Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

We live next to a dog off leash park and have witnessed growing numbers of commercial dog walkers who have many dogs off lead and clearly have no control over them - dangerous for the other single dogs, children and people walking in the park. 6 dogs where 3 are off lead is possibly too many in some cases.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

I think the dog bylaw is probably one of the policies that get the most emotive feedback! Well done to the team!

I am a responsible dog owner, I previously had a responsible dog owner licence.

Where the current system fails, is the response from animal management. I know they have a big area to patrol, however my two experiences of making complaints are laughable.

The first occasion, I had a large angry dog charge me from an address opposite where I was walking my dog. I didn't manage to get a photo as I was holding my dog and shouting at the errant animal. I phoned animal control immediately. A caller returned the initial call, and took details. Two days later I was sent a text asking if the dog was still there... not really a "response".

The second complaint I made was at the same place. An animal control officer called several days after the incident, then asked for a statement. The animal control officer then advised that no dog was seen at the property and the complaint closed. I now had a cell phone number for the officer, and after the date, sent photo's of the offending dog unrestrained in the same area.

Animal control needs to be responsive. They need to be out and about when people are walking. They can't be solar powered and always work office hours. The responses I have had mean I no longer report animals wandering (which are regular in my neighbourhood).

Any policy like this needs a responsive and actual enforcement approach if its to be effective. A proactive patrol approach could also be worthwhile. My area is littered with roaming dogs, and it really does not seem like there is a proactive (or even reactive) approach to enforcement.

Keep in mind that responsible owners will be appreciative of being able to exercise and socialise their animals. We are good people, and sadly the less responsible dog owners let the good owners down.

I do not support blanket rules that appease the vocal minority who just don't like dogs, but I also note the futility of a policy when there is conceivably very little enforcement.

For educated and well versed dog walker this should not have been an issue, especially when in deciding which dog to go on- or off-lead. I think we need to look at registering/licensing walkers/ trainers to hold them accountable.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Only change the off-leash area to north of the rose gardens before 10am and after 5pm (on-leash between 10am and 5pm)

Tell us why

My young kids and I have been confronted by many off-leash dogs at this park, and NONE are what I would describe as "off leash, in control" as the owner has been yelling at the

dog to "come here" and the dog obviously just ignores the owner. I seriously doubt any owner actually in control of their off leash dog if it sees something like a small child or animal and this is scary for the child and animal!

I do not support the proposed change

Tell us why

I do not believe there is any such thing as "under control off a leash" when the dog is intent on chasing down a young kid, or their ball, as owners yell at their dogs to stop and the dog NEVER does, my kids have been charged at by dogs and had their soccer balls destroyed and completely terrified by dogs that were supposedly "under control off a leash". I do not support any of this in an area where there are likely to be young kids.

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Kohimarama Beach

What local board area is this location in?

Ōrākei

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

All of the above. Rude owners yelling at me and my kids if the dog charges at them/steals a ball and if we call them out on not obeying the rules. Entitled dog owners.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

This beach is so crowded now that it is very difficult to avoid dog faeces and awful rude owners with their dogs off leash and not under control, my kids have been charged at multiple times. Furthermore, dog owners seem to think everyone loves dogs, they all say "well I can tell you're not a dog person" and the reason I'm not a dog person now (I love all animals actually) is because scary dogs have charged at my kids and ruined their play toys!

Location 2:

What is the full name of the location where you want to change the dog access rules?

Rutherford Reserve

What local board area is this location in?

Ōrākei

In general, how would you like dog access at this location to change?

Change the current rule to prohibit dogs

Tell us why

Do you want the change to apply to the entire location or a section of it?

Entire location

What is the main reason you want to change the current dog access rule?

Entire locationowner ignoring rules, dogs not under control and charging up to kids at the playground, aggressive dog owners, dog feaces, menacing dogs, nuisance dogs**Entire location**

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

There is a playground at this park that is not fenced off from dogs. Meanwhile, even though the rules specify dogs must be on leash at this park, most dog owners see it as an off-leash area to exercise their dogs, resulting in out of control dogs coming up to kids

and frightening them on the playground. Moreover, the field should be used for sports yet there is dog faeces everywhere. Any comment made to dog owners to obey the rules is met with hostility. My kids are frightened of dogs as a result of big dogs constantly approaching them and scaring them.

Location 3:

What is the full name of the location where you want to change the dog access rules?

St Heliers beach

What local board area is this location in?

Ōrākei

In general, how would you like dog access at this location to change?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

Tell us why

Do you want the change to apply to the entire location or a section of it?

Change the current rule to prohibit dogs

What is the main reason you want to change the current dog access rule?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:owners ignoring rules, dog faeces, threat to children wellbeing and safety, dogs not under control, too many dogs

Please explain your issue in more detail:

Do you have any further comments about dog access rules at Regional Parks?

This is a highly populated area now and people are very lazy with the rules, resulting in children being threatened by dogs, adults who say something being threatened by the owner, constant threat of stepping in dog faeces. It's really difficult to enjoy the beach when it's overrun with dogs that are clearly not under control by their owners.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

There are some incredible pack walkers who can handle many dogs off lead at a time, BUT there are too many stories of some dog walkers that just cannot... maybe more regulations for dog walkers would help.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Auckland Botanic Gardens

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Will be really bummed to loose water way access. This is a great place to take dogs for a refreshing swim in the shade in the summer and winter time. We love spending time here - would be sad to see this change as there are already not many places dogs are allowed

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

Tell us why

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I've walked 10 dogs daily for more than 4 years and the only incidents we've encountered came from unregistered roaming dogs (should be the real focus here).

Limiting the number of dogs would completely change the structure of our services, negatively impacting all of my clients. My clients have been messaging me concerned about what this might mean, they pay to have their dog out of the house for the majority of the day, making it a healthy outdoor alternative to daycare. This simply wont be possible if I have to split them into groups across multiple walks, leaving many of my cleints dogs stuck inside their apartments most of the day while the owners are at work.

Either that or you'll force walkers to grossly raise their prices in an already expensive industry. Particularly poor timing to jeopardise our income of 'proper' walkers at a time when inflation and redundancies seem to be at an all time high too.... I'm self employed, this would greatly affect my income and work hours so I'm not sure how you'd expect the larger companies to continue to employ staff.

These changes will only drive the hard working, law abiding walkers away... how will that be any good for the industry? The dogs absolutely love their 2 hours of highly supervised "freedom", 3 dogs maximum off leash would totally change the dynamic of our walks for the worse.

I understand the idea behind it but this is not the solution. Auckland is already barely dog friendly compared to other major cities, you cant continually remove access to certain areas without opening access to spaces we CAN actually use. So many dogs were introduced during covid, these dogs need space to roam and the walkers like myself who ARE careful shouldn't have to double their workload and expenses for no apparent reason.

Communicate with us so we can all come up with better solutions, we have our boots on the ground and know the industry best so council has the duty to best inform themselves on the situation before making drastic changes.

I invite anyone from council to join me for a day to see how a proper pack walk is conducted!

Thanks for your time

You are limiting families to enjoy the gardens with well behaved dogs eg not allowing them in the children's garden or cafe outside areas/ food concessions eg can't get icecream/ coffee if have family dog with kids. Why ban dogs from banks of waterways? I understand if they are bothering wildlife but if it's a leashed area and they are under control I don't see the need for it to be prohibited.

We visit the gardens regularly and never use the off-leash area. Our dog is well behaved, we respect the gardens and feel the proposed rules will hinder family enjoyment.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Ambury Regional Park,Auckland Botanic Gardens,Hunua Ranges Regional Park,Long Bay Regional Park,Mahurangi Regional Park,Muriwai Regional Park,Pākiri Regional Park,Shakespear Regional Park,Tāpapakanga Regional Park,Tāwharanui Regional Park,Te Ārai Regional Park,Waitawa Regional Park,Wenderholm Regional Park,Whakanewha Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Dog owners struggle to find places to take their pooches on a sunny summer's day. I have taken my dog to some of these reserves such as Tapapakanga where she has laid under the trees and swam at the beach with us and she has been in heaven! She's a very small well-trained dog who doesn't bother anyone, and there are only a few people who drive out to that beach. We need some designated zones that give our furry friends a haven to enjoy nature away from the city centres.

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

I do understand the need to limit dogs per walker (the case of dog walkers being attacked in the UK are cases to consider). I don't see the logic behind having a limit of some on and some off lead as this combination is more likely to be an issue. I would say a reasonable limit of no more than 8 dogs per walker with an expectation that those dogs are under control and in an off leash are if off leash. As with any business you hold them to account. If a walker is repeatedly reported to have dogs off leash and out of control then they should be restricted or limited. Perhaps licensing dog walkers?

My suggestion would just be to limit to 8 dogs maximum and allow the walker to choose how to manage those dogs (in terms of all, some or none off leash)

Maximum 8 dogs with 8 being off leash. This is to allow responsible pack walkers to walk dogs with freedom without leashes. The whole point of these pack walks is for the dogs to run around and constricting to be on leash defeats the point of the service. Pack walkers should be licensed so them are deemed responsible and if not their license revoked.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Tell us why

As a dog owner, establishing a maximum makes a lot of sense and ensures the dogs can be kept under control. I'm happy to set the maximum's as outlined but suggest they are potentially reviewed and reduced if necessary. It's hard for any dog owner to have 3 dogs under their control off leash.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What local board area is this location in?

Ōrākei

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

Some owners simply do not care about others.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Owners don’t care. If you point out they are breaking rules then I’ve seen aggression

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

While I understand why the proposed change could make sense in certain situations, a number of professional dog walkers use council off-leash areas to walk multiple dogs at once. This change would make dog walking and dog ownership more expensive. The dogs who are walked regularly by professional walkers while owners work are not the problem that this change seeks to remedy, but they are the ones who it will cost if it goes ahead

I advocate for being allowed dogs under control and on leash in more of aucklands regional parks and within more areas of aucklands regional parks. Walking and hiking in Aucklands regional parks is a perfect activity for having canine companionship. There is plenty of space for everyone and when dogs are under control on leash there is little room for that to be problematic to anyone. Currently the options for getting fresh air and exercise for dog owners in Auckland are already incredibly limited. I do not support limiting this further. Again, the emphasis should be on policing and preventing nad dog ownership, not making it impossible le for good dogs and owners to enjoy wholesome, healthy activities in our own neighborhoods.

