If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

The area should be preserved as a sports and recreation facility and not converted into a 50000 capacity stadium. Auckland already has a number a large capacity stadiums that are under utilised. No need for more capacity.

I believe keeping things as they are is the best option, the speedway is an iconic and important part of this areas' history and we should prioritise and invest in what we already have.

I love supports and culture and support the presences of Ponsonby Rugby Club, Pacifica, Laneways and other events at Western Springs, I also support leaving the outfields as fields rather than concrete carparks to support the runoff and drainage of what is a natural wet land. The use of western springs by families and children playing sport in a grassroots way is gunmetal to healthy communities. I am opposed to multimillion dollar investment in a facility for exclusivity. the Bowl approach supports community and accessibility for people to enjoy multi code, cultural, music events.

I chose the Western Springs Bowl because I believe this option reflects a smarter, more future-focussed and community-centred use of precious public land.

Auckland is already saturated with spaces allocated to elite and commercial sport. What we lack - and desperately need - are vibrant, flexible and accessible third spaces that prioritise the arts, community events and cultural expression. The Western Springs Bowl has huge potential to be an iconic venue for music, creativity, public gatherings and inclusive community use. This is a much

better option than a locked-up, single-purpose sports facility that serves narrow commercial interests.

I'm deeply concerned about the proposal to hand over Western Springs to Auckland FC under a 100-year lease. That's not public use - that's privitisation. It's short-sighted, especially considering how many publicly subsidised sporting facilities already exist across the region. Sport already dominates land use, yet most people engage with Tāmaki Makaurau through culture, community and the outdoors - not elite football.

Western Springs is a taonga, and this proposal risks handing it over to the flavour of the month. We've seen what happens with overpromised, underdelivered glamour projects. This kind of deal sets a dangerous precedent of sidelining the public in favour of profit and exclusivity.

Auckland needs evidence-based, inclusive urban planning. That means protecting green space, supporting the arts and building infrastructure that serves the whole community, not just a shiny new club with deep pockets and good PR.

The Western Springs Bowl offers a flexible, creative and future-proofed vision. That's what I want for our city and region.

this is a residential area and although I don't mind the occasional concert, I wouldn't like to see regular noise from it being a concert venue, we didn't mind the occasional speedway either. I wouldn't like to see regular extra traffic or a lot more people in the area either because of these events. Noise has become a big problem in this area, mainly because of infill housing, the development of the stadium would only add to this problem

This venue and area has always been available for public hire and use which and administered by the Council. To pass this on to private enterprise who by definition will be only interested in achieving a return on investment will be tantamount to abrogating their responsibility to the community and ratepayers. I do not see this as any different to other parks and public spaces.

Traditionally this venue has been available for community events sports and a music venue and I cannot see why this should change.All development under option 1 will not serve the community in an appropriate manner.

Submission in support of Option 01 – Auckland Arena at Western Springs

I strongly support Option 01. Auckland is long overdue for a world-class, purpose-built, multi-use event precinct that is centrally located, accessible by public transport, and designed to meet the needs of a fast-growing, culturally diverse, and globally connected city. Western Springs offers an exceptional location for this transformation.

This is not just about building a stadium – it's about creating a vibrant civic and cultural destination that integrates sport, music, recreation, community use, and hospitality within a high-quality public realm. With good urban design, appropriate cultural and ecological engagement, and a landscape and design-led approach, this project could unlock the full potential of the wider Western Springs precinct – including the lake, parks, museum, and zoo – as a highly connected and inclusive public asset. A diverse urban parklands for all to enjoy.

A high-performance football stadium, indoor courts, and associated facilities would support grassroots through to elite sport, especially football and cricket, while also enabling large-scale concerts and major events that currently lack appropriate venues in central Auckland. This investment would catalyse local economic activity, support tourism, and provide long-term jobs and social infrastructure.

By contrast, the continuation of speedway racing on this site represents an outdated and spatially inefficient use that serves a very narrow audience, generates significant noise and emissions, and disconnects the precinct from broader civic uses. Motorsport facilities are better suited to peripheral or industrial areas.

Cities like Melbourne, Sydney, Adelaide, Perth and Brisbane have all invested in integrated, accessible, and multi-functional sports and entertainment venues that serve both local communities and international events. Auckland needs to match this level of aspiration and future-focus. Come on Auckland!

Let’s stop delaying and start delivering. Western Springs can and should become a 21st-century venue that reflects the values, diversity, and energy of Aucklanders today – and into the future.

It seems more inclusive of the community and there are more options for the community. Just keeping it for festivals and concerts is a bad option because it's too noisy, they are always leaving their rubbish around (out when they leave as well).

This will be a game changer for Auckland and encourage other investment into Auckland with very little burden on the ratepayer. It will be amazing for the Western Springs Precinct - Te Wai Orea, it will be very beneficial for the health of our communities and the promoters can still hold ticketed concerts, events etc (including the Pasifika festival) Spending so much of the ratepayers money on a Rugby Club is not a fair precedent or investment, the promoters are excellent but always a huge risk financially and will still be able to hire the Arena and fields. This is a huge opportunity for Auckland.

**Tell us why you made your choice.**

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I've been attending events at Western Springs Speedway for over 30 years. The roar of the engines, the echo of the crowd, the energy of the stadium rocking on a summer night — it's something that soothes my soul and connects me to generations of memories. Speedway isn't just a seasonal sport — it's a cultural institution that brings thousands of people together, from across Auckland and even from overseas. On those weekends, the entire area comes alive. It's not just about the racing — it's about community, tradition, and pride.

There's talk about shifting events to Waikaraka Park, but let's be honest — it's not fit to handle the size or atmosphere of Western Springs. We've already invested so much into developing this stadium into what it is today. Why throw that all away? It feels like we're constantly under pressure to erase the things that have made our area vibrant for decades.

Losing the speedway would be another clear example of the gentrification creeping through our neighbourhood. First the housing, now the landmarks? What's next — the bowling club? Richmond Rovers? When do we say enough is enough? We need to preserve our historic organizations and venues, not let short-term interests dismantle them.

Western Springs isn't just a speedway — it's a piece of Auckland's history. Bob Marley performed there. So have countless other artists. It's more than just dirt and grandstands — it's a place where culture and community collide. If you've lived here long enough, you'd know that. Those trying to push it out haven't — and it shows.

Let's protect this place for the next generation. Don't let it disappear.

Putting a valuable public space in private hands is counter to what the community wants or needs. Renewing Ponsonby Rugby's lease and building a permanent staging will mean that the current and future users will have access to the facilities. Putting the site under private control is both short sighted and undemocratic.

External investment driven, resulting in less cost to rate payers.

Best utilisation of space all year round. Utilisation of space is very poor at the moment.

Good option to avoid having the racetrack.

Bigger parking areas (as per drawings), currently people park all over the neighbourhood and leave rubbish everywhere.

Better quality for concerts, avoid rainy days and mud all over.

# Future use of Western Springs Stadium

Only attend western springs for concerts.

Racetrack is horrible, lots of noise, cars parked everywhere, blocking resident parking and leaving their rubbish o/n the street after each race.

A closed facility will improve the concert experience - protect vs rain.

I think something new, fresh, innovative and privately funded is needed. It would take years for option 2 to eventuate. I had seen that Ponsonby Rugby might move to Coxes Bay and would support that as we need to keep it in the region and then Brian Williams wouldnt need to leave home.

Option 1 is too glitzy and feels like privatising public asset for 100 years. Option 2 will retain the community focus and hopefully restore Auckland as a destination for large concerts. At the end of the 50 year period we will still recognise it and can decide on its next iteration.

Ponsonby Rugby Club and Western Springs has become like a second home to me since moving to NZ from Ireland 6 years ago. The feeling of playing on the fields and sense of community in the clubrooms through out the week and after games is irreplaceable.

Fabulous history of many memorable concerts. The natural amphitheatre is pretty unique and should be preserved. Auckland needs another large music venue and with more permanent infrastructure would make it more attractive for overseas acts. Also good to preserve the playing fields for sports. The location is very central and if linked into good public transport would make it accessible for many Aucklanders

Happy for the Rugby to stay and also okay about other sports. Love the concerts and cultural festivals. It should stay a community resource, not go to private ownership.

We already have Spark Arena. Does Auckland really need another arena (funded by already over taxed ratepayers). As for a Hollywood Bowl 50,000 seat venue again, does Auckland really need it when you consider the already existing venues around town. How often are their events that would fill a 50,000 seat venue and where would everyone park. Lastly, a Hollywood bowl venue would likely create noise issues for the nearby residents.

Currently Laneway is being held at Western Springs. With the City Centre evolving to contain more laneways, I would hope that Laneway can be held in Laneways soon. However, Western Springs has held big concerts over the years, and it would be an excellent large capacity venue to maintain. To complement Eden Park. Spark Arena is the Auckland Arena, and should retain this position as a mid capacity venue. A live music venue makes sense, as Eden Park is still restricted in this matter. And to have two large venues in our inner suburbs would be excellent as we build up, and move towards the apartment lifestyle that a city demands.

