet

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

hopefullylly don't affect me as a Long Bat Resident !!

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

again hits me in my pocket already paying high rate cost and Mayor before elected said minimum rate increases could be expected !!! Politicians never tell the truth

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

1 to 4 is what all councils should be doing and not some of the grandees ideas some councillors have

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Don't know why North Shore residents rates go towards the New Train Auckland will have soon.

USER PAYS. !! Haha !!

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

running a tried down council and keeping rates down AS PROMISED

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

North Shore has no rail so why should we support this?

Retirees not condidered - affordability

Roads unmanageable now with off street parking with infill housing - 8 to 10 houses replace 1 dwelling.

We pay improvements in our water rates... This is double dipping

New housing not being inhabited by those in need

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Public transport does not support parking permit and housing (all single garages in new developments)

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

What's in it for us.

Libraries are one of the few resources we benefit from

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Other

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Security. Our taxes pay for policing already

Accessibility.. Fully support this but little evidence of this in the Bays. E. G. Pavements and accessibility parking

Fully support libraries and parks but not recreation centres. Should be user pay.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Suggest cutting back on overinflated salaries at top tier council levels.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**

- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Flooding is still a major issue. What have you done since 2023 floods?

Roads too narrow to support flow. I examples include Tristram Ave, Constellation Drive, East Coast Rd and all side streets now with infill housing.

No longer just peak hour issues

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Its good

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Devonport-Takapuna

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Support

B. Reduced library hours over 7 days.

Do not support

C. Reduced local board funding to local organisations that deliver local events.

Do not support

D. Reduced budget available for contestable grants.

Support

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

Do not support

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

Support

G. Reduced funding for parks volunteers.

Do not support

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Do not support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Current inflation and worse economy increase huge burden on households living!

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Huge burden on households living due to the inflation and worsen economy!

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

During the hard time, the unnecessary projects should be postponed. The projects should start in the booming period.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The rates are already very high & hard on many households with the cost of living crisis

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

I support delivering a pump track but projects like skatepark at Stanmore Bay aren't benefiting the whole board area

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

The proposed rates increase is unrealistic.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Having a CRL will of course bring benefits to Auckland in general. But as a rate payer Who has no use for this mode of transportation I feel that the 7.9% rate increase because of that pretty unfair and highly disproportionate.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

I don’t know

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

These are reasonable and the cost of living is already prohibitive in so many areas. Keep fees reasonable so people can afford to take care of their wellbeing.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

Because it is a good investment as it will help develop ongoing issues in things such as public transport.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Pretty good but this doesn't affect me.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Devonport-Takapuna

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

I think it is something good and reasonable to focus on as it will help me and my community.

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Do not support

B. Reduced library hours over 7 days.

Do not support

C. Reduced local board funding to local organisations that deliver local events.

Do not support

D. Reduced budget available for contestable grants.

I don’t know

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

Do not support

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

Do not support

G. Reduced funding for parks volunteers.

Do not support

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Do not support

Tell us why (please be clear which priority you are talking about)

This is because reducing the funding on these things can seriously affect communities such as reducing library hours. I personally love going to the library to get books because I love reading so reducing the hours will minimise my opportunities to go.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

The environment like parks and swimming centres because I would use it frequently and I know a lot of families will as well.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

Auckland is a very good place already, but having these additives will help boost the economy, in more ways than one.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I like the changes that will be ongoing and I think that they should get underway.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Devonport-Takapuna

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

The options are great ideas.

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Support

B. Reduced library hours over 7 days.

Do not support

C. Reduced local board funding to local organisations that deliver local events.

Support

D. Reduced budget available for contestable grants.

Support

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

Support

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

Support

G. Reduced funding for parks volunteers.

Support

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Support

Tell us why (please be clear which priority you are talking about)

I believe that the library should be open most hours of the day.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Meetings where if people are struggling with flood damage, how they can be helped and brought together as a community.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Most of the increases are not relevant to Orewa

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

As a pensioner I cannot afford these increases and Brown said no increases when he was the mayor

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Don’t need these changes

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

All of them

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Do not increase the rates as stated the cost of

Icing is high enough without another rate increase

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027-2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

The library

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

It is good for the city and will benefit lots of people. These changes will make it easier for people to move around and give access to water for more people. I have been noticing lots of people complaining about 'no buses' to a certain place, or 'horrible walking routes' for one way. Now we can fix it and potential decrease car usage overall.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I think it will be a great way to help the community.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

It will help my area in particular because almost everyone prefers to walk around. We are very environmentally aware and want to help by all going on bus, or walking to school or work.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

I don't know

Tell us why (please be clear which priority you are talking about)

I agree with the point about making the suburbs more welcoming because it will make more people want to visit which will boost our economy.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

No everything is great.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I think transport will be very good for our city. It will help the carbon levels decrease and benefit almost everyone with transportation.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

In general I am in support of making improvements and prioritising investment in transport, local boards and water.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

This is far too big an increase when household budgets are already being squeezed by rising costs elsewhere. I understand the need that investment in services requires funding and this is largely from our rates, but this kind of increase is difficult to justify when I see little benefit on a local perspective. The money is generally poured into central and southern Auckland which does not benefit me and my family. There needs to be more thought when approving residential development from a long term perspective in terms of planning, infrastructure and support services. New residential developments are being built quickly and they are crammed in, have no/little yard/garden, narrower streets making it difficult for emergency services to access, limited new schools and healthcare facilities or libraries and community centres and increasing strains on wastewater and stormwater assets. The main roads are already congested and this will only get worse with the rate of development and no plan to improve the infrastructure. Penlink will help, but this is only one way (in each direction) - that is not long term planning. The SH1 cannot cope with the additional capacity from new developments in Orewa, Milldale, Wainui and beyond. Northern extension of the NX busway is also a short term fix - why not extend this north and south from Hibiscus Coast Station to/from Albany? It would be expensive but worth it. The constraints of Penlink connections make this almost impossible, at the very least expensive. Again, no long term thinking.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Generally the proposals are good, but they don't go far enough. I think the area should look at investing in an outdoor swimming pool perhaps a salt water one on the coast somewhere and improvements to health care provisions

