There are so few places for us to legally and correctly exercise our dogs. Rather than shoving dogs and dog owners into corners, why not make spaces more accesible to educate the pubilc and owners on dog ownership and correct dog behaviour. Again, a license to take dogs off-lead in areas or parks could be an idea. Owners can get a license (not some silly annual thing, for the life of the dog), to take their dog in spaces such as parks.

Make room for dogs and their needs to run without increasing stress levels by forcing them into dog parks or super high dog traffic areas.

Instead put more pressure on the owners to know their dogs and thus have them decide whether their dog can enter off-leash areas or better should be kept on-leash.

As long as the presence of dogs does not damage the ecosystem of the place I believe that any dog should be able to exercise freely in these places. With the increase in population of the city and the slow disappearance of houses with yards in the city it is absolutely essential to have designated places for dogs to exercise freely.

What are dog owners supposed to do now? Keep our dogs at home every day because there's nowhere left for them to run off-leash and have fun? If my dog gets sick from lack of exercise and socialization, will the city council take responsibility for the costs?

How about trying to walk on a leash yourself, controlled by someone else in a park? This is supposed to be a free country, yet dog owners certainly don't feel that way. There are already plenty of regulations in place for dogs, and we follow them while respecting nature and others around us.

We love our dogs—they're part of our family. All we want is for them to be happy and healthy, yet stricter rules make this harder. Do you realize how damaging it is for a dog's mental and physical health to be on a leash all the time during walks? It's time to think about the impact these rules have on both dogs and their owners.

If an owner can't control their dog and is not willing to take ownership to train their dog, then keep your dog on a lead and away from other dogs and humans to avoid harm. Humans are the problem not dogs.

When there are sports in play (including organised club or school practices) then the rule is that you either walk your dog on the footpath or you leash your dog and stick to the perimeter of the park. That’s fair. A lot of also walk these parks early in the morning and there is no one in sight so prohibiting dogs 24/7 is barbaric !

Auckland is not a Dog Friendly Council that treats it responsible dog owners like a cash cow and lets bad owners, animal abusers and shitty backyard breeders get away with anything,

What's the point point of making changes if you are not even going to police all the shitty owners!! Really wondering why I pay dog registration??

Stop restricting dogs on beaches at any time, fee the dogs!! Instead of this nonsense how about policing on lead areas instead. A well socialised on lead dog, is not the issue here. Its the off lead dog, in an on lead area with an entitled arrogant owner that is the problem.

The proposed new laws are unfair and will not be effective. The effect will be disproportionate and not reduce unwanted behaviour. They will unfairly affect responsible dog owners who are law abiding anyway. I strongly oppose these changes.

over the last 30 years of having dogs in Auckland I have only ever seen 1 issue once with a dog.

the owner was mortified and apologetic (it was a frazzled mum with a dog and a baby and no spare hands)

Your changes by stealth will remove the local "off leash" area that has never had any issues and is not a popular public area or swimming beach.

I cannot support any part of your rule changes as it doesn't account for the fact there is no local issue.

We are so far behind other countries in this area where dogs are in cafes, restaurants, on buses and planes .... we are in the dark ages for even considering removing access to local walks.

Submitter details:

Organisation (if applicable):

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

With more and more restrictions being put in place, I think the council needs to put aside new areas for dogs to walk and I don't mean a small roped off area which is hopeless to effectively exercise a larger dog such as a labrador

As a general rule I'm pro allowing dogs anywhere but dogs should be on leash and carefully watched, primarily for the dog/s safety as many owners (and other people around) can be irresponsible which put many dogs at-risk at no fault of their own.

Sadly there are dog owners who do not follow the current rules. They have their dogs off leash in areas where it is not permitted, the do not clean up after their dogs, the do not have them under control. This will always happen. How do you stop it? Education, fines

Communities need simple tools to enforce rules, like signposts anyone can point to when they meet the owners of uncontrolled dogs.

Signposts can just say things like "this forest is full of poisonous karaka berries that your dog will definitely eat", or "haast eagle breeding area; off-leash dogs will be snatched by eagles".

Like I said before, why is the cost of registration so

High when we barely get any benefit from this, would rather animal management spent their time picking up roaming dogs or taking mistreated dogs away from scumbag owners instead of hiding in a bush and fining people for having a dog off lead in a park when no one else is around. Auckland rules are pretty stupid and

Unfair to dog owners, give us more places where dogs can go off lead not restrict more.

It’s bizzare this has been proposed - where is the data that states dogs off leash are a problem?

This seems to be an over reaction- I do not believe that you are actually making rules to keep dogs a positive part of the life of Aucklanders by maintaining opportunities for owners to take their dogs into public places, adopting measures to minimise the problems caused by dogs and protecting dogs from harm and ensuring their welfare by changing the current rules at Monte Cecelia park. This just gives us yet another reason to leave Ak City.

Please make the rules as clear as possible and consider that dogs are important members of a household and community and they need to be exercised off a lead. the more areas we restrict dogs the more issues we will have with them becoming antisocial and not being given the opportunity to be corrected by their owner means they will not learn how to behave

A few owners ruin for everyone. But unfortunately council should recognise Manurewa is rife with lazy useless dog owners and it's tiring and frustrating to see the posts in the botanical gardens, hill park and Manurewa facebook groups. A lot of these people don't even live locally yet local people are being impacted

Do you have any further comments about dog access rules at local parks or beaches?

From my own experience while visiting the beach almost daily, people are often not aware of the rules due to lack of signage. I have also never seen any patrols checking on the beach whether the dog access rules are being followed. There are dotterels all year round and it's frustrating to see how often dogs chase after them or respectively any bird on the beach. During dotterel nesting time I have politely approached dog owners myself to make them aware of the situation when I noticed a dog chasing after them. Randomly someone seems just genuinely unaware while others replied they would only listen to someone "official". So clear signage and definitely regular patrols are desperately needed.

current beach and park access is a useful off leash exercise space and need available rubbish and water stations for cleanliness and welfare. It is just hard when these places are over run with pack walkers

I personally love seeing dogs on the beaches & generally the owners are carful to pick up after them and keep them under control.

It is the people that leave the rubbish, dirty nappies, bottles, cans and the locals (with their dogs) pick this up in sacks daily. I am one of those and often cannot walk the full length of the beach as the rubbish sacks are so full.

I think dogs should be on the leash in suburban areas as well.

recently one of the dogs from our road attacked our dog, my partner and it was hard for the owner to control him.

Creation of an additional dog permit, funded by the dog owner, examined by volunteer veterinarians or approved qualified behavioural trainers. Tri-annual dog exams where dogs have to demonstrate their ability to "come" "stay" and "leave" at 3 different levels.

Distraction free, Minimal distractions, Busy distraction area.

Each level comes with better perks and incentives.

Bronze/Silver/Gold.

The higher the level, the more benefits like discounted dog registrations fees, ability for dogs to be off leash in safer areas that are usually on leash. Can be identified through microchip details as well as a tag that can be put on the collar or a bandana along the dog's collar for easy identification as to who has passed the basic behaviour course.

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1

What is the full name of the location where you want to change the dog access rules?

Campbells Bay

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Change the current rule to allow dogs under control on a leash

Do you want the change to apply to the entire location or a section of it?

A section of it. Please specify:The walkway between Campbells Bay, Mairangi Bay and Murray's Bay

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:It's a great walk between the bays, and with a dog on a leash there's no harm or danger to other people.

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

To provide a walkway for dogs and their owners so they can walk between beaches - most dog owners are out there walking the dogs, not sitting on a blanket at the beach, so we are no danger or nuisance to other beach goers.

Location 2

Please consider the needs of the well-loved dogs in the city. Dogs who have a past or have not been cared for well will continue to roam the streets whilst the majority of responsible dog owners generally abide by the roles. We can all use the facilities together...

People often don't seem aware that dotterels are on the beach and nesting and what is allowed and what not- better signage about the by-laws and patrols could help with that.

Council visits to parks to do 'spot checks' on owners who have their dogs off leash at on leash parks and beaches, or not in control of their dog, and fine those who don't comply.

I think there needs to be consideration for opening up fenced dog parks and dog beaches locally. The closest dog peach is 40minuted away, if they have there own space it means people and dogs can co exist peacefully.

In addition to more dog access, there also needs to be better provision of bins. It is the councils removal of bins that has led to dog owners not picking up dog poo as there is nowhere to put it. Expecting dog owners to walk for miles to find suitable disposal or worse take it home with them is ridiculous, it is poo! No one wants bags of poo in their car, that's just gross, provide bins at parks so these areas can be nicely maintained, this isn't just related to dog poo, the increase in littering since the bin reduction is substantial and upsetting, especially at areas near the ocean where this litter just blows into the water. You can minimize waste by just not dealing with it, that is a ludicrous approach

There are very few central Auckland areas that allow off leash now and our dog loves to fetch and chase her ball for mental stimulation and exercise. In the area of Mt Eden/Morningside/Balmoral there are very few off leash areas (and most require driving a distance to). It would be great to open up more shared off leash areas for responsible dog owners. It is quite restricting having a dog and our lives have reduced in the places we can go as a family (as our dog is part of the family)since getting her. We thought having a dog would mean we give us the motivation to explore more places in Auckland, but the reality is our worlds have become smaller due to all the restrictions. Our kids are sad that we can't bring her places and don't want to go out explore

without her. There must be a way that we can all exist together especially through encouraging responsible dog ownership?

Responsible dog owners are getting tarnished by the brush of the dogs with bad behaviors (especially the central area which has less threatening dogs than some other Auckland areas). It would be great to see Auckland encouraging and embracing the wonderful warmth and love that dogs bring to society, but for some reason all goof dog owners have to bear the burden of a small segment of bad dog owners with limited access to public spaces and transport. Please consider with open minds before making final decision. Many thanks.

Auckland should create more pet friendly environments and tighten the rule on owning a dog. The dog behaviour is rely on dog owners themselves not the dog.

Dear council

I am writing to urge you not to ban dogs from our beloved regional parks, beaches, and public spaces. As a vibrant part of our community, these natural areas should be open to everyone, including responsible dog owners, who are an integral part of our society.

Why Dogs in Parks Matter:

1. Health and Well-being:

Dogs are not only wonderful companions, but studies have shown that walking with dogs encourages more physical activity, which can help combat the rising rates of sedentary lifestyles and chronic diseases. These outings promote better mental health, lower stress levels, and a deeper connection to nature—benefits that extend to the whole family.

2. Economic Impact: Dogs help generate revenue for our parks. Local businesses benefit from dog owners spending on pet-related products, pet services, and park fees. Tourism also sees a positive impact as people often choose destinations where they can bring their dogs, boosting the local economy and increasing the sense of community.

3. Social Responsibility: Responsible dog ownership is a core part of being a good community member. Many dog owners are highly committed to respecting public spaces—cleaning up after their pets, keeping dogs on leashes when required, and ensuring their pets do not disrupt others. Banning dogs punishes those who are mindful and courteous, while the real challenge lies in enforcing responsible behaviour. Ensure you are fining and implementing consequences for those who do not obey.