This is a community facility available to all ratepayers in the Auckland region. I do not believe that the Option 1 Auckland Arena will be available to the community. If it is, it will most likely be at a high cost as it is a private multi-purpose venue and it will most likely be user pays to recover the huge investment and out of reach for community sports and cultural groups.

I do not want the rich listers and commercial operators take over this site which is and should continue to be a PUBLIC site and not just there for the people to rule and make more money.

Next thing they will have helicopters landing there !!! Would love to see it continue exactly the same as it is /was in recent years as a speedway and public playing fields.

Re-establish the Western Springs Speedway as it was gifted. We don't need another Stadium -both inner and outer parks cater for non speedway events very nicely- Parking would always be a issue however parking on outer field works ok for speedway itself in summer .

Seems to be the obvious choice. A state of the art facility built, at no additional cost to ratepayers, with basketball courts etc. etc. available for public use. Not doing this would be such a lost opportunity to the community and Auckland at large

Auckland City Council have enough projects that they need to focus on for the good of the community. Auckland rate payers cannot afford the upgrade to the facility. Why not allow the private sector investment. This will generate more jobs for the local community.

It saves ratepayers money first and foremost! The city ends up with a new multipurpise privately funded facility when ratepayers and the council are struggling. The council can use money saved for core services. AFC needs a central venue and smaller sports games could use it instead of playing in a sparsely filled Eden Park .

We love speedway, it is a historical piece of western springs. Many families enjoy the races when they're on, its one of the few remaining AFFORDABLE activities available. I can understand the complaints re noise but with Eden park just up the road, I believe "It's too loud" is an unfair and bias argument to make.

The space is well utilised and function well as it is.options 1 and 2 are grandiose ideas which as the documents state will pull patronage from other stadiums, so what is the point of anyone spending money on that? It would be another example of excessive and wasteful spending.

The location of Western Springs is remote and not a good location for stadia and events. Lack of diverse public transport options; Bus only, road dependent, no connection to basic hospitality. Again, in another residential zone, these are THE biggest concerns with Eden Park. Redesign the Auckland City stadium (if there are features missing ie retractable roof) This is a stadium worthy of global status and perfectly located and better meets AKLD council stadium objectives - City and transport Integration, sustainable; the stadium is unique to NZ, seating capacity, commercial and corporate offering and services, therefore providing a foundation for financially stable conditions compared to Eden Park. The Auckland City Stadium SUPPORTS the considerable investment made in the downtown regeneration and the CRL. To be economically sustainable, it is

essential to ensure the very biggest events and attractions are in the city centre precinct.  High volumes of people are fundamental, and bringing large crowds into the city centre will maintain retail (desperately needed) and hospitality demand, allowing a resilient downtown that maintains competitive commercial rents and rates.

Mt Eden must go, and the boutique stadium set up as a replacement. Convert North and South stand to one tier only (remove top tier), maintaining concourse with new roofs. Reconfigure the Eden park stadium and stadium parking spaces, convert to recreation spaces etc - basketball courts as proposed in Western Springs. A boutique stadium is more relevant to this district and Mt Eden Park pros are not lost, being it has a variety of public transport and close proximity to hospitality that Auckland FC patrons require to formulate the clubs culture and traditions and is sensible urban planning principles.

• Speedway can be successful with a long-term lease and commercially viable operating conditions.

• Its Possible to change the WS Stadium Unitary Plan for speedway like they did for concerts at Eden Park.

• Speedway can be part of a multi-use situation with concerts and have worked with rugby at the stadium.

• We (stakeholders/fans/the people) were never consulted with before this time and should have been.

• Western Springs Stadium is important to me and Auckland. I'd rather see my ratepayer money spent to have speedway at WS than many of the things the Council currently spend the people's money on.

• I have seen how this issue has been handled and I don't agree with the process and have lost faith in the council staff and many councillors.

• Most Aucklanders I know want the same as me.

## Your feedback

**What is your connection to Western Springs Stadium? (tick one or all that apply)**

I live in the area (Waitematā or Albert-Eden local board)

**There are three options to consider**

**Which option do you prefer? Select one option only.**

Option 3B: Neither Option 1 or Option 2 - explore other ideas

**Tell us why you made your choice.**

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Make it a park. Extend western springs park.

Don’t sell it off, not make it a stadium. It doesn’t have public transport links. A stadium is corrupt and idiotic.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I would like Auckland to have a large concert/festival stadium. I think Ponsonby Rugby Club should be allowed to continue its historic association with Western Springs and that a venue for community and semi-professional sport would also be great for Auckland

Private investment is great and having a commercial aspect to it makes sense and will deliver better quality results vs rate payer funded activities. We are also lacking a central entertainment stadium which will get a lot of use and will reach a wide audience.

I believe option2 is a happy medium between the three proposals. Option1 is too commercially focused and detracts from the park-like atmosphere that has always existed at Western Springs Stadium. Option2 preserves a substantial amount of the tradition.

It is an amazing venue for music. I live close by and always attend concerts. The sound is amazing in the bowl. There are so many local bands and touring New Zealand bands all the time and would be great to see them in an outdoor venue. Let's support musicians. There are plenty of sports files all the Tamaki Makaurau lets have a music venue. Also fantastic for Kapahaka. How wonderful this would be.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Provides for a specialist rectangular sports venue of a size more appropriate to the typical levels of attendance at NZ professional sports events. This will help to provide a more intimate experience and more positive atmosphere when spectator volumes are lower. This would be particularly useful for emerging teams (e.g. aged group tournaments, women's football). The site is also located in close proximity to several existing football clubs, most notably Western Springs AFC, Metro Football Club and Mt Albert Ponsonby AFC indicating a strong local support base. This will also provide further facilities (for a range of community / sports uses) in a central location that is accessible via public transport and the motorway network.

More regularly scheduled professional football events and a permanent presence of other commercial uses could better support local businesses - particularly those located along Surrey Crescent and Richmond Road (e.g. pre/post game food and beverage spend) in an area which is a 5-10 minute walk from the Stadium.

The springs is an iconic Auckland landmark, a natural amphitheatre that shouldn't be turned into a concrete soulless jungle, just because the Council thinks it can save money by selecting a funded scheme.

Also the way the speedway was dealt with by Council was atrocious and shows how inept it is as an operating body. As usual there is someone in a position of power that has a separate agenda from many of the citizens who pay rates in this city.

This facility should reflect the history and the associated uses and activities it supports

There is too little information regarding the bells and whistles proposal Option One which clearly Tataki wants us to pick. There has also been too much back room activity about giving these people the Western Springs Stadium. We don't know what Council will be paid for the lease, we dont know the requirements of these International operators and what will happen if it all goes belly up half way through. Where are the Ts & Cs and full implications of this deal for potentially 100 years for ratepayers? What will they pay for the leases for such a long time? What will happen at the end of the lease? What will happen if the organisation gets into financial difficulties or if the parties stop working together? We need to know more in order to sign up a potential 100 year

lease agreement. Also has Tataki already made a back room deal with these people? The manoeuvrings in the background suggest that something has gone on and it does not bode well for the future. We need openness and transparency on this deal and details of 'who' are getting hand shakes.

I have lived in the area all my life and concerts at western springs have always been a highlight, it is a part of the community and what makes the area so fabulous. Football already has a home at mount smart which is big enough to facilitate what they need. Ponsonby rugby club should stay where it is, at western springs, and is such an integral part of the community.

I am fully in support of Option 2 – Western Springs Bowl

I believe Auckland Council has a responsibility to help support the live music and cultural events sectors in Tāmaki Makaurau, not just sports.

This is the best proposal to cater to the needs of all of Aucklanders, and to create events that will attract visitors to the city.

There are a number of reasons to support this, not the least of which is the reduced cost to us as ratepayers. A state of the art facility that supports the growth of growing sports like basketball where there are not enough courts for people of all ages to play.- it's an amazing opportunity.

I have lived in the area for over 20 years, I frequently walk around the park and feel like it's currently closed off and poorly maintained. This proposal will open up the whole of the park to more people and uses.

I would like AT to consider extending the CRL to have a station in the area to support easier visits to this stadium for events, but also everyday trips to motat and the zoo. This area is not currently supported by long term CRL links and I believe that to be a missed opportunity

In addition, I believe if the stadium had an extra 10,000 seat capacity it would suit us better for larger event capacity

I love having concerts at western springs but with the evolution of Eden Park I'd rather as a city we invest into their infrastructure rather than trying to duplicate it just a few km down the road.

I appreciate ponsonby rugby will need a new home, but there are other club rooms in the region that may be able to accommodate them as a combined club with tennis or rugby league. I think the days of small individual clubs with individual club rooms to maintain are gone - it's too expensive for all involved

Western Springs Stadium is an icon in the area. People who purchased homes in the area who condemn it because of noise or activity really have little right to do so - the stadium was there when they moved in as was the events especially motor racing. For once - let the fans and Pony's have their piece of land, a piece of land that will let all enjoy.

