As a local of many years. I just can not see why you would want to or let anyone take away memories that have been made and one that could be made. Growing up hearing the sounds of the engines raving and racing around the track. The smell in the pits and the excitement felt in your body'. I want md kids to feel and experience this too.

Auckland doesn't need another stadium. It already has 2 large stadiums that are hardly used. So put them to good use rather then take something away from people!

Far too many sudden changes on knee jerk reactions. Not enough recreational facilities to facilitate a large crowd like western springs. Not enough sufficient public transport to shift it to Mt Smart. Keep as is and upgrade facilities.

There is no need for another sports facility when there is an existing rugby club and fields to entertain music enthusiasts. Option one irritates me as another greedy money grab.

Option ONE should NEVER be considered. Auckland has an excess of underutilised stadia (and the prospect of building more or expanding Eden Park is abhorrent to the ratepayers of Auckland). TAU should SELL (not own and lease) Mt Smart Stadium or North Harbour Stadium to the Auckland Arena consortium. There is a deal to be done and TAU should facilitate this not impede.

Speedway should be reinstated to Western Springs. To consolidate motor racing operations at Waikaraka Park and then build a new stadium or facilities is hypocritical with respect to better utilisation of facilities in Auckland.

Leases to the Rugby Club should be renewed if sought by the club with any upgrades to the Ponsonby Rugby Club should be funded by the Ponsonby Rugby Club. Community use of the clubrooms and facilities should be user pays on an arms-length basis with usage fees paid to the Rugby Club.

It offers a variety of different sports and potential for entertainment that serves a wider audience. The private investment also means there is less of a cost to ratepayers. I haven't been to an Auckland FC game yet, but would likely go if it was this close to home. Just like Eden Park is the home for rugby in Auckland, Western Springs could be the home for football.

I believe that the way the stadium has been run with the ongoing music festivals and the rich history of the ponies by rugby club shall stay as is. Many people come together for these events and the games during the rugby season and festival season, and it'd be a shame to see that all go to waste over facilities that could be built elsewhere.

I feel Option 1 will limit these that use the space, they will to be priced out of events as they are going to need to make a profit. Option 2 means the all community has access to the space not just those that can afford it.

Following the success of Auckland FC this season I think it would be fantastic for our local community to have a multi purpose arena to spectate as well as participate in sports matches. It makes no sense to turn the area into a 'Hollywood bowl' style concert venue. We are not Hollywood, we are Auckland. Also with the recent announcement that Eden park will be significantly levelling up' in order to accomodate international live artists why would we need another large scale venue? What we need is our kids being enthused by sport and to get outside and grow up enjoying sport. There's only one choice in my opinion

We need to start using private funding to get state of the art facilities.. look at the state of Eden park.. I love its history and used to go all through the 1990's but we (Auckland) needs a waterfront stadium, purpose built.. and this new option at western springs shows what can be done if private investment is utilised.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

It appears to be the best option for the area, for continuing access for community sports and festivals and the continuance of Ponsonby Rugby Club with all its associated history.

Ponsonby Rugby club remains as a viable occupant and continues to thrive as an Auckland identity

Western Springs orginated as a 'bowl type' venue. Its a shame the pines were mowed down so retaining some form of the essence of its origins would be appropriate

Sharing of venue 50/50 sounds fair

Western Springs should remain a community focused public space that is able yo be used by a wide range of users from grass roots sports teams, cultural events and as a concert venue. This mixed usage provides best value for the Auckland community at large. A private closed off stadium thhe enviroment only serves the needs of a small segment of our community.

Ponsonby Rugby Club should not be removed because it plays a vital role at the heart of the community, far beyond just sport. It is one of Auckland's most historic and successful rugby clubs, with a rich legacy that inspires pride and connection across generations. More importantly, the club serves as a central hub for people of all ages, backgrounds, and cultures in the Ponsonby and greater Auckland area.

The club fosters inclusion, mentorship, and healthy lifestyles. Young people especially benefit from the sense of discipline, teamwork, and belonging that the club provides. For many, it offers a

safe and structured environment. often becoming a second home and a source of lifelong friendships.

This is why i believe Ponsonby rugby club should stay at western springs stadium. As this is their home.

I believe that western springs speedway would be the best option as there has been much support in keeping the speedway, an argument presented my mayor brown was that it costs 1.2M a year to the ratepayer, however ratepayers have proven that they dont mind that cost if it is for the speedway. I believe, after much research that the speedway should stay.

1. We don't need another stadium. Auckland has too many, not fully utilised.

2. Option 2 is a good option, but Auckland doesn't need another concert venue (Council has just supported Eden Park getting more concerts, where's the joined up thinking lazy Councillors and AC staff?)

3. Do nothing is a good option, still allows for festivals

4. Explore new ideas is supported - come up with a credible idea which allows for Ponsonby Rugby Club to continue, and utilise the space effectively

Auckland needs purpose-built stadiums that reflect its status as a global city—capable of supporting major events across sport, entertainment, and culture. The presence of private investment, particularly at a time when public funding is limited, makes this a compelling and timely opportunity.

The proposed area also represents a meaningful investment in the local community, offering a diverse range of facilities with a focus on some of the city's fastest-growing sports. As a passionate rugby supporter, I strongly believe in grassroots investment—but that investment must extend beyond rugby alone.

That said, it would be fantastic to see this proposal slightly adjusted to include a field or two for Ponsonby Rugby Club. Otherwise, I think this is a strong and forward-looking option for Auckland.

MY preferred option is Option 2 - Western Springs Bowl.

I think this strikes a good balance of uses, a reasonable length of lease and benefit to the community. Western Springs has historically been a fantastic music event venue, and I think we should support this use, in addition to sport usage. The location is well placed for transport, and is particularly for attractive for daytime festival type events.

Ideally, I would like to see the speedway remain here, so if this could be done under option 2, this would be great (and be well supported by the local community)

I would like to note, option 1 is deeply unattractive to me, and feels like private entities taking over (and commercializing extensively) what should be a community led space.

As stated above. The last thing Auckland needs is yet another grandiose project. If the locals found the previous use disruptive for the area, Options 1 and 2 will make things even worse! We need to accept that Auckland is a tiny city by world standards and there is a limit to the ability of our current population to fund and maintain such places! Let's start to live within our means and maintain what we have instead of always wanting more!

The multi-use design of the proposed Arena seems to represent value for money for ratepayers, saves money in the longterm, and offers a plethora of flexible options for local communities to enhance their lives with.

Privatisation of public facilities is a short trip to losing those facilities. For a long time, I have enjoyed concerts, speedway, and rugby events at the site. I do agree that there are some upgrades that should be made, but not at the cost of losing the site as a community venue.

Maintaining facility ownership through the council is worth additional investment in the infrastructure, but if the cost is losing all control to private industry I do not believe it is worth it. Council employment involved in the upkeep of the facility is important, and so is ensuring that our shared facilities remain ours.

I am part of the long and strong standing Ponsonby Rugby Club and believe this is the best option for the wider community. If the club doesn't have a base then that will leave 1000s of members young and old with no club; loss of community connection.

I like idea of bringing hospitality into the area, and all round use. At the inner very rugby oriented with sporadic other events. Still allows for concerts. The festivals are not many and I don't like the idea of it going to a promoter who will

Ultimately act only in their interests for that. It will be a shame to lose the open nature of current space but western springs park is unaffected and I think the increased constant activity will be great for the area. The more the merrier I say!!

The area is already struggling as is to keep up with demand. On a normal Saturday Western Springs is packed with people all the way to Meola road and the surrounding areas. Adding a popular sports stadium that will close off the area for so many other groups will just set the community back so far.

There's also the fact Auckland is huge and we are forcing another development in the packed Central area. The environmental promises of cleaning our air up but then causing more traffic seems a bit silly to me.

We seem to be trading culture and identity for who can pay the most.

There is a need for a large outdoor concert venue in central auckland. Western Springs is used for festivals and large concerts quite regularly and is very popular for this. I like that it's capitalizing on the natural amphitheater.