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

In general the plan needs to consider more targeted areas and the cost of CRL provides little benefit to my family and I. The valuation of property and the process to appeal also needs looking at - we purchased in August 2025 but that misses the window to dispute the valuation which I currently do not agree with and is critically linked to rates. The rate increases is too much and needs reconsideration at a time when household budgets are already under severe pressure.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Better long term planning of residential developments and associated infrastructure and services - this is currently not well thought out.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Infasturcture

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

#1401

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

City rail link run poorly, many downtimes, not present for many Auckland regions including mine, doesn't lead to the airport. 7.9% increase is way above inflation.

CRL either must radically improve quality of service or decrease amount of money it sees.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Doesn't affect me.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Youth park being built which is a positive.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Land is getting more expensive and it will become harder to own a house even if you are helping other places.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I agree with this but don't make it too expensive or people will just start littering because it's too expensive to throw away trash. But asking people to donate for a sewage scheme is fine.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Price increasing will make it a lot harder for civilians even if it seems beneficial for you.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

You can improve our living conditions but only with your own money. If it was up to me I would carry on living like this because prices are already high and we don't want anymore fees for a minimal effort.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Try harder for economic development because that is what will bring you money. This may all the others will improve with it.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Currently I feel that the biggest problem with New Zealand as a whole is the housing shortage. Increasing the rates and forcing property owners to pay more will obviously also increase the rent that people pay for their roofs. Although these causes are important, I feel that when they are compared to the current economic problems they stand insignificant.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Not too sure but they look good.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I think that a lot of the problems they are trying to solve and the things they are trying to maintain that are currently good have been recommended by the community. It feels better to know that money is being used on what actually directly affects people and their daily life.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

I think that they are all important and I don't really have anything specific to say.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Apart from what I mentioned at the start about work and housing shortage, I think that everything is looking good. It is good to see such amazing development in our local cities and towns.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.,Other (please specify):Housing Cost

Annual Plan 2026-2027

#1419

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I believe the proposed 7.9 percent rates increase is too high for the average Auckland family, especially while many households are already struggling with rising living costs. Increasing rates places additional financial pressure on residents who are already paying more for essentials like housing, food, and utilities.

I am also concerned that this increase is largely linked to the cost of the City Rail Link. Spending around $5.5 billion to build only 3.45 km of twin rail tunnels and several stations seems like an extremely inefficient use of public money. It does not seem fair that ratepayers are now expected to carry the financial burden of such an expensive project.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I am concerned about the continued increase of additional fees and charges on top of the proposed rates increase. Introducing new costs such as refuse bin or bag exchange fees and higher residential parking permit fees will further increase the financial burden on residents.

While funding services is important, these additional charges may disproportionately affect households that are already managing higher living costs. The council should carefully consider whether these increases are necessary and ensure that residents are not being overburdened with multiple new fees at the same time.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Upper Harbour

Upper Harbour Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Any new spending should be carefully considered given the current cost of living pressures. The local board should prioritise essential services and projects that provide clear value to residents rather than introducing additional costs wherever possible.

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing

services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes to service levels and fees and charges?

A. Reduce maintenance activities may include stopping scheduled work on bollards, post-and-rails, and low-value bush areas, ceasing amenity garden infill planting and mulching, and reclassifying re-vegetation areas as bush.

I don't know

B. Reduce grants funding.

Support

C. Reduce funding across all programmes and projects including environmental outcomes, events and activations, cycling initiatives and community outcomes.

Do not support

D. Increase the fees and charges for Albany Stadium Pool: Option 1: Increase casual swim and swim plus fees by $1 (Fees will range from $5.00 - $11.40)

Support

E. Increase the fees and charges for Albany Stadium Pool: Option 2: Increase spectator fee and supervising adult fee by $1 (Fees will become $2)

Support

F. Increase the fees and charges for Albany Stadium Pool: Option 3: Increase spectator fee and supervising adult fee by $4 (Fees will become $5)

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Rates rise is much too high. Our wages haven't increased by anything like that much. Natural increase is occurring all the time with large number of infill housing and new builds

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Other

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Other

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Other

Tell us why (please be clear which priority you are talking about)

This plan is very unspecific so hard to know if I support these ideas, ie what are the fee changes??

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

We need to bring back parking requirements for new builds. The streets are becoming so congested it is unsafe. Too many houses being squashed in.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

More safe cycle ways, playgrounds ie long bay beach is used by so many people but playground pretty poor

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Rate hikes while other services are going as well, do not help the general public.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Do not agree with the refuse bin / bag rates. We are already paying for so much, so it's not largely justified. Auckland Transport have already hiked fees in Feb 2026 so this is all putting a strain on households.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

All these proposed investments are not going to improve the area. Really focus on what matters and spend the money wisely.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

How can you prove that our feedback is really being considered, rather than just ticking a box formality to collate and never action any of it.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Infrastructure improvement and facilities maintenance across parks and reserves.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

While I do support all of these as they are good ideas, I'm not sure whether they will be cost-effective.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I can't exactly comment on this as I dont't really understand.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I support most of them and not all of them because one I dont't really understand a few of them and two I'm not sure whether it is a practical way to spend your money unless you've gone through all viable options.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

I don't know

Tell us why (please be clear which priority you are talking about)

