Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Speedway has had it's time, once upgraded Waikaraka Park will have a far better racing surface and shape, and it is a designated motorsport precinct.

If AFC owners are footing bill for option 1 then it's a no brainer.

Speedway should remain at Western Springs, and something to be celebrated on the 109th anniversary of the first race there. Iconic and something that should not be lost.

The end of speedway at western springs is a travesty brought about by cronie-ism and puts the voices of the few ahead of the voices of the many.

I think keeping Speedway is the right move. It has been there since 1929 and the option of moving it to Waikaraka Park does not make sense. At the moment speedway brings in revenue to the council for use of the facility. If they choose to go to a privately funded venue. What will the council get from it? Will there be a peppercorn lease which will mean Auckland council will not receive any income from the facility? This process looks to have been rushed through without all the facts being presented.

Western Springs Stadium needs to remain the heart of Speedway for Auckland, for New Zealand, as an internationally renowned and famous speedway track and venue.

Keep Western Springs speedway alive and work with the promotions team to not only grow speedway but engage with other parties that could see a multipurpose venue as has been historically.

Work with, and for the community, the people who live for speedway and livelihoods are affected by it. To grow a community and a sport.

I would love Western Springs stadium to remain as the top class SPEEDWAY/MOTORSPORT VENUE that it is (with new promoter) allowing for extra race events during summer, with the potential of being a shared space maybe with Ponsonby Rugby and Eccles entertainment if possible/feasible as it works with their seasons and events. Going back 5 years plus - we used to have over 20 shows per season now the lease/promoter has dictated 10 shows so of course this will show as a loss. 96 years in the venue is not to be sniffed at - clearly the tenancy should speak volumes and lack of trouble at the venue over these 96 years - There is NEVER a police presence at these events and never any trouble, we have dedicated volunteers and of course fantastic race

dedicated St Johns team trained specifically for this type of racing. The parking never causes any issues and events are always done by curfew out of respect for our neighbours - who often sit on their balconies watching.

Personally - We have a family background in the sport, my husband, 2 x nephews, a niece and 2 brother in laws plus many many friends and have a child coming up through the sport and are sadly losing these iconic motorsport venues in Auckland, we are now having to travel further and further a field. Countless fans and racers come from Australia, USA and around NZ which helps towards the proposed bed tax and is probably one of the only venues where fans can get up close to the action, get in the pits and speak with drivers. moving to Waikaraka Park in my opinion would be more than a challenge in terms of roads and parking, can you imagine the absolute chaos and police presences that will ensue on a night where a MT smart concert is taking place at the same time as speedway - it already takes well over an hour to leave a Mt Smart event, nevermind holding another massive event on the same evening, not to mention the many other reasons that Waikaraka Park is not a suitable alternative as the tracks are different as is the racing

Business wise - we have a small family owned business in Auckland which enables us to assist some of these young drivers through sponsorship as it is an affordable option for various sized business to get their name and advertising out in the public domain as well as young kids off the street yes its an expensive sport but that's why we have wonderful business who assist and not the same big brands that sponsor huge events.

The venue is the perfect location for Speedway and open wheel racing and in the right hands would absolutely be able an incredible asset to Auckland / New Zealand - it is already considered the top class race venue amongst speedway competitors across Australia, NZ and the USA, please don't let the beautiful natural amphitheatre go anywhere other than Speedway +

Speedway is where I grew up! I am a 25 year old female and have been doing to every speedway event at springs since I was born! I planned to race at the most iconic track in the WORLD! If western springs had a Netflix documentary like f1 or nascar then you would not touch the place! Those f1 drivers and nascar drivers have raced at western springs speedway and also say it is the best dirt track in the world! Likes of Kyle Larson & Christopher bell! They might not be doing the sport you like but you have to appreciate the talent and words they say when there is no chance you could do what they do! The time money and dedication to open wheel racing at speedway is

massive! It is iconic! It would be quite easy to get Liam Lawson who attends speedway at western springs to do a press release.. there are many people in our corner! It is also the only event in nz that doesn't require police presence and only security to scan tickets! When was the last time there was a fight at western springs speedway? When was the last time you could go to a massive stadium and let your kids run around with no supervision... none other than western springs speedway! It is a family place along with the millions of dollars New Zealand and Auckland businesses have spent funding these race cars and sponsoring out next world champion drivers! Shane van gisbergern for example! Please keep western springs speedway where it is! It is historic and iconic

The rich racing heritage associated with the stadium cannot be lost to make way for yet another generic sporting or entertainment venue. Thousands of New Zealanders are connected to the Western Springs we all know and love, I see other issues the council needs to deal with before senselessly demolishing a much loved location. I feel that the stadium should continue to host vehicle racing events and concerts as it has for many years prior to today.

I do not see how speedway & stockcars can share Waikaraka park. There would twice as many races to fit in the existing time frame or reduce the number of races per class, both of these would be unsatisfactory.

However another idea would be to set up the multi purpose concert stadium at Newmarket Park (also known as Sarawai Park) at Parnell. This park has been unused for several years. The land is going to waste whereas it could for a multi purpose stadium and thus not interfere with Western Springs present activities.

I have grown up in Auckland with many Family members still living around Western Springs stadium. As kids we regularly attended speedway and even now take our children to Western Springs speedway and concerts several times a season to reminisce and share those memories with my children. I would like my children to continue to share this special place with their children as well.

Western Springs stadium must remain open as Auckland's speedway base. It is the only suitable venue for speedway and the volume of fans who attend every meeting. It has a rich history not just in Auckland, around NZ and is also known and loved worldwide. Do not destroy the sport by moving it to Onehunga where there's not enough room for both fans and parking. Western Springs is where I want my rates money spent, to keep the current Speedway and sporting events.

This space has a great history and is a beautiful park in our city. These changes proposed by

Auckland Council will make a large impact and will change the area in negative direction. With all the rapid change that occurring around our city it would be a great tragedy to erase such an iconic location. I have attended concerts and sports events there and part of the experience of the space is its natural amphitheater. I feel the space is well used as it is. A stadium or sports bowl is a terrible idea for this location. The access to it being on main arterial route the access will hindered for both local residents and venue goers. This space is not large enough to accommodate these plans. It would also be a blight on the natural state of the venue. Auckland

Council has repeatedly failed in its obligations when making changes like these to spaces around our city. The repeatedly failures of public transport for venues like these is numerous (ie eden park rugby game and trains have not shown up or not enough trains to accommodate leaving people stranded). The ideas proposed need to find another more suitable location with better access for both private and public transport. The venue is very inclusive for many Auckland activities (Rugby, Cricket and Speedway also a feild for local residents to use for family sports) and this proposed change will exclude a large number of people. I am quite suprised Auckland Council appears in favor of exclusion. The venue is well utilized and manages the numbers of users very well. This venue needs to be left as it is with all the groups that currently use it!

