## **Your feedback**

### **What is your connection to Western Springs Stadium? (tick one or all that apply)**

I live in the area (Waitematā or Albert-Eden local board)

### **There are three options to consider**

#### **Which option do you prefer? Select one option only.**

Option 3B: Neither Option 1 or Option 2 - explore other ideas

### **Tell us why you made your choice.**

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I'm personally not into Speedway but believe Speedway should stay at Western Springs and more concerts should be held here within the stadium and the outer fields

Find other uses for the stadium. More concerts, more public events, more sports. Rip down Waikaraka Park as it's old and needs a bulldozer

An outdoor concert space maintaining the green feel of western springs would be fantastic. A community vibe that everyone can benefit from. I live almost opposite western springs and the speedway was awful to live near and also encouraged 'boy racers' in the area.

I would like to see Auckland FC have a place to call home and love the idea of private funding when we are so stretched financially. It seems like the obvious choice.

The noise and air pollution from speedway is terrible. It is not a good use of the space being so limited to how often they can make noise. A hub for western springs and grey Lynn would rival ponsonby and there is enough money in the area for option one to really take off. It will level up the area instead of dragging it down with petrol heads and drunks going to Speedway. It will create a space for many different people to enjoy and a heart for the area. Not to mention the infrastructure improvement and positive economic impact. I would rather hear a crowd or be able to go play some indoor sport or visit a surrounding hospitality than breathe in fumes from

screaming cars. It sounds like \*\*\*\*\* on earth. Option one is best for everyone and will really level up the neighbourhood

This is the wrong location for a large-scale venue, as there is poor public transport infrastructure.

It should not be given to private interests either. Keep it in public hands.

Turn it into a test cricket ground, shared with Ponsonby Rugby Club.

Great opportunity for the community to use Western Spring Stadium more efficiently. A small rectangular stadium is just what inner auckland needs, really like the idea of all the additional indoor areas for the community to also use

I choose option because I believe it's the best option for the local area and the city as a whole.

Football and basketball are the biggest and fastest growing sports in Auckland especially in the inner city.

The boost to the economy in the local area to bars and restaurants would be amazing. The chance to have a purpose built football stadium funded by private investment is a once in a lifetime chance for the Auckland council, the city is already saddled with enough multipurpose stadiums

that don't really work for any sport. I think it would be a huge mis-step not to choose the option funded privately at barely any cost to the rate payer, organized by people with a track record of building, developing and maintaining professional sports arenas.

Option 1 also has the ability to host concerts, and having a mid-sized outdoor venue would open the city up to many more touring acts. We already have Eden park and North Harbour Stadium for the larger concerts. Option 2 would also tie the venue into 1 promoter locking out competition, which seems against option 2 argument to be community focused.

Lastly for the youth of the area it would be amazing, easy access to live sport, live music, training facilities and public spaces. it's a no brainer.

It's a chance to future proof Auckland, be bold, take the chance and help make Auckland a place where people choose to settle and live rather the enviously looking at Sydney or Melbourne!

## Future use of Western Springs Stadium – Feedback Form

We want your feedback!

Feedback opens at midday on **19 May** and must be received **by 11.59pm on 15 June 2025**.

We strongly encourage you to read the consultation document before answering any of the following questions. It is also available at [akhaveyoursay.nz/western-springs-stadium](http://akhaveyoursay.nz/western-springs-stadium) or at the following libraries: Mt Albert, Pt Chevalier, Grey Lynn, Little Leys, Central City. Librarians can help you print any documents from the AK HaveYourSay site.

To help us understand who has an interest in the future of the venue, we encourage you to complete all parts of the form – however our priority is to understand your preferred option.

We encourage you to give feedback online, or you can:

**Scan and email your completed form to:**

- I don't have direct connection, but I am interested in how the space is used
- Other (please specify):

## **There are three options to consider**

### **Option 1 – Auckland Arena**

The proposal aims to turn Western Springs Stadium into a state-of-the-art, multi-purpose venue that combines sport, culture and entertainment. Anchored by a new 12,500-15,000-seat stadium and high-performance training facilities, the proposers say their design caters to the community (training fields, basketball and padel courts, hospitality concourse and access to the wider park precinct), has concert capability (25,000+ capacity), and will be a home ground for Auckland FC. The proposal is for TAU to retain ownership of the site and issue a 50-year lease with 2 x 25-year rights of renewal. All ongoing maintenance will be covered by the proposers and ownership of the built infrastructure will transfer to TAU once the lease ends.

Initial assessment by TAU suggests that private sector investment of \$200-\$300 million in the new stadium, along with full responsibility for operating and maintenance costs, could reduce the need for public funding by \$18.1 million over 50 years – compared to a scenario involving a 30-year lease to Ponsonby Rugby Club with two 10-year renewals and no clubroom upgrades.

### **Option 2 – Western Springs Bowl**

The proposal aims to enhance Western Springs Stadium as a premier entertainment venue, while maintaining its status as a renowned music and community sports facility. This would deliver a ‘Hollywood Bowl’ style live music concert and festival venue, with 50,000-person capacity and new permanent staging infrastructure. This would be an evolution of the existing natural amphitheatre and would also be complemented with updated concert infrastructure for Western Springs’ outer fields.

This proposal would see Ponsonby Rugby Club renew its current lease and explore options to expand its operations across other sports such as basketball, netball and touch. The installation of the new facilities would create an opportunity for a 5,000-8,000-seat boutique stadium, allowing the facility to deliver a broad range of community and semi-professional sport. The proposal is for TAU to retain ownership of the site and issue a lease for an initial term of 30 years, plus two rights of renewal lasting 10-years each (to total 50 years). It would be leased to the concert promoter from October to April, and to Ponsonby Rugby Club during the rugby season.

Initial assessment by TAU suggests that \$30 million in private sector investment for new concert facilities, combined with \$18-\$20 million in ratepayer funding for community clubrooms and continued stadium operation and maintenance by TAU, could result in an additional cost to ratepayers of \$48-\$107 million over 50 years – compared to a scenario involving a 30-year lease to Ponsonby Rugby Club with two 10-year renewals and no clubroom upgrades.

### **Option 3 – Neither option above: Keep things as they are, or Explore other ideas**

Under this option, TAU could continue to operate and manage the venue for concerts and festivals and could retain existing arrangements with Ponsonby Rugby Club, whose lease runs until 2027, or explore other uses for the venue not provided for under Options 1 and 2. The estimated cost to the ratepayer of the existing arrangement if the lease with Ponsonby Rugby Club was extended is \$31.1 million spread over a 50-year lease period.

When proposing new ideas, it is important to consider their funding sources. The current funding for Western Springs Stadium, as allocated through the council’s Long-term Plan, only maintains the stadium in its existing state and does not cover upgrades or service changes. Therefore, any new options requiring investment will need alternative funding sources.

**Which option do you prefer? Select one option only.**

- Option 1 – Auckland Arena
- Option 2 – Western Springs Bowl
- Option 3A – Neither Option 1 nor Option 2 - keep things as they are and retain current arrangements
- Option 3B - Neither Option 1 nor Option 2 - explore other ideas
- I do not have a preference

**Tell us why you made your choice.**

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I think option 1 is by far the best option. Football and basketball are the fastest growing sports in Auckland and suffer from lack of stadium options. Having Auckland FC as an inner city Auckland team would be amazing for the youth of the area especially with them being able to access facilities. The ability to host concerts is also a huge plus for the area. The local bars and restaurants would benefit hugely from the influx of people into the area.

