Open wheeled speedway aka. Western Springs Speedway should be retained at the venue due to the already purpose built venue it has occupied for the last 97 years, Waikaraka Speedway is not a suitable venue for open-wheeled speedway and has no guaranteed future at that venue as the lease there is for the stockcar and saloon club, not open wheeled speedway...

Because Western Springs Speedway has no agreement this means that they will not be able to proceed with following up tenancy.

Because I strongly believe that Speedway should stay at Western Springs. They have been given unfair treatment and the general public's say has been ignored. This is the most ideal venue in Auckland for open wheel speedway and 90+ years of history would be a shame to lose out on.

There are other, more suitable options for the other proposed ideas around the use of Western Springs, however Waikaraka Park is not a valid, viable option for the continuation of open wheel racing in Auckland.

Western Springs Speedway Association deserve opportunity to speak in representing their sport at public council meeting. Make it solely a Motorsport (speedway) venue and shared with music festivals. History matters people lively hoods/mental health of their association with this internationally recognised speedway venue in New Zealand largest city, Auckland that has high attendance rate and brings community together requires to continue at this site. Our rates or tax being paid should allow our family history (3 generations) to continue on who are all positive contributors to Auckland city/region.

Love speedway. Both myself and my son have raced there. Our family's are from out of town and spend a considerable amount of time and money in Auckland. The option of Waikawawka Park does not cut it with us so we would look off shore to watch world class drivers.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

As much as I really enjoy speedway and strongly considered 3B, I do like the idea of the sports event arena. I do think that if you are going to go with option 1 or 2 then you should start extending rail to that area immediately, as a critical portion of what makes Eden park a good venue is it's public transport connection. I did not consider option 2 as I strongly dislike western springs as a concern venue now (drink pricing and having to buy cups) and don't feel that would get any better with it being built up.

I think if you could have option 1 and still make allowance for speedway to stay (perhaps, allowing a larger grounds, interchangeable grounds, large accessways) then that would be my ultimate choice. I don't particularly see why we cannot have a sports venue AND speedway. I mean it's not

like AC will be paying for that to happen, so just make it a condition of the PPP. Harder feats have been achieved.

It's more than just a rugby field, it's people second home. It's their escape from reality. It's their safe space through rugby. Wouldn't want yous to take it away from them. Even though I play for a different club, I know the feeling of having a rugby team/space be your safe space or home away from home. It's special.

There are already so many stadiums around Auckland that can facilitate to the needs people are requesting for Western Springs to change to. It's not right!! Especially removing a sport that has called Western Springs Stadium as its home for almost 100 years! Legends have raced here, people have spent weekends upon weekends, it's people home not just a stadium. If any changes are made, we need to make Speedway better, more inviting for internationals, but we NEED to keep the history.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Auckland needs more field sport stadiums. Sport stadiums can always be used for concerts but the dedicated concert stadiums cannot be used for sports. Option 1 is privately funded and Aucklanders will be getting the best return from this investment.

Option 3b gives the opportunity to keep Speedway at the venue and ultimately results in no capital/infrastructure costs to the council. The consultation document states that there is no budget in the long term plan for 2024-2034 for upgrades for the facility. Why TAU have kicked out speedway - effectively a paying tenant - when they do not have budget to upgrade the facility until at least 2034 is beyond me. From a commercial sense, if you have a tenant paying you money to lease a space (eg. Speedway) and you do not have any money/budget to upgrade the space (Western Springs Stadium) you should be keeping your paying tenant for as long as you can until

such point that you have budget to upgrade the facility and then at this point you could be considering development of the Stadium.

This option best addresses the city's large entertainment venue shortfall, boosts cultural vibrancy, and makes Western Springs nationally relevant again. It's the most aligned with fixing Auckland's problems and improving the city. While it costs the ratepayer the most upfront, it also allows the ratepayer to retain the most ownership and get the most value, so it's the clear winner for me.

As a player for Ponsonby Rugby Club, I support Option 2 because it helps both our club and the wider community. It means we get upgraded facilities and the chance to grow into other sports like basketball and netball. At the same time, it brings in concerts and events that benefit the city. This plan keeps our club strong while making Western Springs a better place for everyone.

Submission in Support of Option 2: Western Springs Bowl

I strongly support Option 2: Western Springs Bowl as the future plan for Western Springs Stadium.

Ponsonby Rugby Club is not just a sports team — it is a cornerstone of our community. With over 150 years of history, the club has helped shape generations of Aucklanders through sport, connection, and community spirit. For more than 30 years, Western Springs has been their home, and it's vital that this continues.

Option 2 is the only plan that:

Allows Ponsonby Rugby Club to renew their lease and remain based at Western Springs.

Supports the construction of much-needed new clubrooms and community facilities that will benefit people of all ages and backgrounds.

Preserves the natural, open character of the space, which is valued not only by sports participants but by the broader public.

Enables the area to be used for concerts, festivals, and community events, providing cultural and economic benefits to the city.

This submission is not just about rugby. It’s about protecting a legacy, supporting youth development, enabling grassroots sport, and maintaining a vibrant, accessible community space for future generations.

I urge Auckland Council to adopt Option 2: Western Springs Bowl and help ensure that Ponsonby Rugby Club continues to thrive at Western Springs.

Thank you.

I attend events at the stadium or its sports fields

There are three options to consider

Which option do you prefer? Select one option only.

Option 3A: Neither Option 1 or Option 2 - keep things as they are and retain current arrangements

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Western Springs should continue to host Speedway, concerts, military tattoos etc. Some of the biggest and best concerts from Bowie, Stones, U2, Fleetwood Mac, Rod Stewart etc etc have been hosted at the Springs as is without constructing smaller stadiums for limited numbers.. Don't waste any more of Ratespayers money or allow others have ego trips that will only offer something nowhere as good as what we already have.

Like many things around the central area of Auxkland. History is busted down for new age, new sky scrapers, cafes, homes but we get caught up with all this change that our real community loses out on his history and the past that connects us to the future. Ponsonby Rugby is one of the oldest clubs in Auckland and they deserve to keep this history for as long as as they can

In the odd occasion I have been to the speedway and even though it's been sporadic, I felt gutted that it was to cease being there. I actually live closer to Waikaraka Park and haven't been there in over 40yrs. A night out at Western Springs has better memories for me and now some of my children.

Western Springs is a world renowned open wing racing stadium. It has a long history and should be kept as it is.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1 is the best option for multiple reasons:

1 - it won't cost ratepayers any money. At a time where money is tight enough as it is, ratepayers don't need the added cost of building a stadium when private investors are ready and willing to pay for this development.

2 - The stadium would become the home to Auckland FC which is has already united Auckland in only 1 season. It also would provide great facilities for other sports too as well as healthcare and hospitality which would create jobs and help boost our local economy.

Ponsonby Rugby is already there, why does that need to change. If it is too noisy for Speedway, other things will also be too noisy. Most importantly, we already have too many stadiums in Auckland. Most of them loose money. So we do not need more.

Keep things going for now, but take more time to look into the options. Rugby is not a growing sport with youth, so options of use need to be widened, without too much additional burden on the rate payer. Too many other stadiums not being used to full potential in Auckland.

If there's that much private investment money out there, perhaps finally the CBD stadium could be a goer.

It is a great location, and having a smaller venue to complement Eden Park as a larger makes sense. Transport links aren't great into that area, so that is an important consideration. Obviously, not having Rate Payers fund any of the development is a bonus, and a good example of a public / proiviate partnership.

We have no large scale outdoor concert/festival spaces in Auckland. We don't need any more sports arenas. The amphitheatre is amazing and to squander that and all its history to build another indoor field that will get completely monopolised by rugby would just be awful. Bring back western springs live music and bring back more culture to our city

Based on long-term community benefit, environmental considerations, and potential for inclusive use, Option 2 is the stronger option. It presents a more sustainable and people-centred future for Western Springs, especially in a city aiming for resilience, cultural celebration, and community wellbeing.

It's been home to Ponsonby Rugby for many years. Since I was a child, my family and I attended and supported many family members that played for the club. Option 2 is the best option in my opinion; not only to maintain how it is, but to preserve the many memories we've had with the grounds itself.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

- Give Speedway a long-term lease.
- Give speedway commercially successful operating conditions.
- Change the WS Stadium Unitary Plan to help speedway like they did at Eden Park to help concerts.
- Speedway can be part of a multi-use situation with concerts can and have worked with rugby at the stadium.

- We (stakeholders/fans/the people) were never consulted with before this time and should have been.
- I'd rather see my ratepayer money spent to have speedway at Western Springs Stadium than a lot of the things the Council currently spend the people's money on.
- I have seen how this issue has been handled and I don't agree with it and have lost faith in the council staff and many councillors.
- Most Aucklanders I know want the same as me.

Auckland Basketball does not have a club base. It would be great to have a central Basketball facility for our central secondary school's competition and Auckland Basketball central Reps don't have a base to train, play games and host tournaments. How much access would the community get to use the basketball facility and how much would they be charged? Trust Stadium is a terrible facility that does not let the community use the Basketball courts. They cancel kids weekly games frequently to cater for larger events at very short notice. They have reduced a lot of the stadiums parking and now charge. Please do not become like Trust Stadium. If Auckland Area

pulls through, please keep community in front of mind and make it accessible and affordable to use. Thank you.

The fans of western springs speedway were never consulted before this plan was put in place and should have been. 96 years of history was removed without consulting the public who have attended these events annually and grown up within the community only for council to destroy those years of history and memories. There is no reason why western springs speedway cannot be included in the unitary plan to continue its years of history like eden park was consulted for concerts.

Submission to Auckland Council on the Future Use of Western Springs Stadium

From: Basketball Auckland Incorporated
Date: 29 May 2025
To: Auckland Council – AK Have Your Say
Re: Strong Support for Auckland Arena (Option 1) – Enabling Basketball Infrastructure Growth

Overview

Basketball Auckland strongly supports the Auckland Arena proposal (Option 1) for the redevelopment of Western Springs Stadium into a 12,500–15,000 capacity multi-purpose venue. We believe this initiative is critical to addressing the chronic shortage of indoor courts and high-performance basketball infrastructure in Auckland and will significantly enable the growth and development of basketball at all levels in the region.

The Need for Basketball Infrastructure

Auckland currently faces a **critical shortfall in indoor basketball courts**, which limits participation, disrupts competition schedules, and prevents the delivery of consistent training and development opportunities across junior, youth, and senior levels. Multiple independent studies, including council-commissioned reports and Sport New Zealand research, have confirmed that basketball is one of the fastest-growing sports in Auckland, yet court availability has not kept pace.

This lack of infrastructure affects not only grassroots participation but also talent development, coaching pathways, and community engagement. Schools, clubs, and social leagues all struggle to find venue access, resulting in capped team numbers and long waitlists. Investment in a high-quality venue with dedicated basketball courts would help reverse these limitations.