4. Environmental Stewardship:Dogs, when properly supervised, play an important role in protecting our parks by discouraging littering and trespassing on restricted areas. Many park visitors with dogs also become passionate advocates for environmental sustainability, organizing clean-up events or supporting preservation efforts.

Why a Ban Is Not the Solution:

Rather than a blanket ban on dogs, we should focus on solutions that balance public safety, environmental concerns, and accessibility. Creating designated dog-friendly zones, increasing awareness of responsible dog ownership, and ensuring enforcement of leash laws would foster a harmonious environment for all. Moreover, many parks and beaches already have rules in place that mitigate the risks associated with dogs, such as leash requirements and waste bag stations. These measures help keep the parks clean and safe, allowing everyone to enjoy the space.

A Better Future Together:

Our parks, beaches, and public spaces are community assets, and they should be inclusive of everyone who loves and respects these environments—dogs included. By fostering positive relationships between dog owners and non-dog owners, we ensure that these public areas remain accessible, welcoming, and well-maintained for generations to come.

Please reconsider any proposals to ban dogs from our regional parks, beaches, and parks. Instead, let’s work together to create spaces where both pets and people can thrive.

Sincerely,

One of Many Pet Owners

Please dont keep reducing the places we can take our dogs, Auckland is becoming a very "unfriendly" place to have dogs with small numbers of citizens disobeying rules to disadvantage the many of good dog owners

Do you have any further comments about dog access rules at local parks or beaches?

I'm writing to express my deep concern about the current state of Meola Dog Park, which serves as the only off-leash dog park for the Point Chevalier, Westmere, Grey Lynn, and Ponsonby areas. Despite its importance to our community, the park is unsafe for dogs and is falling short of its potential to serve as a safe, welcoming space for both dogs and their owners.

The most alarming issue is the presence of Karaka trees within the enclosed dog area. During summer, these trees drop large orange berries, which are highly toxic to dogs once ingested. Tragically, many dogs die each year after consuming these berries. My own dog has narrowly avoided this fate, but not without three emergency trips to the vet to have their stomach pumped. We were lucky, but the stress and fear of losing our beloved pet have made the park unusable for us during berry season. The toxic kernels from these berries can remain on the ground for up to a year, creating a constant hazard. It's baffling that these trees are still present in a space specifically designed for dogs.

Beyond this life-threatening issue, the park is in disrepair. The paths remain washed out from recent flooding, making it difficult to navigate, and the small enclosed area has not been expanded to meet the growing number of dog owners who rely on it. The lack of space often forces people to walk their dogs outside the gated area, defeating the purpose of having a safe, controlled environment.

This park has the potential to be a vital resource for the community. With proper maintenance, an expansion of the dog exercise area, and the removal of hazardous Karaka trees, it could become a safe, thriving space for the many inner-city dogs and their owners. There is ample room to make these changes, and investing in this park would relieve pressure on other public spaces like Point Chevalier Beach, which many of us now resort to for safety reasons.

For many dog owners, our pets are family. When a park meant to bring joy and connection becomes a source of anxiety and danger, it signals a need for urgent change. Please prioritize making Meola Dog Park a safe and well-maintained space for the community.

Thank you for your time and attention.

Stop shutting everything down and denying access. People are forced to break the rules just so we can exercise our dogs. We pay enough money each year in registration fees for the council to put in more dog parks.

Dogs are a “family member” and should be allowed to be at sports fields etc UNDER CONTROL.. during sports games they should always be ON LEASH.

I think prohibiting dogs from sports fields is wrong and over the top to be honest!

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1

What is the full name of the location where you want to change the dog access rules?

Monte Cecilia Park

What local board area is this location in?

Albert-Eden

In general, how would you like dog access at this location to change?

Tell us why

Change the current rule to allow dogs under control off a leash

Do you want the change to apply to the entire location or a section of it?

Entire location

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:To provide dogs off leash access throughout the entire Monte Cecilia park.

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

The dogs that currently visit Monte Cecilia Park are well behaved and demonstrate this within the bowl, ideally we'd allow off leash access for the entire park.

Long Bay is a very popular beach and the regular dog walkers are often doing the job of keeping the beach clean on a regular basis. We pay our rates and dog licenses and would like to be free to walk our dogs under the current, fair, rules.

Dog owners are, on the whole, good, abide by the rules, pay out registration, pet insurance and pick up after their dogs. We are a social bunch of people who take pleasure in our dogs socialising off leash and having fun. We do not need to be penalised for the small margin of bad dog owners. Leave our dog areas alone (and look at giving us more off leash areas / removing the leash restrictions in Winter on the beaches)

It’s important to consider dog enrichment requirements, ensuring that dogs have access to spaces where they can exercise, socialize, and engage in healthy activities. Focusing on responsible ownership and increasing enforcement for negligent owners would help maintain safety and protect the environment without restricting responsible dog owners.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Dogs are an important part of a social, happy city. They provide opportunities for interactions, reduce stress and anxiety. The problem is never dogs but owners who haven't trained or don't take good care of their dogs. The focus should be on those not in limiting the liberty of good dogs and owners.

I love the shared spaces in our community. I don't think that these parks should be exclusive for one type of community member (those who don't have dogs, those who play sports). Dogs have important health benefits for their humans and they deserve a good quality of life themselves. Off leash areas are really important for the exercise of dogs and their owners.

Dear Sirs,

The members of the Auckland public that choose to own dogs are already required to abide by a legal framework, including annual registration fees. Those citizens who abide by the requirements should be supported and encouraged by council to bring healthy, loving and well trained pets into the wider community. This I believe enriches the lives of not just the owners but those in the local communities who interact with our well managed dog population.

Irresponsible dog ownership of any kind should be more harshly dealt with.

From the perspective of wildlife protection, I would encourage Auckland Council to bring other pets that poste a risk to wildlife into a similar framework of legal requirements, registration, control and containment. Cats being the obvious first focus.

Yours Faithfully,

[redacted]

Any new rules should be clearly based on high risk areas to fauna and flora, such as endangered nesting birds or the quality of the existing ecosystem. A blanket change is not required as it is very uncommon to see one person with several dogs. Therefore it is only penalizing dog walkers who are only trying to run a business.

Overall the council is getting far to involved in the wrong ways. Work on the people creating the issues not stuffing it up for the vast majority that are reasonable. Heck, I can't even go camping with my dog in summer due to so many rules around council camp grounds and then on top of it all the beach rules that prohibit dogs. You end up spending your summer inside a house. Kids are more of a neusence than animals a lot of the time and I don't see you banding them for every public area.

Do you have any further comments about dog access rules at local parks or beaches?

I really like that dogs are restricted at Auckland beaches and not banned altogether. If people follow the rules then the beaches can be enjoyed by everyone.

Keep it as it is! We worked hard to get the rules consistent and clear. You are not proposing to complicate it again and it will cause confusion and a lot of grief.

Please help us to retain Madills Farm, Kohimarama as a happy and secure area for everyone to enjoy. It gives a great deal of pleasure to many dog owners and especially those with little interaction with other people - a very important social centre in the heart of the area.

Do you have any further comments about dog access rules at local parks or beaches?

Dogs are family members it is already difficult to find activities you can do with your dog. Banning them from beaches and parks will be a step back as a society. In fact more and more people is opting for not having kids and having dogs instead. This will new proposed policy will definitively have a huge negative impact on the wellbeing of NZ dog owners. We should promote healthier, active lifestyle. What other alternatives we have as dog owners is the equivalent of banning kids in parks. that does not make sense.

Dogs should still have access to beaches and parks, they are part of our families and the majority of owners are responsible. There are a few who spoil it for everyone but as I have said punishing everyone is not the way to go. Actually pick an area carry out a blitz of education and enforcement then move on.

We had a pair of Dotterels nesting at Coalmine Bay. One of the adult birds was killed by a dog at Big Manly Beach and the nest with 3 eggs was abandoned.

The existing rules are not enforced, so get rid of them. Responsible owners and well-behaved dogs shouldn't be excluded if you're doing nothing about the reverse.

Do you have any further comments about dog access rules at local parks or beaches?

There has been an extreme lack of enforcement of the existing by-laws on both Manly Beach and Tindalls Beach. The signage about the by-laws is poor (it is not visible enough - it needs to be in people's faces more as they enter the beach) and there has been a severe lack of patrols to enforce the by-laws. This needs to be stepped up, especially during the bird breeding season.

Need more enforcement for out of control dogs and their owners. But why is the infringement set at $300, when Dog Control Act 1996 infringements can be higher , or lower in some cases. $300 just doesn't seem much of a deterrent.

Local government Act Section 242 (re: s142 & 146) provides for penalties set by bylaws resulting in much higher fines. So, why $300?

This survey is too long, too complicated. I favour HUGE dog access and walking tracks, beach access, forest access, camping ground access (or at least a dog friendly portion of camping areas - or just some camp grounds for dogs and some not.) I personally hate camping next to a bunch of screaming kids - but recognise that I was one once. We have the luxury of space in New Zealand - lets apply its use to everyone.

I use Kohi beach with my dog regularly and I think the rules there are very fair to all and should remain as is. Parks and beaches are for all Aucklanders to enjoy and use NOT just a chosen few. I have found dog owners very conscientious regarding their pets behaviour and picking up any waste as they appreciate having the use of these great spaces

Don’t take away the freedom to include dogs in our communities. Humans are far more harmful- if you need to restrict access, then consider restricting human access as well - they are the worst culprits when it comes to protecting our flora and fauna

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

I would like to be able to take my dog to more locations. More on lead access at parks would be great.

More enforcement of existing rules would be good too.

The proposed changes are unnecessary. So many potential negative consequences that will cost the council money it doesn't have - simply to silence a few people who complain about the rare instances an owner doesn't pick up after their dog.

Ahhh, do you jobs and clear up the stray dogs in south Auckland, instead of worrying about the law abiding registered dogs being walked responsibly in these areas that you're now shrinking! My dog has been attacked four times while out walking locally and the council have taken action once. Absolutely useless. What exactly do my dog registrations pay for...

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

The council I see is also trying to change dog access to beaches by only allowing dogs off leash in the water. That is quite ridiculous, especially for those like me whose wheelchair is not waterproof.

There is currently a severe lack of enforcement of the existing by-law which leaves the endangered dotterels extremely vulnerable. The rules are routinely flouted. There is a lack of patrols and poor signage about the by-laws.

I do believe that dogs should be under control at all times. If your dog it well behaved and has good recall with no aggression they should be allowed to play with the family off leash. I agree not near the children's play park but on the field.

I am writing to express my opposition to the proposed ban on off-leash dogs at Forestry Beach. As a dog owner, I want to highlight the importance of this beach to our community and the potential unintended consequences of such a ban.