Organisation (if applicable):

Local Board: Ōrākei

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Dogs are great

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

What do you think of this proposed change?

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Kohimarama beach

What local board area is this location in?

Ōrākei

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

Currently can’t walk dog off leash before 10am in the summer - but the demand is huge. And nice for dogs to be able to run while the beach is quiet.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

I would support 6 dogs on or off leash, in off leash approved areas

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Do not support

Tell us why

I have a well trained large dog.

Some people may regard it as menacing because it is large. Especially if they are uncomfortable or scared of dogs.

For example I was in a dog park where 2-3 large dogs were playing, wrestling, growling barking. But tails were up, dogs were playing.

But owner of a smaller dog felt the dogs were fighting. He was wrong.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

If there is a decision to be made after a member of public complains about being menaced then an approved dog trainer could make the determination

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Support

Tell us why

I know several people with 2-3 large dogs all well behaved.

But again a good trainer would be able to make a determination

Clarify how dog access rules are set:

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

This question is badly worded.

I am ok with review of policy, but I do not know what this means. I suspect will be to restrict dog access to all areas.

I don’t know

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I do not know what the right number is when it comes to "pack walking" as I have seen pack walkers have no control of their dogs, dogs being all squashed together while walking on lead with all the dogs/pack walker. I have also seen pack walkers who are trained, who do small groups and have great control over their dogs.

I do believe daycares need to be looked at as there are no regulations for the numbers. I do know of daycares that have workers who are not qualified in dog behaviours, as well as not many workers are there to look after the dogs and the day cares are over crowded with dogs.

I do think there are some dog daycares and pack walkers are just in it to get as much money as possible.

Dog owners also believe "dogs need pack walking" and "daycares" without doing research, and thinking that's what their dog needs/the easier option.

Overall limiting the amount of dogs being does not solve anything. Even just walking two dogs at the same time can go wrong. The focus needs to be skills and capability as well as educating dog owners. As well as help reduce the risk of roaming dogs.

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Auckland domain wintergardens

What local board area is this location in?

I don't know

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

Dogs should not be in the winter gardens as it is partially indoors and there is not much room. There are also sensitive plants

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

The plants can be damaged and their is not space for the dogs to roam

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

I do not believe that it is possible to have control of that many dogs when they are off leash, attention must be divided between dogs and it is so easy to miss what a dog is doing because the focus is on another dog in their care

3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

There are dog walkers who need public spaces to walk did for the owners that are unable to. It's a responsible dog owner who organises this additional expense as part of their overall family dynamic to have a dog in their home.

All dogs need to be socialised and they need space to do that, not just a small controlled area but places to run, roll, swim, and be free.

I see professional dog walkers as a cumulative. It's a necessary requirement when both owners need to work.

I'm only NOT supporting the change for the professional walkers.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Don't just clarify. Have more strict rules on the whole and have consequences. People need dogs as companion doesn't mean they take them everywhere and also leave them loose everywhere. People don't carry their fish tanks everywhere they go.

They even let them loose at playgrounds with little children running around and playing. My child was knocked down by a big dog running towards her in full force. Thus is not acceptable.

No Entry to dogs in parks, playground, schools, markeys, beaches and any area that is filled with people. I cannot go out to any of these places because people always think they want to show off their dogs and have them there off leash at all times. Se some boundaries fir them. They shouldn't be allowed other than specific times. They shouldn't even be there if you really can do that. Humans can't enjoy or live freely inbtjis country because of dogs now

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I think controlling any more dogs would be very difficult to do properly.if you are walking more than 6 dogs, it is like a pack walk and should probably be done sonewhere else e.g in the countryside not a public park. 6 is still a generous number.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Support

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

We do not want more meanacing dogs. A dog that is not nuetered will roam more creating risk to the public and other dogs.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

There are people trained in dog behaviour who would give an unbiased , educated evaluation

There are numerous reports of meanacing dogs biting people, usually children and the owners always say ..he was never agressive, they probsbly were but the families do not know the danger signs

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Clearer regulations are important. However it is not clear in the feedback exactly what the rules are

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

Would prefer destruction of menacing dogs. Quite frankly I am horrified at the number of dog injuries I have to treat. I would support owners being held criminally liable for inflicted injuries as well as destruction of dogs that injure people.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Strict limits within built up areas.

Clarify how dog access rules are set:

Support

Tell us why

I would really like to see some emphasis on dog free areas. Currently alll my local parks are dog off lease (with the exception of a steep bush gully with a walkway). It would be nice to have some areas where you are not bothered or intimidated by dogs.

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Support

Clarity is important but again Auckland council has the most lax dog off lead rules, compared to Wellington where dog off lead areas are infrequent and usually fenced off from public spaces.

From a medical perspective it is fair to say that we have an epidemic of dog related injuries. Children are disproportionately affected. These preventable injuries often carry lifelong implications. Our current dog off leash rules prioritise dog wellbeing over that of our children. It is unfair to restrict children’s’ ability to roam and explore safely to designated playgrounds only, while we allow dogs unfettered access to all our local parks.

Please make more spaces dog free or on lead so that we can allow more spaces for our children.

Please also make our cycleways exclusively dog on SHORT leads- weaving free running dogs or dogs on leads stretched across the whole path are a hazard.

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Wording here needs to be clarified that the limits apply per person. Assuming this is PER PERSON I support this because it can be hard to keep track of a large number of dogs. Making sure they're all walking nicely, still have enough energy to continue walking, cleaning up after them etc. I don't believe large pack walks really ensure each dog gets the amount of attention they deserve. I think larger pack walks can lead to dogs having their necks pulled by leads, not being supervised enough to make sure they're not eating things they shouldn't etc.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

I don't know

Tell us why

This statement is really vague - please clarify specifically what changes willl be made.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

I believe neutering needs to be OPT OUT and not the current opt in system for all dogs. That is, only accredited breeders who apply for permits and get regular welfare checks and health checks of the dogs are able to opt out of neutering, while the cost might be higher up front, it would save money in the long run as less resources would be spent caring for and rehoming unwanted puppies and catching roaming dogs. I think to only make neutering mandatory for certain breeds is unfair to the hundreds of thousands of dogs who have litter after litter of puppies in backyard puppy mills.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

Only vets with clear accreditations. I really want to avoid innocent dogs being wrongfully classified and euthanised.

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Support

Tell us why

I think there is a big problem with people not registering their dogs or using loopholes to have multiple dogs on their property (ie registering dogs but registering them under a friends name)

Clarify how dog access rules are set:

Support

Tell us why

I do support dog access in most places but I also support people being able to look after their dogs and train them enough to have them in those places

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Support

Tell us why

We need to be stricter on dogs being left in cars.

Clarify or correct errors in Policy Schedule 2: Dog access rules:

I don’t know

Give me an example of an error.

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

I don’t know

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

Please please consider making neutering and microchipping animals (dogs and cats) opt out and not opt in. Have regulations for breeders and make breeders get permits, and agree to welfare checks and health checks for their animals. The amount of backyard breeders and puppy mills is a major problem and if we are not going to ban breeding flat out we need to define what good responsible breeding looks like.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

The trend to use dog walkers has grown. We have ourselves used such a service in the past. It can be intimidating to other park users if a walker has a large number of dogs. In particular, if those dogs are not properly controlled. I agree with this policy change.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Because I think that if dogs are under control there wouldn't be a problem. Its the CONTROL that is up for discussion in my opinion and maybe the methods of control that need to be revised. I do think that there should be categories of a) people who walk their own dogs and b) people who walk other peoples dogs, whether this is paid or unpaid.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Tell us why

Because I own a dog. I also work for a qualified dog trainer and packwalker. My life has always involved dogs, as does the life of my friends. I want clarity and understanding so that dog owners can enjoy their pets within the neighbourhoods that they live in.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

I don't think that behavioural assessments relating to menacing dogs can be undertaken by one person. There should be a process that involves 2 - 3 contributing bodies, eg a Vet,

a dog trainer/behaviouralist and the Council. This ensures that all aspects are taken into consideration before an action or ruling is undertaken.

Clarify how dog access rules are set:

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

I'd like to see policy provided to every dog owner. Council has details of all registed dogs and their owners. I'd like to be consulted on any major changes. The area I live in, like many, has a huge dog population. If we are unable to access our usual parks and reserves then where are we expected to go?

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

Dog laws in NZ are too restrictive. Dogs and pets are an integral part of family and life and we dog lovers should be able to take our dogs many more places.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

Menacing dogs are a problem, although it’s more the owners who are the problem. The dogs should be neutered to prevent breeding. And this should’ve be followed up with inspections and enforced registration.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Do not support

Tell us why

Auckland/NZ should not be divided in to areas. The rules should apply to everyone and every dog.

Clarify how dog access rules are set:

Support

Tell us why

Owners should be given more say in dog laws. We've noticed that ONE complaint can start the ball rolling for change. This is crazy, there will ALWAYS be someone who complains, to the detriment of everyone else!

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Support

Tell us why

So owners can have more say as to where dogs can go. Having a dog pet should not be so restrictive as it is in NZ. Look at the UK and other parts of the world where dogs can go most places and there is very little problem! Why should we be so restrictive.

NZ is very backward in dog laws and restrictions. We walk the Eastern beach frequently and never see any problems with other dogs. We are more likely to see human problems than canine! In this area dogs are well behaved, well controlled and LOVE the beach. Why should we not be able to take our dogs to the beach at any time of the day or year??dogs are family and should be treated as such.

Thank you for making it available for me to have my/our say. We are very responsible dog owners and have been all our lives. And most we see are..