Support for Auckland Arena (Option 1)

We endorse Option 1 as outlined in the council's consultation document for the following reasons:

- **Dedicated Indoor Basketball Courts**: This proposal includes **state-of-the-art indoor courts** accessible for community, club, and elite-level use. This aligns with our long-term vision to provide safe, inclusive, and accessible playing spaces for all Aucklanders.
- **High-Performance and development Facilities**: The venue would offer training hubs and development infrastructure to support representative programs, coaching academies, and youth development pipelines. This could directly support the growth of regional and national-level talent.

- **Accessibility and Co-Location Benefits**: Co-locating courts alongside football, health, and commercial amenities will foster cross-sport collaboration, community vitality, and efficient year-round usage.
- **Sustainable and Scalable Solution**: With private investment and a long-term lease model, this option represents a sustainable solution that future-proofs Auckland's capacity to meet rising basketball demand.
- **Equity and Inclusion**: Providing more local court access, particularly in central and inner-west Auckland, ensures that sport is more inclusive and reduces barriers related to travel, cost, and accessibility.
- **Alignment with Basketball New Zealand:** The inclusion of high-performance and development facilities supports not only Basketball Auckland's pathway programs but also aligns with Basketball New Zealand's strategic goals for talent development and regional representation.
- **Economic Benefits** The venue could serve as a regional training hub and host national tournaments, bringing both sporting and economic benefits to Auckland.

Why Other Options Fall Short

- **Option 2 (Western Springs Bowl)**, while enhancing music and festival capability, does not deliver new indoor court facilities or address the acute demand for basketball infrastructure.
- **Option 3 (Do Nothing/Explore Ideas)** prolongs the status quo, which is not a viable strategy given current unmet demand. It risks missing a generational opportunity to invest in sport and youth wellbeing.

Conclusion

Basketball Auckland urges Auckland Council and Tātaki Auckland Unlimited to advance Option 1 – Auckland Arena. This initiative will deliver transformational benefits for the city's basketball community and support wider goals of sport participation, community health, and facility resilience.

We are ready and willing to collaborate with other stakeholders and partners to ensure the success of this proposal and to maximize its impact for our tamariki, rangatahi, and wider basketball whānau.

Ngā mihi nui,

Board Member (and interim chair)
Basketball Auckland

This venue is a key part of the music industries ability to thrive in this country. We need venues to host international and local artists for the industry I work in to have jobs. These events also boost the economy hugely and the wellbeing of the community that attends. We do not need another sports venue in this city or country.

It's iconic, so option 2 should be what goes ahead. What does Auckland have that's iconic otherwise? And you want to turn it into just another niche sports arena like every other one that there is in Auckland? Be different. Stop being so lame.

I chose option 2 (Western Springs Bowl) because not only is it a rugby field many have played on but it is also a landmark. A landmark that many people enjoy, and built memories on. I believe it should stay and be protected. It more than a rugby field, to some its even their home.

This would be such an asset to Auckland city. Western Springs is an iconic location which has housed many touring acts over the years. It's close to the city, has easy access with train and bus and it's already there. Developing this into an entertainment bowl will provide the city with a facility that it doesn't presently have. Once this ground is gone, it's gone. Please extend your vision from ten years to the next thirty or fifty years. It will bring massive kudos to the city. Build it and they will come. This has been proven time and time again.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Motorsport is a fragile passion — one that depends on dedicated communities, hard-earned experience, and venues that stand the test of time. Western Springs Speedway isn't just another track; it's the beating heart of grassroots racing in New Zealand.

While Auckland has proudly hosted international motorsport spectacles in the past, no venue carries the same generational weight, cultural importance, or community connection as Western Springs. For nearly 100 years, it has been a proving ground — where young talent finds its wheels, and families pass down a love for speed, skill, and spirit.

To lose Western Springs would be to weaken the very foundation of New Zealand motorsport. Once a venue like this is gone, it doesn't come back. Let's not trade legacy for short-term gain. Let's protect what truly matters — our history, our community, and the future of racing at its purest level.

Space to compacted and won't give fans a great experience on match days .I consider a new stadium on waterfront for the club

I like the idea of a specific stadium for Football. Hopefully it can be used to host other major Auckland Football events such as Chatham Cup or the odd Northern League game etc also.

Western springs is the home of speedway in Auckland and has been for nearly 100 years. Also the cap on the number of races needs to be increased.

The stadium has much better use being left as it js and is a much more functional stadium than the one proposed to knock it down and rebuild something which will hold less than what “their” average attendance was for this season.

Speedway is super iconic that most international superstars have paved their race careers at western springs speedway

I believe the stadium should remain its current form, with Ponsonby Rugby, potential for speedway, and other potential options possible. I have chosen this option because

A) I completely oppose the football stadium put forward by the Mowbrays, this option is absolutely the worst option, which by the submitters own admission may rarely even be used for its primary purpose. We already have plenty of concrete stadiums. absolutely no to the ARENA concept,

B) I am not absolutely against the music bowl concept, but leasing in such a way doesn't necessarily mean a good result, I am a huge music fan but I'm not completely sold on this idea. Definitely better than option A) though. Consider me a soft supporter if this option.

C) as Laneway has shown, a huge festival can occur quite happily in this current layout. I would like to see the current use continue but to explore further ideas including speedway remaining, Western springs is wonderful as is.

DO NOT APPROVE OPTION A. PLEASE.

Make use of the natural landscape and use of the area. Perhaps use the Sydney Myer Mysic Bowl in Melbourne as a reference model. The stadium idea option 1 is too limiting for Auckland FC. Need a larger venue with better transport options for football and other related sports.

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I believe option 2 is the best choice for the local community, and wider Auckland community. It ensures the future space for the Ponsonby Rugby Club, which has been a mainstay of the local community for many generations, serving that same community by providing sports facilities for children and adults alike, with an amazing cultural history. I was previously a playing member of the club for many years, and saw the amazing value the club provides for the wider community up close. I live in South Auckland. I have worked locally, down the road in Pt Chevalier, and have popped into the club at numerous times over the years, joining social events, last years 150 year

anniversary celebrations, watching games, and catching up with friends. I think option 2's plan to maintain the stadium as a premier music concert facility is important to the local economy and community. Western springs the concert venue is iconic, and I think should maintain this status as an attractive option for international acts to travel here and use. I believe Option 1's proposal to develop the stadium into a venue for Auckland FC football club would be too small. Auckland FC requires a larger stadium for the growing local fan base, and I believe that GO Media stadium or Albany stadium fits that requirement. The team had the highest home attendance in the A-League in their inaugral season and the proposal for a small venue wouldn't fit the potential economic gains for the city. Ponsonby Rugby and Big music concerts should stay at Western Springs. Thank you.

Because that place has been known to many players as the ponsonby rugby club for years and it would honestly suck if they were to make arrangements that would drive them put as. Also there are still concerts and entrainments being held in this park so why change something that's hasn't been a problem.

I support Speedway returning to Western Springs Stadium. With a long-term lease and appropriate changes to the Unitary Plan, Speedway can be a viable and sustainable part of a shared, multi-use venue alongside concerts and Ponsonby Rugby. Speedway at Western Springs holds a unique place in Auckland's diverse cultural and recreational landscape, and it makes sense to continue using this existing facility particularly with the historical significance that spans 96 years. As a ratepayer, I would prefer my contributions go toward maintaining and enhancing a venue that has deep generational ties within the community. Speedway is well known for its family-friendly environment, and that welcoming atmosphere should be encouraged and preserved for future

generations. I do not support the venue being passed into Private ownership for 50 to 100 years. We already have many stadiums around Auckland catering for ball sports - why have another at the expense of Speedway which is world renowned.

I was an official of WS Speedway for 40years. Some years ago at the end of the evenings racing I was chatting with the ,then,promoter. We were approached by a gentlemen who said he'd been travelling the world visiting speedways (in access of 350)and he stated that he put WS speedway at the top of his list. His words were "Western Springs Speedway is number one".

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Auckland FC have improved life in Auckland immensely, giving us a team to get behind and be proud of. They support the arena and I support them. Mt Smart is a great venue for games but not being able to train there is less than ideal and North Harbour is too far.

It just makes sense to use this venue as per the plan Western Springs is part of Auckland's history. We know the area can and will be used under this proposal..This option is achievable and will benefit the local and wider community. What guarantees go with option one? I would suggest none. Please council do not be swayed by grandiose ideas.

Retain use for Speedway - it is a taonga of the area. The evenings are a popular family night out, plus it is a track that is respected world-wide in the motorsport racing industry. Generations of my family have attended, or raced there since it opened. Return to more frequent race nights, allow track prep to occur earlier than current restrictions. I like the idea of Neil Finn's outdoor concert venue , however I do not wish it to be one or the other. We could utilise the outer fields more for concerts. I recall when duran duran, and rolling stones played there. We have enough sports stadiums which are under utilised for our population size - Eden Park, North

Harbour Stadium, Mt Smart Stadium, Bruce Pulman Park. Until all of those are booked out beyond capacity we should not be building more 'traditional' sports facilities which aim to destroy and displace other sports fans from their whenua .

I would love for concerts events speedway and rugby to continue as they are currently at western springs. Why change something that was running so well. I get it that cost is a problem but surely we could keep it as it is at a lower cost. I would love to take my future kids and future generations to a venue I grew up going to and loved going too especially for speedway.

I am a multi generational supporter of Speedway at Western Springs, and the underhanded tactics that have been adopted by the AKL council that have got us to this point are frankly disgusting.

The support for Speedway at western springs is clearly evident, the fact this has been overlooked as part of this process to date is an absolute disgrace.

To be clear, I support Speedway to remain at western springs for my kids and theirs to enjoy. Just as I have and generations before.

There is so much history in Western Springs. Everyone against keeping WSS seems to have an idea that it is a limited venue that can only serve Motorsports.

That is incorrect. I have worked there in many capacities with concerts and it is an awesome place for that too, and surely there would be a way to include more events of different calibre.

It's is in a convenient space, there is plenty of land and don't forget the history! Auckland Council has aways been pretty pro-retaining history... why not now?

I believe that the wording to question 3a is misleading, and represents the current decision held by the council to remove speedway from western springs

So to be clear I wish Western Springs to continue to be the home of speedway and that Speedway remains here with a minimum lease of 20 years. So that who ever the promoter is, is able to invest in the up keep of the track and the stadium. I'm happy for concerts to play here as well. But less ring fencing for both kinds of events.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

It should be kept as Western Springs Speedway. I along with a large group of local Aucklanders and those from afar have grown up watching and supporting the sport of Speedway at it's 96 year old historic location of Western Springs Speedway. It would be an absolute disgrace to uplift and disregard the long history and culture that this site represents within the widely supported and rich motorsport culture we have here at Western Springs Speedway.

I strongly support keeping the speedway at Western Springs. I've attended many speedway events over many years, it's a magic place steeped in history and attracts visitors from around the world.

I support keeping the speedway, or exploring ideas that incorporates maintaining speedway events at the venue.

Ponsonby Rugby has had a huge impact on the pathway created for the many superstars and legends that the club has produced. It's considered a second home to most athletes who have created family like friendships. Western Springs has also had many great concerts there that can continue to build the evolution n popularity of the venue. I definitely think if yous can invest the money into the the bowl stadium & grounds then why not update the Rugby clubs facilities to keep the engagement with the club? Option 2 is definitely more for the people!!!