The cost of private ownership is always higher, and giving ownership of a value area for 100 years is crazy. They have not proven track record, and will have to make a profile of the $200-$300 million investment.

I live in the area (Waitematā or Albert-Eden local board),I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),Other (please specify):

I work in a role that includes looking at systems in communities to improve health outcomes

**There are three options to consider**

**Which option do you prefer? Select one option only.**

Option 1: Auckland Arena

**Tell us why you made your choice.**

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1 (Auckland Arena) caters to community needs which will enrich environmental access to a health-promoting environment such as safe spaces to engage with exercise, sport, community...) This will improve the health outcomes of the population overall saving money long-term in healthcare costs. This is the option I would highly recommend due to the overall, wide-spread long-term impacts on the local community.

Option 2 (Western Springs Bowl)- this option centres around the entertainment value of the sports, in other words looking at monetary gains without consideration for wider implications. The surrounding area includes Western Springs Park, which contains a lot of birds, fish, and other wildlife. It is currently a pleasant space to go for a walk and is generally well maintained. If we have large events occurring directly next to this park it will invite event attendees into the park afterwards, likely dropping litter, drinking alcohol and potential other illicit drug use (leading to antisocial behaviour), which both lead to negative outcomes on the perceived safety and ability to use the Western Springs Park as a well-needed green-space within the area, therefore reducing the use of Western Springs Park as a space for exercise and outdoor activities especially for children. Additionally, if there will be extremely loud music events occurring there, this would create a large public nuisance. The other issue is that there is not currently any parking space available for smaller events within the current amphitheatre / fields at the Western Springs Stadium. This has caused many cars to park along the side of the Bullock Track to access the location. This would be a significant issue if there is not sufficient parking to contain the amount of vehicles required to transport the maximum capacity of attendees. Public transport to this area is very difficult to access so that would also need to be considered. Parking in non-parking areas such as on grass can lead to insufficient drainage and flooding as well as slips and erosion.

It's so relaxed and lovely as it is. We attend the occasional speedway as a family as it's so simple and easy. Friendly and local feeling. Kids rolling on the grass while parents eat terrible hot dogs for not much money. There's never any issue with the attendees, very respectful. The noise is great and adds a great vibe to the city. Would be a shame to lose more 'authenticity' from the city.

I prefer that Western Springs Stadium is kept as an area open to as many diverse groups people as possible. The Option 1 version does not have a community focus and, long term, would become a facility designed to generate profit for investors.

Western Springs has been a long time host of some of Auckland's most iconic concerts - Bob Marley, Led Zepplin, David Bowie, The Rolling Stones - to name just a few. To continue that tradition, in that venue, is essential for Auckland's reputation as an host for international large scale concert events.

Option i does not cater for that.

The renewal of Ponsonby Rugby Club's lease and their expressed intention to expand into other sports allows greater public/community use of the space. Option 1 narrows the use down to one Football team.

Option 2 is the best use of Community Space and should be kept in Community hands.

I would conditionally support Option 1 if the development of Auckland Arena at the Western Springs Stadium site key protections and investments are guaranteed for local residents.

As a resident living within metres of the site, I am deeply concerned about the potential for weekly disruption from an estimated 800,000 visitors annually. I can only support this option if:

Public transport infrastructure is significantly upgraded – including dedicated light rail or train connectivity and crowd dispersal planning to reduce car dependency.

Strong noise and operational controls are implemented, including curfews, soundproofing measures, and limits on late-night events.

Residential impact is actively mitigated, including resident-only parking zones, traffic management during events, and regular community input into operations.

Without these assurances, Option 1 poses an unacceptable risk to quality of life, safety, and residential character in the area. A world-class venue must be matched with world-class planning for those who live right next to it.

Thank you for the opportunity to comment.

Auckland is in desperate need of more venues like this for entertainment and beyond. Countless musicians have completely skipped the country in recent years, which is a massive loss for domestic tourism into the city and for people who simply want to enjoy the benefits of living in a large city, like seeing their favourite artist in a quality venue.

Western Springs Bowl is by far the best option for the people of Auckland. This will continue the involvement with the Ponsonby Rugby Club and will continue to be used for festivals and community events and gatherings such as Pacifica. This is a vital area for our community and must not be leased to a commercial group who will destroy the current natural amphitheater witch the area enjoys. People love going to Western Springs for festivals, watching rugby and any other community gatherings. This must be preserved as a public space - NOT a private commercial space.

I like the option of a new sporting arena as many sports are growing in the central Auckland region and we need more spaces for people to participate. I would really like to see an athletics track as part of the facilities as running is a rapidly growing sport also, and there is no athletics track in central Auckland for public use (Mt Smart is probably closest, otherwise options like Millenium in Albany or Trusts stadium in Henderson are far away).

I support the Auckland Arena because:

1. infrastructure needs to be done properly and to a high standard - this is the only option that would involve building a world class venue for Auckland

2. I live in the Ponsonby area and we have a lack of facilities for our children and this would add a facility to the area

3. I am a big sports fan and centres of excellence in sports are the future and we desperately lack such centres in Auckland

4. Football and basketball are the biggest and one of the fastest growing sports in NZ, respectively, and we need the facilities to support the modern sporting choices of our people

5. a development of that scale would be a much needed boost to the Auckland economy at a time the Auckland economy is struggling

6. Council should utilise the investors and their management capability to deliver the project as Council never could do it itself

7. this is not just an Auckland facility but will become a top NZ facility and be world class and attract world class events

8. Auckland FC has achieved more than anyone could have dreamt this year and with it being inevitable Australia will get a world cup at some point this is an investment in the future of our city

9. world class events will be drawn to the city if football facilities are available - such as Liverpool games at the MGC - we could attract premier league teams in the near future

I like the idea of a public private partnership and seeing the area used for an extended range of events & Auckland FC having a proper home and more capital investment - reducing cost on ratepayers etc (with that money being able to be spent elsewhere). The area feels under-utilised at present so this is a good solution.

Western Springs is a natural ampitheatre. We need a big outdoor venue like this in the centre of town with easy access. It is iconic and has hosted many major memorable concerts over the years. To destroy what we already have and build ANOTHER sports stadium would be a travesty and deny the people of Auckland a great venue that can hold 50,000 people. If it goes into private hands it will not be available to the people of Auckland.

Ponsonby Rugby (Option 2) is the existing user and are a great community organisation. Option 2 provides a bigger overall capacity in its plan (than option 1) and the cost of Option 2 is much less than Option 1. I also don't support private control of public facilities under Option 1.

Western Springs speedway should stay at Western Springs. It is a world famous as the best speedway track in the world, it is a family event that has been running for nearly 100 years. I tis not suitable for the soccer as the crowds currently attending the A league are double what is proposed. SOccer should stay at MT Smart or shift to North Habour where a field and stand already exist. Billionaires should not be able to come in and take a venue from a another sport.

Option 2 would honour the history of western springs whilst improving it and making it more fit for purpose. One of my favourite venues is Bowls of Brooklyn, and doing something similar in Auckland would create and unique and special venue. We only have a couple of outdoor venues so this idea sounds awesome. I strongly oppose Option 1, as it would cause major congestion in an already congested area, and doesn't honour the history at all of western springs. It also just doesn't feel like the best use of such a lovely space.

Western Springs Bowl

Great Idea.

I support having a publicly owned entertainment facility at Western Springs. It is a special place and doesn't need to be spoiled a "State of Art Multi purpose Venue"

I think Option one is too big and would have a negative impact on the community amenity in terms of vehicle traffic, vehicle parking, road closure during events which is pain.

The idea of providing a bowl as a music and arts venue is fantastic. It would continue the established uses and the traditions of the site. Namely the Ponsonby Rugby club and music venue.

Be good to have a plan of 1 and 2 to compare and people can see what they are getting, not enough information to make a decision. Also be good to keep Ponsonby Rugby in the plan of 1 and 2 . Ideally a stadium with 20K capacity for concerts, rugby , other sports.

I don't think that Ponsonby Rugby Club (a community group) should be moved on for private interests. I also think Western Springs is a great location for festivals and concerts, I think there should be more there. It's a natural amphitheater, it holds many great memories for me, I want to continue to be able to experience shows there and I think having the permanent structured to support those use is a great idea.

need to keep our iconic western spring speedway open and let it make 100 years of history. 11 million is not enough to do up the whole waikaraka area and there is nothing in writing for the western springs speedway to go there. Why is the council been bought out by someone offering to build a stadium at no cost to us? this raises so many questions about whats going on behind the scenes with long term plans for this apparant new stadium. why change something that isnt broken. Western spring speedway is in a very different ball park to waikaraka park speedway, 2 totally different codes of racing and need 2 very different track surfaces. If you asked the waikaraka drivers/car owners they do not want western springs speedway cars there. council no longer listen to thei people that vote them in.

Far more community usage than a private football club stadium. Ponsonby Rugby has been there for years and unfair that they would have to move and to where? A private use case is not right for the public space it is today.