No additional cost to ratepayers, Auckland FC has great support and Mt Smart is not ideal. I would go to more games if it's local. Other sports and not just sports etc will benefit from option 1

I believe this suits the needs of the community better. With large concerts/festivals becoming evermore popular this would help to facilitate this. Having further infrastructure on the outer fields is also a great idea and good use of what is currently under-utilised open space.

because speedway is part of the heritage of the area, and there should be room for it to remain. even though i am not a strong supporter of car racing i think that the cultural diversity of the area will be poorer if speedway and the people who come to speedway are forced out of the western springs area

Whilst I believe aspects of Option 1 are valid, the choice I support is Option 2.

It provides a connection to events past and present and is in keeping with the area, the community and the diverse range of events that use the park.

I believe it is important to treat the entire area, Western Springs Park, Motat, the Stadium area as well as the outer fields as a whole. These 4 spaces often work together to provide for events.

If Option 1 were to go ahead would Ponsonby Rugby have a home to go to? Is there a possibility of working Option 1 and 2 together? I think Auckland FC having a central home is also a valid and exciting option. However not necessarily at the expense of a club already in situ.

My main concern is that the space will not be taken over entirely by sport and the arts suffer as a consequence.

This area has been the home for Pacifika festival since 1993 and concerts since 1971 and as a local one of the things I love is the diversity of events being held.

I imagine that the excitement of Option 1 not costing ratepayers and the council a bean will be a very enticing option, I ask you to consider history, diversity and the arts.

Speedway and the people associated with the sport both participants and viewers are an important part of the identity and history of both the city and and wider nz, not only is it important to value and cater to all groups of society but the location of western springs speedway also enables easy accessibility to Motorsport to all socio economic groups from both a transport and cost point of view. It is not acceptable for such a unique, well loved, and well managed inner city experience to be lost due to the negative opinions of a relatively small group of people, when

the experience brings much positivity to a significantly larger group of people, not to mention the loss of economic benefit to surrounding business during race meetings.

From a punter perspective, I've always found Western Springs Stadium & Outerfields to be one of the best locations for live music. It's an easily accessible area and overall a really enjoyable venue.

To have a permanently dedicated outdoor music venue for Auckland would be a game changer for the music industry and open up many more opportunities for touring artists (both local and international), alongside other forms of entertainment and community events too. From a

logistical perspective, not having to compete against sports teams for dates at the venue would set it apart from the current venues that are available. There is a real vibe at Western Springs Stadium that you won't find at any other stadium in Auckland, let's not lose that!

Return Speedway and Ponsonby Rugby to Western Springs, lift the restrictions on number of events for Speedway and go back to the successful format that has run for 97 years, even given the (at least) 10 years of unbeliveable pressure from COO and Council to remove Speedway, to the disgust (shown several times, I can't believe we're doing this again) by the ratepayers and affected users of the Springs. Quite frankly this is an utter disgrace and those who keep trying to get rid of the Speedway should be utterly ashamed of themselves. Auckland has spoken, as I said at least 5 times, and told you to leave Speedway at Western Springs. Every time, unelected staff, paid by the long suffering ratepayers of this city have ignored the directive of the people and some

councillors appear to have incredibly short memories. To reiterate. Return Western Springs to the multi use venue it has successfully been for Speedway, Ponsonby Rugby and many concerts and community events - and put your brand new shiny things at stadiums better suited for the types of crowds they attract.

Western Springs Speedway is iconic. It has a worldwide reputation as one of the best Speedway tracks in the world. Western Springs Speedway has been part of the community for nearly 100 years. Speedway is a family friendly sport/entertainment that needs to be preserved for future generations to enjoy the way current and previous generations have.

Western Springs Stadium is a fantastic open space that along with park/spring/lake, zoo and neighbouring Chamberlain Park is an asset to the city, that deserves to be preserved for ratepayers not built out for commercial gain of a few individuals.

Council need to think outside the box, the stadium in its current format could be used in a number of ways such as Sunday markets, a car fair, athletics . . . .

Most importantly, retain Speedway and Ponsonby Rugby.

I would like us to be ambitious for the space as it is so under utilised currently. I wouldn't want anything to impact the adjoining park where the pond is , however for the stadium I think we so]hould aim for greater development. I love the idea of the AFC homeground being closer to the city. Let's be ambitious by developing our under used space

I don't think we need another large multi function venue. We have lots of venues in Auckland already that can run concerts, sports events and expos, and many within a short distance from the city centre: Vector/Spark arena, Eden park, Mt Smart, Ellerslie raceway and convention, Skycity convention, Aotea convention facilities, the cloud. And when we travel further we have Albany, Henderson, Manukau venues for concerts, sports and expo's. There is an amphitheater natural land form that can be utilised without spending hundreds of millions and giving away effect use of the space to private companies. This should stay with the people of Auckland not private. I also support Ponsonby rugby staying as my son played for them but I could handle them finding alternative grounds if essential.

Submission to Auckland Council: Retain Speedway and Rugby at Western Springs Stadium

To whom it may concern,

I am writing to express my strong support for Western Springs Stadium to remain a home for speedway and rugby.

For over 100 years, Western Springs has been more than just a venue—it has been a living part of Auckland's identity. Generations of Aucklanders have grown up with the roar of speedway engines and the pulse of grassroots rugby echoing through this space. To lose that would be to lose a rare and cherished piece of the city's cultural fabric.

In a city where so much of our built and social heritage has already been lost to development, red tape, or short-term thinking, Western Springs stands as one of the last remaining institutions of continuity. Speedway is not just a sport—it's a tradition, a community, and a shared experience that has brought families and friends together for a century. The same is true for Ponsonby Rugby Club, one of Auckland's most historic and successful rugby institutions, which has long called this space home—developing talent and building community pride across generations.

The argument to repurpose or remove the speedway too often ignores the cultural and historical value of this space. These events draw locals and visitors alike, support small businesses, and give young Aucklanders a direct link to something real and uniquely ours—something that cannot be replicated or relocated without losing its soul.

In a time when many Aucklanders feel disconnected from the pace of change in the city, preserving places like Western Springs is vital. Not everything needs to be reinvented. Some things are worth keeping exactly because they remind us of who we are.

I urge the Council to protect the legacy of Western Springs as a venue for both speedway and rugby, so that future generations can enjoy what so many already have. This is not about nostalgia—it's about stewardship, identity, and balance.

Please do the right thing and let Western Springs remain what it has always been: a home for community, competition, and connection.

Though the bowl option sounds nicer in theory, Auckland cannot turn its nose up at the level of investment offered in option 2, just to keep a sunset sport (Rugby) club happy. Take the money.

I do not think this the area could sustain the larger option. the lake and gardens are a communty asset and a more community based approach seems appropriate

Personally i think haveing the western springs speedway as a heritage stadium will be enjoyed by many familys & the future sport of motor racing. This is a world wide known for high class racing. Our home of western springs speedway needs to remain..

Kia ora! I support the Western Springs Bowl as it is the natural evolution from the current venue space - I have attended many concerts over the years at Western Springs and I find it an accessible, great venue to enjoy live music and entertainment at. Western Springs is a significant outdoor venue in New Zealand, and by removing/reducing it to a multi purpose arena we would be reverting back a step within Aotearoa live music.

I would rather the council leverage on private developers/funders for something of this scale and purpose. This allows the council to then do more with ratepayer funds for the benefit of Auckland. While some of the existing parties' interests will be impacted, on balance, this is an overall win for Auckland. The only thing I am concerned about is that the council could end up in a situation which it needs to "bail-out" the new stadium, similar to what happened to Eden Park. I would fully support Option 1 as long as there are effective plans in place to address this.

I have always thought that a football stadium in Auckland with a capacity of only 10,000-15,000 would be much better for the sport and Western Springs is a very good location. The other stadiums in Auckland are all too big for the sport. I also think that having the additional sports facilities and other facilities together with the football stadium would make the venue more of a community center and would also make it more viable and more flexible for other events. The

biggest benefit of option 1, is that it is privately funded and will not be a burden on the rate payers.