Forestry Beach is the only nearby surf beach where we can take our dogs off-leash. It has become a cherished destination for dog owners, attracting visitors from across the region who are willing to drive long distances to enjoy its unique combination of open spaces, natural beauty, and the freedom to let their dogs exercise and socialize.

A ban on off-leash dogs would have several negative implications:

Displacement of Responsible Dog Owners: Many dog owners, like myself, rely on Forestry Beach as one of the few places to safely and responsibly exercise our pets. Removing this opportunity would leave us with limited alternatives, diminishing our quality of life and that of our dogs.

Unintended Consequences: If the ban is implemented, many people will still visit the beach but leave their dogs at home. This could lead to an increase in barking, noise complaints, and loose dogs in residential areas as pets become under-exercised and frustrated.

Community Impact: Forestry Beach is more than a recreational spot; it is a social hub for dog owners. The ban would erode the sense of community built around this shared activity.

I respectfully request the council reconsider the proposed ban and explore other ways to address concerns, such as designated times for off-leash use or enhanced signage to promote responsible behavior. I am confident a balanced approach can preserve Forestry Beach as an inclusive space for all.

The access is adequate as it stands, only a few are causing a problem, 90 % if owners are responsible its the 10% who need to be addressed .instead of further restrictions to restrict responsible owners. Would be unfair. Stop being all inclusive and punish those unresponsive owners.

It's not the dogs fault if it's untrained or worse traind to be aggressive.

If you can't do it in nz. Fast too many dog bites and fights.

Wake up council.

We all want to enjoy walking dogs. Cycling. Running. I myself have had to give up on those passionate sports and relaxation just because of where I live and pay rates.

Please stop making it harder. Its already incredibly difficult to find walks where you can bring your dog on a leash, let alone off leash areas.

As homes get smaller and denser, with smaller gardens, it is more important to have safe exercise areas. Otherwise we're just depriving dogs of their need to run, sniff, swim and play.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Do you have any further comments about dog access rules at local parks or beaches?

Priority on stock welfare is taken on regional parks during lambing by prohibiting dogs. The same focus should apply to protecting our valuable wildlife during breeding season, particularly ground nesting birds. All beaches should be at minimum on leash at all time during the bird breeding season (September- February). Unfortunately, irresponsible dog owners have already caused significant harm with the disturbance, harm and death of threatened species (dotterel and penguin).

There should be more enforcement action rather than restricted rights for everyone, because restricted rights for everybody simply impacts those who are already responsible owners, and those who are not continue to cause issues and the changes won't achieve the intended result

Rather than stopping all off-leash activity, if any changes were to be made, it would make more sense to have dog hours like at most beaches, i.e. before 10am, and after 5pm

Beach access times in summer and winter make sense

Not allowing them on unused or open sports fields doesn't especially when walking from home.

I believe all owners of registered dogs have a right to use the parks freely.

During the Summer months only, the only beach rule I would consider fair would be to allow dogs on the beach in the morning until 9.00am then again after 5.00pm thereby giving beach goers an opportunity to use the beach without dogs.

this could apply from mid December through until school returns at the beginning of February or just after Waitangi Weekend.

Reducing the areas where dogs can be off leash will not change anything. All it will do is penalise responsible dog owners further. It is the irresponsible dog owners who cause the problems that council is trying to rectify. Such owners ignore the rules anyway so will only ignore any further rules that are made. Stop penalising responsible dog owners and deal with the irresponsible ones instead.

Council is trying to classify all owners and all dogs as the being the same rather than trying to educate and if necessary, prosecute those who do not act appropriately and after being educated fail to change.

Different beaches have different rules so please put the rules up.

Orakei local board- why are dogs not allowed off leash in the summer? It seems unduly restricted when there are not people around.

Please don’t make it harder for dog owners to exercise our beloved pets. We pay (quite hefty) registration fees for our dogs and deserve to reap some public benefits from this. Restricting access would also be yet another barrier to dog ownership, which should be encouraged given how overrun our animal shelters are. The vast majority of dog owners are respectful of the dog access rules at parks and beaches. The council should be directing their resources towards helping stray and violent dogs, rather than further restricting the access for responsible dog owners and their well trained and loved pets.

The current rules should stay the same and dogs should be allowed at local parks, as they are meant for everyone in the community to enjoy. The parks were given to the people for this reason and going against the wishes of those who donated it is quite upsetting and they would be disgraced.

I do not have the time to review the rules at all local parks and reserves, suffice to say, there needs to be decent off-leash areas for dogs to run and play. Dogs become naughty when they can't get the exercise they need, not all of us are capable runners and able to run our dogs on a lead but most of us are responsible owners who do their best by the community and their pets. Do better and provide more options for dog owners who obey the rules rather than imposing more rules because of the complainers.

Dogs need space to exercise and socialise to maintain a better quality of life and stay healthy. Some dogs behave much better off-leash, but by enforcing stricter rules, the council is significantly reducing the areas where dogs can walk freely. People often cause much more damage to these areas than dogs do.

Community wellbeing and socialisation for people with pets needs to be the primary concern for Auckland Council not fewer opportunities for access public spaces. Dogs need to be exercised daily and you can't leave them at home for hours on end - this, in fact causes more problems including complaints to Council and escaped dogs being reported to Dog Control. We need to be more welcoming of people with dogs in Auckland.

I think, also, that dogs should be able to travel on public transport more easily and that Council should create off leash areas that are specifically for small dogs.

It is important to maintain areas for off leash walking of dogs in the central Auckland region. A majority of dog owners are responsible. Aid good behaviour by sufficient bins and offering recyclable bags. Continue to maintain areas and provide good cover for bird life with plantings.

Nobody at council enforces the current rules so why bother changing them?

Secondly, dogs and their owners pay rates to access local parks and beaches. The proposed changes are draconian and ban dogs from completely empty spaces.

Having plenty of safe spaces to exercise dogs off leash is really important to avoid people taking the law into their own hands and doing so irresponsibly.

Dogs should have access to beaches as long as they are well-behaved and controlled. They do not create any issues and should not be banned. Any dogs and owners that do not obey should be penalized.

If an off leash dog steals someone's dinner is the dog owner liable for the cost of this meal? Some dogs are too big and strong to fend off, especially when they are hungry. Dogs owners should know this and leash them appropriately. Fish and chips on Waiheke Island are not cheap.

It's already to minum the parks and areas that you currently can walk with your dog, and to keep a healthy and balanced dog at least the dog need to be walked once a day.

Local Board: Hibiscus and Bays

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Do you have any further comments about dog access rules at local parks or beaches?

Think we need more dog parks that are actively advertised as official dog parks rather than have local parks/sports fields that become unofficial dog parks that then our children need to play sports on that have dog poo and wee on the fields and holes that dogs have dug.

Access is important, but how dogs behave once they have that access is also important and increasingly, there are dogs at our beaches and parks that are not under control and are dangerous.

Responsible dog owners pay their dog registration to fund the collection of bad dog owners. We have very few places where we can exercise our dogs. The majority of down owners these changes affect are rate payers too. Every second house in St Heliers has at least one dog. We are dog lovers and want to be able to let our pet dogs run unrestricted off lead. The only 2 places in Orakei board we can go you want to reduce in size. I do not support this at all.

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:Many dog owners use the park in the morning to walk their dogs on the sports fields anyway. It would be good to have the rules changed so it was fair to everyone.

If the fields are booked for sport then it’s in use and that’s ok.

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

It’s a large grass area with the family playground next to it. It would be nice to be able to throw the ball for our dog while my kids play on the new playground.

The fields are not used a lot for sport in the summer as they’re only soccer fields. This

I think all rules work at the moment. Most dog owners are responsible enough to look after there dogs and collect there poo and dispose of it.

Please do not take away dog parks , these are safe places for dogs and also there owners

Adding further restrictions will do little to address the main problems in the dog community, such as roaming dogs and owners/walkers with no control over their dogs. Instead, resources should focus on enforcing existing bylaws and addressing these larger concerns. The current system works when applied effectively, and no changes are needed.

Do you have any further comments about dog access rules at local parks or beaches?

Having dog restrictions to beaches during summer is very restricting, especially considering the time window is from 10:00 all the way to 18:30. As long as dogs are under control on leash and there are no known native bird nesting areas in the beach, dogs should be allowed access at all times of day.

These rules will force many to abandon pets. In addition to rising costs, smaller houses, the dogs will become too much of a burden with need to drive to off leash parks. Also rules should distinguish between large, medium and small dogs.

This is discrimination! My dog should be allowed in the same places where I go. Use tax money to have a ranger that checks dog owners that you believe cause problems.

The great majority of dog owners on Onetangi Beach are responsible dog owners. The great majority are happy with the present conditions.This proposal is taking away one of the few safe places we have to enjoy our dogs.

The current rules are adequate when properly enforced. They ensure that dog walkers—professional or otherwise—are responsible for keeping dogs under control, without imposing arbitrary and restrictive limits. Professional dog walkers already operate within these rules, providing essential services such as exercise, socialization, and training for dogs, which benefit the wider community.

Adding further restrictions will do little to address the main problems in the dog community, such as roaming dogs and owners/walkers with no control over their dogs. Instead, resources should focus on enforcing existing bylaws and addressing these larger concerns. The current system works when applied effectively, and no changes are needed.

I saw a good idea in Brisbane where they had fenced areas at some parks for large/small gogs to run around together and socialise safely with their owners. Perhaps this shold be explored as a potential solution to some of the perceived problems.

Please stop limiting the places we can walk our dogs. The fewer the off-leash spaces, the more crowded (and therefore unsafe) they will become.

Rather focus on ways to support dog owners to be responsible, such as supplying poo bins and poo bags.

No. However, I would feel more comfortable with higher visibilty of Animal control officers who are rarely if ever seen in the areas I visit compared to in the past.

North Shore beaches have many out of area dog owners visiting over the Summer and some do not follow the rules for dogs. Their dogs frequently appear menacing, poorly trained, uncared for and a threat to humans and other dogs.

Mount Tamahunga would be a wonderful dog walk. I see no reason why we can not take dogs into the forest on a lead. I understand not allowing off leash to protect birds, but we could walk leashed dogs with no issue. It saddens me greatly that there are ZERO hikes that I can go on close to home with my dog, as you have banned them from both Tawharanui and the Mount Tamahunga area.

Dogs need to have access to off leash dog areas in Auckland City. There are becoming fewer and fewer spaces where dog owners can take their dogs off lead. Instead of the harsh measures of not allowing dogs off lead why don't the council invest in some relevant signage in these areas so those people who don't own dogs understand where the boundaries are. Makes me wonder why we pay dog registration at all - no point if there are no spaces for dogs to exercise!

Remember how many dog owners vote for council members. Dont let just a very few 'bird enthusiasts' set the rules for a full community - when those said enthusiasts will often be seen walking in the areas that everyone else is banned from. eg close up to the nests on the beach.