For the supporting further protection for our sea, soil and water contamination and sedimentation, I believe that is a really good idea because people are contaminating our water with pollution and junk so I think this ones is a really good idea

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Probably outdoor parks and activities because some parks around my area are really old and have a few broken playground sets

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I think the idea is pretty good, some feedback from people from different backgrounds would help (eg. impovished, different backgrounds, different places, water quality places, rural places)

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The Auckland transport, as someone who uses it often, is already extortionately expensive! 7.9c a year is literally nothing. But the bag exchange fee some people need, and removing that will be bad.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I feel like most people won't notice the good thing that is happening, only the bad things as local governments aren't recognised or cared upon by locals.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Other

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Annual Plan 2026-2027

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I am a North shore resident, none of the transport options really make any dent on our out of control traffic to get to and from CBD at rush hour. I don't see any benefit in building roads. We are have water around us that should be used as ways of transport the masses. We need more ferries terminals in the Hibiscus Coast area to make the roads less busy, to minimise the pollution and to have a more sustainable way of transport.

We are very poorly look after by the council. I reside in Stillwater and we don't even have a public transport available to us. The living costs are so higher than few years back and there is no increase in my salary foe years. If the rates goes up in 8% it will out my family in a hardship. Considering that we are forgotten piece of Auckland, increasing our rates only would benefit the people that are already well looked after by the council.

I believe the rates increase should reflect the areas that are getting the benefit of an extension of the rail, for example. It isn't fair for people like us that are not taking any of benefits in the proposal to pay for the rest of the Great Auckland area

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Impossible to keep up with a substantial increase proposed when we are already struggling to survive with an income that isn't following the inflation. Not to mention that all the benefits of this increase won't reflect in 1% on my neighbourhood. We are part of Auckland that is forgotten and it isn't a fair way to share the increase suggested

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Nothing happens in Stillwater to help to develop this small community. In fact, we are being hit hard with an obsolete bridge that will bring more pollution and disruption to an area already struggling

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Do not support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Do not support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

There is nothing at our reach. The closest place for water sports activities is Silverdale and that unfortunately is not catered for the community

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

We need to invest is public transport that dos not rely on roads. The areas that need more support are not even considered to have train extensions to it. The North Shore area is no doubt one of the biggest areas in density and ao far, our public transport is not scratching the surface in minimising the use of cars and creating a less poluted Auckland. It is a shame that there isn't a forward thinking in regards to the North Shore and Hibiscus Coast area. Our rates should be used to benefit our area of living and not others part of Auckland.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Infrastructure to accommodate the huge amount of housing that is out of control. There aren't any Infrastructure in place for what is already there and even less for what is yet to come.

We don't need more roads, but a public transport that is attractive and smart.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

We are in a cost of living crisis and familes have to make do with no increase in income. Auckland Coucil should do the same. Set the budget at the same as last year and reduce costs to pay for City Rail Link.

To help Deloites report identified Wellington City Council has 330 more staff than they need. This is 16% of the Council workforce. Auckland has 7,160 staff which strongly suggest that Auckland Council could reduce staff easily by 1,140 staff members.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

We are in a cost of living crisis and familes have to make do with no increase in income. Auckland Coucil should do the same. Set the budget at the same as last year and reduce costs to pay for City Rail Link.

To help Deloites report identified Wellington City Council has 330 more staff than they need. This is 16% of the Council workforce. Auckland has 7,160 staff which strongly suggest that Auckland Council could reduce staff easily by 1,140 staff members.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I don,t understand why people on the shore should fund the city rail link, when they don't have day to day access to it

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Don't support the Kingsland and Onehunga Business improvement District (Businesses should fund their own)

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Why should people who live on the shore fund projects in other parts of Auckland with no benefit to them

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Infrastructure and making the developers pay full costs for connections (Not just a donation!!)

And council employees being more accountable

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city

centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The proposed cuts in funding deeply effect how community organizations are delivering key services to our communities...the proposed cuts to the arts and community centres adds financial and accessibility issues for people who wish to engage with the arts and community programmes/events.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I do not support these changes to the proposed rates & fees charges...the council fees keep increasing fees to a point where it's not fair and unsustainable.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Devonport-Takapuna,Hibiscus and Bays

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Council rates/fees are always increasing but council supported organizations seem to get less funding to deliver free and accessible programme, services, and events to the community,

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Do not support

B. Reduced library hours over 7 days.

Do not support

C. Reduced local board funding to local organisations that deliver local events.

Do not support

D. Reduced budget available for contestable grants.

Do not support

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

Do not support

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

Do not support

G. Reduced funding for parks volunteers.

Do not support

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Do not support

Tell us why (please be clear which priority you are talking about)

As a trustee for one of the local arts centre in question, a cut in funding would mean that communities bear the burden of additional costs to experience and share arts, culture and learning opportunities. It will also mean job cuts as Arts Centres are no longer viable to run as a community centre and will need to explore being a commercially driven organization instead

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Council fees are increasing year or year but the council facilities and parks around the local board are being poorly maintained...