ACC have sufficient sports fields to maintain which are costing rate payers hundreds of thousand each year to keep open as they are not self funding - i.e. North Harbour stadium. We do not need another noose around our neck to financially support basically a home for the Ponsonby Rugby club. If private developers are prepared to develop a facility for commercial use at little/no cost to ratepayers then I fully support it. It is proposed the facility is leased and remains in ratepayer ownership then if anything goes wrong after development we receive a developed asset

I ticked option 3B because the wording of option 1 is unclear around ratepayer funding. It says "private sector investment ....could reduce the need for public funding BY $18.1 million over 50 years" but does not say what that reduces the public finding TO. Until this is rectified it is impossible to vote due to lack of information. Surely this should be corrected and the survey resent - otherwise it looks as if you are trying to distort the financial picture to make option 1 more attractive - not transparent and tbh looks very dodgy. If it is a typo and shouid read "reduce public investment TO $18.1 m" then again this is a serious error and should be sorted before people are asked to vote. (I can't imagine you would spend all this money and not proof read a

document so I am assuming there is just missing numbers of piublic investment)  IN any case, Option 1 is a total non starter  re. AFC. The club regularly gets in excess of 20,000-24,000 at Mt Smart so how could it make its home in a stadium of maximum 12- 15,000? North Harbour takes 14,000 so why build another identical sized stadium.  I am a season ticket holder so this is not because I don't want it to be close! Option 2 looks good in many ways for concerts etc. The area is far better served for public transport than Mount Smart and we are not so grumpy as the nimbies in Mount Eden. We like having concerts on our doorstep.  Cricket is not mentioned. It was mooted some time ago that Western Springs could become a test venue along the lines of the Basin Reserve.  Eden Park is too big for test cricket crowds and the pitch too small for proper test cricket. This is the problem with "multipurpose" stadiums. they rarely end up being any good for anything because they are trying to meet too many competing needs. The cake tin is a prime example - it is full about once a year - hopeless for football as the seating is too far from the pitch and otherwise soulless and empty. I look forward to some public clarification as to the public cost of Option 1. I won't be the only person pointing this out.

It is time for Auckland to make some decent stadium decisions. While I would prefer a new stadium in the CBD , where transport and services like restaurants and bars are much better , this seems a great opportunity to develop the space into something exciting

It seems like the best use of the space and the ratepayer isn't responsible for the investment. Also Dave Jaggs told me to.

WSS should be retained as a community facility that caters for a variety of sports codes ( eg rugby, soccer, futsal, basketball) with the ability to host openair concerts.

The other current options maybe su table if modified to meet a variety of community needs. At present there is not enough clarity around the lease structure that will be in place with the other options.. There are risks that the community will be shut out ie will become more exclusive to one

sport or another. The community will end up bearing the operational/ repairs and maintenance costs of the grounds and buildings in the not too distant future.

I support Option 1, as I firmly believe our local area needs a dedicated venue or arena that caters specifically to a wider range of sporting events. While Eden Park is nearby, it primarily serves rugby, and as a passionate fan of both football and basketball, I believe there's a real need for a purpose-built, central venue in Central Auckland that supports these sports.

As a proud Auckland FC member and supporter, I also back this option to give our team a true home ground. A centrally located stadium would greatly improve accessibility for fans, especially compared to Go Media Stadium, which is difficult to reach due to its surrounding infrastructure

and layout. Furthermore, this development would likely provide a significant boost to local businesses, such as restaurants, cafes and transport providers by attracting regular foot traffic and creating more vibrant activity in the area on game days and during events.

I think that the Speedway should remain, it has been here a lot longer than many of the residents, and is a great local activity - we have been a number of times. Similarly, I believe the rugby clubs should also remain. In the event that this option is not preferred, I would be in favour of option 2 which also contemplates renewing the rugby club's lease.

I suggested other Options as my choice as I believe the Ponsonby Rugby Club could be incorporated into Option One as part of upholding community infrastructure. I would also be interested as to what Option one will be paying each year to the Council in return for the use of the land or will the council take a percentage. Whatever the outcome Ponsonby Rugby Cklub needs to be respected as a long term member of the Auckland community

Western Springs has and should remain for the people of Auckland culturally and for sport. Pacifica/ Music Festivals/ Ponsonby Rugby are all community based and this should remain. Option 1 involves giving away the public park of Western Springs for 100 years to private interests to maximise their own profit for a questionable return for the community.

Auckland council should not be giving away a public park to a developer.

The flexibility for future alternative uses for Western Springs with Option 1 is lost for 100 years.

Western Springs has traditionally been made available to the wider community who will be excluded with Option 1.

Be aware that Auckland Soccer has already experienced beginnings of hooliganism which is prevalent overseas.

Option 2 is an exciting option which will bring music and vibrancy and make Auckland a more liveable city for all ages.

Ponsonby Rugby Club and music concerts and festivals are the correct fit for this iconic site in terms of its natural contours, capacity suitability, community profile, and heritage. Ponsonby Rugby is part of our local area and they should stay where they are as they are truly community minded. The music legacy is also fantastic - let's preserve our heritage where it works best.

The site is a natural amphitheatre and has a wonderful history of music events that should be continued. This option ensures public access is maintained and that the site is not turned into a largely commercial operation. It would keep more open space that fits with the neighbouring

Western Springs park and other cultural festivals as well.  We must preserve it as a community gathering space - and not be 'bought' by the uncompromising stance of those who must, for some unexplained reason, have this particular site even when it doesn't work for their fans - see below.

The Auckland Arena proposal appears disingenuous because it is not fit for purpose. The AFC had over 29,000 fans at Go Media Stadium on the weekend, and yet they propose a 12,500 capacity stadium, as well as 8 full size basketball courts, a health centre  etc etc.  It seems they are either set to disappoint their fans, or they plan to build a much larger stadium with no room for the outdoor spaces shown by the artist impression.  Why are they only offering to fund a home for AFC on this site when it would make much better sense for them to take over North Harbour Stadium? They insist it must be here or they won't fund anything - why? Steve Corica is on record of questioning whether it would be big enough.  There simply is not room for what they want to do and the traffic and disruption would be ongoing and awful.

Do the right thing by the people who live here and leave Ponsonby Rugby where it is - our children played there and it is a wonderful hub for the community - they will also support basketball in their proposal too.  The music venue is also appropriate for our area and what the locals embrace.

**What is your connection to Western Springs Stadium? (tick one or all that apply)**

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I work or volunteer at Western Springs Stadium or nearby,I am part of a cultural or community group with an interest in the area

**There are three options to consider**

**Which option do you prefer? Select one option only.**

Option 2: Western Springs Bowl

**Tell us why you made your choice.**

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I am heavily involved with the Ponsonby Rugby Club and have called it home for over 20 years. I am a current coach for a junior team and also play for premier rugby. Ponsonby club has been a local to international uni students who continue their passion playing rugby while studying in a foreign country.

I have Policed in the community and it has always been an awesome location for concerts and iconic area for community events eg. Pasifika

I notice you make no reference to speedway in your third option. Speedway has been at this venue for decades and did / does not deserve to be shoved out to a barren desolte site in Onehunga.

We have enough stadiums in Auckland to satisfy all sports and concert venues we don't need to spend millions on another venue for a city of 1.5m

For many years now the stadium has been utilised for various significant concert events, sports, fairs and training. Upgrades to this ares will ensure marginal profits, an increase in future concert and sporting opportunities and will be beneficial all round the Grey Lynn and Western Springs community

**Tell us why you made your choice.**

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I support Option 1 because it offers a fiscally responsible and community-oriented future for Western Springs Stadium. This option requires no additional investment from ratepayers, which is critical in a time when councils must prioritise core services and manage limited budgets wisely.

Rather than funding large-scale upgrades for commercial entertainment use, Option 1 proposes a practical shift: repurposing the stadium as a space for local sport, recreation, and community events. This supports grassroots development and provides better access for up-and-coming sports teams and community groups, many of whom struggle to find suitable facilities.

Importantly, this model is fairer to ratepayers. Under Option 1, only those who use the facility would be contributing to its upkeep through user-pays models, rather than forcing all ratepayers to subsidise expensive entertainment infrastructure that benefits a limited segment of the population.

In short, Option 1 strikes the right balance: minimal financial burden on the public, strong support for community sport, and a more equitable funding model for facilities.

Option 1 is not about the community - it is a business that will isolate our community who do not qualify for professional soccer or afford high membership fees. Auckland cannot sustain the current selection of great hospitality so why make a new precinct with Ponsonby Rd so close.

Option one (Akl Arena) feels like privatisation & building facilities primarily for those with lots of money. I don't feel that's a desirable or fair use of such a special place.

Ponsonby Rugby Club also has a rich history and it shouldn't be pushed out by professional sports / high fees / elite business goals. Option 2 (Western Springs Bowl) has a more community feel and would allow many more people (not just those with deep pockets) to enjoy what's on offer. Also - council will control it so they would be accountable to the public re its entry fees / venue hire / general performance.