Keep it simple and the changes implemented by the Council a few years ago are well accepted. Don't change for the sake of it.

Overall I believe most dog owners are responsible dog owners and are aware and control what their dogs are doing at local parks and beaches. The irresponsible dog owners will continue to be irresponsible no matter what rules are put in place - there need to be more dog rangers out and about both educating and fining the irresponsible owners.

At Algies Bay , particularly at Christmas there is widespread disregard for rules, so much so that one elderly resident was unable to go to the beach due to be harassed by dogs and their particular medical condition. This is a terrible and sad situation and is partially caused by very poor complex signage, some dog owner lack of care but mostly lack of compliance monitoring. There is no mention in the new regulations around dog droppings as Algies Bay has a serious issue with people not picking up excrement. By contrast beaches around the Catlins had dog excrement bags available on walkways and bins. We need something similar on our beach walkways.

Summary:

Unified Approach: Avoid fragmenting beaches into overly specific zones. Instead, adopt clear, seasonally-based rules for when dogs need to be leashed (e.g., during wildlife breeding seasons) across the entire beach.

Defined Off-Leash Areas: Provide clearly marked off-leash zones to prevent confusion, ensuring people and their pets can enjoy the space without constantly needing to navigate boundaries.

Accessibility and Enjoyment: Excessive restrictions can discourage people from using these spaces for exercise, family outings, and bonding with their pets, undermining the purpose of public recreational areas.

Broader Perspective on Disturbance: Acknowledge that human activities—such as children playing or groups engaging in beach sports—can also disrupt wildlife. Dogs shouldn't be singled out when other activities can have similar effects.

The park is owned by ratepayers and therefore should be used by all people including dogs. I have never witnessed any issues with any dogs in the years I have been there and the damage to the fields is being made by the soccer players not the dogs. There are no other safe and enjoyable places to take dogs who need outdoor off leash exercise so these parks are needed for them.

We should be addressing dog owner responsibilities through education and tackling the large number of roaming dogs. This will have a greater, more positive impact on everyone. Tightening rules will cause frustration by good dog owners and no change to irresponsible dog owners who won’t care.

It would be useful for council to have a programme where fences are added to local reserves where dogs can be off-leash - it helps keeps dogs and vehicles safe.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Please seriously think about the impacts these changes are going to have on our furry friends. You are just clearly thinking about non-dog owners with these changes and not realising the significant impact this will have on dog owners and the dogs themselves.

There should be more places dogs can have off leash access. Most places where dogs have off leash access are tiny and ungated making those areas dangerous. There are plenty of parks and beaches around Auckland with a lot of space but there seems to be growing concern from the Auckland Council to make spaces for dogs smaller when there is barely room for them to roam as it is. It’s cruel and maybe you should be focusing more on irresponsible dog owners and not punishing the dogs.

Beaches off leash should be banned after 7am. I often go kayak fishing and when we return dogs are running at the kayak and jumping all over it to smell the fish. My son quiete often doesn't want to go as he's worried about dogs.

Do you have any further comments about dog access rules at local parks or beaches?

Please see my previous responses. This approach is narrow minded and misguided. You should consider classifying owners as responsible and irresponsible and setting access rules accordingly. No limits should be applied in any locations for responsible dog owners - other than the requirement to use a leash where it would protect wildlife. Dogs and humans can and should be allowed to share all outdoor spaces. Council must put sufficient rubbish bins in all areas dogs can exercise.

Re Madills Farm and Glover Park, perhaps there is a hybrid option where 2 of the more heavily used fields are taken out of action? Is there a summer vs winter option that might enable a bit of a compromise. On Madills Farm, can you remove the 5th field closest to the playground from the restrictions so there is somewhere for the dogs to run that enables them to stretch their legs.

Do you have any further comments about dog access rules at local parks or beaches?

People treat dogs like they are out exercising their home burglar alarms, or personal body guards or substitute children. A lot of the time the dogs are not watched while the owner is on the phone or talking to someone etc. This often includes dogs doing /leaving faeces and the owners not noticing. Many dog owners have a very entitled attitude to how the dog behaves (eg running wild, chasing seabirds, sniffing thru peoples beach stuff) and what they allow dogs to do at the beach. Many dog owners disregard the access rules and there needs to be more obvious council presence for this, with issuing of fines etc.

Limiting natural public spaces ultimately punishes the dog. Poor dog welfare and behaviour is not the dog's fault - it is the human owner's fault. Changes to these dog policies should emphasise adherence to existing rules, including penalties and education. There's no point in changing the rules if they are not enforced as the same people will continue to ignore them. I see people walking their dogs off-leash when they should be on-leash, but there's no well-known mechanism to safely report these people and there doesn't seem to be any repercussions, so people get away with it. Instead, owners who properly care for their dog and properly train them should be rewarded. For example, owners who can provide evidence of attendance of dog training school should be given benefits or discounts. In a similar vein, those who are well known to the Council to be keepers of troublesome dogs due to poor training and lack of accountability by their owner should be penalised by excessive reigstration fees or removal of the animal. Enforcement of rules should be paramount - if there is no enforcement, then there will be no point in having the rules changed.

It is very important from an animal welfare point of view to have suitable exercise areas for dogs. Responsible dog owners know these animals need to be exercised and, importantly, need to have opportunities for socialisation - critical for good dog behaviour.

Dogs do need spaces available for on and off leash walking, in walking our large, well trained and well behaved dog off leash we notice many owners of very small dogs panic and tell us aggressively that our dog should be on leash. Any interactions with our dog are friendly but distanced from our dogs perspective - any issues we have had have been from off leash small dogs being aggressive and untrained and also from other medium to large dogs off leash at a family beach while ours was on leash, attacked by 2 dogs and then the stupid owner tried to pat our dog. Almost calls to be certified to even own a dog!

I think it is good to have allocated areas where dogs can be off leash. Kohi beach is a good example.

It's sports fields that I personally see as a real issue.

Not sure how you change the attitude of the owners but that whole sense of entitlement is the other issue you encounter when you ask owners to be respectful and responsible.

I've even seen a goal disallowed in a National League game (this is the highest level of domestic football in NZ) because two owners had their dogs off-leash beside the field and let them play. Their response was "they're only having fun"!!!

No limit on dogs, but all dogs should be on leashes. I have seen how dogs run around on the beach and attack other dogs which are on leashes (including my dog), and their owners are nowhere in sight. This causes the situation to be very dangerous for the owners of dogs which are on leashes and tries to separate the dogs fighting. Also I have experienced many incidents where dogs ran over my kids while they were playing, as well as running into me. The owners then just tell my kids not to run around or wave any sticks around because it excites their dogs. Since when can't kids be kids on a beach just because dog owners dont want to put their dogs on leashes? I have a dog myself and I keep it on a leash at all times.

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:Auckland population has rapidly increased, this has not been inalinement .with dogs need to exercise and the amount of dogs has increased. There are more beaches to be at if we share resources.

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Longer hours for.dogs

As well as there are dangerous hazzards at the beach such as sea slugs that has killed dogs This means they are not using Kohi while or less so while these months of infestion is happening.

The foreshore is everyone's to enjoy .

We already have the rules in summer which you cannot walk between 9-5, adding additional rules are deterring people from walking dogs which leads to excessive barking due to boredom at people's homes.

The dog community cares about dogs and parks. Most of us are very responsible and pick up after our dogs. There will always be a few who don't, but they should not ruin it for the majority.

Maybe you need a refresher education campaign reminding people to pick up the dog poo not a blanket ban on the land. Leave Madils as it is, it is a valued community asset and the sports people do not have the right to take this from the greater community.Lets work together to all enjoy it the way it is.

Tell us why

Change the current rule to allow dogs under control on a leash

Do you want the change to apply to the entire location or a section of it?

A section of it. Please specify:Old disused area of the cemetery, the part nearest Waikaraka speedway

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:too many dogs at Onehunga lagoon, Monte Cecilia, big King - we need somewhere else to go, This area is flat and well suited to older walkers. The only other users of this area are a few homeless people

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

The rather derelict older part of the cemetery at Waikaraka park is not used by anyone really, it has a problem with rubbish being dumped and homeless people living there. (mostly but not always in their cars), It is flat and the grass is cut, it is a go

I think there is inadequate off leash walking available. Dogs need off leash walking to be able to sniff, explore and walk freely. I think the dog park concept is terrible, people standing around while their dogs play and get hyped up is not good calming exercise. I have never heard of trouble at Waikowhai, where people walk (and don't stand around). The TMA's management of the mountains with long grass and generally decreasing access, is further reducing places to walk dogs. The council needs to provide more off leash places. The Watercare park in Creamery Rd Mangere could be taken over and maintained properly, the cemeteries could become dog walking places (probably on leash).

The current rules and access works and there is no need to change them and make it more difficult for dog owners to find safe spaces to meet and exercise their dogs.

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Dogs are key parts of many families, and are a positive impact on the families, children, and others in the community when well trained.

I support greater training and education of both dog owners and non dog owners, over restricting access.

Rules are already too restrictive to responsible dog owners. The ones causing the trouble already will continue to ignore the rules. This only punishes those who aren’t contributing to the perceived problems with dogs.

I understand changing rules for the safety of our wild life but changing them so that private companies can have ‘better’ access completely defeats the purpose of a public park

Do not punish the law-abiding responsible citizens who keep their dogs well trained and under control (and pick up poo etc) for the negative actions of the few who will not follow the changed rules anyway. Dogs are a hugely important part of many Aucklander's lives, improving their mental and physical health, especially the eldery. This change would be devastating for many.

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:Make it on a leash. Easy. Enforce registration for all owners and financially punish those that dont.

Yep, the plan is poorly thought out and has very little connection with the opening statement of encouraging responsible dog ownership. Short sighted and will make NO difference to the minority of dog owners who flout the existing rules. And yes I do think their needs to be rules. Poor effort AKL council. Please try to see beyond your own prejudices on this one.....

I think these changes are sensible, I would like to see a greater effort to police the changes and greater penalties for owners or supervisors who ignore the rules. Policy without policing is pointless!

Most dogs are loyal obedient companions who usually just want to be with their owners not cause trouble to others. It is very unfair if their exercise areas are to be curtailed again because of a few Irresponsible dog owners who do not care for their pets.

Would be great to see better signage, more consistency, and enforcement. A rule only applies if it is enforced. If it's not, then it doesn't exist.

You are making it harder for the responsible owners who care about their dogs, other dogs, wildlife, and the environment by not doing so. We don't need more rules for the responsible to follow, we need something done about the people who are flouting the rules and don't care.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Do you have any further comments about dog access rules at local parks or beaches?

With the exceptions outlined in this submission, I am happy with the general rules around dog access and believe they give good balance. There are many choices within walking distance and I have clear preferences if going further. I have never been unable to find a good space for exercise and only in one case (Panmure Basin) have felt unsafe doing so due to the actions of others.

