Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Support increase for residential parking permits due to this running at a loss, however now modern patrolling is in place, visitor vehicles that stay longer than two hours should be charged parking fees. (Eg. shifting a vehicle 2m shouldn't restart time). Perhaps label as 2 hours per street?

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

I don't know

B. Investigating how to respond to future growth expected in our area.

I don't know

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business

properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

The Council should focus on quick improvements to public transport, such as bus lanes and protected cycle ways, given that it is going to take at least six months for petrol prices to return to normal

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business

properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I think that the Te Whau Pathway should be prioritised, this will encourage more people to cycle/scooter and ease congestion and cost of living

Regarding the City Centre, improved connections should focus on public and active transport modes, as these are more efficient than cars and safer/more pleasant to be around. I would not be interested in visiting a city centre awash with cars.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

For transport, active and public transport modes should be prioritised, as these are more efficient.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

The plan to upgrade Coyle Park playground - not sure why you would need to do that when that playground is great as it is and not that old. Rocket Park is in serious need of an upgrade, it has been the same for decades and is very old and in need of more attention. So much space and opportunity, so many children and not a lot on offer at Rocket park, it's such a shame and a missed opportunity. This is an iconic playground which needs to be improved and expanded as it's a centerpiece for the community of Mt Albert.

Also - You have missed a big opportunity when the Central Interceptor work at Mt Albert War Memorial site on Wairere Avenue has just finished and you built a huge new car park here - this is unbelievable. This is 2026 and it is a prime community land asset and you have added unnecessary car parking. You should be prioritising the development of this area for community to use and active transport - for example you should have added a children's outdoor paddling pool here. Mt Albert war memorial reserve is huge and already acts as a community hub, this needs to be expanded upon and upgraded. We did not need a second car park, there is plenty of parking already and you obviously havent used this space or you would already know the existing car park is working fine. Mt Albert pool is indoor and over-run, very old and very dirty. Kids in this area need access to outdoor fun and water play. Paddling pool like the one in Grey Lynn or the water playground like Balmoral or Waterview is well overdue for Rocket Park. Thank you

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Do not support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Out door paddling pools for kids - We need one in Mt Albert ASAP. So many kids and so much space at Rocket Park. The playground needs to be urgently expanded and upgraded. It is only going to get hotter.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Council need to continue the Te Whau Pathway, fix the dangerous Greenlane West Cycleway, and install the cycle paths out in Glen Eden/Kelston.

Council need to improve Phyllis St Reserve with 2 or 3 softball nets(similar to cricket nets), proper lighting(the softball diamond is dark where the batter stands), new fences along the east and south to stop balls hitting cyclists or getting lost in the bushes, and some

shelter(plywood/coreflute/laserlite)in the softball team cages. There is absolutely no shelter within 150m of the pitch,

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Please share the Coyle Park playground and Phyllis St Reserve improvement details online - either on the Council website or in the Local Board website. Please upgrade the Rocket Park playground, it is tired.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Council need to continue the Te Whau Pathway, fix the dangerous Greenlane West Cycleway, and install the cycle paths out in Glen Eden/Kelston.

As stated in Question 2, Council need to improve Phyllis St Reserve with: 2 or 3 softball nets(similar to cricket nets), proper lighting(the softball diamond is dark where the batter stands), new fences along the east and south to stop balls hitting cyclists or getting lost in the bushes, and some rain shelter(plywood/coreflute/laserlite)in the softball team cages. There is absolutely no shelter within 150m of the pitch.

Please install the Gowing Drive link to Te Ara ki uta ki tai, and the cycling links on Great North Road / the Inner West, as well as the Mangere East and Manukau cycling networks, to provide sustainable, safe and affordable access for all.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Improve PT, cycling and walking facilities (fill in the massive gaps) so that people can get around without the need for cars (petrol/oil). Improve facilities at sport parks. Please maintain/sweep cycleways and catchpits, keeping clear of debris, especially in Autumn/Winter to avoid obstruction and flooding.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more

welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

I don't know

Tell us why

Honestly I couldn't be bothered reading the whole thing.

I love the new Whatu walkway and would love to see it extended earlier than planned. The walkway is so good I suggest putting an eftpos machine at the far end so that walkers and bikers can be encouraged to make a donation towards part2 when they walk part 1 I would contribute $5 each time . And I think I am going to walk it a lot. Chch did this asking for $ towards restoration of the arts centre . I don't know how much they raised , but it is worth a go .

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
6	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Developers are leaving Auckland due to extensive + complex RMA conditions. Selwyn District council process the same number of crunch per year with 1/3 of the stack!!

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Support investment in public transport and active travel infrastructure

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Support increased parking charges

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Do all these things, none of them are optional. Spread investment evenly. Less car infrastructure more walking and cycling.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Other (please specify):Finish the cycle network

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The proposed increase in rate is too steep. Any adjustment should be broadly in line with inflation, which is approximately 3%, rather than a substantial single-step increase. A sharp rise places unnecessary pressure on residents at a time when the cost of living is already high.

Council's limited resources should be prioritised toward essential services such as water infrastructure and waste management, which are critical to public health and daily living. While

initiatives relating to the natural environment and climate action are important, the scale of spending in these areas must remain economically sustainable and proportionate, particularly when funded by ratepayers and taxpayers.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Regarding hte refuse bin/ bag exchange fee, it raises questions about whether residents should bear administrative costs arising from council-initiated service changes

No comments on the changes to the Kingsland and Onehunga Business Improvement District.

No comments on the Waitākere Rural Sewerage Scheme

Regarding AT Proposal to increase residential parking permits fees,

First, residential parking permits are not a discretionary service for many residents. In areas with parking restrictions, limited off-street parking, or high-density housing, a permit is often a necessity rather than a choice. A significant price increase disproportionately affects residents who already have limited alternatives, including renters, lower-income households, elderly residents, and those living in older homes without garages or driveways.

Second, while it is stated that the full processing cost is $114, there is limited transparency around how this figure has been calculated. A single flat fee may not accurately reflect the true marginal cost of processing most permits, particularly renewals where much of the information is already on file. Without clearer breakdowns or evidence of efficiency reviews, it is difficult for residents to assess whether such a large increase is justified.

Third, shifting the full cost onto permit holders overlooks the wider public benefit of residential parking schemes. These schemes help manage congestion, reduce unsafe or illegal parking, support local amenity, and encourage compliance with parking rules. These outcomes benefit the broader community, not just individual permit holders, and therefore some level of shared funding remains reasonable.

Fourth, the proposed increase represents a sharp and immediate jump rather than a gradual adjustment. A more balanced approach would be to phase in any increase over several years, allowing households time to adjust and budget accordingly. Alternatively, a partial increase combined with internal cost efficiencies would reduce the financial impact on residents.

Fifth, given the significant increase in townhouse and higher-density developments across many areas, it is reasonable to expect that the volume of residential parking permit applications has grown over time. With higher volumes and more mature systems now in place, it would be helpful to understand how the current processing cost of $114 has been calculated, and whether efficiencies from increased demand have been fully taken into account.

Finally, I encourage Council and Auckland Transport to explore other options before implementing this increase, such as:

* A lower fee for permit renewals compared to first-time applications

* Discounts or concessions for long-term residents

* Improving administrative efficiency to reduce processing costs

* A smaller increase that reflects inflation rather than full cost recovery

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

I support an increase in funding for essential local services to make up for inflation.

However, the proposal to trial free off-peak swimming access for Gold Card holders at Mt Albert Aquatic Centre appears overly generous. While supporting older residents is important, the associated costs should not be borne by the general public, particularly in the current economic climate.

I do not support proceeding with library upgrade projects at this time. That said, essential maintenance such as roof repairs and safety-related works should continue, as these are necessary to protect existing assets and ensure continued service delivery.

With respect to Coyle Park Playground and the sports fields at Phyllis Reserve, and given the current period of high inflation and ongoing financial pressure on ratepayers, the priority over the next five years should be the identification and removal of safety hazards rather than discretionary upgrades or enhancements.

At Coyle Park, investment should be limited to essential safety-related improvements, including upgraded concrete steps, improved paths, and appropriate cycle racks to address access and risk concerns. However, the scope should be reduced to exclude the addition of new play equipment such as monkey bars and higher swing structures, which are discretionary rather than essential at this time.

In contrast, the proposed scope of works for Phyllis Reserve remains unclear. Before any funding is committed, greater transparency is required regarding what specific upgrades are proposed, why they are necessary, and how they address safety, compliance, or asset protection. Without this clarity, it is difficult for ratepayers to assess value for money or priority relative to other pressing needs.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Do not support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

I support the proposed expansion of the Kingsland Business Society Inc. Business Improvement District as it is funded solely by commercially rated properties within the BID area and does not impose any direct cost on residents. The expansion reflects the natural growth of the Kingsland–Morningside–Eden Park precinct and enables local businesses to collectively fund safety initiatives, placemaking, and advocacy that improve the local environment. A stronger, well-resourced business district can enhance vibrancy and amenity while remaining appropriate and fair to surrounding residential communities.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Other (please specify):General maintenance, don't prioritise upgrades

Annual Plan 2026-2027

5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around

2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

cant afford

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

dont support any

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

B. Investigating how to respond to future growth expected in our area.

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Do not support

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

1. Transportation: Judging from the nearby roads that have already been repaired, apart from the relaid surface being of better quality than before, the route arrangement, corner design, bus stop placement, and roundabouts have not made them more convenient to use. In some cases, they have even made things more inconvenient for drivers. For example, on Point Chevalier Road, the relaid road has significantly widened the sidewalks. While this is pedestrian-friendly, it makes the road much narrower for most people who travel by car. Some bus stops directly block the lanes behind, increasing the likelihood of traffic congestion and reducing the efficiency of nearby residents' travel.

If the government and the road construction company intended to encourage residents to travel by walking in this way, given that most people in Auckland rely on work for a living, and public transportation cannot meet the needs of most people, blindly reducing motor vehicle lanes to widen sidewalks is simply wishful thinking. The roundabout on this section of road occupies most of the road area. Buses and longer vehicles inevitably run over it. Under such conditions, constantly being run over by large vehicles, the roundabout likely won't last long and will require maintenance. As a newly built and redesigned roundabout, isn't this impractical construction? Another road improvement project that may begin this year or next is Carrington Road. The plan is to add 2-3 lanes to alleviate congestion on this section—the intention is good. However, there are no plans to widen other connected roads. I would like to ask, how will widening Carrington Road alone solve the congestion when traveling from this road to connected roads? Or does the road improvement plan only consider traffic on the existing road and not how to leave it? If so, besides wasting taxpayers' money widening this road, will it improve traffic in any larger area? 1. Regarding the construction and planning of the two roads mentioned above, I do not support blind traffic improvements because I see no practical design or construction. This is meaningless to my life, and I will not pay for it.

2. Water Management: Every year I see news reports of polluted reservoirs. I believe this is not a short-term problem. Are the taxes collected over so many years from local taxes and other taxpayers insufficient to cover daily maintenance? If our taxes cannot be used more effectively, I naturally do not support tax increases. Every penny of my income is earned through hard work, and I do not want it wasted.

3. The increased cost of living caused by the pandemic and inflation has already placed a heavy burden on our daily lives. Local taxes have been mentioned before, but the current taxes are already a burden. I don't know if we will be able to afford food after further increases. If this situation arises due to tax increases, will we need to apply for government subsidies and become a burden on society?

4. The proposed increase in local taxes is 7.9%. Doesn't the government think this percentage is too high? This idea is too harsh for ordinary working people. Our annual income growth is far from this level, and mortgage payments are also increasing significantly. What will support our lives going forward? Is the government really using increased taxes and fees to turn ordinary people like us who work hard into people who can't afford to eat, or people who lose confidence in their jobs, become unemployed, and rely on government relief and other taxpayers' taxes to survive?

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Introducing new trash cans is unnecessary. Look at the food waste bins the government provided last time; every time it's windy, the whole city is filled with flying food waste bins, and the lids aren't even secure. The government should first check how many households are using them; then they'll know how much waste is involved. The money is indeed spent by the government, but it comes from ordinary taxpayers. Every ordinary taxpayer's money is hard-earned; everyone is working hard to make a living, and they simply don't have the resources to ask the government to help us waste our hard-earned money.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

This link won't open; I've tried opening it with different browsers and none of them work.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Developing the National Economy: Only when the nation is wealthy can it have the resources to improve the living standards of its citizens, instead of relying solely on raising taxes to fill the national treasury or exploiting ordinary people through high prices. It's ironic that the Labour government likes to hand out money, giving more to those who don't work to gain votes. They're spending taxpayers' money on the unemployed while exploiting hardworking people. Have they considered the fairness and interests of those who work hard?

Overall Planning: Don't follow the Carrington Road renovation plan, widening only one road while completely neglecting connected sections. Such widening is worse than no widening at all, because the current roads are in normal use, with only a few requiring maintenance.

Long-Term Planning: Don't make short-term plans solely for the sake of your term's achievements; consider the long-term interests of the nation.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Submission on Auckland Council Annual Plan 2026/2027

Re: Proposed Rates Increase – City Rail Link Costs

We do not support the proposed rates increase in the Annual Plan 2026/2027, particularly to the extent that it is driven by the operating, interest, and depreciation costs associated with the City Rail Link (CRL).

Lack of direct benefit or use

As ratepayers in the northern part of Rodney who will not use the City Rail Link, we do not consider it fair or reasonable that we are required to fund a significant and ongoing rates increase to support it. Nor do we accept Council's assertions that the CRL will benefit all Aucklanders. The CRL is a highly centralised transport project that primarily benefits a subset of Aucklanders—particularly those who live, work, or study in the city centre or along the rail network. Many ratepayers, especially those in outer areas and rural or semi-rural locations, will see little to no practical benefit.

Questioning the claimed benefits

While the consultation document outlines significant economic, transport, and environmental benefits attributed to the CRL, these benefits are largely projected and not guaranteed. They rely on assumptions about future behaviour, patronage levels, and complementary investment across the wider transport network. For many Aucklanders, including those who rely on private vehicles or who have limited access to rail or rapid public transport, the claimed benefits are unlikely to be realised in practice.

