Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support all

Tell us why?

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Free activities and events in local parks, libraries, and public spaces.,Environmental and climate action projects to get involved in, e.g. planting, pest control.,Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.

3. What would encourage you to visit your local town centres more often?

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving walking paths and footpaths.,Better public transport (buses and trains).,Better parking management (e.g. time limits, or paid parking to improve availability).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

today's meeting (14th July at Epsom Chinese Association) is very thorough, we all supported it. Thank you (local board members) for looking after our area.

Better public transport (buses and trains).,Better parking management (e.g. time limits, or paid parking to improve availability).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

1. since changing the outerlink bus route, it is not convenient to go to Mt Eden and Mt Albert.

2. The space we use for activities are small. We run many activities such as pingpong, taichi, singing and dancing, so it is very crowded. please help adding more spacious venues so more

residents can participate in community activities. This will help reduce isolation and loneliness for seniors and they can live a happier life.

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support most

Tell us why?

Most of the initiatives make sense, however, why is there a focus on Maori outcomes and Te ao Maori. Eden- Albert is made up of many ethnicities, all of which have equal value. Why is one ethnicity selected over all others. Also, there is zero evidence a Māori world view is better than any other. Again, why is this specifically focused on as requiring particular attention. Please drop the etho-nationalism and treat ratepayers as equal, versus favouring some base on skin colour or generational background.

Also, the attempt at delivering equitable outcomes is a nonsense. This is the report from a Council board who is supposed to deliver outcomes for a bunch of ratepayers in a specific geographic area. My rates are for services delivered within the Eden-Albert board catchment, I do not pay them for board members to virtue signal their ideology or go on some ill thought out social crusade.

2. Which of these do you believe our diverse community needs most? (Select up to 3 options)

Public spaces that feel safe., Maintain and improve local parks and sport fields, to better meet community needs.

3. What would encourage you to visit your local town centres more often?

Crime reduction, rubbish disposal, car parks, moving on violent abusive homeless people

- 4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important? (Select up to 3 options)**

Better public transport (buses and trains).

- 5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?**

Drop the ideology and focus on core Council functions

Support most

Tell us why?

- 2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.,Public spaces that feel safe.,Support local groups and volunteers build skills and continue to do their work in our communities.

- 3. What would encourage you to visit your local town centres more often?**

It is recommended that more events be held in the city center; the event center in Epsom is too small, and it is suggested that an indoor venue be built in the area where it was relocated due to the floods. Tree branches should be pruned and leaves cleared from the intersections of Ranfurly and Manukau Road, and Gilles Ave and Epsom Ave.

- 4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support most

Tell us why?

I really like the community, built environment, economic development & transport plans. However, I believe several aspects of natural & transport to be improved

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Environmental and climate action projects to get involved in, e.g. planting, pest control., Support local groups and volunteers build skills and continue to do their work in our communities., Maintain and improve local parks and sport fields, to better meet community needs.

3. What would encourage you to visit your local town centres more often?

- increased opportunities for friends to meet up
- more prizes up for grabs

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving walking paths and footpaths., Looking at speed limits to ensure they are safe., Better public transport (buses and trains).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

Natural: I think we should focus less on light pollution & more on harnessing the renewable powers of wind, solar & hydro electricity to power new homes being built in Auckland.

This will decrease carbon emissions greatly

Also look into making 100% recyclable batteries which can be used in the many buses running from Newmarket & through Epsom

Transport: Our community will most likely not be able to use (CRL) because we are too far away. Instead can we please ensure that buses will come on time & not be ghost buses? (for all of Auckland)

The AT situation has become really bad & costly. But using the battery powered buses should make things cheaper. Please don't dismiss my ideas!

Epsom residents, due to flooding and subsequent demolition, have vacant land and are requesting the construction of a large indoor event space to address the issue of our small

event venue. Following the council's advice, we are preparing to accommodate more local residents for our events.

Most of the areas are suitable for development, environmental living conditions, and housing.

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Emergency preparedness and recovery support, including supporting the Community Emergency Hub Network.,Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.,Public spaces that feel safe.

3. What would encourage you to visit your local town centres more often?

Free events are held in local parks, libraries, and public spaces.

It would be even better if tree-planting and litter-cleaning activities were organized more frequently.

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving walking paths and footpaths., Making the most of the City Rail Link (CRL) for our community., Better public transport (buses and trains).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

Environmental safety is very important, such as the violent crimes committed on buses. Personal safety while walking is also crucial. Hearing about these incidents makes me afraid to walk alone (especially between 4 pm and 7 pm, and I'm even more afraid to go out at night). There are too few exercise equipment in parks, and some are not even available; these could be improved by adding equipment suitable for adults.

