Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Auckland needs more purpose built public entertainment facilities. Option 1 with private development offers far more than the options 2&3.

Private development will also offer cost savings to Auckland Rate Payers who are already subject to ever increasing rate costs. Private development will also be more cost efficient. When private money is involved, there is no undue cost waste. I fully support the private development of Western Springs.

I believe that all the current stadiums are under-utilised due to councils inability to conduct business within reasonable budgets. We don't need new stadiums, we need proper utilisation and maintenance on the stadiums we have

western Springs Speedway to remain, but utilise more frequently for concert and festival use. The past few years have had Speedway only, which ultimately limits profitability. ponsonby Rugby can also stay. Make better utilisation, with a speedway museum, changing rooms, etc for rugby.

This venue is special because of its natural amphitheatre and its Speedway racetrack. I have been attending Speedway my entire life at Western Springs (I am now 66), my children and their children attend Speedway to support a wonderful community and environment. To not have this facility as it is now, after the money spent on it to improve it for us, the spectators and the rate payers of Auckland would be a huge loss. A lot of businesses support the racing community at Western Springs and their employees! Too lose this would impact so many people. The other option offered as an alternative for Speedway (Waikaraka Park) just does not offer the challenge for the drivers' or the uniqueness of being able to race at this historic venue. The venue is also

superb for concerts. So many great concerts over the years where the entire track area and seating, banks etc are used and enjoyed to the max. The Rolling Stones, U2, Elton John concerts to name just a few that I have attended over the years.

Western Springs Stadium is the home of Speedway. It's one of the few family events left in Auckland. It's one of the best speedway tracks in the World.

It should remain the home of speedway after 96years. There is plenty of unused stadiums that the rich billionaires can throw their money at.

My business Taylor Automotive does a lot of engine work for the competitors of Speedway.

This is a good part of our turnover annually.

My customer feedback is if they can no longer race at the Springs, they will possibly stop racing as a lot of them cannot afford to travel.

I have also had international drivers ie. Kyle Larson race my car over the years. Kyle has show cased Western Springs Speedway along with Auckland City to the world.

My family has been attending Springs Speedway for the last 60 years. And my kids want it to stay sa they can race there one day too!

Speedway and Concerts for me, just as its been for since I've been alive.

Thank you

Speedway must stay in western springs. The history is unparalleled, it is a world famous and beloved venue by international drivers and teams.

Waikaraka Park is not comparable as a replacement for many reasons, size, atmosphere, facilities, history

Speedway will lose energy and the enthusiasm of talented drivers and wealthy business people who invest heavily in the motorsport.

My son has achieved national and international accolades and success purely by being able to race at this world class venue as a 10 year old. He is now 43 and has has 25,000 followers on his Facebook site. He has singularly inspired many younger children to follow in his footsteps and pursue goals. I've seen the joy of young and old who witness his achievements. None of this would have been possible without Western Springs Speedway. Waikaraka Park will never meet the high standards and facilities set by this stadium.

Speedway is not just about racings cars, it's about family, teaching young people about professionalism, self-responsibility, goal setting and most importantly, kind caring adults who nuture these young people.

I'm in my 70s now and Speedway at Western Springs has been a huge part of my life since I was a teenager. The thought of losing it is incredulous, and for what?!

Waikaraka Park will not replace Western Springs in any way shape or form. This must be understood.

I feel this has been forced upon the Western Springs. This is as crooked as it gets! Council should be held accountable. People have a right to have a fair and transparent process. Racing at Western Springs has been going for 90, this Council has no right to end that. There will be many job losses in an Industry that is world wide. Wikareka Park is definitely not suitable for the transition. The mayor and Council members should be ashamed of themselves.

Western Springs Speedway is more than just a motorsport venue - it is a cultural landmark with over 90 years of history that has helped shape Auckland identity. Generations of families have gathered at Western Springs to share in a unique, community driven experience that celebrates sport, innovation and local pride. Few venues can claim the deep intergenerational connection and storied past that Western Springs offers. Speedway is a space where local families, volunteers and enthusiasts come together. It supports youth development, provides career pathways in motorsport and engineering and fosters a strong sense of community. Events at the speedway draw thousands of spectators, generating significant economic activity for nearby restaurants, hotels and small businesses. It is recognized across the world and is a place many fans have on

their bucket list of places to see. This is home and no other venue in the world will replace this feeling for so many. To make it financially viable, there are plenty of other options to ensure Western Springs is self-sustaining - expand operations to include more concerts, cultural festivals and community sport events during the off season. The natural Amphitheatre creates a whole new atmosphere, I myself have been to many concerts held at Western Springs and it is one of the best places for concerts. We need to maximize the use of the space year round. The Western Springs Speedway Association has not been heard or given a fair chance. I believe if we maximize the use of space year round and allow the association the chance to seek additional funding and partnerships, why can we not have the best of both worlds.

In addition to this, I just wanted to say I have been attending speedway racing every season since I was born, that's 30years. I am now a partner of a driver and we have a young son, this would be 3 generations of speedway racers and I am disappointed and heart broken that our son may not get the chance to race at a world renowned race track which in my opinion is a world class facility compared to other race tracks around the country. Please give us a fighting chance to prove we can make this viable for all.

I'm a local business that supplies chassis to speedway. I am a manufacturer that has an understanding of the dangers of running stockcars and speedway together. It is a risk now that we do in a limited number already but pushing the two sports together is not acceptable. The crowd numbers we get at the spring will not fit into waikaraka so sponsorship of cars will suffer forcing drivers to pay even more to compete

Western Springs stadium should be retained as a speedway track. It has been a speedway for nearly 100years. It provides safe family oriented fun and incomes for thousands of Auckland and New Zealand constituents. It's a known flooding area and speedway built on basically a dirt track has the ability to cope with those conditions, building over it will only take away more of the permeable land exasperating the problem.

The council needs to actively work with the speedway way community and the elected council officials need to listen to what Aucklanders actually want. This can be a financially viable option very easily which is essential in this current economic climate.

Hi, I would like to see speedway continue at western springs, we do not need another sporting stadium in Auckland when the current ones are already under utilized

Western springs speedway should be a heritage site, it is well loved by the wider Auckland community & is a family sport, there are consistently large crowds that attend speedway and very rarely does this require police attendance unlike other sporting events,

The speedway stadium is a world class site that brings drivers from the USA & Australia here to race, the alternative venue of waikaraka park does not have the facilities to host international

meetings that are anywhere the caliber of events held at western springs. Nor do I believe international competitors would waste their time & money as I mentioned the facility's are not up to standard. Western Springs is THE home of open wheel speedway in new zealand and has been for 90 odd years, it should be allowed to remain as such. It should be a public vote to decide the fate of the stadium not the councillors and the "mayor" Wayne Brown who clearly has a conflict of interest as his preference is for football and Auckland FC

Please dont get rid of a major part of aucklands history that many familys love.

Western Springs is the home of speedway, and that's how it should stay. There are plenty of other options for stadiums in Auckland. People like the Mowbrays who have no interest in a sport that has been around for nearly a century, should find something else to spend their money on. Speedway will be treated as second class citizens at Waikaraka. Western Springs is the home of speedway and that is how it should stay.

Western Springs Stadium is an important historic and unique motorsport venue for the community. Use North Harbour Stadium for Auckland Football Club, it already has loads of area around it to be developed. Football can be played anywhere. Dirt track racing cannot. Same with the concert venue. That can be anywhere and also you already use Western Springs for concerts so what's the difference.