Given the scale of the investment and its ongoing cost, it is reasonable for ratepayers to question whether the benefits are sufficiently broad, certain, and equitably distributed to justify the burden being placed on general rates.

Equity and funding mechanism

If the Council considers the CRL to be a region-wide asset that delivers long-term strategic value, then its costs should be met in a way that reflects that status. We believe CRL-related costs should be funded through the Uniform Annual General Charge (UAGC) rather than through increases to general rates.

Funding through the UAGC would apply a consistent charge across households, rather than disproportionately impacting ratepayers based on property values, particularly when many of those ratepayers will not use or benefit from the CRL. This would be a fairer and more transparent approach.

Alternatively, a targeted rate should be applied to ratepayers in those areas that will benefit most directly from the CRL.

Cost pressures and affordability

At a time when households are facing sustained cost-of-living pressures, further increases to rates—especially for projects that do not deliver direct or tangible benefits to all ratepayers—are difficult to justify. Council should continue to prioritise affordability, core services, and infrastructure that delivers clear and widespread value.

In addition, many Rodney rate payers faced a significant rates increase last year. In Omaha many increases were in excess of 30%. A likely increase this year of more than 8% will mean those residents will see a cumulative increase of more than 40% in just 2 years. This is not reasonable and certainly not in keeping with principles of natural justice.

Conclusion

For these reasons, we do not support the proposed rates increase as set out in the Annual Plan 2026/2027. We urge the Council to reconsider how CRL-related costs are funded, to place a stronger emphasis on equity and affordability, and to ensure that rate increases are clearly aligned with benefits that are experienced by the majority of Aucklanders.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces

work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Investment in public transport, electrification, civil infrastructure, and public services like libraries is important and should be funded

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden,Waitematā

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

B. Investigating how to respond to future growth expected in our area.

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Tell us why

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Do not support

B. Reduce maintenance for bollard and post-and-rail.

C. Reduce community grant funding and accommodation grant funding.

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Do not support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Increasing public transport frequency and connections (especially between suburbs e.g. can take an hour to bus between Sandringham and Three Kings but only 10 mins to drive)

Allowing and encouraging high-density housing such as large, soundproofed apartments that people actively want rather than settle for due to price, especially around transport nexuses like train stations

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Other (please specify):More high-quality housing

	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

#2671

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

I don't know

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around

4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Appreciate the need to insert our future. It does have a financial toll though.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

We cant get a permit for parking on our road. I would prefer this is sorted before paying for other benefits for other areas.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I see long term benefits

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Do not support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Do not support

Tell us why

We cant keep being charged more and more!

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Making maunga more accessible, fee disabled seems appropriate

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I value public services, particularly investment in public transport services.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I advocate for investment in refuse infrastructure, but don't support increasing residential parking permit fees without more considered funding to public transport first.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I support investment in public libraries and parks as I think they are valuable public assets.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Other

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Other

Tell us why

Thats quite a dramatic increase

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Any publicly accessible/free cultural/music based events. Also better public transport infrastructure (broader network of bus routes) and more connectivity within the city.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.

- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Auckland Council spends $869.4 million on back office functions and non-core activities like "Māori Outcomes" (with much going to overpaid consultants).

In practical terms, I urge a thorough review of hiring, vendor contracts, and non-essential programmes before considering further rate increases. Prioritise core statutory functions, public safety, transport, and essential community services while delivering a sustainable budget.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I support transport and water resilience and local works. I do not support city council having major funding responsibility and would prefer more central government funded projects.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I've looked through the consultation document and I cannot see specifics about Kingsland business improvement district. I would like to know what there is but you were not forthcoming. This is a failure in the document.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I like a thriving community. However the lack of level crossings on the railway needs to be considered by someone.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

I don't know

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected

from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Other

Tell us why

These businesses should benefit from Kingsland improves, but this is not certain. I am not sure about the value they will get.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

CRL is a great idea and will improve journey times from West, BUT we need more grade separation at crossings for safety and smooth tuning of all traffic.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Safe neighbourhoods through lighting and transport and clean green environment.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Q2: What do you think about these proposed changes?

All OK

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Planning for Auckland increasing population critical rather reacting to changes. Public transport including modern trams on major arterial routes and city centre would enable people to move around easier than current overloaded buses and cars occuping the roads.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

I don't know

Tell us why

No knowledge of this area

Waiheke Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

Infrastructure on Waiheke is especially important to locals, who already do their own sewerage and water, so money can be spent on community.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Yes. Many years ago, 'managerialism' was introduced to NZ. It oversaw the gutting of all agencies, from hospitals to schools to councils, replacing people with knowledge, expertise and drive with 'paper pushers' who give themselves fat salaries, but have to buy in all the information 'consultants' they need. Please start to reverse this by employing people with expertise and managerial skills or having departments with both, on more equal footing. Save money in the long run.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Community connections. These have been lost in rush to 'make money'..ie charging for kids to play soccer on local park. The old community education centres ie using schol buildings fully! These were the best way for different cultures in our community to connect. bring them back. Small fee sure but they coneection bewteen people that has been lost over the last 4 decades needs to be pulled back in, for the sake of a healthy future city.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Council is looking to increase its rates year after year. It should also undertake a study on the wastage/overspending that the council has done in the past. Collect the feedback to cut the waste, better use current resources/budget, instead of keep increasing rates under current economy environment. It doesn't help the economy nor the growth of the city.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Do not support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

In terms of transport, we should increase our budget for public transport. Auckland is the biggest city in New Zealand, and yet we don't have a robust and reliable public transport system for the commuters to travel without owning a car. If the public transport system is good, car parking and fuel costs will drive commuters to use the public transport.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

#2892

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Albert-Eden

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

With the potential changes to LGAC coming, Local Boards will need tremendous help in taking on the responsibility of being a Road Controlling Authority. It is imperative that they are resourced sufficiently to manage these changes, and are able to produce evidence based decisions that represent all stakeholders, not just those with the loudest voices.

With AT folding into Auckland Council, It would be good to ensure that we do not have an entirely disjointed network of local roads, or postcode lotteries where safety is paramount in one, and speed paramount in the next.

In regards to the CRL, please ensure that frequency is increased ASAP. There is no point in spending $5.5bn on a project, just to hamstring it because of level crossings. Especially with the ongoing fuel prices, it is important that Council Leadership (in co-operation with whatever new form AT takes), actually have the gall to prioritise efficient transport means (train and rapid bus networks) over high-cost, high space, traffic inducing roads.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I like the permit parking proposal. We need to stop treating our streets like parking lots and have people pay a fair share of the space they take up. I would advocate that the permit fees are not enough.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

I don't know

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I find it interesting how little progress there seems to be on the Maungawhau precinct. When the Maungawhau station opens, there is currently going to be a vast open patch of gravel and concrete outside it. This should be a priority as a Transport Oriented Development, and a great opportunity to grow the commercial and residential opportunities available there.

There was a Maungawhau Precinct plan under Eke Panuku, but something seems to have stalled, and not much seems to be happening.

If I understand correctly, Eke Panuku has folded into the Auckland Urban Design Office. In that case, i hope the AUDO gets on with it and either develops the land, or sells it on.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

You must continue to expand on the success of the City Centre Masterplan, Auckland Waterfront regeneration, Te Komititanga, Viaduct and Wynyard Quarter. The vibrancy of Auckland is really starting to come together and its important to not listen to the voices of a few who think that access

for a few cars on Queen St is more important than the thousands of people who walk around each day.

I am really liking seeing Auckland Council Compliance Wardens in the city centre. They are friendly, approachable, and do a great job. They bridge the gap between civilians and the police, who are often quite confrontational and have a strict means to follow.

I would like to see more frequent rubbish collection in the city centre too. Noticeably, bins in Te Komititanga seem to overflow with McDonalds and other junk food rubbish, and it often spills out into the plaza.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

My submission is not technical. Its just a reflection of my mood as a ratepayer.

A 7.9% rates increase on top of the last 10 years of increases is just an indictment of the poor quality of governance we have in Auckland. A 7.9% increase is unnecessary and its a sad reflection on the elected Councilors and Mayors that, despite their rhetoric, they are simply not competent to rein in spending and waste to deliver lower rates. Its just not good enough. As far as the CRL is concerned it is hardly a surprise that the operational costs won't be covered by fare revenue. I could have told

you that 10+ years ago. Where is the planning and savings that you have had 10+ years to figure out to avoid this sudden imposition?

The Annual Plan rate increase proposed is even worse than Wellington and Christchurch.

To even make it worse, I understand the impact of rates on Business is 9.8% (Lets call that 10%) Another nail in the coffin of the working man trying to make a go of it in New Zealand.

Councilors need to learn to fold their arms and just say NO!! There are zillions of ways to reduce costs. Just say no.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I have not reviewed. Broadly speaking I support user pays. However this needs to be off-set by reductions in General Rates. My assumption (with a 7.9% rates increase plus more user changes) is that in fact costs for Council services are increasing more than 7.9%.

For that reason I cannot support targeted increases.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

Not invested enough to try and read any of this.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

I don't know

B. Investigating how to respond to future growth expected in our area.

Do not support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Do not support

Tell us why

My experience in business tells me that any Council run "Business Society" is a poor economic investment. Ineffective and poor quality.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I probably reflect many people. It is inconceivable how in 2025 Auckland Council can have been hijacked by so much of the Maorification brigade. I just looked at the consultation document again. Look at page 2. A poem! A poem in two languages. A poem that's meaningless but virtue signaling and seems to invoke praise of some pre-historic gods or the like. It is incredibly minor, but it reflects a Council that's unable to focus on what will move the dial in terms of reducing cost of government and improving the efficiency of spend of every one of my $ that you charge me in rates. Its just terrible virtue signaling that is utterly meaningless other than to satisfy the insistent few.

You want feedback on Tupuna Maunga Authority? - well my feedback is that until the full Board is "elected" then Auckland Council stop funding. Its inconceivable that half the board are simply appointed and yet they are a Council funded organisation.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I am a single female retiree and live in my home alone. I would like to see rates reduced for a single person living alone. I do not use the same facilities as much as a family of 4 and resent having to pay the same amount on one income. I can't apply for the rates reduction as I earn a tiny amount over the threshold and find this unfair.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

I don't support the up to 15-20 storey's along Manukau Rd, it will create shadow, light, wind, storm water, parking, traffic issues.

There hasn't been much feedback about the ex-Epsom Campus; any development must look at the schools, apartment buildings have huge implications on school infrastructure, storm water, and other infrastructure. The Epsom campus should be developed to keep the green areas, minimize high density high rise apartments.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

I don't know

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Other

Tell us why

depends on how this is taxed, are the building owners of commercial properties in the area expected to pay via unit titles?

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I understand the need for growth but there are several sites in Epsom that are an eyesore, there are at least 3 derelict buildings along Manukau Road that are graffitied and look unsafe.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

You are a bunch of woke communists chieves, living from other people money

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

You are a bunch of woke communists chieves, living from other people money

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

You are a bunch of woke communists chieves, living from other people money

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Do not support

B. Investigating how to respond to future growth expected in our area.

Do not support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Do not support

Tell us why

You are a bunch of woke communists chieves, living from other people's money

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

You are a bunch of woke communists chieves, living from other people's money

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

You are a bunch of woke communists chieves, living from other people's money

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Other (please specify):Resign

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I am generally unsupportive of any cost increase on the basis that Auckland Council is inefficient and wastes taxpayer money.

The intiatives are likely good. The execution is systemically poor and I am tired of paying for Auckland Council's failure

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Many of the items that are included in the increases are largely user pays, such as water, transport and libraries. We pay excise on fuel for roading, along with high public transport costs, and then those who don't use this are expected to pay for others. Wtare is already user pays, so why are we topping them up? The number of people in paid roles would be better spent on quality decision makers and getting the actual work done instead of people sitting in countless meetings.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The increase in public permit fees is criminal in a world where automation has increased exponentially. Applications are online with very little human input, cars with number plate readers and networked ticketing machines all make this whole body of work far more efficient, yet you are trying to say it costs more than it used to. Get better systems...this is one area that should be going down, not nearly doubling. If you were a private operator, you would find a way to make this work.

As far as the CRL goes, this is user pays. It may benefit some local businesses and reduce some congestion, but to put the lion's share of this onto everyone is unreasonable. Increase the ticket prices if it is going to cost money.

In the 6 years we have lived in our home, our rate will have incereased $3,500 per annum for no other reasons that council impossed increases. Help me understand how costs have increased by %80 in that time!! This means it costs our household $157 just for the privilege of living in our own home.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Do not support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I 100% believe that a 7.9% increase is over the top and unreasonable, especially under the current circumstances, and a focus on essential projects and user pays should be the priority.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Focusing on core services and doing them well, and less of a focus on the nice-to-haves like new parks etc. Just look after what we have in existing areas and let large developers provide new greeen space

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I do not support any rate increases!

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Bunch of numpties incapable of getting employment in the real world

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Appalling, sell more airport shares instead

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Nobody knows what the are doing

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Other

B. Investigating how to respond to future growth expected in our area.

Other

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Other

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Other

Tell us why

Another waste of time

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Incompetence prevails again, lessons are never learnt just ignored

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Floods resilience and parks, the current proposals and action to fix (1) Aucklands major transport problems and (2)infrastructure failings are totally flawed, they are not going to fix either of these 2 problems

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

CRL needs to have money to actually run services, this is part of being a proper grown up city with good PT. and with fuel crisis, it'll be a crucial cog in our public transport system

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

support

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

providing for growth in the most accessible areas. bust up the grey lynn ponsonby mt eden special character areas and develop develop deveop so my kids might actually have an affordable place to live close to town (or a cheaper bigger place further out).