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

1. Safety issues: a) Safety on buses - no risk of attack or injury; b) Safety while walking on the street - no risk of robbery or assault; c) Safety while shopping - no risk of robbery.
2. Parking management: Some apartment buildings lack parking spaces, occupying roadside spots, making driving inconvenient and affecting traffic flow.
3. The yellow buses operated by the bus company are largely ineffective and even redundant, as other bus numbers have good connections.
4. Unplanned construction in our area is unacceptable. It completely destroys our European and American architectural style, making the city look like a strange, disjointed mess. This must be resolutely corrected.

There are comments in the plan to maintain the historical parts of our community and environmental green spaces. How does this vision impact on Carrington buildings left to rot even though developers are in breach of their contract with council and secondly the sanctuary gardens about to be turned into concrete. Makes me think these comments sound good but in reality aren't really desired

**2. Which of these do you believe our diverse community needs most?

Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.,Public spaces that feel safe.,Maintain and improve local parks and sport fields, to better meet community needs.

3. What would encourage you to visit your local town centres more often?

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Better public transport (buses and trains).,Better parking management (e.g. time limits, or paid parking to improve availability).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

It's all about the doing. Council needs vision on how grandiose plans actually impact communities. High rise builds with no car parks. Removing community green space (community gardens), washing hands of historical buildings (carrington). These are community assets just being destroyed

Large events, shopping, dining out

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Better public transport (buses and trains).,Other, please specify:Road signs that fall off should be replaced promptly. The No Exit sign on the road in front of my house has been missing for years and hasn't been replaced, causing many vehicles to frequently backtrack.

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

Food waste recycling (once a week) is an excellent environmental measure, but many households do not participate. Education should be provided in schools to encourage primary and secondary school students to participate.

Trees along streets should be trimmed regularly to maintain a beautiful community environment, and fallen leaves should be promptly swept up to keep roads clean. Public housing should be disposed of promptly to avoid waste!

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

Suggestions are as follows: 1. In the central district, many terrace houses have cars occupying public parking spaces. 2. There are too many homeless people nowadays, mainly because rent is too expensive. It is hoped that the government will not over-regulate; there should be

reasonable rents and expensive rents, to be decided between landlords and tenants, without too many regulations. In particular, many tenants don't use heat pumps, wasting everyone's money. 3. Property taxes are getting more and more expensive, but many public spaces have not been improved. The lawns along the roads are not mowed; the roads are unmaintained and uneven.

Local Board: Albert-Eden

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support most

Tell us why?

The draft local board plan provides a generally comprehensive and well-targeted programme of key strategies and focus areas. It has our support. We do think one area in particular needs a stronger focus – and that is the development of the civic space in the Mt Albert town centre. Please see our further comments on this below.

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Free activities and events in local parks, libraries, and public spaces.,Public spaces that feel safe.,Other, please specify:Thriving town centres that are attractive to visit, to hang out in, and to spend money in.

3. What would encourage you to visit your local town centres more often?

The Mt Albert village shops / town centre has, in some ways, become a little run down in recent years. The new Mt Albert Business Association believes the area has so much more potential, and is committed to supporting and working with the Local Board, businesses, and the community to truly realise Mt Albert's potential.

This will require the town centre to offer more than it currently does. It needs to feel safer, parking options need a review, new businesses need to be attracted to the area, and a true town centre hub needs to be physically built. We outline further feedback on this below.

4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important? (Select up to 3 options)

Making the most of the City Rail Link (CRL) for our community., Better parking management (e.g. time limits, or paid parking to improve availability).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

The Council-leased space at 915 New North Rd has long been signalled as the place for a civic space for Mt Albert town centre. We strongly support the realisation of this vision, within this local board plan period. We do not think the draft local board plan, however, addresses this opportunity with the urgency it requires. Currently, the draft three-year plan (in the Built Environment section) only proposes to “investigate the development of a civic space in the Mt Albert town centre to create a vibrant heart and strong connection to the Mt Albert train station”. We think this needs to go further. Within three years, we would expect planning and early delivery is achievable, and we are here to support this and work with Council on this. We therefore request the wording of this statement is amended to go further than simply “investigate”.

We think faster work than proposed is required for the following reasons:

- This land is a ground-lease arrangement, therefore certainty is required in the near future in order for further commitment to the lease.
- The CRL opens this year, and currently there is no step-free access from the station directly into the village. This is a significant missed opportunity and a risk, and we think it should be addressed as soon as possible. This is especially important given the nature of the proposed rail overbridge works as part of the Carrington Rd project.
- The private carpark arrangement in place now is not ideal use for what is essentially a public space. While we support this interim revenue for Council, this should only continue on an interim basis. This is “prime” Council space and needs to be made available for the community at the earliest opportunity.
- All other town centres in Albert-Eden have some form of civic space – Mt Albert is an outlier and we advocate for this to be addressed.