Keep western springs speedway going! The option to move it isn't good enough, the sport is huge in Auckland and there is so much history behind it. Utilise north harbour stadium for rugby/ football / concerts instead.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Auckland does not need another multi sport arena or multi cultural event centre. Western Springs speedway is the best motorsport facility in the heart of Auckland. It is run by people who are dedicated to providing exhilarating action close to the centre of the city. Circuit racing, Drag racing, rallying has all been forced to the extreme outskirts of Auckland.

Keeping things as they are is not a true representation of the speed way as it has been hindered over the last few months of the season.

Ponsonby Rugby Club is also a mainstay of the area. Let them stay on as well.

I believe the stadium should remain as is being the home to western springs speedway.

It is the most iconic and largest open wheel racing venue in the country pulling in the largest crowds every night.

It is famous internationally having hosted the largest names in both open wheel and general racing history such as; Kyle Larson (nascar), Christopher Bell (nascar), Bryan Clauson, Spencer

Bayton, Donny Shautz, Rico Abreu, Tyler Courtney, Jerry Coons Jr to name a few and our local heroes such as Shane van Gisbergen, Ted Tracey, Michael Pickens (who has made a huge name for himself itnernationally) and more.

We often have over the international series huge names come visit such as our own Liam Lawson (F1), Scott McLaughlin (Indy cars), Scott Dixon (Indy car).

It has been the home to open wheel Motorsport in NZ for nearly 100yrs and is recognised worldwide as one of the most famous racing tracks with many more internationals aspiring to race here one day.

It's a family friendly atmosphere where many people grew up including myself and come together to watch in awe of the sport. People are more likely to stumble across the sport with it being so accessible and well advertised in the central city which increases revenue and value in the sport.

Removing speedway from western springs will have a detrimental effect on open wheel racing. It cannot be sustained or adequately supported at waikaraka speedway as track conditions etc are different for their specific classes running there (stock cars etc). This forces Motorsport wider throughout the country which will attract less fans, less sponsorship and can potential ruin the sport all together.

For a small country we are extremely successful in open wheel racing and this should be supported by the wider Auckland community, particularly the council.

There is a stadium hardly used in Albany on the north shore already established and useable for football and rugby at a commercial scale, however this venue is completely under utilised yet extremely accessible with ample parking onsite, across the road and a local major bus station.

AK has a negative Stadium statagic and by adding an privately run Stadium to the mix will only derail the Stadium landscape. On top of this, AK needs a purpose built concert venue that can do sports, not a sporting venue that does concerts. Having a more cost effect options to Eden Park will help bring content into the country. Western Springs is a well known concert venue within the industry, keep it that way.

Western Springs speedway is a state of the art facility that brings familes together to enjoy motorsport. The Albany facility could be utilised better for football. Leave the speedway where it is.

Have been attending springs speedway since I could walk. A great place to take my kids and give them a peice of what my childhood had. The atmosphere and kindness around everyone that goes to watch the racing during the season is so awesome. When I think of western springs I think of speedway. Keep it the way it is and keep springs speedway family's home !

Speedway speedway speedway - this is what Aucklanders want!! Widen the track, build more corporate boxes, and allow more meetings per year. Speedway attracts more spectators than super rugby, what does that tell you. This place is a huge icon and with some investment by council, it could be an absolute outstanding part of Auckland. Western springs the home of speedway

Because Western Springs has been a place we have gone for generations.

I'm sick of the rich thinking they can dicate. All the family that have memories of attending speedway with parents grandparents and extended family are incredible. There are many activities in life that spreads across generations.

I think m the council should spend more time cleaning drains!!!

The fact that there is no consideration for speedway to stay or advance at this stadium after 96 years is mind blowing. This process has been a sham from day one and it needs to be started over with transparency and correct procedures.

Western Springs Speedway is part of the fabric of Auckland City culture, it is a world renowned speedway admired around the globe. Generations of kiwis have experienced speedway my family are four generations of speedway fans. This land was gifted to the council for the purposes of speedway it's not yours to give away and it's not right for it to be taken away for selfish gains. Any council or councilors that support this directive will not have mine nor my family's vote and the current Major needs his bank accounts forensically audited.

Please reconsider this and leave this sacred place alone and leave our tax payer money in our pockets.

My family and I have spent decades attending Western Springs Speedway and now we have been fortunate enough to introduce our children to the event. We love the family atmosphere, the sport and what a great night out it can be. You simply cannot get this experience at Waikaraka park where you propose to take it. There should be absolutely no reason why speedway cannot continue to run at Western Springs in conjunction with the rugby club and music and cultural events. The sold out crowds at last season should demonstrate how beloved this stadium is to speedway fans. Don’t let 90 years of history be sidelined for a vanity project or for the stadium to sit empty and unused for the majority of the year.

96 years of history and a lifelong connection to speedway through my family. From my father racing for 25yrs to my 14yr old grandson racing in the Kiwikids quarter midget class this year. It is truly the only venue and sport in New Zealand where I feel I belong. There is no viable option that would sustain open wheel speedway in this city and the sport will die, and end so many businesses that service and build the combined millions of dollars worth of equipment. Has the council or TAU ever made a conclusive study of the cost benefit to the city? Who is responsible for this research? They seem to pluck numbers from somewhere for every other event. Without liability or responsibility.

The Waikaraka Park plan is not feasible due to the capacity of only 3500 and not all the classes can fit. The venue is both unfit for purpose and less than a quarter of the capacity of a premium Western Springs speedway crowd. Why was this not considered by councillors?

I suggest keeping speedway at Western Springs, with Ponsonby Rugby, and exploring other potential community or concert/event uses for the venue. I do not understand the donation of this precious location to an 80 year old American Billionaire and a potentially short-lived sports team that is not even a year old. And a proposed basketball centre in Western Springs when it has been reported over 30K players on the North Shore are desperate for courts and facilities?

Why does Nick Hill hate speedway? Nick Hill loves sailing events costing $1.04 million taxpayer dollars for a single regatta for 25K spectators over 2 days. Nick Hill loves cricket and originally planned to gift Western Springs to NZ Cricket for a $350 million dollar home. Nick Hill obviously loves football and is happy and willing to gift our land to this consortium of businessmen and women under the guise of private funding. Suggesting no cost to ratepayers despite no parking, public transport or flood plain corrections? But Nick Hill thinks $11 million to upgrade an amateur car club to relocate open wheel racing from Western Springs speedway is an easy fix. After claiming losses at Western Springs without disclosing figures? And losses calculated from imaginery lost concert bookings?

Watching Auckland council proceedings made me sick to my stomach. The bias to anything other than Speedway was unbelievable. Even the wording to this submission process is biased. 3a?? Who is responsible for this? Please name the person and position.

I have little faith in the system after watching council. I hope that Auckland and New Zealand don't lose an iconic world class venue for open wheel speedway.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I don't have a direct connection, but I am interested in how the space is used

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Speedway belongs there. Since the lease is up, options 3A is a real shifty way of making people think it will keep the speedway there but some of us aren't uninformed

Keep western springs speedway dirt track racing alive! It has been there for 96 years and is beloved by many. Look at the turn out for the last event, huge numbers and support. I have been attending speedway since I was a baby and am 24 now.

My family and I have been attending speedway for years, this has been something that my family have been involved with for years. I want my children to be able to bring their children to experience the atmosphere. Families and supporters have been involved with speedway for years. Speedway needs to stay where it is.

I have chosen the option 3b because I realise that to ensure the space can be enjoyed by the greater auckland speedway community and also financially viable to maintain, we must adapt the space so it can be multiuse. Having worked at Ellerslie Racecourse many years ago, I have a first hand understanding of a regular live venue pressure when surrounded by residential housing and the challenges that creates for the stadium. Also the need to diversify the space for more than just the sporting event to ensure income can meet the maintainence required. But the reality is that when you buy a property next to a stadium, when you live in ear shot of a sporting venue you

must understand that it comes with noise. Just like a school comes with noise, or moving next to train tracks.