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Other

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Other

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

I would support increase funding to maintain local parks and recreation spaces to be family friendly and welcoming...there has been a big drop off in maintenance and presentation of local recreation places and facilities that has made things look uninviting. Increase in fees to recreation and leisure centres will add more barriers and difficulties for communities to enjoy and support mental/physical wellbeing

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

The need to grow and maintain the city's infrastructure is important but cannot be done at the risk of cutting funds to vital community centres where communities can and are currently enjoying accessible and affordable arts, leisure, cultural and wellbeing experiences. Funding cuts means organizations will likely onset costs to AKL taxpayers and building extra stress on stretched households and further job cuts.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Council needs to maintain support for recreation services, community centres, libraries and also funding community-led initiatives.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Because the rates and resources have already increased a lot, increasing rates will hit some families hard; despite the 7.9 per cent for average-value property, it still affects people. I searched for my own house, and the increase is large, and our rates are already pretty high. I also do not use the City Rail Link at all.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Apart from the bin fee, none of this is relevant to my family or me.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

I am not aware about any options for my local board area in 2026/2027, or know any information about them.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

I don't know

Tell us why (please be clear which priority you are talking about)

I do support the change and investments in areas like environment, facilities, safer towns, and the bays being welcoming to people of all backgrounds, ages, and abilities. I am not knowledgeable about the changes to the fees for pool and leisure centres, so I will not make opinions on it.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I think flood resilience is really important because people I know were affected heavily by Cyclone Gabriel, losing their houses, pets, and my family lost power at our house for days.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Support the investment however am concerned with the percentage increase in this current climate

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Seems fair

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Good initiatives

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Sea soil and waterways is very important to coastal living and the future of our community

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Planning infrastructure for growth , the demand for infrastructure is so high and driving cost of living prices

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Devonport-Takapuna

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

I do not support reductions to local events, community grants, local organisations, or arts services in Devonport-Takapuna. Our community needs fair funding to protect participation, wellbeing, and affordable access to local services

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Do not support

B. Reduced library hours over 7 days.

Do not support

C. Reduced local board funding to local organisations that deliver local events.

Do not support

D. Reduced budget available for contestable grants.

Do not support

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

Do not support

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

Do not support

G. Reduced funding for parks volunteers.

Do not support

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Do not support

Tell us why (please be clear which priority you are talking about)

I do not support reductions to local events, community grants, local organisations, or arts services in Devonport-Takapuna. Our community needs fair funding to protect participation, wellbeing, and affordable access to local services. Furthermore, funding for parks services and volunteers is vital to ensure the long term health and survival of such parks.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Submitter details:

Organisation: N/A

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The 7.9% increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link. No. I live in the northern suckland suburbs which has no accessibility to this service. User pays is a fairer way yo cover this cost.

The increase in rates, utilities, insurances and general rise in cost of loving is killing Auckland residents. It's getting harder year after year to actually live. Don't lump Aucklanders into one lump of paying fir services half of us won't even use. Its outrageous and unfair.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Again nothing here in my local board so nothing I should be paying for...

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

What we desperately need is investment in fixing old infrastructure that leaks sewage waste onto our beaches and oceans after every rainstorm. It is archaic and should never be a modern day issue!

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
6	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Agree

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I feel ferry services - particularly ferry services to and from Hobsonville Point and Devonport require extra funding to deliver an increase in frequency for more travel choices to customers. More peak sailings. Also more funding required to replace the ageing ferry fleet.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Appreciate the additional investment into playgrounds and renewal of existing spaces. However as a local resident we would love to see investment into a playground/play space in the Red Beach Fletcher's Subdivision on Taikura Ave. There is currently a wide open grass space which is under-utilised by the community in the area.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

As a North Shore resident it's quite frustrating that the CRL is largely driving a rates increase, given that this will not benefit us in the slightest

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I think targeted rates in the areas that will benefit from chnages would be a better option

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

Hibiscus and Bays Local Board has a good sense of what matters to its community and responds accordingly

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Creating social infrastructure to support increased densification, particularly to ensure that the city works well for younger people (who are completely absent from feedback) - safer local streets, plenty of safe road crossings, access to parks, etc.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The services upgraded are not equal for all. Living on the North Shore we are being told to pay for a central city rail link that does not benefit us. In a cost of living crisis this is unacceptable. Meanwhile no effort is made to improve congestion on the Shore.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Other

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

In a cost of living crisis it is irresponsible to be raising rates.

Most families are living hand to mouth and rates use largely to pay for transport for others will greatly reduce quality of life for many families.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Streamlining costs - Council spending is currently far to high with much wastage.

More focus on better managing roads. Current measures such as poorly designed crossings, badly phased lights, poorly trained bus drivers and parking allowed on both sides of many roads adds to unnecessary congestion, causing additional stress to the average person's day. As it is currently unsafe for myself (female) or children (Teens) to travel by bus due to the number of attacks, there needs to be adequate provision for the number of families that now have to rely on a car for work and activities.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.,Other (please specify):Ability to drive into, and park in the city to access activities and businesses

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I live on the Shore, work on the Shore and don't use the rail so I dont' see why I should have to have such a large increase to cover this service.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Increases, increases, increases is all I see here. We already pay for waste in our rates, we don't need yet another fee for this.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

I don't know

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

They seem fine.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I think the ideas and changes are good.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Other

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Do not support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

I like the changes to the leisure centers and supporting protection of the sea.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

There are no question or comments.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I think local parks and sports fields is most important so kids in Auckland have places to go.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

I don't know

Tell us why

Yes

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Yes

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

I think it's good that they are prioritizing investing in local brands because It will help lots of families and communities that need help with their finances for their businesses.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I don't think we need to increase the rates for parking fees because lots of people already struggle with paying them and increasing the fees is not going to help.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

i agree

Question 4: Other feedback

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

1. I think it's very important to protect our seas, specially as we are surrounded by them.

3. A safer town centers would be better for the community as a whole.

5. The pools and leisure centres could be a place that people can connect.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Well when rates go up so is our rental price

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

I don’t know

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

I don't know

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Just the Gulf Harbour ferry. If there could be an early morning ferry for those of us that starts early in the city like a 5am or 5:30am.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

#1680

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

I feel all of this is important, especially the transport, as it is often problematic to get where you want without access to cars

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

I believe that investing in transport, water etc is very important, as it improves the wellbeing of the local community.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I believe that parking fees are already quite high, and may pose as a problem for locals, especially if there is an increase of 7.9% for average-value residential property.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Devonport-Takapuna

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

I agree with the options available, and believe they are all important to creating a more unified local community.