Its also important for Auckland to keep moving forward, modernising and building a beautiful city with great facilities that encourage people to stay in the city.

The fact that this is largely going to be funded by private money is also an unbelievable bonus for the city. To miss this opportunity would be a huge fail by the council and a massive loss for the city

It is very important Council proceed with an option now. Western Springs is under utilised as a winter sports venue with a few hundred attending club rugby. Council MUST select an option that is not a burden on rate payers. The Auckland Arena option will make great use of this valuable site for multiple sports and also have associated benefits for MOTAT.

I choose option because I believe it's the best option for the local area and the city as a whole.

Football and basketball are the biggest and fastest growing sports in Auckland especially in the inner city.

The boost to the economy in the local area to bars and restaurants would be amazing. The chance to have a purpose built football stadium funded by private investment is a once in a lifetime chance for the Auckland council, the city is already saddled with enough multipurpose stadiums that don't really work for any sport. I think it would be a huge mis-step not to choose the option funded privately at barely any cost to the rate payer, organized by people with a track record of building, developing and maintaining professional sports arenas.

Option 1 also has the ability to host concerts, and having a mid-sized outdoor venue would open the city up to many more touring acts. We already have Eden park and North Harbour Stadium for the larger concerts. Option 2 would also tie the venue into 1 promoter locking out competition, which seems against option 2 argument to be community focused.

Lastly for the youth of the area it would be amazing, easy access to live sport, live music, training facilities and public spaces. it's a no brainer.

It's a chance to future proof Auckland, be bold, take the chance and help make Auckland a place where people choose to settle and live rather the enviously looking at Sydney or Melbourne!

## Your feedback

### What is your connection to Western Springs Stadium? (tick one or all that apply)

I attend events at the stadium or its sports fields, I don't have a direct connection, but I am interested in how the space is used

### There are three options to consider

#### Which option do you prefer? Select one option only.

Option 1: Auckland Arena

#### Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I choose option 1 because I believe it's the best option for the local area and the city as a whole.

The venue should remain in Council hands and use for sport and other community activities (Eg Pacifica) and concerts. Other options that include the above should be explored but must be kept in Council hands with short- medium term leases (10-30 years)

I live in Old Mill Road. It would be great to have this space kept as a concert venue at the very least. You can't live in Old Mill Rd and complain about the Speedway because it was there first but we're not unhappy that it might be moving. This is not related to the noise it's more to do with the track surface which was changed a few years ago.

After a meet, it coats everything in dust which then of course goes down into the storm water system - not ideal I would imagine.

Of course, they would need to fix the fence first :)

Anna Mowbary is trying to buy her way into community sport without understanding what it means and without participating herself. She is not interested in the community, she is only interested in making a profit while she is being lauded for her involvement. Both she and her brothers are known for their racist views having circulated them openly in the Herne Bay and St Mary's Bay community through out Covid. She is trying to buy her way into this community while ignoring the communities who live here, including the under privileged communities. Ponsonby Rugby Club is the oldest existing club in the country and any number of All Blacks have come from

this club including BJ Williams. My niece and nephew play at this club and I support them as players who have access to this history.

I strongly and unreservedly support retaining Speedway at Western Springs Stadium. The history and heritage for generations, the present, and the generations to come. However there needs to be wide and broad reaching consultation and thought into how this can be achieved. There are obviously financial reasons that the current situation is not

viable long-term, but in no way do I support or endorse moving the speedway elsewhere or any other action until all of this has been done in an open and transparent manner. Please, hear the people, respect the history, like you would other heritage sites in Auckland and the rest of the country.

I want Ponsonby Rugby club to stay at Western Springs. It is easily accessible to children, rugby players and spectators. There is absolutely no need to develop another sports stadium in Auckland. Western Springs has served exceptionally well for nearly 30 years as a rugby stadium. My family has had 3 generations of rugby players involved there.

There are too many smaller stadiums in Auckland that are not used fully. Natural habitat of birds and eels would be destroyed by Options 1 and 2. There was nothing wrong with speedway, and concerts. Some recent residents moaning about the noise. Why did they move into the area? At least concerts and speedway were over by 10.30pm. Whereas functions at the Auckland Arena could well go on until sunrise the next morning. Auckland Arena plans look like there will be destruction of natural habitat, as artist impressions include concreting into the lake.

Western Springs is a special, historic place which is great for the community. I don't want to see it locked up in private hands, I don't want to see it knocked down.

I believe the council is there to serve its community and the best way to do that is to keep facilities like Western Springs in public hands.

I have attended Pasifika and Ponsonby Rugby games my whole life. I've been to concerts and festivals at Western Springs Stadium and I'd love for that to continue for me and my children.

The Hollywood Bowl style atmosphere is unique and something we should preserve, not knock over.

The stadium that AFC is proposing doesn't have enough seats for the crowds they are attracting now - it doesn't make sense.

Traffic is bad enough as it is on a busy Saturday. As a local in the area, I hate to think how we'll get through to the motorway, in and out of the stadium, etc on AFC game days.

There are facilities at Go Media and North Harbour that are far better suited to AFC games.

## Your feedback

### What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board)

### There are three options to consider

#### Which option do you prefer? Select one option only.

Option 1: Auckland Arena

### Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Low cost the community and lower impact on traffic and local community with a 15 000 seat stadium instead of a 50 000 one.

No more sprint cars race is also a bonus, noise and dust is not enjoyable.

AFC have arrived and enriched Auckland in so many ways. It deserves a proper home whilst enabling other sports and events to be hosted in these proposed new facilities. Plus... Rates payers don't need to pay for it, simply enjoy it for what it will offer to our city. That's a huge plus! Time for the football to shine in this country!

Upfront costs provided by proposers, reduced public funding, a long term investment providing much needed facilities for up and coming sports - basketball, padel etc, with multiple magnets for additional community use. Would be even better if cricket could be played here as well, instead of Eden Park.

PLEASE do not bring back speedway - this is FAR better served at Waikaraka Park.

Speedway has been my culture for nearly 40 years.. sure it could be more utilized for other sports in other seasons of the year. But to clearly get rid of speedway because the council doesnt think it is financially viable is ridiculous. Sport recreation shouldnt be to profit.

Option 2 somewhat retains the status quo without the speedway. The local community can still have a stake in the Westernsprings environment with access to concerts, Pacifica etc. I would like to see cricket at Western Springs and feel the Option 2 team would consider this. I am really opposed to the Western Springs environment being corporatised and privatised. I am a long time Westmere resident.

the presence of music in a central location is needed. the Ponsonby Rugby Club are also an important part of the community. Football already has significant infrastructure in the area, basketball is not a well organised sport in the area, mostly playing pick up games. this is already in place at Grey Lynn Park, Victoria Park, the YMCA in the city. The council should consider the importance of sporting clubs in the community of Auckland, and not look to squeeze them out in favour of Soccer, which is already well funded and abundant with facilities.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Western springs speedway to be looked into for reinstatement to continue on the Auckland tradition where generations of Aucklanders have attended at witnessed history in the making and can do so again at Western Springs Stadium. It was originally built to suit it.

Its appalling that the continuation of speedway at the faciliy has not been given more support by the council or its entities. Enough doubt has been cast over the future that any commercial promotor has struggled to justify a business case for a long term investment. The council should respect the history of the venue and continue to support its use a world class facility for open wheel speedway events.