Option 1 means that only certain sports and people using it would have access to it and the leasees would control pricing to use facilities. Option 2 wishes the council to help pay for the additional buildings plus the leasees would control access for 30 years. At this time, I feel the best option is to use it for sporting facilities such as rugby, soccer, cricket and festivals and concerts. It is a council owned park and should be left as such.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Football is a growing sport in Auckland/New Zealand. This can partially be seen in the success and support of the new A League men's football team, Auckland FC. The backers, who are connected to this team, have been able to share a vision that would not only benefit Auckland FC, but football in Auckland and New Zealand. Their proposal also includes other sports like basketball which is another fast growing sport in New Zealand. What they propose is adding a new medium sized stadium in a central location in Auckland. The addition of a new stadium I think enhances sports venues in Auckland. I think it also shows how private partnerships can be beneficial in providing a service/infrastructure that is possibly lacking with only using public funds. Auckland Council has recently had another consultation existing stadia, either re-developing Eden Park or

building a new stadium Te Tōangaroa. I think the Auckland Arena proposal is realistic because of the capital that supposedly exists. The Eden Park re-development and the Western Springs Bowl both require large pools of public funding which I think would not be popular with the public particularly in this state of the economy. I think there is always risks in any infrastructure like stadia, however, Auckland is growing. Nearby, the Government has revealed details for a Northwestern busway which I hope can also connect to the Western Springs precinct.

Overall, I support the Auckland Arena proposal as it will be a fantastic addition for the city. However, I still think there are details that they can still work on which they should.

Kia ora,

I've loved attending concerts on the Western Springs outfields and have been a regular visitor to the park, MOTAT, and the zoo for over 30 years. As a Māori resident of Tāmaki Makaurau, I'm really drawn to the idea of having purpose-built, centrally located spaces that our hapori can use for kaupapa such as kapa haka, wānanga, and sport – events that bring people together and reflect our cultural identity.

Option 2 speaks more to that vision. The proposal for it to be owned and managed by Council gives me greater confidence that it would remain a space for everyone – accessible, inclusive, and responsive to community needs.

In contrast, Option 1 feels more commercially driven. While it includes a community focus, I worry that access might be limited to those who can afford it. I'd rather see the current state retained while other inclusive options are explored than see Option 1 go ahead.

If Option 1 is pursued, I'd strongly encourage the inclusion of safeguards to ensure that minority groups, mana whenua, ethnic communities, and those from lower socio-economic backgrounds are not excluded. We need to be realistic about potential barriers – for example, prohibitively high fees that could prevent wider community use.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I believe the people of new zealand will benefit from keeping it as a large open venue for concerts and community event..not turning it over to private corporations to make money from. Everyone I know has very fond memory's of the good old days of open air concerts..

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Speedway has a 96+ year history and the venue is world class and well known. It would be a tragedy to leave this historical site. Sports venues should have better public transport options and Western Springs doesn't so is not ideal for a football stadium. Keep Western Springs speedway exactly where it is with 12-13 meetings a season.

The public transport in this area is insufficient to support regular larger crowds if it is turned into a soccer stadium. Such a stadium should be in a much more connected area with rail as well as restaurants and bars.

Western Springs has historically been a good location for concerts and festivals and with some further investment to the amenities it could be better. The geography of the stadium provides a great atmosphere and a unique venue for this sort of event.

We already have Spark Arena, Trusts Arena, Victory Convention Centre, Due Drop Events Centre etc for music and variety entertainment events. For bigger stars, we have Eden Park, Mt Smart Stadium etc. I don't feel there is any need for another Hollywood Bowl style concert venue. Instead, Western Springs Stadium can be used as an upgraded multi purpose venue for sport, culture and entertainment.

Facilities need to be well maintained, in a timely manner, as a bare minimum. Suitable upgrades should also be part of the on-going upkeep and usability of the facility. The cost to ratepayers should not be disproportionate, and ratepayers should not be expected to pick up the tab for any failed, incomplete, or unrealised outcomes proposed under Options 1 & 2.

I think Western Springs should remain as it is-let the speedway stay as they believe it is their right even though only 3500 attend on average. Not sure about the viability of the stadium for large concerts as there are very few large and popular bands around.

I believe Go Media Stadium should be developed more, Take down the temporary seating and create a wrap around stadium at least on 3 sides. I believe that Auckland FC and the Warriors should continue to share Go Media as they have mostly different seasons. I believe that the success of the park has seen more maintenance work completed this year and this could be continued due to the additional revenue coming through the gate. I also believe that Auckland

football has never been fully compensated for the loss of Newmarket Park so that gives an idea of how long the code has suffered from its own ground.

Western Springs will continue to be a 1 day a week venue and as long as speedway thinks they deserve to be at Western Springs it will remain this way.

Auckland FC will hopefully remain successful and the proposed stadium will be too small-please don't offer North Harbour stadium as that is a white elephant that no fans like to travel to.

All in all, Western Springs has potential but there is too much animosity from an entitled group of speedway fans for it to be developed into a much more user friendly space.

Give Speedway a long-term lease.

Give speedway commercially successful operating conditions.

Change the WS Stadium Unitary Plan to help speedway like they did at Eden Park to help concerts.

Speedway can be part of a multi-use situation with concerts can and have worked with rugby at the stadium.

We (stakeholders/fans/the people) were never consulted with before this time and should have been.

I'd rather see my ratepayer money spent to have speedway at Western Springs Stadium than a lot of the things the Council currently spend the people's money on.

I have seen how this issue has been handled and I don't agree with it and have lost faith in the council staff and many councillors.

Most Aucklanders I know want the same as me.

support save our speedway

It does not make sense Auckland FC have.a 15k seat stadium when they averaged 18k this season up to 27k people. It will mean people miss out out and ticket price increases because demand would determine pricing and would become less affordable making it more elitist than community based. Ponsonby Rugby has a long proud history in the community and of huge importance to the area, community and sport. Large concerts are enjoyable watching there.

Wanting to protect an Auckland Iconic Institution in Western Springs Speedway which has been operating at the Stadium since 1929.

Western Springs Stadium is synonymous with speedway and is held in high esteem throughout the world with International competitors wanting to race at this historic Race Track.

Speedway could operate successfully and be commercially viable with changes to the current Western Springs Stadium Unitary Plan. Eden park recently has had changes to its Unitary plan now allowing more concerts.

Western Springs Stadium belongs to the people of Auckland, Auckland Council needs to manage the stadium in a way that prioritizes Public Access and Community Use. Private Investors should not have a say in the use of a public stadium.

Speedway can be part of a multiuse situation having worked successfully in the past with both Rugby and Concert Promoters.

Majority of Aucklanders I have spoken to, even non speedway people believe that speedway has been treated unfairly by the council and deserve to remain at its historical home Western Springs Stadium.

This proposal is strong because it balances visionary development with long-term public interest. By turning Western Springs into a contemporary, multi-use venue, it creates a space that serves a wide range of community and commercial needs, not just a single purpose. That kind of flexibility makes the investment more resilient and relevant over time.

What makes it particularly valuable is that it doesn't shift the financial burden onto the public. Instead, it invites significant private investment while still keeping the land publicly owned. That means Aucklanders gain upgraded infrastructure, ongoing access, and economic activity without the usual costs tied to such developments. And when the lease ends, the city retains the full

benefit of the improvements—essentially getting a major public asset built and maintained without draining public funds.

Moreover, the design isn't just about events or sports; it weaves in everyday community use, which is key to making sure the space doesn't sit idle between big occasions. It invites people in, rather than fencing them out, and it does so with a long-term model that looks after both public interest and urban growth. That's a rare and genuinely thoughtful approach to development.

Because the arena has so much history and has been used as a speedway and stadium for sports for such a long period of time, 90 years in fact, and the idea that the Auckland council want to just get rid of this sporting palace is just disgusting.

Keep speedway where it is. Go Media Stadium needs investment and making that a dual purpose venue is best for Auckland. NEL in the winter and A League in the summer. No more white elephant stadiums.

Mt. Smart is a great option currently due to public transport options. But the stadium is falling apart. Would love to have a stadium that is in the city center close to all amenities and that would seat more than 15,000 or 20,000 as it is already difficult to get tickets to some home games

My family and I have attended Western Springs Speedway for over 25 years, and have brilliant memories from it.

The atmosphere compared to Waikaraka park is alot better and I can see many spectators losing interest if the Speedway were to move.

The history of speedway at western springs is priceless and needs to be protected. It attacts internarional drivers and fans that other venues will not provide.

Keep western springs stadium the way it is as it is a important part of history and for many families to attend motorsports at its best from New Zealand and from other countries,,why change something that people come far and wide to see a attraction that draws in thousands of people to the atmosphere of a motorsports that has been at the springs for years!!! My family will be devastated on the closure of western springs speedway . Would be the biggest mistake the Auckland council have made ! Keep the culture alive !

We shouldn't be so quick to discard a venue with such a long history that brings a unique flavor to Auckland city. It is the people that make the space. Western Springs is run by people who love what they do for the enjoyment of all those who participate. I've been to military tattoos, concerts and speedway at the venue. Aucklanders have been enjoying racing there for 96 years, and I as an Aucklander, and a rate payer wish that my children and their children to come have the same opportunity to see something different to all the other professional sporting codes that are being flung at then for profit. What makes the city great is being able to offer variety, and every summer I look forward to something different. New Zealand has a proud and successful history in world

motorsport, and Western Springs is a part of that. I think it is incredibly short sighted when you thing that the venue has had a part in shaping a lot of the drivers that are currently participating on the world stage representing New Zealand in all discipline's of motorsport. If it ain't broke don't fix it. Great universal venue that can host multiple disciplines and events that has been functioning for the best part of a century.

Western Springs Stadium should be left as it is, with it being used as a Speedway stadium in the summer months and a rugby stadium in the winter months. It has been a speedway stadium first and foremost for close to 100 years. It is a massive part of the history of not only Auckland, but New Zealand as a whole. It brings in people from all over the country and even people from overseas, to see the incredible racing we put on night after night. I am a third generation driver, and the first female in my family to race. Western Springs Speedway has been my home for all 27 summers of my life. It is the place I have countless memories with people who are no longer with us, people who fought for speedway to stay long before I was around to fight for it. It is a historic

venue that is still used to this day. It would be an absolute waste for it to be demolished to make way for something that could be built in countless other destinations or venues that are not already used to their full potential. To move speedway to a smaller and less capable venue is to set the entire sport back multiple years. We deserve to stay in the arena was have built up and developed into the amazing place it is now despite how much we have had to fight to do that. Western Springs Speedway means so much to so many, it has been our home for a long time, and we deserve to keep our sport at our home. Please don’t take that way from us.

arena would be pretty good for me – finally a proper venue that's not falling apart, something big enough for sports and gigs but also set up for community stuff too. keen on the indoor courts, high performance gear, all of it. and if it's privately funded, even better – means we're not forking out from the public purse. feels like we've been waiting forever for something like this that actually works for auckland.