However, I do have two concerns;

Firstly the Ponsonby Rugby club needs to be located somewhere local or remain at the Western Springs location. Ideally it should be located near Ponsonby. Has the cost and location of the Rugby Club been considered for this, as it could affect the Rate Payers.

Secondly, the traffic around Western Springs is terrible when any events are occurring and the motorway off-ramp is nearly always blocked. I think a large carpark will also be needed at the stadium to allow for the thousands of people who will be attending each week, and the roads and motorway traffic will need to be considered. Furthermore, those people coming to the stadium by Train will need to walk quite a way and this will mean blocking streets and intersections for a few hours when events are on. Has the additional costs of road improvements, parking facilities, and other required infrastructure been considered. These additions are required and will become a burden on the rate payers.

Building the stadium is the easy part. The infrastructure around the stadium and the efficient movement of people is the difficult and can cost a lot, as well as cause a lot of disruption to everyone around.

Irrespective, I still think Option 1 is the best, but all aspects, such as additional infrastructure need to be considered and costed before any final decision is made.

I am in favour of Auckland FC creating a home at Western Springs, however I am not in favour of a venue of this size -as it is too small. If you are creating a 'home' for a club, why not create one - from scratch - that can handle the capacity required of the club? It seems odd/mis-understood that the stadium you are proposing is not big enough to house the games that will be played by the club. It would, I believe, take away from the 'home' atmosphere to have to go to another different stadium every second game if the crowd if over the stadium limit. And it feels a huge mistake to limit ticket sales for a new club in such a fickle city as Auckland. Once you've lost your

crowd's love and attention - it can be quite hard to get it back. If people keep on missing out on tickets - they will just stop trying to come to games. We want a club built with strength, determined to grow the love of the game. Not one who seems intent on limiting their fans to 12,000. You've seen the passion for people to have the finals held "at home" at Mt Smart - that (for now) home. We want a home. Not a home that we have to move out of whenever too many visitors come around.

I don't think either option 1 or 2 provides Auckland with anything really new and exciting and suggest exploring either a combo of the two options, and/or other ideas. We already have Spark Arena and Eden Park for large music concerts. I have fond memories of outdoor concerts at Western Springs in the late 1970s and 1980s but suspect that with the increased weather unpredictability due to climate change, outdoor concerts will become less viable. Auckland FC are currently sharing Mt Smart Stadium with The Warriors. If their growth in popularity continues, it could be nice for them to have their own home ground at Western Springs.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board)

There are three options to consider

Which option do you prefer? Select one option only.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

My decision to support this proposal aligns well with a forward-thinking approach to urban development and community engagement. Here's a constructive breakdown of why this option holds strong merit:

1. **Multi-Purpose Utility & Community Access**

The design is inclusive, offering training fields, courts, and hospitality spaces that integrate with the park precinct. This ensures local engagement beyond professional sports, fostering accessibility and cultural vibrancy.

2. **Concert & Event Viability**

The ability to host 25,000+ concertgoers adds economic value, positioning Auckland as a destination for high-profile entertainment events. This diversification minimizes reliance solely on sporting revenue.

3. **Financial Prudence**

The projected private investment significantly offsets public funding needs, reducing financial burden on ratepayers. The commitment from proposers to cover operational and maintenance costs strengthens fiscal sustainability.

4. **Long-Term Ownership Retention & Infrastructure Gains**

The structured lease ensures TAU retains ownership of the site while benefitting from improved infrastructure. By transferring built assets upon lease completion, Auckland gains lasting resources with minimal direct investment.

5. **Strategic Development vs. Limited Club Lease Option**

Compared to the alternative—extending a shorter lease with fewer enhancements—this proposal amplifies economic and social returns, ensuring the stadium remains a high-performance venue rather than a narrowly defined club facility.

Your selection of this option supports an outcome that prioritizes **growth, sustainability, and multi-use engagement**.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

We already have two large arenas for stadium events (Eden Park and Mt Smart, plus North Harbour in waiting) so we don't need another fully developed one.

The $18 million cost saving from option 1 over option 3 is negligible over 50 years, but the council would lose control of a public asset for this trifling sum, while Aucklanders would pay back the $2-$300 million in capital plus a profit to Option 1 leaseholders who would benefit handsomely. Seems completely wrong headed for something we don't need in the first place.

Option 2 is too expensive for Auckland Council given all the other calls on capex/opex, plus the lack of requirement noted above.

I initially ticked 3a), but it is good to keep options open if something arises. In the short term, the current arrangements are perfectly fine for concerts and rugby, plus miscellaneous other activities. There is no need for yet another ratepayer subsidy for a developer.

Option 1 seemed nice until I realised that the private lease-holders would charge entry fees to the public for access. "The proposer has confirmed that the public will have access to all facilities" doesn't exclude the possibility of entry fees. If that's the case, then the council is leasing out this prime land for a private sports facility, in exchange for some 50-year old facility given to the council after 50 or 100 years after the best years of its use. The facility will cost between $200 to 300M to build, and even assuming that it is worth that after 50 or 100 years, is the ground rent worth that? I have no idea. Say $100,000/week for 50 years = approximately $260M. I'd need more information to form a more informed opinion, but broadly I'd rather see this central prime-

location land given to Kainga Ora to build accomodation for low-income workers who are otherwise commuting by car from out west.

Arena seating at 15,000 to 20,000 is too small as Auckland FC sell out 24,000 at Go Media. Would support if seating at 30,000. Seem like a limited view of the space and not making most of its potential.

Western springs is a great spot and has lots of natural advantages, but Eden Park is a better option due to the close rail links and better public transport for an Auckland Arena.

Its important to allow for a balance of community & private / paid event access. There are other events outside of Ponsonby Rugby Club & private paid events in this space e.g. Pasifika. What option 1 doesn't outline is whether these free events allow for access, likewise community parking to access these green spaces & nearby motat when there is a significant overflow & already limited parking options in the area.

There already is, established sports grounds that can facilitate the Auckland Football Club & the associated Football/Soccer games. By shifting them to Western Springs you limit community

access, also create transport infrastructure challenges in an area that is already a bottle neck with traffic & limited public transport options (bus, trains, share-ride, private transport).

Option 2 enables development for the benefit of all vs paid access only. It would be unfair that a space like Western Springs is limited to only a few, when there are other options available to Option 1's submission. If the issue is location of where the soccer games take place, why would we not back Option 2 with a club with a strong history (Ponsonby) vs a Soccer team still in its infancy & longevity still to be proven.

Option 2 is the best choice that enables access for all Aucklanders.

This option adds diversity into Auckland's sporting / concert facilities whilst mimimising the financial burden on rate payers. Aucklands current concert and stadium facilities are not at peak utilisation and we should be utilising these existing facilities more before building yet another stadium for concerts and sports. This proposal adds a facility that has a diverse offering, however there should be strict conditions (such as practical completion dates) built into the lease to avoid a 'white elephant' should the developer go bust or stop construction midway through.

Auckland FC have been amazing not just on the sports field and commercially but with local commh ity engagement. We need more of this in AKL. Second and a more important reason. I cannot afford any more rate increases and ita about time council stopped spending large sums on large projects that we cannot afford. Leave it to the private sector to invest and beat the consequences good or bad

Investment is clearly needed, and Option 2's emphasis on entertainment, music and festivals, alongside sport seems a more inclusive solution than any of the others.

Option 1's requirement for potentially 100 years worth of lease, with a saving of only $18 million seems like a steep cost. Additionally, the emphasis on 'padel' which I had to look up is very odd in a country where it's far from entrenched. Had netball been included I might have had a better reaction.

We already have a number of sporting venues - North Harbour, Eden Park, and Mount Smart being the most prominent. It's notice to see an arts (music and entertainment) focus in Option 2.

This area is overwhelmed with Eden Park and is too close to this venue and would overlap in infrastructure issues and hinder the resources of the neighborhood. Building a venue like options 1 and 2 is not feasible for a residential area. I would accept a low capacity venue or the complete removal of Western Springs and use as a park.