We also make the following comments about what the space could be.

- We think the design needs to be “re-baselined” from earlier concepts, given the changes in the community and the area, since the last concept design was developed. We are available

to support concept development, and have ideas about how the community can get involved in this. There are people in Mt Albert who have the skills and interests to support the design development.

- The space doesn't necessarily have to be a high-cost investment. There are simple, tactical changes that could be implemented to "open up" the space and create a vibrant, accessible hub.
- For example, a hybrid approach could be implemented where markets or other community activities use the space at designated times. Other tactical changes could be a play area, planter boxes, mural art, lighting, and addressing some of the issues with the adjacent toilet. Simple changes, if developed with the community and expert placemaking input, could be game-changing and cost effective.
- A ramp from the station could be implemented, somewhat independent of the design of the space.

As part of this work, we also think there needs to be a commitment to extending the ground lease, in order for the civic space opportunity not to be missed.

As above, the Mt Albert Business Association requests to be involved in the investigation and design of this space, to ensure outcomes of safety, vibrancy, foot traffic, accessibility, and ultimately economic development in the village are realised. Our community has some great ideas and we'd like to work with Council and the Local Board to progress this important opportunity, specifically as part of this three-year plan local board plan.

In summary, we request the statement in the draft plan about the Mt Albert civic space is amended to go further than simply "investigate", and instead for it to provide a stronger impetus towards design and delivery, including tactical improvements.

The Mt Albert village shops / town centre has, in some ways, become a little run down in recent years. The new Mt Albert Business Association believes the area has so much more potential, and is committed to supporting and working with the Local Board, businesses, and the community to truly realise Mt Albert's potential.

This will require the town centre to offer more than it currently does. It needs to feel safer, parking options need a review, new businesses need to be attracted to the area, and a true town centre hub needs to be physically built. We outline further feedback on this below.

4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important? (Select up to 3 options)

Making the most of the City Rail Link (CRL) for our community., Better parking management (e.g. time limits, or paid parking to improve availability).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

The Council-leased space at 915 New North Rd has long been signalled as the place for a civic space for Mt Albert town centre. We strongly support the realisation of this vision, within this local board plan period. We do not think the draft local board plan, however, addresses this opportunity with the urgency it requires. Currently, the draft three-year plan (in the Built Environment section) only proposes to “investigate the development of a civic space in the Mt Albert town centre to create a vibrant heart and strong connection to the Mt Albert train station”. We think this needs to go further. Within three years, we would expect planning and early delivery is achievable, and we are here to support this and work with Council on this. We therefore request the wording of this statement is amended to go further than simply “investigate”.

We think faster work than proposed is required for the following reasons:

- This land is a ground-lease arrangement, therefore certainty is required in the near future in order for further commitment to the lease.
- The CRL opens this year, and currently there is no step-free access from the station directly into the village. This is a significant missed opportunity and a risk, and we think it should be addressed as soon as possible. This is especially important given the nature of the proposed rail overbridge works as part of the Carrington Rd project.
- The private carpark arrangement in place now is not ideal use for what is essentially a public space. While we support this interim revenue for Council, this should only continue on an interim basis. This is “prime” Council space and needs to be made available for the community at the earliest opportunity.
- All other town centres in Albert-Eden have some form of civic space – Mt Albert is an outlier and we advocate for this to be addressed.

We also make the following comments about what the space could be.

- We think the design needs to be “re-baselined” from earlier concepts, given the changes in the community and the area, since the last concept design was developed. We are available

to support concept development, and have ideas about how the community can get involved in this. There are people in Mt Albert who have the skills and interests to support the design development.

- The space doesn't necessarily have to be a high-cost investment. There are simple, tactical changes that could be implemented to "open up" the space and create a vibrant, accessible hub.
- For example, a hybrid approach could be implemented where markets or other community activities use the space at designated times. Other tactical changes could be a play area, planter boxes, mural art, lighting, and addressing some of the issues with the adjacent toilet. Simple changes, if developed with the community and expert placemaking input, could be game-changing and cost effective.
- A ramp from the station could be implemented, somewhat independent of the design of the space.

As part of this work, we also think there needs to be a commitment to extending the ground lease, in order for the civic space opportunity not to be missed.