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Other (please specify):keep moving towards streets like queen and high being places to stop and enjoy, encourage street uses like bars and eateries that spill out onto footpaths. it doesn't mean banning all cars (at least immediately) but make it a destination to be. albert is the movement of traffic st (and hobson and nelson), the other side can be focussed on slowness

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Happy with most of the proposals, but not with the continuing decline of resourcing for arborist services.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Because we are avid recyclers and also use the food scrap bins to their fullest capacity, we often don't need to put out our refuse bins. Practised more generally, such habits would be a good thing for the city as a whole, and so we are happy with a council nudge (by way of a new charge) to make other residents behave the same way.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

The devil is in the details. We live on a Mt Eden road lined with trees, some of which are disease-infected [Dutch Elm}. Checking trees is now on a 5-year cycle, and trees that could easily have been saved are dying as a result. Contractors come and take away diseased branches [on the basis of resident complaints, not arborists' timely advice] and when told they should do more refuse to do so on the grounds that they weren't contracted to do so.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

User/beneficiary pays.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Flood resilience, looking after parks and trees [saving trees!], introducing more cycleways.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

N/A

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Maungakiekie-Tāmaki

Maungakiekie-Tāmaki Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

Council needs to ensure that property owners keep footpaths accessible for pedestrians. in Epsom and other city suburbs vegetation from private properties is overflowing onto footpaths. property owners must be made to keep footpaths clear. this at little cost to Council.

2. What do you think about the proposed key areas of additional investment?

A. Environmental initiatives – working alongside mana whenua on restoration projects, expanding food resilience and edible planting programmes, and reinstating deferred environmental education activities.

Support

B. Sport and recreation – providing one-off operational support to local sports clubs and facilities to strengthen participation and collaboration.

Support

C. Libraries and culture – enhancing programming for seniors and increasing investment in creative and cultural activities.

Support

D. Community safety and emergency readiness – exploring additional compliance officer resourcing in areas with limited coverage.

I don’t know

E. Local economy - supporting business associations to continue supporting local businesses and ongoing growth, development and liven-up our town centres.

Support

Tell us why (please be clear which priority you are talking about)

under 1 above, prioritise clear and clean footpaths

3. What do you think of Onehunga Business Association Inc's proposal to reduce the geographic boundary of the Onehunga Business Improvement District (BID) programme, and amount of targeted rate to be collected?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

the plan fails to prioritise safe, clear and clean roads and footpaths, with the latter often being property owner's responsibility but not followed up by Council Officers.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

enable clear and clean footpaths for walkers. Maintain a clean city. Ensure that open and green spaces are provided, particularly in areas with high density housing.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

#3118

Organisation: N/A

Local Board: Albert-Eden

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

We're just so financially stressed due to years of inflation not being matched with any improvement in salary, the 7.9% increase is yet another burden that will cut into our ability to survive as a household in Auckland.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The 7.9% increase is a major burden. I don't understand why you aren't considering a room tax so that tourism can deliver more to city coffers. Why are you not levying additional rates on homes valued about $3 million, for example, those who are better able to afford increases. Not keen on a bin bag fee. Parking fees no objection.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

Why can't you tell us about the proposals you're asking about and then ask the question? Are you really going to make me pour through pages and pages of documents to find what you are proposing?

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

I don't know

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Please improve funding to local fine arts organisations, prioritizing non-profit cultural institutions over purely commercial events as these should be able to pay their own way. It seems an awful lot of money that should be earmarked for art is instead spent on entertaining the bricks outside to an otherwise empty Aotea Square. Wouldn't it make more sense to support art that people attend?

The CRL has been such a long time coming and we cannot wait to use it, but public transport is so expensive. Can you not please introduce a monthly bus / train pass for public transport users? And make this affordable so that there is an actual incentive to use the system??? Every other major city in the world does this.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Local Board: Albert-Eden

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

The CRL was the governments idea to build, its completion rate came at a huge emotional and financial cost, to hundreds of businesses and people in Aucklands CBD.

Since it's the driving factor to our rates rise, it should be free or cheap to travel on, especially now. In these times, when everyone is feeling a tightening pinch because of overseas political trouble, fuel prices going through the roof with no end in sight, public transport isn't being made free to help, rates are rising to nearly unaffordable levels, we have pay problems throughout our most

IMPORTANT service industries, Police, Fire, Nurses, Ambulance, Teachers, a huge homeless problem and more, pay increases aren't staying up with inflation, we have a failing economy, and the council wants the rate payer to foot ever increasing bills, for things we don't all want.

We all got given a small, non ant resistant bin for food scraps, that we are now charged a yearly fee for, but I don't have food scraps i.e. vegetables and greens because I don't eat them, so I never use it, why weren't we asked if we wanted the bin, and $70 bill that goes with it? I definitely don't see one outside every house on bin day, so how many other people are paying for an unneeded service?

It seems that all the council want is to be seen doing something new, instead of what needs doing.

I.E. Big King mountain didn't need to have money wasted on, weed killing massive flat areas, the banks ok, but the over planting, mulching, fencing it with an imported from Africa fencing wood, so much for us reducing our carbon footprint!!!, and now so much ongoing upkeep is needed, the council is asking for volunteers, this was a waste of money, and wasn't done to save the mountain!!! An unplanted walk way wasn't even put through it, so you and your kids could still walk through and enjoy, how hard would it have been to not plant a meter and a half wide track through? who makes these ill thought decisions???. All the council had to do before is mow it, as a ratepayer whose local mountain is being made smaller and less accessible to enjoy, I don't appreciate my rates increasing to pay for badly thought out plans.

Water, yes, Community needs, not so much, Transport, yes, but make some free, or a whole lot cheaper, so the rate payer feels one less life pressure.

Ask before loading unwanted or unneeded extras to rates i.e. food scrap bins.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Introduction of a refuse bin/bag exchange fee, why and for what?, do I want/need it?, do I have an option?

An Auckland Transport proposal to increase residential parking permit fees in specific areas. The fees are already high

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

To charge rate payers money for less important, or unwanted things or services, while the important things like our health and other public services system get overlooked is never going to work out well.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.,Other (please specify):Change Queen St back, Put the police station closer, what it is now isn't condusive to safety, vehicle travel or access, make it like it was, a safe bubbling hub of business, people and vehicles.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Wasteful programmes: Cancel the Food Scraps Programme, which costs $36 million per year and emits more carbon than it saves.

- Staffing costs: Freeze staffing and/or reduce payroll costs by not hiring for vacant non-essential roles; this reform alone could save at least $17 million immediately

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The proposed 7.9% average rise equates to approximately $320 for the average household. This is well above reasonable control when inflation and household budgets are under pressure. I support capping the rate rise at or near 3% by reducing overall spend.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Do not support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of

Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Rates increase: The proposed 7.9% average rise equates to approximately $320 for the average household. This is well above reasonable control when inflation and household budgets are under pressure. I support capping the rate rise at or near 3% by reducing overall spend.

Corporate and backroom spending: The Council and CCOs should reduce expenditure on corporate and backroom functions. A smaller, leaner organisation will deliver core services more efficiently and with less cost to residents.

Consultants and professional services: Freeze or significantly reduce spend on consultancy and professional services. The current level is excessive and not aligned with value delivered to ratepayers.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Transport and Ecomonic development

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Organisation: N/A

Local Board: Albert-Eden

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Rates are a lot higher than other comparable communities. Like at least double similar sizes cities in Australia. And the ammenities provided in Auckland are not even close to as good.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

These sound ok. But residents should not have to pay to obtain the ability to park in their own street. I'm sure this administration process can be delivered at a cost of a few dollars. Otherwise I wonder how much of the cost of our rates is associated with generating the rates bill and paying it. After all it's not a substantially different administration process.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Other

B. Investigating how to respond to future growth expected in our area.

Do not support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected

from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Do not support

Tell us why

We should not need such special rates.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

You guys spend too much, deliver very low level of ammenities and as such rates are at least double comparable cities / communities

Just get on and fix the value for money of what you deliver. Focus on the basics.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Roads, drainage, sewerage, water supplies, maintenance of parks.

The basics. Everything else we simply cannot afford. Or everything else you are incapable of delivering suitably so just don't do it and give us back our money.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Organisation: N/A

Local Board: Albert-Eden

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Increased rates again - the cost of the rail should have been kept in check and then added to the users / tourists especially instead.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

AGAINST being charged for bin tags. We pay rates for that. Look at other options to lower costs - it feels like the default fix it is make them pay.

How about more cuts at the council - fewer suits and offer lower pay - have a graduate intake every year that rolls over .. min wage workers with KPIs. great for them and for Auckland.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Puketāpapa

Puketāpapa Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

BUILD infra-structure before more housing - especially the large developments.

SCHOOL,s PARKS, TRANSPORT & PARKING needs to match the increase of the population first. The government should oversee this and know they need to help Auckland pay the way to support the majority of NZ economy.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Manage the growth and NOT at the cost of the people living in or near the more populated areas.

Give incentives for people to want to use public transport . RATE PAYERS should have the equivalent of the Gold Card - for free transport that includes during peak hours.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.

Annual Plan 2026-2027

#3207

Local Board: Albert-Eden

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

It's very very vague!

The 7.9% increase in rates for the average-value residential property.... Unfair and really vague. Why should rate payers who are lucky enough to have bought a house in an area that has appreciated better than others be penalised. These rate payers are not necessarily more affluent but Council has penalised them on this basis. They are already paying more rates based on the value of their properties anyway. Very unfair!

Emphasis seems to be on 'nice to have' projects rather than fundamental infrastructure. When times are tough, families have to pull their horns in, but clearly that doesn't apply to the council and you are spending out hard earned rates.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The 7.9% increase not the final increase. "Rates increases may need to be adjusted based on the final budget." The LTP cites similar lines to this all through the document so I think Council is lying about the increases.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Too many 'nice to have' projects. When times are tough, we should be stopping all these 'nice to have' things like cycle ways, Library rebuilds/refurbishments, park upgrades, playground upgrades. We need to concentrate only on infrastructure for a couple of years and get the debt down. I note, that nowhere does it mention how much Rate Payers are paying in interest per year on Council debt!

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Do not support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Infrastructure development

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Submission on Auckland Council Annual Plan 2026/2027

1. My Background

I work at the intersection of economic systems, business strategy and public policy, with a focus on how organisations operate effectively under conditions of constraint, particularly where growth is uncertain or uneven.

I am also a long-term Auckland resident, with a strong interest in ensuring the city remains liveable, affordable and well-functioning as it faces increasing infrastructure, environmental and fiscal pressures.

2. Planning for Stability Under Constraint

Auckland is planning for significant demographic changes (growth, ageing) over the coming decades. At the same time, the city is already managing:

- Ageing infrastructure
- Transport congestion
- Housing quality and affordability issues
- Environmental and climate pressures
- Fiscal constraints on investment

A key question for planning is how to ensure the city remains affordable and functional as pressures increase.

This suggests three practical shifts:

- From expansion to stewardship: ensuring existing assets are maintained, renewed and used effectively.
- From efficiency to resilience: building systems that can absorb shocks and changing demand.
- From reliance on growth to stable service delivery: ensuring core services remain affordable and reliable even if growth is uneven or slower than expected.

These shifts support Auckland's existing direction, particularly the focus on a compact city, integrated planning and value for money.

3. What I Support in the Plan

The Annual Plan 2026/2027 contains several important strengths:

- Asset renewals: The increased focus on maintaining and upgrading existing infrastructure is essential to long-term service reliability and cost control.
- Public transport investment: The City Rail Link and busway development are critical to improving network capacity.
- Integrated planning: Proposed changes to transport governance and alignment with land-use planning are a significant structural improvement.
- Compact city approach: Focusing growth in areas with existing infrastructure is appropriate and necessary.
- Fiscal discipline: Recognition of cost pressures, debt limits and the need for savings reflects a realistic approach to current constraints.
- Environmental programmes: Investment in water quality, biodiversity and biosecurity supports long-term system sustainability

4. Suggested Improvements

I suggest strengthening the Plan's focus on maintaining service levels and affordability as pressures increase.

Transport

Congestion indicates a system already under strain.

Suggestions:

- Prioritise safety, reliability and mode shift over expansion.
- Align intensification strictly with existing transport capacity.
- Introduce metrics on household transport costs and accessibility.
- Reduce total travel demand through urban design and proximity.

Water

Ageing infrastructure and population growth are increasing system pressure.

Suggestions:

- Stabilise existing systems before enabling additional growth.
- Improve demand management and efficiency measures.
- Increase use of nature-based solutions.
- Sequence growth with available infrastructure capacity .

Built Environment

Housing quality and infrastructure efficiency are key issues.

Suggestions:

- Prioritise retrofitting and upgrading existing housing stock.
- Prioritise development in areas with existing infrastructure capacity.
- Consider incorporating infrastructure cost per dwelling into planning decisions.

Natural Environment

Development and climate impacts are pressuring natural systems.

Suggestions:

- Continue investment in restoration and protection programmes
- Treat natural systems as core infrastructure.
- Expand use of nature-based solutions as risk management.
- Integrate environmental limits into land-use and infrastructure decisions.
- Reduce reliance on greenfield expansion.

Community

Access to services and amenities is uneven across the region.

Suggestions:

- Prioritise equitable access to services and facilities.

Economic and Cultural Development

Economic resilience is increasingly important..

Suggestions:

- Maintain a diverse economic base.
- Strengthen locally embedded economic activity.
- Support sectors that contribute to community wellbeing and long-term resilience.

Well-Managed Government

Fiscal pressures will likely persist.

Suggestions:

- Test long-term financial planning under different growth scenarios.
- Reduce reliance on asset sales to fund new investment.
- Use a broader set of performance measures, including service quality, affordability and resilience.
- Build capability for long-term, integrated decision-making under uncertainty.

Strengthening the focus on stability under constraint will help ensure that population growth, where it occurs, enhances Auckland's performance, rather than placing it under increasing strain.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Just like how households are supposed to absorb inflation, fuel, interest rests, you too can go find a way to reduce your costs by 7.9%.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

If you are collecting money to pay to administer your initiatives, stop the initiatives. Wtf do you mean you need to increase parking charges to cover the cost of running the program.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden,Maungakiekie-Tāmaki

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Cause your link is to some other document and I dont know what the plan is.

Uselessness comes in various forms.

Fix what we have first, before doing more random things like widening footpaths and adding cycleways into already busy streets.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Do not support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

Maungakiekie-Tāmaki Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed key areas of additional investment?