I feel that responsible owners are penalised again for the ones who don't care - they should be not allowed to own dogs - register the owner and any breaches then ownership of a dog should be taken away

Owners with dog onleash should have the same access to beaches and green spaces as other people. By this I do mean with the exception of playgrounds and sports fields

Do you have any further comments about dog access rules at local parks or beaches?

I like and abide by the summer winter rules for beach access with dogs. I love walking my dog along the beach everyday. I frequently pick up rubbish whilst your council employees sit and enjoy the view. Please as a council do more about the disgusting rubbish and litter left behind everyday at Mission Bay. Never any dog poo. Ok maybe the odd incident but far more lazy people. We need litter fines. We need enforcement on alcohol drunk on the beach, glass bottles left behind. Focus on this as a council please.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Council relies heavily on voluntary compliance due to a lack of enforcement powers and abilities. Having simplistic rules with clear reasoning behind them work best to ensure compliance with the majority of the population. There will always be people who disregard the rules and they won't care if the rules are changed.

Consideration should be given to the management of large, aggressive dogs wandering free. Dog attacks on animals and people are becoming more frequent. The council should be allocating more resources to dog control measures to protect animals and people.

Yes, there should be a big fine for anyone not picking up their dog poo!
Dogs should only be allowed to poo on beaches below the high tide mark.
It would be great to have some beaches dog free all summer.

Small popular family beach all year. Adjacent children's playground. Dog owners ignore rules,pose too much risk to children.

Do you have any further comments about dog access rules at local parks or beaches?

Dogs should be fully prohibited from high public use areas such as most Auckland beaches all year. Current rules are not enforced and routinely ignored by dog owners. Too much risk to young children in particular. Dedicated dog parks please, look at cities in places like Australia, they manage dog control and safety far better and put a lot more responsibility back on dog owners via enforcement

Limiting dog access as currently rules is good and far for all parties. Changing this rule only would move to pandering to specific birdlife groups who already are overdoing there jobs

No change to the rules please..

Do not restrict dog access because of dotterels or any bird or wildlife.

On-leash solves problems. having nowhere for a dog to go is very difficult if you have your dog with you already.

It is very difficult traveling with a dog and having to check all the rules for different places.

Are there than many problems that we need to restrict dog access in so many places?

I want to walk my dog for my own mental health and for the dogs sake.

The dog restrictions just make it so difficult.

It should be have better enforcement currently some owners take the dogs to park and beaches during times when no dogs are allowed but there is no regular patrols so no enforcement

It is really important to remember that not every area has tides that are conducive to morning and evening only walk times - and sometimes during the middle of a hot summers day it is really nice for dogs to get to swim. It is really important to balance the enjoyment of people at the beach with the consideration that real life doesn't always fit into the schedule of before 10am and after 5pm.

No. I am just recording these events as I have met many people who have had unfortunate experiences and the older they get they just do not go and walk the walks they always did. I hope we I'll not need to be in these that category.

I would really love to see more birds coming back to Cheltenham Beach. A few years ago we had the Shore Plaver visit several times. It as such a thrill so see such an endangered bird on our beach.

Thank you for the opportunity to have my say.

We need to give the dogs our pets a good life, and where they are able to run and socialise with other dogs- off leash areas are important with good smells and good access to home (walking distance or short drives) as well as having a cafe is great as able to practice social skills of relaxing at cafes for dogs. makes greater use of the parks and beaches

Furthermore, I would like to highlight that Whangaparāoa currently lacks any off-leash gated or fenced area for dogs. Such a space would be a valuable and welcomed addition to the community, providing a safe environment for dogs to exercise and socialise without disturbing wildlife. Creating a dedicated off-leash area would be a proactive solution that balances the needs of dog owners and conservation efforts, ensuring that both can coexist harmoniously.

I urge the council to retain the current time-and-season rule, which provides an appropriate balance between protecting the dotterels during their vulnerable nesting periods and allowing for responsible off-leash dog walking at other times. Additionally, I encourage the council to explore the possibility of establishing a gated or fenced off-leash area in Whangaparāoa as a long-term solution for the community.

Create dedicated fenced areas for dogs only and leave the public areas safe for everyone else. At the moment, there are no safe areas to be 100% sure you won't get attacked.

On the leash dogs all the time outside dedicated fenced areas.

More provision should be made for dog exercise areas, particulalry off leash. prepople who take their dogs for exercise are responsible dog owners. The problems associated with dogs are due to unregistered dogs and dogs that are allowed to roam freely, these often being unregistered animals. Council should focus upon enforcing registration and preventing wandering dogs. Council should not punish responsible dog owners by removing facilities for dog exercise and play.

There should be a lot more areas where dogs are prohibited, most trips to public areas parks and beaches, involve dodging dog faeces or having to sit near it, it’s disgusting.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Please do not reduce off leash opportunities for dogs. As long as the dog is under control at all times there is no reason to remove off leash opportunities. this is punishing good dog owners who care about the dog s health and well being by taking the dog out to run free for a period. Council should be using this resource to implement changes to protect abused and neglected dogs - such as removing chained dogs from their situation immediately and disallowing such owners to own another dog.

A section of it. Please specify:Area adjacent to showgrounds, where there is no stock

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:To accommodate the increase dog population due to intensive housing

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Intensive housing policies result in more densely populated dogs, requiring more off leash areas. Discouraging Aucklanders to not use private vehicles, should align with more off leash areas accessible by foot.

Auckland should be leading progressive dog friendly policies, and listen to industry leaders and responsible dog owners. Not a minority. Enforcement of existing policies should be undertaken to address irresponsible dog owners, and not penalize the majority.

Auckland has extremely limited decent off leash areas for dogs. Limiting this won't stop the irresponsible owners, it just punishes the good ones.

I feel that 95% of dog owners are responsible. Focus on the stray/roaming population and the abuse cycles that are happening constantly leading to more and more dogs being put down in the pounds.

I'm not against regulation—I support it!

I believe in uplifting the industry through education to raise standards, licensing for accountability, and solutions that genuinely address the issues. Regulation by numbers alone won't solve the problem.

Please work with real life dog walkers and trainers to come up with better solutions, rather than having a very small portion ruin it for a lot of people and dogs.

Dog owners, who allow fouling of parks, beaches, etc. should receive a large fine. Responsible dog owners shouldn't suffer because of a few irresponsible dog owners. The sports clubs are not the sole arbitors of Madill's Farm, which was gifted to the community.

Please start by fixing the root cause of the problem (irresponsible dog ownership) & take the opportunity to reframe what dogs look like in a high-functioning society as per France, the UK, Hungary, Germany. The proposed rules curb my individual freedoms & access rights - why should this be so when I'm responsible owner & my medium sized pup leaves only his paw prints behind? Take the opportunity to reframe dog access - make it more generous in line with modern times. Make dog ownership harder to have - sort out the good folks from the bad.

They force all beach users to leave the beach at 5pm which is crazy in summer when it is light until 9pm. Dogs overrun the beaches and poop on the sand. Some dogs owners have total disregard for anyone else and do not pick up after their dog and do not have the dog under any type of control off-leash. I know of people who have had a strangers dog jump on them, been knocked over and broken their leg. It is completely unacceptable for the majority of beach goers enjoyment of the sand be destroyed by animals in the summer months by dogs when there are so many beaches on the island which are not popular and equally suitable for dogs to use.

Dog owners have become really entitled and aggressive. Stronger policing (by uniformed wardens) might be needed. Dogs need to be on leash anyway.

Thank youbfor providing an opportunity for feedback on bylaws as they relate to dogs. I have been a dog owner in the past (in another area of Aotearoa NZ), but do not currently own a dog.

In my view dogs should never be allowed off leash if they cannot be recalled by command. This is a rule when enjoying bridle paths and walkways in the UK and should also apply here, especially on beaches.

1. Regarding updating dog access rules

Our dogs actually need more off-lease areas, but you are trying to do the opposite. If you have been as dog owners, you would know less social and exercise will make them more aggressive. if you are doing so only because some people reported, we would like to know did they really attacked by off-leash dogs? Please do not count stray dogs in, because it is not off-leash, They are dogs without the supervision of dog owners. As responsible dog owners, we take our dog off-lease and we supervise them. There are about 500,000 dogs in Auckland, current off-lease area is even not enough for us. please open more areas for us.

Before I became a dog owner, when I ran on the track and met some big off-leash dogs, I was also scared, but if I saw their owners were close and told me their dogs were friendly I felt relaxed, after I became a big dog owner, I can understand the people who are scared of dogs, but we should teach people how to treat offleash dog, firstly all dogs in NZ have no rabies unlike in other countries which can be very dangerous to people, in addition when you see an off-leash dog run towards you, do not be panic, calm down, treat them like a baby, they just want to play with you. I have been as a dog owner for 15 months, I take my dog offleash almost every day and I have never seen an off-leash dog attack other people or dogs, they might chase, and bark, but not bite. That's the way they play!

My dog was only once bitten by another 'on-leash' dog, that dog-owner was nervous and pulled his dog back when my dog was trying to approach and play with his dog, I had no experience at that time and still let my dog approach his dog and his dog bite my dog on the face. I suppose that dog owner might have treated his dog badly at home and not given his dog enough exercise/off-lease. This is only one extreme case I have met since I have a dog, after all we should not permanently close a motorway because of one accident, we should not reduce off-leash area because of those very few irresponsible dog owners, right?

I like one rule another dog owner told me, 'Be nice to your dog, they will be nice and listen to you', I have read a lot of rules from websites, dog classes, and dog owners about training dogs, but this rule is the one I trust most. 'Be nice to a dog', especially for a big dog, means, enough exercise and social (for my golden retriever), don't use violence against them.

We pay the annual fee for our dogs, can you use that money to build more off-lease areas for us, please?

I'm writing to share my concerns about the proposed updates to the Council's Policy on Dogs and Dog Management Bylaw, as well as changes to regional and local park dog access rules.

Dogs are such an important part of life for many Aucklanders. They provide companionship, emotional support, and help bring communities together. The current policies and bylaws seem to be working well overall, so I'm not sure these changes are the right direction.

Reducing dog access to 14 regional parks, 64 local parks, and associated beaches feels like a step backward. These are the places where dogs and their owners can relax, exercise, and connect with others. Many other countries, particularly in Europe, are finding ways to make their public spaces more dog-friendly, not less. It would be great if Auckland could aim for the same approach instead of restricting access further.

On top of that, dog owners already pay compulsory fees specifically for using parks. Limiting access feels unfair when we're contributing financially to the upkeep of these spaces.

I hope the Council can work toward policies that keep Auckland's public spaces enjoyable for all

Several times I and others have been compromised by dogs dashing through us or knocking us over while fetching balls thrown by owners in a line parallel to the sea edge - this is where people walk. If they must use the balls on the beach, they should throw them where there are no people walking or swimming. Can we use something like citizen's arrest to demand their names so we can report them for a fine? I have also been hit by these balls.