As above, the Mt Albert Business Association requests to be involved in the investigation and design of this space, to ensure outcomes of safety, vibrancy, foot traffic, accessibility, and ultimately economic development in the village are realised. Our community has some great ideas and we'd like to work with Council and the Local Board to progress this important opportunity, specifically as part of this three-year plan local board plan.

In summary, we request the statement in the draft plan about the Mt Albert civic space is amended to go further than simply "investigate", and instead for it to provide a stronger impetus towards design and delivery, including tactical improvements.

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support most

Tell us why?

The draft local board plan provides a generally comprehensive and well-targeted programme of key strategies and focus areas. It has our support. We do think one area in particular needs a stronger focus – and that is the development of the civic space in the Mt Albert town centre. Please see our further comments on this below.

2. Which of these do you believe our diverse community needs most? (Select up to 3 options)

Free activities and events in local parks, libraries, and public spaces.,Public spaces that feel safe.,Other, please specify:Thriving town centres that are attractive to visit, to hang out in, and to spend money in.

3. What would encourage you to visit your local town centres more often?

The Mt Albert village shops / town centre has, in some ways, become a little run down in recent years. The new Mt Albert Business Association believes the area has so much more potential, and is committed to supporting and working with the Local Board, businesses, and the community to truly realise Mt Albert's potential.

Looks like covering most important aspect of our daily life.

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Free activities and events in local parks, libraries, and public spaces.,Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.,Maintain and improve local parks and sport fields, to better meet community needs.

3. What would encourage you to visit your local town centres more often?

1. Provide more free parking spaces.
2. Increase the availability of venues for Chinese community activities.
3. Improve communication about community events.

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Looking at speed limits to ensure they are safe.,Better public transport (buses and trains).,Other, please specify:Changes to the Yellow Bus (OuterLink) route have caused inconvenience for people travelling to and from the Mt Eden and Mt Albert areas.

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

The change from building houses to multi-level developments has caused an increase in population density, resulting in more cars parking on streets and roads. This has created more parking issues and increased traffic congestion. Improvements should be made to address these problems.

I don't know

Tell us why?

- 2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Public spaces that feel safe.,Maintain and improve local parks and sport fields, to better meet community needs.

- 3. What would encourage you to visit your local town centres more often?**

Point Chev village centre is run down and unappealing. It could become a vibrant village scene with a restored Carrington building at the heart of it- like Mt Eden village. Unruly behaviour and crime repels locals from shopping there.

- 4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Making the most of the City Rail Link (CRL) for our community.,Other, please specify:Those of us living on the peninsula have no option but to drive most of the time. Thus should not be restricted due to lack of alternatives. The 101 bus into the CBD/ uni should run throughout the day.

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

Please do more to preserve the heritage Carrington hospital building. It's demolition by neglect is scandalous. In the UK and Europe this building would be restored for adaptive reuse as exclusive apartments. This would suit the "wings" it yhe central part used as library, community centre etc.

Tell us why?

It is very relevant to today's society. These are all areas that I interact with on a daily basis and would directly see the impact of improvements to these areas.

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Emergency preparedness and recovery support, including supporting the Community Emergency Hub Network.,Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.,Public spaces that feel safe.

3. What would encourage you to visit your local town centres more often?

New events, local businesses that engage with their communities.

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving walking paths and footpaths.,Improving the cycling network.,Better public transport (buses and trains).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support all

Tell us why?

The priorities seem to cover most things I find important.

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Free activities and events in local parks, libraries, and public spaces.,Public spaces that feel safe.,Maintain and improve local parks and sport fields, to better meet community needs.

3. What would encourage you to visit your local town centres more often?

Safer streets for walking and cycling, more places to park my bike, and more street trees, native planting, benches etc. A lot of our local centres have too space for traffic and parking, and not enough for people who want to walk past the shops and spend time and money.

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving walking paths and footpaths.,Improving the cycling network.,Better public transport (buses and trains).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

Intensification areas need more parking enforcement. Parking restrictions mean nothing if there is no consequences to people parking all over the show.

It would be really nice if the Chamberlain golf course could become open space that I could walk and cycle through.

Your feedback:

- 1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?**

Do not support most

Tell us why?

Wasting my hard earned money on non core council business

- 2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Environmental and climate action projects to get involved in, e.g. planting, pest control.,Public spaces that feel safe.,Maintain and improve local parks and sport fields, to better meet community needs.

- 3. What would encourage you to visit your local town centres more often?**

Nothing until all the homeless and drunks and mentally unwell are removed from these centres. They are not safe and are filthy and desperate need to be cleaned up and made safe

- 4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving walking paths and footpaths.,Better public transport (buses and trains).

- 5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?**

Please just stop asking me for more money to spend on wishful and vanity projects just so you can say you have ticked all the boxes to say we are a great town.