One of the biggest problems is that dogs are denied access to so many places so they get left at home, alone and lonely, so they start barking or whatever and cause a nuisance. And left in hot cars as they are not allowed where their owners need to go. Etc etc1

I say: Relax dog access laws and do more to control owners!

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Dog restrictions are already SO difficult to know and remember one is always at risk of contravening the laws. It's just crazy how complicated owning and walking a dog is.

These changes are just another example of bureaucracy gone crazy!

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

I've said it all before.

Te Ārai Regional Park

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

Tell us why

Waitawa Regional Park

We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

Just read the proposed restriction!!!

They are so complicated and restrictive I feel there's no point in commenting further.

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Eastern beaches, i.e. Kohimarama, St Helier

What local board area is this location in?

Ōrākei

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

I’ve fully explained what I feel about dogs on beaches in our area. We have NEVER had a problem, humans are more problem than dogs, so why restrict them particularly in summer when they want to cool off in the water.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

i’ve explained this above.

Location 2:

What is the full name of the location where you want to change the dog access rules?

Do you want the change to apply to the entire location or a section of it?

Entire location

What is the main reason you want to change the current dog access rule?

Entire location**Entire location**

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

I'm commenting here as I've heard there are to be more restrictions to dog at Madills Farm.

At the moment it is a great place for walking dogs, we go there very often and have never had a problem. It is a very popular place for walking dogs and we all love all of them.

PLEASE DON'T increase restrictions for dogs at this park. It is successfully used for sports such as cricket and soccer AND dog walking. There is sometimes the odd dog dropping left behind by a dog walker not focusing enough on their dog....BUT VERY FEW, and we tend to pick it up anyway when that happens. We know that it is most unpleasant for people to have dog droppings on sports fields. BUT THIS IS RARE and definitely not a reason to restrict dog walking. It is a reason to police the owners more!

Location 3:

What is the full name of the location where you want to change the dog access rules?

GLOVER PARK

What local board area is this location in?

Ōrākei

In general, how would you like dog access at this location to change?

Organisation (if applicable):

Local Board: Ōrākei

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

There should not be a reduction in parks where dogs are able to have access to / be off leash). I pay my rates, as well as PAYE, so I don’t see why people playing sport should have more “rights” to public spaces as I should with my dog.

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Good morning

What local board area is this location in?

Ōrākei

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

Do not wish to be accosted by dogs and have their excrement harm the environnement.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Dogs are harmful to the environment both directly and indirectly. They infringe on peaceful human enjoyment of the park.

Consider prohibiting dogs from all park locations.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Why has the council removed the restricted hours dogs can be off leas on some beaches eg Buckletons beach. Very family orientated beach. Not appropriate to have dogs off leash during busy summer time 9am - 6pm as it used to be. I am a dog owner & will not let my dog off leash at this time even our bay allows it.

Please allow dogs which are under control by responsible dog owners to have their dogs off leash at Glover Park. I go there every weekday with my dog and very often the park is either almost absent of any other people or has only other dog walkers in it. Our kids play Soccer there on weekends so we understand those times when sporting games are on and we respect that by not walking our dog then or having her on a lead if there. The park is for the whole Community to use and enjoy. It's a great privilege to be able to walk our dog off leash there and we really respect that. I see that of all the other dog people there as well.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I disagree with the current proposed changes to limit people to walking 6 max dogs.

This change will negatively impact my professional dog trainer who walks my dog once a week, by reducing the number of dogs she can walk, meaning less exercise for my dog. This could result in boredom barking at home, annoying my neighbours. This will also impact my dog trainer's business, she'll no longer be able to afford to provide the services she does.

Professional pack walkers should not have their livelihood affected, so this change is not welcomed.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I support the proposal to limit the maximum number of dogs to 6 but I think 'good' professional dog walkers might be able to handle 6 dogs off leash rather than the proposal of 3 off leash and 3 on leash. I would prefer to see some sort of licensing system for professional dog walkers so that licensed dog walkers can walk more dogs off leash.

I do not support the proposed change

Tell us why

I really value being able to take my dog on long bush walks. The Waitakere Ranges are essentially closed to dogs and so I want the Hunua Ranges to stay open to dogs on-lead. I currently take my dog on long bush walks which we both love and I would hate to lose the ability to do that. When on-leash, dogs should be able to go on these tracks.

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:Na

What is the main reason you want to change the current dog access rule?

I would like to be able to do more long (several hour) bush walks with my dog on-leash. I don't think dogs should be allowed off leash in bush areas but think that in lower-risk sites, there should be more access.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

I really love going for long bush walks and would love to be able to take my dog with me (on-leash). At present, there are very limited walks in the Region that allow dogs on multi-hour bush walks. I understand the need to have strong controls in place for high-risk sites but wish there was more access for dogs on leash at other sites.

Consult with industry so they and their customers are not affected by this. Most commercial dog walkers are responsible and can manage current pack sizes such as 8 and 8 off lead. Most walkers do not let dogs off lead unless they can be controlled and dogs must earn this right. This is an important service for many owners and changing law will make it unaffordable to owners and decrease the viability of dog walking services. Instead you should look at having harsh fines for dog walkers that have uncontrolled packs. Maybe walkers should be certified to get an exemption to walk more dogs if they have a proven record of no incidents. There are always cowboys out there which are a minority, you need to target these people not the walkers that are trained and know how to walk their pack.

The current "Policy on Dogs (including some regional and local dog access rules) and Dog Management Bylaws" review is an affront both to dog owners and ratepayers at large. Aside from the added complication, cost, and the reduced amenity this proposal promises to deliver, the entire review process, let alone the probable final changes, is a classic example of excessive regulation in search of a problem.

The premise of the entire exercise is flawed and should never have been authorised or funded in the first place. Further restriction of dog owners' ability to enjoy and exercise their animals is a miserly attitude with virtually no measurable return.

We are a country of animals. The outdoors, our enviable public parks and beaches, and our traditional Kiwi freedom of movement and endeavour do not need fine-tuned. Why ********** it up with extra rules and restrictions which only reduce and limit the public's ability to enjoy these spaces? Where is the positive vision of max freedom to make the most of the beautiful natural spaces available? Dogs (and cows, horses, sheep, and so on) are all part of that tradition.

Please quit fiddling with things that don't need fixing. We don't have justification, time, money, or patience to put up with such blatant self-justifying bureaucratic meddling.

Move on to more important issues.

Thank you.

Submitter details:

Organisation (if applicable): Training with Mady

Local Board: Ōrākei

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I think this benefits the public when walking their own dogs that they aren't bombared with mass groups of off-leash dogs. So many local parks in Auckland have been taken over by pack walkers and my solo dog might get swarmed by a pack of 10-20 off leash dogs, it feels very unsafe

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I am writing in opposition to the current proposed change to the bylaws in respect to walking multiple dogs at once. My dog is currently walked by a professional pack walking company who perform their duties with the utmost professionalism and care ensuring all dogs are well looked after and return happy. The company that I use ensures that all dogs are under control when on or off lead and all current council bylaws are followed. Any dog that does not follow the commands of the pack walker or is too boisterous is put back on leash immediately.

My dog has benefitted by using the service of my pack walking company by building her confidence. She is an anxious dog and her pack has taught her how to be a dog, along with the extra off lead training she receives from her walker. She gets the exercise required for a big dog, so she doesn't get bored once at home and cause issues disturbing the neighbours. Her pack walker has great control over her pack and in the past 2.5 years we have been using this company there has never been a single issue.

If my pack walking company had to make significant changes as a result of this proposed changes to the bylaw, this would probably put the cost up to the point that we could no longer afford to send her on the walks. The point of the walks is for the dogs to explore in areas most of us can't take then during the week. The company may not be able to offer the same great service or well trained walkers if they needed to change the structure of the business.

I'd like to think that most dog walkers are responsible and providing a valuable service of socialising dogs. Our dog goes on a pack walk once a week and it is the highlight of her week. The walker is a train dog trainer and provides excellent training for our dog. It is invaluable.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I wholeheartedly support this change as it's been my observation when out walking my dog that few of these dog-walking businesses have adequate control over the multiple numbers of dogs they are exercising; if there was a fight, an attack or the dogs off-leash take flight the situation would quickly spiral out of control.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Long Bay Regional Park,Shakespear Regional Park,Tāwharanui Regional Park,Wenderholm Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

Tell us why

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

These changes are too loose. The summer season is too short and people are still using the beach and grassy areas way after 5pm in summer.

Give dog owners an inch and they will take a mile. We see it all the time, dog owners flouting the rules and feignin

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Long Bay regional park

What local board area is this location in?

Hibiscus and Bays

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To reduce owner-related problems (e.g. owner ignoring rules, dogs not under control, dog faeces not picked up, etc). Please specify:

What is the main reason you want to change the current dog access rule?

Owners ignoring the rules and dogs being a general pest to others

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Location 2:

What is the full name of the location where you want to change the dog access rules?

What local board area is this location in?

Maungakiekie-Tāmaki

In general, how would you like dog access at this location to change?

Change the current rule to prohibit dogs

Tell us why

Do you want the change to apply to the entire location or a section of it?

Entire location

What is the main reason you want to change the current dog access rule?

Entire location**Entire location**

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Far too many dogs in the Mission bay, Kohi and St Heliers area now. Some mornings you can hardly see the beach for dogs. They are dirty and even if the owners pick up their poo they still wee everywhere and children are playing in the sand.

We need more signs but some dog owners ignore the present rules anyway

The present hours are too loose. A lot of people are still using the beach well beyond 5pm, eg. having dinner on the beach, early and late swims.

Why should our lovely beaches be taken over by dogs in this way

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

As a dog owner, I know lots of dog walkers and this would seriously impact their businesses. They are often talking more than 3 dogs for a swim or forest walk and have excellent control of their 'packs'. Instead you should fine dog walkers who can't control the dogs they're walking or are allowing those dogs to be a nuisance

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Clarify rule that all dogs classified as menacing must be to neuter:

I don’t know

Tell us why

Who classifies the dog as menacing. IF the council is deciding then it is doesn't give the rate payers any options.