The Ponsonby Rugby Club is an important part of my life and has strongly helped shape me into the person I am today. Community clubs like this are a vital part of society and need to be preserved. I now live further afield, in a community that doesn't have a club or facilities such as Western Springs open to us (Barry Curtis Park, no club rooms) and so there is a disconnect and people in that community often travel afar to join clubs. Where will people have to go if Ponsonby is lost from Western Springs?

Have been to numerous events at western springs, it has been bringing joy and happiness to many for many many years, why would you change it when it is doing a great job doing what it was designed to do. There are many other existing facilities that can be used to cater for events that the other options would do. We do not need any further costs in rate payers when we can further utilise existing facilites

The Council has shown complete disregard and respect for the long standing speedway operation. In my view it bulldozed through the solution it wanted driven in part by too much local interest (NIMBYS) who in many cases (based on age) have bought into the area knowing the speedway operation (and zoo) were well established and an integral part of the community - buyer beware. Shame on you Auckland Council

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

It should not be solely a sports venue or for single-purpose use. The area should be planned as a multifunctional space for public activities. For example, a stadium should not serve only as a place for sports events—it should also be developed into a destination where people would want to go for a walk, relax, or shop during their leisure time.

My idea is to retain the stadium itself, but transform its lower levels or upper areas into spaces that include retail zones, cafés, stores selling sporting goods, and areas for general recreation. It could also host occasional events such as autograph sessions with sports celebrities, thereby attracting more visitors and enhancing public engagement with the space.

I believe the space should be used for housing. There are more than enough entertainment/sporting venues in Auckland and the location of Western Springs is not conducive with concerts or sports events for noise reasons and parking constraints

I think it's a better option because it sounds like what the community needs and also has the possibility that it could reduce the need for public funding by $18.1 million over 50 years. Additionally, I like that it will be a multi-purpose venue that combines sport, culture and entertainment.

Explore modular enhancements rather than building new stadiums. By retaining council ownership and sticking to lighter-touch infrastructure (ideally privately funded or levy-backed), we keep Western Springs ready for live music, avoid investing in largely unused sporting assets, and protect ratepayers.

I think rate payers are all sick of bankrupt Auckland council. I prefer the option where rate payers are respected and not cash cowed. Using council facilities to provide recreation opportunities AND generate cash is preferable. Other wise, downsize the park and sell the remaining land to property developers.

The Auckland Arena will provide sporting and other important activities in an area that has a very high need for sports and recreational events. There is provision for more car parking and the use of the existing motorway off ramps from the City, North western and Western existing motorway, and train services augmented by a shuttle bus service from Carrington Road.

Auckland's only true international Motorsport and concert amphitheater with residents fully aware of the purpose and noise emissions. They chose to live adjacent to this historic venue. Council is equally aware of this historic asset that belongs to all Auckland and must not be handed over to Māori interests

Option A sounds good but if it depends on Auckland FC using the site then it is far too small. AFC need at least 25,000 capacity. If it is not for AFC then not sure what the demand is for another 15k stadium given other AKL venues. Option B sounds better than C but also seems quite costly for rate payers. A trimmed option B sounds better than the status quo though

The Ponsonby Rugby Club which has successfully brought together the Western Springs and other Central Auckland suburbs together as a community as well as a space for other Aucklanders beyond these suburbs together come build a family like community. This option most helps the reputable and long standing club to continue what they do best - keep the community they have created strong and continue their history in the location that it begun.

I support speedway leaving Western Springs. Western Springs venue should be made more accessible to a wider range of groups/events. Updating the aging infrastructure is important.

Whatever design is agreed upon Ponsonby Rugby club should still be housed there.

Transfer of ownership at the end of the lease back to Auckland Council is important.

Auckland is not designed handle 50k people being transported in and out of the Western Springs area, even if the Public Transport system was to run to plan, I strongly object to option two, Ali Williams will want a Heli pad there too.

Auckland with its large population has significant deficiencies with appropriate sports fields. As a general comment, for amateur sports the wider area is reasonably well provided for within the huge financial limitations Auckland faces but of course more would be welcome. However the position for professional or semi-pro sports is both very bad and needs significant rationalisation viz:

1/ no further funding/support for Eden Park as a major facility BUT to downsize and breakup into smaller modules. Eden Park has significant attraction result of the train service.

2/ GoMedia Stadium (Mt Smart) should have significant investment as in the main the two professional sports teams there do not overlap. The train service should be likewise have significant improvement.

3/ Similar to Eden Park North Harbour Stadium should be broken up/redeveloped to service amateur sports.

Western Springs is the wrong place to build a stadium or concert venue. It's isolated in the city fringe with poor public transport links. We're spending billions on the City Rail Link, building a stadium / concert venue nowhere near a railway line is just stupid. It's 35 to 40 minutes walk to the western line. Both Eden Park and Mt Smart have local railway lines that carry lots of fans and can clear thousands of fans quickly post event.

Also, sports events / concerts require supporting infrastructure, bars, restaurants, hotels etc. Either proposal would require thousands of people to drive / park. It's not the 1970s, Auckland needs to be building events venues that are served by mass transit, not in a suburb.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I support option 1 as it is a good, small stadium close to the city centre. It would have great cycling links, bus links, and a great atmosphere with smaller events. If this were to be built though, I would like more LockyDocks at the stadium so I could cycle and not worry about charging my E-bike, and I would like to see a lot of bicycle parking and increased bus frequencies during events. That being said though, I would not be too disappointed with option 2. It would be great for concert goers to have a high quality concert venue very close to the city, and it would save ratepayers a lot of money.

Ponsonby Rugby Club has a rich history. It is our family club. My uncle played here and became an All Black legend which inspired me to give rugby a go too! The club is inclusive and has a positive impact on the community. I am in full support of Option 2 and want to see this club continue to grow and influence the local community in positive ways. This is home for many of us, don't take that away.