Please remove any electrical transfers off pavements. I am tired of been hit and nearly hit by electric bikes and scooters.

Please penalise bike riders who use pavements when cycle lanes available.

Please stop over over engineering everything u touch.

And finally why are electric bikes not charged for using cycleways? I suggest a one off fee be charged at time of purchase which goes to council towards maintaining cycleways.

And finally stop spending my money on non core projects which u think I want

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

With 260 apartments coming in Morningside next year, and the area slated for further upzoning, it would be great to see some of the Morningside streets made safer, particularly around McDonald St, Altham Ave, Taylors Rd.

Morningside has the potential to naturally evolve into another one of our great community/local centres off the backbone of the Morningside station.

A couple of car parks can never provide the same value as a safe vibrant and welcoming environment.

Also make Cabbage Tree Swamp Drive a dead-end to stop the insane amount of rat-running (sometimes at high speed) right past a playground and sports fields.

Please investigate and proceed with reducing as many streets as you can to 40km/h where possible (the lowest you can probably go due to the ideological restrictions of the Setting of Speed Limit Rule 2024).

I am really glad to see the Carrington Road improvements take shape. This creates much safer connections between Mt Albert and Pt Chev. It would be great if the AELB could advocate for this to continue westwards along Mt Albert Road towards Sandringham,

I very much support upzoning, but I would recommend that the A-E Local Board steps in where possible to ensure that we do not lose too many urban trees, especially on private property.

I understand there are a spate of Auckland Council owned flood damaged properties following 2023 floods, it would be great if AELB could take over them/advocate for and plant them with native bush/trees to improve water soakage and biodiversity in our area.

Well thought out, and the wide range of issues of concern to me are covered. I agree with the priorities identified in the plan. I can see no omissions.

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Free activities and events in local parks, libraries, and public spaces.,Environmental and climate action projects to get involved in, e.g. planting, pest control.,Public spaces that feel safe.

3. What would encourage you to visit your local town centres more often?

We live in Pt Chevalier and the town centre is in urgent need of total redevelopment. There are many community groups and clubs in Pt Chevalier, but it is not easy to get information about them and their activities. A better town centre with a full sized library and integrated community hub could centralise and revitalise the area. People new to the area, or even long term current residents in need of more community connection would have a place to find out more information and feel part of our community. Pt Chevalier has in the past had a strong identity and an effective use of the town centre area could achieve this.

- 4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important? (Select up to 3 options)**

Improving walking paths and footpaths.,Improving the cycling network.,Better public transport (buses and trains).

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support most

Tell us why?

The state of the former Carrington Hospital desperately needs to be addressed. The status quo is unacceptable and a blight on our built environment. As a neighbour to this building, the anti-social and behaviour and eye sore it has become should no longer be ignored. I'd really like to see this viewed as part of the wider Point Chev town centre upgrade. SH16 is an unfortunate physical barrier, but as the carrington residential development progresses, this area should be viewed as cohesive lot, irrespective of the boundary created by the motorway.

The only priority I disagree with is under built environment advocacy Planning rules to protect historic heritage, special character Special character overlays should not be coflated with heritage. These special character overlays have contributed to a sprawling and more expensive Auckland, pushing intensification away from desribale areas with capacity in the infurstructure to service them, and into productive farmland on the outskirts of the region. Our built heritage is absoltuley worth protecting, but special character overlays do not always represent built heritage that is worth preserving, certainly not at the cost of making the city more expensive and less accesible.

2. Which of these do you believe our diverse community needs most? (Select up to 3 options)

Environmental and climate action projects to get involved in, e.g. planting, pest control.,Public spaces that feel safe.,Maintain and improve local parks and sport fields, to better meet community needs.

3. What would encourage you to visit your local town centres more often?

A safe and vibrant centre that has 'nice to haves', like public art, civics spaces (think TK Square in the CBD), and places that communities can come together.

4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important? (Select up to 3 options)

Looking at speed limits to ensure they are safe.,Improving the cycling network.,Other, please specify:Looking at speed limits isn't enough, I expect the board to be advocating to reverse Simeon Browns blanket speed increases and restore safe speeds to our neighbourhoods. Our minor roads should be limited to 30 km/h so that walking and cycling is safe, without having to spend on additional infrastructure (separators).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