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Ambury Regional Park,Auckland Botanic Gardens,Hunua Ranges Regional Park,Long Bay Regional Park,Mahurangi Regional Park,Muriwai Regional Park,Shakespear Regional Park,Tāwharanui Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I support the proposed change

Tell us why

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

I do not support the proposed change

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current Policy (dog access) rules

Tell us why

We take our dog to Botanical gardens regularly on leash. This means we can't walk around the waterways. That is unacceptable.

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Too restrictive. This means we can't take our dog to Hanua Ranges for a hike.

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

What do you think of this proposed change?

I support the proposed change

Tell us why

All you are doing if further restricting dog access. Not one amendment is in allowing more access to dogs.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

I don’t know

Tell us why

Pākiri Regional Park

We are proposing to prohibit dogs on the associated beach (currently off-leash).

What do you think of this proposed change?

Tell us why

Shakespear Regional Park

We are proposing to apply an on-leash time and season rule to the open grass areas between Army Bay and Okoramai Bay (currently off-leash) and clarify rules in other areas (such as boundary of Army Bay and Okoramai Bay beaches, on-leash tracks and prohibited areas).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Further limiting dog access

Tāpapakanga Regional Park

We are proposing to provide off-leash access on the beach and on-leash access on areas between the beach and car park at any time (currently prohibited during lambing season) and clarify rules in other areas (such as prohibited at camping areas and bach, and during lambing).

What do you think of this proposed change?

Tell us why

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I don’t know

Tell us why

Te Ārai Regional Park

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

Tell us why

Waitawa Regional Park

We are proposing to change the eastern part of Mataitai Beach from off-leash to on-leash (western part of beach to remain off-leash), change Waitawa Beach from off-leash to on-leash, prohibit dogs on single use mountain bike tracks and clarify other areas where dogs are prohibited (such as farm paddocks during lambing season, campground and bach).

What do you think of this proposed change?

Tell us why

Wenderholm Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

Tell us why

Whakanewha Regional Park

We are proposing to provide on-leash access on tracks from Omiha (Rocky Bay) to the on-leash area of the Park.

What do you think of this proposed change?

Tell us why

This is a f## joke. All you have done is further restricted dog access to the regional parks and alienated ratepayers of Auckland with dogs.

Maximum four dogs, with no more than two off-leash

Tell us why

I have a dog myself and feel no one person should be walking more than 2 dogs and only 2 off leash in off leash areas if the dogs can be controlled.

Dogs should not be used as a money making business.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Any more and it becomes a health & safety issue for others using the pathways. I belive that managing more than 6 dogs is not achievable. Not all dogs will be obedient and in the event that some are not behaving, it would be difficult for the person to manage all the dogs

If they are under control, what does it change? I have not seen a professional dog walker out of control. They are a pack animal and behave better in numbers with hierarchy. Plus a person could still not walk on the path with 6 dogs so what does it change??

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I'd like to see the numbers reduced further than what is proposed but any reduction is better than nothing

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

I would support 6 dogs, without a restriction of whether there in lash or not. My 2 dogs are exercised 3 times a week by a fantastic dog-walker who walks them off leash with up to 3 other dogs. This is an important and enriching part of their lives. They love their doggy friends and their dog walker, and we rely on the enrichment this exercise provides. If our dog walker is forced to only walk 3 dogs off leash, then she might go out of business, which would be deviating for us and our dogs.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Please consider the unintended consequences of your proposed rule.Dog walking will be much more expensive and many dogs will not be walked as a result.I understand that you have reacted to complaints but should the vast majority be affected by the some irresponsible walkers?Surely you have sufficient powers already to deal with these people.Is it really necessary to punish the responsible for the actions of a few?Think about dog owners who must work to pay the bills who will now be faced with the decision to pay more or just leave the poor dog at home all day.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

i go trail running with my dog and the areas i can go with my dog around Auckland are already very limited. As a solo female trail runner, I feel a lot safer running with my dog and ask you to not reduce the already few trail runs that i can enjoy with my dog. I love Ernies loop for example and would like to enjoy this with my dog - ideally off leash (under control). It is not a heavily used trail and a perfect playground for me as a trail runner as well as for my dog

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Kohimarama beach

What local board area is this location in?

Ōrākei

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:one part of the beach shoud be made dog friendly throughout the day with no restrictions. I recommend the side of the yachtclub as it is the furthest away from the cafe which has the larhest concentration of people in summer

What is the main reason you want to change the current dog access rule?

this area is full of responsible dog owners. we would love an area to take our dogs swimming during the day and enjoy our local beaches.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

There are 3 beaches in the Eastern suburbs and many dog owners. We should be able to share these beaches and make one small portion of one of these beaches dog friendly throughout. People who want to avoid dogs have 2.5 beaches to choose from. The people in this neighborhood are all responsible dog oewners.

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

There should be different limits for licenced and non licenced people.

Non licenced should have no more than 4 dogs. Might need to put a weight criteria on the dogs as 5 pugs will be much easier to control than 2 pitbulls.

Licenced dog handlers should be able to look after 8-10 dogs.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Are there any dog access rules at other Regional Parks and associated beaches in Auckland that you think council should change?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Madills Farm/ Glover Park

What local board area is this location in?

Ōrākei

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to changes at location (e.g. a new playground, sports field, more people). Please specify:

What is the main reason you want to change the current dog access rule?

Dogs are are big part of kids sport and they love going along to support the kids playing sport and should be allowed on a lead onto these fields like they currently are

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

They are currently allowed there and if not the dogs would have to sit in the cars for hours on end while sport is being played which is not healthy for the dog

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

It needs to take into account dog walkers as they are a necessary support especially for working mothers and working families. It's better to encourage dog walkers with rules than have dogs left at home

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Support

Tell us why

As a dog owner myself it can be really difficult to understand rules. Efforts need to be in place to make it really simple and clear, but there must also be enforcement as that doesn't happen now

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

Anything to discourage back yard breeders and especially with breeds that need care

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

3. Dog access rules at Regional Parks

Submitters were able to select from the following list to provide feedback on any of the 14 Regional Parks we are proposing to amend or clarify the dog access rules:

Ambury Regional Park,Auckland Botanic Gardens,Hunua Ranges Regional Park,Long Bay Regional Park,Mahurangi Regional Park,Muriwai Regional Park,Pākiri Regional Park,Shakespear Regional Park,Tāpapakanga Regional Park,Tāwharanui Regional Park,Te Ārai Regional Park,Waitawa Regional Park,Wenderholm Regional Park,Whakanewha Regional Park

Ambury Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Dogs should be allowed at least on leash, it’s a nice place to go for a walk. There are already so many parks and tracks that dogs are not allowed. For some people dogs are part of the family and they go together everywhere. Leash is ok, and people should clean up after dogs. Simply restricting access is “easy” fix, which will be harmful to a lot of people!

Auckland Botanic Gardens

We are proposing to change the off-leash rule at the Auckland Botanic Gardens and to prohibit dogs from all waterways and busy community areas.

A. What do you think of this proposed change?

I do not support the proposed change

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Only change the off-leash area to north of the rose gardens before 10am and after 5pm (on-leash between 10am and 5pm)

I'm extremely disappointed to see proposed prohibited between 10-5. Current on leash rule was perfect, when you can go to a back and enjoy your swim, while you have your dog with yoh on the beach, sitting with the leash. Long bay is the only beach I can go for a swim and as it takes time to drive there, it's worth going for the whole day and I share my time with my dog all the time. Off leash after 5 is fine, so by this time I would stop swimming and chilling on the sun and can go for a walk with my dog. Unfortunately, some people don't clean up after their dogs, but when I see it I run to them with a cleaning bag. Making prohibited during day time will not make this problem go away, ppl who doesn't clean or dont have dogs under control will do it in the morning or evening anyways. On leash during the day is great and allows dog owners to enjoy the day at the beach, and time with best friend/family who is the dog to them

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

As a responsible dog owner, I believe that it's better to keep dogs on leash, rather than just ban them, for some people and myself included dogs are part of the family, and I take

my dog with my most of the time, we already spend so much time in traffic and it’s so inconvenient to go to outdoor activities and leave dog at home and then go to places where you can have your dog with you. I like to be able to combine and go to the beach and be able to take my dog with me, I always keep him on the leash and don’t find it a problem.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

Regulations on complaints about individual people who are responsible for the dogs they are walking. A blanket rule shouldn't be made for everyone. One person could have two dogs and have no control at all, and another person could walk 8 dogs with full understanding of behaviour and have complete control. Regulations need to be made to individuals. A great idea would be to issue a license to walk more then X amount of dogs. And harsher consequences for breaking rules/not having control over dogs or having more than one or two complaints.

My young child was chased by a large dog 'under control off leash' on the beach at long bay regional park. This was terrifying for my child. The dog owner said her dog wouldn't hurt anyone and she added that we need to teach our child not to run from dogs as that would make the dog think the child was playing with it and chase our child more. This is clearly not 'under control off leash' so how can you prevent this happening?

I am a dog owner. Our dog is always on leash at beaches and parks.

Mahurangi Regional Park

We are proposing to prohibit dogs on Culdip Point Loop Track (currently on-leash), allow dogs on-leash at all times at Scott Point (currently on-leash time and season) and clarify rules in other areas (including dogs prohibited at Mahurangi Regional Park (East) and heritage grounds at Scott Point.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

for private dog owners I think this is fine. however, when we're referring to qualified dog trainers who are pack walking, I don't see the issue here. We use one of these services, twice a week to break up our (rescue) dog's day at home, and they are fantastic and have been instrumental in her ongoing training. Could not support them more. There seems to be no explanation why this change is being made or how the number of dogs were arrived at, however, we do know that if the price per pack walk increased, this would limit our ability to use the service - and the only victim would be our dog who is benefitting from the ongoing training and socialisation.