A. Environmental initiatives – working alongside mana whenua on restoration projects, expanding food resilience and edible planting programmes, and reinstating deferred environmental education activities.

Do not support

B. Sport and recreation – providing one-off operational support to local sports clubs and facilities to strengthen participation and collaboration.

Do not support

C. Libraries and culture – enhancing programming for seniors and increasing investment in creative and cultural activities.

Support

D. Community safety and emergency readiness – exploring additional compliance officer resourcing in areas with limited coverage.

Do not support

E. Local economy - supporting business associations to continue supporting local businesses and ongoing growth, development and liven-up our town centres.

Do not support

Tell us why (please be clear which priority you are talking about)

3. What do you think of Onehunga Business Association Inc's proposal to reduce the geographic boundary of the Onehunga Business Improvement District (BID) programme, and amount of targeted rate to be collected?

Do not support

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Just because you can, does not mean you should!

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Annual Plan 2026-2027

Organisation: N/A

Local Board: Albert-Eden

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Because of the lack of accountability of Councillors and the way the budget is blown repeatedly at rate payers expense.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I do not agree with any proposed changes to the refuse system. The current system works perfectly well and ratepayers generally feel they are being extorted across the board. Rates should not be increased- they are already excessive and pensioners are distraught at how they can possibly keep up when on fixed incomes.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

I walk around the streets of my area. The drains are clogged, the drains also smell terrible and the massive inbuilt housing that's is occurring is putting terrible strain on already struggling infrastructure. Traffic is ridiculous and. It catered for. Cycle lanes are hardly used while ratepayers in cars are reduced to single lanes. This needs a massive overhaul in both thinking and action.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Other

B. Investigating how to respond to future growth expected in our area.

Do not support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Do not support

Tell us why

For all the reasons already outlined - show me where the Council is making reductions to its own bloated bureaucracy and make an overall plan that works for all parts of the city.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Planning and infrastructure. I have already outlined my reasons why in previous feedback.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Would prefer the increase to be even higher to cope with the cost pressures - but the CRL costs should've gone to government rather than to council. Overall though it's a reasonable compromise between what we need and what people want to pay.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Overall fine.

Residential parking permits either need to go to paid parking, or be managed in a cost plus demand management basis. If there is more demand for parking permits than space allows, the price should go up until the point there is not more demand for parking permits than space allows. And it should never be subsidised by general rates, should be full cost recovery in areas with no demand, and much higher than full cost recovery in areas with more demand than supply.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Not enough focus on the Pt Chev Library rebuild/suburb centre upgrade, but it's expensive so understandable given the other issues across the board area. Carrington Rd improvements - I know they're handled by AT but felt they should have been mentioned at least.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

I don't know

Tell us why

Don't strongly care either way on this one.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

All the priorities (bar supporting events which should be paid for mostly by targeted rates) are great, I'd prefer the council to charge more in fees/rates so that we have to make less trade offs.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I would like to see some funding made available for Te Whau Pathway to complete the sections that remain unfinished.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

OK with those

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden,Henderson-Massey,Whau

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Yes. Te Whau Pathway is so far, a well-supported project in the communities it transverses. When completed it will bring about significant cultural, health and wellbeing, connectivity and transport benefits. A great deal of work is yet to be done and there is no future pipeline of funding.

My request is that consideration be given to funding in this annual plan to maintain some of the momentum that has been gained to date.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The Council needs to stop spending on unnecessary transport road upgrades such as the raised tables around View Road. The councilors need to do a line by line examination of the annual plan costs and strip out all the unnecessary spending.

The policy planning department waste too much money on opposing private plan changes and fast track applciations - leave this to submitters and the Council's regulatory functions

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I oppose the refuse exchange fee.

Sewerage works should be funded from the IGC

Support residential parking fee changes

However, if the unnecessary spending was removed from the budget then these costs could be absorbed without this level of rates rises

Also the CRL team needs to be shut down ASAP and the CRL stations open - they are taking long enough to get the rail network working - they need to be given a significant hurry up.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Do not support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Let the market control where growth occurs as long as they can address natural hazard risk and provide sufficient infrastructure

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Other (please specify):need to make it easier for private vehicle movement

Annual Plan 2026-2027

#3319

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

A 7.9% increase in residential property taxes is too high. This increase is primarily due to the Urban Rail Link (CRL). Why not directly increase taxes for businesses and residents benefiting from the CRL, and raise fares for the CRL?

Why should those of us who drive to work every day and don't use the CRL pay taxes together?

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

No objection

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I do not support the proposed overall rates increase.

While I understand the need for long-term investment in infrastructure, the scale of the increase is unreasonable given the current financial pressure on households. Many Aucklanders are already struggling with rising costs of living, and another significant rates rise feels out of touch with what people can realistically afford.

There is a growing disconnect between the Council's plans and the everyday experiences of residents. We are continually asked for feedback, yet many decisions appear predetermined, and community input does not seem to meaningfully influence outcomes.

Before increasing rates again, Council should focus on:

• improving efficiency and reducing unnecessary spending

• prioritising essential services that residents actually use

• ensuring that new initiatives deliver real, practical value

• demonstrating that public feedback is genuinely considered and acted on

At this time, I cannot support further increases when many services feel poorly designed, under-maintained, or not aligned with community needs.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I do not support the proposed increases to rates, fees, or charges.

Aucklanders are already under significant financial pressure, and these increases feel unreasonable and out of touch with what households can realistically afford.

Many of these charges are for services that residents either do not use, did not ask for, or do not see value in. Increasing costs without improving service quality or demonstrating genuine community benefit is not acceptable.

Before raising fees, Council should focus on:

• improving efficiency

• reducing wasteful spending

• prioritising essential services

• ensuring that community feedback is genuinely acted on

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I appreciate the opportunity to give feedback, but I am increasingly unsure whether Council genuinely listens to the community. Many of the decisions being made don't reflect the practical needs of everyday Aucklanders.

1. Street planting

Council recently planted new trees on my street (Bannerman Road, Morningside). While trees are great, the choices feel impractical.

Why not plant fruit trees?

Fruit is expensive, families are struggling, and kids walking to school could benefit from something useful and edible. Instead, we get ornamental trees that don't provide any real value.

2. Food scrap bins

The food scrap bins are too small, inconvenient, and many households don't use them.

Yet we are forced to pay for a service we didn't ask for and don't use.

A waste disposal unit would be far more practical for many homes.

3. Maintenance issues

Council plants huge amounts of vegetation along motorways and public areas, but doesn't maintain it.

Why not plant low-maintenance species that don't require constant mowing or trimming?

This would save money long-term.

4. Airport transport

Auckland is a major city, yet there is no direct train to the airport.

Other cities (Sydney, Melbourne, Brisbane, London) have simple, accessible rail links.

Instead, we rely on slow buses and disconnected transfers.

This is not world-class infrastructure.

5. Feeling unheard

Council asks for feedback every year, but many Aucklanders feel their input is ignored.

If Council wants genuine engagement, it needs to show that community ideas — especially practical, cost-saving ones — are actually considered.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Cancel activities isn't my priority although Services would be infrastructure and transport more accessible transport to all areas

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Happy to see more support going into climate/environmental initiatives but thr increase is substantial. Up to 5% would be easier to absorb, cost of living already became too high

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Do not support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Local Board: Albert-Eden

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

A 7.9% increase in rates is 4 times the average salary increase and cost of living. What has the council 'stopped' doing or cut out of the budget to help fund the City Rail Link interest and depreciation costs? I haven't read anywhere yet where Auckland Council are planning to reallocate funds or reduce spend elsewhere.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I support the investment into our water and wastewater infrastructure - badly due.

Supporting transportation around CRL is positive - we've invested SO much money into this already, that it better ********** work!

But Auckland Transport are muppets. They do work that's so unnecessary, make changes that cause more traffic jams, and increasing residential parking permits is a disgrace. Here is a classic example of where money could actually be saved and put into other activities and/or reduce the 7.9% increase in rates.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

Almost $8m in capex and a whopping $25m in opex is enormous compared to what is planned to be delivered. I'm sure budgets are excessive in other regions also.

What you're planning to do is absolutely pathetic.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Do not support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

This area is definitely benefiting from everything around Kingsland, so yes, they should pay the same.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Reduce the 7.9% and find other savings.

Cut costs like everyone in the professional working world is having to do.

Surely AI is being utilised at Auckland Council/Transport, and we've seen in many other organisations how jobs are being made redundant.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I'm pleased you have a future plan and are thinking more long-term. The plan must focus on the basics - improving infrastructure, upgrading stormwater systems, and growing Auckland's economy.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by

making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Its too much of a rate increase in these tough economic and war conditions.Average house hold is struggling with the day to day needs and super expensive petrol prices..

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I don't get a pay raise for 7.9% Average household has kids and older people. It is impossible to pay the proposed fees. Looks like Mayor and his team has no idea about household struggles we are going through.

May be cut the Salary of top paid executives, mayor and concilors by 30%.. That can help with the funding.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Too expensive simply cannot afford it. City Rail road is going on and on for ages!!!!

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of

Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Do not support

Tell us why

Making people pay more and more is not going to solve council's economic woes. may be manage the resources in a better way.. Not hiring fancy accounting and consulting agencies.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Please drop the rate hike plan. May be 1.5% incense is affordable for all the people.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Flooding is nightmare. Need to address asap. Too much of rain now a days

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I do not support rate increases. The focus need to be on cost management not increased revenue gathering. My rates will increase by over $900 a year - I'm not an ATM. Having worked in the Council family I know for a fact there are many projects with no value whatsoever consuming $. Cut projects with no value before you ask me for more money.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

The economic activities carried out by Auckland Unlimited are pointless - create no real outcomes but carry significant spend. Focus on events and cut the other stuff. For example the Te Puna creative quarter and climate connect.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

The western line proposed scheduling following the CRL investment is incredibly disappointing. It seems to me that while certain suburbs will experience the costs of intensification, there is no discussion in this document about how those costs will be offset with amenity and planning.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

None of them affect me

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Nothing is changing? I mean really they're investigating some of the consequences of pc120. Which is nothing.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Other

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected

from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

I don't know

Tell us why

Not my zone

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Given the massive changes in pc120 it is disappointing to see them barely referenced in the document.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Hobsonville point worked because it had a masterplan. Maybe Baldwin Avenue needs a masterplan too?

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

I don't support increasing our rates by 7.9%. We are in a time of high economic pressure, and cost of living is soaring. Average Salaries have not increased by an appropriate amount to cover both the cost of living increases and this new rate increase. The council should have better anticipated the running cost of the CRL seeing as it was their project from the beginning. CRL should be paid for by the users of such system (just as the road tolls are put in place to affect users of said roads)

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Local Board: Albert-Eden

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I want to see different priorities for the city.

Where is the investment for cycling/ pedestrian networks?? Where is the investment in the natural environment and greening of our cities? More quality public spaces, playgrounds with covers, more street trees.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Don't support increase in rates, we are struggling with the cost of everyday basic necessities. Food cost, living costs, insurance costs, power & water and so on.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Covers should be put on all playgrounds as well.

We should be strengthening cycle network and building on it.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

Better support and money to invest for businesses

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Bigger focus on cycle / pedestrian mode of transport. More investment in natural environment, more public parks and green space.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I never supported the City Rail Link and therefore do not support the increase in rates to support the City Rail Link. It was an immensely costly and long project that blew up and still will not fix road congestion issues because the whole network map is still not connecting enough suburbs and regions.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Why are we increasing residential parking permit fees. We have cars in order to compensate for the lack of sensible public transportation and need places to park them.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

More initiatives should be aimed at the environment rather than sports/cultural related. Auckland City has enough people in it including in all its suburbs and instead of planning for growth we should look at how to decrease the number of people/disincentivize them to move here. It's at peak livability. Trailling free off-peak access for Gold Card holders to swim at the centre is a very specific initiative that should just be done rather than proposed - have initiatives that apply to most persons living in this area not just seniors.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Do not support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Do not support

Tell us why

New businesses can chip in for that. Look after the existing people not the future ones.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Not sure if banning fireworks can be an item/goal for the council to achieve but it's very important. Can we focus on more environmentally friendly goals and not cultural/sports ones. Focus on protecting the current ratepayers and their wallets and not focus on future people who haven't even moved in/may not get to. Expanding a city when current persons living in it are barely coping is dreaming beyond its means. We pay rates to have ourselves and the land around us to be taken care of not to take care of others.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Protect the environment as priority. Sports/cultural events are optional because they can be done whenever while if the environment is ruined, it's gone.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

The public can see the complete and utter folly of our underground railway for Auckland city which goes nowhere 1.9km and has witness a yearly construction cost overrun in the billions since it started. We the public - now face the on-going cost of this epic fail in public transport when the extra rates demand is just for an interest payment. Furthermore I can see this cost climbing year on year to reach $1 billion dollars by 2032 as the inner city population continues to fall and the exodus of white collar employment spirals down to 5.3%. This project was doomed to fail once the Chinese went home - never to return and our latest imports (Indians) aren't interested in city life.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The vehicle parking permit is truly money for old rope! And now with a pending increase to $114 per annual - AT should take a serious look at the effected streets. Hillside Cres South is the one I am talking about here. AT charges residents $70 to park outside of their own homes - yet for 6 months of the year this is impossible as the street isn't controlled by AT - it's controlled by Google Earth! Yes an international IT company who pay the city nothing - yet have the right of way. For 22 weeks a year Google Earth sends tourists who also pay nothing to park in the street and it becomes the wild west with 48 seater buses stuck because they can not turn round, 600 camper vans and over 1200 rental vehicles. Many tourists park as they do at home - IE facing the wrong way or across driveways and all this because Google Earth states Hillside Cres South allows vehicle access to Maungwahau (Mt Eden) which it does not! So my question to AT is; why should the residents pay AT for parking permits when there isn't any parking? Google Earth needs to be removed from this street vehicle classification - the street is very narrow with limited residential parking and should only be use for tourist foot access - AT needs to redirect these nonresidential vehicles to the correct Mt Eden access road two streets away and NO - a money grab for a further $40 dollars isn't in AT's future as the residents demand Google Earth be removed.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Do not support

Tell us why

With the steady decline in business profits (2026-2028) does the council see any of the businesses in Kingsland profitable enough to pay any money to AC - yet another cash grab to sure up 6 figure salaries? Live within your means like the rest of us.....AC isn't a corporation - at best it's a poorly run cabal of businessmen so far out of touch with the real people of this city - at worst it's a greedy out of control indebted bunch of ********** artists who don't see hard working people trying to survive - they see not what they deliver to the public but what they don't have to deliver as a cash benefit to their lifestyles.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Run our city for us - the people that make a city work and liveable! Auckland council should be serving the people - not robbing the people!