The speedway venue is premiere. There is no other space currently suitable for the events being run like at western springs. The space could be better used out of season. Auckland requires a venue like western springs and speedway. It also needs to offer more during off season and outside of speedway events to be enjoyed.

Western Springs Speedway and Rugby club need to stay, they are important to the people of Auckland and part of our heritage. We have enough football/rugby stadiums. Can't put two different kinds of motorsport in one stadium they are totally different. Keep Western Springs Speedway and Ponsonby Rugby.

Speedway is apart of me, my family and my heritage. It is apart of my culture. My parents raced here, I've attended races here helped out here and been to concerts here. I want to keep it that way. We've already lost Pukekohe Raceway and all the culture and history that comes with it. Don't take away Western Springs. This is an institution and needs to be protected and treated as such. Motorsports have been discriminated against for the longest time, we are people and

families and communities too. Don’t wreck Auckland further by taking away something that so many people love.

Western Springs future should include Speedway. Speedway at Western Springs has been a key part of motor racing in New Zealand, and is a world class venue for racing with international superstars supporting this claim. To remove Speedway from Western Springs would likely cause significant damages to New Zealands motor racing.

As a lifelong attendee and supporter of Western Springs speedway I strongly oppose the way the sport is being treated by Auckland council. This has been the home of speedway in Auckland since 1929.

I do believe that speedway has outgrown Western Springs stadium but speedway deserves the respect of a planned and managed move. The way it is being managed is likely to be the death of open wheel speedway in Auckland.

With speedway coming to its 100 years at this wonderful amphitheater would it not make sense to plan a move to a facility that is suitable for open wheel speedway and let the sport see its 100 years out at Western Springs.

I do not see that Waikaraka park being a good option for open wheel speedway to move to.

I am informed that the Stockcar club does not want open wheel speedway at their venue as track surface and safety fencing requirements are different for the two formats.

Open wheel speedway also draws huge crowds that would never fit in to Waikaraka park.

I believe that open wheel speedway has been misrepresented and false information and numbers have been used to convince councilors to come to vote against speedway remaining at Western Springs.

It would be the right thing to do for speedway to remain at Western Springs with a planned and managed shift of venues in the future.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

i support the return of speedway to western springs. your option 3A is confusing as many speedway supporters may think they are voting for speedway by ticking that option not realising speedway dont have a arrangement currently. i think you have left yourself open to legal challenges on this feedback authentisity, you will probably be challenged on wether that was intentional or not.

We need to keep Western Springs as it is has been used for Speedway and concerts. It is a heritage venue. I've know friends and family who have raced there since 1970.

Why change it for the sake of another stadium which an investor wants to destroy the natural amphitheatre and when we already have other great stadiums for sport etc.

I see this as a no-brainer. NZ is a small country but there is no reason why we cannot hold international sporting events in Auckland. It is appealing that there would be indoor and outdoor sporting fields and facilities. It would be great to have space for commercial activity.

But what is more attractive is that the private sector would invest in the statium thereby reducing public funding.

The current grounds and area is a bit run down and needs some revamping to attract more people.

Keep things as they are with Ponsonby Rugby club plus the historic and ever popular Speedway. plus look to add the entertainment bowl with outdoor concerts, which should be set to cover the majority of costs, to run between the other two users as mentioned above.

This way with "user pays" activated these should be set so as to cover current costs plus future developement costs.

look, the fact is, the rates are going up and up and up. None of us can afford ANYTHING that adds obligations on rates. If private capital can be raised (without ending up being bought out by Chinese government controlled money!! yes, think about this - we need to avoid selling off our country), then I think Option 1 looks the best. I am all for the local community and the Ponsonby Rugby Club etc., the history of our national culture should not be treated lightly, but this is our reality. The Council has been incredibly unprofessional in its past management, plus poor urban planning for housing and transportation has left Auckland in deep trouble financially. Auckland is ALREADY overloaded, and quite frankly I would prefer no more people coming into or going out of

Auckland. We need to put the brakes on - not encourage more congestion. But I am quite sure that the do-nothing option will not achieve this anyway. So it would seem that going for an option that doesn't spend Council funds must be preferred. All I would suggest is: MAKE SURE THAT WHOEVER GETS THE CONTRACT _ THAT THE CONTRACT HAS TO INCLUDE A SUBSTANTIAL PARKING BUILDING - no, damned just having people hunt for parking around all local streets and causing grief for the local communities.

Motorsport is a marginalized activity with little to no support form the government like other national sports. Western Springs is highly regarded around the world for its racetrack and has a great history of concerts. Doesn't need to change, build new venues in new areas of Auckland

Western Springs has nothing wrong with it - it works extremely well as it is. Auckland doesn't need further entertainment venues was the argument made for no new stadium on the viaduct, so that should also be applied here.

As the city has grown and evolved, so should the designation and use of its public facilities. Western Springs is a natural amphitheater and lends itself to being a world class entertainment venue, especially if aligned with improved transport options.

There is also ample space for ongoing community use for a variety of sports, over and above the current domination of facilities by the Ponsonby Rugby club. I would suggest that they would be welcome to stay as long as they pay their share of the redevelopment of sports facilities. In other words, they're not entitled to a "free ride".

We are big Speedway fans and are so upset that it has ended its long history at Western Springs. We will not be going to Waikaraka Park as we feel there is not much parking around the area and it's not the same as Western Springs. Please let the Speedway come back to its home, it means so much to everyone who has anything to do with it, so much history gone, such a shame.

I believe in the best interests of the Community this is a better option then allowing Private Ownership for the next Hundred Years,ridiculous concept .

The whole of Aucland would be far better served by Option 2 then to allow Private Ownership ,it would also not be in the community interests to use the Auckland Football Club as a reason for going down this road for option 1 as all the other Sports Clubs in Auckland are using Community Sports fields an not Exclusive.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

It should stay as western springs speedway.

It is a world reknown track that attracts drivers from all over the world. It should be classed at a heritage site with 96 years of history.

Western springs speedway could thrive tremendously given a chance by the council. More meets, less restrictions will make it cheaper making it more financially feasible for people to attend more often with a family.

It is also an amazing concert venue and has hosted many large scale concerts that cannot fit inside smaller stadiums.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Western springs is a unique naturally occurring amphitheatre. It feels authentic, familiar and unique as an outdoor venue, taking advantage of its natural attributes and offering something different to just another sports stadium with indoor seating. Many of us are gutted to lose speedway, but the concept of a Western Springs Bowl has a real improvement value while also retaining at least some of the original character of this place. To the best of my knowledge we don't have anything quite like this in Auckland and it would be great to diversify our venue offerings. Mt Eden is too limited/restricted to be used to its full potential, Mt Smart is difficult to access because it is so far out of the city, North Harbour only really hosts sports has been

declining for some time, Spark is all indoors and too small for a city the size of Auckland to host major events, Trusts stadium isn't huge either and offers an entirely different venue. A Hollywood bowl style venue would bring something new and flexible to our venue line up and right close to the city with good connectivity too.