The “Do nothing” approach leaves everyone in limbo and just keeps delaying the issue. It’s a shame the TAU Board have already preferred Option One. This group of backers have built stadiums elsewhere - makes me wonder if their new complex will lack charm / originality / sensitivity or effort acknowledging the Western Springs area, its history and the real needs of the local population.

Because I believe that the speedway and ponsonby rugby are both an integral part of this community. I was born and have lived majority of my life in Grey Lynn. The speedway hosts international competitions that attract a lot of attention. As we may hear a lion roar, the roar of the stock cars are just as comforting.. Hosting concerts, speedway and rugby. Why change? The millions that tax payers spend on this venue over 50 years is fine. We spend more on other things and don't get anything out of it. AT is funded to create unsafe pedistrain crossings, so let's keep funding the Western Springs Stadium just as it is.

There is a lack of mid-sized options for stadium performances and matches in the central city. Eden Park is too large for domestic tournaments and North Harbour/Mt Smart are too far away from PT to be feasible for casual supporters, tourists, families, etc.

This option would be improved by considering the role of cricket in this precinct. Auckland lacks a test venue for cricket and Eden Park is subpar for LO matches. This inhibits the ability for Aucklanders to watch cricket and weakens NZ's ability to support women's cricket and domestic cricket due to lack of suitable venues in the largest city. Having a dedicated mid-sized international/domestic cricket section would improve this proposal significantly.

1. The Council has only recently approved an upgrade to Eden Park that it can not afford. Improving the viability of Auckland's existing stadiums should be the priority for the Council, not adding new capacity. Auckland Football Club could play some fixtures at Eden Park - the more users Eden Park has the stronger the argument becomes to find the funds to proceed with the upgrade.

2. Traffic & Transport: the Stadium Road/Great North Road intersection is already at full capacity. The queue of vehicles attempting to access this junction from Bullock Track often spills on to

Surrey Crescent.  Aside from local journeys the primary purpose of this intersection is to provide road users access to the motorway network - adding a major new stadium to this scenario will result in gridlock.  Option 1 cannot proceed without significant upgrades to the road network and, even if there were a design solution, no mention is made of the many millions of tax and rate payers dollars required to fund these works.  This is not mentioned in the summary of each option which therefore misrepresents the true financial picture.

3. It seems premature to evict a club that has thrived for 150 years for another that has survived just one season.

Option 2 preserves the historic value and feel of Western Springs that Aucklanders love; it provides another large, multi-use outdoor venue for concerts and shows ~ 50,000 person capacity - could have an expanded event scope too; works well for community events like Pasifika. A 12,500 - 15,000 person venue (as per option 1) is not good value for money. Another larger venue will make Auckland more attractive to international acts. My concern is that the Council is just going for Option 1 because it is cheaper for them, not necessarily the right thing for the community. Does option 1 give naming rights to the funders? Not a popular move. Would the funders for option

1 put money into option 2 or 3 to provide more services and improvements for the community or only if their option is selected? I don't know if the Ponsonby Rugby Club lease makes the most sense. Other commercial options could be explored. I know many people were disappointed to lose the speedway.

Western Springs has always been a great venue for Speedway, concerts and other sporting events. There is real history here. Like Eden Park, and other classic venues, it needs to be well maintained and improved as the years go by. With the Ponsonby Rugby Club (another classic) there should be a way to upgrade without huge spend. Rules should be relaxed to allow for flexibility in commercial operations and hence more viable for promotors etc.

With a longer term lease arrangement the stakeholders can make better investment decisions. The unitary plan should not be an impediment. What costs need to be covered by future stakeholders so that ratepayers do not need to keep funding.... please be transparent and keep us

better informed. There is too much behind closed doors stuff going on with how this and other issues are being handled me thinks. Lastly, how many Auckland events happen every year bringing truely world class talent to our city..... at a classic venue loved by so many. Lets explore further please.

Given the reality of financial resources for infrastructure development, my partner and I much prefer private investment to provide the capital; it makes so much more sense when our Govt and Council are so stretched.

Also a privately developed facility is invariably designed and built to a higher standard than Govt/Council achieve - simply due to financial constraints. We have direct knowledge of this as one of us is a commercial architect who is constantly frustrated with the compromises made with city-owned/community developments due to cost restrictions.

Geographically Western Springs is ideal too - more accessible to all being central just as is Spark Arena, Eden Park and central city concert/event centres.

The proposed diversity-of-facilities/use that Option 1 reflects also means that it could be used for community groups such as Ponsonby Rugby Club under collaborative agreements both practical and financial, i,e., it doesn't exclude diversity of use. It would be a rich addition to the city and more 'inclusive of all audiences/events' that would be delivered with other options.

Thank you for the opportunity to provide feedback.

Ultimately, the most beneficial solution for Auckland will be one that balances historical preservation with future development, considers both economic and social benefits, and truly responds to the needs of its citizens. A win-win decision-making process to ensure that the future of Western Springs Stadium genuinely benefits all Auckland citizens.

**Tell us why you made your choice.**

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I have lived in Tuarangi Road for 15 years. My children have played rugby at the Ponsonby rugby club, one of them is still there.

We are a family of five children and attend festivals and events at Wai orea | Western Springs semi regularly, at least twice a year apart from when the pandemic meant we couldn't host events.

The types and size of events are manageable for the neighbourhood. I do not believe any larger events would be as manageable for our community. At the moment things are good, but I know

when the floods came, we all had to get together and clean up. Whenever there is a flood, the stream overflows and the rubbish and plastic and waste that comes up and gets deposited on the land is not good.

The site is on a wetland and needs to be managed as a blue green network.

Any upgrade to the stadium and sports facilities must consider the impact of climate change and the increase in flooding and extreme weather events.

I want the future plans for the Super Bowl to move facilities away from the stream and also enhance the environment where wetland once was for people like us who live in the area as well as all the visitors we get to the area to be able to enjoy the natural environment and not worry about toxic and dangerous waste effects on the ecosystem. I'd like the stream and wetland to be a feature of the investment so we don't have to clean up after the floods and so we could cool our feet off in the stream as well as enjoy attending festivals and events. The stream is always a feature of the area and must be cared for ~ I recommend getting advice from the zoo who educate on these things to be involved and make sure when we position a and upgrade any facilities that we future proof the area and make way for the stream to flood as well as restore its health.

Having a Super Bowl with medium capacity means festivals and events can be managed more easily in terms of setup.

We have such a rich history of grassroots community involvement and participation and I do not think a large scale facility would be manageable on the site. Eden Park and North harbour are far better suited for large events and can be enhanced to work for basketball, football and other sports ~ the infrastructure around those facilities is already in place with parking, trains, buses and walkable routes.

Medium scale events work well at Western Springs and the community here welcome musicians and performers who attract visitors to our area.

I am concerned that football culture will bring aggressive fans as I have seen in other countries and on Auckland FC advertising material where they promote men and boys yelling aggressively as a positive cultural influence. I do not like the idea of hosting a culture that promotes aggression.

The history of rugby and rugby league in our area promotes family involvement and positive role models.

We have a growing number of female and a large number of Māori and Pacifika families who are nurtured as a community by the rugby club and through the events in the area.

Pacifica, Laneway and Outer Fields are regular events that are only here because of the unique environment at Wedtern Springs ~ please make sure that this is enhanced in the future and understand that it is the natural environment that enables people to enjoy coming.

I know music videos have also been shot here ~ this would be enhanced with any revitalisation and could become a strong revenue stream.

We want our local venue and facilities to stay community owned and supported so please don't let rich people build another monument to themselves and their friends - especially people who have

become rich from selling plastic that ends up polluting our stream and then we have to volunteer to pick it up with gloves on in our weekends.

Thanks you for asking for our input.

Concrete the main field. Concerts all year round, speedway can still operate. Turn outerfields into sporting complex for range of sports and more parking. Would be a busy stadium all year round and an area public can still use.

I think an arena would provide facilities for activities that Auckland currently lacks. It would also not prevent its use for concerts. There are plenty of concert options in Auckland, especially now that Eden Park is consented for more. I assume the Outer Fields could continue to be used as now under this option. It would also save Aucklanders money, given it is privately funded.

This option is preferred due to reduction in need for public funding. This option will benefit the wider community and the provide valuable economic activity to the businesses in the surrounding area as visitors to the stadium access nearby retail and hospitality.

Western springs is an iconic stadium that needs to be kept as it was built for local community to use in the many ways it already is .. the upgrade would certainly maintain the essence but bring in investment that is also needed to keep the vibe of western springs .. bring back the cars too

I believe option 2 is the correct choice for the wider community facilitating more events and use by the people it matters to most. It would be a tragedy to turn it into a stadium that excludes our community.

Born and raised Grey Lynnder here, family and friends have played and still do for the Pony's. I love the freedom of being able to visit the club and Western Springs. This is a community hub for all. This will end if a FC stadium takes over. There is already Eden Park Stadium. You could utilize Western Springs stadium since it's already a FC club. I fear if a FC is built at Western Springs Stadium, it will be closed off to the community, us locals and the wider community will not be able to enjoy or even utilize it. #build a stadium in the cbd.