With the upcoming transport reforms, there is an opportunity to push back on some of the car-centric and unsafe transport policies Wellington has been imposing on our country. I'd really like to see the board take the opportunity to reset our ideology on transport and really focus in on using roads as a mechanism to transport more people safely, be more accessible, and with less carbon. This means safe speeds, raised safety platforms at crossing for vulnerable pedestrians, using the infrastructure and space we already have better, like reallocating street parking to bus lanes or cycle lanes. 30 km/h speeds should be re-introduced on all minor roads and outside schools. Roads are not exclusively for cars, they should be for moving people across a whole range of modes. The level crossing removal programme gives an opportunity to introduce low traffic neighbours by directing traffic across existing separated crossings. I would rather the hundreds of millions that may be spent on maintaining road access across the rail corridor be spent on upgrading station forecourts and increasing the walking catchments to make non-car travel easier.

most directions are good to have - albeit many of them may still fall short of being achieved due to financial or people/volunteer restraints

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Free activities and events in local parks, libraries, and public spaces.,Environmental and climate action projects to get involved in, e.g. planting, pest control.,Support local groups and volunteers build skills and continue to do their work in our communities.

3. What would encourage you to visit your local town centres more often?

more diversity in the offerings, eg Sandringham is dominated by one company owning around 13 previous businesses;

more events in our local park, must not be expensive or big events but rather many small opportunities

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving walking paths and footpaths., Looking at speed limits to ensure they are safe., Improving the cycling network.

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

Make the most of land purchased in the flood buy-out by turning any suitable sites into new parks. There's only mentioning of parks but given the significant loss of a major community garden (Mahi Whenua) and another significant garden challenged (Dignan Garden by AWC)

Some of the properties should be made available for food forests (floods don't impact fruit hanging on trees) and community gardening (in raised beds if required). Soil life, mulching, specific crops and sun (solarisation) can deal extremely well with potential flood contamination, that's what nature does. So these condemned spaces that cannot be built on again could provide alternative safe growing spaces in the middle of the neighbourhoods they are located in. It just needs to be more open to the wider local community and not only if you live near to one you know and can suggest a plan - because the chances that immediate neighbours are able to pull something off is not a given. So all condemned properties should be looked at not only by council but also by experienced gardener and environmentalists and shortlisted as potential for food forest, community orchards etc.

Local Board: Albert-Eden

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support all

Tell us why?

These are all good priorities, and I think we need full focus on climate change resilience, better alternative transport options and more liveable city centres that are inviting spaces for communities and the people living in the areas.

Create more outdoor pedestrian malls in the village centres with green spaces (trees/landscaping) that invite people to linger, shop, eat and drink, and allow Hospitality businesses to have outdoor seating.

2. Which of these do you believe our diverse community needs most? (Select up to 3 options)

Free activities and events in local parks, libraries, and public spaces.,Public spaces that feel safe.,Other, please specify:More cycling/walking paths that are safe and complete the missing links in the network.

3. What would encourage you to visit your local town centres more often?

For me, a town centre needs to be easily accessible on foot or bike, and other alternative modes of transport.

A thriving hub that attracts people needs lots of green spaces/landscaping for shade and general wellbeing, water features, no through traffic by motorised vehicles, spaces that feel safe for people and are inviting to spend time, linger, shop, eat and drink.

Most of our suburban town centres feel unloved, neglected, sad, and not inviting. I do think we need to adapt overseas models of pedestrian mall that, allow hospitality businesses to utilise outdoor areas for seating.

We need to plant more trees, install sculptures and water features, create inviting spaces where people want to spend time and don't have to worry about being run over by a car and breath in exhaust fumes.

Well designed spaces will get looked after by people as they take ownership and are proud of their local area.

The connecting roads could do with some love and attention as well. Take Great North Road from Western Springs to Point Chevalier. It could be so much more and a much nicer space to be if we were to green the berms, plant more trees, add a properly designed cycle lane and footpath that connects the two areas.

4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important? (Select up to 3 options)

Improving walking paths and footpaths.,Improving the cycling network.,Other, please specify:Revisit light rail options and rail connections from the CBD to Kumeu.

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

I think the priorities and ideas are there.

Revitalise and make our city centres more inviting.

Create better and nicer spaces with a focus on people, not cars.

Improve climate change resilience by greening our streets and open spaces, and clean up our waterways.

Focus on alternative modes of transport, complete the missing links in the cycleway network (Great North Road, St Lukes, etc).

Lower speed limits in residential side streets.

Ensure building intensification has the Infrastructure to support the growing number of residents (public green spaces, shops, schools, public transport, 3 waters, rubbish, etc).

Your feedback:

1. **Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?**

Support most

Tell us why?

2. **Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Public spaces that feel safe.