Western Springs Speedway is globally recognised, it has more than 90+years of history

There have been the largest music concerts at the stadium 85,000 attendance. ACC should stop destroying historic venues and building and appreciate what we already have

Far to many restrictions have been imposed on to the running and preparation of the track at WS this needs to be reviewed and allow more race meetings and more track preparation time during the week over the season.

Leave this venue to exist as it is.

Speedway has been operating for nearly100 years and the land was donated to be used by speedway including the zoo and was donated on condition on having speedway. Its a worldclass speedway facility attracting international drivers and teams from Australia and the USA and by moving it to Waikaraka Park this will kill the sport as it will have to compete with the stockcars - can't run both on the same track. Given it's history at Western Springs it would be a shame to see it all fall over due to a number of small minded people. The event is also a whanau friendly event with multiple generations having attended for years.

I think Western Springs should stay as Western Springs Speedway. It is a World known track. There is a lot of history at this track. Drivers love racing there and we love going there to watch the Speedway. The Speedway has been there for 90 plus years, it needs to stay there. Give it back the longer racing season it use to have.

There is far too much history and legacy at Western Springs to lose that to global speedway. A self-glorification project is not what Western Springs needs. Why change greatness? It's already a wonderful speedway and concert venue. It has been for a long time. And it should continue for another 100 years too. There's a lot of positive changes that could make things far better. But never change the DNA and current format. If I had $25 million, I'd step up to create some great improvements to Western Springs as it currently exists.

Western Springs is the home of speedway and it should remain that way. Have more concerts here if they don't clash with speedway events. No firework displays with the zoo so close. The Solo World Champs brought heaps of interest to Western Springs when they were held here as well. Promote speedway and at least try to get more people here. Waikaraka Park is a completely different race track.

I chose 3A. Our family have been attending Speedway for over 60 years, i.e. 4 generations have now enjoyed this facility. We've

seen Western Springs venue being used for more than just Speedway events in the past, and if managed well, there's no reason why it can't continue if the council would explore how this might be better managed. Speedway, the Ponsonby Rugby Club and the venue being used for various entertainment events surely would be enough to keep things as they are. Speedway is unique. It's iconic and Waikaraka Park is not the right place for experiencing the Sprintcars and other specialised

Speedway vehicles. We really urge you to rethink these plans because we are going to lose a specialised form of entertainment

that attracts not only local and regional visitors, but also is well known internationally by the drivers and their fanbase. We just want to keep enjoying Speedway, not only for ourselves but for the next generation that is our grandchildren.

I've raced all around the world at different speedway tracks. Nothing will ever come close to the history and atmosphere of western Springs speedway. It will be sad to see it go and will kill the sport of open Wheel speedway in NZ. I would not field a car at the proposed Waikaraka park

Keep this area as publicly accessible space, this is the wrong place to put a large arena due to congestion. Find a better space to put the arena such as the water front with better public transport access.

Western Springs has been the home of speedway for 96 years. The heritage should be preserved same as any heritage site in Auckland. Our family are 4th generation competitors and there is no othrr speedwsy like it anywhere in the world. Many overseas visitors come to Auckland specifically to visit the location. Ponsonby Rugby can and have worked alongside speedway along with many concerts.

Western Springs is a horrible location to get to. There is poor public transport links. During major events the single road in and out via the western motorway creates significant congestion for the local area.

There is no reason (other than vanity projects) why Auckland FC cannot continue to use Mt Smart and the local grounds as their base. Mt Smart is easy to get to for patrons via the Southern Motorway and South Western motorway. It also has a trainline and easy for people to park in the

industrial area surrounding onehunga and penrose which creates no inconvenience to the area. Instead of putting 300mil into a brand new stadium, the Billionaire backers should perhaps put that money into making Mt Smart a world class venue. The infrastructure is already there.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I work or volunteer at Western Springs Stad

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I am the current president of the Kiwikidz quarter midget class who race at Western Springs Speedway. I am a loyal fan and want speedway to stay at Western Springs as it has for 96 years. Also the Mowbray' & Williams option should not be considered as we believe they have had a back hand in the deal to date. The corruption is real and the mayor needs the sack.

I support the continuation of speedway at western springs which is world renowned for open wheelers. It's a classic we'll attended family event and has been for almost a century. The option for football FC is also NC completely ridiculous...there are many stadiums in Auckland already not to mention this option won't even cover their current crowd rates. It's outrageous to move speedway and ponsonby rugby club for something like this

The Ponsonby Rugby Club is the most successful rugby club in New Zealand. They have been based down at Western Springs for 30 years. Displacing them would almost certainly lead to the downsizing of clubrooms, facilities, field capacity, and inevitably, player numbers. This would be a real loss for the community.

Let's not forget that rugby is New Zealand's national game. Therefore, why would we undermine grassroots rugby by moving and shrinking a club like Ponsonby? This is the club that has produced more All Blacks than any other in NZ, including one player who seems to be prioritizing money

over the club that paved the way for his success. It's just a short helicopter ride from Western Springs to Westmere, right? Hmmm... New Zealand will never be as dominant in football as we are in rugby, so unnecessarily elevating football at the expense of grassroots rugby sends the wrong message.

Auckland FC has had a great start to their tenure, achieved at Go Media Stadium, Mt. Smart. Why do we need another stadium for them when Mt. Smart has already proven so successful? The transport is already in place. Yes, the crowd numbers have been impressive so far, but one important question remains: what happens when they start losing, and the novelty wears off? As we know in Auckland, we are not great at supporting losing teams. This could leave Auckland Arena an empty and wasted facility. At least at Mt. Smart, the Warriors and other events keep it viable during a losing season. Mt. Smart is just one of many options available to Auckland FC. Ponsonby Rugby Club's alternatives, however, are much more limited.

The concert aspect of Proposal 2 would continue the rich history of great concerts at Western Springs. The natural amphitheater currently in place is far more suitable for large concerts than Auckland Arena, which cannot properly accommodate such events. This would allow the venue to be used year-round, with concerts in the summer, Ponsonby Rugby Club in the winter, as well as Auckland First XV finals, other representative rugby finals, and Auckland NPC games. This would eliminate the need to overuse Eden Park for such events.

No matter where Auckland FC plays in the future, they have the financial backing to base themselves where-ever they want. Being a new team, the support will follow and settle with them. On the other hand, moving and downsizing Ponsonby Rugby Club would have a much more detrimental effect, particularly on player numbers. It would not be supporting our national game. Proposal 2 is the best option for the future of Western Springs.

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 2 allows for more participation and attendance from the wider community. It can maintain the current use of facilities for sporting community and concerts generating more income. Less outside investment means more control is retained by TAU and while upgrades are necessary for growth, Option2 maintains the integrity of the space and surrounding Western Springs park area. Auckland is hugely gentrified and we have minimal large green spaces left. I've attended many concerts sports events at Western Springs it has a better vibe and enables more vendors stages and areas to sit. Concerts at stadiums are bland.

Option 1 seems ridiculous, and private investment with full control for operating sounds like elitism, increased costs for potential users which would see use of facilities not catering for local schools sports and community groups.

I would rather have my stupidly high rates go towards a space I could actually use rather than user pays. Auckland is already extremely expensive to live in,, don't give our spaces away to money hungry investors.

The proposed stadium size of Option 1 would be

Reducing capacity for AucklandFC homeground by half. Fan base has grown so it requires a specific sports stadium like the current GoMedia, Eden park or

north shore stadiums.

The nimbys that live by the stadium need to realise the speedway has been there longer than them. Also we have enough underused stadiums and the Auckland FC seem to be doing fine at Mt Smart, they won't get as big crowds at Western Springs!

If Auckland FC currently have large crowds ar Mt Smart stadium, how is a 12,000 capacity stadium going to ge large enough for them.

Quite ridiculous thinking to gave a small stadium for football.

What about cricket? This size of stadium woukd ve a perfect Suze for a test arena for cricket. Currently all ghe Test matches ho to grounds outside Auckland as Eden Park us totally unsuitable for cricket.

Auckland doesn't need another suburban large sports stadium/ events centre developed. This one has its own atmosphere that works well for providing a diversity of venues across Auckland, perhaps just needing an upgrade to permanent amenities. I also support bringing back Speedway to Western Springs.

I believe that speedway should return to the western springs stadium. It has been at this location for a long time and has become the central hub for a number of communities. It should be about continued uses of this space for people who have many shared and personal experiences at the location.

I personally do not think that moving the sports and other users of this space would benefit anyone long term.

Auckland has said for years that we do not need another stadium. Yet this seems to be the plan to make another.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Seems to be a good use of the space, an upgrade to properly host bigger events, allow existing activities to continue. Seems to achieve a similar goal as option one for much less investment. Main downside is has all the same problems as Eden park. Not well served by public transport. Residential zones cause problems.

Western Springs has been an "institution". The speedway has been a extremely long term tenant. I've been to several, large concerts there (starting in 1977). As a stadium/events centre, it has a raw simplicity that other venues lack. It will be destroying history to change it.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I support Option 3, as it keeps the door open to better reflect the site's ecological setting, cultural significance, and potential for low-impact public use. Western Springs sits within a unique natural and cultural landscape, flanked by the zoo, MOTAT, and a spring-fed lake. Rather than locking in another large-scale commercial or stadium use for decades, this is an opportunity to reimagine the space as a hub for nature-based recreation, community gatherings, Māori-led events, and environmental education. The stadium footprint could be gradually rewilded or repurposed for passive uses like walking, kapa haka, open-air learning spaces, or biodiversity restoration—supporting wellbeing and ecological resilience in the city. Any future development should be co-

designed with mana whenua and the local community, prioritising ecological restoration, climate adaptation, and inclusive access over commercial spectacle.

I like option 1 but I think the size is too small especially when the Auckland FC have been getting crowds of 20000+ to most of their games. With option 2 it is bigger and sounds more multipurpose as well as retaining ownership. Money should be recouped by hosting more concerts, games etc.

Western springs is tired and ‘underachieving’ as a venue.

I respect the rights of previous and present users but we have now been offered a ‘gift’ almost, by a sporting entrepreneurial investor.

We would be very silly to turn down this opportunity.

AFC will have a woman’s team in 2027.

It is close to the motorway.

It is accessible from all directions.

It will be the perfect size for rectangular field sports.

Could be the home for blackferns as well.

It’s a no brainer for me.

Ponsonby will retain its identity under this option and certainly gain a huge magnet for people to attach themselves to.

Western Springs statdium is the one of the oldest race tracks in the country. At over 90 years old it should remain untouched.

We need this history and there are plenty of other venues that could be used or repurposed for sports.

As an avid motorsports enthusiast and competitor I am now left for no options to watch motor racing in Auckland, after the demise of Pukekohe Park other than Western Springs or Waikaraka

park. Waikaraka in my opinion is too small and not fit for purpose. They also have no room to expand it either.

Western Springs is the ONLY option to hold motorsports together in Auckland.

Western Springs Speedway has been there for generations. I have attended with my dad and my grandad and one day I would like to be able to take my future kids to watch speedway at Western Springs Speedway.

