Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Other (please explain below)

Tell us why

The solution isn't in managing the amount of dogs a handler can manage. It's in breed specific licensing and training. A single power breed(American bulldog, Rottweiler German Shepherd, etc. can kill a human or another dog without any help. Education is the solution. Owners wanting said breeds should have to go through licensing courses and examinations which both owner and dog must pass. The same can be said for dog walkers. A shitzu isn't going to kill but it can start an incident that a power breed will finish. Dogs need to be trained to a standard which prevents incidents to the greatest degree possible. There are a lot of pack walkers who are highly skilled trainers as well and have never had an incident. It hardly seems fair to limit them to a number of dogs when the culprits who cause incidents continuously would probably be able to cause another one with even a single dog, on or off lead.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

I don't know

Tell us why

Simplifying a complex matter to legislate it, is not a good solution. Complex problems require complex solutions applied by experts. No matter how appealing simple may be.

Clarify rule that all dogs classified as menacing must be to neuter:

Do not support

Tell us why

I have far too often seen neutering proposed as a solution to these types of problems, it's rolling the dice. Training is always a better option with neutering applied if necessary. This is a topic which requires great discussion before everyone is on the same page about it. Again, breed specific training requirements for licensing would solve the issue.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

I don’t know

Tell us why

This depends entirely on who is allowed to make the classification and do the assessment. There are a lot of behaviourists and trainers who are not capable or qualified to, in spite of their claims to the contrary. The market is saturated with trainers and behaviourists across the spectrum from force free to maximum force only, and a lot of them cannot show results which make a difference.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Support

Tell us why

It is important to note that someone with three Shitzus is going to be less of a problem in their environment, than someone with three XL bully breeds. Again I think breed specific training and licensing requirements will solve this more effectively.

Clarify how dog access rules are set:

I don’t know

Tell us why

I am not sure what is meant by dog access rules.

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Support

Tell us why

Clarity is always important in regard to this.

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Support

Tell us why

Provided the solution is sensible and effective and not just simple.

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Support

Tell us why

Provided outdated is ineffective and no longer applicable.

Update dog access rules for Tūpuna Maunga (ancestral mountains):

I don’t know

Tell us why

I don’t understand what this is.

Remove outdated or duplicate bylaw content:

Support

Tell us why

Provided outdated is no longer applicable or effective. If it still works, why change it? Obviously duplicates need to be streamlined, but subject to whose definition of what makes duplicates? There could be subtle relevant differences which get corrected the wrong way and make matters worse. Is there going to be ongoing industry business consultation throughout the process?

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

I firmly believe that the changes which need to be made, should be made with breed specific licensing and handling requirements. Owners and handlers need to provide certification which proves they are capable of owning and handling the breed they own. This will improve public safety issues across the board and it would be great if the first city on the planet to apply this solution, was Auckland. Limiting the number of dogs will not solve the problem or even improve matters. Incidents will continue. Limiting access will not solve the problem either. One power breed dog which is poorly trained can and will cause carnage. Poor education is just making matters worse. Aggressive incidents with dogs have gone up by a massive margin since 2010. It’s time to put some requirements on both ownership and handling. People who really want to and are capable of handling the breeds either have or will be prepared to get the necessary training.

Do you have any further comments about dog access rules at Regional Parks?

There are a significant number of pack walking companies who effectively and efficiently use regional parks daily without incident and have been doing so for some time. The recent surge in companies doing pack walks and some incidents, should not negatively impact the good ones. Rather let their methods become the industry standard with room for modification as required. This is an important service which is greatly beneficial to the dogs which are being cared for and handled responsibly and an opportunity to improve the standards of the industry in Auckland, as a role model for the rest of the world. Don’t copy solutions employed poorly in other cities.

to me

Hi Tia,

My sincere apologies if you have already received an email from me regarding submissions. Please ignore this email if you have.

My web host thought I had been hacked as I sent out over 400 emails at once so immediately put a stop on them. Great to know I have good security! Some had already been sent and I have no idea who has received one or not.

So in order to cover all bases, I am resending to everyone.

Sorry for the inconvenience.

Nicki

Hi everyone,

This is a group email to all past and current clients of Doggy Bush Break.

Submissions close this Sunday 23rd February

https://akhaveyoursay.aucklandcouncil.govt.nz/dog-policy-bylaw-and-access-rules

A reminder that if you haven't put in your submission for the new dog rules, you only have a couple of days left. They will affect you on where you can walk your dog, and me with the numbers and location of where I can walk the packs.