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Support

B. Reduced library hours over 7 days.

I don’t know

C. Reduced local board funding to local organisations that deliver local events.

Do not support

D. Reduced budget available for contestable grants.

Support

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

Do not support

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

I don’t know

G. Reduced funding for parks volunteers.

Do not support

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Do not support

Tell us why (please be clear which priority you are talking about)

I believe funding for the environment, volunteers, and organisations that support youth and senior members as well as funding for local events should continue, since all of these contribute to the well-being of the community.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland’s longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland’s future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland’s spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Local parks and recreational activities: creates a healthier, happier community

Transport: easier for locals to get from place to place

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre

is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

As a Hibiscus and Bays local resident, I am not happy that the rates increase is mainly due to fund the City Rail Link; not only have I never used a train in my life, the Rail Link does not even service our local area (Whangaparaoa peninsula)

I would appreciate if the taxes we pay fund local infrastructure items that we ACTUALLY use/will use ie:

- Improve the wastewater issue in Gulf Harbour.

- remove the tolls for The Johnstone's Hill Tunnel and the O-Mahurangi - Penlink.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Upgrading Stormwater and current wastewater facilities to better protect our natural environment especially streams and coastal areas.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):I don't visit or use any services within the City Centre, but the traffic coming in and out of the area does impact the surrounding arterials immensely; maybe work on improving that flow?

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

The annual plan proposes to continue the garden waste collection which is a very expensive way or reducing carbon dioxide emissions.

The following calculations show the poor of Auckland are subsidising the political dreams of the rich. The following info from Council shows that it is just a political stunt because it shows the cost of C02 emissions prevented is around $600 to $700 per tonne.

A good question would be for the staff to provide to Council the nearest possible estimate of that figure and to also give the current market price of a tonne of CO2 discharges so they can estimate the wasted money.

The food waste collection system should be cancelled forthwith and each ratepayer given the responsibility of their own CO2 emissions. This is worse than a nice to have because it is a waste of pensioners money.

Local Government Official Information and Meetings Act 1987 (LGOIMA)

Waste Collection System

Thank you for your request dated 1 November 2025, for information related to Waste Collectgion System data.

The specific details of your request and our response are below.

How much was the setup cost of the food waste collection System? How much is the annual cost of the food waste collection system including depreciation? What is the carbon emission reduction in tonnes of carbon dioxide compared to the prior carbon emissions of the preexisting system taking into account the carbon emissions of transport.?

Our Waste Solutions department have provided the following information:

How much was the setup cost of the food waste collection System?

The rollout cost of the Food Scraps service in FY23-FY24 (the year of the roll-out) was $8,287,807.

How much is the annual cost of the food waste collection system including depreciation?

Depreciation costs for the overall Waste Solutions are processed centrally, and the current records and system do not provide a breakdown of the depreciation portion attributable to Food Scraps.

The total operational cost of the Food Scraps service (collections and processing) for FY24/25 was $25,379,177

What is the carbon emission reduction in tonnes of carbon dioxide compared to the prior carbon emissions of the preexisting system taking into account the carbon emissions of transport

Between the start of the Food Scraps Service (April 2023) to October 2025 over 56,000 tonnes of food scraps were diverted from landfill. This has saved Aucklanders approximately 36,000 tonnes of greenhouse gas emissions (tCO2e).

Many of the food scraps collection trucks are electric, with the aim to eventually increase the EV fleet as they become easier to acquire in New Zealand.

The trucks that transport our food scraps to the Ecogas plant in Reporoa would otherwise be returning empty after having transported aggregate to Auckland, so our food scraps ‘piggyback’ off an existing trip.

Decisions relating to the information that is being released to you were made by Justine Haves, General Manager Waste Solutions.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

N/A

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Devonport-Takapuna,Hibiscus and Bays

Devonport-Takapuna Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

I do not support reductions to local events, community grants, local organisations, or arts services in Devonport-Takapuna. Our community needs fair funding to protect participation, wellbeing, and affordable access to local services.

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes?

A. Reduced maintenance of bollards and fencing, stop scheduled maintenance for bush area (except High Value/Ecological areas), reduced service level for amenity gardens and planted areas, and reclassifying re-vegetation areas to bush areas.

Support

B. Reduced library hours over 7 days.

Do not support

C. Reduced local board funding to local organisations that deliver local events.

Do not support

D. Reduced budget available for contestable grants.

Do not support

E. Reduced funding for organisations that deliver support and services for seniors, youth, ethnic communities, sport and recreation and community wellbeing.

Do not support

F.Reduced funding support for The Depot, Devonport Museum, The Lake House, The Michael King Writers Centre, North Shore Brass, The Pumphouse and The Rose Centre.

Do not support

G. Reduced funding for parks volunteers.

Do not support

H. Reduced funding support for environmental restoration, planting, pest management, and waste minimisation.

Do not support

Tell us why (please be clear which priority you are talking about)

All of these directly impact areas that build and support communities

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I do not support reductions to local events, community grants, local organisations, or arts services. Our community needs fair funding to protect participation, wellbeing, and affordable access to local services.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
6	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

All of these things are so important

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

I support all because I like how they really focus on all projects that will benefit the wider community. They are investing something I think is responsible and needed.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I like how these rules can help us save money. Something that I think should be taken into consideration is how high the parking permit gets. We understand that revenue from these activities helps Auckland thrive, but we should ensure parking prices don't get too high.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Upper Harbour

Upper Harbour Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I believe these rules are here to benefit the communities and minorities. Something I would like to see is support for the youth and mental health programs.

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes to service levels and fees and charges?