Has the least requirement for ratepayer investment. The only caveat - which is also an issue that is shared for option B - being a lack detail around provision of sufficient public parking close by to the venue or any mention of public transportation infrastructure. This would be necessary to service potentially large amounts of vehicle and pedestrian traffic going to and from the venue during and after events.

This option means the Ponsonby Rugby club gets to stay, the character of the area is preserved and concerts, community events and festivals get to continue during the summer. Our family and so many of our friends and community members have grown up at the PRC, it is a pivotal part of so many locals lives. Not only that, this is a place where so many generations of AKL families have brought their kids to feed ducks, walk the path, learned to ride bikes, come to picnic and more. The concerts and the cultural events hosted here are part of kiwi tradition. Don't turn it into another precinct.

Option One is effectively granting ownership (50 years plus 2 rights of renewal = 1 century).

Combined with which the proposal is somewhat less than overwhelming. In less than a decade we will all come to dislike with little we can do about it.

Option Two also lacks vision other than once again a narrow group of interests are looking to ratepayer support. Nice work if you can get it.

Time for some inspirational thinking, something that extends beyond tomorrow's lunchtime.

There has been scant evidence to date.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I cannot see the sense in building a 12,000 to 15,000 seat stadium, for a number of reasons:

1) Western Springs has poor public transport links and limited parking. It also does not have nearby hospitality venues, which would be needed if the stadium was to be used on a regular basis (e.g. football season)

2) Auckland FC currently has larger crowds than the new stadium would allow for, so I cannot see the benefit of building a stadium that may not accommodate all the people who want to attend. Continuing at Mount Smart Stadium would seem to be a more sensible option.

3) From what I have read, the Waikaraka Park track is not suitable for speedway and also attracts bigger crowds than the proposed venue could accommodate. Accordingly I think it would be better to keep speedway at Western Springs.

Subject to the above, the outer Western Springs complex could also be developed to accommodate some of the other proposed community facilities.

To me, the most sensible solution would be to have a multi use new stadium close to Auckland City (.e.g) the proposed Waterfront Stadium, which would be close to public transport links and hospitality areas. The stadium plus the proposed shopping ,hotel and apartment facilities would reinvigorate the Auckland City area and increase the use of public transport. It could be used for rugby, league, soccer, concerts etc and would be a prime asset to replace Eden Park, Mount Smart, Albany stadiums and some current Western Springs activities. There are examples of overseas stadiums with 2 levels, both of which are used for large crowds but only the lower level used for smaller crowds. I appreciate that money may be tight but my understanding is that private equity would mainly be used to fund the proposed waterfront stadium, so I think some creative thinking should be used to give Auckland the accessible and modern stadium it badly needs. Every major city in Australia has at least one modern stadium, so why can’t we?

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I'd prefer option 1 if it was a larger stadium - 12.5k - 15k is shortsighted in a city that is growing - AFC fill greater numbers than this @ Go Media Stadium regularly

I am not a speedway fan however we have a unique venue/Amphitheatre in the world and it brings in international participants. It is recognised by the USA how good it is. You can build a rugby venue anywhere. Where the crowds attend now, who says they will move? There is an assumption. The Warriors sup[porters love Mt Smart. Auckland FC love Mt Smart. The compliants about speedway how is that going to improve with more football games and more usage? They will still complain if a pin drops. Leave speedway there and concerts there etc and leave as is.

Because Western Springs speedway should be a heritage site. This whole process has been flawed and reeks of corruption. Western Springs speedway has brought some of the worlds best race car drivers down to this part of the world and entertained over 120,000 paying New Zealanders every season. Speedway can stay at Western Springs, and it should. Give speedway a fair shot.

A great opportunity for Auckland and NZ to benefit from private investors investing in our city. Look at the success of the Auckland FC. An exciting opportunity we need to utilise. Auckland Council does not have the money to invest in this or the ability to run a potentially very successful stadium

I write to strongly oppose Auckland Council's proposal to remove speedway from Western Springs Stadium. This iconic venue has been home to speedway racing since 1937 and holds an irreplaceable place in both New Zealand's motorsport history and the cultural heritage of Auckland.

Western Springs is more than just a stadium—it is a natural amphitheatre that provides a unique and world-renowned setting for speedway racing. Generations of families have enjoyed safe, family-friendly experiences at the Springs, with a strong track record of peaceful, well-run events that have stood the test of time. For nearly a century, this venue has brought together

communities, created cherished memories, and nurtured a proud tradition of motorsport in New Zealand.

On a personal level, my connection to Western Springs runs deep. I own a vintage midget car that was driven by my father, who raced at this very stadium in the 1940s and 1950s. The emotional and historical significance of this venue for me and my family is profound. To see it lost would feel like erasing a part of our shared history.

The proposal to replace this historic venue with a football stadium is, in my view, deeply flawed. Not only would this destroy the natural amphitheatre and the very essence of what makes Western Springs special, but it also fails to address the actual needs of Auckland's sporting landscape. The football club behind this proposal has already demonstrated strong attendance figures—numbers that would likely exceed the capacity of the proposed new stadium. A far more logical and sustainable solution would be to invest in upgrading Mount Smart Stadium by adding a roof, thereby creating a year-round, multi-use venue capable of accommodating the club's growth.

It is hard to express the sorrow and regret that would come with being part of the generation that allowed Western Springs Speedway to be lost after nearly 100 years. Such a decision would be a disservice to our history, to the communities that have supported and grown up with this venue, and to future generations who deserve the opportunity to experience this unique part of our cultural and sporting fabric.

I urge the Council to reconsider and preserve this historic site—not only for its past, but for the future it still has to offer.

I believe Western Springs should be left as a venue for speedway racing as well as an arena for concerts. It is an internationally recognized venue by the speedway community. The alternative of Waikaraka Park is not and will not be suitable as a venue for both types of speedway racing. The facility is very near to historical status as it stands, and I support the maintaining its speedway status as such.

A couple of things, I agree with there needing to be extra space for growing sports, also like that ratepayers aren't contributing. Noted those that have attached their names to this have the funding / backing to do so & also know what it's like to play in stadiums. Like that these are prominent sports people that are giving back.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

why have we a World class stadium for events in this city which is very underused (by local action by very vocal local resident) -Eden Park can host major concerts? or am I an idiot having attended some major occasion 2 years ago- why do we need to do this maybe your advisors know better- NB there is also Nth Harbour stadium which has not achieved permanent occupancy OR attendance on a regular basis. The council venue at Penrose at least has good support from Warriors and Auckland FC fans and also good train routes to other areas of the City!!