If you are stuck for ideas, I have copied my submission down below to save you time. You are most welcome to use parts of this in your own wording as you see fit.

Thank you so much. Crossing fingers for a positive outcome.

Kind regards,

Nicki

SUBMISSION FOR AUCKLAND CITY COUNCIL DOG WALKING RULES

When setting regulations for dog walkers, careful consideration needs to be given to factors that influence outcomes such as the number of years of experience and the location where the dogs are walked.

As a pack walker with over seven years of walking dogs, conducting over 3000 pack walks in that time, I feel qualified enough to suggest ideas and standards for commercial dog walkers. I have grown my business Doggy Bush Break from scratch, currently have a good clientele base with a waiting list and won a business award in 2023.

It takes a very special person with a very special set of skills to be able to handle a pack of dogs.

A blanket rule covering dog walkers will not work if the person has had zero experience or proper training. It also penalises the experienced, long established, experienced dog walkers who often have more control of their packs than some dog owners.

I would suggest a monitoring or licencing system instead. I have seen dog walkers that can't handle six dogs because of their lack of inexperience meaning they have no concept of safety of the pack in public spaces, animals and the environment because of their inability to assess their environment or the animals correctly. I have also seen owners who cannot control their dog/s around my pack while my pack will be calm and focussed on me.

I can safely walk up to 14 dogs on the leash and can control all the dogs off leash because the packs have been together for years. Almost half of my dogs have been with me for over 4 years. They all know the routine, what's expected of them and know how to behave when with me. They are trained to come back straight away. I can call 'leash' and they will come and stand waiting to be clicked on. All in under a minute. I have trained them extremely well. It's an important part of the business. I train the dogs to be calm and balanced. And to focus on me.

However, in saying this, I have some packs that I purposely keep small in numbers because of their high energy. An experienced pack walker knows the limits of the pack and knows the dogs and their personalities and the environments where it is safe and appropriate to walk different groups. All packs must have the same level of balance, responsiveness and calmness regardless of the numbers. All dogs must always be under complete control and safety always comes first.

Benefits of pack walks for dogs:

The proposed rules will adversely impact dogs and their health and welfare in Auckland. Commercial dog walking businesses provide an important and needed service in the region.

Socialisation

This includes the environment, not just with other dogs. I have a lead dog who works with every pack, and she is vital in my business as she keeps the pack in line. Dogs learn many different play techniques which helps them to interact properly with other dogs while out with their owners. Many of my clients are at work during the day and their dogs weekly pack walk is often their highlight of the week.

Exercise & Mental Stimulation

Many dogs require more exercise and mental stimulation over and above their daily walks, and the pack situation provides this.

Leash training

Training how to walk and behave on a leash – no dogs are to walk in front of my knee. The pack trains the newbies. This in turn transfers over to the owners.

Environment training

How to remain calm and have self-control in the many situations that are presented while on the walks. I have had horses, rabbits, ********** pheasants, birds, cats and people throw balls and sticks in front of the pack while on...

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Dogs must be under control is more than enough regulation. Numbers are not this issue. Poorly managed dogs with poorly managed dog owners are the actual issue.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

Other - please specify:

What is the main reason you want to change the current dog access rule?

Dogs on leashes are by definition under control. There should be time and date restrictions on their access to the beach.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I am the owner of six dogs, I live on a rural property where this is fully allowed. All my dogs are registered, I have a responsible dog owner licence, I have never had a complaint about me or my dogs and I have spent years training my dogs. I regularly foster for dog rescues and have personally helped over 20 dogs out of council pounds and into homes.

The proposed limit will mean I will not be able to walk all my dogs off lead by myself. My dogs love to go for walks in the forest and beach and exploring these places off lead is what fulfils them mentally, emotionally and physically. By not being able to walk them together off leash my life and theirs will be turned upside down and will mean my dogs will hardly ever leave my property as I can't walk them anywhere else. This will impact their socialisation and training (making them naughtier) as we won't be able to practice the behaviours I have taught them.

Walking them and keeping three on leash will be devastating for me and them and cause so much more frustration for my dogs and me on every walk. Walking my dogs is also extremely important for my mental health and not being able to do that after work and watch them explore together will hurt me on such a personal level.