Moving Western Springs Speedway to Waikaraka Park is just not going to work. Even with the $11 mill upgrade Waikaraka will never be world class. Western Springs Speedway IS WORLD CLASS, we have drivers from all over the world flying over to race at Western Spring Speedway. The amount of history and memories that sooooo many Aucklanders have is huge and to just get rid of that is devastating. If Western Springs is forced to move to Waikaraka you may as well kiss the sport goodbye. No one will attend Waikaraka and it will not attract the big racers that Western

Springs did. Let alone the current classes that race there that Western Springs will have to compete with. I have heard that people in Onehunga are now complaining about the noise at Waikaraka with these new apartments being built so close to it, so is it really in an 'industrial area.' It almost feels like Western Springs Speedway is just being pushed out of the way and out of sight to Waikaraka until people complain about the noise there enough that all the speedway gets shut down completely. We need to fight for the future of speedway in New Zealand and the only way to do that is to keep Western Springs Speedway!

In regards to Western Springs Speedway 'not making money' well the council is the ones putting the restrictions on the speedway! Let it start a bit earlier to make sure all the events are run rather than meetings being cut short. The speedway has been there longer than the people that live next to it, they CHOSE to live next to Western Springs Speedway!

Auckland city in general and specifically "Albert-Eden Local Board" will significantly benefit (in social and economical values) from having:

A state-of-the-art, multi-purpose venue that combines sport, culture and entertainment. Anchored by a new 12,500 - 15,000-seat stadium with high-performance facilities and fields, indoor basketball courts, football and padel for community use, plus commercial activity that includes hospitality options and a health centre.

As a rate payer on 3 properties, 2 of which are in the local area, I don't want to be spending more rate payer money on a semi effective facility. I prefer to maintain council ownership of the land and provide a shorter term lease to private investors to develop proper, good infrastructure for the Auckland area.

I have grave concerns about the commercial involvement in what has historically been a well utilised community resource. Festivals such as Pacifica with free attendance could suffer if an entry fee was introduced. With the growing attendance at football matches Go Media stadium will become a significant resource to cater to spectators. With option 2 I believe that the facilities could be under-utilised now that speedway has relocated. Again with this option the commercial activity could become the driving factor.

As a ratepayer I am of course concerned about rising rates and council expenditure but this space is a resource for all in the community. Whilst I don't know what the answer is I feel that option 3 continuing to investigate the best way forward is the sensible one.

This is a bad location for big events. The bus network isn't sufficient for Auckland FC to be there, or other concerts or other events. It just makes a whole bunch of car usage. Have stadiums on the train network, and use these low density areas for open green space and low density usage. Maybe even add SOME housing and keep the rest as community space. Maybe a pool? Where is the closest local swimming area (excluding the beach), maybe even a library?

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I think Western Springs should be used by the Ponsonby Rugby Club only. The club should fundraise for its own clubrooms and facilities. The speedway section should be turned into more sportfields with basic stadium seating. The hill section should be returned to native bush and mountain bike tracks put in.

The private backers should be encouraged to develop Mt Smart Stadium area. This is already the home of NZ football, has an excellent athletics track and desperately needs investment to improve the facilities. This would make better use of the area and improve facilities for all.

A 12,000 to 15,000 stadium is just not big enough for Auckland FC and the private backers are attempting to develop their own dream without thinking of the large Auckland population who wish to support Auckland FC. The private backers should be working with Aucklanders and accelerating the proposals already discussed in previous long term plans. They are more than welcome to buy land in West or South Auckland to develop their own stadium on private land. Somewhere around Paerata would be ideal.

First the venue should be kept in the public domain and not sold out to corporate interests. Therefore the 2nd proposal is preferable. However, in the current economic environment it is unwise to add to the existing tax burden of Auckland citizens for the time being.

I maybe wrong, but it is my understanding that the locals don't like the speedway there because of the noise, I therefore don't understand this as whatever you put in its place will be noisy if not more so. I am aware that it needs a big upgrade, but the iconic flavour needs to be retained.

Future use of Western Springs Stadium

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Auckland FC have proven that they are a draw for crowds and willl fill the stadium. This option also provides a concert venue of a size that Auckland currently lacks

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Auckland needs a boutique concert venue. Go Media is ideal for larger events, as is Eden Park to a lesser extent but not all concerts are Taylor Swift-esq. The expanded use for other sports also has appeal.

I feel that we have sufficient other venues across Auckland, including a new home for Speedway, and that we should embrace private capital investment into our assets.

My vote is for Western Springs to remain a speedway track, a legacy of 96 years. Moving speedway back to Western Springs preserves a beloved Auckland tradition, supports the local economy, and leverages a venue uniquely suited to the sport. While change can be necessary, this is one case where history, practicality, and passion argue strongly for moving speedway back to Western Springs.

Keep the Speedway, so many of these venues have been closed in Auckland with promised replacements still not in existence. It appears to be the cheapest option and the money saved by the council could then be used to fulfil promises made elsewhere and so far neglected.

I would like to see Western Springs Stadium stay as the home of NZ Speedway Sprint car and Midget racing. Do not destroy part of NZs history. This would be like closing down the Museum or MOTAT. Just for another stadium or events centre - we have soooo many of them! Big ones, local ones! We do not need another one. There is only one Western Spring Speedway, but there are many many options for stadiums and events centres!

Auckland already has a lot of Council funded venues. Why do we need another one? Council needs to focus on reducing rates. Council needs to focus on making the most of the infrastructure it already has. What are the benefit cost ratios for these options? Any solution needs to be self funded, without any risk to the rate payer.

There's plenty of stadiums in Auckland. They can't all operate at the same time. It's a waste of money trying to make more and improve them. The only people who benefit from these stadiums are foreign entertainers. This is just a grift on Auckland with rate payer money to allow foreign musicians and sports people to make far too much money than what they deserve for their skills. We don't need this and the basic core infrastructure of emergency services is not funded enough to provide for this.

The speedway track should be retained, it is a great Auckland tradition, and I have been a regular speedway supporter all my life.

Victoria Park should be considered as the best location for a sports and music arena - it is already set-up for football, rugby, league and cricket, and close to public transport - bus, train and ferry, and close to Downtown and the Viaduct.

Auckland FC has a great home ground already at Go Media Stadium Mt Smart. It is much more accessible via train and has more capacity. Why would you move to a smaller stadium and ruin a good thing? The Bowl sounds great for festivals and concerts, it definitely needs an upgrade. It would be nice to keep the Rugby club there, and I don't mind Speedway coming back as well. Let's keep TAU in control rather than private investors who only care for themselves rather than the community.

Reduced need for public funding.

Initial assessment by TAU suggests that private sector investment of $200-$300 million in the new stadium, along with full responsibility for operating and maintenance costs, could reduce the need for public funding by $18.1 million over 50 years – compared to a scenario involving a 30-year lease to Ponsonby Rugby Club with two 10-year renewals and no clubroom upgrade

Western Springs Speedway has been an integral part of Auckland's cultural and sporting landscape for nearly a century. Disregarding its 96-year legacy overlooks its historical significance, community impact, and contributions to motorsport. Here are several reasons why Auckland Council should reconsider its decision:

🏁 1. A Historic Motorsport Landmark

Established in 1929, Western Springs Speedway is one of the oldest and most iconic dirt oval tracks in the Southern Hemisphere. It has hosted numerous significant events, including qualifying rounds of the Speedway World Championship and the New Zealand Solo Championship on 15 occasions from 1931 to 1989. In 2012, it hosted the opening round of the Speedway Grand Prix, marking the first time the event was held in New Zealand .

👥 2. Deep Community Roots

For generations, Western Springs has been more than just a racetrack; it's been a community hub where families and fans gather to share their passion for motorsport. The venue's unique atmosphere and natural amphitheater setting have created lasting memories for many. The recent closure sparked significant public outcry, with hundreds protesting the decision, highlighting the venue's importance to the local community .

💰 3. Economic and Cultural Contributions

While concerns have been raised about the financial viability of the speedway, it's essential to consider its broader economic and cultural impacts. The venue has attracted international talent and fans, contributing to local tourism and businesses. Moreover, its cultural significance as a longstanding sporting institution adds intangible value to Auckland's heritage .

⚖️ 4. Controversial Decision-Making Process

The process leading to the speedway's closure has been criticized for its lack of transparency and alleged procedural irregularities. Speedway New Zealand reported being "blindsided" by the decision, and the Western Springs Speedway Association has filed for a judicial review, citing potential breaches of the Local Government Act and concerns over fabricated support documents .

📍 5. Irreplaceable Venue Characteristics

The natural amphitheater of Western Springs offers a unique spectator experience that is difficult to replicate. While Waikaraka Park is set to receive upgrades to accommodate speedway events, many fans and participants feel it lacks the history, atmosphere, and community connection that Western Springs provides .

🌓 6. Preservation of Cultural Heritage

Western Springs Speedway is not just a sports venue; it's a cultural landmark that embodies Auckland's rich motorsport history. Preserving such sites is crucial for maintaining the city's diverse cultural tapestry and honoring the traditions that have shaped its identity.

In light of these considerations, it's imperative for Auckland Council to re-evaluate its decision, taking into account the historical significance, community sentiment, and cultural value of Western Springs Speedway. Engaging in transparent dialogue with stakeholders and exploring alternative solutions could lead to outcomes that honor the past while accommodating future needs.

It probably needs an upgrade to the facilities which could attract orher sports and revenue. Would keep a more community feel, but can the cory afford it right now? Option 1 feels like a Vector Arena Mark Ii,, but in the suburbs with no public transport to support it. Maybe keep as is for the next 5 years and review options then. I'm bemused at the comcert idea when the locals didnt like the speedway, and made them move to Waikaraka so why would concerts make them any happier.

Considering wider picture of Auckland event venues, develop the ones that have existing infrastructure, say ease of access, connection to rail and capacity with amenities.

As functionality efficiency increases the pleasure of attending a venue for the patron.

Then adjust in the future depending of community growth & needs. As Western Springs is an ideal site for Central Cultural activities, but parking need to be addressed.

Perfect to continue sports development of the Central Auckland community. But I can see a multi functional venue would be suitable at that location, if not used for sport then for community use or musical live events. As percentage usage would higher if various association are involved.

Just a view from me, Thank you.

It's a good concert venue. There are plenty of under-utilised sports stadiums currently. We don't need another one. Auckland FC sell out 20,000 plus seat Mt Smart stadium so what use is a 15,000 seat stadium. The most logical option would be for Auckland FC to play at Eden park. This would keep everyone happy except for the speedway. My issue with the speedway is that they don't have enough people turn up to justify their hold on the facility. I think the noise is not an issue.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I attend events at the stadium or its sports fields

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

We have North Harbour Stadium, Eden Park, Tryst Arena and Go Media Stadium we do not need a purpose built football stadium we need to better utilise the existing ones and for once in this Cities history we need to honour the past. I grew up near the stadium and speedway was a huge part of my life. The track is very special and I have been to 30+ concerts, cricket games, military tattoo's etc at Western Springs. There are multiple football venues around Tamaki Makaurau and Eden Park is constantly in trouble financially. Stop adding more stadiums and sort out what is already there and leave the speedway track in play.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I don't think Option 1 is popular as it changes too much & involves unnecessary expenditure.