3. **What would encourage you to visit your local town centres more often?**

I live in Pt Chevalier. The town centre feels like being in a rough city and I don't feel safe. I stopped using Woolworths some time ago and avoid the shops if at all possible due to the people hanging out. Driving through NZ we often comment how much nicer towns are compared to Pt Chevalier. The town shop feels has become shabby and unsafe - and the mall is like going into an underground subway

4. **Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Better public transport (buses and trains).,Other, please specify:I use an ebike but am constantly amazed going into work that a bus lane wasn't installed in Meola Rd as I ride past massive queues in the morning. There seems to be a huge disconnect between nice ideas and

the reality of what is needed. Most people cannot bike so getting into town needs better public transport. If you live on north end of Meola rd access to public transport is not good

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

Pt Chevalier township is an eyesore and a blight on the area. It's unbelievable that Kaianga Ora built a massive complex in such a key site for the town, losing a golden opportunity. Planning needs to be more realistic. If the same planning and inclusiveness for disadvantaged people continues - particularly with the Carrington development - Pt Chevalier township will continue to become more and more unsafe. Sometimes homeless people set up outside the library with animal cages and mini tents - walking past large congregations with the locked entrance to Woolworths and then the mall feels unsafe in the mornings (on the occasions I catch the bus into town)

I support that those who are homeless need support so I'm not saying to ignore them.

However, when I encounter 3 situations in a 20 minute period of Woolworths staff intervening on attempted thefts, my husband assists a friend and a security guard hold someone down in Woolworths while police come for the assault & those hanging out are clearly under the influence or have mental health issues, the balance is not where it needs to be for a safe Pt Chevalier township.

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support all

Tell us why?

Focus on equitable outcomes as face the big changes with lack of ability to afford housing and systematic climate changes

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Environmental and climate action projects to get involved in, e.g. planting, pest control.,Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.,Public spaces that feel safe.

3. What would encourage you to visit your local town centres more often?

More people living in town centres contributing to vibrancy and vitality and safety by having more eyes on the street and people to support businesses and local economy.

A new library and community centre in Pt Chev

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving walking paths and footpaths.,Improving the cycling network.,Making the most of the City Rail Link (CRL) for our community.

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

Need to actively consider interface with western springs lake as the other side of Meola Creek. the board boundaries are artificial construct lines.

Support pt chev town centre concept especially with change coming with northern busway.

Protect existing green spaces in urban areas from development. ie pt chev bowling club. advocate for community outcomes and maintain social character.

Consider longer term and provide ability for choice and younger people to remain in community through diversity of housing types, so they don't leave to cities that provide better options (Australia).

Maintain access to beaches and waterways - support water sports, and aquatic facilities for the future, make the most of central interceptor.

Plan now for increase in head days by planting trees on road corridors that will in 50 years provide shade and lower temperatures in urban areas.

Support development in transport corridors over maintaining character.

Support the plan changed 120 that provides for more development over less.

Take over an empty shop window and show the future of Pt Chev so that more people interact with shaping the future of Pt Chev.

Consider a 3d model so people can see the changes proposed and so will reach more people.

Free activities and events in local parks, libraries, and public spaces.,Environmental and climate action projects to get involved in, e.g. planting, pest control.,Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.

3. What would encourage you to visit your local town centres more often?

Community events and local hubs

Better pedestrian, cyclist, and public transport options

The deprioritisation of cars

more green spaces and a focus on retaining the native greenery we have

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving walking paths and footpaths.,Improving the cycling network.,Better public transport (buses and trains).

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

I would like to see the cycle paths better maintained and safety improved. St Lukes Rd cycle lanes don't seem to get cleared of leaves leading to it being slippery and unsafe. cars don't give way to cyclists when they turn in front of stop and give way signs.

The speed limit is too high in many streets. I'd like to see more native restoration happening in local parks and community engagement. I'd also like to see more community gardens.

Improving walking paths and footpaths.,Better public transport (buses and trains).,Better parking management (e.g. time limits, or paid parking to improve availability).

- 5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?**

One thing that would really support many of the key initiatives described in the community section (ie. Support people of all ages to come together in community hubs and provide free activities in our council spaces.) is an easy way for the public to find out what is on at their local community centre, for example a timetable of all the public facing activities that are offered. I feel this is a real pain point for most Auckland Council community centres, as it is currently difficult for the community to join in on lower cost activities and offerings because they have no way of finding out about them.

I strongly support the initiative to improve Chamberlain Park by adding a new local park and walking and cycling paths.

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support all

Tell us why?

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Free activities and events in local parks, libraries, and public spaces.,Environmental and climate action projects to get involved in, e.g. planting, pest control.,Other, please specify:Density done well, with community engagement and appropriate planning rules to support this. In addition to the 2 ticked options, all the options listed above would help density be done well.