I think Council need to seriously consider who they are impacting with this change and how responsible dog owners like me will be hurt by this. I also think Council need to think about how they are going to make a whole group of people who love dogs rule breakers just for trying to do the right thing. I have never met a person walking multiple dogs who doesn't understand dogs, isn't respectful and follows the rules. I have personally been rushed in public spaces by one or two dogs being walked off lead by one or two people so many times I have lost count. I have never been rushed by a four or more dogs being walked off lead.

I also don't think professional dog walkers are a problem and that Council need to enforce the existing rules rather than making new rules. If a licence is need that's fine but ordinary owners of multiple dogs should not be impacted by this.

Dog walkers are a key user of Regional Parks and their access should be increased not decreased. Auckland has a high population of dogs and dog owners and more spaces need to be provided for them to walk off leash not less.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

The proposed limit will mean I can't walk my 6 dogs together on my own. This will seriously impact their quality of life and mean they won't get the regular exercise they deserve.

I also don't support the limit as I don't think it will solve any problems. There is no data to say that multiple dogs being walked is a problem. This is a solution looking for a problem.

Council should focus its resources on roaming and aggressive dogs so people can safely walk through parks and down the street and not be scared of meeting a dog. Any new bylaw or limit will divert council resources from this important work.

If council think that dog walkers need to be regulated then a licence should be introduced but ordinary dog owners should not be impacted. Council should also work with professional dog walkers as they are experts in dog behaviour and are regularly on the streets and pick up roaming dogs for council.

PDWA

PROFESSIONAL DOG WALKERS ASSOCIATION

#6541

Who is PDWA?

- Member-run organisation
- Over 100 members
- PDWA represents the majority of Auckland’s dog walkers
- PDWA members walk over 5,000 dogs every week

Our submission

We do not support the proposed limit or any of the alternatives

- The data does not support there being an issue
- Resourcing constraints will mean the proposed limit won't be enforced
- Licensing has been discounted without talking to the industry

Licensing

We strongly support licensing which includes:

- an annual licence with a fee
- identification that must be displayed
- a test to confirm the person is:
  - competent,
  - can operate safely,
  - has appropriate processes, and
  - follows all Bylaws
- a practical in person assessment

Safety

- Safety is a key concern for dog walkers every day
- Dog walkers have detailed onboarding processes to assess, train and build relationships with every dog
- **Every day** dog walkers assess their dogs to make sure they will follow commands and the handlers rules

Location selection

- PDWA members chose their walk locations carefully through research and scouting
- Most dog walkers operate during non-peak times (9am - 3pm weekdays)
- Many dog walkers do not walk in suburban parks or streets
- Most dog walkers prefer more open spaces like wide forest tracks and beaches

#6541
Thank you!

Licensing benefits

- Accurate records to help investigate
- Other non-court based enforcement action
- Other people or organisations could administer parts of the system
- Skilled professional dog walkers continue
- Dog owners still have access to professional dog walkers

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I do not support the proposed limit on walking multiple dogs. The proposed limit will penalise responsible professional dog walkers who are an absolute godsend for so many dog owners around Auckland.

It seems the majority of problems with dogs attacking or injuring people is to do with roaming dogs, not dogs being walked as part of a group by professional walkers.

The council should instead focus on addressing roaming dogs and also consider a form of licensing to regulate professional dog walkers, who provide a valuable service.

There is no doubt there has been an increase in the number of people offering dog walking services and a licensing process would help to ensure they meet certain standards of training, ability and care.

We have a five-year-old male German Shepherd (Frank) who has been going to a professional dog walker for the past four years. He walks off-leash regularly with several other dogs under the supervision of a trained handler.

While we walk him twice daily, his regular pack walks are an excellent way for him to get the extra exercise he needs and this additional interaction with other dogs goes a long way towards his behaviour and socialisation. We love knowing that Frank is out having adventures on his pack walks in the care of trained professionals.

Please do not penalise professional dog walkers because there are irresponsible dog owners who cannot, or will not, control their dogs. Imposing the limit of three off-leash dogs per person would no doubt put many professional walkers out of business and then you will have a city full of frustrated, reactive dogs who haven't been exercised properly and owners who leave their dogs at home to howl during the day.

Professional dog walkers provide a valuable service and deserve to be recognised for their skills with a licensing process that can provide a valuable service for owners and reassurance for the public.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Because there are few places in the area to walk dogs off leash. Forestry beach is very lightly used and the impact of having dogs is minimal to other beach goers, but the potential downside for dogs & dog owners who frequent the beach is disproportionate

Waitawa Regional Park
We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

Do you have any further comments about dog access rules at Regional Parks?