Option 1 represents the highest amount of investment in the city. Football is a growing spectacle and many smaller games of various codes could utilise a smaller stadium. I would suggest that a covered end (perhaps temporary as at Forsyth Barr in Dunedin if an open end is needed for stage construction) be added on the western side to improve acoustics for the club's active support.

A more community focussed facility is needed. Kids and people in our city need things to do and option 2 would better suit our community needs.

Ponsonby Rugby club has provided a huge service to thousands of local kids, teenagers and adults over many years and they continue to do so. The events run at Western Springs bring character, heart and soul to the area and Auckland. Event promoters and Ponsonby Rugby Club should not be forced to move along in order to make way for a poorly designed, inaccessible and privately run

facility for AFC, whom have no relation to the area whatsoever. Auckland has many largely unused stadiums that can be considered instead.

AFC fans will no doubt bring unwanted behaviour to the area.

I have attended the western springs speedway countless times in the last 50 years and love the vital energy it brings to the area. I am tired of the creeping banality that is infecting our inner city suburbs and hope that our council have the sense to retain this gem for the enjoyment of future generations.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I'm in my 40s and I've lived in Grey Lynn my whole life, having gone to school in Grey Lynn and Pt Chev, I've seen the stadium hold many festivals concerts and sporting events. But the communities surrounding Western Springs Stadium aren't big enough to operate or house an Arena. It comes down to space and community, Western Springs is perfect for grass roots sports, great facility to develop young sports stars and perfect size and location for concerts and festivals. An Arena would stick out like a sore thumb, create chaos in regards to road works and traffic around Pt Chev, Mt Albert, Morningside, Grey Lynn and Westmere and just to mention the motorway in terms of the Western Springs off and on ramps, an Arena would be out of place at Western Springs. Find a bigger more spacious place to build an arena, a place that could handle

that kind of traffic and number of people on a regular basis when in season, that has that kind of public transport, buses trains etc why not invest in North Harbour Stadium? That Stadium has the room, the space. Please keep Western Springs Stadium within the community and not sale out just for money because some billionaire wants to make more money bringing soccer to a place a home that's historically known for rugby. Let's create the sports bowl to further invest into our developing youth, youth that'd no doubt one day be great NZ sports stars, mentors, professionals feeding right back into the community that have helped them. This is about mana, about doing what's best for our people our community our children and the future of our community.

1. Auckland will be without water by 2040. The Western Springs Stadium must remain in the hands of Auckland Council to ensure emergency access to a credible water source remains in tact for the future survival of Waitemata local board residents. Similar water supply developments

must be considered for each of the 21 Local Board regions. 2. A 100 year lease to an organisation that has no credible evidence of business experience nor expertise in the sport, culture and/or entertainment sector is irresponsible. No lease agreement for any Council facility should exceed 15 years (total) due to potential natural resource infrastructural demand at any time in the future.

3. To continue exploring the need for future water source alternatives as a first priority for Aucklanders starting with the revitalisation of natural springs.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I am worried that option 1 will essentially privatise a publicly owned amenity for 100 years. As a private business, profit making will naturally be prioritised over ensuring public access. It is not clear what safeguards, if any, will be imposed to ensure that the costs of using the stadium and its facilities are not out of reach for average Aucklanders. I feel that option two is a good balance between winter sports (not-for-profit) and summer concerts, and takes advantage of the natural topography of the site, with broad appeal across the community. As a local, I am very worried about traffic management for option 1, which would likely see large crowds attending soccer

matches every second weekend in the season. There is only one road in, Stadium Rd. That section of Great North Rd already has traffic jams at peak times, and on Saturday mornings, including backing up the Bullock track and GNR to the Grey Lynn shops. Stadium road also adjoins the SH16 motorway on-ramp.

Go Smart Media stadium is not a great concert venue, Mt Eden is limited as to the number of concerts it can hold per year. Western Springs could be an amazing concert venue with the additional benefit of having festival space.

Finally, I am concerned that Ponsonby rugby club has no viable alternative grounds.

I think this is a fair option and supports existing clubs rather than an option that suits some people. With the loss of the speedway, history is at risk of being lost all together. Whilst an upgrade is needed a solution that meets all requirements is best and option 2 does this.

We need more sports facilities. Ponsonby rugby does a lot to teach our children values and gives our youth a chance to play rugby. Adding to this great culture with basketball and other sports will be fantastic for young people in the area.

I believe it's important to preserve the Ponsonby Rugby Club, as it plays a significant role in our local culture. This club has been part of the community for decades, and it would be a real shame to see that heritage lost.

Option Two also offers new facilities that would support the upkeep of the area. This would allow the Ponsonby Rugby Club to continue using the grounds in winter, while opening the space for concerts and other events in the summer.

Western springs has great history hosting concerts and music festivals. The community will benefit from having an upgraded sports club for upcoming youth and local sports players within the surrounding area in the following years to come, it will support the Ponsonby Rugby Club.

This option is easily the best for the community, it would be a sad day ousting one of New Zealand's oldest and most successful rugby clubs from their home with no where to go. This would destroy a community, there is more than cost and revenue generation, Ponsonby RFC is a community hub which many families from our community rely on. It will be a sad dark day for Auckland Council to side with any other decision is made hear!

I believe option two is the most beneficial option to the community, as it retains its importance in the community while also being upgraded which will increase community offerings and value to those who have been using it in this way for over thirty years.

I think it's in the ratepayers best interest for option two to be the one selected, as private investment in a community space is fraught with issues around accessibility, retaining community value and ensuring use for all, and maintaining the surrounding area.

Option 2: Western Springs Bowl

#### Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

It has to be option two, the rugby is a large, established and there is NO other suitable venue 4 them. Auckland is such a vast city, we don't need to cramp everything in, the football club can go else where. And Mt Smart perfectly suitable 4 them. Also the current set up works. Remember this location is residential & limited transport options - we can't all fight for a helipad!!

This is a well-used public space that is being hijacked by a commercial entity.

Why doesn't council let this happen at Mt Smart, more room and eliminate further stadium duplication across Auckland.

I support Option 2 as it appears to be a natural evolution of the venue's current use. a combination of live music, festivals, and community sport, which reflects what the community already enjoys and values. This option respects the character and legacy of Western Springs as an iconic outdoor entertainment venue, while still improving infrastructure and supporting local sports through a more modest boutique stadium.

I have concerns about Option 1: Auckland Arena, particularly the scale and intensity of activity it would bring to the area. The introduction of a professional football franchise as a regular tenant,

along with a 12,500–15,000-seat stadium used throughout the year, would significantly increase congestion, noise, and disruption in a neighbourhood that lacks adequate public transport infrastructure beyond Great North Road bus services. The area is already under pressure from traffic and limited parking, and the proposed scale of regular football games could negatively impact local residents' quality of life.

Furthermore, Option 1 proposes amenities such as basketball and padel courts – but these already exist in the wider community, and there does not appear to be high demand for more of them in this specific area. The community would be better served by upgrades that reflect actual usage patterns and needs.

While Option 1 may involve more private sector funding and reduce direct costs to ratepayers, the social and environmental cost of intensifying the site in this way should not be underestimated. A venue of that scale belongs in a better-connected part of the city, not a residential area with limited public transport links.

Option 2 strikes a better balance between enhancing the venue's capabilities and maintaining its community-friendly atmosphere. It modernises the infrastructure to support concerts and festivals, which already draw people to the area and supports grassroots and semi-professional sport without fundamentally changing the nature of the venue or its impact on the surrounding neighbourhood.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

There are numerous stadiums across the city already, all under-utilised. It does not make sense for the community or Auckland to effectively shut down access to the Western Springs park, which is a fantastic community field. For many in the area, to create another stadium which does not fully serve community needs.