The council barely enforces the current dog laws, why are you now turning on registered dog owners and limiting our dog socialisation opportunities. Focus on resourcing dog control and prosecuting poor dog owners, not further penalising those of us who are good, law abiding dog owners. You are villifying dog owners in Auckland even further.

I had a multiple dog license for my property. My neighbours did not (the rules have now changed). However the welfare laws are so poor that no one seems to care that those dogs are not being cared for adequately - they are not socialised, they are not exercised, they are not leaving the property - EVER. They have been seized by police multiple times so the council is aware there is no multiple dog license - but nothing has happened. Why are we being held to account, but not them? it is nonsense.

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

There are more and more dog walking businesses and they are not trained one person just simply cannot control the amount of dogs they walk at once.. The dogs are in a pack, it one dog kicks off the rest could potentially get involved.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

At Madills farm I do not support the removal of the dog-friendly family amenity provided by the large open run-free space currently available. The proposal covers a very large portion of the open part of the park with a no-access area and will significantly affect the ability of families with dogs to play and run together.

There does not appear to be a replacement open-space area that is dog friendly in the immediate vicinity. The loss of amenity in this area is unacceptable given how many dog-loving families would have moved into the area relying on the dog-friendly play area.

It is unrealistic to keep dogs off grass areas unless they are fenced off from immediately adjacent dog-friendly grass areas. This will effectively reduce the ability of dogs to visit a higher proportion of the park than intended when off leash.

Rather than make laws which affect all dog owners who control their dogs. Police the laws that exist. Just because you have bad dog owners or people walking dogs. Don't take away the rights of good owners because there are bad owners. At the park I walk our dogs , I have not seen a dog warden. Does that mean there is not a problem.

What is the difference between walking a dog under control on the beach and on a footpath. You can do that later at any time.Allthe the ow dogs on the beach off leash up until 10am and after 6pm. The beach I walk my dog on

Is well controlled by dog owners who pick up dog faeces and let other owners know if their dog has left faeces. Sometimes group get into great discussions and may miss the issue.

The dog walk could and is possible the highlight of some people during that day. This is both therapy for the dog and the owner.

Send you dog control officers to the problem area to change habits. Don’t punish good dog owners, change the habits of bad dog owners

Police bad repetitive dog owners. Stroll the areas and talk with owners. I was stopped by a dog control officer who spoke to me about a breach I was unaware of. Very professional, handing out enforcement citations will only be seen as revenue gathering. Take the people with you rather than being pushed before you.

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Need to ensure that Parks don't become the next AT by too much bureaucracy and dictating to people. We appreciate the impressive birdlife variety but these changes are over reach. I'd sooner the Council focus on removing the rabbits and cats at Tawharanui more than impacting the majority of Auckland with controlled and harmless dogs

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Supports dog exercise and responsible control of walker. Dogs off lease are a problem at times. Needs accountability of enforcement if off lease dogs are badly behaved.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

I support the proposed change
B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?
Tell us why
In principle, support the change. However evidence under existing policies show owners mostly release dogs from on-leash area. This causes repeated problems of dogs jumping on, growling, and chasing runners and walkers of all ages. Non compliance with on-leash signs is high.

Hunua Ranges Regional Park

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I think I generally support this - however there could be a licence for dog walking/pet care companies that may be able to manage a higher amount at a time.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Support

Tell us why

I think this questions is a bit pointless - of course we want a clear set of rules and focus etc. That being said I believe that the dog rules should generally default to having almost all areas allowing dogs ON LEAD and only specific areas requiring protecting being an exception to this. SImilarly it should be clear where dogs are allowed off lead and there should be a preference to allowing this than not unless there is a really clear reason why not.

Clarify rule that all dogs classified as menacing must be to neuter:

Support

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Support

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Support

Tell us why

Clarity is always good. I think there should be a default maximum (say 3) but have clarity that certain areas may be an exception to this rule.

Clarify how dog access rules are set:

Support

Tell us why

Clarity is always good. It should also tend to default to being permissive when setting rules rather than restricting without a really compelling reason.

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Support

Tell us why

Clarity is always good - that being said access rules should generally be permissive rather than restrictive. Generally all areas should allow dogs on lead, many areas should be allowed off lead on control and it should be the exception where this is restricted not a norm.

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Support

Tell us why

Same as earlier - Clarity and being error free is always good - that being said access rules should generally be permissive rather than restrictive. Generally all areas should allow dogs on lead, many areas should be allowed off lead on control and it should be the exception where this is restricted not a norm.

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Generally all areas should allow dogs on lead, many areas should be allowed off lead on control and it should be the exception where this is restricted not a norm.

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Support

Tell us why

Yes - rules should be clear - currently they are not always clear and they are generally far too restrictive!

Remove outdated or duplicate bylaw content:

Support

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

I think Auckland generally has policies that are too restrictive and that by default dogs should be allowed most areas as long as they are on lead and in control. There should be more off-leash areas particularly parks and beaches. Restricting dog access should be an exception rather than a rule.

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

It's a small community of dog lovers here on Kelvin Rd and we enjoy the reserve for dog play activities. There would be no issue having dogs off-leash under control here.

Please explain your issue in more detail:

I think it would be more important to check in certain areas of Auckland who has in-registered and freely running around dogs. Some social housing families have lost unregistered pitbull cross dogs on Auckland’s streets. Social housing providers should check more and there should be more dog patrols.

A large number of dogs can be hard to control, no matter how well trained they are. 6 is a good number for professional dog walkers as it still allows them to make money without bein so many they can't control them. 3 on leash, 3 off leash is a fair number.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

We are dog owners and believe dogs walked in packs need to be manageable - too many dogs means less care and less supervision of their well being. Also need to ensure dog walkers are able to pick up each dog's bowel movements.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#1781

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Ōrākei

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

Too many off leash dogs causing fights and poo not being picked up

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

I don't feel dog walkers can comfortably walk more than this while maintaining reduced stress and anxiety in the dogs. It is overwhelming being in a public place with huge numbers of dogs walking towards you all tied up together, or running in all directions. I have to take my dog and leave. These walkers are not required to have any education in dog behaviour or body language/communication.

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Ridiculous idea to limit the number of dogs walking together at 6.

This would limit the activities of professional dog walkers.

You should spend the money targeting other areas that need it more such as responsible dog ownership, education and work on improving the odds of a dog coming out of a council owned dog shelter alive!

You are targeting the wrong people.This idea will only hurt those who show responsibility in the dog community.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

All dogs must be under control at all times says it all. It's not about the number.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current Policy (dog access) rules

Tell us why

No issue with current rules.

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Happy with current rules. Wasting council time with overthinking this as opposed to moving to including dogs in daily life as is managed in many European countries.

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

Muriwai Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Current rules are fine. Wasting time in council over thinking ways to exclude dogs rather than make them part of life as many European countries do successfully.

Pākiri Regional Park

We are proposing to prohibit dogs on the associated beach (currently off-leash).

What do you think of this proposed change?

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Adding unnecessary complexity to rules that are already fine.

Tāwharanui Regional Park

We are proposing to clarify the current rules (no change to dog access).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

Current rules fine

Te Ārai Regional Park

We are proposing to prohibit dogs on Forestry Beach (Te Ārai Beach South to Pākiri Beach) and associated coastal tracks and to clarify access to off-leash area at the disused quarry.

What do you think of this proposed change?

I support the proposed change

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I can see the potential issues, having witnessed people struggling to keep an eye on just 2 or 3 dogs. Inevitably this increases risk of dog litter being missed and dogs interfering with people that may not appreciate dogs. Reducing the number of dogs that can be walked by a single person is a sensible mitigation to this.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

I support this for any general dog walker, because I don't believe that that many dogs can adequately be looked after, and see when they are pooing etc. HOWEVER, I think that a license or permission to walk more if someone is a professional, the dogs are trained and they dog walk for a living, that they can have more dogs.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

I think that dogs can be classified as menacing too easily, such as a dog defending itself especially if it is large can be interpreted as aggression when it is just barking to defend itself if it is being mistreated or bullied by another dog, and displaying normal behavior.

Clarify rule that all dogs classified as menacing must be to neuter:

WHAT DO YOU MEAN BY CLARIFY??? I think that only a dog professional should be able to classify a dog as menacing, where barking or defensive behavior to protect itself if threatened should not allow a dog to be classified as menacing. this should not become an easier process, and should only be done by certified, veternerians dog behaviour experts professionals. QUESTION IS UNCLEAR.

Clarify how dog access rules are set:

Do not support

Tell us why

Dogs need more room to roam, the rules are changing too often, and they are always reduced. dog exercise areas need to increase, more off leash areas are needed. this is why aggressive behaviors are increasing because dogs keep getting packed into smaller and smaller off leash areas. more off leash areas. reduce restrictions. more beach access. access the beach during the summer.

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Do not support

Tell us why

clarifications need to increase off leash dog exercise areas. the proposed changes only decrease where they can exercise leading to more problems. the off leash dog exercise areas need to have more leniancy for dog owners, more hours to exercise dogs when the areas are not in use, such as sports fields and beaches, when they are empty dogs should be able to exercise off leash on them.

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Increase the dog access areas in the local board areas, multiple local boards have no dog exercise areas - this needs to increase not decrease. make more areas where dogs can exercise off leash. clarifications should not lead to more restrictions. dogs need more room to exercise so they are not all boxed into two parks where they are allowed.

To retain access for dogs off leash on sports surfaces when not in use.

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

madills Farm is a very popular off leash dog walking spot, it is the primary use of this park more so than for sports activities. Dogs should retain access to the sports fields when not in use, as is the current rule. There would be very limited space to walk dogs if the rule changed, and the sports fields are very rarely in use.

This used to be the rule and worked very well. This beach is a very popular off leash dog walking area, and is not used by any people without dogs in the early morning or evening. Dogs should be allowed off leash in the morning and evening during the summer time, since no one is having picnics at this time, and children are not around yet, leaving for dinner around 6pm anyway. Otherwise off leash dog space is very limited in the area especially in the summer.