Large festival style events or the existing setup (speedway etc) seem incongruous with the neighbouring park and Zoo particularly. If Auckland Council delivers on its suggested plan of native plant restoratio and pest eradication in Waiōrea Western Springs, you could have a really amazing 'Zealandia-style' hub that connects the stadium, MOTAT and the Zoo. What an incredible attraction that woud be for locals, domestic and international visitors!!

It will still be owned by the council, ratepayers and all Aucklanders rather than overseas private investors (for 50years!) and other rich business men/women who only care about profit rather than the community. Its the better option for nearby local residents and small businesses already in the area. Its the right size too for the area. Option 1 will increase every day traffic & traffic jams will increase 10fold particularly at the Gt North Road/motorway on and off ramps lights/Bullock track and chinamen hill lights. Western Springs Park & Motat will still be easily accessible.

Western springs stadium is perfect how it is. All the other options would reduce the capacity of a great venue as well as turning away current users of the grounds. It would also be great to see speedway return as many people in the area attended and it was a great family event that was cheap for everyone.

I don't think Auckland needs another stadium. I don't think that is a good use of rates for the area. Locally there are plenty of rugby and soccer venues already. We need a decent library to replace the one that was well patronised and acted as a community hub. I was fine with Speedway being local.

I feel Option One gives more choices in regards to the use of the space, with more people benefiting from that. A space of up to 15,000 is a good size and larger concerts should be held at Eden Park - an excellent and under-utilised space at the current time. Costs to ratepayers will also be less under Option 1.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board)

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Of the 3 options, option 1 is the least bad.

I would rather explore other options.

Auckland does not need any more venues for professional sport or festivals.

What does it lack? Housing and areas for recreational sport. This is well known, and the former is proven by our excessive housing costs. All of these proposals will lead to excessive traffic and noise.

I strongly propose that we should level the facilities, and replace them with both high rise apartment, areas for recreational sport and an accessible park for walking/playing. The rugby club should not be supported.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Both options 1 and 2 are appealing. In the end I was persuaded by the community focus and inclusivity of option 2. I was attracted by the possibility of a health facility in option 1 but it was not enough to counteract the ‘exclusivity’ of a high end facility in a diverse and multi ethnic neighbourhood

As a grassroots club that already offers access to festivals/concerts - it only make sense that the most successful grassroots rugby club in NZ/that alone the world - needs to remain strong. Great family access to the club/scenery - needs to stay that way.

Hi, I'm 58 and have travelled extensively and going to many events all around the world. Western Springs is by far the most amazing large concert venue. The sound, the surrounding natural element. It's very easy parking and access. You can't replace it really, it is unique and an exciting, fabulous place to look forward to future concerts there. Thanks

Cost effective with foreign investment model

However, I believe a provision must be made to accomodate Ponsonby RFC within the facilities that will be built ie club rooms / change facilities on site.

I would also ask that the outfield is a turf allowing for more sport in weekends as the out field is a bog.

This will allow for better training facilities for over seas teams and also for club rugby games.

My biggest concern is parking / public transport options as this area is largely residential.

Eden park has train service but western springs doesn’t

There are more than enough sports stadiums already in Auckland. There are no other music venues like western springs. Building a sports stadium here is a ridiculous and unnecessary idea and would contribute to the boring and bland homogenisation of Auckland that is such a shame and detriment to the uniqueness and individuality of our (decreasingly) vibrant city.

The proposal offers a modern venue that may attract a more diverse range of people to the venue than before. I particularly like the idea of the venue catering to a range differing sports that are growing in popularity.

I strongly oppose option 1 becasue this represents the irredeemable transfer of public land and resources to private hands and the locking up of public land in private hands. I prefer option 2 becasue it allows the retention of this land in public hands while allowing for modest development. This is the best proposal even though it will add ongoing costs to the public purse these will be offset by the appreciation inn the value of the land.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

My suggestion is Option 2: Western Springs Bowl, but with more partners to provide private funding to reduce ratepayer cost. TAU to allow time for them to put that plan together. Western Springs Bowl is the first choice for Aucklanders to retain the natural amphitheatre and character of Western Springs which we have loved and valued for decades, and want the same for future generations. The Auckland Arena option is so much less community-minded, and will destroy the natural character of Western Springs. They do have the opportunity, as stated, to develop North Harbour or Go Media, without destroying anything, just adding value. So TAU should choose

Western Springs Bowl as the preferred option, allowing time for the partners to find further private investment.

I want Western Springs Speedway to stay at its rightful home at Western Springs. I have no desire to go and watch racing at onehunga at a little run down track. Western Springs stadium attracts world class drivers and massive crowds with an electric atmosphere, none of that will be possible if it's forced to merge with Waikaraka park. The council and current mayor need to listen to their constituents instead of pushing their own obvious agendas.

I would like Western Springs Speedway to stay or be reinstated back to Western Springs Stadium. I have close family members that are well known drivers and I can assure you merging with Waikaraka Speedway is definitely not feasible for them. Western springs speedway has been at western springs for 96 years and that's where it should remain. The natural amphitheater and ability to host massive crowds can't just be duplicated, especially at a facility like Waikaraka Park. The current mayor has had an obvious biased agenda to get the speedway ousted from western springs. His inability to conduct a fair debate on this matter and his open desire to see Soccer build a stadium at Western springs should be a major red flag to voters in the upcoming election.

I want Western Springs Speedway to stay at its rightful home of western springs. I definitely don't think it should be redeveloped into anything else. Speedway has been there for 96 years and it brings fantastic safe family entertainment to the heart of Auckland. The current mayor and councillors need to listen to their constituents and voter base and reinstate speedway immediately or risk being voted out.

A dedicated football stadium and sports centre at Western Springs would be a huge win for Auckland – not just for the sport, but for the community. It's a chance to bring summer sport to life in the heart of the city, creating a home for Auckland FC and a space where families, fans, and future players can come together. It'll be a massive inspiration for young Kiwis to get into football, with better facilities, more visibility, and a real sense of belonging. Let's back something that brings people together week in annd week out and gives the next generation something to aim for.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I was brought up in the central area. Went to so many Rugby games concerts, speedway events. My dad took me there when I was a kid. Please don't take away what's been a piece of not only myself, bit for those whom have been part of the rich history.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I support Option 3B – continuing with the existing arrangements at Western Springs Stadium as long as they retain Speedway and support community sport, without committing to major redevelopment.

Western Springs Works Well As It Is!

Western Springs Stadium already functions effectively as a true multi-use community venue servicing:

- Ponsonby Rugby Club

- Western Springs Speedway

- Large-scale concerts and festivals

This balance allows the space to serve a wide range of Aucklanders—from sports fans and grassroots players to music lovers and motorsport supporters. Why dismantle a system that already works?

Replacing this with a facility that prioritises just one or two uses—such as a football stadium or concert amphitheatre—would undermine the diversity and community spirit that currently defines the venue.

Auckland Doesn’t Need Another Stadium

Auckland already has several major sports and event venues, including Eden Park, Mt Smart Stadium, and North Harbour Stadium on the North Shore. Building a new stadium at Western Springs is unnecessary duplication, especially when North Harbour Stadium is under-utilised and in desperate need of improvements.

If Auckland FC requires a new home ground, North Harbour Stadium on the North Shore is sitting underused and waiting for upgrades. Rather than building a new facility from scratch at significant cost and disruption, it would be more efficient—and environmentally responsible—to invest in upgrading existing infrastructure. Redirecting Auckland FC to North Harbour Stadium would provide them with a dedicated venue while strengthening use of a public asset that already exists.

Auckland Doesn’t Need Another Stadium

Auckland already has several major sports and event venues, including Eden Park, Mt Smart Stadium, and North Harbour Stadium on the North Shore. Building a new stadium at Western Springs is unnecessary duplication, especially when North Harbour Stadium is under-utilised and could be revitalised to serve as a home for Auckland FC or other professional teams.

Fiscal Responsibility

Option 1 may appear to offer private-sector investment, but it still involves long-term public cost and a 100-year lease that hands over significant control of public land. Option 2, meanwhile, comes with a potential $48–$107 million cost to ratepayers over 50 years.