Keep Western Springs for Speedway, rugby, other sports and concerts. Yes it needs funding. What else doesn't? Unless you can tv rights, every sport needs funding. Parks need maintenance. Speedway has been stymied by the number of events. This all started because a new resident moved in and didn't like the noise. Do your due diligence- venues make noise. Lions make noise. Even our local horse event venue in the middle of a rural area, there are complaints about the venue noise. Please don't live there if this offends you. Eden Park too needs to be able to operate so it isn't asking for millions of dollars in maintenance top up from Council

It is about time we moved forward with some private funding for the larger projects that we as Aucklanders can not afford to fund all the projects the private proposal will get a great new venue for all to use and save us Aucklanders a lot of money to go into something else we really need or just a bit of savings to relieve cost to the public

Develop a cricket ground here which can be the home of cricket in Auckland, essentially a bigger version (more capacity) of Hagley Oval in Christchurch or Bay Oval in Mount Maunganui. That way we can see more international cricket (especially tests) in Auckland as Eden Park is woefully unfit for purpose.

i like option 2 but i think some private business should be added like a bar & a restaurant & a night club.

i see maintaining the 50,000 Concert capacity as key to attracting international high value concerts. i like the idea of the sports club and gym which can bring in income along with the Bar & Restaurant & night club attached to the bar. parking is very important to service the smaller functions and provide trailer room for concert talent with an ability to park in several hundred

cars during big concerts. Concert parking should be arranged with places like pt chev supermarket & KFC & Unitech utilising shuttle busses.(concert parking for a small fee with a shuttle buss).

i strongly believe Auckland Council should be getting a profit share from big concerts to go into the fund for site maintenance.

a small fee of 2 to 4 dollars added to each Concert ticket could cover this.

$300,000.00 income for maintenance from every big concert would be fantastic and low cost per ticket/per person. used together with income off the private business yearly rental/lease.

Seems to be the smartest use of the space, but I cant see it going through lightly. Noise was an existing complaint and even the council was harsh on speedway for this. How can this be any different with a new owner? Lease seems excessive also at 100 years, I would prefer 50+10+10

I emphatically would like the Speedway returned to Western Springs. It is part of Auckland's history and a unique opportunity to participate in a sport that is part of New Zealand's long standing culture and has been a big part of the 'number 8 wire' mentality. It would be short sighted to remove the speedway and put in something else.

As a rate payer, and one who is getting more and more disgruntled with how my rates are being spent/wasted, I would be scathing of Auckland Council's decision to follow option 1 or 2.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I don't have a direct connection, but I am interested in how the space is used

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I agree with the proposal that keeps the stadium in public hands and open to all to use.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I don't have a direct connection, but I am interested in how the space is used

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I don't consider that further investment in sporting or entertainment venues is a rational use of council resources, nor would it bring anything new or useful to the city, just more of the same.

I suggest the land be used for allotments on fixed-term rentals so that city-dwelling ratepayers may grow their own produce. At a basic level this could be self-funding. Further investment might include an education centre, seedbank and arboretum. The terraces behind might be used for orchards or a vineyard with produce donated or sold to the public. Such a programme would encourage self-reliance and a green-friendly resource within the city space, and since no major

structural work newed be undertaken it would be relatively easy to adapt for future requirements rather than being lumbered with yet another costly white elephant.

Speedway needs to stay there. I do not agree with the underhanded actions of the council. I do not agree with an Auckland facility being controlled by "A" option.. and "B" option should be expanded to include Speedway.

Support the longterm return of Speedway, with increased funding from both council and corporate sponsors.

Increased investment in the stadium that supports speedway into the future, but also enables wider use for concerts and other events throughout the year. Maximising what is a unique venue.

The council also absolutely needs to stop bending over to the wishes of local residents. This and other venues have been in existence significantly longer than ANY of this locals. You move into a house on a main road, you can expect traffic. The same applies here.

The springs has 96 years history.able for speedway concerts and sport.not waikaraka park.no amont of money will change it. A corrupt mayor and council being brought by dodgy former sportsman and billionaire girlfriend. Council should look at their own property concent. Before trying to destroy 96 yrs of Auckland history..why is council not investing 300million into waikaraka park.No because it's a poor venue. Keep western springs speedway!!!.I'm not voting for Wayne brown!

First point - ownership lies with the ratepayers not Auckland Council or a CCO.

My reasons for my option preference are as follows:

1. There is a long established, and historic, use for this area including for sports, concerts and speedway. This should be acknowledged and celebrated.

2. Most, probably all, residential properties in close proximity are owned by parties that purchased them with full knowledge of the activities that are held at this venue. They should have

no right to campaign for its closure and thereby gain significant capital gain on their properties - they have a clear conflict of interest

3. Auckland City is effectively bankrupt and should be prioritising expenditure on essential services, including infrastructure and not building monuments or nice to haves

4. Contrary to what appears to be councils, and it's CCO's, thinking ratepayers, like many New Zealanders, are doing it tuff. Our pockets are not infinite.

In closing history shows that the chances of Council listening to feedback and doing anything other than what "they" want are slim. One can but hope this time it will be different

Speedway is iconic with a history to Auckland that should be registered as historical. The stadium can be rejiged with small investment to still cater to a stadium to hold concerts the seating is in place and or could be extended, a pre/fabricated stadium could be built for large concerts. This would save coucil millions in construction and maintance and the rugby club could still be upgraded and I do not belive that will cost the indicated amount. I run construction projects all over Auckland so not just pulling this idea out of thin air with thought on construction or cost behind it. Happy to help and assist provide alternatives.

The people behind option One have the resources and capabitlty of funding and completing the project, the costs of which will escalate beyond what is proposed at this stage, without requiring last minute funding by either Auckland Council or Govt. This is a great opportunity to get first class facilities funded and delivered by private enterprise for everyone without putting the burden, unfairly, back onto ratepayers. I have grave doubts about the ability for people behind option 2 to deliver what they are promoting without heavy financial backing from the ratepayers and this is not the type of project that should be dependent on being financed by, and therefore a

burden on ratepayers. Residents of Auckland and visitors should be paying for their use of the facilities and events, as a user of the facilities I will be paying the same as everyone else which I expect to do, I should not be paying as a ratepayer as well. Choosing Option 3 A or B would be a rather typical and disastrous do nothing action that local and national govt in NZ seem to be inclined to do with a lack of vision. Go for option one and get on with it.

I think that option is best because the amount of memories I have made with it being a speedway are memories I'll never forget. This option gives me hope that one day there will be a chance of the Speedway coming back.

Western springs is an iconic venue with an extensive history of speedway, concerts & events. Apart from some upgrade to the stands and facilities there is no sensible reason to change its use.

Auckland needs a multivendor stadium. By building the stadium, it will show that as a community we can do something to the benefit of the community and put aside our Personal situation.

I don't want the speedway moved as the Waikaraka grounds are not fit for purpose in my opinion. I believe it will cost more like 100 million to get it up to decent specs.

There are plenty of other venues round Auckland for sports and concerts but no other suitable speedway place.

Sometimes assets just have to be provided for the people. It's the councils job to make it work, even if on a personal level you disagree with the user activity. There are thousands of residents

who love the speedway right where it is. We all pay rates. I'd like mine to go towards this facility as a racing venue well into the future.

I've grown up with the speedway there and I love it. I feel council have been slowly strangling speedway by limiting the meets more and more each year. If you allowed a fair crack of meet nights it would turn a profit.

I'd also passionately HATE to see the concrete seating removed. It's a magical concert venue as it is! A natural amphitheater. I've spent my life going to concerts there! David Bowie, U2, Pink Floyd, Genesis, the Rolling Stones!!! We have enough glossy new stadiums around Akl for large concerts and soccer games. Please don't destroy the heritage and magic of the springs.

But above all I desperately don't want the speedway to move. The Waikaraka site is trash. It's a freezing wind tunnel with sub standard seating so you can't see the racing and there's no where to park. It'll cost much more than 11 million to revamp it and you know it. So enough with the bluster of $11 million. It won't scratch the surface of what is needed at Waikaraka. Speedway at Western Springs means so much to so many people in Akl. You should check it out and see how many old timers and kids and disabled peoples are there every time.