Other (please explain below)

Tell us why

I think there should be some regulation here, and there should be some control on the ratio of dogs to handlers. But there are very good dog walkers and there are poor dog walkers. Rather than applying some blanket rules, I think you should work with the dog walking/trainers to find a better solution. Dog walkers who have actual qualifications such as being a certified trainer, are more likely to be able to handle larger groups of dogs than people with no training.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

I've had my dog on pack walks for years with amazingly skilled walkers, and no issues. Punishing the good operators due to the actions of a few bad operators is not fair.

The woman that had the incident refused training when offered and was extremely arrogant, was known for this in the industry, they all thought she was a ticking time bomb.

Reducing the dog numbers would not have avoided this as she was simply not in control of her pack, could have happened with 2 dogs under her control.

You need to talk to some experts in the industry not make your own decisions on this.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#2014

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

I disagree with a numerical limit on the number of dogs as unruly/ unwanted dog behaviour is more attributed to the owner/ dog handler not the number of dogs. We currently use a professional dog trainer and wholly trust them and have seen evidence of the dogs (where more tan 3 will be off lead) are under control. This is in contrast to having encountered dogs who are on lead and or off lead, a single dog with one person who lacks dog training and control over their dog and witness unwanted an very risky behaviours. The number limit does nothing to target the real issues around training and control. A better alternative to target the "cowboy" dog walkers would be to introduce legislation around licensing of dog walking with help from an appropriate group to determine what criteria should be met. As it stands, this current proposal does not appropriately nor adequately address the issues.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Honestly I think professional dog walkers should be able to acquire a license to walk multiple dogs. They should prove they have some kind of training in dog behaviour/ physiology.

I agree not every Tom dick and Harry should be able to walk multiple dogs but those who are educated and walk dogs as their profession should be allowed

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#2032

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I think that dog walkers should be able to walk as many dogs as they like provided they have them under control. Also, I have never encountered a dog walker with more than 6 dogs anyway. If a dog owner / dog walker had more than three dogs who were obedient I would not have an issue with them being off lead. I don't think a change is needed.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

This seems ridiculous. Dog walkers shouldn't have their businesses capped. I don't understand why dog numbers are being restricted - what are these proposed dog restrictions based on? What data? People should be allowed to walk as many dogs as they please.

There needs to be actionable policy. The off limits beaches along the eastern bays have off lead dogs in every day I am there literally. I may only be there for an hour or so a few times each week and have never seen either Kohi or St Heliers beaches free of off lead dogs. Without enforcement, these policies are meaningless.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

In general, I am happy with a cap for the general public. 6 & 3 seems ok. However, there are responsible dog walking businesses that use some local parks to walk multiple dogs off-leash at once. This would ruin there business.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

There are so many items to unpick here but the survey does not allow me to see what each clarification is. All I would say is that any changes should not punish responsible dog owners. Instead, it should increase the punishment for irresponsible dog owners.

3. Dog access rules at Regional Parks

I'm a lawyer and I used to be Head of Legal and Regulatory at Queenstown Lakes District Council. I low live on Auckland's biggest offense dog park. When we drafted our dog bylaws we carefully reviewed Auckland's for guidance.

The whole core of the dog bylaws is that whether your dog is on lead or not, that you must have "control" over your dog.

It is not possible to have control over 6 dogs especially of three are off lead. I walk my dog every day I the park and none of the dog walkers have "control" over their dogs. Therefore, all these dog walkers are currently in breach of the existing bylaws. There is no way with 6 dogs they can "control" one of the dogs if it runs off, gets into fight or otherwise.

If Auckland Council approves the walking of 6 dogs they might as well scrap the dog bylaws altogether as obviously a person walking six dogs has at most a sixth of the control of a person walking a single dog.

It would also be inconsistent to require a license to keep more than two dogs but allow any untrained person to walk 6 in public places

There is little justification for excluding dogs on lead from any area other the playgrounds and the playing surface of sports fields. It is not fair to exclude 99% of law abiding dog owners due to the 1% who are irresponsible. Auckland Council needs to vastly improve its enforcement against irresponsible dog owners

2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Maximum four dogs, with no more than two off-leash

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Other (please explain below)

Tell us why

Dog walking multiple dogs is dangerous, especially in off-leash situations. As you will appreciate dogs are pack and predator animals who react with fight or flight. It is not their fault when things go wrong. A highly trained dog may not recall when feeling under threat or in a dominant situation, A maximum of two dogs may still be and have been seen to be uncontrollable. Prevention first is a better solution than a dangerous situation arising. If multiple dogs are to be, a law should be based around a lower number of dogs and NO OFF-LEASH walking. There is simply NO way a dog walker can control an unsuspected situation arising if they have multiple dogs on and off-leash. Consideration also should be given to being on narrow walking tracks as there is absolutely NO WAY that a member of the public walking or walking their own dog can get passed and this is a heightened danger zone to the public. Multiple dog walkers should stick to open-spaced reserves, a maximum of four dogs, and ABSOLUTELY ON LEASH 100% of the time to avoid any situation arising. by-laws should be considered around training and annually registering dog walkers and providing guidance if a dog attack occurs, what is the progress, and who is responsible for vet or medical bills. Consideration to be given to enforcing dog walkers should carry their license and present it on demand to a council worker, Dog Control Officer, or police. And these rules are to be advertised and publically known so that victims are not just verbally abused or requested to sort out the issue themselves. A license should be obtained for simply being a multiple-dog walker so there is a record that makes people more accountable for their actions. After all, you need a license to have more than two dogs in a residential property in Auckland which are behind fencing. It makes no difference if a dog walker is switching out dogs. They still have more than two for a lengthy period in their control in a far more dangerous situation. Dogs in a pack trying to sort out their pecking order if the pack is changing frequently. To clarify - these rules should not include dog walkers in their own private rural contained properties - that is a completely different scenario and they should not be subject to the same urban rules. Can you please consider and discuss this? It's too late if a vulnerable person is caught in the crossfire of a situation that has gone wrong.

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

Maximum 8 dogs is understandable, however I think it would be fair for professional dog walkers to be able to apply for a license to walk all 8 off leash as they are providing a service and if they have the proper experience and training can have all dogs under control.

I send my dog out with a professional pack walking company and have done for a year now. He is a 2yo border collie cross not neutered and has had a great experience every walk, comes home happy and well socialised. The company that I use ensures that all dogs are under control when on or off lead and all current council bylaws are followed.

It would be a real shame if rules were to change that I would not be able to send my dog out with this company due to laws changing. Prices will go up and there will be less availability, we rely on this one walk a week to free us up for work meetings and other work related things.

I understand the need for controlling dogs in AKL, as I was bitten in October last year, however there are certain owners who do not take responsibility for their pets. It is unfair to punish us responsible owners due to poorly trained and educated dogs and owners.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

No change to the maximum number of dogs but a requirement for pack dog walkers (over 3 dogs) to have a dog walking and control qualification. Changing the law to a 6 dog limit makes it unviable business which will impact the health and wellbeing a thousands of currently happy dogs who get walked while their owners are at work.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

This is a lot of dogs for one person to effectively control.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

Tell us why

Remove outdated information in Policy Schedule 2: Dog access rules (for example, outdated landmarks):

Tell us why

Update dog access rules for Tūpuna Maunga (ancestral mountains):

Tell us why

Remove outdated or duplicate bylaw content:

Tell us why

Do you have comments on any of the above proposed changes?

Do you have any further comments on the proposed policy and bylaw changes?

there has been no problem with my dogs being taken for a pack walk with responsible dog walkers , it is unfair that these responsible people are being penalised. They are very responsible and considerate and ensure the safety of of the public's c. My dog has a very good outing and as such i don't have to take them myself to a public park. This absurd rule is going to impact sll dog owners and dog walkers in a negative way way! please do not change this regulation,

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

This is unnecessarily restrictive and a disproportionate reaction to the level of issue and complaint that comes from existing dog control bylaws. Many Aucklanders have dogs and this will create further restrictions on their use and enjoyment of our local natural environment. We should put more emphasis on bylaws concerning cats who are actually much more likely culprits in hurting our wildlife, for example.

The absolute majority of dog owners in Auckland are responsible, and the dogs cause no issues but bring people so much joy. Why do we have to change the laws for the small number of people who either don't like dogs or are less responsible with their animals? It is a disproportionate approach. I think instead we should increase fines and consequences for those who are not responsible dog owners.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

8 dogs max on leash, 4 max unleaded unless license obtained. I am unconvinced that someone is able to maintain control of more than this number of dogs at one time. However I understand families with multiple dogs want to take their dogs out and so I think 4 could be reasonable off-leash. I do however think that if a person is licensed e.g. a business, they should be able to take more dogs out as long as they have been screened for competence, as I don't think it would be right to impact small businesses.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#2415

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

My dog goes on pack walks with over 6 dogs with a very experienced dog trainer. Since he has been going, his behaviour has improved, his well-being and overall health is great, and he is a much happier dog. It also allows me to go into work (in public service) and know that he is well cared for and is learning. I also get to support a small business that is run by two very dedicated and professional dog trainers who care for all the dogs as if they are their own. It makes me so happy to be able to give my dog a life that is rich and fulfilling for him while I have to spend some days in the office. I trust that he is safe in their hands wholeheartedly and would be devastated to see their business, that they have grown over many years, destroyed by this. Happier dogs = better behaved dogs. We have far greater issues to worry about with dogs in this city than those that go on pack walks - namely the many unregistered stray dogs that wander the streets in need of homes and care. This is a total misdirection of our councils resources. Please focus on the animals that actually need our help.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

Limiting the amount of dogs won't change anything. There should be a restriction on licensed people/ groups. Our incredible dog walker has never had an incident in the 6 years our dog has been with her. It is people who are out there with no experience ruining it for everyone

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

Tell us why

Clarify how dog access rules are set:

Tell us why

Clarify Auckland-wide dog access rules (for example, rules at council carparks and camping grounds, for working dogs, dogs in vehicles and private ways):

Tell us why

Clarify or correct errors in Policy Schedule 2: Dog access rules:

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

The proposed limit of six dogs (with a maximum of three off-leash) fails to address the real
issues affecting the dog community, such as owners/walkers with no control over their dogs,
and roaming dogs. Instead, it penalizes professional dog walkers who already responsibly handle multiple dogs.