Please consider not only the immediate effects, but also the second order and derivative outcomes that are likely from such bans - decreased amenity for those living nearby to walk their dogs, increased travel times to alternative locations, increased activity in other locations where the balance of dog / non dog usage is already an issue. Please also consider the potential upside (and show evidence of dog impact ecologically) balanced with the massive downside and overreach of a ban on such a huge piece of coastline.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Benefits of pack walks for dogs:

The proposed rules will adversely impact dogs and their health and welfare in Auckland. Commercial dog walking businesses provide an important and needed service in the region.

Socialisation

This includes the environment, not just with other dogs. I have a lead dog who works with every pack, and she is vital in my business as she keeps the pack in line. Dogs learn many different play techniques which helps them to interact properly with other dogs while out with their owners. Many of my clients are at work during the day and their dogs weekly pack walk is often their highlight of the week.

Exercise & Mental Stimulation

Many dogs require more exercise and mental stimulation over and above their daily walks, and the pack situation provides this.

Leash training

Training how to walk and behave on a leash – no dogs are to walk in front of my knee. The pack trains the newbies. This in turn transfers over to the owners.

Environment training

How to remain calm and have self-control in the many situations that are presented while on the walks. I have had horses, rabbits, ********** pheasants, birds, cats and people throw balls and sticks in front of the pack while on the leash. I often have more control over the pack than owners that cannot control their own dog.

Educating the public

Teaching children how to approach dogs. So many children will run up to the pack (and the parents will just let them). I train people as well. The dogs under my care have learned to be calm while I talk with people I meet.

Recall training

One of the most important commands a dog owner needs.

Everything I do is training, training, training. And this in turn creates a more balanced and calmer dog for their owners.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I have been a dog owner and trainer for the last 10 years and over that time there has been a significant increase in the number of professional dog walkers walking large numbers of dogs.

In this time I have never had a bad experience with these walkers, and the vast majority are highly skilled in managing their dogs while being very considerate of others in the space. However I have had many issues and incidents with single or pairs of dogs being walked by their owners, who lacked the knowledge or ability to appropriately control their own dogs.

Dog walkers provide a important service in training and exercising dogs appropriately in order to reduce issues like barking or escaping. Dog walkers are also an important source of knowledge and training for owners who may not have other opportunities to learn appropriate dog management. Many walkers provide basic training on lead walking, recalls and basic dog manners that transfers across to owners, resulting in better control and a more enjoyable experience for all of us sharing spaces.

Unfortunately limiting numbers of dogs will make it more difficult for many of these walkers to continue their businesses, with smaller groups resulting in fewer dogs being taken out each day and lower affordability for many people. Sadly this will result in more dogs not having their exercise and mental stimulation needs met and an increase in problem behaviors.

My own dogs have gone out on group walks for many years and it has been a wonderful experience. They have learnt social skills in groups of dogs and how to be calm around other dogs so they don't cause issues with other dogs when I am walking them. They also became so much more comfortable in different environments and have so many experiences I don't have the time or resources to give them. Sending my dogs out with walkers has been one of the best choices I have made as an owner.

I support no changes to the number of dogs being walked and want to see the industry continue to safely grow.

I would also support some regulation in the industry to ensure that people take on the appropriate group size and level of challenge for their skill level. Membership to

professional organizations, appropriate levels of insurance and licensing would be beneficial to manage this.

I also think the council need to increase the amount of public education to ensure owners understand the 'under control requirements' already in place, as well as how to safely read and understand their own dogs.

Other (please explain below)

Tell us why

I believe that there should be restrictions on who can walk more than six dogs at a time, the inexperienced dog walker may be overwhelmed and unable to control their pack which can be dangerous not only for the dogs but for the general public as well. My suggestion is having a license where dog walkers need to register and based on their experience and capabilities that determines how many dogs they can have in one walk. The dog walker service we use has twelve to fourteen dogs at a time on their walks and it is not only greatly beneficial for our dog socially but in terms of learning public etiquette and how to appropriately behave. Our dog walker teaches our dog alongside of the other dogs how to behave in public settings in order to reduce the disturbance on other public patrons. Without having these walks our dog would have no other interaction or exposure to the outside public settings and be confined to our property. In terms of the social aspect our dog would get no other pack experience without these walks, so having twelve to fourteen dogs helps him gain that needed social and mental stimulation that he desperately needs. Dogs are social creatures and need to be around other dogs, by limiting the number of dogs being taken on walks it takes away from that much needed experience. If done correctly dog walking in larger packs can be highly beneficial not only for the animals but for the people and natural wildlife in different regions. By cutting down on the number of dogs allowed on a walk it not only impacts the business aspect, but it also limits how often our dog can go on walks. It will also cause a decrease in diversity within dog walking groups, having different ages, genders, and breeds on walks aids in exposure to different types of dogs and can help when interacting in public spaces. This can also aid in forming appropriate responses in dogs especially with exciting stimuli, helping them react in a safer manner than if they didn't have that training.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