I've never written in about any place before, but to move the racing from the springs really would break my heart a little.

Please reconsider!!!!!

I also feel like this form is difficult to pick which best suits retaining the racing at the springs. I hope that's a genuine oversight?

3A is misleading as the current arrangements are closure so of course I chose 3B. Speedway at Western Springs is iconic because it is within easy CBD travel for tourists to visit a Speedway event after visiting a performance at TAPAC, visit the Zoo, visit MOTAT, all within a few kilometres of each other. Also these Speedway events bring quality, safe and exciting motorsport to a unique Central City destination which will otherwise become very boreing without it. Not everyone is obsessed with cultural activities & the arts. I am obsessed with the arts and theatre but i absolutley love the rev and roar of engines and competition at Speedway too. I'm not just a one level type of attraction person. ********** going down the motorway South to Meremere Dragway,

or uncomfortable Hampton Downs. I can get my buzz at Western Springs Speedway within a 35 min drive from Muriwai and be home again in 35mins after a Summer night out watching the glorious Sun set on a balmy Summer evening at Western Springs Speedway with my best mates, some hot chips, squabs to sit on and getting to mingle closely with a big crowd of safe people. Bring it back. Think deeply about the broader attractions to the city.

I don't believe building another stadium so close to Eden Park makes sense at all. If another stadium is built it should be on waterfront. This space should offer a diversified use to our existing public arts and sporting spaces while being lowest impact to site. No mega builds in this space.

Speedway should stay at western springs. As Kiwis we aways say we have no historical places like Europe well that because we destroy them all, 96 years is historical and should be protected and encourage to continue how cool is it that one of the oldest speedways in the world is in our amazing country and looks so cool when you show overseas people pictures of western springs they are always impressed and just wish they had places like that.

Auckland Council needs to focus on rates REDUCTIONS rather than the current mentality which doesn't take into account the appalling impact that out of control spending is having on the financial well being of long suffering residents. Therefore the council needs to focus on maximum return for this site with no ratepayer funding required.

Auckland is in need of a dedicated, high-quality music venue and a suitable location for festivals. As the city continues to grow and diversify, the lack of such spaces limits both cultural expression and community engagement.

At the same time, Auckland's vast and spread-out geography calls for a more equitable distribution of sporting facilities. Rather than concentrating investment in centralised locations, we should consider utilising and upgrading smaller sporting venues across the region. This approach not only makes better use of existing infrastructure but ensures fairer access for all residents.

In particular, the northern Rodney area stands out as being significantly underserved. The current state of sports facilities there is inadequate, forcing local residents—especially young people—to either miss out on opportunities or incur additional travel costs to participate in activities elsewhere.

By investing in a wider network of well-equipped, community-level venues across Auckland, we can create a more inclusive city—one where everyone, regardless of where they live, has the opportunity to engage in sport, music, and cultural events close to home.

Western Springs has a rich history as a speedway venue with local and international competitors praising the quality of the track, the atmosphere and the great racing that creates that draws in big crowds. Many Auckland families have fond memories of spending their Saturday evenings experiencing great entertainment together. It has been difficult for money to be invested in the facilities by speedway promoters when there has been so much uncertainty over the future. Keeping the status quo enables the existing users to continue to cohabitate and utilise the facilities for speedway and concerts during summer and rugby and field codes during winter. With future certainty more investment could be made in the facilities.

I dont believe that it is in the interest of all Aucklanders for billionaire investors to come in and flash their money around promising to build facilities to cater for a code that has muliple existing facilities suitable for ball sports eg. Eden Park, Mount Smart, especially North Harbour Stadium that could utilise the investment in the facilities and cater to their needs. North Harbour was the home of the Knights/ Phoenix before they collapsed/ moved from AK, with the fickle spectator crowd that support ball sports this fate could befall the new operation if they have continued poor results and the investors are not getting returns.

Motorsport is enjoyed by many families and the limited number of facilities catering to the sport in Auckland means that those that remain need to be preserved. Waikaraka Park caters for a large number of competititors also so combining the fields in one facility leads to an overcrowding of the facilities there. These facilities are also suffering from significant underinvestment and the current allocation of funds by council does little to improve the situation. There is certainly enough competitor numbers to warrant two tracks and the style of racing between venues is different with contact based clases at Waikaraka.

Continuing to support the current users of Western Springs is of greater community benefit by supporting grassroots sportsmen and women, than by enabling a group of billionaire investors to further line their pockets at others expense, there is no doubt that there are conditions imposed on the council and ratepayers when such large sums are being invested by outside sources.

It appears that the decision has already been decided long ago when the high profile billionaires started throwing their weight around that the council would hold its hand out and that has been largely born out by the decision making process so far. I doubt my submission and the others opposing the grand plan will make much headway when the fanatical soccer faithful barrage the submission process but that will be a shame as it will belittle the history and the place Western Springs has held as the home of Speedway, concerts and grassroots rugby in Auckland and the joy that has brought to many families over many generations.

This location has been public space since before 1922 with lot of heritage and cultural significance. To give it away for a private company to have exclusive control is abhorrent, why should they be allowed to steal public space for their financial gain. Please do not allow them to develop it as "Auckland Arena".

Option 1 adds tremendous scope and potential to the facility. The Group proposing Option 1 has the financial resources and experience to pull off such a project and all with out the Council/ratepayers carrying any risk. The scale of the proposal is ambitious (more so than Option 2) and is something that Auckland needs for the future.

Western Springs is home of speedway and should continue to be their home, it is disgusting the way the council has pushed speedway out of their home. We do not need another sports stadium, Auckland FC should be putting that money into either Mt Smart stadium or North Harbour Stadium or work with rugby and rugby league to build a downtown stadium and finally get rid of Eden Park, again its outrageous the council voted to keep Eden Park and questions must be asked about the councilors taking free hospitality from Eden Park.

I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

There are three options to consider

Which option do you prefer? Select one option only.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Because this will be a world class asset for the community. We are desperate for basketball courts and high performance training facilities. Football is the fast growing sport in this country. Auckland FC give the city Mana and joy to people. The stadium is at no cost to rate payers. How often dies that happen!! Never. We have to take this opportunity with both hands and go for it. Warriors and Auckland FC both sold out this weekend. Auckland has been crying out for sport like this. People love it. the springs at present is run down and hardly used. We need to look to the future as a vibrant city not the past.

Auckland needs more and better concerts. It doesn't need more sports facilities or it needs larger ones but not this option. I don't want Western Springs in the hands of private developers.

Between my wife's family and myself we can account for the whole 96 years of racing. Solo riders from my wife's family at the beginning and 20 years myself as a sprinter competitor and spectator for years. Go every Saturday night. The speedway is known around the world and has produced many famous drivers ie Shane Van Gisburgan.

We also have had famous drivers come and race and entertain us. One of the most famous was A J Foyt a legend around the world and Kyle Larsen Nascar champion. Give speedway a 30 year lease and more nights. When I drove it was a 23 night season. Noise hasn't been an issue for 10 Years. Speedway is a wonderful night out for the whole family and want to continue taking our grandchild and future generations.

1. Speedway should and must remain at Western Springs with an increased number of meetings.

2. Mixed use with concerts, open air markets, Pacifica

3. The move to Waikaraka Park is a sham. Maungakiekie Ward are already looking to spend the $11m on footpaths & cycleway!

4. I do not trust TAU or their figures. They are dishonest & deceitful as demonstrated during the recent process regarding Western Springs.