A. Reduce maintenance activities may include stopping scheduled work on bollards, post-and-rails, and low-value bush areas, ceasing amenity garden infill planting and mulching, and reclassifying re-vegetation areas as bush.

Do not support

B. Reduce grants funding.

I don’t know

C. Reduce funding across all programmes and projects including environmental outcomes, events and activations, cycling initiatives and community outcomes.

Do not support

D. Increase the fees and charges for Albany Stadium Pool: Option 1: Increase casual swim and swim plus fees by $1 (Fees will range from $5.00 - $11.40)

Support

E. Increase the fees and charges for Albany Stadium Pool: Option 2: Increase spectator fee and supervising adult fee by $1 (Fees will become $2)

Support

F. Increase the fees and charges for Albany Stadium Pool: Option 3: Increase spectator fee and supervising adult fee by $4 (Fees will become $5)

I don’t know

Tell us why (please be clear which priority you are talking about)

I believe that if we reduce funding for organisations and community events, it will affect what these communities can do. Money isn’t everything, but it is still needed to make things happen and support activities that bring people together.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland’s longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland’s future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland’s spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

more areas/events that allow people to connect and have fun.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I think that transportation is a core fundamental on why there are huge traffic jams, for me this is around the north shore and the harbour bridge as there is only 1 way to go there, i am aware of the building of a second crossing, if it is a tunnel or bridge but i think that it is essential that we add light rail/heavy rail to ease the traffic congestion around that area

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I generally support the proposed Annual Plan 2026/2027 and the decision to stay broadly aligned with year three of the Long-term Plan 2024–2034, including the investment in essential infrastructure and services. However, I am concerned that the plan does not explicitly recognise the rapid growth and coastal sensitivities of Long Bay, despite acknowledging the need to enable local boards to respond to community needs and to improve environmental resilience across the region. I ask that Auckland Council and the Hibiscus and Bays Local Board treat Long Bay as a priority area

within the local board programme, particularly in relation to environmental protection, safe transport, and community facilities.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I support the proposed changes.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

I support the additional operating funding for Hibiscus and Bays and the continued delivery of core services such as parks, libraries, community programmes and environmental initiatives. I also support the board's focus on:

- Protecting sea, soil and freshwater from contamination and sedimentation, including the extension of local stream restoration work such as the Weiti River. Note that Okura River and Vaughans Stream should also be given fair consideration.

- Improving community safety and town centres, and making the area more welcoming and inclusive through stronger collaboration and inclusive design.

- Supporting recreation through investigation of new outdoor court provision and increased support for indoor court facilities.

However, I ask that the local board:

- Explicitly recognise Long Bay's rapid residential growth and coastal location in prioritising projects and operational budgets. This should include targeted environmental monitoring and action for Long Bay's streams and coastal outlets, where development and erosion pressures are significant.

- Treat the permanent pump track at Awaruaika youth park (and other amenities), Streamview Way Park, Long Bay, as a high-priority 2026/2027 delivery, with early engagement with local young people and residents.

- Ensure that town centre safety, placemaking, and inclusive design initiatives explicitly include Long Bay Village and key walking and cycling routes between the village, schools and the beach, which experience heavy use and conflicts between vehicles, pedestrians and cyclists.

- When investigating further outdoor courts and supporting indoor court provision, specifically assess needs in and around Long Bay given the strong population growth and existing pressure on sports facilities in the East Coast Bays area.

I support the intention to maintain services within the fairer funding framework, but ask that where reprioritisation is needed, decisions explicitly consider Long Bay's current service gaps and future growth.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I acknowledge that the average residential general rates increase of 7.9 per cent is largely driven by the operating and ownership costs of the City Rail Link (CRL). While I understand the regional benefits of CRL and the need to maintain prudent debt levels, I am concerned about affordability pressures on households and would like the council to continue maximising savings and efficiency to minimise future increases.

Regarding fees and charges, I note the proposed changes to pools and leisure fees (for casual recreation, group fitness and lane hire) intended to better align fees across sites. I ask that:

- Any fee changes affecting Hibiscus and Bays residents are clearly communicated in plain language, with examples of typical cost changes for families and older adults.

- The council and local board monitor participation impacts, particularly for lower-income households and young people, and be prepared to adjust or provide concessions if participation drops noticeably.

I support the principle of fairer local board funding and accept that some boards, including Hibiscus and Bays, face cost pressures from utilities, maintenance and staffing. However, I ask that any consideration of local targeted rates for service levels is accompanied by clear evidence of need and genuine engagement with affected communities, including Long Bay residents.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**

- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Looking beyond 2026/2027, I would like the council to:

1. Explicitly recognise Long Bay as a high-growth coastal community in regional planning documents (Auckland Plan, Future Development Strategy, Long-term Plan 2027–2037 and transport plans). This should include:

- Stronger transport connections and safe active-mode links (walking, cycling, micromobility) to and within Long Bay, including advocating and investment to re-open Vaughans Road.

- Sustained investment in community facilities (youth spaces, sports facilities, community meeting space) and high-quality open space as the population continues to increase particular in Long Bay.

- Long-term coastal hazard and climate resilience planning for Long Bay's beaches, cliffs and low-lying areas.

2. Prioritise integrated land-use and transport planning so that growth areas like Long Bay are not left with limited road access and constrained public transport options.

3. Strengthen environmental protection and monitoring in growth areas with sensitive natural environments (like Long Bay), including stronger controls on sediment and stormwater from construction and more transparent public reporting of environmental data to local communities.

4. Maintain a clear focus on value for money and efficiency, so that higher-cost strategic investments (such as CRL and major transport reforms) do not crowd out the relatively modest but critical local investments needed in places like Long Bay to make growth liveable and sustainable.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

#1831

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

We gain little for a lot of fee. As with previous gains, most of the contributions are central or south and ********** all north including Silverdale which is used as an excuse for you have rapid transit but realistically a huge proportion can't use it as there is no place to park and local connections are hopeless and useless at best.