I attend events at the stadium or its sports fields

There are three options to consider

Which option do you prefer? Select one option only.

Option 3A: Neither Option 1 or Option 2 - keep things as they are and retain current arrangements

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I have attended Western Springs Speedway since I was a boy from 10 years of age and I am now 63 years of age.

My father was the manager of Western Springs Speedway in 1939 before World War 2 and the Speedway has hosted many International events, world champion drivers. and many forms of racing from motorbikes, sidecars, TQ Midgets, Midgets, Sprint cars etc.

The seating at the stadium offers mainly safe viewing of speedway, and has always had a real family friendly atmosphere, which is unique to Western Springs Stadium.

Western Springs Stadium has gained world wide recognition from speedway drivers all over the world for two reasons it's natural amphitheatre and its geographical location to Auckland City.

I have attended concerts at Western Springs Stadium, so it is ideal for concerts and always will have the capacity to hold concerts in the future.

It is already a multi sport stadium as the Ponsonby Rugby Club use the grounds, Auckland Midget Car Club use the ground and large concerts can still be staged at the current stadium.

Western Springs Stadium has been there since 1929 and so much history and memorabilia that if it were changed Auckland would loose something special.

Therefore I would prefer to keep things as the are and retain the current arrangements.

Because speedway is iconic at western springs and should stay there.

I started going to western spring speedway from the age of 10 and still frequently attend there speedway meetings with my children

Speedway should stay.....

We have lost Speedway because people complained about the noise, so Option 2 of building an open air "Hollywood Bowl" type stadium would be a waste of time and money and people will once again complain about the noise from concerts etc. I think Option 1 is the best choice for the people of Auckland as a whole because it gives more options for use.

I think this is the best proposed use of the space and council would be crazy to turn down such significant private investment.

Not only is it a large sum, and ensuring no cost to ratepayers, it comes from a group including backers who have experience running other successful sports teams and venues.

Auckland doesn't need another large stadium, but it could absolutely use a stadium like the one proposed. The size is sensible, the accompanying hospitality significantly adds to any event experience (which will be vital to it's success), and the other community sports facilities are a benefit to the community.

I think there could also be scope to explore providing facilities for Ponsonby Rugby Club on the outer fields, but I question the appropriateness of all Auckland ratepayers contributing to provide facilities for one entitled rugby club. Similarly, I support moving speedway to another, more appropriate, venue.

The size of the proposed stadium would compliment, rather than compete with, the other major stadiums Auckland already has, which makes sense for the sustainability of all venues.

Transport infrastructure will likely need some upgrading to support this development too.

I do not believe that providing facilities for concerts designed to make money for the already overpaid artists involved is Council business. Sports facilities for ordinary people are another kettle of fish but providing larger stadia that will rarely be filled are a waste of ratepayer money.

Auckland FC games are better kept at Mt Smart. It has easy access to SH1, SH20, eastern arterial and the train station is close by. It is in an industrial area so nose is not an issue.

All the other options will cost the tax payer. The water front would be a better venue for any music events or Eden park or Mt Smart - we don't need another venue.

Why don't you sell the land (to some one who is going to build proper houses), or use it for social housing. Pay of some debt. Please do not give the land to people who can afford to buy the land.

Western Springs Speedway is an iconic and historical venue of significant importance to Aucklanders, New Zealand and personally, to me as my family have been going there for decades.

My grandfather even raced at springs speedway - long before I existed. My family have been attending western springs speedway my whole life, and the sense of connection I feel to my grandparents who have since passed is great.

Beyond that, the other options presented are not fit for purpose for this venue. As it is, it can already host music and cultural events for the city - without spending millions of dollars we don't have.

Having been a previous council employee I am beyond appalled and disgusted at the way this has been handled. One whiff of billionaire money and the current mayor and his council lose their minds and all credibility.

Auckland FC is already very well attended at Mount Smart Stadium. Invest in that venue.

This is nothing more than a money and a land grab and something that I suppose this council has been doing for decades.

As an aside, trying to make this venue any bigger or more attended will cripple the transport and roading system around the venue. By no means can this be afforded above and beyond other roading projects in Auckland that are desperately needed to make this a "liveable" city.

This Mayor will be long gone before his pet project comes to fruition. Tell him to get out of the pockets of billionaires and sports stars - it's embarrassing and wildly inappropriate for even a local government politician to be so blatantly involved in.

Keep Western Springs as it is, invest the time and money where it can actually help more Aucklanders. In case thats not clear - it isn't a sporting venue.

My husband and children have been avid Western Springs race car drivers and crash crew leader. He and many others have spent most of the summer months at Western Springs. Gs which they and many others class as their 2nd home. They have friends from around NZ and overseas who not only race there but are lifelong friends. WESTERN Springs makes enough money for the council to realise it's not just a 97 year old sport but also a great community and entertainment venue. To take this away is unjust and definitely not thought about in the eyes of the community and race goers alike.

The stadium being proposed doesn't suit for a number of reasons.

An extra stadium seems redundant when the AFC can be suitably housed at Mt Smart. The capacity is larger than the stadium proposed which will suit the current fan numbers for the AFC, there are existing transport links superior to Western Springs (train), Mt Smart will get greater utilisation as AFC play mainly in the NRL offseason, and last but certainly not least - it was only a few years ago the current stadium portfolio of the city was deemed untenable, with a move of the Warriors to Eden Park touted, North Harbour Stadium performing poorly, etc.. - and now all of

sudden we're talking about adding yet another stadium? Also by keeping AFC at Mt Smart it helps ease the burden on rate payers by the revenue generated.

On the other side of things, an entertainment venue is a good idea, but I think it should also double as a cricket venue as Auckland doesn't have a quality cricket venue. Eden Park's pitch is too small and awkwardly shaped and we lose out on many games due to better venues in much smaller centres around the country. Western Springs has much better potential to become the #1 cricket venue.

It is too small to use such prime real estate. ~15,000 capacity will barely hold the current AFC fans (of which my son and I are).