Professional dog walkers play a critical role in ensuring dogs are exercised, socialized, and trained, reducing behavioural issues that might otherwise lead to complaints. Arbitrary number limits overlook the skills and training required to walk multiple dogs safely and responsibly. We need a practical, evidence-based approach that includes consultation with
industry experts, such as the Professional Dog Walkers Association (PDWA), to create effective solutions.

Yew freedom to walk your dogs off leash under control. Summer time beach hours pre 10.00am and post 5pm is fair. Otherwise all times on beaches. Parks are for the enjoyment of all including our furry friends. Dog poo needs to be picked up by owners and heavy fines should apply to enforce this. Facilites in parks to accommodate our furry friends, such as fresh drinking water and poo bags to promote a healthy environment for all.

I am walking my dogs in a number of parks and beaches. I have not seen many/if any problems around the existing dog rules. Times for dogs on beaches and off leash seem to be adhered to. Parks can be a bit loose with dogs off keas but nearly all owners control their dogs.

This is case of fixing what doesn't need to be fixed. Also in a cost crisis adding more rules and more staff to police them is inappropriate and unnecessary.

Leave the rules alone they are working well.

Maybe there needs to be a variation. In place for when certain suburbs or areas have a problem either dogs. An example was when Conifer Grove had problems either roaming dogs. But other places where there is no problem should not be affected by unnecessary changes and compliance. Many communities self police to make sure dogs rules are working. Example, on Manly beach I saw a man kindly remind some children their dog was on the beach outside of dog walking hours. They said sorry and left the beach.

Costs to rate payers and communities are out of control. Only where there is safety, noise and hygiene considerations should changes be made. Fixing what is working well is not necessary.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

As a dog owner I don't know how professional dog walkers can keep eyes on all dogs at anyone time. Dog toileting is not always noticed and therefore not picked up. These changes will help but it won't solve the problem. Dog walkers need to take more care.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Auckland is so complicated for dog owners with all the different rules for different places. The laws keep changing which further complicates understanding. I also do not agree with some rules in particular places and want to know why there are are restrictions in certain areas. I worry that a minority complain of dogs in certain areas and then this leads to complete restrictions (i.e., the minority take precedence over the majority). I like the idea of clarification on access rules.

The current laws are fine. Restricting the off-lead area just reduces the area to walk with the dog off lead with no clear reason given by council for shrinking this area. I understand that you need to keep dogs from jumping in the streams to protect vegetation on the banks to avoid erosion. Perhaps lots of signs along the banks telling dog owners to keep their dogs out of the streams would be appropriate.

Hunua Ranges Regional Park

I vehemently disapprove of this proposed change. There are very few places to go hiking with your dog in the Auckland area, and this proposal takes out all of the walking tracks around the upper Mangatawhiri resevoir. What is the reasoning for this change? This proposed change will greatly reduce the areas to hike with your dog in the Hunuas. You hardly see any dogs on the tracks there anyway, so why is this is a problem? If the dog is on a lead what harm is there?

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

Pakiri beach

What local board area is this location in?

Rodney

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:Allow dogs off lead to the right of the estuary where the main swimming area is supervised by lifeguards. The left of the estuary could remain banned to allow protection of the birds.

What is the main reason you want to change the current dog access rule?

Allow owners to take their dog to the beach with them for a day activity.

Please explain your issue in more detail:

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

There are no beaches on the east coast in the Auckland area where you can take your dog to enjoy a day at the beach in summer. Pakiri used to be the only beach where my family could visit with the dog in summer. That ability has disappeared. Allocating a specific area of this huge beach where dogs would be allowed is a reasonable compromise to a complete ban.

Location 2:

What is the full name of the location where you want to change the dog access rules?

A section of it. Please specify:Outside of the main area between ther flags.

What is the main reason you want to change the current dog access rule?

A section of it. Please specify:Allow access to dogs in summer time on a leash at all hours.**A section of it. Please specify:**

Please explain why you want to change the dog access rule at this location, and provide any additional information or evidence

Omaha is a large beach and a lot of people like to walk their dogs there. I would like to see a change to access to the beach at all hours in summer time. A compromise could be made to have dogs on lead in summer daytime hours (10.00 to 5.00 I think, allowed before and after these hours) instead of being completely banned during those hours. Another solution might be to restrict access to a portion of a less busy part of the beach in summer from 10.00 to 5.00.

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Tell us why

As a dog owner I find it absurd that Professional dog walkers think to walk more than 6 dogs at a time.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Hunua Ranges Regional Park

We are proposing to prohibit dogs from tracks and roads that connect to the Kohukohunui track, the Kokako Management Area and Piggott's Habitat and from single-use mountain bike tracks (currently on-leash).

What do you think of this proposed change?

I do not support the proposed change

Tell us why

I strongly disapprove of this proposed change. There are very few places to go hiking with your dog in the Auckland area, and this proposal takes out all of the walking tracks around the upper Mangatawhiri reservoir. What is the reasoning for this change? This proposed change will greatly reduce the areas to hike with your dog in the Hunuas. You hardly see any dogs on the tracks there anyway, so why is this is a problem? If the dog is on a lead what harm is there? I have yet to encounter any individuals on the walks who have had negative comments about my dog! As long as the animal is on trail and under control there is no issue!

Long Bay Regional Park

We are proposing to amend the summer daytime rule for the beach south of Vaughan Stream from on-leash to prohibited and clarify rules in other areas, including access to beach from southernmost carpark and prohibited tracks and bays.

6 Dogs Maximum. All off leash in allowed areas. I walk Dogs and I this is my own rule. I can not reasonably manage more than 6 . For safety reasons it is important to control the PACK ,due to them mostly following 1 or 2 of the more confident or dominant dog/dogs. If a dog doesn't listen 2 Minor times I will leash them then unleash after a time or when distraction has gone.

In regard to some off and some on. I don't see it as enjoyable ,for each dog has a pace and sniffing/is a huge part of dogs sensory information. Also for any aggressive circumstances it is impossible to catch and rein in a dog being either the offender or offender if you are holding and leashed to any near enough 3 other dogs. I was in the position of walking a dog yesterday and one was attacked. It took all my speed and energy to catch the aggressive one. All the while mine was being dragged about. My comments are ,as a dog walker is: 6 max

Ability to have maturity and experience with them. Especially arge dog walking businesses should be accountable in training ,having certificates and knowing the actual rules of the place you are working in.(Fetch) Are shocking for having young inexperienced, walking all dogs off leash through Waitataruia back lanes not abiding by the parks rules. It also astoundeds me howany people (adults) parents are terrified of dogs and thus transfers this information to their children. The asian community are by the far worse for fear.

I suggest in schools you have a professional trainier go and teach children how to approach (the correct way) not the parents uneducated idea, and help to manage and inform our communitys to accept and appreciate how dogs are an intrigite part of society. Not least being first responders for emergency services. As well as being hugely important in agriculture

Please PUSH for allowing dogs to be accepted and respected in New Zealands lifestyle

In proposing Madills farm which is a council thus Auckland residents owned land. To be an off leash dog field not just a majority sports dictated area.

The community this nurtures is one I have never experienced before in my Auckland where I am born and raised. The trust and education I garnish from talking to people has been invaluable. Helping the dogs also to learn social rules and safe practices, is immensely important. Separating the dogs adds to their all ready fears (owners who are fearful transfer these emotions onto the dog) by pharmones,body language,tone. Etc

We need to enhance and live with dogs. Be proactive to involve them ,be in alinement with the progressive worlds examples. I believe that when there has been an animal road accident police are supposed to be involved. This is told to me from the first aid course I did in Auckland .

Another thing, if you are talking about peramiters then the parks should be suitably fenced off. eg Madills for the road,stream (children can also be able to enter these dangerous areas! Waitataruia - there are private propertys that have no fences what so ever or are fallen. If there are complains then it is the homes responsibly to be fenced off . Moreover having a dog pick up moldy bread from a home that clearly threw it over their back yard . Should have been given rules of their responsiblablitys living adjacent to parks with wild life and animals. Another example is fireworks at the private residence next to wild life and dog reserves. I was witness to this during the daytime, frightening the dogs I was near,thus promoting fear aggression ,running away ,hiding in " the restricted areas, I find Double standards in animal management whether it be fireworks threatening birds and animals yet you demand a high attention to dogs behaving . Why don't you stop fireworks at parks so the dogs won't eat the discarded ignited canisters (Madills) along with the beer bottles that are falling out of the over fill bins. Advertise how the heat of the footpath and sand can burn their paws at a certain temperature. Where are the proactive health safety for them in our everyday world. Educate that with the licenses . Your definitely not doing enough for the money you are asking of dog

owners. Where is your accountablity for education. Allowing dogs to live on chains . Subside veterinary clinics so animals are healthy , monitoring to pin down behavior issues due to health or misbehaviour,or owners mistreatment. List goes on about what the "people " are doing that should be your responsibility.

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Well behaved dogs should be allowed off the lead with dog walkers in pack walks. My dogs go on pack walks and there are no issues. There is no need to change the rules.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

1A. What do you think of this proposed change?

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

The new rules do not address the real issue. The issue is that there are no regulations to entering the industry as a dog walker. There is no oversight or education necessary to call yourself a dog walker. Putting a blanket limit on walkers will not fix the current problems. The professionals who know what they are doing and do it safely are not the issue whether they walk 15 dogs or 6. It's those who get into it without enough knowledge or support to ensure safety standards are upheld. This could even mean people walking just 1 dog. This new rule will create a situation where there are not enough dog walkers as they can no longer make a living doing it turning it into a rich man’s game for clients or having less dogs properly exercised. This could lead to less adoptions or more pent up dogs releasing energy in a negative way which could in turn lead to more dog fights and less public safety.