In contrast, continuing the current arrangement under Option 3 results in a lower projected public cost ($31.1 million) over the same timeframe, with no need for high-risk investments or speculative redevelopment.

Protecting Community and Cultural Use

Western Springs has long supported speedway and other community sports. Replacing this with a commercial entertainment venue or a private football franchise home base would erase its heritage and community character. The current venue is a culturally rich, multi-use space, not a blank canvas for high-cost redevelopment.

The existing use serves diverse community groups, including grassroots sport and motorsport fans. These groups would be displaced or marginalised by either of the proposed redevelopment options.

Keep Public Control and Future Flexibility

Option 3 keeps the land in public hands and allows Auckland Council and the community to explore future uses based on real needs, not commercial ambition. The public should not be rushed into a decision that locks up this iconic site for 50–100 years with limited accountability.

I strongly urge Auckland Council and TAU to support Option 3. This approach safeguards public funds, respects the historic and community uses of Western Springs, and preserves flexibility to explore genuinely inclusive and sustainable alternatives. Major redevelopment should not proceed without broader public consensus and transparent funding strategies.

Thank you.

Creates a new smaller stadium for Aucklands needs. Auckland FC to be the anchor tenant is great. Additional facilites for the communtiy is a bonus.

Design so far needs work. More seats close to the pitch and all the way around. Fully roofed to keep dry and create atmosphere. 15K should be the minimum size.

More work needs to be done to involve transport planners as Western Springs is not well suited to public transport. Invesitage Light rail from Karanga-a-Hape Station to Pt Chev, stopping at Western Springs.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 2 - The Western Springs Bowl - is remarkably flexible, offering opportunities for both small/boutique cultural events and the large stadium type events that are integral to Western Springs' long history. I love that it is a healthy and community-minded compromise between two user groups and that the enhancements proposed benefit both of those groups.

I want such an important facility to remain in the ownership of residents and ratepayers. I doubt very much that any arrangements with the Option 1 private owner for community use could be assured for any great length of time.

It is wonderful that the needs of Ponsonby Rugby Club can be accommodated at the same time as concert & festival goers get to enjoy improved facilties at the city's favourite venue.

I was a longtime resident of Sefton Avenue, off the Bullock Track and I am now a resident of Morningside, just the other side of Fowlds Park. In both of my homes I am directly impacted by events at Western Springs (traffic etc and sound). I feel confident that Option 2 will create impacts that we know will not diminish the current levels of comfort and wellbeing enjoyed by residents and community.

The cost -v- benefit advantage of the Western Springs Bowl is huge. The cost to ratepayers over 50 years is modest and of benefit in the long term; while Option 1 is a privatisation that, by definition, offers no enduring benefits to ratepayers.

Please choose Option 2.

I don't think Auckland needs another stadium/arena. I would rather Auckland council spend money on public transport. The private option seems risky. What if they run out of money or interest halfway through the project. Who bails them out?

Option A is privately funded and therefore does not impose additional debt on an already highly indebted council. Yes it causes the rehoming of Ponsonby rugby though there is readymade solution at Coxes Bay Reserve for them. Given the attendances at AklFC already the 15k capacity does not appear large enough and Akld needs a mid sized stadium as opposed to the larger Eden Park. Football and the other mentioned sports are growing in NZ compared to the decline in rugby. This is a future proofed option that should be self sustaining in the future rather than relying on ongoing council support.

Best for the community. Makes the grounds more accessible to more groups and a diversity of cultural and sporting options. Enables an alternative concert venue to Eden Park so that venu can be re-purposed. Most suitable option given the lack of effective public transport for regular sporting events (ie rail).

Auckland needs to move forward not keep looking back.. A 12 to 15000 stadium is a much needed asset due to size and loaction.

Give Speedway a long-term lease.

Give speedway commercially successful operating conditions.

Change the WS Stadium Unitary Plan to help speedway like they did at Eden Park to help concerts.

Speedway can be part of a multi-use situation with concerts can and have worked with rugby at the stadium.

We (stakeholders/fans/the people) were never consulted with before this time and should have been.

I'd rather see my ratepayer money spent to have speedway at Western Springs Stadium than a lot of the things the Council currently spend the people's money on.

I have seen how this issue has been handled and I don't agree with it and have lost faith in the council staff and many councillors.

Most Aucklanders I know want the same as me.

Because I have been going there since a child to watch speedway at its home and the other speedway locations are to far for me and it is just a special place. To me and so many others I was there on so many of the night and on the last there was a packed stadium. Keep the home of speedway as it is. The below images and videos show the beginning at over 2 hours before the start and then a packed stadium 30 minutes before start and people kept coming in up to half way thought the night.

I believe strongly that the speedway should remain at its home ground which is Western Springs. If I had any supporting documents they would show me as a child onwards going there to enjoy the speedway. Makes no sense to shift it to a place which is to small for the supporters and which does not have the same grandsrand view.

I am writing to express concern regarding the current direction being taken with respect to the future of Speedway in Auckland. Auckland offers significantly greater opportunities in terms of stadium locations, with broader capacity and infrastructure potential. In contrast, the limited capacity of the currently proposed stadium risks rendering it unsuitable for major events and community engagement.

The public has shown strong interest and enthusiasm for alternative venues such as Victoria Park, the waterfront, or sites on the North Shore. These locations not only align more closely with

Auckland's strategic vision but have also been widely discussed and supported in public forums and media coverage.

Auckland must not reinforce the perception that influence and financial power dictate outcomes. It is well understood that lobbying has played a substantial role in shaping the current environment, and the outcomes of the Options process clearly demonstrate a public appetite for change.

Speedway is a culturally significant and iconic part of Auckland's sporting landscape. Many families, including our own, have long-standing ties to the current infrastructure, which has served generations of Aucklanders. Despite its popularity, the venue has been historically under-invested and its potential under-utilised.

Given that there is no immediate or critical deadline driving this process, we urge that more time be allocated to allow the existing program to evolve and meet the criteria outlined by Council for a "successful" facility. Proper due diligence and community consultation must be allowed to run their course to ensure the best long-term outcome for all stakeholders.

Thank you for your consideration. We respectfully request that Council revisit this decision with a view to supporting a more sustainable, inclusive, and future-ready solution.

I went to speedway throughout my childhood and is a place of many happy memories and I would love to take my child there one day. I belive that the stadium should continue as a speedway and have the facilitys upgraded but staying the with 1929 feel of the atmosphere that it is like now, I belive that the Speedway should continue with have other sports in the centre aswell as having concerts at the stadium.

Speedway has been apart of Western Springs for 96 years, and should continue to be so. The Auckland Council has indirectly made it difficult for speedway to operate, and be profitable, by imposing restrictive operating conditions.

Using "noise complaints" from a small number of residents as justification for imposing restrictive (and therefore, commercially destructive) operating conditions on an institution that brings joy and community to tens of thousands of Aucklanders is undemocratic and unjust. How can we say we live in a democracy if the voices of a few will outweigh the voices of the many? How can we say

we live in a democracy if a few council members will decide the fate of an institution that is enjoyed by tens of thousands of members of the public?

The council should, therefore, give Speedway: A long-term lease (long term meaning 96 years), commercially successful operating conditions (meaning operating conditions that will allow speedway to be commercially successful once again) and, allow Speedway to be apart of a multi-use situation with concerts and rugby at Western Springs Stadium. The goal of the council, as determined by the support clearly evident for Speedway, should be to help it remain at Western Springs, and not the contrary.

The city is crying out for this scale of operation. It simply stands out clearly on its own as the most viable, with the best and highest return for rate payers.

It is exactly the sort of scale of development we need, run by those wirh proven track records on a global scale.

Not to mention it is privately funded and will not fall to the city and rate payers.

It will remain maintained, activated and breath life into a forgotten and aging part of auckland. More importantly it opens the path to engagement for people with wide ranging interests and is not limited to a Rugby club which can easily relocate to another highly viable and incredible location nearby.

My grandfather raced at Western Springs in the late 1940's and my family have attended race meetings at the venue since I was a child. The history and memories of this venue form a large part of my growing up and I do not want this fantatstic historical venue to be removed. It has stood proud for 96 years and we must respect that history

96 years of history.