There was another instance when I was on a northern North Shore beach at dusk when I appeared to be the only walker and a dog appeared from the non-housed northern embankment, presumably a car park, rain at speed towards me and ran around me in circles, barking loudly. The owner later appeared and was not at all apologetic.

I have also been threatened by barking, snarling dogs running loose in a walkway near my previous home in Glenfield - I couldn't move but eventually managed to straddle a neighbouring fence to escape their wrath. I have seen similar threatening behaviour to a young person just walking down the road on the opposite footpath. She couldn't move as when she took as step the dog would snarl and lurch forward. I used an umbrella to keep the dog away while helping the child move down the street.

I was brought up on a farm and had a dog to train as a pet, I was never afraid of dogs prior. It is too bad that we have to be extra wary in the city.

Hi, just had a quick look of the part of the new update, don’t have time to read the whole thing. Feel like there’s more restrictions for doggies access, less places dogs can go, really upset as a dog owner.

As more and more family have pets as one of their family member, why dogs can’t go places where human beings can be as long as dogs is under control?

This is discrimination!!!!!

There would appear to very little consequences for these dog owners these animals should be ceased and the openers given massive fines

It's high time that the council considers including dogs that are under control and on leash. It is time, well past in fact, for those myopic nutters within council and outside counsel to think about others and not just their own narrow self.

I believe with some of the more dangerous breeds of dogs that when these people register them that they are told they are not able to let their dogs off the leash in any public areas and this should hopefully reduce any incidents

Regarding the beaches. I think rules around dog access should be consistent across Tamaki Makaurau for the times dogs can be on/off leash in the morning and at the end of the day. At the moment, you have to look up the times beforehand for each beach - why? More clarity is needed. There is a place for dogs to be on the beach as they just love the space/water etc. so again provide the fun for the dogs/families with clear rules across all the beaches.

To be safe and socialised all dogs absoltely need to be off leash for part of every day. More places rather than fewer should be the norm. If you don't like dogs there are plenty of parks where they are not allowed at present. We don't want more of them.

It is over-regulating to stop dog walking on our Maunga. In light of obesity and mental health problems, we need to increase recreational areas where there are mature trees - not reduce them. Also, if users are concerned about dog faeces, increase the cages where people can leave their excess plastic bags for people to use. There are not enough bins for disposing of dog poop bags.

Again it would be a shame to see Madills Farm rules to be changed. You could ban trees as kids fall out of them on the park. This would be silly but soccer, touch players will be injured. My grandsons both play on fields that are only for sport and they still get injured.

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:Dogs are widely untrained and out of control. No dog should be off-leash.

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

As a mother of a small child, we get approached by dogs that won't cvome when called. I've had to stand between my daughter and a dog many times. Not acceptable, and there's no one policing this enough.

NZ is a country of dog lovers with a high percentage of pet owners. Despite this, we have so many rules and regulations that are restrictive, overbearing and unsupportive compared to other countries. The truth is NZ is not as "pet friendly" as we pretend to be. I find that frustrating and am always rather shocked when I find a place that is warm and welcoming toward our 4-legged child.

The lack of publicity over the proposed changes has been woeful. Council haven't bothered to put a single up in Madills Farm to notify park users of what is under consideration. Appalling.

Dear [Council Members/Park Management],

I am writing to express my concern about the proposed or current dog access rules at local parks and beaches. While I understand the intention behind these regulations, I do not support restricting dog access in these areas, and I believe there are better solutions that can accommodate both pet owners and other visitors to these spaces.

Local parks and beaches serve as valuable community spaces where people of all walks of life gather, exercise, and connect with nature. Many residents, including families and elderly individuals, rely on these areas for both recreation and relaxation. For dog owners, parks and beaches provide a critical opportunity for their pets to get exercise, socialize, and experience the outdoors. These areas are particularly important in urban environments where private yards may not be available.

Instead of enforcing blanket restrictions on dogs, I propose that we explore alternative measures to ensure the safety and enjoyment of all park-goers. This could include designated off-leash zones, clear signage that emphasizes responsible pet ownership (such as leash requirements and waste disposal), and sufficient facilities for pet clean-up. Additionally, the implementation of time-based access—such as allowing dogs only during off-peak hours—could minimize conflicts between dog owners and others.

I strongly believe that a more balanced, thoughtful approach to managing dog access in local parks and beaches would better serve our diverse community. By creating spaces where both dog owners and non-dog owners can coexist harmoniously, we can foster an environment that promotes inclusivity and respect for all.

Let's stop giving away our way of living for a few people who may never understand the simple joys of the kiwi way. Changing rules and by-laws for a handful of birds is ridiculous. Move the bids and their eggs.

Just remember that dog owners pay rates too. All parties need to be considered. Compromise is needed, eg off-leash before 9am and after 5pm. Thanks

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Change the current rule to allow dogs under control off a leash

Do you want the change to apply to the entire location or a section of it?

A section of it. Please specify:All except children's playground

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:only dog owners use the grass area, and they make great use of it

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

More people have dogs since covid, so why would you try to reduce off leash options? You have the opposite policy approach to the one you should have

I feel that dog walking services abide by the rules and are more responsible that many of the general public. I myself have witnessed over many years that some dog owners can be most unreasonable when exercising their dog but the professional dog walkers have a reputation to uphold and only employ staff who understand dogs and carry out their task in a responsible manner. Perhaps the dog walking professional handlers should be registered like the dogs they control and look after.

Yes, I've been making these submissions and presentations to Auckland Council for fifteen years and it's the same issue again and again. You have a media headline of a dog attack on another animal/s or person and use that to demonise all dogs and their owners. You're quite happy to take our rates and dog registration fees but loathe to discuss the real problem we have with dogs in our city - unfit owners who refuse to desex their dogs, are cruel and abusive to their dogs and leave it up to the many faceless independent animal welfarists to rescue pups, desex dogs and rehome them if we can and finance it all ourselves. During Covid there were messages from various local and national politicians spouting how important our companion animals were for our mental and physical wellbeing and that's true. But then when there's a negative regarding same the kneejerk reaction is to blame us all and ban dogs from being part of a community's every day life. Our dogs need off leash access to a variety of parks 24/7 and we to our beaches at certain times during certain seasons which we've submitted and presented on as well. It's called sharing your community. The soccer and cricket clubs have a place and no one is saying they are to be banned. But stop allowing some very selfish people from taking over our parks purely for their own leisure. It's undemocratic and frankly, it's revolting.

Beaches – no dogs. Reason – mostly endangered shorebirds they breed there e.g. Muriwai Beach (and there are a lot more places). Dogs on beaches cause nuisances.

Provide greater opportunities for off leash (even time limited), and you'll see that the amount of dog issues will decrease. Exercised dog is a happy dog, and people are naturally lazy and will walk their dogs where they are used to regardless of any rules.

Don't punish the good community of dog walkers, focus on those who don't care about their dogs and backyard breeders.

Madills Farm is unique in that many small dogs can be off lead here safely. Some beaches and parks attract mainly large dogs and therefore our dog is not as comfortable as at Madills.

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Do you have any further comments about dog access rules at local parks or beaches?

Make the signage clearer!!!

The current text on the signs is far too small.

They need to be clear and concise to be able to be seen from a distance so dog owners cant say they didnt see the sign.

The seasonal "symbols" are ambiguious and not clear either.

There needs to be patrols of the popular beaches during the exclusion times by compliance officers as all too often there are dogs on highly popular beaches during these times.

Make the Street Parking Wardens able to instant fine a Dog Owner that is breaking the by laws!

Send out the bylaws with every registration tag so there are no excuses as to the times dogs can be on beaches and parks.

I would like to see more effective responses to dangerous and unsupervised or under supervised dogs. I imagine this would involve better resourcing for animal control officers and likely more of them.

Dangerous breeds should not be allowed in the parks.
Even with leash, some owners are not able to control them.
Such dogs should be desexed and it should be mandatory.

Send more council inspectors to check on dog access compliance ,and dog behaviours and to prosecute irresponsible dog owners accordingly.

I have spoken to other locals who are shocked and disgusted about the bad dog owner compliance and lack of council action taken in this regard. Just changing the rules and then not checking if they are observes is pointless.. Tourists visiting beaches such as Cheltenham and Narrow Neck are shocked by the low standards of dog control, feel threatened (by roaming dogs) to visit/walk on/ swim at the beaches and question standards being set by council and the poor level of mitigation being carried out.

I get that some people dont like dogs but dogs are absolutely a part of our everyday lives. Dont't curb our dog walkers and dont make it impossible for dogs to enjoy the beach and off lead time as they absolutely love it!

Council parks should be for all users and it is up to the council to implement a solution that works for ALL users. The park isn't privately owned and we all pay rates and dog registration fees which mean we contribute to the upkeep of the park and have the right to fair use.

I have made many sightings of unleashed dogs chasing sea birds and vulnerable wildlife. Their owners do not understand what their dogs are doing by harassing wildlife.

Dog owners often break access rules and with no council dog inspectors there to check on them and prosecute them, they do not care and have a very entitled attitude to breaking access time rules and getting away with this and any other bad dog behaviours, that they want to. This also applies to Cheltenham beach, Narrow Neck Beach and all other Auckland north shore beaches..

Dogs are also harassing humans walking and swimming at Cheltenham/ Narrow Neck , The beaches have gone to the dogs with "entitled" dog owners who walk their (doggy) burglar alarms down to the beach to do their toilet. The owners often do not watch the dogs doing faeces and do not clean it up.

Another example of bad dog (owner) behaviour is as follows. As it was an early high tide, I went swimming before summer dog day access starts at 10am. A dog walker threw a stick for his big dog right close to me, while swimming. I felt frightened and intimidated.

One day a dog rummaged through my stuff left on beach. When I asked the dog owner to control their dog they said that their dog was very clean, so I was to assume that rummaging through my stuff was ok with them as their dog is very clean. I am still baffled by this strange and 'entitled' attitude, the sort of attitude many of them seem to have, So I have to leave my bags/ towel etc high up somewhere out of dogs' way now

My request is to please change summer access times to Nov 1st - March 31st and from 9am to 6pm every day in this time frame. (With climate change the summer swimming season is longer now).Also winter dog control rules need addressing so dogs are on leash at all times.

May I also please request that more council dog control inspectors are sent to check Cheltenham/ Narrow Neck and other beaches in the vicinity, in order to check access compliance and other dog (mis)behaviours eg faeces, unlashed and wild running dogs. Could they possibly give fines given to dog owners breaking the rules. Then these owners and other (non-compliant) dog owners may get the message, that people visiting Cheltenham/ Narrow Neck, feel harassed/ abused/ intimidated by their dogs who are behaving badly. I honestly think a percentage of dog owners have no idea and feel “entitled” to do what they like.