Western Springs holds great significance for me and Auckland as a whole. I believe ratepayer money would be better spent supporting speedway at Western Springs than on many of the initiatives currently funded by the council. This issue has been poorly managed, and I strongly disagree with the process that led us here. The stakeholders – fans, community members and the wider public – were not consulted early enough, and they should have been. With a long-term lease and commercially sustainable operating conditions, speedway at Western Springs can thrive.

As a ratepayer I am acutely aware of the demand for our dollars to spend on infrastructure. The idea of saving money for other priorities but having a high quality venue for a variety of sports and community events is too good to pass up

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

There are sufficient larger (50,000 capacity) open-air concert venues in Auckland. To name a few: Eden Park, Go Media Stadium and, maybe, the Domain. Why strengthen a Western Springs venue when it would simply cannibalize concerts from the other open-air venues in Auckland. In the future there is always the option of upgrading the Domain. In the meantime, it makes more commercial sense to utilize existing venues to pick up the larger concerts that would otherwise have gone to Western Springs.

At this time there is no identifiable need for an upgraded, large concert venue that will be partially funded by ratepayers. The Auckland Arena offers a wide range of benefits, with a small initial set-up cost and without an ongoing cost to ratepayers. There is the potential for some small savings

($18.1 million over 50 years) compared to existing arrangements. The last thing we need in Auckland is another ratepayer funded, irrespective of it being partial funding, sport/concert venue. The last thing Auckland ratepayers would tolerate is the Council committing to underwriting a project with a projected additional cost to ratepayers of $48-107million (how does this relate to the $106.7 million in the table?) of the lease period. What is worrying about this range of the cost, a rather large margin of error. Way too big for a project of this size No mention of who foots the bill if there is a cost blowout. The ratepayer? I think Eden Park is a good, cautionary tale to consider for ratepayer funded venue projects.

Leaving aside the Auckland FC desire for a home ground, rather than being farmed out all over Auckland, the Auckland Arena option would provide an additional venue for the continued growth of football players which is significantly larger than rugby. The Auckland Arena option would provide the much-needed additional venues for two other very fast-growing sports, basketball and padel.

The additional benefits include high-performance training facilities, healthcare centre and hospitality options

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1 is a grandiose, pie in the sky fantasy. I am very sceptical about the "private sector will pay for it" mantra, as I don't believe Auckland generates enough commercial activity to support another expensive new venue and if (or when) there are financial issues down the road, Council and ratepayers will inevitably be left to pick up the tab.

I would prefer Option 2, however I also believe that Auckland City already has too much capital spending and debt on its books, with large Transport projects etcetera and should not be adding additional large items every year or so, until the existing projects have been completed.

In which case Option 3 is my choice, given Auckland's current financial position and my scepticism about the actual likelihood of sufficient private funding being available and a more realistic estimate of commercial viability.

I chose this option to retain western springs speedway. It is an iconic place where my father took me as a young boy and where my family come nearly every event.I am very annoyed at how council have treated the speedway and the public, that those councilors will no longer get my vote or my family and friends. Auckland council should be ashamed of them selfs.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Speedway should be granted a long-term lease and commercially viable operating conditions to ensure its future success. The sport is a significant part of Auckland's cultural and sporting identity and deserves the same planning consideration as other events — just as was done with Eden Park to facilitate concerts.

There is no reason why speedway cannot continue to operate as part of a multi-use stadium. It has previously coexisted successfully with concerts and rugby, and with the right planning and will, it can do so again.

I also wish to raise a serious concern: stakeholders, fans, and the wider public were not adequately consulted before key decisions were made. This lack of transparency and engagement is deeply disappointing. As a ratepayer, I believe my money would be far better spent supporting speedway at Western Springs than on many other current Council expenditures.

The way this issue has been handled has eroded my trust in Council staff and many elected councillors. From what I've seen and heard, most Aucklanders I know feel the same. Speedway matters to us, and it deserves fair treatment and support.

Western springs stadium is a facility like no other in Auckland. Speedway has been based there for so many years and it would be unjust to move them. Waikaraka park simply does not compare and can not meet their needs or indeed accommodate the same number of spectators. A perfect venue for concerts the natural amphitheater perfect for the sound. This would seem to be the most cost effective solution for the rate payer, as option 1 and 2 both involve the ratepayers ultimately paying excessive amounts, when we already have ridiculous increases to deal with. My family, friends and I have many fond memories at this stadium at both concerts and speedway. I dearly hope this will continue long into the future, so many other people can enjoy the same.

Other (please specify):

Both of my sons andboth grandsons have raced at Westerh Springs Speedwayfor many years Since moving to Auckland in the 70's I have attended speedway meetings at the Springs. It is beyond a disgrace how the Auckland City Council has handled the matter. Hopefully a highly qualified lawyer will strongly put forward a strong argument so that racing can continue there.

I want to see wording that specifically states to keep the Western Springs Speedway to continue to operate as a speedway with a full seasons of racing

I have been part of the rich Ponsonby Rugby Community and Western Springs is the heart of that. The Western Spring Bowl would enable something new for music and events while keeping the rugby club.

Western springs stadium is an iconic venue with the capacity to host large, international artists in a unique atmosphere. We can't have just a singular football club take over and remove this cultural legacy. Please ensure the ponsonby pony's can keep playing and use the field. And let's upgrade the land to host better festivals and concerts!

As a rate payer Western Springs stadium is important to me and Auckland. I'd rather see my ratepayer money spent to have a world renown Speedway venue than any of the things the council is currently spending the mine and other peoples rate money on.

The stake holders, fans and people were never consulted with before t his time and should have been.

I have seen how this issue was handled and I don't agree with the process and have lost faith in the council staff and many of the councilors.

We were never consulted about the future of speedway at Western Springs, and it shows in the poor decisions being made. Speedway has shown it can work alongside concerts and rugby at the stadium. Updating the Unitary Plan, like they did for Eden Park, would allow it to thrive. Most locals I know support keeping speedway and are disappointed in how the council has handled this.

The capacity is to small , western springs is not close to public transport , the closest train station is a 35 min walk , there is no car parking in the area. Keep it as is , explore more options. A water front stadium is commercially more appealing and close to public transport. The businesses in the water front will thrive with a multi use stadium

I am an Auckland FC supporter. I dont believe that the site has adequate transport connections and/or is located conveniently enough for the vast majority of fans. I also think Auckland is massively missing a concert venue capable of hosting Eden Park sized crowds without the restriction of only hosting 12 times a year.

need an alternative indoor sports arena (spark arena - too big for most events and not always available; north shore events centre - too inaccessible for most of the city). in reference to option 1 - western springs can not host regular events; no train station nearby meaning 100% of event attendees would need to use the motorway to get to the venue. would be terrible for residents as there is already heavy congestion there. would be more inaccessible for auckland fc fans too, which is the only team in the city with decent attendance every game. the occasional concert and event at western springs is fine, making option 2 the best choice.