Tradition and participatory sport ought be paramount. Ponsonby Rugby Club (over 50 teams) serves many. Speedway should return to its home. Concerts in the Western Springs natural amphitheatre are splendid, traditional & successful.

A concrete stadium for elite sport can be built anywhere (Waikaraka Park / Shore Rd?? Tamaki Campus) without disrupting the high utility & traditional uses and enjoyment of Western Springs.

I strongly oppose of any new stadiums been built at Western Springs and if there is a new one built there, i for one and many of my friends and family will not be attending or supporting the new stadium in any capacity. As a long time motorsport fan and supporter of Western Springs Speedway for nearly 40 years, i want Western Springs Stadium to be retained as a speedway track for the rightful home of speedway in Auckland. Waikaraka park never is and never will be a suitable track for the Western Springs Speedway class of cars. It lacks sufficient parking for the

amount of people that attended Western Springs and the venue itself lacks sufficient space for race fans. Ie an average race meet of stock car fans compared to an average race night of speedway fans. So i vote to keep Western Springs Stadium as the rightful home of Speedway in Auckland. And i will continue to support it for many more years to come.

I understand the desire to retain the area in relation to the 'history' of the rugby club etc, but time & time again, at critical times such as now, the opportunity to build now for the future can be overlooked and missed. The generations that have enjoyed Western Springs should be grateful for those years but now there is a magnificent opportunity to turn the Springs into a perfect multi purpose facility for the current & future generations to come, for as long as we can imagine. It's time to relish the past, retain the memories but let new memories be formed for the future generations. It's an opportunity not to be missed. Let's not end up with yet another Cou cil-owned

facility that becomes run down, unable to be maintained and an added cost to ratepayers. Let’s not ignore a viable future vision - like we missed opportunities to install light rail & a visionary public transport structure in the days of Sor Dove Meyer Robertson - he had the vision, it was ignored and put aside which has lead to the current inefficient and u fit for purpose, transport system now.

Seize the opportunity!!!!

The relocation option of Ponsonby Rugby Club is not feasible and should stay where it is, and where it has been for 30 years. Western Springs should be developed and used for events, as this brings resources (finances) into the area and lifts the vibrancy of Western Springs.

I love using this piece of land for multiple uses, I am a big supporter of a better concert venue in the area and the revenue this generates but also appreciate it's the home of sports teams.

I do not support the option for a privately operated stadium on this land and I support the proposal put forward from Eccles Entertainment who are across the music industry, I do not support Ali Williams and Anna Mowbray proposal for a privately run stadium on this public land.

**What is your connection to Western Springs Stadium? (tick one or all that apply)**

I live in the area (Waitematā or Albert-Eden local board),I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I am part of a cultural or community group with an interest in the area,Other (please specify):

Ponsonby rugby member

**There are three options to consider**

**Which option do you prefer? Select one option only.**

Option 3A: Neither Option 1 or Option 2 - keep things as they are and retain current arrangements

**Tell us why you made your choice.**

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Western springs can not handle a big stadium. There is ONE road out that already has Motat on it as well as the rugby club.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

This is the best option for all parties. I have been involved in the area all my life and historically this keeps all parties happy. We don't need a giant stadium in this location. Imagine the traffic issues and the ruin of the close by peaceful and natural areas - option 2 is the best compromise.

**What is your connection to Western Springs Stadium? (tick one or all that apply)**

I live in the area (Waitematā or Albert-Eden local board)

**There are three options to consider**

**Which option do you prefer? Select one option only.**

Option 1: Auckland Arena

**Tell us why you made your choice.**

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

The Auckland Arena business case would appeal to a wide range of the community and it would be frequently used, it would not just be a concert stadium that gets used occasionally (which would be the case with the Western Springs Bowel business Case.) Ponsonby Rugby Club is only important to a small minority, and its size and stature doesnt justify use of Western Springs fields. If AU were to proceed with the Auckland Arena case, however, it would need to put significant investment into public transport infrastructure. As a local, it is obvious that visitors cannot arrive/depart the area seamlessly when there is an event on. I suggest a dedicated busway (or, even better, train line) between Britomart/K Road and down Great North Road.

Have lived in the community for 20 years. Was disappointed to see speedway leave do not want our Rugby Club losing their home ground. Would want to see it retained with upgrades lot the facility and to have other sports available to our inner city community. I attend as many music festivals/concerts at Western Springs as I can and would want that retained also..... ( with consideration to our zoo neighbours. I'm not opposed to change but don't think bigger is necessarily better.

Why do so many venues have to be dedicated to rugby or football. There are many other sports that need facilities. How about and equestrian facility? This is severely lacking in Auckland and something central would be fantastic for equestrians and entertainment for general public.

Having a Hollywood type bowl with excellent sound and venue will cater for entertainment that cannot be experienced in other venues. Like the concerts etc held in like Madison Square Gardens. Option 1 does not cater to our Pasifika people who still use this for the Pasifika festival. It is of huge cultural significance. Connected to this is the Ponsonby Rugby Club who”s contribution to Auckland rugby and NZ rugby is huge, that club will be adversely affected by Option 1 to say the least. Again its a Pasifika based club which by going with option 1 will push Pasifika people further out of the city, making Western Springs a space for white people.

Speedway needs to be given a long term lease. The way they have been treated in this whole process is atrocious. Give speedway better commercial operating conditions and the stadium will not be “running at a loss” as TAU claim it is. The Unitary plan CAN be changed to make this happen.

The Stadium can already be used as a multi sport/event facility and has done for nearly 100 years. Why change this? The reported loss is because of lack of adequate management by TAU and not

enough use of the facility by those who occupy it (Speedway, concerts and Ponsonby Rugby Club). The exact same thing has been done to North Harbour Stadium which has been run into the ground by TAU as well.

We (stakeholders/fans/the people) were never consulted with before this time and should have been.

I'd rather see my ratepayer money spent to have speedway at Western Springs Stadium than a lot of the things the Council currently spend the people's money on.

I have seen how this issue has been handled and I don't agree with it and have lost faith in the council staff and many councillors.

Most Aucklanders I know want the same as me.

Option 2 is the most beneficial use of public space to the largest number of people - there is no feasible other location for PDRFC and the proposed option 1 is too small for the number of attendees at AFC games, plus has poor public transport options.

There have been manipulative tactics and what appears to be falsified support used to push the Council's plan regarding Western Springs Stadium. That's not right, and it's deeply concerning.

Please change the Unitary Plan for Western Springs to support speedway – just like it was changed for Eden Park to allow concerts. Speedway can absolutely be part of a multi-use venue. It's already worked alongside concerts and rugby in the past, proving it can coexist successfully.

As a stakeholder and fan, I was never consulted before decisions were made, and I should have been. So should the wider community.

I’d much rather see my ratepayer money go toward keeping speedway at Western Springs than on many of the things the Council currently spends public funds on.

From what I’ve seen, the way this issue has been handled is unacceptable. I no longer have confidence in the council staff or many of the councillors involved.

Western Springs bowl is a world famous natural ampitheatre and music venue. Changes to the venue should align with the original aesthetic of the place, enhancing, rather than supplanting, what is already there. However a permanent stage facility would save significant costs and time for promoters and performers wishing to utilise this iconic venue.

Ponsonby rugby club is a large and well established club and requires significant infrastructure to house it. Western Springs can cater for such a club, while other options would be pushed beyond capacity were Ponsonby to move there, and this move may displace youth and other smaller

groups that also need space to enjoy sports. The benefits of sport to the wider community is significant with social financial and mental health issues all enhanced by having somewhere people can mingle, where people can join, where people can exercise, and where people can be entertained.

Western Springs is beautifully located right next to a motorway offramp. It has significant community support albeit there are some nimby's (there is always a few nimby's) who wish the neighbourhood revolved around them.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Ponsonby Rugby should not be moved to Cox's Bay park- it is. It big enough and makes no sense. The Council needs to seriously consider the amenity of these proposals to all groups

Ponsonby rugby club provides a community club to the area. Western springs is, in my opinion, aucklands best latge scale venue space, and the natural amphitheatre has an important history. Its more expensive but I'm concerned about the reliability of private investors. If they back out the council ends up paying for it all anyway. I would keep things as they are or support option B. But I am opposed to option A

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I like the idea of it costing less for ratepayers and creating additional stadium for Aucklanders to use and attract events. Has the proposal considered the cost to find Ponsonby Rugby a new home - it is important they get a good one, with clubrooms to bring the community together

It's good to retain ownership by TAU and a joint partnership for funding to enable changes would be beneficial to all. It ensures that the facility would remain community focused rather than having over-riding revenue targets.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Losing a community park to a corporate entity would be a massive mistake that would hurt the local community instead of enriching it. As it stands, Ponsonby rugby already has to have teams train at other fields around the surrounding area. If this were to be turned into a football stadium, hundreds, if not thousands, of local kids would be unable to play rugby, the sport they love.