That cannot be bought or sold.

Western Springs is an internationally acclaimed and used venue for speedway racing. In the 1970's we had American drivers attend the series and provide some of the best entertainment seen.

Sleepy Tripp is to speedway what Fangio is to Formula 1 - he was the best driver in town and bought in crowds.

The speedway needs to be supported as an important venue for Auckland, and New Zealand. The format of a meeting is one where a family can attend and watch non-stop quality racing in one night, being able to see the entire track and watch the tatics used by drivers to win races. The natural ampitheatre of The Springs means there is no bad seat.

If Auckland were to support, promote and improve Western Springs there would be massive financial injection into the economy. In the USA, speedway and midget racing is a huge business. The Chilli Bowl nationals brings in thousands of race fans, teams, supporters and sponsors into the venue and the economic benefits are real. If Western Springs had stability and support to grow and improve, there is real opportunity to promote to the US teams to attend a series in our summer - the US winter - that would provide racing of world class standards and media attention on the venue.

Kyle Larson, a US driver of some considerable talent and fame , has supported Western Springs. This is a man who last week raced at both a Nascar race and the Indy 500 on the same day. His fan base is massive and he gained a lot of media attention for doing so. Having Kyle Larson attend a series at Western Springs would bring in all sorts of intangible and intangible benefits. And that is just 1 man.

If Auckland Council and New Zealand tourism could support Western Springs, the tourism marketing opportunities would be huge. Promoting New Zealand to US race fans as a destination to go to after seeing racing would inject so much financial benefit to the district and country that the numbers would be amazing.

Council needs to understand that the steps they take now are going to be far-reaching. Whilst motorsport may have a poor reputation amongst the learned, worldwide it is a huge industry that generates monetary spend in the Billions.

Indianapolis Speedway this month ran the 109th annual race there, and the entire venue was sold out. The worldwide TV audience was staggering.

Can you imagine the loss if that local council took the short-sighted view that it was an inconvenience to have a speedway in town and caused it to close?

What I would like to see council achieve is;

1. Provide stability for the venue operation for a pre-determiend time. This needs to be a length of time in decades, not years, so that a commercial operator who wishes to make a profit can invest time and money into the venue and grow it as any business should do.

2. Support motor racing, music events, and car shows in the precinct so that the above point is successful. Speedway is governed by seasons, and whilst speedway is not operating the venue could be used for other activities. In Sydney, venues there host monster trucks, motorcross and all sorts of automotive events which are family-friendly and popular.

3. Develop a strategy that recognises all the venues in Auckland and their ideal purpose.

4. Provide details on the business case that confirmed options 1 and 2 are actually viable for a commercial operator.

The two options tabled as alternate uses do not make sense. I know there is history of the site being complained about as too loud when motor racing is on. This is easy to remedy as it is common across all motorsport and cars are made to meet minimum dbA levels. Option 1 and 2 above both include music concerts as a use. How will the noise from a live concert be managed? Multiple speaker arrays, varying octave levels and musicians playing instuments are not a managablr mix. My sister lives in Mt Eden and she can hear concerts from Eden Park, so if the issue Auckland Council has is with noise, option 1 and 2 is not the answer.

Regardless of the funding source, creating new multi-thousand person stadiums is going to make an enourmos impact on the environment. The cost of running any stadium will be huge in terms of capital and ongoing costs. Western Springs is a simple, open air affair that would require very little ongoing maintenance. Terraces, some seats, lighting, faclilites for food drink and restrooms all require low effort and impact. By your own admission, keeping the existing facility would cost ratepayers $62,000 per year. This cost ought to be covered by any commercial lease arrangement, along with clauses for the operator to make improvemenrs at their cost so Auckland effectively gains a world-class venue with international exposure for very little cost.

Council can and should work a project plan for the balance of the site to include and extend the motor racing base it has now. You cannot buy the history this site has!

Options 1 and 2 suggests that at least 25,000 people will attend a concert venue. Moving 25,000+ people requires a lot of infrastructure for ingress and egress at massive expense. With Mt Smart, Eden Park and Spark Arena all in Auckland and functioning as concert venues, what business case has determined that a stadium at Western Springs will be viable?

Councillers of Auckland, you now have the responsibility to determine a 96 year old venue's future. You can enhance and improve it and keep it going for another 96 years, or you can shut it down and be known as the persons who did not care for an important part of New Zealands history enough to close it and replace it with a piece of infrastructure that is costly and under-utilised.

The Auckland Arena option ticks boxes for sports and festival needs for the area. There need to be more public swimming pools in Auckland so that should also be considered for the space too. Pools in Auckland Central are overcrowded and have wait times of up to an 1hr to get in during busy times.

I just think we already have a lot of area where we can have concerts and entertainment, like spark Arena, Ericson Stadium, Eden Park. I think we need to look at the new proposal from Auckland FC. As a ratepayer, it'll be nice to get some private Money and let them do something with Western spring. Auckland FC will not shut the public out from the venue as they rely on the public coming to the game. I think private Money would be great for Western Springs because they have the funds to invest because they know that that have to spend money to make money. I think Auckland council should focus more on Eden Park and our other sports and entertainment. Venue that needs upgrading and let Auckland FC take care of our Western spring, but they also cannot

kick out Ponsonby Rugby, it has to be part of the deal. I played at Ponsonby for a very long time and that's my club And I'm pretty sure Ali Williams wouldn't want to see his rugby club as well because he's a Ponsonby man move out of Western Spring. Auckland FC would do a great job with Western spring.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Give Speedway a long-term lease.

Give speedway commercially successful operating conditions.

Change the WS Stadium Unitary Plan to help speedway like they did at Eden Park to help concerts.

Speedway can be part of a multi-use situation with concerts can and have worked with rugby at the stadium.

We (stakeholders/fans/the people) were never consulted with before this time and should have been.

I'd rather see my ratepayer money spent to have speedway at Western Springs Stadium than a lot of the things the Council currently spend the people's money on.

I have seen how this issue has been handled and I don't agree with it and have lost faith in the council staff and many councillors.

Most Aucklanders I know want the same as me.

Support save our speedway 100%

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

1. The Zoo, MOTAT and Western Springs lake/park are all Council facilities. It makes sense to keep Western Springs Stadium as a Council/community facility rather than have it in private ownership (as per the Auckland Arena option).

2. There is no feedback available as to how those living in and around Western Springs feel, given whichever development chosen will impact significantly on them, not just the development of the facilities decided on, but long term. In my view, the bigger stadium proposal (Auckland Arena) will likely have much greater impact, while bringing little enhancement to those living nearby or their properties in the long run.

3. There is little indication as to how either proposal would handle the volume of traffic generated by the events they indicate. There is little room for expansion outside of the site. Public transport is good but simply not geared to the numbers indicated, especially if they coincide with other events at the Zoo, MOTAT or Western Springs. Motorway access is great but would be jammed for big events.

4. While I prefer the Western Springs Bowl option, I do not think Auckland needs another 50 seat stadium for concerts etc. Eden Park already provides this, and does it well. They have also worked closely with their local community to ensure disruption is kept to a minimum.

5. Overall, I prefer the Western Springs Bowl proposal (Option 2), as long as the festival venue part of the proposal is reduced to 20-25,000 capacity.

massive expense to council for option 2 is not reasonable due to other venues in city, option 1 seems like pie in the sky, if the private section can make it work why can't the Council? probably because it's not feasible or realistic. so leave it as it but do it up for more events, if Auckland FC want to move there expanding the grounds for them would be a great idea, if motorsport could be retained that would be great but understand it's hardly compatible with the local residents

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I strongly support Option 1 - Auckland Arena - as the best outcome for both Auckland and the Western Springs community. This proposal delivers a purpose-built, centrally located stadium that meets the needs of modern professional sports teams, while also creating a vibrant facility that can host concerts and provide benefit and amenity to the local community. Unlike Eden Park (too large) or Mt Smart/North Harbour (too remote), Western Springs offers the ideal location for a fit-for-purpose, accessible venue - particularly given its proximity to the planned rapid transit

corridor along the Northwestern Motorway and the improved city access enabled by the City Rail Link.