I live out at East Tāmaki and having the Auckland FC games at Mt Smart we can get too with ease, either park around the streets or pay a business to use there car park , better to get too, when the speedway was on ,leaving the area was a nightmare , please keep it as a concert venue and rugby club, .

Turn over some of the mt smart to Auckland FC and invest in making the arena with a 3/4 roof and do up the stadium a lot better.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Keep Ponsonby RFC at home - they have been there for 150 years. Currently, public transport is poor in the area and new developments will not work unless sufficient investment in public transport and/or plentiful parking is made.

Mount Smart is far better suited from both a capacity perspective and a location perspective. Mount Smart is located just off state highway 1 and right by a train station. The commercial zoning also means there's plenty of parking options close to the stadium and since it's not residential there's no need to close streets. Mount Smart has been fantastic for atmosphere and we've had an average capacity of over 15,000 which is more than the maximum capacity of the proposed option 1. Location is massive too. Mount Smart is relatively central so it's a similar distance to travel for all Auckland fans. If you are thinking of building a new stadium then building near the viaduct or downtown makes far more sense than in western springs. Auckland FC has started off so well and

a large part of that is due to the current stadium. It would be a shame to spend millions to build a stadium that is an inconvenience for many Aucklanders to reach.

Auckland City is severely lacking in resource to meet the demand for Basketball services. Basketball is growing rapidly culturally and in our schools, but the resources are few and far between. Having additional courts for clubs, youth, and public use would go a long way to tapping into successfully the great basketball potential we have as a country.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1 provides an all year round facility to cater for many sports, variety of entertainment to a broad range of NZers. There is good public transport to move large numbers of event goers in and out of the area, close enough to the city to see flow over of sports games and events bring a large hospitality advantage to benefit the overall economy.

To have private funders take away the burden on the council for a state of the art facility cannot be under estimated. Long term council propping up money/ investment is not sustainable as our city is growing at pace where infrastructure funds are required as a priority elsewhere.

To have a national team like FC put a stake in the ground will bring a fresh face to Western Springs which is steeped in history but deserves the investment to continue the legacy as a place to visit and love what is on offer. Multi range entertainment to suit a concert down to a training ground means many jobs put into the area far exceeding what is there now. A progressive vision by funders with proven success in all they do provides confidence ‘Auckland will go from strength to strength’. As a destination more will visit.

Your idea is trash. No one cares about other events if you're moving Auckland FC to this venue. We don't care about other events. We want a stadium for FOOTBALL. Not some weird 3 sided venue. Why would you reduce the capacity by 10,000 when our lowest attendance this season was 13,000? You are not aware of the Auckland FC movement if you think this will work. Go to the Port in CBD or Renovate Go Media. This idea is TRASH. You are making a huge mistake if you do this. Ali Williams wants it in Springs cause he's Ponsonby boy. We don't care. Listen to us, 95% of comments on your post about the venue are negative. We don't want it, AT ALL

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I like option 1 due to the private investment being made. But the design is terrible and I don't see the value in a stadium of 12-15000. Auckland FC get bigger crowds than this and it would probably be too big for crowds the women's team will get. The indoor venue is good but needs to be big enough to cater for netball - the indoor sport requiring the biggest area. That way it is future proofed and all other indoor sports fit within this footprint. It must be a true community facility and not just for basketball. I only support this option on the basis that more work is done to better refine the plan as the current one is not great.

The current solutions don't make sense from access point of view. I do not see the benefits of having another stadium built in Auckland (either public/private funds)in the location. Unless AT/Auckland Council are funding a proper public transport report to the stadium the stadium will cause gridlock in an around the Motorway. From that point of view the minority owners seem to be wanting build a stadium close to there houses to make it easier for them.

Auckland FC already has a home ground, whereas there are not many outdoor locations for live music events of this size available. Venues that "combine sports and entertainment" often have terrible acoustics and are not 100% suitable for either purpose

Council are currently doing an extremely poor job of serving their communities and aligning "blind" or otherwise to pressure from others with personal agendas. Councils core objectives are failing. You need to do better and listen to other options from the wider community. 3B is this pathway. You are not the "God particle", you are there to focus on core facility and those that pay your wage.....do better and be as frugal as if this was your personal finance.....the wastage and hidden agenda must be flushed out

Western springs speedway has been a staple of the area for generations. Wealthy homeowners knew what they were signing up for when they bought those properties. Leave if they don't like it. Waikaraka park is not fit for purpose. Greed and millionaires should not dictate councils community venues. Don't fix what's not broke.

Also donate to meremere dragway.

Western springs speedway has been there for 97 years. It's an iconic venue familiar with not only local people but drivers from other countries also. It's been described as one of the best speedway venues on the planet. The alternative will not measure up. Speedway have managed to work with the rugby club , music and cultural events. It's should be left alone for the people. Others that are comming in to make the venue something else for their own gain need to find somewhere else as the changes proposed for the venue shouldn't even be an option.

I chose the area idea as I feel that Auckland needs a smaller stadium to cater for teams that don't attract 30-60k per game so the fans can create an atmosphere for the team that is playing. I also believe that a world class training facility would also benefit teams in the Auckland region

Auckland doesn't have a purpose built rectangle football stadium that suits 10,000-15,000 Fans. Eden park is too big and limits the number of games that can be played. Mt Smart is in a horrible industrial area and you sit far away from the action. North Harbor is a white elephant and is too far away fro most people in Auckland.

Im wanting to have my Auckland rates utilised in the saving of the Western Spring Speedway, it has sporting history in our great city as a fun and entertaining venue for all the family. It needs to be given a long term lease with the ability to be supported and run fairly to allow it to be a success again. I would love to see it combined as a music & speedway venue as it has been years ago. Stop ruining and deleting Auckland's 96 year sporting history because of some underhanded few. Save our Speedway for the generations

Keeping AFC at Mount Smart (Go media) is better for everyone. It's easy access, with lots of free parking reasonably close and the trains and busses go directly there unlike western springs. It's also in an industrial area which means residents don't get too annoyed unlike at western springs.