If a wider vision for all of Auckland's stadiums was considered, and some rationalisation of these made sense then this would be something that Aucklanders could get behind. Unfortunately we

have three large and poorly utilised stadiums in Eden Park, North Shore and Mt Smart, and no long term plan for their efficient utilisation.

For a city with aspirations to be world class, we need a world class plan we can get behind which caters for rugby, cricket, football, concerts and community events and sports teams. Once we have that we should then be asked to consult on options, a piecemeal approach like this does not allow for informed views.

Rather than have another stadium built, make use of the ones we currently have? The waterfront stadium was denied because they wanted to look at Eden Park instead. Mt Smart is there as a premier rectangular-code sporting venue (and concert venue) where it's easily accessible, industrial enough so concerts can be done anytime, and has the second field for things like touch and netball and basketball. Make use of this and upgrade this! Why would we have our rectangular/code sports split across multiple venues? Moana Pasifika, Warriors and Auckland FC can all share a venue (look at Suncorp Stadium for a brilliant case study of how to do it right)

I support Option 2 because it delivers long-term cultural, economic, and community value. Western Springs is already an iconic music venue — upgrading it into a purpose-built 50,000-capacity Bowl secures Auckland's place on the global stage and drives local spending through events and tourism.

While it involves some public funding, the investment is strategic. It supports both concerts and community sport, expands access, and delivers broader returns than any single-use model. This is smart use of a unique site.

Option 2 brings the most benefit for the most people.

The significant enhancement of the stadium facilities will deliver better utilisation of the premises, and will allow it to be enjoyed by a far higher number of people than currently. You should consider conditions on the private developers to run a minimum number of events per year and cap on event pricing to ensure the facility remains accessible to a wide array of events and activities.

I am an Auckland FC member but would much rather stay at Mt Smart than move to an undersized stadium at Western Springs. I like the Bowl proposal and hope that Mt Smart can be improved to form a permanent home for Auckland FC and the Warriors with new north and south stands.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I do not support private investment and essentially privatisation of this public resource. I support retention of Ponsonby Rugby and provision of a permanent home for it - a community sports facility.

I also support using the natural amphitheater for concerts and using it for more concerts.

I do not consider that Option 1 saves significant enough money to warrant essentially private use of the public space. The way the consultation document frames it as a saving is disingenuous by not actually framing the costs. There will still be public costs.

If the stadium was used for more concerts it would surely be able to generate more revenue.

The Auckland Arena proposal is clearly the best with an optimal plan to see the site 7 days a week - whether that's across community sports, major events and importantly across weekdays/nights as a destination for businesses via office space, community through restaurants, gymnasiums and a mixture of community/business events. There is no other solution for this site that would transform this space from an occasional use space into a true daily multi-dimensional destination and precinct serving so much of pan Tamaki Makaurau and enhance tourism for the city. And with

all these benefits attached this plan does not have any rate payer financial burden attached to it.  
So let's get this city moving and get this plan approved.

I was annoyed that the speedway was removed and as a long living resident of Westmere since 1984 I would hate to see Ponsonby Rugby be relocated for a rich billionaires corporation that have no connection to the community at all. I stand by my option of choosing option 2.

I'm writing to express my deep concern regarding any plans for commercial development at Western Springs. For over 151 years, this space has been more than just a field—it has been the heart of the Ponsonby Rugby Club and a place of belonging for generations.

Western Springs is a breeding ground for future athletes and a safe haven where children learn, grow, and fall in love with sport. The memories made here, the friendships formed, and the sense of community built cannot be measured in dollars.

Sometimes, passion and belonging outweigh financial gain. Western Springs is one of those rare places where its true value lies in the people it brings together, not the profits it could generate.

Please consider preserving this historic and cherished space—not just for today, but for the generations yet to come.

option 2 retains option to have concerts and community festivals - a huge part of what Western Springs was and is all about. Some of the best concerts in NZ history were held at WS including David Bowie, Guns n Roses, Paul McCartney. To agree to Option 1 would require at minimum a retention of the areas ability to hold 50k + concerts

Western Springs is NZ's greatest concert venue with a rich history of musical and sporting events dating back almost 100 hundred years. It has been host to historic concerts from the biggest artists of all time, Bob Dylan, The Rolling Stones, Paul McCartney, ZZ Top, Led Zeppelin, Pink Floyd, AC/DC, and the largest ever attended concert in NZ history - David Bowie. This is only the start. Western Springs natural amphitheatre/bowl make it the greatest sounding venue in the country - it is world renowned infact and many of the artists playing there remark on this and fondly remember their time there. We do not need another soulless concrete arena or stadium like the proposed Auckland Arena - we already have spark arena! Eden Park also has its place but it is

a concrete rugby stadium and doesn't hold a candle to Western Springs which is a natural amphitheatre and an international treasure. It would be a huge travesty if all this history, superior acoustics and beautiful natural setting were to be destroyed for an unnecessary concrete monstrosity to be developed on the site. Keep The Springs as The Springs!

I am 72 years old and have played at western springs since my earliest child hood days. My grandmother lived on chinamans hill ( if you know where that is) .

I have attended speedway and concerts there my entire life. I am also a member of the Ponsonby Rugby Club and have been for over 50 years.

If history, culture and community association mean anything in these selfish oligachic times then the status quo should surely apply at least.

Rights of one group over another invariably come down to money, good luck with your decision.

I believe that the natural amphitheatre needs to be preserved. Option 2 allows for the commercial imperatives of Council to be satisfied while allowing the community to use the stadium extensively. Surely that is the role of Council to provide the community with access to the facility. Option 1 is a sell out of a publicly owned asset, which would destroy the ambience and character of the natural amphitheatre. That would be tragic if that occurred. Ponsonby Rugby has served the community for 151 years and has been located at Western Springs Stadium for almost 30

years. Why are you trying to relocate them. They deserve way better. The figures you cite are totally wrong and speculative and paint entirely a biased viewpoint.

Of the proposed options, the non-preferred Option 2 is both expensive and at odds with other attempts to improve and widen stadium spaces across Auckland. We simply are not a city of a size necessitating so many stadium grounds which is reflected in the persistent cost to the public to operate these spaces. Option 1 is, however, even worse in my eyes as the public receives the same expensive structures with no economic return to the public except in the form of temporary relief while it generates profit for its private owners before transferring back to the public an even more expensive space to maintain at the end of its expected life-cycle, requiring yet another round of public funds to bring back up to scratch.

I would much rather the public funds the full cost of these grounds and through that finds an economic way to use them so that they do not require such significant outside funds year on year. If stadiums were worth building then the private market wouldn't need the public to fund them in the first place.

Because it provides a much needed natural amphitheatre for music, cultural events and international acts. The rugby club can continue to operate and anyone can access. Providing a decent venue in Auckland with access to trains and buses is really important to keep our city vibrant and attractive to overseas artists.

It's the most practical option and the most cost effective option

lon in the long run. Option 1 has a high risk on partial or full failure to deliver over the long term and the ratepayers would carry the cost. Option two is right sized for the area and the city.

A larger Auckland Arena may cause more disruption to the surrounding neighbourhoods as it would get used more frequently and has a larger capacity. Therefore a slightly smaller Western Springs Bowl is more appealing

I chose Option 2 as I believe it's better for Auckland to retain Western Springs for concerts and community sport.