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Due to population growth, cities certainly have many areas that need improvement.

However, I do not agree with raising property taxes, as the cost of living is already very high.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I feel the core demand is to add various fees. It seems like the person making the budget is out of touch with reality. Can't they see how high the cost of living is now?

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Improve traffic and reduce parking fees

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

#3645

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

We must deliver a world class city

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Henderson-Massey,Whau

Henderson-Massey Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

Whau Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment?

A. Design and build a new destination playground at Avondale Central Reserve.

B. Promote community identity and diversity by funding a coordinator for Welcoming Communities, supporting the PAN African Hub, and refreshing the Whau Ethnic Peoples Plan.

I don’t know

C. Engage and respond to youth needs, and co-design initiatives to address opportunities and gaps.

Support

D. Improve water quality and flood resilience of Whau streams and rivers through collaboration with volunteers, local schools, community hubs, organisations, and neighbouring local boards.

Support

E. Prioritise projects identified through the Whau Sport and Recreation Facilities Plan and leverage partnerships to provide a local facility network for the community.

Support

F. Develop a Local Parks Management Plan to guide decisions on managing use, development, and protection of all 146 parks, reserves and open space within the Whau.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I support funding for the Te Whau Pathway and Environmental Project to continue the linking of the diverse communities and it is a catalyst for change for walkers, and other to work, school and play.

It is an regional benefit to all Aucklanders and visitors for recreation and connecting nature.

It needs funding to unlock all the benefits

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Re the introduction of a refuse bin/bag exchange fee: I can't agree with this proposal.

We live in Epsom (the leafy suburb). The Council do not prune or cutback over height and overgrown trees, will not cut the grass berms, you sign off shoddy street repairs and sealing work,

Will not supply a system for residents to dispose of grass cuttings and leaf clearance despite expecting rates payers to carry out this task. Why will you not clear vegetation choked drains despite written requests to do so. We live in a high rates area and are mostly retired and in our senior years. Most of the trees in our street are over height and subject to high wind damage and have root systems in some cases penetrating residential property foundations. This is a civil concern and an incident waiting to happen. Will the council address any damage claims or will it be left to already financially stretched rate payers?

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Do not support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

There is a practical disconnect between the "intensification" (small townhouses) and the "resilience/sustainability" goals (promoting cycling). We need more "inclusive design" in new developments to ensure they are "accessible and usable" for all residents, which includes having functional storage for sustainable transport (bicycles).

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

I don't know

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business

properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

I don't know

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Planning & Transport

The multi-modal transport system (which includes cycling) cannot be successful if the "development pattern" for decent houses does not practically enable residents to use those modes. Tiny townhouses are being built near cycleways with no room to store a bike. If new housing does not include functional requirements like bike storage, this undermines the investment in cycleways.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Albert-Eden

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I would encourage council to show leadership and consider reallocation of more funding towards supercharging walking, cycling, and public transport to ensure that, where possible, Aucklanders have better alternatives to get around our city.

I would strongly support more funding mechanisms for Council, or a higher level of central government funding, when it comes to future major capital projects, and would encourage Auckland Council to continue advocacy for this.

In relation to the 30-Year Integrated Transport Plan I recommend to Auckland Council that staff are resourced sufficiently, and given a strong mandate, to produce meaningful progress on this plan, and ensure all projects, including State Highway projects, are well evidenced, affordable and right sized.

It is important that we get affordable and deliverable projects into Auckland's plans (such as a bridge for the Additional Waitematā Harbour Crossing, and the City Centre to Māngere corridor).

I strongly support the vision laid out in the 2020 City Centre Masterplan [CCMP] refresh, and its transport component Access for Everyone [A4E]. The zero-emission, people-friendly approach remains the best principle to follow.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I support increasing residential parking permit fees, and would like to see further increases so the price of permits reflect the value of public space used for storing private vehicles.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

I would like to see more investment in town centre invigoration for all suburbs and making them more people friendly and inviting to use.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

It would be great to see more improvements for the area and making it more user friendly with inviting spaces for everyone.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I would love to see continued focus and improvements for alternative modes of transport (walking & cycling) and public transport. We need to shift away from our reliance on fossil fuels and cars and provide people with alternative options that are safe, accessible and affordable, especially given the current world climate. Close connection/link gaps in the cycling network, lower speed limits and maybe finally open a lane on the Auckland Harbour Bridge for people on foot, bikes and scooters.

Continue to develop public spaces like the waterfront that exclude cars and are for people to enjoy and use, which make cities more liveable.

As funding is constrained large projects shouldn't be developed in isolation from the needs of the city's whole network. This means bridges - not tunnels, light rail on the surface, normal-sized roading projects and time of use charging.

Aucklanders strongly support Access for Everyone. Create greener streets and people-friendly spaces with less through-traffic which leads to nicer public places and cleaner air.

Take the lessons from the delivery issues of the CCMP and A4E. Any vision and strategy with the high level of support that CCMP and A4E has had since 2020 needs to be followed through asap and with cost-effective delivery, rather than endless cycles of delay and yet another consultation or stalling by a vocal minority.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Public transport, walking and cycling. We need to stop relying so much on private cars for getting around.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.,Other (please specify):Pedestrianise more areas (Queen Street!!!), allow for more outdoor spaces to be used by hospitality so people can sit, walk, shop and enjoy the area without being bothered by vehicle traffic.

Annual Plan 2026-2027

#3887

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Local Board: Albert-Eden

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

City Rail Link is not right timing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Too high increase on rate and City Rail Link is not right timing.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Do not support

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Maintain but do not expand the plan yet. Citizens are going through hardship.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Improving infrastructure.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

All good projects, but costly.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

How can you continuously increase rates by such large amounts year on year, yet the government won't even consider paying teachers more than a 2-2.5% pay rise over two years. This has to stop! It's unsustainable.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden,Waitākere Ranges

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

It is important to fund the refurbishment of council spaces. However, the operating of these facilities should be considered too. The slashing of the budget for cover staff has lead to libraries being short-staffed and stretched thin. Rotating staff between libraries is a band-aid solution as often staff get sick at the same time. So allocating a cover-budget in vital for giving librarians flexibility in delivery services for Auckland

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business

properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

I don't know

Tell us why

Waitākere Ranges Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

It is important to fund the refurbishment of council spaces. However, the operating of these facilities should be considered too. The slashing of the budget for cover staff has lead to libraries being short-staffed and stretched thin. Rotating staff between libraries is a band-aid solution as often staff get sick at the same time. So allocating a cover-budget in vital for giving librarians flexibility in delivery services for Auckland

2. What do you think about the proposed key areas of additional investment?

A. Community wellbeing - continue to grow and evolve our programmes to support community wellbeing with a focus on tamariki and rangatahi, as well as older people

Support

B. Review level of community grants, including investigating a Facility Partnership Fund to support community organisations to plan, develop or upgrade community facilities

Support

C. Improve engagement with communities of need, schools and youth

Support

D. Progress an omnibus Waitākere Ranges Local Parks Management Plan

I don’t know

E. Walking and cycling connections, particularly through parks

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

In restoring the native ecosystems of Auckland's mountains under the Tūpuna Maunga Plan. That there is careful consideration of tree removal as bigger trees can provide shelter for native saplings to grow and give shelter to birds until the new plantings are big enough.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around

6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Libraries, as they provide community and education for a wide variety of Aucklanders

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Other (please specify):Helping the homeless population get the support they need

Annual Plan 2026-2027

#3946

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Albert-Eden

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

You need to focus solely on rubbish, water, wastewater, parks, libraries and transport all other money spent on festivals or any other non-essential services are not a core part of what rates should be spent on, and council needs to be more prudent with the money provided by rate payers

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Don't agree with the natural environment targeted rate - this is not a core service and isn't clear what is provided for this

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

There's very few options on development for our area

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Do not support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected

from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Do not support

Tell us why

Businesses in NZ are struggling and council activities especially for CRL have made the city centre a nightmare for both rate payers and business owners with very little compensation

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

It is very high level with little detail and promotes ongoing wastage of rate payers money - the large wastewater interceptor should have been completed years ago and likewise the CRL still doesn't have a completion date - you shouldn't waste money on festivals and business improvement projects until the essential core services are delivered

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Reducing sewerage/waste water overflows into our harbour and beaches

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Annual Plan 2026-2027

#3956

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Albert-Eden

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Many people are losing their jobs or are struggling to make ends meet. Having such a large increase will only further strain them.

Perhaps take a bit of the fuel tax or road tax to pay for the CRL? It would encourage more people to take public transport as seen with the current fuel crisis.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

Continue support for libraries

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business

properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

Definitely need to activate the boundary areas

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
4	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

there must also be changes in the council showing cost reductions, for this reason I dont support extra spending.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

spending 24 million on existing upkeep for such small area, plus 7 mil for putting up new roofing? I hope 3 quotes was taken before accepting the contractor.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Do not support

B. Investigating how to respond to future growth expected in our area.

Do not support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business

properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

the area is linked geographically, so make sense.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

SAVE MONEY, cut budgets for programes and staff.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

The CRL is going to be a game changer for Auckland, not only for transportation but for housing through the PC120 change.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

It has the key areas of growth for the local board area.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

Morningside is growing and will get even more busier with the CRL and PC120 changes. Already a big housing development which will attract more people to the area to utilise the businesses in Morningside.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Albert-Eden has the least amount of open space for its population than any other local board and due to its central location buying land for more open space is difficult as land is expensive, but we need to do this if we continue to create more housing especially as a requirement of PC120 along the rail corridor.

Upgrading our stormwater is also a priority as areas of Albert-Eden suffers terribly in heavy rainfall.

We are lucky in Albert-Eden to have a great bus network which services the community into the CBD but also across the city as well.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

All of the above are important but if we don't have economic development we don't get nice things

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Other (please specify):Accessible for children, older people and people with limitations

Annual Plan 2026-2027

#4010

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Albert-Eden

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

We need all water to be "slowed down" so it doesn't collect in areas it shouldn't. That means that some areas prone to flooding need to be rezoned as "catchment areas".

Public transport needs to be subsidized for students right up to University level to encourage more affordable users. All public transport needs to be electric.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Agree with some of the above. Increase parking permits so people use public transport between 7am and 6pm. After this time make it free for residents.

Do not add a refuse bin fee. This will discourage people from recycling.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Have these proposed ideas had scientific or environmental back up?

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of

Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

Eden Park events help with supplying more money in businesses accounts so they can pay extra. Somebody has to.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Open up the new carpark at Mt Albert Recreation and Leisure Centre st 773 New North Road. We need this open now!

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I want the new carpark Mt Albert's Recreation and Leisure Centre opened please . Its completed but still fenced off. We are all walking in the rain from side streets to the Recreation Centre to do our yoga and pilates. Most people are over 60 years of age and Winter is coming.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Increases in costs to residents in a time where most people are struggling is not what the council should be doing when they should be supporting residents during these hard times.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I would like to urge council to continue to support the Auckland Philharmonia and the great work that they do for our community in Auckland. The orchestra is an Auckland institution with over 50 performances each year that drives thousands of people into the CBD each year on a regular basis. They also work with more than 50 Auckland schools and over 19,000 students each year. They are also an internationally recognised contributor to Auckland's global reputation. We are truly an Auckland Institution and the support of the council is crucial in ensuring our work is continued through the community. The documentation I attach highlights the amazing work achieved by the Auckland Philharmonia.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

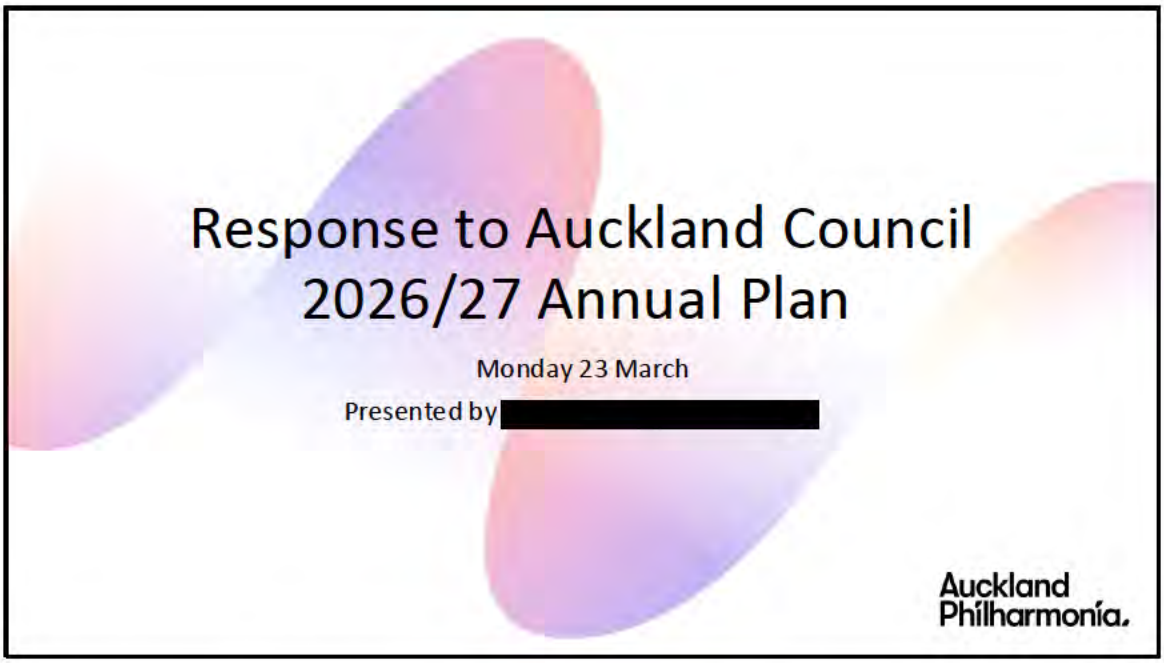

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Good afternoon and thank you for having me here today. It's been a busy few weeks for the musicians of the Akl Phil, including being involved in the Akl Arts Festival, the orchestra performed to 40,000 people in the Domain for Synthony on Saturday night.