I don't believe the AFC stadium will satisfy the long term needs of the club, or enhance the current arrangement significantly enough to make it a worthwhile investment for the area.

Option 2 is the best alternative, and a better use of the unique needs of the immediate and extended community.

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

My Reasons for Supporting Option 2 – Western Springs Bowl:

As a dedicated member, sponsor, and volunteer with Ponsonby Rugby Club, I strongly support Option 2 for the following reasons:

Long-Term Security and Growth for the Club:

Renewing Ponsonby Rugby Club's lease under this proposal gives the club long-term certainty and allows us to plan for future growth. This is vital not only for the players and supporters today but for future generations who rely on this club as a sporting and community hub.

Investment in Modern, Multi-Use Facilities:

Option 2 delivers upgraded clubrooms and facilities that are long overdue. With up to $20 million in council investment toward community infrastructure, our club—and other community sports—stand to benefit from vastly improved amenities that will support training, events, and engagement at all levels.

Balancing Cultural, Community, and Commercial Use:

The proposal makes smart use of the space year-round by accommodating live music events in the summer and rugby in the winter. This mix ensures Western Springs remains an active and vibrant part of Auckland's cultural and sporting life without either use displacing the other.

Boutique Stadium Opportunity:

The potential for a 5,000–8,000 seat boutique stadium would be transformative for semi-professional sport and community events. It would also position Western Springs as a more versatile venue that can host mid-sized sporting events, drawing more people and investment into the area.

Private Sector Investment Reduces Ratepayer Burden:

With $30 million coming from private investment, this option spreads the financial responsibility and ensures the cost to ratepayers is shared and justifiable—especially when weighed against the significant benefits delivered over 50 years.

Continued Operation by TAU:

Having TAU maintain and operate the stadium ensures the facilities are professionally managed, accessible to the public, and aligned with Auckland's long-term strategic goals for major events and community sport.

In summary, Option 2 isn't just an upgrade to the venue—it's an investment in the sustainability and future of Ponsonby Rugby Club, while also enhancing Auckland's live music offering and preserving Western Springs' unique character. It supports sport, community, and culture in a balanced and financially responsible way.

There is no reason to put a " new " stadium in play when you haven't improved motorway access , or public transport , ie trains! There is really only one way out of the place being the west motorway and that doesn't flow best of time , the one off concerts etc you can plan around to avoid the area but if you support a sport you chose to or not to attend based on the delays to get there park (none of) and leave

Western Springs has had a long history with the racing community, I went as I kid with my dad and have taken my niece. I would love to take my kids there. It’s great to see such a long history of a sport in the same place many Aucklanders have watched it. Would be an absolute shame to see such a massive community hit hard because the council want it for something else.

Western Springs is an iconic Speedway venue, not only in New Zealand, but the world. So many world famous drivers have come to race at Western Springs over many decades. Speedway at Western Springs also supports a large community that provides jobs and supports businesses for many people. I've been to many speedway tracks in New Zealand and Australia, and I can honestly say Western Springs provides the best experience, both as a competitor / crew member, and as a spectator. There's just something about the place that no other speedway has. I've been going to Western Springs for 40 odd years, originally as a spectator, and as a crew member since 2018. You cannot replace Western Springs, no amount of money or anything else will ever be able to do that. Speedway needs to stay at Western Springs. The way the whole thing has been handled by the

council etc over the last few years has been nothing short of disgraceful, and smells very strongly of Speedway being forced out at any cost, to suit some as-yet-unknown agenda.

To keep it as is, has been working well for the last ninety six years. Western Springs speedway is the only purpose built track within the Auckland area. I believe Auckland has too many under utilized indoor and outdoor stadiums as it is. Myself and family travel from Coromandel most race meetings every season since the early it's.

Back in the depression, both my grandparents helped to build this stadium. It carries a deep connection because of this to our family. Through many generations our family have attended many events at this stadium. It is sad to see that council is ignoring the deep seated connection and heritage value that not only Aucklanders but many New Zealanders have with this venue. It seems that the council prefers the option of wealthy business people wanting another trophy for their cabinet.

I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

We have a rich history of fantastic music events in this space. It's a gorgeous natural amphitheater that many of us know and love. It would be a tragedy to lose the natural beauty of this space.

Neither option 1 or 2 make sense in Auckland, what private sector would part fund a council owned asset? How many 50k events per year would you allow to be put on to seek ROI? The sports centre how much would fees be to provide your investors an ROI and what residents could afford that price?

These are terrible ideas for this great space. Yes it needs money thrown at it, but present some research on who would use it for what purposes before suggesting ideas that will just cost money and not sustain a return, economically or constantly culturally.

I have attended many concerts at Western Springs and consider this venue to be superior in its location and sound quality than Mt Eden or Mt Smart stadiums.

I support the proposed modification to create the "Bowl" style of venue with permanent staging.

I do not support a 15-20,000 seat building, that would be very disappointing and unnecessary.

We use facilities across the wider Auckland area which we share with many community groups so access is limited which means a lot of people are missing out on the opportunity to participate. As identified in the Auckland Council Sport and Recreation Facility Plan there is a current shortfall of 73 courts across the Auckland region. A central location will cover North, South, East & West of Auckland.

Speedway must remain as there is no justifiable reason to remove it. More meetings and more concerts and other community events and festival need to be approved to use the stadium more effectively.

There are very few spaces in Aotearoa & Tāmaki Makaurau that can host large scale outdoor music events. Any proposed changes should not in any form impact the ability to host these events. Many people have these events as a highlight on their calendars & is additionally a significant boost to the local Auckland economy with people from other areas travelling for these events. The music sector needs this venue, let them have it

I wish to see the preservation of Aucklands history by keeping the speedway, the council pours millions if not billions into vanity projects for the council itself but won't return ratepayer funding into historical places such as western springs speedway? Seriously, you need to do better.

Speedway is a cultural event that attracts a multicultural audience and even an international one, more needs to be done to retain and preserve one of Auckland city's iconic places.

Change for the sake of change in this instance, is unwarranted and definitely not a priority for ratepayers!

One of the biggest strengths of Auckland's cultural life is the diversity of communities. As they are growing in number , so is their need to find appropriate places to celebrate their cultural and religious events. We need better and covered places for that purpose.