For Auckland FC - who I also support and enjoy going to watch at Mt Smart, given the fact that they have already got a fairly large following, it seems counterintuitive to go to a smaller stadium where the one they already play at works. This would make the fans struggle to get to games, as I'd think they would sell out 15k seats quickly. Again, this is counterintuitive.

For the music and community festival side of things. Destroying a perfectly good natural amphitheater, which has hosted many world-class acts over the years and shown its worth 100-fold. Suddenly, these events will have to find a new venue or cancel altogether. Another group of the community is seemingly at a loss.

So to conclude

A community of rugby players, managers, supporters, kids, and parents. Displaced

A community of music and festival lovers. Their events destroyed

All for a few rich listers wanting to rape and pillage a perfectly good community space.

The Council rightly turns down great ideas due to cost. This time cost is not a problem. They shouldn't look a gift horse in the face and get this investment licked in. With the zoo and Motat it's a precinct opportunity. As much as I love Ponsonby rugby, they moved from Ponsonby to Western Springs in the first place so help them move to Coxs bay with ample investment. My only concern is the little information on infrastructure and access and the impact on residents getting around. Has there been a line item for transport improvements for both western springs and Coxs bay residents?

## Submitter details:

Organisation (if applicable):

Local Board: Waitematā

## Your feedback

**What is your connection to Western Springs Stadium? (tick one or all that apply)**

I live in the area (Waitematā or Albert-Eden local board),I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

**There are three options to consider**

**Which option do you prefer? Select one option only.**

Option 1: Auckland Arena

**Tell us why you made your choice.**

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1 seems like a great combination of use cases, and having private funding makes it a winner. Plus, I'm a fan of AFC and would love to have them playing at Western Springs.

Option 2 has significant benefits mainly its ability to host multi-purpose events year round, provide community space for local residents and maintain green space and common access ways. Option 2 is the clearly beneficial investment, to the widest array of Aucklanders

# Future use of Western Springs Stadium

Private sector investment by people with previous experience in this type of stadium development. New home for the Ponsonby Rugby Club and hopefully Auckland FC. Everyone knows how to get there as people have been going there for many years. Multi purpose venue that combines sport, culture and entertainment.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I am disinterested in rich-listers bullying communities. I fail to see why Option A cannot include Ponsonby Rugby Club. I like Option B that will retain the natural amphitheatre and is more inclusive. Option A is elitist and has features that I will never use so it is not really community focussed.

Western Springs stadium has a long history of being Auckland's most exciting and capacious outdoor stadium venue. It has also been an asset belonging to the people of Auckland throughout that time. Limiting the stadium size to 25,000 people would be a great loss to the city. That venue size, funded by and leased to overseas interests, ensures the implementation of a ruthless for-profit model and, at 25,000 capacity, strongly suggests a preference for premium-cost seated events unavailable to the mega-crowds historically drawn to the venue. I not only favour Option 2, I am strongly opposed to Option 1 and would rather go with Option 3 if Option 2 were eliminated. I

have lived in Auckland central area for most of my life. I and my family have been involved in the entertainment business throughout my life and I am encouraged by the involvement of Mr Eccles and Mr Smith, both of whom are in a position to know better than any overseas consortium what would best serve the entertainment needs of their city.

We don't need another sports arena, we need to keep this iconic venue for hosting music + cultural events that have served to entertain and bring the Auckland community together for decades. If it goes, it'll never come back and we will all live to regret it. Please save the springs, option 2!!

I grew up just up the road from western springs stadium, and my childhood and teenage years are filled with memories from iconic music events such as Eminem, Auckland City Limits, Laneway etc. Events held here are such vital part of the community and life in the area, and we need to protect it to ensure future generations can also have the same experiences I did growing up. The arena is in need of improvements, and I think it will ensure the longevity of the area. Therefore I strongly agree with option 2.

Western Springs bowl is unique asset for any major city — a large-capacity, centrally located, easily accessible natural amphitheatre.

The Outer Fields of Western Springs offer something just as valuable — a spacious, flat, multipurpose green space in the heart of Auckland.

Together, these sites form an extraordinary urban asset. Few cities in the world are fortunate enough to have a natural amphitheatre of this scale and character. Those that do — like Los

Angeles with the Hollywood Bowl or Denver with Red Rocks — protect and celebrate them as cultural landmarks, weaving them into the fabric of the city's identity.

Auckland is a UNESCO City of Music, part of the UNESCO Creative Cities Network, which promotes cooperation among cities that have identified creativity as a strategic driver of sustainable urban development. The Auckland Bowl can be a physical embodiment of that commitment — a world-class venue that amplifies our city's musical and cultural identity.

With thoughtful, low-impact development that respects both current and future uses, The Auckland Bowl has the potential to become a defining feature of the city — a place that sets Auckland apart from every other city in the South Pacific.

This is a rare and powerful opportunity. Auckland has something truly special. Now is the time to protect it, elevate it, and make it a proud symbol of our creative future.

Eden Park now being located in a suburb had been a constant issue that has gone around in circles and should have been resolved for the 2011 Rugby World Cup. I cannot support any major investment that results in the same situation, positioning a major facility that will clearly require noise restrictions and be an ongoing issue between it keeping enough revenue flowing while riding the line with pissing off residents. Any money earmarked on a new facility for Auckland should be dedicated to an event space that has significantly fewer noise related issues so that it can be more sustainable.

Secondly, traffic around Western Springs is already congested and the linkages and road layout poor at best. Adding tens of thousands of extra people into this scenario without spending

something of a similar order of magnitude on transport for around the facility will only lead to more problems. Again, this money would be better spent elsewhere.

To be honest, I'd love a mix of both options however that doesn't seem possible. I love the idea of the Hollywood Bowl-style entertainment venue, however that would have a small capacity and less flex for other opportunities. It makes sense to have the space be multi-use for sport, entertainment, etc. especially for the area - if it was a multi-purpose space, the area and hospitality could benefit from bringing people in, similar to Eden Park music now adding more people to the surrounding areas during concerts vs just sport.

Considering the historical significance of ponsonby rugby club and its cultural and commity significance along with the fact that the proposal for a stadium for a kiwi oligarchs football team gross missplanning regarding access to the proposed area and the effects it will have on congestion ect to my local area I believe there is no way in which this can happen without disturbing and damaging our local community/environment. Option 2 is the best possible outcome from this all, and it will do much more good for our community than any other proposal. Thank you

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Western Springs is well used and loved by our community. An extended lease for Option 1, gives no further flexibility for 100years, and removes the existing users. Likewise Option 2 for 50 years.

I support extending the lease for the Ponsonby Rugby Club, and giving them an opportunity to Fundraise to improve the facilities. Community facilities are paid for by the rate payers, and belong to the community. They should not be turned into be a profit source for private developers as in Option 1. I am also worried about more hospitality venues (read Alcohol) in our area.

I feel safe and happy with the Status Quo, including Speedway.

## Your feedback

**What is your connection to Western Springs Stadium? (tick one or all that apply)**

I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I don’t have a direct connection, but I am interested in how the space is used

**There are three options to consider**

**Which option do you prefer? Select one option only.**

Option 3A: Neither Option 1 or Option 2 - keep things as they are and retain current arrangements

**Tell us why you made your choice.**

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 2 is obviously a dud to make Option 1 look attractive. The piddly Option 1 $18mil over 50 years is way too low to give away a spot for 100year of "lease" to some private interest. Try negotiating harder or keep it as is.

It's better having another local music arena as opposed to concert traffic staying out in Penrose, it's more essential than being another sport stadium

I believe option B is the choice that will best benefit the local community. The Outer Fields events have become a large and vital part of the community in the last 5 years, and enhancing this will only help. I believe that enhancing what we have will benefit the community, and allow local and passionate community clubs like Ponsonby Rugby to ensure a strong and sustainable future. It will also enhance festivals such as Pasifika, which is something I hold very dear to my heart. I believe that option one will disrupt the wonderful flow of western springs park, and don't I believe that the flashy nature is best suited for an area surrounded by such natural beauty. New clubrooms

and community club spaces will benefit local communities, and can provide great opportunities when used with the concerts. I have lived in the area for 90% of my life, I grew up here, and I want to see this area improved on, while still keeping the wonderful character that makes it home. Option 2 is the only way to upgrade while keeping the community heart in tact.

Football is becoming increasingly popular. Proximity to Western Springs Football club makes a lot of sense. Auckland AFC has been an incredible success. A stadium centred on football in this area with minimal up front rate payer expenditure is a great outcome and will be widely used. Additional sports facilities for community use in the area will also be a great addition.

The current space is hugely underutilised, given its prominent location and size. I am in favour of a use which sees great utilisation of the space, and greater return to the Council. The private investment in the space would be a great benefit to the Auckland economy.

I am also in favour of the "Western Springs Bowl" option, as a secondary option.