In fact I think our mayor is being won over by our city's orchestra and I understand he took some time on the podium during their Friday rehearsal to test out his conducting chops!

I'd like to start by reading a quote from the NZ Herald from this morning, likening Synthony to Coachella:

"But the Mānuka Phuel Synthony Festival had one major thing the Californian desert oasis (although it was hot out there) didn't, and that's the Auckland Philharmonia and conductor Sarah-Grace Williams.

These **magical musicians were the gem in the crown** that was the best outdoor party Auckland's domain has ever witnessed – one that the city, and myself, will remember for years to come."

It is on this HIGH NOTE that I am here to provide some feedback in response to the Annual Plan.

But first I will say thank you for the stable, operating funding that is provided to us by Council via the Amenities Act. It is through that sustaining operating support that we are able to provide our service to the city.

An Auckland Institution

- With 50+ performances per year, largest performing arts institution driving tens of thousands of people into the CBD each year on a regular basis
- Serve 50+ Auckland schools and over 19,000 students through our Learn & Participate Programme
- Beacon of civic engagement and pride
- Driver of economic development activity
- Internationally recognised contributor to Auckland's global reputation

- For over 45 years, Akl's professional symphony orchestra has served the people of our city through an annual event calendar of over 50 performances across Tamaki Makaurau. Each year, as our city's largest performing arts institution, we drive tens of thousands of people into the CBD on a regular basis to enjoy all that our city has to offer, creating a sense of vibrancy and recycling money throughout the econmy

- We contribute to our music education curriculum through our very active Learn and Participate programming, ensuring we can raise well-rounded tamariki, no matter where they receive their schooling

- And play our role in the civic and cultural life of our city by driving social and economic activity and representing Auckland throughout our international network as we attract the highest level artists to come to our city for performances or to audition for our orchestra

- For example, in 2025 we were proud to take a cohort of musicians to Samoa to perform and teach as part of the Commonwealth Heads of Government meeting, representing our city and our country.

Return on Auckland's Investment

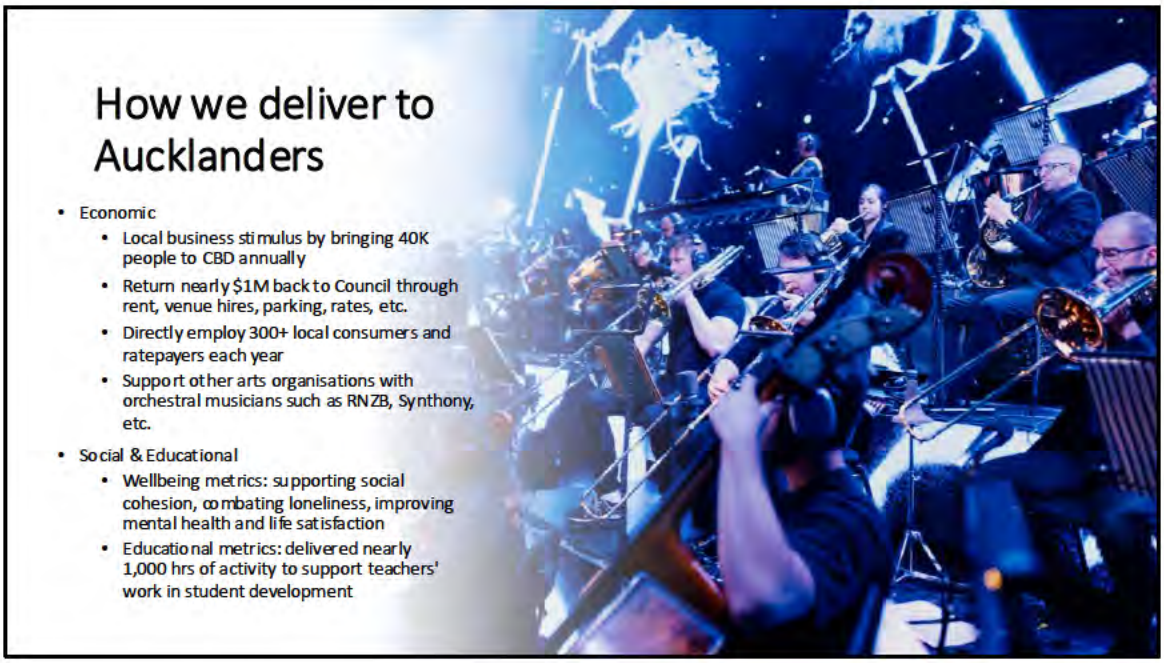

- Auckland Philharmonia delivers efficiently for the good of communities across Auckland
- Impact Lab Social Return on Investment
  - $12.30 return for every $1 spent on community programmes
  - $2.20 return for every $1 spent on performance programmes
- Our partnerships increase resilience and capacity in the sector and return benefit to Aucklanders
  - Industry: Tātaki Auckland Unlimited, Auckland Live, TAU Creative Industries, New Zealand Opera, Royal New Zealand Ballet, Auckland Arts Festival, Q Theatre, Stardome, New Zealand Film Festival, Lockwood Aria Competition, RNZ, Synthony, and more
  - Community: A broad community engagement programe partnering with organisations like MS Auckland and Mangere Refugee Resettlement Centre to use music as a transformational tool to support wellbeing across the city.
  - Corporate: 40+ local businesses

- We do all of this through a budget that is made up of self-earned revenue (tickets, fundraising, corporate & foundation support, outside hires, investments, etc.) and government grants (local and central)

- We firmly believe that we represent a prudent investment for Council and provide "good value for money" for the people of Auckland

- Bill English's Impact Lab did an assessment report describing social ROI
  - For every $1 invest in community programmes, we returned $12 good to Auckland through social ROI
  - These figures represent not only our quantitative impact to our city, but also incorporate our qualitative

- We are also proud to call some of Auckland's most esteemed organizations our partners; and are dedicated to investing in Partnerships increase resilience and capacity

Our work throughout the year DELIVERS to AUCKLANDERS. Specifically, we offer a return to ratepayers through social, educational, and economic metrics.

On the economic side, we provide local business stimulus by bringing 40K people into the CBD each year who spend money on parking, restaurants, cafe, shopping, and other goods and services etc.

- Of our local government grant, we return nearly $1M back to council through venue hires, production costs, rates, office rent in town hall, and misc fees

- we directly employee 300+ local consumers and ratepayers each year, not taking into account those people who have regular work as theatre technicians, food and beverage staff, event experts, ushers, and lighting professionals, who are able to grow careers in those sectors because of the stability of our output

On the social and educational side:

- Our programmes support the social cohesion of our citizens, ensuring their health and vitality as contributors to our society
- L&P programme we delivered nearly 1000 hrs of educational activity and

•performed to over 26K young Aucklanders in venues and classrooms across Tamaki

Activating our communities

- 50+ times per year, we perform for full houses at Auckland Town Hall, Bruce Mason Centre, Kiri Te Kanawa, and Due Drop Events Centre in Manukau
- Akl Phil events give people a reason to:
  - leave their homes
  - use transport
  - frequent local businesses
  - engage socially with others
  - experience the features that make our city great

- As our city's most active performing arts organisation we give people a reason to travel into the city and USE that CRL line that we're all so excited about
- Our programmes give people a reason to put their phones down, leave their houses, get on the train, and feel a sense of pride in being Aucklanders
- Because of course we all know, having a functioning transport system is important, but only insofar as you have a REASON TO USE IT

Response to 2026/27 Annual Plan

- "Grow Auckland's economy by supporting events, tourism and creative industries"
  - Maintain **stability of funding** that major arts institutions receive so that iconic and well-attended cultural events bring Aucklanders out of their homes recycling money throughout the city
- "Planning infrastructure to manage growth"
  - **Invest in infrastructure, amenities, and services** that give people a reason to use the new CRL and supports Aucklanders' quality of life
- "Transport: making easier, safer and more sustainable for people to move around"
  - Make **good use of CRL investment** by continuing to fund the activities and events Aucklanders are proud of and maintain Auckland as New Zealand's global city

- Thank you for sharing the annual plan with Aucklanders
- In response to your proposals, Auckland Philharmonia would like Council to:
  - MAINTAIN STABILITY OF FUNDING to major arts institutions-->which in turn supports Council's ambition to "grow Auckland's economy"
  - INVEST IN INFRASTRUCTURE, AMENITIES, and services that give people a reason to use the CRL and suppor quality of life-->which then supports Council's goal to "plan infrastructure to manage growth"
  - Make GOOD USE OF CRL by funding ACTIVITIES and EVENTS that maintain Auckland as New Zealand's global city-->realising Council's ambition to make transport "easier, safer and more sustainable for people to move around"

In 2026/27 the Philharmonia looks forward to delivering on our charitable purpose and mission to encourage community connection, economic vitality, and enable sector partnership, which is aligned with Council's focus on value, efficiency and growth.

Thank you for this opportunity.

I, and the tens of thousands of friends and fans who support and love their city's orchestra, applaud your stewardship of our resources and your dedication to making the lives of Aucklanders better.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around

1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around

6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around

6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Do not support most

Tell us why

1. Increases the burden on taxpayers. 2. The plan is ambitious, but few things can be achieved, and taxpayers don't know where their money is being wasted.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Taxes are increasing, but the effects of infrastructure improvements are minimal. We should consider where the money is going.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

1. Develop the economy and prioritize addressing people's livelihood issues before considering grandiose planning.

2. Solve traffic congestion problems first; it's not advisable to waste taxpayers' money on luxurious pedestrian and bicycle paths.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

I don't know

Tell us why

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

What is being done about all the streets that are now blocked with parked cars from apartment or townhouses? Driving anywhere anytime around my home is fraught with stress from cars having to pull into empty spaces to let others pass or often the opposite where you're not sure if someone is going to keep coming at you and expect you to find a place!

Who ever thought that people in townhouses that live near stations don't have cars is in Lala land.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Continues to be same responses year on . Major disruptions impacting on travel time during road improvements /cycle ways etc . Increase in rates excessive amount impacting on all financially inefficient public transport system

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Excessive increase . In current economic climate will impact most people .Strongly suggest lower this increase if at all

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

I don't know

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected

from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I am strongly in favour of the 2020 City Centre Masterplan [CCMP] refresh and Access for Everyone [A4E].

I support more people-friendly spaces and less through-traffic in the city centre.

I support the CRL.

I want full funding of the remaining sections of the Whau Pathway so that it can be completed without further delay.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

Local Board: Albert-Eden

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

Mt Albert Business Association supports the investment required to realise the benefits of the City Rail Link. We acknowledge the Mt Albert Village is located directly adjacent to the Mt Albert Train Station and, with this, the additional connectivity the CRL will bring to Mt Albert is a benefit we support.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

Mt Albert Business Association acknowledges the proposed increase in budget allocation for the Albert-Eden Local Board, which we support.

We support initiatives that will help our community, Mt Albert, to be a great place to do business in and to visit.

Our Association has recently formed, and we request local board support during our establishment phase.

Specifically, during this upcoming financial year, we would like to be supported to deliver or partner in the following key initiatives.

- Safety improvements in the Mt Albert Village – in particular CCTV, signage, and lighting improvements. Safety is the most important issue for Mt Albert Business Association, with several recent incidents highlighting gaps in safety provision.

- Installation of banner flags on the Village's streetlight poles, to bring some much-needed colour and interest to the area. Despite investment in these new poles during the 2017/18 upgrade, they don't appear to have been used in any significant way.

- A redeveloped community area in the Council space located at 915 New North Rd (currently Council lets these carparks to a private operator). The Mt Albert Business Association would like to be closely involved in the design of this space, to ensure outcomes of safety, foot traffic and ultimately economic development in the Village are realised. We think the design needs to be "re-baselined" from earlier concepts, given the changes in the community and concerns about safety in the area.

- Support in marketing and activations to make Mt Albert a brilliant place to visit and shop local.

- Support to ensure the establishment of Mt Albert Business Association is sustainable and well-supported to access the BID pathway.

We require this support in order to deliver the goals of the Mt Albert Business Association, which are as follows.

– We aim to connect, assist, promote and advocate for all businesses in our wonderful Mt Albert community.

– We aim to enhance the Mt Albert Village, and the wider Mt Albert area, as an attractive, safe and vibrant place to do business in – something our community can be proud of.

– Eventually, we aim for Mt Albert to achieve "Business Improvement District" status with Auckland Council, which will ensure our work is well-resourced and sustainable over the long-term.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

B. Investigating how to respond to future growth expected in our area.

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of

Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Pleased with the work done by Watercare, potable tap water, and sewerage improvements is good.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Other

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Other

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

I don't know

Tell us why

sounds like a big increase,

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I have been walking on footpaths round Dominion Rd/Valley Rd lately, and find them full of hazards, fixed ones, including holes, covers for services, poles, bins, not a smooth, even surface, plus the mobile hazards, of scooters and bikes. It is not advisable to step off a bus, or out of a shop, without looking twice for a fast moving hazard.

I feel money has been spent placing obstacles on the roadway, when constructing bike lanes to the detriment of paths. I favour smooth surfaces; even when I tried biking, during Covid, the obstacles, lumps, bumps and humps detracted from a smooth safe ride in my opinion.

I don't blame folk using scooters etc on path, but consideration for other users seems rare.

I have a low opinion of Akl Transport, who seem to place poles and other street furniture to cause maximum inconvenience to a pedestrian. Could we not have fewer poles, and use 1 pole for several notices. Cost saving.