Option 1 falls short. The proposed stadium isn't big enough for Auckland FC and will result in less people, paying more, to see the football. Large crowds attend at Mt Smart. Why would you move to a smaller venue? Just to increase prices so only wealthy people and corporates can attend? I would rather Western Springs be retained as the clubroom for Ponsonby Rugby, with an expanded scope than the ideas proposed in Option 1. Where do you propose to move Ponsonby Rugby to?

I believe that Option 2 is a better solution for Auckland longer term.

Ponsonby Rugby Club needs a proper home, and Cocks Bay wouldn't be a good fit. This option seems more of a natural fit environmentally, versus a large new commercial building. The extension of the venue for additional use by concerts and events would be great. I attended the Big Day out at Springs years ago and it was an amazing venue, but barely used like that since

i want something to happen at this site. Selfishly, I am a huge football fan and despair that there is no one dedicated venue to football. I love the fact that this football venue would be down the road from me. Selfishly again, I am pleased that it will not be funded by ratepayers. Bill Foley's involvement in the consortium makes me more confident that it will be financially secured, a quality complex and that it will actually be built. and that it will be managed well. it also makes me think that his commitment to AFC will be long term. I also support that it could be an entertainment venue as well. I do have some reservations about the consortium's commitment to

respecting the history of the place and its surrounds. I would like Auckland Council to make this a requirement for the project.

western springs is unique in the way it combines ponsonby rugby club , the stadium and fields for rock concerts touch rugby and festivals (and previously the speedway ). there are plenty of underutilised ground around aucklnad that the soccert eam could use and make their use closer to capacity - mt Smart /go media , eden park , north harbour

option 1 will have the impact of creating yet another underused stadium that will put pressure on other stadiums through underuse

option two will copete with vector and put it under pressure

You don't mention keeping the Speedway going as element of Option 3: this is misleading and deceptive if you actually intend to remove the Speedway. The lack of clarity in your description of options could invalidate the final conclusion.

The suggestion that anything apart from the Rugby club would need further funding appears designed to discourage option 3.

The options 1 and 2 sound rosy but bring financial risks to ratepayers that are far greater than from leaving things as they are to continue with the rugby and Speedway.

My first preference was for test cricket to be held at Western Springs however that is no longer an option. My main concern about option 1 is private funding means high prices to pay for it and a very real move away from community access. Wealthy investors always want to make a profit and that will not benefit the community. There is a perfectly good stadium at Mt Smart for Auckland FC.

Ergo I support Option 2 and, possibly Option 3.

Ponsonby Rugby Club has been a huge part of why that area has stayed as populated as it is, and I don't even play rugby. But whenever you think of rugby clubs, Ponsonby is the first to come to mind and is a huge part of history for Auckland club rugby and sports in general. It would be insane to let such a prestigious club go down and expanding the sports range would not only help more families lead an active and healthy lifestyle through that opportunity of expansion.

Option A appears to offer better utilisation of the Stadium and surrounding areas. Lower cost to rate payers. The wider community would benefit from the facilities proposed in Option A. Option B appears to mostly benefit the Ponsonby Rugby Club.

I support Option 1 on the basis that development costs will be borne by the developers ; a commercial rental / lease fee will be paid to the council by the developers that will mitigate any future or ongoing expenses for the public / ratepayers to meet ; rental amount will be subject to periodical review ( ie NOT after the first 50 years); devopers will return the facilities to the council at the end of their lease in well maintained and functional condition

Auckland needs a cricket ground - Eden Park is not suitable - and if either option 1 or 2 can incorporate this, then that's the way to go, esp if Auckland FC can get it as a home base as well.

I am concerned about encroachment on / loss of western springs` green / wild space of which Auckland is sadly lacking, particularly in comparison to London, where local suburban parks are comparable in size to the Domain. I think that western springs would best suit the community if sports ( more of an an urban activity ) were held elsewhere & the area was rewilded i.e. returned to countryside - natural part push, part grassland, rather than the usual sad parkland.

Londons traffic free ancient woodlands, Hyde park etc. A lot of stressed city dwellers rarely leave the city - With surprisingly few relaxing seaside options, Auckland badly needs more large commerce free natural spaces ! ( Failing that keep it as it is : )

We are losing our identity and 'grassroots' Everything I read is about how much it'll cost and you keep forgetting the community and togetherness rugby / speedway and concerts nurture. It truly saddening how the interests of a few can over-rule the needs of many. Upgrade Western Springs FC it's already a football club on council owned grounds.

The idea of yet another "Arena" in NZ is anathema to me. We need to be better at sharing venues, thereby reducing capital and maintenance costs. The main "other idea" is just that, a national rationalisation of what we've already got. And if that concludes we need something more, then it must be justified in terms of likely frequency of use, financial outlay, and convenience of public transport.

It makes no sense spending ratepayer's money on luxury items when you haven't attended to the basics - roads, sidewalks, graffiti removal, litter collection, road signs. The city is looking worse with every passing day.

Don't like Option 1 because it is handing a public facility over to Private interests. Option 2 maintains the option as a large concert venue but I'm not keen on creating a permanent Stage Bowl. I think for the time being it is best left as it is ...a multi purpose open space, until it becomes obvious there is a definite need for extra sporting facilities.

Keep Speedway at western springs

## **Supporting Document: Retention of Western Springs Speedway at Its Current Site**

### **1. Executive Summary**

This document presents a compelling case for the retention of Western Springs Speedway in its current location. Western Springs is a dual-purpose venue with nearly a century of history, cultural importance, and unmatched utility. It seamlessly hosts Speedway in the summer and community rugby, including Ponsonby Rugby Club, in the winter, making full use of shared public facilities year-round. Any proposal to redevelop the site for alternative purposes—particularly those involving building construction—would likely result in severe geotechnical complications, negatively impact the surrounding wetlands and natural habitat, disrupt the community's existing access and parking arrangements, and trigger long-term noise, traffic, and environmental disruption.

### **2. Historical and Cultural Significance**

#### **Western Springs Speedway – 95 Years of Motorsport Heritage**

Western Springs Speedway has operated since 1929, making it New Zealand's longest-running speedway venue and one of the most iconic urban tracks globally. It has hosted national and international events, including the Speedway World Championship qualifiers and the Speedway Grand Prix of New Zealand. Famous names like Barry Butterworth, Michael Pickens, and Scott Dixon began or bolstered their careers here. The track is not only known for its length and high-speed performance but for the unique energy it brings to the Auckland summer—a seasonal tradition for thousands of fans across generations.

#### **Ponsonby Rugby Club – Auckland's Rugby Incubator**

Founded in 1874, Ponsonby Rugby Club is the oldest rugby club in Auckland and a cornerstone of grassroots sport in New Zealand. It has produced more than 45 All Blacks, and continues to nurture young players from across the region. The club's junior rugby programme serves over 600 children each winter, hosted on the Outer Fields of Western Springs. This seasonal sharing of space ensures maximum use of public land and fosters strong community engagement. The shared use model is a leading example of integrated public sports infrastructure.

### 3. Accessibility and Infrastructure Alignment

Western Springs is ideally located 4 km from Auckland's CBD and has excellent road access via the Northwestern Motorway (SH16). It is within a 15-minute drive from most inner-city suburbs, making it an ideal location for hosting both local and regional events. The adjacent Outer Fields provide parking for over 2,000 vehicles, which is essential during major events like concerts, races, and festivals. Without this carpark, events would not meet fire and evacuation compliance requirements. Public transport is limited to bus access; no rail or light rail service is available in the corridor, and none is planned. This makes the existing car access and overflow field parking critical to ongoing operations.