I live next door to the Stadium gates on Old Mill Rd. This has been my family's home for more than 60 years. Speedway , rugby and music events are a much loved part of living in the area for myself and other locals. Option 1 and 2 dont allow for speedway at all. Ponsonby Rugby Club have made it their home and bring a lot of interest to the area. I also like the idea of having a permanent stage perhaps in the area that currently takes the corporate stand. It would be in a space that is out of the way of the track and field and is slightly elevated and facing the right direction for the amphitheatre. Speedway would be missed terribly if it were to leave permanently. I also have

concerns that if an indoor stadium is built, would it impact my view? Which ever option is decided on I hope that security for the homes that back on to the stadium will also be included in the plan. We have a lot of trouble with trespassers on the days that there are events other than speedway and rugby. Thank you for your time

Option 1 is best as the ownership of the land is maintained by ratepayers with a long-term lease, and the costs to erect the stadium and its ongoing maintenance are paid by the project sponsor. The community benefits are significant with a dedicated home for football (leading club Auckland FC), basketball, padel ball, large concerts without the ridiculous restrictions Eden Park has. Ponsonby RFC is a great rugby club, but like others that didn't fundraise to own their own land, needs to relocate and not be a financial burden on the community.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

It is important to maintain community facilities with breadth and various usage under council responsibility not to look for private support that can be easily changed according to dollar input and profit margins

Western Springs is a vital and important part of our local cultural scene. Auckland needs a Hollywood Bowl type venue and I cannot think of a better place than this iconic landmark. As someone who lives in the area, I know the value of the space and I believe that this will change it for the better.

I would like to look at possibility of giving Auckland FC ground 2 at Eden Park, it has better existing transport links, and could be part of a wider revamp to under utilised stadium.

I would be in favour of Option 1, but i think the lack of a train station is a major set back,

Western Springs natural amphitheatre and seating is perfect for concerts, as are the outer fields. I think it's critical this venue stays in the community, with community a central part of what has always happened in and around Western Springs Stadium for over a 100 years. We must keep this vital location accessible to the public. Its a brilliant sports field, the home of Ponsonby Rugby for over 30 years, they support so much of our community ie school events, cultural events etc, apart from being a great community and family oriented successful rugby club. Option 1 is just not a viable option, it will not big enough, will not be for AFC even the coach has said that publicly and

in the media. Literally the same size as Vector Arena. I 100% support the shared use and community focussed plan that Option 2 gives us.  There are no viable options to relocate Ponsonby Rugby Club, AFC has other options - Mt Smart and North Harbour.  Option 1 will demolish all existing infrastructure for a boring concete and glass building that many of us will never be able to afford to go to .  What will happen to all the school and community events that happen at the stadium and outer fields.  This isn't just about keeping Ponsonby Rugby Club there, its about keeping this iconic venue for everyone, respecting what makes it so special, while preserving it and making it a better, more accessible venue for generations to come.  Once again, I 100% support Option 2

I support the idea of AFC having their home ground here. The speedway has Waikataka. Using GoMedia as the AFC's main stadium is foolish as they have to share it with the Wahs. I secondly support the 2nd option but not keeping it as the same. Speedway is under-utilised and Auckland can get more money with either of the first 2 options.

Western springs speedway has a culture and history as long as anything in our country. To take away western springs speedway is to destroy all of that. No you cannot simply move everyone to Waikaraka park. I believe we ahould be upgrading existing venues not taking away one of the few remaining racing speedways especially at a time when Rosebank is also under threat. If safe venues are not provided there is a high probability people who enjoy such hobbies will do so using public roads or unregulated arenas which is far more dangerous and disruptive than any noise this speedway produces.

I live on Ivanhoe Road and would love to see the space better utilised while retaining access to western springs park - AFC has been such a great community builder and it would be great to see a sports team with a decent stadium. With easy public transport and arterial routes the location makes sense.

Something needs to be done with the area, it makes complete sense, compared to the general populist idea that believe crowd capacities will remain the same for the future to stay in a large stadium. A centralised stadium in a more urbanised area with north shore access would be great. Just needs to be backed with transport infrastructure within the area. A possible expansion of the rail system via k road down the track seems viable subject to ground testing

I live in the area (Waitematā or Albert-Eden local board),I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

**There are three options to consider**

**Which option do you prefer? Select one option only.**

Option 1: Auckland Arena

**Tell us why you made your choice.**

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I live in Herne Bay and work in Pt Chev. I also support football and Auckland FC specifically. I think a state of the art arena will look nicer than what is there currently.

Auckland FC can continue to utilise Mt Smart and possibly utilise its facilities for better use - setting up a training ground and facilities there. The use of this space - especially removing ground-roots seems unnecessary and unfair.

The second option - the one I have selected - is the e best option. The speedway is gone and shouldn't be brought back. The community complained about its noise and facilities for years (which would likely happen with AFC), and they have found a new spot to function in South Auckland. Western Springs is, and has been, a premier music venue every summer for as long as I can remember. Making it a more professional, enticing option will attract more international

artists (placing less pressure on eden park) and would be an excellent option for day festivals or shows - this has been proven with its use in the past. Furthermore, Ponsonby Rugby club is one of the most important in the country. Even as a soccer/football fan, that club is a very special club and should continue to provide for the community which it serves. It can receive more funding, expand its operations, and provide for a small stadium for smaller events - which will rally the community and provide a huge boost. Auckland FC have said that they wouldn't provide any space for Ponsonby Rugby, ignoring their history, pride and contribution to sport in New Zealand.

Auckland FC would likely take the area, privatise the use of the fields (taking it away from the community) and remove the heart away from the community (until saturday). Heartless owners with even more heartless ideas.

Massive foot all fan and a stadium for Auckland FC would be awesome. The reason for western springs opposed to Mt smart as well is there's more bars around public transport is easier and it's in the middle of Auckland allowing raise access to games. Football being massive in Auckland means the stadium will always be full and be a great investment into the community

It's an iconic music venue and developing that further would be a wonderful outcome for Auckland. I can't imagine a more exciting template than the Hollywood bowl to make Auckland and even more essential stop on the live circuit for the worlds biggest acts. It solves so many problems that exist with the other stadium even options (ie noise at Eden Park, transport to Mt Smart. Its a wonderful idea.

I live in the area (Waitematā or Albert-Eden local board)

**There are three options to consider**

**Which option do you prefer? Select one option only.**

Option 3B: Neither Option 1 or Option 2 - explore other ideas

**Tell us why you made your choice.**

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

There are no amenities around western springs, the public transport to get there and away are terrible, when there is a concert there it practically closes grey Lynn, point chev

There is a severe lack of detail in the proposed options 1 and 2 about the levels of community access and financial return to the Council. The public shouldn't be asked to make a choice without this detail.

While Option 1 has been framed within the context of only requiring private investment and saving the Council money, it would give a group of wealthy private individuals the ability to exclusively commercially exploit a Council asset for 100 years, without any details put forward about whether revenue would be shared with Council, what the commercial terms of a lease would be, or how the

community would be able to access the new facilities (beyond the expectation in the consultation document that all options will 'provide for reasonable community access').

While Option 1 could be sold to the public as a deal 'too good to pass up', without this information it is hard to say whether the balance of public and private benefit is indeed worth it, or of this is effective privatisation of a large public asset that the Council is unwilling to invest in itself.

Without the public being able to analyse this detail, my fear is that we risk setting a worrying precedent, where a financially strained Council shies away from investing in truly public assets and relies instead on giving away long term access to private interests.

I want to keep the speedway at western springs, this is a historical track which should not leave Auckland. Many locals attended the final evening for the speedway and the amount of people who turned up was amazing. Keep the track and sports fields the way they are. No one wants to get rid of the speedway.

This keeps Ponsonby Rugby club at Springs, which is an important club to me and the community. Ponsonby rugby club has been a landmark and another home for many since 1874. Option 1 would leave Ponsonby Rugby Club homeless.

Option 2 would allow the continued shared use of western springs by Schools, Pasifika fest, community sports leagues, concerts, Speedway and other community groups. Western springs is an important space for the entire community, not just those who can afford to go to a stadium.

Western springs is an iconic music venue in New Zealand, partly because of the unique landscape. Option 2 would make the most of the natural amphitheatre and allow for use of the outer fields.

Auckland FC have already said a stadium at Western Springs would be too small for them and they have other options available  to them, like North Harbour or Go Media/Mt Smart stadium, where we would love to go and support them.

Option 2 is the best option for the whole community

The main reason for any major changes are having no proper public transport. Can't imagine having football games every second week here with people fighting for car park along with Zoo and Motat. Second reason, seatings are not suitable for option A. Third the open style stadium doesn't fit right for either option A or B.

Suggestion: better have a full covered 4 side sitting stadium with extended seats to 25k plus.

Auckland FC have been around for 5 minutes and I don't trust the Owners to fund the project and stick to their word if and when they start losing.

Concerts make more of an economical impact to the area and 50,000 in attendance is much more impactful than 8-10,000 at a football game

Football is the most popular game in the world, it would be amazing to see a professional team in NZ with proper facilities and backing to actually see a respected level of success. This will also create a pathway for young aspiring footballers. I also think it will be great for the surrounding local hospitality industry.