Option 1 also represents the most financially responsible approach. With $200-$300 million in private investment and no ongoing operating or maintenance burden for ratepayers, it delivers significant public benefit at lower cost. The inclusion of community courts, training fields, and public amenity upgrades will enhance daily use of the park while transforming the site into a genuine civic asset for Auckland.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1 is a ready to go, fully funded proposal. So the Council should ask why are they thinking about stopping it? Option 2 is a hypothetical that doesn't have commercial backing, and might never happen. Option 3 is wasteful as it would mean there is an empty speedway doing nothing, which is unsuitable for public enjoyment. I feel the Council made a grave mistake with the Eden Park/Waterfront Stadium vote, as all that achieved was to effectively kill off the only private sector proposals, in favour of an unbudgeted upgrade plan reliant on public money that doesn't

seem likely to be approved from central government. To avoid making the same mistake, Council should encourage the ready to go private proposal.

The one change I'd make to Option 1 is that the stadium grounds should be open to the public when it is not being used for an event, similar to the local stadiums in Sydney (Leichhart Oval, Brookvale). As otherwise the public would lose valuable park access to private interests.

The stadium development in Option 1 should also consider how it can accommodate Western Springs events like Pasifika and other community gatherings.

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I was raised in the area as a child and grew up to the sounds of the moneys and the lions in the morning, the steam train and speedway. It's what makes the area unique to any other area. I've also always known it to be the home for Ponsonby Rugby Club. It's wrong to take the stadium away from what grew it.

Ponsonby Rugby Club should be given the opportunity to re new its lease and Speedway should be allowed to entertain here too.

If resident don’t like it, there are plenty of other areas they could move to that doesn’t have the privilege to be surrounded by these awesome sounds.

The idea of a stadium is completely out of step with the surrounding area, despite the promoters of the stadium saying it will ensure a "working precinct". Western Springs has a long history of being a natural community hub, and community and cultural participation must be preserved. The association with the Ponsonby Rugby Club is completely appropriate, and the long history of musical and cultural events must be preserved. Dont worry about the cost .. adding another stadium will certainly become a drain on the ratepayers, and seriously, when Auckland cannot decide what to do with any stadium, why would you add another one? To add you must bulldozed something existing. The Auckland Football Club can play at North Shore Stadium. I have one

complaint .. when the pine trees that defined Western Springs were removed, the Council said that they would be replaced by native trees and bushes. This has not happened. To me the area has been destroyed anyway, don't destroy it any further. On the cultural side, develop it more as a permanent venue for Polynesian and other ethnic cultural events and performances.. This is a huge opportunity.

I think Option B is a more well-rounded proposal with better public value for Aucklanders. The publicly funded costs are higher, but spread over a long term, I don't believe this should be a detractor. Option B combines more facilities for a wider range of people, including facilities that are not available elsewhere - a large concert venue with direct public transport links in the immediate vicinity would be a huge boost to the city AND economy - New Zealand struggles to attract touring artists because of a limited variety of decent venues, or limitations on existing venues holding concerts (e.g. Eden Park). Touring musicians boost the economy of places they visit significantly, bringing people to Auckland from all over the country.

Alongside delivering something ‘new’ for the area, Option B would be great for the sport community - it provides improved sporting facilities and recognises Ponsonby Rugby Club’s long standing home at the grounds.

Option A relies heavily on private investment, which means there is significant profit incentive for the works that will not be fed back to the community or ratepayers.

Additionally, Option A will benefit fewer people and focus on facilities that are served elsewhere. It seems a “gold-plated” project - delivering highly specialised facilities at high cost, but I don’t see evidence in the proposal that this would attract as many people, especially considering that there are a range of similar indoor sporting facilities across Auckland. There are also other sites that this project could use, were it considered a worthwhile option.

We want Western Springs Speedway to stay at Western Springs. It is iconic to the area and I am fed up with the Council changing the area for monetary gain mostly for others. For example Chamberlain Park and Unitec and now they want to do the same for Speedway. Try closing down the Golf Club in Remuera.

It is the best venue in Auckland for concerts/festivals - spark arena is sterile - i would never go to another concert there because it has no soul. Western Springs has tradition history and is easily accessible.

Why break the tradition of a great rugby club.

It feels like change for change sake and driven by the wealthy minority

This area is an almost strictly residential. While input from the whole of Auckland is important, those areas directly affected must be given a higher priority for their feedback. It is very easy to vote for something that will not affect you personally. This arena is in a very difficult place for traffic and the current plans for high traffic have a major affect on surrounding suburbs. The closures of parts of Gt North Road, the motorway off ramp at Western Springs, Bullock Track and any detours affect a number of areas especially Pt Chevalier. With the off ramp at Western Springs closed a large amount of traffic take the next off ramp and try to circle back up Gt North Rd leading to traffic jams on that road. With buses only allowed down Gt North Rd from Grey Lynn that traffic follows detours to come down Meola Rd and blocks that road and Pt Chev Rd as well

because Gt North Rd is blocked. As Pt Chev is a peninsula, There are only two ways in, Meola Rd and Gt North Rd. and both get blocked trapping residents wanting to get in or out of their homes. This also creates a major risk as emergency vehicles cannot get in.

An independent organization needs to do a thorough Impact Report on any option chosen to ensure all Auckland ratepayers have the same right to be able to leave or return to their homes. After the last changes to Pt Chev Rd and Meola Rd this is even more important as it has already reduced that ability.

This arena is in the wrong place for higher use. Sell it and turn it into a residential area with off street parking.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I'm a fan of music and music culture, and I think it can bring communities together. I'd love to see this venue attract more touring artists and to have more quality music events on offer to Aucklanders. I'd also like community sports to continue in the area as they were.

Western Springs is a unique natural amphitheatre and fantastic snd iconic space for concerts. It maximises available green space, is fully accessible to the public and should be treasured for the unique venue it provides. We are already short on green space in our growing city, and with population increases this amenity is in increasingly short supply. Please maintain as is to keep its unique character intact.

The natural layout and diverse use of Western Springs as it stands is a jewel in Auckland's crown. An enhancement along the lines of permanent staging and which makes use of the natural amphitheatre and openness of the land is vital to retaining the character of the park. It should remain in public ownership too, leasing it to entirely to private entities and remove the access to the likes of Ponsonby Rugby club would be a shame and a further misstep into the hole of privatisation and sterilisation which our country needs to be very wary of falling into

Member of Ponsonby rugby club and live overlooking the stadium. The club needs a home but the clubrooms and fields need alot of work. The fact you can't see the field from the clubrooms is ridiculous, it either needs a second story or complete rebuild. The fields need a lot of work done on drainage.

This area needs reinvestment we can't just keep sitting on it and wait for something to happen, option 1 gives a great boost of investment into this area. Whilst I personally like the idea of Option 2 better being more of a festival goer. The idea of it costing up to $100 million more where we are already struggling to invest in the most basic infrastructure is a tad daunting. Option 3 is just silly if there is going to be private investment to spruce up the area why on earth would we turn it down.

Affordable, community facilities are critical to ensuring a healthy, active community in a growing Auckland. Existing spaces must be preserved and supported, given the population only increasing and available spaces will reduce.

There should be strong consdieration of the environmental impact of the difference options, and I would assume the Western Springs Bowl offers more green space, less paved area, and therefore a lower environmental impact, including strom water drainage - this has got be a critical part of the consideration.

Further, Option 2 needs to be more specific on other physical activity facilities, there is too much emphasis on Rugby, however fields can be used for many purposes, and additional features suchs as half basketball courts, sand volleyball courts etc, could be developed at a relatiively low cost to make this optoin even more attractive as a community facility.

Having a large scale outdoor arena will attract more bands, musicians and festivals to Auckland. There currently is not a suitable large scale venue available, given Eden Park's limitations with how many music events they can book per year, and Spark Arena simply isn't large enough. Mount Smart is too far out of town with minimal transport options.