3. What would encourage you to visit your local town centres more often?

A good variety of independent small local businesses (from bookshops to groceries, repair services to cafes etc), possibly with an online directory (similar to thelocavore.com for NYC or neatplaces.co.nz). Restored/adapted heritage buildings (commercial and residential) to provide variety/character in mixed use zones.

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Improving the cycling network., Making the most of the City Rail Link (CRL) for our community., Other, please specify: Bus services that are frequent, reliable, safe, and well-connected across Auckland, including off-peak. Train level crossings to be addressed as a priority for safety and greater train frequency; bridges preferred instead of underpasses for pedestrians/cyclists. Cycling links for New North Rd (including through Kingsland), Balmoral Rd.

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

1. Built Environment and Economic Development sections: request that these sections address the precinct strategy for Maungawhau-Kingsland-Morningside (referred to in the Auckland Deal) and the importance of early community and mana whenua engagement to ensure density is done well in the walkable catchments.

2. Natural Environment section: this section could explain more about the EcoNeighbourhoods and climate action hubs (e.g. can they help residents electrify their homes). Suggest that the Waiorea Community Recycling Centre look at accepting textiles for recycling (in addition to resale).

Local Board: Albert-Eden

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support most

Tell us why?

i think work to make Eden Albert more resilient to climate change is important and specifically as roads are overland flowpaths so make street upgrades more resilient to climate change - yes accommodate more extreme weather and manage stormwater better but provide shade but plant species of street trees that do not shed leaves to clog up the stormwater network or more frequent cleaning of the road catchpits ; Make the most of land purchased in the flood buy-out as new parks that act as stormwater retention areas

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Emergency preparedness and recovery support, including supporting the Community Emergency Hub Network., Maintain and improve local parks and sport fields, to better meet community needs.

3. What would encourage you to visit your local town centres more often?

I love the vibrancy and activity at Sandringham shops but do not like to see rubbish lying on the ground in the centre and adjacent roads where cars park- more rubbish bins around the food trucks or a higher frequency of street cleaning

- 4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important? (Select up to 3 options)**

Looking at speed limits to ensure they are safe.

- 5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?**

the Plan notes that the Board will advocate for planning rules which reduce the risk to communities from natural hazards, but rules are also only as good as their drafting and implementation - many multi-unit dwellings are built on top of layers of compacted metal as this eases all weather access for construction but that prevents or significantly retards the soakage of water into the ground - meaning that adjacent sites collect the overland flow

I am very unhappy with public transport options

2. **Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Free activities and events in local parks, libraries, and public spaces.,Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.,Public spaces that feel safe.

3. **What would encourage you to visit your local town centres more often?**

Not sure where my town centre is? Newmarket? Downtown?

4. **Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Better public transport (buses and trains).

5. **Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?**

Firstly, as an Epsom resident, I don't feel connection with Mt Albert and/or Mount Eden. My key concern is public transport. As an elderly person with mild mobility issues I don't like having to catch two buses to get almost anywhere I want to go. As someone who lives only 7km from Downtown (the transport hub???) I shouldn't have to catch two buses. AT removed the 007 bus despite public protest, then took away our section of the City Link. WHY?? Can't imagine how I will ever use the new CRL link as I don't and in my 67 years in Auckland, have never lived near a railway station. I don't like having to wander around unfamiliar areas at night looking for bus stops - especially in the Downtown and University areas

Your feedback:

1. Overall, how much do you support the priorities in the draft Albert-Eden Local Board Plan 2026?

Support most

Tell us why?

I think it's the right balance of improving what we already have alongside focusing on the development of future resources

**2. Which of these do you believe our diverse community needs most?
(Select up to 3 options)**

Ensure groups such as children, older people, and migrant communities can participate and connect within our communities.,Public spaces that feel safe.,Other, please specify:More publicly open tennis courts

3. What would encourage you to visit your local town centres more often?

Less traffic congestion around the areas - ie. greenwood corner/mt eden road. Both are very busy and hard to find good parking at time.

**4. Decision making for transport is changing. Local boards will decide on some things and advocate for others. Which of the following transport issues are most important?
(Select up to 3 options)**

Looking at speed limits to ensure they are safe.,Making the most of the City Rail Link (CRL) for our community.,Other, please specify:Roads are quite congested - i take the bus but

sometimes on days where there's a quick turnaround after work it is often quicker for me to drive which feels the opposite of how it should be

5. Do you have any other feedback on the draft Albert-Eden Local Board Plan 2026?

I think it's a well written and thought out plan that focuses on the things I believe most of the community care about - especially the focus on flood prone land and the impacts of the previous floods. Tautoko the focus on the natural environment - one of my favourite things about this area is the greenery/trees and canopy cover throughout the residential streets.