While I agree with there being a CRL it should be user pays and or regionalised.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

We already pay for our rubbish, a little extra isn't a bad thing if it actually helps manage the rubbish better.

As for parking it's ridiculous as it is, people need to park out of necessity, stop stealing from them more and more each year.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

For our local area those are fine things to do but not a lot really for how much we put in.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Generally good if done in moderation. Council needs to understand that income lags inflation by quite a bit in time and lately the downturn in avg income is significant such that it would be hard on some as it is before even increasing costs.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Instead of making fancy documents and ads etc spend the money in the community. Goodness how much money did all those fancy graphics cost?

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Public roads in whangaparoa, they are a huge bottle neck but worst of all there is little alternative access in case of a crash or event. Penlink helps to some extent but only if your going to city and speed limits on main roads are joke, it's a main road a main thoroughfare its main priority is to get from a to b not cater for pedestrians. They can take a bus, use sidewalks etc

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Annual Plan 2026-2027

Local Board: Hibiscus and Bays

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

There has been no change on our street since we bought our home in 2012.

No bus stop,

We use bore water.

We don't know how or where to contact the local board.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Never used the council compost bin service; we use compost for our veggie garden.

We're not in the Kingsland, Onehunga, or Waitakere area and have never been there before. No space for resident parking on our small road.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

Don't know how the local board can help us against the Auckland council rates proposal/decision

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

We work from home, and we drive to the city once or twice a year. City RailLink services are too far from our area. Please support the infrastructure in some expanded Auckland areas rather than pouring most of the rates funds into the City.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces

work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):N/A

- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

As a resident of the Rodney area, my household experienced a rates increase of 18.9% last year. This was a significant financial impact, and it occurred without any noticeable improvement in services, infrastructure, or investment in our local community.

Rodney residents already face unique challenges compared with inner-city areas. We often receive fewer council services, have limited public transport options, and still deal with infrastructure gaps

such as road maintenance, stormwater management, and community facilities. Given these circumstances, it is difficult to justify another substantial rates increase so soon after last year's large rise.

Many households are still dealing with rising living costs, including mortgage rates, insurance, food, and utilities. An additional 7.9% increase in rates places further pressure on families and retirees who are already struggling to keep up with cost-of-living increases.

Before implementing another rates rise, I believe Auckland Council should prioritise:

• Reducing internal costs and improving efficiency within council operations

• Reviewing non-essential spending and large capital projects

• Ensuring fairer distribution of investment across all regions, including Rodney

• Demonstrating clear service improvements before asking ratepayers to contribute more

Ratepayers expect accountability and value for money. At present, it is difficult to see how these increases are delivering tangible benefits to communities like Rodney.

For these reasons, I strongly urge Auckland Council to reconsider the proposed 7.9% rates increase and explore alternative options that reduce financial pressure on residents.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

We shouldn't have compulsory charges for bins that we don't necessarily use. This should be on a voluntary basis.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Because most of the options are maintenance based and not for anything significant as usual. We get stuck paying for the CRL, and broader public transport infrastructure and services, and won't see any benefit in our local area.

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

I don’t know

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

I don’t know

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

I don’t know

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

I don’t know

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

I don’t know

Tell us why (please be clear which priority you are talking about)

Again, these are all maintenance based projects. Had the council actually kept up maintenance, these projects wouldn't require the expenditure now

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I am very concerned about the significant contribution ratepayers across Auckland are being required to make toward the City Rail Link (CRL).

While I recognise that the CRL may deliver benefits for Auckland’s central rail network and improve capacity in the city centre, the reality is that residents in the Rodney area will receive very limited direct benefit from this project.

Rodney has no heavy rail connection and no planned access to the CRL network in the foreseeable future. Residents in our area rely overwhelmingly on cars due to limited public transport options and the distance from the city’s rail corridors. As a result, the billions of dollars being invested in this project will primarily benefit central Auckland and areas already served by rail.

Despite this, Rodney ratepayers are being asked to contribute significantly through ongoing rates increases. This raises a genuine issue of fairness and equity. Communities that receive little or no direct benefit from a major infrastructure investment should not be expected to carry the same financial burden as those that will directly use and benefit from it.

If Rodney residents are expected to help fund major city-wide infrastructure such as the CRL, then there should also be a clear and equitable commitment to investing in infrastructure in our region. This could include improvements to road safety, local transport connections, flood mitigation, and community facilities that better reflect the needs of our growing population.

Without this balance, many Rodney residents feel they are being asked to subsidise infrastructure that largely serves other parts of Auckland while our own infrastructure needs remain underfunded.

For these reasons, I believe Auckland Council must more carefully consider the fairness of how the cost of large infrastructure projects such as the City Rail Link is distributed across Auckland’s ratepayers.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Stop building new subdivisions without adding extra infrastructure

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

N/A

Annual Plan 2026-2027

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Other

Tell us why

In addressing the annual plan which has now rezoned the Hibiscus Coast for higher density housing in residential areas. I have serious concerns.

This plan will create problems as we do not have the infrastructure to cope. Eg up three story residences on one section. The drainage of storm water,and sewerage systems are already at capacity. The pipes are already old.I cannot see the council upgrading them!

Results of further intensification will result in flooding, and sewerage overflows. Areas such as Orewa, Stanmore Bay, Manly etc will be adversely affected and could result insurance cover not being renewed in the case of extreme weather.

I expect the Auckland Council to take my comments seriously. I am a long time resident (over 50 years at Red Beach).