2nd Comment Rubbish. Thanks for the rubbish service. We do not fill our bins, and having a soft plastic return service to Woolworths is very good. But I would prefer to see much less plastic and other packaging. The thought of landfill makes me shudder. I cannot throw out some items which have served me well, if landfill is their end. I would much prefer an honourable cremation. I hope one day incineration will become viable; it would help with the landfill problem.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I support the extension of the Whau River walkway/cycleway and want to see funding allocated for this. What has been completed so far is excellent! World class!! So, well done Council 👏 I believe this pathway encourages everyone to get outside and experience nature. With more people biking now, the more safe paths the better, and it is making parks and reserves more accessible to people.

Please keep this project active!

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I wish to preserve the ability for Citizens Advice Bureau services to continue operating from Council buildings e.g. libraries. This is a vital social service to all in the community, including the most deprived and /or socially isolated. It provides for social cohesion and equity in these difficult times and ensures that residents are supported to manage their social, economic and personal lives.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

BID's are a great way to raise revenue and for those paying the targeted rate to benefit from it.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I’m particularly focused on investigating how to respond to growth in my area (specifically Pt Chevalier).

I'd like the make a plea to Council to make the best use of the land and infrastructure that we already have. In particular I would like to see Council leverage the significant land holdings it already has in the Pt Chevalier Town centre (including the AT carpark areas that I think should be considering together with Council land holdings).

In order to respond to growth pressures in a 20 – 30 year horizon I think Council should sell the land on Huia Road where the community house, Plunket Rooms and the Learning at the Point Kindergarten sit. This land could be amalgamated into one title, making a feasible development opportunity. The proceeds from this sale should be put toward developing a one-stop shop for a library and community function where the temporary library currently sits. Council and Auckland transport should work smarter together, considering the busway, bus connections to the Mt Albert Railway station (which will offer much improved connections upon the CRL) and boosting a better town centre for Pt Chevalier and for the future communities on the Unitec land.

To respond to growth Council needs to take better care of its existing assets in Pt Chevalier. Work hard to maintain the open space zoning of the sports clubs that sit on the Hallyburton Sports Trust land, and preserve the assets on the Raymond Street Reserve on the corner of Raymond St and Harbour View Rd. This land is has been designated as a recreational reserve under the Reserves Act and I feel passionately that this reserve should not be sold or the reserve status challenged. I have watched the hall on the land become more and more degraded over the last 5 years, reaching a point where it will be a considerable cost to Council to repair and reinstate to building code. That said, I would like to see Council and the local Board preserve this building as the cheapest option will always be, working with what we have already got. I would like to see Council put out an expression of interest process for potential lessees of this property put in a tender to upgrade this building as part of securing a long term lease.

My submission doesn’t hinge on this point, but I would like to say that if the land in the town centre where the Learning and the Point Kindergarten and the Plunkett rooms are sold, these parties would present ideal lessees for this site, particularly as it was historically the site of the kindergarten in Pt Chevalier.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I disagree with extending the Kingsland BID and the associated targeted rate.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Waitematā

Waitematā Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed changes to service levels, fees and charges?

A. Reduce library hours at Central City, Little Leys, Grey Lynn and Parnell Libraries.

Support

B. Reduce maintenance for bollard and post-and-rail.

Do not support

C. Reduce community grant funding and accommodation grant funding.

Do not support

D. Increase fees for adult swim fees at council pools by up to $3.

Support

E. Reduce funding for environmental management activities.

Do not support

Tell us why (please be clear which priority you are talking about)

Support

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
2	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I just want to write in support of additional arts funding. NZ's arts institutions are going through tough times and need the city's support. The arts and culture elevates and gives meaning to our lives. I am a Canadian who moved to Auckland twelve years ago - I marvel at the quality of NZ artists and institutions, but am concerned that they are not getting enough support. The Auckland Philharmonia, in particular, is a world class organisation operating on very modest means. It is a jewel to be celebrated by Aucklanders. I hope the council will consider the many ways this orchestra represents and supports the citizens and economy of our great city when it considers allocating arts funding. Many thanks.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.

	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Arts funding.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.

Organisation: N/A

Local Board: Albert-Eden

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I support the overall direction of the Annual Plan, particularly where it continues investment in core infrastructure, public transport, and essential services for a growing city.

However, I believe there is a significant opportunity to strengthen the plan by placing greater emphasis on integrated, place-based planning in areas undergoing rapid change, such as Point Chevalier and the Carrington corridor.

With major investment in transport infrastructure (including the Northwestern Busway and wider rapid transit network), alongside substantial planned housing growth, it is important that Auckland Council takes a more coordinated approach to delivering community infrastructure, public space, and civic amenities.

In particular, I would like to see stronger prioritisation of:

- Precinct-level planning that aligns transport, housing, green space, and community facilities

- Investment in libraries and multi-use community hubs located near rapid transit

- High-quality, people-focused town centre design, similar to recent work in places like Avondale

- Expansion and activation of public open space, including innovative approaches in higher-density areas

- Walking and cycling infrastructure that prioritises safety and connectivity, particularly around key corridors

- Activation of public spaces through local arts, culture, and family-friendly events

- Protection and adaptive reuse of heritage buildings where they can contribute to community life

As Auckland grows, it is important that investment is not only focused on movement and housing, but also on creating connected, liveable, and people-centred neighbourhoods. I see this Annual Plan as a positive step, but one that would benefit from a stronger emphasis on these integrated outcomes.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I generally support a user-pays approach where it is fair, transparent, and supports positive long-term outcomes for the city. However, I think it is important that any changes to rates, fees, and charges are carefully assessed for their impact on accessibility, equity, and wider urban goals.

In relation to the specific proposals:

Refuse bin/bag exchange fee

I support this in principle if it encourages waste reduction and more efficient use of council services. However, it should be designed in a way that does not disproportionately impact larger households or those with limited flexibility, and clear communication will be important.

Business Improvement District (BID) changes (Kingsland and Onehunga)

I support the BID model where it helps strengthen local town centres and supports local business activity. Well-functioning town centres are critical to creating vibrant, people-focused neighbourhoods, particularly as the city grows.

Waitākere Rural Sewerage Scheme

I support investment in essential infrastructure such as wastewater systems, particularly where this delivers environmental and public health benefits. As with all targeted charges, it is important that costs are distributed fairly and transparently.

Residential parking permit fee increases

I support a review of parking pricing where it helps manage demand and encourages more efficient use of limited street space. However, this should be balanced with investment in viable alternatives, including public transport, walking and cycling infrastructure, so that people have realistic choices. Pricing changes alone are unlikely to be effective without these complementary improvements.

Overall, I support the direction of these changes where they are aligned with long-term goals such as reducing waste, improving environmental outcomes, and making better use of public space. However, it is important that they are implemented in a way that is fair, proportionate, and supported by investment in wider infrastructure and services.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden,Whau

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I generally support the direction of the proposed priorities for the Albert-Eden Local Board area for 2026/2027, particularly given the historical funding constraints the board has faced and the need to address ageing infrastructure and community facilities.

However, I think there is a significant opportunity to strengthen this work by taking a more integrated, precinct-based approach in areas undergoing rapid change, particularly Point Chevalier and the Carrington corridor.

With major residential development underway and planned in this area, alongside significant transport investment (including the Northwestern Busway and improvements along Carrington Road), it is important that local planning moves beyond individual projects and instead coordinates:

- Community facilities (including libraries and multi-use community hubs)

- Public open space provision and park activation

- Walking and cycling connections

- Town centre design and functionality

- Heritage assets and their adaptive reuse

In particular, I would like to see stronger local board advocacy and investment focus on:

- Developing a precinct plan for Point Chevalier/Carrington to guide integrated decision-making

- Expanding accessible public green space to meet the needs of a growing population, including exploring opportunities such as increased public use of the western end of Chamberlain Park

- Delivering a fit-for-purpose, future-focused library and community hub, ideally located to maximise accessibility and connection to public transport

- Improving the quality, safety and connectivity of walking and cycling infrastructure across the area

- Supporting the activation of parks and public spaces through family-friendly programming and local arts and cultural initiatives

- Exploring opportunities for the adaptive reuse of significant heritage buildings, such as Building One, where these can contribute to community life and identity

As the Albert-Eden area continues to grow and change, there is a strong opportunity to shape places that are not only functional, but genuinely liveable, connected, and people-centred. I support the Local Board's direction, and would encourage an increased focus on integrated planning and investment to achieve these outcomes. Without this level of coordination, there is a risk that significant public investment results in fragmented outcomes rather than a cohesive and high-quality urban environment

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Tell us why

Whau Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I support the direction of the proposed priorities for the Whau Local Board area, and would particularly like to highlight the importance of completing the Te Whau Pathway as a key strategic project for the area.

The Te Whau Pathway has the potential to be a transformative piece of infrastructure, not only as a high-quality walking and cycling route, but as a broader connector between communities, town centres, schools, and natural environments across the Whau area.

In places like Avondale, where I work as a secondary school teacher at Avondale College, where there has already been significant investment in town centre redevelopment and public space, the completion of the pathway would help to:

- Strengthen connections into and through the town centre

- Support increased use of active transport for local trips

- Enhance access to green and blue spaces along the Whau River

- Encourage greater use and activation of public space

- Support local businesses by increasing foot traffic and dwell time

More broadly, projects like Te Whau Pathway play an important role in shaping people-centred urban environments. They provide safe, accessible, and enjoyable alternatives to car travel, while also contributing to public health, environmental outcomes, and community wellbeing.

I would strongly encourage the Local Board to continue advocating for the completion of the full pathway, and to ensure that it is delivered to a high standard, with strong connections into surrounding neighbourhoods and town centres such as Avondale.

Completing Te Whau Pathway represents an opportunity to build long-term value for the area, and to complement other investments in housing, transport, and public space.

2. What do you think about the proposed key areas of additional investment?

A. Design and build a new destination playground at Avondale Central Reserve.

B. Promote community identity and diversity by funding a coordinator for Welcoming Communities, supporting the PAN African Hub, and refreshing the Whau Ethnic Peoples Plan.

Support

C. Engage and respond to youth needs, and co-design initiatives to address opportunities and gaps.

Support

D. Improve water quality and flood resilience of Whau streams and rivers through collaboration with volunteers, local schools, community hubs, organisations, and neighbouring local boards.

Support

E. Prioritise projects identified through the Whau Sport and Recreation Facilities Plan and leverage partnerships to provide a local facility network for the community.

Support

F. Develop a Local Parks Management Plan to guide decisions on managing use, development, and protection of all 146 parks, reserves and open space within the Whau.

Support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

My key priorities are Transport; Planning and Infrastructure to Manage Growth; Local Parks, Community and Recreation Services. I see these as closely interconnected, particularly in areas experiencing significant growth and change.

Transport

Continued investment in high-quality public transport and active transport infrastructure is critical to Auckland's future. This includes major projects such as the City Rail Link and the Northwestern Busway, as well as safe, well-connected walking and cycling networks. Transport investment should not be considered in isolation, but as a key driver of how communities function and grow.

Planning and Infrastructure to Manage Growth

As Auckland intensifies, it is essential that growth is supported by coordinated, precinct-level planning rather than a series of disconnected projects. This includes aligning housing, transport, public space, and community facilities to create cohesive, liveable neighbourhoods. Areas such as Point Chevalier/Carrington Rd, and Avondale demonstrate the importance of taking a more integrated approach to growth.

Local Parks

Access to high-quality, accessible green space will become increasingly important as density increases. This includes not only maintaining existing parks, but also expanding access where possible and taking innovative approaches in urban areas. Parks should also be better connected through walking and cycling networks, and designed to support a wide range of community uses.

Community and Recreation Services

Investment in libraries, community centres, and multi-use civic spaces is essential for social cohesion and wellbeing. These facilities should be designed as flexible, welcoming hubs that are accessible to a wide range of users, and ideally located near public transport and town centres to maximise their value.

Across all of these areas, I would encourage Auckland Council to place a strong emphasis on creating people-centred environments — places that are not only functional, but support connection, culture, and everyday life. This includes the activation of public spaces through local arts, events, and community-led initiatives, as well as the adaptive reuse of heritage buildings where appropriate.

Taking an integrated approach to these priorities will help ensure that Auckland's growth results in high-quality, connected communities rather than fragmented outcomes.

I would like to emphasise the opportunity for Auckland Council to take a more integrated, place-based approach in areas undergoing significant change, particularly in the Point Chevalier–Carrington corridor and neighbouring areas such as Avondale.

With major investment in transport infrastructure (including the Northwestern Busway and the City Rail Link), alongside substantial planned housing growth, there is a clear opportunity to coordinate projects so they deliver a cohesive, people-centred outcome rather than a series of disconnected interventions.

In the Point Chevalier and Carrington area specifically, I would encourage Council to prioritise a joined-up precinct approach that brings together:

- The future Northwestern Busway station and its surrounding walking and cycling catchments

- The development of a new library and community hub, potentially through adaptive reuse of significant heritage assets such as Building One at the former Carrington Hospital site

- Expansion of accessible public green space to support a growing population, including increased public use of a cycleway connected western end of Chamberlain Park

- Safer, better-connected walking and cycling infrastructure, including consideration of the role and alignment of routes such as Sutherland Road i.e extending the Northwestern Cycleway under a widened Carrington Rd bridge (suggested in early planning for the Northwestern Busway), removing the cycleway from Sutherland Rd, which is increasingly congested due to it currently functioning as a part of the cycleway.

- High-quality, people-focused town centre improvements that support local business, community life, and everyday use

Taking a coordinated approach to these elements would help ensure that the significant public and private investment already planned for this area results in a well-connected, liveable neighbourhood with a strong sense of identity and place.

More broadly, I would encourage Council to continue investing in projects that demonstrate this kind of integrated thinking, such as the ongoing transformation of Avondale town centre and the

delivery of the Te Whau Pathway. These projects show how transport, public space, ecological restoration, and community life can be brought together to create lasting value.

I would also highlight the importance of activating public spaces — parks, town centres, and civic areas — through local arts, cultural programming, and family-friendly events. These are relatively low-cost ways to significantly enhance the usability and vibrancy of public investment. I have enjoyed the Out and About Auckland events with my young family and have discovered a lot of new parks and recreational spaces due to this valuable council programming.