5. Western Springs is a public facility, it is not for sale.

Western Springs Stadium is important to me, and I know it means a lot to many Aucklanders. I'd much rather see my ratepayer money go toward keeping speedway at Western Springs than on many of the things the Council currently spends it on.

Speedway can absolutely be successful at Western Springs if it has a long-term lease and commercially viable operating conditions. It's been proven that change is possible — just like they amended the Unitary Plan to allow concerts at Eden Park, it can be done for speedway too.

I believe speedway can work alongside other uses like concerts and even rugby — it's already happened before. A multi-use stadium benefits everyone.

One of the biggest issues here is that we — the fans, the stakeholders, the people of Auckland — were never properly consulted. We should have been included from the start. The way this process has been handled has left me disappointed, and I've lost trust in the Council staff and some of the councillors involved.

Most Aucklanders I know feel the same way. We want speedway to stay at Western Springs, and we want our voices heard.

Speedway should stay at Western Springs, it is an iconic venue for speedway and it is a crime to move it to a 3rd grade venue like Waikaraka Park. This option has not been given enough consultation. Speedway and Ponsonby Rugby club are the logical choice to use the springs.

Let's be honest — Auckland Council hasn't exactly earned itself a gold star when it comes to public trust lately. The community is watching closely as decisions are made behind closed doors, and now, with this issue before the Serious Fraud Office, it's more important than ever that transparency and public interest take priority over shady deals and short-sighted agendas.

Western Springs Speedway is not just some old dirt track. It's a nationally treasured landmark with over 90 years of continuous history. You don't just tear something like that down and pretend it never mattered — at least, not without serious backlash.

Since the 1930s, Western Springs has been a cornerstone of New Zealand motorsport. Generations of families have gathered here to cheer, race, and celebrate the kind of grassroots legacy that can’t be manufactured or relocated. The venue is steeped in heritage — the kind councils love to pretend they care about when it suits their branding.

Western Springs draws not just Kiwis, but international race car drivers and fans from across the globe. These are world-class athletes and passionate supporters bringing tourism, media coverage, and money into our city — something you'd think would be welcomed, not undermined.

It’s also one of the last affordable, family-friendly sporting events left in Auckland. While tickets to most stadiums now cost a small fortune, families can still head to the Springs for a night out that’s exciting, safe, and steeped in local tradition. But sure, let’s bulldoze that for another stadium that will sit empty for most of the year. Great optics.

The reality is, once Western Springs Speedway is gone, it’s gone. You don’t just replace 90+ years of memories, community, and legacy with a plaque and a PR statement. The council should be protecting places like this — not quietly pushing them out while hoping the public doesn’t notice.

I urge the council to reconsider this course of action. Preserving Western Springs Speedway isn't just about saving a racetrack; it's about honoring our city's history and ensuring that future generations can experience the thrill and camaraderie that only such a venue can offer. Save Western Springs Speedway. Before you destroy something truly irreplaceable.

This stadium is in a great location with plenty of parking and public transport, moving the speedway to Waikaraka has issues with parking and a out of date facilities.

We have attended WS for many years and have made many acquaintances, its a real family and friends event location.

Really hard between options 1 and 2. The spaces provided by option 1 are amazing, and significantly enhance the usefulness of the space to a wide range of possible users. I like option 2 in that it keeps the natural amphitheater and it is kind of sad thinking that this would change. And having a permanent concert space is a great idea.

However in terms of providing the most benefit for the widest range of individuals and groups, option 1 is preferred.

Auckland Arena has some serious operators behind it and as a football fan I can see the need for a smaller size stadium rather than playing in a much larger arena.

Can there be a way of keeping the rugby club at the venue and sharing the main field given that the sports paly at different times of the year?

One of my concerns with Auckland Arena is the potential to lose the relaxed and parkland vibe that the location currently has. Hopefully this can be maintained if Option 1 goes ahead.

Finally a scheme that doesn't attract further ratepayer funding is an attractive one.

This is an iconic venue that has been part of my history growing up going to the speedway from the l70's and attending concerts from the 80's onwards. It's is a huge part of the community history. It should be left for people like myself to experience with our up and coming generations of family. Place should be heritage listed as an iconic landmark. It's not like there aren't already alternate places to be used for proposed usage.

There are three options to consider

As aforementioned this place holds iconic memories for myself and thousands of other. Who should be able to share these with generations of family members to come. Surely the federal government can help cover costs of maintenance. And perhaps start promoting more entertainment options to help it self fund.

Speedway has been a Staple for years and a big part of alot of peoples lives and livelihoods. This should out weigh any suggestion that gets brought up. The springs are a historical site. Why should we give this away to a sport that has only just starting to gain traction. For all my 45 years western Springs has always been known as speedway and home of Ponsonby rugby. People have known this site as for what it is. Don't move into an area that you know this is here then try and change it because you don't like the noise.

I like many other people here and overseas believe Speedway should be retained at Western Springs. Although not a competitor I have been a life-long fan and supporter, having attended race meetings regularly since the early 1960s. If the outer fields were developed, I believe Speedway could be retained and form part of a multi-use situation such as concerts, rugby, football etc. Western Springs is an iconic speedway venue recognised globally. It is an important part of the fabric of Auckland and should be promoted and treasured as such.

Retain this as speedway however it should be allowed to run the way it use to back in the day. The noise restrictions and curfews had a negative impact on the operation and therefore success of speedway. The speedway was already there when the surrounding residents bought into the area.

Retain this as speedway however it should be allowed to run the way it use to back in the day. The noise restrictions and curfews had a negative impact on the operation and therefore the success of speedway in the past. Speedway was already there when the surrounding residents bought into the area. Options 1 and 2 will be noiser and more disruptive to surrounding residents when compared with speedway. There is also not enough car parking or public transport in the vicinity of the stadium for options 1 or 2 to work and the road network will become conjested.

Future use of this facility needs to be community focused and be available for community uses and people of all socio-economic status, not just those who can afford it. It needs to be busy during daytimes and on daily basis, not locked up sitting empty between expensive events.

I have enjoyed going to events at Western Springs for about 60 years. Initially the speedway but mostly to see major music acts. I firmly believe it is the best outdoor music venue in Auckland, probably in NZ and possibly one of the best in the world. Out of necessity I've been to shows at Mt Smart which suffers by comparison. Sports stadia do not make good music venues largely due to the poor acoustics of the grandstands. The natural amphitheater of the Springs offers Auckland a unique opportunity with Option 2 to future proof and secure a great venue for Auckland, a UNESCO City of Music! It will also preserve use for other activities including Ponsonby RC.

Western springs is an iconic location and

destination for both Auckland and NZ.

It is a disgrace how the matter has been handled by Auck council with little or no consultation with stakeholders and misinformation supplied to councilors on which they based their decisions.

It is possible for Speedway to Co exist with rugby and concerts as has been done in the past. Speedway can continue to be successful with a long term lease and viable operating conditions. Auck Council has unfairly made it difficult for the operation of speedway over a number of years.

This iconic location is well known the world over and it's closure to Speedway will have a negative impact on the existence of the sport in NZ.

To consider giving the venue over to the development of a soccer hub is lunacy. Auckland FC already has use of two stadiums. It is a franchise that does not yet have a proven track record and who knows if it will even be around in say 10 years after it's honeymoon period is over and crowd numbers dwindle.

It is possible to change the W/Springs unitary plan for Speedway as done for concerts.

Speedway has been sidelined and is an important part of thousands of auckland ratepayers lives and has been for 100 years. The Saturdaynight should be kept as should the track. There is no other suitable place for them to go in Auckland. The residents have all bought in since speedway speedway was there so they should be happy for it to continue. The process that has been followed is unfair and unjust. The alternatives do not have the history or following of the average Auckland families and participants

I don't like the foreign ownership or the length of lease on option 1.