No change to current Policy (dog access) rules

Tell us why

There are few off leash parks in Auckland where dogs can get proper exercise but also get shade and water when it's hot. People do not swim in these bodies of water and the paths on one side are not off leash so still keep human visitors and dogs separate. A lot of the off leash dog parks do not provide shade or proper places to cool off which makes it very hard to walk on hot days.

Your feedback on this section will inform any future review of dog access rules. A future review has not been scheduled at this time and no changes will be made on any location you identify in this section as part of this proposal.

Only provide feedback on one location at a time.

Space is provided for three locations. If you would like to provide feedback on more than three locations, please copy the following pages or include your comments in the other feedback section.

Location 1:

What is the full name of the location where you want to change the dog access rules?

madills farm recreational reserve

What local board area is this location in?

Ōrākei

In general, how would you like dog access at this location to change?

Tell us why

Do you want the change to apply to the entire location or a section of it?

To respond to opportunities for greater dog access without impacting other users (e.g. an area to take a dog under control off a leash). Please specify:

What is the main reason you want to change the current dog access rule?

This space has always been a place for dogs to be allowed off lead and has had little impact on the area. It has not been an issue, so why change it? Unless it is being changed simply for corporate greed

Please explain your issue in more detail:

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

Other (please explain below)

Tell us why

The policy shouldn't be about the number of dogs that are being walked at one time. That totally depends on the temperate of the dog, how well it responds to commands and how under control the dog walker is. I am much more supportive of people walking over 6 dogs having a minimum standard of qualitification, much like how you take a test to get a cheaper dog license. You are also cutting off an industry for dog walkers, which is much needed for dogs helath and wellbeing when the parents are working or unable to.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

These proposed changes are not addressing the real issue. There should be regulations in place to enter the industry and continuous education and oversight to maintain safety standards. However, putting a blanket limit is not the answer. The professionals who know what they are doing are not the issue whether they have 6 dogs or 20. It's those who get into it without enough knowledge or support to make sure safety standards are upheld.

Their is a lack of information and evidence that there is an issue with pack walkers in Auckland. The vast majority of the complaints were related to roaming dogs.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Madills farm should be a off leash dog park and soccer field, not supporting council of banning dog there

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

There should be a limit of how many dogs a person has control of at one time. That said, I think these numbers are too high. I think it should be no more than 4 on leash and 2 off leash, with a maximum of 4 at any time.

The above should be for the general public, with the current numbers for someone who owns a dog walking company.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Most dog owners do not follow signs as they assume their dog can be off leash anywhere. There needs to be better signs reminding owners of 'on leash' areas, and more awareness to checking hours of off leash times. Clarifying the rules would do this.

Both areas should be on leash at all times. There is not a set boundary for the off leash area, and I have seen off leash dogs in the on leash area. Having an off leash area that is not controlled leaves room for error by owners and dogs that do not recall well.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#2956

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Ōrākei

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

These changes will negatively impact the well-being of dogs and limit the effectiveness of pack walking services which is unnecessary and punishes responsible dog owners who understand the importance of having their dog pack walked and socialised

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Letting handlers have multiple dogs off-leash helps dogs socialize, exercise, and act naturally, which is great for their overall well-being. Limiting the number of off-leash dogs can stop them from playing and interacting freely. On-leash, dogs can get frustrated, tangled, or stressed because they can't move naturally which may lead to negative interaction. Giving dogs more freedom, as long as the handler stays in control, keeps them happier and healthier.

My dog has been walking with a dog walking company for over 6 years. She can be out with up to 10 dogs at any one time and there has never been an issue. The handlers are exceptionally well trained and they put extensive effort into making sure the dogs are well controlled, safe and have an awesome time. I think council would make better use of their time implementing regulations on the training of dog handlers so not just anyone can start a walking business, as the untrained/under-trained walkers are the issue, not the quantity of dogs.

My wee cavoodle goes walking with a registered dog walking company FETCH. THEY ARE COMPLETELY COMPETENT and they care about their dogs. I understand off leash dogs roaming cause terrible behavior. 1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Current rules are working well. Changes would severly impact the ability of professional dog walkers to continue providing a very valuable service. Dogs off leads get more exercise and socialize better with other dogs. Personally our dog has benefited hugely from this service. Controlling numbers would increase costs, another financial burden at this time of financial difficulty.

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Professional dog walking provides responsible dog owners with the appropriate needs for their dogs. To restrict the number of off-leash dogs being walked would severely limit the ability of professional dog walkers to do their job. The current system works very well and requires no change. If you believe it is not working properly in all cases perhaps you should consider licensing the professional dog walking businesses so that you can enforce quality control.

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

Dog handlers are mainly professionals and are well capable of controlling the dogs they care for, regardless of the number they manage. Albeit typically no more than 10. There are many thousands of dogs being walked every day and it is exceptionally rare that there are issues. Whatever issues there are will not go away just because you limit the quantity to 3 or similar. If people are sending their dogs out on walks with dog handlers, it will be because, for whatever reason, they cannot do it themselves. A reduction to 3 dogs or 6 in total will drive up the cost of these walks and make it unaffordable for dog owners in many cases, and cause owners cease sending their dogs out for managed walks. Dogs then become unfamiliar with the ettiquette of dog walking and this will lead to an increase in the very issue you are trying to solve. Furthermore it is likely many of the dog walking companies will go out of business and dogs will remain at home, not walked, very frustrated and angry, leading to a different type of dog issue. That is, people being attacked by dogs when entering a property.

My recommendation would be to regulate the industry by setting guidelines and standards for the dog handlers. ITO's have been doing similar for apprentices and industry for many years and I strongly believe this will be a much better solution for what you are trying to achieve.

Dogs that are well walked typically are happy dogs and sit well alongside humans in everyday life, where people and dogs can enjoy each others company.

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

For many dog owners - professional dow walking services provide an important option for the well being of the dog and for their owners. Reducing the number of dogs that can we walked either on or off leash will make these services uneconomic for the provider and/or the customer. The reality of modern family life is a busy and high pressure existence. Putting professional dog walkers out of business will remove one valuable option for balancing quality of life for dogs and their familites. Please leave the current regulations in place!

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

Tell us why

Clarify rule that all dogs classified as menacing must be to neuter:

Tell us why

Clarify who can provide behavioural assessments in relation to menacing dog classifications:

Tell us why

Clarify what areas in Auckland require a licence to keep multiple dogs on a property:

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

I do not support the changes, as a person who uses professional dog walking services:

One who uses the services (off leash)

- this will limit the exercise and socialization and the opportunity to interact with others that my dog requires and had excelled in.

- it will increase problems for walkers to have some dog on leases and some off.

- it will be more prudent to have a set amount of dogs per handler ratio

- i fully abide to rules and regulations of places when out with my own dog

The main issues that i see are with individuals who let dogs walk in public areas without a lease and run out into the road!!

I see many posts within the fb community pages of 'dog found' wandering on its own, instead of these posts finding owners they should be taken directly to the pound and owners fined when picked up.

Personally i have no issues to paying more to register my dog etc if it supports the animal control sector.

Professional walkers will abide to any rules whether in agreement or not for the sake of their business but its those who are currently irresponsible are the ones who will just carry own regardless.

As usual it seems to be the good owners are the ones being punished due to the bad few.

Reduced exercise and socialisation: Dogs on leads have less opportunity to run and play, limiting their exercise and social interactions.

We have two boarder terriors and we seen wonderful benefits as a result of their well managed off lead adventures with City Pets. Their behaviour is better even when we are walking them on lead and previous challenges with aggression to other dogs has disappeared.

Proposed updates to the council's dog policy and bylaw and regional park dog access rules

#3065

Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, name, contact and demographic information has been removed and handwritten submissions have been transcribed.

Submitter details:

Organisation (if applicable):

Local Board: Ōrākei

Your feedback (all questions are optional)

The public feedback form was separated into four sections:

1. Walking multiple dogs
2. General policy and bylaw matters (for example clarifying existing rules and reformatting to make the documents more user-friendly)
3. Changes to dog access rules at Regional Parks
4. Changes to dog access rules at local parks and beaches.

This submission only contains submission content for sections 1-3 (regional elements).

1. Walking multiple dogs

We are proposing to set a limit on the number of dogs that a person may walk in a council-controlled public place at one time. The proposed number of dogs a person has in their possession in a council-controlled public place must not exceed the following limits:

Maximum number of dogs (both on-leash or off-leash): 6

Maximum number of on-leash dogs: 6

Maximum number of off-leash dogs: 3

1A. What do you think of this proposed change?

Do not support

1B. If you do not support the proposed change, would you support one of the alternative options presented to decision-makers in December 2024?

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Tell us why

The new rules will minimise the ability of the dogs to socialise and explore their environment as long as the walkers carry out the walk in a designated off leash area. Socialized dogs are an important aspect of urban life and we rely on dog walkers to provide our dogs with exercise as well as giving them this socilaisation. Mixing dogs on and off leash also creates a practical issue for the walkers and increases costs to the owners

2. General policy and bylaw matters

To improve our approach to dog management and the bylaw rules, we are proposing to reorganise, simplify and clarify the policy and bylaw content.

What do you think of the following proposed changes?

Restructure the policy to more clearly show its goal, focus areas, council actions, and rules:

No change to current rules (no limit on the number of dogs and all dogs must be under control at all times)

Our dog is part of an organisation (CityPet Canine Adventures) that takes dogs on a controlled pack walk, which includes the dogs being off-lead for the duration of the walk. The proposed new policy would impact the exercise and socialisation for our dog, as the pack is usually around 8-10 dogs, and having some dogs off-lead and some on-lead will be dangerous and unsafe to manage. Dogs that are on leads have less opportunity to run and play, limiting their exercise and social interaction.

Being restricted by a lead can lead to increased stress and frustration for some dogs. The organisation we choose for our dog to be involved with take good care of the dogs and follow processes to keep them safe. They are professional in their work and the dogs love the adventures.