Option 2 brings the venue into the 21st century, while retaining the community connection with the facilities which is very important. Aucklanders are not happy with changes that are happening around them, over which they feel they have little control. This option gives the public a sense that they have some control over the decision, while upgrading & keeping the concert and sporting reputation of the venue. Many people have memories of Western Springs Stadium and they want to pass that on to their children and grandchildren. It's about family/whanau. He

tangata, he tangata, he tangata. Big projects can go terribly wrong & not touch the hearts of people.

Give Speedway a long-term lease.

Give speedway commercially successful operating conditions.

Change the WS Stadium Unitary Plan to help speedway like they did at Eden Park to help concerts.

Speedway can be part of a multi-use situation with concerts can and have worked with rugby at the stadium.

We (stakeholders/fans/the people) were never consulted with before this time and should have been.

I'd rather see my ratepayer money spent to have speedway at Western Springs Stadium than a lot of the things the Council currently spend the people's money on.

I have seen how this issue has been handled and I don't agree with it and have lost faith in the council staff and many councillors.

Most Aucklanders I know want the same as me.

support save our Speedway

There is a lack of smaller size rectangular stadiums in Auckland at international standards. This would more right sized events to be held at appropriately sized stadiums. The proposal states that it will be football specific, but however consideration should be given to accommodate rugby pitch sizes as well.

Be very careful which option you choose.

Auckland FC has been in existence for just one year.

Ponsonby Rugby has been around for well over 100 years. It has made a massive impact on the lives of thousands of men and more recently women.

Through the generations they have had more All Blacks than any other rugby club in the country.

I am sure this has been stated by others many times.

In my own case I met my wife at the Ponsonby Rugby Club. I still keep in contact with dozens of friends I have made over the years through the club.

How can it even be contemplated that Ponsonby Rugby can just be caste aside and the much hyped soccer team effectively kicks them out of their heir home grounds. Go find your own grounds AFC!!

Ali Williams, a Ponsonby Rugby All Black, must be the lowest of the low.

As I said in my first sentence be very careful which option you choose. Look past the AFC hype and the big cheque books they are waving around. Consider the repercussions of your decision of a community living in Auckland in 50 years time.

How precious will that central city land be then.

If I had to make a decision it would be this.

AFC your application is declined. Either build yourself a new stadium on land of your own that have purchased. Or come back and see us in 10 years time. At that point we will see what AFC looks like after 10 years of history. And we will also see how the Ponsonby Rugby Club has delivered on its promises.

Take your time. Make the right decision, not a pressured decision that is wrong. A decision that will impact on generations of Aucklanders.

Thank you for your time and consideration of my submission.

I'm an Auckland FC supporter. Been to mostly all of the home games at Mount Smart: this new stadium out west just seems like a step backwards for the club. With barely any trains close by, and smaller capacity: why? Leave the space to the die hard fans of the speedway.

Although I'm an Auckland FC fan, the stadium design has poor foresight, with seating numbers too low for aucklands fan base. Also it's a bad location without good public transport links nearby. I just wouldn't go often. The bowl idea would look better situation in its natural environment, and provide more music entertainment options that auckland needs. A waterfront stadium is desperately needed if we want to be an advanced city in the future.

As a musician and music lover I do think that there is a lack of large scale concert venues not just in Auckland but in the country. Option two would be a cultural hub and attract more international music acts to consider adding New Zealand as a tour destination.

No trains, lack of buses, lack of parking, noise is too close to the zoo animals, that area is already heavily used day to day due to having motat and auckland zoo there, the cost to the rate payer either way is not a good use of funds at all considering the infrastructure is **********.

Mount Smart Stadium is more than capable of holding both of the Warriors in the FC football. The last two seasons have been amazing at Mount Smart Stadium and it has met all the needs required of the crowd. It has easy accessible parking for the disabled. It has easy accessible public transport for people that require it.. it is an industrial area that allows the massive crowds that want to celebrate their teams with their voices as loud as they want to. If the changes needed due to financial restraints of Auckland City Council, the best option out of those two would be the Western Springs bowl as you'll have more interest from the community and such an idea and you'll be following the trends of overseas that have profited majorly of suction endeavours..

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Main reasons are:

Firstly the history of Western Springs speedway should not be wiped away in a new build such as option 1.

Secondly, Auckland FC have shown this year that there is a large interest in supporting the team. Moving to a stadium this small would prevent many fans from attending games.

Making a multipurpose stadium kills any atmosphere for football games, fans become disconnected from the pitch being so far away. It’s proven worldwide, West Ham moving into the London stadium from Upton Park is a good example.

Public transport, getting to the purposed stadium will be worse than Eden Park. No train services nearby, forcing most people to drive.

Finally, you really want to build a state of the art stadium on flood plans!?

Keep the history, give AFC a home they are worthy of and doesn’t cut the number of fans who can attend.

You had the answer right in front of you with the proposal for a downtown stadium…. Instead you opted for Eden Park

Western Springs has huge history and legacy, the theatre is one of a kind and should be protected for future sport and music. Explore a waterfront stadium and the continued regeneration of that area.

Western springs was one of the best concert venues but Auckland FC need a permanent home that doesn't clash with Moana Pasifika and the Warriors. The design for the stadium will still allow for concerts so it is the best option.

Really not keen on option 1 as it would be a shame for Auckland FC to move away from Mt Smart. Is there really need for another venue for their matches when the current venue has great facilities and public transport links? The sport is a great addition to Onehunga and this addition is not needed at Western Springs. It would be better to focus on festivals and a larger stadium. This will appeal to people attending one off events (eg music concerts) rather than sports fans who will struggle to get there each week. Leave Auckland FC at Mt Smart

The stadium idea for Auckland FC is too small. The capacity of 12-15,000 is not large enough. We regularly get over this number each week at Go Stadium and need a capacity of 30,000. I would prefer the GO Stadium to be improved and permanent stadium created to increase the capital for Auckland FC.

I believe that the Ponsonby Rugby and Speedway should be maintained at this venue. Why cant the soccer be established at say North Harbour. I am also of the view that the consultation process for moving the speedway to Waikaraka was flawed and to be honest underhanded as it did not follow due process. By having the same promoter involved in secret negotiations for the move seems to be a conflict of interest. Also getting the extra season following the floods on the basis that they promoter didnt hassle the TAU about the closure also provides a hint of blackmail hence the process needs to start again.

I agree western springs needs an upgrade but I don't think you have found the right option, the FC stadium is impractical looking, small seats, small numbers and with the debt they will be entering into will price out a number of supporters, and the bank at the back will be hard to fill in as it is unwanted seating. The lack of public transport and parking for such large events.

The bowl could be interesting if you are following similar ideas of Vegas US for example and could be a star attraction but needs to be a better framework in place first.

Sports stadium at mt smart sounds a lot more practical for what Auckland needs been a central stadium with plenty of parking available being an industrial area and also great access to public transport.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I don't have a direct connection, but I am interested in how the space is used

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Auckland FC should keep paying at Mt Smart because it had bigger capacity. The bowl option sounds good but should cater for cricket test matches.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I have been going to Speedway since I was a child. It's a world class Speedway event. Waikaraka is unsuitable for open wheel speedway and cannot hold crowds of Western Springs. Western Springs has been the home of speedway for 96 years for a good reason.

Having a new dedicated concert area with a large capacity would be far more useful for Auckland and New Zealand as a whole. This would increase tourism both local and international far more than a football stadium of 12000-15000.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

1. Lowest cost to ratepayers

2. Appropriate sized venue for Auckland FC in the longer (while their first season had great attendance, they will have bad seasons where attendance is low).

3. A new facility while being the home ground for Auckland FC will likely be used by others under commercial arrangements.

4. Concern about public transport - not sure how people will get to and from the stadium effectively.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Auckland FC can’t take away 100 years of rugby from ponsonby on such a historic ground. My company I work for often is busy over the summer periods with event work at western springs and would drastically reduce my company’s work, possibly hindering employment (my personal situation). The opportunity for a 5-8,000 seat stadium offers multiple sports and teams an opportunity to utilize this, rather than the one with AFC.

As a local who values our sporting venues and their history, I'd like to see Speedway returned to Western Springs—it's where it belongs and has always been part of the fabric of that place. Mt Smart, on the other hand, has the size and facilities to properly host Auckland FC and the Warriors. Western Springs simply doesn't, and there's little point in developing it further when the response from FC fans says it all: they don't want to move. Stop trying to force something the public clearly doesn't support.

Western springs has a long history of speedway and long should it continue . It’s part of history as you would let a historical house be destroyed this what you are doing by removing the track . You pulled out the cart track to dump containers on it . The council keeps removing places for responsal motor sport you will end up with more problems with street racing because you give them no where to do there sport that they love in a safe controlled environment .

Ponsonby Rugby is more than just a sports club. It is a cornerstone of our local identity, a place where generations have come together, not just to play rugby, but to build character, lifelong friendships, and a profound sense of belonging. For decades, the club has been a breeding ground for top-tier rugby talent, earning national recognition and contributing significantly to New Zealand's rich rugby heritage.

This legacy is personal to me. I now have nieces and nephews who have just joined the club—following in the footsteps of their parents who grew up playing and supporting Ponsonby at Western Springs. It’s a powerful thing to witness: the continuation of a family and community

tradition that has shaped so many lives for the better. The club provides a positive, structured environment that instills discipline, teamwork, and pride—values that resonate well beyond the field.

Western Springs is not just a location—it is part of the club's soul. Uprooting Ponsonby from this historic ground would sever a living connection to its past and diminish its capacity to inspire future generations. The stadium has long served as a hub for local engagement and sporting excellence, and its continued use by Ponsonby Rugby ensures it remains a vibrant, inclusive space that benefits not just the players, but the entire community.

Preserving this lease means safeguarding a legacy, supporting youth development, and continuing to build a positive reputation at both the community and national level. For the sake of all those who have come through the club—and all those yet to come—I urge decision-makers to allow Ponsonby Rugby to continue calling Western Springs home.

Auckland Arena is not good option. AFC are selling out Mt Smart/Go Media at 25000+. Clearly a seating capacity of 15000 is not enough. Option 2 is too expensive. We don't need for example a new stadium for sports such as basketball (Vector). Hence keep the stadium as is. It is the home of speedway. Open to explore other ideas also.

SPEEDWAY should remain at Western Springs! The Speedway is an institution which has established itself over 95 years. It should have "Heritage" status and not be in the situation it now finds itself in.

The Western Springs Speedway is an icon and is held in high regard both in NZ, Australia and USA. It is a world renowned and world class Speedway facility, the atmosphere of which cannot be replicated anywhere else in Auckland (or NZ for that matter). This facility has attracted generations of fans (in my case 4 generations) and must bring significant revenue to Auckland.

The crowds consist of Families, single people, elderly people and lots of people in wheelchairs. The stadium lends itself to all these people. Spare a thought for all these people. There is never any trouble - in fact I don't think I've ever seen the police there in all my 65 plus years of attendance.