Please don't restrict dogs and their owners anymore! Dog owners are rate payers and have rights too! Dogs absolutely love the beach, please don't deny them an absolute pleasure of being able to run freely on a beach and in the water. Give dog owners some credit that they will appropriately manage their dog so no incidents occur. Dog owners tend to love their dogs more than anything and want more than anything to keep them safe so won't do anything stupid to put their dog or other dogs, people at risk.

Dog rules all pretty regulated

Put higher fines for those who don’t comply rather than new rules . Seems unfair

We should not let the actions of a few bad dog owners restrict the good owners. How about a reporting hotline or monitoring rather than removing areas for dogs, or reducing pack walking.

The more you remove dog access off leash access from some parks the more pressure that will then put on the surrounding off leash dog access parks and beaches, which in turn will get more crowded with dogs (as you are restricting access to other areas and by time) and non dog owners will then complain there are too many dogs on the remaining areas. If you restrict access for dogs , the dogs don’t go away, they still need to be walked and have off leash time

I don't support the proposed amendments to the bylaw and policy because they don't make sufficient efforts to protect nature from the impacts of dogs.

The Auckland-wide dog rules should require that dogs be prohibited from all Kauri Forest area to prevent the spread of Kauri Dieback.

The Auckland-wide dog rules should require that dogs must be on lead and under control in all natural forest, riparian, and estuarine areas unless specific provision is made to permit them.

Council should enforce instant fines for anyone breaching dog walking rules.

I don’t think rules about dogs being on or off leash need to be changed. Some people will still refuse to follow the rules and control their dogs even if the rules change, so why ruin it for everyone. You will be punishing dog owners who control their dogs well due to the actions of a few people that won’t change their behaviour anyway.

To whom it may concern,

I am writing to express my strong opposition to the Council's proposed updates to the dog policy and bylaw, as well as the regional and local park dog access rules. It is my firm belief that these changes undermine the fundamental principles upon which Madills Farm was gifted to the Council.

Madills Farm was entrusted to the Council with the understanding that the public would have unrestricted access to this valuable community resource during times when organized sports are not being played. This access is vital for the community, providing a space for recreation, relaxation, and the enjoyment of nature with our canine companions.

The proposed updates threaten to restrict this access, which would not only diminish the community's enjoyment of Madills Farm but also contradict the intentions of the original gift. It is essential that we preserve the spirit of openness and accessibility that has been a hallmark of this space.

I urge the Council to reconsider these proposed updates and to honor the commitment made to the community regarding access to Madills Farm. Our parks should remain places where families, dog owners, and all members of the community can come together and enjoy the outdoors without unnecessary restrictions.

Thank you for considering my views on this important matter. I look forward to your response.

Sincerely,

[redacted]

Allow the good dog owners to continue as they are but to please really police tose who are ruining the freedoms we have as good dog owners. I feel the council has almost failed us because now the rules are changing only due to council not really talking hold of the issues when they started. Why now are there wardens at the beach shoulder tapping about poo or whatever when this could have been happening all the time before this new submission to change so many rules under one full sweep. Thank you for my freedom and continued well being for having these freedoms.

Do you have any further comments about dog access rules at local parks or beaches?

We can share our beaches with our doggy friends but as the population increases let us make that restricted access in Summer and for wildlife too where there is nesting as unfortunately if you make bylaws it has to be monitored . In my experience people who own dogs don't like to be criticized for doing the wrong thing and don't like to follow the rules.

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Do you have any further comments about dog access rules at local parks or beaches?

There is getting less and less areas to walk our dogs. We all enjoy the beach including our dogs who we call part of the family

All dogs on leash at all times. My grandsons have been terrified to go in the water or come out of it because of dogs off leash on the beach. Plus they run up to you while you are sitting and walk all over your towels and sniff your bags.

Acutally having dog rangers present to give advice to folk would be a novelty.

P3erhaps have a section on dog registration that you need to read and then confirm your understanding. Guess for all the people that choose to let their dogs have freedom in the streets and at night nothing will alter their behaviours

Just leave the rules as they are. I am all for 'rogue' dogs (and owners) being penalised but the 99% of dogs do no harm and give their owners (and families) huge pleasure. Why regulate everyones lives...increase the penalties for irresponsible dog owners and leave the responsible owners (and their dogs) alone!!!!

Must humans have all the rights and all the land? Uncalled for and unjustifiable.

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

There is no evidence of dog attacks at this park. Current council rules have effectively dealt with the few cases of poor owner or dog behaviour. This very park was one of the reasons I purchased in the area.

As a rate payer I would assume that much has been spent by the council to maintain this swamp area. Therefore why is there a threat that we can’t all use the land for our various activities?

The current summer rules are ridiculous and only result in lots of people being on the beach at one time. They do not reflect that we are a diverse society with people who work different hours and who should be allowed to walk a dog on the beach responsibly during the weekday on a day off from work, at any time or enjoy a swim with their dog. When did the council become so anti-dog?

I strongly oppose prohibiting dogs either walking or off leash on Forestry Beach. The beach is huge, very quiet and has only ever been used respectfully by those I've encountered walking or running dogs there. There is ample room and eases some of the load from the beaches and estuary in Mangawhai. Please, please leave this as an area where dog owners can exercise their dogs- it couldn't be more ideal! Banning dogs there would be ridiculous.

Yes. The Orakei Board is being pressured by a soccer club that does not represent the community to change rules that are part of the recreation reserves long standing by law which was part of the original gift of Madills farm to the council for the community and not for a soccer club. The Orakei board should refuse to buckle to the pressure being put on it by a sports club

Do you have any further comments about dog access rules at local parks or beaches?

Overall, I feel that dogs have taken over beaches and parks. There are dogs that are out of control and dangerous. They are a very real threat to families and someone is going to get seriously hurt. Parks and beaches should be for people, not dogs. People should be able to enjoy these places without fear of harm. I am extremely concerned about a small child being killed in a local park by an out of control dog. That situation should never occur yet the current rules are completely blind to this risk.

I think it’s important that local parks and beaches remain accessible for local dog walkers. Otherwise more cars will be used for “walking the dog” and the traffic in Auckland will get worse.

There are areas where there are a lot of dog off leash when they shouldn't be eg Mangere Mountain. You should focus efforts to ensure that there is rule following by dog owners who use that mountain. In addition the area has a lot of dogs that are not secured on their property so end up on the beaches along Kiwi Esplanade (some dogs friendly and some aggressive)

THIS IS ABOUT COMMUNITY, FREEDOM, AND FAIRNESS

Monte Cecilia Park is one of the very few remaining spaces in Puketāpapa, Tāmaki Makaurau where dogs can be off-leash. It is a place of connection—a space where dogs run, people gather, and community thrives. The proposal to restrict the bowl area to on-leash use is not about safety; it's a cost-cutting shortcut that ignores real solutions and punishes responsible dog owners.

A LAZY FIX THAT FAILS EVERYONE

Instead of investing in fencing, signage, CCTV, and proper enforcement, the council is taking the easy way out. Other countries successfully balance off-leash access with public safety—why is Auckland settling for less?

WHAT WORKS IN OTHER COUNTRIES?

In places like the United States, Canada, and parts of Europe, off-leash dog parks are designed with safety, organization, and community well-being in mind. Auckland should be looking at proven international models instead of imposing a blanket restriction.

How the U.S. Does It Right:

✓ Fully Enclosed Off-Leash Areas – Parks are fenced with double-gated entry points, reducing the risk of dogs escaping and ensuring controlled access.

✓ Size-Specific Play Zones – Many parks separate large and small dogs, preventing intimidation or injury while ensuring all dogs can socialize safely.

✓ CCTV Surveillance & Park Rangers – Cameras monitor activity for safety, rule enforcement, and incident resolution, while park rangers ensure compliance with park rules.

✓ Clear Rules & Responsible Ownership – Well-placed signage reminds owners of leash laws, waste disposal and behavior expectations.

✓ Amenities for Comfort & Cleanliness – U.S. parks invest in waste stations, water fountains for dogs and people, and shaded areas with benches ensuring a clean, comfortable and well maintained environment for everyone who visits.

✓ Permit Systems for Responsible Owners – Some cities, like New York and Chicago, require off-leash permits, ensuring that only responsible, registered owners can use these spaces.

These effective, well-managed dog parks prove that safe, structured off-leash spaces are possible without unfairly restricting responsible owners.

THE REAL IMPACT—HARM TO DOGS AND COMMUNITY

Dogs' Health and Well-Being at Risk.

Off-leash exercise isn't a luxury—it's a necessity. Dogs need space to run, play, and socialize for their physical and mental well-being. Restricting them to on-leash walks leads to:

⚠ Increased frustration and anxiety. ⚠ Higher risk of behavioral problems. ⚠ Less socialization, making dogs more reactive and harder to manage.

A tired, well-exercised dog is a happy, well-behaved dog.

Stripping Away Community Connection

These spaces bring people together—owners form friendships, share training advice, and support each other. Removing off-leash access weakens the community spirit that makes Monte Cecilia Park special.

WHERE DO OUR REGISTRATION FEES GO?

Every year, responsible dog owners pay registration fees, trusting that these funds will be reinvested into maintaining and improving dog-friendly spaces. Yet instead of expanding or enhancing off-leash areas, the council is taking them away. If our contributions aren't being used for fencing, signage, patrols, or proper infrastructure, then what exactly are we paying for? Stripping away off-leash access while continuing to collect our fees isn't just unfair—it's a failure of accountability. Dog owners deserve transparency and real investment, not restrictions disguised as solutions

THE TRUE MOTIVE

Is the council truly committed to enhancing Monte Cecilia Park for everyone, or are they simply reshaping it to prioritize events, commercial interests, and profits? This proposal risks changing the very identity of the park. It would be a deeply disappointing outcome if Monte Cecilia Park were to lose its essence in favor of profit-driven development. The bowl area's natural landscape is perfectly suited for dogs—removing it to serve only events and profit, rather than the people who rely on it, undermines the park's purpose and strips away what makes it truly special.

THE BETTER SOLUTION

Instead of blanket bans, the council should: ✓ Install fencing for safe off-leash use. ✓ Enhance signage to educate all users. ✓ Implement CCTV for accountability. ✓ Increase patrols to enforce existing rules.

DON'T TAKE THE EASY WAY OUT—INVEST IN REAL SOLUTIONS

Monte Cecilia Park belongs to everyone.

Off-leash spaces aren't just a convenience—they're vital for the well-being of dogs and the community. This proposal is lazy, unfair, and unnecessary. I urge the council to reject it and commit to solutions that protect safety, community, and fairness.

Investing in off-leash areas now is investing in the future— for the health of our dogs, the strength of our community, and the well-being of all park users.

Let's preserve what makes this park special— for dogs, for owners, for everyone.

I trust the council in making the correct decision as after all 95% of the time dogs and their owners use the parks, so why should a football game once per week restrict that.

I believe that access to all amenities that people and animals share should be fair and considered. For the most part I think that beach access (later in day, off and on leash times seasonally) is balanced to give families etc the undisputed use of the beach during the day and popular times.