### 4. Redevelopment Risks and Disruptions

#### 4.1 Geotechnical and Geological Complications

Western Springs sits atop a historic water basin fed by natural springs, underlain by peat soils and soft alluvium. The area has a high groundwater table and is rated as a liquefaction-prone zone. Any construction would require deep pile foundations, soil stabilization, and continuous dewatering to maintain building integrity—massively increasing cost and engineering complexity. Furthermore, these ground conditions are not just technical challenges—they are part of the natural hydrology that connects directly to nearby wetlands and the health of surrounding flora and fauna.

#### 4.2 Environmental Degradation of Wetland Ecosystems

The Te Wai Ōrea Reserve wetland, adjacent to the stadium, is one of Auckland's most ecologically significant public wetlands. It supports a wide range of native birds, amphibians, and aquatic species, including tūī, pūkeko, and longfin eels. Redevelopment would interrupt the hydrological flow between springs and wetland, increasing stormwater runoff and contamination risk. Heavy construction and permanent structures would reduce the permeability of the land, leading to flooding risk elsewhere and loss of ecological resilience. Council policies prohibit high-impact development in these designated Significant Ecological Areas (SEAs) without clear and overriding public benefit—which is absent here.

#### 4.3 Long-Term Construction and Community Disruption

Redevelopment would likely span 3–4 years, causing sustained disruption to local schools, parks, residents, and businesses. Noise levels would exceed 65 dB during day and evening hours.

A major issue for me and many others in the distance running community who live centrally in Auckland is the inaccessibility of athletics venues for training. This is equally true for competition, but training happens far more frequently so that is where there is the most to gain. The current options are Mt Smart, Waitakere and Millennium, all of which are unthinkable in traffic. A track and field venue at Western Springs would be a game changer.

Distance running is a broad category of sports these days, with all disciplines trending higher in popularity. The number of runners in Auckland is ever increasing and I'm hoping that my children will also take an interest in some of these disciplines. But currently, exposure is limited to road

running during the week and there is no focal point for the many runners in broader Central Auckland area.

THE LAST THING AUCKLAND NEEDS IS ANOTHER \*\*\*\*\* STADIUM. NZers barely use the ones we have at the moment. Current Options are basic and too similar. Have you actually done any research into what is needed by the community? This seems like a hastily thrown together stab at leasing prime land to someone's mate for 100 years. If I was a journalist i would be looking at this really carefully, it smacks of corruption. Where's the research that shows us whata good use of this land would look like for our community for \$1m a year? What do Aucklanders actually need? Cos it's NOT ANOTHER STADIUM.

Option 2 keeps the stadium in public ownership and a reasonable amount of public access. It also respects the history of Western Springs as a home for Ponsonby Rugby Club - this is a very significant strand of Auckland's cultural and sporting history and should be accorded weighting.

Option 1 turns the stadium into a private facility and reduces the input and influence of the public. What safeguards are there about possible future owners of the rights?

The owners of Auckland FC are international and not focussed on the local community.

Option 1 is preferred by TAU and that seems to be mainly because it looks like it would be cheaper for Auckland, according to the proposal. This could be a false economy, as the people of Auckland may find that costs of events become prohibitive, as there is a commercial imperative for profits, rather than Option 2, which has the public access at the forefront of it's proposed operations.

Western Springs Stadium belongs to the people of Auckland. I have attended concerts and festivals, walked its perimeter, and watched my son play sport. I have listened to a variety of music and events and had the pleasure of hearing people enjoying themselves. I have lived a street away for 27 years and like the variety of events as well as the pleasure of a large grass area close by. I do not wish to see it concreted and closed off for private profit.

Keeping something that provides opportunity for our community and for our young and future generations is far greater than someone's greed. That's who Kiwis are, we are for the people not for the greed of oneself off that backs off soccer players who sacrifice their hard work.

Ponsonby has provided the most All Blacks and has sent countless rugby stars across the globe and is known internationally.

Concerts and festivals have engaged our community young and old.

“It’s about Principle” - Ardie Savea

Springs lost its mojo when major concerts were no longer held there decades ago. It's hugely disappointing that Auckland Council has thrown Speedway out. I'm not a motorsport fan, but appreciate their history back to 1929. The ridiculous rows over the years over noise from new nimby incoming residents were pathetic. Same with Eden Park.

Ponsonby Rugby Club have made their home at Springs for a generation. They have wonderful history and a very local/caring club. My only involvement though has been attending the Gallagher Shield final a couple of times. But Brian Williams leading their crusade for Option 2, is one of the

greatest All Blacks of all times. I was privileged at 18 to see him at very close quarters [literally from the sideline!] play the Lions twice at Eden Park. In the same class as Michael Jones. Modern "All Blacks" will never have the same mystique and quality.

Bring Springs back to the days when I saw The Stones, Elton John, Bob Dylan, Johnny Cash and dozens of other fab artists in the 1970's and 80's. Option 2 is the most likely option to retain that opportunity.

I am still gutted that Laneway 2023 was cancelled thanks to my "Birthday Storm" Cyclone Hale. Irrelevant, but that would have been my final trip to Springs, having been a pensioner for many years now.

Option 1 will soon find a way of the rapacious developers rorting the Auckland public. We are so well used to such treatment. No cost to the rate payers. Rubbish!

In any event, get Auckland up and running again by spending on fixing all its present infrastructure woes, rather than the vanity projects of politicians. If you can't fix the footpaths, don't even think proceeding with major capital works.

Infrastructure at present does not support the 1st 2 options.

I don't believe they would be in the best interests of the local community either, especially with private interests driving and inevitably subverting the plans.

A more considered approach which takes into account future plans for existing Sports and Entertainment venues should be investigated while in the meantime keeping the status quo.

I attend events at the stadium or its sports fields, I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs), I don't have a direct connection, but I am interested in how the space is used

### There are three options to consider

#### Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

### Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Council decided to make Eden Park a concert venue. Don't need replication of facilities.

Water front stadium would have been a better option as some of the costs of setting up and maintaining the venue could have been met by them (eg soccer stadium and concert venue) without the general public losing access to an existing facility. Council please rethink stadium by harbour: it will be new and no sector loses the use of it

People have long complained about noise levels around Western Springs re stock cars and concerts. They won't be happy if it retains some of those functions

There is need to have the community access to the area and this need is emerging with the rapid development and cultural expansion. Time is needed for this to socially materialise. Rugby could decline significantly due to expanding broadcast options and international concerts could out price general admission for the average wage earner. Demographic analysis is required as multi generational family home emerge due to fiscal contraction for the average wage earners.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

The Western Springs Bowl offers the strongest ongoing community ownership, usage and enjoyment of the space - both historical and in the present. Ponsonby Rugby Club and concerts held at the venue attract very different audiences - which is great to see, as is the sight of sport and concert promoters aligning their interests with this proposal. Some infrastructure improvements are sorely needed to the site, and while the Western Springs Bowl option may require a bit more investment, it will be to an enormously larger benefit to people in Auckland

than the private interests behind Auckland Arena. I would rather see no change to the site than the Auckland Arena proposal go ahead.

Such facilities should not be run by the .council with any ratepayers contribution.

Council is too bureaucratic, cumbersome and has far too many overheads.

Private Enterprise should invest, run the facilities and reap the profits..