Moreover, any development project that affects communities must be multifaceted and beneficial to all communities . Auckland arena can be used by all communities for gatherings, festivals, fundraising, etc.

I'm writing to express strong support for keeping both the Speedway and Ponsonby Rugby Club at Western Springs. These long-standing sporting institutions are part of the cultural and community fabric of Auckland – and displacing them for yet another stadium project is short-sighted and unnecessary.

We already have three major stadiums in Auckland – Eden Park, Mt Smart, and North Harbour – all of which struggle with attendance (Warriors games aside). Mt Smart works fine for Auckland FC

right now, but let's be honest – if results dip, so will the crowd numbers. Building another stadium, especially in a location with poor public transport, is a complete waste of ratepayer money.

Western Springs offers excellent access, heritage value, and is already home to multiple clubs that bring life, energy, and opportunity to the community. Taking that away removes accessible sport and recreation opportunities for Aucklanders – something we should be protecting, not replacing.

Let's invest in what we already have. Let's support the clubs, codes, and communities that have built grassroots sport in this city – not bulldoze them in favour of another costly vanity project.

Keep Speedway and Ponsonby Rugby at Western Springs.

I've attended many an event at Western Springs over the years including speedway, sports, WWE live events and many concerts, and I would love for that to continue. The idea of having a Hollywood Biwl type venue is intriguing. Also being an Auckland FC fan living in Pakuranga I quite enjoy only having to commute 10mins to Go-Media Stadium to watch an AFC match....

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

This has been handled terribly, with a long term lease speedway can stay and input money. Leave the speedway

Western spring speedway been there a long time generations of my family have been there for racing and I want to bring my grandchildren up going there leave it as it is way better than it going to Waikaraka park. Leave things the way they are if people buy in the area they know it has racing then they don't like don't buy in area or go out on a Saturday night. But they all get free concerts to listen to .

We are a football family and would love to see more opportunity for high-level games in Auckland. It seems to make sense to have a mix of uses for the space giving a large number of Aucklanders use of it. I'm also interested in this proposal as it reduces the cost to ratepayers at a time of rising costs across the board.

Most People support Speedway to stay.This has not been put forward fairly by the council who only have money in sight to dig them out of trouble.They have said speedway doesn't make enough money in the year as a lease holder yet it is the councils that have restricted us to 10 meetings a year down from 20 odd so how is that fair???Speedway should remain at western springs with a fair chance!

We lack multipurpose world class state of art facilities. In fact, we don't have any! Having something like this in place will transform sport (particularly football - the largest team participation sport in this country) and multi cultural sectors and opportunities. This in turn will also drive local tourism and attraction to the Western Springs area which also drives more visitors to local attractions I.e. the zoo, motat etc.

We already have venues for concerts and music events another something diverse that attracts multiple visitors that the local businesses benefit from.

This venue / location is steeped in history, from hosting Led Zeppelin, David Bowie and many more acts. For a country as young as we are, we should be protecting such a site as designated site of artistic interest. The bowl should remain as a concert venue and made a permanent jewel of Auckland.

I wrongly voted 3a previously. Resubmission for 3B instead.

Speedway at Western Springs is always a great night out. I have grown up with going there as a child and still go there now as an adult taking my children. I would like to think that this would be able to continue throughout the generations to come. People all over Auckland go to Western Springs to watch speedway and it is always a fun night out for all ages! There does not seem much point in closing it down, speedway at Waikaraka park is definitely not the same experience as at Western Springs.

We need a concert venue of that size in Auckland otherwise some international acts just won't bother coming here. Eden Park isn't big enough unless booked for multiple nights.

Having attended many outdoor concerts in New Zealand, including plenty at Western Springs over the years, the bowl at Western Springs delivers the best experience from an acoustic perspective of any venue in New Zealand. It would be a real loss to lose Western Springs as a concert venue as it really only leaves the concrete jungles of North Harbour Stadium, Eden Park, Trust Arena and Mt Smart where the sound often bounces of the concrete structures, depending on where you are located in the grounds,

Auckland needs a proper arena for football that has a pathway to the professional Auckland FC team. Auckland has the highest football playing teams and players. Also this option does require rate payer investment.

Auckland is loosing every thing it has. We no longer have One Tree Hill, The go carts have gone from Mt Wellington. Auckland needs to keep what it has. Every year Auckland becomes more ********** due to loosing good things we enjoy and replacing them with ********** we don't want.

My cousin is Luke Brown, he's a long time race car driver in Auckland and has been NZ champ multiple times. His passion is racing and our whole family and friend group love supporting him, and his peers. They race at western springs and we'd hate to see that taken away from them. We have enough concert venues. Just because the council and government think something isn't making enough money, doesn't mean it isn't important to the community. If you took whoevever is behind this decision down to WS for a racing night on Saturday and actually spoke to the people

attending, you'd see the passion, love, support, sacrifice and dedication in all the people there. Think of more than money, for once.

I want to see Speedway remain at western springs and continue to attract big names in motorsport to come and participate at the historic Speedway. A 96 year tradition isn't something that can easily be rebuilt at a different place.

Currently, there is no basic transport infrastructure other than what would be an extremely clogged motorway on-ramp, or arterial network during high volume events.

Would be much more open to considering ideas when there is more of a cohesive proposal integrating infrastructure developments with adjacent Auckland Council entities.

I support this proposal as it offers a balanced and future-focused approach to optimising Western Springs Stadium for both community and commercial benefit. By enhancing the site's capacity to host large-scale concerts and festivals—while also improving community sports infrastructure—the proposal ensures the venue remains relevant, vibrant, and multi-purpose.

The opportunity to attract private investment, paired with sustained council oversight and improved access for grassroots sport, makes this a pragmatic long-term solution. It also allows Ponsonby Rugby Club to continue its legacy at the site, with scope to grow into other codes, which will significantly benefit local participation and development across a range of sports.

Western springs is NOT convenient to all, only people who live out West. We love supporting AFC and go to all their games, but wouldn't attend any of it was at Western Springs as it would just be too far and inaccessible. Same applies to major events and concerts.

Keep speedway at Western Springs. The venue is world renowned for speedway racing and it should continue for another 96 years. Proper consultation has not been carried out with the current users, both speedway, midgets and Ponsonby Rugby Club. The speedway events are well patronised and popular and should continue at the Springs venue.