Now in my late 70's it the highlight of my summer to go to Western Springs Speedway, sit my son and grandchildren and meet up with friends.

For all that to be wiped out just like that is absolutely disgraceful. FOR THE COUNCIL TO BE WASTING MILLIONS OF DOLLARS AND SHUTTING DOWN A HIGHLY SUCCESSFUL AUCKLAND ICON AND SATURDAY EVENING FAMILY ENTERTAINMENT IS UNBELIEVABLE AND UNFORGIVABLE.

Council has slowly strangled to WS Speedway promoters with unrealistic conditions - give Speedway a long term lease and commercial successfully operating conditions and see it boom.

This whole issue has handled very badly with misinformation, denial of any public consultation at meetings, underhand dealings not to mention straight out lies re crowd attendance

I would like the Auckland Council to acknowledge the past of Western Springs Stadium by future proofing its rich 96 year history and keeping it going for another century of Speedway, Concerts, Ponsonby Rugby and new community events where possible.

To the Auckland Council,

I am writing to express my deep concern over the decision to remove Western Springs Speedway from its long standing home. For 96 years, this venue has been an iconic part of Auckland's sporting history, hosting world class competitions and welcoming international drivers who challenge New Zealand's best. The Speedway is more than just a venue—it is history personified, a living testament to our city's rich motorsport heritage.

This decision not only disregards its historical significance but also threatens the vibrant community it has nurtured for decades. Speedway at Western Springs is a multi generational experience, binding families together through shared passion and tradition. My late parents introduced me to this sport when I was just a baby, and I carried this tradition forward, bringing my own children and now my grandchildren to experience the thrilling atmosphere that only Western Springs Speedway can provide. The energy, the camaraderie, and the competitive spirit make it a cherished staple for Auckland families.

While Waikaraka Park Speedway has been allocated funding to facilitate changes, relocating Western Springs Speedway is not merely a logistical shift—it is a fundamental loss to the essence of what makes Speedway at Western Springs unique. No amount of modifications at another Speedway venue can truly replicate the atmosphere, history, and prestige that Western Springs offers.

Western Springs Stadium is more than just a motorsport venue; it's a distinctive outdoor amphitheater that has hosted not only Speedway but also renowned international concerts. This multi purpose function underscores its immense cultural and entertainment value to Auckland.

Ponsonby Rugby Club also has a long-standing presence at Western Springs Stadium, and its lease plays a significant role in the future of the venue. My understanding is the club has proposed extending its lease and expanding its operations and community events.

I strongly urge the Auckland Council to reconsider this decision and explore other ways to make it work at Western Springs Stadium as has been the case for 96 years and more importantly to acknowledge the profound impact Western Springs Speedway has had on generations of Aucklanders. Preserving this venue is not just about motorsport; it is about honouring history, supporting family traditions, and maintaining a world class sporting and entertainment facility that continues to attract international talent annually.

Respectfully,

[redacted]

I believe in keeping our history in Auckland, as we are quick to make changes and destroy our beloved unique heritage. Some of our great buildings and parks remain, The Civic Center, Smith Caughey, The Auckland Town Hall, The Auckland Domain, Western Spring Pond, to name a few. With little left of our Auckland Heritage, I wonder why on earth would you want to take away and destroy such an icon venue rich in so much history and a huge part of what makes Auckland city great. We are quick to destroy our past history and Heritage like Crown Lynn, in New Lynn where, once tall chimneys stood, clay pipes could be seen stacked high, were demolished, flatten and

without a trace, nothing left to remind future generations the glory days, where many house hold Auckland homes had what was manufactured there, they didn't even care by leaving one of those beautiful brick stacked chimneys to explain the rich history of this unique suburb did for Auckland in its hay day. And this will be the same thing for Western Springs Stadium, so much joy and happiness it has brought to so many people's lives, not just Aucklanders but from all over New Zealand and from around the world, many ,many wonderful memories of this great iconic venue. Please leave this great Heritage of Auckland alone, we have had a wonderful 96 years at this great venue, why not have another amazing 96 years and make more amazing. Thank you for your time and God bless Auckland

I am very disappointed re the process council has embarked upon over the future of Western Springs. From the outset they have excluded current users and now having committed millions of dollars of ratepayers money to Waikaraka Park they now seek public feedback. This process reflects very poorly on council and its officers even before the controversy around d changes to documents etc that border on fraud. Now they seek to sell the usage to private people whose only desire is to make money from a ratepayer owned facility. Shame on those involved.

This is the home of Speedway , virtually anyone in NZ would know that , it is simple and it works , it is for the everyday Joe and Family , not pretentious and affordable for a great nights entertainment , just like their parents and their parents used to enjoy , Waikaraka is a nasty part of town on the edge of a swamp . , i would never consider going there despite living much closer , i am 74 and have been going for 62 years

As a driver and now a car owner for a up and coming kid. What the council have done is a ********** joke. My family has been involved with racing at the springs since 1996 with my dad,uncle,me and now we are giving a new young kid a chance. The council has no idea how much this place means to our family and other families. I meet my wife at this place watch we call home. The council need to look into the fact what they have done and how they have gone about it is wrong. Leave the springs and let's keep racing. This is a great family place and the council need to wake up

I think Western Springs is an amazing concert and outdoor events venue. I've loved so many events here over the years and don't want it turned into another stadium for sports. We already have multiple stadiums for sports that barely get used (e.g. North Harbour stadium), as well as stadiums like Mt Smart and Eden Park that barely have any events.

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1 is essentially privatising Western Springs Stadium. While the proposed ammenities are impressive, they will only be available to those who can afford them or are sponsored by others to get access. This is a massive asset transfer to the wealthy without compensation to Auckland city.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I chose option 3B because Western Springs is a flood zone and there are already several underused stadiums around the Auckland area begging to be used. Don't give our public spaces to billionaires to shut other users out. Please explore other ideas.

People don't want to bus or find parking in this area of the city. For any reasonable size venue there HAS to be a train system in place otherwise there is no point.

The other options impact Go Media Stadium/Mt Smart. The council under appreciates the fantastic asset it has with Mt Smart which is THE best large concert facility in the Auckland region due to it's location and ease of access to public transport especially trains given the investment in the CRL. All other options for concerts at Western Springs or Eden Park (which should be demolished and used for housing or a literal park rather than the Council supporting and continuing to waste ratepayer money on this white elephant) are unsuitable due to poor public transport links for large volumes of concert goers and the main issue that they are primarily in residential areas. The council is better off keeping things as-is and letting speedway return to Western Springs - at least allow speedway to get to 100 years at the site before reviewing. Any

rate payer money re the ongoing stadium saga would be far better spent on putting roof on Mt Smart and improving the acoustics in the West Stand.

Lower cost, better use for ponsonby rugby club which has been operating in this area. Auckland FC currently using Go Media Stadium has worked well, does not need a different stadium at a greater cost.

It is such a huge part of the history that makes up Auckland and with so many places being bowled purely for somebody's back pocket it's time the people had a vote in what's important to them. It's time Auckland stopped rapping the land because some rich greedy bastards want what they perceive to be for the best for the people! Let my children and future grandchildren know the enjoyment of what Western Springs is all about - THE PEOPLE - NOT THE $$$$

We already have a world class speedway at Western Springs that has been running there for decades. International drivers rate the facility as good as they have seen anywhere in the world. Waikaraka park is mot fit for purpose for open wheel racing, it is a track for stock cars. Upgrading for open wheel will make it unfit for stock car purposes.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Bring speedway racing back to Western Springs. It has a long history and is an amazing venue for the sport, and should be allowed to continue to operate as it has. 96 years of history should not be forgotten.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I support Option 2: the Western Springs Bowl redevelopment as the most appropriate and balanced future for Western Springs Stadium — one that protects the site's unique cultural character while enhancing its community value.

Western Springs has long been a cornerstone of Auckland's live music and festival scene, with a natural amphitheatre that is unparalleled in Aotearoa. Option 2 honours this legacy by investing in permanent staging and infrastructure for concerts and festivals, expanding capacity to 50,000 and allowing Auckland to remain competitive in the global events space.

Crucially, this proposal also supports community sport and recreation. Renewing and expanding the role of Ponsonby Rugby Club, alongside the creation of a boutique 5,000–8,000-seat stadium, allows for more inclusive, multi-code sporting access — including basketball, netball, and touch — without alienating the communities that already call this space home.

By contrast, Option 1 — the Auckland Arena proposal — amounts to a corporate land grab. It seeks to convert this public green space into a private high-performance sports and commercial venue anchored by Auckland FC. While sport has a place in the city, a private football franchise should not dictate the future of a cherished public asset. The scale, exclusivity, and long-term lease of this proposal is completely out of step with the identity of Western Springs and the needs of the wider community.

If Auckland FC requires a purpose-built facility, a more appropriate location would be Colin Maiden Park in Glen Innes — a site already zoned for high-performance sport with ample space for expansion and better proximity to east Auckland's growing football communities.

Option 2 offers a respectful evolution of Western Springs. It protects the park's unique landscape, enhances its role as Auckland's premier outdoor concert venue, and opens the door to more diverse and inclusive sporting use — all without handing over public land to private developers.

This is the only option that balances heritage, access, and future-proofing for the people of Tāmaki Makaurau.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Western Springs Speedway has been there nearly 100 years. If rich people don't like the noise then do not buy there. Option 1 is a joke as 12,500 stadium is useless for Auckland FC as they get over 25,000 people per game. Option 2 is OK as it would have a permanent concert venue, mind you there is NO public transport. Auckland Councillors who voted against Speedway should be investigated for corruption. The letters agreeing to move Speedway were forged. This corruption needs to be investigated first.

Western springs speedway is and has always been my family home 3 generations of my family have raced and grown up around the speedway the amazing overseas visitors that it brings. Speedway has a history and family base to it from the babies asleep on the terraces to the 90year Olds sitting up there western springs as always been the home of open wheel racing and should stay that way. Not only that but only last year we were told there are to many stadiums in auckland and now we are planning to build a even bigger one

Sounds better value for money and will be able to be maintained in the future after it is built. Keeps more true to the current style. Plus if we are building a state of the art arena it should be in the city centre on the waterfront to attract international tourists.

Because it's the only one allowing for Western Springs Speedway to retain Western Springs stadium as its original venue. This is a multi generational family event for racing fans. People from all walks of life for generations have enjoyed this hallowed ground. It forms part of the heart and soul of Auckland, your ratepayers to boot. The other options are unacceptable and so is your flimsy attempt at discarding Western Springs Speedway to the substandard ,incompatible and totally unsuitable Waikaraka Park?! It reflects how poorly you regard the supporters of Western Springs Speedway, the value and joy it brings tens of thousands. I appeal to a better judgement, consideration if you will, to keep Western Springs Speedway exactly where it is, home.

To take away this fantastic arena which is aworld class natural amphitheater enjoyed by so many for large concerts and sports activities and partly used for events like Pasifika to me makes no sense..Please keep this facility in public hands do not privatize it's always a pleasure to attend events at this well accessed and great natural facility..turning into private development is not in my mind the best option for generations to come.