Option 3, knowing the way council works (forgive me), would probably mean more costs in the future when they take another run at changing the function of the space. In the mean they would the venue be run down to facilitate a private take over. Gosh I sound cynical.

Option 2 Western Springs has the best natural amphitheatre for music. I have going to concerts at WSprings all my life. It makes sense cost wise to have a dedicated permanent music stage and venue to support music and the arts, the Pacific Festivals and other cultural events. I dislike going to sports stadiums they are impersonal.

I've been to the Hollywood Bowl in LA and it's wonderful. Wouldn't it be such an amazing experience for musicians and punters alike to have an intimate dedicated space like that. I'm

hoping that Option 2 will be all Aucklander’s preferred choice-letting Western Spring and its iconic concert history, progress into the future while retaining it magical qualities .

100 years is to long to commit to a lease in this part of Auckland ruling our option 1. Option two doesn't seem to add much except a cost blow out risk. Sporting and Concerts already have a few good homes in the Auckland region. The area should continue to be utilized as it already is.

Western Springs Speedway is iconic. It is well placed transport wise. The proposed change to Waikaraka park would be expensive and impractical to use jointly with the stock cars. The speedway and Ponsonby Rugby club make good use of the facility and concerts could still take place there. This great family venue should be preserved.

Western springs speedway should remain at Western Springs. It is an ideal family entertainment venue for this activity. Ponsonby rugby club should also remain at their home ground. Western Springs ,as is, is used by alot of different groups and should remain as it was intended.

Ponsonby Rugby Club has been located at Western Springs since 1993. It is a grass roots Club with over 1,000 members predominately of Pafisika descent. At a major reunion I visited the venue and the late Lyn Colling showed me through an Indoor training facility the Club had built. Back in my time, the Club introduced a Player of the month award whereby all junior teams (2 per grade were eligible. This brought parents and grandparents to the event. I am told there are so many teams now they have to have two sittings to accommodate the number of teams. number of teams. Our family attended many concerts at the venue including Pink Floyd, Simon and Garfunkel; the venue

lends itself to such concerts. Western Springs is a hub in the inner city for Pacific festivals; it is inclusive! I am concerned that the other option would see prices for activities be prohibitive. My grandson who is a varsity student attends the AFC Auckland football games but to make it affordable bought children's tickets! The Go Media Stadium was rated highly as a venue for soccer. Money shouldn't be a major factor in the decision making!

I want to see the proposal for Open wheel speedway that was a late submission to be on the table. My reasons for this are Open wheel speedway has been operating at western springs stadium for 96 years and has worked well alongside Ponsonby rugby club and major musical events at Western Springs Stadium (many of which I have attended) it has only become an issue since the last promotions team which has handled things extremely poorly with a lack of understanding and using outrages prices, shutting out some of the classes that have been run at the speedway for many years, The lack of creating a family environment. I feel they were intent on making sure it failed. Run by a competent team that understand the culture of Open Wheel Speedway (which is very different to the contact classes run at Wakiaraka Park) this venue will flourish and live on for

many years keeping its international reputation and bringing fans and drivers from around the world.

As fans of speedway, we were never consulted properly in the initial stages of the decision making process and forced down the path we are currently on. It's ridiculous to think that a council who is supposed to act on behalf of all of its constituents can underhandedly and deliberately deceive them in such a selfish act in the way that this process has been carried out. If it's good enough to amend the Unitary Plan for Eden Park, then why not for Speedway? There's no explainable reason why Western Springs Speedway can't cohabitate with rugby, concerts, arts and festivals as it has for decades. Speedway can be and has been a viable and profitable business when allowed to operate to its full capacity and has been painted into a corner with the restrictiona appiwd by Auckalnd Council, whocich on hindsight looks to be a premeditated move to get rid of what is

thought by certain members of the council to be a thorn in their sides. Due to this entire process I have list complete faith and trust in our council and this is a feeling that I dont think will ever be repaired.

Speedway should be granted a long-term lease at Western Springs to ensure the sports rich history can continue at Western Springs. It has brought nearly a century of value to Auckland and it's people

Western spri gs speedway needs conditions that support commercial success to thrive. Currently Councils own rules do not allow for this, and would not be difficult to remedy.

The Unitary Plan for Western Springs Stadium should be amended to support speedway—just as it was adjusted at Eden Park to allow for concerts.

Speedway can coexist with other uses like concerts and rugby; there is a proven track record of this working.

Stakeholders, fans, and the wider community were not consulted before now—and we should have been.

I would prefer to see my ratepayer money invested in keeping speedway at Western Springs Stadium, rather than on many of the things the Council currently funds.

Based on how this situation has been handled, I've lost all confidence in Council staff and several councillors.

From what I hear, most Aucklanders share this view and want the same outcome that be Speedway stays at Western Springs for the next 100 years.

There are three options to consider

Which option do you prefer? Select one option only.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1 presents the most forward-thinking, sustainable, and financially responsible choice. It will deliver a world-class, multi-purpose venue that will not only enhance Auckland's sporting and entertainment landscape but also foster community engagement and economic growth. It will be a critical piece of the puzzle in the development of the Western Springs together with a much-required upgrade and redevelopment of MOTAT (to complete the work already done at the Zoo and the springs).

The proposed versatility of the Auckland Arena will ensure that the venue serves a broad audience-from professional athletes to local community groups-creating an inclusive and dynamic

space. This will have major knock-on benefits for MOTAT and the Zoo. The commercial activity incorporated within this plan, including hospitality options and a health centre, aligns with MOTAT's vision to contribute meaningfully to the city's infrastructure, tourism, and public welfare.

One of the most significant advantages of this proposal is the full private sector investment in construction and maintenance-removing the financial burden from ratepayers. A projected investment of $200-$300 million in the stadium eliminates the need for public funding and reduces costs by $18.1 million over 50 years compared to alternative leasing models.

Moreover, with ownership of the built infrastructure transferred to TAU after the lease ends, Auckland will reap long-term benefits from this development without incurring excessive costs. The 50-year lease with two rights of renewal totalling 100 years ensures that the site remains securely managed and optimized for long-term community and economic gains. This extended lease period offers stability, predictability, and a lasting partnership that will benefit generations to come.

Option 1 provides the most strategic, financially sustainable, and impactful solution. It supports community access, reduces financial strain on ratepayers, ensures high-quality infrastructure development, and enhances Auckland's reputation as a vibrant, world-class destination. By selecting Auckland Arena, the community will also be investing in the future of MOTAT - creating a legacy for the city, its residents, and visitors alike.

Unlike other options, Auckland Arena will serve both professional athletes and the local community, ensuring accessibility for grassroots sports, youth development programs, and recreational activities. Basketball courts, football fields, and padel facilities create inclusive spaces for people of all ages and backgrounds to engage in active lifestyles.

Option 1 will stimulate Auckland's economy by creating employment opportunities across multiple sectors, including construction, hospitality, event management, health services, and tourism. With commercial activity integrated into the venue, such as a health center and hospitality spaces, the economic impact extends beyond just sports and entertainment. There could be a direct positive impact also on MOT AT and the Zoo. It would be good to see the developer investing in providing a new entrance for MOTAT on Stadium Road - ensuring a direct link between the 2 venues.

Rather than focusing on a single-use venue, Option 1 delivers an integrated experience, combining professional and community sports, concerts, hospitality, and health services. This creates a versatile, adaptive, and socially enriching hub, making the space more dynamic and sustainable than either a standalone stadium or concert venue.