Speedway has been a successful part of Auckland Central for decades. It is one of the few family friendly events where generations can attend and enjoy themselves. Also, concerts can and have still been held near/at this venue.

Absolutely not Option One, I strongly oppose private investors having such a long lease. I like elements of option 2 regarding the enhanced 50,000 venue option, however I would need to hear more information about the proposed 5,000-8,000 venue. I would not object to some form of certainty being offered to the Ponsonby Rugby Club, but not at the detriment of other community usage.

The current arrangements are well established and costs are known. Under the current framework my family will continue to enjoy the use and entertainment that has become embedded into Auckland's character while also keeping a connection with the past. Options One and Two involve significant project risks as has been the case with many of Auckland City developments and the potential adverse impacts of traffic conditions in the vicinity will further exacerbate an already precarious road network challenges facing Auckland City and Auckland Transport

Auckland Arena is the most appealing option as it provides both a sports stadium and a mid-size concert venue with 25,000 capacity. This would fill the gap between Eden Park at ~50,000 and Spark Arena at ~12,000. This dual use solution, coupled with the fact that public money will not be required, makes it the most attractive option of the three.

As a speedway circuit there is much more space for larger crowds than Waikeraka Park in Onehunga. I understand the stock cars circuit only holds about 3600 people.

Western Springs as it is now can still be used for other events such as outdoor concerts. It has happened in the past. As for those you moved into the area and complain about the noise, the speedway has been there longer than most of the noise complainers have been alive. Don't like noise, don't buy there.

I'm really annoyed that Speedway got booted out of Western Springs - bring Speedway back and leave things as they are with Ponsonby Rugby - Western Springs should not be 'sold' to the likes of Anna Mowbray and Ali Williams, it needs to remain the domain of ordinary working people.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

This is a facility that is used by the whole community covering a wide range of ages and preferred event tastes. I would imagine a major concern with this option, we actually enjoy the sound of the events and the curfew is reasonable.

A stadium/concert venue doesn't feel appropriate for this neighbourhood/residential area. It would no doubt impact the nearby park grounds (and the zoo, resulting in animal welfare issues). Options 1 is my least favourite, while option 2 is the lesser of two evils. Both just seem to cater to specific groups. Where is the community vision? How do we retain green space and recreational areas, a place for families to go. We have enough concrete in this city! I don't know what form it would take. But ideally, it would be a space for ALL Aucklanders...our multicultural whanau, and all demographics - not just middle-class concertgoers or male-dominated sporting interests. What

is best practice overseas? How do other cities/countries create spaces that enhance the lives of ALL their citizens?

I work in the events sector and also love attending events. Currently we lack a variety of spaces for various sized events. I think creating another space will only strengthen the cities sense of community and culture. I strongly believe that a stadium like this would be an asset to Auckland.

It's a publicly owned space and very much should stay so. Option two also allows it to continue as a mixed use space. The idea of a small arena will shut out other opportunities. It's also one of the few spaces that can be adapted for big and middle sized crowds, as well as festivals. I absolutely love hearing music ringing out across the neighbourhood and celebrate it being able to continue to do so.

There are other areas of priority to focus on beside this one such as infrastructure so let any funding and energy be diverted to those high priority areas, which the community would more appreciate.

There eoi process was only open for 3 weeks and requested significant input which was a barrier to more engagement with the process. This is a significant land holding adjacent to some of Aucklands prized assets - western springs domain, the zoo and motat and will be serviced by the north west rtn. A proper masterplanning process should occur rather than the rushed process to date. The return of the buildings under option 1 is not a benefit to the rate payer as they will be 100 year old assets

Keep the arena, in public hands, local government has more of the communities' interests in the foreground.

Make sure public transport options are very proximate. New sports like pickleball & basketball should be considered

I don't like option A because we don't need a dedicated venue like that and definitely don't want to cede ownership for 100 years. Option B is better but expensive. I like the way it is with Ponsonby Rugby and more ethnic festivals, so prefer option 3A. Would love to see the speedway retained. Forecast of \$600k to \$700k a year more realistic, leaving ownership with council allowing flexibility as things change. These grandiose schemes never turn out as planned with budget overruns private sector volatility etc. No company taking up a lease for 50 years to 100 years will actually be around that long but the local residents will and the council will.

I think Council is foolish to ignore the nearly 100 years of speedway and "the Springs" international reputation. I have been a regular attendee since I was 8 years old (about 68 years ago). Waikaraka Park is a totally unsuitable replacement site. Speedway midgets and particularly the powerful winged cars, are incompatible with stock cars. Forcing speedway to move will kill the sport in Auckland.

I want to explore the idea of keeping the speedway. I think keeping it is the way forward, keep in mind we still have rugby club with active games. Speedway with active races. Local grounds the activity hold music events and other activities. Where would these clubs and events go? Why change it? By changing it you are prioritising a football club with less than a year of history over a ground that has stood the test of time for 98 years and today is STILL in use for multiple different party's. Keep in mind the change that is proposed is moving from an already established stadium that has more than enough room for growth - why move and make seating half the size!!

Absolutely silly logic. (The only reason is probably so old mate can get there helicopter pad there & can't be asked driving 25 mins across Auckland)

Auckland is devoid of modern community stadiums. Football is on the up, live music has never been better, Western Springs is a natural amphitheatre, there is private funding. Surely it's a no brainer.

I've recently moved to Westmere after 13 years living in London and I can't believe what an incredible part of Auckland and the world it is. The very thing that makes it special is at the essence of my submission. It's a living example of a community of different socio-economic groups and houses living in harmony, its a melting pot of sports, cultural events, outdoor activities like walks and cafes for socialising with a real heart. This is all within a stone's through of the city and in a vibrant (but grounded residential area. This unique combination is a big part of the social and cultural benefit of this area of Auckland today at a relatively low economic cost. I'm not historically from Auckland but as a NZ'er I know that Ponsonby rugby club is an impressive high

performance example of a local sports club of earnest people with a proud legacy and huge spirit. These clubs with huge participation and a proud legacy are the very thing communities (and cities) struggle to create but make such a difference to wellbeing in it's broadest sense and contribute to cultural inclusion and social connection - why would we make a decision to lose that for what is a very small annual cost? The Arian option recreates other options that are already close by - Eden Park, Spark Arena and health clubs. Auckland can't sustain multiple large venues within a short distance of each other (if they are to continue to be world class). Don't replicate more of the same. Hold onto a facility that makes activity like Pasifika festival, concerts and club rugby possible so that we (and those to come can feel included, connected and inspired to live in Auckland

I like the idea of improved concert venue as well as the shared seasonal lease for concerts and the rugby club. I like that the natural amphitheatre will be maintained rather than mostly paved over.

I do have concerns over the public transport servicing the area which is an issue with both options. Either will bring more traffic to the area as it's not easy to get to.

This should be a facility for the benefit of Aucklanders. The costs (compared to the annual Auckland Council spending) is low and the benefit (100,000 plus users per year) is high. \$100m spend over 50 years averages at \$2m per year, which again is low for the benefit

The overall use of the space seems to be more versatile for multiple uses. It fits a space for a medium sized concert and event venue. (I would wonder if the Ponsonby Rugby Club could just as likely find a space in this plan as it does in the alternative option - whereas the alternative option seems to hinge primarily on two streams of use: rugby and concerts as the mainstay; and I am not sure, sadly, that Auckland attracts enough concerts to utilise such a dedicated space well. Whereas larger concerts, being fewer, can be achieved at the current Eden Park and Mt Smart stadium venues).