I do not support the proposed limit on walking multiple dogs.

The proposed limit will only penalise responsible dog owners and will not stop irresponsible people who do not follow existing laws.

I am a dog walker who services Auckland dogs in the CBD and surrounding suburbs. I have been operating since 2020 and currently walk 12 dogs per day, 4 days a week, every week.

I do not the proposed limit because:

1. The data does not support that people walking more than three dogs off lead are creating a problem. Incident data presented by Auckland Council showed only 0.7% of complaints related to people walking more than two dogs, meaning those walking more than three must be even less. In addition the data used to support that there is a problem and presented to council in July 2024 was based on a survey of 2,000 civically minded people and its interpretation by Council is seriously flawed and fails to show that over half of respondents had never had an issue with people walking more than two dogs. The survey also doesn't ask how many people had seen more than three dogs being walked at once. There have been more than 2,750 signatures on the Professional Dog Walkers Association petition opposing this proposed limit so more than 2,750 people don't think

there is an issue when less than 1,000 respondents to the peoples panel think they saw more than two dogs being walked causing a problem.

2. The change unfairly targets professional dog walkers only. Auckland Council staff have said that they are not targeting professional dog walkers, but this bylaw change will only impact professional dog walkers. Professional dog walkers have not been spoken to about any nuisance issues or how to best address any issues. I think that licensing of some kind rather than a total ban would better address any issues with professional dog walkers.

3. The Bylaw won't be enforced. Auckland dog owners all know that Animal Management staff are stretched, and it takes days for them to respond to serious issues. Animal Management already do not proactively monitor known dog walking hotspots and this bylaw will not change this. The fact that the Waitakere Rangers Local Board had to fund a dedicated ranger to monitor and enforce rules at west coast beaches is proof of this. If Auckland Council won't enforce the bylaw then the only people who will be impacted will be those that already follow all the rules, meaning rule breakers will continue to break the rules and issues will continue.

I support a license being developed to regulate professional dog walkers as they have the skills to handle multiple dogs and provide a valuable service to responsible dog owners in the community. A system similar to that in Wellington where walkers take a course, are observed walking dogs and face limits would fully address the current issues with Professional Dog Walkers. I also support the Wellington system where walkers with less than a year of experience are limited to walking 6 dogs and more experienced walkers can walk up to 12 dogs and I believe this would be suitable for Auckland. If Council are concerned with the cost of administering a licensing system then an association like the Professional Dog Walkers Association could assist Council with parts of the system and Council could still collect a fee.

Auckland has a serious issue with roaming dogs and Council should focus on this and not multiple dog walkers who make up a tiny amount of reported issues. A licensing regime is the only way forward and Council should proceed with licensing not the proposed universal limits.

When setting regulations for dog walkers, careful consideration needs to be given to factors that influence outcomes such as the number of years of experience and the location where the dogs are walked.

Our two dogs go out with a very experienced dog walker with over seven years of walking dogs. It takes a very special person with a very special set of skills to be able to handle a pack of dogs. A blanket rule covering dog walkers will not work if the person has had zero experience or proper training. It also penalises the experienced, long established, experienced dog walkers who often have more control of their packs than some dog owners.

I would suggest a monitoring or licencing system instead. I have seen dog walkers that can't handle six dogs because of their lack of inexperience meaning they have no concept of safety of the pack in public spaces, animals and the environment because of their inability to assess their environment or the animals correctly. I have also seen owners who cannot control their dog/s. Our dog walker can safely walk up to 14 dogs on the leash and can control all the dogs off leash because the packs have been together for years.

Big concerns...

A) You would potentially be decimating an entirely responsible industry.

B) I see a situation where the issue attempting to be addressed here could end up worse with these amendments.