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The increase of rates is unfair for many indiviuals who do not use the CRL which itself is costing far more than it should be.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Far too much increased fees for things that many arent particularly enthusiastic about. e.g. icrease parking permit fees.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Some things could be better

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Do not support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Support

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

Many of the areas of investment are unneccesary vanity projects while the important issues such as infrastructure struggle. e.g. far too many bike lanes in places which have a smaller popuation density than uganda. And also some infrastruture lacking in many places which deserve more

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
6	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

infrastructure projects which dont take $10billion per metre per year

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

there will still be people who are struggling to make ends meet with their current paycheck

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

increasingthe free for residential parking is not a good idea and whill result in negative changes.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

Support

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

Other

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Do not support

Tell us why (please be clear which priority you are talking about)

increasing fees will not really benefit the community as it is already very difficult to live up to the standard.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

idk

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

Because all these are steps regarding transport especially are very crucial in Auckland.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Fees are not good because people are already suffering while all the imitative are appreciable.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Auckland council should develop and should also spent money carefully.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

All of the above, if possible, all are important.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I'm focussed on Rodney and what affects this area

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Suggestion of additional cost increases (shortfall, increased costs) are a real concern. My individual rates went up by 35% last year. Whilst I've never asked for an explanation or challenged it (perhaps I should have), further rises would be unacceptable

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Rate rises have been exorbitant (for my family at 35% last year) suggesting a huge raise in quality of service. Whereas living in Stillwater I see no such evidence. In fact quality of life has deteriorated: road works into the village through continued delays of Penlink, means access is frequently impeded, road up damaging car, longer travel times etc. I still fail to see the benefit of Penlink for Stillwater residents compared with this on Whangaparoa. Changes in refuse collections for no valid reason.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Too much overreach by local government into everyday life with consequent increased financial demand on the rate payer. Your opening remarks say you are working hard to keep costs down. This is a falsehood.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

object to the excessive rate rises, Go back to focus on essential services

There should be more focus on Council selling "non necessary land and property.

Council should create more business potential on existing prime council land .

Stop wasting money of traffic obstructions.

Better value engineering and more cost control on Council controlled projects

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

No increase in parking fees, just use better technology to reduce cost.

Only charge fee for bin exchange if necessitates by negligence by property owner.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Rodney

Rodney Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

re-assess the actual need of certain facilities and create better value by contractors.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Rate rises should be similar to Inflation. Cut back on staff, Cut back on gold standards, Cut back on stupid safety standards. Why are only rate payers footing every bill . Charge more to Individual users.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

the essential services and security

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces

work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Hibiscus and Bays

Hibiscus and Bays Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

5 proposals mentioned for priorities: sportsfield renewals, skate parks and pump tracks, and refurbish ECB community centre. I support Sportsfield renewals - used by a wide variety of people, not just the sports codes.

Why refurbish ECB community centre? where is the logic? it seems in reasonable condition, nothing critical there. where is the critical need? probably in sports and recreation. But why such specalised items as skateparks and pump tracks? these are sed by a narrow niche of demographic for a particular purpose. why not a cheaper and more general focus. As ONE of those, congratulations on the seawall at Orewa, and the walking path. what about cheaper options for other parks - e.g. Karaka Reserve near Matheson. The path is better enabled by the footpath but signage is missing from the eastern end. There is no path through the grass at eastern end and there is a water leak all over the grass that makes it unusable 8 months of the year. it would be cheap to put gravel and drainage in there, and add signs.

This is just one of the ideas to get more bang for the dollar.

Instead of refurbishing the commuhnity centre, pu operational funding to open more spaces up - e.g. help schools open their spaces. the barrier is someone to lock up, so why not grants to enble schools to take bookings. Our local gym at Stanmore is over booked - we cannot get court time - some schools open but they tell us the reason they don;t open more is the time for someone to lock up. Put our rates funding to better use of existing social capital like schools rather than create bespoke places like pump tracks and skate parks.

specifically but skate parks and pump tracks? these are rather specialised and limited in use. I don;t support these because they are narrow demographic and specialised needing specific investment and maintenance, and as 3 of 5 proposals mentioned

2. What do you think about the proposed key areas of additional investment and changes to fees and charges?

A. Supporting further protection of our sea, soil and fresh water from contamination and sedimentation, through increased monitoring and extending projects such as local stream restoration including the Weiti River.

I don’t know

B. Supporting community access to a wide range of recreational opportunities through investigating new capex projects such as outdoor court provision and increasing support for indoor court provision through facilities grants.

Support

C. Creating safer town centres and other public spaces through actions such as an increased support for community safety and placemaking.

Support

D. Ensuring Hibiscus and Bays is welcoming and supportive for all through collaboration with a broader range of local residents and an increased focus on inclusive design, so it is accessible and usable for people of all ages, abilities and backgrounds.

I don’t know

E. Introducing changes to a range of fees in pools and leisure centres, including casual recreation, dry and aquatic group fitness and pool lane hire to better align fees across our sites.

Support

Tell us why (please be clear which priority you are talking about)

Support activation of existing spaces, including schools. support making paths and other spaces as accessible. I am concerned about paths in parks that are not accessible e.g. karaka Reserve paths are way too steep, and the grass path in the east floods, slips, and actually doesn;t have a graded path - just grass. I dispute priorities like skate parks and pump tracks - these are exclusive and specific use. we should promote multi-use spaces and use of funds. Lastly if I had to choose beteen upgrading ECB community centre and opening up other spaces like schools for more gym or meeting spaces I'd do the latter. Can council opex funding help optimise society's investment in these spaces that already exist. Win-win.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Attached is photo of flooding on Karaka Reserve, on eastern grass section with flowing water today, a sunny day, a sunny week March 2026. This is an unusable walkway.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

investment in multi-use spaces and re-use of already existing infrastructure like school gyms.. transport.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.