I have been going to AFC games at Mt Smart and loving them, even so far as getting family season ticket for next year. A venue for AFC with only 12,500-15,000 is short sighted and will lead to lost revenue for AFC as they garnered so much more in attendance all season. Seats =revenue=cash for players, atmosphere and success. I don't want AFC at Western Springs and I don't want such a small stadium that many supporters are left disappointed at not getting a seat.

Western Springs Stadium has a history and works well for music, sport and racing so if works why change it and cost the Auckland people more in rates as we are being ripped off as it is. People in the area are happy with the way it is run and also why throw a rugby club from their home which is known all over the world not only in a sporting way.

Western springs is a known international circuit and has been the home of speedway in Auckland since the 1920's and has provided world class family entertainment and a sense of community feeling amongst competitors and race fans alike.

To the Auckland Council,

I am writing to express my deep concern over the decision to remove Western Springs Speedway from its long standing home. For 96 years, this venue has been an iconic part of Auckland's sporting history, hosting world class competitions and welcoming international drivers who challenge New Zealand's best. The Speedway is more than just a venue—it is history personified, a living testament to our city's rich motorsport heritage.

This decision not only disregards its historical significance but also threatens the vibrant community it has nurtured for decades. Speedway at Western Springs is a multi generational experience, binding families together through shared passion and tradition. My parents introduced me to this sport when I was just a baby, and I carried this tradition forward, bringing my own children to experience the thrilling atmosphere that only Western Springs Speedway can provide. The energy, the camaraderie, and the competitive spirit make it a cherished staple for Auckland families.

While Waikaraka Park Speedway has been allocated funding to facilitate changes, relocating Western Springs Speedway is not merely a logistical shift—it is a fundamental loss to the essence of what makes Speedway at Western Springs unique. No amount of modifications at another Speedway venue can truly replicate the atmosphere, history, and prestige that Western Springs Stadium offers.

Western Springs Stadium is more than just a motorsport venue; it's a distinctive outdoor amphitheater that has hosted not only Speedway but also renowned international concerts. This multi purpose function underscores its immense cultural and entertainment value to Auckland.

Ponsonby Rugby Club also has a long-standing presence at Western Springs Stadium, and its lease plays a significant role in the future of the venue. My understanding is the club has proposed extending its lease and expanding its operations and community events.

I strongly urge the Auckland Council to reconsider this decision and explore other ways to make it work at Western Springs Stadium as has been the case for 96 years and more importantly to acknowledge the profound impact Western Springs Speedway has had on generations of Aucklanders. Preserving this venue is not just about motorsport; it is about honouring history, supporting family traditions, and maintaining a world class sporting and entertainment facility that continues to attract international talent annually.

Respectfully,

[redacted]

I support Speedway remaining at Western Springs Stadium. It's been part of this iconic venue for almost 100 years and is an important part of Auckland's heritage and identity.

To many of us, Western Springs isn't just a stadium—it's a community space with a long-standing tradition and strong generational support. I believe that maintaining and supporting Speedway here is a better use of public funds than investing in alternatives that lack the same cultural and historical value.

With sensible changes to the Unitary Plan, there is no reason Speedway couldn't successfully operate alongside concerts and Ponsonby Rugby as part of a shared, multi-use venue.

I do not agree with the proposal to hand control of the stadium to private interests under a long-term lease, especially if public funding is still involved. Auckland already has several venues catering to ball sports—Western Springs offers something different, and that diversity should be preserved.

I strongly urge that Speedway be allowed to continue at Western Springs.

I came to NZ in 2014 and found the speedway within the first week or so of being in, I was embraced by the fans and the community with open arms, Since then I have gone on to become an avid fan of the western springs circuit and racing. Then of course you have the historical value of the circuit that won't be the same if it's moved.

Evolution. Let's get better. This maximises the space for all of the community and elevates the city as a whole. Fundamentally the option for Ponsonby to move to Coxes Bay is a far superior option to where they are now. Family friendly, fantastic location. It needs investment but it could be one of the best club grounds in NZ - a win-win-win.

I feel that this private funding will allow for better use of council/government money to fund other projects but still gets a great facility for the community.

Future use of Western Springs Stadium

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I attend events at the stadium or its sports fields

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Speedway belongs at Western Springs. It is part of the heritage of Auckland . And why can't people of all ages

continue to use the outside field. Pondonby Rugby belongs at Coxs Creek

I enjoy the current racing and my daughter does too. Onehunga has an entirely different setup and vibe for car racing (we go there too) and it’s so run down and small that it’s hard to believe it could accommodate Western Spring racing.

AFC having such a small capacity stadium doesn't make sense. Mt Smart works well in conjunction with the warriors now. The land was gifted with the intention of it being used for speedway (I am not a speedway fan and have never been but I dont see why it should change) as a concept venue the smaller proposals of AFC or Eccles dont make to me. We already have a smaller covered venue in Spark Arena. We have a large venue in eden park that has been granted permission of extra concerts and mt smart sits in the middle

I have attended my younger brothers rugby games at Ponsonby ever since he finished high school 'St Peters College'. Originally he played for Ponies back in Primary 'St Francis' and this is where our love of club rugby began. Our family are rugby supporters especially our Dad who back in the day would attend rugby matches held at Eden park. My younger brother has given rugby a break this year but that hasn't stopped the Ponsonby supporter in me from attending their games. The western springs stadium is a great venue for Ponsonby rugby and parking is convenient. Also, have attended afew concerts here 'Friday Jams', it's a really awesome atmosphere for these concerts, though parking space is quite limited there are always other Transport options available. It's a shame the speed way is no longer here, I grew up in Pt Chev and remember the sounds coming

from the speed way it was iconic place. Would love the home of Ponsonby rugby to stay here at Western Springs and continue as a sports venue for similar sports and also to host music concerts and festivals. Thank you SV

The speedway must stay at this venue, the future of open wheel racing in Auckland and New Zealand will be seriously affected as this amazing venue that has a unique atmosphere that many generations of New Zealanders cherish and is one of the best dirt oval tracks in the Southern Hemisphere. To motorsport fans it is the bastion of NZ motorsport. Fans have always filled seats to support the speedway at Western Springs and they always will. I have been attending speedway meetings since 1967 and still get goose bumps when walking into the stadium, the history and the future mean so much to a lot of people here and around the world.

The Speedway at Western Springs is the best in the country. It routinely draws bigger crowds than the super rugby or league and is now (especially with the closing of Pukekohe) the only accessible grass roots motorsport in Auckland. It should never have been stopped and option 3 allows it to return at some stage in the future.

I strongly oppose the removal of Western Springs Speedway and the redevelopment of the site into a privately funded football stadium backed by Auckland FC.

Western Springs Speedway has been a key part of Auckland's sporting heritage for nearly 100 years, hosting world-class motorsport events and engaging diverse local communities. Its loss would erase a unique cultural landmark and harm grassroots motorsport.

Ponsonby Rugby Club, founded in 1874 and based at Western Springs since 1997, is one of New Zealand's most successful and inclusive rugby clubs. It supports junior, women's, and grassroots

rugby and has produced many All Blacks. Displacing Ponsonby Rugby would damage central Auckland's sporting fabric with no comparable alternative nearby.

The stadium proposal is backed by Anna Mowbray, co-founder of ZURU—a company known for single-use plastic ********** contributing to environmental harm. This raises serious concerns about greenwashing.

Furthermore, the stadium would be built on publicly owned land under a 100-year lease, effectively privatising a treasured community space for private profit with limited community input.

This proposal risks gentrification, displacement, and prioritises rich idiots with deep pockets over culture and history. I urge Auckland Council to reject this plan and instead support options that preserve Western Springs' multi-use heritage.

Western Springs was always intended to be a cricket ground due to it's natural bowl shape. Cricket is the second largest sport in the country and Auckland is missing out on major cricketing events as Eden Park is not suitable for test cricket matches.

Colin Maiden park is not suitable as it is too far away from everything.

It is a great concert venue, way better than Eden Park, and should be used as such. Plus this gives Ponsonby Rugby a home, which would be lost under 1.

Auckland needs a real circular/round cricket venue. Eden Park has failed cricket fans and as NZ's 2nd largest sport, Auckland is missing out on lucrative cricket matches. Everyone knows Western Springs is already a perfect cricket shape and it is CENTRAL. Colin Maiden Park will fail as a future cricket ground as it's too far from everything with NO atmosphere.

Western Springs will make a fantastic cricket/concert venue.

Any future rugby ground or Eden Park redevelopment will still see the need for a new cricket ground. Don't stuff this up. Make Western Springs the new Hagley Park of Auckland.

Option 1 should not proceed. It is not cost-free to Auckland ratepayers. Given the long-term lease the opportunity cost is substantial. Also, the benefit Auckland FC gains by not having to purchase land for a stadium is a benefit that does not accrue to ratepayers. The estimated savings, shown in the consultation document, to ratepayers of $18.1m over 50 years are insubstantial ($362,000 pa) - does it include the loss of revenue when other council stadiums are not used by Auckland FC? It seems that option 1 is effectively a transfer of a public asset to private interests.

Option 2 is preferable to option 1 in that it retains and potentially improves on some of traditional uses of Western Springs but given the lack of proper process that resulted in speedway's removal

from Western Springs, option 3b provides the opportunity for the decision to be revisited and for proper process to be followed.

Surely you all must see you have made a huge error in trying to get rid of speedway. Please open your minds, even if you don't like the sport, and think about the huge impact this is having on people. There has already been one suicide due to this, do you want more blood on your hands. Please reconsider and don't just dig in your heels because of your stubbornness and greed. This sight was gifted to the Auckland public for the use of motorsport. When did a facility become a private commidity? I didn't agree on this as a tax payer. I have very little joy in my life, I really struggle to be honest, but one thing I could always count on every summer was speedway at the springs. I am 52 and my father who is now 81 started taking me there at 5 years old. This is a very common story amongst fans. 1929 people ... 1929! 96 years of amazing history and you don't give a

**********. Please see past the $$$ symbols, this is people's lives, honestly. Auckland museum was opened in the same year but you wouldn't dream of closing that, so what is the difference? This venue is known the world over, please don't ruin it, please just don't. Soccer fans have already spoken up and don't want to go there. And I WILL NEVER GO TO WAIKARAKA PARK. Not if you paid me to. I'm not alone saying that, so if you think money for tickets will go in that direction, it won't. Speedway can run at a profit if you let us have it like it was in the old days with more meetings not just the pathetic 10 meetings. Whether you like it all not, people that absolutely love speedway are REAL PEOPLE WITH HEARTS. They are also voters and proud Kiwis that should have a say. You know you have run this whole thing fruedulantly and I don't know how you live with yourselves.

I made my choice because Western Springs Stadium is an iconic venue for Auckland, NZ, and indeed the world. Auckland does not need a smaller-capacity sports or concert venue, as current venues meet and exceed the capacity of Option 1. The Western Springs Bowl option reminds me of the Hollywood Bowl in Los Angeles. And I think that an iconic, unique, and visually appealing venue can't be understated - and is preferable to stadiums such

as Eden Park and Mt Smart for concerts (both of which look like any other stadium in the world).