C) There appears to have been a lack of proper consultation with professional pack walkers and/or their clients.

I am the brother of someone who works in the pack walking industry. She, like many of the other professionals in this industry, has been practicing from a long time in the industry and has learnt from other professionals from the start of her career in it. I go out on one of these pack walks with her and her clients' dogs perhaps on average once every second month or so throughout a given year, and so I have thorough experience of what her pack walks are like, and the positive growth her clients' dogs can go through. What I see are dogs that become better trained and better behaved with these walks. There is training like "recalling" involved providing structure and discipline for the dogs. The healthy social nature of the exercise the dogs receive calms them and allows them to become more confident and secure which makes them more awesome pets to be around for anyone interacting with them. My sister trials these dogs before deciding to take them on as new clients to ensure a dog can be worked with. She is responsible and provides an excellent much needed service for her clients. She would be one of the many professional pack walkers who could be heavily negatively impacted should these proposed changes be introduced.

The proposal to only allow 6 dogs walking at a time, max 3 off leash, has the potential to completely destroy what easily could be a fully responsible, regulated, licenced, thriving industry that benefits many Aucklanders and their dogs. As I understand it, the professional pack walkers in the industry would like there to be licencing for professionals and regulation in the industry. The licencing would prevent "cowboy" walkers (people who have not been properly trained and are often employed by companies prioritising making quick money over being responsible) from walking these dogs which would create risks to their dogs, other dogs and are a higher risk to the public. Special regulation for professional licenced pack walkers could be introduced to cap the number of dogs being walked, however the cap should be set at a responsible limit and professional pack

walkers themselves should be well consulted on this. I've heard a limit somewhere around 12 dogs per pack could be responsible and manageable for the professionals who know their dogs and have well established training and control with them.

6 dogs may be okay for most everyday dog owners in Auckland, but not professional pack walkers. I see one of three troubling ways this proposed change in the bylaw could backfire.

1) Pack walkers raise their prices going for 1 pack walk a day with many less dogs than before. This would almost certainly raise prices too high for most Aucklanders to pay and the industry would decrease in size (which is something the council shouldn't want for reasons I list later).

2) The proposed change involves council-owned areas and public spaces. The remaining areas where pack walkers would still be able to work in similar ways would very quickly become concentrated during pack walking times. This would be a bad option for the dogs being walked as it risks dogs/packs of dogs coming across each other more in these areas. If the "cowboy" dog walkers are still operating, there is a risk untrained dogs could be more likely to come into contact with the responsible professional pack walker packs and risk of conflicts between dogs could increase. This is another good reason why the licencing of professional pack walkers would work better.

3) Pack walkers would possibly try to do 2 outings/trips/pack walks in a day to try to maintain their incomes without radically raising prices. But this would still take more time, energy, resource expenditures (petrol) and prices would still be raised leading to demand for services being decreased and many Aucklanders not being able to continue paying.

Why is the pack walking industry disappearing a problem for Auckland Council?

According to the Councils own data 99.3% of the issues reported about dogs are nothing to do with the walking of multiple dogs. From my knowledge, most are to do with excessive barking and dogs roaming around neighbourhoods due to not being properly fenced into properties. Professional pack walking helps with both of these issues and eliminating or hampering the industry would exacerbate them. The pack walks calm the dogs leading to better behaviour and less reactiveness from dogs (barking). They also provide spaces for dogs to be off leash in a trained and controlled way, which is way better than simply letting a dog roam a neighbourhood.

Any changes to a bylaw like this need to be thoroughly discussed with the people who would be most affected...

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Other (please explain below)

Tell us why

Kia Ora Auckland Council,

I oppose the proposed limit that has been suggested. Although I don't own a dog, I regularly visit local parks and beaches where I often see professional dog walkers.

From my experience, these walkers manage their groups very responsibly. The dogs are well-behaved and under control, which contributes to a positive and safe environment for everyone. In contrast, the few issues I have observed involved individual owners struggling to manage even one or two dogs, or just blatantly disregarding the rules.

Imposing a strict limit on professional dog walkers seems unnecessary when the problem is not with group sizes but rather with untrained or uncontrolled dogs. It would be more effective to ensure that walkers are properly trained and held to high standards rather than penalising those who are already doing an excellent job.

I believe a licensing system would achieve this without the unintended consequences of limiting access to professional services. Please reconsider this proposal and focus on a solution that addresses the real issues.

Thank you for considering my submission,

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?