I would hate for cookie cutter policy to change how our local park is accessed and in fact all off leash parks that are in danger of losing out to vocal sports clubs who don’t want to share.

The more you continue to restrict off lead areas, giving dog owners nowhere nearby to go, the more people will ignore the rules altogether. And that would cause more harm than good.

Do you have any further comments about dog access rules at local parks or beaches?

Animals especially dogs provide valuable companionship to many people. We should not be restricting them so much, rather we should acknowledge the benefits, including to mental health that they provide to their owners. We should however make it harder for people to breed / own dogs that are known to have the potential to be vicious.

I would like all humans to be reminded and enforced to take every scrap of food / rubbish / plastic/ fishing tackle home or put in the nearest bin when leaving any beach or park. Far more mess nuisance and at times injury or illness is caused to dogs by humans not taking thier rubbish home .

Stop over-complicating what is, by convention, supported by common-sense behaviour. I seriously question the enforcement of these rules, which really puts in doubt the purpose of them existing in the first place (words and actions).

The times that dogs are allowed on the beach are too restrictive. I do not fell safe to go on the beach late in evening. Most dog owners in my experience can make responsible decision themselves

The Policy Objective of the Auckland Council Policy on Dogs 2019 is “To keep dogs as a positive part of the life of Aucklanders". To my mind "keeping" is a key aspect of this. The region's dog population is growing and we need more dog access to public spaces, not less. - Any restrictions should be offset by additional dog-friendly spaces, with as much of these off-leash as possible. To do this the Council may need to fence off areas as they do successfully in the UK.

- dog access rules should be kept very simple . I favour a simple traffic light system (Red - prohibited, Orange - on lead only and Green - off lead) with these same rules applied year round regardless of time of day or season. Dogs don't differentiate, why should we?

- We need clear and frequent signage so people know what is expected. Current signage is inconsistent and sparse.

Sports fields across Franklin are a great facility for the Franklin area. They will be under used if they are excluded as dog exercise areas, as dog owners are the majority of the users during the working week. In addition, there are insufficient dog exercise areas in the region if sports fields are excluded from the regulations.

Once again more policing needed.. regular patrols in our parks. Dog control rarely visible in parks.. too busy with urban street issues.

Love to see parks and reserve dog rangers.

Please don't restrict good dogs/owners. Good dog owners will only break the rules if the rules are broken. Good education should be given to new dog owners about expectations of training and protocols in public areas. People that have dangerous or unsocialised dogs also need to be educated about the implications of that, and be checked on if they are causing problems.

Do you have any further comments about dog access rules at local parks or beaches?

I am concerned about over-reaching of dog rules. Most of the rule changes in both regional and local parks cite wildlife as a reason for restricting dog access further.

I am extremely supportive of protecting our wildlife. Given that it's driven by data.

My understanding is that: dogs rarely attack native wildlife, and when they do it's often a roaming or out of control dog.

Given that prohibiting dogs from accessing parks will only mean responsible dog owners won't go there, I don't see how these changes would help. Roaming dogs will still roam. Out of control dog owners will still take their dogs.

I believe every rule change should be justified by a particular incident (e.g. wildlife was attacked, a high number of people complained, etc.), so that there is evidence that prohibiting dogs will have an impact.

It's already quite difficult to find dog-friendly locations in Auckland. Please don't make it harder.

Rules are hard to fin, tend to be over complicated and limit exercise because of the bad behaviour of the minority. There are few directions to exercise opportunities close and little to no thought has been put in to how many dog owners have moved to the beach due to the introduction of so many shared pedestrian and bike paths, which make it unsafe to walk with a dog there.

Parks are for the whole community and not for just sports. Things seem to be working as they are now. Can't see a good reason to change.

More dogs will be on the beaches which will cause more problems than in parks.

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

It would be great to have this big space to let our dogs run around, and it's not very busy with people.

Do you have any further comments about dog access rules at local parks or beaches?

Dogs should be given more opportunities to be off leash/in areas, not less. With the streets being a dangerous place to walk your dog, having parks and beaches is invaluable. They are such great places to walk your dog, and having them off leash is a plus.

Do you have any further comments about dog access rules at local parks or beaches?

Beaches have fair on-peak and off-peak rules. However, these restrictions mean dog owners are limited to few accessible local parks. Restricting these parks further severely limits the community's ability to fairly excercise and socialise themselves and their dogs off-leash.

Some dog walkers are ignoring the rules. Any policing?
unleashed dogs left poos without walkers' notice is another problem.
So, I would suggest unleash dog exercise area should be separated from the general public area.

Again, the owners are not in control of the animals.

A woman brought a dog to the beach recently off leash. The dog rushed at me and I was sitting on the sand. As i have been bitten recently outside a shop by a dog not under the owners control, this becomes a stressful situation. The woman walked away from me with the dog behind her and it then ran into the scrub area and pooped. She happened to not see it so it was left there. Not responsible.

Dogs are an integral part of Auckland's communities, providing companionship and well-being to thousands of residents. While I appreciate the council's efforts to refine policies for improved safety and clarity, I urge a more balanced and practical approach that supports responsible dog ownership while acknowledging the real challenges of enforcement and accessibility.

By improving signage, maintaining fair access to off-leash spaces, and recognising responsible behaviour, Auckland Council can create a dog-friendly policy that works for everyone.

Perhaps if the council are taking away the beach walks from dog owners, then they should use some of the now defunct Gulf Harbour golf club grounds are a park for the public, INCLUDING dog owners.

Local parks = enforcement needed. Dog owners currently behave as if there are no rules, and I suspect some genuinely have no idea their dogs are not supposed to running around the Auckland Domain off lead wherever they want. But when they are told they don't care and sometimes get angry/aggressive. Most seem to think it's their right to take their dogs wherever they want. Not fair for non-dog owners.

You don't seem to provide balance between the opportunities for non dog owners and dog owners. This leads to less socialisation of dogs, worse behaviour etc, as people leave them at home. You need to provide areas, even in summer, where dogs owners can take their dog to the beach. On leash, for sure. Keep the best beaches as "People ONly" fine, but allow the less popular beaches to be used for dogs. Eg, set a ratio eg. 25% of beaches need to be dog friendly. Locals take their dogs to Tindalls over summer all the time, and apart from the Dotterell situation, which is IN PART caused by people taking their dogs onto the less populated areas, dogs on the beach aren't a problem. People keep them leashed and have them sitting under the tree or their umbrella - good for everyone.

Signage to remind dog owners/walkers to pick up their pet poop. Shouldn't be needed but we have noticed a significant increase in the amount that is just being left - in all areas. In some ways this is also attributable to the lack of rubbish bins in public spaces now so Council must address this in conjunction with this dog access review.

Auckland Council's 2024 Dog Policy Review Findings Report suggests that the existing dog access policies are generally effective.

Any considerations around balancing public use of shared spaces must consider:

1. The need for clarity: Many dog owners struggle with inconsistent rules across different parks and beaches, making it confusing to know where and when dogs are allowed.

2. The importance of flexibility: Blanket restrictions can be unnecessarily restrictive, especially for responsible owners.

3. The success of current regulations: If there’s no ACTUAL evidence of issues at Madills and Glover Park , there’s no justification for tightening the rules.

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:In relation to proposed changes to not allow dogs at Forestry beach, there is already a dog ban on the very nearby TrArai beach for people to access who do not like dogs and also a huge beach for protected birds. So imperative to give dogs and dog owners

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

The importance of balance. Increased areas where dogs are prohibited causes so much stress. I know personally and many friends who rely on beach time with their dogs for mental health reasons. There simply needs to be a balance and appears the balance is

Makes absolutely no sense why the area of dog ban is being increased. We enjoy being able to walk out to the low tide mark, away from people and birds and walk around to Brick Bay and Sandspit. Birds have ample area to nest and feed. The boat houses built

Please, I beg for some balance. I agree there should be dog free ares for people to enjoy without fear or noise of dogs, to protect wildlife. But also the needs to be fair access for dog owners who depend on these beaches for mental wellbeing. Sharing these beaches with our dogs brings so much joy to dog owners, these animals are our family and they love the beach, both swimming and digging in the sand. Please bring some balance and fair access for all to enjoy these spaces, there's enough for everyone to share. Increasing restrictions and reducing areas only creates a greater number of dogs in permitted areas, which becomes stressful for all

Again, please remember exercising dogs is good for people's physical and mental health, crucial to a healthy workforce and population. People work a variety of different hours to cover all the jobs society needs, and they need places to walk their dogs close by. I believe the rules and restrictions here are becoming over the top. You have to consult a book before you try take your dog anywhere new :(

Do you want the change to apply to the entire location or a section of it?

A section of it. Please specify:Grass area only

What is the main reason you want to change the current dog access rule?

Please explain your issue in more detail:

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:This area is frequented respectfully by dog owners. To have an off lease time frame eg: before 9am and after 5pm would strengthen the dog community and allow working parents the opportunity to walk the dog locally off the lease.

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Dogs do not need to go near the existing playground. There is a path boundary which clearly defines the proposed grass off lease area from the playground. Thus only needs to be off lease early morning g and evenings when park is least populated.

2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 4 (local park access).

4. Dog access rules at local parks and beaches

Submitters were able to select from a list of parks with proposed local dog access rules changes to provide feedback.

Feedback is only included for the parks chosen to respond to.

Are there any dog access rules at other local parks and beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Please maintain access at beaches (especially Karioitahi)and parks... and very few dog exercise areas (there are zero dog areas in the subdivision where I live) dog owners are a contributing section of society. It seems council are happy to provide cycle lanes, playgrounds and the likes yet dog owners who make up a good percent of the population are somehow squeezed out with very few resources ...and now dog owners are being squeezed again. As a ratepayer and a dog owner I resent this!

Off leash exercise is important for physical and mental health of a dog. Restricting off leash areas is making it difficult for responsible dog owners to provide dogs with this experience. The policy on dogs requires them to be controlled, even in off leash areas, thus well socialised and controlled dogs should not pose any risk to the public. I support the restrictions on out of control, dangerous and menacing dogs, but well socialised and controlled dogs should not be restricted further than they already are.

It would be a very sorry day in Auckland and in fact New Zealand if we didn't see people out with their family and friends enjoying our beautiful recreational areas. Our dogs are one of our family who needs exercise and socializing. What will happen to them and their owners if they can get outside to have some freedom. We shouldn't just give in to the sports bodies who seems to think that parks are just for them. I pay my rates to I have places to walk around and enjoy and appreciate that we can share these spaces amicably with everyone else.

I believe with the greater number of dogs in the wider Auckland area and the negative impact of their health being restricted to small or urban areas such as local roads there needs to be greater access to parks and beaches.

The less ability people have to properly exercise their dogs with greater variety, space and freedom the worse the mental health of the animal and the greater the problem of aggressive and problematic animals increasing risk to the public.