Auckland doesn't really have any natural amphitheater venues and could absolutely use an updated venue for live music and cultural events. It has an amazing history of hosting iconic artists and carrying that on into the future ensures Auckland remains a location overseas acts love to perform at.

We have enough stadiums, western springs is a much needed venue in the entertainment industry, there is very few spaces with the accessibility and infrastructure available to support events of the 10-50k capacity size. A new stadium will likely make this venue inaccessible.

Because I love Western Springs as is, and have attended many events there over the past 10 years. I feel as though this is a lively, and historic part of Pt Chev and surrounding areas. Having lived in the area myself for many years, and have been to school in the area also. It is a special place, that deserves to stay.

I don't believe that Western Springs would be an ideal home for Auckland FC as it has poor train connections and no hospitality nearby. The concert bowl is not a bad idea but building an additional 5,000-8,000 seat stadium would not serve any sport particularly well, given that provincial rugby does not draw crowds in Auckland any more and it would be too small for either Auckland FC or Super Rugby. It would make an excellent test cricket venue, however, as Auckland does not have one of these and it could also be used for provincial cricket.

What would make a lot more sense would be to redevelop the #2 ground at Eden Park into a 15-18,000 seat stadium and make this Auckland FC's home ground. It would also serve to host Super Rugby matches and for finals or larger game could easily be transferred to Eden Park's main ground. The bonus of this location is its proximity to the Kingsland train station and the adjacent hospitality areas of Kingsland and Eden Quarter. It also has very good bus connections and would tie in well with the CRL operations, which will be up and running by then.

As a UNESCO City of Music (https://www.aucklandcityofmusic.nz) Auckland desperately needs a suitable place for large music events. Sport Stadiums like Eden Park are not designed for concerts and accordingly deliver a poor experience in terms of sounds and fan interaction and incredible cost in terms of setting them up for concerts. With the costs of international touring increasing, many international artists are leaving New Zealand out of their global touring schedules and Aucklanders are missing out. Having a dedicated concert space in Auckland with the fundamental infrastructure and staging in place will ensure that Auckland is a viable and reliable city to attract the world biggest artists.

Submission on behalf of APRA AMCOS NZ.

APRA AMCOS represents over 115,000 songwriters, composers, and music publishers across Australasia. We advocate for the rights of music creators and ensure they are compensated when their music is performed or broadcast in public. As an organisation we are deeply invested in the cultural and economic vitality of New Zealand's music industry, particularly in Tāmaki Makaurau Auckland given it is our largest market (and where we are based) and as a result we have a strong interest in the future of the Western Springs Bowl.

Our strong preference is for Option 2.

Western Springs is unique asset for any major city — a large-capacity, centrally located, easily accessible natural amphitheatre. The Outer Fields of Western Springs offer something just as valuable — a spacious, flat, multipurpose green space in the heart of Auckland.

Together, these sites form an extraordinary urban asset. Few cities in the world are fortunate enough to have a natural amphitheatre of this scale and character. Those that do — like Los Angeles with the Hollywood Bowl or Denver with Red Rocks — protect and celebrate them as cultural landmarks, weaving them into the fabric of the city's identity.

Auckland is a UNESCO City of Music, part of the UNESCO Creative Cities Network, which promotes cooperation among cities that have identified creativity as a strategic driver of sustainable urban development. The Auckland Bowl can be a physical embodiment of that commitment — a world-class venue that amplifies our city's musical and cultural identity.

In our view Option 2 is a thoughtful, low-impact development that respects both current and future uses. It has the potential to become a defining feature of the city — a place that sets Auckland apart from every other city in the South Pacific.

This is a rare and powerful opportunity. Auckland has something truly special. Now is the time to protect it, elevate it, and make it a proud symbol of our creative future. That is why we support Option 2 for Auckland and music loving Aucklanders.

To use this public taonga for a further football stadium, where Auckland has an excess of underutilised stadia already is ill advised. Even as home for Auckland FC it is obvious that the current plan is not large enough to suit the current demand.

We urge Auckland Council to not make further poor decisions around stadium that take community assets out of the hands of Aucklanders for the next 100 years.

I have been attending events at Western Springs for nearly 30 years- including Speedway, sports games, local and international talent, cultural festivals and the use of Motat, The Zoo and surrounding parks, lakes and walkways. This space is unique to any other in Auckland, it offers opportunities for a wide range of use, access to many communities and is non intrusive to surroundings. I believe choosing option 2 allows the above to continue at a high quality while remaining true to the people who, like me, have used this space for years gone past; the diverse cultures, ages, communities, talents, teams and individuals would benefit hugely from this option.

Western Springs is a unique part of Auckland. No other park, sports ground or entertainment venue has the character of Western Springs, largely due to the natural amphitheatre and park surrounds. Option 2 seems to be the only realistic option that keeps the rugby club and the natural amphitheatre in use. Option 1 looks to me like it will result in a bland, cookie-cutter series of grey boxes, losing all of the natural character. It also seems pretty risky to be building a facility

heavily based on a one-team soccer club, with only one season behind it. Ponsonby Rugby on the other hand has decades of history, many teams, and a real link directly to the community. The rugby club effectively provides rugby teams for the local primary and intermediate schools, as well as senior teams. If the rugby club moved to Cox's Bay it would suffer a serious loss of amenity in not having it's own proper site.

For large music events, it would be impossible to replicate the atmosphere and capacity of Western Springs. I've been to big concerts at Western Springs, Eden Park, Spark Arena and other venues internationally. Nothing matches Western Springs.

Auckland (and NZ in general) has a sad history of preferring the mundane over the unique. You can build basketball courts anywhere. You cannot replicate what is at Western Springs, and once it's gone we will never get it back.

Western Springs Stadium is an incredible venue for music, and it would be a shame to change this. It is a vibrant and safe venue, and has so much potential for future concerts and festivals. Auckland has a lack of mid sized music venues as well. There is quite a drastic jump between the 2k offered by the Town Hall, to the 12K offered at Spark Arena, potentially limiting the options for international acts. Having a venue in the middle, at 5-8K, as well as the potential to host 50K people for festivals such as Laneway (which has had great success at Western Springs Stadium in the past), would be incredibly beneficial for Auckland, and New Zealand as a whole's local and international music offerings.

I have loved going to festivals and concerts at western springs - and I would love for this to be continued in the future. By expanding the concert space, this gives more overseas artists a chance to come to NZ and have a venue to capacity other than eden park. If this is not possible, keeping the stadium how it is at the moment would be the next best option.

Its actually an asset to have a spacious largely grassed venue, something this rare should be treasured not trashed with concrete. First two options are overkill, probably ugly, do nothing for Auckland's depleting park space (as we infill every back yard), reek of exclusion and likely to cost ratepayers a fortune (eg we know an estimate as broad as "$48-$107 million over 50 years" will be absolutely not be 48m and more likely be double the upper range ie $214m) and/or result in a potentially huge liability to ratepayers when things go wrong as they invariably will. We have so many examples of budget blowout and failure (eg North Harbour) Im rather horrified the council is

even considering options 1 and 2. Its like we've learned nothing. Auckland is not the place to entertain such expensive follies.

Option 1 is a total no brainer as Auckland City FC can have a home ground, in a state of the art multi-purpose stadium that fellow Auckland Ratepayers own and don't have to pay for. I would prefer to see a 25,000-30,000 seat stadium, not merely 12,500-15,000 as football is very popular and such a small stadium would see many Aucklanders miss out. Ponsonby Rugby Club used to have many thousands watching every week, but times have changed, they are unfortunately a financial burden on ratepayers, and like Speedway they need to move.

Land gifted for zoo or speedway use if speedway was allowed by council to run a full season and was guaranteed 5-10 years at our current venue there would be less cost to council that the many millions of dollars needed to move . Waikaraka park would need 30 40 million to make it work there are soccer fields there now create a stadium there for AK FC

Western springs should be kept as a music and festival venue. don't like that ponsonby rugby gets to lease it as football could also utilise the facility.

Auckland FC needs a home. Mount smart should be upgraded to suit both Rugby League and Football with the surrounding area also upgraded as the local footpaths, parking and public transport options are badly lacking.