Finally, I would encourage Council to take a proactive approach to the protection and adaptive reuse of heritage buildings where they can contribute to community life. Buildings such as Carrington Hospital's Building One represent not only historical value, but also a significant opportunity to create unique civic and cultural destinations within growing neighbourhoods. It is distressing to see the damage being done to the building under its current, neglectful ownership.

Overall, the key opportunity is to move from delivering individual projects toward shaping integrated, people-centred precincts that support Auckland's long-term growth in a cohesive and sustainable way.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden,Ōrākei

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

Ōrākei Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services?

A. Increase community-use sports fields provision either through redevelopment or expansion of our asset portfolio to address the forecasted move of Auckland Cricket into Colin Maiden Park and other demands on our sports fields.

Support

B. Increasing investment in restoration and pest-management programmes to grow and protect your natural environment. Our reserves and open spaces are one of the most vital resources in Ōrākei.

Support

C. Changing the Meadowbank Community Centre project to a self-funded community centre to capitalise on existing investment and resources.

Support

D. Construct a playground Remuera Library to optimise the under-used green space at the side of the building.

Do not support

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

greater focus need to be on the environmental spending

1) I applaud support for pest management funding and request that there is more support for assisting community groups to create and sustain pest free communities ie weeds and predators.

2)Trees- I support the protection of mature trees and for funding of enforcement and compliance activities to enable monitoring of consent conditions. I support a pro-active and consistent response to the illegal removal of protected trees.

Support funding for management of the Notable trees schedule, including adding new trees to the list.

Support funding for the Urban Ngahere Strategy, including monitoring of canopy cover and planting more trees on public land

3) I would love to see open discussion and implementation of sponge city concepts and on Māori environmental wisdom to assist with the urgent need for addressing climate change and resilience.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Planning needs to be realistic on the money Auckland Council has available without putting an unreasonable financial burden on rate payers. An increase in rates of 7.9% is very unreasonable, particularly at a time when many people are struggling so much. The focus should be on planning to a maximum rates increase of up to 3-3.5%.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Planning needs to be realistic on the money Auckland Council has available without putting an unreasonable financial burden on rate payers. An increase in rates of 7.9% is very unreasonable, particularly at a time when many people are struggling so much. The focus should be on planning to a maximum rates increase of up to 3-3.5%.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Other

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Other

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Do not support

Tell us why

This just raises costs to businesses that are then passed onto customers.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

The CRL needs to be funded by those using the services. It is unresonable to burden all Auckland rates payers with a significantly high rates increase for a service that many Aucklander will have no or little reason to use or benefit from. Auckland Council needs to ensure that any activities by Tūpuna Maunga Authority are beneficial to and fully supported by the local communities. Auckland Council and TMA should also ensure that respect is shown to all the people of the communities that their decisions affect.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

Generally supportive, but note the appalling lack of new sports fields and parks.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Proposed rates increase too high!

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Puketāpapa

Puketāpapa Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Same as for Auckland wide - lack of new green space. parks and sportfields.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
1	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
5	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Acquire and maintain land for sports fields, especially in Puketapa

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

It is important that we retain ownership over CRL, and so it is worth it for us to bear the costs.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Agree with all.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden,Howick,Ōrākei,Puketāpapa,Upper Harbour

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Most proposals are balanced and I support them. I would also like to see continued and sustained funding for the youth voice group in the area.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Do not support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

Howick Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed local board specific key areas of spend?

A. Explore ways to get the best value from our play spaces so they continue to meet the needs of children and families.

Support

B. Run regular seminars for community groups/organisations on the local grant's application process.

Support

C. Identify what type of indoor/sheltered courts are necessary to support sports play in Flat Bush.

Support

D. Continue advocacy of the Tāmaki estuary on water quality and coastal erosion.

Support

E. Continue to advocate to crime prevention organisations on behalf of the community for ongoing safety initiatives.

Support

F. Continue to support our volunteer groups with resources needed for ecological volunteering, such as stream clean-ups and pest plant weeding.

Support

Tell us why (please be clear which priority you are talking about)

Ōrākei Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

I support all proposals as they would improve the community connectivity in the area. I would also like to see continued and sustained funding for the youth voice group in the area.

2. What do you think about the proposed key areas of additional investment and changes to services?

A. Increase community-use sports fields provision either through redevelopment or expansion of our asset portfolio to address the forecasted move of Auckland Cricket into Colin Maiden Park and other demands on our sports fields.

Support

B. Increasing investment in restoration and pest-management programmes to grow and protect your natural environment. Our reserves and open spaces are one of the most vital resources in Ōrākei.

Support

C. Changing the Meadowbank Community Centre project to a self-funded community centre to capitalise on existing investment and resources.

Support

D. Construct a playground Remuera Library to optimise the under-used green space at the side of the building.

Support

Tell us why (please be clear which priority you are talking about)

Puketāpapa Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

I support all proposals as they would improve the community connectivity in the area. I would also like to see continued and sustained funding for the youth voice group in the area.

Upper Harbour Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I would also like to see continued and sustained funding for the youth voice group in the area.

2. Due to rising costs for utilities, maintenance, staffing requirements as well as pressures on revenue, we are facing an increase in the cost of delivering existing services. To address this, we are considering changes to service levels or fees. What do you think about the proposed changes to service levels and fees and charges?

A. Reduce maintenance activities may include stopping scheduled work on bollards, post-and-rails, and low-value bush areas, ceasing amenity garden infill planting and mulching, and reclassifying re-vegetation areas as bush.

Support

B. Reduce grants funding.

Do not support

C. Reduce funding across all programmes and projects including environmental outcomes, events and activations, cycling initiatives and community outcomes.

Do not support

D. Increase the fees and charges for Albany Stadium Pool: Option 1: Increase casual swim and swim plus fees by $1 (Fees will range from $5.00 - $11.40)

Support

E. Increase the fees and charges for Albany Stadium Pool: Option 2: Increase spectator fee and supervising adult fee by $1 (Fees will become $2)

Support

F. Increase the fees and charges for Albany Stadium Pool: Option 3: Increase spectator fee and supervising adult fee by $4 (Fees will become $5)

Support

Tell us why (please be clear which priority you are talking about)

I am strongly against the reduction in funding for programmes and projects including environmental outcomes, events and activations, cycling initiatives and community

outcomes. Despite funding constraints, those initiatives are the ones that are important to be sustained year-on-year, and will provide great return on investment as we face the impacts of climate change.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

4	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Support most

Tell us why

Needs balance

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Not fully understood

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Maungakiekie-Tāmaki

Maungakiekie-Tāmaki Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

Community benefits

2. What do you think about the proposed key areas of additional investment?

A. Environmental initiatives – working alongside mana whenua on restoration projects, expanding food resilience and edible planting programmes, and reinstating deferred environmental education activities.

Support

B. Sport and recreation – providing one-off operational support to local sports clubs and facilities to strengthen participation and collaboration.

Support

C. Libraries and culture – enhancing programming for seniors and increasing investment in creative and cultural activities.

Support

D. Community safety and emergency readiness – exploring additional compliance officer resourcing in areas with limited coverage.

Support

E. Local economy - supporting business associations to continue supporting local businesses and ongoing growth, development and liven-up our town centres.

Support

Tell us why (please be clear which priority you are talking about)

3. What do you think of Onehunga Business Association Inc's proposal to reduce the geographic boundary of the Onehunga Business Improvement District (BID) programme, and amount of targeted rate to be collected?

I don't know

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Improve transport and reduce traffic

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
2	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around

6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

Support

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

Support

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Support

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
6	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around

4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Māori identity and culture – reflect and celebrate Māori identity and culture throughout the city centre.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

The council needs to pay for the city rail link, as it is a very important piece of new infrastructure.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I completely support raising charges to reflect the costs of these services, as subsidising them, especially parking, goes against the interests of most people in the city.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden,Whau

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Whau Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment?

A. Design and build a new destination playground at Avondale Central Reserve.

B. Promote community identity and diversity by funding a coordinator for Welcoming Communities, supporting the PAN African Hub, and refreshing the Whau Ethnic Peoples Plan.

C. Engage and respond to youth needs, and co-design initiatives to address opportunities and gaps.

D. Improve water quality and flood resilience of Whau streams and rivers through collaboration with volunteers, local schools, community hubs, organisations, and neighbouring local boards.

E. Prioritise projects identified through the Whau Sport and Recreation Facilities Plan and leverage partnerships to provide a local facility network for the community.

F. Develop a Local Parks Management Plan to guide decisions on managing use, development, and protection of all 146 parks, reserves and open space within the Whau.

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

I believe that the council should look into expanding the Te Whau pathway to its fully planned extent, as it will be a vital link for connecting te Atatu and Avondale to the rest of Auckland by bike, and will benefit the community massively.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**

Submitter details:

Organisation: N/A

Local Board: Albert-Eden

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

While supportive, I have a number of major concerns.

Business rates should not rise more than residential rates. There is no justification for this.

I disagree with Auckland Transport's parking strategies which I believe are extremely damaging to the small businesses that are impacted by them. I also disagree with the fact that local boards will not be involved in decision-making on parking on the arterial roads within their areas. This is particularly disappointing since my recent experiences with Auckland Transport re parking indicate no desire or willingness to look for local solutions.

I also have little confidence in Auckland Transport decision-making given the poor-quality process which it ran when it decided (and, in fact, it had pre-determined) to eliminate the southern section of the Outer Link bus route. That decision was taken on minimal feedback versus the very large number of bus users who were negatively impacted.

There is nothing in the annual plan to indicate what learnings Auckland Council has taken from the huge cost and time overruns on the CRL project and how it will use these learnings to minimize such risks on future large infrastructure projects (and hence minimize the risks to future ratepayers).

Given all of the talk about intensification, I am skeptical that the development fees derived from future intensification activity in the Albert-Eden Local Board area (which was the hardest hit Local Board in the early 2023 floods) will be sufficient to cover the large investment needed in infrastructure to match the intensification.

There is a strong push by Auckland Council/Central Government towards promoting the Auckland City CBD and improving security there via an increased police presence, move-on orders, etc. However, this should not be at the expense of the neighbouring suburbs.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

While supportive, as noted above, I am skeptical that the development fees derived from future intensification activity in the Albert-Eden Local Board area (which was the hardest hit Local Board in the early 2023 floods) will be sufficient to cover the large investment needed in infrastructure to match the intensification.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

I don't know

B. Investigating how to respond to future growth expected in our area.

Support

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

I don't know

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

I don't know

Tell us why

It is not appropriate for me to comment on this proposal since I am not in the area concerned.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Subject to further information becoming available about possible central government challenges to the volcanic view shafts, I would support the Tupuna Maunga Authority in acting to protect the volcanic view shafts.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Flood resilience is the most important because we have recently seen how damaging severe flooding can be to Auckland and the Albert Eden Local Board area and, in my opinion, the January 2023 floods will turn out to be a lot more frequent that a one-in-two-hundred year event (due to climate change).

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Rates increase is not fair on people. Although community and infrastructure improvements are necessary, priority should be given to NOT burden people

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Refuse charges is NOT acceptable

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Maungakiekie-Tāmaki

Maungakiekie-Tāmaki Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support most

Tell us why

Parks, playgrounds, and recreation spaces improve quality of life, however priority should on making economical backgrounds better and easier for families

2. What do you think about the proposed key areas of additional investment?

A. Environmental initiatives – working alongside mana whenua on restoration projects, expanding food resilience and edible planting programmes, and reinstating deferred environmental education activities.

Support

B. Sport and recreation – providing one-off operational support to local sports clubs and facilities to strengthen participation and collaboration.

I don’t know

C. Libraries and culture – enhancing programming for seniors and increasing investment in creative and cultural activities.

Support

D. Community safety and emergency readiness – exploring additional compliance officer resourcing in areas with limited coverage.

Support

E. Local economy - supporting business associations to continue supporting local businesses and ongoing growth, development and liven-up our town centres.

Support

Tell us why (please be clear which priority you are talking about)

Council should engage with local residents regularly.

3. What do you think of Onehunga Business Association Inc's proposal to reduce the geographic boundary of the Onehunga Business Improvement District (BID) programme, and amount of targeted rate to be collected?

I don't know

Tell us why

Not aware of this

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

Council should engage with local residents regularly.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Family-friendly community programs.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

City link only benefits people in the city, yet others in Auckland have to pay for it

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support all

Tell us why

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

B. Investigating how to respond to future growth expected in our area.

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects

1	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Eco dev because many people are moving out of Auckland and in order to get eco growth more people must stay here so important to fund the community

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

I do think its important to work on the transport and water sewage but I do think that 7.9% increase for an average residential property isn't sustainable for the people and the council.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I don't think its fair to increase 7.9% for the residential property as why are they ones compensating for the budget. I also think we need such a big percent and the budget to spend on the water system. The change in rates will affect everyone so I don't think its fair.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Albert-Eden

Albert-Eden Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

I think I support fixing the libraries as it is one of the most used areas by the kids and youth.

2. What do you think about the proposed key areas of additional investment and changes to services, fees and charges?

A. Restoration planning for Waititiko / Meola Creek, to leverage the improvements in water quality that will be achieved through the Central Interceptor.

B. Investigating how to respond to future growth expected in our area.

C. Trialling free off-peak access for Gold Card holders to swim at Mt Albert Aquatic Centre.

3. Kingsland Business Society Inc is proposing to expand the geographic boundary of its Business Improvement District programme to include areas around the north end of Morningside Drive, and to increase the amount of targeted rate funds to be collected from $245,000 to $370,000 per year. If it is successful, ratepayers of business

properties located within the BID expansion area will be required to pay the associated BID targeted rate. Do you support this proposal?

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
6	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

1	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

I think preserving the natural areas and cultural heritage and reducing waste. Its also very important to plan the infrastructure to manage growth. This is because the population is growing and there will be more migration to NZ and due to the area I recommend that we do plan the infrastructure as already the 1/3rd population of NZ is living in Auckland so I think its important we work on it.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?