My main concern is the limited public transport connections (only bus) but it does have access to the motorway system; this would be of particular concern for a bigger concert events. A secondary concern is for affordability for community groups to use if charges are managed by a corporate owner rather than a community-linked organisation; and therefore what manner is anticipated in the lease to ensure affordable community space is also provided).

As part of a final proposal, I would hope that the promoters of this venue option will be able to demonstrate clarity through firm indications of the groups that have expressed interest in utilising the various facilities, so that it does not turn into a white elephant. In which case, given the length of the lease arrangements, is there provision in the lease from the Council to allow for taking the complex back into Council oversight if the venue is clearly not being used sufficiently, or not providing the community engagement and use that was anticipated.

If a 'new Eden park-like' stadium is not going to be built in the CBD, then this proposal is helpful to the overall sporting/health/concert needs of Auckland.

The lack of public transportation and the narrow Bullock Track make it difficult to access the Mmotorway, and there is insufficient parking nearby. Additionally, the noise during concerts can be disruptive, particularly for elderly individuals and babies. Since this is a residential area, stadiums should ideally have train access and be located away from residential zones.

Preference is for WS to remain in the community and have the upgraded facilities available for all communities and public sectors at an affordable cost. A community based facility, and home for Ponsonby RC would attract a greater variety of groups to use the facilities at less costs than if the venue were privately developed.

I believe that Western Springs Stadium is a valuable community asset which should not be privatized. The Stadium is well used by community groups and as a venue for live music and live events. Western Springs Stadium should stay as home to Ponsonby Rugby Club, one of the oldest rugby Clubs in Auckland.. Auckland Council has a responsibility to protect and maintain access for the general public to such areas which have been handed to Council by past generations of ratepayers.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Western Springs is not a privately owned property. It is in trust for the Auckland people and is not owned by the city council. The speedway was built area was purposely designed for this use and is recognised throughout the world, with much the same recognition as Eden Park is for rugby.

Enclosing the fields restricts access by people who like to walk around and use the area as they do now.

I occasionally like to sit and have a coffee and snack at one of the park benches in the rugby fields. If the area becomes enclosed it takes away the freshness and commercialises a public space.

As someone who lives close to 'The Springs' and regularly attends events from LaneWay to Pasifika to Friday Night Jams I completely disagree with the proposal to allow a 15000 seat concrete stadium to be built and ruin the natural surroundings and amphitheatre of Western Springs.. The Springs must be a community facility open and accessible to all and must remain in TAU hands. It's important not to have views tainted by the shiny baubles of a new but unwanted stadium. Even as an AFC fan I don't want to see the opportunity for an upgrade to the facilities at Western Springs that benefits the whole community, lost. I have heard no one but the proponents of the larger stadium say this is what Western Springs needs. The unique spirit of Western Springs

that has developed over the last 100 years is priceless and should not be handed over cheaply to those who have no interest in community. Surely Auckland has learnt that lesson before. Local Resident and Rate Payer

A mid sized sport arena in central city area is sorely needed and when combined with mixed use potential for events including festivals - this is a practical use while not impinging on surrounding community. Being privately funded lowers burden to taxpayers and improves overall appeal of area.

Auckland has many sporting facilities; however, it doesn't have a boutique concert venue like this. We have very big or small but nothing in between.

Making it a multi purpose changes the feel of a venue. I think this would suit the venue better, it suits what it has always been and pays homage to the natural amphitheatre that has been a part of many Aucklanders' musical memories.

Being from the community, the western springs bowl allows the ponsonby rugby club to renew their lease and supports the construction of new club rooms. As I am a frequent attendee of events at western springs like festivals and concerts, this option allows to keep this open character of the area and still host these events. It would be a shame to see this amazing area change.

Auckland already has Mt Smart, Eden Park and Albany, we simply don't need another rectangular stadium.

New Zealand is known as a boring place amongst backpackers, younger tourists, and frankly half of the country will call the place a retirement village.

On the other hand, look how many of:

- a) Our young are moving to Australia for not just economic reasons, but a more fun life
- b) Look at the Laneways festival, and the opportunity for young people here to have fun locally

We need to keep somewhere like Western Springs as a venue for younger people to enjoy themselves, and Laneways was the perfect example

Access to any such venue for community is critical to community wellbeing, inclusivity and continuing/building meaningful connection and relationship. Creating or maintaining such environments which promote and support community togetherness have a value far beyond any dollar value. Ponsonby Rugby represent community and a historical gem which is part of the fabric of Ponsonby area. Enhancing the space but maintaining the community culture and values is only something this option two can deliver on. Thank you.

I would like to see western springs upgraded for the whole community to use not a stadium that would not be accessible to our community. Soccer has already taken over all the parks in our inner city they don't need more. Option 2 caters for all of our community especially Rugby keep Ponsonby Rugby flourishing and producing great All Blacks. Keep the beautiful sounds of music during the summer. You couldn't ask for anything more better then this.

There is absolutely no reason to change this park, it has been used for speedway and consents successfully for decades. On top of this the Auckland council has no money for its infrastructure and current services now so why would this even be given consideration? This is an abhorrent waste of time and money, money that the council doesn't have for this white elephant. Council members have a fiduciary responsibility for taxpayers money and this proposal flies in the face of this.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Locals didn't want the speedway and it was disappointing to see that heritage go - history that had been there long before many of the current complaining residents. Why would they want more noise with a bigger stadium? Auckland needs to be proud of its heritage, instead of pulling down everything. People travel to see the history and culture of other countries - what will Aotearoa have left if we keep pulling down what makes us unique? Ponsonby has been whitewashed for decades, this is another attempt to remove Pasifika from the area. The proposers of the big stadium need to pitch their idea down by the waterfront - Western Springs does not offer post-

concert nightlife and where on earth would all these concert goers park? Auckland transport underserves this area, particularly when concerts are already on. Let people keep what they enjoy, and not let the rich listers build a backyard playground in the worst possible spot.

We need a stadium that has better public transport links with buses from central city that makes it easier to get to rather than Mount Smart, the current bowl structure is unique and well suited for a bowl type of stadium. There seems to be more community focus on this also, the Ponsonby Pony's are important to the area and need to have a base in the community that supports them.

Western Springs stadium (like all Auckland stadiums) is hamstrung by consent conditions limiting the number of shows per year. A review of this is more pressing than assuming this is status quo and forcing any acting body that leases / runs the stadium to try and make a profit from the limited available events.

I think that saving \$18.1m in public cost is a deal clincher and it would be a real asset for the community. I very much like Option 2 as well but it would be a very significant cost to ratepayers. My main concern with Option 1 is that Ponsonby Rugby club will lose its home and we have history with the club as our son played for Ponsonby Rugby club. I think it is a terrible shame and would like to see them somehow able to continue to use Western Springs as their home.

Option 2: Western Springs Bowl

### Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

the beauty of a stadium in the middle of the city is amazing and beautiful - a mix of everything there for everyone is what makes "auckland" a livable city - and attractive city - something different from other areas - in Auckland, NZ and Southern Hemisphere! Its a place that brings people together in music and sport

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I support Option 3B – retaining the stadium's existing structure and usage for Speedway Racing – because Speedway has been a part of Western Springs since 1929, long before nearby residential developments. It holds significant historical and cultural value, and its long-standing presence should be respected and preserved.

Financially better and allows for football in the area. Which is a growth sport, especially compared to rugby.