There are some successful multi-purpose venues that demonstrate the benefits of a project like Option 1:

1. Melbourne Park, Australia

Melbourne Park features multi-purpose sports and entertainment facilities. It has successfully integrated community access, professional sports, and commercial activity, making it a model for sustainable venue development.

2. The 02 Arena, London

The 02 Arena has transformed into one of the world's busiest entertainment venues. It hosts concerts, sporting events, exhibitions, and community activities, proving that a multi-use venue can drive economic growth and tourism.

3. Staples Center (Now Crypto.com Arena), Los Angeles

This venue is home to multiple professional sports teams, while also serving as an entertainment hub. Its ability to balance sports, entertainment, and commercial activity has made it a financially successful and culturally significant venue.

4. Eden Park, Auckland

New Zealand's largest stadium, Eden Park, has successfully hosted rugby, cricket, concerts, and community events. It demonstrates how a multi-purpose venue can serve both professional sports and local communities, making it a strong example for Auckland Arena.

5. Spark Arena, Auckland

Spark Arena is a leading entertainment venue in Auckland, hosting concerts, sporting events, and exhibitions. Its flexible design and commercial viability highlight the benefits of a multi-use space that attracts international events while serving local needs.

The speedway is a wonderful family oriented sport. We already have under-utilised stadiums in Auckland and don't need to add another one. There is only one stadium that caters to motorsport - leave it that way.

Moving to Waikaraka Park in not really feasible - there is only darkened street parking - not somewhere I would like to park late at night. And, this Waikaraka is already fully utilised by a completely different type of motorsport - it can't add whole new classes of racing in the tight summer schedule.

Leave Western Springs as a motorsport venue, please.

Extremely disappointed in the council and councillors. western springs is speedway and speedway in New Zealand is western springs in fact not only NZ western springs is known around the world and is one of the oldest speedways its historic. we as Kiwis are terrible at throwing away historic things but then always complain we have not history. in my eyes there is no reason to remove speedway from western springs and the council should be doing everything they can to protect it and keep it at western springs it historic it has history. and families of Auckland and NZ love going. speed way should be given a 999-year lease to run there as has been for the last 96 years. I

still have no idea why or how a council is even allowed to change and remove historic buildings, tracks, activities

Run Speedway. Removing this from Western Springs is causing major heart ache for so many fans where speedway is their biggest enjoyment in life. Moving it from where is has been forever is not right option.

The world is currently a crazy place and unsetting so many people who have so much enjoyment in the sport is a really sad move.

It's important to keep the speedway where it is as the track is thecorrect size and it has excellent public support. It has multi-purpose for rugby, concerts and speedway; handy to get to also.

Return speedway to Western Springs. Great family night out with opportunities to meet drivers and get involved. Purpose built track. Inadequate consultation and dubious supporting documentation for termination. Questions re ethics and timing, esp due existing use clause and permanence of use. No confidence in process. Return to previous status quo prior speedway termination.

My choice is for Western Springs Stadium to continue it's historical use as a Speedway facility, having had family involved with the Speedway for the full 90+ years (five generations)of competitors and supporters which I want preserved and enjoyed as a family for the current and future generations. Western Springs Speedway attracts competitors and spectators from all around the world due to it's special character and heritage and huge crowds contributing to the atmosphere.

Why change something that is enjoyable family entertainment, easily accessible from all of Auckland and televised all around the world.

Option 2 supports the shared-use, community-focused plan and keeps Ponsonby Rugby at Western Springs.

From a Rugby perspective this is one of the most critical community clubs in World Rugby. YES WORLD RUGBY!! The legacy of this club has been developed & improved on by being domiciled at Western Springs. By forcing Ponsonby Rugby out you are potentially crushing the viability of NZ's largest participation Rugby club. Also note that Ponsonby Rugby is one of the few Rugby clubs left in Auckland that are named after the suburb they reside in.

It is also hard to fathom why an 'on trend' professional football club can have rights to a community facility when there are strong alternatives already provided & they use. You haven't told us why they want to be located at Western Springs & what is wrong with Mt Smart or North Harbour Stadium? And if they can prove themselves, Eden Park.

Also note that if the fields are lost to Rugby (Touch in summer) there is very limited space available in Central Auckland area that Ponsonby calls home. Making this decision after one year of existence is short-sighted & lacks informed analysis & decision making.

To that end I have not seen any relevant or detailed investigation on the need for Auckland FC & I can only surmise that the main reason is financial. This is surely not enough for an informed decision for a significant community park.

I am a third generation competitor at Western Springs Speedway, and have been involved with the sport in various capacities throughout my adult life. My whole family has had exposure to the sport. Speedway is an amazing family sport, enjoyed by thousands of well behaved fans throughout the summer. Western Springs is the home of Speedway in New Zealand. Closure of this facility will kill Open Wheel Speedway in Auckland and likely New Zealand. It is not feasible to combine Open Wheel and Stockcar speedway at Waikaraka Park. The track dynamics required to bring the best out of two very different styles of racing are in direct conflict with eachother. Please don't kill our sport and nearly 100 years of history.

I work as a Motorsport medic at Western Springs as part of Speedway NZ. This venue is iconic to NZ history and its future. It is the premier speedway track in the North Island and the country. The recent media coverage goes to show that even in its current condition ost flooding it is still a popular t arena for our motorsports community. The track has been present for longer than all serving council members have been alive, and should continue to stay. Waikaraka park is not a viable alternative as even with redevelopment it’s not able to cater to the international stage that draws drivers from all over the world to compete here. Having worked for both arenas I know the

track surface will not bring the competitors and therefore not draw the crowds. Even with development there still won’t be enough accessible areas for crowds and patrons let alone proper seating areas to view the racing. Western springs is the home of speedway in New Zealand, and it should stay here as a protected track. Without this track, revenue into Auckland city will suffer, and the redevelopment of Waikaraka will be for nothing. SAVE OUR SPEEDWAY

This is surely a no brainer. There is a third party willing to build Auckland a stadium that is fit for purpose and will suit the vast majority of events. Yes soccer obviously but rugby could be played there and league plus other sports. Ponsonby rugby club shouldn't have the casting vote - club rugby is not at the centre of the community like it once was, and western springs wasn't Ponies home even when I was a kid. They can relocate and be fine. This is a once in a lifetime opportunity

to give auckland the stadium it needs and deserves all at no cost to rate payers. It's an obvious choice.

Auckland in huge need of a stadium that size and a proper football stadium. The rugby codes already have their own home stadiums Eden Park & Go Media.

Least cost to ratepayers forward thinking - i would like it to also add in a provision for concerts to be held at the venue. Basketball needs investment

Keep our speedway! Speedway at Western Springs is history, it's part of our people! It is always loved by many Aucklanders every weekend during the season. Generations of families have grown with speedway at Western Springs. It is hugely popular and throughly enjoyed...leave it be! Let us continue to love and support our fellow kiwis in their sport at our favourite place!

This is stupidly short sighted. 50k arts bowl or 15k sports stadium. Do we learn nothing from world class arts and sports cities. Stop putting a band aid over large issues and kicking the can down the road and do it right and do it properly for the long term. Waterfront stadium or somewhere on transport. Poor form as whoever came up with this is not to blame but who commissioned putting this to the public. Embarrassing and other cities will be laughing.

If auckland stadium is to be built, the seated area needs to be larger to accommodate a larger crowd to the facility to back our Auckland FC team

There is a definite need for an upgrade. Auckland council does not need another community venue to maintain or invest in. A privately funded option would be the best option for Aucklanders. Auckland FC have shown that there is a need for a more central stadium like this
